HONDURAS

(Position as of July 31, 2019)

Status under IMF Articles of Agreement

Date of membership
December 27, 1945.

Article VIII
Yes.
Date of acceptance: July 1, 1950.

Article XIV

Exchange Measures

Restrictions and/or multiple currency practices
Yes.
The IMF staff report for the 2018 Article IV Consultation with Honduras states that, as of May 15, 2018, Honduras maintained two MCPs subject to IMF approval under Article VIII, Section 3. The two MCPs arise from the absence of a mechanism to prevent the potential deviation of more than 2% at any given time among effective exchange rates for spot exchange transactions: (1) between successful bids within the foreign exchange auction; and (2) between the official exchange rate (TCR) of the day and the exchange rates at which foreign exchange is sold at the auction on that day. (Country Report No. 18/206)

Exchange measures imposed for security reasons
No.

In accordance with IMF Executive Board Decision No. 144-(52/51)
No.

Other security restrictions
No.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exchange Arrangement

Currency
Yes.
The currency of Honduras is the Honduran lempira.

Other legal tender
No.

Exchange rate structure

Unitary
Yes.

Dual

Multiple

Classification

No separate legal tender

Currency board

Conventional peg

Stabilized arrangement

Crawling peg
Yes.
The de jure exchange rate arrangement is classified as a crawling band. The exchange rate for the lempira is determined with the weighted average of the results of the last foreign exchange auction
and the last interbank foreign exchange market (MID) event. The Central Bank of Honduras (BCH) requires bids for the purchase of foreign exchange at auction to be within a band of 1% above and below the average base rate prevailing at the seven previous auctions. (Resolution No. 293-6/2019 of the BCH.) In addition, in accordance with Resolution No. 140-3/2019, which stipulates the guidelines for selecting successful bids in BCH foreign exchange auctions, only bids greater than or equal to the TCR from the previous day will be eligible for selection, and when this value exceeds the foreign exchange band ceiling, only bids submitted at the ceiling of the foreign exchange band will be eligible for selection. The base price is calculated on a weekly basis, in accordance with a procedure established by the Board of Directors of the BCH for that purpose, which includes the following variables: (1) the differential between the domestic and external inflation rate; the external inflation rate is defined as the weighted average estimated inflation rates of Honduras’s key trading partners; and domestic inflation will be measured with the consumer price index (CPI). The inflation differential will be determined by comparing the year-on-year change in the CPI recorded during the past month with external inflation weighted to reflect the external trade structure, to be subject to periodic review; (2) the nominal effective exchange rate index, that is, changes in the exchange rate of the key trading partners against the US dollar; and (3) international reserve coverage, number of months of imports covered by the official reserve assets of the BCH. The BCH publishes the results of the foreign exchange trading carried out in the foreign exchange auction and on the MID on a daily basis at its website.

Crawl-like arrangement
Pegged exchange rate within horizontal bands
Other managed arrangement
Floating
Free floating

Official exchange rate

The official or reference exchange rate is the TCR, which is defined as the weighted average of the prices from the last foreign exchange auction event and from the MID registered in the Electronic Foreign Exchange Trading System (SENDI). The TCR is used for foreign exchange transactions.

Monetary policy framework

Exchange rate anchor

Yes.

U.S. dollar

Yes. The monetary policy framework is primarily an exchange rate anchor vis-à-vis the US dollar. The BCH uses an internationally accepted indicator to determine its adequate minimum reserve targets as part of its wider monetary programming framework.

Exchange tax  No.

Exchange subsidy  No.

Foreign exchange market  Yes.  Foreign exchange buying and selling operations carried out by
foreign exchange dealers authorized by the BCH and by public sector institutions are conducted at the TCR. Commissions for buying and selling are set by the BCH board of directors.

ADs may determine the foreign exchange commission within the limits stipulated in Resolution No. 293-6/2019, supplementary to the Regulations on the Trading of Foreign Currency in the Organized Market, Numeral 7.2: foreign exchange dealers (1) may collect a foreign exchange commission from their private sector clients for the sale of foreign exchange, which may not exceed 0.7%; (2) may collect a foreign exchange commission of 0.3% for foreign exchange sold on the Interbank Foreign Exchange Market (MID); (3) may not collect a commission for the purchase of foreign exchange from their private sector clients.

Any individual or legal entity that is not a foreign exchange dealer may hold foreign exchange assets but may sell them only to the BCH or ADs. The BCH and ADs must buy foreign exchange at the TCR. Effective July 1, 2019, pursuant to Resolution No. 293-6/2019 of June 20, 2019, Paragraph 1, Numerals 1.2 and 1.3, exchange agents that purchase foreign exchange from their private sector customers must transfer 60% of it to the BCH (previously 70%) no later than the business day following their purchase, and that 40% of the foreign currency purchased and not transferred to the BCH by foreign exchange agents must be used for (1) payment of their own expenses; (2) sales to private sector clients for smaller amounts to one hundred forty thousand dollars from the United States (US$1,40,000.00); and (3) for sale in the MID. Previously, effective April 1, 2019, pursuant to Resolution No. 139-3/2019 of March 21, 2019, Paragraph 1, Numerals 1.2 and 1.3, exchange agents that purchase foreign exchange from their private sector customers must transfer 70% of it to the BCH (previously 80%) no later than the business day following their purchase, and that 30% of the foreign currency purchased and not transferred to the BCH by foreign exchange agents must be used for (1) payment of their own expenses; (2) sales to private sector clients for smaller amounts to ninety thousand dollars from the United States (US$90,000.00); and (3) for sale in the MID. Previously, effective February 19, 2018, pursuant to Resolution No. 20-1/2018 of January 24, 2018, Paragraph 1, Numeral 1.2, exchange agents that purchase foreign exchange from their private sector customers must transfer 80% of it (previously 90%) to the BCH no later than the business day following their purchase, and that 20% of the foreign currency purchased and not transferred to the BCH by foreign exchange agents must be used by the following business day for (1) payment of their own expenses and (2) sale on the interbank market. However, exchange bureaus must transfer 100% of their purchases to the BCH. According to Paragraph 5, Numeral 5.1, they may also use foreign exchange earnings for non-exchange activities and for banking sector capital and financial transactions.

The BCH buys these currencies at the TCR on the date of purchase by the dealers plus a commission set by the BCH, which is currently 0.3%. The only institutions eligible to participate in electronic foreign exchange trading are banks in the financial system (15), savings and loan associations (none), and exchange bureaus (2). Under the law and regulations, exchange bureaus may purchase the foreign exchange received by the private sector from any source, except what by law or resolution of the BCH board of directors must be traded in the domestic financial system. Exchange bureaus may sell foreign exchange for outward payments. To that end, they may manage deposit accounts abroad with first-class institutions. The BCH may establish maximum and minimum limits on their foreign
exchange holdings. There is also one state bank.

The sale of foreign exchange by the BCH to authorized foreign exchange dealers must be conducted via public auction through the SENDI. Daily foreign exchange auctions are held weekdays, excluding holidays. Only dealers authorized by the BCH may participate in the SENDI. Individuals and legal entities participating in foreign exchange auctions within the amounts and limits established by the BCH board of directors must do so through an authorized foreign exchange dealer. The prices of bids for the purchase of foreign exchange must be within a range of 1% above or below the average base price prevailing in the last seven (7) Auctions (Resolution No. 293-6/2019 of June 20, 2019). The amount of foreign exchange offered by the BCH at each auction must be at least 60% of the average BCH foreign exchange purchases from foreign exchange dealers during the past five business days. The minimum amount of foreign exchange to be offered and the base exchange rate price are announced in advance. The base exchange rate is calculated every five business days, in accordance with a procedure established by the Board of Directors of the BCH for that purpose, which includes the following variables: (1) the differential between the domestic and external inflation rate; the external inflation rate will be defined as the weighted average estimated inflation rates of Honduras’s key trading partners; and domestic inflation will be measured with the CPI. The inflation differential will be determined by comparing the year-on-year change in the CPI recorded during the past month with external inflation weighted to reflect the external trade structure, to be subject to periodic review; (2) the nominal effective exchange rate index, that is, changes in the exchange rates for the key trading partners against the US dollar; and (3) international reserve coverage, number of months of imports covered by the official reserve assets of the BCH. The maximum daily amounts that can be purchased in the auctions are US$3,00,000 for individuals and US$1.2 million for legal entities. Nonresidents may not participate, either directly or through authorized foreign exchange dealers, in BCH foreign exchange auctions. Foreign individuals and legal entities participating in foreign exchange auctions through an AD must present a valid residence card issued by the Ministry of Governance and Justice.

Foreign exchange dealers may charge a commission of up to 0.7% on sales to the public. Only foreign exchange dealers may participate in the auction. In practice, this includes all commercial banks and exchange bureaus. Foreign exchange is allocated at the bid price. Bids will be rejected if the price is below the minimum limit determined by the BCH. Auction notices and results are announced at the BCH website. BCH management must report noncompliance with the Regulation on the trading on the organized foreign exchange market to the National Banking and Insurance Commission (CNBS), which will impose the penalties provided under current law.

Effective July 1, 2019, pursuant to Resolution No. 293-6/2019 of June 20, 2019, Paragraph 1, Numerals 1.2 and 1.3, foreign exchange dealers that purchase foreign exchange from their private sector customers must transfer 60% of said foreign exchange to the BCH no
later than the business day following the purchase, and 40% of the foreign exchange purchased and not transferred to the BCH by the foreign exchange dealers must be used by the following business day for (1) payment of their own expenditure; (2) sales to private sector clients in amounts less than or equal to US$1,40,000; and (3) for sale on the MID. Previously, effective April 1, 2019, pursuant to Resolution No. 139-3/2019 of March 21, 2019, Paragraph 1, Numerals 1.2 and 1.3, foreign exchange dealers that purchase foreign exchange from their private sector customers were required to transfer 70% of said foreign exchange to the BCH no later than the business day following the purchase, and 30% of the foreign exchange purchased and not transferred to the BCH by the foreign exchange dealers had to be used by the following business day for (1) payment of their own expenditure; (2) sales to private sector clients of less than US$90,000; and (3) for sale on the interbank market. Previously, effective February 19, 2018, pursuant to Resolution No. 20-1/2018 of January 24, 2018, Paragraph 1, Numeral 1.2, exchange agents that purchase foreign exchange from their private sector customers must transfer 80% of it (previously 90%) to the BCH no later than the business day following their purchase, and that 20% of the foreign currency purchased and not transferred to the BCH by foreign exchange agents must be used by the following business day for (1) payment of their own expenses and (2) sale on the interbank market. However, exchange bureaus must transfer 100% of their purchases to the BCH. According to Paragraph 5, Numeral 5.1, they may also use foreign exchange earnings for non-exchange activities and for banking sector capital and financial transactions.

In 2018, 15 banks participated in the Interbank Foreign Exchange Market (MID). Fifteen exchange agents were authorized by the BCH. The MID does not operate according to a system of dealers; banks participate directly using a price for foreign exchange buying and selling bids within an exchange band of 1% above or below the average base price prevailing during the past seven auctions. The average weighted exchange rate (TCPP) of the bids registered in the MID is part of the calculations to determine the reference exchange rate (TCR), and the maximum commission collected for purchases is 0.4% of the TCR (0.1% for the BCH and 0.3% for the selling bank).

Arrangements for Payments and Receipts

Prescription of currency requirements

There are no restrictions on the use of lempiras as a means of payment for current international or capital transactions.
All payment obligations to be made in Honduras must be settled in lempiras, except payments that fall within the category of cross-border payments from or to Honduras because they relate to international transactions (Articles 3 and 4 of the Monetary Law). Remittances can be paid in US dollars (or in lempiras at the choice of those who receive the funds) if the remittances’ original contract in the source country does not specify the currency in which the funds should be paid. Payments in lempiras should be made at the BCH’s reference exchange rate (Agreement 02/2015).

The Reciprocal Clearing and Credit Agreement between Honduras and Costa Rica, El Salvador, and Guatemala was in effect until 1995. Honduras has signed the following treaties: (1) CAFTA-DR (Central America-Dominican Republic) Free Trade Agreement, (2) CACM, (3) CA-Mexico, CA3-Colombia, and CA-Panama, (4) Free Trade Agreement between the Republic of El Salvador, the Republic of Honduras, and the Taiwan Province of China, and (5) Central America-Chile. It has also signed an association agreement with the EU (CA-EU).

The CA4 Treaty with Canada, the Costa Rica, El Salvador, Honduras, and Peru; the Central America-Korea; and the EFTA treaties are currently under negotiation. Import tariff quotas in metric tons for 2014 under the free trade treaty between Central America, the Dominican Republic, and the United States were as follows: pork, 3,350; powdered milk, 443; butter, 148; cheese, 606; granza rice, 1,06,200; yellow corn, 2,54,012; white corn, 26,680; milled rice, 11,900; ice cream, 141; other dairy products, 197; and chicken (thighs, legs), 3,206. There are also import quotas in other treaties, including for such products as beef, palm oil, stockings and socks, dog and cat food, textiles and garments, sugar, and cured ham.

Individuals entering or leaving Honduras are required to declare under the anti-money-laundering law amounts exceeding US$10,000.

Import licenses and other nontariff measures
 Yes.
 Positive list
 No.
 Negative list
 No.
 Open general licenses
 No.
 Licenses with quotas
 Yes.  Tariff rate quotas in metric tons under the free trade treaty between the Central America, Dominican Republic, and the United States are as follows: pork, 3,650; powdered milk, 489; butter, 163; cheese, 668; granza rice, 1,09,800; yellow corn, 2,81,227; white corn, 28,060; milled rice, 13,175; ice cream, 163; other dairy products, 228; and chicken (thighs, legs), 8,810.
 Other nontariff measures
 No.
 Import taxes and/or tariffs
 Yes.  Tariff rates are 0% for capital goods and raw materials; 5%–10% for intermediate products; and 15% for finished goods, with some exceptions (for example, chicken meat, milk, rice, sugar, cigarettes, fertilizers, medicines). The tariff rate on goods produced in the CACM area is 0%, with the exception of the products included in Annex A (sugar and coffee). Free zones for the processing of industrial and agricultural products benefit from tariff exemptions. The tourism industry also benefits from temporary tariff exemptions. Duties on most tariff lines corresponding to industrial and consumer goods were eliminated when the CAFTA-DR agreement came into force. Duties on other goods will be phased out over periods of up to 10 years, with the exception of products negotiated under tariff rate quotas. Some agricultural goods have longer tariff elimination periods or are subject to other provisions, including, in some cases, the application of tariff rate quotas.
 Taxes collected through the exchange
 No.
State import monopoly | No.  
References to legal instruments and hyperlinks | This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.  
Exports and Export Proceeds  
Repatriation requirements | Yes.  
Article 8 of the Law on Entry of Foreign Exchange Derived from Exports states that exporters are required to repatriate all of the foreign exchange generated by their exports and must comply with the time periods set out in Article 5, which vary between 20 and 85 business days. Exports of goods originating in free trade zones or EPZs, as well as low-volume exports and exports by offshore processing enterprises, are exempt.  
Surrender requirements | Yes.  
Surrender to the central bank | Yes.  
Pursuant to the provisions of Articles 1, 8, and 10 of the Law on the Entry of Foreign Exchange derived from Exports, individuals and legal entities that export goods must declare to the BCH, before exportation for each export operation, the quality, value, and destination of the goods to be exported, as well as the probable date of exportation and the currency in which payment will be received. Under Resolution No. 406-7/94, the BCH board may allow exporters to retain up to 30% of their foreign exchange proceeds for priority purchases abroad of inputs, machinery, and parts used in production of their exports and to pay authorized external debt obligations. Effective July 1, 2019, pursuant to Resolution No. 293-6/2019 of June 20, 2019, Paragraph 1, Numerals 1.2 and 1.3, exchange agents that purchase foreign exchange from their private sector customers must transfer 60% of it (previously 70%, effective April 1, 2019; and 80% effective February 19, 2018) to the BCH no later than the business day following their purchase, and that 40% of the foreign currency purchased and not transferred to the BCH by foreign exchange agents must be used by the following business day for (1) payment of their own expenses; (2) sales to private sector clients for smaller amounts to US$1,40,000.00 from the United States (previously US$90,000, effective April 1, 2019); and (3) for sale in the MID. However, exchange bureaus must transfer 100% of their purchases to the BCH. According to Paragraph 5, Numeral 5.1, they may also use foreign exchange earnings for non-exchange activities and for banking sector capital and financial transactions.  
Surrender to authorized dealers | Yes.  
Under Article 5 of the Regulation of the Law on Foreign Exchange from Exports, deadlines ranging from 20 to 85 business days have been set for the surrender of foreign exchange, depending on the product.  
Financing requirements | No.  
Documentation requirements | Yes.  
Letters of credit | No.  
Guarantees | No.  
Domiciliation | Yes.  
Before submitting an export declaration, all exporters must have updated the form “Exporter Identification Data”; any individual or legal entity that is legally constituted may export goods.  
Preshipment inspection | No.  
Other | No.
Export licenses
No. Licenses are not required, but exports must be reported to the BCH in compliance with the Law on the Entry of Foreign Exchange, which requires repatriation of foreign exchange. To expedite authorization, the BCH participates in the Centro de Trámites de Exportación (Export Documentation Center—CENTREX). Since November 15, 2016, the BCH authorizes applicants to submit export declarations through the Electronic Foreign Trade System (SECEH).

Without quotas
No.

With quotas
No.

Export taxes
No.

Collected through the exchange system
No.

Other export taxes
No.

Payments for Invisible Transactions and Current Transfers

Controls on these transfers
Yes. There are no controls on these payments, but all buyers of foreign exchange are required to fill out a form under the anti-money-laundering law for amounts exceeding US$10,000. In addition, enterprises remitting cash to or from Honduras must register and report to the CNBS the amounts transferred. Remittances in cash to or from Honduras are limited to US$2,000 or its equivalent in other foreign currency or in lempiras.

To define the scope of the Special Anti-Money-Laundering Law, covered entities (institutions supervised by the CNBS) must generate the corresponding records and reports in the following instances: (1) cash transactions in foreign currency performed by their clients in the amount of US$4,000 or equivalent in foreign currency; (2) cash transactions in national currency by their clients in the amount of L 2,00,000; (3) non-cash transactions with their clients in the amount of L 2,00,000 or equivalent in foreign currency; (4) remittance transactions of US$2,000 in foreign currency or national currency; multiple cash transactions in legal tender or foreign currency made on behalf of a single individual or legal entity during one calendar month must be considered as a single transaction. Moreover, the maximum amount receivable from non-clients during one calendar month is US$4,000.

Trade-related payments
No.

Prior approval
No.

Quantitative limits
No.

Indicative limits/bona fide test
No.

Investment-related payments
Yes.

Prior approval
No.

Quantitative limits
Yes. Nonresidents may not participate in the BCH’s foreign exchange auctions and, effective July 1, 2019, may buy foreign exchange from ADs only up to US$1,40,000 a day (previously US$3,00,000). (Articles 13 and 18 of the Regulations on the Trading of Foreign Currency in the Organized Market states that the only foreigners who may participate in foreign exchange auctions through an AD are...
foreign residents with a residence card issued by the Ministry of Governance and Justice.)

All financing by commercial banks for nonresidents, excluding loans earmarked for investment in Honduras, requires BCH authorization.

### Guarantees, sureties, and financial backup facilities

#### By residents to nonresidents

In the Organic Budget Law, public debt policy sets the overall public debt levels and the minimum acceptable grant component of foreign loans contracted by the government. For external public debt transactions, the BCH must first issue an opinion on their impact on monetary, credit, and exchange rate policy. The Law on Strengthening Income, Social Equity and Rationalization of Government Expenditure mandates approval by the National Congress of Honduras for all public sector debt contracted abroad.

The Law for the Promotion and Protection of Investment offers real property safeguards for investors: a surety or guarantee with respect to the deed, conflict prevention mechanisms, and arrangements for recovering investments under improvement and for continuation of...
projects underway on real property in dispute. Individuals and legal
tentities seeking to invest or that have invested in real estate may
purchase sureties or guarantees to protect themselves from deed-
related risk. The surety or guarantee must be issued by national or
foreign professional legal entities in the field. Purchases of certain
land are restricted under Article 107 of the constitution. Article 107
states that ownership of land pertaining to the government,
cooperatives, communities, and private owners located within 40
kilometers of borders or both coastlines as well as islands, cays,
reefs, crags, rocky outcrops, shallows, and sand banks is restricted to
native Hondurans, corporations wholly owned by native Hondurans,
and government institutions.

The Anti-Money-Laundering Law requires financial system
institutions and remittance companies to fill out a form for foreign
currency cash transactions of US$10,000 or more. On April 1, 2017,
to define the scope of the Special Anti-Money-Laundering Law, it
was established that covered entities (institutions supervised by the
CNBS) must generate the corresponding records and reports in the
following instances: cash transactions in foreign currency performed
by their clients in the amount of US$4,000 or equivalent in foreign
currency. Moreover, the maximum amount receivable from non-cli
ents during one calendar month is US$4,000.

Resolution No. 361-9/2016 on money laundering sets US$2,000 or
its equivalent in other foreign currencies or in lempiras as the amount
above which companies remitting cash to or from Honduras must
register and report to the CNBS.

Resolution No. 361-9/2016 on money laundering sets US$2,000 or
its equivalent in other foreign currencies or in lempiras as the amount
above which companies remitting cash to or from Honduras must
register and report to the CNBS.

This information can be found at the AREAER ONLINE database:
Provisions Specific to the Financial Sector

**Provisions specific to commercial banks and other credit institutions**

Yes. The BCH board of directors determines the currencies (US dollars, yen, euros, Swiss francs, yuan, sterling, Canadian dollars) in which institutions in the domestic financial system may accept deposits from the public; the supranational institutions in which they may invest; and the minimum requirements for the first-class foreign financial instruments and institutions in which national institutions may invest their resources in foreign currency deposit accounts. The interest rate for permanent investment facilities is the monetary policy rate (TPM) minus 5.25 percentage points; the interest rate for permanent credit facilities is the TPM plus 1 percentage point (Resolution No. 333-7/2015).

**Borrowing abroad**

Yes. Article 46 of the Law on the Financial System stipulates that financial institutions may contract loans and obligations with institutions in financial systems abroad.

**Maintenance of accounts abroad**

Yes. The Regulation on management of foreign exchange deposit accounts stipulates that, to meet any additional reserve requirements that the BCH may establish, or to make investments with surplus resources from deposit accounts, depository institutions may open special accounts or make investments with first-tier foreign banks.

**Lending to nonresidents (financial or commercial credits)**

Yes. BCH authorization is required for lending to individuals or legal entities domiciled abroad, except in the case of loans granted to Honduran citizens for the purchase of land, construction, and the purchase or improvement of housing in Honduras.

**Lending locally in foreign exchange**

Yes. Prudential norms are applied by financial system institutions when lending in foreign currency. To that end, they classify borrowers in the following categories: generators and nongenerators of foreign exchange. Institutions authorized to grant foreign currency loans must have policies and procedures in place for evaluating the credit and liquidity risk of borrowers classified in the aforementioned categories.

**Purchase of locally issued securities denominated in foreign exchange**

Yes. The Regulation on Trading in Government Securities authorized the BCH to issue foreign-currency-denominated securities (foreign-currency-denominated paper), which may be purchased by financial system institutions.

**Differential treatment of deposit accounts in foreign exchange**

Yes. For authorized financial institutions the reserve requirement, which must be held in demand deposits in the BCH, for foreign currency and mandatory investment of all their foreign currency liabilities is 12%. Resources that financial system institutions obtain through international loans or in the form of loans or deposits from other institutions subject to the reserve requirement are exempt from this requirement. Financial system institutions may also issue foreign currency treasury bills, which are subject to the reserve requirement. Institutions in the financial system may not offset deficits in their reserve requirements, as established by the BCH board of directors. Likewise, no offsetting is allowed in case of noncompliance with the mandatory investment requirement. The foreign currency reserve requirement is composed entirely of demand deposits at the BCH and must be maintained at a minimum daily amount equivalent to 80%.

**Liquid asset requirements**

Yes. As of October 27, 2016, the additional reserve requirement for liquid investments in first-class foreign financial institutions is set at 0%. Similarly, domestic depository institutions that are Bladex shareholders may maintain investments there up to 5% of their total foreign currency investments.
<table>
<thead>
<tr>
<th>Interest rate controls</th>
<th>No.</th>
</tr>
</thead>
<tbody>
<tr>
<td>The interest rates applied by financial system institutions in their transactions are determined on the basis of prevailing market conditions. However, the BCH may regulate them if necessary. Mandatory foreign currency investments must be deposited in the BCH; the balances on these investment accounts are remunerated at the annual equivalent of the fortnightly (catorcenal) average of the one-month LIBID. In accordance with the Law on Credit Cards, credit card interest rates are established and regulated by the BCH, if there is no guarantee of free competition in the sector, on the basis of a report issued by the Commission for the Defense and Promotion of Competition.</td>

Changes during 2018 and 2019

Exchange Arrangement

Foreign exchange market

Spot exchange market 02/19/2018 Exchange agents that purchase foreign exchange from their private sector customers must transfer 80% of it (previously 90%) to the Central Bank of Honduras (BCH) no later than the business day following their purchase, and that 20% of the foreign currency
purchased and not transferred to the BCH by foreign exchange agents must be used by the following business day for (1) payment of their own expenses and (2) sale on the interbank market.

04/01/2019 Exchange agents that purchase foreign exchange from their private sector customers must transfer 70% of it to the Central Bank of Honduras (previously 100%) no later than the business day following their purchase.

07/01/2019 Exchange agents that purchase foreign exchange from their private sector customers must transfer 60% of it to the Central Bank of Honduras (BCH) (previously 70%) no later than the business day following their purchase, and that 40% (previously 30%) of the foreign currency purchased and not transferred to the BCH by foreign exchange agents must be used for (1) payment of their own expenses; (2) sales to private sector clients for smaller amounts to one hundred forty thousand US dollars (US$1,40,000.00) (previously US $90,000.00); and (3) for sale in the MID.

Operated by the central bank

Auction

07/01/2019 The prices of bids for the purchase of foreign exchange must be within a range of 1% above or below the average base price prevailing in the last seven auctions. Previously, the bid prices to purchase foreign exchange were within a band of 7% above or below the established base price, provided the bid was not greater than 1% of the average base price of the auctions held over the previous seven business days.

Interbank market

02/19/2018 Exchange agents that purchase foreign exchange from their private sector customers must transfer 80% of it (previously 90%) to the Central Bank of Honduras (BCH) no later than the business day following their purchase, and that 20% of the foreign currency purchased and not transferred to the BCH by foreign exchange agents must be used by the following business day for (1) payment of their own expenses and (2) sale on the interbank market.

04/01/2019 Exchange agents that purchase foreign exchange from their private sector customers must transfer 70% of it to the Central Bank of Honduras (BCH) (previously 80%) no later than the business day following their purchase.

07/01/2019 Exchange agents that purchase foreign exchange from their private sector customers must transfer 60% of it to the Central Bank of Honduras (BCH) (previously 70%) no later than the business day following their purchase, and that 40% (previously 30%) of the foreign currency purchased and not transferred to the BCH by foreign exchange agents must be used for (1) payment of their own expenses; (2) sales to private sector clients for smaller amounts to one hundred forty thousand US dollars (US$1,40,000.00) (previously US $90,000.00); and (3) for sale in the MID.

Exports and Export Proceeds

No separate legal tender

Currency board

Yes.

The exchange rate arrangement is a currency board. The currency board system in Hong Kong SAR, adopted October 17, 1983, requires that the monetary base be backed at least 100% by, and that changes in it be matched 100% by corresponding changes in, the reserve currency (US dollar) at a fixed exchange rate of HK$7.80 per US dollar. A symmetric convertibility zone of HK$7.75–HK$7.85—within which the Hong Kong Monetary Authority (HKMA) may choose to conduct market operations consistent with currency board principles—has been in place since May 18, 2005. The monetary base includes issued notes and coins, the balance at the HKMA of banks’ clearing accounts (that is, the aggregate balance), and outstanding Exchange Fund bills and notes. Consistent with...
currency board principles, the HKMA may issue additional Exchange Fund paper when there is an inflow of funds, and the program may expand along with the interest payments on such paper. The issuance and redemption of certificates of indebtedness, which back banknotes issued by note-issuing banks (NIBs), must be made against US dollars at a fixed exchange rate of HK$7.80 per US dollar. The issuance and withdrawal of government-issued notes and coins are settled against US dollars at the same fixed rate. The legal documents that establish the currency board include the Basic Law (Chapter V, Section 1, Articles 110 and 111); the Exchange Fund Ordinance (Chapter 66); and an exchange of letters between the Financial Secretary and the Monetary Authority specifying the monetary policy objective and the structure of the monetary system under the Exchange Fund Ordinance. The letters specify that the Financial Secretary is responsible for determining the monetary policy objective and the structure of the monetary system, including the linked exchange rate. Section 3(1) of the ordinance, as amended, specifies that the Exchange Fund “must be under the control of the Financial Secretary and must be used primarily for such purposes as the financial secretary thinks fit affecting, either directly or indirectly, the exchange value of the currency of Hong Kong SAR and for other purposes incidental thereto.” The HKMA is responsible for achieving the monetary policy objective, including determining the strategy, instruments, and operational means for doing so, and for maintaining the stability and integrity of the monetary system. The HKMA makes immediate announcements of the impact on the aggregate balance because of purchases or sales of US dollars by the currency board via various information vendors, including Reuters and Bloomberg. The information is also available on the HKMA website.

Free floating

**Official exchange rate**

The official exchange rate is set at HK$7.80 per US dollar. The issuance and redemption of certificates of indebtedness, which back banknotes issued by NIBs, must be against US dollars at the official exchange rate of HK$7.80 per US dollar. The issuance and withdrawal of government-issued notes and coins are settled against US dollars at the same rate. In accordance with the accounting principles generally accepted in Hong Kong SAR, prevailing exchange rates on the balance sheet date are used for accounting and valuation purposes.

Exchange tax No.
Exchange subsidy No.
Foreign exchange market Yes. Commercial banks are free to set their exchange rates, including bid-ask spreads, and commissions in transactions with their clients. Apart from commercial banks, money service operators (namely, remittance agents and money changers) may also conduct foreign exchange transactions with the public.
Spot exchange market Yes. Authorized institutions (AIs) are not required to obtain a separate license to conduct foreign exchange transactions with the public. They may enter into foreign exchange transactions in the interbank market on their own account or on behalf of their clients. AIs, which maintain a Hong Kong dollar clearing account within the real-time gross settlement system (RTGS), are eligible for transactions with the HKMA under the currency board arrangement. Money service operators (formerly known as remittance agents and money changers) must obtain a license from the commissioner of customs and excise. As of the end of December 2018, there were 1,496 licensed money service operators in Hong Kong SAR. Although they may not enter into foreign exchange transactions directly with the HKMA, they are subject to few restrictions.

Operated by the central bank Yes.
Foreign exchange standing facility Yes. The HKMA redeems certificates of indebtedness acquired by NIBs in compensation for banknotes on demand and at a fixed exchange rate of HK$7.80 per US dollar. The spot exchange rate has fluctuated within the convertibility zone of HK$7.75–HK$7.85 since May 18, 2005. The HKMA operates convertibility commitments on both the strong side and the weak side of the linked rate of HK$7.80. Under the strong-side convertibility commitment, the HKMA buys US dollars from licensed banks at HK$7.75; under the weak-side convertibility commitment, it sells US dollars at HK$7.85.

Allocation No.
Auction No.
Fixing No.
Interbank market Yes. There are no official limits on the bid-ask spreads or commissions of market participants. No separate licenses are required for AIs to participate in the foreign exchange market. In addition to AIs, other financial institutions operating in Hong Kong SAR or overseas may participate in the interbank market. As of December 31, 2018, there were 186 AIs in Hong Kong SAR, including 152 licensed banks, 18 restricted license banks, and 16 deposit-taking companies. The HKMA may conduct discretionary foreign exchange operations consistent with currency board principles within the convertibility zone. These are normal foreign exchange transactions consistent with the currency board principles. The HKMA makes immediate announcements of the impact on the aggregate balance because of these transactions via various information vendors, including Reuters and Bloomberg. The information is also available on the HKMA website.
The interbank foreign exchange market operates on an over-the-counter basis as well as a brokerage system. The HKMA does not designate any market makers. Prices are determined by market dynamics.

**Over the counter**
- Yes.
  - AIs enter into foreign exchange transactions in the interbank market by phone or some other electronic trading means. They deal with each other based on credit lines that these AIs extend among themselves. Such deals may be done on their own account or on behalf of their clients, such as major corporations, hedge funds, CBs, and high net worth individuals. There is no centralized system to regulate such trades.

**Brokerage**
- Yes.
  - The brokerage systems in Hong Kong operate on private sector initiatives. Deals are done via phone or electronic networks (such as Electronic Broking Services (EBS), Reuters Matching). Money brokers operating in Hong Kong must acquire approval from the HKMA. As of end-March 2019, there were 24 approved money brokers in HK.

**Market making**
- No.

**Forward exchange market**
- Yes.
  - The forward exchange markets operate on private sector initiatives, and the government has no official role. The HKMA does not intervene in the forward foreign exchange market.

**Official cover of forward operations**
- No.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.
There are no exchange controls on capital receipts or payments by residents or nonresidents. A license or authorization is required for companies, whether incorporated in Hong Kong SAR or elsewhere, to conduct banking, insurance, securities, and futures dealings. All overseas companies with a place of business in Hong Kong SAR are required to register with the Companies Registry within one month of establishing a business in Hong Kong SAR.
Market participants may apply for an excess position limit for Hang Seng Index and Hang Seng China Enterprises Index futures and options contracts. The excess limit was increased to 300%, bringing more flexibility into the existing position limit regime by enabling the Securities and Futures Commission to authorize exchange participants or their affiliates, as well as asset managers to exceed the statutory position limits for Hang Seng Index and Hang Seng China Enterprises Index futures and options contracts to meet their specific business needs as set out in the subsidiary legislation.

### Controls on direct investment

- **Outward direct investment**
  - No.

- **Inward direct investment**
  - No.

### Commercial credits

  - No.

### Financial credits

- **By residents to nonresidents**
  - No.

- **To residents from nonresidents**
  - No.

### Guarantees, sureties, and financial backup facilities

- **By residents to nonresidents**
  - No.

- **To residents from nonresidents**
  - No.

In general, there are no special legal, regulatory, or administrative guidelines governing foreign investment in Hong Kong SAR, except for very limited regulatory requirements concerning investment in broadcasting, for which the requirements are on par with international standards. The foreign control restriction regime does not impose ownership control per se but restricts persons and companies from exercising control of licensed broadcasters on the basis of residency requirement.

### Controls on liquidation of direct investment

- No.

### Controls on real estate transactions

- Yes.

### Purchase abroad by residents

- No.

### Purchase locally by nonresidents

- Yes.

Unless otherwise specified in the Stamp Duty Ordinance (Cap 117), residential properties acquired on or after October 27, 2012, by any person except a Hong Kong Permanent Resident (HKPR) acting on his or her own behalf are subject to Buyer’s Stamp Duty at a flat rate of 15%.
Unless otherwise specified in the Stamp Duty Ordinance, properties (both residential and nonresidential) acquired from February 23, 2013, to November 4, 2016, are subject to doubled ad valorem stamp duty (that is, ad valorem stamp duty at then Scale 1 and later rearranged as Part 2 of Scale 1 following the introduction of New Residential Stamp Duty of the First Schedule to the Stamp Duty Ordinance), except for those residential properties acquired by a HKPR acting on his or her own behalf and does not own any other residential property in Hong Kong at the time of acquisition. For the latter scenario, ad valorem stamp duty at Scale 2 of the First Schedule to the Stamp Duty Ordinance (that is, the original stamp duty rate before the introduction of doubled ad valorem stamp duty) will apply.

Unless otherwise specified in the Stamp Duty Ordinance, residential properties acquired on or after November 5, 2016, are subject to the New Residential Stamp Duty at a flat rate of 15%, except for those residential properties acquired by a HKPR acting on his or her own behalf and does not own any other residential property in Hong Kong at the time of acquisition. For the latter scenario, ad valorem stamp duty at Scale 2 of the First Schedule to the Stamp Duty Ordinance will continue to apply.

Non-HKPRs may continue to purchase residential properties in Hong Kong without restriction on payment of the Buyer’s Stamp Duty and the New Residential Stamp Duty.

**References to legal instruments and hyperlinks**

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Provisions Specific to the Financial Sector**

| Provisions specific to commercial banks and other credit institutions | Yes. |
| Borrowing abroad | No. |
| Maintenance of accounts abroad | Yes. |

The limits and restrictions stated below are set by the HKMA for prudential reasons only.

The HKMA may prohibit AIs from maintaining accounts (including for the purpose of granting loans and credits) with foreign banks if...
transactions conducted through these accounts are not made in the interest of the depositors of these institutions.

This restriction is only intended to be applied under an extreme situation and is not a general restriction.

Lending to nonresidents (financial or commercial credits)  
Yes.  
AIs incorporated in Hong Kong SAR may extend loans and credit facilities to a single customer group up to 25% of their Tier 1 capital. This limit also governs other financial exposures, including securities issued by the company.

This is a general large exposure limit which is not designed as a special restriction for nonresidents.

Lending locally in foreign exchange  
Yes.  
AIs incorporated in Hong Kong SAR may extend loans and other credit facilities to a single customer group (irrespective of the currency) up to 25% of their Tier 1 capital. This limit also governs other financial exposures, including securities issued by the company.

This is a general large exposure limit which is not designed as a special restriction on lending locally in foreign exchange.

Purchase of locally issued securities denominated in foreign exchange  
Yes.  
AIs incorporated in Hong Kong SAR may hold the securities of one company up to 25% of their Tier 1 capital. This limit also governs other financial exposures, including loans and other credit facilities extended to the company, irrespective of the currency.

This is a general large exposure limit which is not designed as a special restriction on purchase of locally issued securities denominated in foreign exchange.

Differential treatment of deposit accounts held by nonresidents  
No.

Reserve requirements  
No.

Liquid asset requirements  
No.

Interest rate controls  
No.

Credit controls  
No.

Differential treatment of deposit accounts in foreign exchange  
No.

Reserve requirements  
No.

Liquid asset requirements  
No.

Interest rate controls  
No.

Credit controls  
No.

Investment regulations  
Yes.  
No distinction is made between local and overseas investments.

Abroad by banks  
Yes.  
AIs incorporated in Hong Kong SAR must not (1) establish or acquire an overseas banking subsidiary without the HKMA approval; (2) acquire share capital in a company worth more than 5% of the Tier 1 capital of the institution at the time of acquisition without the HKMA approval; (3) incur equity exposures in aggregate more than 25% of the Tier 1 capital of the institution (this restriction does not apply if the equity exposure in the form of share capital (a) is held as security for facilities granted; (b) was acquired through an underwriting or a sub-underwriting contract for a period not exceeding seven days; or (c) was acquired through debt satisfaction,
in which case the share capital must be disposed of as soon as
possible, but no later than 18 months after its acquisition); or (4)
effective October 1, 2019, purchase or hold an interest in foreign or
domestic land of an aggregate value exceeding 50% of the Tier 1
capital of the institution (a new limit) and purchase or hold interest in
foreign or domestic land, other than for self-use, of an aggregate
value exceeding 25% of the Tier 1 capital (previously 25% of capital
base) of the institution (these restrictions do not apply to (a) interest
in land that was mortgaged to the institution to secure a debt; or (b)
interest in land that accrues after the institution has come into
possession of the land, provided the interest is disposed of as soon as
possible, but no later than 18 months after acquisition).

Effective July 13, 2018, the provision that limits the aggregate
holdings of share capital, interests in land (including land that is
necessary for conducting business or providing housing or amenities
for staff), and the aggregate unsecured facilities to directors (or
related parties) of an AI incorporated in Hong Kong SAR to 80% of
the institution’s capital base was repealed given the consideration
that the existing individual limits themselves are sufficient.

In banks by nonresidents Yes.

No person may become a majority shareholder controller, minority
shareholder controller, or indirect controller of an AI incorporated in
Hong Kong SAR without the HKMA approval. Any person who
becomes such a controller must notify the HKMA within 14 days.
Note-issuing activity is subject to review, and the license may be
withdrawn if a foreign government or foreign-government-controlled
entity holds 20% or more of the shares in a bank. This requirement is
intended to prevent close association between NIBs and foreign
sovereign controllers, which is a unique concern, because in Hong
Kong SAR notes are issued by commercial banks rather than the CB.
In most other countries, foreign investment is not allowed in this
activity because the issuance of banknotes is the responsibility of the
monetary authority. This condition affects only the issuance of notes
and does not affect banks’ other activities.

Open foreign exchange position limits Yes.

AIs are expected to set internal limits on their open position in each
foreign currency and their aggregate open position in all foreign
currencies. No regulatory foreign exchange position limits have been
set by the HKMA. However, the HKMA will review AIs’ internal
limits as part of its ongoing supervision. Locally incorporated AIs
must provide justification to the HKMA if their aggregate open
foreign exchange position limits are very large (for example, higher
than 25% of their capital base). Foreign exchange limits of foreign
banks’ branches in Hong Kong SAR are monitored by their head
offices centrally and home supervisory authorities centrally.

However, a foreign bank’s branches in Hong Kong SAR may be
required to demonstrate the effectiveness of its risk management
systems if its aggregate open foreign exchange position limit is
higher than 5% of the bank’s capital base. All AIs are required to
report their foreign exchange positions as well as any breach of
relevant internal limits to the HKMA on a monthly basis.

The above benchmark thresholds are intended to facilitate the
HKMA supervisory monitoring of AIs’ foreign exchange risk and are
not a general restriction.

On resident assets and liabilities No.

On nonresident assets and liabilities No.

Provisions specific to institutional investors Yes.
| Insurance companies | Yes. |
| Limits (max.) on securities issued by nonresidents | No. |
| Limits (max.) on investment portfolio held abroad | No. |
| Limits (min.) on investment portfolio held locally | Yes. |
| Currency-matching regulations on assets/liabilities composition | Yes. |

There is no minimum amount that insurers must hold in investments in locally issued securities. However, insurers carrying out general (or non-life) insurance business locally, other than as professional re insurers or captive insurers, are required to maintain assets in Hong Kong SAR to match their liabilities from such insurance business. The eligible assets are not limited to local securities and may be in the form of cash, bank deposits, or landed properties.

Pension funds | Yes. |
| Limits (max.) on securities issued by nonresidents | No. |
| Limits (max.) on investment portfolio held abroad | No. |
| Limits (min.) on investment portfolio held locally | No. |
| Currency-matching regulations on assets/liabilities composition | Yes. |

For MPF plans, at least 30% of the assets of a constituent fund must be held in Hong-Kong-dollar-denominated currency investments, as measured by effective currency exposure.

Investment firms and collective investment funds | No. |
| Limits (max.) on securities issued by nonresidents | No. |
| Limits (max.) on investment portfolio held abroad | No. |
| Limits (min.) on investment portfolio held locally | No. |
| Currency-matching regulations on assets/liabilities composition | No. |

References to legal instruments and hyperlinks | This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

### Changes during 2018 and 2019

#### Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions

Investment regulations

*Abroad by banks* 07/13/2018

The provision that limits the aggregate holdings of share capital, interests in land (including land that is necessary for conducting business or providing housing or amenities for staff), and the aggregate unsecured facilities to directors (or related parties) of an Authorized institution incorporated in Hong Kong Special Administrative Region to 80% of the institution’s capital base was repealed given the consideration that the existing individual limits...
themselves are sufficient. Authorized institutions incorporated in Hong Kong SAR must not purchase or hold an interest in foreign or domestic land of an aggregate value exceeding 50% of the Tier 1 capital of the institution (a new limit) and purchase or hold interest in foreign or domestic land, other than for self-use, of an aggregate value exceeding 25% of the Tier 1 capital (previously 25% of capital base) of the institution (these restrictions do not apply to (a) interest in land that was mortgaged to the institution to secure a debt; or (b) interest in land that accrues after the institution has come into possession of the land, provided the interest is disposed of as soon as possible, but no later than 18 months after acquisition).

Hungary maintains certain exchange restrictions related to the freezing of funds and economic resources of the following: (1) certain officials of Belarus; (2) certain individuals and entities in the Democratic Republic of the Congo; (3) certain individuals and entities in Lebanon, Myanmar, Sudan, and Syria; (4) certain individuals and entities in the Islamic Republic of Iran and Libya; (5) certain individuals, entities, and bodies in view of the situation in Ukraine; and (6) certain individuals undermining or threatening the territorial integrity, sovereignty, and independence of Ukraine.

Other security restrictions | Yes. |

Within the framework of the CFSP, the EU applies restrictive measures either autonomously or implementing binding resolutions of the UNSC with regard to the Treaty on European Union (in particular, Article 29) and the Treaty on the Functioning of the European Union (in particular, Article 75 or 215). Restrictive measures imposed by the EU may target governments of third countries, entities, and individuals. They may comprise specific or general trade restrictions (import and export bans), financial restrictions, restrictions on admission (visa or travel bans), and other measures. EU Council regulations imposing sanctions and related Council decisions and Commission regulations are part of the EU law and take precedence over conflicting legislation of Hungary as a member of the EU. Such regulations are directly applicable and have direct effect in all member states.

Exchange restrictions are in place in accordance with EU regulations with respect to Afghanistan, Belarus, Bosnia and Herzegovina, Burundi, Central African Republic, the Democratic Republic of the Congo, Egypt, Guinea (Conakry), Guinea-Bissau, the Islamic Republic of Iran, Iraq, Lebanon, the Democratic People’s Republic of Korea, Libya, Mali, Myanmar/Burma, Somalia, Sudan, South Sudan, Syria, terrorist groups (Al-Qaida, Taliban, Islamic State of Iraq and the Levant), Tunisia, Ukraine/Russia (concerning restrictive measures following Russia’s actions destabilizing the situation in Ukraine), Ukraine (concerning restrictive measures in respect of actions undermining the territorial integrity and independence of Ukraine), Yemen, Venezuela, and Zimbabwe.

According to the Act on the implementation of financial and asset-related restrictive measures, the Hungarian authorities implement directly, completely, and without delay the UNSC Resolution decisions about targeted financial sanctions. The method does not require the transposition of UNSC Resolution decisions at EU level;
at the same time, it includes the implementing rules for the relevant EU regulations as well.

The de jure exchange rate arrangement is free floating. The de facto exchange rate arrangement is classified as floating because of discretionary intervention by the Magyar Nemzeti Bank (MNB) in the foreign exchange market. The general aim is to avoid disruptive market fluctuations and exchange rate overshooting. However, the MNB emphasizes that the Bank generally refrains from intervening in the foreign exchange market. The MNB converts foreign currency for the government and net current and capital transfers from the EU at market rates. These transactions change the foreign exchange reserve position of the MNB. If the resulting reserve dynamics are not in line with the MNB’s reserve management objectives, the Bank will take the necessary measures. In 2018, the MNB accumulated about 4 billion euro in reserves, in part because of a high inflow of EU funds. The MNB does not publish intervention data.

In some cases, the law (for example, Accountancy Act, Act on Tax Administration and the Regulation of Tax Administration, Act on the Rules of Taxation, Act on Enforcement Proceedings to be Implemented by the Tax Authority, Act on the Implementation of Community Customs Law) requires or allows companies to use the official exchange rate when evaluating assets/liabilities or revenues/expenditures denominated in foreign currency. Official MNB foreign exchange rates are fixed each weekday, except national
holidays. These rates are valid until publication of the next day’s rates and are fixed at 11:00 a.m. The official euro–forint fixing rate is the simple arithmetic average of the euro–forint quotes of the 10 most active domestic banks in the forint foreign exchange market, after the two highest and two lowest quotes are eliminated. The US dollar–forint fixing rate is calculated using the euro–forint fixing rate and the euro–US dollar market rate at 11:00 a.m. The forint exchange rates against other currencies are derived from the US dollar–forint fixing and the foreign exchange cross-rates at 11:00 a.m.

</tbody>
</table>

The MNB began implementing an inflation-targeting framework in the summer of 2001.

The Monetary Council adopts its resolutions by a simple majority of the votes of the members present. In the event of a tied vote, the chairman of the Monetary Council, or in the absence of the chairman the deputy chairman must have the casting vote. Operational independence is ensured regarding decisions on the inflation target.

The current medium-term target for inflation is 3% increase (±1 percentage point (pp)) in consumer prices as measured by the consumer price index regularly published by the Hungarian Central Statistical Office. The tolerance band was introduced in 2015.

In August 2005, the Bank adopted an explicit medium-term ("continuous") inflation target for the period starting in 2007, after year-end targets between 2001 and 2006. The time horizon relevant for the Monetary Council is 1.5-2 years.

The consumer price index is the measure of the price changes of goods and services intended for household consumption and is calculated on the basis of the same month of the previous year. It is
published monthly by the Hungarian Central Statistical Office.

Core inflation

Target horizon Yes. The time horizon relevant for the Monetary Council is 1.5–2 years.

Operating target (policy rate) Yes.

Policy rate Yes. The MNB’s base rate (rate on required reserves) is the policy rate. Given the excess liquidity in the banking system, the MNB overnight deposit rate (~15 basis points since September 2017, which was increased to ~5 basis points on March 27, 2019) provides a floor.

Target corridor band Yes. The MNB maintains an asymmetric overnight interest rate corridor to prevent extreme fluctuations in interbank rates. The interest rate paid on overnight (O/N) CB deposits equals the base rate minus 95 basis points, and the interest to be paid on O/N collateralized loans equals the base rate (currently, 0.90%).

Other Yes. The Bank has continued to rely on liquidity providing foreign exchange swaps to manage the liquidity in the banking system. On November 21, 2017, the Council decided to introduce two unconventional instruments, monetary policy IRS and mortgage bond purchase program from January 2018. On September 18, 2018, the Council set the annual maximum stock of monetary policy IRS for 2018 at HUF 1,100 billion. At end-2018, the Bank abandoned its mortgage purchase program and the monetary policy interest rate swap facility. The mortgage bond program ended in two stages: purchases in the primary market continued until December 31, 2018, and purchases in the secondary market until September 30, 2018. On January 1, 2019, Funding for Growth Scheme Fix to encourage longer interest rate fixation periods for lending to SMEs was introduced, and on July 1, 2019, a purchase program for corporate bonds began. The liquidity effect of both these programs is sterilized.

Accountability Yes.

Open letter No.

Parliamentary hearings Yes. The governor of the MNB reports to the parliament’s Standing Committee for Economic Affairs in writing semiannually on the MNB’s semiannual activity. On request, the governor must be obliged to attend in person and supplement the report orally. On request, the governor of the MNB must provide information to the competent committee of the parliament.

Other No.

Transparency Yes.

Publication of votes Yes. The MNB has been publishing individual voting records since 2005. The voting records of the Monetary Council published in the minutes are also available in time series format.

Publication of minutes Yes. Abridged minutes of the Council’s rate-setting meetings are released regularly after two weeks, before the next policy meeting takes place. The minutes present the decision-makers’ assessment of current economic conditions and the factors they consider when deciding on the base rate, including votes cast by individual members of the Council. To provide more detailed information, background materials appear as a separate publication with enhanced content under the title “Macroeconomic and financial market developments,” at the same time as the abridged minutes.

Publication of inflation forecasts Yes. Inflation forecasts are published quarterly in the Inflation Report.

Commercial banks may set the exchange rate freely in transactions with their clients.

In October 2013, the Hungarian Financial Supervisory Authority was integrated into the MNB. The Act on Credit Institutions and Financial Enterprises states that currency exchange activities are subject to authorization by the MNB. According to the law, authorization to engage in currency exchange activities is granted to credit institutions and their agents. There are 146 foreign exchange bureaus in Hungary. Licensing requires the fulfillment of several technical and personnel criteria. The MNB website provides more detailed information, including a list of authorized agents. Agents may only purchase and sell banknotes, but credit institutions may also make foreign currency payments and transfers on behalf of their clients. Foreign exchange bureaus may not enter into foreign exchange transactions directly with the MNB.

The foreign exchange market operates based on broker systems (Reuters D-3000 Spot Matching and Electronic Broking Services) and on the OTC bilateral market. There are market makers in both markets. Because there are no controls on foreign exchange transactions, financial institutions do not need a license to trade. All banks and financial institutions are free to participate in the interbank market. There are no limits on the bid-ask spreads and commissions of market participants. In 2018, according to the data provided by domestic credit institutions, 160 credit institutions dealt in the forint/foreign exchange spot market, of which 58 were domestic credit institutions.

The foreign exchange market operates based on broker systems (Reuters D-3000 Spot Matching and Electronic Broking Services) and on the OTC bilateral market. There are market makers in both markets. Because there are no controls on foreign exchange transactions, financial institutions do not need a license to trade. In 2018, according to the data provided by domestic credit institutions, 160 credit institutions dealt in the forint/foreign exchange spot market, of which 58 were domestic credit institutions.

All banks may engage in forward transactions at exchange rates negotiated freely with their customers. As part of its monetary policy operations, the MNB has a euro liquidity arrangement that provides foreign exchange swap instruments with maturities up to and including 12 months.

In accordance with Regulation (EC) No. 1889/2005, cash controls have been implemented based on a mandatory declaration system for amounts of cash entering or leaving the EU with a value of €10,000 or more. Travelers entering or leaving the EU and carrying more than €10,000 are required to make a declaration to the relevant authorities of the member country through which they enter or leave the EU. The authorities must keep a record of such information and in case of suspicion of money laundering report it to their national financial intelligence unit. The Hungarian financial intelligence unit maintains statistics of suspicious transaction reports by Customs, including all relevant information. According to the EC regulation, an incorrect or
incomplete declaration does not fulfill the obligation. To check compliance with the regulation, national authorities have the right to search natural persons, their baggage, and their means of transportation. The EC regulation requires member countries to impose penalties for failure to comply with the declaration obligation. If there are indications that cash is related to illegal activity, authorities of one member country may exchange information with authorities in other member countries. Under the framework of existing agreements on mutual administrative assistance, information obtained under the EC regulation may also be communicated to a third country in compliance with relevant national and EU provisions on the transfer of personal data to third countries. The EC regulation does not apply to physical cross-border transportation from one EU member country to another (that is, intra-EU transportation). Such transportation is not considered “cross-border” for the purposes of the EC regulation; the EC regulation only harmonizes the system for the EU’s external borders. To better enforce the EU legislation, Act No. XLVIII of 2007 on the Implementation of Regulation (EC) No. 1889/2005 of the European Parliament and of the Council of October 26, 2005, on controls of cash entering or leaving the Community (“Cash Control Act”) was adopted. The evaluators regarded the EU Cash Control Regulation and the Cash Control Act as the legal basis for the cross-border declaration system in Hungary. An amendment to the Cash Control Act introduced effective, proportionate, and dissuasive sanctions for failure to declare or false declaration of cash. The relevant article of the Cash Control Act now includes an administrative fine of up to 50% of the undeclared amount, to be paid on the spot for failure to declare or false declaration of cash. (The highest level of the fine was reduced to 50% because of the European Court Decision in case number C-255/2014, which stated that a 60% fine was not proportionate.) The customs authority may retain the object of the procedure (the amount of cash equal to the fine) if there is a risk of nonpayment of the fine. The Act has also been amended with equity regulations; in case of non- or false declaration, on request the fine may be reduced by 50%, if the delinquent presents substantive proof of the origin of the cash in question. Furthermore, in case of false declaration, the basis of the imposed fine is the amount of cash exceeding the declared amount.

Other No.

**Import licenses and other nontariff measures** Yes.

Positive list No.

Negative list Yes. In accordance with EU regulations, no import licenses are required, except for certain products that are subject to quantitative restrictions, safeguard measures, or import surveillance. For agricultural products, the import licensing system is automatic and used only for statistical purposes. Imports of certain products are subject to licensing (for example, explosives and firearms; ammunition; military equipment; dual-use goods; certain goods that could be used for capital punishment, torture, or other cruel, inhuman, or degrading treatment or punishment; and certain drugs).

Open general licenses No.

Licenses with quotas Yes. In accordance with EU regulations, licenses are required for a number of products in the agricultural sector subject to tariff quotas. In addition, licenses are required for certain imports subject to quantitative restrictions.

Other nontariff measures No.

**Import taxes and/or tariffs** Yes. Goods for personal use brought in by returning Hungarian travelers are subject to import duties above a duty-free value limit in accordance with the EU customs legislation based on the invoice price. Relief from import duties is granted in Article 41 of EU Regulation No. 1186/2009/EC in case of duty-free allowance under EU Directive No. 2007/74/EC which is €430 for air passengers, €300 for other passengers, and €150 for passengers younger than 15. For tobacco products and alcoholic beverages, quantitative limits apply.

Taxes collected through the exchange system No.

**State import monopoly** No.

Controls apply to the purchase of securities issued by nonresidents if such assets are to form part of the cover of the technical provisions of a small domestic insurance company, unless the assets (1) were issued by (a) an OECD or EEA member country, (b) local or regional authorities of OECD or EEA member countries, (c) business operations established in an OECD or EEA member country, or (d) an international organization to which one or more OECD or EEA member countries belong; and (2) are kept in the territory of OECD or EEA member countries (Act No. LXXXVIII of 2014, Section 223). Previously, these controls applied to all insurance companies.

Controls apply to credits and loans granted to nonresidents if the asset is a mortgage loan with real estate collateral outside the EU and is to form part of the technical reserves of a small domestic insurance company. Previously, this control applied to all insurance companies.

With respect to nonresidents, controls apply to (1) airlines established in the country that must be majority owned and effectively controlled by EU countries and/or nationals of EU countries, unless otherwise provided for through an international agreement to which the EU is a signatory; (2) acquisition of a shipping license to operate in international waters, which is reserved for companies established in Hungary and operating shipping vessels registered in EU member countries (however, there are no restrictions preventing the establishment by nonresidents of a
company in Hungary through which a shipping license is available); (3) asset management services by branches of nonresident investors located outside the EU for domestic mandatory and voluntary private pension funds; (4) the extent that under EU Directive No. 2009/65/EC, a depositary of a UCITS must either have its registered office or be established in the UCITS home member state; and (5) nonresident investors located outside the EU through acquiring or establishing directly or indirectly more than 25% of the shares of companies (or more than 10% of shares of publicly listed company) established in Hungary which engaged in activities described by the Act No. LVII of 2018.

| Controls on liquidation of direct investment | No. |
| Controls on real estate transactions | Yes. |
| Purchase abroad by residents | Yes. Real estate investment by small insurance companies is limited to EEA countries. Mandatory and voluntary pension funds may invest only in real estate in the EEA. Controls apply to the acquisition of real estate outside the EU (1) if such assets are to form the technical reserves of a small insurance company and (2) by a voluntary mutual insurance fund or a mandatory pension fund. |
| Purchase locally by nonresidents | Yes. Controls apply to real estate investments by nonresidents, except (1) the acquisition of agricultural land by EU nationals who want to establish themselves as self-employed farmers and who have been legally resident and active in farming in Hungary for at least three years continuously; (2) the acquisition of a primary residence by EU nationals and the acquisition of real estate other than agricultural land by legal persons and unincorporated entities established in the EU; and (3) the acquisition of secondary residences by EU nationals who have been legally resident in Hungary for at least four years continuously. |

Provisions Specific to the Financial Sector

| Provisions specific to commercial banks and other credit institutions | Yes. |

The Foreign Exchange Funding Adequacy Ratio (FFAR) is calculated as the ratio of the available amount of stable foreign currency funding divided by weighted foreign-currency-denominated assets outstanding. The FFAR regulation based on the NSFR methodology is in force since July 1, 2012, and has been amended three times July 1, 2014, and January 1, 2016, and recently in June 2018 effective July 1, 2018, to comply with evolving international standards and market developments. The measure aims to reduce the maturity mismatch of the banking sector’s foreign exchange position. The required level of the FFAR is 100% since January 1, 2016. To further reduce denomination mismatches in the balance sheet of credit institutions and to assist the regulatory objectives of the FFAR, the MNB as macroprudential authority also introduced the Foreign Exchange Coverage Ratio (FECR), which limits the on-balance-sheet denomination mismatch of credit institutions to 15% of the balance sheet total. (For details, see the macroprudential subpage at the MNB official website and the MNB’s Macroprudential Reports.) Effective July 1, 2018, the interbank funding ratio (IFR) was introduced to prevent excessive reliance on funding originated from financial corporations. Wholesale funding from financial corporations—weighted according to currency and maturity with some exemptions not to hamper normal banking operations—must not exceed 30% of total liabilities excluding own funds.

| Borrowing abroad | No. |
| Maintenance of accounts abroad | No. |
| Lending to nonresidents (financial or commercial credits) | No. |
| Lending locally in foreign exchange | Yes. |

Notification is required pursuant to EU Directive No. 2013/36/EC in case of cross-border services.

MNB Decree No. 32/2014 (IX. 10) (modified by MNB Decree No. 29/2018 (VIII. 21)) on regulation of DSTI and LTV ratios introduced new DSTI and LTV limits. The Decree requires that the earnings of the borrower be properly documented, regardless of the currency. The following stricter LTV restrictions differentiate according to the type and the currency of loans: (1) real-estate-backed mortgage loans: 50% for loans in euros, 35% for loans in other foreign currencies, and 80% for loans in Hungarian forint (HUF); (2) financial real estate leasing: 55% for loans in euros, 40% for loans in other foreign currencies, and 85% for loans in HUF; (3) vehicle financing: 45% for loans in euros, 30% for loans in other foreign currencies, and 75% for loans in HUF; and (4) vehicle leasing: 50% for loans in euros, 35% for loans in other foreign currencies, and 80% for loans in HUF. These restrictions do not affect loan conversions in the same foreign currency (for example, a Swiss franc loan may be converted to another Swiss franc loan). The MNB Decree differentiates the DSTI limits for new mortgage loans denominated in HUF with over 5 years of maturity based on the length of the interest rate fixation period and the net monthly income of the borrower. From October 1, 2018, the limits are as follows: For borrowers with net income below HUF 4,00,000, the limit for (1) floating or fixed interest rates for less than 5 years is 25%; (2) for interest rates fixed for at least 5 years but less than 10 years, the limit is 35%; and (3) for interest rates fixed for at least 10 years or for the whole term, it is 50%. For borrowers with net income of HUF 4,00,000 or above, the limit for (1) floating or fixed interest rates for less than 5 years is 30%; (2) for interest rates fixed for at least 5 years but less than 10 years, the limit is 40%; and (3) for interest

©International Monetary Fund. Not for Redistribution
rates fixed for at least 10 years or for the whole term, it is 60%. From July 1, 2019, the net monthly mark for new mortgage loans in HUF was set at HUF 5,00,000 instead of HUF 4,00,000 but otherwise the same limits applied as before. EUR limits for the relevant income categories: for below-5-years interest fixation period 15/20% and for 5 years or longer interest fixation period 25/30%. Limits for mortgage loans denominated in other foreign currencies for below-5-years interest fixation period 5/10% and for 5 years or longer interest fixation period 10/15%. The applicable DSTI limits for uncovered loans or mortgage loans with a maturity of up to 5 years depending on the verified net monthly income of the borrower and the currency of the loan: (1) 50% for net income less than HUF 5,00,000, 25% for loans in euros, 10% for loans in other foreign currencies; (2) 60% for net income higher than HUF 5,00,000, 30% for loans in euros, 15% for loans in other foreign currencies.

Purchase of locally issued securities denominated in foreign exchange No.

Differential treatment of deposit accounts in foreign exchange No.

Reserve requirements No.

Liquid asset requirements No.

Interest rate controls No.

Credit controls No.

Differential treatment of deposit accounts held by nonresidents No.

Reserve requirements No.

Credit controls No.

Investment regulations No.

Abroad by banks No.

In banks by nonresidents No.

Open foreign exchange position limits Yes.

Abroad by banks No.

In banks by nonresidents No.

Open foreign exchange position limits Yes.

There is no specific limit on net open foreign exchange positions; however, banks must calculate their own funds requirements according to Article 351 of the Capital Requirements Regulation (CRR—Regulation (EU) No. 575/2013), which applies to all EU members. “If the sum of an institution’s overall net foreign exchange position and its net gold position, calculated in accordance with the procedure set out in Article 352, including for any foreign exchange and gold positions for which own funds requirements are calculated using an internal model, exceeds 2% of its total own funds, the institution must calculate an own funds requirement for foreign exchange risk. The own funds requirement for foreign exchange risk must be the sum of its overall net foreign exchange position and its
net gold position in the reporting currency, multiplied by 8%.”

Branch offices of third country insurance companies must (1) have sufficient liquid assets to cover the minimum security capital and must deposit one-quarter of these assets as security and (2) keep the liquid assets covering the minimum security capital in Hungary and keep the remainder in the EU.

Small domestic insurance companies are subject to currency-matching regulations as follows: (1) If coverage is expressed in a contract in a specific currency, the insurance company’s liabilities are deemed to be in that currency. (2) The assets of technical provisions must be placed in assets expressed in the type of currency defined above. (3) For non-life insurance, if the contract does not stipulate the currency, the insurance company’s commitment is deemed to be in the currency of the country where the risk is located (Annex 8 of the Act).

The type of currency in which a pension fund is required to keep reserves set aside to cover payments of pension benefits under its own plan to participating fund members must be specified in accordance with the foreign exchange regulations in effect and with the following provisions: (1) If the fund’s benefit payment obligation is denominated in a specific currency, then, for the purposes of compliance with foreign exchange regulations, the fund’s liabilities must be in that currency. (2) The provisions set aside to cover the fund’s benefit plan must be placed in receivables denominated in the
currency defined in Paragraph (1). (3) A fund may place up to 30% of its liabilities denominated in a specific currency in assets other than what is defined in Paragraph (2); however, the value of the assets kept in various currencies may not be less than the value of all liabilities kept in various currencies (Section 67(7) of Act No. LXXXII of 1997 on Private Pensions and Private Pension Funds).

Exchange Arrangement

Currency
Yes.
The currency of Iceland is the Icelandic króna.

Other legal tender
No.

Exchange rate structure

Unitary
Yes.

Dual

Multiple

Classification

No separate legal tender

Currency board

Conventional peg

Stabilized arrangement

Crawling peg

Crawl-like arrangement

Pegged exchange rate within horizontal bands

Other managed arrangement

Floating
Yes.
The de jure exchange rate arrangement is free floating. CBI intervention in the foreign exchange market has preserved exchange
rate flexibility and maintained reserve adequacy while countering disorderly market conditions. The de facto exchange rate arrangement is classified as a floating arrangement. The CBI publishes monthly data on its interventions in the foreign exchange market.

Free floating

**Official exchange rate**

Yes. Every trading day at 10:45 a.m., the CBI determines the official exchange rate of the króna against other currencies, which is used as the rate for official agreements, court cases, and other agreements between parties when no other rate is specified (Article 19 of Central Bank Act No. 36/2001). The official rate is based on the price of the euro against the króna, as quoted in the domestic foreign exchange market, and price developments in the market. The fixing is a snapshot of the position in the foreign exchange market.

**Monetary policy framework**

Exchange rate anchor

- **U.S. dollar**
- **Euro**
- **Composite**
- **Other**

Monetary aggregate target

Inflation-targeting framework

Yes. A formal inflation target was adopted March 27, 2001.

**Target setting body**

Yes. According to the joint declaration made by the CBI and the government, Iceland’s inflation target is defined as an inflation rate of 2½%. The interest rate decision is taken by majority vote in the Monetary Policy Committee (MPC). In practice, the governor presents a proposal, and a vote is taken if committee members are not all in agreement. Even though a consensus is reached, members may request that it be stated in the minutes that they would have chosen a different conclusion but considered the difference small enough that they were willing to agree with the governor’s proposal. By law, the CBI may declare a quantitative target for inflation, with the approval of the minister. According to the Declaration on Inflation Target and Change in the Exchange Rate Policy, if inflation deviates by more than ±1½ percentage points from the target, the CBI is obliged to submit a report to the government explaining the reasons for the deviations from the target, how the CBI intends to react, and how long it will take to reach the inflation target again in the CBI’s assessment. The report must be made public.

**Inflation target**

Yes.
Target number Yes.

Point target Yes. The CBI’s main objective is price stability, defined as a 12-month rise of 2½% in the consumer price index (CPI).

Target with tolerance band

Band/Range

Target measure Yes.

CPI Yes. The CPI measures changes in the price of private consumption. Statistics Iceland measures the CPI each month, after having surveyed the price of all goods and services in a defined consumption basket. The consumption basket is based on the results of regularly conducted Statistics Iceland expenditure surveys, which determine the goods and services consumers buy, and in what amounts. The survey findings determine the weight assigned to individual goods and services in the CPI. The expenditure survey has been carried out continuously since 2000, and the results are used in the annual revision of the CPI base.

Core inflation

Target horizon

Operating target (policy rate) Yes. The seven-day term deposit rate is the policy rate.

Policy rate Yes. The seven-day term deposit rate is the policy rate.

Target corridor band Yes. According to the Declaration on Inflation Target and Change in the Exchange Rate Policy, if inflation deviates by more than ±1½ percentage points from the target, the CBI is obliged to submit a report to the government explaining the reasons for the deviations from the target, how the CBI intends to react, and how long it will take to reach the inflation target again in the CBI’s assessment. The report must be made public.

Other

Accountability Yes.

Open letter Yes. The Act on the CBI stipulates that the MPC must submit to parliament (Althingi) a report on its activities twice a year and that the contents of the report must be discussed in the parliamentary committee of the Speaker’s choosing. Deviations of inflation of more than 1½ percentage points in either direction from the inflation target require a public CBI report to the government explaining the reasons for the deviation from the target and the CBI’s response.

Parliamentary hearings Yes. The Act on the CBI stipulates that the MPC of the CBI must submit to parliament (Althingi) a report on its activities twice a year and that the contents of the report must be discussed in the parliamentary committee of the Speaker’s choosing.

Other

Transparency Yes.

Publication of votes Yes. The votes of individual committee members are made public in the CBI Annual Report, while the number of votes in favor and against the governor’s suggested policy decision is published in the MPC’s minutes two weeks after each interest rate decision.

Publication of minutes Yes. The Act on the CBI stipulates that it is the role of the MPC to set the CBI interest rates and apply other monetary policy instruments.
Furthermore, the Act states that minutes of meetings of the MPC must be made public, and an account given of the committee’s decisions and the premises on which they are based. In accordance with the Act, the MPC has decided to publish the minutes of its meetings two weeks after each interest rate decision.

The CBI’s macroeconomic and inflation forecasts are prepared four times a year over a horizon of three years and are published in its quarterly publication, Monetary Bulletin.

### Other monetary framework

Commercial banks may set freely their exchange rates in transactions with their customers.

Three banks, Arion banki hf., Íslandsbanki hf., and Landsbankinn hf., which act as market makers, may participate in the foreign exchange market, along with the CBI (Article 20, Paragraph 1, Section 7, of the Act on Financial Undertakings No. 161/2002). Eligibility to participate in the foreign exchange market is governed by CBI regulations.

Foreign exchange bureaus must be licensed by the Financial Supervisory Authority (financial enterprises in accordance with Article 2 of Act No. 161/2002 and natural and other legal persons in accordance with Articles 25(a) and 25(b) of the Act on Measures against Money Laundering and Terrorist Financing No. 64/2006).

Foreign exchange bureaus may only (1) exchange krónur for foreign currency, foreign currency for krónur, and one foreign currency for another; (2) cash traveler’s checks; and (3) handle credit card withdrawals. Currently, no foreign exchange bureaus are operating in Iceland.

### Operated by the central bank

The CBI intervenes via market makers at their quoted rates. Three banks, Arion banki hf., Íslandsbanki hf., and Landsbankinn hf., which act as market makers, are entitled to participate in the foreign exchange market, together with the CBI. Participation in the foreign exchange market is governed by CBI regulations. The CBI oversees the market and may trade there at any time. The price of the króna against the euro is determined in the foreign exchange market by market makers that undertake to give indicative quotes for the buying and selling rates for €1 million. Quotes are entered and communicated on a Reuters page and are accessible only to market makers.

Three banks, which act as market makers, are entitled to participate in the foreign exchange market, together with the CBI. The market makers undertake to give indicative quotes for the buying and selling
rates for €1 million. Quotes are entered and communicated on a Reuters page and are accessible only to market makers.

The CBI has only rarely participated in the foreign exchange derivatives market (forward and swap) since January 2009 to reduce banks’ foreign exchange imbalances.

There are no restrictions on cross-border movement of króna-denominated assets other than those that fall under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions. They may be used for capital transactions within the set of offshore assets and investment in designated government-issued bills and certificate of deposits (CDs) issued by the CBI.

On receiving confirmation from the CBI, individuals are permitted to withdraw a maximum of ISK 100 million a calendar year from offshore króna accounts, provided the offshore króna assets have been continuously owned by the beneficial owner since November 28, 2008.

Effective March 5, 2019, offshore króna owners’ authorizations to withdraw funds from accounts subject to special restrictions were expanded and all offshore króna owners were given a chance to release their offshore króna assets. These expanded authorizations are of three types: First is a general authorization for all offshore króna owners to release their offshore króna assets to purchase foreign currency and export it to an account abroad. Second is an authorization for offshore króna owners that have owned offshore króna continuously since November 28, 2008, to release those offshore króna assets from the legal restrictions. Third is an authorization for individuals to withdraw up to ISK 100 million from accounts subject to special restrictions.

Derivatives contracts involving ISK against a foreign currency, whether they are contracts involving currencies, securities, a combination of currencies and securities, or other comparable financial instruments, are prohibited by Article 13(i), Paragraph 1 of the Foreign Exchange Act. By Article 13(i), Paragraph 2, this prohibition does not apply to contracts that are related solely to trade in goods and services.

Derivatives transactions with financial enterprises in Iceland for the purpose of hedging against exchange rate risk are exempt from these restrictions, on confirmation from the CBI. This permission does not apply to assets that fall under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions.

Parties willing to engage in derivative transactions must provide the CBI with a short explanation of the nature of the foreign exchange imbalance to be hedged, with supporting documentation such as...
annual reports, statements of positions in securities, or information about historical foreign exchange imbalances on an income statement. In addition, they must provide information about the form, extent, and maturities of the planned derivative contracts. The CBI then confirms that they constitute a bona fide hedge. Derivatives transactions because of hedging in connection with bonds issued abroad in domestic currency do not fall under the aforementioned exemptions for derivatives trading with domestic financial enterprises for hedging purposes.

Credit operations Yes.

There are no restrictions on cross-border movement of króna-denominated assets other than those that fall under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions. Loans denominated in foreign currency or krónur may be repaid in krónur and foreign currency, respectively. However, this permission does not apply to assets that fall under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions.

Use of foreign exchange among residents No.

Payments arrangements No.

Bilateral payments arrangements No.

Operative No.

Inoperative No.

Regional arrangements No.

Clearing agreements No.

Barter agreements and open accounts No.

Administration of control Yes.

The Ministry of Finance and Economic Affairs (MOF) has the ultimate responsibility for imports and, in consultation with the CBI, for capital movements and foreign exchange regulation. The MOF implements controls on inward FDI. The CBI licenses commercial foreign exchange dealers, grants exemptions from capital controls, and sets reporting requirements for statistical purposes. The CBI may issue foreign exchange and capital transactions regulations in accordance with the Foreign Exchange Act and grants exemptions from that law. The Customs Authority monitors compliance with the requirement that export payments be denominated in foreign currency.

Payments arrears Yes.

Official No.

Private Yes. Payments arrears are subject to the same principles as ordinary payments.

Controls on trade in gold (coins and/or bullion) Yes.

On domestic ownership and/or trade No.

On external trade No.

Controls on exports and imports of banknotes Yes.

On exports Yes.
### Domestic currency

Yes. The transfer of capital in krónur is no longer restricted by the Act on Foreign Exchange No. 87/1992 (Article 13(b), Paragraph 3), except for transfers of domestic currency deriving from transactions with offshore króna assets falling under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions.

Exports of banknotes exceeding the equivalent of €10,000 may be confiscated by the customs authorities, if considered to be used in illegal activity (Customs Act).

### Foreign currency

No. Exports and imports of banknotes exceeding the equivalent of €10,000 may be confiscated by the customs authorities, if considered to be used in illegal activity (Customs Act).

### On imports

Yes. The transfer of capital in krónur is no longer restricted by the Act on Foreign Exchange No. 87/1992 (Article 13(b), Paragraph 3), except for transfers of domestic currency deriving from transactions with offshore króna assets falling under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions.

Imports of banknotes exceeding the equivalent of €10,000 may be confiscated by the customs authorities, if considered to be used in illegal activity (Customs Act).

### Foreign currency

No. Imports of banknotes exceeding the equivalent of €10,000 may be confiscated by the customs authorities, if considered to be used in illegal activity (Customs Act).

### References to legal instruments and hyperlinks

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

### Resident Accounts

**Foreign exchange accounts permitted** Yes.

- **Held domestically** Yes. Residents can establish foreign exchange accounts domestically without restriction. Balances can be transferred abroad freely.

- **Approval required** No.

- **Held abroad** Yes. Residents must inform the CBI of bank accounts opened abroad. However, this requirement has not been enforced. Commercial banks may open correspondent accounts abroad freely.

- **Approval required** No.

**Accounts in domestic currency held abroad** Yes. Residents can establish accounts in krónur abroad without restriction. The transfer of capital in krónur is no longer restricted by the Act on Foreign Exchange No. 87/1992 (Article 13(b), Paragraph 3), except for transfers of domestic currency deriving from transactions with offshore króna assets falling under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions.

Effective April 3, 2019, the restriction on cross-border movement of Icelandic króna when they are related to specified measures involving payment remitted, directly or indirectly, by withdrawal from an account owned by a foreign financial enterprise (Vostro account), was lifted.

**Accounts in domestic currency convertible into foreign currency** Yes. There are no restrictions on convertibility. Accounts subject to special restrictions (falling under the scope of Act No. 37/2016 on the Treatment of Króna-denominated Assets Subject to Special Restrictions) are convertible into foreign currency as of March 5, 2019.
Nonresident Accounts

Foreign exchange accounts permitted  Yes.  Nonresidents can establish and use foreign exchange accounts without restriction. There are no restrictions on cross-border transfers in foreign exchange.

Approval required  No.

Domestic currency accounts  Yes.  Offshore króna assets are segregated in a secure manner with the legislation on the treatment of króna-denominated assets subject to special restrictions. They may be used for capital transactions within the set of offshore assets and investment in designated government-issued bills and CDs issued by the CBI. Funds deriving from contractual installments on the principal of loan obligation other than bullet loan obligations, and indexation of such contractual installments of assets falling under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions, are convertible and transferable. On receiving confirmation from the CBI, individuals are permitted to withdraw a maximum of ISK 100 million a calendar year from offshore króna accounts, provided the offshore króna assets have been continuously owned by the beneficial owner since November 28, 2008. Effective March 5, 2019, offshore króna owners’ authorizations to withdraw funds from accounts subject to special restrictions were expanded. All offshore króna holders would be given the chance to release their offshore króna assets. These expanded authorizations are of three types. First is a general authorization for all offshore króna owners to release their offshore króna assets to purchase foreign currency and export it to an account abroad. Second is an authorization for offshore króna owners that have owned offshore króna continuously since November 28, 2008, to release those offshore króna assets from the legal restrictions. Third is an authorization for individuals to withdraw up to ISK 100 million from accounts subject to special restrictions. The transfer of capital in krónur is no longer restricted by the Act on Foreign Exchange No. 87/1992 (Article 13(b), Paragraph 3), except for transfers of domestic currency deriving from transactions with offshore króna assets falling under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions. Effective April 3, 2019, the restriction on cross-border movement of Icelandic króna when they are related to specified measures involving payment remitted, directly or indirectly, by withdrawal from an account owned by a foreign financial enterprise (Vostro account), was lifted.

Convertible into foreign currency  Yes.  There are no restrictions on convertibility. Accounts subject to special restrictions (falling under the scope of Act No. 37/2016 on the Treatment of Króna-denominated Assets Subject to Special Restrictions) are convertible into foreign currency as of March 5, 2019.

Approval required  No.

Blocked accounts  Yes.  Offshore króna assets were segregated in a secure manner with the legislation on the treatment of króna-denominated assets subject to special restrictions. They may be used for capital transactions within the set of offshore assets and investment in designated government-issued bills and CDs issued by the CBI. According to Act No.
37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions, funds deriving from accrued interest, indexation on interest, and dividends are convertible and transferable. On receiving confirmation from the CBI, individuals are permitted to withdraw a maximum of ISK 100 million a calendar year from offshore króna accounts, provided the offshore króna assets have been continuously owned by the beneficial owner since November 28, 2008.

Effective March 5, 2019, offshore króna owners’ authorizations to withdraw funds from accounts subject to special restrictions were expanded and all offshore króna owners were given a chance to release their offshore króna assets. These expanded authorizations are of three types. First is a general authorization for all offshore króna owners to release their offshore króna assets to purchase foreign currency and export it to an account abroad. Second is an authorization for offshore króna owners that have owned offshore króna continuously since November 28, 2008, to release those offshore króna assets from the legal restrictions. Third is an authorization for individuals to withdraw up to ISK 100 million from accounts subject to special restrictions.

Proceeds from Invisible Transactions and Current Transfers

Repatriation requirements No.
Surrender requirements No.
Surrender to the central bank No.
Surrender to authorized dealers No.
Restrictions on use of funds No.
Capital Transactions

The proceeds of investments in Iceland are freely convertible and transferable. Cross-border capital movements in connection with imports of foreign currency to a deposit account with a domestic financial institution are allowed. Previously, outward capital transactions had been restricted since the introduction of capital controls. However, investment with new inflows of foreign currency that is converted to domestic currency at a financial company in Iceland is still subject to notification to the CBI within three weeks from the conversion of foreign currency to ISK.

Offshore króna assets may be used for capital transactions within the set of offshore assets and investment in designated government-issued bills and CDs issued by the CBI. Funds deriving from contractual installments on the principal of loan obligation other than bullet loan obligations, and indexation of such contractual installments of assets falling under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions, are convertible and transferable. On receiving confirmation from the CBI, individuals are permitted to withdraw a maximum of ISK 100 million a calendar year from offshore króna accounts, provided the offshore króna assets have been continuously owned by the beneficial owner since November 28, 2008. Effective March 5, 2019, offshore króna owners’ authorizations to withdraw funds from accounts subject to special restrictions were expanded and all offshore króna owners were given a chance to release their offshore króna assets. These expanded authorizations are of three types. First is a general authorization for all offshore króna owners to release their offshore króna assets to purchase foreign currency and export it to an account abroad. Second is an authorization for offshore króna owners that have owned offshore króna continuously since November 28, 2008, to release those offshore króna assets from the legal restrictions. Third is an authorization for individuals to withdraw up to ISK 100 million from accounts subject to special restrictions.

Effective March 6, 2019, the special reserve ratio was lowered from 20% to 0%. Previously, effective November 2, 2018, the special reserve ratio was changed from 40% to 20%. Selected capital inflows were subject to the special reserve requirement with the resulting reserve amount was deposited, for a holding period of 12 months, in a deposit institution in Iceland. The deposit institution, in turn, deposited such amount in a reserve (“capital flow”) account at the CBI with the interest rate on the reserve accounts at the CBI was zero. The settlement currency was Icelandic króna. The reserve base included deposits that were used to invest in bonds or bills in domestic currency, and deposits that were used to invest in funds or equity of companies that either invest in domestic currency bonds or bills, or own domestic currency deposits (if cash and deposits bearing an annual interest of 3% or more constitute 10% or more of the funds’ assets). Inflows from individuals not exceeding ISK 100 million were exempt from the reserve requirement.

Effective April 3, 2019, the following restrictions on cross-border movement of Icelandic króna were lifted. First, the restriction on cross-border movement of Icelandic króna when they were related to specified measures involving payment remitted, directly or indirectly, by withdrawal from an account owned by a foreign financial...
enterprise (Vostro account), was lifted. Second, the restriction on settlement of transactions with further specified financial instruments comparable to those falling under Article 2 of the Rules on Special Reserve Requirements for New Foreign Currency Inflows, No. 490/2016. Third, the restriction on exportation of specified securities, when investment in them had not fallen under the special reserve base described in Article 2 of the Rules on Special Reserve Requirement for New Foreign Currency Inflows.

Controls on capital and money market instruments

- On capital market securities: Yes.
- Shares or other securities of a participating nature: Yes.
- Purchase locally by nonresidents: Yes.

Purchases of shares and other equity capital may be subject to laws on foreign investment. Purchases by nonresidents of shares or other securities of a participating nature may be affected by laws on inward direct investment and establishment.

The cross-border transfer of capital in krónur is no longer restricted by the Act on Foreign Exchange No. 87/1992 (Article 13(b), Paragraph 3), except for transfers of domestic currency deriving from transactions with offshore króna assets falling under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions. Thus, investments in Iceland in capital, money market, and other transferable financial instruments and direct investment are free of controls and are not limited to investments with foreign currency from abroad converted to domestic currency and registered with the CBI. However, investment with new inflows of foreign currency that is converted to domestic currency at a financial enterprise in Iceland is still subject to notification to the CBI within three weeks of the conversion of foreign currency to ISK.

Effective March 6, 2019, the special reserve ratio was lowered from 20% to 0%. Previously, effective November 2, 2018, the special reserve ratio was changed from 40% to 20%. Selected capital inflows were subject to the special reserve requirement with the resulting reserve amount was deposited, for a holding period of 12 months, in a deposit institution in Iceland. The deposit institution, in turn, deposited such amount in a reserve (“capital flow”) account at the CBI with the interest rate on the reserve accounts at the CBI was zero. The settlement currency was Icelandic króna. The reserve base included deposits that were used to invest in bonds or bills in domestic currency, and deposits that were used to invest in funds or equity of companies that either invest in domestic currency bonds or bills, or own domestic currency deposits (if cash and deposits bearing an annual interest of 3% or more constitute 10% or more of the funds’ assets). Inflows from individuals not exceeding ISK 100 million were exempt from the reserve requirement.

Effective April 3, 2019, the following restrictions on cross-border movement of Icelandic króna were lifted. First, the restriction on cross-border movement of Icelandic króna when they were related to specified measures involving payment remitted, directly or indirectly, by withdrawal from an account owned by a foreign financial
enterprise (Vostro account), was lifted. Second, the restriction on settlement of transactions with further specified financial instruments comparable to those falling under Article 2 of the Rules on Special Reserve Requirements for New Foreign Currency Inflows, No. 490/2016. Third, the restriction on exportation of specified securities, when investment in them had not fallen under the special reserve base described in Article 2 of the Rules on Special Reserve Requirement for New Foreign Currency Inflows.

**Sale or issue locally by nonresidents** Yes.  
Krónur may be used to invest in domestic currency financial instruments whether the funds are from an account with a financial institution in Iceland or an account owned by a foreign financial institution. Cross-currency settlement of sale or issuance of securities does not require that proceeds in krónur be deposited to a króna-denominated account, in the issuer’s name within a domestic bank. Effective April 3, 2019, the following restrictions on cross-border movement of Icelandic króna were lifted. First, the restriction on cross-border movement of Icelandic króna when they were related to specified measures involving payment remitted, directly or indirectly, by withdrawal from an account owned by a foreign financial enterprise (Vostro account), was lifted. Second, the restriction on settlement of transactions with further specified financial instruments comparable to those falling under Article 2 of the Rules on Special Reserve Requirements for New Foreign Currency Inflows, No. 490/2016. Third, the restriction on exportation of specified securities, when investment in them had not fallen under the special reserve base described in Article 2 of the Rules on Special Reserve Requirement for New Foreign Currency Inflows.

**Purchase abroad by residents** Yes.  
There are no restrictions on investment in securities, mutual fund and investment fund units, money market instruments, other negotiable financial instruments, and monetary claims and other comparable claims in foreign currency.

**Sale or issue abroad by residents** Yes.  
Residents may issue or sell securities abroad without repatriation requirements. Cross-currency settlement of sale or issuance of securities is permitted without the requirement that the proceeds in krónur be deposited to a króna-denominated account, in the issuer’s name with a domestic bank. Effective April 3, 2019, the following restrictions on cross-border movement of Icelandic króna were lifted. First, the restriction on cross-border movement of Icelandic króna when they were related to specified measures involving payment remitted, directly or indirectly, by withdrawal from an account owned by a foreign financial enterprise (Vostro account), was lifted. Second, the restriction on settlement of transactions with further specified financial instruments comparable to those falling under Article 2 of the Rules on Special Reserve Requirements for New Foreign Currency Inflows, No. 490/2016. Third, the restriction on exportation of specified securities, when investment in them had not fallen under the special reserve base described in Article 2 of the Rules on Special Reserve Requirement for New Foreign Currency Inflows.

**Bonds or other debt securities** Yes.  
The proceeds of investments in Iceland are freely convertible and transferable. The cross-border transfer of capital in krónur is no longer restricted by the Act on Foreign Exchange No. 87/1992 (Article 13(b), Paragraph 3), except for transfers of domestic currency deriving from transactions with offshore króna assets falling under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions. Thus, investments in Iceland in capital,
money market, and other transferable financial instruments and direct investment are free of controls and are not limited to investments with foreign currency from abroad converted to domestic currency and registered with the CBI. However, investment with new inflows of foreign currency that is converted to domestic currency at a financial enterprise in Iceland is still subject to notification to the CBI within three weeks of the conversion of foreign currency to ISK. Effective March 6, 2019, the special reserve ratio was lowered from 20% to 0%. Previously, effective November 2, 2018, the special reserve ratio was changed from 40% to 20%. Selected capital inflows were subject to the special reserve requirement with the resulting reserve amount was deposited, for a holding period of 12 months, in a deposit institution in Iceland. The deposit institution, in turn, deposited such amount in a reserve ("capital flow") account at the CBI with the interest rate on the reserve accounts at the CBI was zero. The settlement currency was Icelandic króna. The reserve base included deposits that were used to invest in bonds or bills in domestic currency, and deposits that were used to invest in funds or equity of companies that either invest in domestic currency bonds or bills, or own domestic currency deposits (if cash and deposits bearing an annual interest of 3% or more constitute 10% or more of the funds’ assets). Inflows from individuals not exceeding ISK 100 million were exempt from the reserve requirement.

Effective April 3, 2019, the following restrictions on cross-border movement of Icelandic króna were lifted. First, the restriction on cross-border movement of Icelandic króna when they were related to specified measures involving payment remitted, directly or indirectly, by withdrawal from an account owned by a foreign financial enterprise (Vostro account), was lifted. Second, the restriction on settlement of transactions with further specified financial instruments comparable to those falling under Article 2 of the Rules on Special Reserve Requirements for New Foreign Currency Inflows, No. 490/2016. Third, the restriction on exportation of specified securities, when investment in them had not fallen under the special reserve base described in Article 2 of the Rules on Special Reserve Requirement for New Foreign Currency Inflows.

Restrictions on cross-border movement of domestic currency have largely been lifted. The use of krónur for investments in financial instruments issued in domestic currency, whether or not payment is made from an account with a financial enterprise in Iceland or from an account owned by a foreign financial enterprise, is permitted. Cross-currency settlement of sale or issuance of securities does not require that the proceeds be deposited to a króna-denominated account, in the issuer’s name, with a domestic bank. This does not apply to transfers of domestic currency deriving from transactions with offshore króna assets falling under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions. On receiving confirmation from the CBI, individuals are permitted to withdraw a maximum of ISK 100 million a calendar year from offshore króna accounts, provided the offshore króna assets have been continuously owned by the beneficial owner since November 28, 2008. Effective March 5, 2019, offshore króna owners’ authorizations to withdraw funds from accounts subject to special restrictions were expanded and all offshore króna owners were given a chance to release their offshore króna assets. These expanded authorizations are of three types. First is a general authorization for all offshore króna owners to release their offshore króna assets to purchase foreign currency and export it to an account abroad. Second is an authorization for offshore króna owners that have owned offshore króna continuously since November 28, 2008.
to release those offshore króna assets from the legal restrictions. Third is an authorization for individuals to withdraw up to ISK 100 million from accounts subject to special restrictions.

Effective April 3, 2019, the following restrictions on cross-border movement of Icelandic króna were lifted. First, the restriction on cross-border movement of Icelandic króna when they were related to specified measures involving payment remitted, directly or indirectly, by withdrawal from an account owned by a foreign financial enterprise (Vostro account), was lifted. Second, the restriction on settlement of transactions with further specified financial instruments comparable to those falling under Article 2 of the Rules on Special Reserve Requirements for New Foreign Currency Inflows, No. 490/2016. There are no restrictions on investment in securities, mutual fund and investment funds units, money market instruments, other negotiable financial instruments, and monetary claims and other comparable claims in foreign currency. This does not apply to assets that fall under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions. On receiving confirmation from the CBI, individuals are permitted to withdraw a maximum of ISK 100 million a calendar year from offshore króna accounts, provided the offshore króna assets have been continuously owned by the beneficial owner since November 28, 2008. Effective March 5, 2019, offshore króna owners’ authorizations to withdraw funds from accounts subject to special restrictions were expanded and all offshore króna owners were given a chance to release their offshore króna assets. These expanded authorizations are of three types. First is a general authorization for all offshore króna owners to release their offshore króna assets to purchase foreign currency and export it to an account abroad. **On collective investment securities**

Yes. The cross-border transfer of capital in krónur is no longer restricted by the Act on Foreign Exchange No. 87/1992 (Article 13(b), Paragraph 3), except for transfers of domestic currency deriving from transactions with offshore króna assets falling under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions. Thus, investments in Iceland in capital, money market, and other transferable financial instruments and direct investment are free of controls and are not limited to investments with foreign currency from abroad converted to domestic currency and registered with the CBI. However, investment with new inflows of foreign currency that is converted to domestic currency at a financial enterprise in Iceland is still subject to notification to the CBI within three weeks of the conversion of foreign currency to ISK. This does not apply to transfers of domestic currency deriving from transactions with offshore króna assets falling under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions.

On receiving confirmation from the CBI, individuals were permitted to withdraw a maximum of ISK 100 million a calendar year from offshore króna accounts, provided the offshore króna assets have...
been continuously owned by the beneficial owner since November 28, 2008. Effective March 5, 2019, offshore króna owners’ authorizations to withdraw funds from accounts subject to special restrictions were expanded and all offshore króna owners were given a chance to release their offshore króna assets. These expanded authorizations are of three types. First is a general authorization for all offshore króna owners to release their offshore króna assets to purchase foreign currency and export it to an account abroad. Second is an authorization for offshore króna owners that have owned offshore króna continuously since November 28, 2008, to release those offshore króna assets from the legal restrictions. Third is an authorization for individuals to withdraw up to ISK 100 million from accounts subject to special restrictions.

The proceeds of investments in Iceland are freely convertible and transferable. Effective March 6, 2019, the special reserve ratio was lowered from 20% to 0%. Previously, effective November 2, 2018, the special reserve ratio was changed from 40% to 20%. Selected capital inflows were subject to the special reserve requirement with the resulting reserve amount was deposited, for a holding period of 12 months, in a deposit institution in Iceland. The deposit institution, in turn, deposited such amount in a reserve (“capital flow”) account at the CBI with the interest rate on the reserve accounts at the CBI was zero. The settlement currency was Icelandic króna. The reserve base included deposits that were used to invest in bonds or bills in domestic currency, and deposits that were used to invest in funds or equity of companies that either invest in domestic currency bonds or bills, or own domestic currency deposits (if cash and deposits bearing an annual interest of 3% or more constitute 10% or more of the funds’ assets). Inflows from individuals not exceeding ISK 100 million were exempted from the reserve requirement. Effective April 3, 2019, the following restrictions on cross-border movement of Icelandic króna were lifted. First, the restriction on cross-border movement of Icelandic króna when they were related to specified measures involving payment remitted, directly or indirectly, by withdrawal from an account owned by a foreign financial enterprise (Vostro account), was lifted. Second, the restriction on settlement of transactions with further specified financial instruments comparable to those falling under Article 2 of the Rules on Special Reserve Requirements for New Foreign Currency Inflows, No. 490/2016. Third, the restriction on exportation of specified securities, when investment in them had not fallen under the special reserve base described in Article 2 of the Rules on Special Reserve Requirement for New Foreign Currency Inflows. Sale or issue locally by nonresidents Yes. Effective March 14, 2017, the ISK 100 million a party limit for investments in securities, mutual fund and investment funds units, money market instruments, other negotiable financial instruments, monetary claims and other comparable claims in foreign currency, on notification to the CBI, was eliminated. Restrictions on cross-border movement of domestic currency have largely been lifted. The use of krónur for investments in financial instruments issued in domestic currency, whether payment is from an account with a financial enterprise in Iceland or from an account owned by a foreign financial enterprise, is permitted. Cross-currency settlement of sale or issuance of securities does not require that the proceeds in krónur be deposited to a króna-denominated account in the issuer’s name with a domestic bank. This does not apply to transfers of domestic currency deriving from
transactions with offshore króna assets falling under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions.

Effective April 3, 2019, the following restrictions on cross-border movement of Icelandic króna were lifted. | Controls on derivatives and other instruments | Yes. |
| Purchase locally by nonresidents | Yes. |
| Derivatives contracts involving ISK against a foreign currency, whether they are contracts involving currencies, securities, a combination of currencies and securities, or other comparable financial instruments, are prohibited by Article 13(i), Paragraph 1 of the Foreign Exchange Act. By Article 13(i), Paragraph 2, this prohibition does not apply to contracts that are related solely to trade in goods and services.

Derivatives transactions with financial enterprises in Iceland for the purpose of hedging against exchange rate risk are exempt from these restrictions, on confirmation from the CBI. This permission does not apply to assets that fall under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions.

Parties willing to engage in derivative transactions must provide the CBI with a short explanation of the nature of the foreign exchange imbalance to be hedged, with supporting documentation such as annual reports, statements of positions in securities, or information.
Parties willing to engage in derivative transactions must provide the CBI with a short explanation of the nature of the foreign exchange imbalance to be hedged, with supporting documentation such as annual reports, statements of positions in securities, or information about historical foreign exchange imbalances on an income statement. In addition, they must provide information about the form, extent, and maturities of the planned derivative contracts. The CBI then confirms that they constitute a bona fide hedge.

Derivatives transactions because of hedging in connection with bonds issued abroad in domestic currency do not fall under the aforementioned exemptions for derivatives trading with domestic financial enterprises for hedging purposes.

**Sale or issue locally by nonresidents**

There are no restrictions on lending to nonresidents in domestic currency. Effective April 3, 2019, lending in foreign currency to nonresidents no longer requires CBI confirmation that the loan is not allocated directly or indirectly to (1) investments in bonds or bills issued in domestic currency and electronically registered pursuant to the Act on Electronic Registration of Title to Securities; (2) deposits in domestic currency with deposit institutions in Iceland that bear annual interest of 3% or more; (3) investments in unit share certificates of funds that invest in bonds or bills issued in domestic currency and electronically, pursuant to the Act on Electronic Registration of Title to Securities, or that own domestic currency deposits held at deposit institutions in Iceland, if cash and deposits bearing annual interest of 3% or more constitute 10% or more of the funds’ assets; or (4) investments in the equity of a company that invests or allocates funds, directly or indirectly, in the manner described in items (1)–(3).

Loans extended in foreign currency may be repaid in krónur, and króna loans may be repaid in foreign currency.

**To residents from nonresidents**

There are no restrictions on prepayment or retirement of loans in foreign currency, and borrowing from nonresidents. Foreign currency may be purchased for krónur for the extension of loans. Repayment of loans extended in foreign currency, in krónur, and repayment of króna loans, in foreign currency, are permitted. Effective April 3, 2019, króna-denominated lending by nonresidents to residents is exempt from the restrictions laid down in the Foreign...
Exchange Act when the proceeds of the loan are used, directly or indirectly, for investment options comparable to those falling under Article 2 of Rule No. 490/2016.

Guarantees, sureties, and financial backup facilities

| By residents to nonresidents | No. |
| To residents from nonresidents | No. |

Controls on direct investment

Yes.

Direct investment is defined as a capital or other contribution to the equity of a commercial enterprise or to the purchase of holdings with the aim of acquiring significant influence over its management (Article 1, Act on Foreign Exchange No. 87/1992). Long-term loans from a company’s owners to the company are also considered direct investment (Part VI, Act on Stock Company No. 2/1995). Significant influence means that an investor’s holdings represent 10% or more of a company’s equity or guarantee capital, voting rights, or another holding that enables the exercise of substantial influence on the management of the company concerned.

Outward direct investment

No.

Outward direct investment is no longer contingent on confirmation by the CBI abroad. Second is an authorization for offshore króna owners that have owned offshore króna continuously since November 28, 2008, to release those offshore króna assets from the legal restrictions. Third is an authorization for individuals to withdraw up to ISK 100 million from accounts subject to special restrictions.

Inward direct investment

Yes.

Controls apply to (1) investment exceeding ISK 250 million a year by a single investor, unless authorized; (2) investment that seriously reduces competition in any sector or is likely to harm the Icelandic economy; (3) investment by foreign countries or their government-owned enterprises, unless authorized; (4) investment in fishing and primary fish processing (that is, excluding retail packaging and later stages of the preparation of fish products for distribution and consumption); (5) investment in an air transport company exceeding 49% of share capital; (6) acquisition of rights to natural resources or energy exploitation and investment in energy production or distribution; (7) investment raising above 25% the nonresident share of the total stock in aquaculture, communications, manufacturing other than power-intensive industries, trade, and services, unless an authorization is granted; (8) establishment of subsidiaries of foreign banks and investment in domestic banks exceeding 25% of share capital; (9) investment in ownership of Icelandic flag vessels, except through an enterprise incorporated in Iceland; and (10) establishment of branches of foreign banks.

The cross-border transfer of capital in krónur is no longer restricted by the Act on Foreign Exchange No. 87/1992 (Article 13(b), Paragraph 3), except for transfers of domestic currency deriving from transactions with offshore króna assets falling under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions. Thus, inward investments are no longer limited to investments with foreign currency from abroad converted to domestic currency and registered with the CBI. However, investment with new inflows of foreign currency that is converted to domestic currency at a financial enterprise in Iceland is still subject to notification to the CBI within three weeks from the conversion of foreign currency to ISK.

Controls on liquidation of direct investment

Yes.

The sale proceeds of investments in Iceland are freely convertible and transferable, except for sale proceeds deriving from transactions with offshore króna assets falling under the scope of Act No. 37/2016.
on the Treatment of Króna-Denominated Assets Subject to Special Restrictions.

On receiving confirmation from the CBI, individuals were permitted to withdraw a maximum of ISK 100 million (previous limit was ISK 1 million) a calendar year from offshore króna accounts, provided the offshore króna assets have been continuously owned by the beneficial owner since November 28, 2008. Effective March 5, 2019, offshore króna owners’ authorizations to withdraw funds from accounts subject to special restrictions were expanded and all offshore króna owners were given a chance to release their offshore króna assets. ---

**Controls on real estate transactions**
Yes.

**Purchase abroad by residents**
No. Residents may purchase real estate abroad with no restrictions.

**Purchase locally by nonresidents**
Yes. Ownership of real estate in Iceland is subject to the following conditions: (1) Individual owners must have a domicile in Iceland; (2) all owners of unlimited liability companies must be Icelandic citizens; (3) joint-stock companies must be registered in Iceland, with at least 80% ownership by Icelandic citizens, and all members of the board of directors must be Icelandic citizens (Article 1, Act on Proprietary Rights and User Rights of Real Estate No. 196/19); and (4) Icelandic citizens must control the majority of the voting power at annual meetings. The same conditions apply to real estate leased for more than three years and to lease agreements that cannot be terminated with less than one year’s notice. However, a company with an operating license in Iceland may acquire real estate for its own use as long as the license does not include the right to exploit natural resources. Citizens of the EEA and other foreigners who have lived in Iceland at least five years are exempt. The minister of justice may grant others exemption from these requirements. Controls do not apply to the development or purchase of real estate (1) by limited liability companies whose nonresident ownership is less than one-fifth of the total equity and in which Icelandic citizens hold a majority of the total voting power; and (2) if authorization is granted.

**Sale locally by nonresidents**
No. Nonresidents may sell real estate locally without restrictions, and proceeds from the sale of real estate in Iceland by nonresidents are convertible and transferable.

**Controls on personal capital transactions**
Yes.

**Loans**
Yes.

**By residents to nonresidents**
Yes. Repayment of loans extended in foreign currency, in krónur, and repayment of króna loans, in foreign currency, are permitted. Restrictions on foreign exchange transactions and cross-border movement of domestic and foreign currency were largely lifted, and borrowing and lending not restricted. This does not apply to assets that fall under the scope of Act No. 37/2016 on the Treatment of Króna-Denominated Assets Subject to Special Restrictions. Effective April 3, 2019, lending in foreign currency to nonresidents no longer requires CBI confirmation that the loan is not allocated directly or indirectly to (1) investments in bonds or bills issued in
domestic currency and electronically registered pursuant to the Act on Electronic Registration of Title to Securities; (2) deposits in domestic currency with deposit institutions in Iceland that bear annual interest of 3% or more; (3) investments in unit share certificates of funds that invest in bonds or bills issued in domestic currency and electronically, pursuant to the Act on Electronic Registration of Title to Securities, or that own domestic currency deposits held at deposit institutions in Iceland, if cash and deposits bearing annual interest of 3% or more constitute 10% or more of the funds’ assets; or (4) investments in the equity of a company that invests or allocates funds, directly or indirectly, in the manner described in items (1)–(3).

To residents from nonresidents

No.

There are no restrictions on prepayment or retirement of loans in foreign currency, and borrowing from nonresidents. Foreign currency may be purchased for krónur for the extension of loans. Repayment of loans extended in foreign currency, in krónur, and repayment of króna loans, in foreign currency, are permitted.

Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions

Yes. Commercial banks, savings banks, and other credit institutions operating under the supervision of the Financial Supervisory
Authority may enter into spot, forward, and swap transactions and borrow in foreign currency and are exempt from the repatriation requirement. Act No. 17/2012 rescinds exemption (1) for payments from bankruptcy and payments of contractual claims in accordance with the composition of creditors’ agreements in domestic currency when payment is disbursed from the payer’s account with a financial institution in Iceland; and (2) from the prohibition against cross-border movement of foreign currency accrued after March 2012, which previously applied to bank resolution and winding-up committees.

Under Foreign Exchange Act No. 87/1992, the CBI exemptions for financial institutions and legal entities controlled by the Financial Supervisory Authority through a resolution committee or provisional board of directors or legal entities with a winding-up board appointed under Act No. 161/2002—if the exemption involves authorization for foreign currency trading and cross-border capital movement exceeding ISK 25 billion annually—are granted only after consultation with the minister of finance and economic affairs and the minister responsible for financial market affairs, following a presentation by the minister to the Economic and Trade Committee of the Althingi (parliament) on their economic impact.

### Borrowing abroad

No. Commercial banks, savings banks, and other credit institutions operating under the supervision of the Financial Supervisory Authority may borrow abroad.

### Maintenance of accounts abroad

No. There are no controls on the opening of accounts abroad.

### Lending to nonresidents (financial or commercial credits)

No. Commercial banks, savings banks, and other credit institutions operating under the supervision of the Financial Supervisory Authority may lend abroad.

### Lending locally in foreign exchange

No. There are no controls on foreign-exchange-denominated loans. Foreign-exchange-indexed loans are prohibited under a 2001 law. Foreign exchange indexation of leasing contracts is also illegal. In 2010, the Supreme Court ruled that a financial contract presented as a leasing contract was actually a loan contract, and the contract’s foreign exchange indexation was thus ruled illegal under the 2001 law.

### Purchase of locally issued securities denominated in foreign exchange

Yes. There are no restrictions on investment in securities, mutual fund and investment funds units, money market instruments, other negotiable financial instruments, monetary claims and other comparable claims in foreign currency.

### Differential treatment of deposit accounts in foreign exchange

No. Reserve requirements

No. Liquid asset requirements

No. Interest rate controls

No. Credit controls

### Differential treatment of deposit accounts held by nonresidents

No. Reserve requirements

No. Liquid asset requirements

No. Interest rate controls

No. Credit controls

**Changes during 2018 and 2019**

**Arrangements for Payments and Receipts**

**Prescription of currency requirements**

**Controls on the use of domestic currency**

**For capital transactions**

**Transactions in capital and money market instruments**

03/05/2019  Offshore króna owners’ authorizations to withdraw funds from accounts subject to special restrictions were expanded and all offshore króna owners were given a chance to release their offshore króna assets. These expanded authorizations are of three types: First is a general authorization for all offshore króna owners to release their offshore króna assets to purchase foreign currency and export it to an account abroad. Second is an authorization for offshore króna owners' account abroad.
owners that have owned offshore króna continuously since November 28, 2008, to release those offshore króna assets from the legal restrictions. Third is an authorization for individuals to withdraw up to ISK 100 million from accounts subject to special restrictions.

**Capital Transactions**

*Controls on capital transactions*

- **11/02/2018** The special reserve ratio was lowered from 40% to 20%.
- **03/06/2019** The special reserve ratio was lowered from 20% to 0%.
- **03/05/2019** Offshore króna owners’ authorizations to withdraw funds from accounts subject to special restrictions were expanded and all offshore króna owners were given a chance to release their offshore króna assets. These expanded authorizations are of three types. First is a general authorization for all offshore króna owners to release their offshore króna assets to purchase foreign currency and export it to an account abroad. Second is an authorization for offshore króna owners that have owned offshore króna continuously since November 28, 2008, to release those offshore króna assets from the legal restrictions. Third is an authorization for individuals to withdraw up to ISK 100 million from accounts subject to special restrictions.
- **04/03/2019** The following restrictions on cross-border movement of Icelandic króna were lifted. First, the restriction on cross-border movement of Icelandic króna when they were related to specified measures involving payment remitted, directly or indirectly, by withdrawal from an account owned by a foreign financial enterprise (Vostro account), was lifted. Second, the restriction on settlement of transactions with further specified financial instruments comparable to those falling under Article 2 of the Rules on Special Reserve Requirements for New Foreign Currency Inflows, No. 490/2016. Third, the restriction on exportation of specified securities, when investment in them had not fallen under the special reserve base described in Article 2 of the Rules on Special Reserve Requirement for New Foreign Currency Inflows.

<tbody>
<tr>
<td>Crawl-like arrangement</td>
<td>Yes.</td>
<td>Yes.</td>
</tr>
<tr>
<td>Pegged exchange rate within horizontal bands</td>
<td>The de jure and de facto exchange rate arrangements are floating. The exchange rate of the rupee is largely market determined, but the Reserve Bank of India (RBI) intervenes in the domestic foreign exchange market to manage excessive volatility and maintain orderly conditions without any fixed target or band for the exchange rate. The RBI publishes monthly data on its interventions (foreign exchange purchases and sales) in its monthly bulletin with a six-week lag.</td>
<td>Effective July 10, 2018, Financial Benchmarks India Private Limited (FBIL) has taken over the responsibility of computation and dissemination of reference rate for USD/INR and exchange rate of other major currencies. Previously, the RBI compiled and published on a daily basis the reference rate for spot US dollar–Indian rupee. Based on the reference rate for the US dollar and middle rates of the cross-currency quotes, the RBI published exchange rates of euro, pound sterling, and Japanese yen against the rupee on a daily basis. The FBIL reference rate for spot US dollar against the Indian rupee is computed on the basis of the volume-weighted average of the actual market transactions that have taken place during a randomly selected 15-minute window between 1130 hours and 1230 hours every weekday. A $\pm 3$ standard deviation rule is applied to the transaction data, as above, to remove outliers. For calculation of EURO/INR, GBP/INR, and JPY/INR reference rates, the closing prices of each cross-currency pair, that is, EURO/USD, GBP/USD, and USD/JPY as depicted in the one-minute charts over the 15-minute time period, are obtained from any electronic platform. All the cross-currency rates are taken from the same randomly selected time period of 15 minutes between 1130 hours and 1230 hours that is used for the calculation of USD/INR reference rate. The mean of the closing prices (closing price of each minute during the 15-minute window), so obtained, is crossed with the USD/INR reference rate to calculate the EURO/INR, GBP/INR, and JPY/INR reference rates. The reference rates are used for the settlement of exchange-traded currency futures and options. The foreign exchange transactions of the Government of India (GOI) undertaken through RBI take place at the reference rate. The RBI’s foreign currency assets and liabilities are revalued at weekly and monthly intervals using the reference rate. The IMF also uses the rate for revaluation of SDRs. As stated by the Notification RBI/2018-19/34 of August 2, 2018, banks are advised to use the conversion rate announced by FBIL for the purpose of converting foreign assets/liabilities for reporting in Form “A” return and Form VIII return. The change is to bring into effect from the reporting fortnight ending effective July 20, 2018. As regards conversion of assets/liabilities in other currencies, for which reference rate is not available from FBIL, banks may continue to use New York closing rate pertaining to the day end of the Reporting Friday, for converting such currencies to USD. Banks may use the reference rate of FBIL for USD/INR of the same day for conversion to INR.</td>
</tr>
</tbody>

Monetary policy framework
The RBI Act, 1934, as amended in 2016 provides for the statutory basis for implementing the flexible inflation-targeting framework.

The RBI Act provides for the inflation target to be set by the GOI, in consultation with the RBI, once in every five years. The RBI Act, 1934, also provides for a six-member monetary policy committee (MPC) to determine the policy interest rate required to achieve the inflation target. The MPC was constituted on September 29, 2016, and it held its first meeting on October 3 and 4, 2016.

Inflation target for the period beginning from August 5, 2016, and ending on March 31, 2021, is as follows:
- Inflation target: 4%.
- Upper tolerance level: 6%.
- Lower tolerance level: 2%.

The 4% consumer price index inflation target is for the period from August 5, 2016, to March 31, 2021.

The policy repo rate is the (fixed) interest rate at which the RBI provides overnight liquidity to banks against the collateral of government and other approved securities under the liquidity adjustment facility. The policy repo rate was changed to 5.75% on June 6, 2019.

The weighted average call rate (WACR) is the operating target of...
monetary policy. The reverse repo rate, at which the RBI absorbs liquidity, on an overnight basis, from banks against the collateral of eligible Government securities (G-Secs), constitutes the lower band and the marginal standing facility rate, at which scheduled commercial banks can borrow additional amount of overnight money from the RBI, constitutes the upper band of the target corridor. The reverse repo rate under the liquidity adjustment facility stands at 5.50% and the marginal standing facility at 6.0%.

The marginal standing facility rate and the reverse repo rate determine the corridor for the movement in the weighted average call money rate.

Other

n.a.

Parliamentary hearings

n.a.

Other

Yes.

The Central Government announced the following as factors that constitute failure to achieve the inflation target: (1) the average inflation is more than the upper tolerance level of the inflation target for any three consecutive quarters; or (2) the average inflation is less than the lower tolerance level for any three consecutive quarters.

In the event of failure to achieve the target, the RBI will report to the government on: (1) reasons for the deviation of inflation from the target over three consecutive quarters, (2) remedial measures, and (3) an estimated time frame over which inflation will be brought back to the target.

Transparency

Yes.

Publication of votes

Yes.

According to Section 45ZL of the amended RBI Act, 1934, the Reserve Bank publishes, on the fourteenth day after every meeting of the MPC, the minutes of the proceedings of the meeting which include the following:

(1) the resolution adopted at the meeting of the MPC;
(2) the vote of each member of the MPC, ascribed to such member, on the resolution adopted in the said meeting; and
(3) the statement of each member of the MPC under Subsection (11) of Section 45ZI on the resolution adopted in the said meeting.

Publication of minutes

Yes.

According to Section 45ZL of the amended RBI Act, 1934, the Reserve Bank publishes, on the fourteenth day after every meeting of the MPC, the minutes of the proceedings of the meeting which include the following:

(1) the resolution adopted at the meeting of the MPC;
(2) the vote of each member of the MPC, ascribed to such member, on the resolution adopted in the said meeting; and
(3) the statement of each member of the MPC under Subsection (11) of Section 45ZI on the resolution adopted in the said meeting.

Publication of inflation forecasts

Yes.

The MPC, in its bimonthly resolutions, sets out an inflation forecast path for about a year ahead. Apart from this, the RBI is required to publish the forecast of inflation for 6–18 months ahead in its Monetary Policy Report, once in every six months.

<tr>
<td><strong>Over the counter</strong></td>
<td>Yes.</td>
<td>The foreign exchange market is largely an OTC market. In addition, exchange-traded currency futures and options (including cross-currency futures) are permitted. A Legal Entity Identifier (LEI) system is applied to all supervised financial entities and certain corporates who participate in the OTC markets for rupee interest rate derivatives, foreign currency derivatives, and credit derivatives in India. Other corporates would have to comply in a phased manner. Accordingly, all current and future participants would be required to obtain the unique LEI code as per specific time lines. Entities without an LEI code would not be eligible to participate in the OTC derivative markets, after September 30, 2018. The LEI code was conceived as a key measure to improve the quality and accuracy of financial data systems for better risk management. The LEI is a 20-character unique identity code assigned to entities who are parties to a financial transaction. Effective January 1, 2018, the scheme of simplified hedging facility was implemented for OTC derivatives and exchange-traded currency derivative. The facility was introduced with a view to simplify the process for hedging exchange rate risk by reducing documentation requirements, avoiding prescriptive stipulations regarding products, purpose and hedging flexibility, and to encourage a more dynamic and efficient hedging culture. This facility applies to both resident and nonresident entities other than individuals. The simplified hedging facility would operate under certain conditions including: A cap on outstanding contracts of US$30 million or equivalent, on a gross basis, which could be extended up to 150% of the stipulated cap.</td>

</table>
through brokers. Such brokers are accredited by the Foreign Exchange Dealers Association of India, a self-regulated organization, to operate in the market.

All AD banks may function as market makers. There are no market-making agreements or other similar agreements.

ADs may deal forward in any permitted currency. The RBI may enter into swap transactions with ADs, under which it buys and sells US dollars spot and forward at maturities available in the market. Residents may enter into forward contracts with ADs to hedge against exchange rate risk. Outstanding forward contracts of importers and exporters booked on the basis of past performance must not exceed 100% of the eligible limit, and gains/losses up to 75% of the eligible limit may be canceled and profits on such canceled contracts can be passed on to the resident. Beyond 75% of eligible limit, contracts must be on a deliverable basis. The eligible limit is defined as the past three years’ average of actual export or import turnover or the previous year’s actual turnover, whichever is higher for exporters or importers. A resident with an underlying exposure may enter into a forward contract with an AD in India to hedge exposure to exchange rate risk for the full amount of the contract. ADs may provide forward exchange cover to foreign portfolio investors (FPIs) up to the market value of their investments in equities and/or debt in India as of a particular date. The limit for calculating the eligibility for rebooking is based on the market value of the portfolio at the beginning of the financial year. Outstanding contracts must be supported by underlying exposure at all times. ADs must ensure that total forward contracts outstanding do not exceed the market value of the portfolio. ADs may enter into forward contracts with residents outside India to hedge their investments made in India after January 1, 1993, subject to verification of exposure in India. ADs may also provide forward cover not exceeding six months to foreign direct investors to hedge currency risk arising from proposed direct investment in India, after ensuring compliance with necessary approvals (where applicable).

Nonresident Indians (NRIs) may enter into forward contracts with ADs to hedge dividends due to them on shares held in an Indian company or balances held in foreign currency nonresident (FCNR) accounts or nonresident external (NRE) accounts in India denominated in Indian rupees. NRIs are also eligible for forward cover for their portfolio investments. ADs may offer plain-vanilla European forward options to customers who have genuine foreign currency exposures. All conditions applicable to booking, rolling over, and canceling forward contracts apply to options contracts. Only one hedge transaction may be booked against a particular exposure or part thereof for a given time period. Residents with overseas direct investment (ODI) in equities and loans may hedge against exchange rate risk arising from such investments. ADs may provide forward cover to hedge the economic exposure of importers in the customs duty payable on imports. Small and medium enterprises with direct or indirect foreign exchange risk and resident individuals may book forward contracts without supplying underlying documents, provided such contracts are booked through AD Category-I banks with which small and medium enterprises have credit facilities.

Currency futures and options are traded on the National Stock Exchange (NSE), Bombay Stock Exchange (BSE), and Multi Commodity Exchange (MCX-SX). FPIs eligible to invest in Indian debt and equity assets under Foreign Exchange Management Act (FEMA), 1999, may access the domestic exchange-traded currency derivatives (ETCD) market to hedge currency risk arising from the
market value of their exposure to Indian debt and equity securities. Effective February 26, 2018, threshold for establishing underlying exposures was relaxed and rationalized: Residents FPIs can now take positions (long or short), without having to establish existence of underlying exposure, up to a single limit of US$100 million equivalent across all currency pairs involving INR, put together, and combined across all exchanges. A long position exceeding these limits in any exchange requires an underlying exposure. Previously, domestic participants and FPIs may take long (buy) and short (sell) positions in US dollar–rupee pairs of currency derivatives up to US$15 million an exchange without having to establish existence of underlying exposure. They may also take long and short positions in euro–rupee, pound sterling–rupee, and Japanese yen–rupee pairs totaling up to the equivalent of US$5 million an exchange without having to establish existence of underlying exposure.

Official cover of forward operations Yes. The Export Credit Guarantee Corporation of India Ltd. insures against exchange rate fluctuation for deferred receivables from the date of a bid up to 15 years after a contract is awarded. Exchange rate cover is offered in Australian dollars, euros, Japanese yen, pounds sterling, Swiss francs, U.A.E. dirhams, and US dollars. For payments specified in other convertible currencies, cover is provided at the discretion of the Export Credit Guarantee Corporation of India Ltd.

Arrangements for Payments and Receipts

Prescription of currency requirements Yes. For prescription of currency purposes, countries are divided into two groups: (1) ACU members and (2) the external group (all other countries). For the first group, except Bhutan and Nepal, payments for eligible current international transactions must be settled through the ACU. For Nepal and Bhutan, these are settled in Indian rupees. In other cases, payments may be settled in any permitted currency. Payment for imports of oil and gas is permitted outside the ACU mechanism, and all eligible current account transactions, including trade transactions with the Islamic Republic of Iran, must be settled in any permitted currency outside the ACU mechanism. Trade settlements are made through ACU dollar or ACU euro accounts, which are replenished through the RBI. Members of ACU are now permitted to use nostro accounts of the commercial banks of ACU countries, that is, ACU dollar or ACU euro accounts, for settling the payments of both exports and imports (A.P. (DIR Series) Circular No. 21 of October 08, 2015). Payments to countries in the second group may be made in rupees to the account of a resident of any of these countries or in any permitted currency, and receipts from these countries may be obtained in rupees from banks in any of these countries or in any permitted currency. However, special rules may apply to exports under lines of credit extended by the GOI to the governments of certain foreign countries.

Controls on the use of domestic currency Yes.

For current transactions and payments Yes. For prescription of currency purposes, countries are divided into two groups: (1) ACU members and (2) the external group (all other countries). For the first group, except Bhutan and Nepal, payments for eligible current international transactions must be settled through the ACU. For Nepal and Bhutan, these are settled in Indian rupees. In other cases, payments may be settled in any permitted currency. Payment for imports of oil and gas is permitted outside the ACU mechanism, and all eligible current account transactions, including trade transactions with the Islamic Republic of Iran, must be settled
in any permitted currency outside the ACU mechanism (since December 27, 2010). Trade settlements are made through ACU dollar. Members of ACU are now permitted to use nostro accounts of the commercial banks of ACU countries from October 8, 2015, that is, ACU dollar or ACU euro accounts, for settling the payments of both exports and imports (A.P. (DIR Series) Circular No. 21 of October 08, 2015). Since July 1, 2016, all eligible current account transactions including trade transactions in euro are permitted to be settled outside the ACU mechanism till further notice. Payments to countries in the second group may be made in rupees to the account of a resident of any of these countries or in any permitted currency, and receipts from these countries may be obtained in rupees from banks in any of these countries or in any permitted currency. However, special rules may apply to exports under lines of credit extended by the GOI to the governments of certain foreign countries.

India and Russia have an Interbanking Arrangement, signed in 1992, for repayment of state credits granted by the erstwhile Soviet Union. Currently, the rupee balances are being used for trade settlements/exports from India.

India is a member of the ACU.

AMU is the common unit of the ACU account. AMU is denominated as ACU dollar and ACU euro which is equivalent in value to US$1 and €1, respectively. However, since January 1, 2016, all eligible current account transactions including trade transactions in euro are permitted to be settled outside the ACU mechanism until further notice. Although Bhutan and Nepal are members of the ACU, trade with these countries is settled outside the ACU. At present, trade with the Islamic Republic of Iran is also settled outside the ACU mechanism. Transactions with Nepal and Bhutan are settled in Indian rupees. Transactions with Nepal may also be settled in any freely convertible currency if permitted by the Nepal Rastra Bank. Transactions with all other ACU members are settled through ACU dollar. Since July 1, 2016, all eligible current account transactions including trade transactions in euro are permitted to be settled outside the ACU mechanism until further notice. Presently, there are no barter trade agreements with any country. All trade transactions with Myanmar can be settled in any freely convertible currency in addition to the ACU mechanism.

Exchange management is administered by the RBI in accordance with the FEMA, 1999, and the general policy established by the
government, in consultation with the RBI. Much of the routine work of exchange control is delegated to authorized persons. Import and export licenses, where necessary, are issued by the director general of foreign trade.

Domestic gold sales must be made against up-front payments. Banks may grant gold metal loans. While imports of gold coins and medallions are no longer prohibited, pending further review, the restrictions on banks regarding selling gold coins and medallions have not been removed.

Guidelines related to restrictions/control regarding exports and imports of gold are mentioned in the FTP issued by the Directorate General of Foreign Trade (DGFT), GOI. RBI guidelines in respect of import of gold are as given below:

The 20:80 scheme of import of gold was withdrawn on November 28, 2014. However, the obligation to export under the 20:80 scheme would apply to the unutilized gold imported before November 28, 2014.

Nominated banks and nominated agencies, as notified by the DGFT, are permitted to import gold on consignment basis. All sale of gold domestically will, however, be against up-front payment. Nominated banks are free to grant gold metal loans.

The status holder exporters must adhere to the guidelines contained in extant FTP, as amended from time to time.

The import of gold coins and medallions is permitted. However, prohibition on sale of gold coins and medallions by banks continues pending further review.

**Domestic currency**

Any person resident in India: (1) may take outside India (other than to Nepal and Bhutan) currency notes of GOI and RBI notes up to an amount not exceeding Rs 25,000 a person or such amount and subject to such conditions as notified by the RBI from time to time and (2) may take or send outside India (other than to Nepal and Bhutan) commemorative coins not exceeding two coins each.

Effective February 26, 2019, by Amendment Notification No. FEMA 6(R)/(1)/2019-RB of February 26, 2019, an individual traveling from India to Nepal or Bhutan can carry RBI notes of Mahatma Gandhi (new) Series of denominations Rs 200 and/or Rs 500 up to a total limit of Rs 25,000. Previously, individual traveling from India to Nepal or Bhutan could carry RBI currency notes of denominations Rs 500 and/or Rs 1,000 up to a limit of Rs 25,000.

**Foreign currency**

An AD may transfer abroad foreign currency acquired in the normal course of business. Any person may take out of India:

(1) foreign exchange possessed by him in accordance with the Foreign Exchange Management (Possession and Retention of Foreign Currency) Regulations, 2015;

(2) unspent foreign exchange brought back by him to India while returning from travel abroad and retained in accordance with the Foreign Exchange Management (Possession and Retention of
Foreign Currency) Regulations, 2015. Any person resident outside India may take out of India unspent foreign exchange not exceeding the amount brought in by him and declared in accordance with the proviso to clause (b) of Regulation 6, on his arrival in India of Foreign Exchange Management (Export and Import of Currency) Regulations, 2015.

| On imports | Yes. |
| Domestic currency | Yes. |
| Foreign currency | No. |

Foreign exchange may be brought in without limit, provided the total amount is declared to the customs authorities on arrival, if the value of foreign notes, coins, and traveler’s checks exceeds US$10,000 or its equivalent and/or if the aggregate value of foreign currency notes brought in at any one time exceeds US$5,000 or its equivalent.

This information can be found at the AREAER ONLINE database: [http://www.elibrary-areaer.imf.org/Pages/Reports.aspx](http://www.elibrary-areaer.imf.org/Pages/Reports.aspx).

### Resident Accounts

| Foreign exchange accounts permitted | Yes. |
| Held domestically | Yes. |

Foreign exchange earners along with resident close relative(s) may open exchange earners’ foreign currency (EEFC) accounts and credit these accounts with up to 100% of their foreign exchange earnings. EEFC accounts do not earn interest. Exporters may credit 100% of their foreign exchange earnings to an EEFC account; total accruals in the account during a calendar month must be converted to rupees on or before the last day of the subsequent calendar month after adjusting for approved purposes and forward commitments. Credit may not be made available against the balances in these accounts. Balances may be used for trade-related loans to foreign importers.

Residents and their close relatives may hold resident foreign currency (RFC) domestic accounts with an AD. These accounts do not earn interest and may be credited with foreign exchange from the following sources: (1) exports of goods or services, (2) gifts or honoraria while abroad, (3) legal transactions with nonresidents in India, (4) remaining balances from travel abroad, and (5) proceeds of life insurance claims settled in foreign currency. As long as the foreign exchange is acquired by one of these means, there is no limit on the account balance. A person resident in India may open RFC accounts with foreign exchange from pensions and other payments from overseas employers or with other receipts, such as gifts or inheritances, permitted under the regulations. The balance may be used for any permissible purpose and freely abroad.

Effective February 27, 2019, an AD in India may, subject to the directions as may be issued by the RBI, allow ship-manning/crew managing agencies in India and re-insurance and composite insurance brokers registered with Insurance Regulatory and Development Authority of India (IRDAI) to open and maintain non-interest-bearing foreign currency accounts in India for the purpose of undertaking transactions in the ordinary course of their business.
RBI approval is required for foreign exchange accounts, held either domestically or abroad, except for those covered by general permission granted by the RBI.

Resident individuals may open and maintain foreign exchange accounts abroad, which may be used to remit up to the equivalent of US$250,000 a financial year for all permissible current and capital account transactions or a combination of both under the Liberalized Remittance Scheme (LRS) of 2015–16. Specific approval is required for remittances in excess of this limit and for other transactions. In addition to accounts with ADs and the Export-Import Bank (EXIM Bank), the RBI Working Group may permit exporters to open, maintain, and operate one or more foreign exchange accounts in the currency of their choice with interproject transferability of funds in any currency or country. The transfer of funds between projects is monitored by those issuing the permit. Exporters may use cash surpluses generated outside India for the following: (1) short-term investments abroad, including in Treasury Bills (T-Bills) and other monetary instruments with a maturity or remaining maturity of one year or less and with a rating at least A-1/AAA by Standard & Poor’s, P-1/Aaa by Moody’s Investors Service, or F1/AAA by Fitch IBCA or an acceptable rating from another major rating agency; and (2) deposits with branches/subsidiaries outside India of an AD Category-I bank in India.

An Indian party (IP) (as defined for ODI) may have a foreign currency account abroad for the purpose of ODI, subject to certain conditions—for example, if the host-country law stipulates that investment must be routed through a designated account. External Commercial Borrowing (ECB) proceeds meant only for foreign currency expenditure to be kept abroad pending utilization in deposits with overseas branches/subsidiaries of Indian banks abroad.

Certain transactions as well as remittances in excess of specified limits require approval.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Nonresident Accounts**

FCNR accounts (Banks-Scheme B) in freely convertible foreign currency are permitted for NRIs and people of Indian origin (PIOs). These must be in the form of term deposits of one- to five-year maturity in any foreign currency that is freely convertible. Diplomatic missions and their staff and nondiplomatic staff with official passports may open foreign exchange accounts with ADs without RBI approval, subject to certain conditions. Accounts related to countries other than Bhutan and Nepal are treated as nonresident accounts. NRIs in Nepal and Bhutan may open foreign exchange accounts, provided they are funded with permitted foreign exchange. FDI proceeds may be credited to an FCNR (B) account, provided the original acquisition was from inward remittance or funds in an NRE/FCNR (B) account. Balances may be repatriated at any time without RBI approval. NRIs may use new remittances or funds in FCNR accounts for (1) portfolio investment with repatriation benefits of up to 5% of the paid-up capital, provided total holdings of shares and convertible debentures under the Portfolio Investment Scheme (PIS) do not exceed 10% (24% with a special board resolution passed at a general meeting of the company) of the paid-up capital; and (2) deposits with branches/subsidiaries outside India of an AD Category-I bank in India.
up capital of the company or of the total paid-in value of each series of its convertible debentures; (2) existing joint-venture (JV) companies to raise the ratio of foreign equity shares to prescribed percentages of their capital through expansion of their capital base or through preferential allocation of shares to foreign investors; and (3) investment (only NRIs) on a non-repatriation basis in money market mutual funds (MFs).

The interest rate ceiling on FCNR (B) deposits of maturities between one and three years is LIBOR/swap rates plus 200 bps and for maturities between three and five years it was decreased from LIBOR/swap rates plus 400 bps to LIBOR/swap rates plus 300 bps. Banks may grant loans, in rupees and foreign exchange, against FCNR (B) fixed deposits to the depositors or to third parties without limit, subject to margin requirements.

Residents may be joint holders in FCNR accounts. NRIs and PIOs may open FCNR (B) accounts with a resident close relative(s) as joint holder(s) on a “former or survivor” basis. Borrowing not exceeding US$250,000 or its equivalent by residents from close relatives outside India of the borrower is permitted by the RBI, provided the loan is interest free and the minimum maturity is one year, subject to certain conditions. AD Category-I banks may allow repayment of such loans to the NRE/FCNR (B) account of the lender concerned, subject to conditions.

Approval required: No.

Domestic currency accounts: Yes.

Convertible into foreign currency: Yes.

Diplomatic missions and their personnel and family members may open rupee accounts with ADs. Foreign companies may not open new NRE accounts. NRIs and PIOs may maintain NRE rupee accounts with a resident close relative(s) as joint holder(s) on a “former or survivor” basis.

The interest rates offered by banks on NRE deposits may not exceed those offered by them on comparable domestic rupee deposits. FDI proceeds may be credited to an NRE account, provided the original acquisition was from inward remittance or funds held in an NRE/FCNR (B) account. Balances may be repatriated at any time without RBI approval. NRIs may use funds from new remittances or in their NRE accounts for (1) portfolio investments with repatriation benefits of up to 5% of the paid-up capital, provided their total holdings of shares and convertible debentures under the PIS do not exceed 10% (24% with a special board resolution passed at a general meeting of the company) of the paid-up capital of the company or of the total paid-in value of each series of its convertible debentures; (2) existing JV companies to raise the ratio of foreign equity shares to prescribed percentages of their capital through expansion of their capital base or preferential allocation of shares to foreign investors; and (3) investment on a non-repatriation basis in money market MFs (only NRIs).

Balances in such accounts are freely convertible. Banks may freely set their interest rates on savings deposits and term deposits with maturities of one year or more. However, interest rates may not exceed those offered on comparable domestic rupee deposits. Gifts to NRIs may be credited to nonresident ordinary (NRO) accounts in rupees. Residents may make rupee gifts up to US$250,000 a financial year, as permitted under the LRS to an NRI or PIO who is a close relative through a cross-checked/electronic transfer to an NRO account. NRIs may transfer funds from NRO accounts within the overall ceiling of US$1 million a financial year subject to payment of applicable taxes (that is, when the funds are

### Imports and Import Payments

**Foreign exchange budget**

No.

**Financing requirements for imports**

Yes. The RBI allows requests from exporters through their AD Category-I banks to offset export receivables against import payables of the same foreign buyer and supplier, subject to certain terms and conditions.

**Minimum financing requirements**

No. There are no minimum financing requirements for imports. AD Category-I banks may, however, need to obtain information from importers and verify the bona fide of the transactions before remittance.

**Advance payment requirements**

Yes. ADs may allow unlimited advance remittances against imports of goods, but importers must provide a standby LC or bank guarantee for amounts over US$200,000. ADs, at their discretion, may allow advance remittance up to US$5 million without a bank guarantee or standby LC if the importer is legitimate and has a satisfactory track record. ADs may make advance remittances without a bank guarantee or standby LC for the importation of rough diamonds from certain mining companies and aircraft, helicopter, or other aviation-related purchases up to US$50 million. ADs may allow unlimited advance remittances against imports of services, though importers must provide a bank guarantee if the amount exceeds US$500,000. Government and public sector companies require a specific waiver of the bank guarantee from the MOF for advance payments above US$100,000 for imports of both goods and services. In case of merchanting trade transactions, merchanting traders may make advance payment for the import leg if required by the overseas seller. If inward remittance from the overseas buyer is not received before the outward remittance to the overseas supplier, the AD bank may handle such transactions by providing a facility based on commercial judgment. It must, however, be assured that any such advance payment for the import leg beyond US$200,000 a transaction will be paid against a bank guarantee/LC from a reputable international bank, except in cases and to the extent payment for the export leg was received in advance.

**Advance import deposits**

No.

**Documentation requirements for release of foreign exchange for imports**

Yes.

**Domiciliation requirements**

No. These may be required by the terms of an LC.

**Preshipment inspection**

No. These may be required by the terms of an LC.

**Letters of credit**

Yes. These may be required where applicable.

**Import licenses used as exchange licenses**

Yes. As per Foreign Trade Policy.

**Other**

Yes. AD Category-I banks may need to obtain information from importers and verify the bona fide of the transactions before remittance. Documentary evidence is required for foreign exchange payments for...
imports exceeding the equivalent of US$100,000. ADs must notify the RBI when documentation does not accompany imports valued at US$100,000 or more. If the amount of the transaction is less than US$1 million, ADs may accept either (1) the exchange control copy of the bill of entry for home consumption or (2) a certificate from the chief executive officer or an auditor of the importing company stating that the goods for which payment was made were imported into India, if the importing company is listed on a stock exchange in India and had a net worth of at least Rs 1 billion on the date of the most recent audited balance sheet or is an entity of the GOI or a public sector company or entity whose accounts are audited by the comptroller and auditor general of India. A credit report on the overseas supplier (when import documents are received directly) is not necessary if the invoice value does not exceed US$300,000, provided the ADs are satisfied as to the bona fide nature of the transaction and track record of the importer.

| Import licenses and other nontariff measures | Yes. | These are decided by the GOI from time to time. |
| Positive list | Yes. |
| Negative list | Yes. |
| Open general licenses | No. |
| Licenses with quotas | No. |
| Other nontariff measures | Yes. |
| Import taxes and/or tariffs | Yes. | These are decided by the GOI from time to time. |
| Taxes collected through the exchange system | No. |
| State import monopoly | Yes. | These are as per the FTP updated by the DGFT from time to time. |
| References to legal instruments and hyperlinks | Yes. | This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx. |

Exports and Export Proceeds

Repatriation requirements | Yes. | The period of realization and repatriation of export proceeds is nine months from the date of export and it includes all exporters, including units in SEZs, status holder exporters, EOU, units in electronic hardware technology parks (EHTPs), software technology parks (STPs), and biotechnology parks (BTPs). Exporters must obtain permission from an AD if the export proceeds are not collected within the prescribed period. ADs may extend the period of realization of export proceeds beyond the stipulated period of realization from the date of export up to six months at a time, regardless of the invoice value of the export, subject to conditions. In case of goods exported to Indian-owned warehouses established outside India, the proceeds must be realized within 15 months from the date of shipment of goods. The RBI also administers a program referred to as “Project Exports” under which engineering goods may be exported under deferred payment terms. Project Export also includes execution of turnkey projects and civil construction contracts abroad. Indian exporters are required to obtain the approval of AD Category-I banks/EXIM Bank (Export-Import Bank of India) at post-award stage before undertaking execution of such contracts. Accordingly, AD banks/EXIM Bank may consider post-award approval for Project Exports without monetary limit and permit subsequent changes in the terms of post-award approval within the
relevant FEMA guidelines/regulations. Project and service exporters may approach AD banks/EXIM Bank based on their commercial judgment. The respective AD bank/EXIM Bank must monitor the projects for which they grant post-award approval. Exporters executing Project Export contracts are not required to recover the market value of equipment and machinery from the transferee project. Exporters may use the machinery/equipment for any other contract in any country, with approval of the relevant authority. In case of Project Export, software companies do not have to repatriate 30% of the contract value of on-site contracts; however, the profits must be repatriated after the completion of the contract.

Surrender requirements
Yes.

Surrender to the central bank
No.

Surrender to authorized dealers
Yes. Exporters may credit 100% of their foreign exchange earnings to an EEFC account; total accruals in the account during a calendar month must be converted to rupees on or before the last day of the subsequent calendar month after adjusting for approved purposes and forward commitments.

Status holder exporters may write off outstanding export proceeds up to 10% (5% for other than status holder exporters) of their total export proceeds realized during the previous calendar year. ADs may allow reduction in the export invoice value in case of normal exporters, provided the reduction does not exceed 25% of the invoice value, subject to regulatory conditions. In case of exporters who have been in the export business or more than three years, reduction in invoice value may be allowed, without any percentage ceiling, subject to regulatory conditions.

Financing requirements
No.

Documentation requirements
Yes. These may be required where applicable.

Letters of credit
Yes. These may be required where applicable.

Guarantees
Yes. These may be required where applicable.

Domiciliation
No. This may be required by the terms of LC.

Preshipment inspection
No. This may be required by the terms of LC.

Other
Yes. Under the Export Data Processing and Monitoring System, exports of goods and services must be declared, irrespective of the invoice value. To facilitate e-commerce, guidelines for facilitating export receivables and import payables are made through online payment gateway service providers.

For third-party payments, with a view to further liberalizing the procedure relating to payments for exports/imports and taking into account evolving international trade practices, according to A.P. (DIR Series) Circular No. 70 of November 08, 2013, AD banks may allow payments for export of goods/software to be received from a third party (a party other than the buyer) subject to the following conditions: (1) The firm irrevocable order must be backed by a tripartite agreement. (2) Third-party payment must be through the banking channel after taking into consideration the Financial Action Task Force (FATF) statement of the country. (3) The exporter must declare the third-party remittance on the export declaration form (EDF). (4) It is the responsibility of the exporter to realize and repatriate the export proceeds from the third party named in the EDF. (5) Reported outstanding amounts, if any, in the export outstanding...
statement (XOS) must continue to be shown in the name of the exporter. However, instead of the name of the overseas buyer, the name of the declared third party must appear in the XOS. (6) Payments for shipments to a country in Group II of restricted cover countries (for example, Somalia, Sudan) may be received from an open cover country.

Note: Restricted cover Group II countries are those with chronic political and economic problems as well as balance of payment difficulties. AD Category-I banks may allow exporters with at least a three-year satisfactory track record to receive long-term export advances up to a tenor of 10 years for execution of long-term supply contracts for exports of goods, subject to certain conditions mentioned therein.

Further, the condition that exporters and importers must have a “firm irrevocable order backed by a tripartite agreement” is not applicable if there is documentary evidence of third-party payments/name of the third party mentioned in the irrevocable order/invoice. The following conditions apply: (1) The AD bank must be satisfied with the bona fides of the transaction and export documents, such as invoice/foreign inward remittance certificate (FIRC); and (2) the AD bank must consider the FATF statements while handling such a transaction.

Export licenses
- Yes. These are subject to the FTP.

Export taxes
- Yes. These are decided by the GOI from time to time.

Collected through the exchange system
- No.

Other export taxes
- Yes.

References to legal instruments and hyperlinks
This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Payments for Invisible Transactions and Current Transfers

Controls on these transfers
- Yes. Residents may obtain foreign exchange for bona fide permissible current account transactions.

Trade-related payments
- Yes. For prescription of currency purposes, countries are divided into two groups: (1) ACU members and (2) the external group (all other countries). For the first group, except Bhutan and Nepal, payments for eligible current international transactions must be settled through the ACU. For Nepal and Bhutan, these are settled in Indian rupees. In other cases, payments may be settled in any permitted currency. Payment for imports of oil and gas is permitted outside the ACU mechanism, and all eligible current account transactions, including trade transactions with the Islamic Republic of Iran, must be settled in any permitted currency outside the ACU mechanism. Trade settlements are made through ACU dollar or ACU euro accounts, which are replenished through the RBI. Members of ACU are now permitted to use nostro accounts of the commercial banks of ACU countries, that is, ACU dollar or ACU euro accounts, for settling the payments of both exports and imports (A.P. (DIR Series) Circular No. 21 of October 08, 2015). Payments to countries in the second group may be made in rupees to the account of a resident of any of these countries or in any permitted currency, and receipts from these countries may be obtained in rupees from banks in any of these countries or in any permitted currency. However, special rules may
apply to exports under lines of credit extended by the GOI to the
governments of certain foreign countries.
(1) Receipt for exports from third party (party other than buyer) is
allowed subject to RBI guidelines, which were introduced vide A.P. (DIR Series) Circular No. 70 of November 8, 2013.
(2) Receipt for export may also be made in form of bank draft, check,
pay order, foreign currency notes/traveler’s check from buyer during visit to India, provided the foreign currency is surrendered within the specified period to AD bank. Receipt for exports may be made by debit to FCNR/NRE account, in rupees from credit card servicing bank in India subject to regulatory conditions, from a rupee account held in the name of exchange house subject to regulatory condition, in accordance with RBI directions in case of arrangement between the Central Government and foreign government/credit arrangement by EXIM Bank with financial institution in foreign state, in form of precious metals in certain cases subject to regulatory conditions. Any receipt for other than exports may be received by means of postal order issued by a post office outside India or by a postal money order issued by such post office. These guidelines are specified under Notification No. FEMA 14 (R)/2016-RB of May 2, 2016.
(3) A payment in foreign exchange by an AD, whether by way of remittance from India or by way of reimbursement to his branch or correspondent outside India against payment for import into India, or against any other payment, must be in the following manner: (a) For ACU countries (other than Nepal, Bhutan, and Iran), payment for import of goods and services by credit to ACU dollar account and/or ACU euro account in India of a bank of the member country in which the other party to the transaction is resident or by debit to the ACU dollar account and/or ACU euro account of the AD maintained with the correspondent bank in that member country; payment in any freely convertible currency in all other cases; payment may be in freely convertible currency or through ACU mechanism for imports from Myanmar; in case of Nepal and Bhutan, payment may be in rupees. In case of Iran, payment for import in any freely convertible currency and/or in accordance with RBI directions; in all other cases as per RBI directions. (b) For all other countries (other than ACU countries), payment in rupees from account of a bank situated in any country other than a member country of the ACU or payment in any freely convertible currency. (c) Payment for import to be made to third party is permitted as per RBI guidelines as per A.P. (DIR Series) Circular No. 70 of November 8, 2013. (d) Payment for import may be made through international card in rupees from international credit card (ICC)/debit card through the credit/debit card servicing bank in India against the charge slip signed by the importer as prescribed by Reserve Bank from time to time subject to regulatory conditions. These guidelines are specified under Notification No. FEMA 14 (R)/2016-RB of May 2, 2016.
(4) Settlement of export and import transactions where the invoicing is in a freely convertible currency and the settlement takes place in the currency of the beneficiary, which though convertible does not have a direct exchange rate, is permitted subject to regulatory requirements. These guidelines are specified in A.P. (DIR Series) Circular No. 42 of February 4, 2016.

| Prior approval | No. |
| Quantitative limits | No. |
| Indicative limits/bona fide test | Yes. |

Remittances by persons other than individuals must require prior approval of the RBI if remittances exceed US$10,000,000 a project for any consultancy services in respect of infrastructure projects and
In case of import payment through online payment gateway service providers, the facility is available for import of goods and software if the value is not exceeding US$2,000.

Remittances are allowed, subject to certain conditions, provided all current taxes and other liabilities have been cleared. Branches of foreign companies operating in India may remit profits to their head offices without RBI approval, subject to payment of applicable taxes and other liabilities.

An overall LRS limit of US$250,000 a financial year applies to individuals for permitted current and capital account transactions. The LRS includes all exchange and remittance facilities, including private/business visits for current account transactions available to resident individuals. No such limits apply to payments made with an ICC issued by overseas banks and other reputed agencies. Foreign exchange is not made available for travel to Bhutan or Nepal or for transactions with residents of these countries. ADs and full-fledged money changers may release the full amount of the basic travel quota entitlement in cash or up to the cash limit specified by the Hajj Committee of India, to Hajj/Umrah pilgrims.

ADs may release foreign exchange beyond indicative limits, where applicable, with RBI approval, on verification of purpose.

Resident individuals may remit up to US$250,000 a financial year for any permitted current or capital account transaction or a combination of both under the LRS. Application cum Declaration for purchase of foreign exchange under the LRS of US$250,000 is clubbed with Form A2 to reduce multiplicity of forms to be filled in by the customers.

The LRS limit available to individuals is US$250,000 for permitted current and capital account transactions. LRS exchange/remittance facilities for current account transactions include remittance for private visits; business visits; gifts or donations; travel abroad for employment; emigration; maintenance of close relatives abroad; expenses in connection with medical treatment abroad; and studies abroad. However, for items such as emigration, expenses in connection with medical treatment abroad and studies abroad, individuals may obtain exchange facility for an amount exceeding the overall limit prescribed under the LRS, if required by the country involved, medical institute offering treatment or the university, respectively. Gifts in Indian rupees by resident individuals to NRI relatives as defined in the Companies Act, 2013, are also subsumed under the LRS limit.

A person who is resident but not permanently resident in India and is a citizen of a foreign country other than Pakistan or a citizen of India who is on deputation to the office or branch of a foreign company or subsidiary or JV in India of such foreign company may remit funds up to the net salary (after taxes, contribution to provident fund, and
A resident individual may also carry out other permissible current account transactions (transactions not explicitly prohibited under Schedule I, or are restricted under Schedules II and III, to Foreign Exchange Management (Current Account Transactions) (FEM CAT) Rules, 2000, as amended) without any limits through an AD bank in India subject to verification of the bona fide of the transaction.

Indicative limits/bona fide test

No. A person other than an individual may also obtain foreign exchange for gifts and donations, within the limit prescribed under the LRS.

Foreign workers' wages

No.

Prior approval

No.

Quantitative limits

No. Foreigners residing in India and employed by a foreign company and Indian citizens employed by a foreign company outside India—and in either case on deputation to the office, branch, subsidiary, or JV in India of such foreign company—may maintain a foreign exchange account with a bank outside India and have their entire salary credited to that account, provided income tax due under the Income Tax Act of 1961 has been paid on the salary accrued in India. Foreigners residing in India and employed by a company incorporated in India may maintain a foreign exchange account with a bank outside India and remit their whole salary in rupees to such account, provided income tax chargeable under the Income Tax Act of 1961 is paid on the salary accrued in India. A person who is resident but not permanently resident in India and is a citizen of a foreign country other than Pakistan or is a citizen of India who is on deputation to the office or branch of a foreign company or subsidiary or JV in India of such foreign company may remit the net salary (after taxes, contribution to the provident fund, and other deductions).

Indicative limits/bona fide test

No. There is no limit or bona fide test prescribed for these transactions; the entire salary net of taxes can be remitted outside India. The RBI does not prescribe the documentation, which should be verified by the AD bank when permitting remittances for various transactions.

Credit card use abroad

Yes. Travelers may use ICCs for all purposes, including for the purchase of articles for personal use, subject to the limits established by the card provider. The basic travel quota may also be obtained through the use of credit cards. The use of ICCs is allowed for imports of books, computer software, and other items through the Internet, with the exception of prohibited items, such as lottery tickets, sweepstakes participation, banned or proscribed subscriptions, and payments for callback services. Debit and automated teller machine (ATM) cards may be used for any purpose for which foreign exchange may be purchased from an AD.

<td>A person resident outside India may purchase capital instruments (equity shares; compulsory convertible debentures (CCDs); compulsorily convertible preference shares; share warrants; and partly paid-up shares) issued by an Indian company in permitted sectors subject to entry route, sectoral cap/regulatory limits, and other attendant conditionalities. FPIs must register with the Securities and Exchange Board of India (SEBI) before they invest in the Indian capital market (since January 2014, all categories of foreign inward investors (FIIs) and sub accounts were merged into a single investor type FPI). Registered FPIs may invest in permissible equity and debt securities issued by an Indian company on recognized stock exchanges in India. There is no cap on the total amount of investment by FPIs capital instruments of an Indian company, but there are caps on the FPIs percentage of paid-up capital in individual Indian companies. The</td>
</tr>
</tbody>
</table>
holdings of a single FPI or FPI investor group in an Indian company must be less than 10% of total paid-up capital on fully diluted basis. The aggregate limit for investment by all FPIs may not exceed 24% of the total paid-up capital on fully diluted basis of the Indian company. The overall ceiling of 24% may be raised to the sectoral cap by a company through a special resolution passed by the Board of Directors and special resolution passed in the meeting of shareholders.

NRIs and Overseas Citizens of India (OCIs) may invest in capital instruments. Individual NRIs and OCIs may purchase capital instruments of Indian companies listed on the stock exchange, up to 5% of the paid-up capital on fully diluted basis of the Indian company. The aggregate limit for investment by all NRIs and OCIs may not exceed 10% of the paid-up capital on fully convertible basis of the Indian company. This limit may be raised to 24% through a special resolution passed by the Board of Directors followed by an extraordinary general meeting.

Nonresidents, including NRIs and OCIs, may invest in capital instruments of a listed Indian company on the stock exchange through a registered broker under the FDI scheme, provided they have already acquired and continue to hold control in accordance with SEBI (Substantial Acquisition of Shares and Takeover) regulations. Pricing norms for transfer of capital instruments between residents and nonresidents for listed companies must comply with SEBI’s guidelines and for unlisted companies internationally accepted pricing methodology for valuation of shares done on arm’s length basis.

A person resident outside India (other than a citizen of Pakistan or Bangladesh) or an entity incorporated outside India (other than an entity in Pakistan or Bangladesh), not being a FPI or Foreign Venture Capital Investor registered in accordance with SEBI guidelines, may contribute foreign capital either by way of capital contribution or by way of acquisition/transfer of profit shares in the capital structure of a Limited Liability Partnership, subject to the terms and conditions as specified in Schedule 6 of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017.

Capital instruments of Indian companies held by nonresidents under an FDI arrangement may be sold on the stock exchange. Transfers to residents under private arrangements (off market) do not require RBI permission and may be handled by authorized banks in accordance with the requirements in the regulations, including pricing and reporting requirements. Transfers of sale proceeds are permitted, subject to payment of applicable tax, provided no controls were imposed on the repatriation of sale proceeds at the time of the original investment. Transfers between two nonresidents generally do not require RBI permission. Transfer from NRI/OCIs has been brought under general permission subject to entry route, sectoral cap, and other attendant conditionalities.

**Sale or issue locally by nonresidents**: Yes.

**Purchase abroad by residents**: Yes.

Resident individuals may remit abroad up to the equivalent of US$250,000 a financial year for any permissible capital transaction under the LRS of 2015–16.

General permission has been granted by the RBI to residents to hold, own, transfer, or invest in foreign currency or foreign securities outside India, if the currency or security was acquired or held by the person while residing outside India or received through inheritance or as a gift from a person residing outside India.

SEBI-registered venture capital funds and alternative investment.
funds may invest in equity and equity-linked instruments of foreign venture capital enterprises, subject to an overall limit of, effective July 3, 2018, US$750 million (previously US$500 million) and SEBI regulations. Individual venture capital fund/alternative investment fund limits are set by the SEBI, subject to its terms and conditions. Residents may invest in companies listed or otherwise abroad on recognized stock exchanges up to an overall limit of US$250,000 in a financial year under the LRS. A listed Indian company may invest in (1) shares of an overseas company listed on a recognized stock exchange and (2) rated bonds/fixed-income securities issued by companies in up to 50% of its net worth on the date of its latest audited balance sheet.

ADs may allow remittances by resident employees of foreign companies and their JVs or wholly owned subsidiaries (WOS) in which the foreign company holds equity, either directly or indirectly, for acquisition of shares of the foreign company under an employee stock option plan, subject to certain conditions. ADs may also allow remittances from resident individuals for acquisition of qualified shares for the position of director in the overseas company according to the laws of the host country. The limit of these remittances is within the overall ceiling prescribed for resident individuals under the LRS in effect at the time of acquisition. Resident individuals may acquire shares of a foreign entity in part/full consideration of professional services rendered to the foreign company or in lieu of director’s remuneration within the overall ceiling under the LRS in effect at the time of acquisition.

An Indian company may raise capital by issue of American Depository Receipts (ADRs)/global depositary receipts (GDRs) with the underlying of an eligible instrument under Schedule 9 of Notification No. FEMA 20(R)/2017-RB of November 7, 2017.

Investment by FPIs in government and corporate securities is subject to the following limits:

1. Effective April 6, 2018, the overall limit for FPI investment in Central G-Secs was increased to 5.5% from 5% of outstanding stock of securities in fiscal year 2018–19, and effective April 1, 2019, it was increased to 6% from 5.5% in fiscal year 2019–20.
2. Effective April 6, 2018, the overall limit for FPI investment in corporate bonds was set at 9% of outstanding stock of corporate bonds. All the existing sub-categories under the category of corporate bonds were discontinued and replaced with a single limit for FPI investment in all types of corporate bonds.
3. The limit for FPI investment in State Development Loans (SDLs) is 2% of outstanding stock of securities.
4. Effective April 25, 2019, FPIs are now permitted to invest in municipal bonds within the limits set for FPI investment in SDLs.
5. Effective June 15, 2018, the cap on aggregate FPI investments in any Central Government security was increased to 30% from 20% of the outstanding stock of that security.

Effective June 15, 2018, FPIs are permitted to invest in (1) Central G-Secs, including in T-Bills and SDLs and (2) corporate bonds, without any minimum residual maturity requirement, subject to the condition that short-term (maturity up to one year) investments by an FPI under either category may not exceed 20% of the total investment of that FPI in that category. Previously, FPIs were required to invest in government bonds and corporate bonds with minimum residual maturity of three years.

FPIs are permitted to invest in debt instruments in India – Central G-Secs, SDLs, and corporate debt securities, subject to the following...
concentration limits:
(1) Long-term FPIs: 15% of prevailing investment limit for that category.
(2) Other FPIs: 10% of prevailing investment limit for that category.

FPI investment in corporate bonds must be subject to the following requirements:
(1) Effective June 15, 2018, investment by any FPI, including investments by related FPIs, may not exceed 50% of any issue of a corporate bond.
(2) Effective February 15, 2019, the limit that an FPI could not have an exposure of more than 20% of its corporate bond portfolio to a single corporate (including exposure to entities related to the corporate) was removed.

A person resident outside India (other than an individual who is citizen of Pakistan or Bangladesh or an entity which is registered/incorporated in Pakistan or Bangladesh) may purchase convertible notes issued by an Indian startup company for an amount of Rs 2.5 million or more in a single tranche. A startup company engaged in a sector where foreign investment requires government approval may issue convertible notes to a nonresident only with approval of the government. A startup company issuing convertible notes to a person resident outside India must receive the amount of consideration by inward remittance through banking channels or by debit to the NRE/FCNR (B)/Escrow account maintained by the person concerned in accordance with the Foreign Exchange Management (Deposit) Regulations, 2016, as amended from time to time. NRIs may acquire convertible notes on non-repatriation basis in accordance with Schedule 4 of the Principal Regulations. A person resident outside India may acquire or transfer, by way of sale, convertible notes, from or to, a person resident in or outside India, provided the transfer takes place in accordance with the pricing guidelines as prescribed by RBI. Prior approval from the government must be obtained for such transfers in case the startup company is engaged in a sector which requires government approval. The startup company issuing convertible notes must be required to furnish reports as prescribed by Reserve Bank.

</table>
forwarding to raise ECBs denominated in INR only. Effective September 19, 2018, ECB borrowers in manufacturing could raise up to US$50 million or its equivalent with minimum average maturity of one year (previously minimum average maturity was three years). Effective April 27, 2018, under certain conditions including that the loan is for a minimum average maturity of five years, the ECB loan may be used for working capital purpose. Further, foreign-currency-denominated long-term loans of minimum average maturity of 10 years can be used freely, except in capital market, real estate business, purchase of land, and activities for which FDI is not permitted. Such long-term foreign currency borrowing reduces the rollover risk. Rupee-denominated ECB (where the currency risk is with the lender) is encouraged with a minimum average maturity of 3/5 years, with minimum end-use restrictions, and with no ceiling on cost.

2019 ANNUAL REPORT ON EXCHANGE ARRANGEMENTS AND EXCHANGE RESTRICTIONS
INTERNATIONAL MONETARY FUND
under LRS of US$250,000 in a financial year. For remittance beyond this amount, RBI permission is required.

Sale or issue abroad by residents
Yes. These transactions are not permitted.

On collective investment securities
Yes. Resident companies require general or specific permission from the RBI to issue securities to NRIs.

Purchase locally by nonresidents
No. These transactions by FIIs do not require RBI approval.

Sale or issue locally by nonresidents
Yes. The issuance of collective investment securities by nonresidents on local markets in India is permitted subject to certain conditions.

Purchase abroad by residents
Yes. Resident individuals may remit abroad up to the limit equivalent of US$250,000 a financial year for any permissible capital transaction under the LRS.

Sale or issue abroad by residents
Yes. Resident companies require general or specific permission from the RBI to issue securities to NRIs.

Controls on derivatives and other instruments
Yes. All resident individuals, firms, and companies can book foreign exchange forward contracts up to US$1 million on the basis of a simple declaration without further documentation. Importers are permitted to book forward contracts, under the past performance route, up to 100% of the eligible limit. There is no prohibition against passing foreign exchange gain to the customer in the event of cancelation of a contract and only contracts in excess of 75% are now required to be delivered.

Purchase locally by nonresidents
Yes. Facilities are outlined in the Master Direction – Risk Management and Interbank dealings.

(1) Facilities for FPIs
FPIs may use the derivative market:
(a) To hedge currency risk on the market value of entire investment in equity and/or debt in India as on a particular date.
(b) To hedge the coupon receipts arising out of investments in debt securities falling due during the following twelve months.
(c) To hedge Initial Public Offer-related transient capital flows under the Application Supported by Blocked Amount (ASBA) mechanism.
FPIs may use the following products: Forward foreign exchange contracts with rupee as one of the currencies and foreign currency/INR options. Foreign currency/INR swaps for Initial Public Offer-related flows. Forward contracts booked by FPIs, once canceled, can be rebooked up to the extent of 10% of the value of the contracts canceled. The forward contracts booked may, however, be rolled over on or before maturity.

(2) FPIs participating in the ETCD
FPIs eligible to invest in securities may enter into currency futures or exchange-traded currency options contracts subject to certain conditions including the following:
(a) FPIs will be allowed access to the currency futures or exchange-traded currency options for the purpose of hedging the currency risk arising out of the market value of their exposure to Indian debt and equity securities.
(b) Such investors can participate in the currency futures/exchange-traded options market through any registered/recognized trading member of the exchange concerned.
(c) Effective February 26, 2018, FPIs may take positions (long or short), without having to establish existence of underlying exposure, up to a single limit of US$100 million equivalent across all currency pairs involving INR, put together, and combined across all exchanges. Previously, FPIs were allowed to take a long (bought) or short (sold) position in USD/INR up to US$15 million an exchange without having to establish existence of underlying exposure. In addition, FPIs were allowed to take long or short positions in

2019 ANNUAL REPORT ON EXCHANGE ARRANGEMENTS AND EXCHANGE RESTRICTIONS

INTERNATIONAL MONETARY FUND

©International Monetary Fund. Not for Redistribution
EUR/INR, GBP/INR, and JPY/INR pairs, all put together, up to US$5 million equivalent an exchange without having to establish existence of any underlying exposure.

(d) FPIs are allowed to take positions in the cross-currency futures and exchange-traded cross-currency option contracts without having to establish underlying exposure subject to the position limits as prescribed by the exchanges.

(e) Effective February 26, 2018, an FPI cannot take a short position beyond US$100 million equivalent across all currency pairs involving INR, put together, and combined across all exchanges. To take a long position in excess of these limits, it will be required to have an underlying exposure. The onus of ensuring the existence of an underlying exposure must rest with the FPI concerned.

(3) Facilities for NRIs
(a) NRIs may access the derivative market:
(i) To hedge the exchange rate risk on the amount of dividend due on shares held in Indian companies.
(ii) To hedge the exchange rate risk on the amounts held in FCNR (B) deposits.
(iii) To hedge the exchange rate risk on balances held in NRE account.
(b) NRIs may use the following products:
(i) Forward foreign exchange contracts with rupee as one of the currencies, and foreign currency/INR options.
(ii) Additionally, for balances in FCNR (B) accounts – cross-currency (not involving the rupee) forward contracts to convert the balances in one foreign currency to other foreign currencies in which FCNR (B) deposits are permitted to be maintained.
(4) NRIs may participate in the ETCD under the following conditions:
(a) NRIs must designate an AD Category-I bank for the purpose of monitoring and reporting their combined positions in the OTC and ETCD segments.
(b) NRIs may take positions in the currency futures/exchange-traded options market to hedge the currency risk on the market value of their permissible (under FEMA, 1999) rupee investments in debt and equity and dividend due and balances held in NRE accounts.
(c) The exchange/clearing corporation will provide details of all transactions of the NRI to the designated bank.
(d) The designated bank will consolidate the positions of the NRI on the exchanges as well as the OTC derivative contracts booked with them and with other AD banks. The designated bank must monitor the aggregate positions and ensure the existence of underlying rupee currency risk and bring transgressions, if any, to the notice of RBI/SEBI.
(e) The onus of ensuring the existence of the underlying exposure must rest with the NRI concerned. If the magnitude of exposure through the hedge transactions exceeds the magnitude of underlying exposure, the concerned NRI must be liable to such penal action as may be taken by RBI under the FEMA, 1999.
(5) Persons resident outside India may also hedge risks from foreign direct investments in India. Under certain conditions, participants may (a) hedge exchange rate risk on the market value of investments made in India since January 1, 1993, subject to verification of the exposure in India.
(b) hedge exchange rate risk on dividend receivable on the investments in Indian companies.
(c) hedge exchange rate risk on proposed investment in India. They may use forward foreign exchange contracts with rupee as one of the currencies and foreign currency/INR options.
(6) Facilities for Hedging Trade Exposures, invoiced in Indian rupees in India.
Nonresidents are permitted to hedge the currency risk arising out of INR-invoiced exports from and imports to India with AD Category-I banks in India. They may use forward foreign exchange contracts with rupee as one of the currencies and foreign currency/INR options.
The central treasury (of the group and being a group entity) of such nonresidents could also undertake hedges for and on behalf of such nonresidents with AD Category-I banks in India.

(7) Facilities for Hedging of ECBs, designated in Indian rupees, in India
Nonresidents may hedge the currency risk arising out of ECBs designated in INR either directly with AD Category-I banks in India or through their overseas banks on a back-to-back basis as per operational guidelines and under certain conditions. For instance, the amount and tenor of the hedge should not exceed that of the underlying transaction and should be in consonance with the extant regulations regarding tenor of payment/realization of the proceeds. Nonresidents may use forward foreign exchange contracts with rupee as one of the currencies, foreign currency/INR options, and foreign currency/INR swaps.

(8) Facility for hedging exposures of Indian subsidiaries
To provide operational flexibility, nonresident parent of an Indian subsidiary or its centralized treasury or its regional treasury outside India could book derivative contracts to hedge the currency risk arising out of current account transactions of Indian subsidiaries under certain conditions. They could use all FCY/INR derivatives, OTC as well exchange traded that the Indian subsidiary is eligible to undertake.

(9) Simplified Hedging Facility
Effective January 1, 2018, the scheme of simplified hedging facility was implemented for OTC derivatives and exchange-traded currency derivative. The facility was introduced with a view to simplify the process for hedging exchange rate risk by reducing documentation requirements, avoiding prescriptive stipulations regarding products, purpose and hedging flexibility, and to encourage a more dynamic and efficient hedging culture. This facility applies to both resident and nonresident entities other than individuals. The simplified hedging facility would operate under certain conditions including: A cap on outstanding contracts of US$30 million or equivalent, on a gross basis, which could be extended up to 150% of the stipulated cap.

(10) Effective March 1, 2018, FPIs, registered with SEBI, are permitted to purchase or sell IRF subject to the following conditions:
(a) the aggregate long position of all FPIs, each of whom has a net long position in any IRF instrument, may not exceed 50 billion rupees, aggregated across all IRF instruments, and
(b) the total gross short (sold) position of any FPI may not exceed its consolidated long position in G-Secs and IRF, at any point in time. Effective March 27, 2019, nonresidents were allowed to participate in the rupee interest rate derivatives markets subject to certain limitations.

ADs and their branches abroad may offer derivatives instruments for hedging to corporate clients that have borrowed foreign exchange in accordance with FEMA provisions and purchase them for their own asset and liability management.
Effective April 1, 2018, residents in India, other than individuals,
may hedge their direct or indirect exposure to commodity price risk and freight risk in overseas markets through AD banks, subject to conditions. Eligible commodities whose price risk may be hedged are as follows:

(1) In case of direct exposure – all commodities except gold, gems, and precious stones.
(2) In case of indirect exposure – aluminum, copper, lead, zinc, nickel, and tin.

Entities engaged in business of refining oil or shipping only are permitted to hedge their exposure to freight risk.

Corporations registered under the Companies Act of 1956 that are in the industrial (manufacturing) sector; infrastructure sector; and specified service sectors—namely, hotels; hospitals; software companies; units in SEZs; non-government organizations engaged in microfinance activities; nonbank financial companies (NBFCs) registered with the RBI as microfinance institutions (MFIs); infrastructure finance companies (IFCs); asset finance companies (AFCs); the Small Industries Development Bank of India; companies in miscellaneous services sectors engaged in training, research, and development; and companies supporting infrastructure sectors and holding companies/core investment companies (CICs) under the regulatory framework of the RBI (except other financial intermediaries such as banks, other NBFCs, and other financial institutions) may raise funds through ECB from internationally recognized overseas lenders under the automatic route, subject to RBI guidelines. Effective April 27, 2018, the ECB policy was further rationalized and liberalized to expand the eligible borrowers to include housing finance companies regulated by the National Housing Bank, port trusts, and companies engaged in the business of maintenance, repair and overhaul and freight forwarding (in INR only). Cases outside the purview of automatic route are considered under the approval route.

| Commercial credits | Yes. |

On December 17, 2018, comprehensive changes in the regulations for borrowing and lending between a person resident in India and a person resident outside India were introduced. Save as otherwise provided in the Act, Rules or Regulations made thereunder, no person resident in India must borrow or lend in foreign exchange from or to a person resident in or outside India and no person resident in India must borrow in rupees from, or lend in rupees to, a person resident outside India:

Provided the Reserve Bank may, for sufficient reasons, permit a person resident in India to borrow or lend in foreign exchange from or to a person resident in or outside India and/or permit a person resident in India to borrow in rupees from, or lend in rupees to, a person resident outside India.

By residents to nonresidents | Yes. |

A commercial credit of up to six months is allowed for exports on documents-against-acceptance terms. Contracts for exports involving payments to be realized beyond the usual period of six months or one year are treated as deferred payment exports. Such exports are permitted, depending on the credit terms offered, the commodity to be exported, and other related considerations. This applies to turnkey, construction, and service contracts by Indian exporters on credit terms. Under the Buyer Credit Scheme, the EXIM Bank offers credit to foreign buyers in connection with the exportation of capital goods and turnkey projects in India in participation with commercial banks in India. An Indian exporter may lend without restriction from the funds held in an EEFC account for trade-related purposes to an overseas importing customer against a bank guarantee. Other
transactions require RBI permission. Lending in foreign exchange or in Indian rupees by a person resident in India to nonresidents is prohibited unless in cases specified by the RBI or on RBI approval.

Effective December 17, 2018, lending by an AD in India or its branch outside India or by persons other than an AD that are eligible resident entities may extend foreign-currency-denominated External Commercial Lending to a borrower outside India in accordance with the provisions contained in Schedule III of Notification No. FEMA.3(R)/2018-RB.

Effective December 17, 2018, (1) an AD in India may lend in Indian rupees to a NRI/OCI cardholder for meeting the borrower’s personal requirements/own business purposes/acquisition of a residential accommodation in India/acquisition of motor vehicle in India/or for any purpose as per the loan policy laid down by the Board of Directors of the AD and in compliance with prudential guidelines of RBI. The AD bank should ensure that the borrowed funds are not used for restricted end uses.

(2) Overdraft in rupee account maintained with AD in India by a bank outside India: An AD may permit a temporary overdraft, for value not exceeding Rs 5 billion or any other amount as prescribed by the RBI from time to time, in rupee accounts maintained with it by its overseas branch or correspondent or Head Office outside India, subject to such terms and conditions as the RBI may direct from time to time.

(3) Lending by residents in Indian rupees by persons other than an AD, such as a registered nonbank financial company in India or a registered housing finance institution in India or any other financial institution as may be specified by the RBI from time to time, may provide housing loan or vehicle loan, as the case may be, to a NRI/OCI cardholder subject to such terms and conditions as prescribed by the RBI from time to time. The borrower should ensure that the borrowed funds are not used for restricted end uses.

Effective January 16, 2019, under the revised ECB framework, lending and borrowing by Indian banks and their branches/subsidiaries outside India will be subject to prudential guidelines issued by the Department of Banking Regulation of the Reserve Bank. Further, other entities raising ECB are required to follow the guidelines issued, if any, by the concerned sectoral or prudential regulator.

Effective March 13, 2019, trade credit can be availed for: import of non-capital goods for a maximum period of up to one year and linked with the operating cycle, or for a period as per the guidelines issued by the RBI from time to time for any import of any goods/or import by any specific sector; import of capital goods for a maximum period of three years or for a period as per the guidelines issued by the RBI from time to time. Importers can raise trade credit up to $50 million equivalent per import transaction for import of capital or non-capital goods or any other amount as decided by the RBI in consultation with the GOI. For trade credits in foreign exchange, maximum spread of the all-in-cost over the benchmark of 6-month LIBOR or applicable benchmark for the respective currency will be 250 basis points (bps) per annum or as prescribed by the Reserve Bank in consultation with the GOI. The list of lenders that could provide trade credits was expanded by including foreign equity holders and financial institutions in International Financial Services Centres located in India. Bank guarantees may be given by the ADs, on behalf of the importer, in favor of overseas lender of trade credits not exceeding the amount of trade credit. Period of such guarantee cannot be
beyond the maximum permissible period for trade credit. Trade credit may also be secured by overseas guarantee issued by foreign banks/overseas branches of Indian banks. Trade credits may be raised by entities in special economic zones, free trade warehousing zones, and domestic tariff area.

Previously, trade credit of up to one year for imports of non-capital goods and up to five years for capital goods may be permitted by ADs, up to US$20 million an import transaction. ADs may also guarantee trade credits for up to three-year average maturity. Trade credit exceeding US$20 million (buyer credit and supplier credit) to finance imports of non-capital and capital goods requires RBI permission, subject to certain conditions. The all-in-cost ceiling for trade credit is LIBOR plus 350 bps for all maturities. All-in-cost means six-month LIBOR (for the respective currency or applicable benchmark) plus margin plus all other costs. Borrowing by person resident in India from nonresident in foreign currency or Indian rupees is prohibited unless in cases specified by the RBI or on RBI approval.

Effective December 17, 2018, borrowing from outside India in foreign exchange by a person resident in India:

1. An AD may borrow from its Head Office or branch or correspondent outside India or any other entity up to limit specified and subject to terms and conditions as specified by the Reserve Bank from time to time, in consultation with GOI.
2. A branch outside India of an AD being a bank incorporated or constituted in India may borrow in foreign exchange in the normal course of its banking business from outside India, subject to the directions or guidelines issued by the Reserve Bank from time to time, and the Regulatory Authority of the country where the branch is located.
3. An AD may borrow in foreign exchange from a bank or a financial institution outside India, for the purpose of granting pre-shipment or post-shipment credit in foreign exchange to its exporter constituent, subject to compliance with the guidelines issued by the Reserve Bank in this regard.
4. An AD may raise ECB from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.
5. Eligible resident entities (other than ADs) may raise ECB from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.
6. Trade credit may be raised from outside India by importers for import of capital or non-capital goods as permissible under the extant FTP of the DGFT in accordance with the provisions contained in Schedule II of Notification No. FEMA.3(R)/2018-RB.
7. A person resident in India may borrow, whether by way of loan or overdraft or any other credit facility, from a bank situated outside India, where export of goods or services is proposed to be made on deferred payment terms or in execution of a turnkey project or a civil construction contract, provided the terms and conditions stipulated by the authority which has granted the approval to the arrangement are in accordance with the Foreign Exchange Management (Export of goods and services) Regulations, 2015, notified vide Notification No. FEMA.23(R)/2015-RB of January 12, 2016, as amended from time to time.
8. Financial institutions, set up under an Act of the Indian Parliament, may raise foreign exchange borrowings with the prior approval of the GOI for the purpose of onward lending.

Effective December 17, 2018, borrowing in Indian rupees by a person resident in India:
(1) An AD may raise rupee-denominated ECB from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.

(2) Borrowing by persons other than AD:

(a) Eligible resident entities may raise rupee-denominated ECB from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.

(b) Eligible resident entities, as defined by the GOI, may borrow from overseas Multilateral Financial Institutions/International Development Financial Institutions, where the source of funds of such institutions is rupee-denominated bonds issued overseas or resources raised domestically, or any other source as approved by the GOI.

(c) Trade credit may be raised from outside India in Indian rupees by importers for import of capital or non-capital goods as permissible under the extant FTP of the DGFT in accordance with the provisions contained in Schedule II of Notification No. FEMA.3(R)/2018-RB.

(d) Any foreign investment in the nature of debt arising out of transfer or issue of security, not covered under the above sub-regulations, should be in compliance with Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017, notified vide Notification No. FEMA 20(R)/2017-RB of November 07, 2017, as amended from time to time.

(e) Any person resident in India accepting any deposit from, or making any deposit with, a person resident outside India, including loans/overdrafts against security of funds held in such accounts, should be in compliance with Foreign Exchange Management (Deposit) Regulations, 2016, notified vide Notification No. FEMA 5(R)/2016-RB of April 1, 2016, as amended from time to time.

(f) Financial institutions, set up under an Act of the Indian Parliament, may raise rupee-denominated borrowings from outside India with the prior approval of the GOI for the purpose of onward lending.

Effective September 19, 2018, Indian banks can participate as arrangers/underwriters/market makers/traders in rupee-denominated bonds (RDB) issued overseas subject to applicable prudential norms. Previously, Indian banks, subject to applicable prudential norms, could act as arranger and underwriter for RDBs issued overseas and in case of underwriting an issue, their holding could not be more than 5% of the issue size after 6 months of issue.

Financial credits Yes. The basic objective of the extant policy for the purpose of borrowing from abroad is to supplement domestic capital primarily for creation of capital assets in the country within a prudential framework for capital account management. Depending on the capital needs of various sectors and taking into account their contribution toward gross domestic product (GDP), the ECB policy has been progressively liberalized. The current framework is an attempt to have a more rational structure, keeping in view the evolving domestic as well as global macroeconomic and financial conditions. Since for rupee-denominated borrowings from abroad (whether contractual or marketable), the currency risk is with the lender/investor, conceptually it is 100% hedged. Therefore, it is necessary to slowly nudge more and more borrowers to access rupee-denominated borrowings from abroad. Further, for the systemic stability angle, long-term borrowing (which will be akin to FDI) of say, 10 years or more maturity, may be preferable. Thus, the approach in the revised framework for borrowing from abroad is to retain more qualitative parameters for normal (foreign-currency-denominated) ECB and to provide more liberal dispensation for long-
term borrowing in foreign currency. Rupee-denominated borrowings from abroad are with minimal control primarily in the form of minimum maturity.

By residents to nonresidents  Yes. Indian companies may extend foreign currency loans for personal purposes to employees of their branches outside India. Banks may grant unlimited foreign currency loans in India/outside India and rupee loans in India to depositors/third parties against NRE/FCNR (B) fixed deposits under their usual margin requirements subject to conditions.

Lending in foreign exchange or in Indian rupees by a person resident in India to nonresidents is prohibited unless in cases specified by the RBI or on RBI approval.

To residents from nonresidents  Yes. Borrowings from overseas as contracted or marketable loan are covered under the ECB guidelines. ECB is allowed both under the automatic and the approval routes.

AD banks can reschedule/restructure ECB and change the cost structure, provided the ECB continues to be within the ECB framework even after the changes.

Borrowing by person resident in India from nonresident in foreign currency or Indian rupees is prohibited unless in cases specified by the RBI or on RBI approval.

Effective January 16, 2019, the ECB framework was revised and included the following modifications to improve the ease of doing business:

(1) Merging of Tracks: Merging of Tracks I and II as “Foreign-Currency-denominated ECB” and merging of Track III and Rupee-Denominated Bonds framework as “Rupee-Denominated ECB”; (2) Eligible Borrowers: This has been expanded to include all entities eligible to receive FDI. Additionally, Port Trusts, Units in SEZ, Small Industries Development Bank of India, EXIM Bank, registered entities engaged in microfinance activities, viz. registered not for profit companies, registered societies/trusts/cooperatives and non-government organizations can also borrow under this framework; (3) Recognized Lender: The lender should be resident of FATF- or IOSCO-compliant country. Multilateral and Regional Financial Institutions, Individuals and Foreign branches/subsidiaries of Indian banks can also be lenders as detailed in Annex of Notification; (4) Minimum Average Maturity Period (MAMP): MAMP will be 3 years for all ECBs. However, for ECB raised from foreign equity holder and utilized for specific purposes, as detailed in the Annex of Notification, the MAMP would be 5 years. Similarly, for ECB up to US$50 million a financial year raised by manufacturing sector, which has been given a special dispensation, the MAMP would be 1 year as given in the Annex of Notification; (5) Late Submission Fee (LSF) for delay in Reporting: Any borrower, who is otherwise in compliance of ECB guidelines, except for delay in reporting drawdown of ECB proceeds before obtaining Loan Registration Number (LRN) or Form ECB 2 returns, can regularize the delay by payment of LSF as per the laid down procedure.

Effective June 7, 2018, monitoring requirements regarding ECBs were simplified.

Effective September 19, 2018, eligible ECB borrowers in the manufacturing sector may raise ECB up to US$50 million or its equivalent with minimum average maturity period of 1 year (previously 3 years).

The framework for rupee-denominated bonds overseas is as follows: Eligible borrowers are any corporate or body corporate as well as Real Estate Investment Trusts (REITs) and Infrastructure Investment Trusts (InvITs); recognized investors are any investor from an FATF-compliant jurisdiction; the bonds will have a minimum maturity
period of five years; the all-in-cost should be commensurate with prevailing market conditions; the amount is as per extant ECB policy; and there are no end-use restrictions except for a negative list.

Effective December 17, 2018, borrowing from outside India in foreign exchange by a person resident in India:

1. An AD may borrow from its Head Office or branch or correspondent outside India or any other entity up to limit specified and subject to terms and conditions as specified by the Reserve Bank from time to time, in consultation with GOI.

2. A branch outside India of an AD being a bank incorporated or constituted in India may borrow in foreign exchange in the normal course of its banking business from outside India, subject to the directions or guidelines issued by the Reserve Bank from time to time, and the Regulatory Authority of the country where the branch is located.

3. Financial Institutions, set up under an Act of the Indian Parliament, may raise foreign exchange borrowings with the prior approval of the GOI for the purpose of onward lending.

4. An AD may raise ECB from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.

5. Eligible resident entities (other than ADs) may raise ECB from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.

Effective December 17, 2018, borrowing in Indian rupees by a person resident in India:

1. An AD may raise rupee-denominated ECB from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.

2. Borrowing by persons other than AD:
   (a) Eligible resident entities may raise rupee-denominated ECB from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.
   (b) Eligible resident entities, as defined by the GOI, may borrow from overseas Multilateral Financial Institutions/International Development Financial Institutions, where the source of funds of such institutions is rupee-denominated bonds issued overseas or resources raised domestically, or any other source as approved by the GOI.
   (c) Any foreign investment in the nature of debt arising out of transfer or issue of security, not covered under the above sub-regulations, should be in compliance with Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017, notified vide Notification No. FEMA 20(R)/2017-RB of November 07, 2017, as amended from time to time.
   (d) Any person resident in India accepting any deposit from, or making any deposit with, a person resident outside India, including loans/overdrafts against security of funds held in such accounts, should be in compliance with Foreign Exchange Management (Deposit) Regulations, 2016, notified vide Notification No. FEMA 5(R)/2016-RB of April 1, 2016, as amended from time to time.
   (e) Financial Institutions, set up under an Act of the Indian Parliament, may raise rupee-denominated borrowings from outside India with the prior approval of the GOI for the purpose of onward lending.

Effective September 19, 2018, Indian banks can participate as arrangers/underwriters/market makers/traders in rupee-denominated bonds (RDB) issued overseas subject to applicable prudential norms. Previously, Indian banks, subject to applicable prudential norms,
could act as arranger and underwriter for RDBs issued overseas and in case of underwriting an issue, their holding could not be more than 5% of the issue size after 6 months of issue.

Guarantees, sureties, and financial backup facilities

By residents to nonresidents

Yes.  
Banks may not issue a guarantee, standby LC, letter of comfort, or letter of undertaking on behalf of their clients in favor of an overseas lender to access ECB or financial credit except on behalf of their importer clients for trade credits (that is, buyer or supplier credits) for imports of non-capital goods for up to one year and capital goods for a period of up to three years and up to the equivalent of US$20 million an import transaction, without RBI approval.

To residents from nonresidents

Yes.  
The RBI allows ADs to grant rupee loans to residents against guarantees from nonresidents under the general permission. Borrowing and lending between two residents are not affected by any provisions of the FEMA, 1999. If a rupee loan is granted against a guarantee by a nonresident, there is no transaction involving foreign exchange until the guarantee is invoked and the nonresident guarantor is required to meet the liability under the guarantee. Nonresident guarantees under the general permission are allowed for non-fund-based facilities (such as LCs, guarantees, letter of undertaking, or letters of comfort) between two residents. Credit enhancement by eligible nonresident entities has been extended to domestic debt raised through issues of capital market instruments, such as debentures and bonds, by Indian companies in all sectors.

Controls on direct investment

Yes.

Outward direct investment

Yes.  
An IP (a company incorporated in India, or a body created under Act of Parliament, or a partnership firm registered under the Indian Partnership Act, 1932, or a Limited Liability Partnership) may invest ODI by undertaking financial commitment in the form of equity. To support business operations, financial commitment extended to/issued on behalf of JV/WOS may also take the form of loan, guarantee, and any other non-fund-based commitment.

The limit of financial commitment undertaken by IPs under the automatic route is 400% of the net worth of the IP on the date of the last audited balance sheet or the equivalent of US$1 billion, whichever of the two is lower.

Resident individuals may set up/acquire JV/WOS abroad within the limit of the LRS, subject to conditions including that the investment can only be made in equity of the JV/WOS and no multilayered structure is incorporated/acquired.

Overseas investments by unregistered partnership and proprietorship firms, trusts, and societies, are subject to prior RBI approval and are not eligible for automatic route.

IPs may fund ODI in JVs or WOS with remittances in freely convertible currency through market purchases, capitalization of exports/other receivables, balances held in EEFC accounts, ECB, and ADR/GDR proceeds, swap of shares, etc.

No IP can make any direct investment in a foreign entity engaged in real estate business or banking business. The ODI in Pakistan and those jurisdictions which are identified by the FATF as high risk and non-cooperative is under the approval route. ODI in Nepal is allowed only in Indian rupees; ODI in Bhutan is allowed in rupees and freely convertible currencies.

The following criteria need to be met to be eligible for auto route: The person should not be (1) on the export caution list; (2) under investigation by any investigation/enforcement agency or regulatory
body; and (3) a defaulter to the banking system in India. The other procedural requirements for ODI under auto route include: (1) transactions which are made through a designated AD bank. (2) Submission of Form ODI Part I. (3) Submission of all annual performance reports (APRs) for existing JV/WOS. (4) Loan/Guarantee to/on behalf of an overseas entity which can be extended by the IP if IP has equity/compulsorily convertible preference shares participation in such overseas entity.

There are additional compliance requirements for overseas investment in the financial services sector such as the net profit track record of IP during the preceding three financial years; IP being registered with the Regulatory Authority in India for conducting the financial services activities; approval from the concerned regulatory authorities both in India and abroad, and the IP fulfilling the prudential norms relating to capital adequacy as prescribed by the concerned Regulatory Authority in India.

The IP must receive share certificates or other document as evidence of investment within six months, repatriate dues receivable to India within 60 days of falling due, submit APR for the financial year to AD latest by December 31, and report all post-investment changes in capital structure of JV/WOS.

Disinvestment by the IP from its JV/WOS abroad may be undertaken by way of transfer/sale of equity shares to a nonresident/resident or by way of liquidation/merger/amalgamation of the JV/WOS/IP. Such disinvestment can be undertaken under auto route or approval route. The conditions for auto route are as follows: (1) the sale is effected through a stock exchange or by a private arrangement at a price not less than the fair value of the JV/WOS; (2) the IP does not have any outstanding dues from the JV or WOS and is not under any investigation; (3) the overseas JV/WOS has been in operation for at least one full year from the date of first investment; and (4) the write off of the investment, if any, is within the prescribed limit.

Other methods of acquisition of foreign entity’s shares include: (1) gift from a person resident outside India; (2) cashless employee stock option scheme; (3) inheritance from a person resident in or outside India; (4) individual who resident in India, being an employee or a director of Indian office, may acquire shares under employee stock ownership (ESOP) by an overseas parent; (5) acquisition of qualification shares to become a director of overseas company subject to LRS limit; and (6) acquisition of right shares/bonus shares of overseas company.

IP must make no direct investment in an overseas entity (set up or acquired abroad directly as JV/WOS or indirectly as step down subsidiary) located in the countries identified by the FATF as “non co-operative countries and territories” as per list available on FATF website www.fatf-gafi.org or as notified by the RBI from time to time. Clarification was issued by way of frequent asked questions (FAQ) that it is applicable only on countries identified by FATF as “call for action.”

On January 25, 2017, to align, the instructions with the objectives of FATF, on a review, it has been decided to prohibit an IP from making direct investment in an overseas entity (set up or acquired abroad directly as JV/WOS or indirectly as step down subsidiary) located in the countries identified by the FATF as “non co-operative countries and territories” as per list available on FATF website www.fatf-gafi.org or as notified by the RBI from time to time. Clarification was issued by way of FAQ that it is applicable only on countries identified by FATF as “call for action.”

The FDI in India is subject to policy guidelines framed by the GOI from time to time and implemented through Foreign Exchange.
Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2017, notified vide Notification No. FEMA 20(R)/2000-RB as amended.

Persons resident outside India are permitted to invest in India. However, government approval is required for investment by citizens of/entities incorporated in Bangladesh and Pakistan. Further, an Indian company receiving FDI from Pakistan may not engage in sectors or activities pertaining to defense, space, and atomic energy or sectors or activities prohibited for foreign investment.

Foreign investment is permitted under two routes: the government route and the automatic route, subject to sector-specific caps and guidelines, except for prohibited activities viz. (1) lottery business; (2) gambling and betting; (3) chit funds; (4) nidhi companies; (5) trading in transferable development rights; (6) real estate business or construction of farmhouses; (7) manufacturing of cigars, cheroots, cigarillos, and cigarettes of tobacco or tobacco substitutes; and (8) activities/sectors not open to private sector investment, for example, (a) atomic energy and (b) railway operations (other than permitted activities mentioned in Regulation 16 of Foreign Exchange Management (transfer or issue of security by a person resident outside India) Regulations, 2017), and (9) foreign technology collaboration in any form including licensing for franchise, trademark, brand name, management contract is also prohibited for lottery business and gambling and betting activities.

Further, there are other sectors where foreign investment is permitted with certain terms and conditions as stated in Regulation 16 of Foreign Exchange Management (transfer or issue of security by a person resident outside India) Regulations, 2017. If the activity is not stated in Regulation 16 and not under financial services specifically indicated in the regulations, foreign investment up to 100% is permitted under the automatic route. Foreign investment in financial services not specifically indicated in the regulations requires prior approval of GOI.

FDI is permitted in following sectors with prior approval of the government:

(1) Defense, air transport service (scheduled and regional air transport), telecom services, up to 49% under automatic route; (2) brownfield pharmaceuticals up to 74% under automatic route and beyond 74% under government route; (3) private sector banking up to 49% under automatic route and beyond 49% and up to 74% under government route; (4) private security agencies up to 48% under government route; (5) mining and mineral separation of titanium-bearing minerals and ores, food product retail trading, publishing and printing of scientific and technical magazines, publication of facsimile edition of foreign newspapers, and establishment and operation of satellite, capped at 100%; (6) multi-brand retail trading, capped at 51% under government route; (7) investment by foreign airlines and broadcasting content service, capped at 49% under government route; (8) publication of newspapers and periodicals dealing with news and current affairs and publication of Indian editions of foreign magazines dealing with news and current affairs, capped at 26% under government route; and (9) public sector banking, capped at 20% under government route.

Under the automatic route, there are only six sectors in which investments are subject to a cap of 49%: petroleum refining by public sector companies, infrastructure company in the securities market, commodity spot exchanges, insurance companies, pension sector, and power exchanges.

Foreign investment is allowed up to 100% through the automatic...
route in the following sectors: (1) agricultural activities such as floriculture and horticulture; (2) pisciculture; (3) plantation sector; (4) mining of metals and non-metal ores, coal, and lignite; (5) manufacturing; (6) broadcasting carriage and content service; (7) airports (greenfield and brownfield), airport transport service (nonscheduled flights and helicopter services), ground handling services and maintenance and repair and flying training organizations; (8) construction development; (9) new and existing industrial parks; (10) wholesale and B2B e-commerce trading, and duty-free shops; (11) railway infrastructure (though proposals involving FDI beyond 49% may be considered on a case-to-case basis); (12) asset reconstruction companies, credit information companies, other financial services regulated by financial sector regulators; (13) pharmaceuticals (greenfield); (14) exploration activities of oil and natural gas fields; (15) effective March 26, 2018, single-brand product retail trading (previously 49%); (16) real estate broking service; (17) investing companies if it is registered with the RBI and accordingly regulated.

The following criteria are mentioned under the automatic route subject to certain terms and conditions: (1) creation of charge over shares of JV/WOS/SDS in favor of domestic/overseas lenders; (2) creation of charge over the domestic assets in favor of overseas lenders to the JV/WOS/SDS; and (3) creation of charge over overseas assets in favor of domestic lenders.

NRIs and OCIs may use funds derived from new remittances or held in their NRE or FCNR accounts (1) to make portfolio investments with repatriation benefits of up to 5% of the paid-up capital, provided their total holdings of shares and convertible debentures held under the PIS do not exceed 10% (extendable to 24% if the general meeting of the investing company passes a special board resolution) of the paid-up capital of the company or of the total paid-in value of each series of its convertible debentures issued by the company; (2) for existing JV companies to raise the ratio of foreign equity shares to prescribed percentages of their capital through expansion of their capital base or through preferential allocation of shares to foreign investors; and (3) to invest on a non-repatriation basis in money market MFs (only NRIs).

Any funds payable by the Indian company to a person resident outside India, the remittance of which is permitted under the Act or the rules and regulations framed or directions issued thereunder or does not require prior permission of the Central Government or the Reserve Bank under the Act or the rules and regulations framed or directions issued thereunder or has been permitted by the Reserve Bank under the Act or the rules and regulations framed or directions issued thereunder, may be converted to equity subject to specified conditions (Res. No. 3. Notification No. FEMA 315/2014-RB of July 10, 2014). Indian companies may issue capital instruments against swap of capital instruments; imports of capital goods, machinery, equipment (excluding secondhand machinery), and preoperative/pre-incorporation expenses up to a limit of 5% of its authorized capital or US$500,000 whichever is less (including payments of rent, etc.), subject to specified conditions.

Shares may be sold freely on the stock exchange and the sale proceeds may be repatriated. Other sales of shares, securities, and immovable property may be allowed by authorized banks after complying with conditions prescribed by the RBI. RBI approval is required only for sales of shares when preconditions and norms have not been fulfilled. Repatriation of after-tax sales proceeds is generally permitted. Investment on a non-repatriation basis is permitted only for NRIs and OCIs.
Controls on real estate transactions: Yes. These transactions require RBI permission.

Purchase abroad by residents: Yes. Residents may hold, own, or transfer immovable property outside India, provided such property was acquired while the person resided outside India or was obtained through inheritance or as a gift from a person resident in India holding it in accordance with FEMA provisions. That person is also free to dispose of such property or acquire new property from the sale proceeds of such property. Residents may buy immovable property abroad using RFC accounts. A resident individual may make remittances for the acquisition of immovable property within the LRS limit of US$250,000, subject to verification of the transactions by the AD bank. There is general permission to resident individuals to remit money under the LRS for acquisition of property overseas. General permission has been granted to Indian companies with established offices abroad to acquire immovable property abroad for their business use and for staff residences.

Purchase locally by nonresidents: Yes. Effective March 26, 2018, an NRI or an OCI may:

1. acquire immovable property in India other than agricultural land/farm house/plantation property:
   Provided the consideration, if any, for transfer, must be made out of (a) funds received in India through banking channels by way of inward remittance from any place outside India or (b) funds held in any nonresident account maintained in accordance with the provisions of the Act, rules or regulations framed thereunder.
   Provided further no payment for any transfer of immovable property must be made either by traveler’s check or by foreign currency notes or by any other mode other than those specifically permitted under this clause.

2. acquire any immovable property in India other than agricultural land/farm house/plantation property by way of gift from a person resident in India or from an NRI or from an OCI, who in any case is a relative as defined in Section 2(77) of the Companies Act, 2013;

3. acquire any immovable property in India by way of inheritance from a person resident outside India who had acquired such property (a) in accordance with the provisions of the foreign exchange law in force at the time of acquisition by him or the provisions of these Regulations or (b) from a person resident in India;

4. transfer any immovable property in India to a person resident in India;

5. transfer any immovable property other than agricultural land/farm house/plantation property to an NRI or an OCI.

Effective March 26, 2018, a person resident outside India who has established in India in accordance with the Foreign Exchange Management (Establishment in India of a branch office or a liaison office or a project office or any other place of business) Regulations, 2016, as amended from time to time, a branch, office, or other place of business for carrying on in India any activity, excluding a liaison office, may

1. acquire any immovable property in India, which is necessary for or incidental to carrying on such activity;
   Provided (a) all applicable laws, rules, regulations, or directions for the time being in force are duly complied with; and
   (b) the person files with the Reserve Bank a declaration in the form of immovable property acquired in India (IPI) as prescribed by Reserve Bank from time to time, not later than ninety days from the date of such acquisition.

2. transfer by way of mortgage to an AD as a security for any borrowing, the immovable property acquired in pursuance of clause
No person of Pakistan or Bangladesh or Sri Lanka or Afghanistan or China or Iran or Hong Kong or Macau or Nepal or Bhutan or Democratic People’s Republic of Korea must acquire immovable property, other than on lease not exceeding five years, without prior approval of the Reserve Bank.

NRIbank may invest in companies engaged in real estate development (for example, construction of houses). ADs and housing companies may extend loans to NRIs and PIOs for acquiring residences in India.

**Sale locally by nonresidents**

Repatriation of after-tax sales proceeds is permitted up to the amount of foreign exchange brought in to purchase the property, subject to certain conditions. ADs may allow remittances of up to the equivalent of US$1 million a year—subject to payment of applicable taxes—for sales of immovable property, the proceeds of which are credited to an NRO account. Proceeds from the sale of immovable property may be remitted, regardless of how long the property was owned. Citizens of Pakistan, Bangladesh, Sri Lanka, Afghanistan, China, Iran, Nepal, Bhutan, effective March 26, 2018, Democratic People’s Republic of Korea, Hong Kong SAR, and Macao SAR may not acquire or transfer immovable property in India other than on a lease not exceeding five years, without RBI approval.

**Controls on personal capital transactions**

Yes.

**Loans**

Yes.

**By residents to nonresidents**

(1) ADs may lend to NRIs rupees to purchase immovable property and for personal business.

(2) An Indian entity may grant loan in Indian rupees to its employee who is a NRI/OCI cardholder in accordance with the Staff Welfare Scheme subject to such terms and conditions as prescribed by the Reserve Bank from time to time. The borrower should ensure that the borrowed funds are not used for restricted end uses.

(3) A resident individual may grant rupee loan to a NRI/OCI cardholder relative within the overall limit under the LRS subject to such terms and conditions as prescribed by the Reserve Bank from time to time. The borrower should ensure that the borrowed funds are not used for restricted end uses.

**To residents from nonresidents**

Effective December 17, 2018, an individual resident in India may borrow a sum not exceeding US$250,000 or its equivalent, or any other amount as decided by the Reserve Bank from time to time, from his or her relatives outside India and subject to such terms and conditions as specified by the Reserve Bank from time to time in consultation with the GOI. Previously, such borrowing had to be interest free and have a minimum maturity of one year.

Effective December 17, 2018, an individual resident in India studying abroad may raise loan outside India not exceeding US$250,000 or its equivalent, or any other amount as decided by the Reserve Bank from time to time, for the purposes of payment of education fees abroad and maintenance subject to terms and conditions as specified by the Reserve Bank from time to time in consultation with the GOI.

Effective December 17, 2018, a person resident in India, not being a company incorporated in India, may borrow in Indian rupees from a NRI/relatives who are OCI cardholders outside India, subject to such terms and conditions as specified by the Reserve Bank from time to time in consultation with the GOI. The borrower should ensure that the borrowed funds are not used for restricted end uses.

**Gifts, endowments, inheritances, and legacies**

Yes.

<td>There is an overall LRS limit of US$250,000 a financial year for exchange/remittance facilities of resident individuals for current account transactions, such as remittance for private visits; business visits; gifts or donations; travel abroad for employment; emigration; maintenance of close relatives abroad; and expenses in connection with medical treatment abroad and studies abroad. Gifts in Indian rupees by resident individuals to NRI relatives as defined in the Companies Act, 2013, are also subsumed under the LRS limit. A person other than an individual may obtain foreign exchange for gifts and donations, within the limit prescribed under the LRS. RBI approval is required for remittances by persons other than individuals for donations exceeding 1% of their foreign exchange earnings during the previous three financial years or US$5 million, whichever is less, for (1) creation of chair positions in reputable education institutions; (2) contributions to funds (other than investment funds) promoted by education institutions; and (3) contributions to technical institutions, agencies, or associations in the field of the donor company. A person resident in India, except earlier overseas corporate bodies (OCBs), may transfer securities as a gift to a person abroad, subject to certain conditions. The value of the securities transferred by the donor together with any other securities transferred to any person outside India during the financial year may not exceed the rupee equivalent of US$50,000. Deposits of multilateral organizations to which India belongs and their subsidiaries/affiliates and officials in India are exempt from nonresident account restrictions.</td>

Provisions Specific to the Financial Sector

| Provisions specific to commercial banks and other credit institutions | Yes. |
| Provisions for LEI system for all borrowers of banks having total (fund-based and non-fund-based) exposure of 500 million rupees and above has been introduced in a phased manner vide RBI circular of November 2, 2017. |
| Borrowing abroad | Yes. |
| ECB is subject to the policy framed by the RBI in consultation with the MOF. Commercial banks are not permitted to raise ECB. AD Category-I banks are permitted to borrow funds from their head office, overseas branches, correspondents outside India, or any other entity as permitted by the RBI up to a limit of 100% of their unimpaired Tier 1 capital as at the close of the previous quarter or US$10 million (or its equivalent), whichever is higher. Specialized financial institutions—Export-Import Bank of India (EXIM Bank) and Small Industries Development Bank of India—are... |
permitted to borrow medium-term foreign-currency-denominated ECB with a minimum average maturity of three years (for loans up to US$50 million or its equivalent) and five years (above US$50 million or its equivalent).

Effective April 27, 2018, ECBs are subject to a uniform all-in-cost ceiling of 450 bps over LIBOR or other currency-specific benchmark. Previously, the all-in-cost ceiling was 300 bps for maturities of 3–5 years and 450 bps for maturities over five years. NBFCs are allowed to raise Indian rupee-denominated ECBs under identical maturity conditions, but at all-in-cost in line with market conditions. Entities engaged in microfinance activities are eligible to raise ECB if they have a satisfactory borrowing relationship of at least three years with an AD Category-I bank in India, and if they have a certificate of due diligence on “fit and proper” status from the AD Category-I bank.

ECB borrowing is subject to end-use restrictions, which, effective April 27, 2018, was substantially relaxed from a positive end-use list to a small negative end-use list.

Indian banks are permitted to issue rupee-denominated bonds overseas (Masala Bonds) in the nature of Perpetual Debt Instruments (PDI) qualifying for inclusion as additional Tier 1 capital, debt capital instruments qualifying for inclusion as Tier 2 capital, and long-term rupee-denominated bonds overseas for financing infrastructure and affordable housing.

On a review of the laid down framework for issuance of rupee-denominated bonds overseas (Masala Bonds) and with a view to harmonize the various elements of the ECB framework, it was decided that any proposal of borrowing by eligible Indian entities by issuance of these bonds will be examined at the Foreign Exchange Department, Central Office, Mumbai. Further, it was also decided to revise the provisions in respect of maturity period, all-in-cost ceiling, and recognized lenders (investors) of Masala Bonds as follows:

1. Maturity period: Minimum original maturity period for Masala Bonds raised up to US$50 million equivalent in INR a financial year should be three years and for bonds raised above US$50 million equivalent in INR a financial year should be five years.
2. All-in-cost ceiling: The all-in-cost ceiling for such bonds will be 300 bps over the prevailing yield of the GOI securities of corresponding maturity.
3. Recognized investors: Entities permitted as investors under the provisions of paragraph 3.3.3 of the Master Direction but should not be related party within the meaning as given in Ind-AS 24.

Issuances of RDB are excluded from the limit for investments by FPIs in corporate bonds.

Effective December 17, 2018, borrowing from outside India in foreign exchange by a person resident in India:

1. An AD may borrow from its Head Office or branch or correspondent outside India or any other entity up to limit specified and subject to terms and conditions as specified by the Reserve Bank from time to time, in consultation with GOI.
2. A branch outside India of an AD being a bank incorporated or constituted in India may borrow in foreign exchange in the normal course of its banking business from outside India, subject to the directions or guidelines issued by the Reserve Bank from time to time, and the Regulatory Authority of the country where the branch is located.
3. Financial institutions, set up under an Act of the Indian Parliament, may raise foreign exchange borrowings with the prior approval of the GOI for the purpose of onward lending.
4. An AD may raise ECB from outside India in accordance with the

<td>ADs may manage surplus balances in their exchange accounts through overnight placement and investment with their overseas branches or correspondent banks, subject to limits imposed by RBI. Effective July 27, 2018, to facilitate stand-alone primary dealers (SPDs) to provide comprehensive services to their FPI clients, it was decided to permit SPDs to offer foreign exchange products to their FPI clients under certain conditions, as permitted by the RBI from time to time. Such activities must be part of their non-core activities. Effective December 17, 2018, lending by an AD in India may extend foreign-currency-denominated External Commercial Lending to a borrower outside India in accordance with the provisions contained in Schedule III of Notification No. FEMA.3(R)/2018-RB. Effective December 17, 2018, (1) an AD in India may lend in Indian rupees to a NRI/OCI cardholder for meeting the borrower’s personal requirements/own business purposes/acquisition of a residential accommodation in India/acquisition of motor vehicle in India/or for any purpose as per the loan policy laid down by the Board of Directors of the AD and in compliance with prudential guidelines of RBI. The AD bank should ensure that the borrowed funds are not used for restricted end uses. (2) Overdraft in rupee account maintained with AD in India by a bank outside India: An AD may permit a temporary overdraft, for value not exceeding Rs 5 billion or any other amount as prescribed by the RBI from time to time, in rupee accounts maintained with it by its overseas branch or correspondent or Head Office outside India, subject to such terms and conditions as the RBI may direct from time to time. Effective January 16, 2019, under the revised ECB framework, lending and borrowing by Indian banks and their branches/subsidiaries outside India will be subject to prudential guidelines issued by the Department of Banking Regulation of the Reserve Bank. Further, other entities raising ECB are required to follow the guidelines issued, if any, by the concerned sectoral or prudential regulator. ADs may grant loans to clients in India for meeting their foreign exchange requirements, for their rupee working capital requirements, or for capital expenditure subject to compliance with prudential norms, interest rate directives, and guidelines, if any, issued by RBI in this regard. ADs can also extend loans to clients maintaining RFC account, against the security of funds held in such account; and to other ADs subject to the directions or guidelines issued by the RBI from time to time. ADs can also borrow from financial institutions outside India for the purpose of granting pre-shipment or post-shipment credit to their exporter clients in India. Select institutions, other than ADs, may extend loans to their clients in India for the purpose of onward lending, on the condition that these loans are out of the foreign currency borrowings raised by these institutions and subject to the approval of the Central Government.</td>

| Investment regulations | Yes. | Banks may invest in money-market instruments and/or debt instruments held abroad up to the limits approved by their respective boards of directors. Banks are prohibited from making direct overseas investment, unless they invest in an overseas JV or a (WOS, contingent on RBI clearance. An overseas JV or WOS, with direct or indirect equity
In banks by nonresidents: FIIs registered with SEBI and NRI are allowed to subscribe to rupee-denominated instruments issued by Indian banks, including perpetual debt instruments (PDI) (Tier 1 capital) and debt capital instruments (upper Tier 2 capital), subject to the following conditions: (1) aggregate FII investments in perpetual debt instruments (PDI) should not exceed a ceiling of 49% of each issue, and investment by an individual FII should not exceed the limit of 10% of each issue; (2) aggregate NRI investments in perpetual debt instruments (PDI) should not exceed a ceiling of 24% of each issue, and investments by a single NRI should not exceed 5% of each issue; (3) investment by FIIs in debt capital instruments should be within SEBI-determined limits for FII investment in corporate debt instruments; and (4) investment by NRIs in debt capital instruments should be in accordance with the policy for investment by NRIs in other debt instruments. The issuing banks should meet these conditions at the time of issue and comply with new RBI guidelines from time to time.

Open foreign exchange position limits: Banks must apply a capital charge of 9% (that is, a risk weight of 100%) on the open foreign exchange position limit or the actual position, whichever is higher.

On resident assets and liabilities: Yes.

On nonresident assets and liabilities: Yes.

Provisions specific to institutional investors: Yes.

Insurance companies: Yes.

Limits (max.) on securities issued by nonresidents: n.a.

Limits (max.) on investment portfolio held abroad: Yes. Insurance companies are free to invest any of the funds generated from the business promoted outside India. However, any investment from Indian operations requires IRDAI approval. Further, such investments are only to be made from shareholder’s fund beyond solvency margin. These provisions have been applied since the inception of IRDAI.

Limits (min.) on investment portfolio held locally: Yes. Life insurance companies must invest (other than funds relating to pension, annuity, and group business and unit-linked business) not less than 50% of total investments in Central, State, and Other Approved Securities, with at least 25% of investments in Central G-Secs. Insurance companies must invest 40% of pension, annuity, and group fund in Central G-Secs, State G-Secs, or Other Approved Securities, with at least 20% in Central G-Secs. Not more than 50% of life fund must be invested in “approved investments,” including corporate bonds or debentures rated AA or above; short-term corporate securities rated A1 or above; all-India financial institutions rated at least AA (or at least A+, subject to lack of available higher-rated investments and Investment Committee’s approval). Instruments must be rated with Rating Agency, registered with SEBI. Housing and infrastructure investments across all securities must be a minimum of 15% of life fund for life insurers. Not less than 75% of investment in debt instruments (including Central G-Secs, State G-Secs, or Other Approved Securities) in case of life insurer and not less than 65% of investment in debt instruments (including Central G-Secs, State G-Secs, or Other Approved Securities) in case of general insurer must be in sovereign.
debt, AAA or equivalent rating for long-term and A1+ or equivalent for short-term instruments. General insurance companies must invest not less than 30% of total investments in Central G-Secs, State G-Secs, or Other Approved Securities, with at least 20% in Central G-Secs. Not more than 70% of total investments must be in “approved investments.” Housing and infrastructure investments across all securities must be a minimum of 15% of total investments for general insurers. Not more than 5% of life fund and unit-linked fund in debt instruments (including Central G-Secs, State G-Secs, or Other Approved Securities) in case of life insurer and not more than 8% of investment in debt instruments (including Central G-Secs, State G-Secs, or Other Approved Securities) in case of general insurers must have a rating of A or below or equivalent rating for long-term instruments.

Currency-matching regulations on assets/liabilities composition

Yes. Insurers are allowed to issue foreign-currency-denominated policies to nonresidents or to resident persons of Indian nationality or origin who have returned to India after being nonresidents through their offices (in India or abroad), provided the premia are collected in foreign currency from abroad or out of NRE/FCNR accounts of the insured or his relatives held in India. Insurance companies can make investments abroad only out of funds held abroad.

Pension funds

Yes. Investments in securities issued by nonresidents are not allowed.

Limits (max.) on securities issued by nonresidents

Yes. Overseas investments are not allowed. As per Section 25 of Pension Fund Regulatory and Development Authority Act, 2013, there is prohibition on offshore investments by pension funds. Pension Fund Regulatory and Development Authority is regulating National Pension System (NPS) and also administers Atal Pension Yojana (APY); accordingly, the comments pertain only to the pension products handled by the Authority.

Limits (min.) on investment portfolio held locally

Yes. The caps on the Contributory Pension Scheme namely (NPS) implemented in India for Government sector employees effective April 1, 2019, are as follows for Scheme CG, Scheme SG, Corporate CG and NPS Lite Schemes and APY: For assets class: (1) G-Secs and related investments, up to 55% (previously 50%); (2) Debt instruments and related investments, up to 45%; (3) Equity and related investments, up to 15%; (4) Asset backed, trust structured, etc., up to 5%; (5) Short-term debt instrument and related investment, up to 10% (previously 5%). The caps on the Contributory Pension Scheme namely (NPS) implemented in India for non-government sector employees effective June 15, 2018, are as follows for Scheme CG, Scheme SG, Corporate CG and NPS Lite Schemes and APY: For assets classes: (1) Equity, up to 75% (previously 50%); (2) Corporate Debt, up to 100%; (3) G-Secs, up to 100%; (4) Asset class A (for Tier I only), up to 5%.

Currency-matching regulations on assets/liabilities composition

No.

Investment firms and collective investment funds

Yes. MFs registered with SEBI are permitted to invest abroad (subject to an overall cap of US$7 billion) in: (1) ADRs/GDRs of Indian and foreign companies; (2) equities of overseas companies listed on recognized overseas stock exchanges, including initial and follow-up public; (3) foreign investment-grade debt securities in countries with

<td>MFs are subject to investment concentration limits. A mutual fund scheme is subject to a 10% limit of its net asset value (NAV) on its investments in debt instruments issued by a single issuer (money-market and non-money-market instruments) and rated at an investment grade by an authorized credit rating agency. The limit may be raised to 12%, subject to prior approval by the AMC’s Board of Trustees and the Board of Directors. A mutual fund under all its schemes should not own more than 10% of units issued by a single issuer of REIT and InvIT; and an individual mutual fund scheme may not invest more than 10% of its NAV in the units of REIT and InvIT, and more than 5% of its NAV in the units of REIT and InvIT issued by a single issuer. Mutual fund schemes are also subject to a limit on exposures to a single sector (excluding investments in bank certificates of deposits (CDs), collateralized borrowing and lending obligation (CBLO), G-Secs, T-Bills, and AAA-rated securities issued by Public Financial Institutions, Public Sector Banks, and short-term deposits of scheduled commercial banks) set at 25% of NAV. A further exposure to the financial services sector (over the 25% limit), but not exceeding 10% of the scheme’s NAV, is allowed only via an increase in exposure to Housing Finance Companies (HFCs), provided the HFCs are rated at AA or above, and are registered with National Housing Bank. The aggregate investment exposure to HFCs cannot exceed 25%. A mutual fund scheme should not invest more than 10% of NAV in short-term deposits at a single scheduled commercial bank. The aggregate limits on short-term deposits in all scheduled commercial banks are 15%, with a permitted increase to 20%, subject to approval by the Board of Trustees. Limits on debt investments at the group level of the issuer companies are set at 20% of NAV, extendable A mutual fund scheme’s exposure to repo transactions in corporate debt securities is capped at 10% of the scheme’s NAV. The cumulative exposure through repo transactions in corporate debt securities, equity, debt, and derivatives should not exceed 100% of the scheme’s NAV.</td>

©International Monetary Fund. Not for Redistribution
Changes during 2018 and 2019

Exchange Arrangement

Official exchange rate

07/10/2018
Financial Benchmarks India Private Limited has taken over the responsibility of computation and dissemination of reference rate for USD/INR and exchange rate of other major currencies. Previously, the Reserve Bank of India compiled and published on a daily basis the reference rate for spot US dollar–Indian rupee and other major currencies. Based on the reference rate for the US dollar and middle rates of the cross-currency quotes, the RBI published exchange rates of euro, pound sterling, and Japanese yen against the rupee on a daily basis.

07/20/2018
As stated by the Notification RBI/2018-19/34 of August 2, 2018, banks are advised to use the conversion rate announced by Financial Benchmarks India Private Limited for the purpose of converting foreign assets/liabilities for reporting in Form “A” return and Form VIII return. The change is to bring into effect from the reporting fortnight ending effective July 20, 2018.

Foreign exchange market

Spot exchange market

04/16/2019
Systemically Important Non-Deposit taking Investment and Credit Companies can also apply for AD Category-II license for foreign exchange transactions.

Interbank market

Over the counter

01/01/2018
The scheme of simplified hedging facility was implemented for OTC derivatives and exchange-traded currency derivative. The facility was introduced with a view to simplify the process for hedging exchange rate risk by reducing documentation requirements, avoiding prescriptive stipulations regarding products, purpose and hedging flexibility, and to encourage a more dynamic and efficient hedging culture. This facility applies to both resident and nonresident entities other than individuals. The simplified hedging facility would operate under certain conditions including: A cap on outstanding contracts of US$30 million or equivalent, on a gross basis, which could be extended up to 150% of the stipulated cap.

Forward exchange market

02/26/2018
The threshold for establishing underlying exposures was relaxed and rationalized: Residents foreign portfolio investors (FPIs) can now take positions (long or short), without having to establish existence of underlying exposure, up to a single limit of US$100 million equivalent across all currency pairs involving INR, put together, and combined across all exchanges. A long position exceeding these limits in any exchange requires an underlying exposure. Previously, domestic participants and FPIs may take long (buy) and short (sell) positions in US dollar–rupee pairs of currency derivatives up to US$15 million an exchange without having to establish existence of underlying exposure. They may also take long and short positions in euro–rupee, pound sterling–rupee, and Japanese yen–rupee pairs totaling up to the equivalent of US$5 million an exchange without having to establish existence of underlying exposure.

Arrangements for Payments and Receipts

Controls on exports and imports of banknotes

On exports

Domestic currency

02/26/2019
By Amendment Notification No. FEMA 6(R)/(1)/2019-RB of February 26, 2019, an individual traveling from India to Nepal or...
Bhutan can carry Reserve Bank of India (RBI) notes of Mahatma Gandhi (new) Series of denominations Rs 200 and/or Rs 500 up to a total limit of Rs 25,000. Previously, individual traveling from India to Nepal or Bhutan could carry RBI currency notes of denominations Rs 500 and/or Rs 1,000 up to a limit of Rs 25,000.

**Resident Accounts**

An AD in India may, subject to the directions as may be issued by the RBI, allow ship-manning/crew managing agencies in India and re-insurance and composite insurance brokers registered with Insurance Regulatory and Development Authority of India to open and maintain non-interest-bearing foreign currency accounts in India for the purpose of undertaking transactions in the ordinary course of their business.

**Capital Transactions**

The Securities and Exchange Board of India (SEBI)-registered venture capital funds and alternative investment funds may invest in equity and equity-linked instruments of foreign venture capital enterprises, subject to an overall limit of US$750 million (previously US$500 million) and SEBI regulations.

The overall limit for foreign portfolio investor investment in Central Government securities was increased to 5.5% from 5% of outstanding stock of securities in fiscal year 2018–19.

The overall limit for foreign portfolio investor (FPI) investment in corporate bonds was set at 9% of outstanding stock of corporate bonds. All the existing sub-categories under the category of corporate bonds were discontinued and replaced with a single limit for FPI investment in all types of corporate bonds.

The cap on aggregate foreign portfolio investor investments in any Central Government security was set at 30% from 20% of the outstanding stock of that security.

Foreign portfolio investor (FPIs) are permitted to invest in (1) Central Government securities, including in Treasury Bills and State Development Loans and (2) corporate bonds, without any minimum residual maturity requirement, subject to the condition that short-term (maturity up to one year) investments by an FPI under either category may not exceed 20% of the total investment of that FPI in that category. Previously, FPIs were required to invest in government bonds and corporate bonds with minimum residual maturity of three years.

Investment by any foreign portfolio investor (FPI), including investments by related FPIs, may not exceed 50% of any issue of a corporate bond.

The limit that a foreign portfolio investor could not have an exposure of more than 20% of its corporate bond portfolio to a single corporate (including exposure to entities related to the corporate) was removed.

The overall limit for foreign portfolio investor investment in Central Government securities was increased to 6% from 5.5% of outstanding stock.
Foreign portfolio investors (FPIs) are now permitted to invest in municipal bonds within the limits set for FPI investment in State Development Loans.

The list of eligible borrowers for External Commercial Borrowing (ECB) purpose was further expanded to include: (1) Housing Finance Companies, regulated by the National Housing Bank, as eligible borrowers to avail of ECBs under all tracks. Such entities must have a board-approved risk management policy and must keep their ECB exposure hedged 100% at all times for ECBs raised under Track I. (2) Port Trusts constituted under the Major Port Trusts Act, 1963, or Indian Ports Act, 1908, to avail of ECBs under all tracks. Such entities must have a board-approved risk management policy and must keep their ECB exposure hedged 100% at all times for ECBs raised under Track I. (3) Companies engaged in the business of Maintenance, Repair and Overhaul and freight forwarding to raise ECBs denominated in INR only.

Under certain conditions including that the loan is for a minimum average maturity of five years, the External Commercial Borrowing loan may be used for working capital purpose.

External Commercial Borrowing borrowers in manufacturing could raise up to US$50 million or its equivalent with minimum average maturity of one year (previously minimum average maturity was three years).

The aggregate limit prescribed for investment by foreign portfolio investors in Government securities (G-Secs) (currently Rs 3 trillion) will be exclusively available for investment in G-Secs. Previously, the limit was fungible between G-Secs and interest rate futures instruments.

Foreign portfolio investors (FPIs) are permitted to invest in (1) Central Government securities, including in Treasury Bills and State Development Loans and (2) corporate bonds, without any minimum residual maturity requirement, subject to the condition that short-term (maturity up to one year) investments by an FPI under either category may not exceed 20% of the total investment of that FPI in that category. Previously, FPIs were required to invest in government bonds and corporate bonds with minimum residual maturity of three years.

The scheme of simplified hedging facility was implemented for OTC derivatives and exchange-traded currency derivative. The facility was introduced with a view to simplify the process for hedging exchange rate risk by reducing documentation requirements, avoiding prescriptive stipulations regarding products, purpose and hedging flexibility, and to encourage a more dynamic and efficient hedging culture. This facility applies to both resident and nonresident entities other than individuals. The simplified hedging facility would operate under certain conditions including: A cap on outstanding contracts of US$30 million or equivalent, on a gross basis, which could be extended up to 150% of the stipulated cap.

Foreign portfolio investors (FPIs) may take positions (long or short), without having to establish existence of underlying exposure, up to a single limit of US$100 million equivalent across all currency pairs involving INR, put together, and combined across all exchanges. An FPI cannot take a short position beyond US$100 million equivalent across all currency pairs involving INR, put together, and combined across all exchanges. To take a long position in excess of
these limits, it will be required to have an underlying exposure. The onus of ensuring the existence of an underlying exposure must rest with the FPI concerned. Previously, FPIs were allowed to take a long (bought) or short (sold) position in USD/INR up to US$15 million an exchange without having to establish existence of underlying exposure. In addition, FPIs were allowed to take long or short positions in EUR/INR, GBP/INR, and JPY/INR pairs, all put together, up to US$5 million equivalent an exchange without having to establish existence of any underlying exposure.

03/01/2018

Foreign portfolio investors (FPIs), registered with the Securities and Exchange Board of India, are permitted to purchase or sell interest rate futures (IRF) subject to the following conditions:

(a) the aggregate long position of all FPIs, each of whom has a net long position in any IRF instrument, may not exceed 50 billion rupees, aggregated across all IRF instruments, and

(b) the total gross short (sold) position of any FPI may not exceed its consolidated long position in Government securities and IRF, at any point in time.

03/27/2019

Nonresidents were allowed to participate in the rupee interest rate derivatives markets subject to certain limitations.

Purchase abroad by residents

Residents in India, other than individuals, may hedge their direct or indirect exposure to commodity price risk and freight risk in overseas markets through AD banks, subject to conditions. Eligible commodities whose price risk may be hedged are as follows:

(1) In case of direct exposure – all commodities except gold, gems, and precious stones.

(2) In case of indirect exposure – aluminum, copper, lead, zinc, nickel, and tin.

Entities engaged in business of refining oil or shipping only are permitted to hedge their exposure to freight risk.

Controls on credit operations

04/27/2018

The External Commercial Borrowing policy was further rationalized and liberalized to expand the eligible borrowers to include housing finance companies regulated by the National Housing Bank, port trusts, and companies engaged in the business of maintenance, repair and overhaul and freight forwarding (in INR only).

Commercial credits

By residents to nonresidents

12/17/2018

Lending by an AD in India or its branch outside India or by persons other than an AD that are eligible resident entities may extend foreign-currency-denominated External Commercial Lending to a borrower outside India in accordance with the provisions contained in Schedule III of Notification No. FEMA.3(R)/2018-RB.

12/17/2018

(1) An AD in India may lend in Indian rupees to a Nonresident Indian (NRI)/Overseas Citizen of India (OCI) cardholder for meeting the borrower’s personal requirements/own business purposes/acquisition of a residential accommodation in India/acquisition of motor vehicle in India/or for any purpose as per the loan policy laid down by the Board of Directors of the AD and in compliance with prudential guidelines of Reserve Bank of India (RBI). The AD bank should ensure that the borrowed funds are not used for restricted end uses.

(2) Overdraft in rupee account maintained with AD in India by a bank outside India: An AD may permit a temporary overdraft, for value not exceeding Rs 5 billion or any other amount as prescribed by the RBI from time to time, in rupee accounts maintained with it by its overseas branch or correspondent or Head Office outside India, subject to such terms and conditions as the RBI may direct from time to time.

(3) Lending by residents in Indian rupees by persons other than an AD, such as a registered nonbank financial company in India or a
registered housing finance institution in India or any other financial institution as may be specified by the RBI from time to time, may provide housing loan or vehicle loan, as the case may be, to a NRI/OCI cardholder subject to such terms and conditions as prescribed by the RBI from time to time. The borrower should ensure that the borrowed funds are not used for restricted end uses.

**01/16/2019**

Under the revised External Commercial Borrowing (ECB) framework, lending and borrowing by Indian banks and their branches/subsidiaries outside India will be subject to prudential guidelines issued by the Department of Banking Regulation of the Reserve Bank. Further, other entities raising ECB are required to follow the guidelines issued, if any, by the concerned sectoral or prudential regulator.

**To residents from nonresidents 09/19/2018**

Indian banks can participate as arrangers/underwriters/market makers/traders in rupee-denominated bonds (RDB) issued overseas subject to applicable prudential norms. Previously, Indian banks, subject to applicable prudential norms, could act as arranger and underwriter for RDBs issued overseas and in case of underwriting an issue, their holding could not be more than 5% of the issue size after 6 months of issue.

**12/17/2018**

Borrowing from outside India in foreign exchange by a person resident in India:

1. An AD may borrow from its Head Office or branch or correspondent outside India or any other entity up to limit specified and subject to terms and conditions as specified by the Reserve Bank from time to time, in consultation with Government of India (GOI).
2. A branch outside India of an AD being a bank incorporated or constituted in India may borrow in foreign exchange in the normal course of its banking business from outside India, subject to the directions or guidelines issued by the Reserve Bank from time to time, and the Regulatory Authority of the country where the branch is located.
3. An AD may borrow in foreign exchange from a bank or a financial institution outside India, for the purpose of granting pre-shipment or post-shipment credit in foreign exchange to its exporter constituent, subject to compliance with the guidelines issued by the Reserve Bank in this regard.
4. An AD may raise External Commercial Borrowing (ECB) from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.
5. Eligible resident entities (other than ADs) may raise ECB from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.
6. Trade credit may be raised from outside India by importers for import of capital or non-capital goods as permissible under the extant Foreign Trade Policy of the Directorate General of Foreign Trade in accordance with the provisions contained in Schedule II of Notification No. FEMA.3(R)/2018-RB.
7. A person resident in India may borrow, whether by way of loan or overdraft or any other credit facility, from a bank situated outside India, where export of goods or services is proposed to be made on deferred payment terms or in execution of a turnkey project or a civil construction contract, provided the terms and conditions stipulated by the authority which has granted the approval to the arrangement are in accordance with the Foreign Exchange Management (Export of goods and services) Regulations, 2015, notified vide Notification No. FEMA.23(R)/2015-RB of January 12, 2016, as amended from time to time.
8. Financial Institutions, set up under an Act of the Indian Parliament, may raise foreign exchange borrowings with the prior
approval of the GOI for the purpose of onward lending.

Borrowing in Indian rupees by a person resident in India:

(1) An AD may raise rupee-denominated External Commercial Borrowing (ECB) from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.

(2) Borrowing by persons other than AD:

(a) Eligible resident entities may raise rupee-denominated ECB from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.

(b) Eligible resident entities, as defined by the Government of India (GOI), may borrow from overseas Multilateral Financial Institutions/International Development Financial Institutions, where the source of funds of such institutions is rupee-denominated bonds issued overseas or resources raised domestically, or any other source as approved by the GOI.

(c) Trade credit may be raised from outside India in Indian rupees by importers for import of capital or non-capital goods as permissible under the extant Foreign Trade Policy of the Directorate General of Foreign Trade in accordance with the provisions contained in Schedule II of Notification No. FEMA.3(R)/2018-RB.

(d) Any foreign investment in the nature of debt arising out of transfer or issue of security, not covered under the above sub-regulations, should be in compliance with Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017, notified vide Notification No. FEMA 20(R)/2017-RB of November 07, 2017, as amended from time to time.

(e) Any person resident in India accepting any deposit from, or making any deposit with, a person resident outside India, including loans/overdrafts against security of funds held in such accounts, should be in compliance with Foreign Exchange Management (Deposit) Regulations, 2016, notified vide Notification No. FEMA 5(R)/2016-RB of April 1, 2016, as amended from time to time.

(f) Financial institutions, set up under an Act of the Indian Parliament, may raise rupee-denominated borrowings from outside India with the prior approval of the GOI for the purpose of onward lending.

Trade credit can be availed for: import of non-capital goods for a maximum period of up to one year and linked with the operating cycle, or for a period as per the guidelines issued by the RBI from time to time for import of any goods for import by any specific sector; import of capital goods for a maximum period of three years or for a period as per the guidelines issued by the RBI from time to time. Importers can raise trade credit up to $50 million equivalent per import transaction for import of capital or non-capital goods or any other amount as decided by the RBI in consultation with the Government of India (GOI). For trade credits in foreign exchange, maximum spread of the all-in-cost over the benchmark of 6-month LIBOR or applicable benchmark for the respective currency will be 250 basis points (bps) per annum or as prescribed by the Reserve Bank in consultation with the GOI. The list of lenders that could provide trade credits was expanded by including foreign equity holders and financial institutions in International Financial Services Centres located in India. Bank guarantees may be given by the ADs, on behalf of the importer, in favor of overseas lender of trade credits not exceeding the amount of trade credit. Period of such guarantee cannot be beyond the maximum permissible period for trade credit. Trade credit may also be secured by overseas guarantee issued by foreign banks/overseas branches of Indian banks. Trade credits may
be raised by entities in special economic zones, free trade warehousing zones, and domestic tariff area. Previously, trade credit of up to one year for imports of non-capital goods and up to five years for capital goods may be permitted by ADs, up to US$20 million an import transaction. ADs may also guarantee trade credits for up to three-year average maturity. Trade credit exceeding US$20 million (buyer credit and supplier credit) to finance imports of non-capital and capital goods requires RBI permission, subject to certain conditions. The all-in-cost ceiling for trade credit is LIBOR plus 350 bps for all maturities. All-in-cost means six-month LIBOR (for the respective currency or applicable benchmark) plus margin plus all other costs.

Financial credits
To residents from nonresidents

06/07/2018 Monitoring requirements regarding External Commercial Borrowings were simplified.

09/19/2018 Eligible External Commercial Borrowing (ECB) borrowers in the manufacturing sector may raise ECB up to US$50 million or its equivalent with minimum average maturity period of 1 year (previously 3 years).

09/19/2018 Indian banks can participate as arrangers/underwriters/market makers/traders in rupee-denominated bonds (RDB) issued overseas subject to applicable prudential norms. Previously, Indian banks, subject to applicable prudential norms, could act as arranger and underwriter for RDBs issued overseas and in case of underwriting an issue, their holding could not be more than 5% of the issue size after 6 months of issue.

12/17/2018 Borrowing from outside India in foreign exchange by a person resident in India:
(1) An AD may borrow from its Head Office or branch or correspondent outside India or any other entity up to limit specified and subject to terms and conditions as specified by the Reserve Bank from time to time, in consultation with Government of India (GOI).
(2) A branch outside India of an AD being a bank incorporated or constituted in India may borrow in foreign exchange in the normal course of its banking business from outside India, subject to the directions or guidelines issued by the Reserve Bank from time to time, and the Regulatory Authority of the country where the branch is located.
(3) Financial Institutions, set up under an Act of the Indian Parliament, may raise foreign exchange borrowings with the prior approval of the GOI for the purpose of onward lending.
(4) An AD may raise External Commercial Borrowing (ECB) from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.
(5) Eligible resident entities (other than ADs) may raise ECB from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.

12/17/2018 Borrowing in Indian rupees by a person resident in India:
(1) An AD may raise rupee-denominated External Commercial Borrowing (ECB) from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.
(2) Borrowing by persons other than AD:
(a) Eligible resident entities may raise rupee-denominated ECB from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.
(b) Eligible resident entities, as defined by the Government of India (GOI), may borrow from overseas Multilateral Financial Institutions/International Development Financial Institutions, where
the source of funds of such institutions is rupee-denominated bonds
issued overseas or resources raised domestically, or any other source
as approved by the GOI.
(c) Any foreign investment in the nature of debt arising out of transfer
or issue of security, not covered under the above sub-regulations,
should be in compliance with Foreign Exchange Management
(Transfer or Issue of Security by a Person Resident Outside India)
Regulations, 2017, notified vide Notification No. FEMA 20(R)/2017-
RB of November 07, 2017, as amended from time to time.
(d) Any person resident in India accepting any deposit from, or
making any deposit with, a person resident outside India, including
loans/overdrafts against security of funds held in such accounts,
should be in compliance with Foreign Exchange Management
(Deposit) Regulations, 2016, notified vide Notification No. FEMA
5(R)/2016-RB of April 1, 2016, as amended from time to time.
(e) Financial Institutions, set up under an Act of the Indian
Parliament, may raise rupee-denominated borrowings from outside
India with the prior approval of the GOI for the purpose of onward
lending.

The External Commercial Borrowing (ECB) framework was revised
and included the following modifications to improve the ease of
doing business:
(1) Merging of Tracks: Merging of Tracks I and II as “Foreign-
Currency-denominated ECB” and merging of Track III and Rupee-
Denominated Bonds framework as “Rupee-Denominated ECB”; (2)
Eligible Borrowers: This has been expanded to include all entities
eligible to receive FDI. Additionally, Port Trusts, Units in SEZ, Small
Industries Development Bank of India, EXIM Bank, registered
entities engaged in microfinance activities, viz. registered not for
profit companies, registered societies/trusts/cooperatives and non-
government organizations can also borrow under this framework; (3)
Recognized Lender: The lender should be resident of FATF- or
IOSCO-compliant country. Multilateral and Regional Financial
Institutions, Individuals and Foreign branches/subsidiaries of Indian
banks can also be lenders as detailed in Annex of Notification; (4)
Minimum Average Maturity Period (MAMP): MAMP will be 3 years
for all ECBs. However, for ECB raised from foreign equity holder
and utilized for specific purposes, as detailed in the Annex of
Notification, the MAMP would be 5 years. Similarly, for ECB up to
US$50 million a financial year raised by manufacturing sector, which
has been given a special dispensation, the MAMP would be 1 year as
given in the Annex of Notification; (5) Late Submission Fee for delay
in Reporting: Any borrower, who is otherwise in compliance of ECB
guidelines, except for delay in reporting drawdown of ECB proceeds
before obtaining Loan Registration Number (LRN) or Form ECB 2
returns, can regularize the delay by payment of LSF as per the laid
down procedure.

No person of Democratic People’s Republic of Korea must acquire
immovable property, other than on lease not exceeding five years,
without prior approval of the Reserve Bank.

An Nonresident Indian (NRI) or an Overseas Citizen of India (OCI)
may:
(1) acquire immovable property in India other than agricultural
land/farm house/plantation property:
Provided the consideration, if any, for transfer, must be made out of
(a) funds received in India through banking channels by way of
inward remittance from any place outside India or (b) funds held in
any nonresident account maintained in accordance with the
provisions of the Act, rules or regulations framed thereunder. Provided further no payment for any transfer of immovable property must be made either by traveler’s check or by foreign currency notes or by any other mode other than those specifically permitted under this clause.

(2) acquire any immovable property in India other than agricultural land/farm house/plantation property by way of gift from a person resident in India or from an NRI or from an OCI, who in any case is a relative as defined in Section 2(77) of the Companies Act, 2013;

(3) acquire any immovable property in India by way of inheritance from a person resident outside India who had acquired such property (a) in accordance with the provisions of the foreign exchange law in force at the time of acquisition by him or the provisions of these Regulations or (b) from a person resident in India;

(4) transfer any immovable property in India to a person resident in India;

(5) transfer any immovable property other than agricultural land/farm house/plantation property to an NRI or an OCI.

A person resident outside India who has established in India in accordance with the Foreign Exchange Management (Establishment in India of a branch office or a liaison office or a project office or any other place of business) Regulations, 2016, as amended from time to time, a branch, office, or other place of business for carrying on in India any activity, excluding a liaison office, may

(1) acquire any immovable property in India, which is necessary for or incidental to carrying on such activity;

Provided

(a) all applicable laws, rules, regulations, or directions for the time being in force are duly complied with; and
(b) the person files with the Reserve Bank a declaration in the form IPI as prescribed by Reserve Bank from time to time, not later than ninety days from the date of such acquisition.

(2) transfer by way of mortgage to an AD as a security for any borrowing, the immovable property acquired in pursuance of clause (1).

03/26/2018

Sale locally by nonresidents

Citizens of Democratic People’s Republic of Korea may not acquire or transfer immovable property in India other than on a lease not exceeding five years, without Reserve Bank of India approval.

Controls on personal capital transactions

Loans

To residents from nonresidents

An individual resident in India may borrow a sum not exceeding US $250,000 or its equivalent, or any other amount as decided by the Reserve Bank from time to time, from his or her relatives outside India and subject to such terms and conditions as specified by the Reserve Bank from time to time in consultation with the Government of India. Previously, such borrowing had to be interest free and have a minimum maturity of one year.

An individual resident in India studying abroad may raise loan outside India not exceeding US$250,000 or its equivalent, or any other amount as decided by the Reserve Bank from time to time, for the purposes of payment of education fees abroad and maintenance subject to terms and conditions as specified by the Reserve Bank from time to time in consultation with the Government of India.

A person resident in India, not being a company incorporated in India, may borrow in Indian rupees from a Nonresident Indian/relatives who are Overseas Citizens of India cardholders outside India, subject to such terms and conditions as specified by the Reserve Bank from time to time in consultation with the Government.
of India. The borrower should ensure that the borrowed funds are not used for restricted end uses.

Provisions Specific to the Financial Sector

**Borrowing abroad**

*04/27/2018*

External Commercial Borrowings (ECBs) are subject to a uniform all-in-cost ceiling of 450 basis points (bps) over LIBOR or other currency-specific benchmark. Previously, the all-in-cost ceiling was 300 bps for maturities of 3–5 years and 450 bps for maturities over five years.

ECB borrowing is subject to end-use restrictions, which was substantially relaxed from a positive end-use list to a small negative end-use list.

*12/17/2018*

Borrowing from outside India in foreign exchange by a person resident in India:

1. An AD may borrow from its Head Office or branch or correspondent outside India or any other entity up to limit specified and subject to terms and conditions as specified by the Reserve Bank from time to time, in consultation with Government of India (GOI).
2. A branch outside India of an AD being a bank incorporated or constituted in India may borrow in foreign exchange in the normal course of its banking business from outside India, subject to the directions or guidelines issued by the Reserve Bank from time to time, and the Regulatory Authority of the country where the branch is located.
3. Financial institutions, set up under an Act of the Indian Parliament, may raise foreign exchange borrowings with the prior approval of the GOI for the purpose of onward lending.
4. An AD may raise External Commercial Borrowing from outside India in accordance with the provisions contained in Schedule I of Notification No. FEMA.3(R)/2018-RB.

**Lending to nonresidents (financial or commercial credits)**

*07/27/2018*

To facilitate stand-alone primary dealers (SPDs) to provide comprehensive services to their foreign portfolio investor (FPI) clients, it was decided to permit SPDs to offer foreign exchange products to their FPI clients under certain conditions, as permitted by the Reserve Bank of India from time to time. Such activities must be part of their non-core activities.

*12/17/2018*

Lending by an AD in India may extend foreign-currency-denominated External Commercial Lending to a borrower outside India in accordance with the provisions contained in Schedule III of Notification No. FEMA.3(R)/2018-RB.

*12/17/2018*

1. An AD in India may lend in Indian rupees to a Nonresident Indian/Overseas Citizen of India cardholder for meeting the borrower’s personal requirements/own business purposes/acquisition of a residential accommodation in India/acquisition of motor vehicle in India/or for any purpose as per the loan policy laid down by the Board of Directors of the AD and in compliance with prudential guidelines of Reserve Bank of India (RBI). The AD bank should ensure that the borrowed funds are not used for restricted end uses.
2. Overdraft in rupee account maintained with AD in India by a bank outside India: An AD may permit a temporary overdraft, for value not exceeding Rs 5 billion or any other amount as prescribed by the RBI from time to time, in rupee accounts maintained with it by its overseas branch or correspondent or Head Office outside India, subject to such terms and conditions as the RBI may direct from time to time.

*01/16/2019*

Under the revised External Commercial Borrowing (ECB) framework, lending and borrowing by Indian banks and their...
branches/subsidiaries outside India will be subject to prudential guidelines issued by the Department of Banking Regulation of the Reserve Bank. Further, other entities raising ECB are required to follow the guidelines issued, if any, by the concerned sectoral or prudential regulator.

The exchange rate is determined by supply and demand in the foreign exchange market. BI, however, may intervene—as part of a policy mix—whenever necessary to achieve the inflation target and to maintain macroeconomic stability. When it intervenes, the BI does not target a specific rate or maintain exchange rate movements within a specific band; rather, it provides liquidity to maintain market stability. In 2018, tighter global financial conditions resulted in episodes of exchange rate pressures and capital outflows from Indonesia, which was relatively hard hit compared to other emerging markets in Asia. External pressures have subsided since October 2018 and inflows have resumed, although they remain volatile. The current account deficit widened to 3% of the gross domestic product (GDP) in 2018 (from 1.6% in 2017), mainly because of lower commodity exports and higher infrastructure-related imports. Tighter financial conditions during Q2/Q3 2018 led to an overall decline in net portfolio and FDI flows by 1.6% of GDP relative to 2017. Overall, the balance of payments reached a deficit of 0.7% of GDP, with the current account deficit more than offsetting the financial account surplus. Gross international reserves declined by 0.9% of GDP to US$121 billion (6½ months of imports) in December 2018, from US$130 billion at end 2017. Given the increased volatility and departure from the 2% band against the US dollar since January 2018, the de facto exchange rate arrangement was reclassified to floating from stabilized, effective January 1, 2018. The BI does not disclose data on its interventions.

Free floating

Official exchange rate

Yes. Rates are as follows: The official foreign exchange reference rate is the Jakarta interbank spot dollar rate (JISDOR) for US dollars. The JISDOR represents the weighted average of US dollar–rupiah spot transactions in the interbank market within a specific window, captured in real time through the BI monitoring system. The JISDOR has been published since May 20, 2013, and is intended to be a market reference for US dollar–rupiah spot transactions in the domestic market. The JISDOR is published on every Indonesian business day. The official foreign exchange reference rate for non-US dollar currencies is the midrate of other BI foreign exchange transaction rates. The JISDOR and other foreign exchange midrates are used for BI’s accounting purposes. The BI foreign exchange transaction rates represent the bid-ask prices of foreign exchange rates against rupiah used for BI transactions with the government and other parties. The BI announces these rates every Indonesian business day. Since May 20, 2013, the calculation of BI foreign exchange transaction rates has been based on the JISDOR. The BI does not publish banknote rates since banknote transactions with third parties are no longer provided.

Monetary policy framework

Exchange rate anchor

U.S. dollar

Euro

Composite

Other

Monetary aggregate target
Inflation-targeting framework | Yes. | The BI’s monetary policy framework continues to adhere to an inflation target as the overriding objective. In this regard, to maintain low and stable inflation amid global economic uncertainty, inflation targeting is implemented more flexibly. The BI implements a monetary and macroprudential policy mix and undertakes policy communication and coordination to achieve its objectives. On January 1, 2015, the government, in coordination with the BI, set the annual inflation targets for 2015–17 at 4.0% ± 1% and for 2018 and 2019 at 3.5% ± 1%. Specifically, the inflation target is the year-over-year headline consumer price index (CPI) inflation at the end of the year. The BI announces the accountability of inflation target accomplishment through the BI Annual Report, which can be accessed publicly.

Target setting body | Yes. | The inflation target is set by the government (MOF) in coordination with the BI. The inflation target is set through the High Level Meeting forum, attended by the Governor of BI and the government, represented by the MOF, Coordinating Minister for the Economy, Ministry of Home Affairs, Ministry of Trade (MOT), Ministry of Energy and Mineral Resources, Ministry of Agriculture, and Indonesian Bureau of Logistics. The target is based on the consensus decision in the High Level Meeting forum discussing current inflation conditions, the risk of inflation pressure in the future, and the long-term inflation target. There is no operational freedom to decide the target, but it is possible for the CB and the government to adjust the inflation target if there are shocks that suddenly occur and cannot be controlled by the CB and the government, such as the oil price hike in 2005.

Inflation target | Yes. | The annual inflation target for 2018 and 2019 is 3.5% ± 1%.

Operating target (policy rate) | Yes. | Although the BI has not set any operating target, at the operational
level, the monetary policy stance is reflected in the setting of the policy rate with the expectation of influencing the interbank money market rates and in turn the deposit rates and lending rates in the banking system. Changes in these rates will ultimately influence output and inflation.

Policy rate
Yes. The policy rate is the BI seven-day reverse repurchase rate.

Target corridor band
No.

Other
No.

Accountability
Yes. The BI submits report on the implementation of duties and responsibilities to the House of Representatives, Government, and public on quarterly basis. The BI also publishes the annual reports to the public that provides information related to performance and governance.

Monetary policy communications are issued in press releases; press conferences after board meetings; and publication of the Monetary Policy Review/Report presenting the background to decisions made and explanations provided directly to the public, the media, economic actors, market analysts, and academics. The BI communicates its monetary policy through the following publications: Monetary Policy Review, Indonesian Economic Report, Quarterly Report to Indonesian Parliament (ID), and press releases on monetary policy.

Open letter
No.

Parliamentary hearings
Yes. The BI reports regularly to the Indonesian Parliament on the operation of monetary policy as part of the accountability of the BI’s performance. The reporting of monetary policy takes place through written submissions and verbal explanations of the operation of monetary policy each quarter and of specific aspects of monetary policy as may be deemed necessary. Moreover, the BI also conducts a hearing with the Parliament regarding BI’s annual budget.

Other
Yes. The BI announces accountability of inflation target accomplishment through the BI Annual Report, Monetary Policy Review/Report, Indonesian Economic Report, Quarterly Report to Indonesian Parliament (ID), and press releases, which can be accessed publicly.

Transparency
Yes. Policy communications in the BI use several channels of communication, that is, press releases of decisions of the board meeting; a press conference after the board meeting; publication of policy reports, that is, the Monetary Policy Review/Report, the Financial Stability Report, the Economic Report on Indonesia, etc.; a quarterly report to the Parliament as part of accountability based on the Central Bank Act; and policy dialogue with the Parliament.

Monetary policy communications provide information about recent economic developments, policy decisions pursued by the BI, and the outlook for the economy. Such information is provided to the public, Parliament, the media, business actors, market analysts, and academics.

Publication of votes
No. Votes are not published.

After board meeting, monetary policy decision will be written in the first paragraph of the press release. The paragraph will tell decision made in the board meeting and reveal policy direction will be taken by the BI. There is no information published regarding voting of board members, whether on each member votes for or votes in favor and against the decision.

Publication of minutes
No. Minutes are not published.

The BI does not publish minutes for board meetings. All information
regarding the meeting will be published via press release. A comprehensive information regarding economic development and prospects as well as policy decision, including the background, based on board meeting materials will be provided in monetary policy review/reports.

Publication of inflation forecasts: Yes. Inflation forecasts are published in Monetary Policy Report. Inflation forecasts are also published in Economic Report on Indonesia (annual publication) presenting forecasts of CPI inflation and its components and also some risk factors. In Monetary Policy Report, forecasts are presented in fan chart. In Economic Report on Indonesia, inflation forecasts are presented in short term (present year) and medium term. A summary of inflation forecasts is also mentioned in press releases and press conferences after the board meetings. Both the report and press releases are available to the public on the bank’s website.

Other monetary framework

Exchange tax: No.
Exchange subsidy: No.
Foreign exchange market: Yes. Commercial banks may freely set their exchange rates and commissions for transactions with clients. The BI regulates foreign exchange transactions against rupiah between commercial banks with domestic and foreign parties to strengthen and increase the governance of the foreign exchange market without restricting the use of the acquired foreign currency. Foreign exchange transactions above a certain threshold must be supported by documents on the underlying trade or investment transactions, with certain exemptions. Spot transactions must be settled in full delivery payment. Derivatives transactions may be settled in full or by netting for the purpose of rollover, early termination, and unwinding of the initial derivative transaction, but only if the client provides underlying documents.

Spot exchange market: Yes. As of the end of December 2018, there were 76 commercial banks licensed for foreign exchange activity. Through BI Regulations No. 18/18/PBI/2016 and No. 18/19/PBI/2016, the purchases of foreign currency against rupiah by domestic and foreign party clients through spot transactions exceeding a certain threshold are subject to verification of supporting documents on the underlying transaction. Spot transactions must be settled in full; derivatives transactions may be settled in full or by netting for the purpose of rollover, early termination, and unwinding of the initial derivative transaction as long as supported by underlying documents. The number of money changers as of December 2018 was 1,164 for nonbank money exchange activities.

Operated by the central bank: No. The BI revoked the facility for foreign exchange liquidity to domestic companies by conducting spot transactions through commercial banks in connection with economic activities in Indonesia.

Foreign exchange standing facility: No.
Allocation: No.
Auction: No.
Fixing: No.
Interbank market: Yes. As of December 31, 2018, there were 76 commercial banks with foreign exchange activity licenses. Interbank spot transactions...
against rupiah can be done without underlying transactions.

<tr>
<td>Banks and nonbank corporate entities (including state-owned and private enterprises) are required to report all offshore commercial borrowing and provide for risk management; individuals are required to report commercial offshore borrowing equivalent to US$200,000 or more. Under Act No. 24 of 1999 on the Foreign Exchange Activities and Exchange Rate System, residents must submit information and data on foreign exchange activities, directly or through another party stipulated by the BI. The implementation of the provision is prescribed in BI regulations: On June 30, 2016, the BI released BI Regulation No. 18/10/PBI/2016 concerning The Monitoring of Foreign Exchange Flow of Banks and Customers. This regulation replaced BI Regulation No. 13/21/PBI/2011. As stipulated in the previous regulation, banks must submit complete, accurate, and timely information and data on foreign exchange flows to the BI. There is an additional rule in the new regulation, that is, a bank’s customer must submit supporting documents to the bank for outgoing transfer in foreign currency amounting to more than US$100,000 or its equivalent. Circular Letter No. 18/23/DSta (previously Circular Letter of BI No. 13/33/DSM) gives more detailed provisions for fulfilling BI Regulation No. 18/10/PBI/2016. The revised regulation covers rules on how banks must report customer compliance in submitting supporting documents for outgoing transfer in foreign currency amounting to more than US$100,000 or its equivalent. BI Regulation No. 16/22/PBI/2014 requires that nonbank corporations provide complete, accurate, and timely reports to the BI. This regulation updated BI Regulation No. 14/21/PBI/2012, which was adopted as the legal basis for integration of the reporting system for activity in foreign exchange flows with the reporting system for external debt to improve effectiveness and efficiency in monitoring activity in foreign exchange flows by residents. The new regulation requires nonbank corporations that have external debt in foreign currency to implement prudential principles in addition to their reports on foreign exchange flows. Circular Letter of BI No. 17/26/DSta (earlier Circular Letter of BI No. 15/5/DSM) and Circular Letter of BI No. 15/16/DInt provide further provisions for implementing BI Regulation No. 16/22/PBI/2012 (earlier No. 14/21/PBI/2012). The revised regulation provides updated technical guidelines on issues such as reporting subject, coverage, and period and sanction procedures.</td>

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

### Resident Accounts

Yes. In accordance with the Currency Act, all transactions in Indonesia must use rupiah. Therefore, no checks may be drawn on foreign exchange accounts, as this is considered a means of payment. Nevertheless, funds in foreign exchange accounts may still be transferred abroad freely, with terms mentioned in IV.

According to PBI No. 18/19/PBI/2016, as of September 5, 2016, the threshold for rupiah transfers to accounts of foreign parties as stated in Article 18 is as follows:

1. Banks may perform rupiah transfers to accounts owned by foreign parties and/or to joint accounts between foreign parties and non-foreign parties in a domestic bank if
   a) the nominal value of the rupiah transfer is up to the equivalent of US$1 million a day a foreign party; or
   b) the transfer is performed between rupiah accounts owned by the

---

©International Monetary Fund. Not for Redistribution
same foreign party.
(2) With regard to rupiah transfers to accounts owned by foreign parties derived from other than derivatives transactions with nominal value greater than US$1 million or its equivalent a day a foreign party, banks receiving the rupiah transfer must ensure that the foreign parties have underlying transactions.

**Nonresident Accounts**

- **Foreign exchange accounts permitted**: Yes.
- **Approval required**: No.
- **Domestic currency accounts**: Yes.
- **Convertible into foreign currency**: Yes.
- **Blocked accounts**: No.
- **References to legal instruments and hyperlinks**: This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Imports and Import Payments**

- **Foreign exchange budget**: No.
- **Financing requirements for imports**: No. Requirements generally are set by commercial banks on the basis of their assessment.
- **Minimum financing requirements**: No.
- **Advance payment requirements**: No.
- **Advance import deposits**: No.
Documentation requirements for release of foreign exchange for imports

Yes.

Domiciliation requirements

No. Domiciliation is not required. Instead, BI regulations stipulate that release of foreign exchange is subject to underlying documentation of import transactions.

Preshipment inspection

No.

Letters of credit

No. Import payments may be made either on an LC or non-LC basis depending on the agreement between exporters and importers.

Import licenses used as exchange licenses

No.

Other

Yes. Cement and asbestos sheets, dry batteries, steel slabs, low-voltage electric cords, and electric light bulbs are subject to quality control. BI regulations stipulate that release of foreign exchange is subject to underlying documentation of import transactions. The MOT regulates import licensing (Minister of Trade Regulation No. 40/M-DAG/PER/8/2013).

Import licenses and other nontariff measures

Yes.

Positive list

No.

Negative list

Yes. Imports from countries against which the UN has imposed a trade embargo are prohibited, as are imports from all sources of most secondhand goods and of certain other products. However, secondhand engines, their parts, and other capital goods may be imported by industrial firms for their own use or for reconditioning, in accordance with the guidelines of the MOT. Certain categories of agricultural imports, including foodstuffs, beverages, and fruits, may be imported only by registered importers designated by the MOT. The procurement policies of companies approved for the importation of fruit, alcoholic beverages, and chicken are evaluated annually by the government, although explicit quantitative restrictions are not placed on these products. There is an import ban on rice. The MOT defines the requirements for importers. Companies that meet the requirements must apply and are designated registered importers. These requirements aim to make import administration more orderly. Only the government-owned Bulog (Indonesian Bureau of Logistics, in Indonesian: Badan Urusan Logistik/Bulog) may import medium-grade rice. Premium rice may be imported by licensed importers.

Open general licenses

Yes. There is a registry of authorized importers that includes only Indonesian nationals, although foreign investors are permitted to import the items required for their own projects. Although imports are subject to licensing requirements, most of them are classified under the general importer license.

Licenses with quotas

No.

Other nontariff measures

No.

Import taxes and/or tariffs

Yes. Certain products receive preferential treatment within the framework of AFTA and the WTO. Import tariff is based on Harmonized System (HS) 2012. Certain products are granted preferential duties within the framework of the free trade area (FTA), Economic Partnership Agreement (EPA), and WTO. Generally, import tariff ranges from 0% to 5%. Changes in import tariff regulation are (1) Minister of Finance Regulation No. 97 of 2015 related to changes in import tariff for iron and steel, (2) Minister of Finance Regulation No. 132 of 2015 related to changes in import tariff for consumer goods and aircraft components, and (3) Minister of Finance Regulation No. 35 of 2016 related to changes in import tariff for aircraft components as of 2019.
Taxes collected through the exchange system  Yes.  Import taxes are collected through designated foreign exchange banks authorized by the MOF.

State import monopoly  Yes.  Imports of certain goods remain restricted to approved importers. The government enterprise Pertamina imports lubricating oil and lubricating grease, and the Indonesian state-owned company Dahana imports ammunition and gel explosives. Licensed importers are permitted to import lubricating grease (as stated in the joint agreement between the Ministry of Energy and Mineral Resources, MOF, and MOT Republic of Indonesia Nos. 1905 K/34/MEM/2001, 426/KMK.01/2001, 233/MPP/Kep/7/2001). As for imports of ammunition and gel explosives, Dahana is not the sole importer. Other companies have been appointed to import ammunition and gel explosives in the interest of national security.

References to legal instruments and hyperlinks  This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

### Exports and Export Proceeds

**Repatriation requirements**  Yes.  BI Regulation No. 16/10/2014, concerning Receipt of Export Proceeds and Withdrawal of Foreign Exchange from External Debt, has been replaced by BI Regulation No. 17/23/PBI/2015. Circular Letter of BI No. 16/9/DS/M of May 26, 2014, as provisions of BI Regulation No. 16/10/PBI/2014, remains the guideline for technical process, for example, requirements for receipt of export proceeds, supporting documents and information submission, and sanction procedures. The purpose of the regulation is to ensure receipt of export proceeds through the Indonesian banking system. There is no obligation to keep these funds in a domestic bank and no restriction on subsequent transfers abroad. There is also no obligation to convert the foreign exchange to domestic currency.

**Surrender requirements**  No.

**Surrender to the central bank**  No.

**Surrender to authorized dealers**  No.

**Financing requirements**  No.

**Documentation requirements**  Yes.  MOT Regulation No. 04/M-DAG/PER/1/2015 as revised to MOT Regulation No. 67/M-DAG/PER/8/2015 (revision on the regulation attachment specifically on the scope of commodities) requires LCs for export payments for certain products from natural resources. Export payments must be made through an LC for exports of minerals, coal, crude palm oil, palm kernel oil, oil, and gas. Exports of other products that are not regulated in MOT Regulation No. 67/M-DAG/PER/8/2015 may be made on an LC or non-LC basis depending on the agreement between exporters and importers.

**Letters of credit**  No.  Export payments may be made on an LC or non-LC basis depending on the agreement between exporters and importers.

**Guarantees**  No.

**Domiciliation**  Yes.

**Preshipment inspection**  Yes.  Exports of goods containing imported material that is exempt from import taxes must be inspected before shipment.

**Other**  Yes.

**Export licenses**  Yes.  Exports are prohibited to countries against which the UN has imposed a trade embargo, as are exports to all countries of certain
categories of unprocessed or low-quality rubber, brass, and copper scrap (except from the island of Irian Jaya), iron scrap, steel scrap, and antiques of cultural value. Exporters are required to obtain trade permits issued by the MOT.

Without quotas

Yes. To meet domestic demand and encourage domestic processing of certain raw materials, exports of certain domestically produced commodities must have MOT authorization. Items affected by such controls include clove seeds, logs, fertilizer, cement, iron for construction reinforcement, automobile tires, paper, asphalt, stearin, cattle, salt, wheat flour, maize, soybeans, rice, copra, olein, raw rattan, meat, and all goods produced from subsidized raw materials. Concern about domestic price stability sometimes leads to the suspension of exports of various items in this category.

With quotas

Yes. Manioc may be exported only by approved exporters. Textiles and textile products subject to import quotas in the consumer countries may be exported only by approved textile exporters, who may transfer their allocated quotas to other approved exporters through the Indonesian Commodity Exchange Board (ICEB, Indonesian: Bursa Komoditi Indonesia).

Export taxes

Yes.

Collected through the exchange system

Yes. Taxes are collected through designated banks authorized by the MOF.

Other export taxes

Yes. Export taxes are imposed on skins (bovine/buffalo, goat/sheep), timber, cocoa, concentrate minerals, and palm and crude palm oil and its derivatives. Changes in tariff regulation are (1) Minister of Finance Regulation No. 6 of 2014 and its amendment Minister of Finance Regulation No. 153 of 2014 regarding the export tariff for raw material/ore to improve investment and productivity of the domestic mining industry and (2) Minister of Finance Regulation No. 136 of 2015 related to changes in export tariff for crude palm oil.

**Capital Transactions**

As of September 7, 2016, according to BI Regulation No. 18/19/PBI/2016, banks are prohibited from making certain transactions with foreign parties, including (1) lending or financing in rupiah and/or foreign currencies, except for noncash credit or guarantees pertaining to investment activities in Indonesia with certain requirements; (2) placement of funds in rupiah; (3) purchase of securities in rupiah issued by foreign parties, except securities related to export or import activities and bank drafts issued by overseas banks for the account of Indonesian workers overseas; (4) interoffice claims in rupiah; (5) interoffice claims in foreign currencies for provision of credit overseas; (6) equity participation in...
rupiah; (7) interoffice billings in rupiah; (8) interoffice billing in foreign currencies in the context of lending or financing overseas; and (9) capital investment in rupiah.

The regulation provides an exception for banks to lend to foreign parties in the form of a noncash credit or guarantee pertaining to investment activities in Indonesia, and to purchase securities in rupiah issued by foreign parties related to export and import activities and bank drafts issued by overseas banks for the account of Indonesian workers overseas.

In addition, with regard to Indonesian depository receipt (IDR) accounts held by foreign parties in domestic banks, since the implementation of Article 19 BI Regulation No.18/19/PBI/2016 (previously BI Regulation No.16/17/PBI/2014), rupiah transfers to accounts held by foreign parties or joint accounts held by a foreign party and a non-foreign party at a domestic bank above US$1 million or equivalent a day must be supported by underlying documents, except for:

- transfer between rupiah accounts owned by the same foreign party;
- Rupiah as part of derivative transactions settlement.

Article 18 of BI Regulation No.18/19/PBI/2016 stated that rupiah transfers to any party outside Indonesia are prohibited.

Repatriation requirements Yes.

BI Regulation No. 16/10/PBI/2014, concerning Receipt of Export Proceeds and Withdrawal of Foreign Exchange from External Debt, has been replaced by BI Regulation No. 17/23/PBI/2015. Circular Letter of BI No. 16/9/DSII of May 26, 2014, as provisions of BI Regulation No. 16/10/PBI/2014, remains the guideline for technical processes, for example, requirements for receipt of export proceeds, supporting documents and information submission, and sanction procedures. The purpose of the regulation is to ensure the receipt of export proceeds through the Indonesian banking system. There is no obligation to keep these funds in a domestic bank and no restriction on subsequent transfers abroad. There is also no obligation to convert the foreign exchange to domestic currency.

Surrender requirements No.

Surrender to the central bank No.

Surrender to authorized dealers No.

Controls on capital and money market instruments Yes.

On capital market securities Yes.

Shares or other securities of a participating nature Yes.

Purchase locally by nonresidents Yes. Foreign investors are allowed to purchase without limit shares issued by Indonesian companies in the Indonesian capital market. There is a limit on the ownership of joint securities companies that are also finance companies.

Sale or issue locally by nonresidents Yes. Foreign companies are permitted to issue IDRs through custodian banks in Indonesia. IDRs are instruments that facilitate the trading of shares of foreign companies in the Indonesian capital market. Custodian banks, in turn, issue IDRs based on the shares that the foreign companies have in the custodian bank. Elucidation of Article 1 Paragraph 15 of Law No. 8 Year 1995 Concerning the Capital Market states that “An ‘Offering’ within the territory of the Republic of Indonesia includes both domestic or foreign issuers, as well as offerings to both domestic and foreign investors, in compliance with the disclosure principle.” According to this condition, a public offering must use supporting professionals registered in the capital...
market as regulated in Article 64 of the Capital Market Law and other provisions in the capital market regulations, among others: Rule No. IX.A.1 concerning General Provisions of Registration Statement, Rule No. IX.A.2 concerning Registration Procedures for Public Offering, OJK Regulation No. 7/POJK.04/2017 concerning Registration Statement Documents for Public Offering of Equity and Debt Securities, and OJK Regulation No. 8/POJK.04/2017 concerning Form and Content of a Prospectus for Public Offering of Equity Securities. An alternative to a direct public offering is publication of IDRs as stipulated in Rule No. IX.A.10 of Public Offerings of Indonesian Depositary Receipts.

**Purchase abroad by residents**

Yes. Pension funds may not invest in securities abroad, and collective investment scheme (CIS) mutual funds may invest abroad only up to 15% of their net asset value (NAV). Protected mutual funds and guaranteed mutual funds may invest up to 30% of their NAV abroad.

**Sale or issue abroad by residents**

Yes. No controls apply as long as the shares are not listed on the Indonesia Stock Exchange (IDX). Securities listed on the IDX must comply with the Capital Market Law and with the requirement concerning the maximum percentage of foreign ownership of shares. Indonesian companies do not issue shares; they issue US depository receipts in the US capital markets and global depository receipts (GDRs) on the London Stock Exchange. However, the issuer under the supervision of the Indonesia Financial Services Authority (FSA) must fulfill the principles of disclosure, which are regulated by the FSA, among others informing of a public offering abroad as stipulated in FSA Regulation No. 31/POJK.04/2015 concerning Disclosure of Information or Material Facts by Issuer or Public Company. Furthermore, if the issuance of securities is in the form of a public offering, the issuer must follow the provisions of the public offering as set forth in, among others, Rule No. IX.A.1 concerning General Provisions of Registration Statement, Rule No. IX.A.2 concerning Registration Procedures for Public Offering, OJK Regulation No. 7/POJK.04/2017 concerning Registration Statement Documents for Public Offering of Equity and Debt Securities, and OJK Regulation No. 8/POJK.04/2017 concerning Form and Content of a Prospectus for Public Offering of Equity Securities.

**Bonds or other debt securities**

Yes.

**Purchase locally by nonresidents**

Yes. In general, government bonds are issued in the primary market only through predetermined primary dealers. Nonresidents may purchase government bonds issued in the primary market through local primary dealers without limitation. However, government bonds issued specifically for individual and retail investors, called ORIs (Indonesian Retail Bonds, in Indonesian: Obligasi Negara Ritel Indonesia), may be purchased in the primary market only by Indonesian investors, who make their purchases through a predetermined selling agent. In the secondary market, all investors, both resident and nonresident, may purchase all categories of government bonds freely. There is no regulation that explicitly limits the purchase of corporate bonds locally by nonresidents. Investment in other domestic bond markets and debt securities (that is, corporate bonds, commercial paper (CP), and certificates of deposit (CDs)) is not clearly regulated in the context of nonresident transactions—thus, such transactions are carried out in practice and are considered free of capital controls.

**Sale or issue locally by nonresidents**

No. There are no regulations concerning the sale of bonds and other debt securities locally by nonresidents, and thus this type of activity is considered to be free of capital controls. The regulations on the issuance of bonds do not differentiate between residents and.
nonresidents and, therefore, this type of activity is also considered to be free of capital controls. Elucidation of Article 1 Paragraph 15 of Law No. 8 Year 1995 Concerning the Capital Market states that “An ‘Offering’ within the territory of the Republic of Indonesia includes both domestic or foreign issuers, as well as offerings to both domestic and foreign investors, in compliance with the disclosure principle.” According to this condition, the public offering must use supporting professionals registered on the capital market as regulated in Article 64 of the Capital Market Law and other provisions in the capital market regulations, among others: Rule No. IX.A.1 concerning General Provisions of Registration Statement. Rule No. IX.A.2 concerning Registration Procedures for Public Offering. OJK Regulation No. 7/POJK.04/2017 concerning Registration Statement Documents for Public Offering of Equity and Debt Securities, and OJK Regulation No. 9/POJK.04/2017 concerning Form and Content of a Prospectus for Public Offering of Debt Securities. An alternative to direct public offering is publication of IDR s as stipulated in Rule No. IX.A.10 of Public Offerings of Indonesian Depositary Receipts.

Purchase abroad by residents

Yes. Purchases of bonds and other debt securities abroad are regulated only for pension funds, which may not invest in securities abroad, and domestic mutual fund companies as follows: CIS mutual funds may invest abroad up to 15% of their NAV, and protected mutual funds and guaranteed mutual funds may invest up to 30% of their NAV abroad, for prudential purposes. No regulations explicitly limit purchases abroad by other resident investors.

Sale or issue abroad by residents

Yes. The sale of bonds or other debt securities abroad by residents is not clearly regulated and is considered to be free of capital controls. The issuance of bonds or other debt securities abroad is subject to the same regulations that apply to resident issuers who issue these securities locally, and in this respect, this activity is considered to be free of capital controls, with the exception of issuance of securities with maturities of more than one year, which is subject to BI approval. However, the issuer under the supervision of Indonesia FSA must fulfill the principles of disclosure, which are regulated by the FSA, among others, informing of a public offering abroad as stipulated in FSA Regulation No. 31/POJK.04/2015 concerning Disclosure of Information or Material Facts by Issuer or Public Company. Furthermore, if the issuance of securities is in the form of a public offering, the issuer must follow the provisions of the public offering as set forth in, among others, Rule No. IX.A.1 concerning General Provisions of Registration Statement, Rule No. IX.A.2 concerning Registration Procedures for Public Offering, OJK Regulation No. 7/POJK.04/2017 concerning Registration Statement Documents for Public Offering of Equity and Debt Securities, and OJK Regulation No. 9/POJK.04/2017 concerning Form and Content of a Prospectus for Public Offering of Debt Securities.

On money market instruments

Yes. BI Regulation No.18/11/PBI/2016 Article 3 stated that nonresidents are allowed to do money market transactions domestically including sale and purchase of money market instruments such as negotiable certificate of deposit (NCD), CP, etc. This provision applies to onshore money market instruments both in IDR denomination and foreign currency denomination. However, regarding instrument NCD, BI Regulation No. 19/7/PADG/2017 Article 15 implies that while nonresidents can buy NCD in primary market, nonresidents can only buy NCD in secondary market from other nonresidents. In terms of money market instruments in IDR denomination, nonresidents may purchase BI certificates (tradeable BI certificates, SBIs) in the secondary market. However, the minimum holding...
period for all investors (domestic and foreign) for purchases of SBIs in the primary and secondary markets is one week (Press Release No. 17/71/DKom of September 30, 2015).

In addition, according to Article 4 BI Regulation No. 18/19/PBI/2016, purchase of IDR against foreign currency and transfer of IDR by nonresidents above $1 million must be followed by underlying of trade and investments except for current account, savings account, time deposits, and NCDs.

Regarding issuance of domestic market instruments, BI Regulation No.18/11/PBI/2016 Article 8 stated that only residents can issue domestic money market instruments. Residents as issuers should be registered in the BI to be able to issue domestic money market instruments.

However, for lending and borrowing transactions such as unsecured call money and repo transactions, nonresidents are allowed to do transactions domestically.

Based on Article 4 BI Regulation No. 18/18/PBI/2016, residents are not allowed to purchase foreign currency against IDR above certain threshold for investing in offshore money market instruments, that is, current account, savings account, time deposits, and NCD. Pension funds may not invest in securities abroad, and mutual funds may invest abroad only up to 15% of their NAV.

The absence of regulations concerning the sale or issuance of money market instruments abroad indicates that the activity is free of capital controls, with the exception of those issued by nonbank corporate entities, which must fulfill prudential requirements and must report the activity to the BI.

No person may purchase more than 1% of any fund.

The activity is free of capital controls, with the exception of those issued by nonbank corporate entities, which must fulfill prudential requirements and must report the activity to the BI.

According to BI Regulation No. 7/31/PBI/2005, banks may conduct derivatives transactions derived from foreign exchange or interest rate. In performing foreign exchange transactions, banks must enter into a written agreement with their clients and explain the risks of these transactions. In addition, banks must have written internal guidelines and must report their foreign exchange transactions against rupiah through an online daily reporting system to the BI. Banks must ensure that their customers submit the underlying and supporting documents of the derivatives transactions and administer those documents. Banks may not incur losses from derivatives transactions exceeding 10% of their capital, engage in margin trading on foreign currency against rupiah, or maintain derivative exposure of their branches or subsidiaries. BI Regulation No. 18/18/PBI/2016 and BI Regulation No. 18/19/PBI/2016 regulate that derivatives transactions against rupiah, which can be conducted by domestic banks, are limited to forward, swap, option, cross-currency swap, and call spread option. Effective September 28, 2018, based on BI Regulation No.20/10/PBI/2018, banks can also conduct Domestic Non-Deliverable Forward Transactions against rupiah with foreign parties.

Transactions involving sales to and/or purchases from foreign parties of derivative foreign currency against rupiah are limited to the equivalent of US$1 million a customer and a position (outstanding).
of the respective sale and purchase of derivatives transactions a bank. Derivatives contracts of foreign currency against rupiah offered by domestic banks to nonresidents with nominal value exceeding US$1 million must be supported by underlying transactions. Underlying transactions include transactions related to trade of goods and services, both domestic and foreign, and/or investments in the form of FDI, portfolio investment, loans, and capital and other investments, both domestic and foreign. Derivatives transactions may be settled fully or by netting for the purpose of rollover, early termination, or unwinding of the initial derivative transaction. Netting is for transactions with a nominal value not exceeding US$1 million and is permitted if supported by underlying transactions from the initial derivatives transactions.

There are no restrictions for Non-IDR Derivative transactions (foreign exchange and interest rate).

Effective June 26, 2018, BI Regulation No. 20/13/PBI/2018 allows banks to do interest rate derivative transactions (IDR denomination) with residents under certain requirement, and with nonresidents.

**Purchase locally by nonresidents**

Yes.

Underlying documents are required for derivatives transactions over US$1 million a transaction a foreign party or a position. For call spread options and DNDF, all transactions are required to have underlying documents.

Effective June 26, 2018, BI Regulation No. 20/13/PBI/2018 allows nonresidents to do interest rate derivative transactions (IDR denomination) locally with banks without underlying documents requirement.

**Sale or issue locally by nonresidents**

Yes.

Underlying documents are required for derivatives transactions over US$1 million a transaction a foreign party or a position. For foreign exchange Forward and DNDF over US$5 million a transaction required to have underlying documents. For call spread options, all transactions are required to have underlying documents.

Effective June 26, 2018, BI Regulation No. 20/13/PBI/2018 allows nonresidents to do interest rate derivative transactions (IDR denomination) locally with banks without underlying documents requirement.

**Purchase abroad by residents**

Yes.

Purchases of derivatives abroad by residents are not regulated as long as they are a non-IDR/non-foreign exchange transaction. However, banks are regulated, and above a certain threshold must have underlying transactions.

According to Article 6 BI Regulation No. 18/19/PBI/2016, sale derivative transactions by banks to foreign parties and purchase derivative transactions by banks to foreign parties exceeding US$1 million or its equivalent both a transaction a foreign party and a position (outstanding) of the respective sale and purchase of derivative transactions a bank must have underlying documents. The nominal amount of sale and purchase of derivative transactions between banks and foreign parties may not exceed the nominal value of the underlying transactions.

This regulation was implemented September 5, 2016, as an amendment to BI Regulation No. 16/17/PBI/2014, which was implemented in November 2014.

**Sale or issue abroad by residents**

Yes.

Sales of foreign exchange derivative instruments are not regulated as long as they are a non-IDR/non-foreign exchange transaction. However, banks are regulated, and above a certain threshold must have underlying transactions.

According to Article 6 BI Regulation No. 18/19/PBI/2016, sale derivative transactions by banks to foreign parties and purchase derivative transactions by banks to foreign parties exceeding US$1 million or its equivalent both a transaction a foreign party and a
Controls on credit operations | Yes.

**Commercial credits**

- **By residents to nonresidents**
  | Yes.
  Resident banks are prohibited from granting credit to nonresidents (including overdrafts in rupiah or foreign currencies), except for non-cash loan or guarantee with certain requirements, syndicated loans led by offshore prime banks with certain criteria, credit cards, and personal loans utilized domestically.

- **To residents from nonresidents**
  | Yes.
  Resident entities, including nonbank corporate entities, may borrow from nonresidents subject to compliance with the applicable regulations and the submission of periodic reports to the BI. Nonbank corporations do not need approval from the BI of their external debt. Nonbank corporations that have external debt in foreign currency, as regulated in PBI No. 16/21/PBI/2014, are required to fulfill the following:
  1. minimum hedging ratio of 25%,
  2. minimum liquidity ratio of 70%, and
  3. minimum credit rating of BB– (or equivalent).
  Nonbank corporations that have external debt also need to submit several reports to the BI (regulated in PBI No. 16/22/PBI/2014):
  1. Prudential Principles Implementation Report (KPPK report), which reports the fulfillment of the three requirements stated above; and
  2. external debt report.

**Financial credits**

- **By residents to nonresidents**
  | Yes.
  There are prohibitions in the granting of credit by banks to nonresidents. Domestic banks are prohibited from granting credit to nonresidents (including overdrafts in rupiah or foreign currencies), except for non-cash loan or guarantee with certain requirements, syndicated loans led by offshore prime banks with certain criteria, credit cards, and personal loans utilized domestically.

- **To residents from nonresidents**
  | Yes.
  Resident entities, including nonbank corporate entities, may borrow from nonresidents subject to compliance with the applicable regulations and the submission of periodic reports to the BI. Nonbank corporations do not need approval from the BI of their external debt. Nonbank corporations that have external debt in foreign currency, as regulated in PBI No. 16/21/PBI/2014, are required to fulfill the following:
  1. minimum hedging ratio of 25%,
  2. minimum liquidity ratio of 70%, and
  3. minimum credit rating of BB– (or equivalent).
  Nonbank corporations that have external debt also need to submit several reports to the BI (regulated in PBI No. 16/22/PBI/2014):
  1. Prudential Principles Implementation Report (KPPK report), which reports the fulfillment of the three requirements stated above; and
  2. external debt report.

**Guarantees, sureties, and financial backup facilities**

| Yes. |
By residents to nonresidents: Yes. Banks may provide noncash credit, sureties, and guarantees to nonresident entities only if they fulfill the following requirements: (1) used for domestic investments (since November 10, 2014), (2) with a sufficient counter guarantee from overseas prime banks (excluding those of the bank involved), or (3) with a cash deposit valued at 100% of the guarantee.

To residents from nonresidents: No.

Controls on direct investment: Yes.

Outward direct investment: No.

Inward direct investment: Yes. Several sectors on the negative investment list (DNI, in Indonesian: Daftar Negatif Investasi) are subject to controls: (1) Foreign companies investing in infrastructure projects, such as seaports and airports, land transportation facilities, small capacity electricity generation, shipping, airlines, potable water supply, and nuclear electric power generation, do not have to be established as public-private partnerships. However, public-private partnerships are permitted a higher foreign shareholding. (2) Maximum foreign shareholding, varying from 30% to 95%, is also imposed on other sectors, such as agriculture, telecommunications, distribution and storage, finance, mining, education, and health. (3) In all sectors not listed on the DNI, a foreign investment company may be established as a straight investment; that is, 100% of the shares may be owned by a foreign citizen and/or entity. However, some shares must be sold to Indonesian citizens and/or entities through direct placement and/or indirectly through the domestic capital market no later than 15 years after the commencement of commercial operations. Foreign ownership of direct investments must begin to be divested within the time stipulated by Law No. 25 of 2007. Foreign enterprises are eligible for the following:

(1) Facility for the exemption from import duty on the import of machines, goods, and materials: Enterprises are eligible to receive preferential customs duty treatment for imports of required raw materials and machines subject to certain conditions as prescribed in various government regulations. The procedures and mechanism for facility on the exemption from import duty on the imports of machines, goods, and materials are stipulated under BKPM Regulation No. 6 Year of 2018 on Guidelines and Procedures for Investment Licensing and Facilities.

(2) Tax Allowance: Enterprises are also eligible to receive an income tax facility, stipulated in regulations.

(3) Tax Holiday: Income tax waivers may be granted to newly established corporations pursuant to the requirements set within government regulations. BKPM Regulation No. 5 Year of 2018 contains details of business fields and pioneer industry products that can be granted corporate income tax reduction and procedures for granting the reduction.

According to PMK 35, reduction of corporate income tax (tax holiday) may be granted to newly established corporations for no less than 5 years and for up to 20 years, depending on its investment value.

(4) Foreign Workers: Hiring of foreign workers must comply with Presidential Regulation No. 20 Year of 2018 on the Use of Foreign Workers, which stipulates the procedure for use of foreign workers. Moreover, it also stipulates certain positions that foreign workers may not fill, as stipulated by...
(5) Divestment Provisions: Divestment provisions, in which some shares must be sold to Indonesian citizens and/or entities through direct placement, must begin to be divested within the time stipulated by prevailing laws and regulations depending on its sector. Investors are granted the right to repatriate capital, transfer profits (after settlement of taxes and financial obligations in Indonesia), and make transfers relating to expenses connected with the employment of foreign nationals in Indonesia and to depreciation allowances. No transfer permits are issued for capital repatriation if investors receive investment benefits from tax relief; at present, however, foreign payments do not require a transfer permit.

Provisions Specific to the Financial Sector

| Provisions specific to commercial banks and other credit institutions | Yes. |

Article 15 of PBI No. 18/19/PBI/2016 prohibits banks from performing transactions with foreign parties, including (1) lending or financing in rupiah and/or foreign currencies, except (a) noncash credit or financing or guarantees related to investment activities in Indonesia with a counter guarantee from a prime bank or a security deposit of 100% of the value of guarantees given; (b) credit or financing in the form of syndication; (c) credit cards; (d) domestic consumer credit or financing; (e) intraday overdrafts in rupiah and foreign currencies supported by authenticated documents confirming inflow of funds to the relevant account on the same day; (f) overdrafts in rupiah and foreign currencies for administrative costs;
and (g) assumption of bills from a government-appointed body designated to manage the concerned bank’s assets in the context of restructuring Indonesia’s banking by foreign parties whose payments are guaranteed by prime banks; (2) placements in rupiah; (3) purchases of securities in rupiah issued by foreign parties, excluding (a) purchases of securities related to goods exports and imports as well as domestic trade; and (b) purchases of bank drafts in rupiah issued by banks overseas for Indonesian workers in foreign countries; (4) interoffice claims in rupiah; (5) interoffice claims in foreign currencies for provision of credit overseas; (6) equity participation in rupiah; and (7) foreign exchange transactions against rupiah related to structured products. Banks are prohibited from owning assets in the form of stocks or securities with an underlying reference stock. Banks are required to consolidate risk management in exercising control over subsidiary companies. The regulation provides an exception for banks to lend to foreign parties in the form of a noncash credit or guarantee pertaining to investment activities in Indonesia, and to purchase securities in rupiah issued by foreign parties related to export and import activities and bank drafts issued by overseas banks for the account of Indonesian workers overseas. The threshold amounts for rupiah transfers to accounts held by foreign parties or joint accounts held by a foreign party and a non-foreign party at a domestic bank are as follows:
(1) Banks may perform rupiah transfers to accounts owned by foreign parties and/or to joint accounts between foreign parties and non-foreign parties in a domestic bank if
(a) the nominal value of the rupiah transfer is up to the equivalent of US$1 million a day a foreign party; or
(b) the transfer is performed between rupiah accounts owned by the same foreign party.
(2) With regard to rupiah transfers to accounts owned by foreign parties derived from other than derivative transactions with nominal value exceeding US$1 million or its equivalent a day a foreign party, banks receiving the rupiah transfer must ensure that the foreign parties have underlying transactions.
Rupiah transfers to any party outside Indonesia are prohibited.

According to PBI No.7/1/PBI/2005, banks’ long-term foreign debt (maturities of more than one year) requires BI approval. Banks’ short-term foreign debt balance is limited to 30% of capital with some exemptions. PBI No. 15/6/PBI/2013 and PBI No. 16/7/PBI/2014 extend exemptions for short-term foreign debt to include rupiah demand deposits for nonresident holdings of SBIs for minority shareholders for real sector and infrastructure financing, supranational bodies holding proceeds from global bond issuance for real sector and infrastructure financing, and banks’ liabilities to nonresidents arising from hedging activities. Effective March 7, 2019, banks’ foreign debt is being regulated by PBI No. 21/1/PBI/2019 which extends the scope of the regulation to include Master Risk Participation Agreement (MRPA).

Under FSA (Otoritas Jasa Keuangan—OJK) Regulation No. 29/POJK.05/2014, finance companies must fully hedge their foreign currency loans, and finance companies that accept foreign currency loans must meet financial soundness requirements.

### Borrowing abroad
Yes.

### Maintenance of accounts abroad
No.

### Lending to nonresidents (financial or commercial credits)
Yes.

PBI No. 18/19/PBI/2016 prohibits banks from performing transactions with foreign parties, including (1) lending or financing in rupiah and/or foreign currencies, except (a) noncash credit or financing or guarantees related to investment activities in Indonesia with a counter guarantee from a prime bank or a security deposit of...
Lending locally in foreign exchange  Yes.
Banks may lend locally in foreign exchange subject to BI approval.

PBI No. 18/19/PBI/2016 prohibits banks from performing transactions with foreign parties, including (1) lending or financing in rupiah and/or foreign currencies, except (a) noncash credit or financing or guarantees related to investment activities in Indonesia with a counter guarantee from a prime bank or a security deposit of 100% of the value of guarantees given; (b) credit or financing in the form of syndication; (c) credit cards; (d) domestic consumer credit or financing; (e) intraday overdrafts in rupiah and foreign currencies supported by authenticated documents confirming inflow of funds to the relevant account on the same day; (f) overdrafts in rupiah and foreign currencies for administrative costs; and (g) assumption of bills from a government-appointed body designated to manage the concerned bank’s assets in the context of restructuring Indonesia’s banking by foreign parties whose payments are guaranteed by prime banks; (2) interoffice claims in rupiah; (3) interoffice claims in foreign currencies for provision of credit overseas; and (4) foreign exchange transactions against rupiah related to structured products.

Purchase of locally issued securities denominated in foreign exchange  Yes.
Banks may purchase locally issued bonds denominated in foreign exchange subject to BI approval for foreign exchange transactions. Banks must also take into account the regulation on the NOP aimed at prudential control, which states that banks must include every exposure in foreign exchange in calculating the NOP. Specifically, the CP must have an investment grade and may not be issued by a bank’s own group. Banks may not purchase any CP issued by firms with nonperforming loans classified as “doubtful” or “loss.”

Differential treatment of deposit accounts in foreign exchange  Yes.
Previously, the rupiah reserve requirement had to be met as follows:
(1) 8% statutory reserves consisting of a current account at the BI;
(2) 2.5% secondary reserves in BI certificates and/or government bonds and/or a current account at the BI; and (3) a statutory reserve requirement for rupiah deposits based on the LTD ratio.
As stipulated by PBI No.20/3/PBI/2018 and PADG No. 20/10/PADG/2018, effective October 1, 2018, deposit accounts in foreign exchange are subject to an 8% reserve requirement (previously 1%) that must be met as follows: (1) 6% daily reserve requirement and (2) 2% average reserve requirement.
As stipulated on PBI No.20/3/PBI/2018 and PADG No. 20/10/PADG/2018, effective July 16,2018, the rupiah reserve requirement is 6.5% and must be met as follows: (1) 4.5% daily reserve requirement and (2) 2% average reserve requirement.
As stipulated on PADG No.20/30/PADG/2018, effective December 1, 2018, the rupiah reserve requirement is 6.5% and must be met as follows: (1) 3.5% daily reserve requirement and (2) 3% average reserve requirement. Foreign exchange currency reserve requirements remain the same.

As stipulated on PADG No.21/14/PADG/2019, effective July 1, 2019, the rupiah reserve requirement is 6% and must be met as follows: (1) 3% daily reserve requirement and (2) 2% average reserve requirement. Foreign exchange currency reserve requirements remain the same.

**Liquid asset requirements**
- No.

There is no difference in treatment of deposit accounts in foreign exchange and deposit accounts in local currency as stipulated in (1) POJK Nomor 42/POJK.03/2015 regarding Obligation of Liquidity Coverage Ratio fulfillment for Commercial Bank (Peraturan Otoritas Jasa Keuangan—POJK—Regulation on the FSA) and (2) POJK Nomor 50/POJK.03/2017 regarding Obligation of Net Stable Funding Ratio fulfillment for Commercial Bank.

**Interest rate controls**
- No.

There is no difference in the treatment of deposit accounts in foreign exchange and domestic currency.

**Credit controls**
- No.

**Investment regulations**
- Yes.

Banks may invest, within certain limits, only in financial institutions, including businesses that operate in financial services, such as leasing, venture capital, securities underwriting, insurance, and clearinghouse settlement institutions.

PBI No. 18/19/PBI/2016 prohibits banks from performing transactions with foreign parties, including (1) interoffice claims in foreign currencies for provision of credit overseas and (2) foreign exchange transactions against rupiah related to structured products. Banks are prohibited from owning assets in the form of stocks or securities with an underlying reference stock. Banks are required to consolidate risk management in exercising control over subsidiary companies.

**Abroad by banks**
- Yes.

Equity participation of a foreign shareholder in a joint-venture bank may reach 99%. All shareholders must pass the fit and proper requirement. To support this requirement, foreign legal entities must obtain a recommendation from the monetary authorities and/or bank supervisor of their country of origin. The recommendation must state at a minimum that the foreign legal entity has a good reputation and sound financial ability and has never committed an unethical act in the banking business.

**In banks by nonresidents**
- Yes.

Banks must maintain a maximum overall (on- and off-balance-sheet) NOP of 20% of capital at the end of the working day. Banks must also maintain maximum treasury. The capital charge to incorporate foreign exchange risk (under the market risk capital requirement) is based on 8% of the overall NOP. The NOP regulation is applied only for domestic banks.
### On resident assets and liabilities

Yes.

There is a limit on the NOP (Posisi Devisa Netto/PDN) of 20% of capital, based on BI Regulation No. 17/5/PBI/2015 concerning the fourth amendment to BI Regulation No. 5/13/PBI/2003 on NOP for Commercial Banks. As per Article 2, banks should manage and maintain the overall NOP at the end of the working day with provisions maximum of 20% of capital.

### On nonresident assets and liabilities

Yes.

Banks should manage and maintain the overall NOP at the end of the working day with provisions maximum of 20% of capital, which applies to assets and liabilities whether from residents or nonresidents.

In accordance with PBI No. 7/37/PBI/2005 Article 2 Paragraphs (4) and (5), calculation of the NOP includes the difference between net assets and liabilities, taking into account the assets and liabilities of residents and nonresidents, so the restriction on the NOP also applies to the assets and liabilities of nonresidents. Article 2 (4): Assets in foreign currencies as referred to in Paragraph (2) Letter a and Paragraph (3) consist of cash, gold, demand deposits (including current accounts in the BI), deposits on call, time deposits, CDs, margin deposits, securities, loans, net value of negotiated export drafts, interoffice accounts of assets and other receivables, and foreign currency both of residents and of nonresidents. Article 2 (5): Liabilities in foreign currencies as referred to in Paragraph (2) Letter a and Paragraph (3) consist of demand deposits, deposits on call, time deposits, CDs, margin deposits, loans, import guarantees, interoffice account liabilities, income from other comprehensive securities of foreign currencies other than shares, and other liabilities in foreign currency to both residents and nonresidents.

### Provisions specific to institutional investors

Yes.

**Insurance companies**

Yes.

**Limits (max.) on securities issued by nonresidents**

Yes.

Insurance and reinsurance companies may hold securities issued by nonresidents. In Article 9 OJK Regulation No. 71/POJK.05/2016 investment that is issued by nonresidents is considered to be investment allocated overseas. Article 10 of the regulation states that the sum of investments allocated overseas may not exceed 20% of total investments.

**Limits (max.) on investment portfolio held abroad**

Yes.

Insurance and reinsurance companies may hold investments abroad. Permitted investments are shares listed on the stock exchange, corporate bonds listed on the stock exchange, securities issued by countries other than Indonesia, securities issued by multinational organizations of which Indonesia is a member or shareholder, mutual funds, and/or private placements/direct investments (not listed on the stock exchange). For solvency measures, the prudential limits on investments held abroad are as follows: (1) For shares listed on the stock exchange: Investments in a single issuer may not exceed 10% of total investments, and the sum of investments in all issuers may not exceed 40% of total investments. (2) For corporate bonds listed on the stock exchange and securities (issued by multinational organizations of which Indonesia is a member or shareholder): Investments in a single issuer may not exceed 20% of total investments, and the sum of investments in all issuers may not exceed 50% of total investments. (3) For securities issued by countries other than Indonesia: Investments in a single issuer may not exceed 10% of total investments. (4) For general mutual funds: Investments with a single investment manager may not exceed 10% of total investment, and in all issuers may not exceed 20% of total investments, and the sum of investments with all investment managers may not exceed 50% of total investments. For mutual
funds in the form of a collective investment contract in limited participation or private equity fund: Investments with a single investment manager may not exceed 10% of total investments, and the sum of investments with all investment managers may not exceed 20% of total investments. (5) For private placements/direct investments (not listed on the stock exchange): The sum of all investments may not exceed 10% of total investments. (6) The sum of investments allocated overseas may not exceed 20% of total.

Limits (min.) on investment portfolio held locally

No. Although not explicit in the regulations, because the total of investments allocated overseas is limited to 20%, the investment portfolio held locally has a minimum of 80%.

Currency-matching regulations on assets/liabilities composition

Yes. For solvency measures, insurance and reinsurance companies must provide additional funds to cover currency mismatches. The amounts required to cover foreign currency mismatch risk for a single foreign currency are (1) 30% of the sum of foreign currency liabilities minus admitted assets if the sum of admitted assets minus foreign currency liabilities is less than or equal to zero; (2) zero if the sum of admitted assets minus foreign currency liabilities is between 0% and 20% of total liabilities; and (3) 10% of the sum of admitted assets minus 120% of foreign currency liabilities if the sum of admitted assets minus foreign currency liabilities is more than 20% of total liabilities (OJK Circular Letter No. 24/SEOJK.05/2017, on July 1, 2017).

Pension funds

Yes. Pension funds in Indonesia are not allowed to invest in securities issued by nonresidents (OJK Regulation No. 3/POJK.05/2015).

Limits (max.) on securities issued by nonresidents

Yes. Pension funds in Indonesia are allowed to invest for private placement investment abroad. Total private placement may not exceed 5% of total investments and must be approved by the FSA, OJK (OJK Regulation No. 3/POJK.05/2015). The previous requirement that pension funds invest only in Indonesia was relaxed. Earlier, pension funds in Indonesia were not allowed to invest abroad.

Limits (min.) on investment portfolio held locally

Yes. There is no direct regulation related to the minimum limits on the investment portfolio held locally for pension funds. However, by regulating the maximum as 5% of investment held abroad, it also regulates the minimum held locally. In addition, there is a regulation regarding limits or requirements to invest in several investment instruments, such as private placement investment, limited investment mutual funds, medium-term notes, or repurchase agreements. Pension funds in Indonesia are not required to invest only locally and are allowed to invest for private placement investment abroad.

Currency-matching regulations on assets/liabilities composition

No.

Investment firms and collective investment funds

Yes.

Limits (max.) on securities issued by nonresidents

No.

Limits (max.) on investment portfolio held abroad

Yes. The maximum limits on investment portfolios held abroad include the following: (1) CIS mutual funds may invest abroad up to 15% of NAV (OJK Rule No. IV.B.1); (2) the protected mutual fund and guaranteed mutual fund may invest abroad up to 30% of NAV (OJK Rule No. IV.C.4).

Limits (min.) on investment portfolio held locally

Yes. The minimum limits on investment portfolios held locally include the following: (1) At least 85% of CIS mutual fund NAV must be invested in locally issued, offered, or traded securities or debt securities issued abroad by the Indonesian government or an
Indonesian company (OJK Rule No. IV.B.1); (2) at least 70% of protected mutual fund and guaranteed mutual fund NAV must be invested in locally issued, offered, or traded securities or debt securities issued abroad by the Indonesian government or an Indonesian company (OJK Rule No. IV.C.4).

Changes during 2018 and 2019

Exchange Arrangement

Classification
Floating 01/01/2018 Given the increased volatility and departure from the 2% band against the US dollar since January 2018, the de facto exchange rate arrangement was reclassified to floating from stabilized.

Arrangements for Payments and Receipts

Controls on exports and imports of banknotes
On exports
Foreign currency 03/05/2018 A requirement was imposed that any party carrying foreign currency notes equivalent to at least Rp 1 billion must obtain a license and approval from Bank Indonesia.

On imports
Foreign currency 03/05/2018 A requirement was imposed that any party carrying foreign currency notes equivalent to at least Rp 1 billion must obtain a license and approval from Bank Indonesia.

Capital Transactions

Controls on capital transactions
Controls on derivatives and other instruments 06/26/2018 Bank Indonesia Regulation No. 20/13/PBI/2018 allows banks to do interest rate derivative transactions (IDR denomination) with residents under certain requirement, and with nonresidents.

09/28/2018 Based on Bank Indonesia Regulation No.20/10/PBI/2018, banks can conduct Domestic Non-Deliverable Forward Transactions against rupiah with foreign parties.

Purchase locally by nonresidents 06/26/2018 Bank Indonesia Regulation No. 20/13/PBI/2018 allows nonresidents to do interest rate derivative transactions (IDR denomination) locally with banks without underlying documents requirement.

Sale or issue locally by nonresidents 06/26/2018 Bank Indonesia Regulation No. 20/13/PBI/2018 allows nonresidents to do interest rate derivative transactions (IDR denomination) locally with banks without underlying documents requirement.

Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions
Borrowing abroad 03/07/2019 Banks foreign debt became regulated by PBI No. 21/1/PBI/2019 which extends the scope of the regulation to include Master Risk Participation Agreement.

Differential treatment of deposit accounts in foreign exchange Reserve requirements 07/16/2018 The rupiah reserve requirement was set at 6.5% and must be met as
follows: (1) 4.5% daily reserve requirement and (2) 2% average reserve requirement. Previously, the rupiah reserve requirement had to be met as follows: (1) 8% statutory reserves consisting of a current account at the Bank Indonesia (BI); (2) 2.5% secondary reserves in BI certificates and/or government bonds and/or a current account at the BI; and (3) a statutory reserve requirement for rupiah deposits based on the LTD ratio.

10/01/2018
The reserve requirement ratio on deposit accounts in foreign exchange was raised from 1% to 8 and that must be met as follows: (1) 6% daily reserve requirement and (2) 2% average reserve requirement.

12/01/2018
The rupiah reserve requirement was set at 6.5% and must be met as follows: (1) 3.5% daily reserve requirement and (2) 3% average reserve requirement. Foreign exchange currency reserve requirements remain the same. Previously, the rupiah reserve requirement must be met as follows: (1) 4.5% daily reserve requirement and (2) 2% average reserve requirement.

07/01/2019
The rupiah reserve requirement was set at 6% and must be met as follows: (1) 3% daily reserve requirement and (2) 2% average reserve requirement. Foreign exchange currency reserve requirements remain the same. Previously, the rupiah reserve requirement was 6.5% and must be met as follows: (1) 3.5% daily reserve requirement and (2) 3% average reserve requirement.

### Exchange Measures

The IMF staff report for the 2018 Article IV Consultation with Islamic Republic of Iran states that, as of March 7, 2018, Iran maintained MCPs and an exchange restriction subject to IMF jurisdiction under Article VIII, Sections 2(a) and 3:

1. A MCP and an exchange restriction arise from the establishment of an official exchange rate for use in some exchange transactions, which in practice differs by more than 2% from the rate used by foreign exchange bureaus.
2. A MCP arises from the differences of more than 2% between the current official and exchange bureaus rates and the preferential rates for certain imports for which foreign exchange commitments were made through LCs opened prior to March 21, 2002, under the previous multiple exchange rate system.
3. A MCP arises from the differences of more than 2% between the current official and exchange bureaus rates and the preferential rates for certain imports for which foreign exchange payment commitments were made through LCs or bank drafts prior to July 24, 2012. (Country Report No. 18/93)

Credit and financial institutions and banks have been instructed by the Bank Markazi Jomhouri Islami Iran (Central Bank of Iran—CBI) to freeze suspected accounts, based on an official list. These measures were taken in accordance with UNSC resolutions.

This information can be found at the AREAER ONLINE database: [http://www.elibrary-areaer.imf.org/Pages/Reports.aspx](http://www.elibrary-areaer.imf.org/Pages/Reports.aspx).

### Exchange Arrangement

| Currency | Yes. The currency of the Islamic Republic of Iran is the Iranian rial. |
| Other legal tender | No. |
| Exchange rate structure | Unitary |
| Dual | Yes. The official rate is used for the settlement of oil product exports and for imports of priority goods. In addition, a depreciated parallel rate is offered at the free market. This rate is used for exports of all goods, except oil, for imports of non-priority goods and services, and for settlement for goods and services to be financed from non-oil revenues. |
### Classification
- Multiple
- No separate legal tender
- Currency board
- Conventional peg
- Stabilized arrangement: Yes.

The de jure exchange rate arrangement has been a managed floating arrangement against a basket of currencies since 2002. Effective April 10, 2018, the official and parallel exchange rates have been unified. All foreign exchange transactions are to be conducted via banks using a new electronic trading system. Transactions occurring at rates other than the unified rate will be subject to penalties under the Anti-Smuggling Law.

A New Integrated Foreign Exchange Transactions System “NIMA” was launched on April 11, 2018, aiming to facilitate the currency trades for market participants. CBI’s NIMA platform operates to regulate foreign exchange transactions by enabling exporters to sell foreign currencies to exchange houses who must then on-sell the currency to importers of goods and services with a valid import/services registration order in place. The price of each transaction is agreed between importer and exporter as well as banks and bureaus, creating a market exchange rate. Since August 2018, the exchange rate stabilized within a 2% band against the US dollar. Accordingly, the de facto exchange rate arrangement was reclassified to stabilized from crawl-like, effective August 7, 2018. Foreign exchange bureaus were reopened.

#### Pegged exchange rate within horizontal bands
- Crawling peg
- Crawl-like arrangement

#### Other managed arrangement
- Floating
- Free floating

#### Official exchange rate: Yes.

The CBI quotes the official exchange rate. This rate must be used in transactions on priority goods operated by the banking system. It is also used to buy the revenue from oil exports from the government and for imports of priority goods and services. The CBI announces the official exchange rate on a daily basis and sells foreign exchange in the domestic interbank market at that rate.

Effective April 10, 2018, the official and parallel exchange rates were unified. To maintain a unified exchange rate and reduce the spread between official and parallel market rates, the CBI was authorized to intervene in the interbank as well as in the parallel market.

Effective August 7, 2018, the CBI also quotes market exchange rate on daily basis for the transactions operated by the banking system other than priority goods. The importing oil proceeds and priority goods and services, including medical goods, are financed at a fixed rate of 42,000 IRR (previously Rial 38,000).

#### Monetary policy framework
- Exchange rate anchor: Yes.
Yes.

The monetary policy framework uses an exchange rate anchor vis-à-vis the US dollar. Under Iran’s Five-Year Development Plan, Article 81, the CBI bases the exchange rate on relevant economic variables directly connected to the implementation of monetary policy—that is, the difference between internal and international inflation, the internal demand for and supply of foreign exchange, and the exchange value of major foreign currencies against each other, particularly in the SDR portfolio. However, 4 years after the 6th National Development Plan started, many policy directives are not yet implemented. Policy orientations may vary from the National Development Plan. In addition to the exchange rate anchor, the CBI objective is to maintain inflation in single digits by trying to control base money growth. Legally, the CBI does not have an inflation objective or target (see Article 10 of the CBI law).

The official rate is used for imports of priority goods and services. In the beginning of the 2018/19 fiscal year, an additional preferential rate of, effective August 7, 2018, Rial 42,000 (previously Rial 38,000) per US dollar was used for certain priority goods.

Foreign exchange bureaus are allowed to operate, except for a brief period effective between April 10 and August 7, 2018, and are subject to licensing by the CBI. There are 668 licensed bureaus as of August 13, 2019. The bureaus may have accounts abroad, purchase and sell banknotes, and make foreign currency payments and transfers on behalf of their clients. The bureaus effect intermediate sales of non-oil export receipts. The CBI introduced the SANA system to monitor the bureaus’ transactions. The CBI does not transact directly with foreign exchange bureaus.

Effective April 10, 2018, the official and parallel exchange rates were unified. To maintain a unified exchange rate and reduce the spread between official and parallel market rates, the CBI was authorized to intervene in the interbank as well as in the parallel market.

Effective August 7, 2018, the CBI also quotes market exchange rate on daily basis for the transactions operated by the banking system other than priority goods. The importing oil proceeds and priority goods and services, including medical goods, are financed at a fixed rate of 42,000 IRR (previously Rial 38,000).

The NIMA was launched effective April 11, 2018, aiming to facilitate the currency trades for market participants. CBI’s NIMA platform operates to regulate foreign exchange transactions by enabling exporters and other exchange suppliers, such as banks and bureaus, to sell foreign currencies to exchange houses who must then on-sell the currency to importers of non-priority goods and services who have a valid import/services registration order in place and are eligible for buying exchange in NIMA according to the regulation of Ministry of Industry, Mine and Trade.

Although the CBI may conduct auctions, it does not currently do so.
As of December 31, 2018, the following institutions participated in the interbank foreign exchange market: the CBI, 8 government-owned banks, and 19 private banks. Licenses are issued by the CBI, which does restrict margin profits.

### Imports and Import Payments

| **Foreign exchange budget** | No. | There is no foreign exchange budget, but several important categories of imports were given priority for foreign exchange at the official rate through the CBI’s official foreign exchange market. |
| **Financing requirements for imports** | No. |
| **Minimum financing requirements** | No. |
| **Advance payment requirements** | No. |
| **Advance import deposits** | No. |
| **Documentation requirements for release of foreign exchange for imports** | Yes. |
| **Domiciliation requirements** | No. |
| **Preshipment inspection** | Yes. | This requirement applies to all commodities. |
| **Letters of credit** | Yes. |
| **Import licenses used as exchange licenses** | Yes. |
| **Other** | Yes. | In some cases, insurance documents and a Uniform Customs and Practices (UCP) for Documentary LC are required. |
| **Import licenses and other nontariff measures** | Yes. | Importers must obtain import licenses from the relevant ministries (mainly the Ministry of Industry, Mines and Commerce). Customs clearance is authorized on presentation of shipping documents endorsed by an authorized bank and Ministry of Industry, Mines and Commerce permit. Certain goods, such as pharmaceuticals, must have a permit from the Ministry of Health, Treatment, and Medical Education. Telecommunication devices require a permit issued by the Ministry of Communication and Information Technology. |
| **Positive list** | No. |
| **Negative list** | Yes. | Some goods on the negative list may be imported under certain conditions with special permits. Imports from Israel are prohibited. In 2012, the negative list was expanded to include some luxury goods. |
| **Open general licenses** | No. |
| **Licenses with quotas** | No. |
| **Other nontariff measures** | No. |
| **Import taxes and/or tariffs** | Yes. | Imports are subject to import tariffs of at least 4% and to a commercial benefit tax that varies by product category. |
| **Taxes collected through the exchange system** | No. |
State import monopoly

No.

Exports and Export Proceeds

Repatriation requirements

Yes. Effective April 11, 2018, export proceeds must be repatriated to the economy by the exporters pursuant to the Presidency Act. Effective February 13, 2019, the repatriation rules are as follows: (1) Exporters repatriating less than €1 million (or equivalent in other currencies) may convert by cash or money order to exchange agents or use the proceeds for imports for the same amount. (2) Exporters repatriating between €1 and €3 million (or equivalent in other currencies) may sell up to €1.5 million by cash or money order to exchange agents if the converted amount accounts for more than 30% of the foreign transaction, and up to €1 million if the converted amount accounts for less than 30% of the foreign transaction. They may convert 40% on NIMA if the converted amount accounts for more than 60% of the foreign transaction, and 45% on NIMA if the converted amount accounts for between 30% and 60% of the foreign transaction. The rest of the transaction amount is to be settled in imports of an equivalent amount. (3) Exporters repatriating between €3 and €10 million (or equivalent in other currencies) may sell by cash or money order to exchange agents up to €2 million if the converted amount accounts for more than 60% of the foreign transaction, up to €1.5 million if the converted amount accounts for between 30% and 60% of the foreign transaction, and up to €1 million if the converted amount accounts for less than 30% of the foreign transaction. They may convert 40% on NIMA if the converted amount accounts for more than 60% of the foreign transaction, 55% on NIMA if the converted amount accounts for between 30% and 60% of the foreign transaction, and 70% on NIMA if the converted amount accounts for less than 30% of the transaction. The rest of the transaction amount is to be settled in imports of an equivalent amount. (4) Exporters repatriating more than €10 million (or equivalent in other currencies) may sell by cash or money order to exchange agents up to €4 million if the converted amount accounts for more than 60% of the foreign transaction, up to €2 million if the converted amount accounts for between 30% and 60% of the foreign transaction, and up to €1 million if the converted amount accounts for less than 30% of the foreign transaction. They may convert 70% on NIMA if the converted amount accounts for more than 60% of the foreign transaction, 80% on NIMA if the converted amount accounts for between 30% and 60% of the foreign transaction, and 90% on NIMA if the converted amount accounts for less than 30% of the foreign transaction. The rest of the transaction amount is to be settled in imports of an equivalent amount.

Exporter who repatriates export revenues may qualify for incentives, such as tax exemptions, pursuant to the aforementioned regulations and Regulation No. 446323 of March 4, 2019.

Effective March 21, 2019, pursuant to Regulation No. 98/65694, for financial year 2019–2020, exporters must repatriate at least 50% of their export revenues in NIMA, while Petro-Chemical Companies must repatriate at least 60% of their export revenues to NIMA. It is not mandatory to convert export revenues to IRR.

Surrender requirements

No. Exporters may use their revenues for importing, debt repayments, selling to the banks and exchange bureaus, and deposing in the banks.

Surrender to the central bank

No.
**Surrender to authorized dealers**

No.

**Financing requirements**

Yes. Money and Credit Council Act of 2004 on Export Finance.

**Documentation requirements**

Yes. CBI exchange policies and regulations as well as international standards, such as UCP600 (Uniform Customs and Practice for Documentary Credits), apply.

- Letters of credit: Yes.
- Guarantees: Yes.
- Domiciliation: Yes.
- Preshipment inspection: Yes.
- Other: No.

**Export licenses**

Yes.

- Without quotas: No.
- With quotas: Yes.

**Export taxes**

No. Exports are exempt from export taxes.

- Collected through the exchange system: No.
- Other export taxes: No.

**References to legal instruments and hyperlinks**

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Payments for Invisible Transactions and Current Transfers**

**Controls on these transfers**

Yes. Payments for invisibles may be made in excess of limits established by the CBI from externally financed foreign-currency-denominated accounts on presentation of supporting documents.

**Trade-related payments**

Yes. Freight charges may be transferred through LCs and bills of exchange without limit, but for cash (full advance payment in relation to freight changes via LCs and bills of exchange) there is a US$10,000 maximum. Only Iranian insurance companies may issue insurance policies for imports of goods.

**Prior approval**

Yes. Approval for payment of unloading and administrative charges is granted on a case-by-case basis.

**Quantitative limits**

No.

**Indicative limits/bona fide test**

No.

**Investment-related payments**

No.

**Prior approval**

No.

**Quantitative limits**

No.

**Indicative limits/bona fide test**

No.

**Payments for travel**

Yes.

**Prior approval**

No.

**Quantitative limits**

Yes. Effective April 11, 2018, the maximum amount of foreign exchange travelers (Iranian nationals) may buy from the banking system for
trips to the neighboring countries is €500 or the equivalent a person a year except when traveling to Iraq in which case the amount is 250,000 Iraqi dinars. Travelers to other countries may buy €1000 euros or the equivalent a person a year. Previously, the limit was US $300 a person a trip.

Indicative limits/bona fide test  Yes. Amounts in excess of the limit may be approved by the CBI on presentation of satisfactory supporting documents.

Personal payments  Yes. Applications for payment of registration fees for participation in research projects must be submitted to the relevant ministry for approval.

Prior approval  No.

Quantitative limits  Yes. Monthly allowances are provided to students on scholarships abroad approved by the Ministry of Science, Research and Technology or Ministry of Health and Medical Education. Other students abroad may purchase the needed amount of foreign exchange for tuition fees and living costs on submission of supporting documentation. Individuals who seek medical treatment abroad may obtain a foreign exchange allowance of up to US$10,000 on presentation of a written diagnosis by an Iranian doctor of medicine which indicates that further treatment abroad is necessary to be given. A confirmation signed by the Medical High Council is required for amounts exceeding US$10,000.

Indicative limits/bona fide test  Yes. Amounts in excess of the limit may be approved by the CBI on presentation of satisfactory supporting documents.

Foreign workers' wages  Yes.

Prior approval  No.

Quantitative limits  No.

Indicative limits/bona fide test  Yes. Foreign workers with work permits may transfer their salaries without limitation, on confirmation by their employers.

Credit card use abroad  No.

Prior approval  No.

Quantitative limits  No.

Indicative limits/bona fide test  No.

Other payments  Yes.

Prior approval  Yes. Transferring of consulting and legal fees abroad is permitted with the approval of the Iranian Bureau of Legal Service.

Quantitative limits  Yes.

Indicative limits/bona fide test  Yes.

Capital Transactions

Controls on capital transactions

Yes.

Repatriation requirements

No.

Surrender requirements

No.

Surrender to the central bank

No.

Surrender to authorized dealers

No.

Controls on capital and money market instruments

Yes.

On capital market securities

Yes.

Shares or other securities of a participating nature

Yes. Strategic foreign investors may not sell shares purchased for two years without the Securities and Exchange Organization’s permission. Sales of such shares must comply with the regulations governing the bulk trade of shares on the exchange or in the OTC market.

Purchase locally by nonresidents

Yes. Nonresidents must have a trading license and be authorized to trade in the securities or OTC market and on the exchange as indicated in the trading license.

Sale or issue locally by nonresidents

Yes. CBI approval by the Securities and Exchange High Council is required.

Purchase abroad by residents

No.

Sale or issue abroad by residents

No.

Bonds or other debt securities

Yes.

Purchase locally by nonresidents

Yes. With a trading license, nonresidents may trade bonds or other debt securities with no limits.

Sale or issue locally by nonresidents

Yes. Approval by the Securities and Exchange High Council is required.

Purchase abroad by residents

No.

Sale or issue abroad by residents

No.

On money market instruments

Yes.

Purchase locally by nonresidents

No.

Sale or issue locally by nonresidents

Yes. Approval by the CBI is required.

Purchase abroad by residents

No.

Sale or issue abroad by residents

No.

On collective investment securities

Yes.

Purchase locally by nonresidents

No.

Sale or issue locally by nonresidents

Yes. Approval by the Securities and Exchange High Council is required.

Changes during 2018 and 2019

Exchange Arrangement

Classification

Stabilized arrangement  04/10/2018  The official and parallel exchange rates have been unified.

08/07/2018  The de facto exchange rate arrangement was reclassified to stabilized from crawl-like.

Official exchange rate  04/10/2018  The official and parallel exchange rates were unified. To maintain a unified exchange rate and reduce the spread between official and parallel market rates, the Central Bank of Iran decided to sell oil and gas revenues in the interbank as well as in the parallel market.

08/07/2018  The Central Bank of Iran also quotes market exchange rate on daily basis for the transactions operated by the banking system other than priority goods. The importing priority goods and services, including medical goods, are financed at a fixed rate of 42,000 IRR (previously Rial 38,000), and the rest of the oil and gas revenues are sold at the second market rate.
| Exchange subsidy | 08/07/2018 | The preferential rate for certain priority goods was changed to Rial 42,000 from Rial 38,000. |
| Foreign exchange market | 04/10/2018 | Foreign exchange bureaus were temporarily not allowed to operate. |
| Spot exchange market | 04/10/2018 | The official and parallel exchange rates were unified. To maintain a unified exchange rate and reduce the spread between official and parallel market rates, the Central Bank of Iran decided to sell oil and gas revenues in the interbank as well as in the parallel market. |
| | 08/07/2018 | The Central Bank of Iran also quotes market exchange rate on daily basis for the transactions operated by the banking system other than priority goods. The importing priority goods and services, including medical goods, are financed at a fixed rate of 42,000 IRR (previously Rial 38,000), and the rest of the oil and gas revenues are sold at the second market rate. |
| | 08/07/2018 | Foreign exchange bureaus were allowed to operate after a hiatus since April 10, 2018. |
| Operated by the central bank | 04/11/2018 | The New Integrated Foreign Exchange Transactions System (NIMA) was launched, aiming to facilitate the currency trades for market participants. Central Bank of Iran’s NIMA platform operates to regulate foreign exchange transactions by enabling exporters and other exchange suppliers, such as banks and bureaus, to sell foreign currencies to exchange houses who must then on-sell the currency to importers of non-priority goods and services who have a valid import/services registration order in place and are eligible for buying exchange in NIMA according to the regulation of Ministry of Industry, Mine and Trade. |
| Allocation | 04/11/2018 | Export proceeds must be repatriated to the economy by the exporters pursuant to the Presidency Act. The repatriation rules are as follows: (1) Exporters repatriating less than €1 million (or equivalent in other currencies) may convert by cash or money order to exchange agents or use the proceeds for imports for the same amount. (2) Exporters repatriating between €1 and €3 million (or equivalent in other currencies) may sell up to €1.5 million by cash or money order to exchange agents if the converted amount accounts for more than 30% of the foreign transaction, and up to €1 million if the converted amount accounts for less than 30% of the foreign transaction. They may convert 40% on New Integrated Foreign Exchange Transactions System (NIMA) if the converted amount accounts for more than 60% of the foreign transaction, and 45% on NIMA if the converted amount accounts for between 30% and 60% of the foreign transaction. The rest of the transaction amount is to be settled in imports of an equivalent amount. (3) Exporters repatriating between €3 and €10 million (or equivalent in other currencies) may sell by cash or money order to exchange agents up to €2 million if the converted amount accounts for more than 60% of the foreign transaction, up to €1.5 million if the converted amount accounts for between 30% and 60% of the foreign transaction, and up to €1 million if the converted amount accounts for less than 30% of the foreign transaction. They may convert 40% on NIMA if the converted amount accounts for more than 60% of the foreign transaction, 55% on NIMA if the converted amount accounts for between 30% and 60% of the foreign transaction, and 70% on NIMA if the converted amount accounts for less than 30% of the transaction. The rest of the transaction amount is to be settled in imports of an |
equivalent amount. (4) Exporters repatriating more than €10 million (or equivalent in other currencies) may sell by cash or money order to exchange agents up to €4 million if the converted amount accounts for more than 60% of the foreign transaction, up to €2 million if the converted amount accounts for between 30% and 60% of the foreign transaction, and up to €1 million if the converted amount accounts for less than 30% of the foreign transaction. They may convert 70% on NIMA if the converted amount accounts for more than 60% of the foreign transaction, 80% on NIMA if the converted amount accounts for between 30% and 60% of the foreign transaction, and 90% on NIMA if the converted amount accounts for less than 30% of the foreign transaction. The rest of the transaction amount is to be settled in imports of an equivalent amount.

03/21/2019 Pursuant to Regulation No. 98/65694, for financial year 2019–2020, exporters must repatriate at least 50% of their export revenues in New Integrated Foreign Exchange Transactions System (NIMA), while Petro-Chemical Companies must repatriate at least 60% of their export revenues to NIMA.

Payments for Invisible Transactions and Current Transfers

Controls on these transfers

Payments for travel

Quantitative limits

04/11/2018 The maximum amount of foreign exchange travelers (Iranian nationals) may buy from the banking system for trips to the neighboring countries is €500 or the equivalent a person a year except when traveling to Iraq in which case the amount is 250,000 Iraqi dinars. Travelers to other countries may buy €1000 euros or the equivalent a person a year. Previously, the limit was US$300 a person a trip.

The Central Bank Law gives the Board of the Central Bank of Iraq (CBI) the authority to formulate exchange rate policy. From January 2, 2017, the cash and transfer exchange rate was set at ID 1,184 plus ID 6 (fees) per US dollar. Effective May 24, 2018, the official exchange rate was set at ID 1,190 per US dollar including CBI commission which represent the cash and transfer selling price in the window for buying and selling foreign currency. Banks are allowed to deal at a maximum exchange rate of ID 1,200.

Stabilized arrangement

Crawling peg

Crawl-like arrangement

Pegged exchange rate within horizontal bands

Other managed arrangement

Floating

Free floating

Official exchange rate

Yes. The CBI determines the official exchange rate for revaluation purposes in the accounting system. The CBI uses the official selling rate of the day minus 0.001% to purchase foreign currency and the government’s foreign exchange receipts. The Central Bank Law gives the Board of the CBI the authority to formulate exchange rate policy. From January 2, 2017, the cash and transfer exchange rate was set at ID 1,184 plus ID 6 (fees) per US dollar. Effective May 24, 2018, the official exchange rate was set at ID 1,190 per US dollar including CBI commission which represent the cash and transfer selling price in the window for buying and selling foreign currency. Banks are allowed to deal at a maximum exchange rate of ID 1,200.

*Foreign exchange market*  
Yes.

*Spot exchange market*  
Yes.  
The banks that participate in the currency window according to the latest update are 55 banks, of which 3 are government banks and the rest are private banks (domestic and foreign), with one money transfer company and 1926 money-changing companies as of December 31, 2018.

The daily average for total sale (cash and transfer) in 2018 amounted to about US$174.5 million.

The daily average for transfers amounts to about US$142 million.

The daily average for cash amounts to about US$32.5 million.

*Operated by the central bank*  
Yes.
Currency selling window is held daily; eligible bidders may buy and sell foreign exchange at the official exchange rate including a commission determined by the CBI (cash and transfer exchange rates). Banks may buy foreign exchange on their behalf and on behalf of their clients but have to ensure that foreign exchange purchase requests they intermediate are for legitimate purposes (to finance legally permitted transactions in foreign currency) by checking clients' documents. Effective October 7, 2019, banks are allowed to sell foreign currency derived from the CBI currency selling window to individuals and companies that do not have at least one foreign exchange account for a period more than six months. Banks are subject to an advance deposit requirement which requires depositing the local currency unit (LCU) equivalent of their cash and noncash purchase requests 7 days before the auction. There are no limits on the bids. In case of default, the auction participant may not participate in future auctions and fines are imposed. The CBI monitors these transactions for anti-money-laundering purposes and sells foreign currency for transactions that are not considered suspect. Because the CBI has been pursuing a policy of fulfilling every bid at a single settlement price, bids are submitted without indication of price. Volume is not preannounced. There are no limits for noncash sales. Effective December 31, 2018, weekly limits on the amount banks may buy in cash foreign exchange from the CBI currency sales window are US$70,000 for money exchange bureaus and US$200,000 for all other participating banks. (Previously, weekly limits on the amount banks may buy in cash foreign exchange from the CBI currency sales window were set at US$300,000 for banks with capital greater than ID 250 billion, and at US$200,000 for all other banks. The weekly limits for money transfer companies and money exchange bureaus were set at US$150,000 and US$50,000, respectively.) US dollars sold for documentary credits are transferred after the bank confirms receipt of the required documents.

Banks are allowed to trade among themselves; however, there is no specific legal framework for interbank transactions, and there is no official organized interbank market for buying and selling foreign currency.

Banks may open and accept LCs for importation and exportation of permitted goods. The relevant amount may be transferred as follows: (1) Banks must be in compliance with the terms of payment described in the LC. (2) The goods must be insured in Iraq to the extent possible. (3) The bill of lading must be in the name of an Iraqi bank. Banks may purchase foreign exchange for LCs at the currency selling window at the reference rate plus commission, provided total LCs do not exceed 100% of the bank capital. Banks must notify the CBI when an LC is fully or partially paid, so that the amount can be deducted from this limit. In cases exceeding the limit, the CBI will consider a bank’s request, provided it commits to return the LC amount transferred to it. If the bank does not submit documents proving the entry of goods in Iraq by the expiration date of the credit, the bank must return the amount of credit at the CBI selling price minus ID 1; this also applies to the unexecuted portion of the LC (in addition to the principal commission for opening the LC). Banks must submit a statement indicating amounts the bank transferred to its customers 15 days after the transfer date. Banks must send monthly statements with details of the transferred amounts in foreign currency to the Credit and Banking Supervision Department, using a form designed for this purpose.

Companies operating in Iraq are required to submit a tax clearance certificate before transferring funds purchased at the currency selling window in excess of US$50,000 abroad.

All goods may be imported, except weapons and drugs.

Importation is subject to licensing.

Duty rates vary by product. Implementation remains challenging and incomplete.

Procedures related to the anti-money-laundering law ensure the soundness of transferred funds.
Indicative limits/bona fide test  Yes.

Payments for travel  Yes.

Prior approval  No.

Quantitative limits  Yes.

There is a US$10,000 limit on the amount in banknotes a traveler may take out of Iraq. Expenditures of government agency delegates are allowed as per defined entitlement.

Indicative limits/bona fide test  Yes.

The CBI allows individuals to buy foreign exchange banknotes up to US$3,000 a month for travel purpose on proof of airline ticket with a passport. The CBI provides additional amounts when required by Iraqi citizens. Indicative limits are imposed in accordance with the anti-money-laundering law.

Personal payments  Yes.

Prior approval  No.

Quantitative limits  Yes.

Indicative limits/bona fide test  Yes.

Transfers of tuition fees require proof of current enrollment. Transfers for medical treatment require a medical report certified by a competent medical authority. Transfers for subscriptions to journals require documentation of the subscription. Transfers to cover the household living expenses of Iraqis residing permanently abroad, on submission of a statement verifying their residency status, the relationship, and the source of the funds, not to exceed US$5,000 a month are allowed. The CBI addresses the additional requests of Iraqi citizens for lawful purposes, as they arise.

Foreign workers' wages  Yes.

Prior approval  Yes.

Quantitative limits  No.

Indicative limits/bona fide test  Yes.

Payments to foreign experts, whether under contract with the government or with the private sector, may be transferred on submission of supporting documents. All obligations and debts to the government must be settled before salaries and other compensation of non-Iraqi employees may be transferred out of Iraq.

Credit card use abroad  No.

The Iraqi retail payment infrastructure and the National Switch were implemented enabling use of credit cards issued by banks abroad and settlement within the payment system.

Prior approval  No.

Quantitative limits  No.

Indicative limits/bona fide test  No.

Other payments  Yes.

Nonresidents’ obligations and debts to the government must be settled before the transfer abroad of amounts exceeding ID 15 million.

Prior approval  Yes.

CBI approval and compliance with the anti-money-laundering law are required for payments and transfers not explicitly authorized to
be made by banks.

Quantitative limits
No.

Indicative limits/bona fide test
No.

Commercial banks may borrow from foreign financial markets and may obtain overdraft facilities from correspondent banks if it is reflected in their monthly balance sheets.

Banks may enter into agreements with correspondent banks abroad and must comply with disclosure and transparency requirements. Banks are allowed to maintain 20% of its capital for investment purposes according to Article 33 of Banking Law.

The banking law does not distinguish between residents’ and nonresidents’ financial operations.

Local lending in foreign currency is not regulated; banks may lend in foreign currency subject to lending instructions in Iraqi and foreign currency.

The differential treatment concerns the kinds of deposits, which are categorized as current deposits, savings deposits, and fixed deposits—each with a different interest rate.

The investment law (Investment Law No. 13 of 2006) applies.

With regard to suspicious transactions defined in the Anti-Money Laundering/Combating the Financing of Terrorism Law, banks must obtain CBI approval to deposit foreign currency or buy shares and stocks abroad. CBI approval is required for banks’ investments in securities exceeding 20% of their capital under Article 33 of Iraqi Banking Law Order No. 94 of 2004.

Insurance companies must be licensed by the MOF. The CBI audits them only in two areas—investment portfolio and loans—that are...
considered banking activities, but they are not currently audited by the CBI because there is no legal basis and because insurance companies are governed by their own law.

### Changes during 2018 and 2019

#### Exchange Arrangement

**Classification**
- Conventional peg

  05/24/2018

  The official exchange rate was set at ID 1,190 per US dollar including Central Bank of Iraq commission which represent the cash and transfer selling price in the window for buying and selling foreign currency.

**Official exchange rate**

- 05/24/2018

  The official exchange rate was set at ID 1,190 per US dollar including Central Bank of Iraq commission which represent the cash and transfer selling price in the window for buying and selling foreign currency.

**Foreign exchange market**

- Spot exchange market

  **Operated by the central bank**

  **Allocation**

  12/31/2018

  Weekly limits on the amount banks may buy in cash foreign exchange from the Central Bank of Iraq (CBI) currency sales window are US$70,000 for money exchange bureaus and US$200,000 for all other participating banks. (Previously, weekly limits on the amount banks may buy in cash foreign exchange from the CBI currency sales
window were set at US$300,000 for banks with capital greater than ID 250 billion, and at US$200,000 for all other banks. The weekly limits for money transfer companies and money exchange bureaus were set at US$150,000 and US$50,000, respectively. Banks are allowed to sell foreign currency derived from the Central Bank of Iraq currency selling window to individuals and companies that do not have at least one foreign exchange account for a period more than six months. Previously, it was not allowed.
IRELAND

Article VIII

Article XIV

Exchange Measures

Restrictions and/or multiple currency practices
No.

Exchange measures imposed for security reasons
Yes.

In accordance with IMF Executive Board Decision No. 144-(52/51)
Yes.

In accordance with EU Council regulations, Ireland maintains certain restrictions solely for the preservation of national or international security with respect to certain individuals and entities of Afghanistan concerning Islamic State of Iraq and the Levant (Da’esh), Al-Qaida and associated individuals, groups, undertakings, and entities; certain officials of Belarus; certain natural and legal persons whose activities undermine the sovereignty, territorial integrity, constitutional order, and international personality of Bosnia and Herzegovina; certain officials of Burundi; certain former members of the presidential guard of the Central African Republic; the Democratic Republic of the Congo and people in violation of the arms embargo; certain persons, entities, and bodies in view of the situation in Egypt (effective March 21, 2019); certain members of the military from the Republic of Guinea; certain persons, entities, and bodies of the Republic of Guinea-Bissau (effective January 10, 2018); the Islamic Republic of Iran; Iraq; the Democratic People’s Republic of Korea; Lebanon and certain persons suspected of involvement in the assassination of former Lebanese Prime Minister Rafik Hariri; Libya (effective September 18, 2018); Republic of Maldives (effective July 16, 2018); Mali; Myanmar (Burma); Somalia; Sudan and certain persons impeding the peace process and breaking international law in the conflict in the Darfur region; certain persons and entities part of and linked to the Syrian regime (effective May 28, 2018); Tunisia (effective January 29, 2018); certain persons identified as responsible for the misappropriation of state funds and persons responsible for human rights violations in Ukraine (effective March 2, 2018); Venezuela (effective June 24, 2018); Yemen (effective May 7, 2018); Zimbabwe; restrictive measures against the proliferation and use of chemical weapons (effective January 20, 2019); and restrictive measures against cyberattacks threatening the EU or its member states (effective May 16, 2019). Effective December 12, 2018, measures against Eritrea were lifted.

Other security restrictions
Yes.

In accordance with EU Council regulations, Ireland has restrictions solely for the preservation of national or international security with respect to the countries listed on the Irish Department of Finance’s financial sanctions page. This resource lists instruments issued by the Minister of Finance to implement in Ireland various EU regulations, which implement the UN’s international sanctions regime.

<table>
<thead>
<tr>
<th><strong>Floating</strong></th>
<th>Yes.</th>
</tr>
</thead>
</table>

| **Official exchange rate** | Yes. |

The exchange rate arrangement of the euro area is free floating. Ireland participates in a currency union (EMU) with 18 other members of the EU and has no separate legal tender. The euro, the common currency, floats freely and independently against other currencies. The ECB publishes information regarding its interventions; it last intervened in March 2011. When it intervenes, the ECB intervenes at the quotes of the market makers.

- Publication of inflation forecasts

Other monetary framework

Yes. To maintain price stability is the primary objective of the Eurosystem and of the single monetary policy for which it is responsible. This is stated in the Treaty on the Functioning of the EU, Article 127(1). Section 6A of the Central Bank Act 1942 notes that in discharging its functions and exercising its powers as part of the European System
of Central Banks, the primary objective of the CBI is to maintain price stability. “Without prejudice to the objective of price stability,” the Eurosystem will also “support the general economic policies in the Community with a view to contributing to the achievement of the objectives of the Community.” These include a “high level of employment” and “sustainable and noninflationary growth.” Price stability is defined as an inflation rate below but close to 2% over the medium term.

Banks are free to provide spot and forward exchange rate facilities. ADs may freely determine their exchange rates and foreign exchange commissions in transactions with their clients. Certain foreign-exchange-related operations may be subject to a regulatory authorization regime or certain restrictions reflecting obligations in European legislation. For example, with regard to investment firms for the purposes of Directive 2014/65/EU (Markets in Financial Instruments Directive, or MiFID II), “spots” which meet the requirements in Article 10(2) of Commission Delegated Regulation (EU) No. 2017/56 are not considered “financial instruments under MiFID II, and accordingly, the performance of certain activities/services in relation to these “spots” may not require a firm to be authorized in Ireland in accordance with the regime provided for in MiFID II. Investment firms for the purposes of MiFID II may require an authorization in Ireland to perform activities or services in relation to foreign exchange forwards. UCITS management companies authorized in Ireland are permitted to use foreign exchange derivatives on behalf of UCITS funds in line with Directive 2009/65/EU, subject to certain restrictions. Alternative Investment Fund (AIF) managers authorized in Ireland are also permitted to use foreign exchange derivatives on behalf of AIFs under management.

EURO foreign exchange policy is the responsibility of the ECB. There were 24 credit institutions authorized by the CBI as of December 31, 2018, all of which may deal in foreign exchange. Credit institutions are authorized and supervised under the provisions of, inter alia, the Central Bank Act 1971, Regulation (EU) No. 575/2013/Directive 2013/36/EU (CRDIV/CRR), and Council Regulation (EU) No. 1024/2013 (The SSM Regulation).

As of December 31, 2018, nine firms were authorized as exchange bureaus by the CBI under Part V of the Central Bank Act 1997. These firms do not have a counterparty relationship with the CBI. Most firms authorized as exchange bureaus only provide OTC services to the public.

The provision of foreign exchange services in addition to the provision of payment services by a payment institution is recognized in Regulation No. 29(1) of the EU (Payment Services) Regulations 2018, which implemented Directive 2015/2366/EU – Payment Services Directive (PSD2), effective January 13, 2018.

A payment institution authorized to provide payment services may, in addition, provide foreign exchange services.
Foreign exchange swaps and forwards are used by credit institutions to facilitate client-driven transactions and to manage internal foreign exchange asset exposures. Institutional investors use outright forwards and foreign exchange swaps owing to their needs to hedge international asset portfolios and future foreign exchange cash flows. The CBI participates in the forward exchange market to hedge investment activities and the swaps market to hedge certain foreign exchange exposures.

Resident Accounts

Foreign exchange accounts permitted Yes.
Held domestically Yes.
Foreign exchange balances may be freely transferred: all exchange control legislation in Ireland expired December 31, 1992. Since January 1, 1993, no laws or restrictions prevent the free movement of capital or current payments to or from Ireland by individuals or corporate entities for any purpose whatsoever. This liberalization applies equally to EU and non-EU countries. However, in any such foreign exchange transactions the Irish resident parties, including financial institutions, must ensure conformity with (1) financial sanctions under various EU Council regulations enforced under domestic law, which affect transfers, including economic resources, to and from jurisdictions, entities, and individuals that are subject to sanctions; and (2) anti-money-laundering legislation to ensure that effective measures are taken to combat the laundering of the proceeds of criminal activity or the financing of terrorism. All credit and financial institutions providing services (including foreign-exchange-related services) must adopt policies and procedures to prevent money-laundering and terrorism financing. The procedures must specify “measures to be taken (by them in their businesses) to prevent the use, for money laundering or terrorism financing, of transactions or products that could favor or facilitate anonymity.”

The CBI is specified in the Criminal Justice (Money-Laundering and Terrorism Financing) Act 2010 (the “Act”) as the appropriate authority for credit and financial institutions. The CBI, pursuant to Section 63 of the Act, is responsible for monitoring credit and financial institutions’ compliance. If a bank fails to establish procedures to guard against the use of its foreign exchange services for money-laundering or the financing of terrorism, it is in violation of Section 54(8) of the Act and is also subject to administrative sanction.

Approval required No.
Held abroad Yes.

Article XIV

Exchange Measures

Restrictions and/or multiple currency practices No.

Exchange measures imposed for security reasons Yes.

In accordance with IMF Executive Board Decision No. 144-(52/51) Yes.

Under Prevention of Terrorism Ordinance No. 33, 5708-1948, money and other assets may not benefit a terrorist organization. The Prohibition on Terrorism Financing Law, No. 5765-2004, prohibits transactions in property for purposes of terrorism and prohibits transactions in terrorists’ property. Israel maintains a licensing mechanism on imports from eight non-WTO members that have no diplomatic relations with Israel or prohibit imports from Israel—namely, Afghanistan, Algeria, Iraq, the Democratic People's Republic of Korea, Libya, Saudi Arabia, Sudan, and Yemen. Licenses are granted for imports from these countries on an ad hoc basis, under exceptional circumstances (for example, economic necessity) and with authorization from the Ministry of Industry, Trade and Labor. Imports and exports of rough diamonds are controlled in order to avoid trade with countries that do not participate in the Kimberley Process Certification Scheme. Imports of goods that are clearly identified with terrorist organizations (for example, flags) are prohibited. Trading is prohibited with the Islamic Republic of Iran, Iraq, Lebanon, and Syria; however, because of the US presence in Iraq, trade in Iraqi dinars was authorized temporarily. Economic activity is prohibited with a foreign entity that has been identified by a ministerial committee as assisting Iran in the advancement of its nuclear program or in obtaining weapons of mass destruction or the means of delivery of weapons of mass destruction, unless the ministerial committee has permitted economic activity with that foreign entity. In addition, financial institutions are prohibited from investing in a corporation that has been identified by a ministerial committee as maintaining a substantial business relationship with Iran, unless the ministerial committee has permitted it.

Other security restrictions No.

References to legal instruments and hyperlinks
This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exchange Arrangement

Currency Yes. The currency of Israel is the new Israeli shekel.

Other legal tender No.

Exchange rate structure
The de jure exchange rate arrangement is free floating. However, the Bank of Israel (BOI) may intervene in the foreign exchange market in the event of unusual movements in the exchange rate that are inconsistent with underlying economic conditions or when conditions in the foreign exchange market are disorderly. The BOI purchased US$3.3 billion in the foreign exchange market during 2018 (US$6.6 billion in 2017 and US$6.04 billion in 2016), of which US$1.50 billion (US$1.5 billion in 2017 and US$1.8 billion in 2016) was part of the purchase plan to offset the effect of natural gas production on the exchange rate and the rest was under the foreign exchange policy announced in August 2009. The BOI announced, effective December 11, 2018, the end of the foreign exchange purchasing program meant to offset the effects of natural gas production on the exchange rate. The de facto exchange rate arrangement is classified as a floating arrangement. The BOI publishes monthly purchase information.

The representative rate of the new shekel against the US dollar for a specific day is the average rate of new shekels in bilateral interbank quotes during a predetermined sampling period. Deviations from the sample average of more than 2 standard deviations are excluded from the calculation. In exceptional cases, if the calculated exchange rate does not reflect actual rates in the market, discretion may be exercised in determining the representative rate. The representative rates of the new shekel against other currencies are based on the representative rate of the US dollar and the exchange rates of the relevant currencies in the international money markets at the time the rates are determined. Therefore, the representative rate of any currency against the new shekel is an indicator of the exchange rate in the foreign exchange market, is based on an average of banks’ published buying and selling prices, and does not necessarily reflect actual transaction rates. The rates have no official or legal standing and are not published in the Official Gazette. They are used mainly for valuations and in contracts. Parties to a foreign-currency-indexed business transaction may use any mutually acceptable rate. The representative rate is binding on such transactions only if explicitly stipulated in advance.
Monetary policy framework

Exchange rate anchor

U.S. dollar

Euro

Composite

Other

Monetary aggregate target

Inflation-targeting framework Yes.

Target setting body Yes.

Government

Central Bank

Monetary Policy Committee

Central Bank Board

Other

Government and Central Bank Yes. Israel’s government, in consultation with the governor of the BOI, sets a price stability target—an annual rate of increase in the consumer price index (CPI). The current target is between 1% and 3% a year, and the BOI is obliged to strive to achieve that goal.

Inflation target Yes.

Target number Yes.

Point target

Target with tolerance band

Band/Range Yes. The government sets an inflation target (currently 1%–3%) as part of its economic policy.

Target measure Yes. The target is set in terms of the headline CPI and is evaluated continuously referring to the CPI inflation rate in the past 12 months.

CPI Yes. Israel’s government, in consultation with the governor of the BOI, sets a price stability target—an annual rate of increase in the CPI. The current target is between 1% and 3% a year, and the BOI is obliged to strive to achieve that goal.

Core inflation No.

Target horizon Yes. The target is set in terms of the headline CPI and is evaluated continuously referring to the CPI inflation rate in the past 12 months.

Operating target (policy rate)

Policy rate Yes. The BOI is independent in setting the short-term rate of interest and in using the monetary instruments to achieve its goals. The BOI’s interest rate serves as the basis according to which a range of interest rates are set in the economy, including the rates of interest that the public (households and businesses) pays the banks on short-term loans and the rates of interest that it receives from the banks on its short-term deposits.

</tbody>
</table>

The BOI publishes the minutes of the discussions regarding the determination of the interest rate. The minutes are published about two weeks after the announcement of the interest rate. The publication of the minutes of the interest-rate discussions, in the format adopted by the CBs of the advanced economies throughout the world, is intended to increase the transparency of the BOI’s interest-rate policy, and together with other of the BOI’s publications will enable the public, the Knesset (Israel’s unicameral parliament), and the government to deepen their understanding of that policy.

The Monetary Committee presents the government and the Knesset Finance Committee no less than twice annually a report on the monetary policy. The report includes a survey of developments in the field of price stability and economic developments in the time period covered by the report, and the policy that the Committee believes necessary for the maintenance of price stability within the range determined by the government and for the attainment of the BOI’s other objectives. The reports are issued about a month after the end of each half-year. Appendices to the report contain tables with updated figures, which are used by policymakers. The BOI generally published this report before the Committee’s appointment as well.

**Other monetary framework**

- **Exchange tax**: No.
- **Exchange subsidy**: No.
- **Foreign exchange market**: Yes. Commercial banks may freely set the exchange rate in transactions with their clients.
- **Spot exchange market**: Yes. The spot exchange market is unregulated and operates in an identical manner to developed country markets. Foreign exchange bureaus are licensed by the MOF; their activities are generally unrestricted, and several hundred bureaus are in operation. Foreign exchange bureaus may not make foreign exchange transactions directly with the BOI. They may maintain accounts abroad and make foreign currency transfers on behalf of their clients. They are subject to the Money-Laundering and Terrorism Financing Prohibition.
- **Operated by the central bank**: No.
- **Foreign exchange standing facility**: No.
- **Allocation**: No.
- **Auction**: No.
- **Fixing**: No.
The interbank market operates freely with no formal framework. As of December 31, 2018, there were between 5 and 7 local market-maker banks and between 30 and 40 foreign financial institutions that were also active at times, as well as a few brokers. The BOI monitors the foreign exchange market (daily volume, volatility, bid-offer spreads, and so on) to ensure its orderly functioning.

The interbank market operates freely; there is no formal framework.

The interbank market operates freely; there is no formal framework.

The BOI does not participate in the foreign exchange derivatives market. There are reporting requirements for transactions in spots, swaps, and new shekel–foreign currency forwards.

Israel has taken steps to reduce tariffs and nontariff barriers. With the exception of agricultural products, imports are free of quantitative restrictions. A special regime applies to imports from countries that restrict or prohibit imports from Israel. Most of Israel's trade is covered by bilateral free trade agreements; additional free trade agreements with neighboring countries are under consideration.

In accordance with EU regulations and the relevant UNSC resolutions, certain restrictions are maintained with respect to: (1) Belarus, in the form of freezing of funds and economic resources of persons who are responsible for the violations of international electoral standards in the presidential elections in Belarus on March 19, 2006, and the crackdown on civil society and democratic opposition, and those natural or legal persons, entities, or bodies associated with them; (2) Bosnia and Herzegovina, in the form of freezing of funds and economic resources of persons whose activities undermine the sovereignty, territorial integrity, constitutional order, and international personality of Bosnia and Herzegovina, seriously threaten the security situation in Bosnia and Herzegovina, or undermine the Dayton/Paris General Framework Agreement for Peace and the annexes thereto, including measures established in the implementation of the said agreement, natural or legal persons associated with them, and certain persons indicted by the International Criminal Tribunal for the Former Yugoslavia; (3) the Democratic Republic of the Congo (DRC), in the form of freezing of funds and economic resources of persons and entities who are in violation of the arms embargo and related measures, leaders of foreign armed groups operating in the DRC who impede disarmament and the voluntary repatriation or resettlement of combatants, leaders of Congolese militias who impede the participation of combatants in disarmament, demobilization, and reintegration processes, leaders recruiting or using children in armed conflict, individuals committing serious violations of international law involving the targeting of children or women in situations of armed conflict, individuals obstructing provision of humanitarian assistance to the eastern part of the DRC, and individuals or entities supporting illegal armed groups in the eastern part of the DRC through illicit trade in natural resources; (4) Côte d’Ivoire, in the form of freezing of funds and economic resources of certain persons who constitute a threat to the peace and national reconciliation process and certain persons who, although not designated by the UNSC or the Sanctions Committee, are obstructing the process of peace and national reconciliation and freezing of funds and economic resources, restrictions on issuance of and trading in bonds issued by the illegitimate Gbagbo government, and restrictions on loans to that government; (5) Croatia, in the form of freezing of funds and economic resources of certain persons indicted by the International
Criminal Tribunal for the Former Yugoslavia; (6) Egypt, in the form of freezing of funds and economic resources of persons identified as responsible for the misappropriation of Egyptian state funds and natural or legal persons, entities, and bodies associated with them; (7) Eritrea, in the form of freezing of funds and economic resources of persons and entities that violated the arms embargo against Eritrea, providing support from Eritrea to armed opposition groups that aim to destabilize the region, obstructing implementation of UNSC Resolution No. 1862 (2009) concerning Djibouti, harboring, financing, facilitating, supporting, organizing, training, or inciting individuals or groups to commit acts of violence or terrorist acts against other countries or their citizens in the region, and obstructing the investigation or work of the monitoring group reestablished by UNSC Resolution No. 1853 (2008); (8) Guinea (Conakry), in the form of freezing of funds and economic resources; (9) Iraq, in the form of freezing of funds and economic resources and transfer of such funds and economic resources to the Development Fund for Iraq; (10) Democratic People’s Republic of Korea (DPRK), in the form of a ban on new grants, financial assistance, and concessional loans, freezing of funds and economic resources, a ban on publicly provided financial support for trade that could contribute to the DPRK’s nuclear-related, ballistic-missile-related, or other weapons-of-mass-destruction-related programs, and enhanced monitoring of the activities of EU financial institutions with banks domiciled in the DPRK and their subsidiaries, branches, and other financial entities outside the DPRK; (11) Lebanon, in the form of freezing of funds and economic resources; (12) Liberia, in the form of freezing of funds and economic resources (persons and entities associated with former President Charles Taylor); (13) Libya, in the form of freezing of funds and economic resources of listed persons, entities, and bodies and prohibition against satisfying certain claims of listed persons and entities and any other persons and entities in Libya, including the government; (14) Myanmar, in the form of freezing of funds and economic resources, a ban on certain investment, and suspension of certain aid and development programs; (15) Serbia and Montenegro, in the form of freezing of funds and economic resources of certain persons indicted by the International Criminal Tribunal for the Former Yugoslavia; (16) Somalia, in the form of freezing of funds and economic resources of persons and entities engaging in acts that threaten peace, security, or stability, who violated the arms embargo against Somalia or obstructed delivery of humanitarian assistance to Somalia; (17) Sudan, in the form of freezing of funds and economic resources; (18) Syria, in the form of freezing of funds and economic resources of persons responsible for the violent repression against the civilian population and of persons and entities associated with them; (19) Tunisia, in the form of freezing of funds and economic resources of certain persons responsible for misappropriation of government funds and natural or legal persons or entities associated with them; (20) Zimbabwe, in the form of freezing of funds and economic resources; and (21) terrorist groups, in the form of freezing of funds and economic resources and freezing of funds and economic resources of persons and entities associated with Osama bin Laden, Al-Qaida, and the Taliban and of certain persons, groups, and entities, with a view to combating terrorism. On January 16, 2016, the sanction regime against Iran was suspended (EU Council Decision (CFSP) 2016/37).

The Italian Authority for Dual-Use Items Export Control applies commercial restrictions concerning goods and/or economic resources on several embargoed countries, including the Islamic Republic of Iran, the DPRK, and Myanmar, under relevant EU regulations.
Certain restrictions are maintained in the form of freezing of funds and economic resources of certain persons, entities, and bodies in view of the situation in Ukraine.

**Exchange rate structure**

- Unitary: Yes.
- Dual
- Multiple

**Classification**

- No separate legal tender
- Currency board
- Conventional peg
- Stabilized arrangement
- Crawling peg
- Crawl-like arrangement
- Pegged exchange rate within horizontal bands
- Other managed arrangement

**Floating**

- Yes. The exchange rate arrangement of the euro area is free floating. Italy participates in a currency union (EMU) with 18 other members of the EU and has no separate legal tender. The euro, the common currency, floats freely and independently against other currencies. The ECB publishes information regarding its interventions; it last intervened in March 2011. When it intervenes, the ECB intervenes at the quotes of the market makers.

**Official exchange rate**

- Yes. The ECB publishes a reference rate based on the daily concertation procedure between CBs within the European System of Central Banks. The publication time of the euro foreign exchange reference rates is around 16:00 Central European Time on every working day, except on TARGET closing days. Reference rates will continue to be determined using the current methodology, which is based on a point-in-time snapshot at 14:15 Central European Time. The new publication regime aims to reinforce the distinction between exchange rate fixings used as benchmarks for transaction purposes and the reference rates that are published for information purposes only. The reference rates are used by the Italian public administration for administrative and fiscal purposes.

To maintain price stability is the primary objective of the Eurosystem and of the single monetary policy for which it is responsible. This is stated in the Treaty on the Functioning of the EU, Article 127(1). “Without prejudice to the objective of price stability,” the Eurosystem will also “support the general economic policies in the Community with a view to contributing to the achievement of the objectives of the Community.” These include a “high level of employment” and “sustainable and non-inflationary growth.” Price stability is defined as an inflation rate below but close to 2% over the medium term.

**Exchange tax**

- **Yes.**

**Exchange subsidy**

- **No.**

**Foreign exchange market**

- **Yes.** ADs may freely determine their exchange rates and foreign exchange commissions in transactions with their clients.

**Spot exchange market**

- **Yes.** Italian banks deal freely in the foreign exchange market. Banks are authorized by the CB to perform their general activities. Their operations are not limited to the purchase and sale of banknotes; they may also make foreign currency payments and transfers on behalf of their clients.

**Operated by the central bank**

- **No.**

**Foreign exchange standing facility**

- **No.**

**Allocation**

- **No.**

**Auction**

- **No.**

**Fixing**

- **No.**

**Interbank market**

- **Yes.** Dealers may freely determine their exchange rates. No data are available on the number of banks that deal on the OTC foreign exchange market.

**Over the counter**

- **Yes.** The interbank foreign exchange market operates over the counter.

**Brokerage**

- **Yes.**

**Market making**

- **Yes.**

**Forward exchange market**

- **Yes.** Premiums and discounts in the forward exchange market are determined by the interplay of market forces.

**Official cover of forward operations**

- **No.**

Imports are governed by EU regulations, under which most imports are free of licensing and quantitative restrictions, except licensing for textiles (from the DPRK), licensing for agricultural products and licensing for dual-use items from Iran, according to Regulation (EU) No. 267/2012 and its amendments, included in the scope of the implementing measures of CAP. Imports of certain iron and steel products originating in certain third countries are governed by EU regulation and are subject to presentation of a surveillance document. Imports of endangered wild fauna and flora (under CITES) are governed by EU regulations and are subject to ministerial authorization.

Surveillance documents are required for certain iron and steel products originating in certain third countries.
Taxes collected through the exchange system: No.

State import monopoly: No.

With respect to nonresidents, controls apply to (1) majority participation or controlling interest in companies that publish daily newspapers and periodicals; (2) licenses for audiovisual communications firms headquartered in a non-EU country; (3) majority participation by non-EU residents in companies licensed for television and sound-radio broadcasting and participation by non-EU residents in companies that are not legal persons and are licensed for television and sound-radio broadcasting; (4) acquisition of aircraft in Italy by foreigners and foreign ownership exceeding one-third of the capital of companies possessing such aircraft; (5) airlines established in the country that must be majority owned and effectively controlled by EU states and/or nationals of EU states, unless otherwise provided for through an international agreement to which the EU is a signatory; (6) purchase by foreigners other than EU residents of a majority interest in Italian flag vessels or of a controlling interest in ship-owning companies headquartered in Italy; (7) purchase of Italian flag vessels used to fish in Italian territorial waters; and (8) establishment of branches, agencies, etc. of securities investment companies. In accordance with EU legislation, whatever the potential acquirer’s nationality (resident or nonresident), acquisition of holdings in the financial sector requires prior authorization by the relevant supervisor (for banks, by the ECB, with a preliminary investigation by the BOI; for investment firms and asset management companies, the BOI; for insurance companies, the Institute for the Supervision of Insurance Companies) if the holding (a) equals or exceeds 10%, 20%, 30%, or 50% of the target entity’s capital or voting rights; or (b) confers the power to exert significant influence over the target entity. Authorization is also needed if control is

**Provisions Specific to the Financial Sector**

**Provisions specific to commercial banks and other credit institutions** | Yes.  
A series of reforms have taken place in recent years.  
(1) Commercial banks and other credit institutions (that is, “Banche Popolari” and “Banche di credito cooperativo”) are subject to EU and national prudential regulations in accordance with the Basel Committee on Banking Supervision core principles for effective banking supervision and the Basel Accord (International Convergence of Capital Measurement and Capital Standards). The Consolidated Law on Banking (Legislative Decree No. 385/1993, TUB), as well as BOI Circular No. 285 of December 17, 2013 (as amended) and Circular No. 286 on prudential reporting transpose into the national regulatory framework the provisions laid down in Capital Requirements Directive IV (CRD IV—Directive 2013/36/EU), concerning authorization of credit institutions, acquisitions of qualified holdings in a credit institution, cross-border activities, internal capital and liquidity adequacy assessment processes, corporate governance, risk management and control, remuneration policies and practices, capital buffers, prudential supervision, supervisory review and evaluation process, and sanctions. Moreover, provisions concerning own funds, own funds requirements, liquidity requirements, leverage, large exposures, and other bylaw provisions.
A reform of “Banche Popolari” (a particular form of non-prevalently mutual cooperative banks) was approved by the parliament (Decree-Law No. 3/2015 converted to Law No. 33/2015); since December 2016, in particular, the reform introduces an obligation for Banche Popolari with consolidated assets exceeding €8 billion to turn into joint-stock companies. Following the enactment of primary legislation, BOI’s implementing provisions came into force, completing the legal framework by providing the necessary prudential rules and guidelines for the banks concerned.

(2) Decree-Law No. 18 of February 14, 2016, converted by Law No. 49 of April 8, 2016, introduced significant innovations in the Italian cooperative banking sector fostering the consolidation of the “Banche di Credito Cooperativo” (BCCs) and providing for the establishment of cooperative banking groups. According to the regulatory framework, each Italian BCC has either to join a cooperative banking group to hold a banking license, or to be transformed into a joint-stock company, or liquidated. The parent company of the cooperative banking group must be a joint-stock company, with a banking license and net capital not less than €1 billion. The provisions of the BOI Circular No. 285 were amended November 2, 2016, as well as effective May 23, 2018, to align the existing rules applicable to cooperative banks on an individual basis to the reform of cooperative banking groups. Decree-Law No. 119 of October 23, 2018, effective October 24, 2018, amended the reform and allowed BCCs established in the Italian Region of Trentino Alto-Adige to create an Institutional Protection Scheme (“IPS”) as an alternative to joining a cooperative banking group, to take into account the specific features of the mutual banks located in that region.

(3) Directive 2014/92/EU on the comparability of fees related to payment accounts, payment account switching and access to payment accounts with basic features (Payment Accounts Directive – PAD) was implemented into Legislative Decree No. 37 of March 15, 2017, which aims at enhancing the customers’ protection and the financial inclusion.

On August 3, 2017, the BOI adopted implementing provisions (amending its provisions for banks and financial intermediaries on transparency and correctness in the relations with customers, originally issued July 29, 2009) to: (1) enhance customer protection by ensuring continuity of payment service in the event of divestment of branches of business and (2) clarify the discipline of basic payment accounts, which is also regulated by Ministerial Decree No. 70 of May 3, 2018, which, effective June 20, 2018, introduced detailed provisions regarding the access of consumers to a payment account with basic features. Effective June 18, 2019, the BOI adopted implementing provisions (amending its provisions for banks and financial intermediaries on transparency and correctness in the relations with customers, originally issued July 29, 2009) to ensure that adequate information is delivered to consumers on the fees related to payment accounts.

(4) Directive (EU) 2015/2366 on payment services in the internal market (Revised Payment Service Directive – PSD2), complemented by Regulation (EU) 2015/751, was transposed into Legislative Decree No. 218 of December 15, 2017. In particular, the new regime: regulates the new payment services set out in the Directive; aligns the electronic money distribution regime applicable to banks to those already applicable to electronic money institutions; imposes EU
payment institutions operating on a EU Member States territory through agents under the right of establishment to appoint a central contact point, under certain conditions, to ensure adequate communication and information reporting; strengthens customers’ protection in case of unilateral changes to contract terms; prohibits the charge of additional fees for specified payment methods.

Effective March 19, 2019, the BOI adopted implementing provisions (amending its provisions for banks and financial intermediaries on transparency and correctness in the relations with customers, originally issued July 29, 2009) to ensure that adequate information is delivered to customers in the provision of payment services.

(5) The Banking Recovery and Resolution Directive (BRRD) was transposed (Legislative Decree Nos. 180 and 181). In particular, Decree No. 180/2015: (1) requires banks to meet at all times a prudential requirement on its own funds and liabilities to ensure resolution actions’ effectiveness; (2) empowers resolution authorities to assess banks’ resolvability and to impose on banks a wide range of measures to remove any impediment to their resolvability (for example, require to divest specific assets; restrict or prevent the development of business lines or products; require changes to legal or operational structures); and (3) provides that banks must contribute annually to the National Resolution Fund. The Deposit Guarantee Scheme Directive (Legislative Decree No. 30) provides that banks must contribute annually to a deposit guarantee scheme; if a bank fails to do so, the ECB may, as a last resort, withdraw its banking license.

Directive (EU) 2017/2399 of the European Parliament and of the Council of December 12, 2017, amended Directive 2014/59/EU as regards the ranking of unsecured debt instruments in insolvency hierarchy. The Directive promotes the harmonization of the creditors’ hierarchy across national insolvency laws, introducing a new layer of unsecured debt instruments that ranks senior to subordinated debt and junior to senior preferred notes and any claims benefiting from legal or statutory preferences. The Directive was transposed into Article 12-bis of the CLB by Law No. 205 of December 27, 2017, which created a new class of non-preferred senior debt (“strumenti di debito chirografario di secondo livello”) ranked in insolvency proceedings above own funds instruments and subordinated liabilities that do not qualify as own funds instruments, but below other senior liabilities.

(6) Following the transposition of the Mortgage Credit Directive (MCD) relating to residential immovable property (Legislative Decree No. 72), an updated version of the “Regulation on transparency in banking services and conduct rules between intermediaries and clients” entered into force. In particular, such amendments enhanced consumer protection, by requiring banks to provide consumers with personalized information about the mortgage credit agreement by means of a standardized document (according to the template attached to the Mortgage Credit Directive) and granting the consumer a 7-day reflection period before the conclusion of the agreement. Also, BOI Circular No. 285/2013 (Supervisory provisions for banks) and Circular No. 288/2015 (Supervisory provisions for financial institutions) were updated and provide for the Mortgage Credit Directive rules on creditworthiness assessment and on the valuation of immovable property for mortgage lending purposes.

(7) Regarding the provision of investment services, the MiFIR/MiFID package on market in financial instruments (Regulation (EU) No. 600/2014 and Directive 2014/65/EU) was transposed into national law by Legislative Decree No. 129 of August 3, 2017, which amended the TUF and is effective January 3,
2018. BOI implementing regulation, which introduces organizational rules for intermediaries providing investment services (banks included), is being finalized.

(8) The Directive (EU) 2015/849 on anti-money laundering and counter-terrorism financing was transposed into AML Law No. 231/2007, as amended by Legislative Decree No. 90 of May 25, 2017, entered into force July 4, 2017. The new regime strengthened the customer due diligence measures, according to a risk-based approach, and conferred regulatory and sanctioning powers to the BOI (as AML competent authority for the banking sector). The implementation process – with regard to sanctioning procedures, customer due diligence, internal controls, and record-keeping – is currently under way.

The BOI has adopted implementing provisions: (1) Regulation of the BOI of March 26, 2019, effective March 26, 2019, on organization, procedures and internal control in the field of anti-money laundering, which introduces organizational rules for obliged entities and (2) Regulation of the BOI of January 15, 2019, effective January 15, 2019, on sanctions and administrative sanctioning procedures. Regulations on customer due diligence and record-keeping have undergone a public consultation and are being finalized.

(9) Regarding the provision of payment services, Directive (EU) 2015/2366 was transposed into the national legal framework by Legislative Decree No. 128/2017 (which amended – among others – the TUB). BOI regulation amending supervisory provisions for payment institutions and electronic money institutions is being finalized.

law by Legislative Decree No. 129 of August 3, 2017, which amended the TUF. The Bank of Italy implementing regulation, which introduces organizational rules for intermediaries providing investment services (banks included), is being finalized.

05/23/2018 Circular No. 285 was amended to align the existing rules applicable to cooperative banks on an individual basis to the reform of cooperative banking groups.

06/20/2018 Ministry of Economy and Finance Decree No. 70 of May 3, 2018, introduced detailed provisions regarding the access of consumers to a payment account with basic features.

10/24/2018 Decree-Law No. 119 of October 23, 2018, allowed Banche di Credito Cooperativo established in the Italian Region of Trentino Alto-Adige to create an Institutional Protection Scheme as an alternative to joining a cooperative banking group, to take into account the specific features of the mutual banks located in that region.

01/15/2019 The Bank of Italy (BOI) has adopted implementing provisions, Regulation of the BOI of January 15, 2019, on sanctions and administrative sanctioning procedures.

03/19/2019 The Bank of Italy adopted implementing provisions (amending its provisions for banks and financial intermediaries on transparency and correctness in the relations with customers, originally issued on July 29, 2009) to ensure that adequate information is delivered to customers in the provision of payment services.

03/26/2019 The Bank of Italy (BOI) has adopted implementing provisions, Regulation of the BOI of March 26, 2019, on organization, procedures and internal control in the field of anti-money laundering, which introduced organizational rules for obliged entities.

06/19/2019 The Bank of Italy adopted implementing provisions (amending its provisions for banks and financial intermediaries on transparency and correctness in the relations with customers, originally issued on July 29, 2009) to ensure that adequate information is delivered to consumers on the fees related to payment accounts.

Exchange Arrangement

- Currency: Yes. The currency of Jamaica is the Jamaican dollar. Commemorative gold coins in denominations of J$50, J$100, and J$250; souvenir silver coins in denominations of J$10, J$25, J$50, and J$100; and a souvenir J$100 bimetallic coin are legal tender.
- Other legal tender: No.
- Exchange rate structure: Unitary Yes. The single exchange rate for each day is market determined.
- Dual
- Multiple

Classification

- No separate legal tender
- Currency board
- Conventional peg
- Stabilized arrangement
- Crawling peg
- Crawl-like arrangement
The de jure exchange rate arrangement is floating. The rate of the Jamaican dollar is determined in the domestic foreign exchange market, in which the Bank of Jamaica (BOJ) intervenes occasionally with sales and purchases of foreign currency. The de facto exchange rate arrangement is classified as floating. The BOJ intervenes occasionally via market auctions. Intervention is done on both sides of the market.

The BOJ publishes a four-week-ahead schedule of expected interventions and the results of its interventions on the day of the intervention via auction. The results are also published in its Annual Report and Quarterly Monetary Policy Report, with a two-month lag. To improve the transparency in the market, the BOJ, since mid-2019, has published all transactions over US$100,000 and the rate at which these transactions were consummated.

Since January 2018, the exchange rate has been mainly impacted by demand for foreign exchange by firms wanting to capitalize on the low interest rate environment. In this regard, some firms have been paying down foreign currency debt to replace it with local debt. Further, more firms have entered the bond market by floating foreign currency bonds to finance new investments or expansions. On occasions, net demand for foreign currency will emerge for current account purposes. For example, the September quarter generally exhibits a seasonal low in flows. However, the current account of the BOP is assessed to be sustainable and continues to show a surplus after abstracting for the impact of foreign direct investments which do not generate demand from the local foreign exchange market.

The weighted-average selling rate of ADs and cambios is the official rate for customs duty valuation and tax purposes, legal transactions, accounting and foreign exchange transactions with the government. The official rate is calculated daily for use the following business day or until the day after the next calculation and publication of an exchange rate by the BOJ. This information is published via various media and on the BOJ website.

The mandate of monetary policy is the maintenance of price stability or low inflation. The BOJ conducts monetary policy with the aim of achieving an inflation target of 4%–6% a year. The Bank uses monetary policy tools to meet this target objective. Jamaica’s monetary policy framework is referred to as Inflation Targeting Lite (ITL). This framework is viewed as a transitional regime that
countries utilize prior to obtaining the legal mandate to operate a full-fledged inflation-targeting regime.

Target setting body  
Government  Yes.  The inflation target is established by the Minister of Finance and the Public Service (MOFP). In September 2017, the MOFP approved a continuous medium-term inflation target for the BOJ, effective April 1, 2018. This replaced the customary annual fiscal year inflation target.

Central Bank  

Monetary Policy Committee  

Central Bank Board  

Other  

Government and Central Bank  

Inflation target  Yes.  The Bank’s medium-term inflation target range is 4%–6%.

Target number  Yes.

Point target  

Target with tolerance band  

Band/Range  Yes.  This inflation rate is measured as the 12-month point-to-point change in the consumer price index (CPI) published by the Statistical Institute of Jamaica.

Target measure  Yes.

CPI  Yes.

Core inflation  

Target horizon  Yes.  The target horizon is four years.

Operating target (policy rate)  Yes.  The BOJ uses a variety of tools to achieve its inflation target. Since March 1, 2019, the main one is the interest rate on the overnight balances in the current accounts of deposit-taking institutions at the BOJ. Changes in the Bank’s policy rate signal the Bank’s policy stance toward achieving its inflation objective.

Policy rate  Yes.  As announced February 22, 2019, effective March 1, 2019, the overnight deposit facility for deposit-taking institutions was no longer available. Interest is paid on overnight balances in the current accounts of deposit-taking institutions at the BOJ. The applicable interest rate is the BOJ policy rate. At end-August 2019, the policy rate was 0.5%.

Target corridor band  Yes.  The floor of the corridor is set as the Bank’s policy rate while the ceiling, the interest rate on the standing overnight lending facility, is determined as a spread over the policy rate. As of August 31, 2019, the ceiling of the interest rate corridor was 200 basis points (bps) over the overnight deposit rate.

<tr>
<td><strong>Foreign exchange market</strong></td>
<td>Yes. Commercial banks and other ADs and cambios freely set the exchange rate in transactions with their clients. ADs are free to determine their foreign exchange commissions and margins with their clients.</td>
</tr>
<tr>
<td><strong>Spot exchange market</strong></td>
<td>Yes. The market is operated by ADs, cambios, exchange bureaus (bureaux de change), and the BOJ. As of December 31, 2018, 11 ADs and 54 cambios were licensed by the BOJ. ADs include all commercial banks, merchant banks, and all building societies. ADs engage in (1) purchases and sales of foreign currency in cash, drafts, traveler’s checks, and other instruments; (2) loans and deposits; and (3) other international payments. Cambios may purchase and sell unlimited foreign exchange in any form to any person. However, unlike ADs, cambios may not grant loans or accept deposits. Excess foreign exchange may be sold without restriction to other ADs and the general public. Starting in September 2015, commercial banks have stopped receiving cash from cambios because of Anti-Money Laundering and Combating the Financing of Terrorism (AML/CFT) concerns regarding domestic banks’ correspondent banking relationship with overseas banks. Proceeds from official loans, divestment of government assets, and taxes on the bauxite sector payable in foreign currency are sold or payable directly to the BOJ. Exchange bureau operations are limited to the exchange of foreign currency notes (for Jamaican dollars) held by hotel guests. As of December 31, 2018, there were 131 exchange bureaus, whose purpose is to facilitate foreign exchange transactions in the hotel sector. Exchange bureaus which operate in hotels may purchase only up to US$8,000 or its equivalent in other currencies, in any one transaction. The sale of foreign exchange is limited to reconversion of unused Jamaican dollars acquired from guests. The BOJ operates a foreign exchange facility for public sector entities (PSE), which consolidates the foreign exchange demand of PSEs and coordinates foreign currency payments on behalf of these entities to minimize volatility in the market. Effective February 7, 2018, the surrender requirement for ADs under the PSE facility was reduced from 20% to 15% of ADs’ US dollar purchases from commercial clients, and the surrender requirement for cambios was lowered from 20% to 15% of their daily foreign exchange purchases from commercial clients. The regular surrender arrangement for ADs remains at 5%. The total surrender obligation for ADs to the BOJ therefore is 20% of daily foreign currency purchases from commercial clients, and 15% for cambios.</td>
</tr>
</tbody>
</table>
Under the surrender arrangement, the BOJ purchases US dollars, Canadian dollars, pounds sterling, and euros at the applicable mid-day rates.

**Operated by the central bank** Yes.

**Foreign exchange standing facility** No.

**Allocation** No.

**Auction** Yes. The BOJ purchases from and sells foreign exchange to ADs and cambios under the specified terms. The BOJ launched the BOJ Foreign Exchange Intervention Trading Tool (B-FXITT). Transactions are done via an auction mechanism that determines the price, while the BOJ only determines the volume. The rules of the BOJ Foreign Exchange Intervention Trading Tool stipulate, inter alia, that each bid must be no more than 10% of auction size and no entity’s total bid may exceed 20% of the auction size. The BOJ will sell or purchase pre-announced amounts of foreign exchange to ADs and cambios on a weekly basis. The amount of the intervention sale will be partly determined by BOJ’s assessment of the market’s foreign exchange liquidity needs, which may be zero on occasion. The BOJ may also conduct an auction at short notice, in the event of abnormal or disorderly market conditions. The intermediaries may submit bids to buy or sell foreign exchange from or to the BOJ at a rate determined by the participants. While the framework allows for both the sale and purchase of foreign exchange to and from the market, in the initial stages, the BOJ used the framework for the sale of foreign exchange only. The BOJ started using the framework for the purchase of foreign exchange in April 2018.

**Fixing** No.

**Interbank market** Yes. There are no limits on the bid-ask spread and commission of market participants. All ADs and cambios can participate in the interbank market.

**Over the counter** Yes. Institutions may transact with each other directly.

**Brokerage** No.

**Market making** No.

**Forward exchange market** Yes.

**Official cover of forward operations** No.

**References to legal instruments and hyperlinks** This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Arrangements for Payments and Receipts**

**Prescription of currency requirements** No. Transactions may take place in all currencies, but the principal currencies accepted in the exchange market are the US dollar, Canadian dollar, pound sterling, and euro. There are no restrictions on the use of foreign currency among residents.

**Controls on the use of domestic currency** No. Economic agents are free to settle all transactions with domestic currency. The Jamaican dollar may be used to conduct and settle all current and capital transactions.

**For current transactions and payments** No.

**For capital transactions** No. Transactions in capital and money market No.

<td>The former clearing arrangements under CARICOM are no longer in effect since September 25, 1991. The BOJ no longer intervenes in CARICOM private sector commercial transactions; settlements for such transactions take place in the commercial banking sector in convertible currencies. Exporters and importers from CARICOM members make their own settlement arrangements. The BOJ operates the Systemically Important Payment Systems (SIPS) in Jamaica, including the JamClear systems—Real-Time Gross Settlement (RTGS) and Central Securities Depository. The BOJ provides operational support to the Automated Clearing House (ACH)—another SIP owned and operated by Automated Payments Limited, a company owned by participating commercial banks. The JamClear RTGS is specifically designed to clear large-value, time-critical payments by financial market participants on accounts held at the BOJ in real time throughout the business day. Payments settled in JamClear are final and irrevocable. The JamClear systems are fully integrated, facilitating settlement on a delivery versus payment basis of all securities traded in the domestic market. With regard to the ACH, the BOJ acts as (1) participant—negotiating checks drawn on commercial banks, sending and receiving electronic files with check data, and handling direct debits and credits to and from the ACH operator; (2) settlement bank—effecting the settlement of clearing balances on the accounts of commercial banks; (3) overseer—providing oversight to ensure the efficient operations of the clearing system; and (4) supervisor of the manual clearing process—facilitating processing of items that do not qualify for the ACH and for foreign currency checks that qualify for domestic clearing—that is, checks drawn on local commercial banks or their correspondent overseas banks in the four major currencies: US dollars, Canadian dollars, pounds sterling, and euros.</td>

These are subject to the ordinary tax laws of Jamaica and the foreign country.

Residents may maintain foreign exchange accounts domestically, but these are subject to the ordinary tax laws of Jamaica. These accounts facilitate balance transfers abroad. As with the operation of domestic currency accounts, institutions must fulfill know-your-customer (KYC) requirements before accepting foreign currency deposits (Section IV of Know Your Customer (KYC) Know the Transaction Counterparty Policy and Procedures). In addition, minimum operational standards are determined by the institutions’ internal policy.

The BOJ AML/CFT/PF Guidance Notes were substantially updated to, inter alia, incorporate discussions on a risk-based approach and risk assessments and regulatory expectations and licensees’ obligations in these regards, and provide guidance on proliferation financing, KYC and CDD requirements, AML/CFT obligations of the Boards of Licensees, PEPs, correspondent banking and virtual assets, and nominated officer regime. The BOJ AML/CFT/PF Guidance Notes 2017 came into force effective June 14, 2018.

Residents may maintain foreign exchange accounts abroad, subject to
the tax laws of the foreign country. Operations of these accounts are subject to the foreign country’s laws and regulations.

| Approval required | No. |
| Accounts in domestic currency held abroad | Yes. | Residents may hold domestic currency deposits abroad. Residents are free to transfer bank balances held abroad to accounts held domestically. The Jamaican dollar is not traded internationally. |
| Accounts in domestic currency convertible into foreign currency | Yes. | The residents may use Jamaican dollar balances in their account to purchase foreign currency at any time with an AD, cambio (including the bank at which the account is held) at the rate negotiated with the counterparty. |
| References to legal instruments and hyperlinks | This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx. |

Nonresident Accounts

| Foreign exchange accounts permitted | Yes. | Nonresidents may hold foreign exchange accounts in Jamaica. Funds from these accounts may be transferred freely between residents and nonresidents as well as between domestically held accounts and those held abroad. |
| Approval required | No. |
| Domestic currency accounts | Yes. | The regulations governing accounts held by residents apply. Nonresidents may hold domestic currency accounts. Institutions must fulfill the necessary KYC requirements before accepting foreign currency deposits (Section IV of Know Your Customer (KYC) Know the Transaction Counterparty Policy and Procedures). The BOJ AML/CFT/PF Guidance Notes were substantially updated to, inter alia, incorporate discussions on a risk-based approach and risk assessments and regulatory expectations and licensees’ obligations in these regards, and provide guidance on proliferation financing, KYC and CDD requirements, AML/CFT obligations of the Boards of Licensees, PEPs, correspondent banking and virtual assets, and nominated officer regime. The BOJ AML/CFT/PF Guidance Notes 2017 came into force effective June 14, 2018. In addition, minimum operational standards are determined by the institutions’ internal policy. The Jamaican dollar is not traded internationally. |
| Convertible into foreign currency | Yes. | Jamaican dollar assets may be freely converted to foreign currency assets. The regulations apply equally to nonresidents under the principle of national treatment. |
| Approval required | No. |
| Blocked accounts | No. |

Imports and Import Payments

| Foreign exchange budget | No. |
| Financing requirements for imports | No. |
| Minimum financing requirements | No. |
| Advance payment requirements | No. |
| Advance import deposits | No. |
| Documentation requirements for | No. |
release of foreign exchange for imports
Domiciliation requirements No.
Preshipment inspection No.
Letters of credit No.
Import licenses used as exchange licenses No.
Other No.

Import licenses and other nontariff measures Yes. Import licenses are required for pharmaceutical products and for items that endanger public health or security; otherwise, goods may be imported freely without a license. Import licenses are issued by the Trade Board, under the direction of the Ministry of Industry, Commerce, Agriculture and Fisheries. Imports of motor vehicles require a permit for government statistical purposes. Payments for imports may be made by commercial banks without reference to the BOJ.

Positive list No.
Negative list Yes. Prohibited items include indecent and obscene prints and base or counterfeit coins of any country. Restricted items, which require a permit prior to importation, include meat, fruits, vegetables, pharmaceuticals, chemicals, herbal teas, firearms, used tires, radios (two-way), coconut derivatives, oil-producing seeds, edible oils, detergent (solid or liquid), motor vehicles, explosives, alcohol in bulk, sugar, human remains, pesticides, and live animals. Imports of bone marrow, brains, and cows older than two and a half years are banned.

Open general licenses No.
Licenses with quotas No.
Other nontariff measures No.

Import taxes and/or tariffs Yes. The House of Representatives amended the Customs Act via the Customs Tariff (Revision) (Amendment) Resolution of 2013, adjusting the duty on certain imports on January 1, 2014. The revised tariff structure eliminated anomalies and opportunities for misclassification and was streamlined and simplified by reducing both tariff dispersion and higher tariff rates, which are capped at 20% in most cases.

Taxes collected through the exchange system No.
State import monopoly No.

Exports and Export Proceeds
Repatriation requirements No.
Surrender requirements Yes.
Surrender to the central bank Yes. Effective February 7, 2018, the surrender requirement for ADs under the PSE facility was reduced from 20% to 15% of ADs’ US dollar purchases from commercial clients, and the surrender requirement for cambios was lowered from 20% to 15% of their daily foreign exchange purchases from commercial clients. The regular surrender...
The total surrender obligation for ADs to the BOJ remains at 5%. Therefore, the total surrender obligation for ADs is 20% of daily foreign currency purchases from commercial clients, and 15% for cambios.

### Export Licenses
- **With quotas**: No.
- **Without quotas**: Yes. Most goods may be exported without restriction and there are no export quotas. However, specific licenses are required for exports of certain agricultural products, ammunition, explosives, firearms, antique furniture, motor vehicles, mineral and metal ores, paintings, gold bullion, jewelry, ores (minerals and metals including bauxite, alumina, and gypsum), and petroleum products.

### Export Taxes
- **Collected through the exchange system**: No.
- **Other export taxes**: No.

are ADs and have the widest remit to undertake dealings in relation to foreign currency and foreign currency instruments. According to Ministerial directives from the MOF, securities dealers, insurance companies, pension funds, unit trusts, and other collective investment plans may acquire securities issued by the GOJ and securities issued or guaranteed by the governments of Canada, the United Kingdom, and the United States. Foreign assets may not exceed 5% of the total assets of insurance companies and pension funds. The cap on foreign assets in collective investment scheme is 25%. The permissible acquisition of foreign assets has been expanded to include investment grade sovereign obligations, investment grade corporate obligations of entities incorporated outside Jamaica, and shares of such corporations. Otherwise, the standard minimum requirements apply and may change. Accordingly, the foreign asset acquisition activities of insurance companies and pension funds remain restricted to securities issued by the GOJ and issued or guaranteed by the governments of Canada, the United Kingdom, and the United States, and foreign asset acquisition activities may not exceed 5% of the total assets. No directives have been issued to authorize the acquisition of foreign assets by credit unions. Parties not in these categories are not limited in their acquisition of foreign assets but may otherwise be subject to the exemption requirements to proceed with a contemplated transaction once the activity fits the description of an activity under Section 22A (2) and (3) of the BOJ Act.

Sale or issue abroad by residents

No.

Bonds or other debt securities

Yes. These transactions are subject to the Securities laws.

Purchase locally by nonresidents

Yes. In the case of bonds issued via exempt distribution, both residents and nonresidents must meet the criteria to be eligible to purchase the bonds or debt securities. Otherwise, the Securities Act and the attendant regulations do not impose any restrictions on the purchase of local bonds or debt securities by nonresidents. There is no minimum holding period.

Sale or issue locally by nonresidents

Yes. As in the case of residents, nonresidents have to comply with the laws applicable to the sale or issue of bonds or debt securities. For example, the Securities Act requires the issuer to be registered with the FSC and the Disclosure of Interest Regulations mandates the filing of information and the periodicity of such filings, and that the issuer provides an information memorandum.

Where the sale or issue of debt instruments involves debt denominated in foreign currency, such issues are subject to the foreign currency dealings framework under the BOJ Act. Payments must occur through ADs; instruments must be issued with or by persons licensed under the Securities Act as a securities dealer and must comprise instruments in respect of which securities dealers have obtained the requisite exemption to deal in.

In the case of individuals and non-financial firms, there are no restrictions on the purchase of bonds and other debt securities abroad. ADs, insurance companies, credit unions, cambios and exchange bureaus, unit trusts, and pension fund managers may not acquire foreign assets, except in accordance with directives from the MOFP. ADs are authorized to act as an authorized dealer in relation to foreign currency and foreign currency instruments. According to Ministerial directives from the MOF, securities dealers, insurance companies, pension funds, unit trusts, and other collective investment schemes may acquire securities issued by the GOJ and securities issued or guaranteed by the governments of Canada, the United Kingdom, and the United States. Foreign assets may not exceed 5%...
of the total assets of insurance companies and pension funds. The cap on foreign assets in collective investment schemes is 25%. The permissible acquisition of foreign assets has been expanded to include investment grade sovereign obligations, investment grade corporate obligations of entities incorporated outside Jamaica, and shares of such corporations. Otherwise, the standard minimum requirements apply and may change. Accordingly, the foreign asset acquisition activities of insurance companies and pension funds remain restricted to securities issued by the GOJ and issued or guaranteed by the governments of Canada, the United Kingdom, and the United States, and foreign securities acquisition activities may not exceed 5% of the total assets. No directives have been issued to authorize the acquisition of foreign assets by credit unions. Parties not in these categories are not limited in their acquisition of foreign assets.

**Sale or issue abroad by residents**

Yes. The Securities Act and its attendant regulations apply to residents.

**On money market instruments**

Yes. These transactions fall under the regulatory oversight of the Securities Regulator (that is, the FSC).

**Purchase locally by nonresidents**

No. There are no regulations which specifically address the purchase of money market instruments by nonresidents.

**Sale or issue locally by nonresidents**

Yes. Sale or issue of debt and equity locally is governed by the Securities Act. Issuers may also be required to prepare a prospectus pursuant to the Companies Act or comply with the Jamaica Stock Exchange rules (if listing on the exchange). If the issue of debt is to be conducted in foreign currency, it is subject to the foreign exchange regime as stipulated in Section 22B of the BOJ Act.

**Purchase abroad by residents**

Yes. In the case of individuals and non-financial firms, there are no restrictions in the purchase of money market instruments abroad. ADs, insurance companies, credit unions, cambios and exchange bureaus, unit trusts, and pension fund managers may not acquire foreign assets, except in accordance with Ministerial directives from the MOF. ADs are authorized to act as an authorized dealer in relation to foreign currency and foreign currency instruments. According to Ministerial directives from the MOF, securities dealers, insurance companies, pension funds, unit trusts, and other collective investment plans may acquire securities issued by the GOJ and securities issued or guaranteed by the governments of Canada, the United Kingdom, and the United States. Foreign assets may not exceed 5% of the total assets of insurance companies and pension funds, while a limit of 25% applies to collective investment plans. The permissible acquisition of foreign assets has been expanded to include investment grade sovereign obligations, investment grade corporate obligations of entities incorporated outside Jamaica, and shares of such corporations. Otherwise, the standard minimum requirements apply and may change. Accordingly, the foreign asset acquisition activities of insurance companies and pension funds remain restricted to securities issued by the GOJ and issued or guaranteed by the governments of Canada, the United Kingdom, and the United States, and foreign asset acquisition activities may not exceed 5% of the total assets. No directives have been issued to authorize the acquisition of foreign assets by credit unions. Parties not in these categories are not limited in their acquisition of foreign assets.

**Sale or issue abroad by residents**

Yes. The Securities Act and its attendant regulations apply. The residents must comply with Sections 7 and 26 unless except exempt under subsection 7(2)(a).

**On collective investment securities**

Yes. Unit trusts, mutual funds, and other forms of collective investment schemes (CIS) are governed by regulations under the Securities Act.
The Securities Act has established a comprehensive legal framework for the regulation of CIS facilitating various forms of CIS by removing obstacles that impede the growth and diversity of the CIS industry, while granting greater protection for users of these products. The investments are managed by an investment company, whereas trust assets are held by a trustee independent of the management company. The law seeks to ensure full disclosure to investors and proper licensing of sellers. The law requires (1) registration of CIS with the FSC; (2) fit and proper requirements of trustees and managers; and (3) proper record-keeping and accounting. The law also prohibits (1) failure to file returns with the FSC; (2) false statements or falsification or destruction of documents required under the law; (3) fraudulent or misleading inducements to acquire units; (4) distribution of circulars pertaining to unregistered unit trusts; and (5) failure to keep records required by law. Authorization from the minister of finance in relation to the foreign currency component of collective investment securities is required. Banks and other licensed deposit-taking institutions cannot directly undertake investment activities on behalf of third parties (or customers), but such activities may be accommodated through separate legal entities (that is, subsidiaries) with appropriate authorization. ADs have the broadest authorization to acquire foreign assets on their own behalf subject their respective prudential requirements.

| Purchase locally by nonresidents | No. | There are no limitations. |
| Sale or issue locally by nonresidents | Yes. | Part III of the CIS Regulations states the requirements for overseas CIS to be registered to issue its securities in Jamaica. An example of the requirements is the submission of information and documents (including but not limited to financial statements, organizational documents, and a profile of directors and officers) to satisfy the FSC, including: (1) the overseas CIS is from a jurisdiction where the laws and regulatory oversight for CIS are sufficient to ensure investor protection and market integrity; and (2) the CIS is in good standing in the foreign jurisdiction. The FSC has the power to request any other information to assess the application of the overseas CIS. |
| Purchase abroad by residents | Yes. | In the case of individuals and non-financial firms, there are no restrictions in the purchase of collective investment securities abroad. ADs, insurance companies, credit unions, cambios and exchange bureaus, collective investment schemes, and pension fund managers may not acquire foreign assets, except in accordance with Ministerial directives from the MOF. ADs are authorized to act as an authorized dealer in relation to foreign currency and foreign currency instruments. According to Ministerial directives from the MOF, securities dealers, insurance companies, pension funds, unit trusts, and other collective investment plans may acquire securities issued by the GOJ and securities issued or guaranteed by the governments of Canada, the United Kingdom, and the United States. Foreign assets may not exceed 5% of the total assets of insurance companies and pension funds, while a limit of 25% applies to collective investment plans. The permissible acquisition of foreign assets has been expanded to include investment grade sovereign obligations, investment grade corporate obligations of entities incorporated outside Jamaica, and shares of such corporations. Otherwise, the standard minimum requirements apply and may change. Accordingly, the foreign asset acquisition activities of insurance companies and pension funds remain restricted to securities issued by the GOJ and issued or guaranteed by the governments of Canada, the United Kingdom, and the United States, and foreign asset acquisition activities may not exceed 5% of the total assets. No directives have
been issued to authorize the acquisition of foreign assets by credit
unions. Parties not in these categories are not limited in their
acquisition of foreign assets but are subject to the restriction against
dealings in foreign currency or foreign currency instruments as a
business in Jamaica.

| Sale or issue abroad by residents | Yes. | The Securities Act and its attendant regulations apply to residents. |
| Controls on derivatives and other instruments | Yes. | These are governed by securities under the Securities Act. The
definition does not contemplate any financial commodity, contract,
or instrument that may be gazetted from time to time. There is none
gazetted at this time. |
| Purchase locally by nonresidents | No. | There are no limitations. |
| Sale or issue locally by nonresidents | Yes. | These transactions are subject to the Securities Act and the attendant
requirements apply to nonresidents. |
| Purchase abroad by residents | Yes. | In the case of individuals and non-financial firms, there are no
restrictions in the purchase of derivative instruments abroad. Foreign
asset acquisition activities of insurance companies and pension funds
are restricted to securities issued by the GOJ and issued or
guaranteed by the governments of Canada, the United Kingdom, and
the United States, and foreign asset acquisition activities may not
exceed 5% of the total assets. The cap on foreign assets in collective
investment scheme investments is 25%. |
| Sale or issue abroad by residents | Yes. | The Securities Act and its attendant regulations apply to residents. |
| Controls on credit operations | Yes. | The Money Lending framework imposes certain requirements on
non-financial institutions wishing to undertake lending activities in
Jamaican dollars. The law sets forth, among other things, the
prescribed maximum rate of interest (that is, rate beyond which
interest cannot be charged and is periodically prescribed by the
Ministerial order), the form of the lending agreement, and how
moneymen may advertise. Commercial banks, merchant banks,
and building societies, nonbank financial institutions governed by the
Insurance Act, and Securities Act, Industrial and Provident Societies
and Friendly Societies; and statutory bodies incorporated for the
purposes of lending money are exempt from the requirements of this
law. The business of money lending in foreign currency is subject to
the provisions of the BOJ Act. Licensed deposit takers under the
BSA (that is, commercial banks, merchant banks, and building
societies) are subject to statutory lending limits and other prudential
requirements applicable to the extension of credit as follows: (1)
Facilities to any one person (not another bank) may not exceed in the
aggregate 20% of a deposit-taking institution’s capital base; for any
portion of such credit facilities that is unsecured, that portion may
not exceed 5% of the deposit-taking institution’s capital base (10%
for a building society). (2) Facilities to a group may not exceed in the
aggregate 40% of the bank’s capital base; for any portion of such
credit facilities that is unsecured that portion may not exceed 10% of
the deposit-taking institution’s capital base. There are also prudential
provisioning requirements applicable to the extension of credit. |
| Commercial credits | Yes. | The Money Lending Act governs transactions involving persons who
do not undertake the business of extending credit. |
| By residents to nonresidents | Yes. | In relation to private persons, such transactions are subject to the
laws of the overseas jurisdiction. Licensed deposit takers (that is,
commercial banks, merchant banks, and building societies) are
subject to statutory lending limits and other prudential requirements
applicable to the extension of credit as follows: (1) Facilities to any
one person (not another bank) may not exceed in the aggregate 20%
of a deposit-taking institution’s capital base; for any portion of such
credit facilities that is unsecured, that portion may not exceed 5% of the deposit-taking institution’s capital base (10% for a building society). (2) Facilities to a group may not exceed in the aggregate 40% of the bank’s capital base; for any portion of such credit facilities that is unsecured, that portion may not exceed 10% of the deposit-taking institution’s capital base. There are also prudential provisioning requirements applicable to the extension of credit.

Lending activities in Jamaica involving foreign currency are monitored under the BOJ Act. Licensed deposit takers under the BSA (that is, commercial banks, merchant banks, and building societies) are subject to statutory lending limits and other prudential requirements applicable to the extension of credit as follows: (1) Facilities to any one person (not another bank) may not exceed in the aggregate 20% of a deposit-taking institution’s capital base; for any portion of such credit facilities that is unsecured, that portion may not exceed 5% of the deposit-taking institution’s capital base. (2) Facilities to a group may not exceed in the aggregate 40% of the bank’s capital base; for any portion of such credit facilities that is unsecured that portion may not exceed 10% of the deposit-taking institution’s capital base. There are also prudential provisioning requirements applicable to the extension of credit.

In the case of individuals and non-financial firms, there are no restrictions. Licensed deposit takers under the BSA (that is, commercial banks, merchant banks, and building societies) are subject to statutory lending limits and other prudential requirements applicable to the extension of credit as follows: (1) Facilities to any one person (not another bank) may not exceed in the aggregate 20% of a deposit-taking institution’s capital base; for any portion of such credit facilities that is unsecured, that portion may not exceed 5% of the deposit-taking institution’s capital base. (2) Facilities to a group may not exceed in the aggregate 40% of the bank’s capital base; for any portion of such credit facilities that is unsecured that portion may not exceed 10% of the deposit-taking institution’s capital base. There are also prudential provisioning requirements applicable to the extension of credit.

| **To residents from nonresidents** | **Yes.** |

The provisions of the Money Lending Act and possibly the BOJ Act apply if the financing is offered and/or executed in Jamaica. The business of money lending in foreign currency to persons resident in Jamaica is subject to the provisions of the BOJ Act, and this extends to cases in which an overseas-based person conducts financing activities in foreign currency, or through foreign currency instruments, with a Jamaica-based person, regardless of whether negotiations take place and related contracts are executed outside Jamaica.
place and related contracts are executed outside Jamaica.

**Controls on direct investment**

*Outward direct investment* Yes. The Exchange Control (Removal of Restrictions) Order of 1991 eliminated controls on outward direct investment. There are limits on investments by deposit-taking institutions that apply to equity investments. Aggregate shareholdings by a DTI may not exceed 50% of the DTI’s capital base, and in any one company or enterprise may not exceed 10% of the DTI’s capital base.

*Inward direct investment* Yes. There are no limitations on the acquisition of shares in a company by nonresidents, except shares in locally incorporated licensed deposit-taking institutions under the BSA, no more than 5% of which may be held by a foreign government or an agency of a foreign government without the written approval of the Supervisory Committee. The Supervisory Committee is the supervisory decision-making authority.

**Controls on liquidation of direct investment**

To the extent that the liquidation of direct investment in locally incorporated licensed deposit-taking institutions under the BSA amounts to divestment/transfers or disposal of shares, these are subject to the approval of the Supervisory Committee where the disposal involves 20% or more of the voting shares of the DTI. If the liquidation equates to a voluntary liquidation, this requires the approval of the supervisor of banks. To the extent that the liquidation of direct investment in a corporate securities dealer amounts to a divestment/transfer or a disposal of shares that amounts to a change in ownership, the Securities Act mandates that corporate securities dealers and advisers be owned, controlled, or supervised by persons who are citizens of and habitually resident in Jamaica or a CARICOM member.

**Controls on real estate transactions**

No. No controls are in place in relation to transactions between private persons. However, persons in the real estate business (that is, valuators, dealers, developers) are subject to the Real Estate Dealers and Developers Act and oversight by the Real Estate Board. Under the BOJ Act, foreign assets include real estate situated outside of Jamaica and the foreign asset acquisition restriction that applies to certain local financial firms includes real estate located outside of Jamaica.

**Purchase abroad by residents**

No. No restrictions are in place in relation to transactions between private persons. However, persons listed in Section 22B(1) of the BOJ Act are subject to restrictions, because this activity amounts to the acquisition of a foreign asset. Although licensed deposit takers under the BSA, who are also ADs, have the broadest permit to acquire foreign assets, they are also subject to prudential and statutory limits regarding the nature and quality of investments and fixed asset holdings, which may not exceed an amount equivalent to their capital base without the approval of the supervisor.

**Purchase locally by nonresidents**

No. No restrictions are in place in relation to transactions between private persons. However, transactions involving commercial enterprises in the real estate business are subject to the requirements of the Real Estate Dealers and Developers Act and the Real Estate Board.

**Sale locally by nonresidents**

No. No restrictions are in place in relation to transactions between private persons. However, transactions involving commercial enterprises in the real estate business are subject to the requirements of the Real Estate Dealers and Developers Act and the Real Estate Board.

**Controls on personal capital transactions**

Yes. The Money Lending Act is applicable to transactions undertaken by persons who are not involved in the business of extending credit. Otherwise, if such transactions involve commercial enterprises, the BOJ Act may apply. In addition, the Companies Act specifically prohibits private companies from soliciting capital from the public. Any activities indicative of deposit-taking or securities business are...
expressly prohibited under the BSA and the Securities Act.

Deposit-taking financial institutions may not invest on behalf of clients. This business is conducted by separate corporate entities. The BOJ operates a foreign exchange facility for PSE, which consolidates the foreign exchange demand of PSEs and coordinates foreign currency payments on behalf of these entities to minimize volatility in the market. Effective February 7, 2018, the surrender requirement for ADs under the PSE facility was reduced from 20% to 15% of ADs’ US dollar purchases from commercial clients, and the surrender requirement for cambios was lowered from 20% to 15% of their daily foreign exchange purchases from commercial clients. The regular surrender arrangement for ADs remains at 5%. The total surrender obligation for ADs to the BOJ therefore is 20% of daily foreign currency purchases from commercial clients, and 15% for cambios.

Licensed deposit takers are not prohibited from borrowing overseas, but the extent to which such activities may be undertaken is subject to these persons continuing to meet the prudential and statutory limits regarding the nature and quality of investments. Securities dealers, which are subject to margin and capital requirements, may not engage in credit operations that would result in a breach of margin and/or capital requirements.

No restrictions apply, but institutions must be guided by local and overseas income tax laws in relation to any interest accrued and remitted to Jamaica as well as the AML/CFT laws in this regard as well as the respective AML/CFT guidance issued by functional regulators.

<td>Lending to nonresidents (financial or</td>
<td>Yes</td>
<td>Licensed deposit takers under the BSA are not prohibited from lending overseas, but the extent to which such activities may be undertaken is subject to these persons continuing to meet the prudential and statutory limits regarding the nature and quality of such facilities as well as any financial regulations operating in that jurisdiction. The following limits apply: Financial institutions (operating under the BSA, that is, commercial banks, merchant banks, and building societies) and financial institutions (operating under Insurance Act, and Securities Act) are exempt from the requirements of the Money Lending Act. The business of money lending in foreign currency is subject to the provisions of the BOJ Act. Licensed deposit takers under the BSA (that is, commercial banks, merchant banks, and building societies) are subject to statutory lending limits and other prudential requirements applicable to the extension of credit as follows: (1) Facilities to any one person (not another bank) may not exceed in the aggregate 20% of a deposit-taking institution’s capital base; for any portion of such credit facilities that is unsecured, that portion may not exceed 5% of the deposit-taking institution’s capital base. (2) Facilities to a group may not exceed in the aggregate 40% of the deposit-taking institution’s capital base; for any portion of such credit facilities that is unsecured that portion may not exceed 10% of the deposit-taking institution’s capital base. There are also prudential provisioning requirements applicable to the extension of credit. In relation to the deposit-taking institutions, the BSA 2014 repealed Banking Act (BA) and FIA, which governed these entities and substantially amended the Building Societies Act. The BSA became came into force September 30, 2015, by Appointed Day Notice signed by the minister of finance. However, notwithstanding the repeal of the BA and FIA and amendment of the Building Societies Act, regulations (including notices and notifications) under the repealed enactments remain in effect with such changes as may be necessary, as if made under the BSA (Section 139). Securities dealers are subject to margin and capital requirements and may not engage in credit operations that would result in a breach of margin and/or capital requirements.</td>
</tr>
<tr>
<td>Lending locally in foreign exchange</td>
<td>Yes</td>
<td>Currently, lending in foreign currency may be carried out only by ADs. Other commercial lenders may apply for exemptions issued by the MOF.</td>
</tr>
<tr>
<td>Purchase of locally issued securities</td>
<td>Yes</td>
<td>Any person may purchase instruments denominated in foreign currency. ADs have the broadest permit to carry out transactions with securities issued in foreign currency. Other specific categories of companies are allowed to acquire foreign securities only in accordance with the directives issued by the MOF. By Ministerial order of exemption from the foreign currency dealings restrictions under the BOJ Act, securities dealers may currently invest in instruments denominated in foreign exchange issued by the GOJ or issued or guaranteed by the governments of Canada, the United Kingdom, or the United States. The permissible acquisition of foreign assets includes investment grade sovereign obligations, investment grade corporate obligations of entities incorporated outside Jamaica, and shares of such corporations. However, the foreign asset acquisition activities of insurance companies and pension funds remain restricted to securities issued by the GOJ and securities issued or guaranteed by the governments of Canada, the United Kingdom, and the United States. The MOF may exempt other parties from such prohibitions. Deposit takers must hold capital on a risk-weighted basis that depends on the classes of assets held. Limits are communicated by the BOJ on a case-by-case basis and on request.</td>
</tr>
</tbody>
</table>
Differential treatment of deposit accounts in foreign exchange

Yes.

Commercial banks and other licensed deposit-taking institutions under the BSA may be required to match their Jamaican dollar liabilities to their clients with Jamaican dollar assets.

Reserve requirements

Yes.

The minimum cash reserve requirements for domestic-currency-denominated liabilities was reduced to 9% from 12% effective March 1, 2019, and further to 7% effective June 3, 2019. The requirement on foreign currency liabilities remains at 15%. The cash reserve and liquid assets requirements are differentially applied to building societies not meeting a prescribed threshold of qualifying assets (residential mortgage lending) in relation to savings funds. For building societies, domestic and foreign currency reserve requirements are based on building societies meeting the 40% threshold for domestic-currency-denominated qualifying assets in relation to domestic currency deposits and withdrawable shares and for foreign-currency-denominated qualifying assets in relation to foreign currency deposits and withdrawable shares. Societies that meet the qualifying assets threshold have lower requirements of 1% and 5% for the cash reserve and liquid assets ratios (LARs), respectively. Higher requirements apply to societies that fail to meet the prescribed thresholds. The BSA came into effect September 30, 2015, by Appointed Day Notice signed by the minister of finance. The BSA repealed and replaced the BA and FIA and substantially amended the Building Societies Act. However, notwithstanding the repeal of the BA and FIA and amendment of the Building Societies Act, regulations (including notices and notifications) under the repealed enactments remain in effect with such changes as may be necessary, as if made under the BSA (Section 139), unless expressly revoked.

Liquid asset requirements

Yes.

The LAR for domestic currency liabilities of commercial banks, merchant banks, and building societies was reduced to 23% from 26% effective March 1, 2019, and further to 21% effective June 3, 2019. The LAR for foreign currency liabilities of commercial banks, merchant banks, and building societies remains at 26%. The cash reserve and liquid assets requirements are differentially applied to building societies not meeting a prescribed threshold of qualifying assets (residential mortgage lending) in relation to savings funds. For building societies, domestic and foreign currency reserve requirements are based on building societies meeting the 40% threshold for domestic-currency-denominated qualifying assets in relation to domestic currency deposits and withdrawable shares and for foreign-currency-denominated qualifying assets in relation to foreign currency deposits and withdrawable shares. Societies that meet the qualifying assets threshold have lower requirements of 1% and 5% for the cash reserve and LARs, respectively. Higher requirements apply to societies that fail to meet the prescribed thresholds. Debt securities and instruments issued by the GOJ, whether denominated in Jamaican dollars or in foreign currency and regardless of original maturity, are designated liquid assets within nine months of maturity. The BSA came into force September 30, 2015, by Appointed Day Notice signed by the minister of finance. The BSA repealed and replaced the BA and FIA and substantially amended the Building Societies Act. However, notwithstanding the repeal of the BA and FIA and amendment of the Building Societies Act, regulations (including notices and notifications) under the repealed enactments remain in effect with such changes as may be necessary, as if made under the BSA (Section 139) unless expressly revoked.

Interest rate controls

No.

Credit controls

No.
Differential treatment of deposit accounts held by nonresidents

Deposit accounts, whether held by residents or nonresidents, are treated alike, except for the tax treatment of A accounts.

Reserve requirements

No.

Liquid asset requirements

No.

Interest rate controls

No.

Credit controls

No.

Investment regulations

Yes. Banks are subject to the prudential controls and statutory investment and exposure limits indicated above and described in Category 8.a. below. Banks may not engage in managed funds activities on behalf of customers or other third parties.

Abroad by banks

Yes. There are limits on investments by deposit-taking institutions that apply to equity investments. Aggregate shareholding may not exceed 50% of the capital base, and in any one company may not exceed 10% of the capital base.

In banks by nonresidents

Yes. Substantial ownership (that is, holdings of 20% or more) in banks is subject to the Supervisory Committee. Foreign governments and their agents may not hold more than 5% of the shares in locally incorporated commercial banks and licensed deposit-taking institutions, unless the Supervisory Committee approves. Pursuant to the BSA, the Supervisory Committee replaces the minister of finance as the supervisory decision-making authority.

Open foreign exchange position limits

No.

On resident assets and liabilities

No.

On nonresident assets and liabilities

No.

Provisions specific to institutional investors

Yes. As of 2017, GOJ foreign currency exposures were 100% risk-weighted. Foreign currency bonds issued by the GOJ adhere to the global standard as set out in the Basel Accord. ADs, insurance companies, credit unions, building societies, cambios and exchange bureaus, collective investment schemes, and pension fund managers may not acquire foreign assets, except in accordance with directives issued by the MOF. No directions have been issued to authorize the acquisition of foreign assets by credit unions. Securities dealers and collective investment schemes plans may acquire securities issued by the GOJ and securities issued or guaranteed by the governments of Canada, the United Kingdom, and the United States. The cap on foreign assets in collective investment scheme investments is 25%. In addition, the permissible acquisition of foreign assets was extended to include investment grade sovereign obligations, investment grade corporate obligations of entities incorporated outside of Jamaica, and shares of such corporations. These transactions may be undertaken in accordance with the requisite exemption orders issued under the BOJ Act. The foreign asset acquisition activities of insurance companies and pension funds remain restricted to securities issued by the GOJ and securities issued or guaranteed by the governments of Canada, the United Kingdom, and the United States, and foreign asset acquisition activities generally may not exceed 5% of the total assets. These requirements are the standard minimum requirements. The insurance, securities, and pension sector have specific legislations and attendant regulations. Limits are communicated by the BOJ on a case-by-case basis or on request.
| Insurance companies | Yes. | Insurance companies are subject to the requirements of the Insurance Act and its regulations and to all other regulatory requirements issued by the FSC. Insurance companies may acquire securities issued by the GOJ and securities issued or guaranteed by the governments of Canada, the United Kingdom, or the United States. Foreign assets may not exceed 5% of total assets. These requirements are the standard minimum requirements. Insurance regulations 38–72 govern the investments that an insurance company may, specifying, for example, eligible investments, portfolio limits, and prohibited investments. Limits are communicated by the BOJ on a case-by-case basis or on request. |
| Limits (max.) on securities issued by nonresidents | Yes. | Insurance companies may acquire only securities issued or guaranteed by the governments of Canada, the United Kingdom, and the United States. Foreign assets may not exceed 5% of the total assets of the insurance company. Pursuant to Regulation No. 59 of the Insurance Regulations, an insurer that is authorized to transact business on a branch basis in a foreign country may hold foreign securities of that country not exceeding its deposit and reserve obligations incurred in that country. |
| Limits (max.) on investment portfolio held abroad | Yes. | Insurance companies may acquire only securities issued or guaranteed by the governments of Canada, the United Kingdom, and the United States. Foreign assets may not exceed 5% of the total assets of the insurance company. Matching assets must be held in relation to liabilities. |
| Limits (min.) on investment portfolio held locally | Yes. | The Insurance Regulations recognize the credit risk implications of an overexposure to one type of investment. For this reason, the regulations specify certain limits for various types of investments. These limits are generally specified as a percentage of the total assets of the insurance company and not the total amount of liabilities. For example, Insurance Regulation 42 restricts any combination of investment in one counterparty to 5% of the insurer’s assets. |
| Currency-matching regulations on assets/liabilities composition | Yes. | Insurance companies must ensure that matching assets are held against liabilities incurred. Insurance companies are expected to apply an asset liability management program that is appropriate to the nature, scale, and complexity of the risk and its business. The insurance act was amended to expand the powers of the FSC to prescribe regulations for insurers to establish risk management procedures based on international standards, allowing the Commission to introduce new regulations which will require insurers to carry out annual stress testing and implement asset liability management policies and procedures to assess and mitigate the risk to which these entities are exposed in their daily business activities. |
| Pension funds | Yes. | The Pensions (Superannuation Funds and Retirement Schemes) Act and regulations and directions from the BOJ in relation to the acquisition of foreign assets apply. The Pensions (Superannuation Funds and Retirement Schemes) (Investment) regulations governed the pension plans’ investment. Investment in ordinary shares must be from a recognized stock exchange of a recognized jurisdiction. Recognized jurisdiction is defined as Canada, United Kingdom, or United States. Limits are communicated by the BOJ on a case-by-case basis or on request. |
| Limits (max.) on securities issued by nonresidents | Yes. | For pension funds that acquire foreign assets as part of their business activities, purchases must be in accordance with directions issued by the MOF. Accordingly, pension funds may acquire only securities issued or guaranteed by the governments of Canada, the United Kingdom, or the United States, and their foreign assets may not exceed 5% of their total assets. These requirements are the standard minimum requirements and may change. |
| Limits (max.) on investment portfolio | Yes. | For pension funds that acquire foreign assets as part of their business... |
activities, purchases must be in accordance with directives issued by the MOF and the BOJ Act Section 22B(1). Pension funds may acquire only securities issued or guaranteed by the governments of Canada, the United Kingdom, and the United States, and their foreign assets may not generally exceed 5% of their total assets. These requirements are the standard minimum requirements and may change.

**Limits (min.) on investment portfolio held locally**

| Yes. |

No specific regulation requires a minimum on local portfolio holdings. However, directives include maximums for institutions’ foreign investment (that is, no more than 5% of total assets in foreign assets).

**Currency-matching regulations on assets/liabilities composition**

| No. |

While pension legislation does not explicitly require currency matching, it is a criterion considered in evaluating the maturity profile of the assets and liabilities of a pension plan.

**Investment firms and collective investment funds**

| Yes. |

Securities dealers (investment firms) must be incorporated in Jamaica or CARICOM member countries. For CIS, the CIS Regulations – Parts II and III provide for the registration for both local and overseas CIS, respectively. Part III of the CIS Regulations states the requirements for overseas CIS to be registered to issue its securities in Jamaica. An example of the requirements is the submission of information and documents (including but is not limited to financial statements, organizational documents, and a profile of directors and officers) to satisfy the FSC, including: The overseas CIS is from a jurisdiction where the laws and regulatory oversight for CIS are sufficient to ensure investor protection and market integrity; and the CIS is in good standing in the foreign jurisdiction.

**Limits (max.) on securities issued by nonresidents**

| Yes. |

CIS Regulation 33 mandates investment restrictions for CIS. For example, (1) no more than 15% of the scheme’s net assets may be invested in illiquid assets and (2) no more than 10% of the scheme’s net assets may consist of securities from one issuer, except in the case of securities that are (1) issued or guaranteed by the GOJ and the BOJ and issued by any government where those securities have received an investment grade credit rating. For the SDs, there are concentration limits and large exposure limits. For the purchase of foreign securities, the cap on foreign assets for SDs and collective investment schemes’ investments is 25%. The permissible acquisition of foreign assets also includes investment grade sovereign obligations, investment grade corporate obligations of entities incorporated outside of Jamaica, and shares of such corporations.

**Limits (max.) on investment portfolio held abroad**

| Yes. |

Foreign securities investments are subject to Ministerial order under the BOJ Act, which limits such activities to securities issued or guaranteed by the governments of Canada, the United Kingdom, or the United States. In relation to investments in foreign currency instruments for own accounts, securities dealers, unit trusts, and other collective investment schemes may only acquire (1) exempt instruments (securities issued or guaranteed by the GOJ, or the governments of Canada, the United Kingdom, or the United States); (2) investment grade sovereign foreign currency instruments (other than the sovereigns included in the category of exempt instruments); (3) investment grade corporate instruments issued by corporate entities outside Jamaica; and (4) shares of corporate entities incorporated outside of Jamaica whose debt is rated investment grade. With the exception of dealer investments in exempt instruments, foreign asset investments may not exceed a specified percentage of a securities dealer’s or collective investment fund’s total assets. The cap on foreign assets in collective investment scheme investments is 25%.

**Limits (min.) on investment portfolio**

| Yes. |

No regulation specifies a minimum on local portfolio holdings. This
is a requirement under the BOJ Act directives to insurance companies, pension funds, and collective investment schemes, which are among those specified in Section 22B of the BOJ Act. CIS Regulation 33 mandates investment restrictions for CIS. For example, (1) no more than 15% of the scheme’s net assets may be invested in illiquid assets and (2) no more than 10% of the scheme’s net assets may consist of securities from one issuer, except in the case of securities that are (1) issued or guaranteed by the GOJ and the BOJ and (2) issued by the BOJ any government where those securities have received an investment grade credit rating. For the SDs, there are concentration limits and large exposures limits.

Currency-matching regulations on assets/liabilities composition

No. Although securities legislation does not explicitly state that a securities dealer must match the currency composition of assets against liabilities, in calculating the capital adequacy ratio, a dealer must measure its exposure in each foreign currency position by deducting all liability amounts from all asset amounts in each currency. The overall net position is added to the total of the dealer’s risk-weighted assets in determining the capital adequacy ratio. Implicitly, it is in a dealer’s best interest to match the foreign currency asset and liability positions or to hold additional capital against this specific exposure.

Changes during 2018 and 2019

Exchange Arrangement

Monetary policy framework

Inflation-targeting framework

Target setting body

Government

04/01/2018

In September 2017, the Minister of Finance and the Public Service approved a continuous medium-term inflation target for the Bank of Jamaica. This replaced the customary annual fiscal year inflation target.

Operating target (policy rate)

Policy rate

03/01/2019

As announced February 22, 2019, the overnight deposit facility for deposit-taking institutions was no longer available. Interest is paid on overnight balances in the current accounts of deposit-taking institutions at the Bank of Jamaica (BOJ). The applicable interest rate is the BOJ policy rate.

Foreign exchange market

Spot exchange market

02/07/2018

The surrender requirement for ADs under the Public Sector Entities facility was reduced from 20% to 15% of ADs’ US dollar purchases from commercial clients, and the surrender requirement for cambios was lowered from 20% to 15% of their daily foreign exchange purchases from commercial clients. The regular surrender arrangement for ADs remains at 5%. The total surrender obligation for ADs to the Bank of Jamaica therefore is 20% of daily foreign currency purchases from commercial clients, and 15% for cambios.

Resident Accounts

Foreign exchange accounts permitted

Held domestically

06/14/2018

The BOJ AML/CFT/PF Guidance Notes were substantially updated to, inter alia, incorporate discussions on a risk-based approach and
risk assessments and regulatory expectations and licensees’ obligations in these regards, and provide guidance on proliferation financing, know-your-customer and CDD requirements, AML/CFT obligations of the Boards of Licensees, PEPs, correspondent banking and virtual assets, and nominated officer regime. The BOJ AML/CFT/PF Guidance Notes 2017 came into force on this date.

Nonresident Accounts

**Domestic currency accounts** 06/14/2018

The BOJ AML/CFT/PF Guidance Notes were substantially updated to, inter alia, incorporate discussions on a risk-based approach and risk assessments and regulatory expectations and licensees’ obligations in these regards, and provide guidance on proliferation financing, know-your-customer and CDD requirements, AML/CFT obligations of the Boards of Licensees, PEPs, correspondent banking and virtual assets, and nominated officer regime. The BOJ AML/CFT/PF Guidance Notes 2017 came into force on this date.

Exports and Export Proceeds

**Repatriation requirements**

**Surrender requirements**

*Surrender to the central bank* 02/07/2018

The surrender requirement for ADs under the Public Sector Entities facility was reduced from 20% to 15% of ADs’ US dollar purchases from commercial clients, and the surrender requirement for cambios was lowered from 20% to 15% of their daily foreign exchange purchases from commercial clients. The regular surrender arrangement for ADs remains at 5%. The total surrender obligation for ADs to the Bank of Jamaica therefore is 20% of daily foreign currency purchases from commercial clients, and 15% for cambios.

Proceeds from Invisible Transactions and Current Transfers

In accordance with IMF Executive Board Decision No. 144-(52/51)

Yes.

(1) A license from the authorities is required for capital transactions and payments to the following individuals and entities: (a) Al-Qaida, the Taliban, and individuals, groups, and organizations associated with terrorism, in accordance with a UNSC Resolution (UNSCR); (b) individuals and entities who violated the arms embargo with regard to the Democratic Republic of the Congo, in accordance with a UNSC; (c) individuals and entity whose acts undermined the peace of the Central African Republic, in accordance with a UNSC; (d) individuals and entities responsible for the annexation of Crimea and destabilization of eastern Ukraine; (e) individuals impeding the peace process in Darfur, Sudan, in accordance with a UNSC; (f) individuals and entities engaged in or contributing to the Islamic Republic of Iran’s proliferation-sensitive activities or the development of nuclear weapons delivery systems, etc. in accordance with a UNSCR; (g) individuals and entities involved with the Democratic People’s Republic of Korea’s (DPRK’s) nuclear-related, ballistic-missile-related, or weapons of mass destruction programs in accordance with UNSCRs; (h) individuals and entities who violated the arms embargo with regard to Somalia, in accordance with a UNSCR; (i) Syrian President Bashar al-Assad and individuals and entities affiliated with him; (j) individuals whose acts threaten the peace of Yemen, in accordance with a UNSCR; and (k) individuals engaged in acts that threaten the peace of South Sudan, in accordance with UNSCR 2206. (2) A license from the authorities is required for capital transactions to (a) organizations, high officials, and persons affiliated with the former government of Iraq, in accordance with a UNSCR; (b) individuals and entities associated with former Yugoslav President Slobodan Milosevic and persons affiliated with him; and (c) individuals and entities associated with Libyan leader Muammar Qadhafi, in accordance with a UNSCR. (3) A license from the authorities is required for capital transactions and payments regarding activities related to the DPRK’s nuclear-related, ballistic-missile-related, or weapons of mass destruction-related programs, in accordance with a UNSCR. (4) A license from the authorities is required for payments for (a) activities connected with Iran’s development of nuclear and other weapons, in accordance with a UNSCR; and (b) activities that contribute to supplying Iran with conventional arms or related material, in accordance with a UNSCR. (5) A license from the authorities is required for the transfer of shares to Iran-related entities and individuals of companies in nuclear-
related industries in which a UNSCR prohibits investment by Iran.  
(6) A license from the authorities is required for the issuance of or 
offering for subscription of securities in Japan by designated Russian 
entities. (7) A license from the authorities is required for the payment 
to the DPRK, except for the case in which the amount is ¥0.1 million 
or less with humanitarian purposes, came into force.

**Exchange Arrangement**

**Currency**

Yes.  
The currency of Japan is the Japanese yen.

**Other legal tender**

No.

**Exchange rate structure**

**Unitary**

Yes.

**Dual**

**Multiple**

**Classification**

**No separate legal tender**

**Currency board**

**Conventional peg**

**Stabilized arrangement**

**Crawling peg**

**Crawl-like arrangement**

**Pegged exchange rate within horizontal bands**

**Other managed arrangement**

**Floating**

Yes.  
The de jure exchange rate arrangement is free floating. The exchange rate of the yen is determined on the basis of supply and demand in the foreign exchange market. However, the authorities intervene when necessary to counter disorderly conditions in the market. The principal intervention currency is the US dollar. Interventions fall within the mandate of the MOF, which publishes daily purchases and sales amounts as well as intervention currencies on its website. The BOJ, acting as agent of the minister of finance, intervenes in the market through financial institutions and/or brokers. The last time the MOF intervened in the foreign exchange market was from October 31 through November 4, 2011 (¥9,091.6 billion), to address excess volatility and disorderly exchange rate movement. Accordingly, the de facto exchange rate arrangement is classified as free floating. The MOF publishes monthly data on foreign exchange interventions in its monthly press release.

**Official exchange rate**

No.  
There are no officially set rates in the spot exchange market, and spot exchange transactions are based on free-market rates. Therefore, the
authorities do not publish a reference rate.

**Monetary policy framework**

Controls on trade in gold (coins and/or bullion)

- Yes.

On domestic ownership and/or trade

- No.

On external trade

- Yes.

Export and import of gold (not less than 90% purity) exceeding one kilogram in total weight must be declared to the MOF through the customs authorities. A license from the authorities is required for import from or export to the DPRK and prohibition of import of gold from the DPRK, in accordance with UNSCR 2270, came into force.

Controls on exports and imports of banknotes

- Yes.

On exports

- Yes.

Domestic currency

- Yes.

Export of banknotes (including checks, traveler’s checks, promissory notes, and securities) in domestic currency exceeding the equivalent of ¥1 million must be declared to the MOF through the customs authorities. The declaration threshold regarding export of cash and other means of payment/cash courier to the DPRK is ¥0.1 million or its equivalent.

Foreign currency

- Yes.

Export of banknotes (including checks, traveler’s checks, promissory notes, and securities) in foreign currency exceeding the equivalent of ¥1 million must be declared to the MOF through the customs authorities. The declaration threshold regarding export of cash and other means of payment/cash courier to the DPRK is ¥0.1 million or its equivalent.

On imports

- Yes.

Domestic currency

- Yes.

Import of banknotes (including checks, traveler’s checks, promissory notes, and securities) in domestic currency exceeding the equivalent of ¥1 million must be declared to the MOF through the customs authorities.

Foreign currency

- Yes.

Import of banknotes (including checks, traveler’s checks, promissory notes, and securities) in foreign currency exceeding the equivalent of ¥1 million must be declared to the MOF through the customs authorities.

Nonresident Accounts

Foreign exchange accounts permitted

- Yes.
Approval required: No.

**Domestic currency accounts**: Yes.

Convertible into foreign currency: Yes.

Approval required: No.

**Blocked accounts**: No.

**References to legal instruments and hyperlinks**

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Imports and Import Payments**

**Foreign exchange budget**: No.

**Financing requirements for imports**: No.

Minimum financing requirements: No.

Advance payment requirements: No.

Advance import deposits: No.

**Documentation requirements for release of foreign exchange for imports**: No.

Domiciliation requirements: No.

Preshipment inspection: No.

Letters of credit: No.

Import licenses used as exchange licenses: No.

Other: No.

**Import licenses and other nontariff measures**: Yes.

Certain goods are subject to import restrictions under the Import Trade Control Order for reasons of national security, public health, and environmental and moral protection. Imports of these goods require METI approval. For the importation of restricted items, METI authorization and an import quota certificate are required. The importation of certain other goods from specific countries or shipping areas requires individual METI authorization. Import settlements effected under special methods require METI authorization.

Positive list: No.

Negative list: Yes.

Open general licenses: Yes.

Licenses with quotas: Yes.

Other nontariff measures: Yes.

Import taxes and/or tariffs: Yes.

Imports of certain illicit goods, including drugs, guns, and counterfeit goods, are prohibited under the Customs Law.

The Japanese tariff system is stipulated by the Customs Law, Customs Tariff Law, and Temporary Tariff Measures Law. The harmonized classification schedule annexed in the Customs Tariff Law sets out both the classification and the corresponding customs duty rate (called the general rate) of particular products. The rate
actually applied, however, is not necessarily the general rate. The Temporary Tariff Measures Law sets out the temporary rate for certain products, which in these cases prevails over the general rate. In addition, when the customs duty rate in the WTO Concession Schedule (so-called WTO rate) or the rate set forth by the Economic Partnership Agreement (so-called EPA rate) is lower than the general rate (or the temporary rate, if applicable), the WTO rate or EPA rate is applied. For designated developing countries and areas, the Temporary Tariff Measures Law also provides a preferential rate, which is applicable to certain products and lower than the above rates.

Changes during 2018 and 2019

Exchange Arrangement

Monetary policy framework
Inflation-targeting framework
Operating target (policy rate)

Policy rate

07/31/2018

The Bank of Japan decided to strengthen its commitment to achieving the price stability target by introducing forward guidance for policy rates.
JORDAN
(Position as of May 31, 2019)

Status under IMF Articles of Agreement

Date of membership
August 29, 1952.

Article VIII
Yes. Date of acceptance: February 20, 1995.

Article XIV

Exchange Measures

Restrictions and/or multiple currency practices
No. No restrictions as reported in the latest IMF staff report as of December 31, 2018.

Exchange measures imposed for security reasons
Yes. The Central Bank of Jordan (CBJ) has instructed banks to comply with all UNSC resolutions regarding the freezing of funds. Banks are required to inform the CBJ of financial transactions by natural or legal persons listed by the UN in accordance with UNSC resolutions.

In accordance with IMF Executive Board Decision No. 144-(52/51)
No.

Other security restrictions
Yes. The Central Bank of Jordan (CBJ) has instructed banks to comply with all UNSC resolutions regarding the freezing of funds. Banks are required to inform the CBJ of financial transactions by natural or legal persons listed by the UN in accordance with UNSC resolutions.

References to legal instruments and hyperlinks
This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exchange Arrangement

Currency
Yes. The currency of Jordan is the Jordanian dinar. The CBJ issues commemorative gold coins, which are legal tender but do not circulate and are available to residents and nonresidents.

Other legal tender
No.

Exchange rate structure

Unitary
Yes.

Dual

Multiple

Classification

No separate legal tender

Currency board

Conventional peg
Yes. The exchange rate arrangement is a conventional pegged arrangement. The dinar is officially pegged to the SDR, but in practice, it has been pegged to the US dollar since late 1995. The CBJ is responsible for maintaining the stability of the dinar exchange rate.

Stabilized arrangement

Crawling peg

Crawl-like arrangement
Official exchange rate

Yes. The exchange rate is officially determined by the Jordanian dinar against the US dollar only. The selling and buying rates are US$1 per JD 0.710 and US$1 per JD 0.708, respectively.

Monetary policy framework

Exchange rate anchor

Yes.

U.S. dollar

Yes. The monetary policy framework is an exchange rate anchor vis-à-vis the US dollar.

Exchange subsidy

No.

**Foreign exchange market**

Yes. The rates on foreign currencies (especially the rates for the US dollar) are monitored by the CBJ on a daily basis, to ensure that they are within the range of buying and selling boundaries announced by the CBJ.

Spot exchange market

Yes. Foreign exchange bureaus (including those jointly owned by Jordanians and foreigners) may operate in Jordan and must be licensed by the CBJ. There are 23 foreign exchange bureaus. Pursuant to Article 16 of Money Exchange Business Law No. 44 of 2015, they may practice buying, selling, and exchanging foreign currency notes and coins, and any of the following transactions according to the license granted by the Board: (1) buying and selling checks and traveler’s checks denominated in foreign currency; (2) buying and selling precious metals; (3) importing and exporting foreign currency notes, coins, and precious metals; (4) issuing and receiving money transfers; (5) carrying out any other transactions or services which have been approved by the Board. Foreign exchange bureaus cannot make foreign exchange transactions directly with the CB.

Operated by the central bank

Yes.

Foreign exchange standing facility

Yes. The CBJ buys and sells foreign exchange at the official rate. The difference between the CBJ’s buying and selling rates is JD 0.002.

Allocation

No.

Auction

No.

Fixing

No.

**Interbank market**

Yes. Money changers operate according to supply and demand for foreign currency in the local market, and the buying and selling prices of foreign currency are quoted by the international market; therefore, money changers do not operate either as brokers or as market makers.

Over the counter

No.
Licensed banks may buy an unlimited amount of foreign currency forward contracts against dinars from their customers, and they may sell foreign currency forward contracts against dinars to their customers to pay for imports into Jordan.

Capital Transactions

Controls on capital transactions Yes.

Repatriation requirements No.

Surrender requirements No.

Surrender to the central bank No.

Surrender to authorized dealers No.

Controls on capital and money market instruments Yes.

On capital market securities Yes.

Shares or other securities of a participating nature Yes.

Purchase locally by nonresidents Yes. Effective May 16, 2019, nonresident investments are limited to less than 50% of the subscribed shares of the capital of a number of economic activities, most notably, retail and wholesale trade, construction services and related services, restaurants and cafes, commercial and insurance brokerage, and passengers transport services.

Other economic activities are open to non-Jordanians with no restrictions on the percentage of ownership. In addition, any non-Jordanian investor is allowed to own a business with no restrictions on the percentage of ownership in any of the following cases: (1) the investor intends to own an existing Jordanian company, (2) the project is located outside the capital, or (3) the project is of special economic importance according to specific conditions. Previously, nonresident investments were limited to 49% ownership or 50% subscription in shares in the following major sectors: commerce and trade services, contracting, and transportation. Nonresidents could not invest in the following sectors: investigation and security firms, quarries for natural sand and rocks, and bakeries of all types.

Controls on direct investment Yes.

*Outward direct investment* No.

*Inward direct investment* Yes. Effective May 16, 2019, nonresident investments are limited to less than 50% of the subscribed shares of the capital of a number of economic activities, most notably, retail and wholesale trade, construction services and related services, restaurants and cafes, commercial and insurance brokerage, and passengers transport services.

Other economic activities are open to non-Jordanians with no restrictions on the percentage of ownership. In addition, any non-Jordanian investor is allowed to own a business with no restrictions on the percentage of ownership – based on the cabinet of Jordan’s decision – in any of the following cases: (1) the investor intends to own an existing Jordanian company, (2) the project is located outside the capital, or (3) the project is of special economic importance according to specific conditions. Previously, nonresident investments were limited to 49% ownership or 50% subscription in shares in the following major sectors: commerce and trade services, contracting, and transportation. Nonresidents could not invest in the following sectors: investigation and security firms, quarries for natural sand and rocks, and bakeries of all types.

Under the new Investment Law (Law No. 30 of 2014), the existing institutions involved in investment promotion were merged into the Jordan Investment Commission, which is the sole government agency responsible for attracting investments, supporting exports, and offering a safe and stable investment environment. The law gives the Investment Commission the power and authority to grant licenses and centralize and expedite all investment-related procedures, including establishing and regulating special economic development zones. The law provides for tax incentives and enhanced investment guarantees. An oversight body, the Investment Council, was also set up. Implementing regulations will be issued.

Controls on liquidation of direct investment No.

Controls on real estate transactions Yes.

*Purchase abroad by residents* No.

*Purchase locally by nonresidents* Yes. These transactions are allowed only with reciprocity and cabinet approval.

Sale locally by nonresidents No.

Controls on personal capital transactions No.

*Loans* No.

By residents to nonresidents No.

To residents from nonresidents No.

*Gifts, endowments, inheritances, and legacies* No.

By residents to nonresidents No.

To residents from nonresidents No.

Exchange Arrangement

Currency
Yes. The currency of Kazakhstan is the Kazakhstani tenge.

Other legal tender
No.

Exchange rate structure

Unitary
Yes.

Dual

Multiple

Classification

No separate legal tender

Currency board

Conventional peg

Stabilized arrangement

Crawling peg

Crawl-like arrangement

Pegged exchange rate within horizontal bands
The de jure exchange rate arrangement is free floating. In 2019, the exchange rate of the tenge is influenced by internal and external factors. External factors include the price of oil and the dynamics of trading partners’ currencies, primarily the Russian ruble. In 2019, the exchange rate of the tenge fluctuated between 373.56 and 384.53 tenge to the US dollar. Since the beginning of the year, the exchange rate of the tenge to the US dollar strengthened by 0.9% (as of June 20, 2019, it was 380.56 tenge to the US dollar).

This was due largely to favorable conditions in the global oil market and positive changes in external accounts. The trade surplus in the first quarter of 2019 grew to $7.1 billion (+14.4%). During this period, the currencies of Kazakhstan’s trading partners also showed a strengthening against the US dollar—the Russian ruble strengthened by 9.1% (during the same period).

The National Bank of Kazakhstan (NBK) publishes monthly data on foreign exchange interventions on a regular basis, with time series available from January 1996. Data are usually published within two weeks from the end of the reporting period.

The de facto exchange rate arrangement is classified as floating.

The National Bank sets the official exchange rate of the domestic currency with respect to foreign currencies on a daily basis on business days on which the stock exchange holds foreign currency trading.

The weighted average market exchange rate of the domestic currency against the US dollar as of 3:30 p.m. Nur-Sultan time, based on the results of two stock exchange sessions – the morning (main) session and the afternoon (additional) session – is set as the official exchange rate of the domestic currency against the US dollar for the business day following the trading day.

For other foreign currencies, the market exchange rate of the domestic currency with respect to a foreign currency is calculated by the National Bank using the cross-rate against the US dollar, arrived at in accordance with the demand quotes received through news agency channels as of 4:00 p.m. Nur-Sultan time on a stock exchange trading day and it is set as the official exchange rate for the next business day.

On non-business days, the exchange rates set by the National Bank on the business day preceding the non-business day are in effect.

The NBK publishes daily exchange rates of certain currencies against the tenge for accounting and computation of customs and other mandatory payments to the budget.
Since August 20, 2015, the monetary policy is based on an inflation-targeting framework. The annual inflation rate at the end of the year is compared to the target inflation range. There are no provisions addressing the consequences of a failure to meet the inflation target. The consequences if inflation misses its target have not been specified.

**Target setting body**

- Government
- Central Bank
- Monetary Policy Committee

The inflation target is set by the NBK Executive Board. The Executive Board consists of five representatives of the National Bank, as well as one representative each from the Presidential Administration of the Republic of Kazakhstan, the Ministry of National Economy, and the MOF. The NBK Executive Board approves the government’s monetary policy, within the framework of which targets are set. Decisions at meetings of the Executive Board are adopted by a majority vote of the Executive Board members who are present. In the event of a tie, the Chairman of the National Bank casts the deciding vote. Meetings of the Executive Board are legally valid if the number of members present is sufficient for a quorum, which is defined as the attendance of at least two-thirds of the total number of Executive Board members, which must include the Chairman of the National Bank or a person serving in his place. There are no legal provisions regarding an adjustment of the target; however, the NBK adheres to the position that a target that has already been set is not subject to change.

**Other**

- Government and Central Bank

**Inflation target**

- Target number
- Point target

Target inflation is expressed in terms of end-year inflation (December on December of the previous year).

**Band/Range**

- Target measure
- CPI

For the purposes of inflation targeting, the consumer price index (CPI) is used. The CPI is calculated by the Statistics Committee of the Ministry of National Economy. The CPI describes the change over time in average prices for a fixed basket of goods and services purchased by the public for personal consumption.

**Core inflation**

- Target horizon

The horizon over which the inflation target must be accomplished is one year.
Policy rate | Yes. | The NBK targets the interbank short-term money market rate TONIA, which is the weighted average interest rate on overnight repo transactions on the Kazakhstan Stock Exchange (KASE) in the automatic repo sector.

Target corridor band | Yes. | The NBK sets a base rate with a corridor of ±100 basis points. The NBK has standing deposit and liquidity provision facilities.

Other Accountability | Yes. | Reporting as part of a Memorandum approved by the Chief of the Republic of Kazakhstan Presidential Administration, as well as protection of the annual report of the National Bank of the Republic of Kazakhstan.

Transparency | Yes. | Inflation forecasts are published quarterly in “Inflation Forecast” press releases (four times a year) and in quarterly “Inflation Surveys.”

Other Exchange tax | No. |

Exchange subsidy | No. |

Foreign exchange market | Yes. | The foreign exchange market includes the KASE, which conducts daily trading online using an electronic trading system; an OTC interbank market; and a network of exchange bureaus handling foreign exchange cash transactions.

Spot exchange market | Yes. | Authorized banks conduct spot transactions on the KASE and in the interbank market. Residents and nonresidents perform the purchase and sale of foreign currency in the Republic of Kazakhstan exclusively with authorized banks that have the right to organize exchange operations with foreign currency, through foreign exchange bureaus of such authorized banks, as well as foreign exchange bureaus of authorized institutions following the procedure established by the NBK. Licenses to conduct foreign exchange transactions (as part of a general banking license) are issued to authorized banks by the NBK. Banks authorized to conduct transactions in foreign currency in accordance with their licenses or under the law may freely purchase and sell foreign currency both in the Republic of Kazakhstan and abroad. As of June 1, 2019, there were 28 institutions that held licenses to perform banking and other operations. The NBK also issues licenses for foreign exchange transactions to nonbank exchange bureaus, which have the right to perform exclusively activities related to the organization of foreign exchange transactions with the public involving the exchange of foreign currency in cash. Nonbank exchange bureaus do not have the right to conduct foreign exchange operations directly with the NBK. Nonbank exchange bureaus may not perform payments and transfers in foreign currency on behalf of their customers. Nonbank exchange
bureaus have the right to open accounts abroad. Nonbank exchange bureaus may purchase foreign currency from and sell foreign currency to authorized banks and the public. As of June 1, 2019, there were 2,629 bank and nonbank foreign exchange bureaus performing operations with foreign exchange cash. Banks, authorized institutions, and nonbank foreign exchange bureaus set their exchange rates independently. Effective January 1, 2019, pursuant to NBK Resolution No. 296 of November 29, 2018, the limits on the margin between the buying and selling rates of cash in US dollars and euros for tenge cash transactions conducted with the public through exchange bureaus were eliminated. Previously, the NBK placed a limit of 6 tenge and 7 tenge for the US dollar and the euro, respectively. There are no provisions with regard to the charging of a commission for the sale and purchase of foreign exchange cash through exchange bureaus.

Operated by the central bank No.
Foreign exchange standing facility No.
Allocation No.
Auction No.
Fixing No.

Interbank market Yes. Banks conduct transactions in the KASE and in the OTC interbank market at freely negotiated rates. Daily online trading is carried out using an electronic trading system, through which participants submit their bids. The NBK monitors the trading sessions and if necessary participates in trading. The NBK participates in trading sessions via a remote terminal or sends a trader to the trading floor if the remote connection is not available. Internal regulations of the KASE govern trade execution and settlement. Banks set their own exchange rates. There are no limits on the commissions charged by market participants. As of July 1, 2019, there were 28 banks licensed to perform banking and other operations and to operate in the securities market.

The NBK intervenes directly with market participants at their quoted rates and proposes its own quotes.

Over the counter Yes.
Brokerage Yes. As of July 19, 2019, there were 41 broker-dealers (including second-tier banks).
Market making Yes. Some banks operate as market makers in the KASE.
Forward exchange market Yes. Foreign exchange futures are quoted in the KASE. The NBK participates in foreign exchange swap transactions in the KASE.

Swap transactions in the KASE have been allowed since 2008. Forward exchange operations are conducted in the interbank market. Forward transactions are not conducted in the KASE.

Official cover of forward operations No.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Arrangements for Payments and Receipts

Prescription of currency requirements Yes. Payments and transfers between residents take place in domestic currency, except in cases specified by the Law on Foreign Exchange Regulation and Foreign Exchange Control. Payments and transfers of funds in transactions with nonresidents may be performed in any

References to legal instruments and hyperlinks

©International Monetary Fund. Not for Redistribution
A payment and/or transfer of funds in domestic currency between a resident and a nonresident is treated as a foreign exchange transaction.

Foreign exchange transactions among residents are prohibited, except for: (1) transactions in which one of the parties is the NBK, the Republic of Kazakhstan MOF, or institutions of the Republic of Kazakhstan abroad; (2) transactions in which one of the parties is a resident who has the right to perform foreign exchange transactions with residents pursuant to the laws of the Republic of Kazakhstan or acts of the President of the Republic of Kazakhstan adopted prior to the entry into force of the Law (effective July 1, 2019); (3) transactions with foreign exchange assets that are considered banking and other transactions, which authorized banks and authorized institutions have the right to perform under a license issued to them by the NBK or under the laws of the Republic of Kazakhstan; (4) payment for banking services involving foreign exchange transactions; (5) transactions involving the purchase, sale, payment of interest on, and/or redemption of securities whose nominal value is in foreign currency; (6) transactions between brokers and consigners involving the provision of brokerage services related to the conclusion and execution of import or export contracts with nonresidents, including transactions involving the return of foreign exchange assets to a consigner; (7) transactions involving the purchase and/or sale of refined gold bullion for domestic currency; (8) transfers of bills of exchange denominated in foreign currency as fulfillment of monetary obligations; (9) settlement transactions for goods sold in duty-free shops or for goods sold and services provided to passengers traveling internationally; (10) transactions between branch offices (representative offices) of foreign organizations (effective July 1, 2019). Previously, these entities were not considered residents and could transact with residents in foreign currency. The regulation applies only to branch offices (representative offices) of foreign organizations that form a permanent establishment for tax purposes in the Republic of Kazakhstan; (11) transactions involving business travel expense payments to individuals for travel abroad, including hospitality expenses, and also transactions involving the repayment of unused advances for business travel abroad; (12) gifts or donations of money or foreign exchange assets by individuals to individuals and also to legal entities that are charitable organizations; (13) bank deposits by individuals in favor of other individuals; (14) transactions between securities market professionals who perform foreign exchange transactions on instructions from clients, and between individuals or legal entities, related to the transfer of money and financial instruments from (to) accounts for the recording
and safekeeping of money and financial instruments belonging to clients within the context of the execution and termination of brokerage service agreements (effective July 1, 2019); (15) transactions involving the payment of taxes and other mandatory payments to the budget in those cases provided for by the Tax Code; and

(16) transactions of a party serving as a recipient of minerals on behalf of the state, which are transferred to said party in accordance with the Tax Code for in-kind fulfillment by a mineral resources operator of its tax obligations related to the transport, storage, and sale of such minerals (effective July 1, 2019). Payments by individuals for goods, work, and services under transactions concluded and executed within a special economic zone, the boundaries of which coincide fully or partially with sections of the customs border of the Eurasian Economic Union (EAEU), are set to be included in the list of permitted foreign exchange transactions on January 1, 2020.

Effective July 1, 2019, branch offices (representative offices) of foreign organizations that form a permanent establishment for tax purposes in the Republic of Kazakhstan were classified as residents and may no longer transact with other residents in foreign currency.

Administration of control

Yes. Foreign exchange control is administered by the government, the NBK, and other foreign exchange control bodies and agents in accordance with the Law on Foreign Exchange Regulation and Foreign Exchange Control and the legislation of the Republic of Kazakhstan. The NBK and other government bodies (the MOF, the Public Revenue Committee under the MOF) serve as foreign exchange control agents in accordance with the scope of authority established by the legislation of the Republic of Kazakhstan. Authorized banks, nonbank exchange bureaus, as well as professional participants in the securities market who perform foreign exchange transactions on instructions from clients serve as foreign exchange control agents.

The NBK monitors compliance by residents and nonresidents with the requirements of foreign exchange legislation and performance of the functions of foreign exchange control agents by authorized banks and nonbank exchange bureaus.

The NBK licenses banks and financial institutions to engage in banking operations in foreign exchange and supervises the activities of banks and other financial institutions. The NBK also licenses nonbank exchange bureaus and supervises their activities.

The MOF monitors and supervises government loans and government-guaranteed loans. Public revenue authorities (the Public Revenue Committee of the MOF) participate in foreign exchange control related to exports and imports. At the time of the customs clearance of goods, an authorized official of a territorial subdivision of the public revenue body, when there is an export or import foreign
exchange contract which requires the assignment of a record number in accordance with the Rules for Export-Import Foreign Exchange Control in the Republic of Kazakhstan, checks the record number of the export or import foreign exchange contract entered in the declaration of the goods against the information received regarding the export or import foreign exchange contract with a record number. If there is a discrepancy between the declaration and the actual information, the exporter or importer makes the relevant corrections to the declaration of goods following the procedure established by the customs legislation of the Republic of Kazakhstan. Government agencies that issue export and import licenses also monitor compliance with eligibility criteria and licensing rules.

Refined gold bullion is classified as a foreign exchange asset, and transactions with it for domestic currency are classified as foreign exchange transactions and are subject to the same regulation as other foreign exchange transactions.

Refined gold and gold for minting coins are classified as commodities subject to export restrictions under Decision No. 30 of the Board of the Eurasian Economic Commission (EAEC) of April 21, 2015, on Nontariff Regulatory Measures (this restriction does not extend to the CBs of EAEU member states).

Large transactions (for the purpose of reporting transactions with precious metals and precious stones to the Financial Monitoring Committee of the MOF in accordance with the legislation on combating money laundering and the financing of terrorism) are defined as those of more than the equivalent of 10 million tenge. This is not a control measure. Information is provided by subjects of financial monitoring to the Financial Monitoring Committee under the Republic of Kazakhstan MOF to allow for the analysis of large transactions.

The Ministry of Industry and Infrastructure Development administers government control of imports and exports of precious metals and commodities containing precious metals.

EAEU member states apply identical controls on external trade in gold.

Refined gold bullion is classified as a foreign exchange asset and transactions with it are classified as foreign exchange transactions, and are subject to the same regulation as other foreign exchange transactions. Refined gold and gold for minting coins are classified as commodities subject to export restrictions under Decision No. 30 of the Board of the EAEC of April 21, 2015, on Nontariff Regulatory Measures, and specifically, a license is issued in accordance with the Instruction on the Preparation of an Application for a License to Export and/or Import Certain Types of Goods and on the Preparation of Such a License, approved by Decision No. 199 of the Board of the EAEC of November 6, 2014, along with a government control document. (This restriction does not extend to CBs of EAEU member states.) Exports of precious metals, including refined gold bullion, from the EAEU, require a license from the pertinent government authority of the EAEU member where the exporter is registered. Exports of precious metal coins from the EAEU require a government control document. Exports from the EAEU of precious metal coins that are the legal tender of an EAEU member are handled by that country’s CB and commercial banks.

There are no restrictions on the use of funds from such accounts.

Effective July 1, 2019, a resident legal entity (with the exception of banks and branch offices (representative office) of a foreign organization) must notify the NBK of accounts opened with a foreign bank by applying for the assignment of a record number to the account prior to the performance of transactions using such account. Previously, the deadline for notification was 30 days after the date of entry into an agreement with a foreign bank.

Resident individuals are not required to notify the NBK of accounts held at foreign banks.

There are no restrictions on the use of funds from such accounts.

| Approval required | No. |
| Accounts in domestic currency held abroad | Yes. |
| Accounts in domestic currency convertible into foreign currency | Yes. |
| References to legal instruments and hyperlinks | |

The regulations are the same as those for accounts in foreign currency.

All accounts in domestic currency are convertible.

Advance payment requirements No.

Advance import deposits No.

Documentation requirements for release of foreign exchange for imports Yes. Residents and nonresidents may purchase foreign currency in the domestic market. When preparing a request to purchase noncash foreign currency for domestic currency in an amount in excess of the equivalent of US$100,000, a resident legal entity must confirm the purpose and amount of the foreign currency being purchased by attaching to the request, effective July 1, 2019, a copy of the foreign exchange contract, the obligations under which the noncash foreign currency is being purchased to meet (previously the type of
Domiciliation requirements  No.

Preshipment inspection  No.

Letters of credit  No.

Import licenses used as exchange licenses  No.

Other  Yes.  When making payments and/or transfers, importers must submit to the bank a foreign trade contract or any other corroborating document.

Effective July 1, 2019, deferral of payment on imports is no longer classified as a commercial credit.

Import licenses and other nontariff measures  Yes.  EAEU member states apply uniform nontariff regulatory measures with respect to third countries. There is a Uniform List of Goods Subject to Nontariff Regulatory Measures in Trade with Third Countries, as established by EAEC Board Decisions No. 134 of August 16, 2012, and No. 30 of April 21, 2015. In accordance with this list, prohibitions are established on imports or exports of goods into and from the customs territory of the EAEU and exports of goods from the customs territory of the EAEU are performed on the basis of a permitting document. Licenses to import ozone-depleting substances and products containing ozone-depleting substances and hazardous waste are issued by the Ministry of Energy; licenses to import means of plant protection (pesticides), poisonous substances that are not precursors of narcotics and psychotropic substances, special technical devices, and encryption (cryptographic) means for secret information acquisition are issued by the Ministry of Industry and Infrastructure Development; licenses to import radioelectronic equipment and high-frequency devices for civilian use, including those built into or part of other goods, are issued by the Ministry of Information and Communications; licenses to import human organs tissue, blood, and blood components are issued by the Ministry of Health; licenses to import certain kinds of meat, raw cane sugar without flavoring, aromatic, or dye additives are issued by the Ministry of Trade and Integration; licenses to import narcotics, psychotropic substances, and their precursors are issued by the Ministry of Internal Affairs.

Positive list  No.

Negative list  Yes.  The Uniform List of Goods Subject to Nontariff Regulatory Measures, as established by EAEC Board Decisions No. 134 of August 21, 2012, and No. 30 of April 21, 2015 (Section I of the Uniform List of Goods) applies within the framework of the EAEU.

Open general licenses  No.

Licenses with quotas  Yes.  Licenses are issued for (lower) import customs duty rates on beef, poultry, and pork imported within tariff quotas. Licenses for imports of raw sugar are granted within the limits of tariff quotas with an import customs duty rate of zero.

Other nontariff measures  Yes.

Import taxes and/or tariffs  Yes.  Imports of goods are subject to (1) VAT of 12% and customs duties (some exemptions); (2) excise taxes, where applicable; and (3) antidumping protective and compensatory duties, if applicable. Imports from EAEU member countries are exempt from customs duties. There is a uniform customs tariff within the EAEU, along with other uniform measures for regulating trade in goods with third countries, in accordance with the Treaty on the EAEU of May 29, 2019.
2014 (EAEC Council Decision No. 54 of July 16, 2012, on Approval of the Uniform Foreign Economic Activity Commodity Nomenclature of the EAEU and the Uniform Customs Tariff of the EAEU).

With a view to meeting the tariff obligations of the Russian Federation and the Republic of Kazakhstan with the WTO for 2018, in accordance with EAEC Council Decision No. 66 of July 13, 2018, and EAEC Board Decision No. 94 of June 5, 2018, effective September 1, 2018, import customs duty rates were lowered for 179 tariff subheadings.

With a view to meeting the Republic of Kazakhstan’s tariff obligations for 2017–2018 that differ from those of the Russian Federation, on December 1, 2017, the Republic of Kazakhstan’s import tariffs for 2,475 tariff lines were lowered by an average of 1.4 percentage points.

In addition, effective January 1, 2019, there are import duty rates in effect pursuant to Order No. 105 of the Republic of Kazakhstan Minister of the National Economy of December 19, 2018, on an Amendment to Order No. 58 of the Republic of Kazakhstan Minister of the National Economy of February 9, 2017, on Approval of a List of Goods Subject to Import Customs Duties, Their Rates, and Effective Dates.

**Exports and Export Proceeds**

Yes. Residents (with the exception of a branch office (representative office) of a foreign organization) must ensure that domestic and foreign currency received in payment for exports of goods (work, services) is credited to accounts at authorized banks within the time period stipulated by the terms of the contract.

The repatriation requirement is considered to have been met in full or in part if

1. proceeds in domestic and/or foreign currency are credited to a resident’s accounts at foreign banks in fulfillment of the resident’s liabilities under the terms of a financial loan from a nonresident or for the use of the resident’s overseas branches (representative offices);

2. effective July 1, 2019, foreign currency received by residents from holding exhibitions or sporting, cultural, and other similar events outside Kazakhstan is used to cover expenses during the time that the events are under way;

3. effective July 1, 2019, foreign exchange earnings are posted to accounts at foreign banks held by resident transportation organizations for the purpose of covering expenses related to the payment of port and other fees in foreign states and the servicing of transportation equipment owned by such transportation organizations and their passengers while they are located outside the Republic of Kazakhstan, and expenses to support the operations of branch offices (representative offices) of such transportation organizations located outside the Republic of Kazakhstan;

4. a nonresident’s obligation is offset by a counterclaim under foreign exchange export or import contracts;

5. a nonresident’s obligation is met by replacing the original obligation between a resident and nonresident with a different
obligation between the same parties that provides for a different object or means of fulfillment;
(6) an insurance payment is received when an insured event occurs, under insurance contracts covering the risk of default on obligations by a nonresident.

Surrender requirements  No.
Surrender to the central bank  No.
Surrender to authorized dealers  No.
Financing requirements  No.
Documentation requirements  No. Residents and nonresidents may purchase and sell foreign currency
in the domestic currency market.
A resident legal entity notifies the National Bank of the purpose and amount of foreign currency being purchased under an agreement (if the amount of foreign being purchased is equal to or greater than US$100,000). When making payments and/or money transfers, exporters must submit a copy of a foreign trade contract or other corroborating documents to the bank.
Letters of credit  No.
Guarantees  No.
Domiciliation  No.
Preshipment inspection  No.
Other  No. Effective July 1, 2019, deferrals of export payments and advance export payments are no longer classified as commercial credits.
Export licenses  Yes. EAEU member states apply uniform nontariff regulatory measures with respect to third countries. There is a Uniform List of Goods Subject to Nontariff Regulatory Measures in Trade with Third Countries, as established by EAEC Board Decisions No. 134 of August 16, 2012, and No. 30 of April 21, 2015. In accordance with this list, imports and exports of goods into and from the customs territory of the EAEU are performed on the basis of a license or the conclusion of a permitting document. State licensing authorities: exports of ozone-depleting substances and products containing ozone-depleting substances and exports of hazardous waste – Ministry of Energy; exports of collectible mineralogy and paleontology materials and animal fossils – Ministry of Education and Science;
exports of live wild animals, certain wild plants, and medicinal raw materials growing in the wild, exports of rare and endangered species of wild animals and wild plants listed in the Red Book of the Republic of Kazakhstan, in accordance with Republic of Kazakhstan Government Resolution No. 1034 of October 31, 2006 – Ministry of Agriculture;
exports of precious metals and raw materials containing precious metals, exports of mineral raw materials, exports of special technical devices intended for the secret acquisition of information, exports of encryption (cryptographic) equipment, exports of information on mineral resources indicating areas and deposits of fuel and energy and mineral resources – Ministry of Industry and Infrastructure Development.

Without quotas  Yes. EAEU member states apply uniform nontariff regulatory measures with respect to third countries. There is a Uniform List of Goods Subject to Nontariff Regulatory Measures in Trade with Third
Countries, approved by EAEC Board Decisions No. 134 of August 16, 2012, and No. 30 of April 21, 2015. In accordance with this list, imports and exports of goods into and from the customs territory of the EAEU are performed on the basis of a license or the conclusion of a permitting document.

With quotas No.

**Export taxes** Yes.

Collected through the exchange system No.

Other export taxes Yes. Customs duties apply to exports of petroleum and petroleum products, scrap and waste of ferrous and nonferrous metals, ferrous metal products used for railway or streetcar tracks, aluminum and aluminum products, parts of railway locomotives, streetcars, and rolling stock, and skins and wool of domesticated animals.

### Controls on capital and money market instruments

Yes. Effective July 1, 2019, there is a uniform procedure in place for the informational registration of contracts involving the movement of capital and accounts at foreign banks. When a payment is made and/or money is transferred under a contract for which a record number must be obtained, or using an account at a foreign bank that has been assigned a record number, an authorized bank (or a branch thereof) verifies that the payment document contains the details of the foreign exchange contract and its record number.

The informational registration requirement applies to contracts involving the movement of capital to which residents are parties (with the exception of authorized banks and branch offices (representative offices) of foreign organizations). A resident party to a contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the contract by any of its parties. Previously, a registration or notification requirement for foreign exchange transactions performed was in effect. Foreign exchange transactions to which the registration requirement applied were performed only with a registration certificate. If a resident lacked a certificate of notification, an authorized bank performed the transaction and informed the resident in any manner of the need to obtain a certificate of notification.

The notification requirement did not extend to transactions involving direct investment, which is subject to NBK registration.

### On capital market securities

**Yes.**

**Shares or other securities of a participating nature**

Yes.

**Purchase locally by nonresidents**

No. Effective July 1, 2019, for statistical purposes, residents apply to the NBK for registration of contracts involving the sale to nonresidents of equity securities issued by residents or nonresidents in an amount in excess of the equivalent of US$500,000, with the exception of: (1) securities of a resident issuer that have been issued in accordance with the legislation of another state and within its territory (including depositary receipts, the underlying asset of which is securities of the resident issuer); (2) securities of a nonresident issuer that have been issued in accordance with the legislation of the Republic of Kazakhstan (including Kazakhstani depositary receipts).

Transactions performed by residents on the basis of a contract for the provision of brokerage services concluded with a resident broker, or on the basis of an investment portfolio management contract concluded with a resident investment portfolio management company, are not subject to informational registration. The resident securities market professional provides notification of these transactions.

A resident party to a contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the contract by any of its parties. Previously, for statistical purposes, residents were required to notify the NBK of a completed transaction involving the sale to nonresidents of securities issued by residents if the transaction amount exceeded the equivalent of US$500,000. Notification of a transaction was made after its completion by the resident participating in the transaction or the Kazakhstani securities market professional servicing the transaction.

The notification requirement did not extend to transactions involving direct investment, which is subject to NBK registration.

**Sale or issue locally by nonresidents**

Yes. Issuance of securities locally by nonresidents must be registered with the NBK for trade in the organized securities market.

Effective July 1, 2019, for statistical purposes, residents apply to the
NBK for registration of contracts involving the purchase from nonresidents of equity securities issued by residents or nonresidents in an amount in excess of the equivalent of US$500,000, with the exception of: (1) securities of a resident issuer that have been issued in accordance with the legislation of another state and within its territory (including depositary receipts, the underlying asset of which is securities of the resident issuer); (2) securities of a nonresident issuer that have been issued in accordance with the legislation of the Republic of Kazakhstan (including Kazakhstani depositary receipts).

Transactions performed by residents on the basis of a contract for the provision of brokerage services concluded with a resident broker, or on the basis of an investment portfolio management contract concluded with a resident investment portfolio management company, are not subject to informational registration. The resident securities market professional provides notification of these transactions.

A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties. Previously, for statistical purposes, residents were required to notify the NBK of completed foreign exchange transactions involving the purchase of securities issued by nonresidents if the transaction amount exceeded the equivalent of US$100,000. Notification of a transaction was made after its completion by the resident participating in the transaction or the Kazakhstani securities market professional servicing the transaction. The notification requirement did not extend to transactions involving direct investment, which is subject to NBK registration.

Effective July 1, 2019, for statistical purposes, residents apply to the NBK for registration of contracts involving the purchase from nonresidents of equity securities issued by residents or nonresidents in an amount in excess of the equivalent of US$500,000, with the exception of: (1) securities of a resident issuer that have been issued in accordance with the legislation of another state and within its territory (including depositary receipts, the underlying asset of which is securities of the resident issuer); (2) securities of a nonresident issuer that have been issued in accordance with the legislation of the Republic of Kazakhstan (including Kazakhstani depositary receipts).

Transactions performed by residents on the basis of a contract for the provision of brokerage services concluded with a resident broker, or on the basis of an investment portfolio management contract concluded with a resident investment portfolio management company, are not subject to informational registration. The resident securities market professional provides notification of these transactions.

A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties. Previously, for statistical purposes, residents were required to notify the NBK of completed foreign exchange transactions involving the purchase of securities issued by nonresidents if the transaction amount exceeded the equivalent of US$100,000. Notification of a transaction was made after its completion by the resident participating in the transaction or the Kazakhstani securities market professional servicing the transaction. The notification requirement did not extend to transactions involving direct investment, which is subject to NBK registration.

As part of prudential regulation, there are restrictions on investments abroad by residents.
Sale or issue abroad by residents: Yes.

Effective July 1, 2019, for statistical purposes, residents apply to the NBK for registration of contracts involving the sale to nonresidents of equity securities issued by residents or nonresidents in an amount in excess of the equivalent of US$500,000, with the exception of: (1) securities of a resident issuer that have been issued in accordance with the legislation of another state and within its territory (including depositary receipts, the underlying asset of which is securities of the resident issuer); (2) securities of a nonresident issuer that have been issued in accordance with the legislation of the Republic of Kazakhstan (including Kazakhstani depositary receipts). Transactions performed by residents on the basis of a contract for the provision of brokerage services concluded with a resident broker, or on the basis of an investment portfolio management contract concluded with a resident investment portfolio management company, are not subject to informational registration. The resident securities market professional provides notification of these transactions.

A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties. Previously, for statistical purposes, residents were required to notify the NBK of a completed transaction involving the sale to nonresidents of securities issued by residents if the transaction amount exceeded the equivalent of US$500,000. Notification of a transaction was made after its completion by the resident participating in the transaction or the Kazakhstani securities market professional servicing the transaction.

**Sale or issue locally by nonresidents**
Yes.
Issuance of securities locally by nonresidents must be registered with the NBK for trade in the organized securities market. Effective July 1, 2019, for statistical purposes, residents apply to the NBK for registration of contracts involving the purchase from nonresidents of securities issued by residents or nonresidents in an amount in excess of the equivalent of US$500,000. Transactions performed by residents on the basis of a contract for the provision of brokerage services concluded with a resident broker, or on the basis of an investment portfolio management contract concluded with a resident investment portfolio management company, are not subject to informational registration. The resident securities market professional provides notification of these transactions.

A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties. Previously, for statistical purposes, residents were required to notify the NBK of completed foreign exchange transactions involving the purchase of securities issued by nonresidents if the transaction amount exceeded the equivalent of US$100,000. Notification of a transaction was made after its completion by the resident participating in the transaction or the Kazakhstani securities market professional servicing the transaction.

**Purchase abroad by residents**
Yes.
Effective July 1, 2019, for statistical purposes, residents apply to the NBK for registration of contracts involving the purchase from nonresidents of securities issued by residents or nonresidents in an amount in excess of the equivalent of US$500,000. Transactions performed by residents on the basis of a contract for the provision of brokerage services concluded with a resident broker, or on the basis of an investment portfolio management contract concluded with a resident investment portfolio management company, are not subject to informational registration. The resident
A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties. Previously, for statistical purposes, residents were required to notify the NBK of completed foreign exchange transactions involving the purchase of securities issued by nonresidents if the transaction amount exceeded the equivalent of US$100,000. Notification of a transaction was made after its completion by the resident participating in the transaction or the Kazakhstani securities market professional servicing the transaction.

As part of prudential regulation, there are restrictions on investments of pension funds, insurance companies, and investment funds.

Effective July 1, 2019, for statistical purposes, residents apply to the NBK for registration of contracts involving the sale to nonresidents of securities issued by residents or nonresidents in an amount in excess of the equivalent of US$500,000. Transactions performed by residents on the basis of a contract for the provision of brokerage services concluded with a resident broker, or on the basis of an investment portfolio management contract concluded with a resident investment portfolio management company, are not subject to informational registration. The resident securities market professional provides notification of these transactions.

Effective July 1, 2019, for statistical purposes, residents apply to the NBK for registration of contracts involving the sale to nonresidents of securities issued by residents or nonresidents in an amount in excess of the equivalent of US$500,000.

There are no restrictions on purchases of derivatives and other instruments by nonresidents (from residents and nonresidents).

Effective July 1, 2019, for statistical purposes, residents apply to the NBK for registration of transactions with derivative financial instruments, if the amount of the payment and/or transfer by a nonresident to a resident exceeds the equivalent of US$500,000. A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties. Previously, for statistical purposes, a resident was required to notify the NBK of a completed foreign exchange transaction involving a nonresident’s payment to a resident exceeded US$100,000. Notification of a transaction was made after its completion by the resident participating in the transaction or the Kazakhstani securities market professional servicing the transaction.

Issuance of securities locally by nonresidents must be registered with the NBK for trade in the organized securities market.

Effective July 1, 2019, for statistical purposes, residents apply to the NBK for registration of transactions with derivative financial instruments, if the amount of the payment and/or transfer by a resident to a nonresident exceeds the equivalent of US$500,000.
derivative financial instruments if the amount of a payment by a nonresident to a resident exceeded US$100,000. Notification of a transaction was made after its completion by the resident participating in the transaction or the Kazakhstani securities market professional servicing the transaction.

**Purchase abroad by residents**

No. Effective July 1, 2019, for statistical purposes, residents apply to the NBK for registration of transactions with derivative financial instruments, if the amount of the payment and/or transfer by a resident to a nonresident exceeds the equivalent of US$500,000. A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties. Previously, for statistical purposes, a resident was required to notify the NBK of completed foreign exchange transactions involving derivative financial instruments if the amount of a payment by a nonresident to a resident exceeded US$100,000. Notification was made by the resident party to the transaction.

**Sale or issue abroad by residents**

No. Effective July 1, 2019, for statistical purposes, residents apply to the NBK for registration of transactions with derivative financial instruments, if the amount of the payment and/or transfer by a nonresident to a resident exceeds the equivalent of US$500,000. A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties. Previously, for statistical purposes, a resident was required to notify the NBK of completed foreign exchange transactions involving derivative financial instruments if the amount of a payment by a nonresident to a resident exceeded US$100,000. Notification was made by the resident party to the transaction.

**Controls on credit operations**

Yes.

**Commercial credits**

No.

By residents to nonresidents No. Effective July 1, 2019, for statistical purposes, informational registration requirements for contracts involving the movement of capital do not extend to commercial credits. Previously, for statistical purposes, commercial credits associated with exports (imports) of goods that were extended by residents to nonresidents for a term of over 180 days in amounts exceeding US$100,000 were subject to registration with the NBK. The registration requirement did not apply to:
- commercial credits associated with the delivery of goods if contract registration numbers had been obtained for them (up to January 5, 2012, if transaction passports had been prepared);
- commercial credits of resident banks extended to nonresidents.

To residents from nonresidents No. Effective July 1, 2019, for statistical purposes, informational registration requirements for contracts involving the movement of capital do not extend to commercial credits. Previously, for statistical purposes, commercial credits of residents that were associated with exports (imports) of goods and were extended for a term of over 180 days and in amounts exceeding US$500,000 were subject to registration with the NBK. The registration requirement did not apply to:
- commercial credits associated with the delivery of goods or services, if contract registration numbers have been obtained for them (up to January 5, 2012, if transaction passports have been prepared);
- commercial credits of resident banks received from nonresidents.

**Financial credits**

Yes.
Financial credits (financial loans) in amounts exceeding effective July 1, 2019, US$500,000 (previously US$100,000) that are extended by residents (that are not banks) regardless of the term (previously if the term was over 180 days) are subject to informational registration with the NBK.

Resident authorized banks are required to notify the NBK of loans in amounts exceeding the equivalent of US$500,000 attracted for a term of more than 180 days through the reporting process.

Guarantees, sureties, and financial backup facilities

By residents to nonresidents
No.

To residents from nonresidents
No.

Controls on direct investment
Yes. The regulations governing shares, equity stakes, contributions, and/or votes of participants apply.

Outward direct investment
Yes. Effective July 1, 2019, for statistical purposes, direct investment abroad in excess of US$500,000 is subject to informational registration with the NBK.

A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties. Previously, for statistical purposes, registration with the NBK was required for direct investment in excess of US$100,000, except by resident banks, which were required to notify the NBK of such transactions.

Inward direct investment
Yes. Effective July 1, 2019, for statistical purposes, direct investment in the Republic of Kazakhstan in excess of US$500,000 is subject to informational registration with the NBK.

A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties. Previously, for statistical purposes, registration with the NBK was required for direct investment in excess of US$500,000, except in resident banks, which were required to notify the NBK of such transactions.

Controls on liquidation of direct investment
No.

Controls on real estate transactions
No. There are no restrictions on the purchase of real estate outside the country by residents or on transactions by nonresidents in the domestic real estate market.

Purchase abroad by residents
No. Effective July 1, 2019, for statistical purposes, resident legal entities apply to the NBK for informational registration of transactions with residents and nonresidents in amounts in excess of US$500,000 which involve the acquisition by residents of title to real property abroad.

Previously, for statistical purposes, resident legal entities were required to notify the NBK of completed transactions involving the acquisition of title to real property from nonresidents if the amount of the acquisition exceeded the equivalent of US$100,000.

Purchase locally by nonresidents
No. Effective July 1, 2019, for statistical purposes, resident legal entities apply to the NBK for informational registration of transactions with nonresidents in amounts in excess of US$500,000 which involve the
acquisition by nonresidents of title to real property in the Republic of Kazakhstan.
Previously, for statistical purposes, resident legal entities were required to notify the NBK of completed transactions involving the sale of title to real property to nonresidents if the amount of the transaction exceeded the equivalent of US$500,000.

**Sale locally by nonresidents**

No.

Effective July 1, 2019, for statistical purposes, resident legal entities apply to the NBK for informational registration of transactions with nonresidents in amounts in excess of US$500,000 which involve the sale by nonresidents of title to real property in the Republic of Kazakhstan.

Previously, for statistical purposes, resident legal entities were required to notify the NBK of completed transactions involving the acquisition of title to real property from nonresidents if the amount of the acquisition exceeded the equivalent of US$100,000.

**Controls on personal capital transactions**

Yes.

**Loans**

Yes.

**By residents to nonresidents**

Yes.

Effective July 1, 2019, for statistical purposes, financial loans provided by residents to nonresidents in amounts in excess of US$500,000 are subject to informational registration with the NBK regardless of the term (previously if the term was over 180 days). A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties. Previously, loans in excess of US$100,000 for a term of more than 180 days were subject to NBK registration.

**To residents from nonresidents**

Yes.

Effective July 1, 2019, for statistical purposes, financial loans provided by nonresidents to residents in amounts in excess of US$500,000 are subject to informational registration with the NBK. A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties. Previously, loans to residents for a term of more than 180 days and in excess of US$500,000 were subject to NBK registration.

**Gifts, endowments, inheritances, and legacies**

No.

**By residents to nonresidents**

No.

**To residents from nonresidents**

No.

**Settlement of debts abroad by immigrants**

No.

**Transfer of assets**

No.

**Transfer abroad by emigrants**

No.

**Transfer into the country by immigrants**

No.

**Transfer of gambling and prize earnings**

No.

**References to legal instruments and hyperlinks**

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Provisions Specific to the Financial Sector**

Yes.

**Provisions specific to commercial banks and other credit institutions**

Yes.

Borrowing abroad

Banks must comply with the following ratio of liabilities to
nonresidents to equity capital: The ratio of total short-term liabilities to nonresidents to the bank’s equity capital (coefficient k-7) may not exceed 1. The amount of obligations to nonresidents of the Republic of Kazakhstan includes: (1) demand liabilities, including liabilities for which no settlement period has been set; (2) term liabilities to nonresidents with initial maturity up to 1 year inclusive; (3) term obligations to nonresidents with the unconditional right of the creditor to demand early repayment of obligations, including term and conditional deposits of banks, except for term and conditional deposits of individuals and legal entities.

Effective July 1, 2018, the coefficients k-8 and k-9 were abolished because of their low efficiency. Previously, the ratio of the sum of total bank liabilities to nonresidents and unsecured bank guarantees and sureties issued when external loans were attracted by bank subsidiaries or enterprises affiliated with the bank and also as part of bank securitization transactions—with the creditor’s right to require early repayment—to the bank’s equity capital (coefficient k-8) could not exceed 2. The ratio of the sum of total bank liabilities to nonresidents and unsecured bank guarantees and sureties issued when external loans were attracted by bank subsidiaries or enterprises affiliated with the bank and also as part of bank securitization transactions—with the creditor’s right to require early repayment of outstanding liabilities on those loans, except for the bank’s guarantees and sureties issued on the attraction of loans included in calculating the k-9 standard and debt securities issued by it (except domestic debt securities issued in tenge)—to the bank’s equity capital (coefficient k-9) could not exceed 3. When calculating k-8 and k-9, total liabilities to nonresidents did not include the bank’s outstanding debt securities held by nonresidents; liabilities to international financial organizations; subordinated debt obligations to a nonresident parent bank; uninvested funds held by the bank under a custodial agreement, and securities issued by the bank through special-purpose subsidiaries with respect to amounts guaranteed by the bank and accounted for on the bank’s balance sheet (for calculation of the k-8 coefficient).

The securities banks may purchase are specified in the Law on Banks and Banking. Specifically, there is a requirement that banks have the right to perform transactions with debt securities that have a minimum required rating. The rating for bonds of foreign issuers and issuers of the Republic of Kazakhstan must be at least B (based on the classification of the Standard & Poor’s and/or Fitch rating agencies) or at least B2 (based on the Moody’s Investors Service classification). The rating for foreign government bonds must be at least BBB- (based on the Standard & Poor’s and/or Fitch classification) or at least Baa3 (based on the Moody’s Investors Service classification). There are no restrictions regarding the currency in which a debt security is issued.

| Reserve requirements | Yes. |

Foreign exchange deposits are included in the liability base for which banks must meet minimum reserve requirements (MRRs). For the purpose of calculating the MRRs, liabilities in domestic and foreign currencies are differentiated according to the principle of maturity and residency (domestic and external liabilities). The ratios for
liabilities in foreign currency are 3% for short-term and 1% for long-term liabilities, while in national currency they are 2% for short-term and 0% for long-term liabilities.

For the purpose of monitoring liquidity of commercial banks, the NBK sets limits (minimum values) for coefficients of the bank’s current, quick, and quick foreign exchange liquidity. The liquidity coefficients are calculated as the ratio of the average monthly amount of a bank’s assets to the average monthly amount of its liabilities, taking into account the accrued fees, types of assets and liabilities, and other factors.

The limit for the current liquidity ratio (k-4), calculated as the ratio of the average monthly amount of a bank’s highly liquid assets to the average monthly amount of its demand liabilities, including accrued fees, is 0.3.

The quick liquidity ratio k4-1, calculated as the ratio of a bank’s average monthly highly liquid assets to average monthly term liabilities with remaining maturity up to and including seven days, may not be less than 1. Limits are set at 0.9 and 0.8, respectively, for quick asset ratios k4-2 and k4-3, which are calculated as the ratio of a bank’s average monthly liquid assets to average monthly term liabilities with remaining maturity up to one month (k4-2) and up to three months (k4-3).

The foreign exchange liquidity ratio k4-4, calculated as the ratio of average monthly highly liquid foreign currency assets to average monthly term liabilities in the same foreign currency with remaining maturity up to and including seven days, may not be less than 1. Limits are set at 0.9 and 0.8, respectively, for foreign exchange liquidity ratios k4-5 and k4-6, which are calculated similarly for term liabilities with maturities up to one month and three months. When calculating the foreign exchange liquidity ratio k4-5, a bank’s term liabilities with a remaining maturity up to one month, multiplied by a conversion coefficient equal to 90%, are included in the amount of liabilities in foreign currency with a remaining maturity up to three months.

Accordingly, there are limits of 0.9 and 0.8 for foreign exchange liquidity ratios k4-5 and k4-6, which are calculated similarly for term liabilities with maturities up to one month and three months. When calculating the foreign exchange liquidity ratio k4-5, a bank’s term liabilities with a remaining maturity up to one month, multiplied by a conversion coefficient equal to 90%, are included in the amount of liabilities in foreign currency with a remaining maturity up to one month; when calculating the foreign exchange liquidity ratio k4-6, a bank’s term liabilities with a remaining maturity up to three months, multiplied by a conversion coefficient equal to 80%, are included in the amount of liabilities in foreign currency with a remaining maturity up to three months.

Interest rate controls
No.

The Kazakhstan Deposit Guarantee Fund (KDGF) determines the amount and procedure for the payment of banks’ contributions, which are calculated through a methodology developed by the KDGF, taking into account the compliance of interest rates on new personal deposits with those recommended by the KDGF for deposits in foreign currency and deposits in domestic currency.

Credit controls
No.

Differential treatment of deposit accounts held by nonresidents
Yes.

Reserve requirements
Yes.

Deposits in foreign currency are included in the liability base for which banks must meet MRRs. For the purpose of calculating the MRRs, liabilities in domestic and foreign currencies are differentiated according to the principle of maturity and residency (domestic and external liabilities).

Liquid asset requirements
No.

The calculation of liquid assets includes all financial assets,
including highly liquid assets, minus (1) specially formed provisions; (2) claims on nonresidents that are legal entities registered abroad or their citizens or legal entities registered in countries on the list of countries that have not accepted OECD information exchange obligations or their citizens or organizations that are subsidiaries of legal entities registered in the aforementioned countries. Loans are included on the redemption schedule in accordance with loan agreements.

The following securities, which are not included in the calculation of highly liquid assets, are included in the calculation of liquid assets, provided the given securities are serving as collateral for liabilities that are included in the calculation of liabilities: (1) government securities of the Republic of Kazakhstan issued by the government and the NBK; (2) securities issued by the Samruk-Kazyna National Welfare Fund and the Baiterek Management Holding Company joint-stock companies; (3) government securities of countries with a sovereign debt rating in foreign currency no lower than the level established by the NBK; and (4) bonds of foreign issuers with a minimum required rating assigned by one of the rating agencies and conforming to the requirements of the NBK. When calculating liquid assets, the time remaining to maturity for securities is considered to be the time remaining to maturity for the liabilities for which the given securities are serving as collateral.

There is no difference in the liquid asset requirement for deposits of/liabilities to nonresidents and residents.

**Interest rate controls**

No. The KDGF determines the amount and procedure for the payment of banks’ contributions, which are calculated through a methodology developed by the KDGF, taking into account the compliance of interest rates on new personal deposits with those recommended by the KDGF for deposits in foreign currency and deposits in domestic currency.

**Credit controls**

No.

**Investment regulations**

Yes.

**Abroad by banks**

Yes. Investments of resident banks abroad are restricted by limits on the placement of equity and borrowed funds in domestic assets. For commercial banks (with the exception of banks founded by the Republic of Kazakhstan Government), average monthly internal assets must be equal to at least the average monthly amount of equity capital, subordinated debt, perpetual financial instruments, debt securities issued by the bank—except securities issued by the bank in foreign currency—and internal liabilities. In addition to the average monthly indicator, banks must adhere to a daily limit, which is equal to 95% of internal assets for each day based on the average monthly volume of internal liabilities for the previous month.

In addition, the relevant credit risk weights are established for banks’ assets placed with nonresident institutions when calculating capital adequacy coefficients (k1, k1-2, and k-2), which are calculated as follows:

k-1 is calculated as the ratio of core capital to the sum of assets and contingent liabilities weighted by the degree of credit risk, and assets and contingent claims and liabilities calculated taking into account market risk and operational risk. The minimum level is 0.055.

k1-2 is calculated as the ratio of Tier 1 capital to the sum of assets and contingent liabilities weighted by the degree of credit risk, and assets and contingent claims and liabilities calculated taking into account market risk and operational risk. The minimum level is 0.065.

k-2 is calculated as the ratio of equity capital to assets and contingent
liabilities weighted by the degree of credit risk, and assets and contingent claims and liabilities calculated taking into account market risk and operational risk. The minimum level is 0.08.

Nonresident banks may open their own representative offices without approval of the NBK. The opening of branches of nonresident banks is prohibited.

A nonresident legal entity may obtain approval from the NBK to become a bank holding company or a major stakeholder in a bank if it has a minimum required rating from one of the rating agencies. A nonresident bank that has the required rating from one of the major rating agencies may be a parent bank of a subsidiary bank. A list of the major rating agencies and the minimum required rating are established by the NBK. Legal entities that are registered in offshore zones, or that have affiliates registered in offshore zones, and individuals who are participants in (founders or shareholders of) legal entities registered in offshore zones, a list of which is established by the authorized agency, may not directly or indirectly hold, use, and/or determine the disposition of voting shares in resident banks.

This restriction does not apply to banks that are subsidiaries of nonresident banks with a minimum required rating from one of the rating agencies.

A minimum long-term credit rating in foreign currency of at least BBB on the Standard & Poor’s international scale or equivalent ratings assigned by one of the established rating agencies is established for the following nonresident legal entities:

- legal entities that are acquiring (or that have) the status of a bank holding company or holding company;
- legal entities that are acquiring (or that have) the status of a major stakeholder in a bank;
- banks that are creating (or that have) subsidiary banks in the Republic of Kazakhstan.

This requirement does not apply to:

1. nonresident legal entities that meet all of the following conditions:
   - The legal entity has a minimum long-term credit rating in foreign currency of at least BB- on the Standard & Poor’s international scale or equivalent ratings assigned by one of the established rating agencies;
   - it is a resident of a foreign state that has a minimum sovereign rating in foreign currency of at least BB- according to Standard & Poor’s or equivalent ratings assigned by one of the established rating agencies;
   - an information-sharing agreement has been concluded between the authorized body for the regulation, oversight, and supervision of the financial market and financial institutions and the authorized body for banking regulation of the foreign country of which the legal entity is a resident;

2. nonresident bank holding companies that acquired the relevant status prior to January 1, 2013, and that meet all of the following requirements as of the indicated date:
   - The bank holding company has a long-term credit rating in foreign currency of at least AAA on the national scale of the Japanese Credit Rating Agency or a rating agency that is a Japanese Credit Rating Agency affiliate;
   - it is a resident of a foreign state that has a sovereign rating in foreign currency of at least BB- according to Standard & Poor’s or equivalent ratings assigned by one of the established rating agencies;
   - an information-sharing agreement has been concluded between the Republic of Kazakhstan authorized body for the regulation, oversight, and supervision of the financial market and financial
institutions and the authorized body for banking regulation of the foreign country of which the bank holding company is a resident. A nonresident who is a founder of a bank must have written notification from the authorized agency (for banks that are not located in the Republic of Kazakhstan, the banking supervision agency) of the relevant country indicating that the person is permitted to hold shares in a bank located in the Republic of Kazakhstan, or must have a statement from the authorized agency (for nonresident banks, the banking supervision body) of the relevant country indicating that such permission is not required under the legislation of the country of the founder in question. A nonresident bank holding company that directly holds 25% or more of the bank’s placed shares (excluding preferred shares and those repurchased by the bank) or that is able to directly cast votes based on 25% or more of the bank’s voting shares may only be a nonresident financial institution that is subject to consolidated supervision in its home country.

Open foreign exchange position limits  Yes.

On resident assets and liabilities  Yes. The open foreign exchange position is calculated separately for each foreign currency and for each refined precious metal. The following limits apply: (1) The limit on the open foreign exchange position (long and short) for euros and currencies of countries whose sovereign rating is not below A from Standard & Poor’s or an equivalent rating by one of the other rating agencies, and for bank metals, is not more than 12.5% of the bank’s own capital. (2) The limit on the open foreign exchange position (long and short) for currencies of countries whose sovereign rating is below A from Standard & Poor’s or an equivalent rating by one of the other rating agencies is 5% of the bank’s own capital. (3) The limit for the overall net foreign exchange position is not more than 25% of the bank’s own capital. (4) A bank’s open long and/or short foreign exchange position for derivatives in the currency of an individual foreign state (or group of foreign states) opened on contingent claim accounts and contingent liability accounts may not exceed 30% of the bank’s own capital and effective July 1, 2018 – 50%. The same open foreign exchange position limits apply to resident and nonresident assets and liabilities.

On nonresident assets and liabilities  Yes. The open foreign exchange position is calculated separately for each foreign currency and for each refined precious metal. The following limits apply: (1) The limit on the open foreign exchange position (long and short) for euros and currencies of countries whose sovereign rating is not below A from Standard & Poor’s or an equivalent rating by one of the other rating agencies, and for bank metals, is not more than 12.5% of the bank’s own capital. (2) The limit on the open foreign exchange position (long and short) for currencies of countries whose sovereign rating is below A from Standard & Poor’s or an equivalent rating by one of the other rating agencies is 5% of the bank’s own capital. (3) The limit for the overall net foreign exchange position is not more than 25% of the bank’s own capital. (4) A bank’s open long and/or short foreign exchange position for derivatives in the currency of an individual foreign state (or group of foreign states) opened on contingent claim accounts and contingent liability accounts may not exceed 30% of the bank’s own capital and effective July 1, 2018 – 50%. The same open foreign exchange position limits apply to resident and nonresident assets and liabilities.

Provisions specific to institutional investors  Yes.
Insurance companies

Yes. Nonresident insurance companies and brokers may not establish branches in Kazakhstan. Legal entities that are registered in offshore zones listed by the NBK may not directly or indirectly control, use, or dispose of the voting shares of resident insurance (reinsurance) companies. This restriction does not apply to insurance (reinsurance) companies that are subsidiaries of insurance (reinsurance) companies that are nonresidents of the Republic of Kazakhstan with a minimum required rating from one of the rating agencies.

Only a nonresident financial institution under consolidated supervision in its home country may be a nonresident insurance holding company that directly controls 25% or more of the outstanding shares of an insurance (reinsurance) company (net of preferred shares and those repurchased by the insurance/reinsurance company) or with 25% or more of the voting shares.

Limits (max.) on securities issued by nonresidents

Yes. An insurance (reinsurance) company may not acquire stakes in the authorized capital or shares of nonresident legal entities, with the exception of the acquisition of stakes or shares of nonresident legal entities that have the status of a bank, insurance (reinsurance) company, pension fund, or professional participant in the securities market, or shares of nonresident legal entities on a list established in accordance with a regulatory legal act of the authorized body.

The acquisition by an insurance (reinsurance) company of stakes in the authorized capital or shares of legal entities must not exceed 10% of the insurance (reinsurance) company’s equity capital for each legal entity.

This restriction applies to an insurance (reinsurance) company’s ownership of stakes in the authorized capital or shares of said legal entities, including cases in which they participate in the establishment of the legal entities.

The aggregate value of an insurance (reinsurance) company’s stakes in the authorized capital of legal entities or shares must not exceed 50% of the insurance (reinsurance) company’s equity capital.

Insurance (reinsurance) companies are prohibited from performing transactions with financial derivatives, with the exception of transactions performed for the purposes of hedging risks.

Insurance (reinsurance) companies are permitted to acquire the following financial instruments issued by nonresidents of the Republic of Kazakhstan:

1. shares of legal entities that are nonresidents of the Republic of Kazakhstan, with price quotes on the active market that are necessary for measuring fair value, and depositary receipts for which these shares serve as underlying assets;
2. shares that have been issued in accordance with the legislation of the Republic of Kazakhstan and meet the requirements of the “share” sector in the official stock exchange list as provided for by NBK Resolution No. 189 of October 22, 2014, on Approval of the Requirements for Issuers and their Securities Put into Circulation in the Stock Exchange, and also for Certain Categories in the Stock Exchange List, entered in the Register for State Registration of Regulatory Legal Acts under No. 9871, and depositary receipts for which these shares serve as underlying assets;
3. shares of legal entities that are on the stock exchange index’s representative list and depositary receipts for which these shares serve as underlying assets;
4. debt securities issued by the following IFIs:
   - Asian Development Bank; Inter-American Development Bank;
   - African Development Bank; Eurasian Development Bank; European Investment Bank; European Bank for Reconstruction and Development; Islamic Development Bank; Bank for International Settlements; International Bank for Reconstruction and Development;
Development; International Finance Corporation; (5) securities with the status of government securities which have been issued by the central governments of foreign states with a sovereign rating of at least BBB on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies; (6) nongovernment securities issued by foreign companies: (a) shares of issuers with a rating of at least BBB on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies; (b) debt securities with a rating of at least BBB on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies; (7) debt securities included in the official stock exchange list; (8) shares in exchange-traded funds, the pricing for which is linked to the following estimated indicators (indices): CAC 40 (Compagnie des Agents de Change 40 Index); DAX (Deutscher Aktienindex); DJIA (Dow Jones Industrial Average); ENXT100 (Euronext 100); FTSE 100 (Financial Times Stock Exchange 100 Index); MSCI World Index (Morgan Stanley Capital International World Index); NIKKEI - 225 (NIKKEI - 225 Index); S&P 500 (Standard and Poor’s 500 Index); TOPIX (Tokyo Price Index); HSI (Hang Seng Index); (9) shares in exchange-traded funds, exchange-traded commodities (ETCs), and exchange-traded notes (ETNs) that have a rating of at least 4 stars by the Morningstar credit rating agency; (10) Islamic financing instruments with a rating assigned to the security and/or the issuer of at least B on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies; (11) Islamic financing instruments of an Islamic bank, provided the following conditions are met: (a) the parent company of the Islamic bank has a rating of at least BB + on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies; (b) the requirements regarding compliance with prudential standards established for an Islamic bank in accordance with the banking legislation of the Republic of Kazakhstan are met.

An insurance (reinsurance) company must meet the following standards for the diversification of its assets (including investments abroad): (1) overall investment in securities (including reverse repo operations) and cash (less the reserve for doubtful debts) at a single legal entity that is not a second-tier bank, and affiliates of the given legal entity – not more than 10% of total assets; (2) overall investment in securities (including reverse repo operations) that have the status of government securities issued by the central government of a foreign state, less the reserve for doubtful debts – not more than 10% of total assets; (3) overall investment in securities (including reverse repo operations) of an international financial institution included on the list established under Paragraph 39 of Resolution No. 304, less the reserve for doubtful debts – not more than 10% of total assets; (4) overall investments in the units of the exchange-traded funds – not more than 10% of total assets; (5) overall investments in Islamic financing instruments that meet the requirements under Paragraph 38, subparagraphs (15) and (16), of Resolution No. 304, less the reserve for doubtful debts – not more than 10% of total assets.

Total assets are calculated in accordance with Paragraph 34 of Resolution No. 304. An insurance (reinsurance) company’s investments in debt securities must not exceed 25% of the total volume of bonds of a single issue.
of a second-tier bank of the Republic of Kazakhstan.

| **Limits (min.) on investment portfolio held locally** | No. |

| **Pension funds** | Yes. |

As of January 1, 2019, the only organization engaged in the attraction of mandatory pension contributions, mandatory professional pension contributions, and voluntary pension contributions which is operating in Kazakhstan is the Single Pension Savings Fund (SPSF) Joint-Stock Company.

In accordance with Article 35 of the Republic of Kazakhstan Law on Pension Security in the Republic of Kazakhstan, the NBK manages the pension assets of the SPSF on the basis of a trust management agreement.

The pension assets of the SPSF are invested in instruments determined by the Council for the Management of the National Fund of the Republic of Kazakhstan.

The NBK invests the pension assets of the SPSF in accordance with a list of financial instruments approved by a resolution of the Republic of Kazakhstan government and the requirements and limitations of the SPSF Investment Declaration, which was approved by a resolution of the NBK Executive Board and was compiled taking the given list into account.

The activities of voluntary pension funds are governed by the NBK Resolution No. 236 of August 27, 2013; however, at present, no one voluntary pension fund has been registered.

The following is applicable to SPSF with respect to investment in securities issued by nonresidents.

The SPSF Investment Declaration provides for the following investment limits in financial instruments of foreign issuers.

Investments in financial instruments of foreign issuers – not more than 50% of pension assets, including:

1. government and agency securities and securities of IFIs – not more than 50%;
   (a) with a rating of at least BBB- on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies – not more than 50%;
   (b) with a rating between BB+ and BB- on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies – not more than 20%;

2. corporate debt securities – not more than 30% of pension assets;
   (a) with a rating assigned to the security and/or issuer of at least BBB- on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies – not more than 30%;
   (b) with a rating assigned to the security and/or issuer between BB+ and BB- on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies – not more than 15%;

3. mortgage-backed securities (MBS) and asset-backed securities (ABS) with a rating assigned to the security and/or issuer of at least BBB- on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies – not more than 20%;

4. shares, depositary receipts for shares – not more than 20%;

5. structured products issued by organizations with a rating of at least BBB- on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies – not more than 10%;

6. Islamic financing instruments – not more than 10%;
   (a) with a rating assigned to the security and/or issuer of at least
BBB- on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies – not more than 10%;
(b) with a rating assigned to the security and/or issuer between BB+ and BB- on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies – not more than 5%.

The proportion of debt securities of a single issue of an issuer, who is a nonresident of the Republic of Kazakhstan, purchased at the expense of pension assets must not exceed 25% of the total volume of the given issue.

The proportion of equity securities issued by a single issuer purchased at the expense of pension assets must not exceed 10% of the total number of shares of the given issuer that have been placed.

According to the NBK Executive Board Resolution No. 236 of August 27, 2013, for voluntary pension funds, the amount of a fund’s investments in financial instruments issued (offered) by a Republic of Kazakhstan nonresident issuer are as follows:
(a) using its own assets – less than 10% of the fund’s own assets;
(b) using the pension and own assets in the aggregate, or using either pension assets or its own assets alone – less than 25% of the own capital of the given issuer or its parent entity, if the parent entity has provided a guarantee for the issuer’s nongovernmental debt securities, the amount of which guarantee equals the full amount of the given issuer’s issue of nongovernmental debt securities of the given issuer.

If the issuer’s parent entity is a second-tier bank, the amount of a fund’s investments in financial instruments issued (offered) by the given Republic of Kazakhstan nonresident issuer using pension assets and its own assets in the aggregate or using either pension assets or its own assets alone must equal less than 35% of the given second-tier bank’s own capital.

The percentage of debt securities in a single issue by a Republic of Kazakhstan nonresident issuer acquired by a fund using pension assets and its own assets in aggregate or using either pension assets or its own assets alone must equal less than 25% of the total amount of the debt securities of the issuer’s given issue.

The percentage of shares issued by a single Republic of Kazakhstan nonresident issuer and acquired by a fund using pension assets and its own assets in aggregate or using either pension assets or its own assets alone must equal less than 10% the total amount of shares of the given issuer.

The amount of a fund’s investments in financial instruments issued (offered) by a Republic of Kazakhstan nonresident issuer using pension assets and its own assets in aggregate or using either pension assets or its own assets alone must equal less than 10% of the given investment fund’s assets.

The total amount of a fund’s investments using its own assets in the units of investment funds having an international rating “Standard & Poor’s Principal Stability Fund Ratings” of at least “BBBm,” or “Standard & Poor’s Credit Quality Ratings” of at least “BBBf-,” must be as follows:
(1) using its own assets – less than 10% of the fund’s own assets;
(2) using its own assets and pension assets in the aggregate or using either pension assets or its own assets alone – less than 10% of the given investment fund’s assets.

The total amount of a fund’s investments using its own assets in the units of investment funds having an international rating “Standard & Poor’s Principal Stability Fund Ratings” of at least “BBBm” or “Standard and Poor’s Credit Quality Ratings” of at least “BBBf-,”
and managed by a single management company, and in financial instruments issued (offered) by the given management company must equal less than 10% of the fund’s own assets. According to the NBK Executive Board Resolution No. 237 of August 27, 2013, the list of financial instruments in which a voluntary pension saving fund may place pension assets and the requirements to which they are held must be as follows:

(1) debt securities issued by the following IFIs and having a rating of at least “BBB-” on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies: Asian Development Bank; African Development Bank; Bank for International Settlements; Eurasian Development Bank; European Bank for Reconstruction and Development; European Investment Bank; Islamic Development Bank; Interamerican Development Bank; International Bank for Reconstruction and Development; International Financial Corporation;

(2) securities with the status of government securities issued by the central governments of foreign states having a sovereign rating of at least “BBB-” on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies;

(3) nongovernmental securities issued by foreign entities:
   (a) debt securities having a rating of at least “BBB-” on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies;
   (b) debt securities issued by an issuer under a guarantee by a Republic of Kazakhstan nonresident parent entity that has a rating of at least “BBB-” on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies, or a guarantee by a resident parent entity with a rating of at least “B-” on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies, the amount of which guarantee equals the full amount of the issue of nongovernmental debt securities;
   (c) shares of foreign issuers with a rating of at least “BBB-” on the Standard & Poor’s international scale or an equivalent rating by one of the other rating agencies;
   (d) shares of foreign entities recognized as Republic of Kazakhstan residents pursuant to Article 22(1), Clause 3, of the Law on the Securities Market, and officially listed with the stock exchange and meeting the requirements of the “premium” category of the “shares” sector on the “Main” floor of the official stock exchange list;

(4) futures, options, swaps, and forwards, the underlying assets of which are financial instruments allowed to be acquired using pension assets, foreign exchange, and the following indexes: MICEX (Moscow Interbank Currency Exchange Index); DAX (Deutscher Aktienindex); CAC 40 (Compagnie des Agents de Change 40 Index); NIKKEI - 225 (NIKKEI - 225 Index); TOPIX (Tokyo Price Index); HSI (Hang Seng Index); ENXT 100 (Euronext 100); RTSI (Russian Trade System Index); DJIA (Dow Jones Industrial Average); S&P 500 (Standard and Poor's 500 Index); FTSE 100 (Financial Times Stock Exchange 100 Index); KASE; MSCI World Index (Morgan Stanley Capital International World Index).

The aggregate amount of investments of the SPSF’s pension assets in financial instruments and currency denominated in foreign exchange represents no more than 50% of these pension assets, including:

(1) not more than 50% of the SPSF’s pension assets in US dollars and/or euros;

(2) not more than 10% of the SPSF’s pension assets in other foreign currencies;

(3) deposits at foreign banks with a rating of at least A- on the Standard & Poor’s international scale or an equivalent rating by one...
The following limits are applied on investment portfolio held locally by SPSF: Government securities of the Republic of Kazakhstan may not be less than 20% and not more than 60% of the pension assets of SPSF.

The total amount of investments of an investment fund’s assets in financial instruments (other than currency) issued (offered) by a single entity or affiliates thereof must not exceed:

1. effective July 15, 2018, 20% (previously, 15%) of the value of net assets for an open-end or interval mutual fund;
2. effective July 15, 2018, 30% (previously, 20%) of the value of net assets for a joint-stock investment fund and a closed-end mutual fund.

These limits do not apply to Republic of Kazakhstan government securities, or to financial instruments issued (offered) by entities more than 50% of whose voting shares are held by the state or a national management holding company, or a national holding company and affiliates thereof, operating in the same sector of the national economy.

The requirements under this item do not apply to risk-based investment funds and real estate funds.

Effective July 15, 2018, the total amount of investments of an investment fund’s assets in financial instruments issued (offered) by a single entity, more than 50% of whose voting shares are held by the state or a national management holding company, or a national holding company and affiliates thereof, operating in the same sector of the national economy, must not exceed:

1. 30% of the value of net assets for an open-end or interval mutual fund;
2. 50% of the value of net assets for a joint-stock investment fund and a closed-end mutual fund. The requirements under this item do not apply to risk-based investment funds and real estate funds.

The NBK has established a list of financial instruments that may be included in open-end and interval mutual funds, as well as in real estate funds. The assets of other joint-stock investment funds and of closed-end mutual funds may be invested as determined by the investment declaration of the investment fund.

Open-end and interval mutual funds’ investments in nongovernment securities of foreign organizations must be:

1. debt securities with an international Standard & Poor’s rating no lower than BB- or an equivalent rating from another rating agency and/or debt securities listed by a stock exchange in a foreign country and recognized by a stock exchange in the Republic of Kazakhstan;
2. shares issued by foreign organizations with an international Standard & Poor’s rating no lower than BB- or an equivalent rating from another rating agency, and/or shares listed by a stock exchange in a foreign country and recognized by a stock exchange in the Republic of Kazakhstan;
3. depositary receipts whose underlying assets are instruments referred to under (1) and (2) or whose underlying assets are securities of issuers with an international Standard & Poor’s rating in foreign currency no lower than B- or an equivalent rating from another rating agency; (4) government securities issued by central foreign governments with a sovereign rating no lower than BBB or an equivalent rating from another rating agency; (5) foreign currency of countries with a sovereign rating no lower than BBB or an equivalent rating from another rating agency.
Joint-stock real estate investment funds’ investments in financial instruments issued by foreign organizations may be:

(1) shares issued by foreign organizations with an international Standard & Poor’s rating no lower than AA- or an equivalent rating from another rating agency; (2) debt securities issued by foreign organizations with a rating no lower than AA- on the Standard & Poor’s international scale or an equivalent rating from one of the other rating agencies; (3) debt securities issued by IFIs with an international Standard & Poor’s rating no lower than BBB or an equivalent rating from another rating agency; (4) government securities issued by foreign central governments with a sovereign rating no lower than BBB or an equivalent rating from another rating agency; (5) foreign currency of countries with a sovereign rating no lower than BBB or an equivalent rating from another rating agency; and (6) derivative financial instruments for hedging purposes whose underlying assets are financial instruments permissible for acquisition with the assets of real estate funds in accordance with this list.

Limits on minimum investments held locally have not been established. Instead, the NBK has established a list of financial instruments in which investment funds may place their assets, and requirements have been established for these assets. The given requirements do not apply to high-risk investment funds. The NBK has established a list of financial instruments that may be included in open-end and interval mutual funds, as well as in real estate funds. The assets of other joint-stock investment funds and of closed-end mutual funds may be invested as determined by the investment declaration of the investment fund. Open-end and interval mutual funds’ investments in nongovernment securities of foreign organizations must be (1) debt securities with an international Standard & Poor’s rating no lower than BB- or an equivalent rating from another rating agency and/or debt securities listed by a stock exchange in a foreign country and recognized by a stock exchange in the Republic of Kazakhstan; (2) shares issued by foreign organizations with an international Standard & Poor’s rating no lower than BB- or an equivalent rating from another rating agency, and/or shares listed by a stock exchange in a foreign country and recognized by a stock exchange in the Republic of Kazakhstan; (3) depositary receipts whose underlying assets are instruments referred to under (1) and (2) or whose underlying assets are securities of issuers with an international Standard & Poor’s rating in foreign currency no lower than B- or an equivalent rating from another rating agency; (4) government securities issued by central foreign governments with a sovereign rating no lower than BBB or an equivalent rating from another rating agency; (5) foreign currency of countries with a sovereign rating no lower than BBB or an equivalent rating from another rating agency; (6) principal-protected notes issued by organizations with an international Standard & Poor’s rating no lower than A- or an equivalent rating from another rating agency that meets the conditions of regulatory legal acts; and (7) derivative financial instruments (futures, options, swaps, forwards) for hedging purposes whose underlying assets are financial
instruments of open-end and interval mutual funds or foreign currency or performance ratios (indicators).

Joint-stock real estate investment funds’ investments in financial instruments issued by foreign organizations may be: (1) shares issued by foreign organizations with an international Standard & Poor’s rating no lower than AA- or an equivalent rating from another rating agency; (2) debt securities issued by foreign organizations with a rating no lower than AA- on the Standard & Poor’s international scale or an equivalent rating from one of the other rating agencies; (3) debt securities issued by IFIs with an international Standard & Poor’s rating no lower than BBB or an equivalent rating from another rating agency; (4) government securities issued by foreign central governments with a sovereign rating no lower than BBB or an equivalent rating from another rating agency; (5) foreign currency of countries with a sovereign rating no lower than BBB or an equivalent rating from another rating agency; and (6) derivative financial instruments for hedging purposes whose underlying assets are financial instruments permissible for acquisition with the assets of real estate funds in accordance with this list.

Changes during 2018 and 2019

Exchange Arrangement

Pursuant to NBK Resolution No. 296 of November 29, 2018, the limits on the margin between the buying and selling rates of cash in US dollars and euros for tenge cash transactions conducted with the public through exchange bureaus were eliminated. Previously, the NBK placed a limit of 6 tenge and 7 tenge for the US dollar and the euro, respectively.

Arrangements for Payments and Receipts

07/01/2019

The following were added to the list of permitted foreign exchange transactions: transactions in which one of the parties is a resident who has the right to perform foreign exchange transactions with residents pursuant to the laws of the Republic of Kazakhstan or acts of the President of the Republic of Kazakhstan adopted prior to the entry into force of the Law; transactions between branch offices (representative offices) of foreign organizations; transactions between securities market professionals who perform foreign exchange transactions on instructions from clients, and between individuals or legal entities, related to the transfer of money and financial instruments from (to) accounts for the recording and safekeeping of money and financial instruments belonging to clients within the context of the execution and termination of brokerage service agreements; transactions of a party serving as a recipient of minerals on behalf of the state, which are transferred to said party in accordance with the Tax Code for in-kind fulfillment by a mineral resources operator of its tax obligations related to the transport, storage, and sale of such minerals.

07/01/2019

Branch offices (representative offices) of foreign organizations that form a permanent establishment for tax purposes in the Republic of
Kazakhstan were classified as residents and may no longer transact with other residents in foreign currency.

**Resident Accounts**

<table>

<tr>
<td>Held abroad</td>
<td></td>
</tr>
</tbody>
</table>

A resident legal entity (with the exception of banks and branch offices (representative office) of a foreign organization) must notify the NBK of accounts opened with a foreign bank by applying for the assignment of a record number to the account prior to the performance of transactions using such account. Previously, the deadline for notification was 30 days after the date of entry into an agreement with a foreign bank.

**Imports and Import Payments**

<table>

Deferrals of export payments and advance export payments are no longer classified as commercial credits.

**Payments for Invisible Transactions and Current Transfers**
To implement the norm of Article 9 of the Law “On Currency Regulation and Currency Control” of March 30, 2019, a record number needs to be obtained for contracts involving the export/import of work (services). When making payments and/or money transfers, an exporter must submit a copy of a foreign trade contract or other corroborating documents to the bank.

**Capital Transactions**

There is a uniform procedure in place for the informational registration of contracts involving the movement of capital and accounts at foreign banks. When a payment is made and/or money is transferred under a contract for which a record number must be obtained, or using an account at a foreign bank that has been assigned a record number, an authorized bank (or a branch thereof) verifies that the payment document contains the details of the foreign exchange contract and its record number. The informational registration requirement applies to contracts involving the movement of capital to which residents are parties (with the exception of authorized banks and branch offices (representative offices) of foreign organizations). A resident party to a contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the contract by any of its parties. Previously, a registration or notification requirement for foreign exchange transactions performed was in effect. Foreign exchange transactions to which the registration requirement applied were performed only with a registration certificate. If a resident lacked a certificate of notification, an authorized bank performed the transaction and informed the resident in any manner of the need to obtain a certificate of notification. The notification requirement did not extend to transactions involving direct investment, which is subject to NBK registration.

For statistical purposes, residents apply to the NBK for registration of contracts involving the sale to nonresidents of equity securities issued by residents or nonresidents in an amount in excess of the equivalent of US$500,000, with the exception of: (1) securities of a resident issuer that have been issued in accordance with the legislation of another state and within its territory (including depositary receipts, the underlying asset of which is securities of the resident issuer); (2) securities of a nonresident issuer that have been issued in accordance with the legislation of the Republic of Kazakhstan (including Kazakhstani depositary receipts). Transactions performed by residents on the basis of a contract for the provision of brokerage services concluded with a resident broker, or on the basis of an investment portfolio management contract concluded with a resident investment portfolio management company, are not subject to informational registration. The resident securities market professional provides notification of these transactions. A resident party to a contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the contract by any of its parties. Previously, for statistical purposes, residents were required to notify the NBK of a completed transaction involving the sale to nonresidents of securities issued by residents if the transaction amount exceeded the equivalent of US$500,000. Notification of a
transaction was made after its completion by the resident participating in the transaction or the Kazakhstani securities market professional servicing the transaction.
The notification requirement did not extend to transactions involving direct investment, which is subject to NBK registration.
For statistical purposes, residents apply to the NBK for registration of contracts involving the purchase from nonresidents of equity securities issued by residents or nonresidents in an amount in excess of the equivalent of US$500,000, with the exception of: (1) securities of a resident issuer that have been issued in accordance with the legislation of another state and within its territory (including depositary receipts, the underlying asset of which is securities of the resident issuer); (2) securities of a nonresident issuer that have been issued in accordance with the legislation of the Republic of Kazakhstan (including Kazakhstani depositary receipts).
Transactions performed by residents on the basis of a contract for the provision of brokerage services concluded with a resident broker, or on the basis of an investment portfolio management contract concluded with a resident investment portfolio management company, are not subject to informational registration. The resident securities market professional provides notification of these transactions.
A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties. Previously, for statistical purposes, residents were required to notify the NBK of completed foreign exchange transactions involving the purchase of securities issued by nonresidents if the transaction amount exceeded the equivalent of US$100,000. Notification of a transaction was made after its completion by the resident participating in the transaction or the Kazakhstani securities market professional servicing the transaction. The notification requirement did not extend to transactions involving direct investment, which is subject to NBK registration.
For statistical purposes residents must apply to the NBK for registration of contracts involving the purchase from nonresidents of equity securities issued by residents or nonresidents in an amount in excess of the equivalent of US$500,000 (previously US$100,000).
For statistical purposes, residents apply to the NBK for registration of contracts involving the purchase from nonresidents of equity securities issued by residents or nonresidents in an amount in excess of the equivalent of US$500,000, with the exception of: (1) securities of a resident issuer that have been issued in accordance with the legislation of another state and within its territory (including depositary receipts, the underlying asset of which is securities of the resident issuer); (2) securities of a nonresident issuer that have been issued in accordance with the legislation of the Republic of Kazakhstan (including Kazakhstani depositary receipts).
Transactions performed by residents on the basis of a contract for the provision of brokerage services concluded with a resident broker, or on the basis of an investment portfolio management contract concluded with a resident investment portfolio management company, are not subject to informational registration. The resident securities market professional provides notification of these transactions.
A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties. Previously, for statistical purposes, residents were required to notify
the NBK of completed foreign exchange transactions involving the purchase of securities issued by nonresidents if the transaction amount exceeded the equivalent of US$100,000. Notification of a transaction was made after its completion by the resident participating in the transaction or the Kazakhstani securities market professional servicing the transaction. The notification requirement did not extend to transactions involving direct investment, which is subject to NBK registration.

07/01/2019

For statistical purposes residents must apply to the NBK for registration of contracts involving the purchase from nonresidents of equity securities issued by residents or nonresidents in an amount in excess of the equivalent of US$500,000 (previously US$100,000). Sale or issue abroad by residents

07/01/2019

For statistical purposes, residents apply to the NBK for registration of contracts involving the sale to nonresidents of equity securities issued by residents or nonresidents in an amount in excess of the equivalent of US$500,000, with the exception of: (1) securities of a resident issuer that have been issued in accordance with the legislation of another state and within its territory (including depositary receipts, the underlying asset of which is securities of the resident issuer); (2) securities of a nonresident issuer that have been issued in accordance with the legislation of the Republic of Kazakhstan (including Kazakhstani depositary receipts). Transactions performed by residents on the basis of a contract for the provision of brokerage services concluded with a resident broker, or on the basis of an investment portfolio management contract concluded with a resident investment portfolio management company, are not subject to informational registration. The resident securities market professional provides notification of these transactions.

A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties. Previously, for statistical purposes, residents were required to notify the NBK of a completed transaction involving the sale to nonresidents of securities issued by residents if the transaction amount exceeded the equivalent of US$500,000. Notification of a transaction was made after its completion by the resident participating in the transaction or the Kazakhstani securities market professional servicing the transaction. The notification requirement did not extend to transactions involving direct investment, which is subject to NBK registration.

Purchase locally by nonresidents

07/01/2019

For statistical purposes, residents apply to the NBK for registration of contracts involving the sale to nonresidents of debt securities issued by residents in an amount in excess of the equivalent of US$500,000, with the exception of securities of a resident issuer that have been issued in accordance with the legislation of another state and within its territory (including depositary receipts, the underlying asset of which is securities of the resident issuer).

Transactions performed by residents on the basis of a contract for the provision of brokerage services concluded with a resident broker, or on the basis of an investment portfolio management contract concluded with a resident investment portfolio management company, are not subject to informational registration. The resident securities market professional provides notification of these transactions.

A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties.
Previously, for statistical purposes, residents were required to notify the NBK of a completed transaction involving the sale to nonresidents of securities issued by residents if the transaction amount exceeded the equivalent of US$500,000. Notification of a transaction was made after its completion by the resident participating in the transaction or the Kazakhstani securities market professional servicing the transaction.

For statistical purposes, residents apply to the NBK for registration of contracts involving the purchase from nonresidents of debt securities issued by nonresidents in an amount in excess of the equivalent of US$500,000, with the exception of securities of a nonresident issuer that have been issued in accordance with the legislation of the Republic of Kazakhstan (including Kazakhstani depositary receipts).

Transactions performed by residents on the basis of a contract for the provision of brokerage services concluded with a resident broker, or on the basis of an investment portfolio management contract concluded with a resident investment portfolio management company, are not subject to informational registration. The resident securities market professional provides notification of these transactions.

A resident party to a foreign exchange contract applies to the NBK for the assignment of a record number prior to the fulfillment of obligations under the foreign exchange contract by any of its parties.

Previously, for statistical purposes, residents were required to notify the NBK of completed foreign exchange transactions involving the purchase of securities issued by nonresidents if the transaction amount exceeded a completed transaction involving the sale to nonresidents of securities issued by residents in an amount equivalent to US$100,000. Notification of a transaction was made after its completion by the resident participating in the transaction or the Kazakhstani securities market professional servicing the transaction.

For statistical purposes, residents must apply to the NBK for registration of contracts involving the purchase from nonresidents of debt securities issued by nonresidents in an amount in excess of the equivalent of US$500,000 (previously US$100,000).

Provisions Specific to the Financial Sector
Provisions specific to commercial banks and other credit institutions

Borrowing abroad

07/01/2018

The coefficients k-8 and k-9 (that were ratios of liabilities to nonresidents to equity capital) banks must comply were abolished because of their low efficiency. Previously, the ratios were calculated as follows:

(1) Coefficient k-8: The ratio of the sum of total bank liabilities to nonresidents and unsecured bank guarantees and sureties issued when external loans were attracted by bank subsidiaries or enterprises affiliated with the bank and also as part of bank securitization transactions—with the creditor’s right to require early repayment—to the bank’s equity capital could not exceed 2.

(2) Coefficient k-9: The ratio of the sum of total bank liabilities to nonresidents and unsecured bank guarantees and sureties issued when external loans were attracted by bank subsidiaries or enterprises affiliated with the bank and also as part of bank securitization transactions—with the creditor’s right to require early repayment of outstanding liabilities on those loans, except for the bank’s guarantees and sureties issued on the attraction of loans included in calculating the k-9 standard and debt securities issued by it (except domestic debt securities issued in tenge)—to the bank’s equity capital could not exceed 3.

When calculating k-8 and k-9, total liabilities to nonresidents did not include the bank’s outstanding debt securities held by nonresidents; liabilities to international financial organizations; subordinated debt obligations to a nonresident parent bank; uninvested funds held by the bank under a custodial agreement, and securities issued by the bank through special-purpose subsidiaries with respect to amounts guaranteed by the bank and accounted for on the bank’s balance sheet (for calculation of the k-8 coefficient).

Open foreign exchange position limits

On resident assets and liabilities

07/01/2018

The maximum limit of a bank’s open long and/or short foreign exchange position for derivatives in the currency of an individual foreign state (or group of foreign states) opened on contingent claim accounts and contingent liability accounts was increased from 30% of the bank’s own capital to 50%.

On nonresident assets and liabilities

07/01/2018

The maximum limit of a bank’s open long and/or short foreign exchange position for derivatives in the currency of an individual foreign state (or group of foreign states) opened on contingent claim accounts and contingent liability accounts was increased from 30% of the bank’s own capital to 50%.

Provisions specific to institutional investors

Investment firms and collective investment funds

Limits (max.) on securities issued by nonresidents

07/15/2018

The total amount of investments of an investment fund’s assets in financial instruments issued (offered) by a single entity or affiliates thereof must not exceed the following limits that were increased to:

(1) 20% (previously, 15%) of the value of net assets for an open-end or interval mutual fund or real estate fund;

(2) 30% (previously, 20%) of the value of net assets for a joint-stock investment fund or closed mutual fund.

These restrictions do not apply to government securities of the Republic of Kazakhstan. These requirements do not extend to risk investment funds and real estate funds.

07/15/2018

The total amount of investments of an investment fund’s assets in financial instruments issued (offered) by a single entity, more than 50% of whose voting shares are held by the state or a national management holding company, or a national holding company and
affiliates thereof, operating in the same sector of the national economy, must not exceed:
(1) 30% of the value of net assets for an open-end or interval mutual fund;
(2) 50% of the value of net assets for a joint-stock investment fund and closed mutual fund.
These requirements do not extend to risk investment funds and real estate funds.

Conventional peg |
Stabilized arrangement |
Crawling peg |
Crawl-like arrangement |
Pegged exchange rate within horizontal bands |
Other managed arrangement | Yes. The de jure exchange rate arrangement is free floating. Kenya pursues a flexible exchange rate regime where the value of the Kenya shilling is determined by the market according to the demand and supply of foreign exchange. Official foreign exchange market interventions aim to moderate the rate of change and prevent undue |
fluctuations in the exchange rate, rather than to establish a particular level. The observed increase in volatility during the first quarter of 2019 was because of higher than expected inflows of diaspora remittances, tourism, and horticultural export receipts. The de facto exchange rate arrangement was reclassified to other managed from stabilized, effective October 31, 2018. Data on interventions are not published.

Floating

Free floating

Official exchange rate

Yes. The Central Bank of Kenya (CBK) publishes only a daily indicative foreign exchange rate, which is usually the previous day’s average market rate at closing. This rate informs market participants of the level and direction of exchange rate movements. The reference rate is published to inform market participants and the general public.

Core inflation
In its implementation of monetary policy, since mid-2012, the CBK is in transition from targeting monetary aggregates toward an inflation-targeting framework.

Authorized commercial and microfinance banks are licensed to buy, sell, borrow, and lend in foreign currency and transact any other business involving foreign currency. Foreign exchange bureaus deal in spot foreign currency transactions involving cash and other instruments approved by the CBK; may be allowed to conduct money transfer as agents of mobile phone companies and as subagents of international money transfer agencies subject to prior approval of the CBK; may transact telegraphic transfers through a bank in amounts not exceeding an equivalent of US$100,000 a customer a day, subject to conditions that the CBK may prescribe; sell foreign currency drafts to their customers; transact in traveler’s checks; purchase foreign currency drafts from customers that are not in excess of US$1,000 or its equivalent in any other currency; transact any other business as may be approved by the CBK. ADs freely determine their bid-ask spreads and foreign exchange commissions in transactions with their clients. In addition to the transactions that foreign exchange bureaus may effect, money remittance providers may also deal with money transfer in and outside Kenya.

As of December 31, 2018, there were 39 commercial banks, 70 foreign exchange bureaus, and 18 money remittance providers licensed by the CBK to deal in foreign exchange with the public. Foreign exchange bureaus and money remittance providers do not enter into direct foreign exchange transactions with the CBK, but they conduct exchange transactions, including sales and purchases of currency, traveler’s checks, and similar instruments, approved by the CBK. The bureaus may engage only in cash transactions. Except with CBK approval, outward payments and transactions between
The CBK usually deals with authorized commercial bank dealers either through foreign exchange auctions (for foreign exchange purchases and sales), direct purchases and sales via the Reuters Dealing System or Bloomberg (when intervening to smooth extreme fluctuations in the trading level), or purchases through mutual agreement with individual commercial bank dealers (when the dealers have surplus foreign exchange). The latter is especially useful for building up foreign exchange reserves without unduly affecting the exchange rate.

The CBK may conduct an auction when purchasing or selling foreign exchange from or to the market if it is deemed the most appropriate method given market circumstances.

The interbank market is based on a market-making arrangement. There are 39 commercial banks, 70 foreign exchange bureaus, and 18 money remittance providers licensed by the CBK to operate in the foreign exchange market. ADs freely determine their bid-ask spreads and foreign exchange commissions in transactions with their clients. Some interbank transactions are carried out via a voice broker (for example, ICAP and GFI).

Commercial banks are authorized to enter into forward exchange contracts with their customers at market-determined exchange rates in currencies of their choice. There are no limits on the amount or period of cover. For prudential purposes, commercial banks require approval from the CBK before introducing new products. The CBK does not participate in the forward foreign exchange market.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Arrangements for Payments and Receipts

Prescription of currency requirements No.
Controls on the use of domestic currency No.
For current transactions and payments No.
For capital transactions No.
Transactions in capital and money market instruments No.
Transactions in derivatives and other No.
Kenya is a member of COMESA, the EAC, the East African Payment System Harmonization Committee, and the Association of African Central Banks.

The CBK Act gives the CBK power to license and regulate foreign exchange dealers.

Rescheduling with Paris Club creditors ended in December 2006, paving the way for repayment of foreign loans that henceforth fall due.

Private sector external obligations are paid mainly with foreign exchange reserves held by commercial banks, over which the CBK has no control.

For statistical purposes, persons leaving or entering Kenya must declare amounts exceeding K Sh 500,000 in domestic currency or the equivalent of US$5,000 in foreign currency.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Resident Accounts

Residents and nonresidents may hold foreign exchange accounts domestically and may freely make balance transfers abroad. Banks
Residents and nonresidents may hold foreign exchange accounts abroad and may freely make balance transfers back to Kenya. Banks must document and report to the CBK the purpose of inflows and outflows. However, pursuant to Section 19 of the Leadership and Integrity Act No. 19 of 2012, it requires state officers and public officers to seek permission of the Ethics and Anti-Corruption Commission to open a bank account outside Kenya.

Kenyan residents may freely open accounts in shillings abroad. However, pursuant to Section 19 of the Leadership and Integrity Act No. 19 of 2012, it requires state officers and public officers to seek permission of the Ethics and Anti-Corruption Commission to open a bank account outside Kenya. The statute does not however specify whether the account can or cannot be in Kenya shillings.

There are no limitations for residents to convert their balances in domestic currency accounts to foreign currency.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Kenya’s foreign exchange reserves may not be used to finance the importation of goods and services destined for other countries. Documentary evidence of imports is required for transfers by commercial banks.

A preshipment inspection is required for all imports with an f.o.b.
value of more than US$5,000 or its equivalent. These are subject to inspection for quality, quantity, and price. Banks are allowed to effect “clean payments” (for imports), provided they obtain from the importer immediately after shipment a pledge to submit the documents at a later date.

Letters of credit | No.  
Import licenses used as exchange licenses | No.  
Other | Yes.  

**Import licenses and other nontariff measures**  
Positive list | No.  
Negative list | Yes.

<td>In accordance with UNSC resolutions, Korea maintains certain exchange restrictions against the following individuals and entities: certain individuals and entities associated with the Taliban, the Al-Qaeda network, terrorists in general, and the former regime of Saddam Hussein; certain individuals and entities posing a threat to international peace and security in the Democratic Republic of the Congo, Côte d’Ivoire, and Sudan; certain individuals and entities threatening peace and security in Eritrea and Somalia; certain individuals and entities involved in Iranian nuclear and/or ballistic missile programs; certain individuals and entities involved in the Democratic People’s Republic of Korea’s nuclear, ballistic missile, or other weapons of mass destruction (WMD) and related programs; certain individuals and entities threatening peace and security in Liberia; certain individuals and entities associated with Muammar Qadhi’s regime; certain individuals and entities threatening peace and security in Central African Republic, Republic of South Sudan, and Yemen. Korea maintains certain exchange restrictions against certain individuals named by the Guidance of the MOEF as designated by US Executive Order Nos. 13382, 13573, 13582, and 13810. Also, certain individuals and entities related to the Islamic Republic of Iran (Iranian residents or groups located in Iran) were eliminated from certain exchange restrictions list because of the MOEF revised notice.</td>

Stabilized arrangement
Crawling peg
Crawl-like arrangement
Pegged exchange rate within horizontal bands
Other managed arrangement

Floating Yes. The de jure exchange rate arrangement is free floating. The exchange rate of the won is freely determined on the basis of supply and demand in the foreign exchange market. As such, the system is managed in accordance with the principles defined by the free floating system, and the government’s role is very limited to remain within the range allowed by the free floating system. However, because of the lack of information on the authorities’ interventions, the de facto exchange rate arrangement is classified as floating. The Bank of Korea (BOK) may intervene in the market with the funds of the BOK and the Foreign Exchange Equalization Fund when it is deemed necessary for the stability of the market. Interventions in the spot market or through derivatives in the forward market are not announced, but intervention data in net terms are published. The Korean government and the BOK (the foreign exchange authorities) are implementing their disclosure in two stages. In the first stage, information is disclosed on a semiannual basis, no later than three months after the end of each six-month period. Specifically, information for the period of July to December in 2018 was disclosed March 29, 2019, and information for the period of January to June in 2019 was disclosed September 30, 2019. In the second stage, from July 2019 onwards, information will be disclosed on a quarterly basis, no later than three months after the end of the respective quarter. Specifically, information for the period of July to September in 2019 will be disclosed by the end of December 2019. Henceforth, information will be disclosed on an identical period and time basis. The information will be disclosed on the website of the BOK.

### Monetary aggregate target

- **Inflation-targeting framework**: Yes. Inflation targeting was officially adopted in accordance with the revised BOK Act, which came into effect April 1, 1998.

- **Target setting body**: Yes.
  - Government
  - Central Bank
  - Monetary Policy Committee
  - Central Bank Board
  - Other
    - Government and Central Bank

- **Inflation target**: Yes.
  - **Target number**: Yes.
  - **Point target**: Yes. Effective January 1, 2019, the inflation target for 2019 onwards has been set at 2%. The BOK will review the inflation target in consultation with the government every two years and explain the review to the public. If adjustment of the inflation target becomes inevitable, due for instance to unexpected domestic or global economic shocks or to changes in economic conditions, the BOK will adjust the target in consultation with the government. Previously, the inflation target of 2% was set for a three-year period (2016–2018).

- **Inflation target with tolerance band**: Yes.
  - **Band/Range**: Yes.
    - **Target measure**: Yes.
      - **CPI**: Yes. The target measure is the monthly year-on-year (y-o-y) consumer price index inflation published by the Statistics Korea.
      - **Core inflation**: Yes.

- **Target horizon**: Yes. The BOK conducts monetary policy to maintain the annual rate of consumer price index inflation near the target over a midterm horizon.

- **Operating target (policy rate)**: Yes.
  - **Policy rate**: Yes. The Monetary Policy Board of the BOK meets eight times a year to determine the base rate. As of April 30, 2019, the policy rate was 1.75%.
  - **Target corridor band**: Yes. The BOK uses the base rate as a fixed bid rate for its sales of 7-day repurchase agreements and as the minimum bid rate for its purchases of 7-day repurchase agreements. The interest rates of liquidity adjustment deposits and loans are 100 basis points (bps) below and above the base rate, respectively.

- **Other**: Yes.
  - **Accountability**: Yes.
    - **Open letter**
Parliamentary hearings  Yes.  If there is a request from the national assembly, the governor will attend the meeting and answer questions.

Other  Yes.  The BOK publishes its “Monetary Policy Report” four times a year to explain how it is implementing the inflation target policy. Effective January 1, 2019, the BOK publishes twice a year an inflation assessment, which includes price developments, future inflation forecasts and risks, and the monetary policy stance for achieving price stability, and provides explanations of the assessment to the public through various means (or channels), such as by holding governor’s press conferences. Previously, if the inflation deviated from the target by more than 0.5 percentage point (pp) in either direction for six consecutive months, the BOK would explain the reasons for the deviation, the prospect for inflation, the monetary policy strategy toward returning inflation to the target, etc., through a governor’s press conference. If the inflation subsequently deviates continuously, the BOK provided further explanations every three months.

Transparency  Yes.  Right after a committee meeting, the governor holds a press conference to announce the policy decision. In the press conference, the governor also informs who were minor voters.

Publication of minutes  Yes.  The committee meeting minutes are published on the first Tuesday falling after two weeks from the meeting by posting it in the website of the BOK. The names of committee members are concealed in the minutes.

Publication of inflation forecasts  Yes.  The inflation forecast is published through a quarterly economic forecast (Economic Outlook) by the BOK. A fan-chart type forecasting is provided with two-year horizon.

Foreign exchange market  Yes.  The Korean foreign exchange market consists of OTC markets and exchanges. The OTC markets comprise a customer market in which foreign exchange banks deal with customers, including importers, exporters, travelers, and nonresidents, and an interbank market, in which foreign exchange banks deal among themselves. Standardized products are traded on the exchanges. Residents may buy and sell financial futures on internationally recognized futures exchanges or on the domestic exchange, the Korea Exchange. Commercial banks may set exchange rates and commissions freely in transactions with their clients.

Spot exchange market  Yes.  Financial institutions trade foreign exchange either via brokers or directly among themselves. As of December 31, 2018, 64 institutions, including 55 foreign exchange banks, participated in the spot foreign exchange market through brokers. Financial institutions are required to register with the MOEF to deal in foreign exchange. Foreign exchange bureaus, such as hotels, department stores, and travel agencies, need to register with Korea Customs Service. As of December 31, 2016, there were 1,493 foreign exchange bureaus. They may not enter into foreign exchange transactions directly with the BOK and are limited to purchasing and selling banknotes denominated in foreign currency and purchasing traveler’s checks issued in a foreign country.
Regulation Article 2-16, which regulates the tasks and duty of foreign exchange bureaus, was moved to Article 3-2.2. Foreign exchange bureaus can pay by domestic payment means to buy foreign currency or traveler’s check from residents or nonresidents. They are responsible for preparing exchange books, which contain exchange date, name of buyer (seller), personal information such as ID card number, exchange amount, applied exchange rate, and other transaction information and report the exchange books to Korea Customs Service. Spot foreign exchange transactions are allowed between security brokerages. The won-yuan spot foreign exchange market operates based on a market-making agreement with 12 designated market makers as of December 31, 2018.

| Operated by the central bank | No. |

Arrangements for Payments and Receipts

Prescription of currency requirements Yes. All settlements with other countries may be made in any currency. Nonresidents may conduct foreign exchange transactions and limited capital transactions denominated in won.

Controls on the use of domestic currency Yes. Nonresidents may conduct foreign exchange transactions and limited capital transactions denominated in won.

For current transactions and payments Yes. Nonresidents may conduct won-denominated current transactions only through nonresident free won accounts.

For capital transactions Yes. Nonresidents may conduct limited capital transactions denominated in won.
Transactions in capital and money market instruments | Yes.
Transactions in derivatives and other instruments | Yes.
Credit operations | No.
Use of foreign exchange among residents | No. Residents may conduct transactions denominated in foreign currency, provided the payments are made through foreign exchange banks.

**Payments arrangements**
- Bilateral payments arrangements | No.
- Operative | No.
- Inoperative | No.

**Regional arrangements** | No.

**Clearing agreements** | No.

**Barter agreements and open accounts** | No.

**Administration of control** | Yes. The MOEF may require authorization for residents and nonresidents to make payments from Korea to a foreign country or to nonresidents or receive payments from nonresidents, if these payments are necessary to fulfill obligations under treaties concluded by Korea and generally recognized international laws and regulations or when necessary for international peace and security.

**Payments arrears** | No.

**Official** | No.

**Private** | No.

**Controls on trade in gold (coins and/or bullion)** | No.
- On domestic ownership and/or trade | No.
- On external trade | No.

**Controls on exports and imports of banknotes** | No.
- On exports | No.
  - *Domestic currency* | No. Exports of domestic banknotes in excess of the equivalent of US $10,000 by residents and nonresidents must be declared to customs.
  - *Foreign currency* | No. Exports of foreign banknotes in excess of the equivalent of US $10,000 by residents and nonresidents must be declared to customs. Nonresidents may in addition export the amounts they hand-carried into Korea or exchanged during their stay.
- On imports | No.
  - *Domestic currency* | No. Residents and nonresidents must make a declaration to customs if the amount of domestic currency they bring into Korea exceeds the equivalent of US$10,000.
  - *Foreign currency* | No. Residents and nonresidents must make a declaration to customs if the amount of foreign currency they bring into Korea exceeds the equivalent of US$10,000.

Purchase locally by nonresidents

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.
purchases of listed shares issued by designated resident public sector utilities undergoing privatization if the investment would bring individual or aggregate holdings of foreign investors above the percentages allowed by law and to purchases of securities not quoted on a recognized securities market that may be subject to laws on inward direct investment and establishment.

Sale or issue locally by nonresidents No. Nonresidents are eligible to list their shares on the Korea Exchange in the form of depository receipts. However, the issuer must notify the MOEF.

Purchase abroad by residents No. Residents may freely purchase shares abroad, but purchases that are not made through an account exclusively for investment must be reported to the BOK.

Sale or issue abroad by residents No. Sale or issuance of foreign-currency-denominated shares abroad by residents requires notification to a designated foreign exchange bank. Sale or issuance of foreign-currency-denominated shares exceeding the equivalent of US$30 million or of won-denominated shares abroad by residents requires notification to the MOEF.

Bonds or other debt securities No. 

Purchase locally by nonresidents No. Nonresidents may freely purchase bonds and other debt securities issued by residents, but purchases that are not made through an account exclusively for investment must be reported to a designated foreign exchange bank or the BOK.

Sale or issue locally by nonresidents No. Nonresidents may issue bonds in the domestic capital market; however, the issuer must notify the MOEF.

Purchase abroad by residents No. Residents may freely purchase bonds abroad, but purchases that are not made through an account exclusively for investment must be reported to the BOK.

Sale or issue abroad by residents No. Sale or issuance of foreign-currency-denominated bonds abroad by residents requires notification to a designated foreign exchange bank. Sale or issuance of foreign-currency-denominated bonds exceeding the equivalent of US$30 million or of won-denominated bonds abroad by residents requires notification to the MOEF.

On money market instruments No. 

Purchase locally by nonresidents No. 

Sale or issue locally by nonresidents No. Nonresidents may issue money-market instruments in the domestic market; however, the issuer must notify the MOEF.

Purchase abroad by residents No. Residents may freely purchase money-market instruments abroad, but purchases that are not made through an account exclusively for investment must be reported to the BOK.

Sale or issue abroad by residents No. Sale or issuance of foreign-currency-denominated money-market instruments abroad by residents requires notification to a designated foreign exchange bank. Sale or issuance of foreign-currency-denominated money-market instruments exceeding the equivalent of US$30 million or of won-denominated money-market instruments abroad by residents requires notification to the MOEF.

On collective investment securities No. 

Purchase locally by nonresidents No. 

Sale or issue locally by nonresidents No. Nonresidents may sell collective investment securities through a domestic distributor after MOEF notification, provided they register the relevant foreign fund with the Financial Supervisory Commission (FSC).

Purchase abroad by residents No. Residents may freely purchase collective investment securities abroad, but purchases that are not made through an account

Certain examination requirements, such as financing and appropriateness, are applicable only for investments in
Inward direct investment | Yes.

Nonresidents may invest in Korea as long as they meet the requirements specified by relevant laws. Controls apply to (1) investment in primary sectors, as follows: (a) rice and barley cultivation; (b) cattle husbandry and wholesale meat sales unless foreign investors hold less than 50% of the share capital; (c) fishing in internal waters, the territorial sea, and the Exclusive Economic Zone if foreign investors hold 50% or more of the share capital; (d) nuclear power generation and electric power transmission, distribution, and supply via state enterprises if foreign investors hold 50% or more of the share capital or a foreign investor would become the single largest shareholder; (2) establishment of financial institutions, as follows: (a) branches of mutual savings and finance companies, short-term investment and finance companies, credit information companies, and merchant banks; (b) subsidiaries or joint ventures providing credit information services, if foreign investors other than foreign financial institutions own 50% or more of the shares, and acquisitions that cause foreign ownership by investors other than foreign financial institutions to reach or exceed 50% of the share capital; (3) investment in the transportation sector, as follows: (a) airline companies if foreign investors hold 50% or more of the share capital; (b) shipping companies engaged in cabotage, except those transporting passengers and/or cargo between Korea and the Democratic People’s Republic of Korea if foreign investors hold less than 50% of the share capital; (4) investment in the communications sector, as follows: (a) news agencies if foreign investors hold 25% or more of the share capital; (b) newspaper publishing if foreign investors hold 30% or more of the share capital; (c) periodicals publishing if foreign investors hold 50% or more of the share capital; (d) broadcasting, except if foreign investors hold 49% or less of the share capital of a satellite broadcasting operator and in a program provider not engaged in multigenre programming or news reporting; (e) a signal transmission network business operator, if foreign investors hold 20% or less in a program provider engaged in multigenre programming or a cable system operator and if foreign investors hold 10% or less in a news reporting program provider; and (f) facilities-based telecommunications, if foreign investors hold more than 49% of the share capital; and (5) investment in designated resident public sector utilities undergoing privatization, if the investment would bring individual or aggregate holdings of foreign investors above the respective percentages of a firm’s outstanding shares allowed by the relevant laws. Certain examination requirements prior to direct investment, including financing and appropriateness, are applicable only in the case of investment in the banking and insurance businesses.

| Controls on liquidation of direct investment | No. |
| Controls on real estate transactions | No. |
| Purchase abroad by residents | No. |

Neither acceptance nor notification is required for the acquisition of overseas real estate by residents for business purposes and by foreign exchange banks. Overseas purchases of real estate for any purpose other than residence require notification to a foreign exchange bank. Notification is required for overseas purchases of houses for residence for over two years by individuals. Amounts up to US$0.1 million, but not exceeding 10% of the estimated total cost of the property, may be transferred in advance of a real estate settlement, provided documents are available as a preliminary report before the contract is submitted.
| **Purchase locally by nonresidents** | No. | Nonresidents are free to purchase local real estate and its associated rights. The acquisition of real estate with imported funds requires notification to a designated foreign exchange bank. Otherwise, BOK notification is required. |
| **Sale locally by nonresidents** | No. | No controls apply if the real estate was acquired in compliance with foreign exchange regulations. |
| **Controls on personal capital transactions** | No. |
| **Loans** | No. |
| By residents to nonresidents | No. | BOK notification is required for all lending by residents to nonresidents. |
| To residents from nonresidents | No. | BOK notification is required for borrowing from nonresidents by personal residents. |
| **Gifts, endowments, inheritances, and legacies** | No. |
| By residents to nonresidents | No. | There is no limit, but residents intending to make endowments exceeding the equivalent of US$50,000 a year must notify the BOK and submit payment certificates to foreign exchange banks. |
| To residents from nonresidents | No. |
| **Settlement of debts abroad by immigrants** | No. |
| **Transfer of assets** | No. |
| Transfer abroad by emigrants | No. |
| Transfer into the country by immigrants | No. |
| **Transfer of gambling and prize earnings** | No. |
| **References to legal instruments and hyperlinks** | This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx. |

**Provisions Specific to the Financial Sector**

| **Provisions specific to commercial banks and other credit institutions** | Yes. |
| **Borrowing abroad** | No. | Foreign exchange banks are required to notify the MOEF of funding with maturities exceeding one year and amounts exceeding US$50 million. |
| **Maintenance of accounts abroad** | No. |
| **Lending to nonresidents (financial or commercial credits)** | Yes. | Lending in foreign currency by a foreign exchange bank to nonresidents does not require notification. However, credits and loans in domestic currency of more than W 30 billion granted by foreign exchange banks require BOK notification. |
| **Lending locally in foreign exchange** | Yes. | Foreign-currency-denominated loans to residents are restricted to funding overseas transactions. An exception is applied to small and medium manufacturers for the purposes of purchasing domestic facilities. |
| **Purchase of locally issued securities denominated in foreign exchange** | Yes. | Foreign exchange agencies are prohibited from investing in foreign-currency-denominated bonds issued domestically by residents with the intention of converting foreign currency to Korean won. |
| **Differential treatment of deposit accounts in foreign exchange** | Yes. | The reserve requirements on foreign currency deposit accounts are (1) 1% for nonresident/emigrant accounts and resident accounts opened by foreign exchange banks; (2) 2% for time deposits for... |
maturities of more than one month and installment savings deposits for maturities of more than six months and certificates of deposit for maturities of more than 30 days; and (3) 7% for foreign currency deposits, including demand deposits, except those indicated above.

**Liquid asset requirements**

Yes. Foreign exchange banks must maintain the following ratios: (1) stock of high-quality liquid assets to total net cash outflows over the next 30 calendar days, effective January 1, 2019, of 80% or more (for commercial banks and specialized banks except Korea Development Bank) and 60% or more for Korea Development Bank. Previously, the ratio of the stock of high-quality liquid assets to total net cash outflows over the next 30 calendar days, effective January 1, 2018, for commercial banks was increased to 70% or more from 60%, for specialized banks except Korea Development Bank to 60% or more from 40%, and for Korea Development Bank to 50% or more from 40%; and (2) foreign currency funds borrowed with maturities of more than one year to foreign currency loans with maturities of one year or longer of 100/100 or more.

**Interest rate controls**

No.

**Credit controls**

No.

**Differential treatment of deposit accounts held by nonresidents**

No. There is no difference in treatment of deposit accounts (in either foreign currencies or domestic currency) held by nonresidents and those held by residents.

**Reserve requirements**

No. The reserve requirement on nonresident foreign currency deposit accounts is 1%. The reserve requirements on nonresident domestic currency deposit accounts are (1) 0% for long-term savings for purchasing a house and worker’s asset building savings; (2) 2% for time deposits, installment savings deposits, mutual installments, housing installments, and certificates of deposit; and (3) 7% for other deposits, including demand deposits.

**Liquid asset requirements**

No.

**Interest rate controls**

No.

**Credit controls**

No.

**Investment regulations**

Yes.

**Abroad by banks**

No.

**In banks by nonresidents**

Yes. Nonfinancial business operators may acquire up to 4% of a bank’s total stock that have voting rights without restriction; acquisitions exceeding 4% require FSC approval.

**Open foreign exchange position limits**

Yes. A foreign exchange bank’s overall net open position, sum of overall net short positions, or sum of overall net long positions in each currency is limited to 50% of its total equity capital at the end of the previous month. The limits on banks’ foreign exchange derivatives contracts are 40% of bank capital for domestic banks and 200% for foreign bank branches.

**On resident assets and liabilities**

Yes. Controls apply to acquisition of foreign real estate by an insurance company that would cause the sum of its assets denominated in foreign currency to exceed 30% of its total assets. Controls also
apply to foreign-currency-denominated deposit accounts held by insurance companies whose assets denominated in foreign currency exceed 30% of total assets.

Insurance companies can invest in securities issued by nonresidents that (1) received investment grade (BBB- or higher by S&P or equivalent ratings by other credit rating agency), (2) specified guarantee by financial institution with investment grade or nonfinancial institution with high credit rating (A- or above by S&P or equivalent ratings by other credit rating agency), and (3) received investment grade from eligible credit rating agency designated by financial supervisory authority of issuing country in accordance with Basel standard (or equivalent standard adopted by issuing country).

Limits (max.) on securities issued by nonresidents
Yes.

Controls apply to the purchase of stock, money market fund, and collective investment securities issued in a foreign market or such securities issued in the domestic market but denominated in foreign currency that would cause the sum of its assets denominated in foreign currency to exceed 30% of its total assets.

Limits (max.) on investment portfolio held abroad
Yes.

Insurance companies are required to observe both of the following rules: (1) An insurance company’s assets denominated in foreign currency may not exceed 30% of its total assets; and (2) Their net position of foreign currency must be lower than 20% of solvency margin at the end of previous quarter. Net position of foreign currency is the absolute value of difference between foreign-currency-denominated asset and liability.

Limits (min.) on investment portfolio held locally
No.

There are no restrictions imposed by the relevant laws on the composition of foreign currency assets. For example, according to the National Pension Fund Act, there are no restrictions on the composition of the National Pension Fund’s foreign currency assets.

Currency-matching regulations on assets/liabilities composition
Yes.

According to the Financial Investment Services and Capital Markets Act, there are no restrictions on the investment composition of investment firms and collective investment funds.

Pension funds
No.

All restrictions on the composition of foreign currency assets have been lifted.

Investment firms and collective investment funds
No.

All restrictions on the composition of foreign currency assets have been lifted.

Changes during 2018 and 2019

Exchange Arrangement

Monetary policy framework
Inflation-targeting framework

Inflation target

Target number

Point target

01/01/2019

The inflation target for 2019 onwards has been set at 2%. The Bank of Korea (BOK) will review the inflation target in consultation with the government every two years and explain the review to the public. If adjustment of the inflation target becomes inevitable, due for instance to unexpected domestic or global economic shocks or to changes in economic conditions, the BOK will adjust the target in consultation with the government. Previously, the inflation target of 2% was set for a three-year period (2016–2018).

Accountability

Other

01/01/2019

The Bank of Korea (BOK) publishes twice a year an inflation assessment, which includes price developments, future inflation forecasts and risks, and the monetary policy stance for achieving price stability, and provides explanations of the assessment to the public through various means (or channels), such as by holding governor’s press conferences.

Previously, if the inflation deviated from the target by more than 0.5 percentage point (pp) in either direction for six consecutive months, the BOK would explain the reasons for the deviation, the prospect for inflation, the monetary policy strategy toward returning inflation to the target, etc., through a governor’s press conference. If the inflation subsequently deviates continuously, the BOK provided further explanations every three months.

Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions

Differential treatment of deposit accounts in foreign exchange

Liquid asset requirements

01/01/2018

The ratio of the stock of high-quality liquid assets to total net cash outflows over the next 30 calendar days for commercial banks was increased to 70% or more from 60%, for specialized banks except Korea Development Bank to 60% or more from 40%, and for Korea Development Bank to 50% or more from 40%.

01/01/2019

The ratio of the stock of high-quality liquid assets to total net cash outflows over the next 30 calendar days should be 80% or more (for commercial banks and specialized banks except Korea Development Bank) and 60% or more for Korea Development Bank. Previously, the ratio for commercial banks was 70%, for specialized banks except Korea Development Bank 60%, and for Korea Development Bank 50%.

Exchange Measures

| Restrictions and/or multiple currency practices | Yes. |
| Exchange measures imposed for security reasons | No. |
| In accordance with IMF Executive Board Decision No. 144-(52/51) | Yes. |

No restrictions as reported in the latest IMF staff report as of December 31, 2018.

Kosovo implements certain restrictive measures, such as freezing of funds, other financial assets, and economic resources.

On December 22, 2017, Kosovo notified the IMF that it maintains restrictions in accordance with UNSC resolutions, sanctions issued by institutions of the EU and the Government of the USA. Those restrictions are imposed purely for the preservation of national and international security.

On September 17, 2014, the Government of Kosovo issued a Decision No. 09/196 endorsing sanctions issued by institutions of the EU and the Government of the USA against legal entities and the authorities of Russia. On January 12, 2015, Kosovo Intelligence Unit approved an Administrative Directive on Prevention and Detection of Terrorism Financing. Article 4 of the Directive provides for lists of persons and entities suspected of terrorism as follows: Consolidated Lists of Individuals and Entities belonging to or associated with the Taliban and Al-Qaida Organization as established and maintained by the UNSC (UNSC Resolution No. 1267); the list established by the EU (UNSC Resolution No. 1267); the list established by the EU (EU Council Resolution No. 2580/2001); the list established by the Secretary State of the USA (Section 219 of the Immigration and Nationality Act of the USA).

Other security restrictions | No.

Exchange Arrangement

<table>
<thead>
<tr>
<th>Currency</th>
<th>Yes.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Other legal tender</td>
<td>No.</td>
</tr>
</tbody>
</table>

The euro is legal tender in Kosovo.

Exchange rate structure

Unitary | Yes.
Dual
Multiple

Classification

No separate legal tender | Yes. |

The exchange rate arrangement is an exchange arrangement with no separate legal tender. Since January 2002, when Kosovo unilaterally
adopted the euro, this currency is a legal tender in the Territory and circulates freely.
UNMIK Regulation No. 1999/4 of September 2, 1999, “On the currency permitted to be used in Kosovo” specifies in Section 1 that “Parties to a contract or any voluntary transaction may denominate such transaction in any currency agreed on by the parties. Unless proven otherwise, such an agreement must be deemed to exist with regard to any foreign currency that is widely accepted in the Territory of Kosovo.”
Administrative Direction No. 1999/2 of October 4, 1999, “Implementing UNMIK Regulation No. 1999/4 of 2 September 1999, On the Currency Permitted to be used in Kosovo” designated Deutschmark (DEM) as the only currency to formulate accounts and to perform compulsory payments. Later, because of the changeover of DEM into euro, Administrative Direction No. 2001/24 of December 21, 2001, “Amending Administrative Direction No. 1999/2 implementing UNMIK Regulation No. 1999/4 on the currency permitted to be used in Kosovo” replaced DEM by euro (1 euro = 1.95583 DEM).

Commercial banks and other financial institutions in Kosovo may purchase and sell euros for other currencies. There were 10 commercial banks and 42 foreign exchange bureaus participating in the foreign exchange market as of December 31, 2018. The foreign exchange market in Kosovo is limited because most international payments and transfers are done in euro.
Foreign exchange bureaus must be licensed and operate under the CBK regulation. The number of authorized foreign exchange bureaus is not limited. Foreign exchange bureaus may not do business directly with the CBK, and their operations are limited to the purchase and sale of foreign exchange banknotes.

Imports and Import Payments

Foreign exchange budget No.

Financing requirements for imports No.

Minimum financing requirements No.

Advance payment requirements No.

Advance import deposits No.

Documentation requirements for release of foreign exchange for imports No. Companies wishing to engage in foreign trade must register with the relevant ministry (however, this is not for the purpose for release of foreign exchange). Commercial banks may require documents verifying the purpose of the transaction before payment.

Domiciliation requirements No.

Preshipment inspection No.

Letters of credit No.

Import licenses used as exchange licenses No.

Other No.

Import licenses and other nontariff measures Yes. Imports are free of licensing requirements, except for certain products, consistent with international conventions (for example, arms, gold, diamonds, drugs, narcotics, hazardous waste). Some products, such as pharmaceuticals, fuel, and some agricultural products, require licenses, which are issued on a case-by-case basis. Imports are not limited according to quantity or value. There are statistical and security reporting requirements for residents’ external payments. Imports require only a commercial invoice, import customs declaration, and certificate of origin. From January 1, 2012, through December 31, 2015, Kosovo benefited from a preferential trade agreement with the EU. The Stabilisation and Association Agreement signed 2015 and entered into force April 1, 2016, extended the preferential trade agreement with the EU.

Positive list Yes.
| Negative list | Yes. | The importation of narcotic drugs or raw materials for the production or processing of narcotic drugs is prohibited. The importation of weapons, ammunition, or explosive is also prohibited. The importation of certain chemicals and pharmaceuticals is restricted. |
| Open general licenses | Yes. |
| Licenses with quotas | No. | Licenses for importation of goods are not issued with any value or volume quotas. |
| Other nontariff measures | Yes. | Rules apply to the quality of imported petroleum. Imported cars may be no more than 13 years old. |
| Import taxes and/or tariffs | Yes. | Commodity imports are subject to customs tariffs at 10% of the value of goods. Excise taxes are applied to certain products such as fuel, cars, alcoholic beverages, and tobacco; no customs tax is applied to a number of agricultural and food products. VAT is collected at customs clearance for many imported goods. Kosovo belongs to the Regional Free Trade Agreement known as CEFTA signed December 19, 2006, and applies tariffs on trade with members in accordance with the agreement. Effective November 6, 2018, the government imposed a 10% tariff on all products imported from Serbia and Bosnia and Herzegovina, and effective November 21, 2018, this tariff was increased to a 100%. |
| Taxes collected through the exchange system | No. |
| State import monopoly | No. |

**Exports and Export Proceeds**

| Repatriation requirements | No. |
| Surrender requirements | No. |
| **Surrender to the central bank** | No. |
| **Surrender to authorized dealers** | No. |
| Financing requirements | No. |
| Documentation requirements | Yes. |
| Letters of credit | No. |
| Guarantees | No. |
| Domiciliation | No. |
| Preshipment inspection | No. |
| Other | Yes. | During the arrangement of the export transaction’s financing by a bank, the bank conducts the normal credit risk assessment of the exporter and the latter is required to submit the commercial invoice and customs declaration to the bank providing financing. |
| Export licenses | Yes. | Exports are free of restrictions, except for certain products that are licensed for security or health reasons in accordance with international conventions and codes. From January 1, 2012, through December 31, 2015, Kosovo benefited from a preferential agreement with the EU. The Stabilisation and Association Agreement signed 2015 and entered into force April 1, 2016, extended the preferential... |
A trade agreement with the EU. Preferential rates allow exportation of all goods without customs duties or quantity limits (except for wine and some foods). Kosovo is also a beneficiary country in the GSP, which means that selected products may be exported duty free to the US market.

Licenses for exportation of goods are not issued with any value or volume quotas.

Export taxes
- Collected through the exchange system: No.
- Other export taxes: No.

Payments for Invisible Transactions and Current Transfers

- Controls on these transfers: No.
  - Documentation is required for transactions of €10,000 and above, including the reason for the transfer and the source of the funds (Regulation on Balance of Payments Statistics and International Investment Position). This is also required for the purpose of preventing AML/TF and is not a mean of control on these transfers. The bona fide test is mainly for Know Your Customer (KYC) test and not a test for transaction, so the documentation required is ID of the client.

Capital Transactions
Controls on capital transactions
Repatriation requirements
Surrender requirements
Surrender to the central bank
Surrender to authorized dealers

Controls on capital and money market instruments
On capital market securities
Shares or other securities of a participating nature
Purchase locally by nonresidents
Sale or issue locally by nonresidents
Purchase abroad by residents
Transactions in government securities are governed by the CBK and Ministry of Finance Regulation (MOF-CBK) No. 01/2014 on the Primary and Secondary Markets for Issuance and Trading of Government Securities.

Controls on banks’ purchase abroad of securities are applied for prudential regulation. There is only a quantitative limitation to a single counterparty exposures for the purpose of reducing credit risk concentration. There is no quantitative limitation on the overall amount of debt securities purchased abroad.

There is no control on international trade transactions or with the rendering of international services. The control in credit operation is limit on large exposures to bank capital. Large exposures include all on- and off-balance-sheet claims. There is also a quantitative limitation to a single counterparty exposures for the purpose of reducing credit risk concentration. There is no quantitative limitation on the overall amount of credit operations, including with nonresidents.

Resident legal entities and entrepreneurs may obtain commercial credits from nonresidents without restriction.

Exchange Arrangement

Currency
Yes. The currency of Kuwait is the Kuwaiti dinar.

Other legal tender
No.

Exchange rate structure
Unitary Yes.

Dual

Multiple

Classification

No separate legal tender

Currency board

Conventional peg
Yes. The exchange rate arrangement is a conventional peg. According to the law of the Central Bank of Kuwait (CBK), the exchange rate arrangement is specified by an “amiri” decree in consultation with the governor of the CBK (see CBK Law, Chapter I, Article II). The arrangement is a conventional peg vis-à-vis a currency composite. Intervention data are not disclosed to the public.

Stabilized arrangement

Crawling peg

Crawl-like arrangement

Pegged exchange rate within horizontal
Since May 20, 2007, the de jure exchange rate arrangement of the dinar has been a peg against an undisclosed basket of currencies, composed of Kuwait’s major trading and financial partner countries (Decree No. 147/2007), whereby the CBK declares on a daily basis the exchange rate of the dinar against the US dollar. The official exchange rate is used for accounting and valuation. The official exchange rate is disclosed to the market through the CBK website.

The monetary policy framework is an exchange rate anchor vis-à-vis a composite.

**Foreign exchange market** Yes. Commercial banks are free to determine the exchange rate in transactions with their clients.

**Spot exchange market** Yes. The CBK provides foreign exchange to 23 authorized Islamic and conventional banking counterparties and 41 exchange companies. The local and foreign banks (Islamic and conventional) are subject to licensing by the CBK. All foreign exchange transactions must process through a bank or licensed exchange companies. The CBK does not normally disclose information concerning the volume of exchange transactions conducted with institutions at the declared rate. The exchange companies are subject to licensing by the CBK. They may make foreign exchange transactions directly with the CBK, maintain accounts abroad, purchase and sell banknotes, and make foreign currency payments and transfers on behalf of their clients.

**Operated by the central bank** Yes.

**Foreign exchange standing facility** Yes. The CBK provides foreign exchange to authorized counterparties at the declared US dollar–Kuwaiti dinar rate versus verification of the underlying transactions’ bona fide nature. Dinars are quoted by the CBK against the US dollars on a total bid-ask spread of 10 basis points to authorized counterparties on the date of customer transactions. The CBK deals directly with the government and governmental entities.

Imports and Import Payments

Foreign exchange budget

No.
Financing requirements for imports  No.
Minimum financing requirements  No.
Advance payment requirements  No.
Advance import deposits  No.
Documentation requirements for release of foreign exchange for imports  No.
Domiciliation requirements  No.
Preshipment inspection  No.
Letters of credit  No.
Import licenses used as exchange licenses  No.
Other  No.

Import licenses and other nontariff measures  Yes.

Import licenses are required for all commercial imports other than fresh fruits and vegetables, wheat, and flour. Licenses are issued freely to registered Kuwaiti merchants and companies. To be registered, the importer must be either a Kuwaiti citizen, a firm in which all partners are Kuwaiti citizens, or a shareholding or limited liability company in which Kuwaiti citizens own at least 51% of the stock.

Positive list  No.

Negative list  Yes.

Imports of the following are prohibited: fireworks; oxygen; gas cylinders; certain steel and asbestos pipes; pork and foodstuffs containing pork; alcoholic beverages; gambling machines; some types of used vehicles more than five years old; portable telephones; chewing tobacco; products, machinery, or equipment that uses ozone-depleting materials; and fresh, chilled, frozen, or processed beef and/or its derivatives. Source-specific import measures apply.

There is a ban on the importation, promotion, marketing, manufacture, display, and sale of all commodities and products with obscene drawings, photographs, and prints or text that violates public morals or public order.

There is a ban on the importation, promotion, marketing, manufacture, display, and sale of cigarettes and all other tobacco products in the local market unless the following is indicated on each pack: a clear written health warning, in Arabic, on the front or side of the pack as follows: (Warning: Smoking is the leading cause of cancer, lung diseases, and heart and artery diseases). The nicotine and tar content may not exceed 0.8 and 12 mg, respectively, a cigarette; this should be clearly written in Arabic on the pack, and the month and year of production should be indicated.

There is a ban on the importation, possession, display, and sale of used tires of all types and sizes.

Also prohibited is the display or sale of new tires for passenger vehicles, buses, or light trucks produced within the past 24 months and for heavy trucks produced within the past 30 months.

There is a ban on the importation, promotion, marketing, display, and sale of any commodity or product carrying God’s name, verses from the Koran, prophetic sayings, prayers, drawings of holy places, and pictures of the prophets that ridicule or show contempt for Islam or any other monotheistic religion or that violate public morals.

There is a ban on the importation, display, marketing, sale, and...
possession by commercial companies or institutions and individuals of the following weapons without the permission of the Ministry of the Interior: (1) swords and epees (except swords used in formal missions, protocols, and ceremonies); (2) daggers; (3) bayonets; (4) spears and their blades; (5) darts and their blades; (6) tapered rods fixed by sticks or other materials; (7) sticks with reeals of thorns or other objects; (8) electrified sticks; (9) double-edged knives or knives with one and a half edges; (10) knives that open by hand or by a push button; and (11) iron knuckles.

There is a ban on the importation, display, marketing, sale, and trade by commercial companies and institutions of all types of chewing tobacco and betel quid with tobacco (or paan).

There is a ban on the importation, promotion, marketing, display, sale, trading, and possession by commercial companies and institutions of the following simulation guns: (1) Airstrike 240; (2) Power Line 93 Series; and (3) all similar guns and products operating in the same manner and causing the same damage.

A ban was imposed on the importation, promotion, marketing, display, and sale of melamine tableware by commercial companies or institutions if it contains urea formaldehyde, because of its negative impact on human health.

There is a ban on imports of radiation equipment and devices and radioactive materials by commercial companies and institutions, except with Ministry of Public Health approval.

There is a ban on the importation, distribution, sale, display, or circulation of foam soap and similar products. Foam soap factories may export foam soap and similar products, and importers may reexport them.

There is a temporary ban on imports of beef (chilled, frozen, or canned) from Brazil, because of mad cow disease.

There is a ban on imports of date palm shoots and coconut; ornamental palms and their parts infected with disease or blight; and on all types of palm trees, their parts, fruit, and waste from Maghreb countries, if infected with disease or blight.

There is a temporary ban on imports of shrimp (fresh, chilled, and frozen) and all shrimp products from India (as of January 5, 2017).

There is a temporary ban on imports of live catfish from Zimbabwe (as of January 5, 2017).

There is a temporary ban on imports of bovine animals’ meat (fresh, chilled, frozen, and processed) of all types and by-products from Canada (as of April 23, 2017).

As of May 7, 2017, imports of all kinds of carrots from Oman are prohibited, because of high levels of pesticide residues which exceeded the maximum residue limits as per Codex Alimentarius standards. An approved certificate of analysis from the exporting country must be attached to all other agricultural produce not included in the ban stating its commitment to the permitted maximum percentage of pesticide residues in accordance with the approved Codex Alimentarius standards for the permissible maximum limits of pesticide residues in agricultural and food products.

As of August 29, 2017, imports of all live ruminants and camels from Nigeria must be temporarily prohibited, because of the detection of Rift Valley fever.

As of November 11, 2017, there is a temporary ban on imports of crustaceans, such as shrimp, from the US state of Hawaii because of white spot syndrome and from the US state of Texas because of the detection of acute hepatopancreatic necrosis disease, except for the following: (1) products with heads and shells removed (except shrimp tails), provided all packages are tested visually and at the
laboratory; (2) products prepared for direct human consumption (marinated or prepared for grilling, frying, or any other method of cooking); and (3) thermally treated products, as prescribed in Article 9.8.3 of Kuwait’s Aquatic Animal Health Code, to ensure the elimination of the virus.

As of December 21, 2017, a temporary ban was imposed on the import of milk and milk products and milking equipment from the Republic of Chile, because of the detection of Q fever caused by cattle bacteria known as Coxiella Burnetii.

As of December 21, 2017, a temporary ban was imposed on the imports of baby food products made by French dairy Lactalis Nutrition Sante, brand name: Celia Expert & Premium Care, must be temporarily prohibited, because of possible contamination with Salmonella Agona bacteria until further notice. Further to this decision, as of December 25, 2017, the MCI prohibited and suspended these products from placing on the market, until further notice.

There is a temporary ban on imports of poultry meat (manufactured, chilled, fresh, or frozen) of all types and by-products and table eggs, except those thermally treated at 70°C, from Germany (as of January 5, 2017), United States (as of January 5, 2017), Bangladesh (as of March 21, 2017), Italy (as of March 21, 2017), South Korea (as of April 23, 2017), Taiwan (as of May 3, 2017), Russia (as of June 1, 2017), United Arab Emirates (as of June 1, 2017), Luxembourg (as of August 17, 2017), Philippines (as of August 30, 2017), Holland (as of October 10, 2017), Saudi Arabia (as of December 28, 2017), Mexico (the ban was lifted effective February 11, 2018, but reintroduced effective April 12, 2018), Togo (effective May 17, 2018), Nepal (effective June 7, 2018), Vietnam (effective August 16, 2018), Malaysia (effective August 16, 2018), Taiwan (effective August 16, 2018), Saudi Arabia (effective September 5, 2018), and Iran (effective December 10, 2018). The ban was lifted for India (effective December 2, 2018).

There is a temporary ban on imports of all kinds of live birds from Spain (effective January 15, 2018), Germany (effective October 8, 2018), Croatia (effective October 8, 2018), Brazil (effective October 8, 2018), and Romania (effective October 8, 2018).

There is a temporary ban on imports of live birds, day-old chicks, and hatching eggs of broilers and egg-laying hens from India except for imports from Bona City, Finches Company (as of February 14, 2017), Romania (as of February 28, 2017), Serbia (as of March 21, 2017), Saudi Arabia (effective January 4, 2018), Germany (effective January 15, 2018), United Kingdom (effective February 14, 2018), Ghana (effective March 26, 2018), Iran (effective March 26, 2018), Denmark (effective April 9, 2018), Mexico (effective April 9, 2018), Pakistan (effective April 9, 2018), US state of Texas (effective April 9, 2018), and US state of California (effective October 8, 2018). The ban was lifted for Tunisia (effective September 2, 2018) and US state of Missouri (effective September 2, 2018).

There is a temporary ban on imports of beef, sheep, and goat meat (fresh, chilled, frozen, and processed) of all types and by-products from Kazakhstan (effective April 12, 2018), Myanmar (effective June 7, 2018), Uganda (effective June 7, 2018), France (effective August 16, 2018), Kyrgyzstan (effective September 5, 2018), Namibia (effective December 10, 2018), and Italy (effective December 10, 2018). The ban was lifted for Algeria (effective December 2, 2018) and Zambia (effective December 2, 2018).

Effective February 14, 2018, there is a temporary ban on imports of
all equine species from Turkey. There is a temporary ban on imports of all equine and ruminant species from the US state of Kansas. Effective April 12, 2018, there is a temporary ban on imports of melons from Australia because of listeriosis, until further notice. Effective May 17, 2018, there is a temporary ban on imports of crustaceans, such as shrimp, from Vietnam, because of white spot syndrome and acute hepatopancreatic necrosis disease, except for the following: (1) frozen products with removed heads and shells (except for shrimp’s tails), provided all packages are being visually examined and laboratory tested and (2) thermally treated products to ensure the elimination of the virus by procedures prescribed in the Aquatic Animal Health Code. Effective May 17, 2018, there is a ban on imports of green cardamom from the Republic of India of (Al Jameel) Brand, production date 01/2018, expiry date 01/2020, sizes 125g with Barcode No. 6287011310494, 250g with Barcode No. 6287011310470, and 500g with Barcode No. 6287011310456 because of containing a Bifenthrin level that exceeds the maximum permitted levels of pesticide residues in the approved standard, until further notice. Effective May 17, 2018, there is a ban on imports of all kinds of oysters from Canada because of the detection of Norovirus, until further notice. Effective May 17, 2018, there is a ban on imports of the following tahini and halva products of “Al Burj” brand produced by the Syrian Arab Republic: (1) Tahini of production date 01/2018, expiry date 06/2019, sizes 400g with Barcode No. 6217000020417, and 800g with Barcode No. 6217000020646; (2) halva with extra pistachio of production date 01/2018, expiry date 06/2019, sizes 800g with Barcode No. 6217000020677 and 400g with Barcode No. 6217000020219; and (3) plain halva of production date 02/2018, expiry date 07/2019, size 800g with Barcode No. 6217000020172. Effective May 20, 2018, there is a ban on imports of wrag anab from Jordan of (Durra) Brand, production date 13/01/2018, expiry date 12/07/2019, Batch No. 010, sizes 400g and 1900g with Barcode No. 6210241895189. Effective December 2, 2018, there is a temporary ban on imports of all types of veal, lamb, and goat meat (fresh, chilled, frozen, and processed) and meat products from Somalia was lifted. Effective December 10, 2018, there is a ban on imports of American roman lettuce from the United States because of the outbreak of E.coli O157:H7.

Open general licenses
Yes. Imports of industrial equipment and machinery and their spare parts require industrial licenses, which are valid for one-time use. Licenses are issued to registered and licensed industrial establishments with the approval of the Industrial Development Commission at the MCI. Private imports of personal objects may be permitted under individual or specific licenses. Registered importers handling a variety of commodities may obtain a general license valid for one year. Other importers must obtain specific licenses for individual commodities, which are also valid for one year.

Licenses with quotas
No.

Other nontariff measures
Yes. Government procurement policies give preference to Kuwaiti-produced goods up to a price margin of 5% over goods produced in other GCC countries and 10% over goods produced in non-GCC countries.

Import taxes and/or tariffs
Yes. In accordance with the GCC Customs Union, a minimum tariff of 5% applies to non-GCC imports; there are no tariffs on imports from other GCC members with at least 40% local value added. Imports of foodstuffs and some machinery and equipment, spare parts, and raw
materials are exempt from import duties. Kuwait applies higher tariffs in industries with domestic producers that supply at least 40% of the local market. Tariff rates differ depending on the domestic-value-added content of the products in question. If domestically produced goods contain at least 20%, 30%, or 40% of domestic value added, protective duties of 15%, 20%, and 25%, respectively, may be applied to competing imports. The degree of protection is reduced by 5% in the case of consumer goods. The maximum duty imposed on products that compete with locally manufactured goods is 100%. Duties on goods imported from GAFTA member countries are being gradually reduced.

Taxes collected through the exchange system No.

State import monopoly No.

Exports and Export Proceeds

Repatriation requirements No.

Surrender requirements No.

Surrender to the central bank No.

Surrender to authorized dealers No.

Financing requirements No.

Documentation requirements No.

Letters of credit No.

Guarantees No.

Domiciliation No.

Preshipment inspection No.

Other No.

Export licenses Yes.

Without quotas No.

With quotas Yes.

Exports of live sheep and poultry, sugar, fats, rice, meat, eggs, milk, cheese, butter, olive oil, fresh fruits, vegetables in any form, beans, lentils, chickpeas, jams, and cement may be prohibited in times of emergency or shortages in Kuwait. At such times, these items may be exported in limited quantities only under a special license issued by the MCI. Exports of arms and ammunition also require licenses. Exports of scrap iron are temporarily prohibited. Exports of all fish and crustaceans caught in Kuwaiti regional waters or farms, whether fresh, chilled, frozen, or processed, are prohibited, except those from the Kuwaiti United Fisheries Company and the National Fisheries Company, which may export in frozen form 35% of their total prawn production, and those of other companies licensed to operate fish farms, which may export in chilled or frozen form 50% of their annual fish and crustacean production. Exports and reexports of fish and crustaceans (fresh, chilled, frozen, or manufactured) caught or farmed by licensed companies or individuals are subject to PAAF
approval during seasonal no-fishing periods, and marketing of all kinds of fish (chilled, trophy, dried, sliced, with additives, or canned) in free zones is subject to free zone regulation, except fish produced locally (from sea or farms), which is subject to PAAF regulation. The MCI determines in advance how much may be exported on an exceptional basis during the specified period, according to local market conditions. Exports of female lambs are prohibited. The Al-Muttahida Poultry Company may export 8,100 kg of frozen poultry products, and the Kuwait Agriculture Company may export 3,600 kg of frozen chicken. Companies, firms, and individuals licensed to export domestic and imported eggs require approval by the MCI, according to the PAAF local market surplus survey. Exports and reexports of locally manufactured goods and products containing more than 10% subsidized kerosene, including paint, detergent, and organic solvents, are prohibited. The percentage of subsidized kerosene is determined by the Kuwait National Petroleum Company. On October 26, 2017, exports of locally manufactured bottled water are prohibited.

Export taxes
No.

Collect through the exchange system
No.

Other export taxes
No.

2004, and effective in the same date.

The listing of foreign stocks and bonds on the Boursa Kuwait is subject to the approval of the Capital Market Authority.

**Purchase abroad by residents**

No.

**Sale or issue abroad by residents**

No.

**Bonds or other debt securities**

Yes.

**Purchase locally by nonresidents**

No.

**Sale or issue locally by nonresidents**

Yes. The listing of foreign stocks and bonds on the Boursa Kuwait is subject to the approval of the Capital Market Authority.

**Purchase abroad by residents**

No.

**Sale or issue abroad by residents**

Yes. Controls apply to banks and financial institutions subject to CBK supervision. Banks are subject to approval requirement set by CBK.

**On money market instruments**

Yes.

**Purchase locally by nonresidents**

No.

**Sale or issue locally by nonresidents**

Yes. The listing of foreign stocks and bonds on the Boursa Kuwait is subject to the approval of the Exchange Committee.

**Purchase abroad by residents**

No.

**Sale or issue abroad by residents**

No.

**On collective investment securities**

No.

**Purchase locally by nonresidents**

No.

**Sale or issue locally by nonresidents**

No.

**Purchase abroad by residents**

No.

**Sale or issue abroad by residents**

No.

**Controls on derivatives and other instruments**

Yes. According to CBK’s Capital Adequacy Framework:

Islamic banks are not permitted to undertake derivative transactions for speculative purposes and should only use these to hedge their exposures.

All positions by Islamic banks should also be compliant with shariah principles and approved by the respective SSB. The CBK has discretion to impose additional capital charges on such positions on case-by-case basis.

Islamic banks to use the applicable market accepted standard agreements such as the ISDA/IIFM Tahawwut Master Agreement (TMA).

**Purchase locally by nonresidents**

Yes.

**Sale or issue locally by nonresidents**

Yes.

**Purchase abroad by residents**

No.

**Sale or issue abroad by residents**

No.

**Controls on credit operations**

Yes. Credit facilities local banks may extend in dinars to nonresidents must be limited to those that finance dinar-denominated contracts awarded by government entities in Kuwait, while observing the terms and controls included in the CB instructions of May 2, 1995. The following are relevant in this regard: (1) Credit must be extended...
on a sound basis, particularly regarding the purpose of the credit; the consistency of the credit type, size, and currency with the actual needs of the customer and within the limits of the financed contract; and use of the credit for the purpose for which it was extended. In general, an integrated credit study must be conducted on the feasibility of the requested credit, taking into account the soundness of the customer’s financial position, the availability of repayment sources, the collateral submitted, and other considerations. (2) Banks should minimize their exposure to credit risk by distributing credit risk across a wide customer base, diversifying their credit facilities portfolio and distributing it across various sectors of the economy, and establishing maximum limits for risk associated with foreign credit, taking into account the nature of country risks. Banks must periodically review their credit policies and introduce appropriate amendments, particularly in regard to applied limits and delegated authority, all within the strategic direction of the bank and current developments.

Commercial credits

Yes.

By residents to nonresidents

Yes.

“Local banks are allowed to extend credit facilities in KD to nonresidents, without the need of seeking the CBK’s prior consent, for financing contracts whose value may not exceed KD 40 million, provided such facilities do not exceed 70% of the total value of each contract. As for other contracts or credit facilities exceeding such limits, they must require the prior consent of the CBK.
The following conditions must be satisfied in respect of all KD credit facilities extended by the local banks to their nonresident customers:
(1) The credit facilities extended in KD to nonresidents must be limited to financing the contracts denominated in KD, and awarded by government bodies in the State of Kuwait.
The financing bank must verify that the contracts to be financed are in fact real contracts, and must retain copies thereof.
(2) Finance extended for such cases must be limited for each separate contract, and may not be concluded through general credit lines extended to the borrowing customers.
(3) A Letter of Assignment over all the financed contract payments must be signed in favor of the lending bank. Such payments must be utilized for repayment of the granted credit facilities in compliance with such facilities conditions.”

To residents from nonresidents

No.

Financial credits

Yes.

By residents to nonresidents

Yes.

Credit facilities that local banks may extend in dinars to nonresidents must be limited to those that finance dinar-denominated contracts awarded by government entities in Kuwait, while observing the terms and controls included in the CB instructions of May 2, 1995. The CBK must allow the coverage of forward foreign exchange contracts, as well as the conversion of KD cash facilities to foreign currencies, up to a maximum of 50% of the contract value, where the bank must be responsible for financing the remaining portion of the contract value from its own resources.

To residents from nonresidents

No.

Guarantees, sureties, and financial backup facilities

No.

By residents to nonresidents

No.

To residents from nonresidents

No.
### Controls on direct investment

**Outward direct investment**  
No.

**Inward direct investment**  
Yes.  
Foreigners may own up to 49% of Kuwaiti companies and may establish 100% owned subsidiaries subject to the Kuwait Foreign Investment Law (Foreign Investment Bureau) and the conditions determined by the council of ministers. The Companies Law No. 1 of 2016 maintained the requirement that a Kuwaiti national own at least 51% of all local companies, unless foreign investors apply through the Kuwait Direct Investment Promotion Authority. The Council of Ministers Decision No. 75 of 2015 directed Kuwait Direct Investment Promotion Authority to exclude foreign firms from investment in the following sectors: extraction of crude petroleum, extraction of natural gas, manufacture of coke oven products, manufacture of fertilizers and nitrogen compounds, manufacture of gas, distribution of gaseous fuels through mains, real estate (excluding privately operated building development projects), security and investigation activities, public administration and defense, compulsory social security, activities of membership organizations, and labor hiring activities including domestic labor.

### Controls on liquidation of direct investment

No.

### Controls on real estate transactions

**Purchase abroad by residents**  
No.

**Purchase locally by nonresidents**  
Yes.  
Only GCC nationals may purchase real estate of up to 3,000 square meters for private residence purposes.

**Sale locally by nonresidents**  
Yes.

### Controls on personal capital transactions

No.

**Loans**

No.

By residents to nonresidents  
No.

To residents from nonresidents  
No.

**Gifts, endowments, inheritances, and legacies**  
No.

By residents to nonresidents  
No.

### Provisions Specific to the Financial Sector

**Provisions specific to commercial**  
Yes.
banks and other credit institutions

Borrowing abroad
Yes.
Controls apply to the sale and issuance of bonds and other debt securities abroad. Banks are subject to approval requirement set by CBK for the sale and issuance of bonds and other debt securities abroad.

Maintenance of accounts abroad
Yes.
CBK AML requirement states that banks may not enter into a cross-border correspondent or business relationship with a shell bank or correspondent financial institution in foreign country that allows its accounts to be used by a “shell bank.”

Lending to nonresidents (financial or commercial credits)
Yes.
Credit facilities local banks may extend in dinars to nonresidents are limited to those that finance dinar-denominated contracts awarded by government entities in Kuwait, in accordance with the terms and controls in the CBK instructions of May 2, 1995. When extending credit facilities to their resident and nonresident customers for work and projects outside Kuwait, local banks must comply with the minimum limits under CBK Instruction No. BSB/105/1993 concerning the Rationalization and Organization of Banks’ Credit Policy and the relevant circulars. The following are relevant in this regard: (1) Credit must be extended on a sound basis, particularly regarding the purpose of the credit; the consistency of the credit type, size, and currency with the actual needs of the customer and within the limits of the financed contract; and use of the credit for the purpose for which it was extended. In general, an integrated credit study is required on the feasibility of the requested credit, taking into account the soundness of the customer’s financial position, the availability of repayment sources, and the collateral submitted, among other considerations. (2) Banks should minimize their exposure to credit risk by distributing risk across a wide customer base, diversifying their credit facilities portfolio and distributing it across various sectors of the economy, and establishing limits for risk associated with foreign credit, taking into account the nature of country risks. Banks must periodically review their credit policies and introduce appropriate amendments, particularly in regard to applied limits and delegated authority, all within the strategic direction of the bank and current developments.

Lending locally in foreign exchange
Yes.
Banks are also required to follow up the customer’s observance of the purpose for which these facilities were extended, whereby that review should encompass assessing the customer’s need for the requested foreign currencies to finance his activities, and the real utilization of such currencies within the request for credit. Additionally, banks must verify the availability of sources of repayment in the same currencies.

04/12/2018
Imports of beef, sheep, and goat meat (fresh, chilled, frozen, and processed) of all types and by-products are banned from Kazakhstan.

04/12/2018
Imports of melons are temporarily banned from Australia.

05/17/2018
Imports of all kinds of oysters are banned from Canada.

05/17/2018
Imports of crustaceans, such as shrimp, are temporarily banned from Vietnam except for the following: (1) frozen products with removed heads and shells (except for shrimp’s tails), provided all packages are being visually examined and laboratory tested and (2) thermally treated products to ensure the elimination of the virus by procedures prescribed in the Aquatic Animal Health Code.

05/17/2018
Imports of green cardamom from the Republic of India of (Al Jameel) Brand, production date 01/2018, expiry date 01/2020, sizes 125g with Barcode No. 6287011310494, 250g with Barcode No. 6287011310470, and 500g with Barcode No. 6287011310456 are banned.

05/17/2018
Imports of the following tahini and halva products of “Al Burj” brand produced by the Syrian Arab Republic: (1) Tahini of production date 01/2018, expiry date 06/2019, sizes 400g with Barcode No. 6217000020417, and 800g with Barcode No. 6217000020646; (2) halva with extra pistachio of production date 01/2018, expiry date 06/2019, sizes 800g with Barcode No. 6217000020677 and 400g with Barcode No. 6217000020219; and (3) plain halva of production date 02/2018, expiry date 07/2019, size 800g with Barcode No. 6217000020172 are banned.

05/20/2018
Imports of wrag anab from Jordan of (Durra) Brand, production date 13/01/2018, expiry date 12/07/2019, Batch No. 010, sizes 400g and 1900g with Barcode No. 6210241895189 are banned.

06/07/2018
Imports of beef, sheep, and goat meat (fresh, chilled, frozen, and processed) of all types and by-products from Myanmar and Uganda are banned.

06/07/2018
Imports of poultry meat (manufactured, chilled, fresh, or frozen) of all types and by-products and table eggs, except those thermally treated at 70°C from Nepal, are banned.
Imports of live birds, day-old chicks, and hatching eggs of broilers
and egg-laying hens from Malaysia are temporarily banned.

Imports of poultry meat (manufactured, chilled, fresh, or frozen) of all types and by-products and table eggs, except those thermally treated at 70°C, from Malaysia, Taiwan and Vietnam are banned.

Imports of beef, sheep, and goat meat (fresh, chilled, frozen, and processed) of all types and by-products from France are banned.

The ban on imports of live birds, day-old chicks, and hatching eggs of broilers and egg-laying hens from Tunisia and US state of Missouri is lifted.

Imports of beef, sheep, and goat meat (fresh, chilled, frozen, and processed) of all types and by-products from Kyrgyzstan are banned.

Imports of poultry meat (manufactured, chilled, fresh, or frozen) of all types and by-products and table eggs, except those thermally treated at 70°C from Saudi Arabia, are temporarily banned.

Imports of all kinds of live birds from Brazil, Croatia, Germany and Romania are temporarily banned.

Imports of live birds, day-old chicks, and hatching eggs of broilers and egg-laying hens from the US state of California are banned.

The ban on imports of poultry meat (manufactured, chilled, fresh, or frozen) of all types and by-products and table eggs, except those thermally treated at 70°C from India, is lifted.

The ban on imports of all types of veal, lamb, and goat meat (fresh, chilled, frozen, and processed) and meat products from Somalia is lifted.

The ban on imports of beef, sheep, and goat meat (fresh, chilled, frozen, and processed) of all types and by-products from Algeria Zambia is lifted.

Imports of American roman lettuce from the United States are banned.

Imports of beef, sheep, and goat meat (fresh, chilled, frozen, and processed) of all types and by-products from Italy and Namibia are banned.

Imports of poultry meat (manufactured, chilled, fresh, or frozen) of all types and by-products and table eggs, except those thermally treated at 70°C from Iran, are banned.
KYRGYZ REPUBLIC

(Position as of October 31, 2019)

Status under IMF Articles of Agreement

Date of membership

Article VIII
Yes. Date of acceptance: March 29, 1995.

Article XIV

Exchange Measures

Restrictions and/or multiple currency practices
Yes. The IMF staff report for the Fourth and Fifth Reviews under the Three-Year Arrangement under the Extended Credit Facility and Request for Modification of Performance Criteria with the Kyrgyz Republic states that as of December 6, 2017, the Kyrgyz Republic maintained a MCP, which predates the arrangement, arising from the use of the official exchange rate for government transactions. The official rate may differ by more than 2% from market rates because it is based on the average transaction-weighted rate of the preceding day. (Country Report No. 18/53)

Exchange measures imposed for security reasons
Yes. The Kyrgyz Republic maintains certain exchange restrictions in accordance with UNSC resolutions to combat the financing of terrorism and for anti-money-laundering purposes.

In accordance with IMF Executive Board Decision No. 144-(52/51)
Yes.

Other security restrictions
Yes. Measures have been adopted that restrict financial transactions and freeze the accounts of certain individuals and organizations associated with terrorism, pursuant to UNSC resolutions, the current FATF list of terrorist organizations, and a list of individuals and entities involved in terrorism and/or extremist activities, or in the proliferation of weapons of mass destruction, compiled by the State Financial Intelligence Service under the Government of the Kyrgyz Republic (GKR).

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exchange Arrangement

Currency
Yes. The currency of the Kyrgyz Republic is the Kyrgyz som.

Other legal tender
No.

Exchange rate structure

Unitary

Dual
Yes. The exchange rate structure is dual, since the official rate may differ by more than 2% from market rates because it is based on the average transaction-weighted rate from 3:00 p.m. of the preceding trading day until 3:00 p.m. of the current trading day. In practice, the official and market rates have never differed by more than 2%. Since 2010, the official exchange rate of the US dollar against the som has been calculated daily as the weighted average of the exchange rates used in US dollar purchase and sale transactions carried out in the exchange market through the NBKR’s Automated Trading System (ATS) for the reporting period from 3:00 p.m. of the previous trading day until 3:00 p.m. of the current trading day. In practice, the official and market rates have never differed by more than 2%.
Since 2012, the official exchange rates of the euro, ruble, and tenge have been determined daily. The official exchange rates of other foreign currencies are determined on a weekly basis, based on the cross-rates of quotes for these currencies against the US dollar in international financial markets.

Multiple

Classification

No separate legal tender

Currency board

Conventional peg

Stabilized arrangement Yes.

The de jure exchange rate arrangement is floating. The NBKR participates and intervenes in the interbank foreign exchange market to limit exchange rate volatility as necessary. The de facto exchange rate arrangement was reclassified retroactively to stabilized from other managed, effective July 11, 2017. Information on interventions is published on the NBKR’s official website on the day an intervention is performed, after the close of the trading day. Data on the date of the intervention and the volume purchased or sold in US dollars are published.

Crawling peg

Crawl-like arrangement

Pegged exchange rate within horizontal bands

Other managed arrangement

Floating

Free floating

Official exchange rate Yes.

Since 2010, the official exchange rate of the US dollar against the som has been calculated daily as the weighted average of the exchange rates used in US dollar purchase and sale transactions carried out in the exchange market through the NBKR’s ATS for the reporting period from 3:00 p.m. of the previous trading day until 3:00 p.m. of the current trading day.

Since 2012, the official exchange rates of the euro, ruble, and tenge have been determined daily. The official exchange rates of other foreign currencies are determined on a weekly basis, based on the cross-rates of quotes for these currencies against the US dollar in international financial markets. The NBKR determines and announces the official exchange rates of foreign currency against the som for accounting and settlement purposes, without any obligation to buy or sell foreign currency at these rates.

Other monetary framework Yes. The NBKR’s goal is to achieve and maintain price stability, as
specified in the Kyrgyz Republic Law on the NBKR, Banks, and Banking. In accordance with the Medium-Term Monetary Policy Guidelines (approved by Executive Board Resolution No. 2017-P-07/51-1-(DKP) of December 13, 2017), the intermediate target of monetary policy is an inflation forecast based on a comprehensive analysis of the macroeconomic situation in the Kyrgyz Republic and in the external environment. The National Bank’s discount rate as the main monetary policy instrument is a benchmark for the cost of funds in the money market. Short-term money market interest rates serve as an operational monetary policy benchmark.

Exchange tax No.

Exchange subsidy No.

Foreign exchange market Yes.
The National Bank defines the procedure and conditions for the performance of transactions in the interbank foreign exchange market and it develops and implements a single foreign exchange policy and regulation in the Kyrgyz Republic. Transactions involving the purchase and sale (exchange) of cash and noncash domestic and/or foreign currency within the Kyrgyz Republic are not restricted and are performed at banks, specialized financial and financial and lending institutions, microfinance companies, microcredit companies, credit unions, and exchange bureaus with the relevant license from the National Bank.

Spot exchange market Yes.
Transactions involving the purchase and sale (exchange) of cash and noncash domestic and/or foreign currency within the Kyrgyz Republic are not restricted and are performed only at banks, specialized financial and financial and lending institutions, microfinance companies, microcredit companies, credit unions, and exchange bureaus with the relevant license from the National Bank. The procedure and conditions for the performance of transactions involving the purchase and sale (exchange) of cash and noncash domestic and/or foreign currency, as well as requirements imposed on authorized persons, are determined by the National Bank (Article 36 of the Kyrgyz Republic Law on the NBKR, Banks, and Banking, and the Law on Transactions in Foreign Currency).

As of June 1, 2019, there were 25 licensed commercial banks (including one branch of a foreign bank), 408 foreign currency exchange bureaus, 8 microfinance companies licensed to perform certain banking operations in foreign currency, and 2 microcredit companies licensed to perform the purchase and sale of foreign currency on their own behalf.

In accordance with Article 11 of Kyrgyz Republic Law No. 206 of December 16, 2016, on the NBKR, Banks, and Banking, commission fees and rates for the performance of banking services are set independently by the persons performing the banking services, in accordance with the requirements of the banking legislation of the Kyrgyz Republic.

In accordance with Article 35 of the same law, the official exchange rate is determined and announced by the National Bank on the basis of the market spot exchange rate and other market rates. The official exchange rate is determined and announced by the National Bank with an obligation on the part of the National Bank to purchase and sell foreign currency at the announced exchange rates, and at the same time, pursuant to paragraph 2 of the same article, the spot exchange rate and other market rates are freely determined between the seller and the buyer, unless otherwise established by the National Bank.

In accordance with Article 2-1 of Kyrgyz Republic Law No. 116 of July 22, 2011, on Competition, anti-monopoly regulation in the
banking services market is performed by the NBKR in accordance with regulatory legal acts, compliance with which is mandatory for commercial banks and other financial and lending institutions licensed and regulated by the NBKR. The sale and purchase of cash and noncash foreign exchange through clearing transactions, payment of traveler’s checks, and payments in foreign currency are limited to NBKR-licensed banks. Licenses to perform the activity of a foreign currency exchange bureau are issued only to legal entities. The activities of foreign currency exchange bureaus are licensed and regulated by the NBKR. Foreign currency exchange bureaus may conduct only transactions specified in their licenses. They may not perform foreign exchange transactions directly with the CB. Legal entities that open exchange bureaus and have a license to perform exchange transactions with foreign exchange cash may without restriction purchase and sell using their own resources (within the limits of their reported working capital) and on their own behalf only foreign exchange cash, and only in exchange for cash domestic currency. Exchange bureaus must provide information on the sources of their working capital (NBKR Executive Board Resolution No. 53/10 of November 27, 2014). If a legal entity opens an account abroad, this does not mean that this is an account of the foreign currency exchange bureau. A foreign currency exchange bureau itself may not open an account abroad. To engage in the purchase and sale of foreign currency on its own behalf, credit union and microcredit company have to obtain an additional license from the NBKR. A microfinance company has to obtain a license to perform certain banking operations in foreign currency. A specialized financial and lending institution has to obtain licenses to perform exchange operations with foreign currency.

Operated by the central bank Yes.

Foreign exchange standing facility Yes. The NBKR participates in the foreign exchange market for the purpose of smoothing out excessive fluctuations in the exchange rate. The NBKR deals directly with market participants. Foreign currency interventions have not been performed on an ongoing basis but have been isolated events.

Allocation No.

Auction No.

Fixing No.

Interbank market Yes. The foreign exchange market operates within the framework of the ATS. Electronic trading is carried out daily from 10:00 a.m. to 5:00 p.m. except on weekends. To become a participant in the interbank foreign exchange market, a financial institution must obtain a license for foreign exchange transactions and sign the Agreement on Participation in ATS. The NBKR grants licenses for foreign exchange transactions. Twenty-five commercial banks (including one branch of a foreign bank) have been licensed and have signed agreements on participation in the ATS. There are no limits on the bid-ask spreads, nor are there any commissions. The NBKR performs transactions directly with market participants at their quoted rates.

Over the counter No.

Brokerage No.

Market making Yes. Market participants continuously report buying and selling prices and volumes to other market participants. The minimum allowable volume of an ATS bid for US dollars is US$50,000. There are no
limits on the bid-ask spreads, and no commission is charged by market participants. The foreign exchange market operates on the basis of market-making agreements.

Forward exchange market No.

Official cover of forward operations No.

Arrangements for Payments and Receipts

Prescription of currency requirements Yes.

Controls on the use of domestic currency No.

For current transactions and payments No. Kyrgyz Republic Civil Code No. 15 of May 8, 1996, states that the som is legal tender throughout the entire territory of the Kyrgyz Republic, and it must be accepted at face value. Law No. 206 of December 16, 2016, on the NBKR, Banks, and Banking also stipulates that the som is the sole legal tender within the Kyrgyz Republic and legal entities and individuals are required to accept it without restriction.

For capital transactions No. The Civil Code of the Kyrgyz Republic states that the som is legal tender throughout the entire territory of the Kyrgyz Republic, and it must be accepted at face value. The Law on the NBKR, Banks, and Banking also stipulates that the som is the sole legal tender within the Kyrgyz Republic and legal entities and individuals are required to accept it without restriction.

Transactions in capital and money market instruments No. In accordance with the Regulation on the Issue, Placement, Circulation, and Redemption of Government Securities of the Kyrgyz Republic, approved by Kyrgyz Republic Government Resolution No. 556 of October 2, 2008, the Kyrgyz Republic Government has the right to issue government treasury bonds in the domestic currency of the Kyrgyz Republic and in foreign currency.

Transactions in derivatives and other instruments No. The Civil Code of the Kyrgyz Republic states that the som is legal tender throughout the entire territory of the Kyrgyz Republic, and it must be accepted at face value. Law No. 206 of December 16, 2016, on the NBKR, Banks, and Banking also stipulates that the som is the sole legal tender within the Kyrgyz Republic and legal entities and individuals are required to accept it without restriction.

Credit operations No. The Civil Code of the Kyrgyz Republic states that the som is legal tender throughout the entire territory of the Kyrgyz Republic, and it must be accepted at face value. The Law on the NBKR, Banks, and Banking also stipulates that the som is the sole legal tender within the Kyrgyz Republic and legal entities and individuals are required to accept it without restriction.

Use of foreign exchange among residents Yes. Legal tender is the domestic currency, but foreign currency may be used for deposit and loan operations. However, pursuant to National Bank Executive Board Resolution No. 7/3 of February 10, 2016, amendments and additions were made to regulatory legal acts of the NBKR, according to which financial and lending institutions are prohibited from providing consumer and mortgage loans in foreign currency to individual borrowers. Pursuant to Kyrgyz Republic Government Resolution No. 135 of March 18, 2016, monetary obligations on price tags and labels for goods (products), articles made of precious metals and precious stones, and price lists for services provided must be expressed in the domestic currency of the Kyrgyz Republic.

The NBKR is the government body for foreign exchange regulation and exercises this function by issuing regulations on the conduct of foreign currency transactions; issuing and revoking licenses to exchange intermediaries, including banks; and exercising supervision over their activities pursuant to laws of the Kyrgyz Republic.

Technical indebtedness to official bilateral creditors is allowed as a result of discussions with Paris Club creditors in March 2005 on restructuring the Kyrgyz Republic’s external debt. Within the framework of agreements with the Paris Club, debt consolidation and restructuring agreements have been signed with Denmark, France, Germany, Japan, Russia, and Turkey. In addition, the Kyrgyz Republic has negotiated and entered into agreements on settling debt to Uzbekistan and the Kuwait Arab Economic Development Fund and on writing off debt to China, India, and Pakistan. In 2011, an agreement was entered into writing off a debt to Turkey (US$49.2 million). In 2012, an agreement was signed for settling the Kyrgyz Republic’s debt to Russia (US$488.9 million).

In 2013, the ratification procedure was completed on an agreement between the Kyrgyz Republic and Russia on settlement of debt to Russia for credits previously provided, signed May 22, 2013, and a debt of US$188.9 million received a one-time write-off. Debt in the amount of US$300 million will be written off in stages from 2016 through 2025, in annual installments of US$30 million. In accordance with the Agreement on the Settlement of Debt to Russia, debt in the amount of US$30 million was written off in March 2016.

On June 20, 2017, a Protocol was signed to the Agreement between the GKR and the Government of Russia on the settlement of the debt of the Kyrgyz Republic to Russia on previously granted loans, signed September 20, 2012, providing for a one-time write-off on the date of the entry into force of the Protocol of 100% of the amount of the debt (US$ 240 million). The Protocol became effective February 22, 2018; thus, there is no state debt of the Kyrgyz Republic to Russia.

In 2014, the Agreement on the Restructuring of the Kyrgyz Republic’s Debt to the Export-Import Bank of Korea was ratified. In 2014, an agreement on a second amendment to the Agreement on the Modernization of the Telecommunications Network Between the Kyrgyz Republic Government and the Export-Import Bank of Korea Project took effect, according to which the Kyrgyz Republic’s debt to the Republic of Korea was restructured.

The Debt Restructuring Agreement of November 19, 2013, makes it possible to reduce annual payments from 1.2 billion Korean won (about US$1.1 million) to 0.4 billion Korean won (US$0.3 million). The deadlines for repayment of the principal have been extended to 2045, with payments scheduled to begin in 2018. This will substantially reduce the burden on the expenditure side of the Kyrgyz Republic.
Republic budget with regard to the servicing of external public debt over the medium and long term. In March 2016, on the basis of the Agreement of March 31, 2010, and the Agreement of December 11, 2012, debt to the KfW bank (Germany) in the amount of 13.5 million euros was written off.

Private

<table>
<thead>
<tr>
<th>Controls on trade in gold (coins and/or bullion)</th>
<th>Yes.</th>
</tr>
</thead>
</table>

Legal entities and individuals may participate in the precious metals market in transactions in minted, standard, and nonstandard bullion. Pursuant to Article 7(2) of the Kyrgyz Republic Law on Precious Metals and Precious Stones, the Kyrgyz Republic Government and the National Bank have priority in the purchase of refined precious metals. Pursuant to Article 7(3), precious metals sold in primary trading may subsequently be traded freely in the secondary market.

On domestic ownership and/or trade

Yes.

Relations involving the purchase and sale of precious metals in the form of measured, standard, and nonstandard bullion in primary trading within the Kyrgyz Republic are governed by the Regulation on the Performance of Transactions Involving the Purchase and Sale of Precious Metals in the Form of Measured, Standard, and Nonstandard Bullion, pursuant to Kyrgyz Republic Government Resolution No. 834 of December 9, 2002. The legislation of the Kyrgyz Republic does not provide for restrictions on domestic ownership of gold or trading domestically in gold.

The Department of Precious Metals within the MOF of the Kyrgyz Republic performs assay supervision to ensure compliance by legal entities and individuals carrying out precious metal transactions. The NBKR limits commercial banks’ open position in precious metals. The limits on open positions in precious metals are carried out similarly to the limits on open positions in foreign currency: the limit for each precious metal is 15% of the net total capital of commercial banks and the limit for all precious metals is 20% of the net total capital of commercial banks. Commercial banks submit balances daily to the NBKR for each type of precious metal as well as information on compliance with open foreign exchange position limits for precious metals as part of their reporting requirements.

Pursuant to Article 11 of the Kyrgyz Republic Law on Precious Metals and Precious Stones, supervision of compliance by persons performing operations (transactions) with precious metals and precious stones and jewelry articles thereof (including scrap) with the requirements of the Kyrgyz Republic legislation on combating the financing of terrorism and money laundering is performed in accordance with the legislation of the Kyrgyz Republic (Kyrgyz Republic Law No. 87 of August 6, 2018, on Combating the Financing of Terrorist Activity and Money Laundering; Kyrgyz Republic Government Resolution No. 606 of December 25, 2018, on Measures to implement the Kyrgyz Republic Law on Combating the Financing of Terrorist Activity and Money Laundering).

On external trade

Yes.

In accordance with the regulation on the import and export of precious metals and raw materials containing precious metals into and from the customs territory of the Eurasian Economic Union (EAEU), approved by Decision No. 30 of the Eurasian Economic Commission (EAEC) Board of April 21, 2015, imports and exports of unprocessed gold or silver (only refined gold or silver in the form of ingots, plates, powder, and granules, as well as gold used for the minting of coins) into and from the customs territory of the EAEU are subject to licensing.

The import and export of precious metals and precious stones in any form, with the exception of those subject to a state monopoly in accordance with Article 4 of the Kyrgyz Republic Law on Precious Metals and Precious Stones, into and from the territory of the Kyrgyz
Republic, are performed by legal entities and individuals in accordance with decisions of the EAEC and the legislation of the Kyrgyz Republic, accompanied by mandatory declaration at customs control posts.

Documentation requirements for release of foreign exchange for imports

- No.

Domiciliation requirements

- No.

Preshipment inspection

- No.

Letters of credit

- No.

Import licenses used as exchange licenses

- No.

Other

- No.

Import licenses and other nontariff measures

- Yes.

Imports of goods included in the Uniform List of Goods Subject to Nontariff Regulatory Measures in Trade with Third Countries are carried out in accordance with the legal framework of the EAEU (Appendix No. 7 to the EAEU Treaty), approved by EAEC Board Decision No. 30 of April 21, 2015. In addition to licensing, the export and import of goods included in the Uniform List, there are bans on the import into the territory of the Union of certain goods and quantitative restrictions – quotas on imports of certain agricultural products. Import of goods subject to control, armaments and military equipment, as well as other military products, is regulated by the legislation of the Kyrgyz Republic. Effective December 31, 2018, temporary regulations (implemented February 20, 2017), on the procedure for licensing the import and export of arms and military equipment, as well as other military products, approved by the GKR on February 3, 2017, No. 67, expired.

Positive list

- No.

Negative list

- Yes.

A list of goods the import and/or export of which to or from the customs territory of the EAEU is prohibited was approved by EAEC Board Decision No. 30 of April 21, 2015. The list is contained in Sections 1.1, 1.2, 1.3, 1.4, 1.6, 1.7, 1.8, and 1.9.

Open general licenses

- Yes.

In accordance with Kyrgyz Republic Law No. 195 of October 19, 2013, on the Licensing and Permitting System in the Kyrgyz Republic, and Annex No. 7 to the EAEU Treaty, authorized agencies issue the following types of licenses: one-time licenses; general licenses (Kyrgyz Republic Government Resolution No. 197 of April 2, 2014, on Approval of the Kyrgyz Republic National Control List of Controlled Products, the Uniform List of Goods Subject to Nontariff Regulatory Measures in Trade with Third Countries, and the Regulation on the procedure for the import and/or export of these goods, which are subject to nontariff regulatory measures in trade with third countries, approved by EAEC Board Decision No. 134 of August 16, 2012, and No. 30 of April 21, 2015; the Kyrgyz Republic Law on the Licensing and Permitting System).

Licenses with quotas

- Yes.

The legal framework of the EAEU applies for licenses with quotas. For example, for the import of poultry, beef, and pork, licenses are issued based on quotas.

Other nontariff measures

- Yes.

Pursuant to Article 285 of the Kyrgyz Republic Tax Code of October 17, 2008, No. 230, excise taxes apply to:

1. Undenatured ethyl alcohol with alcohol concentration of 80% or more, denatured ethyl alcohol, and other liqueurs of any concentration classified under position 2207 of the Foreign Economic Activity Commodity Nomenclature (TNVED);
2. Malt beer; natural grape wines, including fortified wines; grape must, except for that classified under TNVED commodity position 2009; vermouth and other natural grape wines with added vegetable or aromatic substances; other fermented beverages (for example,
cider, perry or pear cider, mead); blended fermented beverages, and mixtures of fermented beverages and nonalcoholic beverages, and low-alcohol beverages not elsewhere named or included; undenatured ethyl alcohol with alcohol concentration less than 80% by volume; alcoholic tinctures, liqueurs, and other alcoholic beverages classified under TNVED commodity positions 2203, 2204, 2205, 2206, and 2208;

(3) tobacco products such as cigars, cheroots, cigarillos (thin cigars), and cigarettes made of tobacco or tobacco substitutes classified under TNVED commodity position 2402;

(4) other products containing tobacco such as other industrially manufactured tobacco and industrial tobacco substitutes; homogenized or reconstituted tobacco; tobacco extracts and essences classified under TNVED commodity position 2403; and

(5) crude oil and crude petroleum products derived from bituminous rock; oil and other petroleum products, other than crude, derived from bituminous rock; products not elsewhere named or included containing 70% or more by mass of oil or petroleum products from bituminous rock, if these petroleum products are the products’ main component; and spent petroleum products classified under TNVED commodity positions 2709 and 2710.

There are quantitative limits on exports of precious metals and raw materials containing precious metals from the Kyrgyz Republic.

Import taxes and/or tariffs

Yes. According to the EAEU Uniform Customs Tariff, approved by EAEC Decision No. 54 of July 16, 2012, import duties are applied at rates ranging from 0% to 80%.

According to the Kyrgyz Republic Tax Code, the VAT on taxable imports is levied at a 12% rate. The excise tax is levied in an amount ranging from som 3 to som 5,000, depending on the type of product, according to the Kyrgyz Republic Tax Code and Kyrgyz Republic Government Resolution No. 735 of December 30, 2008.

Taxes collected through the exchange system

No.

State import monopoly

No.

Surrender requirements  No.
Surrender to the central bank  No.
Surrender to authorized dealers  No.
Controls on capital and money market instruments  Yes.
On capital market securities  Yes.

The Kyrgyz Republic Government’s State Financial Market Regulation and Supervision Service (Gosfinnadzor) is the authorized government body implementing a unified government policy in the area of supervision and regulation of the securities market. Controls on securities are enforced by Gosfinnadzor, except for controls on the following securities: (1) securities of state and local governments and other securities issued or guaranteed by the government, the NBKR, or local government authorities; (2) bank certificates, with the exception of certificates that meet the requirements of Article 2 of the Kyrgyz Republic Law on the Securities Market; (3) bills of exchange; (4) documented payment obligations arising in the course of usual business activities that are valid for less than one year; and (5) checks.

Regulation of the market in government securities (government treasury bills, government treasury bonds) of the GKR is administered by the MOF of the Kyrgyz Republic pursuant to its legal regulatory acts. The NBKR acts as the agent for placement and servicing of issues of GKR securities. The parallel placement and trading of government securities are performed through the NBKR and the Kyrgyz Stock Exchange closed joint-stock company; the main depository of government securities is the NBKR, while the sub-depository, which is authorized to carry out functions related to the performance of depository activity of its depositors with respect to operations with government securities, executed through the Kyrgyz Stock Exchange closed joint-stock company, is the Central Depository closed joint-stock company.

The process of placing and servicing issues of Kyrgyz Republic Government securities is connected with the holding of placement auctions, the maintenance of a depository account, the organization of secondary trading, and the performance of redemption, which are regulated by the following regulatory acts: Regulation No. 556 of October 2, 2008, on the Issue, Placement, Circulation, and Redemption of Kyrgyz Republic Government Securities; Regulation No. 20/1 of June 26, 2013, on the Procedures for the Placement, Reoffering, Additional Placement and Repurchase of and Performance of Settlements with Securities of the GKR through the NBKR; Regulation No. 10/9 of March 28, 2013, on the Depository Account of Government Securities placed through the NBKR.

Shares or other securities of a participating  Yes.
Nonresidents may purchase shares in accordance with current regulations on the same general terms as residents. No later than three business days from the date of disclosure of information about a material fact in the prescribed manner, issuers (residents and nonresidents) must send the following information about the material fact and its disclosure to the authorized government body for the regulation of the securities market:

1. Changes in the amount of participation in the issuer’s capital and that of its subsidiaries and dependent companies by persons who serve on the issuer’s elected governing bodies;
2. Changes in the list of those who own 5% or more of the securities (interest), as well as changes in the percentage of those who own 5% or more of the securities (interest);
3. Changes in the list of legal entities which control, 10% or more, 20% or more, 33% or more, 50% or more, or 67% or more of the bank’s voting shares;
4. The appearance in the issuer’s registry of any person/entity that owns more than 5% of the issuer’s voting shares (interest, stakes);
5. One-time transactions of the issuer the amount of which or the value of property of which constitutes 10% or more of the assets of the issuer on the date of the transaction.

Under Article 85 of the Kyrgyz Republic Law on the NBKR, Banks, and Banking (2017), any individual or legal entity is required to obtain written permission from the National Bank if intending, singly or jointly with other parties, regardless of the method of acquisition of ownership of shares, including inheritance or reinstatement of ownership, to acquire a threshold stake in the capital of a bank, including a significant stake and control, which may be achieved through an additional acquisition of shares. A threshold stake in a bank’s capital refers to direct or indirect ownership or management, singly or jointly with other parties, of 10% or more, 20% or more, 33% or more, 50% or more, and 67% or more of a bank’s voting shares.

Legal entities that are not engaged in banking or financial activity may not, singly or jointly with other persons: exercise direct or indirect ownership or management of more than 20% of the voting shares of any type of a bank; individuals and legal entities residing and/or registered in offshore zones or that have as stakeholders affiliated persons registered in offshore zones, a list of which is established by the National Bank, individuals and legal entities subject to international sanctions adopted by the UNSC, as well as individuals and legal entities registered in states subject to international sanctions adopted by the UNSC that prohibit legal relationships with said persons and are binding on the Kyrgyz Republic may not be bank shareholders. In the event of a change in the stakeholders in microcredit companies and microcredit agencies, written approval from the NBKR is required.

Acquisition of more than 20% of the shares of microfinance companies requires NBKR approval.

Pursuant to Article 85 of Kyrgyz Republic Law No. 206 of December 16, 2016, on the NBKR, Banks, and Banking:
1. A significant stake refers to direct or indirect ownership or management, singly or jointly with other persons, of 10% or more of the voting shares of a joint-stock company or 10% or more of the authorized capital of a legal entity that is not a joint-stock company;
2. Indirect ownership refers to the ability to exert a substantial influence, through a third party, on the adoption of decisions by a bank’s management bodies, significant stakeholders of a bank, persons who exercise control over a bank, or participants in a banking group.
Securities Market and other regulatory legal acts of the Kyrgyz Republic. In the event of a securities issue, a public offering of the securities is prohibited if the issuer has not registered the terms of the public offering and a prospectus. Nonresidents may buy and sell shares in accordance with current regulations. No later than three business days from the date of announcement, issuers must, in the prescribed manner, notify the authorized government body for the regulation of the securities market. The following information must also be provided: (1) changes in the extent of participation of persons who are members of elected bodies for the management of the issuer in the capital of the issuer, as well as its subsidiary and dependent companies; (2) changes in the list of those who own 5% or more of the securities (or stakes), as well as changes in the percentage of those who own 5% or more of the securities (or stakes); (3) changes in the list of legal entities in which the issuer owns 20% or more of the authorized capital; (4) the appearance in the issuer’s registry of any person who owns more than 5% of the issuer’s voting shares (or stakes or securities of a participating nature); and (5) one-time transactions of the issuer that constitute 10% or more of the assets of the issuer on the date of the transaction.

These provisions of the Kyrgyz Republic legislation are mandatory for residents and nonresidents under the same general terms. These transactions are governed by the law of the country on whose territory the securities issue is registered. Insurance companies may not invest abroad more than 20% of insurance reserves. For banks, no single investment, including any financial contributions and credits in each nonbank organization—and including during the establishment and/or acquisition of a subsidiary or affiliated company—may exceed 15% of the bank’s equity (regulatory) capital; total investments may not exceed 60% of the bank’s equity (regulatory) capital.

**Purchase abroad by residents**
Yes.

**Sale or issue abroad by residents**
No.

Shares to be offered by a resident for sale and/or circulation abroad must be registered in advance in accordance with legislation. Registration may be denied if the requirements of the Kyrgyz Republic legislation on the securities market are not met. For the purpose of the state registration of the terms of a public offering and a prospectus, the following documents are submitted to the authorized government agency responsible for regulation of the securities market: an application; the terms of the public securities offering, which meet the requirements of the legislation on the securities market; a prospectus, which meets the requirements of the legislation on the securities market; a copy of a document confirming the registration of the issuer as a legal entity (unless the issuer has previously submitted the given documents); a copy of the legal entity’s charter, including any amendments and additions to it (unless the issuer has previously submitted the given document); a copy of a document confirming the adoption of a decision by the issuer regarding the public securities offering; a document confirming payment of the fee for the registration of the terms of the public securities offering and prospectus.

The authorized government agency responsible for regulation of the securities market makes a decision regarding the state registration of the terms of a public securities offering and prospectus within 15 business days of the date they are submitted to the authorized government agency responsible for regulation of the securities market. The issuance and circulation of corporate bonds are regulated by Gosfinnadzor. The regulations governing shares or other securities of companies that are not members of the securities market and that do not plan to join the securities market are determined by the authorized government body responsible for regulation of the securities market.

**Bonds or other debt securities**
Yes.
a participating nature also apply.
Issuance, recording, and redemption of treasury bonds of the Kyrgyz Republic Government are carried out by the MOF of the Republic of Kazakhstan pursuant to its legal regulatory acts.
Issuance through auction, recording, and redemption of Kyrgyz Republic government treasury bills and bonds are carried out by the NBKR pursuant to Regulation No. 20/1 of June 26, 2013, on the Procedures for the Placement, Reoffering, Additional Placement and Repurchase of and Performance of Settlements with Government Securities of the Kyrgyz Republic Government through the NBKR.
There is no minimum holding period for government securities. In accordance with Regulation No. 20/1 of June 26, 2013, government treasury bonds are long-term government securities (more than one year).

</table>
Performances by the NBKR pursuant to Regulation No. 10/6 of the NBKR of March 28, 2013, on the Issue, Placement, Circulation, and Redemption of Notes.

Purchase locally by nonresidents: No.

Nonresidents may purchase Kyrgyz Republic government treasury bills and bonds and Kyrgyz Republic government notes pursuant to Regulation No. 20/1 of June 26, 2013, on the Procedures for the Placement, Reoffering, Additional Placement and Repurchase of and Performance of Settlements with Government Securities of the Kyrgyz Republic Government through the NBKR, and Regulation No. 10/6 of March 28, 2013, on the Issue, Placement, Circulation, and Redemption of Notes of the NBKR, respectively. Purchases of government treasury bonds and government treasury bills by nonresidents in the domestic market are carried out under the same conditions as those applied to residents.

Sale or issue locally by nonresidents: Yes.

Securities of a foreign issuer may be publicly offered within the Kyrgyz Republic only after the registration of the public offering of the foreign issuer’s securities and the prospectus of the given public offering by the authorized government agency responsible for supervision of the securities market in the Kyrgyz Republic.

Purchase abroad by residents: Yes.

Insurance companies may not invest abroad more than 20% of insurance reserves. Inversion funds are not permitted to invest, locally or abroad, more than 15% of their net assets in the securities of a single issuer, with the exception of investment in government securities or securities guaranteed by the Kyrgyz Republic Government.

Sale or issue abroad by residents: No.

On collective investment securities: Yes.

Securities invested in joint-stock investment funds and mutual funds are regulated by the Law on Investment Funds.

Purchase locally by nonresidents: No.

The regulations governing shares or other securities of a participating nature apply. Nonresidents may buy securities in the domestic market in accordance with regulations in effect.

Sale or issue locally by nonresidents: Yes.

Nonresidents may sell shares in accordance with general regulations provided for by law. Securities of foreign issuers may be traded or offered initially in the securities market of the Kyrgyz Republic after the registration of issue prospectuses of these securities with the authorized body responsible for regulation of the securities market.

Purchase abroad by residents: Yes.

Insurance companies may not invest abroad more than 20% of insurance reserves.

An investment fund does not have the right to invest more than, effective April 29, 2019, 20% (previously 15%) of the fund’s total net assets in the securities of a single issuer, or in shares of a limited liability company, with the exception of investment funds for qualified investors and investments in government securities and securities guaranteed by the Kyrgyz Republic Government.

Sale or issue abroad by residents: No.

Prior to their sale or issuance abroad, these instruments must be registered with Gosfinnadzor.

Registration may be denied if the requirements of the Kyrgyz Republic legislation on the securities market are not met.

Controls on derivatives and other instruments: Yes.

The Kyrgyz Republic Law on the Securities Market contains a definition of derivative securities.

Purchase locally by nonresidents: Yes.

These transactions are not performed in connection with the lack of a regulatory legal framework.

Sale or issue locally by nonresidents: Yes.

These transactions are not performed in connection with the lack of a regulatory legal framework.

Purchase abroad by residents: Yes.

These transactions are not performed in connection with the lack of a regulatory legal framework.

Sale or issue abroad by residents: Yes.

These transactions are not performed in connection with the lack of a regulatory legal framework.

agent of the Kyrgyz Republic government for issuance of government guarantees. The Kyrgyz Republic Government is continuing to refrain from issuing and granting guarantees. According to the Kyrgyz Republic Budget Code, the Kyrgyz Republic does not provide government guarantees, with the exception of cases in which a government guarantee is provided in accordance with a contract under which the government makes a commitment to creditors to pay debt that has not been paid within the established deadlines as provided for by international agreements and on obligations within the context of membership in international and interstate organizations. According to the Kyrgyz Republic Budget Code, a State Budget Reserve is created as part of the national budget for the financing of unforeseen expenditures requiring urgent financing in the current budget year, which is used in cases of urgent and unforeseen need related to the following circumstances: (1) a sudden adverse change in economic conditions; (2) an emergency situation arising from a natural or manmade disaster; (3) an emergency situation of a political or military nature; (4) the provision of humanitarian assistance to another country; (5) the need to develop the economy; and (6) compliance with the decisions of international (arbitration) courts regarding suits against the Kyrgyz Republic in accordance with the procedure established by the legislation of the Kyrgyz Republic. In the event that they are not used for the purposes referred to above, funds in the State Budget Reserve are earmarked for reducing the budget deficit. The size of the State Budget Reserve is approved by the law on the national budget and must not be more than 2% of national budget expenditures (not including the State Budget Reserve). The use of the State Budget Reserve is carried out by the government with the approval of the Parliament.

Guarantees provided by the Kyrgyz Republic Government must be registered with the MOF. The Kyrgyz Republic government does not provide government guarantees, with the exception of cases provided for by the Budget Code of the Kyrgyz Republic.

Provisions specific to commercial banks and other credit institutions
Yes.

The NBKR licenses and carries out prudential regulation of the lending activities of financial and lending institutions. Commercial banks operate under a license to perform banking operations in domestic and/or foreign currency. Commercial banks may operate on the basis of Islamic financing principles under licenses to perform banking operations based on Islamic financing principles in domestic and foreign currencies. For the purpose of minimizing indirect foreign exchange risks in lending in foreign currency, amendments and additions were made to certain regulatory legal acts of the NBKR. Thus, NBKR Executive Board Resolutions Nos. 22/6 and 22/7 of April 15, 2015, lowered the requirements for loan loss provisions in national currency to 0% and increased them for loans in foreign currency to 2.5%, or 5%, or 7.5% depending on the client’s income structure in national and foreign currency. NBKR Executive Board Resolution No. 53/11 of September 16, 2015, introduced amendments concerning the requirement to (1) conduct an annual internal audit of the internal control system of credit risk due to foreign currency risk, including the classification of loans/assets; (2) include in the internal regulations of the bank policies, procedures, and a comprehensive system of permanent identification, assessment, monitoring, and control for the identification and measurement of credit risk, including the credit risk due to foreign exchange risk; (3) assess the ability of the customer to service the foreign currency loan during the following 12 months if revenues are mainly in the national currency, taking into account the credit risk
due to adverse changes in the exchange rate; (4) analyze at least once a month (or immediately if the official exchange rate changes by 5% or more) the impact of exchange rate changes and identify possible losses from fluctuations in exchange rates and their impact on borrower solvency. NBKR Executive Board Resolution No. 78/23 of December 23, 2015, increased from 7.5% to 10% the loan loss provisions on foreign currency loans for borrowers whose income in foreign currency is less than 50%. National Bank Executive Board Resolution No. 7/3 of February 10, 2016, on Amendments and Additions to Certain Resolutions of the NBKR Executive Board, prohibited financial and lending institutions from providing consumer and mortgage loans in foreign currency to individual borrowers.

**Purchase of locally issued securities denominated in foreign exchange**

Yes. In accordance with the Regulation on the Issue, Placement, Circulation, and Redemption of Kyrgyz Republic Government Securities, approved by Kyrgyz Republic Government Resolution No. 556 of October 2, 2008, the Kyrgyz Republic Government has the right to issue government treasury bonds in the domestic currency of the Kyrgyz Republic and in foreign currency. The purpose of issuing government securities is to provide financing for the current national budget deficit and refinancing of government debt that is coming due. The specific terms and reasons for issuing government treasury bonds denominated in foreign exchange are not provided for in regulatory legal acts on government securities. Commercial banks that have entered into an agreement on participation in auctions with the NBKR have direct access to auctions for the placement of government securities, as do institutional investors. Other interested parties may participate in auctions for the placement of government securities through commercial banks or the Kyrgyz Stock Exchange closed joint-stock company.

**Differential treatment of deposit accounts in foreign exchange**

Yes.

**Reserve requirements**

Yes. Differential reserve requirements for commercial banks apply. The NBKR Executive Board Resolution No. 78/7 of December 23, 2015, on establishing reserve requirements amounts for liabilities included in the calculation base:

1. for liabilities in the domestic currency in the amount of 4.0% of total liabilities in domestic currency, included in the calculation base;
2. for liabilities in Armenian drams, Belarusian rubles, Kazakhstani tenge, Chinese renminbi, and Russian rubles in the amount of 4.0% of liabilities in domestic currency, included in the calculation base; and
3. for liabilities in foreign currency in the amount of 12.0% of total liabilities in domestic currency, included in the calculation base.

The list of liabilities included in the calculation base for required reserves includes all deposits of individuals and legal entities, as well as deposits of the Kyrgyz Republic government and local government authorities. Commercial banks deposit required reserves in a correspondent account with the NBKR. The NBKR Executive Board Resolution No. 16/5 of April 23, 2014, specifies the procedure for compliance with reserve requirements, in accordance with which the base period for compliance with reserve requirements is four calendar weeks. The volume of required reserves is determined on the basis of the average daily calculation base for the previous base period and the amount of required reserves is established by the NBKR Executive Board. The required reserve value that is established remains in effect throughout the four weeks of the base period. The som equivalent of foreign exchange liabilities included in...
the calculation base is calculated daily at the NBKR’s official exchange rate. Monitoring of compliance with required reserves is carried out at the end of the four-week base period. Reserve requirements are deemed to have been met if for the base period as a whole the difference between the amount of funds in a commercial bank’s correspondent account with the NBKR and the amount of required reserves is positive or equal to zero.

The volume of funds on a commercial bank’s correspondent account for compliance with the reserve requirements on a daily basis must not be below the minimum threshold level determined by the NBKR Executive Board. The minimum threshold level is, effective April 1, 2019, 80% (previously 90%) of a bank’s required reserves for the relevant period. The amount of required reserves, the list of liabilities to be included in the calculation base, and the interest rate for meeting required reserve standards are set by the Executive Board of the NBKR. The interest rate for meeting required reserve standards is equal to zero. In the event of a failure to meet the requirements regarding the daily minimum amount of required reserves, a commercial bank must pay an interest penalty equal to three times the National Bank’s discount rate on the amount of the daily shortfall.

Abroad by banks Yes. (1) Under the Regulation on Prudential Standards and Mandatory Requirements for Commercial Banks of the Kyrgyz Republic, approved by NBKR Executive Board Resolution No. 18/1 of July 27, 2004: (a) a bank’s total investments in securities of governments and CBs of countries with a long-term credit rating of at least A or A2 assigned by one of the rating agencies — Standard & Poor’s, Fitch Ratings, or Moody’s Investors Service — may not exceed 100% of the bank’s net total capital; (b) a bank’s total investments in nongovernment debt securities may not exceed 50% of the bank’s net total capital.

(2) Under the Rules on the Creation and/or Acquisition of Subsidiaries or Affiliated Companies by Commercial Banks of the Kyrgyz Republic, approved by NBKR Executive Board Resolution No. 26/3, June 10, 2009, no single investment, including any financial contributions and credits in each nonbank organization—and including during the establishment and/or acquisition of a subsidiary or affiliated company—may exceed 15% of the bank’s equity (regulatory) capital; total investments may not exceed 60% of the bank’s equity (regulatory) capital.

In banks by nonresidents Yes. Under Article 85 of the Kyrgyz Republic Law on the NBKR, Banks, and Banking (2017), any individual or legal entity is required to
obtain written permission from the National Bank if intending, singly or jointly with other parties, regardless of the method of acquisition of ownership of shares, including inheritance or reinstatement of ownership, to acquire a threshold stake in the capital of a bank, including a significant stake and control, which may be achieved through an additional acquisition of shares. A threshold stake in a bank’s capital refers to direct or indirect ownership or management, singly or jointly with other parties, of 10% or more, 20% or more, 33% or more, 50% or more, and 67% or more of a bank’s voting shares.

To obtain permission from the National Bank, the indicated entities must submit a written request to the National Bank. Pursuant to the Regulation on Bank Licensing, approved by NBKR Executive Board Resolution No. 2017-P-12/23-1-(NPA) of June 8, 2017, the National Bank has the right to require that shareholders provide documents for the purpose of identifying the ultimate beneficiary and verifying the source of the funds.

Open foreign exchange position limits Yes. According to the Instruction on the Procedure for Compliance by Commercial Banks in the Kyrgyz Republic with Open Foreign Exchange Position Limits and Limits on the Open Position in Precious Metals, approved by NBKR Executive Board Resolution No. 36/13 of December 29, 2004, the open long or short foreign exchange position for each foreign currency must not exceed 15%, and the overall foreign exchange position for all foreign currencies must not exceed 20% of a bank’s net total capital. Pursuant to the Instruction, the maximum value of open foreign exchange position limits may be reduced by decision of the National Bank’s Supervisory Committee for individual banks if they engage in unreliable and unsound transaction practices, or if there is a threat of violation of banking law. Pursuant to NBKR Executive Board Resolution No. 58/14 of December 24, 2014, to achieve NBKR objectives, the NBKR executive board may, in a separate resolution, change the values of the foreign exchange position limits in the Instruction for a limited time.

On resident assets and liabilities Yes. According to the Instruction on the Procedure for Compliance by Commercial Banks in the Kyrgyz Republic with Open Foreign Exchange Position Limits and Limits on the Open Position in Precious Metals, approved by NBKR Executive Board Resolution No. 36/13 of December 29, 2004, the open long or short foreign exchange position for each foreign currency must not exceed 15%, and the overall foreign exchange position for all foreign currencies must not exceed 20% of a bank’s net total capital.

On nonresident assets and liabilities Yes. According to the Instruction on the Procedure for Compliance by Commercial Banks in the Kyrgyz Republic with Open Foreign Exchange Position Limits and Limits on the Open Position in Precious Metals, approved by NBKR Executive Board Resolution No. 36/13 of December 29, 2004, the open long or short foreign exchange position for each foreign currency must not exceed 15%, and the overall foreign exchange position for all foreign currencies must not exceed 20% of a bank’s net total capital.

Provisions specific to institutional investors Yes. Insurance entities are defined as legal entities established in the legal organizational form stipulated by the Kyrgyz Republic Law on the Organization of Insurance in the Kyrgyz Republic for the purpose of engaging in insurance activity and duly licensed to engage in insurance activity in the Kyrgyz Republic.

Limits (max.) on securities issued by No. Gosfinnadzor regulates the issuance, circulation, and public offering
nonresidents of securities of the Kyrgyz Republic and securities of foreign issuers and prospectuses of such offerings in accordance with the requirements of the laws of the Kyrgyz Republic governing the nonbank financial market. The Kyrgyz Republic legislation on insurance does not establish maximum limits on the purchase by local insurance companies of securities issued by nonresidents.

Limits (max.) on investment portfolio held abroad Yes. Insurance companies may not invest abroad more than 20% of insurance reserves.

Limits (min.) on investment portfolio held locally Yes. At least 80% of insurance entities’ insurance (technical) reserves, minus a reinsurer’s share, must be invested locally, unless stipulated otherwise by law or in international agreements to which the Kyrgyz Republic is a party and that have been ratified in accordance with legally established procedures.

Currency-matching regulations on assets/liabilities composition No.

Pension funds Yes. Pension assets must be invested according to the principles of reliability, safekeeping, liquidity, and diversification.

A pension savings fund (referred to hereinafter as a fund) is a noncommercial entity pursuing social goals and engaging in its activity on the basis of a license under Kyrgyz law: (1) for private provision of pensions to the fund’s participants under a private pension agreement; (2) as a participant in the mandatory pension insurance savings system pursuant to Kyrgyz laws on mandatory pension insurance. In the Kyrgyz Republic, a nongovernmental pension fund is not a joint-stock company and may not issue securities (Kyrgyz Republic Law No. 216 on Pension Funds in the Kyrgyz Republic of December 11, 2013).

Pension savings may not be invested in investment instruments not provided for by regulatory legal acts of the Kyrgyz Republic; in stocks, bonds, and other securities that are not quoted on a stock exchange or other trading system; or in derivatives, options, futures, forward, and other contracts related to securities and other financial assets.

Limits (max.) on securities issued by nonresidents No. The State Financial Market Regulation and Supervision Service under the Kyrgyz Republic Government regulates the issue, trading, and public offering of securities of the Kyrgyz Republic and securities of foreign issuers, as well as the prospectuses of such offers, in accordance with the requirements of the given law and other laws of the Kyrgyz Republic governing the nonbank financial market. In accordance with the Kyrgyz Republic laws on Pension Savings Funds in the Kyrgyz Republic and on Investing Funds to Finance the Funded Part of the State Social Insurance Pension in the Kyrgyz Republic, there are no maximum limits on the purchase by domestic pension funds of securities issued by nonresidents.

In the Kyrgyz Republic, a pension fund is not a joint-stock company and may not issue securities (Kyrgyz Republic Law No. 216 on Pension Savings Funds in the Kyrgyz Republic of December 11, 2013).

Limits (max.) on investment portfolio held abroad Yes. The rules for the investment of pension savings assets, approved by Kyrgyz Republic Government Resolution No. 590 of August 19, 2015, do not provide for the investment of pension savings assets abroad.

Pension savings may be placed in the following investment assets: (1) government securities – at least 40% of the value of pension savings; (2) bonds secured by issuers of the Kyrgyz Republic traded on the stock exchanges of the Kyrgyz Republic – no more than 30% of the value of pension savings; (3) shares of issuers of the Kyrgyz Republic created in the form of open joint-stock companies listed on the stock exchanges of the Kyrgyz Republic – no more than 40% of...
the value of pension savings; (4) mortgage-backed securities and housing certificates issued in accordance with the legislation of the Kyrgyz Republic – no more than 15% of the value of pension savings (mortgage-backed securities refer to mortgage-backed bonds and housing certificates); (5) deposits in financial organizations – no more than 30% of the value of pension savings. It is allowed to invest in bonds with the security of one issuer of the Kyrgyz Republic, shares of one issuer of the Kyrgyz Republic, mortgage securities (housing certificates) of one issuer of the Kyrgyz Republic, deposits of one credit organization – no more than 10% of pension savings for each type. Pension savings may be placed or invested in corporate securities of issuers of the Kyrgyz Republic included in the quotation list of the stock exchange in the first (highest) and second (following the highest) categories.

| Limits (min.) on investment portfolio held locally | Yes. |
| Article 24 of the Kyrgyz Republic Law on the Investment of Funds for the Financing of the Savings Portion of Pensions under State Social Insurance in the Kyrgyz Republic, and the Rules for the Investment of Pension Savings Assets, approved by Kyrgyz Republic Government Resolution No. 463 of August 29, 2016, apply. Pension savings may be placed in the following assets: (1) government securities, in an amount not to exceed 40% of the value of pension savings; (2) secured bonds of issuers of the Kyrgyz Republic that are traded in stock exchanges of the Kyrgyz Republic – in an amount not to exceed 30% of the value of pension savings; (3) stocks of issuers of the Kyrgyz Republic that were established in the form of open joint-stock companies and are listed on stock exchanges of the Kyrgyz Republic, in an amount not to exceed 40% of the value of pension savings; (4) mortgage securities and housing certificates issued in accordance with the laws of the Kyrgyz Republic, in an amount not to exceed 15% of the value of pension savings. For the purposes of these rules, mortgage securities are understood to mean mortgage-backed bonds and housing certificates; (5) deposits at financial and lending institutions – in an amount not to exceed 30% of the value of pension savings.

Furthermore, investments in secured bonds of a single issuer of the Kyrgyz Republic, in the stocks of a single issuer of the Kyrgyz Republic, in the mortgage-backed securities (housing certificates) of a single issuer of the Kyrgyz Republic, and in deposits at lending institutions are not to exceed 10% of the value of pension savings for each type of investment. Pension savings may be placed or invested in corporate securities of issuers of the Kyrgyz Republic included in the quotation list of the stock exchange in the first (highest) and second (following the highest) categories.

Legal entities that are registered in offshore zones or whose stakeholders, stockholders, and affiliates include legal entities registered in offshore zones, or individuals residing in offshore zones, or who are stockholders (stakeholders) in legal entities registered in offshore zones, are not permitted to serve as management companies for pension savings assets.

| Currency-matching regulations on assets/liabilities composition | No. |
| Investment firms and collective investment funds | Yes. |
| Limits (max.) on securities issued by nonresidents | Yes. |

An investment fund does not have the right to invest more than, effective April 29, 2019, 20% (previously 15%) of the fund’s total net assets in the securities of a single issuer, or in the shares of a limited liability company, with the exception of investment funds for qualified investors and investments in government securities and...
Limits (max.) on investment portfolio held abroad

Yes.  

Investment funds are permitted to invest in foreign corporate securities (shares, bonds), in the following cases: (1) the issuer has a credit rating determined by the Kyrgyz Republic Government to be acceptable for investment of an investment fund’s resources, assigned by a rating agency authorized by the government agency responsible for the regulation of the securities market; (2) the securities must have an official quote (listing) rating determined by the government agency responsible for the regulation of the securities market to be acceptable for investment of an investment fund’s resources, or by a securities exchange authorized by the government agency responsible for the regulation of the securities market.

An investment fund does not have the right to invest more than 20% of the fund’s total net assets in the securities of a single issuer or in the shares of a limited liability company, with the exception of investment funds for qualified investors and investments in government securities and securities guaranteed by the Kyrgyz Republic Government.

Limits (min.) on investment portfolio held locally

Yes.  

The composition of an investment fund’s portfolio must comply with the following requirements based on a percentage of the value of its net assets: (1) a minimum of 10% in deposits in highly liquid assets, such as cash, Kyrgyz Republic Government or NBKR securities, or deposits in commercial banks with maturity up to six months; (2) a maximum of 20% in commercial bank deposits; (3) a maximum of 15% in securities of the same issuer, except for government securities and securities guaranteed by the Kyrgyz Republic Government; (4) a maximum of 20% in a single real estate investment; and (5) a maximum of 15% in the authorized capital of limited liability companies.

These requirements are the maximum limits on the portion of the investment portfolio held locally.

An investment fund may not: (1) invest in assets not indicated in its investment statement; (2) invest resources in securities issued by persons related to the investment fund, or by its depository, independent auditor, independent appraiser, or their affiliates; (3) conclude agreements on the sale of securities it does not possess and has no right to possess; (4) provide loans of cash or other property; (5) guarantee or promise the repurchase or buyback of shares issued by a joint-stock investment fund without an obligation to repurchase the shares; (6) acquire securities issued by other investment funds; (7) perform transactions with its affiliates; (8) establish subsidiaries; (9) guarantee or promise profit (income) or an increase in the value of securities it issues; or (10) solicit loan capital if the total amount subject to repayment would exceed 10% of the net asset value of the investment fund on the day the credit (loan) agreement is signed. The credit (loan) may be obtained for a period of not more than six months, without right of extension. A credit (loan) agreement may be concluded by a joint-stock investment fund or a mutual fund management company only to meet a short-term need for cash for the redemption of securities issued by the investment fund.

Currency-matching regulations on assets/liabilities composition

No.  

There are no currency-matching regulations on the assets/liabilities composition in investments funds provided for under the legislation of the Kyrgyz Republic, that is, an investment fund may perform all operations in both the local currency and in foreign currency. The value of the net assets of investments funds is determined in the domestic currency of the Kyrgyz Republic, however.

Changes during 2018 and 2019

Exchange Arrangement

Classification
Stabilized arrangement 01/01/2018 The de facto exchange rate arrangement was reclassified retroactively to stabilized from other managed, effective July 11, 2017. The change is reflected as of January 1, 2018, corresponding to the first day of the period covered in this year’s Annual Report on Exchange Arrangements and Exchange Restrictions.

Payments arrears
Official 02/22/2018 The Protocol signed June 20, 2017, to the Agreement between the Government of the Kyrgyz Republic and the Government of Russia on the settlement of the debt of the Kyrgyz Republic to Russia on previously granted loans, signed September 20, 2012, entered into force. It provided for a one-time write-off of 100% of the amount of the debt (US$ 240 million). Thus, there is no state debt of the Kyrgyz Republic to Russia.

Imports and Import Payments
Import licenses and other nontariff measures 12/31/2018 Temporary regulations (implemented February 20, 2017), on the procedure for licensing the import and export of arms and military equipment, as well as other military products, approved by the Government of the Kyrgyz Republic on February 3, 2017, No. 67, expired.

Exports and Export Proceeds
Export taxes
Other export taxes 10/07/2019 There are customs duties on the export of nonferrous and ferrous metal scrap and waste.

Capital Transactions

Controls on capital transactions
Controls on capital and money market instruments
On collective investment securities
Purchase abroad by residents 04/29/2019 For investment funds, the limit for investments in a single issuer, or in shares of a limited liability company, with the exception of investment funds for qualified investors and investments in government securities and securities guaranteed by the Kyrgyz Republic Government, was increased to 20% from 15%.

Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions
Differential treatment of deposit accounts in foreign exchange Reserve requirements 04/01/2019 The minimum threshold level of a bank’s required reserves for the relevant period was decreased to 80% from 90%.

| Other monetary framework     | Yes.         |

The monetary policy framework is a mixed regime of monetary targeting and an exchange rate anchor. The BOL’s ultimate targets are to ensure the gross domestic product growth at 7% or higher and to maintain single-digit inflation below the gross domestic product growth rate.

| Exchange tax                  | No.          |
| Exchange subsidy              | No.          |
| Foreign exchange market       | Yes.         |
| Spot exchange market          | Yes.         |

There were 43 commercial banks and 271 authorized foreign exchange bureaus as of the end of June 2019. Commercial banks and foreign exchange bureaus must keep their buying and selling rates for kip–US dollar within ±0.25% of the daily reference rate set by the BOL, and their buying and selling rates must not have a gap of more than 0.5%. For the euro, the margin between the buying and selling rates must not exceed 0.50%; for Thai baht, the margin between the buying and selling rates must not exceed 0.75%; and for other currencies, the margin must not exceed 2%. Both commercial banks and exchange bureaus are required to report daily their rates and transaction volumes to the BOL. The kip–US dollar exchange rate may move within ±5% of the previous year’s average. Commercial banks must conduct foreign exchange transactions in domestic and international markets according to BOL regulations. Foreign exchange bureaus may conduct foreign exchange transactions only in the domestic market and may buy only foreign notes and traveler’s checks. They may not buy other commercial paper such as bank drafts, payment orders, bills of exchange, promissory notes, or other payment documents or instruments in foreign currency to be used in international transactions.

Commercial banks and foreign exchange bureaus are required to sell foreign exchange to the public within the limits and procedures periodically determined by the BOL. From December 12, 2016, when commercial banks and exchange bureaus sell foreign currency to individuals and entities for international transaction, the money must be credited to clients’ accounts at commercial banks. The money cannot be withdrawn in cash or transferred to another individual or entity’s account for use within country, and it must be used only for oversea settlement purpose. The sale of foreign
currency in cash is only allowed at border checkpoints such as airports and border crossings and only for payments and use in foreign countries.

**Operated by the central bank**
Yes.

**Foreign exchange standing facility**
Yes.

The BOL acts as buyer and seller of last resort against foreign exchange supply and demand that cannot be executed during the regular market session.

**Allocation**
No.

**Auction**
No.

**Fixing**
No.

**Interbank market**
Yes.

Commercial banks may transact with other banks and ADs within the prescribed daily buying and selling rates. As of the end of December 2018, there were 41 commercial banks that were registered as members of the interbank market: of which 28 were active participants. Products that can be transacted in the market are Spot, Swaps, Repurchase, and Forward contracts. The minimum bid size is US$60,000 equivalent. There are two daily sessions for market interaction: 09:00–10:00 and 13:00–15:00. The BOL uses the final time slot for any intervention, if necessary.

**Over the counter**
Yes.

Commercial banks operating under the BOL law may buy and sell foreign exchange in the interbank market through OTC operations.

**Brokerage**
No.

**Market making**
No.

**Forward exchange market**
Yes.

Banks may enter into kip and foreign exchange forward contracts with maturities of 7 days, 14 days, 3 months, 6 months, and 1 year. Transactions between the BOL and commercial banks may be executed in US dollars or Thai baht and must be made against kip. Transactions between commercial banks or between commercial banks and business units may be executed in various currencies (euros, Japanese yen, Chinese renminbi, Australian dollars, among others), but must always be made against kip. The exchange rate may be set according to forward contracts between the BOL and banks, between banks, or between banks and business units.

**Official cover of forward operations**
No.

**References to legal instruments and hyperlinks**
This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Arrangements for Payments and Receipts**

**Prescription of currency requirements**
Yes.

There is no prescription of currency requirements for receipts or payments, but, in practice, the BOL provides and accepts only US dollars, euros, Japanese yen, pounds sterling, Swiss francs, and Thai baht.

**Controls on the use of domestic currency**
Yes.

**For current transactions and payments**
Yes.

Domestic goods, services, rents, and fee payments, including wages and salaries, must be made in Lao kip. Other cases require BOL authorization.

**For capital transactions**
Yes.

The payment of registered business capital for investment in Lao P.D.R. in both general business and concession activities must be in Lao kip.

**Transactions in capital and money market instruments**
Yes.

Payment for transactions in the capital market must be in Lao kip. However, corporations may issue bonds in domestic or foreign
currency, and payments may be in domestic or foreign currency as authorized by the Lao Securities Commission Office.

Transactions in derivatives and other instruments  n.a.
Credit operations  n.a.
Use of foreign exchange among residents  Yes. Under the Law on Foreign Exchange Management, foreign exchange is used only for external payments. Domestic goods, services, rents, and fee payments, including wages and salaries, must be in Lao kip. Other cases require BOL authorization.

Payments arrangements  Yes.
Bilateral payments arrangements  Yes.
Operative  Yes. A bilateral payments agreement with Vietnam is in the process of being renewed.
Inoperative  Yes. There is an inoperative bilateral payments agreement with Malaysia, which is in the process of being canceled.
Regional arrangements  n.a.
Clearing agreements  n.a.
Barter agreements and open accounts  Yes. Bilateral trading arrangements are maintained with China and Vietnam.

Administration of control  Yes. The BOL is responsible for the management of the foreign exchange market, in which commercial banks are the primary participants. External public sector borrowing requires MOF approval; private sector borrowing requires BOL approval.

Payments arrears  n.a.
Official  n.a.
Private  n.a.
Controls on trade in gold (coins and/or bullion)  Yes.
On domestic ownership and/or trade  No.
On external trade  Yes. Individuals entering the country may bring in unlimited amounts of precious metals (gold and silver bars used for international settlement), but amounts exceeding the equivalent of KN 100 million must be declared to customs at the port of entry, where a declaration slip is issued. Individuals leaving the country may take out precious metals up to the equivalent of KN 100 million. Those taking out larger amounts must present the declaration slip issued at the time of entry or evidence of approval from the BOL or an authorized commercial bank. Individuals and businesses that export or import precious metals must obtain a license and permission from the BOL each time precious metals are exported or imported.

Controls on exports and imports of banknotes  Yes.
On exports  Yes.

http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Imports and Import Payments

Foreign exchange budget No.

Financing requirements for imports Yes.

Minimum financing requirements No.

Advance payment requirements No.

Advance import deposits Yes. Margin deposits are required against LCs; the rates are set by commercial banks.

Documentation requirements for release of foreign exchange for imports Yes.

Domiciliation requirements No.

Preshipment inspection No.

Letters of credit Yes.

Import licenses used as exchange licenses Yes.

Other Yes. The proof of payment of import duties is required.

Import licenses and other nontariff measures Yes. Import licenses are required for 25 categories of goods: most licenses are used for quality control, safety, or animal quarantine, but some (for example, for cement) are used to limit the overall level of imports.

Positive list Yes.

Negative list Yes.

Open general licenses No.

Licenses with quotas Yes. Quotas are imposed on imports of petroleum and gas.
Other nontariff measures | No.
---|---
**Import taxes and/or tariffs** | Yes.  The tariff structure is composed of six rates (5%, 10%, 15%, 20%, 30%, 40%). The lowest rates (5%, 10%, 15%, 20%) apply to imports of raw materials and certain inputs and essential consumer goods. The highest rates (30% and 40%) apply to imports of luxury consumer goods, certain beverages, and tobacco. Lao P.D.R. participates in the ASEAN Free Trade Agreement; imports from ASEAN countries are subject to AFTA common effective preferential tariff rates of 5%–30%. In addition to common effective preferential tariff rates, a rate of 40% applies to luxury consumer goods.

| Taxes collected through the exchange system | Yes. |
| State import monopoly | No. |
| References to legal instruments and hyperlinks | This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx. |

## Exports and Export Proceeds

**Repatriation requirements** | Yes.  Residents of the Lao P.D.R. operating business and earning income in foreign currency must transfer its income to the account at commercial banks in the Lao P.D.R.

**Surrender requirements** | Yes.  

* Surrender to the central bank | No.  
* Surrender to authorized dealers | Yes.  Residents receiving income in foreign currency into the account at commercial banks in the Lao P.D.R. are required to exchange foreign currency income.

**Financing requirements** | No.  
**Documentation requirements** | No.  
**Letters of credit** | No.  
**Guarantees** | No.  
**Domiciliation** | No.  
**Preshipment inspection** | No.  
**Other** | No.  
**Export licenses** | Yes.  Exports of live animals, fish, paddy rice, and forestry products (such as resin) as well as of mining and processed and semi-processed wood products require export licenses. These licenses are issued by the trade department under the Vientiane prefecture and provincial government authorities.

| Without quotas | No.  
| With quotas | Yes.  Exports of logs and timber are prohibited.  
**Export taxes** | Yes.  
| Collected through the exchange system | No.  
| Other export taxes | Yes.  Taxes are levied on selected products.

LATVIA

(Position as of July 31, 2019)

Status under IMF Articles of Agreement

Date of membership
May 19, 1992.

Article VIII
Yes. Date of acceptance: June 10, 1994.

Article XIV

Exchange Measures

Restrictions and/or multiple currency practices No.

Exchange measures imposed for security reasons Yes.

In accordance with IMF Executive Board Decision No. 144-(52/51) Yes.

In accordance with EU regulations and UNSC regulations, Latvia maintains the following measures: directed against certain individuals, groups, enterprises, and entities in view of the situation in Afghanistan; in view of the situation in Bosnia and Herzegovina; in respect of Belarus; in view of the situation in Burundi; directed against persons acting in violation of the arms embargo with regard to the Democratic Republic of the Congo; directed against certain persons, entities, and bodies in view of the situation in Egypt; in respect of the Republic of Guinea; directed against certain persons, entities, and bodies threatening the peace, security, or stability of the Republic of Guinea; directed against certain persons, entities, and bodies in view of the situation in Iran; specific restrictions on economic and financial relations with Iraq; measures against the Democratic People’s Republic of Korea; in respect of Lebanon and specific restrictive measures against certain persons suspected of involvement in the assassination of former Lebanese Prime Minister Rafik Hariri; in view of the situation in Libya; in view of the situation in Mali; in respect of Myanmar; directed against certain natural or legal persons, entities, or bodies, in view of the situation in Somalia; in respect of the situation in South Sudan; in view of the situation in Sudan; in view of the situation in Syria; directed against certain persons and entities associated with Osama bin Laden, the Al-Qaeda network, and the Taliban; directed against ISIL (Da’esh) and Al-Qaeda and natural and legal persons, entities, or bodies associated with them; directed against certain persons and entities with a view to combating terrorism; directed against certain persons, entities, and bodies in view of the situation in Tunisia; directed against certain persons, entities, and bodies in view of the situation in Ukraine; in respect of actions undermining or threatening the territorial integrity, sovereignty, and independence of Ukraine; in view of Russia’s actions destabilizing the situation in Ukraine; restrictions on the import into the Union of goods originating in Crimea or Sevastopol, in response to the illegal annexation of Crimea and Sevastopol; in view of the situation in Venezuela; in view of the situation in Yemen; in respect of Zimbabwe.

Effective October 16, 2018, restrictive measures were imposed against certain persons, entities, and bodies in connection with proliferation and use of chemical weapons. Effective May 18, 2019, restrictive measures were imposed against certain persons, entities, and bodies in connection with cyber-attacks threatening the Union or its Member States.

Amendments to the Law on International Sanctions and National Sanctions of the Republic of Latvia were made to achieve, inter alia, the following main objectives in accordance with FATF standards and Moneyval recommendations: Effective June 21, 2018, and July 4, 2019, new competent authorities were established to supervise the business and financial sectors in relation to sanctions internal control systems and to control the effectiveness of these systems. Effective July 4, 2019, (1) To clarify the binding nature of sanctions, it was clearly stated that all persons must comply with and execute international and national sanctions. (2) Considering that effective implementation of sanctions requires that all parties act swiftly and decisively, a legal framework was created for UNSC resolutions to be implemented without delay. (3) To fully commit to better the international sanctions regimes, a legal framework was created for Latvia to propose international sanctions (UNSC and EU) without having to impose national sanctions. (4) To ensure that sanctions are effectively applied, all persons (legal and natural) in accordance with their competence have the obligation to immediately and without a prior notice to freeze for an indefinite period all financial resources and financial instruments, which are directly or indirectly, completely or partially, under the ownership, possession, holding, or control of the subject of sanctions, including those financial resources and financial instruments that have been transferred to third persons. Similar provisions are provided regarding financial services and other material and immaterial assets, such as immovable property, ships, airships, etc. (5) The system for reporting the possible breaches or the possible circumvention of sanctions was clarified. (6) To unify the standards for the implementation of sanctions and to allow all competent authorities to share their know-how, the Cabinet of Ministers in accordance with the amendments created a Sanctions Coordination Council by issuing corresponding by-laws. It is tasked with creating unified informative materials about sanctions for all interested parties. The Council will also discuss possible cooperative solutions to complicated cases, and the
Failure to comply with the requirements for the internal control system of sanctions may result in fines for natural persons and legal persons of up EUR 1 million. These amendments are supplemented by corresponding government regulations explaining in greater detail the obligations as set by law, including delisting and exemption procedures, identification of subjects of sanctions, and asset freezing procedures.

Other security restrictions: No.

References to legal instruments and hyperlinks: This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Exchange Arrangement**

**Currency**
Yes. The currency of Latvia is the euro.

**Other legal tender**
No.

**Exchange rate structure**

- Unitary: Yes.
- Dual
- Multiple

**Classification**

- No separate legal tender
- Currency board
- Conventional peg
- Stabilized arrangement
- Crawling peg
- Crawl-like arrangement
- Pegged exchange rate within horizontal bands
- Other managed arrangement
- Floating: Yes. The exchange rate arrangement of the euro area is free floating. Latvia participates in a currency union (EMU) with 18 other members of the EU and has no separate legal tender. The euro, the common currency, floats freely and independently against other currencies. The ECB publishes information regarding its interventions; it last intervened in March 2011. When it intervenes, the ECB intervenes at the quotes of the market makers.

**Official exchange rate**
Yes. The ECB publishes a reference rate based on the daily concertation procedure between CBs within and outside the European System of Central Banks. The publication time of the euro foreign exchange reference rates is around 14:30 Central European Time to around 16:00 Central European Time. The reference rate against the euro is the average of the buying and selling rates.

Publication of inflation forecasts

Other monetary framework Yes. To maintain price stability is the primary objective of the Eurosystem and of the single monetary policy for which it is responsible. This is stated in the Treaty on the Functioning of the EU, Article 127(1). “Without prejudice to the objective of price stability,” the Eurosystem will also “support the general economic policies in the Community with a view to contributing to the achievement of the objectives of the Community.” These include a “high level of employment” and “sustainable and non-inflationary growth.” Price stability is commonly defined as inflation rates at levels below, but close to, 2% over the medium term.

Exchange tax No.
Exchange subsidy No.

Foreign exchange market Yes. As of December 31, 2018, all commercial banks (16) and foreign bank branches (5) registered in Latvia have general banking licenses issued by the Financial and Capital Market Commission that authorize dealing in foreign exchange with the public. There are also 38 foreign exchange bureaus licensed by the Bank of Latvia (BOL). Banks and foreign bank branches may engage in all types of transactions; foreign exchange bureaus may only purchase and sell banknotes.

Spot exchange market Yes. Foreign exchange bureaus may operate in Latvia under a BOL license. Their operations are limited to the purchase and sale of banknotes. There were 38 foreign exchange bureaus licensed by the BOL as of December 31, 2018.

Operated by the central bank No.
Foreign exchange standing facility No.
Allocation No.
Auction No.
Fixing No.

Interbank market Yes. There were 16 licensed commercial banks and 5 licensed foreign bank branches as of December 31, 2018. Banks may conduct foreign exchange operations freely.

Over the counter Yes.
Brokerage No.
Market making Yes. The interbank market operates on the basis of a market-making agreement.
Forward exchange market Yes. All forward exchange and swap transactions may be conducted in the interbank market.

Official cover of forward operations No.

Arrangements for Payments and Receipts

Prescription of currency requirements No. There are no controls in place on the use of the euro in current
Controls on the use of domestic currency No.

For current transactions and payments No.

For capital transactions No.

Transactions in capital and money market instruments No.

Transactions in derivatives and other instruments No.

Credit operations No.

Use of foreign exchange among residents No.

Payments arrangements Yes.

Bilateral payments arrangements No.

Operative No.

Inoperative No.

Regional arrangements Yes. Latvia is a member of the EU.

Clearing agreements Yes. The BOL participates in the real-time euro gross settlement system under Trans-European Automated Real-time Gross Settlement Express Transfer System (TARGET2).

Barter agreements and open accounts No.

Administration of control Yes. Government decisions adopted by the cabinet of ministers and approved by parliament prevail in foreign exchange and trade matters, but regulations governing foreign exchange transactions must be issued by the BOL. Foreign exchange transactions must be carried out through authorized banks and enterprises licensed by the Financial and Capital Market Commission and the BOL, respectively.

Payments arrears No.

Official No.

Private No.

Controls on trade in gold (coins and/or bullion) Yes. Gold articles (except coins and bullion) for the domestic market are subject to compulsory hallmarking. Market surveillance control on domestic trade in gold articles is also in place.

On domestic ownership and/or trade Yes. Business activity must be registered with the Assay Office of Latvia.

On external trade No.

Controls on exports and imports of banknotes No. In accordance with Regulation (EC) No. 1889/2005, cash controls have been implemented based on a mandatory declaration system for amounts of cash entering or leaving the EU with a value of €10,000 or more. Travelers entering or leaving the EU and carrying cash of value of €10,000 or more are required to make a declaration to the relevant authorities of the member country through which they enter or leave the EU. The authorities must keep a record of such information and report it to their national financial intelligence unit. The obligation to declare is not fulfilled if the traveler makes no declaration or if the information provided is incorrect or incomplete.
To check compliance with the regulation, the national authorities have the right to search natural persons, their baggage, and their means of transportation. In the event of failure to comply with the declaration obligation, cash may be confiscated. The EC regulation requires member countries to impose penalties for failure to comply with the declaration obligation. If there are indications that cash is related to illegal activity, authorities of one member country may exchange information with authorities in other member countries. Under the framework of existing agreements on mutual administrative assistance, information obtained under the EC regulation may also be communicated to a third country in compliance with relevant national and EU provisions on the transfer of personal data to third countries. The EC regulation does not apply to physical cross-border transportation from one EU member country to another (that is, intra-EU transportation). Such transportation is not considered “cross-border” for the purpose of the EC regulation; the EC regulation only harmonizes the system for the EU’s external borders.

On exports

| Domestic currency | No. | Travelers leaving the EU and carrying cash of value of €10,000 or more are required to make a declaration to the relevant authorities of the member country through which they leave the EU. |
| Foreign currency | No. | Travelers leaving the EU and carrying cash equivalent to €10,000 or more are required to make a declaration to the relevant authorities of the member country through which they leave the EU. |

On imports

| Domestic currency | No. | Travelers entering the EU and carrying cash of value of €10,000 or more are required to make a declaration to the relevant authorities of the member country through which they enter the EU. |
| Foreign currency | No. | Travelers entering the EU and carrying cash equivalent to €10,000 or more are required to make a declaration to the relevant authorities of the member country through which they enter the EU. |

Nonresident Accounts

Foreign exchange accounts permitted
Yes. Effective May 9, 2018, amendments to the Law on the Prevention of Laundering the Proceeds from Criminal Activity (Money Laundering) and of Terrorism Financing limit the engagement of Latvian financial institutions with certain types of shell entities. Shell arrangements are defined by Latvian law as any legal person possessing one or several of the following characteristics: (1) having no affiliation with an actual economic activity and operations that are of limited or no economic value; (2) not being subject to an obligation to prepare and submit financial statements in the state of incorporation; or (3) having no physical place of business in the state of incorporation. Pursuant to the new provisions, financial institutions are prohibited from engaging with shell companies bearing characteristics of (1) and (2).

Approval required
No.

Domestic currency accounts
Yes.

Convertible into foreign currency
Yes.

Approval required
No.

Blocked accounts
Yes. Accounts may be blocked in cases specified by law, for example, if account holders are suspected of engaging in money laundering. These provisions apply equally to resident and nonresident accounts, irrespective of the currency.

SREP methodology for setting Pillar 2 capital requirement is aligned with that of the SSM and, in addition, for banks with total loans to foreign customers exceeding 5% of their total assets capital requirement calculated according to an algorithm that incorporates the share of loans to foreign customers in total assets and the growth rates of loans granted to and deposits taken from foreign customers is used as a backstop.

Banks are subject to capital requirements for indirect foreign exchange risk arising from lending to unhedged resident retail borrowers if such loans exceed 10% of the loan portfolio (Regulations on Establishment of the Capital and Liquidity Adequacy Assessment Process).

Effective January 1, 2018, the liquidity coverage ratio requirement is 100%. Previously, the liquidity ratio depended on the share of a bank’s assets funded by deposits from foreign customers: the individual liquidity ratio was 40% for banks with 20%–40% of total assets funded by deposits from foreign customers, 50% for banks with 40%–70% funded by deposits from foreign customers, and 60% for banks with more than 70% funded by deposits from foreign clients. The regulatory minimum liquidity ratio was 30%.

The Pillar 2 capital requirement must be met by banks with total loans to foreign customers exceeding 5% of the total assets and/or more than 20% of total assets funded by deposits from foreign customers. The capital requirement calculation algorithm incorporates the share of loans to foreign customers in total assets and the growth rates of loans granted to and deposits taken from foreign customers, provided the amount calculated according to this algorithm is higher than the capital requirement calculated according
Investment regulations No.

Abroad by banks No.

In banks by nonresidents No.

Open foreign exchange position limits Yes. The open foreign exchange position is limited to 10% of capital for any single foreign currency and 20% for all foreign currencies. Banks are subject to capital requirements for indirect foreign exchange risk arising from lending to unhedged resident retail borrowers if such loans exceed 10% of the loan portfolio (Regulations on Establishment of the Capital and Liquidity Adequacy Assessment Process).

</tr>
</tbody>
</table>

07/04/2019 Amendments to the Law on International Sanctions and National Sanctions of the Republic of Latvia were made to achieve, inter alia, the following main objectives in accordance with FATF standards and Moneyval recommendations: (1) To clarify the binding nature of sanctions, it was clearly stated that all persons must comply with and execute international and national sanctions. (2) Considering that effective implementation of sanctions requires that all parties act swiftly and decisively, a legal framework was created for UNSC resolutions to be implemented without delay. (3) To fully commit to better the international sanctions regimes, a legal framework was created for Latvia to propose international sanctions (UNSC and EU) without having to impose national sanctions. (4) To ensure that sanctions are effectively applied, all persons (legal and natural) in accordance with their competence have the obligation to immediately and without a prior notice to freeze for an indefinite period all financial resources and financial instruments, which are directly or indirectly, completely or partially, under the ownership, possession, holding, or control of the subject of sanctions, including those financial resources and financial instruments that have been transferred to third persons. Similar provisions are provided regarding financial services and other material and immaterial assets, such as immovable property, ships, airships, etc. (5) The system for reporting the possible breaches or the possible circumvention of sanctions was clarified. (6) To unify the standards for the implementation of sanctions and to allow all competent authorities to share their know-how, the Cabinet of Ministers in accordance with the amendments created a Sanctions Coordination Council by issuing corresponding by-laws. It is tasked with creating unified informative materials about sanctions for all interested parties. The Council will also discuss possible cooperative solutions to complicated cases, and the authorities may share information about potential issues and risks. (7) Failure to comply with the requirements for the internal control system of sanctions may result in fines for natural persons and legal persons of up EUR 1 million. These amendments are supplemented by corresponding government regulations explaining in greater detail the obligations as set by law, including delisting and exemption procedures, identification of subjects of sanctions, and asset freezing procedures. New competent authorities were established to supervise the business and financial sectors in relation to sanctions internal control systems and to control the effectiveness of these systems.

Nonresident Accounts

Amendments to the Law on the Prevention of Laundering the Proceeds from Criminal Activity (Money Laundering) and of Terrorism Financing limit the engagement of Latvian financial institutions with certain types of shell entities. Shell arrangements are defined by Latvian law as any legal person possessing one or several of the following characteristics: (1) having no affiliation with an actual economic activity and operations that are of limited or no economic value; (2) not being subject to an obligation to prepare and submit financial statements in the state of incorporation; or (3) having no physical place of business in the state of incorporation. Pursuant to the new provisions, financial institutions are prohibited from engaging with shell companies bearing characteristics of (1) and (2).
Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions

01/09/2018

Regulation No. 3 of January 9, 2018, Regulatory provisions for credit institutions and licensed payment and electronic money institutions on enhanced customer due diligence (previous Regulation No. 234 of 23 December 2015) apply for credit institutions, as well as licensed payment and electronic money institutions. They define the rules for mandatory ML/TF risk categorization of the customer base in line with clearly defined 8 categories, which also stipulates features for identification of groups of customers that pose elevated risks – shell companies, PEP persons, customers subject to EDD, etc. Additionally, 4 main risk factors must be used for risk scoring of the customers – risk posed by the customer, country risk and geography, risk of products and services used by a customer and their delivery channels.

Differential treatment of deposit accounts held by nonresidents

01/01/2018

Liquid asset requirements

The liquidity coverage ratio was set to 100%. Previously, the liquidity ratio depended on the share of a bank’s assets funded by deposits from foreign customers: the individual liquidity ratio was 40% for banks with 20%–40% of total assets funded by deposits from foreign customers, 50% for banks with 40%–70% funded by deposits from foreign customers, and 60% for banks with more than 70% funded by deposits from foreign clients. The regulatory minimum liquidity ratio was 30%.

*U.S. dollar*  
Yes. The monetary policy framework is an exchange rate anchor vis-à-vis the US dollar. The BDL manages the exchange rate of the Lebanese pound vis-à-vis the US dollar with the goal of maintaining social and economic stability through sustainable economic growth, a stable inflation rate, and stable purchasing power.

Foreign exchange market  Yes. Banks may engage in foreign exchange transactions in any currency except new Israeli shekels. Commercial banks may determine the exchange rate and commissions for transactions with their clients, taking into consideration the BDL’s bid-ask prices. Insurance companies may engage in foreign exchange transactions in any currency except new Israeli shekels. Such dealings are restricted to the extent that insurers must match their assets with their liabilities with regard to currency.

Spot exchange market  Yes. Foreign exchange bureaus are allowed to operate and are subject to licensing by BDL. As of December 31, 2018, the number of authorized foreign exchange bureaus was 305 (both Categories A and B). Foreign exchange bureaus (money dealers) may conduct foreign exchange transactions with commercial banks, but not directly with BDL. Category A money dealers must have a minimum capital of LL 750 million. Only the 46 Category A money dealers may perform transfers and they are prohibited from making any transfer in excess of US$1,500 that does not result from an exchange operation or a cross-border transport operation, when the transfer consists of receiving cash amounts from customers then transferring them to third persons whether in Lebanon or abroad through the institution’s bank accounts. Only Category A money dealers with a minimum capital of LL 5 billion may conduct cross-border transport of cash banknotes and precious metals. Category B money dealers must have a minimum capital of LL 250 million if established before December 7, 2011, and LL 500 million if established on or after December 7, 2011. Category B money dealers whose capital was raised to LL 500 million may deal in cash and traveler’s checks up to the equivalent of US$10,000 in uncollected traveler’s checks and gold bars not exceeding 1,000 grams. Category B money dealers established before December 7, 2011, may raise their capital to LL 500 million if they wish to expand their operations to include the above. Category A money dealers with a capital greater than LL 750 million must be the only institutions entitled to perform hawala cash transfers, whether for their own account or on behalf of a third party.
These institutions are also prohibited from performing transactions, such as commercial financing, lending, and the management of funds, among others, which do not fall within the scope of exchange business.

The value of an incoming or outgoing hawala transaction must not exceed US$20,000 or its equivalent in any other currency, provided the total amount of hawala transactions in a single year does not exceed, at any time, tenfold the capital of the exchange institution. Effective January 14, 2019, nonbank financial institutions allowed to conduct electronic transfers must settle incoming transfers in Lebanese pound.

**Operated by the central bank**  Yes.

**Foreign exchange standing facility**  Yes. The BDL sets its bid-ask rates at the opening hour on Reuters (page BDL O1), and the rates do not change during the day. The closing rates are determined and published at the end of each trading day. The bid-ask rates were LL 1,501 per US dollar and LL 1,514 per US dollar, respectively, throughout 2018.

**Allocation**  No.

**Auction**  No.

**Fixing**  No.

**Interbank market**  Yes. There is an active interbank foreign exchange market, and all commercial banks operating in Lebanon may trade among themselves at freely determined rates. There were 63 banks operating in Lebanon as of December 31, 2018, including 42 commercial banks, 16 investment and specialized banks, and 5 Islamic banks. Two banks not counted above are under liquidation. The BDL grants licenses and intervenes directly with market participants at their quoted rates.

**Over the counter**  Yes. The market operates over the counter.

**Brokerage**  No.

**Market making**  No.

**Forward exchange market**  Yes. Banks are permitted to engage in forward operations on their own behalf for hedging purposes only. Forward operations and spot operations on behalf of clients are allowed with a minimum cash margin deposit equivalent to 20% of credit facilities. The total shortage in margin for all operations may not exceed 8% of a bank’s capital. The BDL does not participate in the foreign exchange derivatives market. Effective June 1, 2018, the prohibition on commercial banks and financial institutions from carrying on for account of their clients, transactions on financial instruments unless executed through specialized banks or brokerage firms, was eliminated. Insurance companies may engage in forward transactions; nevertheless, no such transactions are recorded in practice because of restrictions on the admissibility of financial derivatives.

**Official cover of forward operations**  Yes. A minimum cash margin equivalent to 20% of credit facilities must be provided by the client for spot or forward foreign exchange operations for speculative purposes.

Imports and Import Payments

Foreign exchange budget No.

Financing requirements for imports Yes.

Minimum financing requirements No.

Advance payment requirements No.

Advance import deposits Yes. Importers are required to deposit with a bank an amount equivalent to 15% of an LC’s value in the same currency as the LC.

Documentation requirements for release of foreign exchange for imports No.

Domiciliation requirements No.

Preshipment inspection No.

Letters of credit No.

Import licenses used as exchange licenses No.

Other No.

Import licenses and other nontariff measures Yes.

Positive list No.

Negative list Yes. In general, import licenses are issued mainly for health, security, and fraud prevention and apply to about 3% (in value terms) of all goods imported into Lebanon (except petroleum derivatives). Licenses generally apply to imports of certain animal and plant products, medical substances, arms, ammunition, explosive materials, and certain telecommunications equipment and petroleum and industrial products.

Open general licenses No.

Licenses with quotas No.

Other nontariff measures Yes. Import prohibitions apply to a list of products for the protection of health and the environment, safety, and security. Imports from Israel are prohibited. In addition, certain commercial entities listed under the Arab Boycott List are barred from trading with Lebanon.

Import taxes and/or tariffs Yes. Under the Harmonized Tariff System, customs valuation is based on c.i.f. or c.f.r. values; customs duties are generally ad valorem. The WTO valuation principle is also applied. Ad valorem rates vary between 0% and 75%. There are preferential duty rates for goods imported for industrial, agricultural, or public use. In addition to ad valorem duties, which apply to about 93% of products, the following rates apply: (1) The bracket-based calculation applies to cars. The value of a car is divided into two brackets, and the total duty is the sum of the duty applied at each bracket’s rate. (2) Duty may be calculated on the basis of units of measure, such as weight or volume (for example, for gasoline). (3) Combined duty may be calculated on an ad valorem and specific basis, and the higher amount collected (for example, for tropical fruits and chickens). Excise duty is collected on tobacco and alcoholic and nonalcoholic beverages, cars, cement, and fuels. Lebanon applies the GAFTA Convention and has...
signed bilateral free trade agreements with Egypt, Iraq, Jordan, Kuwait, Saudi Arabia, Syria, Turkey (the latter was signed in November 2010 but awaits parliamentary ratification), and the United Arab Emirates. Lebanon signed an interim agreement with the EU and the EFTA countries on trade and commercial issues in 2003, which formally triggered the 12-year transition to free trade. A VAT of 11% is levied on all goods and services, whether imported or produced domestically, except for some exempt goods and services.

Taxes collected through the exchange system: No.

State import monopoly: Yes.

Import of some goods, including weapons of war and ammunition and wheat and tobacco products, are reserved for the government.

Exports and Export Proceeds

Repatriation requirements: No.

Surrender requirements: No.

Surrender to the central bank: No.

Surrender to authorized dealers: No.

Financing requirements: No.

Documentation requirements: No.

Letters of credit: No.

Guarantees: No.

Domiciliation: No.

Preshipment inspection: No.

Other: No.

Export licenses: Yes.

Exports of a limited number of products are prohibited for purposes of biodiversity conservation, forest conservation, ecology, security, health, and preserving the national cultural heritage.

Without quotas: Yes.

With quotas: No.

Export taxes: No.

Collected through the exchange system: No.

Other export taxes: No.

Payments for Invisible Transactions and Current Transfers

Controls on these transfers: Yes.

All accounts are subject to the Law on Combating Money Laundering and Terrorism Financing (which also deals with terrorism financing and corruption). There are quantitative limits for nonbank financial institutions, financial intermediation institutions, and Category A money dealers. The above institutions may not transfer,
internally or abroad, for their clients to a third party an amount exceeding US$1,500. Only Category A money dealers may conduct hawala transactions. The maximum amount of each hawala transaction (inward or outward) is US$20,000. Total hawala transactions may not exceed 10 times the capital of the money dealer each year. Effective January 14, 2019, nonbank financial institutions allowed to conduct electronic transfers must settle any incoming transfers in Lebanese pound.

### Capital Transactions

**Controls on capital transactions**

Yes.

Law No. 161 of August 17, 2011, established the CMA. The CMA’s regulatory and supervisory authority includes (1) shares or other securities of a participating nature in commercial companies, (2) bonds or other debt securities, (3) money market instruments, (4) collective investment vehicles, and (5) derivatives and other instruments. The three financial expert board members of the CMA were appointed by Decree No. 8475 of July 10, 2012. The CMA began to exercise its functions toward the end of 2013.

**Repatriation requirements**

No.

**Surrender requirements**

No.

**Surrender to the central bank**

No.

**Surrender to authorized dealers**

No.

**Controls on capital and money market instruments**

Yes.

**On capital market securities**

Yes.

**Shares or other securities of a participating nature**

Yes.

Shares or other securities of a participating nature of a single nonfinancial issuer may not exceed 10% of the equity of a bank or financial institution. Moreover, no shares, stocks, or other kind of capital participation may generate unlimited liability or responsibility for a bank or financial institution.

**Purchase locally by nonresidents**

Yes.

Limits are imposed on the acquisition of shares in real estate companies. Acquisition of shares in nonbank financial institutions and financial intermediation institutions is subject to BDL Central Council approval for the former and the CMA board of directors for the latter (CMA Regulation (Series 2000)) if (1) it leads directly or indirectly to the acquisition by the purchaser of more than 10% of the institution’s total shares; (2) the purchaser already holds 10% or more of the institution’s shares; or (3) the purchaser or seller is a member or an elected member of the board of directors, irrespective of the number of shares to be sold. The 10% limit applies to spouses, minors, and any economic group. Approval of BDL Central Council is required for acquisition of shares in a bank if (1) it leads directly or indirectly to the acquisition by the purchaser more than 5% of total shares or voting rights; (2) the purchaser already holds more than 5% or more of total shares or voting rights; (3) the purchaser or seller of
the shares is a member or an elected member of the board of directors of the bank involved; (4) the purchaser or seller of the shares is a member of the senior management or an employee of the bank involved and holds 1% or more of the total shares if such shares are listed; or (5) the purchase of shares by an employee leads directly or indirectly to his or her acquisition of more than 1% of the total shares if such shares are listed. Authorization and regulations also apply to ascendants, spouses, and descendants of sellers and purchasers.

When purchasers of shares in banks and financial institutions are companies or mutual funds, their respective by-laws or Articles of Association must explicitly include that all their shares are in registered form, and are fully and continuously owned, whether directly or indirectly, by natural persons or companies whose shares are in registered form (BDL Intermediate Circular No. 411).

Any legal entity, resident or nonresident, that acquires directly or indirectly a share in an issuing company or public company equal to or exceeding 5% of the shares or units of a fund with a voting right in the said company must submit a report to the CMA in this respect (Law No. 161).

Sale or issue locally by nonresidents Yes.

Financial instrument transactions must be authorized by the CMA. Principal or secondary professional activity that involves solicitation of clients for subscription, purchase, swap, or sale of securities or financial instruments also requires CMA authorization.

Legal entities may not undertake a public subscription without CMA approval. Issuance, sale, or offers to sell financial instruments for public subscription are also prohibited prior to obtaining the CMA’s authorization. Invitations to potential investors for such financial instruments require CMA approval (Law No. 161).

No person, resident or not, may issue or invite the public to subscribe to or market or make any statement, announcement, or communication that has the effect of selling, issuing, or offering the following products without authorization from the CMA:

1. shares, debt securities, or units issued by a public or private company or entity or a collective investment fund;
2. bonds, notes, CDs, depositary receipts, and treasury bills and bonds;
3. financial rights, options, futures, and any other derivatives or structured financial products; and
4. any other financial instrument authorized by the CMA or its regulations, except an instrument specifically excluded by the law.

An exempt offer of securities (as defined in CMA Regulation (Series 6000)) must be notified to the CMA prior to the offer.

The offer of foreign securities in Lebanon (whether public or exempt) must be made through an approved institution licensed by the CMA.

The offer of securities issued by a foreign government or by a supranational authority recognized by the CMA is exempted from the above requirements (CMA Regulation (Series 6000)). BDL approval is required for Lebanese banks and financial institutions to participate, directly or indirectly, and within the limits set by Article 153 of the Code of Money and Credit, in any foreign financial entity (bank, financial institution, brokerage house, mutual fund, insurance company). BDL approval is not required (1) if a resident bank participates indirectly through foreign banks and financial institutions in which the resident bank has a stake greater than 20% and if the participation of these foreign banks or financial institutions in the foreign financial sector is less than 20% of their assets; or (2) if the stake of a resident bank is less than 20%.

Approval for Lebanese bank participation depends on specific BDL...
conditions regarding ethical and technical qualifications. Banks, nonbank financial institutions, foreign exchange bureaus, and leasing companies are not allowed, directly or indirectly, to conduct any transactions with bearer shares companies and mutual funds or companies and mutual funds owned by other companies and mutual funds with bearer shares (BDL Intermediate Circular No. 411).

**Sale or issue abroad by residents**  Yes. Banks and financial institutions require BDL approval to issue shares locally or abroad.

**Bonds or other debt securities**  Yes.

**Purchase locally by nonresidents**  Yes. Nonresident financial entities must obtain BDL approval when purchasing treasury securities issued in Lebanese pounds or BDL CDs denominated in Lebanese pounds, US dollars, or euros. Funds used to purchase treasury securities or CDs in Lebanese pounds must originally have been deposited in foreign currency and converted specifically for the purchase.

**Sale or issue locally by nonresidents**  Yes. Financial instrument transactions must be authorized by the CMA. Principal or secondary professional activity that involves solicitation of clients for subscription, purchase, swap, or sale of securities or financial instruments also requires CMA authorization. Legal entities may not undertake a public subscription without CMA approval. Issuance, sale, or offers to sell financial instruments for public subscription are also prohibited prior to obtaining the CMA’s authorization. Invitations to potential investors for such financial instruments require CMA approval (Law No. 161).

No person, resident or not, may issue or invite the public to subscribe to or market or make any statement, announcement, or communication that has the effect of selling, issuing, or offering the following products without authorization from the CMA:

1. shares, debt securities, or units issued by a public or private company or entity or a collective investment fund;
2. bonds, notes, CDs, depositary receipts, and treasury bills and bonds;
3. financial rights, options, futures, and any other derivatives or structured financial products; and
4. any other financial instrument authorized by the CMA or its regulations, except an instrument specifically excluded by the law.

An exempt offer of securities (as defined in CMA Regulation (Series 6000)) must be notified to the CMA prior to the offer. The offer of securities issued by a foreign government or by a supranational authority recognized by the CMA is exempted from the above requirements (CMA Regulation (Series 6000)).

The offer of foreign securities in Lebanon (whether public or exempt) must be made through an approved institution licensed by the CMA.

The offer of securities issued by a foreign government or by a supranational authority recognized by the CMA is exempted from the above requirements (CMA Regulation (Series 6000)).

**Purchase abroad by residents**  Yes. The following apply to banks’ and financial institutions’ holdings, including by their foreign branches and subsidiaries: (1) A 25% equity limit applies to the nominal value of structured financial products held and purchased abroad, provided (a) they are issued or guaranteed by an issuer or a guarantor rated at least A and (b) their capital is unconditionally and totally guaranteed. (2) A 10% equity limit applies to credit-linked notes (CLNs) related to Lebanese Eurobonds and BDL CDs in foreign currencies and purchased from abroad, provided (a) their capital is unconditionally and totally guaranteed; (b) they are issued or guaranteed by an issuer or guarantor rated at least A; and (c) they include mandatory physical settlement in case of a credit event—such as default on Eurobonds or BDL CDs—whereby changes in the price of credit default swaps on Lebanese treasury bills not induced by an internationally recognized
credit event are not categorized under a credit event and consequently do not call for mandatory physical settlement. (3) A 50% equity limit applies to non-Group of Ten (G10) sovereign bonds rated at least BBB and corporate bonds rated at least BBB; if guaranteed, the guarantor must be rated at least BBB. The applicable rating is the lowest of Standard & Poor’s (S&P’s) or another internationally recognized rating agency, provided it is BBB or higher. The 50% limit includes the 25% structured financial products’ equity limit and the 10% CLNs related to Lebanese Eurobonds and BDL CDs in foreign currencies equity limit and deposits abroad with a maturity of one year or more. (4) A 10% equity limit applies to the total value of sovereign (except G10 countries) and other bonds, structured financial products, and CLNs of a single issuer. (5) A 10% equity limit applies to placements with banks abroad with maturity of one year or longer. (6) A 50% equity limit applies to the total value of sovereign (except G10 countries) and corporate bonds, structured financial products, CLNs, and interbank deposits. (7) Investments by Lebanese affiliates abroad in sovereign bonds issued in the currency of the host country may not exceed deposits in the same currency. With respect to item (3), the BDL may authorize banks and financial institutions to exceed the 50% limit, if they have a high capital adequacy ratio and they abide by BCC and BDL circulars, particularly on ethical and technical qualifications of specific functions in the banking and financial sector. In the calculation of ratios, the investments of banks’ and financial institutions’ branches abroad are included in the portfolio of bonds, structured financial products, and CLNs and deposits abroad with a maturity of one year or more. When placing bids, banks and financial institutions must also abide by the limits. Banks, nonbank financial institutions, foreign exchange bureaus, and leasing companies are not allowed, directly or indirectly, to conduct any transactions with bearer shares companies and mutual funds or companies and mutual funds owned by other companies and mutual funds with bearer shares (BDL Intermediate Circular No. 411).

**Sale or issue abroad by residents**
- Yes. BDL approval is required for banks and financial institutions to issue bonds locally or abroad.

**On money market instruments**
- Yes. The regulations governing bonds or other debt securities apply.

**Purchase locally by nonresidents**
- Yes. Nonresident financial entities must obtain BDL approval when purchasing treasury securities issued in Lebanese pounds or BDL CDs denominated in Lebanese pounds, US dollars, or euros. Funds used to purchase treasury securities or CDs in Lebanese pounds must originally have been deposited in foreign currencies and converted specifically for the purchase.

**Sale or issue locally by nonresidents**
- Yes. CMA approval is required. However, foreign sovereign bonds and short-term instruments are exempted from the CMA approval pursuant to Article 37 of Law 161.

**Purchase abroad by residents**
- Yes. The purchase of sovereign bonds, including treasury bonds—(except from G10 countries) with an S&P rating of at least BBB or an equivalent rating from another internationally recognized rating agency—and the purchase of corporate bonds rated BBB and issued by corporations rated at least BBB are limited to 50% of banks’ and financial institutions’ equity. The total value of corporate bonds and structured financial products from a single issuer may not exceed 10% of Tier 1 capital.

**Sale or issue abroad by residents**
- Yes. BDL approval is required for banks and financial institutions to issue money market instruments locally or abroad.

**On collective investment securities**
- Yes.
Purchase locally by nonresidents
Yes.

Any legal entity, resident or nonresident, that acquires directly or indirectly a share in an issuing company or public company equal to or exceeding 5% of the shares or units of a fund with a voting right in the said company must submit a report to the CMA in this respect. Effective March 5, 2019, the requirement that mutual fund managers must notify the CMA if a resident or nonresident acquires more than 5% of the total issued shares of the fund was removed.

Sale or issue locally by nonresidents
Yes.

The promotion of and trading in foreign collective investment securities are subject to CMA approval. Public offer of units in a foreign investment fund in Lebanon is not permitted unless that fund is approved by the regulator in its jurisdiction for public offer and is approved by the CMA as offering equivalent protection to Lebanese investors. The offer in Lebanon of units in a foreign fund that is not an approved fund is only permitted if it is an exempt offer (that is, offered to professional clients and the minimum subscription amount is US$50,000).

The offer of units of foreign collective investment funds in Lebanon (whether public or exempt) must be undertaken by an approved institution licensed by the CMA.

Purchase abroad by residents
Yes.

The limit for banks’ purchases of collective investment securities is set by Article 153 of the Code of Money and Credit. According to this limit, the total of a bank’s initial capital and holdings of fixed assets, real estate, equity investments, and credit to connected persons may not exceed its own funds. Banks, nonbank financial institutions, foreign exchange bureaus, and leasing companies are not allowed, directly or indirectly, to conduct any transactions with bearer shares companies and mutual funds or companies and mutual funds owned by other companies and mutual funds with bearer shares (BDL Intermediate Circular No. 411).

Effective January 24, 2019, the manager of a collective investment fund may not acquire units in another collective investment fund unless the latter is an approved fund or a publicly offered fund that is subject to similar regulation and oversight in a jurisdiction judged by the CMA to provide equivalent investor protection to applicable Lebanese laws and regulations (CMA Regulation (Series 8000)).

Sale or issue abroad by residents
No.

Controls on derivatives and other instruments
Yes.

Operations with financial instruments must be authorized by the CMA. Principal or secondary professional activity that involves solicitation of clients for subscription, purchase, swap, or sale of securities or financial instruments also requires CMA authorization. Legal entities may not undertake a public subscription without CMA approval. Issuance, sale, or offer to sell financial instruments for public subscription is also prohibited prior to obtaining the CMA’s authorization. Invitations to potential investors concerning such financial instruments are prohibited without CMA approval (Law No. 161).

No person, resident or not, may issue or invite the public to subscribe to or market or make any statement, announcement, or communication that has the effect of selling, issuing, or offering the following products without authorization from the CMA:
(1) shares, debt securities, or units issued by a public or private company or entity or a collective investment fund;
(2) bonds, notes, CDs, depositary receipts, and treasury bills and...
bonds;
(3) financial rights, options, futures, and any other derivatives or
structured financial products; and
(4) any other financial instrument authorized by the CMA or its
regulations, except an instrument specifically excluded by the law.
An exempt offer of securities (as defined in CMA Regulation (Series
6000)) does not require the approval of CMA but must be notified to
the CMA prior to the offer. The CMA has the right to object to the
proposed offer or to prohibit it if it deems that the offer is not in the
public interest or may result in a breach of CMA laws and
regulations.
The offer of foreign securities in Lebanon (whether public or
exempt) must be made through an approved institution licensed by
the CMA (CMA Regulation (Series 6000)).

**Purchase abroad by residents**  Yes.

Financial intermediaries (that is, banks, financial institutions,
financial intermediation companies) may not perform on their own
behalf, or on behalf of their clients, a transaction in financial
derivatives or an off-exchange retail foreign exchange transaction
with a nonresident party except with (1) a party that operates in the
United States, provided it is a member of the National Futures
Association and licensed by the Commodity Futures Trading
Commission; (2) a party that operates outside the United States or is
not a resident of the United States, provided it has an investment
grade rating and is licensed to trade in financial derivatives by the
relevant regulatory authorities in countries with investment grade
(Article 3602 of the CMA Regulation (Series 3000)). Banks, unlike
other financial institutions and brokerage firms, may engage, on their
own behalf, in derivatives transactions locally or abroad for hedging
purposes only. Banks and financial institutions may not deal on their
own behalf with nonresident sectors nor in any currency in structured
financial products, except for unconditional capital-guaranteed
structured financial products issued or guaranteed by an issuer or a
guarantor rated at least A, provided their total nominal value does not
exceed 25% of Tier 1 capital. The total value of corporate bonds and
structured financial products of a single issuer may not exceed 10%
of equity, and banks and financial institutions may not deal, on their
own behalf with nonresident entities, in CLNs related to Lebanese
Eurobonds and BDL CDs denominated in foreign currency, except
(1) notes that are capital guaranteed in the case of a credit event, such
as default on Eurobonds or BDL CDs; and (2) notes issued or
guaranteed by an at least A-rated issuer or guarantor, on condition of
mandatory payment and delivery of the Eurobonds and BDL CDs
when the credit event occurs, whereby changes in the price of credit
default swaps on Lebanese treasury bills not induced by an
internationally recognized credit event are not categorized under a
credit event and consequently do not call for mandatory physical
settlement. The nominal value of these CLNs may not exceed 10% of
the capital of the bank or financial institution.

**Sale or issue abroad by residents**  Yes.

Financial intermediaries (that is, banks, financial institutions,
financial intermediation companies) may not perform on their own
behalf, or on behalf of their clients, a transaction in financial
derivatives or an off-exchange retail foreign exchange transaction
with a nonresident party except with (1) a party that operates in the
United States, provided it is a member of the National Futures
Association and licensed by the Commodity Futures Trading
Commission; (2) a party that operates outside the United States or is
not a resident of the United States, provided it is rated an investment
grade rating and is licensed to trade in financial derivatives by the
relevant regulatory authorities in countries with investment grade
rating (Article 3602 of the CMA Regulation (Series 3000)). Banks,
unlike other financial institutions and brokerage firms, may engage, on their own behalf, in derivatives transactions locally or abroad for hedging purposes only.

Controls on credit operations  Yes.

Commercial credits  Yes.

By residents to nonresidents  Yes.

The following limits apply to banks’ credit facilities for borrowers:
(1) For credit used in Lebanon and abroad, credit by a bank in Lebanon and its branches and subsidiaries abroad to a single borrower (or group of related borrowers) may not exceed 20% of Tier 1 capital. (2) For credit used only abroad, credit by a bank in Lebanon and its branches abroad to a single borrower (or group of related borrowers) may not exceed 10% of Tier 1 capital. (3) Total credit by a bank in Lebanon and its foreign branches for use abroad may not exceed four times Tier 1 capital. (4) Total for large exposure credits (that each one exceeds 10% of the bank’s consolidated Tier 1 capital) used in Lebanon and abroad may not exceed four times Tier 1 capital on a consolidated basis. The limits per country are as follows: (1) Total credit by a bank and its foreign branches for use in a country rated at least BBB may not exceed 50% of Tier 1 capital. (2) Total credit by a bank and its foreign branches for use in a country rated below BBB or unrated may not exceed 25% of Tier 1 capital. Total credit by a bank in Lebanon and its branches abroad for use in countries rated below BBB or unrated may not exceed 100% of Tier 1 capital.

Car or housing loans in domestic and foreign currencies to residents and nonresidents may not exceed 75% of the price of the car or the house (except housing loans by the housing bank and housing corporation and through the military housing plan and the Ministry of Displaced and Protocols for Judges and the Internal Security Forces and Public Security). The total monthly payment for all loans may not exceed 35% of a family’s income (family consists of husband and wife). The maximum is 45% if the family benefits from a housing loan, provided the monthly payments of the housing loan do not exceed 35% of the family income.

Banks and financial institutions may not extend credit in Lebanese pounds to nonresident financial entities. Banks may not extend credit to clients in domestic currency for the purpose of constituting deposits in foreign currency other than for commercial purposes.

Banks and financial institutions may not extend credit in domestic currency for the purpose of settling a loan already originated in foreign currency by the bank itself or the financial institution itself or by another bank or another financial institution (BDL Basic Circular No. 46). Starting January 1, 2020, banks are required to maintain a LTD ratio in LBP of no more than 25% (BDL Intermediate Circular No. 503, which amended BDL Basic Circular No. 81).

Credit counters are not allowed to grant loans for one individual borrower or group of borrowers more than 5% of their equity or the equivalent of US$0.1 million whichever is less, provided the monthly payments for all loans granted by any credit institution do not exceed 35% of the family income (BDL Basic Circular No. 2).
financial institutions may not extend credit in Lebanese pounds to nonresident financial entities.

Banks and financial institutions may not make treasury placements abroad other than for operating accounts, except with correspondents rated at least BBB or nonrated correspondents affiliated to banking groups rated BBB and above, provided these correspondents are based in countries rated BBB and above. (Placements with Lebanese bank affiliates abroad are exempt.) Total net credit exposure with each correspondent abroad may not exceed 25% of the bank’s (financial institution’s) Tier 1 capital. Net credit exposure includes all on-balance- and off-balance-sheet exposures.

To prevent short-selling operations on Lebanese Eurobonds, CLNs, and BDL CDs, banks and nonbank financial institutions were directed to amend contracts with their correspondents and custodians abroad to prevent transactions on such instruments pledged or placed in custody. Banks and financial institutions must be fully informed of the laws and regulations governing their correspondents abroad and must ensure compliance with the laws, regulations, procedures, sanctions, and restrictions of international legal organizations and sovereign authorities in the correspondents’ home country.

Banks, nonbank financial institutions, foreign exchange bureaus, and leasing companies are not allowed, directly or indirectly, to conduct any transactions with bearer shares companies and mutual funds or companies and mutual funds owned by other companies and mutual funds with bearer shares (BDL Intermediary Circular No. 411).

Banks are not allowed to grant loans to credit counters (BDL Intermediate Circular No. 410).

Guarantees, sureties, and financial backup facilities

By residents to nonresidents

Yes.

The regulations governing commercial credits apply regarding banks and financial institutions.

To residents from nonresidents

Yes.

Nonresident financial entities may issue guarantees against loans made in Lebanese pounds if the loans are related to investment or commercial activities in Lebanon.

Controls on direct investment

Yes.

Outward direct investment

Yes.

Direct investments by banks in the financial sector abroad require BDL approval and are subject to the limit set by Article 153 of the Code of Money and Credit. According to this limit, the total of a bank’s initial capital and holdings of fixed assets real estate, equity investments, and credit to connected persons may not exceed its own funds.

Inward direct investment

Yes.

Foreign investments in the real estate sector are subject to specific ceilings. All foreigners must obtain a license from the council of ministers to acquire real estate exceeding a certain threshold. Real estate acquisition by a branch of a foreign bank must be funded in foreign currency by its headquarters and is subject to the limit set by Article 153 of the Code of Money and Credit.

The limit for banks locally and abroad is set by Article 153 of the Code of Money and Credit.

All foreigners must obtain a license from the council of ministers to acquire real estate in Lebanon. However, subject to the conditions in Decree No. 11614 of January 4, 1969, foreigners may acquire real estate without a license if the acquisition does not exceed a certain percentage in a specific surface area. There is a maximum total surface area that may be acquired in the capital and in each Lebanese district. Real estate acquisition by a branch of a foreign bank must be funded in foreign currency by its head office and is subject to the limits in Article 153 of the Code of Money and Credit.

These transactions are permitted without limitation, provided anti-money-laundering and antiterrorism regulations are followed.

Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions

Car or housing loans in domestic and foreign currencies to residents and nonresidents may not exceed 75% of the price of the car or the house (except housing loans by the housing bank and housing corporation, and through the military housing plan and the Ministry of Displaced and Protocols for Judges and the Internal Security Forces and Public Security). The total monthly payment for all loans may not exceed 35% of the income of the family (family consists of husband and wife). The maximum is 45% if the family benefits from a housing loan, provided the monthly payment of the housing loan does not exceed 35% of the family income. Starting January 1, 2020, banks are required to maintain a LTD ratio in LBP of no more than 25% (BDL Basic Circular No. 81).

Borrowing abroad

BDL approval is required for resident banks and financial institutions to issue bonds locally or abroad. CDs issued by a bank are limited to 1958.
six times its own funds.
Lebanese banks and nonbank financial institutions may borrow from
the nonresident financial sector against Lebanese sovereign bonds in
foreign currencies (including CDs issued by the BDL) and foreign
sovereign and non-sovereign bonds up to 50% of Tier 1 equity of the
bank or nonbank financial institution. Borrowing against Lebanese
sovereign bonds and BDL CDs in foreign currencies is limited to
60% of the value of the pledged portfolio. Borrowing against foreign
sovereign bonds is limited to 60% of the pledged portfolio.
Borrowing against foreign corporate bonds is limited to 50% of the
pledged portfolio.

Maintenance of accounts abroad  Yes.
Financial entities are prohibited from maintaining accounts abroad in
Lebanese pounds.
Banks, nonbank financial institutions, foreign exchange bureaus, and
leasing companies are not allowed, directly or indirectly, to conduct
any transactions with bearer shares companies and mutual funds or
companies and mutual funds owned by other companies and mutual
funds with bearer shares (BDL Intermediate Circular No. 411).

Lending to nonresidents (financial or
commercial credits)  Yes.
The following limits apply to banks’ credit facilities for borrowers:
(1) For credit used in Lebanon and abroad, credit by a bank in
Lebanon and its branches and subsidiaries abroad to a single
borrower (or group of related borrowers) may not exceed 20% of
Tier 1 capital. (2) For credit used only abroad, credit by a bank in
Lebanon and its branches abroad to a single borrower (or group of
related borrowers) may not exceed 10% of Tier 1 capital. (3) Total
credit by a bank in Lebanon and its foreign branches for use abroad
may not exceed four times Tier 1 capital. (4) Total for large exposure
credits (that each one exceeds 10% of the bank’s consolidated Tier 1
capital) used in Lebanon and abroad may not exceed four times Tier
1 capital on a consolidated basis. The limits per country are as
follows: (1) Total credit by a bank and its foreign branches for use in
a country rated at least BBB may not exceed 50% of Tier 1 capital.
(2) Total credit by a bank and its foreign branches for use in a
country rated below BBB or unrated may not exceed 25% of Tier 1
capital. Total credit by a bank in Lebanon and its branches abroad for
use in countries rated below BBB or unrated may not exceed 100%
of Tier 1 capital. Car or housing loans in domestic and foreign
currencies to residents and nonresidents may not exceed 75% of the
price of the car or the house (except housing loans by the housing
bank and housing corporation and through the military housing plan
and the Ministry of Displaced and Protocols for Judges and the
Internal Security Forces and Public Security). The total monthly
payment for all loans may not exceed 35% of the income of the
family (family consists of husband and wife). The maximum is 45%
if the family benefits from a housing loan, provided the monthly
payments of the housing loan do not exceed 35% of the family
income.
Starting January 1, 2020, banks are required to maintain a LTD ratio
in LBP of no more than 25% (BDL Basic Circular No. 81).
Banks and financial institutions may not make treasury placements
abroad other than for operating accounts, except with correspondents
rated at least BBB or nonrated correspondents affiliated to banking
groups rated BBB and above, provided these correspondents are
based in countries rated BBB and above. (Placements with Lebanese
bank affiliates abroad are exempt.)
The total net credit exposure with each correspondent abroad may
not exceed 25% of the bank’s (financial institution’s) Tier 1 capital.
Net credit exposure includes all on-balance- and off-balance-sheet
exposures.
To prevent short-selling operations on Lebanese Eurobonds, CLNs,
and BDL CDs, banks and nonbank financial institutions were
directed to amend contracts with their correspondents and custodians
abroad to prevent transactions on such instruments pledged or placed
in custody. Banks and financial institutions must be fully informed of
the laws and regulations governing their correspondents abroad and
must ensure compliance with the laws, regulations, procedures,
sanctions, and restrictions of international legal organizations and
sovereign authorities in the correspondents’ home country.

The net debtor interbank position between a Lebanese bank and its
subsidiaries and sister companies abroad may not exceed 25% of Tier
1 capital. This limit also applies to credit from banks in Lebanon to
affiliated nonfinancial entities abroad. Banks and financial
institutions may not extend credit in Lebanese pounds to nonresident
financial entities.

Banks, nonbank financial institutions, foreign exchange bureaus, and
leasing companies are not allowed, directly or indirectly, to conduct
any transactions with bearer shares companies and mutual funds or
companies and mutual funds owned by other companies and mutual
funds with bearer shares (BDL Intermediate Circular No. 411).

The following limits apply to banks’ credit facilities for borrowers:
(1) For credit used in Lebanon and abroad, credit by a bank in
Lebanon and its branches and subsidiaries abroad to a single
borrower (or group of related borrowers) may not exceed 20% of
Tier 1 capital. (2) For credit used only abroad, credit by a bank in
Lebanon and its branches abroad to a single borrower (or group of
related borrowers) may not exceed 10% of Tier 1 capital. (3) Total
credit by a bank in Lebanon and its foreign branches for use abroad
may not exceed four times Tier 1 capital. (4) Total for large exposure
credits (that each one exceeds 10% of the bank’s consolidated Tier 1
capital) used in Lebanon and abroad may not exceed four times Tier
1 capital on a consolidated basis. The limits per country are as
follows: (1) Total credit by a bank and its foreign branches for use in
a country rated at least BBB may not exceed 50% of Tier 1 capital.
(2) Total credit by a bank and its foreign branches for use in a
country rated below BBB or unrated may not exceed 25% of Tier 1
capital. Total credit by a bank in Lebanon and its branches abroad for
use in countries rated below BBB or unrated may not exceed 100% of
Tier 1 capital.

Car or housing loans in domestic and foreign currencies to residents
and nonresidents may not exceed 75% of the price of the car or the
house (except housing loans by the housing bank and housing
corporation and through the military housing plan and the Ministry of
Displaced and Protocols for Judges and the Internal Security Forces
and Public Security). The total monthly payment for all loans may
not exceed 35% of the income of the family (family consists of
husband and wife). The maximum is 45% if the family benefits from
a housing loan, provided the monthly payments of the housing loan
do not exceed 35% of the family income.

The net debtor interbank position between a Lebanese bank and its
subsidiaries and sister companies abroad may not exceed 25% of Tier
1 capital. This limit also applies to credit from banks in Lebanon to
affiliated nonfinancial entities abroad.

Commercial banks may not lend to specialized or Islamic banks of
the same group.

Credit counters are not allowed to grant loans for one individual
borrower or group of borrowers more than 5% of their equity or the
equivalent of US$0.1 million whichever is less, provided the monthly
payments for all loans granted by any credit institution do not exceed
35% of the family income (BDL Basic Circular No. 2).

Banks are not allowed to grant loans to credit counters (BDL.

BDL approval is required for investments by banks and financial institutions in mutual funds in Lebanon.

BDL approval is required for banks to acquire shares in financial entities abroad within the limits set by Article 153 of the Code of Money and Credit. The following limits and terms apply to banks’ and financial institutions’ holdings of financial instruments, including by their foreign branches and subsidiaries abroad:

1. A 25% equity limit applies to the nominal value of structured financial products held and purchased abroad, provided (a) they are issued or guaranteed by an issuer or a guarantor rated at least A and (b) their capital is unconditionally and totally guaranteed.
2. A 10% equity limit applies to CLNs related to Lebanese Eurobonds and BDL CDs denominated in foreign currencies and purchased from abroad, provided (a) their capital is unconditionally and totally guaranteed, (b) they are issued or guaranteed by an issuer or guarantor rated at least A, and (c) they provide for mandatory physical settlement in case of a credit event, such as default on Eurobonds or BDL CDs, whereby changes in prices of credit default swaps on Lebanese treasury bills not induced by an internationally recognized credit event are not categorized as a credit event and do not call for mandatory physical settlement.
3. A 50% equity limit on non-G10 sovereign bonds rated at least BBB and bonds issued by an issuer rated at least BBB; if guaranteed, the guarantor must be rated at least BBB by S&P or an equivalent rating agency. The 50% limit includes the 25% structured financial products’ equity limit and the 10% CLNs related to Lebanese Eurobonds and BDL CDs in foreign currencies equity limit and deposits abroad with a maturity of one year or more.
4. A 10% equity limit applies to the total value of sovereign (except from G10 countries) and other bonds, structured financial products, and CLN operations with one issuer.
5. A 10% limit applies to deposits abroad with a maturity of one year or longer.
6. A 50% equity limit applies to the total value of sovereign (except from G10 countries) and corporate bonds, structured financial products, CLNs, and interbank deposits.
7. Investments by Lebanese affiliates abroad in sovereign bonds in the currency of the host country may not exceed deposits in the same currency at the affiliate.

With respect to item (3), the BDL may authorize banks and financial institutions to exceed the 50% limit, if they have a high capital adequacy ratio and if they abide by BCC and BDL circulars, particularly related to the fulfillment of ethical and technical qualifications required to practice specific functions in the banking and financial sector. In the calculation of all ratios mentioned, the investments of banks’ and financial institutions’ branches and subsidiaries abroad are included in the portfolio of bonds, structured financial products, CLNs, and deposits abroad with a maturity of one year or more. When placing bids, banks and financial institutions must also abide by the statutory limits.

Banks are not allowed, directly or indirectly, to conduct any transactions with bearer shares companies and mutual funds or companies and mutual funds owned by other companies and mutual funds with bearer shares (BDL Intermediate Circular No. 411).

In banks by nonresidents Approval is required for acquisition of shares in a bank if (1) it leads directly or indirectly to the acquisition by the purchaser more than 5% of total shares or voting rights; (2) the purchaser already holds...
more than 5% or more of total shares or voting rights; (3) the purchaser or seller of the shares is a member or an elected member of the board of directors of the bank involved; (4) the purchaser or seller of the shares is a member of the senior management or an employee of the bank involved and holds 1% or more of the total shares if such shares are listed; or (5) the purchase of shares by an employee leads directly or indirectly to his or her acquisition of more than 1% of the total shares if such shares are listed. Authorization and regulations also apply to ascendants, spouses, and descendants of sellers and purchasers. Foreign banks may establish wholly owned branches, subject to BDL approval. Banks and financial institutions require BDL approval to issue shares locally or abroad. When purchasers of shares in banks are companies or mutual funds, their respective by-laws or Articles of Association must explicitly include that all their shares are in registered form, and are fully and continuously owned, whether directly or indirectly, by natural persons or companies whose shares are in registered form (BDL Intermediary Circular No. 411).

Open foreign exchange position limits  Yes.  For banks, the net trading foreign exchange position is limited to 1% of net Tier 1 capital, and the global position is limited to 40% of net Tier 1 capital. Banks may hold a fixed position in foreign currencies up to 60% of their Tier 1 equity after deduction of assets subject to Article 153 of the law of Money and Credit and Equity instruments in foreign currencies. Other structural positions are subject to BDL approval (BDL Intermediate Circular No. 474 of October 5, 2017). Nonbank financial institutions may hold (1) a long net trading position up to 100% of their free equity in Lebanese pounds. This includes positions held for hedging their capital in Lebanese pounds; and (2) a short net trading position up to 5% of Tier 1 equity.

On resident assets and liabilities  Yes.

On nonresident assets and liabilities  Yes.

Provisions specific to institutional investors  Yes.

Insurance companies  Yes.  Decree No. 2441 of June 29, 2009, imposes a number of limitations on the invested assets of insurance companies for the sake of measuring admissible assets in comparison with insurance liabilities. Companies need to observe strict currency matching in respect of the written liabilities.

Limits (max.) on securities issued by nonresidents  Yes.  There are no absolute limits for investing in nonresident securities for insurance companies. However, a maximum of 50% of assets backing life insurance liabilities relating to policies denominated in foreign currencies (whether for life or composite insurance companies) may be invested in securities issued by nonresidents. No securities issued by nonresidents are considered in the computation of admitted assets for non-life companies (or for the non-life operations in composite insurance companies). These investments to be admitted must be quoted and approved by Insurance Control Commission (ICC).

Limits (max.) on investment portfolio held abroad  Yes.  There are no absolute limits for investing in these securities for insurance companies. However, a maximum of 50% of assets backing life insurance liabilities relating to policies denominated in foreign currencies (whether for life or composite insurance companies) may be invested in portfolios held abroad. No portfolios held abroad are considered in the computation of admitted assets for non-life companies (or for the non-life operations
in composite insurance companies). These investments to be admitted must be quoted and approved by ICC.

For life insurance companies (or for the life operations of composite insurance companies), a minimum limit for cash investments and investments in treasury bills and bonds held locally is set at 10% of the company’s life insurance obligations, of which no less than 5% should be in cash deposits only.

For non-life-insurance companies (or for the non-life operations in composite insurance companies), these minimums are, respectively, 20% and 10%.

For life insurance companies, the 50% limit on admissible foreign investments is applied to the insurance liabilities relating to policies issued in foreign currencies.

The CMA is the authority responsible for regulating the establishment, sale, and distribution of local and foreign collective investment schemes.

In general, no limits are imposed, but CMA approval is required for promotion and sale of foreign collective investment securities.

Collective investment fund managers may not own more than 15% of the securities of a single issuer. Effective January 24, 2019, new provisions were added to the regulations regarding portfolio investment abroad by investment firms and collective investment funds. Specifically:

A feeder fund may invest up to 100% of the net asset value of the fund into a designated master fund or sub-fund which holds a diversified portfolio of investments. A feeder fund investing in a master fund or sub-fund is exempted from the below-mentioned 15% limit on investment in one issuer.

Not more than 100% of the net asset value of a fund may be hedged. The manager must not borrow on behalf of an open-ended scheme or interval scheme by any method except for borrowing of a maximum of 10% of the total asset value of the fund for a maximum of 8 days by way of overdraft. Such borrowing must not be rolled over, must only be used to meet redemptions, and must not be used for investment or to finance payment of investment returns to unit holders.

The manager must not borrow on behalf of a closed-ended fund more than 20% of the total asset value of the fund.

In the case of a closed-ended fund investing in real estate, the manager must ensure that no more than 60% of the value of any one piece of real estate is secured by mortgage.

Not more than 15% of the net asset value of a collective investment fund is permitted to be invested in a specific class of securities of any one issuer or to be deposited with one bank except that: (1) up to 35% of its net asset value may be invested in one issue of Lebanese government securities or government securities issued by G10 countries; (2) a fund may only invest up to 15% of its net asset value in one other scheme, provided that fund is not a sub-fund within the same umbrella fund as the investing fund; (3) a fund is permitted to
have an aggregate exposure of not more than 20% of its net asset value to the securities issued by any one issuer and its associates and deposits of the same body corporate and its associates; (4) a fund is permitted to invest up to 100% of its net asset value in government securities, provided it does not invest more than 35% of its net asset value in any one issue of such securities.

A collective investment fund is permitted to invest up to 100% of its net asset value in foreign government securities subject to the following: (1) the sovereign foreign government securities are rated investment grade BBB or equivalent; and (2) at no time such fund invests more than 35% of its net asset value in any one issue of such securities.

Not more than 15% of the net asset value of a collective investment fund must be invested in any one real estate investment.

The collective investment fund manager of an open-ended fund or an interval fund may invest not more than 10% of the net asset value of that fund in shares that are not listed or traded on a securities exchange.

Collective investment funds that acquire shares in a Lebanese bank must include in their by-laws the following provisions: (1) Their shares must be owned by individuals, banks, or financial institutions and may not be sold, except to individuals, banks, or financial institutions. (2) If their participation and beneficiary rights equal or exceed 5% of the common shares of the Lebanese bank, they must send the BDL and BCC all the requested information related to their balance sheet and shareholders. (3) BDL approval is required to modify the above provisions and in case of the following: (a) acquisition of more than 5% of common shares, directly or indirectly, by the beneficiary, purchaser, assignee or assignee’s spouse or children, or any related economic group; (b) acquisition of more than 5% of the bank’s common shares by the purchaser, assignee or assignee’s spouse or children, or any related economic group; or (c) the assignor or the assignee or any beneficiary is a current or elected board member or partner of the collective investment fund, regardless of the number of transferred shares. BDL approval is not required if shares are transferred when shareholders exercise their preemptive right in the event of a capital increase.

Effective January 24, 2019, new provisions were added related to locally held investment portfolio of investment firms and collective investment funds. Specifically, a collective investment fund manager must insure that at least 50% of the real estate constituting fund property is occupied and income-producing.

A collective investment fund manager must invest a substantial proportion of its assets in a representative sampling of securities constituting a specified index or must replicate a specified index. The manager of a money market fund must not invest its capital in any instrument with a maturity or remaining maturity at acquisition of more than one year and not less than 50% of the value of the fund must be invested in instruments with a maturity or remaining maturity at acquisition of 90 days or less.

The manager of a fund of funds must invest at least 90% of the net asset value of the fund in other collective investment funds that are eligible for investment and up to 10% of the value of the fund in cash, deposits, and money market instruments.

Currency-matching regulations on assets/liabilities composition No.

Exchange tax No.

Exchange subsidy No.

Foreign exchange market Yes. Commercial banks may set the exchange rate in transactions with their clients freely.

Spot exchange market Yes. Foreign exchange bureaus, referred to as “authorized dealers with limited authority” (ADLAs), operate under the provisions of the Financial Institutions (Foreign Exchange Bureau) Regulations, 2014. There are two ADLAs, and their operations are limited to spot purchases and sales of foreign currency and traveler’s checks from travelers for rand and maloti, and remittances for individuals on discretionary allowance for domestic purposes (such as donations, maintenance, monetary gifts and loans, travel allowance, study allowance, alimony and child support, wedding and other special occasion expenses). Other transactions may be approved by the commissioner. ADLAs may also make transfers on behalf of clients. Currently, ADLAs may not make import payments and other transfers.

Operated by the central bank Yes.

Foreign exchange standing facility Yes. The Central Bank of Lesotho (CBL) buys and sells maloti for rand at the official rate plus a commission. Excess rand are repatriated; excess maloti are collected from a designated bank in South Africa.

Allocation No.

Auction No.

Fixing No.

Interbank market No.

Over the counter No.

Brokerage No.

Market making No.
### LESOTHO

**Forward exchange market**  
Yes. ADs are permitted to conduct forward exchange operations through their correspondent banks abroad at rates quoted by the latter. The CBL does not participate in the foreign exchange derivatives market.

**Official cover of forward operations**  
Yes.

## Arrangements for Payments and Receipts

### Prescription of currency requirements
Yes. Settlements by or with residents of CMA member countries and with all countries outside the CMA may be made to and from a nonresident account in rand or in any other foreign currency.

### Controls on the use of domestic currency
Yes. Payments in local currency to residents outside the CMA are prohibited without prior approval from the MOF.

### For current transactions and payments
Yes. Payments in local currency to residents outside the CMA are prohibited without prior approval from the MOF.

### For capital transactions
Yes. Payments in local currency to residents outside the CMA are prohibited without prior approval from the MOF.

### Transactions in capital and money market instruments
Yes. Payments in local currency to residents outside the CMA are prohibited without prior approval from the MOF.

### Transactions in derivatives and other instruments
Yes. Payments in local currency to residents outside the CMA are prohibited without prior approval from the MOF.

### Credit operations
Yes. Payments in local currency to residents outside the CMA are prohibited without prior approval from the MOF.

### Use of foreign exchange among residents
No.

### Payments arrangements
Yes.

#### Bilateral payments arrangements
No.

#### Operative
No.

#### Inoperative
No.

### Regional arrangements
Yes. Lesotho is a member of the CMA, within which payments are unrestricted, except that transactions must be reported for statistical and customs purposes. In its relations with countries outside the CMA, Lesotho applies exchange controls that are largely similar to those applied by Eswatini, Namibia, and South Africa.

### Clearing agreements
No.

### Barter agreements and open accounts
No.

### Administration of control
Yes. The CBL exercises foreign exchange control and authorizes commercial banks to approve certain current payments up to established limits (particularly, the discretionary allowance, which still has indicative limits). The Department of Customs and Excise issues permits based on recommendations by the Department of Trade and Industry. Licenses for financial institutions accepting deposits, insurance companies, brokers, and agents are issued by the CBL.

### Payments arrears
No.

### Official
No.

### Private
No.

### Controls on trade in gold (coins and/or
Yes.
bullion)

On domestic ownership and/or trade

Yes. Only ADs may trade in gold, and gold may not be held by everyone.

On external trade

Yes. Exports of gold from the CMA by individuals are subject to controls. The responsibility lies with the Ministry of Mining.

Controls on exports and imports of banknotes

Yes.

On exports

Yes.

Domestic currency

Yes. Exports of domestic currency from Lesotho are subject to a maximum of M 25,000.

Foreign currency

Yes. Exports of foreign currency from the CMA by residents are subject to controls. Up to M 1 million an individual a year is permitted.

On imports

Yes.

Domestic currency

Yes. Visitors to Lesotho from countries outside the CMA may on arrival bring in banknotes of CMA countries up to M 25,000 a person to cover initial expenses.

Foreign currency

Yes. Proof of legitimate ownership is required.

</tr>
</tbody>
</table>
Licenses with quotas Yes. Some food imports from countries within the SACU are subject to import licensing.

Other nontariff measures No.

Import taxes and/or tariffs Yes. Lesotho applies the external customs tariffs of the SACU.

Taxes collected through the exchange system No.

State import monopoly No.

References to legal instruments and hyperlinks This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exports and Export Proceeds

Repatriation requirements Yes. Export proceeds must be repatriated to ADs within 180 days of shipment. Resident companies may retain their export proceeds in a foreign currency account with an AD and are not required to convert them to maloti.

Surrender requirements No.

Surrender to the central bank No. Export proceeds are not subject to surrender requirements.

Surrender to authorized dealers No.

Financing requirements Yes. A state-supported export credit and guarantee program provides credit guarantees, pre- and post-shipment credit, and insurance against commercial and political risks.

Documentation requirements Yes.

Letters of credit No.

Guarantees No.

Domiciliation Yes. A bill of entry/invoice from the supplier is required.

Preshipment inspection Yes.

Other No.

Export licenses Yes.

Without quotas Yes. Certain exports are subject to licensing for revenue purposes; this requirement, in practice, is limited to the exportation of diamonds. Most exports are shipped without licenses to or through South Africa.

With quotas No.

Export taxes No.

Collected through the exchange system No.

Other export taxes No.

### Proceeds from Invisible Transactions and Current Transfers

**Repatriation requirements** Yes. All export proceeds from invisible transactions (proceeds from export of services by residents) and current transfers (proceeds in the form of gifts and other remittances) need to be repatriated. However, there is no deadline by when repatriation should take place.

**Surrender requirements** Yes.

**Surrender to the central bank** No.

**Surrender to authorized dealers** Yes. Proceeds must be sold within 30 days of the date of accrual, unless an exemption is obtained.

**Restrictions on use of funds** No.

**References to legal instruments and hyperlinks**

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

### Capital Transactions

**Controls on capital transactions** Yes.

**Repatriation requirements** Yes. All export proceeds from capital transactions (income earned abroad by residents temporarily abroad, income earned by residents’ investments abroad, and foreign capital introduced into Lesotho by emigrants) need to be repatriated. However, there is no deadline by when repatriation should take place.

**Surrender requirements** Yes.

**Surrender to the central bank** No.

**Surrender to authorized dealers** Yes. Proceeds must be surrendered within 30 days of accrual if no exemption is granted.

**Controls on capital and money market instruments** Yes. Nonresidents may invest freely in the Lesotho treasury bill market, which offers maturities of up to 364 days. However, CBL approval is required for nonresidents to acquire securities of any kind, regardless of maturity. Withholding tax for nonresidents is higher than that for residents.

**On capital market securities** Yes. The Maseru Securities Market was launched in January 2016, while government bonds were introduced in October 2010.

**Shares or other securities of a participating nature**

| Purchase locally by nonresidents | No. |
| Sale or issue locally by nonresidents | No. |

**Purchase abroad by residents** Yes. Prior approval is required from the CB.

**Sale or issue abroad by residents** Yes. These are permitted up to M 4 million a person a year.

**Bonds or other debt securities** Yes.
<table>

To residents from nonresidents
No.

Controls on direct investment
Yes. The rulings on applications for inward and outward capital transfers depend on whether the applicant is a resident, a foreign national who is a temporary resident, or a nonresident.

Outward direct investment
Yes. Residents may invest abroad through domestic banks up to the equivalent of M 4 million a person a year. AD may approve requests by resident corporations and businesses to invest outside the CMA up to the equivalent of M 500 million a company a calendar year.

Inward direct investment
Yes. Nonresidents may invest freely in Lesotho if the maturity of the investment exceeds 365 days. However, CBL approval is required for nonresidents to acquire securities of any kind, regardless of maturity.

Controls on liquidation of direct investment
No.

Controls on real estate transactions
Yes.

Purchase abroad by residents
Yes. Prior approval is required from the CB.

Purchase locally by nonresidents
No.

Sale locally by nonresidents
No.

Controls on personal capital transactions
Yes. Prior approval is required from the CB for any amount above the discretionary allowance of M 1 million a person a year.

Loans
Yes. Prior approval is required from the CB for any amount above the discretionary allowance of M 1 million a person a year.

By residents to nonresidents
Yes.

To residents from nonresidents
Yes.

Gifts, endowments, inheritances, and legacies
Yes. The single discretionary allowance for resident adults for the purpose of donations, gifts, and maintenance is M 1 million a calendar year. Over and above the single discretionary allowance of M 1 million, residents temporarily abroad are also accorded M 4 million foreign capital allowance.

By residents to nonresidents
Yes.

To residents from nonresidents
No.

Settlement of debts abroad by immigrants
No.

Transfer of assets
Yes.

Transfer abroad by emigrants
Yes. Emigrants may transfer abroad up to the equivalent of M 4 million a year.

Transfer into the country by immigrants
No. Proper documentation is required to prevent money laundering.

Transfer of gambling and prize earnings
Yes. Prior approval is required by the CB.

LIBERIA
(Position as of December 31, 2018)

Status under IMF Articles of Agreement

Date of membership

Article VIII
Yes.

Article XIV
Yes.

Exchange Measures

Restrictions and/or multiple currency practices
No. No restrictions as reported in the latest IMF staff report as of December 31, 2018.

Exchange measures imposed for security reasons
No.

In accordance with IMF Executive Board Decision No. 144-(52/51)
No.

Other security restrictions
No.

This information can be found at the AREAER ONLINE database:
http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exchange Arrangement

Currency
Yes. The currency of Liberia is the Liberian dollar.

Other legal tender
Yes. The US dollar is also legal tender and circulates freely.

Exchange rate structure

Unitary
Yes.

Dual

Multiple

Classification

No separate legal tender

Currency board

Conventional peg

Stabilized arrangement

Crawling peg

Crawl-like arrangement
Yes. The de jure exchange rate arrangement is managed floating. The Central Bank of Liberia (CBL) intervenes in the foreign exchange market to smooth volatility. Since July 2018, the exchange rate followed a depreciating trend within a 2% band against the US dollar. Accordingly, the de facto exchange rate arrangement was reclassified to crawl-like from other managed, effective July 23, 2018. The foreign exchange auction data (volume, price, etc.) are published on the CBL website.
bands
Other managed arrangement
Floating
Free floating

**Official exchange rate**

Yes. There is no official or reference exchange rate. The prevailing market rate published by the CBL is used for customs and valuation. The CBL bases the buying and selling exchange rates of the Liberian dollar vis-à-vis the US dollar on a daily survey of the five major commercial centers and selected cities in the country. These rates are published in the local newspapers and the CBL website. They are also submitted based on request.

**Monetary policy framework**

Exchange rate anchor

**Yes.**

**U.S. dollar**

Yes. The monetary policy framework is an exchange rate anchor vis-à-vis the US dollar, because the CBL uses the exchange rate as an indicator of domestic monetary conditions and gears its management of Liberian dollar liquidity toward keeping the exchange rate relatively stable, to achieve its final objective of price stability through exchange rate stability.

Exchange tax
No.
Exchange subsidy
No.

Foreign exchange market
Yes. Auction participants are free to determine their bid-ask spread and foreign exchange commission with their clients.
Spot exchange market
Yes. Foreign exchange dealers, including banks, may buy and sell currency, including US dollars, at market-determined exchange rates. The CBL determines the amount of US dollars that it sells in the foreign exchange market through foreign exchange auctions. Licensed commercial banks and foreign exchange bureaus may deal in foreign exchange with the public. Foreign exchange bureaus are not allowed to maintain accounts abroad. As of December 31, 2018, nine licensed commercial banks were operational. Licenses to deal in foreign exchange are granted by the CBL. As of December 31, 2018, there were 152 registered authorized foreign exchange bureaus in Liberia. Other than participating in the CBL auction, foreign exchange bureaus do not engage in transactions with the CBL. They do not have accounts with the CBL, nor do they make foreign currency payments or transfers on behalf of their clients.

Operated by the central bank
Yes. The CBL sells foreign exchange at a regular weekly auction and announces in advance the amount of US dollars to be sold.
Foreign exchange standing facility
No.
Allocation
No.
Auction
Yes. The CBL sells foreign exchange at a regular weekly auction and announces in advance the amount of US dollars to be sold. There is no maximum bid, but there is a minimum bid of US$1,000. All banks and registered foreign exchange bureaus may participate. Clients may bid through their banks. Foreign exchange is allocated on the marginal approach; that is, the clearing rate is applied to all
successful bids. Bids are rejected if they do not comply with the auction rules. Auctions are announced and results are published in the bimonthly Liberia Financial Statistics. The Liberia Financial Statistics is published on the CBL website. There is no noncompetitive window for foreign exchange bureaus, and the CBL requires all businesses to participate through the regular auction. The regulations stipulate sanctions for default, such as fines and exclusion from the auction. Bidders who violate auction rules are sanctioned by the CBL, including suspension or exclusion from future auctions or a penalty of L$0.1 million. Participants are not required to finance specific international transactions with the foreign exchange obtained at the retail auction.

Fixing  No.

**Interbank market**  Yes. The interbank market is developing gradually. Commercial banks participate in it. Effective January 10, 2018, the Framework for the Administration of the Interbank Market entered into force.

Over the counter  Yes.

Brokerage  No.

Market making  No.

Forward exchange market  No.

**Official cover of forward operations**  No.

**References to legal instruments and hyperlinks**  This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

### Arrangements for Payments and Receipts

**Prescription of currency requirements**  No.

Controls on the use of domestic currency  No.

*For current transactions and payments*  No.

*For capital transactions*  No.

Transactions in capital and money market instruments  No.

Transactions in derivatives and other instruments  No.

Credit operations  No.

Use of foreign exchange among residents  No. With the US dollar as legal tender, residents are allowed to use it freely. Foreign currencies other than the US dollar are not used for transaction among residents.

**Payments arrangements**  No.

Bilateral payments arrangements  No.

*Operative*  No.

*Inoperative*  No.

Regional arrangements  No.

Clearing agreements  No.

Barter agreements and open accounts  No.

</tbody>
</table>
Nonresident Accounts

Foreign exchange accounts permitted Yes. There is no distinction between resident and nonresident accounts. The rules apply to all accounts, and balances may be transferred abroad freely if the accounts meet the requirement in the Regulation Concerning Transfer of Foreign Currency. Sections 1 and 2 of the regulation specify adherence to free movement of foreign currency and the transfer mode.

Approval required No.

Domestic currency accounts Yes. There is no distinction between resident and nonresident accounts. The rules apply to all accounts, and balances may be transferred abroad freely if the accounts meet the requirement in the Regulation Concerning Transfer of Foreign Currency. Sections 1 and 2 of the regulation specify adherence to free movement of foreign currency and the transfer mode.

Convertible into foreign currency Yes. Domestic currency accounts are convertible to foreign currency.

Approval required No.

Blocked accounts No.

Imports and Import Payments

Foreign exchange budget No.

Financing requirements for imports No.

Minimum financing requirements No.

Advance payment requirements No.

Advance import deposits No.

Documentation requirements for release of foreign exchange for imports Yes. In the case of the CBL auction, importers are required to indicate evidence of their importation by means of import permit declaration to take part in the CBL foreign exchange auction.

Domiciliation requirements No.

Preshipment inspection Yes. Preshipment inspection is required to ascertain the country of origin, quality, quantity, and value of all goods to be shipped. Both final and intermediate goods are subject to inspection, except for imports with an f.o.b. value of less than the equivalent of US$2,000.

Letters of credit Yes.

Import licenses used as exchange licenses No.

Other No.

Import licenses and other nontariff measures Yes.

Positive list No.

Negative list Yes. There is no general system of import controls, but the importation of many items, including safety matches, electrode welding rods, and
liquefied petroleum gas, is subject to quantitative restrictions. Licenses to import inexpensive, widely consumed varieties of rice are issued to private distributors by the Ministry of Commerce and Industry. The importation of more expensive rice is not subject to official controls.

By law, import declaration is required only for items on the negative list—that is, fuel and selected chemicals, explosives, hazardous waste, cultural artifacts, obscene materials, military vehicles, and aircraft. In practice, customs officials also require declaration of items not included on the negative list.

Open general licenses No.
Licenses with quotas No.
Other nontariff measures No.
Import taxes and/or tariffs Yes. The nominal average tariff rate is 15.7%.
Taxes collected through the exchange system No.
State import monopoly No.
References to legal instruments and hyperlinks This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exports and Export Proceeds

Repatriation requirements No.
Surrender requirements No.
Surrender to the central bank No.
Surrender to authorized dealers No.
Financing requirements No.
Documentation requirements Yes.
Letters of credit No. LCs are not required.
Guarantees No.
Domiciliation No.
Preshipment inspection Yes. Import permit declaration is required.
Other No.
Export licenses Yes. Export licenses, including export declarations, generally are issued to exporters to ensure certification of quality and origin. These licenses are not issued freely.
With quotas No. Export licenses do not include quotas.
Export taxes Yes. Export taxes are imposed on processed and unprocessed goods at rates of 0% and 2.5%, respectively; on diamonds at a rate of 3%; and on iron ore at a rate of 4.5%.
Collected through the exchange system No. There are no export taxes collected through the exchange system.
Other export taxes Yes. Export taxes are imposed on processed and unprocessed goods at...
rates of 0% and 2.5%, respectively; on diamonds at a rate of 3%; and on iron ore at a rate of 4.5%.

Under the Guidelines Concerning the Management of Foreign Exchange Risk Exposure and Placements Abroad by Commercial Banks, banks may not place aggregate liquid assets abroad in an amount exceeding 40% of their foreign currency deposits, except with the CBL executive governor’s approval. Banks may place funds with foreign banks with a minimum rating of A from an internationally recognized rating agency. Funds placed abroad must, at all times, be available to meet banks’ liquidity needs abroad and at home.

### Changes during 2018 and 2019

**Exchange Arrangement**

**Classification**

- **Crawl-like arrangement**
  - Date: 07/23/2018
  - Description: Since July 2018, the exchange rate followed a depreciating trend within a 2% band against the US dollar. Accordingly, the de facto exchange rate arrangement was reclassified to crawl-like from other managed.

**Foreign exchange market**

- **Spot exchange market**
- **Interbank market**
  - Date: 01/10/2018
  - Description: The Framework for the Administration of the Interbank Market entered into force.
LIBYA

(Position as of September 30, 2019)

Status under IMF Articles of Agreement

Date of membership

September 17, 1958.

Article VIII

Yes.  Date of Acceptance: June 21, 2003.

Article XIV

Exchange Measures

Restrictions and/or multiple currency practices

No.  No restrictions as reported in the latest IMF staff report as of December 31, 2018.

Exchange measures imposed for security reasons

Yes.

In accordance with IMF Executive Board Decision No. 144-(52/51)

Yes.

Libya maintains exchange restrictions imposed solely for the preservation of national and international security based on UNSC resolutions, including sanctions imposed against Afghanistan and the Islamic Republic of Iran.

Other security restrictions

No.

References to legal instruments and hyperlinks

This information can be found at the AREAER ONLINE database:
http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exchange Arrangement

Currency

Yes.  The currency of Libya is the Libyan dinar.

Other legal tender

No.

Exchange rate structure

Unitary  *yes

Dual

Multiple  *  *

Classification

No separate legal tender

Currency board

Conventional peg

Yes.  The de jure and de facto exchange rate arrangements are a conventional peg vis-à-vis the SDR.

Stabilized arrangement

Crawling peg

Crawl-like arrangement

Pegged exchange rate within horizontal bands

Other managed arrangement

Floating
Free floating

**Official exchange rate**
Yes. *The dinar is pegged to the SDR at LD 1 per SDR 0.5175. The US dollar is the intervention currency. The official exchange rate is used for accounting and valuation purposes. In addition, the conversion to Libyan dinars of oil export proceeds is conducted at the official rate of about LD 1.4 per US dollar.*

**Monetary policy framework**

- **Exchange rate anchor**
  Yes.

    - Policy rate
    - Target corridor band

  - *Other*
On September 19, 2018, a new surtax on sales of foreign currency for commercial or personal purposes (excluding family allowance) was introduced. Effective September 23, 2019, the rate was set at 183%, devaluing the exchange rate for certain transactions to about LD 3.9 per US dollar. On July 30, 2019, the surtax on sales of foreign currency for commercial or personal purposes (excluding family allowance) was reduced to 163%, effective August 4, 2019, appreciating the exchange rate to about LD 3.70 per US dollar.

Exchange subsidy
No.

Foreign exchange market
Yes.

Spot exchange market
Yes. As of December 31, 2018, there were 17 institutions licensed to deal in foreign exchange with the public. The CBL is the only institution that grants licenses. Recently, a number of foreign exchange bureaus and companies were licensed to conduct foreign currency transactions. These bureaus and companies have not started operations yet.

Operated by the central bank
Yes.

Foreign exchange standing facility
Yes. The CBL buys and sells foreign exchange for dinars at the official rate with a margin of 0.5% on sales. For foreign exchange cash sales, the CBL adds 0.5% to the noncash selling rate to account for cash transportation and insurance costs. The margin on selling rates applicable to money orders and drafts is 1.0%. Commercial banks and government-owned banks may access the CBL’s foreign exchange facility.

Allocation
Yes. Allocation is handled in accordance with foreign exchange market needs.

Auction
No. There are no auctions in the foreign exchange market.

Fixing
No.

Interbank market
No. There is no foreign exchange interbank market.

Over the counter
No.

Brokerage
No.

Market making
No.
For current transactions and payments

Transactions with Israel are prohibited. Transactions with other countries take place in convertible currencies. Under an agreement between the CBL and the Central Bank of Tunisia, the Libyan dinar and the Tunisian dinar are convertible for personal use through banks and exchange bureaus up to LD 4,000 or TD 4,000 a transaction for each resident of the two countries annually.

For capital transactions

Transactions may be executed through the use of the Libyan dinars as a middle currency in determining exchange rates.

Payments arrangements

Transactions with Israel are prohibited. Transactions with other countries take place in convertible currencies.

Operative

Agreements are maintained with Algeria, Morocco, and Tunisia. Outstanding balances are settled in convertible currencies 15 days after the end of each month. These arrangements became optional January 1, 2007.

Inoperative

There is an inoperative payments arrangement with Malta.

Regional arrangements

Libya is a signatory to the GAFTA.

Clearing agreements

Bilateral payments arrangements

Yes.

Operative

Agreements are maintained with Algeria, Morocco, and Tunisia. Outstanding balances are settled in convertible currencies 15 days after the end of each month. These arrangements became optional January 1, 2007.

Inoperative

There is an inoperative payments arrangement with Malta.

The CBL administers exchange controls and has delegated some powers to authorized banks. The government regulates policy on imports and exports, which is executed by the Ministry of Economy and Trade.

©International Monetary Fund. Not for Redistribution
Payments Manual. Nonresidents working in Libya may open these accounts for deposit of legitimate earnings. Other credits to nonresident accounts require the CBL approval. Funds brought in by nonresidents working under contracts in their own name must be kept with an authorized bank. Payments received under contracts may also be credited to these accounts, but, in general, remittances may not exceed the net-of-tax amount in the contract. Funds brought in by nonresidents may be reexported if not used, with documentation. Accounts of foreign contractors licensed under Law No. 5 (1997) for the promotion of foreign capital investment are exempt from restrictions. Remittances from nonresident accounts are not restricted and do not require the CBL approval.

Convertible into foreign currency
Yes. These accounts may be converted, but approval is required.

Approval required
Yes.

Blocked accounts
No.

References to legal instruments and hyperlinks
This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Imports and Import Payments

Foreign exchange budget
No. The authorities are approving LCs for imports on a case-by-case basis, and in line with some form of positive list of approved goods, and possibly subject to a dollar-figure cap. Effective September 23, 2018, the following ceilings are in place: up to US$3 million for services LCs, US$5 million for commercial LCs, and US$10 million for industrial LCs. These LCs are subject to the exchange tax.

Financing requirements for imports
Yes.

Minimum financing requirements
No.

Advance payment requirements
Yes.

Advance import deposits
No. Effective September 23, 2019, the requirement for commercial banks to impose an increased cash margin of no less than 130% on LCs opened for imports was removed.

Documentation requirements for release of foreign exchange for imports
Yes.

Domiciliation requirements
Yes. Residents are required to make their import transactions through domestic banks.

Preshipment inspection
Yes. Imports are subject to preshipment inspection.

Letters of credit
Yes. Authorized banks may open LCs without approval from the CBL. Before an LC is established, a marine insurance policy from a local insurance company must be submitted.

Import licenses used as exchange licenses
No. Exchange permits required for imports are readily granted by authorized banks, provided a firm contract exists.

Other
Yes. Authorized banks may use bank transfers up to US$500,000 a transfer to finance imports for commercial purposes for each importing firm twice a year.

Import licenses and other nontariff measures
Yes. Import licenses are not required. However, importers may import only the types of products that relate to their business specialty. The state monopoly on imports is limited to petroleum products and weapons.

Positive list
No.

Negative list
Yes. Import bans for religious, health, and ecological reasons are limited to four products.
Open general licenses | n.a.  
Licenses with quotas | n.a.  
Other nontariff measures | Yes. Imports from Israel are prohibited. Importers are required to deal directly with producers abroad and not through intermediaries.  
**Import taxes and/or tariffs** | Yes. The tariff rate is 0% for all imported goods, except for some tobacco products that are subject to a 10% rate. A consumption tax of 15%–25% applies to a list of 81 imported goods that are also produced locally. A general service fee of 4%–10% is imposed on all imported goods. All products from Arab countries are exempt from customs duties, provided domestic value added is at least 40%. A customs tax was imposed at 30%, 40%, and 50% on some imported goods.  
Taxes collected through the exchange system | No.  
State import monopoly | No.  
References to legal instruments and hyperlinks | This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.  
Exports and Export Proceeds  
**Repatriation requirements** | Yes. All proceeds must be repatriated within three months of shipment.  
Surrender requirements | Yes. Exporters are allowed to retain up to 100% of nonhydrocarbon earnings.  
*Surrender to the central bank* | Yes. Proceeds from hydrocarbon exports must be surrendered to the commercial banks.  
*Surrender to authorized dealers* | No. Residents are free to sell their foreign exchange receipts to commercial banks.  
**Financing requirements** | No.  
**Documentation requirements** | Yes.  
Letters of credit | Yes. Exports require the opening of LCs.  
Guarantees | No. Export guarantees are not required.  
Domiciliation | Yes. Residents are required to make their export transactions through domestic commercial banks.  
Preshipment inspection | Yes. Exports are subject to preshipment inspection.  
Other | No.  
**Export licenses** | Yes. In general, exporters do not need export licenses, but they must register with the Ministry of Economy and Trade and supply on a regular basis the relevant documentation on their exports. Exports of electricity, hides, nonmonetary gold (other than for processing abroad), paper products, school supplies, scrap metal, and telecommunication services are prohibited. Exports or reexports of vegetable oils, wheat, wheat flour, crushed wheat, barley, rice, coffee, tea, sugar, and semolina are prohibited. Exports to Israel are prohibited.  
Without quotas | Yes. Export licenses are required for raw wool, hides and skins, and agricultural products.  
With quotas | n.a.  
**Export taxes** | No.
Collected through the exchange system: No.

Other export taxes: No.

References to legal instruments and hyperlinks: This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Payments for Invisible Transactions and Current Transfers**

**Controls on these transfers**: Yes.

**Trade-related payments**: No. Payments for invisible transactions related to authorized imports are not restricted.

**Prior approval**: No.

**Quantitative limits**: No.

**Indicative limits/bona fide test**: No.

**Investment-related payments**: Yes. Profits generated by foreign capital invested in projects deemed to contribute to the economic development of Libya may be freely transferred to the country of origin. Profits generated by foreign capital invested in projects set up within the context of Law No. 5 and approved by the Foreign Investment Board may also be transferred without restriction. A jihad tax of 4% applies to profits and dividends of nonresidents and residents.

**Prior approval**: No.

**Quantitative limits**: No.

**Indicative limits/bona fide test**: No.

**Payments for travel**: Yes. Residents may purchase foreign exchange for tourism from authorized banks up to the equivalent of, effective September 23, 2018, US$10,000 (previously US$5,000) in prepaid debit cards. Effective September, 23, 2018, the credit card limit was increased to US$10,000 from US$5,000. Households may purchase foreign exchange from authorized banks “according to their family members” at, effective January 15, 2018, US$500 a person (previously US$400), and are permitted either to be issued a credit card with the full amount of the purchased USS, or transfer it up to, effective September 23, 2018, US$10,000 (previously US$2,000) through authorized banks.

**Prior approval**: No.

**Quantitative limits**: No.

**Indicative limits/bona fide test**: Yes. Effective September 28, 2018, residents may transfer foreign exchange from authorized banks for education for the invoiced amount and up to US$50,000 for medical treatment a year. Previously, the limits were US$7,500.

**Personal payments**: Yes.

**Prior approval**: No.

**Quantitative limits**: Yes.

**Indicative limits/bona fide test**: Yes.

**Foreign workers' wages**: Yes.

Changes during 2018 and 2019

Exchange Arrangement

Exchange rate structure

Multiple 09/23/2018 *

Exchange tax 09/23/2018
On September 19, 2018, a new surtax on sales of foreign currency for commercial or personal purposes (excluding family allowance) was introduced. The rate was set at 183% from September 23, 2018, devaluing the exchange rate for certain transactions to about LD 3.9 per US dollar.
08/04/2019
On July 30, 2019, the surtax on sales of foreign currency for commercial or personal purposes (excluding family allowance) was reduced to 163% from August 4, 2019, appreciating the exchange rate for certain transactions to about LD 3.70 per US dollar.

Arrangements for Payments and Receipts

Controls on exports and imports of banknotes
On exports

Foreign currency 09/23/2018
The ceiling for prepaid debit cards was increased to US$10,000 from US$5,000.
Resident Accounts

Foreign exchange accounts permitted
Held domestically 09/23/2018 Residents may keep foreign currency in domestic bank accounts and transfer balances abroad up to US$10,000 each year (previously, there was no limit).

Accounts in domestic currency convertible into foreign currency 09/23/2018 Transfers from resident dinar accounts to a foreign exchange account for medical treatment and education purposes require submission of a pro forma invoice.

Imports and Import Payments

Foreign exchange budget 09/23/2019 The following ceilings are in place: up to US$3 million for services LCs, US$5 million for commercial LCs, and US$10 million for industrial LCs.

Financing requirements for imports
Advance import deposits 09/23/2019 The requirement for commercial banks to impose an increased cash margin of no less than 130% on LCs opened for imports was removed.

Payments for Invisible Transactions and Current Transfers

Controls on these transfers
Payments for travel
Indicative limits/bona fide test 01/15/2018 The household allowance for purchase of foreign exchange from authorized banks was increased to US$500 from US$400 a person.
09/23/2018 The credit card limit was increased to US$10,000 from US$5,000.
09/23/2018 Residents may purchase foreign exchange for tourism from authorized banks up to the equivalent of US$10,000 (previously US$5,000) in prepaid debit cards.
09/23/2018 The amount of foreign exchange allowance that households may transfer through authorized banks was increased to US$10,000 from US$2,000.

Personal payments
Indicative limits/bona fide test 09/28/2019 Residents may transfer foreign exchange from authorized banks for education for the invoiced amount and up to US$50,000 for medical treatment a year. Previously, the limits were US$7,500.

Credit card use abroad
Quantitative limits 01/15/2018 The household allowance for purchase of foreign exchange from authorized banks was increased to US$500 from US$400 a person.
09/23/2018 Residents may purchase prepaid credit cards for use abroad for up to US$10,000 (previously US$5,000).
09/23/2018 The amount of foreign exchange allowance that households may transfer through authorized banks was increased to US$10,000 from US$2,000.
09/23/2018 The ceiling on prepaid debit cards for use abroad was increased to US$10,000 from US$5,000.

In accordance with IMF Executive Board Decision No. 144-(52/51) Lithuania maintains certain exchange restrictions in accordance with the relevant EU regulations. These include the freezing of funds and economic resources of persons who are responsible for violations of international electoral standards in the presidential elections in Belarus and the crackdown on civil society and democratic opposition and natural or legal persons, entities, and bodies associated with those who are responsible; certain persons indicted by the International Criminal Tribunal for the Former Yugoslavia (ICTY) in Bosnia and Herzegovina; restrictive measures in view of the situation in the Central African Republic (as amended); Democratic Republic of the Congo; certain persons who constitute a threat to the peace and national reconciliation process in Côte d’Ivoire; certain persons indicted by the ICTY in Croatia; the Islamic Republic of Iran; certain persons and entities in Iraq; the Democratic People’s Republic of Korea; certain persons suspected of involvement in the assassination of former Lebanese Prime Minister Rafik Hariri in Lebanon; certain persons and entities associated with former President Charles Taylor in Liberia (as amended); Myanmar; former President Slobodan Milosevic and natural persons associated with him and certain persons indicted by the ICTY in Serbia and Montenegro; Sudan, Syria (as amended); Tunisia and Zimbabwe (as amended); persons and entities associated with Osama bin Laden, Al-Qaida, and the Taliban; certain persons, entities, and bodies in view of the situation in: Burundi, Egypt, Libya, Ukraine and Yemen; and certain other persons, groups, and entities, with a view to combating terrorism.

In accordance with UN resolutions, sanctions have been imposed against individuals, groups, and organizations associated with terrorism for security reasons. The Law on the Implementation of Economic and other International Sanctions provides for the procedure for implementing the nonmilitary international sanctions imposed by the UN and other international organizations, as well as by the EU. These include: restrictive measures in response to the illegal annexation of Crimea and Sevastopol; Corrigendum to Council Regulation (EU) No. 1351/2014 of 18 December 2014 amending Regulation (EU) No. 692/2014 (32014R1351R(01)).

### Exchange rate structure
- Unitary: Yes.
- Dual
- Multiple

### Classification
- No separate legal tender
- Currency board
- Conventional peg
- Stabilized arrangement
- Crawling peg
- Crawl-like arrangement
- Pegged exchange rate within horizontal bands
- Other managed arrangement

### Floating
- Free floating: Yes. The exchange rate arrangement of the euro area is free floating. Lithuania participates in a currency union (EMU) with 18 other members of the EU and has no separate legal tender. The euro, the common currency, floats freely and independently against other currencies. The ECB publishes information regarding its interventions; it last intervened in March 2011. When it intervenes, the ECB intervenes at the quotes of the market makers.

### Official exchange rate
- Yes. The ECB publishes a reference rate based on the daily concertation procedure between CBs within and outside the European System of Central Banks. The publication time of the euro foreign exchange reference rates is around 14:15 Central European Time to around 16:00 Central European Time. The reference rate against the euro is the average of the buying and selling rates.

- Publication of inflation forecasts

Other monetary framework: Yes.

To maintain price stability is the primary objective of the Eurosystem and of the single monetary policy for which it is responsible. This is stated in the Treaty on the Functioning of the EU, Article 127(1). “Without prejudice to the objective of price stability,” the Eurosystem will also “support the general economic policies in the
Community with a view to contributing to the achievement of the objectives of the Community.” These include a “high level of employment” and “sustainable and non-inflationary growth.” Price stability is commonly defined as inflation rates at levels below, but close to, 2% over the medium term.

Exchange tax  No.
Exchange subsidy  No.
Foreign exchange market  Yes. Any natural or legal person may enter into a spot exchange contract with a bank or currency exchange operator operating in Lithuania or in a foreign country without limitation.

Spot exchange market  Yes. The Bank of Lithuania (BOL) issues licenses for institutions to provide financial services. Currency exchange is one of the financial services listed in the Law on Financial Institutions. A banking license usually includes permission to deal in foreign exchange. As of December 31, 2018, 6 commercial banks, 7 local branches of foreign banks, and 67 credit unions (including 2 Central Credit Unions) were licensed to deal in foreign exchange with the public, and 23 currency exchange operators were added to the list by the BOL. There are no limits on exchanging euros for other foreign currencies. Any legal person may engage in foreign exchange operations with the BOL permission.

Operated by the central bank  No. The BOL as part of the Eurosystem conducts foreign exchange operations in accordance with Articles 127 and 219 of the Treaty on the Functioning of the EU. Foreign exchange operations include: (1) foreign exchange interventions; and (2) operations such as the sale of interest income derived from foreign reserve assets and commercial transactions.

Foreign exchange standing facility  No. The BOL implements the Rules of the Eurosystem Monetary Policy Operations. The Resolution No. 03-324, December 9, 2014 (Adjustment of General documentation on Eurosystem Monetary Policy Operations to be carried out by the BOL in line with the ECB guidelines ECB/2016/31, ECB/2016/32, and ECB/2016/33), and effective April 16, 2018, by the Resolution No. 03-59, April 10, 2018 (Adjustment of General documentation on Eurosystem Monetary Policy Operations to be carried out by the BOL in line with the ECB guidelines: ECB/2018/3, ECB/2018/4 and ECB/2018/5).

Allocation  No.
Auction  No.
Fixing  No.
Interbank market  Yes. All domestic monetary and financial institutions may participate in the interbank market, and trading is executed at freely determined rates. As of December 31, 2018, six local commercial banks and seven local branches of foreign banks participate in the euro interbank market.

Over the counter  Yes. The market operates over the counter.
Brokerage  No.
Market making  No.
Forward exchange market  Yes. Natural and legal persons may freely enter into forward exchange contracts with credit institutions or brokerage companies for the purpose of provision of investment or other services in Lithuania or in a foreign country. The BOL does not intervene in the forward foreign exchange market.
Arrangements for Payments and Receipts

Prescription of currency requirements  No.

Controls on the use of domestic currency  No.

For current transactions and payments  No.

For capital transactions  No.

Transactions in capital and money market instruments  No.
Transactions in derivatives and other instruments  No.
Credit operations  No.

Use of foreign exchange among residents  No.

Payments arrangements  Yes.

Bilateral payments arrangements  No.

Operative  No.

Inoperative  No.

Regional arrangements  Yes. Lithuania is a member of the EU and has introduced Single Euro Payments Area regulation (EU) No. 260/2012 requirements for diligence in executing payments in euros. Law on Payments has been amended by the Law No. XII-303, of May 14, 2013, to implement the Regulation. In accordance with the amended version of the Law on Payments and Article 47 of the Law on the BOL, the BOL is competent to hear claims by customers and to impose sanctions for nonperformance of relevant obligations.

Clearing agreements  No.

Barter agreements and open accounts  No.

Administration of control  Yes. According to the Law on the Introduction of the Euro, the euro is the legal tender in Lithuania. Authorized banks may transact among themselves and with residents and nonresidents. The BOL, in accordance with enforcement measures under Article 72 of the Law on Banks, may limit the types of permissible transactions.

Payments arrears  No.

Official  No.

Private  No.

Controls on trade in gold (coins and/or bullion)  No.

On domestic ownership and/or trade  No.

On external trade  No.

Controls on exports and imports of banknotes  No. In accordance with EC Regulation No. 1889/2005, cash controls have been implemented based on a mandatory declaration system for...
amounts of cash entering or leaving the EU with a value of €10,000 or more. Travelers entering or leaving the EU and carrying more than €10,000 are required to make a declaration to the relevant authorities of the member country through which they enter or leave the EU. The authorities must keep a record of such information and report it to their national financial intelligence unit. The obligation to declare is not fulfilled if the traveler makes no declaration or if the information provided is incorrect or incomplete. To check compliance with the regulation, the national authorities have the right to search natural persons, their baggage, and their means of transportation. In the event of failure to comply with the declaration obligation, cash may be confiscated. The EC regulation requires member countries to impose penalties for failure to comply with the declaration obligation. If there are indications that cash is related to illegal activity, authorities of one member country may exchange information with authorities in other member countries. Under the framework of existing agreements on mutual administrative assistance, information obtained under the EC regulation may also be communicated to a third country in compliance with relevant national and EU provisions on the transfer of personal data to third countries. The EC regulation does not apply to physical cross-border transportation from one EU member country to another (that is, intra-EU transportation). Such transportation is not considered “cross-border” for the purposes of the EC regulation; the EC regulation only harmonizes the system for the EU’s external borders subject to Council Regulation (EEC) No. 2913/92 (Community Customs Code). The Act of Accession to the EU included Lithuania in the Community Customs Area (12003TN02/19/A1). Transactions exceeding the equivalent of €15,000 or more must be reported to the Financial Crime Investigation Service.

Resident Accounts

Foreign exchange accounts permitted

Yes.

Held domestically

Yes.

Credit institutions must report to the tax authorities the opening and closing of accounts by Lithuanian and foreign legal entities (branches and representative offices) and natural persons. Starting January 1, 2016, financial market participants are also obligated to provide the tax authority the amount of the annual turnover of the accounts if the total annual turnover of all accounts that the same person has in the same financial market participant comprises at least 15,000 euro, the account balances at the end of the year if the account balance at the end of the year of all accounts that the same person has in the same financial market participant comprises at least 5,000 euro, information on interest, debt obligations, securities, insurance premiums, pension contributions,
and other information necessary for the tax administrator to perform its functions.

**Approval required**: No.

**Held abroad**: Yes. Natural persons and legal entities must report the opening and closing of these accounts to the tax authorities.

**Approval required**: No.

**Accounts in domestic currency held abroad**: Yes.

**Accounts in domestic currency convertible into foreign currency**: Yes.

**References to legal instruments and hyperlinks**

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

### Nonresident Accounts

**Foreign exchange accounts permitted**: Yes. Supervised financial market participants, as defined in the Law of the Republic of Lithuania on the BOL, as well as other entities, if they are defined as data providing financial institutions in the legal acts of the EU and in international treaties or agreements of Lithuania regarding automatic exchange of information on financial accounts, are obligated to collect and submit to the tax administrator information on the accounts of persons of foreign states that is used to implement international cooperation commitments according to the aforementioned legal acts.

**Approval required**: Yes. Approval is necessary if required by legislation of the other country.

**Domestic currency accounts**: Yes. Supervised financial market participants, as defined in the Law of the Republic of Lithuania on the BOL, as well as other entities, if they are defined as data providing financial institutions in the legal acts of the EU and in international treaties or agreements of Lithuania regarding automatic exchange of information on financial accounts, are obligated to collect and submit to the tax administrator information on the accounts of persons of foreign states that is used to implement international cooperation commitments according to the aforementioned legal acts.

**Convertible into foreign currency**: Yes. There is no distinction between resident and nonresident accounts in this regard.

**Approval required**: No.

**Blocked accounts**: Yes. Certain accounts are blocked by government resolutions in accordance with UNSC resolutions.

In line with provisions of Article 132 of the Directive 2009/138/EC (Solvency II), assets held to cover the technical provisions must be invested in a manner appropriate to the nature and duration of the insurance and reinsurance liabilities. With respect to the whole portfolio of assets, insurance and reinsurance companies may only invest in assets and instruments whose risks the company concerned can properly identify, measure, monitor, manage, control, and report,
and appropriately take into account in the assessment of its overall solvency needs. These provisions are transposed into Article 42 of the Law on Insurance.

Only the funds representing the assets of a branch of non-EEA insurer established in Lithuania and covering the MCR and the SCR must comply with the localization requirements (respectively in Lithuania and EEA), according to the Article 166 of EC Directive 2009/138/EC (Solvency II) transposed into Article 86 of the Law on Insurance.

Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions Yes.

Borrowing abroad Yes. These transactions must be registered with the BOL.

Maintenance of accounts abroad No.

Lending to nonresidents (financial or commercial credits) Yes. These transactions must be registered with the BOL.

Lending locally in foreign exchange No.

Purchase of locally issued securities denominated in foreign exchange No.

Differential treatment of deposit accounts in foreign exchange No.

Reserve requirements No.

ECB minimum reserve regime is in effect with the introduction of the euro. According to the Regulation (EC) No. 1745/2003 of the ECB of 12 September 2003 on the application of minimum reserves (ECB/2003/9), the institutions subject to the minimum reserve requirements should comply with the reserve requirements and are to hold required reserves on the accounts of the BOL. The minimum reserve requirement is the same for deposits in euro and in foreign currencies. The reserve base consists of deposits and issued debt securities. If an institution has liabilities in relation to a branch of the same entity, or in relation to the head office or registered office of the same entity, which are located outside participating Member States, it must include such liabilities in the reserve base. Liabilities which are owed to the ECB, to the participating NCB, or to credit institutions which are subject to reserve requirements, are excluded from the reserve base. The amount of required reserves for a particular maintenance period should be calculated by applying the reserve ratios defined by the ECB. A reserve ratio of 0% is applied to the deposits with agreed maturity over two years, deposits redeemable at notice over two years, repos, and debt securities issued with an original maturity over two years. A reserve ratio of 1% applies to all other liabilities included in the reserve base.

Liquid asset requirements No.

Interest rate controls No.

Credit controls No.

Differential treatment of deposit accounts held by nonresidents No.

Regulation (EU) No. 575/2013 on Prudential Requirements for Credit Institutions and Investment Firms (Capital Requirements Regulation, CRR) applies. In particular, CRR Article 351 states, “De minimis and weighting for foreign exchange risk—If the sum of an institution’s overall net foreign exchange position and its net gold position, calculated in accordance with the procedure set out in Article 352, including for any foreign exchange and gold positions for which own funds requirements are calculated using an internal model, exceeds 2% of its total own funds, the institution must calculate an own funds requirement for foreign exchange risk. The own funds requirement for foreign exchange risk must be the sum of its overall net foreign exchange position and its net gold position in the reporting currency, multiplied by 8%.”

Other managed arrangement

Floating

Free floating

Yes. The exchange rate arrangement of the euro area is free floating. Luxembourg participates in a currency union (EMU) with 18 other members of the EU and has no separate legal tender. The euro, the common currency, floats freely and independently against other currencies. The ECB publishes information on its interventions; it last intervened in March 2011. When it intervenes, the ECB intervenes at the quotes of the market makers.

Official exchange rate

Yes. The ECB publishes a reference rate based on the daily concertation procedure between CBs within and outside the European System of Central Banks, which normally takes place at 2:15 p.m. Central European Time. The reference rate against the euro is the average of the buying and selling rates.

Other monetary framework
Yes. To maintain price stability is the primary objective of the Eurosystem
and of the single monetary policy for which it is responsible. This is stated in the Treaty on the Functioning of the European Union, Article 127(1). “Without prejudice to the objective of price stability,” the Eurosystem will also “support the general economic policies in the Community with a view to contributing to the achievement of the objectives of the Community.” These include a “high level of employment” and “sustainable and non-inflationary growth.” Price stability is defined as an inflation rate below but close to 2% over the medium term.

ADs may freely determine their exchange rates and commissions in transactions with their clients.

In accordance with Council Regulation (EU) No. 1024/2013, no entity may engage in the business of a credit institution without having been granted authorization by the ECB. As of December 31, 2018, there were 135 licensed institutions. Foreign exchange bureaus are authorized by Article 28-2 of the Law of 5 April 1993 and must be licensed by the Commission de Surveillance du Secteur Financier (CSSF). They may not enter into foreign exchange transactions directly with the CB. There are no foreign exchange bureaus in operation. However, Article 28-2 of the Law of 5 April 1993 states that “persons carrying out foreign exchange cash operations are professionals who carry out operations involving the purchase or sale of foreign currencies in cash. Such persons must be required to display the rates applied to the various currencies dealt in and to issue to clients, with respect to each operation, a statement indicating the name of the foreign exchange office, the amounts in the currencies dealt in, the rates applied, and the date of the operation. Authorization to perform cash-exchange transactions is conditional on the production of evidence showing the existence of a capital base of not less than €50,000.”

**Arrangements for Payments and Receipts**
In principle, Luxembourg may not impose any kind of restriction on capital movement and payment within the EU and with third countries. Luxembourg is, however, allowed to implement relevant tax provisions creating a distinction between taxpayers in different tax situations based on their residence or the location of their investment. Measures may also be adopted with a view to avoid breaches of national tax law and prudential supervision over financial institutions, organize declaration on movement of capital for the sake of administrative or statistical information, or take measures intended to protect public security.

Under exceptional circumstances, movements of capital coming from or going to third countries may also be restricted if they may cause or threat to cause serious difficulties for the functioning of the economic and monetary union.

### Controls on the use of domestic currency
- **For current transactions and payments**: No.
- **For capital transactions**: No.
  - Transactions in capital and money market instruments: No.

</table>

**Exchange rate structure**

- Unitary: Yes.
- Dual
- Multiple

**Classification**

- No separate legal tender
- Currency board
- Conventional peg
- Stabilized arrangement
- Crawling peg
- Crawl-like arrangement
- Pegged exchange rate within horizontal bands
- Other managed arrangement
- Floating: Yes.

The de jure exchange rate arrangement is free floating. The exchange rate is determined in the official interbank market. Banque Foiben’i Madagasikara (the Central Bank of Madagascar or CBM) intervenes.
in the interbank market to smooth large exchange rate fluctuations and meet foreign reserve targets. The CBM publishes its interventions daily and only in terms of volume through the interbank foreign exchange market (MID) for participating banks. It also publishes the reference exchange rate and the lowest rate and the highest rate and submits them daily and weekly by courier to the Ministry of Finance and Budget (MFB) and the Presidency.

In 2018, persistence of a terms of trade windfall (foreign exchange revenue from vanilla export). The CBM intervened to build reserves and limit volatility.

In 2018, the ariary depreciated by 2.57% in relation to the euro and by 7.43% in relation to the US dollar. The de facto exchange rate arrangement is classified as floating.

Free floating

**Official exchange rate**

Yes. The official exchange rate is the reference rate published at 2:45 p.m., which is computed daily in the interbank market and is used for government transactions. This rate is also used for customs valuation but not on an instantaneous basis. (In practice, customs duties paid by importers are set using an average of the previous week’s interbank exchange rates.)

Exchange tax  No.

Exchange subsidy  No.

Foreign exchange market  Yes. The euro and the US dollar are the only currencies quoted on this market. The exchange rates of other currencies are determined on the basis of the rates of these currencies against the US dollar in the international market. Commercial banks may freely set the exchange rate and commissions for transactions with their clients. The foreign exchange market handles spot and forward operations on a continuous basis.

Spot exchange market  Yes. Authorized intermediaries—namely primary banks and post offices—may conduct all authorized foreign exchange transactions (Article 1 of the Foreign Exchange Code). Territorial banks hold a banking license that allows them to conduct all bank transactions, including foreign currency transactions, and deal in foreign exchange with the public. Exchange bureaus are authorized to carry out over-the-counter exchange transactions, provided they obtain licenses issued by the Banking and Financial Supervision Commission (CSBF). Such institutions may buy and sell foreign currency cash and traveler’s checks, accept foreign currency checks drawn on bank accounts and bank checks, and buy and sell foreign currency held in foreign exchange accounts in Malagasy banks. Because they do not have the status of authorized intermediaries, exchange bureaus may not engage in foreign exchange transactions directly with the CB, maintain accounts abroad, or make foreign currency payments and transfers on behalf of their clients.

As of December 31, 2018, 11 banks were licensed to deal in foreign exchange with the public, and there were 21 exchange bureaus.
Operated by the central bank  No.

Foreign exchange standing facility  No.

Allocation  No.

Auction  No.

Fixing  No.

*Interbank market*  Yes.  Authorized intermediaries and the CBM participate in an electronic network that allows them to continuously quote ariary for US dollars and euros. Nine of the eleven banks are licensed by the CBM to participate in the MID. The CBM intervenes directly with market participants. Each participant proposes its quotes. There are no limits on the bid-ask spread or the commission of market participants. Ten banks, including the CBM, participate daily in the interbank market. As of December 31, 2018, there were 11 licensed territorial banks. Ten banks, including the CBM, participate in the interbank market.

Over the counter  Yes.  The foreign exchange market operates over the counter. There are no limits on the bid-ask spreads or commissions of market participants.

Brokerage  No.

Market making  No.

*Forward exchange market*  Yes.  The CBM may participate in the forward foreign exchange market. Importers may buy foreign currency from their banks 120 days before settlement. There is a 120-day maximum for documentary credits for spot exchange cover (Article 28) and a 30-day maximum for documentary collections (remises documentaires), as well as a 360-day maximum for documentary credits for hedging delayed purchases or “couverture de change au comptant différée” (Article 33) with foreign exchange. Foreign exchange swap transactions are used as a CBM monetary policy instrument pursuant to Instruction No. 0002-DOM/17. Banks may not use foreign exchange swaps with another bank or their clients.

*Official cover of forward operations*  No.

*References to legal instruments and hyperlinks*  This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Arrangements for Payments and Receipts**

*Prescription of currency requirements*  Yes.

Controls on the use of domestic currency  Yes.  Domestic currency may not be used for the settlement of international current or capital transactions.

*For current transactions and payments*  Yes.  Domestic currency may not be used for the settlement of international current transactions.

*For capital transactions*  Yes.  Domestic currency may not be used for the settlement of international capital transactions.

Transactions in capital and money market instruments  Yes.  Domestic currency may not be used for the settlement of international capital transactions.

Transactions in derivatives and other instruments  Yes.  Domestic currency may not be used for the settlement of international capital transactions.

Credit operations  Yes.  Domestic currency may not be used for the settlement of international capital transactions.

Use of foreign exchange among residents  Yes.  The use of foreign exchange among residents, including transfers between accounts and foreign exchange transactions conducted outside of authorized intermediaries (change illicite), is prohibited by...
the foreign exchange regulations, which require that prices be posted, leases and invoices prepared, and payments made in ariary, except in the following cases: (1) prices posted for cross-border services (air and maritime); (2) residential and commercial leases prepared for export processing zone and free trade zone enterprises; (3) invoices issued for exporters of goods and services intended for foreign countries or free trade zone enterprises; and (4) prices of goods and services posted and paid for in accordance with laws and regulations.

**Payments arrangements**

- Yes.

**Bilateral payments arrangements**

- Yes.

**Operative**

- No. There are currently no operative bilateral payments.

**Inoperative**

- Yes. There was an arrangement with Mauritius that has been inoperative for some time.

**Regional arrangements**

- Yes. Madagascar is a member of the Regional Integration Facilitation Forum.

**Clearing agreements**

- No.

**Barter agreements and open accounts**

- No. Regulations prohibit barter trade.

**Administration of control**

- Yes. Exchange control is administered by the External Finance Unit of the General Directorate of the Treasury, which also supervises borrowing and lending abroad by residents; foreign exchange lending and borrowing to and for the profit of nonresidents; and the issuance, sale, and introduction of foreign securities in Madagascar. Approval for current transactions has been delegated to authorized intermediaries, except for capital operations, which require MOF authorization. All exchange transactions must be effected through such intermediaries.

**Payments arrears**

- No.

**Official**

- No.

**Private**

- No.

**Controls on trade in gold (coins and/or bullion)**

- Yes. Approved collectors acting in their own name and on their own behalf may purchase gold within the country from holders of valid gold-mining titles, authorized holders of Gold Board gold-washing rights, and agencies for approved collectors.

**On domestic ownership and/or trade**

- Yes. Imports and exports of gold require authorization from the Ministry of Mines. Exempt from this requirement are (1) imports and exports by or on behalf of the CBM and (2) imports and exports of manufactured articles containing only a small quantity of gold (such as gold-filled or gold-plated articles). Residents may take abroad 250 grams of hallmarked gold jewelry a person without declaration; declaration is mandatory for quantities above 250 grams. Tourists may take abroad 1 kilogram of hallmarked gold jewelry on submission of an exchange declaration corresponding to the jewelry’s value. Imports of gold, whether licensed or exempt from the licensing requirement, are subject to customs declaration. Holders of a valid gold-mining title or a gold-washing permit or rights thereto may sell gold to any approved collector. However, Malagasy authorities and their agents have first rights to purchase gold produced in the country. The Gold Board and agencies authorized by the Ministry of Mines may export gold in all its forms. Jewelers, goldsmiths, and private sector professionals who use gold...
may export it only in worked form, with the approval of the minister of mining.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Resident Accounts

Foreign exchange accounts permitted

|                      | Yes.     |

Held domestically

|                      | Yes.     |

Residents may open foreign exchange accounts with local commercial banks. Only transfers from abroad, foreign banknotes, traveler’s checks, and bank checks may be deposited in these accounts without documentation. These accounts may be debited for conversion to domestic currency through sale on the interbank market. Balances may not be transferred abroad freely. Foreign currency accounts may not be credited in ariary.

Conversion to foreign banknotes is allowed only within the limits stipulated in the foreign exchange control regulations and requires MOF approval. According to Article 20, foreign currency may not be purchased in the MID for deposit to such accounts, nor may they be credited in ariary; all account holders are authorized to conduct foreign exchange operations, settlements, transfers or arbitrage or withdrawals in the form of traveler’s checks or bank checks for current transactions in the context of delegations to authorized intermediaries (Articles 19 and 20 of Decree No. 2009-048 of January 12, 2009). Transfers of foreign exchange from one resident’s foreign exchange account to another’s are not permitted, except (1) transfers between free trade areas, (2) payments by free trade zone enterprises within the national customs territory, (3) payments by international institutions or embassies to foreign consultants with resident status, and (4) transfers governed by special conventions.
Cash deposits must comply with prevailing laws and regulations and may be withdrawn for travel allowances under the applicable rules. Transfers between accounts of residents and nonresidents are permitted for current transactions.

| Approval required | No. |
| Approval required | Yes. |
| Held abroad | Yes. |
| Approval required | Yes. |

MOF authorization is required to open a foreign exchange account in a foreign bank for enterprises governed by ordinary law. Balances may be repatriated. Free trade zones may open bank accounts abroad under Law No. 2007-037. Residents may hold payment instruments abroad.

| Accounts in domestic currency held abroad | No. |
| Accounts in domestic currency convertible into foreign currency | No. |
| References to legal instruments and hyperlinks | Residents may not open accounts in domestic currency abroad. These accounts are governed by Circular No. 23-133 of August 6, 1973, with respect to nonresident ariary accounts and foreign securities portfolios. Residents may not convert the balances of their domestic currency accounts to foreign currency and transfer the proceeds abroad. |

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Nonresident Accounts

| Foreign exchange accounts permitted | Yes. |
| Approval required | No. |
| Domestic currency accounts | Yes. |

Nonresidents are treated as residents for the purpose of these accounts.

Transactions between residents and enterprises in the free trade zone take place either through the enterprises’ special accounts in domestic currency or through their foreign exchange accounts. Transactions between free trade zone enterprises and residents through special domestic currency accounts are limited to settlement of domestic costs and charges, servicing of domestic loans, and payments to the government and to resident shareholders. According to Article 2 of Order No. 1215/91 of February 28, 1991, export processing zone and free trade zone enterprises may ask their banks to transfer abroad up to the amount of foreign currency in their accounts. Pursuant to Decree No. 2015-1096 of July 7, 2015, on the application of Law No. 2007-037 of January 14, 2008, on free trade zones and enterprises in Madagascar (Article 28), any free trade zone or businesses wishing to purchase foreign exchange in the MID must apply for authorization from the External Finance Unit and must domicile its import operations. Payments of the latter may be made only on presentation of the Single Administrative Document (DAU) to the domiciling bank in cases of nondocumentary collections.

| Convertible into foreign currency | No. |
| Approval required | No. |
| Blocked accounts | No. |

Balances of domestic currency accounts held by nonresidents who are not export processing zone or free trade zone enterprises may be converted to foreign currency and transferred abroad only at accredited banking institutions.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.
Imports and Import Payments

Foreign exchange budget No.
Financing requirements for imports No.
Minimum financing requirements No.
Advance payment requirements No.
Advance import deposits No.
Documentation requirements for release of foreign exchange for imports Yes.
Domiciliation requirements Yes.
The requirement applies to imports. Waiver of the domiciliation requirement for imports was increased to €1,000 from MGA 2,000.
Preshipment inspection No.
Letters of credit No.
Import licenses used as exchange licenses No.
Other No.
Import licenses and other nontariff measures Yes.
Positive list No.
Negative list No.
Open general licenses No.
Licenses with quotas No.
Other nontariff measures Yes.
There is a short list of imports subject to administrative control, primarily for health and security reasons (Annex to Decree No. 92-424 regulating merchandise imports from abroad and merchandise exports abroad).
Import taxes and/or tariffs Yes.
Taxes collected through the exchange system No.
State import monopoly No.

Exports and Export Proceeds

Repatriation requirements Yes.
Merchandise export proceeds must be repatriated within 90 days of shipment in the case of resident enterprises. All free trade zones and enterprises are required to domicile all export operations with local banks and to repatriate export proceeds within a maximum 190 days from the date of loading. The repatriation deadline is one month from the invoice date for provisions of services.
Surrender requirements Yes.
Surrender to the central bank No.
Surrender to authorized dealers Yes.
All merchandise exporters and all service export providers must
surrender 70% of export proceeds within 30 days. Foreign exchange receipts from tourism activities must be surrendered in the foreign exchange market. The proceeds must be sold in the interbank foreign exchange market. Banks are authorized to provide short-term loans and advances in foreign currency to exporters operating in Madagascar.

Yes. Approval is required.

Sale or issue locally by nonresidents

Yes. Approval is required.

Purchase abroad by residents

Yes. Approval is required.

Sale or issue abroad by residents

Yes. Approval is required.

Controls on credit operations

Yes.

Commercial credits

Yes. These operations do not currently take place in Madagascar.

By residents to nonresidents

Yes. Credit for export prefinancing is permitted. Prefinancing and advances for exports must be reported to the MOF pursuant to pertinent credit notices. Off-site control of the supporting documentation provided for repatriation is required to ensure that the same credit notices are not submitted more than once.

To residents from nonresidents

No. Borrowing abroad by natural or juridical persons, public or private—except by authorized banks or credit institutions with special legal status—requires MOF authorization. Enterprises in the free trade zone may contract and service foreign loans; interest and amortization payments on foreign loans contracted directly by these companies are not restricted on presentation of MOF authorization.

Financial credits

Yes.

By residents to nonresidents

Yes. Approval is required.

To residents from nonresidents

Yes. Approval is required.

Guarantees, sureties, and financial backup facilities

Yes.

By residents to nonresidents

Yes. Approval is required.

To residents from nonresidents

Yes. Approval is required.

Controls on direct investment

Yes.

Outward direct investment

Yes. Investment abroad by Malagasy nationals, including by resident-owned foreign companies and their overseas branches and subsidiaries, is subject to MOF authorization.

Inward direct investment

No. Investment by nonresidents and nonresident-owned companies in Madagascar and their Malagasy branches and subsidiaries, as well as corresponding transfers, may be made freely within Madagascar without authorization or any conditions of authorization.

Controls on liquidation of direct investment

No. Total or partial liquidation of these investments, whether Malagasy investments abroad or foreign investments in Madagascar, must be reported to the MOF. Supporting documents are required. Proceeds from the liquidation of foreign investments (disposal of shares, stocks, goodwill or assets; shares in liquidation dividends—boni de liquidation—and expropriation compensation) may be repatriated freely but must be reported to the MOF.

Controls on real estate transactions

Yes.

Purchase abroad by residents

Yes. Approval is required.

Purchase locally by nonresidents

Yes. Approval is required.

Sale locally by nonresidents

Yes. The transfer of proceeds of sales requires MOF authorization.

Controls on personal capital transactions

Yes.

### Provisions Specific to the Financial Sector

#### Provisions specific to commercial banks and other credit institutions
- Yes. The banking law is the common legal framework governing the business activity of credit institutions (domestic and foreign banks, financial institutions, microfinance institutions, specialized financial institutions). In addition, a microfinance law governs the activity of microfinance institutions.

#### Borrowing abroad
- Yes. Credit institutions may borrow abroad with the authorization of the MFB. Authorized banks or credit institutions with special legal status do not require MFB authorization.

#### Maintenance of accounts abroad
- Yes. Accounts abroad of resident individuals and legal entities require MFB approval.

#### Lending to nonresidents (financial or commercial credits)
- Yes. Lending to nonresidents (financial or commercial credits or loans) requires MFB authorization.

#### Lending locally in foreign exchange
- Yes. Foreign exchange lending to residents (1) for capital account transactions requires MOF authorization and (2) is allowed in the case of short-term operating requirements of regular and free zone enterprises operating in Madagascar, but may not exceed one year. Medium- and long-term loans are not allowed (Order No. 11508/97 of December 12, 1997).

#### Purchase of locally issued securities denominated in foreign exchange
- No. Locally issued securities are exclusively denominated in local currency.

#### Differential treatment of deposit accounts in foreign exchange

- **Reserve requirements**: No. The reserve requirement, which applies to deposits in ariary and foreign currency, is 13%.

- **Liquid asset requirements**: No.

- **Interest rate controls**: No.

- **Credit controls**: No.

#### Differential treatment of deposit accounts held by nonresidents

- **Reserve requirements**: No.

Changes during 2018 and 2019

Arrangements for Payments and Receipts

Controls on exports and imports of banknotes

On exports

Foreign currency 08/30/2018
Attestation of purchase of foreign exchange is not required for exports below €7,500.

Foreign currency 02/13/2019
The limit on the use of cash of MGA 10 million, pursuant to Anti-Money-Laundering Law 2004-020 of August 19, 2004, was removed and a risk-based approach to prevent, detect, and suppress money laundering was introduced pursuant to Law No. 2018-043.

On imports

Foreign currency 02/13/2019
The limit on the use of cash of MGA 10 million, pursuant to Anti-Money-Laundering Law 2004-020 of August 19, 2004, was removed and a risk-based approach to prevent, detect, and suppress money laundering was introduced pursuant to Law No. 2018-043.

<tr>
<td>Stabilized arrangement</td>
<td>Yes.</td>
</tr>
</tbody>
</table>

The de jure exchange rate arrangement is floating. Official intervention focuses on building foreign reserves and limiting exchange rate volatility while taking into account seasonal fluctuations. Since August 2016, the kwacha has stabilized within a 2% band against the US dollar. Accordingly, the de facto exchange rate arrangement is classified as a stabilized arrangement. The combination of seasonality related to trade flows (for example, tobacco exports) and foreign exchange intervention contributed to a stable exchange rate. During 2018, the total foreign exchange sales and purchases by the CB were equivalent to 16.7% of GDP and 14% of GDP, respectively. The Reserve Bank of Malawi (RBM) does not publish its intervention data.

<td>Yes.</td>
</tr>
</tbody>
</table>

- Foreign exchange market: There are 9 authorized banking institutions licensed by the RBM to deal in foreign exchange with the public and 13 foreign exchange bureaus as of December 31, 2018. ADs are allowed to determine freely their commissions with their clients. Effective March 19, 2018, a maximum spread between Telegraphic Transfer (TT) buying and selling exchange rates for all currencies was set at 3%. The spread on cash buying and selling rates was set at 6%. Previously, both spreads could not exceed five Malawian kwachas.

- Spot exchange market: Foreign exchange bureaus may not enter into foreign exchange transactions with the RBM. Their business is limited to the sale and purchase of foreign currency cash, traveler’s checks, and other similar instruments for immediate delivery (spot transactions). Foreign exchange bureaus account for only a small fraction of turnover in Malawi’s foreign exchange market.

- Operated by the central bank: The RBM intervenes in the market to sell or buy foreign exchange market at its own discretion. The intervention currency is US dollar or any other convertible currency as the Bank may decide. The RBM is not a market maker and is therefore not obliged to quote firm two ways. The RBM intervenes at its indicative rates, with the bid and offer rates derived from averaging the bid and offer rates of the market. The minimum tradable amount on the interbank market is US$50,000 or its equivalent in any fully convertible currency.
Auction | No.  
Fixing | No.  

**Interbank market** | Yes.  
There are 9 banks authorized to trade in the foreign exchange interbank market. The foreign exchange interbank market is very thin with very small volume of trades conducted within the confines of AD’s bid and offer rates. The CB intervenes at its own discretion. Foreign exchange trading among ADs or between ADs and RBM is conducted via Reuters. Where not possible, it is conducted on a recordable phone or any ordinary phone with evidence provided via e-mail. The minimum tradable amount on the interbank market is US $50,000 or its equivalent in any fully convertible currency.

Over the counter | Yes.  
Brokerage | No.  
Market making | Yes.  
The foreign exchange interbank market operates under a market-making arrangement.

Forward exchange market | Yes.  
Authorized banks may quote bid-ask prices on demand. Forward exchange rates are not set by the RBM. Banks are free to set their own rates based on the forward variables as they see fit. There are only sporadic forward and swap transactions. The RBM participates in the forward foreign exchange market. The forward market is still in its infancy with negligible trade volumes. The RBM provides access to Lombard facility.

Official cover of forward operations | No.

Bilateral payments arrangements | No.  

Operative

No.

Inoperative

No.

Regional arrangements

Yes. Malawi is a member of the RIFF.

Clearing agreements

Yes. Malawi is a member of the COMESA Regional Payment and Settlement System and SADC Integrated Regional Settlement System.

Barter agreements and open accounts

Yes. Direct exchange of exports for imports (barter or countertrade) is subject to approval from the Ministry of Industry, Tourism, and Trade.

Administration of control

Yes. Foreign flows monitoring is administered by the RBM under the authority of and on behalf of the MOF.

Payments arrears

No.

Official

No.

Private

No.

Controls on trade in gold (coins and/or bullion)

Yes. Residents may purchase, hold, and sell gold coins for numismatic purposes. Only the monetary authorities may acquire or hold gold at home or abroad in any form other than numismatic coins and jewelry.

On domestic ownership and/or trade

Yes. Only the monetary authorities may conduct external trade in gold. Imports of gold in any form other than jewelry require licenses issued by the Ministry of Industry and Trade in consultation with the MOF; such licenses are not usually granted, except for imports by or on behalf of the monetary authorities and industrial users.

On external trade

Yes. Only the monetary authorities may conduct external trade in gold.

Controls on exports and imports of banknotes

Yes.

On exports

Yes.

Domestic currency

Yes. Up to the equivalent of US$5,000 may be exported. Larger amounts may be exported with justified causes and RBM approval.

Foreign currency

Yes. Residents may export foreign currency up to the equivalent of US $10,000, subject to applicable indicative limits on travel allowances. Nonresidents may export foreign currency up to the amount they imported.

On imports

Yes.

Domestic currency

Yes. Up to the equivalent of US$5,000 may be imported.

Foreign currency

No.

References to legal instruments and hyperlinks

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Resident Accounts

Foreign exchange accounts permitted

Yes. Residents may have foreign-currency-denominated accounts (FCDAs) under the terms and conditions of the bank involved, subject to Exchange Controls. Balances may be used for foreign payments and transfers satisfying Exchange Control regulations.

Held domestically

Yes.

Approval required

No.
Held abroad
Yes. Residents may open such accounts with RBM approval, and balances in those accounts can be freely transferred to the home country.

Approval required
Yes.

Accounts in domestic currency held abroad
No. Residents and nonresidents may not hold offshore accounts denominated in kwacha.

Accounts in domestic currency convertible into foreign currency
No.

References to legal instruments and hyperlinks
This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Nonresident Accounts

Foreign exchange accounts permitted
Yes. Nonresident FCDAs are permitted and not subject to Exchange Controls.

Approval required
No.

Domestic currency accounts
Yes. Nonresident kwacha accounts may only be credited with funds that are remittable.

Convertible into foreign currency
Yes. Balances in these accounts can be remitted subject to guidelines.

Approval required
No.

Blocked accounts
Yes. Credits to and debits from these accounts require authorization, which is usually given, to be invested in an approved manner. Interest earned on balances may be transferred to the account holder’s country of residence.

References to legal instruments and hyperlinks
This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Imports and Import Payments

Foreign exchange budget
No.

Financing requirements for imports
No. Importers may choose any method of payment, and imports may be paid for in kwacha to an appropriate local nonresident account or in any convertible currency. When imports arrive in Malawi and payment is due, importers must submit to an AD bank an application for foreign exchange including relevant importation and customs clearing documents.

Minimum financing requirements
No.

Advance payment requirements
No. Prepayment for imports is allowed.

Advance import deposits
No. Advance import deposits are not required by law; however, AD banks may require them as a banking practice, depending on the mode of payment (for example, LCs).

Documentation requirements for release of foreign exchange for imports
Yes. AD banks process payments based on invoices and other import documents.

Domiciliation requirements
No.

Preshipment inspection
No.

Letters of credit
No.

Import licenses used as exchange licenses
No.

Other
Yes. Importers may choose any method of payment, and imports may be paid for in kwacha to an appropriate local nonresident account or in any convertible currency. When payment for imports is due,
importers must submit to an AD bank an application for foreign exchange including relevant importation and customs clearing documents in the case of an open account.

| Import licenses and other nontariff measures | Yes. |
| Positive list | No. |
| Negative list | Yes. |
| Imports of clothing and uniforms designed for military or police use; radioactive substances; mist nets for the capture of wild birds, wild animals, and live fish; compound products suitable only for use as animal fodder; eggs of domestic or wild birds; live poultry (including day-old chicks); meat; dieldrin and aldrin; and table salt require specific licenses from the Ministry of Industry and Trade. Specific import licenses are usually issued within one week of application and are generally valid for six months. |
| Open general licenses | Yes. |
| Most imports are subject to OGLs, including imports from Commonwealth and WTO member countries. |
| Licenses with quotas | No. |
| Other nontariff measures | No. |
| Import taxes and/or tariffs | Yes. |
| Customs tariffs are ad valorem and range up to 30% of c.i.f. value, with a weighted average of about 15%. Customs tariffs on all items with MFN status range from 0% to 25%. There are no tariffs on items from the COMESA region. Selected government imports are exempt from customs tariffs. Imports are also subject to a surtax of up to 17.5%. |
| Taxes collected through the exchange system | No. |
| State import monopoly | No. |
| References to legal instruments and hyperlinks | This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx. |

Exports and Export Proceeds

| Repatriation requirements | Yes. |
| Exporters must repatriate their export proceeds within 180 days of the date the goods or services were exported. |
| Surrender requirements | No. |
| Surrender to the central bank | No. |
| Surrender to authorized dealers | No. |
| Exporters may retain 100% of their export proceeds in their FCDAs. |
| Financing requirements | Yes. |
| Export financing is available from all commercial banks in Malawi and the Export Development Fund. The Export Development Fund was established to cater for export financing, equity participation, or credit guaranteed and provide advisory services for the setup of agricultural commodities exports. |
| Documentation requirements | Yes. |
| Letters of credit | No. |
| Guarantees | No. |
| Domiciliation | No. |
| Preshipment inspection | No. |
| Other | Yes. | Exporters are required to complete an electronic customs declaration |
Export licenses: Yes.
Without quotas: Yes.
With quotas: No.
Export licenses are required for selected goods as determined by the Ministry of Industry and Trade.
Export taxes: No.
Collected through the exchange system: No.
Other export taxes: No.
Export licenses (CD1 form) for exports worth more than US$5,000.
Export licenses are required for selected goods as determined by the Ministry of Industry and Trade.

### Provisions Specific to the Financial Sector

| Provisions specific to commercial banks and other credit institutions | Yes. |

Borrowing abroad | Yes. | There are implicit controls in banking practice. Exchange Control approval is also required.

Maintenance of accounts abroad | No. |

Lending to nonresidents (financial or commercial credits) | Yes. | Approval is not required for lending to nonresidents who conduct business in Malawi. However, lending to nonresidents requires Exchange Control approval.

Lending locally in foreign exchange | Yes. | These are subject to prudential regulations. The aggregate of a bank’s foreign exchange risk exposure (short and long currency positions) both on-book and off-balance sheet, as measured using spot buying rates, may not exceed 35% of the bank’s core capital.

**Changes during 2018 and 2019**

**Foreign exchange market**

03/19/2018  
A maximum spread between Telegraphic Transfer buying and selling exchange rates for all currencies was set at 3%. The spread on cash buying and selling rates was set at 6%. Previously, both spreads could not exceed five Malawian kwachas.
MALAYSIA

(Position as of May 31, 2019)

Status under IMF Articles of Agreement

Date of membership

March 7, 1958.

Article VIII

Yes. Date of acceptance: November 11, 1968.

Article XIV

Exchange Measures

Restrictions and/or multiple currency practices

No.

Exchange measures imposed for security reasons

Yes.

In accordance with IMF Executive Board Decision No. 144-(52/51) Yes.

In accordance with UNSC resolutions, Malaysia maintains targeted financial sanction restrictions with respect to the following: (1) Terrorism financing: Freezing of funds, financial assets, and economic resources related to the ISIL (Da’esh) and Al-Qaida (UNSCRs 1267, 1989, and 2253); Taliban (UNSCR 1988); and designated entities/individuals listed in domestic list (UNSCR 1373). (2) Proliferation financing: Freezing of funds, financial assets, and economic resources and prevention of the provision of financial services related to the designated entities/individuals (UNSCRs 1718 and 2231). (3) Other financial sanctions: Implementation of the measures decided by the UNSC pursuant to Article 41 of the Charter of the United Nations to give effect to the freezing of funds, financial assets, and economic resources on designated person relating to Libya, Democratic Republic of the Congo, Republic of Yemen, Republic of South Sudan, State of Eritrea, Federal Republic of Somalia, Republic of Iraq.

The above restrictions apply to all authorized persons under the Financial Services Act (FSA) 2013 and the Islamic Financial Services Act (IFSA) 2013, licensed money services business (MSB) under the MSB Act 2011, and prescribed development financial institutions under the Development Financial Institutions Act 2002.

Other security restrictions

Yes.

Implementation of the measures decided by the UNSC pursuant to Article 41 of the Charter of the United Nations to give effect to the freezing of funds, financial assets, and economic resources on designated person relating to Democratic Republic of the Congo, Republic of Yemen, Central African Republic, State of Sudan.

Exchange Arrangement

Currency

Yes. The currency of Malaysia is the Malaysian ringgit.

Other legal tender

No.

Exchange rate structure

Unitary

Yes.

Dual
Multiple

**Classification**

- No separate legal tender
- Currency board
- Conventional peg
- Stabilized arrangement
- Crawling peg
- Crawl-like arrangement
- Pegged exchange rate within horizontal bands
- Other managed arrangement

Floating Yes. The de jure exchange rate arrangement is floating. On September 26, 2016, Bank Negara Malaysia (BNM) affirmed that market forces determine the direction and level of the exchange rate. BNM does not publish foreign exchange intervention data. The de facto exchange rate arrangement is classified as floating.

Free floating

**Official exchange rate** Yes. The official exchange rate is determined by supply and demand in the foreign exchange market. The exchange rate serves as a reference value for all international transactions.

**Monetary policy framework**

- Exchange rate anchor
  - U.S. dollar
  - Euro
  - Composite
  - Other

- Monetary aggregate target

- Inflation-targeting framework
  - Target setting body
    - Government
    - Central Bank
      - Monetary Policy Committee
      - Central Bank Board
    - Other
    - Government and Central Bank

- Inflation target
The Central Bank of Malaysia Act of 2009 requires BNM to pursue a monetary policy whose primary objective is to maintain price stability while taking into account developments in the economy. BNM’s sole instrument to signal the stance of monetary policy is the overnight policy rate.

Licensed onshore banks may freely determine their bid-ask spreads and foreign exchange commissions with their clients. As at end-December 2018, licensed onshore banks consisted of (1) 26 licensed commercial banks, (2) 16 licensed Islamic banks, (3) 11 licensed investment banks, and (4) 1 licensed international Islamic banks (IIBs). Licensed onshore banks and MSB licensees conducting remittance, retail currency exchange, and wholesale currency businesses may undertake spot transactions with residents and nonresidents. There are 330 companies licensed by BNM to provide MSB. Of these, 292 are approved for retail currency exchange business only; 24 are approved for remittance business only; 9 are approved for both retail currency exchange and remittance businesses; 2 are
approved for both retail currency exchange and wholesale currency businesses; and 3 are approved to conduct the full range of MSB activities (remittance, retail currency exchange, and wholesale currency businesses).

In addition, 21 of total licensed companies are providing digital remittance/money changing services.

Licensed money changers that undertake retail currency exchange transactions may (1) buy and sell foreign currency notes and coins against ringgit or other foreign currency notes and coins with any person in Malaysia; and (2) buy and sell traveler’s checks on behalf of an issuer of traveler’s checks with any person in Malaysia.

Licensed currency wholesalers may (1) buy or sell foreign currency with licensed banks, licensed Islamic banks, MSB licensees, and any person abroad; and (2) import and export foreign currency notes with any person abroad. Licensed money changers and currency wholesalers do not conduct exchange transactions with BNM.

**Interbank market**

<table>
<thead>
<tr>
<th></th>
<th>Yes.</th>
</tr>
</thead>
</table>

Trading activities in the onshore foreign exchange market are undertaken through a broker system or market-making arrangements between interbank participants. All licensed onshore banks can participate in the interbank foreign exchange market. There are no limits imposed by BNM on the bid-ask spreads and commissions of market participants. When the need for intervention arises, operations are conducted at market rates with market participants.

**Over the counter**

<table>
<thead>
<tr>
<th></th>
<th>Yes.</th>

</thead>
</table>

There are currently four money brokers which include an electronic broker (Thomson Reuters Matching Platform) approved by BNM to operate in the foreign exchange market.

**Market making**

<table>
<thead>
<tr>
<th></th>
<th>Yes.</th>
</tr>
</thead>
</table>

All licensed onshore banks are authorized to be market maker in the foreign exchange market.

**Forward exchange market**

<table>
<thead>
<tr>
<th></th>
<th>Yes.</th>
</tr>
</thead>
</table>

BNM may participate in the forward foreign exchange market. Forward exchange transactions by residents: Residents may hedge current account and financial account transactions based on firm commitment or anticipation with licensed onshore banks. Residents may sell ringgit with a licensed onshore bank up to six months of their foreign currency obligations (that is, foreign currency import payment, foreign currency loan repayment, and other current account transactions in foreign currency with a nonresident). Residents may hedge their foreign currency exposure and cancel their hedging position for US dollar/Malaysian ringgit (USD/MYR), Chinese yuan renminbi/Malaysian ringgit (CNH/MYR), British pound sterling/Malaysian ringgit (GBP/MYR), euro/Malaysian ringgit (EUR/MYR), and Japanese yen/Malaysian ringgit (JPY/MYR) currency pairs with a licensed onshore bank without documentary evidence up to an aggregate net open position limit of RM 6 million per licensed onshore bank. One-off declaration of hedging intent is required. Resident institutional investors registered with BNM may (1) enter into forward contracts to buy ringgit up to 100% of their invested underlying foreign-currency-denominated
assets (that is, debt securities, equity securities, and temporary placement in foreign currency deposit or deposit-like securities using proceeds from the sale of existing foreign-currency-denominated securities pending reinvestment of such foreign currency proceeds) and (2) unwind the forward contracts as described in (1), without documentary evidence with a licensed onshore bank to manage their foreign currency exposure. Resident corporate entities registered with BNM may unwind up to 100% of their forward contracts entered with a licensed onshore bank for underlying foreign-currency-denominated assets (that is, debt securities, equity securities, direct investment abroad or residential or commercial property abroad), foreign-currency-denominated borrowing (including interest and profit payment) or current account transactions in foreign currency with a nonresident, in managing their foreign currency exposure.

Forward exchange transactions by nonresidents:
Nonresidents may hedge their current account and financial account transactions based on firm commitment with licensed onshore banks or an appointed overseas office of licensed onshore banks. Foreign exchange hedging on anticipatory basis is only allowed for current account transactions with licensed onshore banks. Nonresident institutional investors registered with BNM may (1) enter into forward contracts to sell ringgit up to 100% of their invested underlying ringgit-denominated assets (that is, debt securities on Real-time Electronic Transfer of Funds and Securities System (RENTAS), equity securities on Bursa Malaysia Berhad, or temporary placement in ringgit deposits or deposit-like securities offered by licensed onshore banks using proceeds from the sale of existing ringgit-denominated securities pending reinvestment of such ringgit proceeds); (2) enter into forward contracts to buy ringgit up to 25% of their invested underlying ringgit-denominated asset; or (3) unwind the forward contracts as described in (1) and (2), without documentary evidence with a licensed onshore bank or an appointed overseas office of licensed onshore banks for the purpose of managing their ringgit exposure. Nonresident corporate entities registered with BNM may unwind up to 100% of their forward contracts entered with a licensed onshore bank or an appointed overseas office of licensed onshore banks for underlying ringgit-denominated assets (that is, debt securities on RENTAS, equity securities on Bursa Malaysia Berhad or other portfolio or direct investment in Malaysia including property, dividend, or income earned from the investment), ringgit-denominated borrowing including interest or profit payment or current account transactions in ringgit with a resident, for the purpose of managing their ringgit exposure.

Under the dynamic hedging framework, investors are free to undertake forward transactions and manage their forward risks without the requirement for documentation. The capacity of the financial institutions to undertake forward positions is subject to their respective risk appetite. The Bank’s role is to ensure that the development of the forward market is unimpeded but without introducing stability risk.

Official cover of forward operations No.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Resident Accounts**

- **Foreign exchange accounts permitted** Yes.
  - **Held domestically** Yes. Residents may open foreign currency accounts with licensed onshore banks; Trade Foreign Currency Account (Trade FCA) and Investment Foreign Currency Account (Investment FCA).
  - **Approval required** Yes. Approval is required for resident individuals to open and maintain joint foreign currency accounts with nonresident non-immediate family members.
  - **Held abroad** Yes. Residents may open foreign currency accounts with nonresident financial institutions. Funds from such accounts may be freely transferred to Malaysia subject to the prevailing FEA rules. Funds into such accounts sourced from Malaysia are subject to the FEA Notice 3 on Investment in FCA and FEA Notice 4 on Payments.
  - **Approval required** Yes. Approval is required for resident individuals to open and maintain joint foreign currency accounts with nonresident non-immediate family members.

- **Accounts in domestic currency held abroad** No. Residents may not hold ringgit accounts abroad.

- **Accounts in domestic currency convertible into foreign currency** Yes. Residents may convert ringgit to foreign currency with licensed onshore banks. Conversion of ringgit funds to foreign currency for foreign currency obligations such as import payment, foreign currency loan repayment, and other current international transactions by residents up to a value of 6months foreign currency obligations service. Conversion of ringgit funds to foreign currency for investment abroad and investment in FCAs by residents without domestic ringgit borrowing is not restricted; for residents with domestic ringgit borrowing, it is subject to the following limits: (1) RM 50 million or its equivalent in aggregate a calendar year on a corporate group basis via Investment FCA for entities or (2) RM 1 million or its equivalent in aggregate a calendar year for individuals.

Nonresident Accounts

Foreign exchange accounts permitted
- Yes. Nonresidents may open foreign currency accounts with licensed onshore banks. Funds from these accounts may be freely transferred abroad.

Approval required
- No.

Domestic currency accounts
- Yes. Nonresidents may open ringgit accounts (external accounts) with licensed onshore banks, except licensed IIBs. Funds from the account may be freely transferred abroad on conversion to foreign currency. Nonresidents may open ringgit accounts with an appointed overseas office of licensed onshore banks, as approved by BNM.

Convertible into foreign currency
- Yes. Nonresidents may convert ringgit to foreign currency with licensed onshore banks or an appointed overseas office of licensed onshore banks.

Approval required
- Yes. Prior approval from BNM is required for an appointed overseas office of licensed onshore banks to offer ringgit accounts to nonresidents.

Blocked accounts
- No. There are no rules on blocked accounts.

References to legal instruments and hyperlinks
- This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Imports and Import Payments

Foreign exchange budget
- No.

Financing requirements for imports
- No. There are no specific import financing requirements. Residents may obtain any amount of foreign currency supplier credit from nonresident suppliers and any amount of foreign currency borrowing from related nonresidents, other than nonresident financial institutions. Borrowing from other nonresidents is subject to FEA Notice 2 on borrowing by residents from nonresidents.

Minimum financing requirements
- No.

Advance payment requirements
- No.

Advance import deposits
- No.

Documentation requirements for release of foreign exchange for imports
- Yes. Requirements are determined by the paying banks.

Domiciliation requirements
- No.

Preshipment inspection
- Yes. Preshipment inspections are made by independent surveyors for rice imports.

Letters of credit
- No.

Import licenses used as exchange licenses
- No.

Other
- Yes. Other documents required are an invoice, a bill of lading, a sanitary or phytosanitary certificate, and a certificate of origin.

Import licenses and other nontariff measures
- Yes. Import control authority rests with the Royal Malaysian Customs Department of the MOF. Import licensing in Malaysia is administered by various authorities, including the Ministry of International Trade and Industry (MITI), the Ministry of Plantation Industries and Commodities, the Malaysian Timber Industry Board, the Ministry of Agriculture and Agro-Based Industry and its agencies, including the Department of Agriculture, the Department of...
Veterinary Services of Malaysia, the Federal Agricultural Marketing Authority, the Department of Fisheries, the Malaysian Pineapple Industry Board, and the Fisheries Development Authority of Malaysia.

Positive list No.

Negative list Yes. A negative list is established by Malaysian Customs (Prohibition of Imports) Order 2012, Gazette No. P.U. (A) 490/2012 and Customs (Prohibition of Exports) Order 2012, Gazette No. P.U. (A) 491/2012.

Open general licenses Yes. Import licenses are obtained from the MITI, the Ministry of Plantation Industries and Commodities and its agencies, and the Ministry of Agriculture and Agro-Based Industry and its agencies.

Licenses with quotas Yes. Certain licenses are subject to the tariff rate quota, per Appendix B of Malaysian Customs Duties Order 2012, Gazette No. P.U. (A) 275/2012 (August 30, 2012). Tariff rate quota is a trade policy tool or mechanisms used to control or protect local produced commodity or product. Tariff rate quotas are as per Malaysian Customs Duties Order 2017, Gazette No. P.U. (A) 5/2017 (January 3, 2017).

Other nontariff measures No.

Import taxes and/or tariffs Yes. Antidumping duty is currently imposed on imports of (1) cellulose fiber-reinforced cement flat sheet and pattern sheets and specifically excluding external roofing sheets originating in or exported from Thailand, Gazette No. P.U. (A) 81/2014 (March 30, 2014–March 29, 2019) and Extension P.U. (A) 95/2019 (effective March 30, 2019–September 26, 2019); (2) polyethylene terephthalate with the intrinsic viscosity of more than 0.70 deciliter/gram originating in or exported from People’s Republic of China, Republic of Indonesia, and Republic of Korea Gazette No. P.U. (A) 45/2015 and P.U. (A) 248/2018 (in effect for the period March 14, 2015–March 13, 2020); (3) pre-painted, painted, or color coated steel coils originating in or exported from People’s Republic of China and Socialist Republic of Viet Nam, Gazette No. P.U. (A) 11/2016 and P.U. (A) 249/2018 (as of January 24, 2016–January 23, 2021); (4) cold rolled coils or alloy and non-alloy steel of a thickness between 0.20 mm and 2.60 mm and width between 700 mm and 1300 mm excluding tin mill black plate and subject merchandise imported for the purpose of automotive and usage of all grades and specifications; originating in or exported from People’s Republic of China, Republic of Korea and Socialist Republic of Viet Nam, Gazette No. P.U. (A) 144/2016 (May 24, 2016–May 23, 2021) and Administrative Review P.U. (A) 127/2019 (effective May 8, 2019–May 23, 2021); (5) cold rolled stainless steel originating in or exported from China, Chinese Taipei, Korea, and Kingdom of Thailand, No. P.U. (A) 23/2018 (effective February 8, 2018–February 7, 2023); and flat rolled product of iron alloy or non-alloy steel, plated or coated with zinc, using hot dip process (Galvanized Iron Coils/Sheets or Galvanized Steel Coils/Sheets) originating in or exported from People’s Republic of China and Socialist Republic of Viet Nam, Gazette No. P.U. (A) 69/2019 (effective March 8, 2019–March 7, 2024).

Safeguards duty is currently imposed on imports of (1) steel concrete reinforcing bars, Gazette No. P.U. (A) 122/2017 (April 14, 2017–April 13, 2020); (2) steel wire rods and deformed bar-in-coil, Gazette No. P.U. (A) 123/2017 (April 15, 2017–April 14, 2020). c/o MITI and Tax Division, MOF.

Taxes collected through the exchange system No.

State import monopoly Yes. Under a privatization agreement, BERNAS had been granted the sole right to import rice into Malaysia for 15 years beginning in 1996; the
agreement was extended for an additional 10 years in 2011. This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Exports and Export Proceeds**

**Repatriation requirements**

| Yes. | Export proceeds must be repatriated to Malaysia with licensed onshore banks according to the sales contract in full value earlier than or in accordance with the payment date of the export contract which in any case may not exceed six months from the date of export. |

**Surrender requirements**

| Yes. | Effective August 17, 2018, exporters may retain foreign currency proceeds from their export of goods in their Trade FCA held with licensed onshore bank up to the higher of (1) 25% of the export proceeds or (2) resident exporters’ 6-month foreign currency obligations that exist on the date of receipt of the export proceeds. The flexibility under (2) above is only applicable if the aggregate amount of existing balance in the resident exporters’ Trade FCA and proceeds retained under (1) above is insufficient to meet the resident exporters’ 6-month foreign currency obligations, such as import payment, foreign currency loan repayments, and other current international transactions, that exist on the date of receipt of the export proceeds. Previously exporters could only retain 25% of export proceeds in foreign currency in their Trade FCA. The balance of foreign currency proceeds from export of goods must be converted to ringgit with a licensed onshore bank. |

**Surrender to the central bank**

| No. |  |

**Surrender to authorized dealers**

| Yes. |  |

**Financing requirements**

| No. | There are no specific export financing requirements. Resident exporters may obtain any amount of foreign currency trade financing facilities from licensed onshore banks and related nonresidents. Borrowing from other nonresidents is subject to FEA Notice 2 on borrowing by residents from nonresidents. Any proceeds from trade financing facilities relating to export of goods must comply with the conversion requirement on foreign currency export proceeds. |

**Documentation requirements**

| Yes. | Requirements are determined by the receiving banks. |

**Letters of credit**

| No. |  |

**Guarantees**

| No. |  |

**Domiciliation**

| No. |  |

**Preshipment inspection**

| Yes. | Exports of live fish are subject to preshipment inspection. If requested, a certificate of health, sanitation, or origin may be issued by the Department of Fisheries. Veterinary examination, laboratory testing, and animal quarantine procedures—as well as accreditation of establishments and premises for exports of animals and animal products—are carried out by the Department of Veterinary Services of Malaysia in accordance with import requirements of importing countries. Plants and plant products, including rice, and raw commodities may be subject to preshipment inspection, depending on the requirements of the importing country. |

**Other**

| Yes. | Exports of rubber from peninsular Malaysia require a certificate issued by the Malaysian Rubber Exchange and Licensing Board. |

**Export licenses**

| Yes. |  |
Without quotas: Yes.

Certain exportable products are monitored to avoid shortages in the domestic market. Export licenses for fish and fishery products are issued by the Fisheries Development Authority of Malaysia. The shipment of live fish (including among peninsular Malaysia, Sabah, and Sarawak) also requires a permit issued by the Department of Fisheries. In accordance with CITES, a permit from the Department of Wildlife is required for exports of endangered species. The certificate of conformity issued by the Federal Agricultural Marketing Authority acts on behalf of the Royal Malaysian Customs Department to endorse exports and reexports of all types of vegetables, especially to Brunei Darussalam, Indonesia, Singapore, and Thailand. Exports of plants, seeds, and shoots for propagation require export permits issued by the Department of Agriculture. Exports of endangered species of plants require a CITES permit from the Department of Agriculture. Export permits and veterinary health certification from the Department of Veterinary Services of Malaysia are required for exports of animals and animal products. Export licenses (issued by the Malaysian Pineapple Industry Board) are required for fresh pineapple and canned pineapple products. Export licenses or permits from the MITI are required for exports of scrap and waste metals; cement, clinker, under Ministry of Domestic Trade and Consumer Affairs, and toxic chemicals and their precursors under the Chemical Weapons Convention. Applications for export and import permits for products under the MITI’s jurisdiction may be made through an Internet-based system called the Trade Facilitation Information System (TFIS), ePermit and ePermit STA (Strategic Trade Act) Systems. Importers and exporters that meet the requirements may get online approval through this system. Applications for live fish import and export permits must be made through an Internet-based system, e-permit. Importers and exporters may get online approval through e-permit, provided the requirements are met.

With quotas: No.

Export taxes: Yes.

Export taxes are levied on selected commodities as indicated in the Customs Duty Order 2017. There are 217 tariff lines with tariff duty rates out of 11,698 lines in the Customs Duty Order 2017. Ad valorem export duty rates are found in Chapters 1, 12, 15, 26, 27, 40, 44, 68, 71, 72, 74, 75, 76, 78, and 79. Specific export duty rates are found in Chapters 6, 12, and 14.

Controls on capital and money market instruments: Yes. Interest income of nonresident individuals and companies from the following is not subject to withholding of taxes: (1) ringgit-denominated securities and debentures other than convertible loan stocks approved by the Securities Commission (SC); (2) securities issued by the government of Malaysia; and (3) foreign-currency-denominated sukuk (the Islamic equivalent of bonds) originating in Malaysia.

### On capital market securities

**Yes.**

**Shares or other securities of a participating nature**

**Purchase locally by nonresidents** Yes. Nonresidents may purchase securities listed on Bursa Malaysia. Based on BNM’s FEA rules (since June 30, 2013), nonresidents are free to invest in any form of ringgit assets in Malaysia.

**Sale or issue locally by nonresidents** Yes. Issuance or offering of shares for sale locally by nonresidents requires SC approval under Section 212 of the Capital Markets and Services Act. Certain categories of transactions as set out in Schedule 5 of the Capital Markets and Services Act are exempted from SC’s approval. Approval from BNM is also required for issuance of ringgit-denominated securities by nonresidents.

**Purchase abroad by residents** Yes. These transactions are not restricted for resident entities without domestic ringgit borrowing. Resident entities with domestic ringgit borrowing are subject to the prudential limit of (1) up to the ringgit amount sourced from proceeds of an initial public offering (IPO) on the Main Market of Bursa Malaysia; and (2) up to RM 50 million or its equivalent in aggregate on a corporate group basis a calendar year (these limits applied only to those funding investment abroad through conversion of ringgit, transfer from Trade FCA, foreign currency borrowing from licensed onshore banks for purposes other than direct investment abroad, and swapping of financial assets).

**Sale or issue abroad by residents** Yes. Resident entities may issue shares denominated in foreign currency on foreign stock exchanges. Approval is required only for issuance of ringgit-denominated securities by residents outside Malaysia.

**Bonds or other debt securities** Yes.

**Purchase locally by nonresidents** No. There is no minimum holding period requirement.

**Sale or issue locally by nonresidents** Yes. Nonresidents may issue foreign-currency-denominated securities. Approval is required only for issuance of ringgit-denominated securities by nonresidents.

**Purchase abroad by residents** Yes. These transactions are not restricted for resident entities without domestic ringgit borrowing. Resident entities with domestic ringgit borrowing are subject to the prudential limit of (1) up to the ringgit amount sourced from proceeds of an IPO on the Main Market of Bursa Malaysia; and (2)
up to RM 50 million or its equivalent in aggregate on a corporate
group basis a calendar year (these limits applied only to those
funding investment abroad through conversion of ringgit, transfer
from Trade FCA, foreign currency borrowing from licensed onshore
banks for purposes other than direct investment abroad, and
swapping of financial assets).

Sale or issue abroad by residents

Yes. Resident entities may issue foreign currency bonds or sukuk abroad,
subject to FEA Notice 2 on borrowing by residents from
nonresidents.

On money market instruments

Yes.

Purchase locally by nonresidents

No.

Sale or issue locally by nonresidents

Yes. Nonresidents may issue foreign-currency-denominated securities.
Approval is required only for issuance of ringgit-denominated
securities by nonresidents.

Purchase abroad by residents

Yes. These transactions are not restricted for resident entities without
domestic ringgit borrowing.

Sale or issue abroad by residents

Yes. Resident entities may issue foreign currency money market
instruments abroad, subject to FEA Notice 2 on borrowing by
residents from nonresidents. Approval from BNM is required for
issuance or sale of ringgit money market instruments by residents
outside Malaysia.

On collective investment securities

Yes. Foreign collective investment schemes (CISs) may be offered and
marketed in Malaysia to resident and nonresident investors (which
include retail investors and investors defined in Schedule 6 and
Schedule 7 of the Capital Market and Services Act 2007); these plans
do not have to be managed and administered by a company licensed
by the SC. However, foreign CISs must comply with Chapter 3.0 of
the SC’s Guidelines on Offering, Marketing, and Distribution of
Foreign Funds (OMD—of March 3, 2008, as revised May 4, 2017).
Since June 15, 2015, (1) a foreign fund is no longer required to be
primarily regulated by a securities regulator that has satisfactorily
implemented the International Organization of Securities
Commissions’ (IOSCO) principles and objectives of securities
regulation; (2) an operator of foreign fund is no longer required to be
primarily regulated by a securities regulator that has satisfactorily
implemented the IOSCO principles and objectives of securities
regulation; (3) offering of a foreign fund to sophisticated investors is
required to lodge relevant offering document in accordance with the
requirements under the Guidelines on Unlisted Capital Market
Products under the Lodge and Launch framework; (4) offering of a
foreign fund to sophisticated investors is required to be in accordance
with the requirements in relation to the Lodge and Launch
framework; (5) clarifications regarding the reporting requirements in
relation to foreign funds were provided. The CIS must meet the
requirements of the OMD. Specific requirements for ASEAN CISs
are in the Handbook for CIS Operators of ASEAN CISs. The
ASEAN CIS Framework is a streamlined process for cross-border
offering of CISs in signatory countries. From May 4, 2017, (1) a
foreign fund offered by a permitted entity that complies with the requirements under paragraph 4.03 and Appendix 3 of the OMD is permitted to be offered in Malaysia; and (2) a foreign fund that invests or proposes to invest primarily in income-generating real estate provided – the units are listed on an exchange as specified by the SC and are located in a jurisdiction where the securities regulator for such fund is a full signatory of the International Organization of Securities Commissions Multilateral Memorandum of Understanding (IOSCO MMoU) as listed in its Appendix A; the offering of units is made by a holder of a Capital Markets Services Licence (CMSL) who carries on the business of dealing in securities; and the offering of units is limited to a one-off offering only to sophisticated investors and is not offered to the sophisticated investors on a continuous basis.

Purchase locally by nonresidents No.

Sale or issue locally by nonresidents Yes. Nonresidents may establish foreign currency-based currency CISs. Approval is required for the establishment of ringgit-based currency CISs or classes of units denominated in ringgit by nonresidents in Malaysia. Establishment of new CISs requires SC authorization or recognition in the case of cross-border offerings through a mutual recognition agreement (MRA) and in relation to the ASEAN CIS Framework. CISs may be offered in any foreign currency. Ringgit CISs under the ASEAN CIS Framework may be offered only in Malaysia. Proceeds from ringgit CISs must be settled and managed with licensed onshore banks. This includes currency conversion. The proceeds of ringgit CISs may be fully invested abroad if at least two-thirds of the foreign offering of the CIS are raised outside Malaysia in two other countries.

Purchase abroad by residents Yes. These transactions are not restricted for resident entities without domestic ringgit borrowing. Resident entities with domestic ringgit borrowing are subject to the prudential limit of (1) up to the ringgit amount sourced from proceeds of an IPO on the Main Market of Bursa Malaysia; and (2) up to RM 50 million or its equivalent in aggregate on a corporate group basis a calendar year (these limits applied only to those funding investment abroad through conversion of ringgit, transfer from Trade FCA, foreign currency borrowing from licensed onshore banks for purposes other than direct investment abroad, and swapping of financial assets).

Sale or issue abroad by residents Yes. Residents may establish foreign currency-based currency CISs abroad. Establishment of ringgit-based currency CIS or classes of units denominated in ringgit abroad requires approval from BNM. A CIS established in Malaysia may be offered abroad through an MRA under the ASEAN CIS Framework.

Controls on derivatives and other instruments Yes. Residents may purchase derivatives or other instruments offered on the Bursa Malaysia or by licensed onshore banks. Resident may also purchase derivatives and other instruments (other than currency derivatives contracts) from specified overseas exchanges via resident futures broker for (1) hedging purposes; and (2) investment purposes, subject to FEA Notice 3 on investments in FCAs by residents.

Purchase locally by nonresidents Yes. Nonresidents may purchase derivatives or other instruments offered on the Bursa Malaysia or by licensed onshore banks. Approval from BNM is required for nonresident banking institutions (BIs) to enter into ringgit-denominated interest rate derivatives with no underlying commitment with a licensed onshore bank. Nonresidents may hedge their current account and financial account transactions based on firm commitment with licensed onshore banks or an appointed overseas office of licensed onshore banks. Foreign exchange hedging on
anticipatory basis is only allowed for current account transactions with licensed onshore banks. Nonresident institutional investors registered with BNM may (1) enter into forward contracts to sell ringgit up to 100% of their invested underlying ringgit-denominated assets (that is, debt securities on RENTAS, equity securities on Bursa Malaysia Berhad, or temporary placement in ringgit deposits or deposit-like securities offered by licensed onshore banks using proceeds from the sale of existing ringgit-denominated securities pending reinvestment of such ringgit proceeds); (2) enter into forward contracts to buy ringgit up to 25% of their invested underlying ringgit-denominated asset; or (3) unwind the forward contracts as described in (1) and (2), without documentary evidence with a licensed onshore bank or an appointed overseas office of licensed onshore banks for the purpose of managing their ringgit exposure. Nonresident corporate entities registered with BNM may unwind up to 100% of their forward contracts entered with a licensed onshore bank or an appointed overseas office of licensed onshore banks for underlying ringgit-denominated assets (that is, debt securities on RENTAS, equity securities on Bursa Malaysia Berhad or other portfolio or direct investment in Malaysia including property, dividend, or income earned from the investment), ringgit-denominated borrowing including interest or profit payment or current account transactions in ringgit with a resident, for the purpose of managing their ringgit exposure.

Sale or issue locally by nonresidents  Yes. Approval from BNM is required for nonresidents to issue derivatives or other instruments in Malaysia.

Purchase abroad by residents  Yes. Residents may purchase derivatives and other instruments (other than currency derivatives contracts) from specified overseas exchanges via a resident futures broker for (1) hedging purposes and (2) investment purposes, subject to FEA Notice 3 on investments in FCAs by residents. Approval from BNM is required for other transactions, including currency derivatives contracts.

Sale or issue abroad by residents  Yes. Licensed onshore banks (other than licensed IIB) are allowed to issue or offer a financial instrument denominated in ringgit, in Malaysia in foreign currency to any person. Effective August 17, 2018, ringgit-denominated interest rate derivative can be offered via an appointed overseas office of a licensed onshore bank. The issuances of financial instruments involving or with reference to exchange rate are subject to FEA Notice 1 on dealings in currency, gold, and other previous metal. However, a ringgit-denominated interest rate derivative may not be issued or offered to a nonresident BI with no firm commitment.

Controls on credit operations  Yes.

Commercial credits  Yes. Export credit terms extended to nonresidents may not exceed six months from the date of export.

By residents to nonresidents  Yes. These transactions are not restricted for residents to obtain foreign currency supplier credit from nonresident suppliers and foreign currency borrowing from their related nonresidents, other than nonresident financial institutions. Borrowing from other nonresidents is subject to FEA Notice 2 on borrowing by residents from nonresidents.
### Financial Credits

<table>

</tbody>
</table>

Approval is required for financial guarantees exceeding the equivalent of RM 50 million in aggregate issued in the following instances: (1) to secure borrowing by a nonresident who is not part of the resident’s group; or (2) to secure borrowing by a nonresident who obtains financing from a nonresident financial institution or any lender that is not part of the resident entity’s group of entities.

### Controls on Direct Investment

| **Outward Direct Investment** | Yes. |
| **Inward Direct Investment** | Yes. |

The following inward investments require approval under the Economic Planning Unit guidelines: acquisition of property (such as undeveloped or developed land) by foreigners, depending on the

| **By residents to nonresidents** | Yes. |
| **To residents from nonresidents** | Yes. |

Resident entities may obtain any amount of foreign currency borrowing from their related nonresidents, other than nonresident financial institutions, and nonresident. Borrowing from other nonresidents is subject to FEA Notice 2 on borrowing by residents from nonresidents.

### Outward Direct Investment

| **By residents to nonresidents** | Yes. |
| **To residents from nonresidents** | Yes. |

These transactions are not restricted for resident entities without domestic ringgit borrowing. Resident entities that meet the BNM’s internal prudential requirements for direct investment abroad may also undertake direct investment abroad. Resident entities with domestic ringgit borrowing are subject to the prudential limit of (1) up to the ringgit amount sourced from proceeds of an IPO on the Main Market of Bursa Malaysia; and (2) up to RM 50 million or its equivalent in aggregate on a corporate group basis a calendar year (these limits applied only to those funding investment abroad through conversion of ringgit, transfer from Trade FCA, foreign currency borrowing from licensed onshore banks for purposes other than direct investment abroad, and swapping of financial assets). No limit is imposed for resident entities with domestic ringgit borrowing using proceeds from foreign currency borrowing obtained from licensed onshore banks for direct investment abroad.

### Inward Direct Investment

| **By residents to nonresidents** | Yes. |
| **To residents from nonresidents** | Yes. |

Controls are imposed on equity shares in accordance with national economic policy; however, no foreign exchange restrictions apply. The following inward investments require approval under the Economic Planning Unit guidelines: acquisition of property (such as undeveloped or developed land) by foreigners, depending on the
The rules for acquisition of residential property valued not less than RM 500,000 are less stringent. Applications requiring SC approval under the securities and futures laws are centralized at the SC. Certain exemptions or relaxation of the foreign equity limits (for example, exemption from the 12.5% Bumiputera equity requirement) are granted to companies with Multimedia Super Corridor and BioNexus status; companies with major foreign-based operations seeking listing on the Bursa Malaysia; and intermediaries licensed by the SC, including investment banks, local and foreign fund managers, investment advisers, and exempt dealers. In relation to a “company” being taken over includes a corporation listed on a stock exchange, listed real estate investment trusts in Malaysia, listed business trusts in Malaysia, and unlisted public companies with more than 50 shareholders and net assets of RM 15 million or more, any acquisition of more than 33% of voting shares or of more than 2% in any six-month period for a holder of more than 33% but less than 50% requires compliance with Part VI, Division 2, of the Capital Markets and Services Act, the Malaysian Code on Take-Overs and Mergers 2016 and the Rules on Take-Overs, Mergers and Compulsory Acquisitions. Nonresidents may participate in the equity of Malaysian BIs if they meet the shareholder suitability requirements in Schedule 6 of FSA 2013 and IFSA 2013. These requirements take into account, among other things, prudential considerations and potential contributions of investors in the best interest of Malaysia. The minimum value for acquisition of residential property by foreigners is RM 500,000.

Controls on liquidation of direct investment

No.

Controls on real estate transactions

Yes.

Purchase abroad by residents

Yes. These transactions are not restricted for resident entities without domestic ringgit borrowing. Resident entities with domestic ringgit borrowing are subject to the prudential limit of (1) up to the ringgit amount sourced from proceeds of an IPO on the Main Market of Bursa Malaysia; and (2) up to RM 50 million or its equivalent in aggregate on a corporate group basis a calendar year (these limits applied only to those funding investment abroad through conversion of ringgit, transfer from Trade FCA, foreign currency borrowing from licensed onshore banks for purposes other than direct investment abroad, and swapping of financial assets).

Purchase locally by nonresidents

Yes. Purchases of residential, commercial, and office property by nonresidents may be made freely, provided the purchase price is more than RM 500,000.

Sale locally by nonresidents

No.

Controls on personal capital transactions

Yes.

Loans

Yes.

By residents to nonresidents

Yes. Resident individuals may lend to their immediate family members. This transaction is not restricted for resident individuals without domestic ringgit borrowing. Resident individuals with domestic ringgit borrowing are subject to the prudential limit of (1) up to RM 10 million equivalent in aggregate of foreign currency borrowing obtained from licensed onshore banks; and (2) up to RM 1 million in aggregate of foreign currency funds sourced from conversion of ringgit, transfer from Trade FCA, and swapping of financial assets.

To residents from nonresidents

Yes. Resident individuals may borrow from their immediate family members.
members. Borrowing in foreign currency from other than immediate family members is allowed up to RM 10 million in aggregate. Borrowing in ringgit from nonresidents other than nonresident financial institutions is allowed up to RM 1 million in aggregate for use in Malaysia.

Licensed onshore banks may lend in foreign currency to nonresidents. Lending in ringgit by licensed onshore banks, except licensed IIBs, to nonresidents must be used for real sector activities in Malaysia.

All licensed BIs are subject to the following prudential limits, which are applied to credit exposures to both residents and nonresidents:

1. Exposures to a single counterparty or a group of connected counterparties may not exceed 25% of a BI’s total capital (that is, the sum of Tier 1 and Tier 2 capital). For exposures to BI’s related banking entities (whether operating in or outside Malaysia), a limit as may be approved by the Central Bank of Malaysia may not exceed 50% of the BI’s total capital. This is applicable in aggregate to ringgit and foreign-currency-denominated exposures, including all claims, commitments, and contingent liabilities arising from on- and off-balance-sheet transactions (in both banking and trading books).

2. Total outstanding credit exposure to all connected parties may not exceed 100% of a BI’s total capital or 25% of total outstanding credit exposures.

Lending locally in foreign exchange | Yes. |

Licensed onshore banks may lend in foreign currency any amount to resident entities and nonresidents. Lending to resident individuals is subject to RM 10 million in aggregate.

All licensed BIs are subject to the following prudential limits, which are applied to credit exposure to both residents and nonresidents:

1. Exposures to a single counterparty or a group of connected counterparties may not exceed 25% of a BI’s total capital (that is, the sum of Tier 1 and Tier 2 capital). For exposures to BI’s related banking entities (whether operating in or outside Malaysia), a limit as may be approved by the Central Bank of Malaysia may not exceed 50% of
the BI’s total capital. This is applicable in aggregate to ringgit and foreign-currency-denominated exposures, including all claims, commitments, and contingent liabilities arising from on- and off-balance-sheet transactions (in both banking and trading books). (2) Total outstanding credit exposure to all connected parties may not exceed 100% of a BI’s total capital or 25% of total outstanding credit exposures. Residents may enter into a transaction with (1) a licensed onshore bank to convert an existing ringgit debt obligation to a foreign currency debt obligation, provided there is no actual delivery of foreign currency at the inception of the transaction; and (2) a licensed onshore bank, an IIB, or a nonresident to convert an existing foreign currency debt obligation to another foreign currency debt obligation.

All licensed BIs are subject to the following prudential limits, which are applied to credit exposures to both residents and nonresidents: Exposures to a single counterparty or a group of connected counterparties may not exceed 25% of a BI’s total capital (that is, the sum of Tier 1 and Tier 2 capital). For exposures to BI’s related banking entities (whether operating in or outside Malaysia), a limit as may be approved by the Central Bank of Malaysia may not exceed 50% of the BI’s total capital. This is applicable in aggregate to ringgit and foreign-currency-denominated exposures, including all claims, commitments, and contingent liabilities arising from on- and off-balance-sheet transactions (in both banking and trading books).

(2) Total outstanding credit exposure to all connected parties may not exceed 100% of a BI’s total capital or 25% of total outstanding credit exposures.

### Reserve requirements

The BNM statutory reserve requirement (SRR) rate of 3.5% is applied on BIs’ eligible liabilities (ELs), which consist of ringgit-denominated deposits and non-deposit liabilities, net of interbank assets, and placements with the CB. Foreign-currency-deposit liabilities are not subject to reserve requirements.

### Liquid asset requirements

The Liquidity Coverage Ratio (LCR) was implemented on June 1, 2015, based on the global phase-in timeline, that is, with an initial minimum requirement of 60% and followed by yearly 10% increment, reaching 100% by January 1, 2019. Banks are required to comply with a minimum LCR for their net cash outflows in all currencies on an aggregated basis and for their RM-denominated net cash outflows (that is, banks must hold a minimum amount of RM-denominated High-Quality Liquid Assets as a buffer for RM-denominated net cash outflows).
outside Malaysia, or acquire or hold any material interest in any corporation without the prior approval of BNM. Investments by BIs, both locally and abroad, are subject to the following prudential limits: (1) Aggregate book value of investments in shares and interest-in-shares may not exceed 25% of a BI’s total capital. (2) Aggregate book value of investments in shares, interest-in-shares, CISs (for example, institutional funds, real estate investment trusts, property trust funds, exchange-traded funds), and immovable properties may not exceed 50% of a BI’s total capital. (3) BIs may not acquire, hold, or rent immovable properties, except to (a) conduct their business, (b) provide housing or other amenities for their staff, or (c) satisfy debts (that is, foreclosed properties). Approval from the Central Bank of Malaysia is required if a BI intends to acquire, hold, or rent immovable properties for purposes other than (a), (b), and (c). In the case of Islamic finance, Islamic BIs are allowed to undertake property development and property investment activities subject to conditions such as allowable structures, governance, risk management, limits, and disclosure requirements. These investments are subject to prudential safeguards, including limiting each exposure to 25% of the Islamic BI’s capital base. Islamic BIs and their subsidiaries are prohibited from direct property development activities but may participate in such activities through a joint venture or equity participation with reputable property development companies that are not subsidiaries of Islamic BIs. (4) Exposures to a single counterparty or a group of connected counterparties may not exceed 25% of a BI’s total capital (that is, the sum of Tier 1 and Tier 2 capital). For exposures to BI’s related banking entities (whether operating in or outside Malaysia), a limit as may be approved by the Central Bank of Malaysia may not exceed 50% of the BI’s total capital. This is applicable in aggregate to ringgit and foreign-currency-denominated exposures, including all claims, commitments, and contingent liabilities arising from on- and off-balance-sheet transactions (in both banking and trading books). (5) Total outstanding credit exposure to all connected parties may not exceed 100% of a BI’s total capital or 25% of total outstanding credit exposure.

In banks by nonresidents

Yes. Nonresidents may participate in the equity of Malaysian BIs. However, nonresidents may not hold 5% or more interest-in-shares unless they have obtained the approval of the Central Bank of Malaysia or the minister of finance pursuant to Section 87 of the FSA 2013 and Section 99 of the IFSA 2013. These requirements take into account, among other things, prudential considerations and potential contributions of investors in the best interest of Malaysia.

Open foreign exchange position limits

No.

On resident assets and liabilities

No.

On nonresident assets and liabilities

No.

Provisions specific to institutional investors

Yes.

Insurance companies

Yes.

Limits (max.) on securities issued by nonresidents

Yes. Licensed insurers may invest abroad up to 10% of their total assets of individual insurance funds or shareholders’ working funds. Licensed takaful operators may invest abroad up to 10% of their total assets of each family takaful, general takaful, and shareholder fund individually.

Limits (max.) on investment portfolio held abroad

Yes. Licensed insurers may invest abroad up to 10% of their total assets of individual insurance funds or shareholders’ working funds. Licensed
Takaful operators may invest abroad up to 10% of their total assets of each family takaful, general takaful, and shareholder fund individually. For investment-linked funds, the limit on investment abroad by insurers of 50% of the total net asset value (NAV) applies to funds marketed to residents with domestic ringgit borrowing.

**Limits (min.) on investment portfolio held locally**

- **Yes.** Licensed insurers and licensed takaful operators must invest a minimum of 10% of the total assets of their general insurance funds and general takaful funds in liquid assets.

**Currency-matching regulations on assets/liabilities composition**

- **No.** There are no regulations on currency matching. However, licensed insurers and takaful operators are required to hold 8% of capital on mismatched currency positions as prescribed in the capital adequacy framework for insurers and takaful operators.

**Pension funds**

- **Yes.** Pension funds approved by SC-designated private retirement schemes, like other CISs, may invest abroad. The PRS comprise of core funds and non-core funds. Core funds will be selected automatically for a member who does not specify their fund option. Core funds comprise of three categories – conservative, moderate, and growth funds, whereby each has its own set of investment limits.

**Limits (max.) on securities issued by nonresidents**

- **Yes.** PRS Guidelines do not stipulate a limit on securities issued by nonresident in relation to PRS. No more than 50% of total funds may be invested in non-Shariah-compliant assets for funds of resident clients with domestic ringgit borrowing.

**Limits (max.) on investment portfolio held abroad**

- **Yes.** With the exception of the conservative core funds, all funds may invest in a foreign market subject to the conditions mentioned in the PRS Guidelines. There is no maximum limit on investment portfolio held abroad.

**Limits (min.) on investment portfolio held locally**

- **No.** There is no minimum limit on local portfolio investment.

**Currency-matching regulations on assets/liabilities composition**

- **n.a.** There are no regulations on currency matching or composition of assets and liabilities.

**Investment firms and collective investment funds**

- **Yes.** Nonresident offering of CISs in Malaysia takes place through an MRA or the ASEAN CIS Framework and must comply with the requirements in the MRA, Standards of Qualifying CIS for ASEAN CISs, Handbook for Operators of ASEAN CISs, and SC OMD Guidelines. No limits are imposed on offerings. Proceeds of CIS offerings in Malaysia under the ASEAN CIS Framework may be fully invested abroad subject to the requirements in the Handbook for Operators of ASEAN CISs. For other funds, there is a limit of 50% of NAV in non-Shariah-compliant funds for resident unit trusts' investment abroad or 50% of total funds managed by fund management companies for funds of residents with domestic ringgit borrowing.

**Limits (max.) on securities issued by nonresidents**

- **Yes.** No more than 50% of NAV of resident unit trusts and no more than 50% of total funds managed by fund management companies may be invested in non-Shariah-compliant funds abroad for funds of residents with domestic ringgit borrowing.

**Limits (max.) on investment portfolio held abroad**

- **Yes.** No more than 50% of NAV of resident unit trusts and no more than 50% of total funds managed by fund management companies may be invested in non-Shariah-compliant funds abroad for funds of residents with domestic ringgit borrowing.

**Limits (min.) on investment portfolio held locally**

- **No.** There are no minimum limits.

**Currency-matching regulations on assets/liabilities composition**

- **No.** There are no regulations on currency matching or composition of assets and liabilities.

**References to legal instruments and hyperlinks**

Changes during 2018 and 2019

Imports and Import Payments

Import taxes and/or tariffs

02/08/2018 Antidumping duty was imposed on cold rolled stainless steel originating in or exported from China, Chinese Taipei, Korea, and Kingdom of Thailand, through February 7, 2023.

03/08/2019 Antidumping duty imposed on imports of flat rolled product of iron alloy or non-alloy steel, plated or coated with zinc, using hot dip process (Galvanized Iron Coils/Sheets or Galvanized Steel Coils/Sheets) originating in or exported from People’s Republic of China and Socialist Republic of Vietnam through March 7, 2024.

03/30/2019 Antidumping duty on imports of cellulose fiber-reinforced cement flat sheet and pattern sheets and specifically excluding external roofing sheets originating in or exported from Thailand was extended through September 26, 2019.

05/08/2019 Antidumping duty was imposed on cold rolled coils or alloy and non-alloy steel of a thickness between 0.20 mm and 2.60 mm and width between 700 mm and 1300 mm excluding tin mill black plate and subject merchandise imported for the purpose of automotive and usage of all grades and specifications; originating in or exported from People’s Republic of China, Republic of Korea and Socialist Republic of Vietnam through May 23, 2021.

Exports and Export Proceeds

Repatriation requirements

Surrender requirements

Surrender to authorized dealers 08/17/2018 Exporters may retain foreign currency proceeds from their export of goods in their Trade FCA held with licensed onshore bank up to the higher of (1) 25% of the export proceeds from their export of goods in foreign currency in their Trade FCA. The remaining balance must be converted to ringgit with a licensed onshore bank. The flexibility under (2) above is only applicable if the aggregate amount of existing balance in the resident exporters’ Trade FCA and proceeds retained under (1) above is insufficient to meet the resident exporters’ 6-month foreign currency obligations, such as import payment, foreign currency loan repayments, and other current international transactions, that exist on the date of receipt of the export proceeds. Previously exporters could only retain 25% of export proceeds in foreign currency in their Trade FCA.

Controls on capital transactions

Sale or issue abroad by residents 08/17/2018 Ringgit-denominated interest rate derivative can be offered via an appointed overseas office of a licensed onshore bank.

Exchange Measures

Restrictions and/or multiple currency practices: Yes.

The IMF staff report for the 2017 Article IV consultation with Maldives states that as of October 6, 2017, Maldives maintained an exchange restriction subject to the IMF approval under Article VIII, Section 2(a) of the IMF Articles of Agreement arising from a shortage of foreign exchange at the official rate which leads to the Maldives Monetary Authority (MMA) rationing its supply of foreign exchange to commercial banks. This results in a channeling of foreign exchange transactions for current international transactions to the parallel market where transactions take place at an exchange rate that deviates by more than 2% from the prevailing market exchange rate. The greater than 2% spread gives rise to MCP subject to the IMF approval under Article VIII, Section 3, and also to an exchange restriction, given the additional cost involved for obtaining foreign exchange. The extent of rationing has been eased over the past two years by increasing the amounts provided to commercial banks and adjusting amounts in line with seasonal patterns. The official exchange rate used by the MMA for government transactions is calculated based on the midpoint of the weighted average of the buying and selling rates of foreign exchange transactions conducted by commercial banks one day earlier. The lack of a mechanism to prevent the spread between this official exchange rate used by the MMA for government transactions and the prevailing market exchange rate from deviating by more than 2% gives rise to a MCP subject to the IMF approval under Article VIII, Section 3. (Country Report No. 17/357)

Exchange measures imposed for security reasons: No.

In accordance with IMF Executive Board Decision No. 144-(52/51): No.

Other security restrictions: No.

Exchange Arrangement

Currency: Yes. The currency of Maldives is the Maldivian rufiyaa.

Other legal tender: No.

Exchange rate structure

Unitary

Dual: Yes. The exchange rate structure is classified as dual because the spread...
between the parallel market rate and the official exchange rate exceeds 2%.

Classification

Multiple
No separate legal tender
Currency board
Conventional peg

Stabilized arrangement Yes. Since 2011, the de jure exchange rate arrangement is classified as a pegged exchange rate within horizontal bands. This regime allows the rufiyaa to float within a 20% band around a central parity of Rf 12.85 per US dollar. However, the rufiyaa remained stabilized in a narrow band against the US dollar near the ceiling of the band (Rf 15.42 per US dollar). Accordingly, the de facto exchange rate arrangement is classified as a stabilized arrangement. Under the MMA Act, the president may decide to change the exchange rate arrangement and adjust the exchange rate.

Crawling peg
Crawl-like arrangement
Pegged exchange rate within horizontal bands
Other managed arrangement
Floating
Free floating

Official exchange rate Yes. The MMA quotes buying, selling, and midrates each day. The midrate (reference exchange rate) is calculated each day as the midpoint of the weighted average of the buying and selling rates of commercial banks’ transactions with their clients conducted two days before. This rate is used when the MMA sells foreign exchange to the government. It buys foreign exchange from the government at the buying exchange rate. The MMA sells foreign exchange to the banks at its selling rate and to state-owned enterprises at the upper limit of the band.

Monetary policy framework

Exchange rate anchor Yes.
U.S. dollar Yes. The monetary policy framework is an exchange rate anchor vis-à-vis the US dollar.

Exchange tax  No.

Exchange subsidy  No.

Foreign exchange market  Yes.  The buying and selling rates of the US dollar in the official market are limited by the MMA within the bounds of the 20% exchange rate band around the central parity rate of Rf 12.85 per US dollar. Both commercial banks and money changers should also make transactions within the bounds of the 20% exchange rate band.
Commercial banks may freely exchange other currencies with their clients.

As of December 31, 2018, 8 commercial banks (of which 3 are locally incorporated, 4 are branches of foreign banks, and 1 is fully owned subsidiary of a foreign bank), 112 resorts, and 309 private parties have been granted licenses by the MMA to deal in foreign exchange with the public. In total, there were 421 licensed money changers at the end of 2018. Money changers are licensed by the MMA and may buy and sell foreign exchange.

**Operated by the central bank**

Yes.

**Foreign exchange standing facility**

Yes. The MMA exchanges rufiyaa for US dollars at the official buying and selling rates. However, a dollar shortage led to supplying limited amount of foreign exchange to market participants. The MMA intervenes in the foreign exchange market by allocating foreign exchange to banks and selling US dollars to state-owned enterprises. Commercial banks may deal with the MMA, the central government, state-owned enterprises, and the private sector at the official exchange rate (within the bounds of the 20% exchange rate band).

**Allocation**

Yes. The MMA sells foreign exchange to the commercial banks on a weekly basis. The allocation includes a fixed and a variable component. The fixed amount sold to the banks takes into consideration the bank’s net open positions and its share of total banking sector assets. An additional allocation (variable component) is sold to the banks to meet the travel, educational, and medical requirements of the general public and to the growing demand of Small and Medium Enterprises (SMEs), specifically for their LC payments and telegraphic transfers. This allocation is sold based on the seasonal requirements and utilization of the funds.

**Auction**

No.

**Fixing**

No.

**Interbank market**

Yes. Banks may deal in foreign exchange among themselves, but because of a lack of depth, the market is limited to a few banks. There is no active interbank trading of foreign exchange in Maldives.

**Over the counter**

Yes.

**Brokerage**

No.

**Market making**

No.

**Forward exchange market**

No.

**Official cover of forward operations**

No.

**References to legal instruments and hyperlinks**

Pursuant to the Fifth Amendment to Employment Act of August 25, 2016, starting October 1, 2016, a remittance tax of 3% is imposed on money transferred out of Maldives by foreigners employed in Maldives. For the purpose of the tax, foreigners employed in Maldives are non-Maldivian nationals who hold a work visa issued under the Maldives Immigration Act and non-Maldivian nationals who are not allowed to work in the Maldives without a work visa (even if such visa has not been issued to that person or the visa which was issued to that person has expired). The remittance tax applies to all foreigners residing in the Maldives regardless of their length of stay.

## Changes during 2018 and 2019

### Imports and Import Payments

| Import licenses and other nontariff measures | 04/15/2019 |
| Import operations may be conducted after registering with the Ministry of Economic Development and Maldives Customs Service, which requires a valid business registration. Previously, a license was required. |

| Open general licenses | 04/15/2019 |
| The Open General Import license system was abolished. Import operations may be conducted after registering with the Ministry of Economic Development and Maldives Customs Service, which requires a valid business registration. |

### Exports and Export Proceeds

| Export licenses | 04/15/2019 |
| Export licenses were abolished. |
MALI

(Position as of December 31, 2018)

Status under IMF Articles of Agreement

Date of membership
September 27, 1963.

Article VIII
Yes. Date of acceptance: June 1, 1996.

Article XIV

Exchange Measures

Restrictions and/or multiple currency practices
No.

Exchange measures imposed for security reasons
Yes.

In accordance with IMF Executive Board Decision No. 144-(52/51)
No.

Other security restrictions
Yes.

A regional framework to fight money laundering (AML) and the financing of terrorism (AFT) was created at the regional level through two WAEMU Directives in 2002 (AML) and 2007 (AFT) which were incorporated in Mali’s legal corpus in 2002 (AML) and 2012 (AFT), respectively. This comprehensive framework facilitates the implementation of UNSC resolutions based on a list of persons and entities prepared by the Committee. It was updated in 2015 through a new WAEMU Directive which was incorporated into Mali’s legal corpus in February 2016.

Exchange Arrangement

Currency
Yes. The currency of Mali is the CFA franc (XOF).

Other legal tender
No.

Exchange rate structure

Unitary
Yes.

Dual

Multiple

Classification

No separate legal tender

Currency board

Conventional peg
Yes. The exchange rate arrangement of the WAEMU is a conventional peg. Mali participates in a currency union with seven other members of the WAEMU and has no separate legal tender. The Monetary Cooperation Agreement between the WAEMU member countries and France was concluded December 4, 1973. It was maintained after the French franc was replaced by the euro by the Council of the European Union decision of November 23, 1998. The Monetary
Cooperation Agreement is based on three pillars: (1) a common issuing institution, (2) fixed parity with the euro, and (3) a guarantee of unlimited convertibility. In exchange for the unlimited convertibility of the CFA franc to euros, the WAEMU members are required to deposit 50% of their reserve holdings to the operations account with the French Treasury in accordance with the Amendment to the Operations Account Convention signed by France and the BCEAO September 20, 2005.

Stabilized arrangement
Crawling peg
Crawl-like arrangement
Pegged exchange rate within horizontal bands
Other managed arrangement
Floating
Free floating

**Official exchange rate**

Yes. The CFA franc is officially pegged to the euro, the anchor currency, at the fixed rate of CFAF 655.957 per euro. Exchange rates for other currencies are cross-rates derived from the rate for the currency concerned in the Paris foreign exchange market vis-à-vis the euro. The official rate is used for accounting and valuation. The Conference of Heads of State and Government may decide to amend the Monetary Cooperation Agreement between the WAMU member countries and France.

**Monetary policy framework**

Exchange rate anchor

Yes.

*U.S. dollar*

Yes. The monetary policy framework is an exchange rate anchor vis-à-vis the euro. The operational target of price stability is defined as an annual inflation rate in the WAEMU that falls within a band of ±1% around a central rate of 2%. The Harmonized Consumer Price Index is the benchmark rate to measure inflation.

Authorized intermediaries (authorized intermediary banks and authorized nonelectronic exchange dealers) freely determine the buying and selling rates of foreign currencies, with the exception of the euro, which must be traded at the official fixed rate of CFAF 655.957 per euro. The commission on foreign exchange transactions may not exceed 2%.

Instruction No. 013-11-2015 on the terms and conditions for conducting rapid money transfers as a subagent within the WAEMU went into force.

**Spot exchange market** | Yes. |

Authorized intermediaries must comply with the provisions in effect.
on the financial conditions for executing banknote foreign exchange transactions that involve foreign currencies and issue a transaction slip for all transactions with a client. Moreover, to provide satisfactory information to clients, they are required to (1) permanently post at their windows the rates actually charged for the different currencies and (2) post notification that a transaction slip must be issued for all foreign exchange transactions on presentation of the requestor’s identity document.

Banks and registered banknote exchange houses are intermediaries authorized by the Ministry of Economy and Finance (MEF) to conduct foreign exchange transactions with the public. Exchange houses may conduct transactions in foreign currencies (except euros) with the BCEAO. Registered banknote exchange houses may not make transfers or payments in foreign currencies with other countries or maintain accounts abroad. As of December 31, 2018, there were 146 OTC dealers in Mali authorized to perform OTC operations and 13 authorized intermediary banks. The entities authorized to conduct nonelectronic foreign currency transactions are authorized intermediary banks and individuals or companies authorized to conduct nonelectronic transactions by decision of the minister of finance with the consent of the BCEAO.

In their operations with customers, authorized intermediaries (authorized intermediary banks and authorized OTC dealers) freely determine the buying and selling rates of foreign currencies, with the exception of the euro, which is traded at the official fixed rate of CFAF 655.957, and may be subject to a maximum commission of 2.0%.

Operated by the central bank: Yes.

Foreign exchange standing facility: Yes.

The BCEAO exchanges foreign currency for CFA francs at the rates published on the international markets, with the exception of the euro, which is traded at the official fixed rate of 655.957 per euro. The nonelectronic currency exchange windows are open to owners of accounts on the BCEAO books and to the general public. A commission of 0.5%, for purchases or sales, is charged on all transactions. However, no commission is charged for the following operations: (1) OTC foreign banknote exchanges conducted by state entities, government employees of WAEMU member states on mission abroad, and officials of the CB and their beneficiaries, and (2) payments made by banks and financial institutions.

Allocation: No.

Auction: No.

Fixing: No.

Interbank market: Yes.

Transactions in CFA francs between authorized intermediaries are allowed. As of December 31, 2018, 13 banks participated in the currency interbank market in CFA francs. Based on the information transmitted, CFAF 272 billion was exchanged in 2018 on this market. There is no regulated foreign currency interbank market in the WAEMU.

Over the counter: Yes.

Brokerage: No.

Market making: No.

Forward exchange market: Yes.

Residents of the WAEMU zone may contract forward exchange cover using exchange derivatives backed by the related commercial
or financial operations for (1) imports and exports of goods and services by a resident, (2) foreign borrowing operations by a resident (drawings and repayments), and (3) FDI in a resident enterprise. Residents of the WAEMU zone are permitted to conduct the following transactions in the foreign exchange derivatives market with authorized intermediary banks established in the WAMU or with foreign banks: outright forward foreign exchange contracts (over the counter), foreign exchange options, foreign exchange swaps, and cross-currency swaps. Transactions in foreign exchange options are limited to the following two types of transactions: options to purchase foreign currency, purchased by residents of the WAEMU zone from an authorized intermediary bank established in the WAMU or from a foreign bank, or options to sell foreign currency, purchased by residents of the WAEMU zone from an authorized intermediary bank established in the WAMU or from a foreign credit institution. Authorized intermediary banks are required to simultaneously cover the exchange risk they incur in respect of derivative instruments traded with their customers. All legitimate foreign currency needs are ultimately met by the BCEAO.

Official cover of forward operations No.

References to legal instruments and hyperlinks
This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Arrangements for Payments and Receipts

Prescription of currency requirements Yes. Mali is linked to the French Treasury via the BCEAO through an operations account, through which settlements with France, Monaco, the Comoros, and the CEMAC member countries are made, mainly in euros. Payments with countries outside the WAEMU are made in foreign currencies. Trade with other WAEMU countries is settled in CFA francs.

Controls on the use of domestic currency Yes. The CFA franc may not be used as payment for current international transactions and as capital with non-WAEMU countries.

For current transactions and payments Yes. CFA francs may not be used for settlement of international transactions outside the WAEMU. However, the CFA franc is guaranteed unlimited convertibility through an open operating account with the French Treasury.

For capital transactions Yes. The CFA franc may not be used for capital transactions with countries outside the WAEMU. Investments by residents of the WAEMU zone outside the WAEMU are subject to prior authorization by the minister of finance, and at least 75% of the investment must be financed through foreign borrowing.

Transactions in capital and money market instruments Yes. The CFA franc may not be used for the settlement of transactions in capital and money market instruments with non-WAEMU countries. Foreign investment by residents of the WAEMU zone is subject to authorization by the MOF. At least 75% of the investment must be financed through foreign borrowing. The interested party must request authorization through a letter designating the authorized intermediary to settle the payment. Purchases of foreign negotiable securities authorized by the regional capital markets authority to be issued or sold in WAEMU members do not require MEF authorization.

Transactions in derivatives and other instruments Yes. Residents of WAEMU member countries may engage in the following operations on derivatives and other instruments with accredited banks established in the WAEMU or foreign banks: (1) forward contract, foreign exchange swaps, and options. Operations...
on derivatives with foreign banks outside the WAEMU can only relate to the purchase or sale, by a resident, of foreign exchange other than the euro or another currency from the Franc Zone.

Credit operations

Yes. Loans of any kind, CFA franc overdrafts, and, in general, any advances granted by authorized intermediaries to nonresidents of the WAEMU zone are subject to prior authorization by the Directorate of External Financial Relations of the MOF, after BCEAO approval.

Use of foreign exchange among residents

Yes. The CFA franc is the only legal tender, and residents of the WAEMU zone may not use foreign exchange for domestic transactions.

Payments arrangements

Yes.

Bilateral payments arrangements

No.

Operative

No.

Inoperative

No.

Regional arrangements

Yes. An operations account is maintained with the French Treasury that links operations account countries. All purchases and sales of foreign currencies and euros against CFA francs are ultimately settled through a debit or credit to the operations account.

Clearing agreements

Yes. There is a multilateral netting agreement between the WAEMU countries and the other ECOWAS member countries (Cabo Verde, The Gambia, Ghana, Guinea, Liberia, Nigeria, Sierra Leone) as part of the WAMA. All payments for current transactions between countries whose CBs are WAMA members may be made under the netting agreement. However, this excludes transactions specified by the committee of governors of the CBs of ECOWAS members and payments for exports from one member country to another member country of finished products originating in countries whose CB or monetary authority is not a WAMA member.

Barter agreements and open accounts

No.

Administration of control

Yes. The institutional reform of the WAMU and the BCEAO includes the following basic instruments: (1) the WAMU Treaty, (2) the BCEAO Charter, (3) the Bank Regulation Act, and (4) the Convention governing the WAMU Banking Commission. All WAEMU residents are treated as residents of Mali for the purposes of preparing the external position of banks, domiciliation and repatriation of export revenue, issuance and sales of securities, gold imports and exports, investment and lending transactions, and physical exports of means of payment and securities by postal package or ordinary mail. However, for statistical purposes with regard to the balance of payments, all countries other than Mali are considered foreign countries. Moreover, all transfers with other countries must be made through registered intermediary banks, the postal service, or the BCEAO.

Payments arrears

No.

Official

No.

Private

No.

Controls on trade in gold (coins and/or bullion)

Yes. Only Malians and licensed nationals of countries with which Mali has a reciprocal agreement and who hold professional identity cards may engage in domestic trade in gold, precious materials, and fossils. There are no controls on holding gold for noncommercial purposes.
On external trade  
Yes.  
Gold imports and exports require MOF authorization, except (1) imports and exports by the Public Treasury and the BCEAO; (2) imports and exports of items with a low gold content (lined or plated objects); and (3) imports and exports, by travelers, of objects made of gold limited to a total weight of 500 grams.

Controls on exports and imports of banknotes  
Yes.

On exports  
Yes.

Domestic currency  
Yes.  
Travelers may freely export CFA franc (XOF) banknotes from one WAEMU member country to another. Resident individuals and legal entities other than the BCEAO and its banking and commercial correspondents outside the WAEMU are prohibited from sending and receiving CFA franc banknotes issued by the BCEAO.

Foreign currency  
Yes.  
The reexportation of foreign banknotes by nonresident travelers is permitted up to the equivalent of CFAF 5,000,000; the reexportation of foreign banknotes above this ceiling requires documentation demonstrating either the importation of the foreign banknotes or their purchase against other means of payment registered in the name of the traveler or through the use of nonresident deposit accounts in local banks. Residents of the WAEMU zone traveling to countries that are not WAEMU members are required to declare foreign currency on their person in excess the equivalent of CFAF 1 million. They may carry up to the equivalent of CFAF 2 million a person in banknotes not issued by the BCEAO. Larger amounts may be exported in the form of traveler’s checks, prepaid debit and payment cards, conventional debit and payment cards, or other means of payment. Foreign exchange allowances issued by authorized intermediaries in the form of traveler’s checks or prepaid debit and payment cards must be based on the need to cover customary, personal travel expenses, if they exceed the equivalent of CFAF 2 million a person. The issuance of foreign currency to resident travelers is subject to the presentation of travel documents and a valid passport or national identification card.

On imports  
Yes.

Domestic currency  
Yes.  
Residents of the WAEMU zone and nonresidents of the WAEMU zone may freely import domestic currency (CFA franc – XOF) banknotes. However, individuals and legal entities other than the BCEAO and its banking and commercial correspondents outside the WAEMU are prohibited from sending and receiving banknotes in domestic currency. BCEAO redemption of banknotes exported outside its area of issuance has been suspended. Pursuant to this measure, registered intermediary banks are not authorized to receive shipments of CFA franc (XOF) banknotes from their correspondents located outside the WAEMU area.

Foreign currency  
No.  
Residents of the WAEMU zone and nonresidents of the WAEMU zone may freely import means of payment denominated in foreign currencies. Such means of payment in excess of the equivalent of CFAF 1 million must be declared to customs. Nonresident travelers must declare to customs foreign currency exceeding the equivalent of CFAF 1 million on entry and exit.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Resident Accounts  

Foreign exchange accounts permitted  
Yes.

Held domestically  
Yes.
Foreign exchange accounts in currencies other than the euro may be opened domestically with MOF authorization after non-objection from the BCEAO. The authorization specifies the operations that may be credited or debited on each such an account. These accounts are valid for a renewable term of up to one year. They cannot be credited with deposits of CFA banknotes or by debiting a CFA franc account. On expiration of the term set in the authorization, accounts are closed unless a new authorization is obtained.

Individuals who are residents of the WAEMU temporarily staying or traveling outside of WAEMU may open bank accounts outside the WAEMU to deposit foreign currency legally exported and any income acquired outside of the WAEMU during their travel or temporary stay outside of the WAEMU. These individuals are required to repatriate balances on such accounts within 30 days of return to the WAEMU. In any circumstance other than the foregoing, opening of foreign accounts by WAEMU residents is subject to MOF authorization by after non-objection from the BCEAO. The MOF authorization specifies the operations that may be credited or debited on such accounts. In the event of a failure to obtain a new MOF authorization, the accredited intermediary must request that the account be closed by the end of the term authorized and that any balance be repatriated to a WAEMU member country within eight days.

Nonresident Accounts

Foreign exchange accounts permitted Yes.

Approval required Yes.

Nonresident accounts denominated in euros may be freely opened by intermediaries accredited in the WAEMU on justification by the beneficiaries of their status and residence outside of the WAEMU. Nonresident accounts denominated in foreign currency other than euros are subject to BCEAO authorization. Nonresident foreign currency accounts are valid for a renewable period of two years. In the event of a failure to obtain renewal (through a new BCEAO authorization for foreign exchange other than the euro), these accounts must be closed. The balances of these accounts may be freely transferred abroad after verification.

Authorized intermediaries may open nonresident accounts in CFA francs and in euros, under their own responsibility, depending on the status and effective residence of the applicant. These accounts may be debited for spot purchases of foreign exchange.

### Capital Transactions

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Yes.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Controls on capital transactions</td>
<td>Yes.</td>
</tr>
</tbody>
</table>

Capital transactions between WAEMU countries are unrestricted. Outward capital transfers require MOF authorization, except (1) amortization of debts and repayment of short-term loans to finance industrial and commercial operations, (2) payments required on foreign exchange derivatives transactions or raw material or commodity derivatives transactions, and (3) transfers of the proceeds of liquidated investments or the sale of foreign securities by nonresidents of the WAEMU zone. Capital receipts from non-WAEMU countries are generally permitted.

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Yes.</th>

<tbody>
<tr>
<td>Repatriation requirements</td>
<td>Yes.</td>
</tr>
</tbody>
</table>

Proceeds from the sale or liquidation of investments of a resident abroad must be repatriated, if the resident has no reinvestment authorization, within one month through a registered intermediary.
Surrender to the central bank: Yes.

Holdings exceeding the current needs of the credit institution must be surrendered to the BCEAO immediately. Credit institutions may hold net claims in foreign exchange with their banking correspondents outside the WAEMU to cover their current foreign exchange requirements in connection with customer transactions. In addition, ADs must surrender to the BCEAO, at its request, all BCEAO-issued currency and all or part of their assets in euros and in other foreign currencies.

Surrender to authorized dealers: Yes.

Proceeds from the sale or liquidation of residents of the WAEMU zone’s investments abroad must be repatriated and surrendered within one month to a registered intermediary, if the resident does not have a reinvestment authorization. The surrender requirement applies to proceeds from all capital transactions.

Controls on capital and money market instruments: Yes.

RCPSFM authorization is required for the following operations: (1) issuance or marketing of securities and real assets of foreign entities, (2) canvassing, and (3) publicity or advertising for investment abroad. Securities and mutual funds issued outside the WAEMU by a private or public entity that is not a resident of a WAEMU member country may not be listed on a regional securities exchange. A nonresident entity that solicits the public of the WAEMU must obtain authorization from the BCEAO as the entity in charge of regulating the external financial relations of WAEMU countries. The Code of the Inter-African Conference on Insurance Markets (CIMA Code) requires insurance companies of each CIMA member country to invest domestically a minimum of 50% of resources collected locally, with the remainder to be invested only in other CIMA member countries.

On capital market securities: Yes.

The Code of the Inter-African Conference on Insurance Markets (CIMA Code) requires insurance companies of each CIMA member country to invest domestically a minimum of 50% of resources collected locally, with the remainder to be invested only in other CIMA member countries.

Shares or other securities of a participating nature: Yes.

Purchase locally by nonresidents: No.

Purchases in the country by nonresidents of the WAEMU zone are unrestricted. However, these purchases must be declared to the MOF and the BCEAO for statistical purposes prior to the transaction.

Sale or issue locally by nonresidents: Yes.

The issuance of securities and the sale of corporate or foreign securities by nonresidents of the WAEMU zone are subject to RCPSFM authorization, with the prior authorization of the BCEAO acting in its capacity as the authority in charge of regulating external financial relations. There are no controls on the sale of securities resulting from divestiture of an investment in the form of a transfer between a nonresident and a resident, but such sales are subject to the regulations governing the financial settlement of the operation. Settlement of securities transactions by transfer abroad or by credit to a nonresident account requires submission of an exchange authorization to the MOF for approval, accompanied by supporting documentation (Article 8, Regulation No. 09/10/CM/UEMOA).

Purchase abroad by residents: Yes.

The purchase of foreign securities by residents of the WAEMU zone and the transfer abroad of funds for this purpose are subject to MOF authorization. Authorization is not required for the purchase of foreign securities whose issuance or offering for sale in WAEMU countries has been authorized by the RCPSFM. The Code of the Inter-African Conference on Insurance Markets (CIMA Code) requires insurance companies of each CIMA member country to invest domestically a minimum of 50% of resources collected locally, with the remainder to be invested only in other CIMA member countries.
Residents of the WAEMU zone may sell local corporate securities abroad. If these operations result in foreign control of domestic establishments, foreign investors must make a prior declaration to the MOF. The sale of securities for liquidation of an investment abroad must be declared to the MOF for statistical purposes. Residents of the WAEMU zone may also issue securities abroad, except those constituting a loan. Issuance of the latter to nonresidents of the WAEMU zone must be made through an authorized bank and must be reported to the MOF for statistical purposes.

**Sale or issue abroad by residents**

- **No.**

**Bonds or other debt securities**

- **Yes.**

**Purchase locally by nonresidents**

- **No.**

These purchases are subject to declaration to the MOF for statistical purposes. There are no controls on the sale of securities resulting from the divestiture of investment in the form of a transfer between a nonresident and a resident, but such sales are subject to the regulations governing the financial settlement of the operation. There is no minimum holding period.

**Sale or issue locally by nonresidents**

- **Yes.**

The issuance of securities and sale of corporate or foreign securities by nonresidents of the WAEMU zone are subject to RCPSFM authorization. There are no controls on the sale of securities resulting from divestiture of an investment in the form of a transfer between a nonresident and a resident, but such sales are subject to the regulations governing the financial settlement of the operation. Settlement of securities transactions by transfer abroad or by credit to a nonresident account requires an exchange authorization of the MOF based on supporting documentation.

**Purchase abroad by residents**

- **Yes.**

The purchase of foreign securities by residents of the WAEMU zone and the transfer abroad of funds for this purpose are subject to MOF authorization and must be at least 75% financed with foreign borrowing. Authorization is not required for purchases of foreign securities whose issuance or offering for sale in WAEMU countries is authorized by the RCPSFM. The Code of the Inter-African Conference on Insurance Markets (CIMA Code) requires insurance companies of each CIMA member country to invest domestically a minimum of 50% of resources collected locally, with the remainder to be invested only in other CIMA member countries.

**Sale or issue abroad by residents**

- **No.**

Residents of the WAEMU zone may sell local corporate securities abroad. Residents of the WAEMU zone may also issue securities abroad, except for those constituting a loan. Issuance of the latter to nonresidents of the WAEMU zone must be made through an authorized bank and must be reported to the MOF for statistical purposes.

**On money market instruments**

- **Yes.**

**Purchase locally by nonresidents**

- **No.**

These purchases must be declared to the MOF for statistical purposes prior to the transaction.

**Sale or issue locally by nonresidents**

- **Yes.**

The issuance and sale of money market instruments by nonresidents of the WAEMU zone are subject to RCPSFM authorization, with the prior authorization of the BCEAO acting in its capacity as the authority in charge of regulating external financial relations. There are no controls on the sale of money market instruments resulting from divestiture of an investment in the form of a transfer between a nonresident and a resident, but such sales are subject to the regulations governing the financial settlement of the operation. Settlement of money market instrument transactions by transfer abroad or by credit to a nonresident account requires submission of an exchange authorization to the MOF for approval, accompanied by supporting documentation (Article 8, Rule No. 09/10/CM/UEMOA).

**Purchase abroad by residents**

- **Yes.**

The purchase of foreign money market instruments by residents of
the WAEMU zone and the transfer abroad of funds for this purpose are subject to MOF authorization and must be at least 75% financed with foreign borrowing. Authorization is not required for purchases of foreign money market instruments whose issuance or offering for sale in WAEMU countries has been authorized by the RCPSFM. The Code of the Inter-African Conference on Insurance Markets (CIMA Code) requires insurance companies of each CIMA member country to invest domestically a minimum of 50% of resources collected locally, with the remainder to be invested only in other CIMA member countries.

**Sale or issue abroad by residents**

No. Residents of the WAEMU zone may sell local money market instruments abroad. The sale of money market instruments to liquidate an investment abroad is subject to declaration to the MEF for statistical purposes. Residents of the WAEMU zone may also issue money market instruments abroad, unless they constitute a loan.

**On collective investment securities**

Yes. These purchases must be declared to the MOF for statistical purposes prior to the transaction.

**Purchase locally by nonresidents**

No. The issuance of securities and the sale of corporate or foreign securities by nonresidents of the WAEMU zone are subject to RCPSFM authorization with the prior authorization of the BCEAO acting in its capacity as the authority in charge of regulating external financial relations. There are no controls on the sale of securities resulting from divestiture of an investment in the form of a transfer between a nonresident and a resident, but such sales are subject to the regulations governing the financial settlement of the operation. Settlement of securities transactions by transfer abroad or by credit to a nonresident account requires submission of an exchange authorization to the MOF for approval, accompanied by supporting documentation.

**Sale or issue locally by nonresidents**

Yes. The purchase of foreign securities by residents of the WAEMU zone and the transfer abroad of funds for this purpose are subject to MOF authorization and must be at least 75% financed with foreign borrowing. Authorization is not required for purchases of foreign securities whose issuance or offering for sale in WAEMU countries has been authorized by the RCPSFM. The Code of the Inter-African Conference on Insurance Markets (CIMA Code) requires insurance companies of each CIMA member country to invest domestically a minimum of 50% of resources collected locally, with the remainder to be invested only in other CIMA member countries.

**Purchase abroad by residents**

Yes. The purchase of foreign securities by residents of the WAEMU zone and the transfer abroad of funds for this purpose are subject to MOF authorization and must be at least 75% financed with foreign borrowing. Authorization is not required for purchases of foreign securities whose issuance or offering for sale in WAEMU countries has been authorized by the RCPSFM. The Code of the Inter-African Conference on Insurance Markets (CIMA Code) requires insurance companies of each CIMA member country to invest domestically a minimum of 50% of resources collected locally, with the remainder to be invested only in other CIMA member countries.

**Sale or issue abroad by residents**

No. Residents of the WAEMU zone may sell local corporate securities abroad. Residents of the WAEMU zone may also issue securities abroad, except for those constituting a loan. Issuance of the latter to nonresidents of the WAEMU zone must be made through an authorized bank and must be reported to the MOF for statistical purposes.

**Controls on derivatives and other instruments**

Yes. Residents of the WAEMU zone may hedge risk using foreign exchange derivatives for the following commercial and financial operations: (1) imports and exports of goods and services; (2) foreign borrowing operations by a resident (drawings and repayments); and (3) negotiation of FDI in a resident enterprise. Residents of the WAEMU zone may hedge risk using derivatives. They must be backed by the residents of the WAEMU zone’s imports or exports of raw materials and commodities. Residents of the WAEMU zone are not authorized to purchase raw materials or commodities on foreign markets for delivery within the framework of a derivatives transaction in raw materials or commodities.
**Purchase locally by nonresidents**
No. The purchase of derivatives by nonresidents of the WAEMU zone in the domestic market is treated as a loan contracted by a resident with a nonresident. As such, it is permitted. The purchase must be executed through an authorized intermediary and must be reported to the MOF and the BCEAO for statistical purposes.

**Sale or issue locally by nonresidents**
No. These instruments are subject to general regulations that apply to securities and investments. Residents of the WAEMU zone are permitted to purchase foreign exchange derivatives from nonresidents of the WAEMU zone.

**Purchase abroad by residents**
Yes. These instruments are subject to general regulations that apply to securities and investments. Residents of the WAEMU zone may freely purchase abroad or from nonresidents of the WAEMU zone call or put options on primary commodities or securities transactions. Residents of the WAEMU zone may not purchase commodities or securities in foreign markets to be delivered in complying with a put option contract. Put options must be placed on assets that can be acquired locally by the resident seller for delivery abroad in execution of the contract. Residents of the WAEMU zone are permitted to purchase foreign currency purchase options on the foreign exchange derivatives market from an authorized intermediary bank established in the WAMU or from a foreign credit institution.

**Sale or issue abroad by residents**
Yes. Residents of the WAEMU zone are permitted to purchase foreign currency sell options on the foreign exchange derivatives market from an authorized intermediary bank established in the WAMU or from a foreign (that is, nonresident of WAEMU) credit institution.

**Controls on credit operations**
Yes. Borrowing by residents of the WAEMU zone from nonresidents of the WAEMU zone must be conducted through authorized intermediaries (whenever borrowed funds are made available for use in the country), unless otherwise indicated by the MOF.

**Commercial credits**
Yes.

**By residents to nonresidents**
Yes. There are no controls on credits related to exports of goods. The date on which payment falls due is specified in the contract (in principle not more than 120 days after the date of shipment).

**To residents from nonresidents**
No. There are no controls, and repayments of commercial credits are generally conducted without prior authorization, subject to the presentation of documents attesting to the validity of the commercial operation or of the services rendered, as well as the payment due date, to the licensed intermediary bank responsible for handling the repayment.

**Financial credits**
Yes.

**By residents to nonresidents**
Yes. These credits require MOF approval. Outward transfers to service such facilities require an exchange authorization, subject to the approval of the MEF and substantiated by documentation.

**To residents from nonresidents**
No. There are no controls on these credits, but they must be reported for statistical purposes to the MOF and the BCEAO when granted and when repaid, except for the following credits: (1) mail overdrafts: CFA franc overdrafts for durations not to exceed the normal mail delivery times; (2) LCs available by acceptance, issued to exporters at the request of the authorized intermediaries’ foreign correspondent banks; and (3) credit provided pursuant to a financial agreement between a WAEMU member country and a foreign government or pursuant to an interbank arrangement approved by the Directorate of External Finance. The necessary funds must be transferred from abroad through an authorized agent. There are no controls on repayment of loans, provided the authorized agent handling the settlement is furnished with documentation attesting to the validity of the transaction. Borrowing abroad is unrestricted.

occupation, unless they are licensed and included on the list of financial institutions.

**To residents from nonresidents**

No. These transactions may be made freely, but are subject to declaration for statistical purposes to the MOF when granted and when repaid.

**Gifts, endowments, inheritances, and legacies**

Yes. Gifts, endowments, inheritances, and legacies are generally allowed. Gifts and endowments, however, are subject to MOF and BCEAO authorization. These transactions must be conducted through an authorized intermediary and comply with the relevant anti-money-laundering and terrorism financing provisions.

**By residents to nonresidents**

Yes. Inheritances and dowries are generally allowed. Gifts and endowments, however, are subject to MOF and BCEAO authorization. These transactions must be conducted through an authorized intermediary and comply with the relevant anti-money-laundering and terrorism financing provisions.

**To residents from nonresidents**

No. These transactions do not require authorization but are subject to declaration to the minister of finance and the BCEAO for statistical purposes.

**Settlement of debts abroad by immigrants**

Yes. Immigrants with resident status must obtain MOF authorization to settle debts contracted abroad while they were nonresidents of the WAEMU zone.

**Transfer of assets**

Yes.

**Transfer abroad by emigrants**

Yes. These transactions are subject to MOF authorization if the value exceeds CFAF 5,00,000 a person. There are no restrictions on transfers of amounts below this threshold.

**Transfer into the country by immigrants**

Yes. Foreign accounts (in foreign currencies or CFA francs) of nonresidents of the WAEMU zone who become residents of the WAEMU zone must be closed. However, these individuals may maintain abroad bank accounts opened and financial assets acquired while they were nonresidents of the WAEMU zone. New transfers to these accounts require MOF approval.

**Transfer of gambling and prize earnings**

Yes. These transfers are conducted freely through authorized intermediaries, subject to the presentation of supporting documents and compliance with the relevant provisions on combating money laundering and financing of terrorism.

**References to legal instruments and hyperlinks**

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Provisions Specific to the Financial Sector**

**Provisions specific to commercial banks and other credit institutions**

Yes. The Uniform Law on the Treatment of Dormant Accounts on the Books of Financial Agencies of the Member States of the WAMU by the Council of Ministers of the Union took effect September 28, 2012. Decision No. CM/UMOA/023/2012 sets the deadline (December 31, 2013) for including this law in the domestic legislation of the WAMU members. It was incorporated into Mali’s domestic legal framework with the enactment of Law No. 2014/032, on July 17, 2014.

**Borrowing abroad**

No. Foreign borrowing is unrestricted. For statistical purposes, these transactions must be declared to the MEF and the BCEAO when granted and when repaid.

**Maintenance of accounts abroad**

Yes. Banks and financial institutions are authorized to open accounts with their correspondent banks for settling transactions for their own account or the accounts of their customers. However, banks are not authorized to hold in these accounts amounts that exceed their current requirements. In accordance with Regulation No. 09/2010/CM/Uemoa on the External Financial Relations of the WAEMU Member States, to cover their foreign currency requirements, banks are authorized to hold in banking institutions located in non-WAEMU countries: (1) demand deposits that may not exceed the total amount of import payments domiciled by clients in their books, payable within a period of eight days, and (2) demand
Deposits that may not exceed the balance of their open foreign accounts denominated in foreign currencies other than the euro and their open resident accounts denominated in foreign currency. The total amount of these assets may not exceed 5% of the clients’ outstanding demand deposits. Assets in excess of foreign currency requirements must be surrendered to the BCEAO.

| Lending to nonresidents (financial or commercial credits) | Yes. | Commercial lending is allowed. Financial credits are subject to MOF authorization following BCEAO approval. |
| Lending locally in foreign exchange | Yes. | There are no explicit regulations regarding these transactions, but MOF authorization is required with BCEAO approval. |
| Purchase of locally issued securities denominated in foreign exchange | Yes. | These purchases require MOF authorization if their issuance was not approved by the RCPSFM. |
| Differential treatment of deposit accounts in foreign exchange | Yes. |
| Reserve requirements | No. | A reserve requirement of 3% (previously 5%) applies to WAEMU banks. Demand deposits, other deposit accounts, and loan accounts are included in the base for the calculation of the required reserves. The base for the calculation of the required reserves to be held with the CB includes customer foreign currency deposits. |
| Liquid asset requirements | No. | According to the prudential framework applicable to WAEMU banks and financial institutions that perform banking operations, the minimum standard liquid asset requirement is 75%. |
| Interest rate controls | No. | The maximum for all lending rates is set at 15%. |
| Credit controls | Yes. | Loans of any kind, CFA franc overdrafts, and in general, any advances granted to nonresidents of the WAEMU zone are subject to MOF authorization, after BCEAO approval. These claims are included in the external position of banks and financial institutions, which is subject to special monitoring. |
| Differential treatment of deposit accounts held by nonresidents | Yes. | Banking regulations make no distinction among resident deposit accounts, nonresident deposit accounts, and foreign deposit accounts. |
| Reserve requirements | No. | |
| Liquid asset requirements | No. | Purchases for purposes other than direct investment in a business, branch, or company do not require prior authorization. They require declaration to the MOF and the BCEAO for statistical purposes. |
| Interest rate controls | No. | |
| Credit controls | Yes. | Any overdraft or advance granted to a nonresident requires MOF authorization with BCEAO approval. |
| Investment regulations | Yes. | The regulations governing direct investment apply. |
| Abroad by banks | Yes. | All investment abroad by residents of the WAEMU zone is subject to MOF authorization. At least 75% of such investment must be financed by foreign loans. Authorization is not required for the purchase of foreign securities whose issuance or offering for sale in the WAEMU countries has been authorized by the RCPSFM (Conseil Régional de l’Epargne Publique et des Marchés Financiers – CREPMF in French). |
| In banks by nonresidents | Yes. | These transactions may, depending on their volume, be subject to authorization by the minister of finance. The banking law stipulates that investment by any person in a bank that would have the effect of changing the minority and/or majority voting rights requires authorization by the minister of finance. |
| Open foreign exchange position limits | Yes. | No prudential ratios apply. Because of the surrender requirement, banks are not allowed to maintain open foreign exchange positions. However, the BCEAO grants individual dispensations that allow banks to keep working balances in their correspondent accounts for...
the smooth completion of international payments, up to the equivalent of 5% of total customer demand deposits. To cover their foreign currency requirements, banks are authorized to hold in banking institutions located in non-WAEMU countries: (1) demand deposits that may not exceed the total amount of import payments domiciled by clients in their books, payable within a period of eight days, and (2) demand deposits that may not exceed the balance of their open foreign accounts denominated in foreign currencies other than the euro and their open resident accounts denominated in foreign currency.

On resident assets and liabilities

Yes. No prudential ratios apply. Because of the surrender requirement, banks are not allowed to maintain open foreign exchange positions. However, the BCEAO grants individual dispensations that allow banks to keep working balances in their correspondent accounts for the smooth completion of international payments. To cover their foreign currency requirements, banks are authorized to hold in banking institutions located in non-WAEMU countries: (1) demand deposits that may not exceed the total amount of import payments domiciled by clients in their books, payable within a period of eight days, and (2) demand deposits that may not exceed the balance of their open foreign accounts denominated in foreign currencies other than the euro and their open resident accounts denominated in foreign currency.

On nonresident assets and liabilities

Yes. No prudential ratios apply. Because of the surrender requirement, banks are not allowed to maintain open foreign exchange positions. However, the BCEAO grants individual dispensations that allow banks to keep working balances in their correspondent accounts for the smooth completion of international payments. To cover their foreign currency requirements, banks are authorized to hold in banking institutions located in non-WAEMU countries: (1) demand deposits that may not exceed the total amount of import payments domiciled by clients in their books, payable within a period of eight days, and (2) demand deposits that may not exceed the balance of their open foreign accounts denominated in foreign currencies other than the euro and their open resident accounts denominated in foreign currency.

Provisions specific to institutional investors

Yes. Controls are imposed by the CIMA Code.

Limits (max.) on securities issued by nonresidents

Yes. The Code of the Inter-African Conference on Insurance Markets (CIMA Code) allows insurance companies of each CIMA member country to invest in other CIMA member countries a maximum of 50% of resources collected locally.

Limits (max.) on investment portfolio held abroad

Yes. The Code of the Inter-African Conference on Insurance Markets (CIMA Code) allows insurance companies of each CIMA member country to invest in other CIMA member countries a maximum of 50% of resources collected locally.

Limits (min.) on investment portfolio held locally

Yes. The Code of the Inter-African Conference on Insurance Markets (CIMA Code) requires insurance companies of each CIMA member country to invest domestically a minimum of 50% of resources collected locally, with the remainder to be invested only in other CIMA member countries.

Currency-matching regulations on assets/liabilities composition

Yes. The CIMA Code specifies that liabilities in a given currency must be covered by assets denominated in the same currency.

Pension funds

Yes. The issuance, presentation, and floating of securities of any kind by foreign governments, local authorities, foreign companies, or
international institutions are subject to authorization by the regional capital markets authority (CREPMF).

With the exception of foreign securities issued or sold with CREPMF authorization in WAEMU member countries, all investment abroad by residents of the WAEMU zone is subject to MEF authorization and must be at least 75% financed with foreign borrowing.

| Limits (max.) on investment portfolio held abroad | Yes. |
| Limits (min.) on investment portfolio held locally | No. |
| Currency-matching regulations on assets/liabilities composition | No. |
| Investment firms and collective investment funds | Yes. |
| Limits (max.) on securities issued by nonresidents | Yes. |
| Limits (max.) on investment portfolio held abroad | Yes. |
| Limits (min.) on investment portfolio held locally | No. |
| Currency-matching regulations on assets/liabilities composition | No. |

The issuance, presentation, and floating of securities of any kind from foreign governments, local authorities, foreign companies, or international institutions are subject to CREPMF authorization.

With the exception of foreign securities issued or sold in WAEMU member countries with CREPMF authorization, all investment abroad by WAEMU residents is subject to MEF authorization and must be at least 75% financed with foreign borrowing.

Malta participates in a currency union (EMU) with 18 other members of the EU and has no separate legal tender. The euro, the common currency, floats freely and independently against other currencies. The ECB publishes information regarding its interventions; it last intervened in March 2011. When it intervenes, the ECB intervenes at the quotes of the market makers.

The ECB publishes a reference rate based on the daily concertation procedure between CBs within and outside the European System of Central Banks, which normally takes place at 2:15 p.m. Central European Time. The reference rate against the euro is the average of the buying and selling rates.

The exchange rate arrangement of the euro area is free floating.

Other monetary framework | Yes. | To maintain price stability is the primary objective of the Eurosystem and of the single monetary policy for which it is responsible. This is stated in the Treaty on the Functioning of the EU, Article 127(1). “Without prejudice to the objective of price stability,” the Eurosystem will also “support the general economic policies in the Community with a view to contributing to the achievement of the objectives of the Community.” These include a “high level of employment” and “sustainable and non-inflationary growth.” Price stability is commonly defined as inflation rates at levels below, but close to, 2% over the medium term.

Exchange tax | No. |
Exchange subsidy | No. |
Foreign exchange market | Yes. | ADs may freely determine their exchange rates and foreign exchange commissions in transactions with their clients.
Spot exchange market | Yes. | Twenty four credit institutions, including two branches from non-EU countries, are licensed under the Banking Act 1994. In addition, one branch established in Malta under the EU freedom of establishment rules may also undertake such activities. Moreover, 55 financial institutions are licensed to operate under the Financial Institutions Act (FIA) 1994. A number of these institutions are licensed by the Malta Financial Services Authority (MFSA) to deal in foreign exchange. Financial institutions may, in addition to the activities cited above, carry out other operations under the FIA, in accordance with their specific licenses (refer to Schedule of Activities under the...
They may maintain accounts with foreign counterparties and, in addition to dealing in foreign currency notes, may make foreign exchange payments and payment transfers on behalf of their customers. All institutions licensed under the FIA may deal directly with the CBM.

Operated by the central bank: No.

Foreign exchange standing facility: No.

Allocation: No.

Auction: No.

Fixing: No.

Interbank market: Yes. There is no limit on the spread between the buying and selling rates that credit and financial institutions may quote in the interbank foreign exchange market. All credit institutions licensed by the MFSA may engage in foreign exchange activities. There were 24 credit institutions that could participate in the interbank market as at end-2018.

Over the counter: Yes. The foreign exchange market operates over the counter.

Brokerage: No. The foreign exchange market does not operate via a brokerage system; operators handle their transactions directly.

Market making: No. The foreign exchange market does not operate on the basis of a market-making arrangement.

Forward exchange market: Yes. The CBM participates in the foreign exchange derivatives market largely to hedge its foreign exchange exposure for risk management purposes.

Official cover of forward operations: Yes. The CBM may provide forward cover directly to government departments and public sector agencies. Forward rates are based on money market rate and interest rate differentials.

Arrangements for Payments and Receipts

Prescription of currency requirements: No.

Controls on the use of domestic currency: No.

For current transactions and payments: No.

For capital transactions: No.

Transactions in capital and money market instruments: No.

Transactions in derivatives and other instruments: No.

Credit operations: No.

Use of foreign exchange among residents: No.

Payments arrangements: No.

Bilateral payments arrangements: No.

Operative: No.

Inoperative: No.
The MOF has appointed the CBM as its agent for External Transactions Act purposes. Although external transactions have been completely liberalized, agents may be asked to report information on these transactions for statistical purposes.

There are no limits on the amount of foreign and local currencies that may be exported and imported. In accordance with EC Regulation No. 1889/2005, however, travelers entering or leaving the EU and carrying more than €10,000 are required to make a declaration to the relevant authorities of the member country through which they enter or leave the EU.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Applications for the acquisition of real estate by nonresidents from outside the EU require the MOF approval. Nonresidents from the EU, including Maltese citizens, may acquire one piece of real estate to be used as their primary residence, but may not acquire a second residence without MOF approval unless they have resided in Malta at least five years. Nonresidents from the EU may acquire property in Malta if they meet certain requirements, such as having a strong connection to the country, such as family or professional ties.
**Sale locally by nonresidents**
Yes.
Nonresidents may not engage in real estate transactions, except for the sale of properties acquired with MOF approval.

**Controls on personal capital transactions**
No.

**Loans**

### Provisions Specific to the Financial Sector

**Provisions specific to commercial banks and other credit institutions**
Yes.

- **Borrowing abroad**
  No.
- **Maintenance of accounts abroad**
  No.
- **Lending to nonresidents (financial or commercial credits)**
  No.
- **Lending locally in foreign exchange**
  No.
- **Purchase of locally issued securities denominated in foreign exchange**
  No.
- **Differential treatment of deposit accounts in foreign exchange**
  No.
  - **Reserve requirements**
    No.
  - **Liquid asset requirements**
    No.
  - **Interest rate controls**
    No.
  - **Credit controls**
    No.
- **Differential treatment of deposit accounts held by nonresidents**
  No.
  - **Reserve requirements**
    No.
  - **Liquid asset requirements**
    No.
  - **Interest rate controls**
    No.
Credit controls No.
Investment regulations No.
Abroad by banks No.
In banks by nonresidents No.
Open foreign exchange position limits Yes.

Article 92 of Regulation (EU) No. 575/2013 (Capital Requirements Regulation) requires credit institutions to allocate capital against foreign exchange risk in accordance with Capital Requirements Regulation Title IV, Part 3, which states that “If the sum of an institution’s overall net foreign exchange position, calculated in accordance with the procedure set out in Article 352, exceeds 2% of its total own funds, the institution must calculate an own funds requirement for foreign exchange risks. The own funds requirement for foreign exchange risk must be the sum of its overall net foreign exchange position in the reporting currency, multiplied by 8%.” As required under EU legislation, a credit institution’s total net open foreign exchange position is subject to a prudential capital requirement of 8% of its own funds. Financial institutions licensed under local legislation may also be required to comply with this requirement. By law, foreign exchange risk requirements apply to the net foreign exchange position for all business activities of an institution (that is, trading and banking books). Thus, calculation of the net spot position in a particular currency includes all assets minus all liabilities, including accrued interest, in the currency in question. These requirements are not based on the principle of the residence of assets and liabilities but on the foreign exchange risk of currencies against the base currency of the assets and liabilities.

On resident assets and liabilities Yes.
On nonresident assets and liabilities Yes.
Provisions specific to institutional investors No.
Insurance companies No.

Limits (max.) on securities issued by nonresidents No.
The Solvency II Directive came into effect. In this respect, the prudent person principle started to be applied. Insurance companies must only invest in assets and instruments the risks of which the company can properly identify, measure, monitor, manage, control and report, and appropriately take into account in the assessment of its overall solvency needs. In addition, insurance companies must ensure that assets held to cover technical provisions are invested in a manner appropriate to the nature and duration of the insurance and reinsurance liabilities, and in the best interest of all policyholders and insureds taking into account any disclosed policy objectives. Previously, prudential regulations imposed limitations on the types of assets insurance companies were required to maintain to cover technical liabilities arising from their business. They also imposed diversification rules and limits on the amount of assets such companies may maintain. The regulations did not impose restrictions on the location of these assets; therefore, assets covering technical liabilities could be located outside Malta.

Limits (max.) on investment portfolio held abroad No.
The Solvency II Directive came into effect. In this respect, the prudent person principle started to be applied. Insurance companies must only invest in assets and instruments the risks of which the company can properly identify, measure, monitor, manage, control and report, and appropriately take into account in the assessment of
its overall solvency needs. In addition, insurance companies must ensure that assets held to cover technical provisions are invested in a manner appropriate to the nature and duration of the insurance and reinsurance liabilities, and in the best interest of all policyholders and insureds taking into account any disclosed policy objectives. Previously, prudential regulations imposed limitations on the types of assets insurance companies were required to maintain to cover technical liabilities arising from their business. They also imposed diversification rules and limits on the amount of assets such companies may maintain. The regulations did not impose restrictions on the location of these assets; therefore, assets covering technical liabilities could be located outside Malta.

As the Solvency II Directive came into effect, the prudent person principle started to be applied. Insurance companies must only invest in assets and instruments the risks of which the company can properly identify, measure, monitor, manage, control and report, and appropriately take into account in the assessment of its overall solvency needs. In addition, insurance companies must ensure that assets held to cover technical provisions are invested in a manner appropriate to the nature and duration of the insurance and reinsurance liabilities, and in the best interest of all policyholders and insureds taking into account any disclosed policy objectives. Previously, if an insurance company’s liabilities in any particular currency exceeded 5% of its total liabilities, the company must hold sufficient assets in that currency to cover at least 80% of the company’s liabilities in that currency.

In accordance with prudential regulations, pension funds (that is, occupational pension funds, personal pension funds, and related investment vehicles) are required to comply with prudential investment restrictions to ensure diversification and minimize exposure to single entities or issuers. Certain borrowing restrictions also apply.

For prudential purposes, investment firms are subject to minimum financial resources requirements; Categories 2 and 3 investment firms are also subject to Capital Ratios as stipulated by the Capital Requirements Regulation; certain collective investment funds are subject to investment and borrowing restrictions. Retail collective investment funds are subject to restrictions on investments in securities, such as exposure limits to credit institutions, other collective investment funds, and financial derivative instruments. Retail collective investment funds may borrow up to 10% of their assets for investment purposes and are allowed to have a global exposure of up to 100% of net asset value (calculated according to the Value-at-Risk or Commitment Method). Experienced professional investment funds may borrow up to 100% of the net asset value of their funds. All other funds are subject to leverage requirements as stipulated in the Alternative Investment Fund Managers Directive 2011/61/EU (calculated according to the Gross and Commitment Methods and using the conversion methodologies.
stipulated in the Directive).

Limits (max.) on securities issued by nonresidents

No.  The regulatory requirements do not impose restrictions on the source and location of assets.

Limits (max.) on investment portfolio held abroad

No.  The regulatory requirements do not impose restrictions on the source and location of assets.

Limits (min.) on investment portfolio held locally

No.  The regulatory requirements do not impose restrictions on the source and location of assets.

Currency-matching regulations on assets/liabilities composition

No.  The regulatory requirements in the Rules for Investment Services Providers and related Guidance Notes do not impose restrictions on the source and location of assets relating to currency matching.

Although the Rules for Investment Services Providers and related Guidance do not make specific reference to currency matching, the licence holders are required to employ a risk management process which enables them to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile, including currency/exchange risk.

In addition, UCITS and Alternative Investment Fund Managers are required to establish and maintain a permanent risk management function.

Crawl-like arrangement
Yes. The de jure exchange rate arrangement is floating. The ouguiya was
previously de facto pegged to the US dollar, at an exchange rate of UM 268.6 per US dollar (October 24, 2005, through January 25, 2007). Since 2007, the new foreign exchange market uses a fixing system in which the BCM intervenes. The BCM intervenes to regulate the exchange market according to its exchange rate policy objectives (smoothing the exchange rate and the projected level of official reserves). Daily foreign exchange intervention data are not published. Since September 2014, the ouguiya has followed a depreciating trend within a 2% band against the US dollar until mid-2017. After a brief appreciation period in the second half of 2017, the ouguiya has started depreciating gradually again until November 2018, with a more pronounced one-off depreciation of 1.5% in November. The de facto exchange rate arrangement is classified as a crawl-like arrangement. A summary statement of market turnover data is updated daily on the BCM website.

Free floating

**Official exchange rate**

Yes. The official or reference exchange rate is used by the BCM, banks, and exchange bureaus to set the bid and ask rates offered to customers, with a distinction being made between account operations and over-the-counter (OTC) transactions. These rates are also used by the customs services and other economic operators for contractual, accounting, and statistical purposes. The official or reference exchange rate is determined as follows: for the US dollar (reference rate), the latest fixing is used; for other currencies, a cross-rate between the two currencies is used based on their respective parities with the US dollar on the international market.

Other monetary framework  Yes.  The monetary framework pursues multiple targets. The first is to ensure price stability. In addition, without prejudice to the objective of price stability, the BCM pursues the stability of the financial system and contributes to the implementation of the general economic policies defined by the Government.

Exchange tax  No.

Exchange subsidy  No.

Foreign exchange market  Yes.  ADs may freely determine their bid-ask spreads and commissions on foreign exchange transactions with their clients.

Spot exchange market  Yes.  As of December 31, 2018, 18 commercial banks and 20 exchange bureaus were licensed by the BCM to deal in foreign exchange with their clients. The BCM is the only institution authorized to grant licenses to banks and exchange bureaus. Effective December 31, 2018, pursuant to Instruction No. 11/GR/2018 of December 31, 2018, the ceiling on the amount of foreign currency handled by banks for their customers outside of the organized foreign exchange market
was raised, where the cumulative purchases of foreign currency a bank and a week performed outside of exchange market trading sessions with the same beneficiary, as defined under Article 1 of Instruction No. 06/GR/2017, were increased to US$300,000 or the equivalent in other currencies from US$200,000. Exchange bureaus may not engage in exchange operations directly with the BCM. They engage in currency exchange by buying and selling banknotes and receive and transfer funds in foreign exchange on behalf of their clients in accordance with the exchange regulations. However, they are not authorized to open customer accounts. Nonetheless, they may have accounts abroad and make payments and transfers in foreign exchange on behalf of their clients.

The BCM conducts fixing sessions to allocate foreign exchange to the banks and to itself and to determine the exchange rate based on supply. During the fixing sessions, banks submit purchase and sale orders with exchange rates, which are classified in descending order for purchases and ascending order for sales; an equilibrium rate emerges from the comparison of these orders, which is the highest selling rate that finds a buyer. The BCM may intervene (after calculating the provisional equilibrium rate). Purchase orders are unwound at the proposed rate as long as it does not diverge from the final market clearing price by more than 2%. A purchase commission of 0.75% is charged. Sale orders are unwound at the final market clearing price minus a sales commission of 0.25%.

The ouguiya equivalent of the cumulative bids submitted by banks at an exchange market session must not exceed their free reserves in ouguiyas at the previous day’s close. Bids that exceed the limit are automatically rejected.

The BCM has issued an instruction prohibiting the manipulation of exchange rates for transactions on the official foreign exchange market.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Resident Accounts

Foreign exchange accounts permitted: Yes.

Held domestically: Yes. Licensed intermediary banks may freely open accounts in foreign currency on behalf of residents. These accounts may be credited with: (1) foreign currency transfers from abroad; (2) transfers by debit to another account in the same currency belonging to the same account holder; (3) dividends and real net proceeds from capital transactions and the sale or liquidation of investments by imports of foreign currency; (4) the amounts of checks denominated in foreign currency drawn on foreign banks to the order of the holder; (5) interest on the accounts concerned; and (6) payments of foreign banknotes. (Amounts in excess of UM 1 million must be declared to the BCM.)

These accounts may be debited for: (1) withdrawals of foreign currency notes by the account holder, exclusively for the account holder’s travel needs and in accordance with the existing exchange regulations; (2) foreign transfers ordered by the account holder, in compliance with the existing exchange regulations; (3) checks and transfers issued by the account holder, for foreign exchange payments authorized under the existing exchange regulations; (4) foreign exchange sold; and (5) bank commissions charged on these accounts.

Only accounts opened by exchange bureaus with primary banks may be credited by deposits of foreign currency banknotes in the context of their business activities. Foreign currency cash withdrawals by the account holder are limited to UM 3 million for the account holder’s travel needs. The limit of UM 3 million is applicable to each trip. The balances of these accounts may be transferred abroad in keeping with the prevailing regulations. Transfers abroad to finance trade transactions are authorized in accordance with the exchange regulations.

Approval required: No.

Held abroad: Yes. Licensed banks and foreign exchange bureaus may freely open accounts with banks abroad to accommodate foreign exchange transactions. Some public enterprises have bank accounts abroad, but other residents may not.

Approval required: No.

Accounts in domestic currency held abroad: No.

Accounts in domestic currency convertible into foreign currency: No. New accounts in domestic currency convertible to foreign exchange may not be opened. Those opened before 2000 are permitted in...
accordance with the provisions of Circular No. GR/005/2000, of which certain provisions were amended by Instruction No. 004/GR/05.

Nonresident Accounts

Foreign exchange accounts permitted

Yes. Licensed intermediary banks may freely open foreign exchange accounts on behalf of nonresidents. These accounts may be credited with: (1) foreign currency transfers from abroad; (2) transfers by debit to another account in the same currency belonging to the same account holder; (3) dividends and real net proceeds from capital transactions and the sale or liquidation of investments made by imports of foreign currency; (4) the proceeds of cashed checks in foreign currency drawn on foreign banks to the order of the holder; (5) interest on the accounts; and (6) payments of foreign banknotes. (Amounts above UM 1 million must be declared to the BCM.)

These accounts may be debited for: (1) withdrawals of foreign currency notes by the account holder, exclusively for the account holder’s travel needs and in accordance with exchange regulations; (2) foreign transfers by the account holder, in compliance with exchange regulations; (3) checks and transfers issued by the account holder, for foreign exchange payments authorized under exchange regulations; (4) foreign exchange sold; and (5) bank commissions on these accounts.

Approval required

No.

Domestic currency accounts

Yes. Nonresidents may open domestic currency accounts. Balances on these accounts are freely transferable in accordance with the provisions of the foreign exchange regulations. Existing convertible ouguiya accounts may be credited in the same manner as foreign exchange accounts.

Convertible into foreign currency

No. Existing nonresident accounts in convertible ouguiyas may be converted, but new convertible accounts may not be opened.

Approval required

No.

Blocked accounts

No.

</tr>
</tbody>
</table>

#### Reserve requirements

Banks must hold required reserves in their current accounts at the CB for domestic and foreign currency deposits of residents and nonresidents pursuant to Instruction Nos. 3/GR/2006, 18/GR/2008, and 7/GR/2017. The required reserve base in ouguiya is the average of customer deposits. It is calculated over a period of four consecutive weeks based on total ouguiya deposits at the end of each week. The amount of the required reserve is calculated by applying the required reserve ratio in effect to the reserve base. The reserve holding period is four weeks beginning one week after the calculation period. During this period, the average daily balance of banks’ ordinary current accounts in ouguiya at the CB must be greater than or equal to the reserve requirement. The required reserve ratio is 7%. Any deficiency of required reserves in ouguiya results in a penalty assessed on the deficiency during the holding period. The rate applied corresponds to the BCM policy rate plus 8 percentage points. The base for required foreign exchange reserve is the daily average of foreign currency demand deposits, term deposits, and other amounts due foreign currency, less the special accounts of projects financed from external resources. The daily average of the end-of-day balances of the current accounts in foreign currencies of each bank over the maintenance period must be at least equal to 7% of the daily average of the base. The holding period is 2 weeks. Any deficiency gives rise to a penalty a working day, applied on the amount of the insufficiency converted in ouguiya at the sale price of the BCM. The rate applied corresponds to the BCM policy rate plus 8 percentage points.

#### Liquid asset requirements

Liquid asset requirements apply for both foreign and domestic currencies. The liquid asset requirement is set at a minimum of 20%. The calculation of liquidity ratios integrates, in addition to banks’ current account balances in ouguiyas with the BCM, the ouguiya equivalents of the balance of banks’ current accounts in foreign currency with the BCM.

#### Interest rate controls

Current accounts in foreign currency opened by primary banks with the CB do not earn interest.

#### Credit controls

No.

#### Differential treatment of deposit accounts held by nonresidents

No.

#### Reserve requirements

Banks must hold required reserves on resident and nonresident
foreign currency deposits in their current accounts with the BCM. Resident and nonresident accounts are subject to the same treatment with regard to the reserve requirement (currency of denomination, remuneration, and penalty).

**Liquid asset requirements**

No. Liquid asset requirements apply for both foreign and domestic currencies. The liquid asset requirement is set at a minimum of 20%. The calculation of liquidity ratios integrates, in addition to banks’ current account balances in ouguiyas with the BCM, the ouguiya equivalents of the balance of banks’ current accounts in foreign currency with the BCM.

**Interest rate controls**

No. Only savings accounts (resident and nonresident) earn interest.

**Credit controls**

No. The loan agreement must be linked to the borrower’s repayment capacity, which is a ratio between the monthly payment and the stable income. Debt capacity takes account not only of the monthly payment of the loan repayments but also of all other commitments. The duration of the loan allocated may not exceed the duration of the statutory depreciation of the property or equipment concerned: 3 years for a personal loan, 1 year renewable for revolving credit, and 15 years for mortgage. The credit institution must ensure that the client’s income is not domiciled with another institution (Instruction No. 2/GR/2014).

**Investment regulations**

Yes.

**Abroad by banks**

Yes. These transactions are subject to BCM authorization.

**In banks by nonresidents**

No. These transactions are not restricted.

**Open foreign exchange position limits**

Yes. The commercial banks’ net open positions in foreign exchange are ±10% of net capital for each currency and ±20% of net capital for all currencies. This requirement is applicable to all resident and nonresident assets and liabilities.

**On resident assets and liabilities**

Yes. The commercial banks’ net open positions in foreign exchange are ±10% of net capital for each currency and ±20% of net capital for all currencies. This requirement is applicable to all resident and nonresident assets and liabilities.

**On nonresident assets and liabilities**

Yes. The commercial banks’ net open positions in foreign exchange are ±10% of net capital for each currency and ±20% of net capital for all currencies. This requirement is applicable to all resident and nonresident assets and liabilities.

MAURITIUS

(Position as of May 31, 2019)

Status under IMF Articles of Agreement

Date of membership September 23, 1968.

Article VIII Yes. Date of acceptance: September 29, 1993.

Article XIV

Exchange Measures

Restrictions and/or multiple currency practices Yes.

The IMF staff report for the 2017 Article IV Consultation with Mauritius states that as of November 7, 2017, Mauritius maintained a MCP. On September 11, 2017, the authorities introduced the Exchange Rate Support Scheme (ERSS), which aims to provide a temporary subsidy to exporters in light of the depreciation of the US dollar. The amount of the subsidy will be determined by the difference between a reference rate (US$1 = MUR 34.50) and the rate at which the exporter has exchanged its export proceeds at its commercial bank, subject to a maximum of MUR 2.50 per dollar. The scheme will run over a period of six months and will be administered by the Ministry of Industry, Commerce and Consumer Protection. The ERSS gives rise to an MCP under Article VIII, Section 3. (Country Report No. 17/362)

Exchange measures imposed for security reasons Yes.

In accordance with IMF Executive Board Decision No. 144-(52/51) No.

Other security restrictions Yes. Effective May 29, 2019, financial institutions are prohibited from dealing with persons and entities mentioned in UNSC list under the UN (Financial Prohibitions, Arms Embargo and Travel Ban) Sanctions Act 2019.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exchange Arrangement

Currency Yes. The currency of Mauritius is the Mauritian rupee. Commemorative gold coins are also legal tender.

Other legal tender No.

Exchange rate structure

Unitary Yes.

Dual

Multiple

Classification

No separate legal tender

Currency board

Conventional peg
Stabilized arrangement
Crawling peg
Crawl-like arrangement
Pegged exchange rate within horizontal bands
Other managed arrangement

Floating Yes. The de jure and de facto exchange rate arrangements are floating. The exchange rate of the rupee mostly follows movements on the international foreign exchange market as well as domestic demand and supply conditions. The exchange rate of the rupee is determined by demand and supply forces in the domestic foreign exchange market. Interventions by the Bank of Mauritius in the foreign exchange market are limited to smoothing excessive exchange rate volatility, aligning the rupee to its macroeconomic fundamentals, and accumulating foreign exchange reserves. The BOM publishes the bid rate of intervention by cob on the day the interventions take place, followed by weekly summaries with daily data. Information regarding foreign exchange intervention is also disseminated in the BOM’s Monthly Statistical Bulletin, Monetary Policy and Financial Stability Report, Quarterly Economic Report, and Annual Report of the Bank.

Free floating

Official exchange rate Yes. The weighted average exchange rate for transactions of US$20,000 or above as reported by banks and foreign exchange dealers is used in the computation of the official exchange rate. The official exchange rate (referred to as the central rate of the BOM) is used for the valuation and recording of BOM assets and liabilities. The central rate is computed as an average of the mid dealt rates of Rs/US$ of the last three working days, with the dealt rate being the weighted average rate of market deals of US$20,000 or above as reported by banks and foreign exchange dealers. The official exchange rate is also used for conducting government transactions in foreign exchange. Specifically, government transactions are conducted at the official rate (that is, average of mid dealt rates for past three days) adjusted by a margin. The margin is added/subtracted to/from the official rate to determine the buying and selling rates. The margin varies according to the currency being transacted against the Mauritian rupee and represents costs incurred by the BOM for conducting the transaction, that is, SWIFT, negative interest, etc. The official rate is not published.

Other monetary framework  Yes. Section 4 of the BOM Act 2004 stipulates that the primary object of the Bank must be to maintain price stability and promote orderly and balanced economic development. The Monetary Policy Committee (MPC) of the BOM normally meets on a quarterly basis to formulate and determine the monetary policy to be conducted by the BOM to maintain price stability, taking into account Mauritius' orderly and balanced economic development. The MPC determines the Key
Repo Rate (KRR), the policy rate, after reviewing international and domestic economic and financial developments while also assessing the balance of risks to the growth and inflation outlook. Section 5(2) of the BOM Act stipulates that the Bank must determine, with the concurrence of the Minister of Finance, the accepted inflation range during a given period, consistent with the pursuit of price stability. However, this is yet to be implemented.

In December 2006, the BOM introduced a new framework for the conduct of monetary policy. The Lombard Rate, which used to be the signaling rate of the monetary policy stance, was replaced by the KRR, with the overnight interbank interest rate as the operational target. The framework was based on a corridor of ±50 basis points around the KRR, within which the overnight interbank interest rate was supposed to move. The BOM would conduct repurchase transactions to inject/absorb liquidity in the banking system. Two additional instruments were introduced in 2008 – the Special Deposits Facility and the Overnight Facility, while the corridor was widened to ±125 basis points around the KRR. Since early 2018, the BOM has been focusing on the 91-Day Bill yield as its short-term operating target.

After every MPC meeting, the governor holds a press conference on the same day to explain the decision of the MPC. The MPC also announces its decision through a Media Release that outlines the assessment of prevailing economic and financial conditions and forecasts for inflation and real GDP growth. The Media Release is posted on the BOM’s website simultaneously to the holding of the press conference. The MPC minutes are released on the BOM’s website exactly two weeks after the meeting and also contain the voting pattern of members. The BOM published a statement on price stability in its Annual Report for the year ended 30 June 2018 and the September 2018 issue of the Monetary Policy and Financial Stability Report. According to the Budget Speech 2019/20, the BOM Act will be amended to require the BOM to publish its report on monetary policy at least twice a year instead of at least once a year. The report will include a review of price and financial stability and an assessment of the policies.

**Exchange tax**
No.

**Exchange subsidy**
No. Effective March 10, 2018, the ERSS, which provided a temporary subsidy to exporters, expired. Previously, on September 11, 2017, the ERSS was introduced, which aimed to provide a temporary subsidy to exporters in light of the depreciation of the US dollar. The amount of the subsidy was determined by the difference between a reference rate (US$1 = MUR 34.50) and the rate at which the exporter exchanged its export proceeds at its commercial bank, subject to a maximum of MUR 2.50 per dollar. The scheme ran for a period of six months and was administered by the Ministry of Industry, Commerce and Consumer Protection.

**Foreign exchange market**
Yes. Banks, foreign exchange dealers, and money-changers are free to set their exchange rates.

**Spot exchange market**
Yes. As at end-May 2019, 20 banks, 6 foreign exchange dealers, and 6 money-changers (bureaux de change) were licensed by the BOM. Foreign exchange dealers buy and sell foreign currency and engage in both spot and forward foreign exchange transactions. Foreign exchange dealers may carry out money and value transfer services, maintain accounts abroad, and make payments and transfers in foreign currency on behalf of their clients. Money-changers carry same-day (spot) transactions and deal only in banknotes.

**Operated by the central bank**
Yes.
### Foreign exchange standing facility

No.

### Allocation

No.

### Auction

Yes. The BOM conducts a single price foreign exchange auction at its initiative. Effective May 24, 2018, the foreign exchange auction is conducted with all banks and the previous Foreign Exchange Market Makers system was suspended. Under that system, foreign exchange intervention was carried out only with market makers. The bids received normally reflect banks’ foreign exchange position, and the allotment is made on a pro-rata basis depending on the amount the BOM would buy or sell. Counteroffers are made to all bidders (including outliers) at the price determined by the BOM. The auction/counteroffer price is determined by the BOM based on banks’ bid prices, the prevailing rupee/US$ market rate, and international movements in EURUSD. There is no set frequency of foreign exchange auctions.

### Fixing

No.

### Interbank market

Yes. Banks and foreign exchange dealers trade among themselves at freely determined exchange rates. The BOM intervenes directly to smooth out undue volatility in the domestic exchange rate, align the rupee to its fundamentals, and build reserves. The BOM is the sole institution that grants licenses to banks, foreign exchange dealers, and money-changers. As at end-May 2019, 20 banks and 6 foreign exchange dealers were allowed to carry out transactions in the interbank foreign exchange market.

### Over the counter

Yes. Banks, foreign exchange dealers, and money-changers transact in foreign exchange with clients over the counter.

### Brokerage

No.

### Market making

No. Effective May 24, 2018, the Foreign Exchange Market Makers system was suspended. Previously, banks and foreign exchange dealers were the market makers in the interbank market.

### Forward exchange market

Yes. Banks and foreign exchange dealers may engage in forward transactions with clients.

### Official cover of forward operations

No.

### References to legal instruments and hyperlinks

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

### Arrangements for Payments and Receipts

#### Prescription of currency requirements

Yes. There are no restrictions in the use of the domestic currency for current and capital transactions and payments, except that, for anti-money laundering/combating the financing of terrorism (AML/CFT) purposes, cash transactions in excess of MUR 500,000 are prohibited, other than certain exempt transactions as defined in the Financial Intelligence and Anti-Money Laundering Act.

#### Controls on the use of domestic currency

Yes.

**For current transactions and payments**

Yes. There are no restrictions in the use of the domestic currency for current transactions and payments, except that, for AML/CFT purposes, cash transactions in excess of MUR 500,000 are prohibited, other than certain exempt transactions as defined in the Financial Intelligence and Anti-Money Laundering Act.

**For capital transactions**

Yes. There are no restrictions in the use of the domestic currency for transactions in capital and money market instruments, except that,

### Transactions in capital and money market instruments
for AML/CFT purposes, cash transactions in excess of MUR 500,000 are prohibited, other than certain exempt transactions as defined in the Financial Intelligence and Anti-Money Laundering Act.

Transactions in derivatives and other instruments: Yes.

There are no restrictions in the use of the domestic currency for transactions in derivatives and other instruments, except that, for AML/CFT purposes, cash transactions in excess of MUR 500,000 are prohibited, other than certain exempt transactions as defined in the Financial Intelligence and Anti-Money Laundering Act.

Credit operations: Yes.

There are no restrictions in the use of the domestic currency for credit operations, except that, for AML/CFT purposes, cash transactions in excess of MUR 500,000 are prohibited, other than certain exempt transactions as defined in the Financial Intelligence and Anti-Money Laundering Act.

Use of foreign exchange among residents: Yes.

Foreign exchange can be freely used in transactions between residents, except for transactions in cash above MUR 500,000 or the equivalent in any foreign currency, other than certain exempt transactions as defined in the Financial Intelligence and Anti-Money Laundering Act.

Payments arrangements: Yes.

Bilateral payments arrangements: No.

Operative: No.

Inoperative: No.

Regional arrangements: Yes.

Mauritius is a member of COMESA and SADC regional payment system.

Clearing agreements: Yes.

The BOM is both a participant in and the settlement bank for the COMESA Regional Payment and Settlement System (REPSS). Clearing is undertaken by the COMESA Clearing House. The clearing of the SADC-RTGS Payment System is carried out by the SADC-RTGS Operator.

Barter agreements and open accounts: No.

Administration of control: No.

Payments arrears: No.

Official: No.

Private: No.

Controls on trade in gold (coins and/or bullion): Yes.

Residents may hold gold for numismatic purposes or as personal jewelry and ornaments.

On domestic ownership and/or trade: No.

On external trade: Yes.

A permit is required to import gold.

Controls on exports and imports of banknotes: Yes.

On exports: Yes.

Pursuant to Section 131A of the Customs Act (physical cross-border transportation), any person making a physical cross-border transportation of currency or bearer negotiable instruments of an amount of more than MUR 500,000 rupees or such other amount as may be prescribed or its equivalent in any foreign currency must make a declaration to the proper officer (an officer of the Mauritius Revenue Authority), in such manner as may be prescribed, of the
amount of the currency or bearer negotiable instruments in his possession, their origin and intended use. However, cash transactions in excess of MUR 500,000 are prohibited, other than certain exempt transactions as defined in the Financial Intelligence and Anti-Money Laundering Act.

**Foreign currency**

Yes. Pursuant to Section 131A of the Customs Act (physical cross-border transportation), any person making a physical cross-border transportation of currency or bearer negotiable instruments of an amount of more than MUR 500,000 rupees or such other amount as may be prescribed or its equivalent in any foreign currency must make a declaration to the proper officer (an officer of the Mauritius Revenue Authority), in such manner as may be prescribed, of the amount of the currency or bearer negotiable instruments in his possession, their origin and intended use. However, cash transactions in excess of MUR 500,000 are prohibited, other than certain exempt transactions as defined in the Financial Intelligence and Anti-Money Laundering Act.

**On imports**

Yes.

**Domestic currency**

Yes. Pursuant to Section 131A of the Customs Act (physical cross-border transportation), any person making a physical cross-border transportation of currency or bearer negotiable instruments of an amount of more than MUR 500,000 rupees or such other amount as may be prescribed or its equivalent in any foreign currency must make a declaration to the proper officer (an officer of the Mauritius Revenue Authority), in such manner as may be prescribed, of the amount of the currency or bearer negotiable instruments in his possession, their origin and intended use. However, cash transactions in excess of MUR 500,000 are prohibited, other than certain exempt transactions as defined in the Financial Intelligence and Anti-Money Laundering Act.

**Foreign currency**

Yes. Pursuant to Section 131A of the Customs Act (physical cross-border transportation), any person making a physical cross-border transportation of currency or bearer negotiable instruments of an amount of more than MUR 500,000 rupees or such other amount as may be prescribed or its equivalent in any foreign currency must make a declaration to the proper officer (an officer of the Mauritius Revenue Authority), in such manner as may be prescribed, of the amount of the currency or bearer negotiable instruments in his possession, their origin and intended use. However, cash transactions in excess of MUR 500,000 are prohibited, other than certain exempt transactions as defined in the Financial Intelligence and Anti-Money Laundering Act.

**Resident Accounts**

**Foreign exchange accounts permitted**

Yes. Both residents and nonresidents are allowed to maintain an account with banks in Mauritius. Resident natural and juridical persons may hold accounts in foreign currencies with commercial banks.

**Held domestically**

Yes. Balances may effectively be transferred abroad freely.

**Approval required**

No.

**Held abroad**

Yes. Balances may effectively be transferred to the home country freely.

**Approval required**

No.

**Accounts in domestic currency held**

Yes. Residents may maintain accounts in domestic currency held abroad.
abroad
Accounts in domestic currency convertible into foreign currency: Yes.

References to legal instruments and hyperlinks: This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Nonresident Accounts

Foreign exchange accounts permitted: Yes. Companies and individuals may maintain accounts denominated in foreign currencies with commercial banks.

Approval required: No.

Domestic currency accounts: Yes. Nonresident natural and juridical persons may maintain accounts denominated in rupees with commercial banks.

Convertible into foreign currency: Yes.

Approval required: No.

Blocked accounts: No.

References to legal instruments and hyperlinks: This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Imports and Import Payments

Foreign exchange budget: No.

Financing requirements for imports: No.

Minimum financing requirements: No.

Advance payment requirements: No.

Advance import deposits: No.

Documentation requirements for release of foreign exchange for imports: No.

Domiciliation requirements: No.

Preshipment inspection: No.

Letters of credit: No.

Import licenses used as exchange licenses: No.

Other: No.

Import licenses and other nontariff measures: Yes.

Positive list: No.

Negative list: Yes. A negative list exists for prohibited goods.

Open general licenses: Yes. Most goods are imported under OGLs.

Licenses with quotas: Yes. When necessary, imports of potatoes and salt are subject to quotas.

Other nontariff measures: Yes. Imports of agricultural, horticultural, and livestock products require phytosanitary inspection. Imports of sugarcane are prohibited.

Import taxes and/or tariffs: Yes. The upper end of the range for tariff rates is 15%. Certain items are subject to excise duties in the form of (1) ad valorem rates ranging...
from 15% to 100% and (2) specific duties.

- There are no controls on the purchase locally by nonresidents of shares listed on the Stock Exchange of Mauritius (SEM), except that noncitizens may not hold more than 15% of shares in listed sugar companies. However, under the Non-Citizens (Property Restriction) Act, authorization from the Prime Minister’s Office, Home Affairs, External Communications and National Development Unit is required for nonresidents to purchase shares that are not listed on the stock exchange. In addition, such purchases must be financed by funds transferred from banks abroad. Authorization from the Prime Minister’s Office, Home Affairs, External Communications and National Development Unit is required for investments in banks that are not listed on the SEM and which hold immovable property in Mauritius. Equity holdings in excess of 10% of a bank’s capital by residents or nonresidents require BOM approval.

- Insurance companies may invest up to 50% of their portfolio abroad.

Changes during 2018 and 2019
**Exchange Measures**

Exchange measures imposed for security reasons

Other security restrictions 05/29/2019

Financial institutions are prohibited from dealing with persons and entities mentioned in UNSC list under the UN (Financial Prohibitions, Arms Embargo and Travel Ban) Sanctions Act 2019.

**Exchange Arrangement**

Exchange subsidy 03/10/2018

The Exchange Rate Support Scheme, which provided a temporary subsidy to exporters, expired.

Foreign exchange market

Spot exchange market

*Operated by the central bank*

Auction 05/24/2018

The foreign exchange auction is conducted with all banks and the previous Foreign Exchange Market Makers system was suspended. Under that system foreign exchange intervention was carried out only with market makers.

*Interbank market*

Market making 05/24/2018

The Foreign Exchange Market Makers system was suspended. Previously, banks and foreign exchange dealers were the market makers in the interbank market.

## Exchange Arrangement

<table>
<thead>
<tr>
<th>Currency</th>
<th>Yes. The currency of Mexico is the Mexican peso.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Other legal tender</td>
<td>No.</td>
</tr>
</tbody>
</table>

**Exchange rate structure**

- Unitary: Yes.
- Dual
- Multiple

**Classification**

- No separate legal tender
- Currency board
- Conventional peg
- Stabilized arrangement
- Crawling peg
- Crawl-like arrangement
- Pegged exchange rate within horizontal bands
- Other managed arrangement
- Floating
- Free floating: Yes. The de jure and de facto exchange rate arrangements are free
floating; the exchange rate of the peso is determined in the foreign exchange market.
The Foreign Exchange Commission (FEC), comprised of members of the CB and the MOF, determines the foreign exchange rate policy. The FEC does not target or defend any exchange rate level. In January 2017, the FEC announced an intervention mechanism through a foreign exchange hedging program. The foreign exchange hedging is auctioned through non-deliverable forwards. The use of these forwards implies the settlement is in pesos. Currently, the FEC authorized up to US$20 billion of non-deliverable forwards. At its maturity, each outstanding amount must be rolled over under a roll-over auction until the FEC instructs otherwise. The data on interventions is published on the Bank’s website immediately after the auctions. In particular, the CB discloses received and allocated bids, including the forward points, as well as the total amount demanded.

**Official exchange rate**

Yes. The exchange rate (FIX) is calculated by BM as an average of quotes in the wholesale foreign exchange market for operations payable in two banking days following the quote date of any of the exchange transaction platforms or of some other similar electronic means that the BM considers indicative of prevailing conditions in the wholesale foreign exchange market. The BM releases the FIX at noon each banking day after receiving all quotes and performing the corresponding calculations. The FIX is published in the Federal Official Gazette one banking day after its calculation and is used to settle liabilities in US dollars payable in Mexico on the day following its publication. The FIX serves only as a reference; its use in foreign exchange transactions by market participants is not mandatory.

**Monetary policy framework**

**Exchange rate anchor**

- **U.S. dollar**
- **Euro**
- **Composite**
- **Other**

**Monetary aggregate target**

**Inflation-targeting framework**

Yes. To fulfill its constitutional mandate of pursuing stability of the purchasing power of the national currency, BM adopted inflation targeting as the framework for implementing monetary policy.

**Target setting body**

Yes.

- **Government**
- **Central Bank**
- **Monetary Policy Committee**

**Central Bank Board**

Yes. The decisions regarding monetary policy and those related to the responsibilities of BM are made by the members of its Governing Board, which is composed of 5 members: the Governor presides and the others are called Deputy Governors. The Governor, or at least two of the Deputy Governors, may call for a meeting of the Governing Board. For a session to be convened, at least three of its members must be present.
The Minister of Finance and the Deputy Minister of Finance and Public Credit may attend the Board of Governor’s meetings with voice but without vote for which purpose they must be previously called and informed of the corresponding agenda. These officials may call a Governing Board meeting and suggest issues to be addressed during the meeting.

To be valid, resolutions require the majority of the votes of the present members; in case of a tie, the presiding member has the casting vote case.

Other

Government and Central Bank

Inflation target

Yes.

Target number

Yes.

Point target

Target with tolerance band

Yes.  BM’s permanent target is annual inflation of the National Consumer Price Index of 3% with a variability interval of 1 percentage point (pp). The definition of this interval is simply a practical way of considering the inherent uncertainty as to the exact realization of the 3% permanent target, because of the existence of diverse disturbances, such as relative price variations, that may affect inflation in the short run and place it above or below its target.

Band/Range

Target measure

Yes.

CPI

Yes.  The National Consumer Price Index is an economic indicator designated to measure over time the fluctuation of prices of a defined basket of goods and services representing household consumption. It constitutes the statistical instrument used to measure inflation.

Core inflation

Target horizon

n.a.

Operating target (policy rate)

Yes.

Policy rate

Yes.  The target for the overnight interbank interest rate was 8.0% on August 15, 2019.

Target corridor band

Other

Accountability

Yes.

Open letter

No.

Parliamentary hearings

No.

Other

Yes.  BM is accountable to the Congress. As established in its legal framework, BM must send quarterly reports (within the next 45 working days after each quarter) to the Congress and the President of the Republic of Mexico, regarding several topics, including the registered inflation over the said period.

Transparency

Yes.

Publication of votes

Yes.  BM can disclose its monetary policy through the following mechanisms:
(1) Monetary Policy Announcements: public communications through which the Governing Board announces the decision regarding the objective for the overnight interbank interest rate;
(2) Minutes of the meetings of the Governing Board, which describe decisions taken by the majority of board members and, if applicable, the dissenting vote where the corresponding member of the Governing Board is identified; and
(3) Quarterly reports: These reports are presented at a public session presided over by the Governor and in the presence of the other members of the Governing Board.

Effective May 17, 2018, BM modified some elements of its monetary policy communication strategy:
(1) The minutes on the monetary policy decision include the voter's identity. If there are dissenting opinions in the voting, the reasons for such dissents are included as well.
(2) The transcripts of the Governing Board’s meeting involving monetary policy decisions are available to the public three years after the corresponding meeting took place.
(3) The monetary policy decision press release (monetary policy statement) and the corresponding minutes are published simultaneously in both Spanish and English.
(4) The speeches and public presentations of the members of the Governing Board are also published. These materials are available to the public on BM’s official webpage no later than two days after the event.

In every quarterly report, BM updates the forecasts and projections about inflation, the gross domestic product, and other relevant factors that led to monetary policy decisions.

Authorized operators may freely set their exchange rates and commissions in transactions with their clients.

Commercial banks, development banks, securities firms, foreign exchange firms, and foreign exchange centers are authorized to engage in foreign exchange operations with the general public. As of December 31, 2018, there were 51 commercial banks, 6 development banks, 35 securities firms, 8 foreign exchange firms, and 962 foreign exchange centers.

Foreign exchange firms must be authorized by the MOF to purchase, sell, and exchange foreign exchange currency, including funds transfers. Foreign exchange firms may not perform exchange transactions directly with BM. Corporations registered as foreign exchange centers at the National Banking and Securities Commission (NBSC) do not require an authorization by the MOF and may perform the following transactions: purchase and sell foreign currencies through bank account funds transfers; purchase and sell bills, minted pieces, and common metals with legal tender in the issuer country, traveler’s checks in foreign currency, and coin blanks; and purchase documents on demand denominated and payable in foreign currency, payable by financial entities, up to the equivalent of US$10,000 in domestic currency.
Foreign exchange centers must only sell these documents to credit institutions or securities firms.

In addition to the transactions of foreign exchange centers, foreign exchange firms may purchase and charge documents on demand denominated and payable in foreign currency or payable by financial entities, without a limit per document; sell documents on demand and payable in foreign currency issued by foreign exchange firms payable by Mexican credit institutions, branches, and agencies abroad and foreign banks; and perform other operations authorized by BM, such as shipping and receiving services of funds transfers in domestic and foreign currency, within Mexico or abroad; receiving service payments on behalf of third parties, in domestic or foreign currency, without assuming direct or contingent obligations with those who perform the payments; and acquiring liabilities from funding received from shareholders, national and foreign financial institutions, traveler’s check suppliers, and furniture and equipment suppliers necessary for their business.

</tbody>
</table>

On February 21, 2017, the FEC announced a new intervention mechanism through a foreign exchange hedging program. The foreign exchange hedging is auctioned through non-deliverable forwards. The use of these forwards implies the settlement is in pesos. Currently, the FEC authorized up to US$20 billion of non-deliverable forwards, of which an outstanding amount of US$5.5 billion is placed in six different maturities of up to 12 months. At its maturity, each outstanding amount must be rolled over under a rollover auction until the FEC instructs otherwise. As a result of this program, the first auction was held March 6, 2017, for US$1 billion with six different maturities. Subsequently, on October 25, 2017, the FEC announced that as part of the foreign exchange hedging program a further US$4 billion would be auctioned during the months of October, November, and December bringing the total amount to US$5 billion. On December 26, 2017, the FEC announced that a further US$500 million would be auctioned as part of the foreign exchange hedging program bringing the total amount to US$5.5 billion.

<td>Yes.</td>
</tr>
</tbody>
</table>

There are no restrictions on participation in the interbank market: all commercial and development banks may participate. There are no limits on the bid-ask spreads and commissions of market participants. In the exchange interventions, BM operates directly with commercial banks. Participants present the market rates to buy US dollars, and BM decides whether to make the transactions, which must be in line with prevailing market rates. There are 48 commercial banks that participate in the interbank market.

<table>

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Resident Accounts**

**Foreign exchange accounts permitted**  Yes.

**Held domestically**  Yes. Regulation No. 3/2012 establishes that credit institutions can receive demand deposits in foreign currency in payable accounts in Mexico, provided the holders of such accounts are: (1) natural persons domiciled in the 20 km zone that limits with the northern border of Mexico or domiciled in the states of Baja California or Baja California Sur; (2) legal entities domiciled within national territory; or (3) official representations of foreign governments, international organizations, and similar institutions; foreign citizens who provide services in such agencies, institutions, as well as foreign correspondents who are accredited in Mexico before the competent authorities.

Commercial banks are authorized to maintain term deposits in foreign currency, of companies domiciled in Mexico, payable abroad. Under the general provisions referred to in Article 115 of the CIL, issued by the MOF (SHCP acronym in Spanish), there are limits on the following transactions: (1) purchases; (2) receipt of deposits; (3) receipt of payment for credits and services; and (4) cash transfers or allocation of funds in US dollars by credit institutions. These provisions aim to establish controls with respect to cash transactions in US dollars in credit institutions, to avoid introducing into the banking system resources whose origin may be related to illegal activities and the economic resources of organized crime.

On April 1, 2016, the BM developed the interbank payment system in US dollars (SPID), in Provision No. 4/2016, Rules of the interbank payment system in dollars, which establishes that the SPID aims to provide to the Participants with means to process interbank electronic transfers between money deposit accounts in US dollars of the legal entities and domiciled in the national territory that are clients of the Participants.
Authorization from the MOF is required, with the opinion of the National Insurance and Bonding Commission (CNSF acronym in Spanish) and the BM, for insurance institutions and insurance mutual companies to make term deposits, titles, or securities in foreign currency in foreign financial entities that are not subject to the rules for the investment of technical reserves of mutual insurance institutions and companies.

Domestic regulations do not prohibit residents from opening accounts abroad in Mexican pesos.

There are no limitations on the convertibility to foreign currency from domestic currency accounts.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Credit institutions may receive deposits in foreign currency with or without a checkbook in accounts payable in Mexico from official representations of foreign governments and international organizations, and similar institutions, foreign citizens who provide services in such offices, agencies, and institutions, or serve as foreign correspondents accredited by Mexico through the corresponding competent authorities.

Credit institutions can open deposit accounts in national currency to natural and legal persons. Special savings accounts and accounts of levels 1 and 2 of deposits may only be opened for natural persons. Development banks may open accounts to natural persons if their organic laws permit it, such as the National Bank of the Army, Air Force and Navy, the Welfare Bank, the National Bank of Foreign Trade, the National Financial Institution, and the National Bank of Public Works and Services.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Import licenses from the Ministry of Economy (MOE) are required for 117 out of the 12,578 tariff items subject to general import duties, including 25 tariff lines related to special operations (Eighth Rule). Under this Rule registered manufacturing industries may import (zero duty but under the corresponding license) finished goods to allow them to fulfill their contracts and comply with manufacturing programs in which they are registered. Licenses are also required for 19 tariff lines for used vehicles, certain imports under the trade agreement that require a license to receive tariff preference, and industrial raw diamonds imported under the Kimberley Process Certification Scheme. The Agreement by which the MOE issued rules and general criteria on foreign trade subjects certain goods to automatic import permit: footwear products, steel, slot machines, and textile and clothing products. Once the requirements have been met, the corresponding permit is issued. Import licenses are generally valid for one year, but for certain sensitive products and used clothing, they are valid only for three months. The license may be renewed, depending on the importer’s performance. Import licenses are not required for used vehicles imported by the diplomatic or consular missions, or by personnel of the Mexican Foreign Service, for station-wagon-type (family) vans (“motor home”), vehicles for physically challenged persons, funeral vehicles or funeral carriages and coaches, go-karts, or collector’s vehicles (at least 30 years old), among others. Imports of other used cars require MOE approval. Only special-purpose vehicles not made locally are allowed for import. Effective January 10, 2018, the Agreement which establishes the classification and codification of goods, and products whose import, export, admission, or exit is subject to sanitary regulation by the Ministry of Health was amended to regulate the import and export of two precursor substances of synthetic drugs. Effective May 25, 2018, the Agreement which establishes the classification and codification of goods, and products whose import and export are subject to regulation by the Ministry of Environment and Natural Resources was amended to regulate the import and export of endangered species listed in the appendices to the CITES. Effective July 12, 2018, the Agreement which establishes the classification and codification of goods, and products whose import and export are subject to regulation by the Ministry of Agriculture, Animal Breeding, Rural Development, Fisheries and Food was amended to regulate the importation of pork. The Agreement by which the MOE issues rules and general criteria on foreign trade was modified several times, among other things to add the Mexican Official Standards concerning specifications that must be met to import oil products, terminal equipment that is connected or interconnected through wire access to a public telecommunications network; and radio communication equipment that has the digital interface, respectively, as well as subject to the presentation of an automatic import notice to some steel products.
The imports of some endangered species, stickers known as “Garbage Pail Kids,” certain types of pesticides and insecticides, and some narcotic drugs and psychotropic substances are prohibited, as well as weapons and other goods from countries that are under sanctions by the UNSC.

Other nontariff measures are required, such as: previous licenses for oil products; those related to national security (weapons and ammunition); also some related to human health, ecological and environmental regulations; animal and plant health certifications; restrictions on drugs, narcotic substances, and their inputs; nuclear energy and toxic and hazardous materials, apply to about 3,304 tariff codes out of the 12,597 tariff items under the general import tariff. About 3,056 tariff codes must comply with the standards specified in selected norms for consumer protection and/or information. The Agreement which establishes the classification and codification of oil and oil-based products is set whose import and export are subject to prior approval by the Ministry of Energy.
