Zimbabwe: Summary of the Tax System as of March 1999

(All amounts in Zimbabwe dollars)

No	Tax	Nature of Tax	Exemptions and Deductions	Rates
1.	<u>Taxes on net income and profits</u>			
1.1.	<u>Taxes on companies, corporations, and enterprises</u> Company Income Tax (Income Tax Act, Chapter 23:06; amended by Acts 1/80, 11/80, 10/81, 55/81, 30/82, 32/83, 7/84, 24/84, 19/85, 5/88, 10/88, 22/89, 10/90, 19/90, 21/91, 17/92, 12/93, 19/94, 4/95, 17/95, 23/95, and 4/96, 10/96, 13/96, 17/97, 23/97.	Annual income tax is levied on taxable income of companies (including branches of foreign corporations) from all sources within Zimbabwe. Income from other sources is not liable to tax except for interest. Taxable income is defined as gross income (excluding accruals of a capital nature and exempt income) less allowable deductions incurred in the process of production. The assessment year runs from January to December, and tax on the past year's liability (for the tax year ending in December, based on a preliminary assessment) is payable thrice yearly in February, with two other payments close to June and November on a 50 percent, 25 percent, and 25 percent basis, respectively.	Interest on government bonds/stocks and postal savings is exempt. Deductions allowed include expenditure and losses (other than of a capital nature) to the extent to which they are incurred for the purposes of the taxpayer's trade or in the process of his production expenditure. These include repairs and maintenance as well as depreciation computed on either the straight line or reducing balance basis. A special initial allowance, equal to 25 percent per annum over 4 years, is available for farm improvements, industrial buildings, licensed hotels, and railway lines erected and used by the taxpayer for the purpose of his trade. Special allowance treatment of commercial buildings allowed for in designated growth point areas. Additional 15 percent investment allowance for new investments in designated growth point areas. Additional 15 percent training investment allowance for training buildings and new training equipment.	<u>Basic tax:</u> 37.5 percent of taxable income. <u>Other charges:</u> 8.4 percent of taxable income earned by local branches of foreign companies derived from domestic sources, or, the rate fixed by international agreement (branch profit tax). <u>Growth point areas:</u> Profits from approved new manufacturing operations in designated growth point areas are taxable at 10 percent for the first five years of operation. <u>Export Processing Zones:</u> Income tax rate of 15 percent after a tax holiday of five years. <u>Export incentives:</u> Companies which export 50 percent or more of their manufacturing are taxed at 8 percentage points below the prevailing rate of corporate tax. Also, new companies starting production as of January 1, 1999 and exporting at least 40 percent of their manufacturing output, are taxed at 10 percentage points below the prevailing corporate tax. <u>Withholding tax on contracts:</u> Starting in April 1995, firms bidding on government contracts that do not provide evidence of a valid income tax return face 10 percent withholding of the value of the contract.

No	Tax	Nature of Tax	Exemptions and Deductions	Rates																
1.2.	<u>Taxes on individuals</u> <u>Individual Income Tax</u> <u>(Income Tax Act, Chapter 23:06).</u>	Annual tax on income of individuals (either family or single taxpayers) derived from all sources within Zimbabwe. Income from other sources is not liable to tax except for interest and dividends. Taxable income is defined as gross income (excluding accruals of a capital nature and exempt income) less allowable deductions. The tax payable is determined by calculating the gross tax chargeable by applying the appropriate rate to the taxable income, and deducting from the result the credit that the individual is entitled to. The tax of employed individuals is collected in advance from their weekly or monthly wages based on PAYE (pay-as-you-earn) tax tables. Advances are credited against the tax eventually assessed. Benefits in the form of soft loans (other than for educational or medical reasons) and private use of company cars are taxable. The assessment year runs from January to December. The personal income tax is not fully global, with scheduler taxes for capital gains, domestic dividends, and t-bill interest.	Most of the deductions allowed to companies are also allowable to individuals (see 1.1); interest on government bonds is exempt. Spouses are taxed separately. Special credits of Z\$500 for handicapped persons are allowable. Tax credits include an elderly persons credit of Z\$2000, and 50 percent of medical expenses. The first Z\$3,000 of pensions, the first Z\$2,000 of bonuses (or 10 percent of annual pay, whichever is less), is tax. Exemptions from income tax for fringe benefits of persons employed in Export Processing Zones (EPZs), and no income taxation of dividends, interest, royalties, and fees earned from activities in the EPZs. The first Z\$15,000 of employer contributions to pension funds are exempt from personal income tax, as well as varying amounts of employee contributions to pensions.	<u>Basic tax</u> <table><tr><th>Taxable income (In Z dollars)</th><th>Rate (In percent)</th></tr><tr><td>Up to 24,000</td><td>--</td></tr><tr><td>24,001 to 48,000</td><td>20</td></tr><tr><td>48,001 to 72,000</td><td>25</td></tr><tr><td>72,001 to 96,000</td><td>30</td></tr><tr><td>96,001 to 150,000</td><td>35</td></tr><tr><td>150,001 to 720,000</td><td>40</td></tr><tr><td>720,000 and above</td><td>40%+25% surcharge on income tax applicable to taxable income above Z\$720,000.</td></tr></table> <p><u>Nonresident shareholders' tax:</u> 15 percent on dividends paid by listed domestic companies to nonresident shareholders. 20 percent apply in the case of unlisted companies.</p> <p><u>Nonresident tax on interest:</u> 10 percent withholding tax on interest paid to nonresidents.
