1 These chapters are available on AREAER Online (www.elibrary-areaer.imf.org/). The term “country,” as used in this publication, does not in all cases refer to a territorial entity that is a state as understood by international law and practice; the term also covers some territorial entities that are not states but for which statistical data are maintained and provided internationally on a separate and independent basis.

Preface

The *Annual Report on Exchange Arrangements and Exchange Restrictions* has been published by the IMF since 1950. It draws on information available to the IMF from a number of sources, including that provided in the course of official staff visits to member countries, and has been prepared in close consultation with national authorities.

This project was coordinated in the Monetary and Capital Markets Department by a staff team led by Annamaria Kokenyne under the overall supervision of Gaston Gelos, and comprising Ricardo Cervantes, Salim M. Darbar, Gergana Gencheva, Ingibjoerg Gudbjartsdottir, Thorvardur Tjoervi Olafsson, Gurnain Kaur Pasricha, Svetlana Popova, Yi Xue, Hanqing Ye, and Viktoriya Zotova (external consultant). It draws on the specialized contributions of that department (for specific countries), with assistance from staff members of the IMF’s five area departments, together with staff of other departments. The report was edited and produced by Rumit Pancholi, Hyoun Woo Park, and Lucy Scott Morales of the Communications Department.

Overview

This is the 70th issue of the Annual Report on Exchange Arrangements and Exchange Restrictions (AREAER), which provides a yearly description of the foreign exchange arrangements, exchange and trade systems, and capital controls of all IMF member countries. The AREAER reports on restrictions in effect under Article XIV, Section 2, of the IMF’s Articles of Agreement in accordance with Section 3 of Article XIV, which mandates annual reporting on such restrictions. It also provides information relating to paragraph 25 of the 2012 Integrated Surveillance Decision, which restates the obligation of each member country under the IMF’s Articles of Agreement to notify the IMF of the exchange arrangement it intends to apply and any changes in that arrangement.

The AREAER provides a description of global exchange and trade systems. It covers restrictions on current international payments and transfers and multiple currency practices (MCPs) subject to the IMF’s jurisdiction in accordance with Article VIII, Sections 2(a) and 3, in addition to those maintained under Article XIV of the IMF’s Articles of Agreement. The report also provides information on the operation of foreign exchange markets, controls on international trade, controls on capital transactions, and measures implemented in the financial sector, including prudential measures. In addition, the AREAER reports on exchange measures imposed by member countries solely for national and/or international security reasons, including those reported to the IMF in accordance with relevant decisions by the IMF Executive Board.

The AREAER provides information, relating to paragraph 25 of the 2012 Integrated Surveillance Decision, on exchange rate arrangements of member countries: the de jure arrangements as described by the countries and the de facto arrangements, which are classified into 10 categories (Table 1). This classification is based on the information available on members’ de facto arrangements, as analyzed by IMF staff, which may differ from countries’ officially announced (de jure) arrangements. The methodology and the characteristics of the categories are described in the Compilation Guide included in this report.

Note: This methodology became effective February 2, 2009, and reflects an attempt to provide greater consistency and objectivity of exchange rate classifications across countries and to improve the transparency of the IMF’s bilateral and multilateral surveillance in this area.

---

1 In addition to the 189 IMF member countries, the report includes information on Hong Kong SAR (People’s Republic of China) as well as Aruba and Curaçao and Sint Maarten (both in the Kingdom of the Netherlands).
4 The information on exchange restrictions and MCPs consists of verbatim quotes from each country’s most recent published IMF staff report as of December 31, 2018. In cases in which the information is drawn from IMF staff reports that have not been made public, the quotes have been included with the express consent of the member country. In the absence of such consent, the relevant information is reported as “not publicly available.” Any changes to these restrictions and MCPs implemented after the relevant IMF report has been issued will be reflected in the subsequent issue of the AREAER that covers the year during which the IMF staff report with information on such changes is issued.
5 The information on exchange measures imposed for security reasons is based solely on information provided by country authorities.
Several tools help navigate and interpret the findings of this report. A single table compares the characteristics of the exchange and trade systems of all IMF member countries: Summary Features of Exchange Arrangements and Regulatory Frameworks for Current and Capital Transactions in IMF Member Countries. The Country Table Matrix lists the categories of data reported for each country, and the Compilation Guide includes definitions and explanations used to report the data.

The AREAER is available online. Starting January 1, 2020, access to AREAER online has been made freely available to all; previously a subscription was required. The AREAER Online database includes the overview and detailed information for each of the 189 member countries and the three territories. In addition, AREAER Online contains data published in previous issues of the AREAER and is searchable by year, country, and category of measure; it also allows cross-country comparisons for time series.

In general, the 2019 AREAER includes a description of exchange and trade systems as of December 31, 2018. However, any changes made to member countries’ exchange rate arrangements before April 30, 2019, are reflected in the report, as are some other developments through August 31, 2019.

**Overall Developments**

The liberalization of foreign exchange transactions continued during the reporting period against the backdrop of softer global growth—in particular in the second half of 2018—accompanied by weakening net capital flows to emerging market economies. The weaker expansion occurred in both advanced and emerging market and developing economies. In part, this resulted from escalation of US-China trade tensions, macroeconomic stress in large emerging market economies, tighter credit policies in China, and the global financial tightening associated to some extent with steps toward normalization of monetary policy in some advanced economies.

Financial conditions tightened in emerging market economies in 2018 before recovering in early 2019. Much of 2018 saw capital outflow pressures in these economies. Most major asset markets sold off in late 2018—except safe haven assets—driven in part by investors’ expectations of US monetary policy normalization and concerns about weakening global economic activity against a backdrop of lingering trade tensions and policy uncertainty. Many emerging market economies responded at the time by allowing the exchange rate to weaken, although several also raised interest rates and intervened in the foreign exchange market to stem rapid depreciation. Some countries used capital flow management measures, macroprudential measures, and trade measures. Portfolio flows rebounded in early 2019 as market sentiment improved and expectations about the pace of US monetary policy tightening were scaled back.

The 2019 AREAER documents the following major trends and significant developments:

- Changes in de facto exchange rate arrangements during the reporting period indicate a modest shift toward more flexible or less clearly defined exchange rate regimes, likely motivated by external shocks and heightened uncertainty in the economic environment. This change is more evident in countries reclassified to the residual category (other managed arrangement) as most of them had tightly managed exchange rate arrangements during the previous reporting period. Given balance of payments challenges and depreciation pressure on their currencies, central banks were forced to allow more flexibility. At the same time, but slightly less remarkable, there was a shift toward less exchange rate flexibility by some countries, which defended their currencies and moved them to a more stable regime.

---

6 Aruba, Curaçao and Sint Maarten, and Hong Kong SAR.
8 The number of yearly changes reported by each country can be compared directly with the previous two reporting periods but not with years before that because of the update to the format of the yearly changes table, which was introduced with the 2017 publication (see 2017 AREAER).
9 The date of the latest reported development is indicated as the position date for each country in the country chapters in the AREAER Online database. A few countries reported developments beyond August 2019. The exchange rate classification for all countries reflects the status as of April 30, 2019, regardless of the position date.
• The share of countries that target a monetary aggregate increased as some countries moved away from exchange rate targeting. The number of member countries anchored to a composite of currencies and those in other monetary policy frameworks fell relative to the previous reporting period.

• More countries reported using derivatives as an alternative instrument to intervene in the foreign exchange market. Among the instruments most frequently used were options, nondeliverable forwards, and interventions through swaps triggered when the exchange rate moves above or below a specified range with respect to the previous day’s closing rate.

• The move to modernize and update foreign exchange market structures continued, including through expanding the scope of market activities. Most notably, more countries allowed greater exchange rate flexibility in the interbank and retail markets, and among member countries that maintain dual and multiple exchange rate structures, several took action to reduce the deviation between official and market exchange rates.

• The number of IMF member countries accepting the obligations of Article VIII, Sections 2(a), 3, and 4, increased by 1 in 2018 to 172 at the end of the year. Correspondingly, the number of members who make use of the transitional arrangement under Article XIV dropped by 1 to 17. Of these 17 members, 3 maintain no restrictions but have not yet decided to accept the obligations under Article VIII.

• The composition of countries maintaining restrictive exchange measures changed only marginally, while the overall number of countries with such measures remained unchanged in 2018. One member removed previously identified restrictive measures and maintains an exchange system free of exchange restrictions and MCPs; one other member with an exchange system previously free of restrictions introduced a restrictive exchange measure in 2018. Eleven new measures were introduced or newly identified, which were partly offset by the elimination of some previous measures, increasing the overall number of restrictive exchange measures by 6 in 2018—mostly by Article XIV countries.

• Members continued toward liberalization of current account transactions. Easing measures for payments and proceeds for invisible transactions and current transfers continued to dominate, similarly to the previous reporting period. The developments in the regulatory framework for trade were more balanced, with easing measures only moderately exceeding tightening measures for imports and import payments and for exports and export proceeds.

• IMF members continued to liberalize capital transactions but at a somewhat slower pace than in the previous period against a backdrop of trade tensions, slowing global growth, and lower capital flows. Measures eased both inflows and outflows, with easing of outflows dominating as countries that introduced outflow controls during recent crisis episodes removed them because the economy recovered. However, the number of measures, in particular easing outflows, was markedly lower compared with the previous reporting period, probably reflecting the uncertain global outlook during most of 2018. While the overall number of measures was lower, actions were taken in 2018 by a larger number of economies than in 2017.

• Developments in the financial sector indicate that a significant share of post-global-financial-crisis reforms have already been implemented, since easing measures exceeded tightening measures for the second reporting period in a row. Liberalization of controls on capital flows continued, particularly regarding easing restrictions on capital outflows. Reserve requirements continued to be used extensively to implement monetary policy and financial stability objectives and as policy responses to capital flow volatility. Several countries introduced or continued to phase in the liquidity coverage ratio for commercial banks and also introduced or tightened measures to address their foreign-exchange-related risks. Measures regarding institutional investors were mostly eased, in particular with respect to capital controls.

The remainder of this overview highlights the major developments covered in the individual country chapters that are part of this report.

Developments in Exchange Arrangements

This section documents major changes and trends in the following related areas: exchange rate arrangements, intervention, monetary anchors, and the operation and structure of foreign exchange markets. It also reports on significant developments with respect to exchange taxes, exchange rate structures, and national currencies.
There are five tables within this section. Table 2 summarizes the detailed descriptions in the country chapters by reporting each IMF member country’s monetary policy framework as indicated by country officials and the classification of their de facto exchange rate arrangements. Table 3 breaks down countries’ de facto exchange rate arrangements for 2011–19. Table 4 highlights changes in the reclassification of the de facto exchange rate arrangements between May 1, 2018, and April 30, 2019. Table 5 outlines IMF member countries’ monetary policy frameworks as reported by country authorities and exchange rate anchors for 2011–19, and Table 6 reports the foreign exchange market structure among the membership for 2016–19.

**Exchange Rate Arrangements**

Fluctuations in exchange rate movements intensified under capital outflow pressure in emerging markets and a worsening global economic environment, particularly during the second half of 2018. Hence, a number of de facto exchange rate regimes were reclassified for countries that used the exchange rate as a shock absorber, allowing the exchange rate to be more flexible, and for those that moved to a more stable regime. In contrast to the previous AREAER, changes in de facto exchange rate arrangements during this reporting period indicated a slight move toward more flexible or less clearly defined exchange rate regimes. Of the 42 countries in categories “crawl-like” and “stabilized,” 8 (19 percent) were reclassified to “floating” and “other managed” (compared with 3 of 34 countries, or 9 percent, during the previous reporting period). At the same time, of the 48 countries that at the end of April 2018 were classified as “floating” or the residual “other managed,” 8 (17 percent) were reclassified between May 1, 2018, and April 30, 2019, to “crawl-like” and “stabilized” (compared with 11 of 56 countries, or 20 percent, during the previous reporting period).

The number of reclassifications was higher than during the previous reporting period (Figure 1). The trend of increasing reclassifications to soft pegs observed in previous years reversed. The share of countries whose exchange rate arrangement was reclassified to a soft peg fell by 27 percentage points from its high of 86 percent in the previous period. In contrast, reclassifications to (1) the residual other managed category rose by 21 percentage points, from 5 percent, and (2) floating had a modest increase of 6 percentage points, from 9 percent in the previous AREAER.

**Figure 1. Reclassification of De Facto Exchange Rate Arrangements, 2015–19**

*(Percent of total reclassifications as of April 30)*

![Graph showing reclassification of de facto exchange rate arrangements, 2015–19](source: AREAER database)

This section summarizes developments between May 1, 2018, and April 30, 2019.
The changes in individual categories are as follows:

- **Other managed arrangements**—The number of countries classified as “other managed” tends to increase during volatile foreign exchange market conditions because it becomes difficult to maintain a more clearly defined exchange rate arrangement. Although the number of countries in this residual category remained at 13 (Figure 2; Table 3), there were 14 changes from May 2018 through April 2019. Seven countries abandoned this category: three were reclassified to a stabilized arrangement (Democratic Republic of the Congo, Kyrgyz Republic, Sudan), two to a crawl-like arrangement (Algeria, Liberia), and two to floating (Belarus, Zimbabwe). Similarly, seven countries were added: four were reclassified from a stabilized arrangement (Angola, Kenya, Myanmar, Pakistan), two from a crawl-like arrangement (Afghanistan, China), and one from floating (Mongolia). The percentage of countries in this category remained similar to the previous period.

- **Floating arrangement**—The number of countries classified as floating remained at 35, with eight changes in the group’s composition. Four abandoned this category: 2 were reclassified to a stabilized arrangement (Armenia, Romania), 1 to a crawl-like arrangement (Paraguay), and 1 to “other managed” (Mongolia). Four countries were added: 2 from the residual other managed (Belarus, Zimbabwe), 1 from a stabilized arrangement (Indonesia), and 1 from a crawl-like arrangement (Costa Rica).

- **Soft pegs**—The total number of countries with soft pegs remained the same as in the previous AREAER. This group had the majority of reclassifications from May 2018 through April 2019, with most of the changes in crawl-like and stabilized arrangements. Countries with soft pegs continue to make up the single largest type of exchange rate arrangement, accounting for 46.4 percent of all members.

  - **Crawl-like arrangements**—The number of countries with crawl-like arrangements increased by 3, to 18. This category had the most changes within the soft peg group. Eight countries were added: 5 were reclassified from a stabilized arrangement (Ethiopia, Singapore, South Sudan, Tanzania, Uzbekistan), 2 from “other managed” (Algeria, Liberia), and 1 from floating (Paraguay). Five countries exited this classification: 2 moved to a stabilized arrangement (Islamic Republic of Iran, Serbia), 2 to “other managed” (Afghanistan, China), and 1 met the criteria for a floating arrangement (Costa Rica). Countries adopting stabilized and crawl-like arrangements often adjust their exchange rates in response to external events, including differences in inflation across countries, capital flow pressures, and new trends in world trade. As a result, they are often reclassified to other categories within the soft peg group.

  - **Stabilized arrangements**—The number of countries with stabilized arrangements decreased by 2, to 25. Eight countries were added: 3 from “other managed” (Democratic Republic of the Congo, Kyrgyz Republic, Sudan), 2 from floating (Armenia, Romania), 2 from a crawl-like arrangement (Islamic Republic of Iran, Serbia), and 1 from a conventional peg arrangement (Morocco). Ten countries left the group: 4 to “other managed” (Angola, Kenya, Myanmar, Pakistan), 5 to crawl-like (Ethiopia, Singapore, South Sudan, Tanzania, Uzbekistan), and 1 to floating (Indonesia). Two countries were reclassified twice during this reporting period, reverting to a stabilized arrangement (Guatemala, Tajikistan). The category “stabilized arrangement” remained the second largest among the soft pegs, with 28 percent.

  - **Conventional pegs**—The number of countries in this category dropped by 1, to 42. Morocco left the group for “stabilized,” as it changed its de jure arrangement from “conventional peg” to “pegged exchange rate within horizontal bands” in January 2018, when the fluctuation band for the dirham was increased to ±2.5 percent. The conventional peg arrangement holds the largest share among soft pegs, with 47 percent, which has been slowly decreasing from its peak of 58 percent since April 2016.

  - **Pegged exchange rates within horizontal bands**—Only Tonga maintains this arrangement. Three additional countries have de jure pegged exchange rates within horizontal bands, but two have a de facto stabilized arrangement (Maldives, Morocco), and one has a de facto other managed arrangement (Syria).

---

11 Armenia was reclassified retroactively to stabilized from a floating arrangement in January 2017. Romania was reclassified retroactively to crawl-like from floating in July 2016 and to stabilized from crawl-like in January 2018. Retroactive changes are reflected as of January 1, 2018, corresponding to the first day of the period covered in this year’s AREAER.

12 Mongolia was reclassified twice—two to “crawl-like” in January 2018 and to “other managed” in September 2018.

13 Uzbekistan was reclassified twice—to “other managed” in May 2018 and to “crawl-like” in July 2018.

14 Armenia and Romania were reclassified retroactively, overriding classifications in previous AREAERs. See footnote 11.

15 Guatemala was reclassified twice—to “crawl-like” in January 2018 and back to “stabilized” in September 2018.

16 Tajikistan was reclassified twice—to “other managed” in April 2018 and back to “stabilized” in July 2018.
• **Free floating**—The number of countries with free-floating arrangements remained at 31.

• **Hard pegs (no separate legal tender and currency boards)**—The number of countries in this category remained unchanged at 24. Changes in this category are rare, because countries with such arrangements tend to maintain their exchange rate policies unless their economies undergo large structural changes that result in an exit.

**Figure 2. Exchange Rate Arrangements, 2010–19**

(Number of countries as of end-April)

**Table 2. De Facto Classification of Exchange Rate Arrangements, as of April 30, 2019, and Monetary Policy Frameworks**

The classification system is based on the members’ actual, de facto arrangements as identified by the IMF staff, which may differ from their officially announced, de jure arrangements. The system classifies exchange rate arrangements primarily on the basis of the degree to which the exchange rate is determined by the market rather than by official action, with market-determined rates being on the whole more flexible. The system distinguishes among four major categories: hard pegs (such as exchange arrangements with no separate legal tender and currency board arrangements); soft pegs (including conventional pegged arrangements, pegged exchange rates within horizontal bands, crawling pegs, stabilized arrangements, and crawl-like arrangements); floating regimes (such as floating and free floating); and a residual category, other managed. This table presents members’ exchange rate arrangements against alternative monetary policy frameworks to highlight the role of the exchange rate in broad economic policy and illustrate that different exchange rate regimes can be consistent with similar monetary frameworks. The monetary policy frameworks are as follows:

**Exchange rate anchor**

The monetary authority buys or sells foreign exchange to maintain the exchange rate at its predetermined level or within a range. The exchange rate thus serves as the nominal anchor or intermediate target of monetary policy. These frameworks are associated with exchange rate arrangements with no separate legal tender, currency board arrangements, pegs (or stabilized arrangements) with or without bands, crawling pegs (or crawl-like arrangements), and other managed arrangements.

**Monetary aggregate target**

The monetary authority uses its instruments to achieve a target growth rate for a monetary aggregate, such as reserve money, M1, or M2, and the targeted aggregate becomes the nominal anchor or intermediate target of monetary policy.

**Inflation-targeting framework**

This involves the public announcement of numerical targets for inflation, with an institutional commitment by the monetary authority to achieve these targets, typically over a medium-term horizon. Additional key features normally include increased communication with the public and the markets about the plans and objectives of monetary policymakers and increased accountability of the central bank for achieving its inflation objectives. Monetary policy decisions are often guided by the deviation of forecasts of future inflation from the announced inflation target, with the inflation forecast acting (implicitly or explicitly) as the intermediate target of monetary policy.

**Other**

The country has no explicitly stated nominal anchor; rather, it monitors various indicators in conducting monetary policy. This category is also used when no relevant information on the country is available.

Note: If the member country’s de facto exchange rate arrangement has been reclassified during the reporting period, the date of change is indicated in parentheses (month, year).

CEMAC = Central African Economic and Monetary Community; ECCU = Eastern Caribbean Currency Union; EMU = European Economic and Monetary Union; WAEMU = West African Economic and Monetary Union.

1 Includes countries that have no explicitly stated nominal anchor, but rather monitor various indicators in conducting monetary policy.
2 The member participates in the European Exchange Rate Mechanism (ERM II).
3 Within the framework of an exchange rate fixed to a currency composite, the Bank Al-Maghrib adopted a monetary policy framework in 2006 based on various inflation indicators, with the overnight interest rate as its operational target to pursue its main objective of price stability.
4 The country maintains a de facto exchange rate anchor to a composite.
5 The country maintains a de facto exchange rate anchor to the US dollar.
6 The country maintains a de facto exchange rate anchor to the euro.
7 The central bank is in transition toward inflation targeting.
8 The authorities reported that their monetary policy framework is referred to as inflation targeting “lite.”
9 The exchange rate arrangement or monetary policy framework was reclassified retroactively, overriding a previously published classification.
10 The exchange rate arrangement was reclassified twice during this reporting period.
11 Currently the Central Bank of Somalia does not have a monetary policy framework.

Source: AREAER database.

1. Includes 189 member countries and three territories: Aruba, Curaçao and Sint Maarten, and Hong Kong SAR.
2. The exchange rate arrangement was reclassified retroactively, overriding a previously published classification for the entire reporting period or part of the period.
3. Cells in the “Previous arrangement” column are blank if there was a subsequent reclassification during the reporting period.

**Monetary Anchors**

The exchange rate remained the anchor for monetary policy for fewer than half of member countries—41.7 percent (Table 5). There were two changes in official monetary anchors, compared with one in the previous reporting period: one country (Zimbabwe) left the group of countries anchored to the US dollar (38) and moved to a monetary aggregate target. One country moved from the group of countries anchored to a composite (8) to anchor to the US dollar. There were no changes in other groups of members anchored to the euro (25) or to another single currency (9) (see Table 2).

Monetary anchors are defined as the main intermediate target the authorities pursue to achieve their policy goals (which, overwhelmingly, is price stability). The inventory of monetary anchors is based mainly on members’ declarations in the context of the yearly AREAER update or Article IV consultations and is not necessarily consistent with the de facto exchange rate arrangement.
Fifty-four member countries report an officially announced fixed exchange rate policy—which implies the use of the exchange rate as the unique monetary anchor, with two exceptions. Although the official (de jure) exchange rate regime of both Samoa and the Solomon Islands is a peg against a basket of currencies, the monetary policy framework was reported to comprise a mix of anchors, including the exchange rate. Among the 66 countries with de facto floating exchange rate arrangements—floating or free floating—the monetary anchor varies among monetary aggregates (5), inflation targeting (35), and other (26, including the 19 European Economic and Monetary Union [EMU] countries). Twenty-one countries implementing soft pegs and other managed arrangements target monetary aggregates. Countries with either stabilized or crawl-like arrangements (43) report reliance on a variety of monetary frameworks, including monetary aggregates and inflation-targeting frameworks. Other managed arrangements are split among exchange rate anchors (2), monetary aggregate targets (6), and other monetary policy frameworks (5).

- The share of IMF members with the exchange rate as the main policy target declined slightly, to 41.7 percent. Countries with hard pegs and soft pegs make up 97.5 percent of this group. Three currency unions—the Central African Economic and Monetary Community, Eastern Caribbean Currency Union, and West African Economic and Monetary Union—have exchange rate anchors for their respective common currency.

- Although the US dollar maintained its position as the dominant exchange rate anchor, the share of countries using it as an anchor has been steadily decreasing, from 26.5 percent in 2010 to 19.8 percent in 2018 and 2019. From April 2018 to April 2019, there were two changes in this group. One country abandoned the anchor to the US dollar and reported a change in the monetary policy framework to “monetary aggregate target” (Zimbabwe) in the context of adopting a more flexible exchange rate arrangement. One country switched its anchor currency to the US dollar and abandoned the anchor to a composite (Islamic Republic of Iran).

- The share or composition of countries using an exchange rate anchored to the euro remained unchanged at 13.0 percent. Countries whose currencies are anchored to the euro generally have historical ties with European countries—for example, the Communauté Financière d’Afrique (CFA) franc area countries—are part of the European Union (EU), or have strong trade relations with western Europe, including central and eastern European countries—for example, Bulgaria, Montenegro, and North Macedonia.

- Nine countries maintain an exchange rate anchored to another single currency. Three of these countries (Kiribati, Nauru, Tuvalu) use the Australian dollar as their legal tender, and one (Brunei Darussalam) has a currency board arrangement with the Singapore dollar. The remaining five have conventional pegged arrangements: three (Eswatini, Lesotho, Namibia) with the South African rand and two (Bhutan, Nepal) with the Indian rupee. Half the countries in this group are landlocked, bordering either partially or exclusively the country whose currency they use as their exchange rate anchor. The anchor currency is typically freely usable in the country and is often legal tender.

- Eight countries anchor their exchange rate to a currency composite. Three track the special drawing right (SDR) as the sole currency basket or as a component of a broader reference basket (Botswana, Libya, Syria). Morocco tracks a euro and US dollar basket, and the remaining four countries do not disclose the composition of their reference currency baskets (Fiji, Kuwait, Singapore, Vietnam).

Most IMF member countries, representing the overwhelming share of global output, are split among monetary aggregate targeting, inflation targeting, and “other” (which includes monetary policy not committed to a specific target).

- The number of countries targeting a monetary aggregate increased by 2, to 26, compared with the previous reporting period. However, there were four changes: one country switched from monetary aggregate targeting to “other monetary framework” (Tajikistan), and three countries moved to a monetary aggregate target, two from “other monetary framework” (Papua New Guinea, Samoa) and one from an exchange rate anchored to the US dollar (Zimbabwe). This category does not include any country with a free-floating exchange rate arrangement. In fact, monetary aggregates are often the choice of economies with less-developed financial markets and managed exchange rates. The objective of the arrangement is to influence consumer prices and, eventually, asset prices through the control of monetary aggregates. Reserve money is often used as the operational target to control credit growth through the credit multiplier.
• The number of countries that directly target inflation was unchanged at 41, and there were no changes reported in this category. As in the previous AREAER, Jamaica described its monetary policy framework as inflation targeting "lite" during this reporting period. The countries in this group are mostly middle income but include some advanced economies as well. Of these, 35 have either floating or free-floating exchange rate arrangements, policy frameworks that require considerable monetary policy credibility to make up for the loss of transparent intermediate targets. The central bank is responsible for setting the inflation target for 19 of the 41 countries in this category, and in 16 countries the central bank and the government jointly set the targets. More than half of the countries (24) have a target with a tolerance band, with only one country targeting core inflation. Most of the countries are in line with the inflation-targeting regime's commitments to transparency and accountability, 39 and 34 countries, respectively.

• The “other monetary policy framework” category total shrank by 1 to 45. The number of countries that are not committed to a specific target (the “other” column in Table 2) was affected by three changes during the reporting period: one country (Tajikistan) reported the use of a multiple-indicator approach to monetary policy, and two countries (Papua New Guinea, Samoa) moved to a monetary aggregate target. A few countries in this category are in transition to an inflation-targeting framework (Kenya, Mongolia, Mozambique, Sri Lanka, Tajikistan, Tunisia, Uzbekistan). This category includes many of the largest economies, such as the euro area and the United States, where the monetary authorities have sufficient credibility to implement monetary policy without a specific monetary anchor. It is also used as a residual classification for countries for which no relevant information is available and for those with alternative monetary policy frameworks not categorized in this report.

Foreign Exchange Interventions

The IMF staff regularly assesses whether the frequency of foreign exchange intervention is consistent with de facto free-floating arrangements or whether classification as a soft peg is appropriate (see the Compilation Guide). These assessments draw on information that is publicly available, information reported to the IMF by member countries, market reports, and other sources, including information obtained during official staff visits to member countries.

Intervention purpose

In general, central banks intervene to build reserves or to dampen excessive market volatility, but they may also intervene in the foreign exchange market to fight depreciation pressure on the country's currency, which may have contributed to the reduction in reserves in emerging market and developing economies during the second half of 2018. During this period, some countries’ currencies depreciated substantially—most notably Angola, Argentina, Sudan, Venezuela, and, to a lesser extent, Haiti, Iceland, Kazakhstan, Liberia, Pakistan, Sri Lanka, Tunisia, Turkey, and Zambia. From January 2019 through April 2019, among these countries, a few currencies continued to depreciate rapidly (Argentina, Haiti, Venezuela), some substantially reduced the pace of depreciation (Angola, Kazakhstan, Liberia, Turkey) or stabilized (Pakistan, Sudan, Zambia), and others showed modest appreciation (Colombia, Iceland, Sri Lanka, Tunisia).

Intervention techniques

IMF members typically conduct foreign exchange interventions in the spot foreign exchange market, either by directly contacting market participants (all or only a selection—for example, market makers) or through foreign exchange auctions (for more information on auctions, see the Foreign Exchange Markets section of this report). However, foreign exchange interventions occasionally also take place in the forward or options markets or through verbal interventions.

18 Inflation targeting “lite” is viewed as a transitional regime that countries use before obtaining a legal mandate to operate a full-fledged inflation-targeting regime.

19 Inflation targeting aims to address the problem of exchange rates and monetary aggregates that do not have a stable relationship with prices, making intermediate targets less suitable for inflation control.
Preannounced programs of future purchases and/or sales of foreign exchange typically are counted as one intervention in the foreign exchange market for the purpose of the de facto classification, with the assumption that the market prices the new information on the day the program is announced.\footnote{Very small, retail-type transactions are disregarded.} To avoid influencing market expectations for the exchange rate, the program of interventions should indicate in advance the nature, frequency, and size of the central bank’s foreign exchange transactions. Among the mechanisms currently used in preannounced intervention programs, countries may accumulate reserves following a preannounced calendar of auctions (Albania) or conduct purchases and sales of foreign exchange for the government pension fund (Norway). Similarly, Russia bases its volume of intervention on the amount of oil and gas revenue in the federal budget. As long as the actual Urals price exceeds the benchmark oil price of US$40 a barrel (in real 2017 terms, adjusted for US inflation), the Ministry of Finance purchases foreign exchange through the Central Bank of Russia equal to the amount of additional oil and gas revenue. If actual prices drop below this level, the Ministry of Finance sells foreign exchange equal to the amount of the resulting shortfall in oil and gas revenue. The size of these operations is announced at the beginning of every month, and purchases are evenly distributed within the month. Because of depreciation pressures, the Central Bank of Russia suspended foreign exchange purchases from August to December 2018. All deferred purchases were to be carried out regularly over 36 months starting in February 2019.

Some countries use derivatives as an alternative instrument to intervene in the foreign exchange market. In January 2019, the National Bank of Georgia introduced foreign exchange put options to accumulate reserves, which are sold via auctions. The Central Bank of Mexico uses non-deliverable forwards with maturity of up to 12 months and settled in pesos. Similarly, the Central Bank of Colombia can intervene in the foreign exchange market through (1) direct uniform price auction sales of put or call options, (2) direct uniform price or discriminatory price auction sales of foreign exchange with three minutes of bids, and (3) spot sales of foreign exchange by means of foreign exchange swap contracts at rates set by the central bank in auctions or over the counter. The Bank of Korea can also intervene in the market with its funds and funds from the Foreign Exchange Equalization Fund when it is deemed necessary for market stability. The Central Reserve Bank of Peru can intervene through dollar-indexed bonds, foreign exchange swaps, and repurchase agreements. The Central Bank of Brazil can also intervene in the derivatives market using foreign exchange swaps. Other countries, including Albania, Armenia, Denmark,\footnote{Denmark has a conventional peg arrangement to the euro.} New Zealand, the Philippines, and Tunisia, have also reported foreign exchange swaps as an intervention method.

Ofﬁcial Exchange Rates

The vast majority (167) of IMF member countries report that they publish official exchange rates. This includes not only countries that have officially determined exchange rates; by definition, it also refers to any reference or indicative exchange rate that is computed and/or published by the central bank (see the Compilation Guide). The calculation of these exchange rates is often based on market exchange rates, such as those used in interbank market transactions or in a combination of interbank and bank-client transactions in a specified observation period. The published exchange rate is used as a guide for market participants in their foreign exchange transactions, for accounting and customs valuation purposes, in exchange transactions with the government, and sometimes mandatorily in specific exchange transactions.

During the 2018–19 reporting period, several countries adopted new methods for calculating their official exchange rates (Islamic Republic of Iran, Myanmar, Tunisia, Ukraine). Countries from all income levels and various geographic regions are represented among the 25 members that report no official or reference exchange rates; about half (12) are countries with no separate legal tender, 3 are soft pegs, 9 are floating or free floating, and 1 has the residual other managed de facto exchange rate arrangement. Among the countries that do not compute an official exchange rate, some, including Japan, Peru, and Singapore, publish the market-determined rates on their monetary authority’s website to promote information transparency.
Foreign Exchange Markets

The liberalization of foreign exchange markets continued during 2018 and through August 2019. Changes in the structure and operation of members’ foreign exchange markets are summarized in Table 6. Foreign exchange market practices overall remained largely similar to those during the previous reporting period, although several countries, such as Ukraine and Uzbekistan, took considerable steps toward liberalizing the foreign exchange market.

Member countries reported 99 changes related to foreign exchange markets. These were mostly easing measures (57) and neutral measures (27). Fifteen changes were tightening measures, with Serbia and Turkey accounting for 3 each. Of the easing measures, slightly more than half are attributable to six countries: Ukraine (7), Honduras (6), Turkey (5), Colombia (4), Morocco (4), and Serbia (4). These measures helped facilitate trading in the foreign exchange market by easing restrictions on setting prices, holding foreign exchange, and for hedging purposes.

¹ Includes 189 member countries and three territories: Aruba, Curaçao and Sint Maarten, and Hong Kong SAR.

Foreign exchange standing facility, allocations, auctions, and fixing

The number of countries with some type of official central bank facility in the spot foreign exchange market increased by 1 to 119, reflecting the introduction of a central bank foreign exchange auction by Argentina in June 2018. Central banks may provide access to foreign exchange to market participants through a standing facility, allocation to certain market participants, or the purchase and sale of foreign exchange through auctions or fixing sessions.

- **Foreign exchange standing facilities**—Sixty-eight countries reported standing facilities in their jurisdictions. When a country has a foreign exchange standing facility it means that the central bank typically stands ready to buy or sell foreign exchange to banks, thus providing a maximum and minimum exchange rate for their currency for a given day. Such facilities are usually instrumental in maintaining a hard or soft peg arrangement.

The countries with foreign exchange standing facilities include all those with currency boards (11); all conventional pegs, except Iraq and São Tomé and Príncipe (40); all crawling pegs, except Honduras (2); the only country with a pegged exchange rate within horizontal bands, Tonga (1); countries with crawl-like arrangements (3); countries classified as stabilized arrangements (7); and countries with other managed arrangements (2). The credibility of such arrangements depends largely on the availability of foreign
exchange reserves backing the facility. Two countries with flexible exchange rates reported that they had foreign exchange standing facilities, similarly to last year’s report. These countries are Turkey (floating) and Russia (free floating). Regarding Turkey, the Central Bank of the Republic of Turkey (CBRT) resumed its intermediary function in the foreign exchange deposit market in August 2018 by guaranteeing foreign exchange transactions between banks at a specified interest rate and maturity. In addition, the CBRT conducts bilateral transactions in the Borsa Istanbul swap market and lends US dollars and euros to banks at various maturities. Similarly, the Central Bank of Russia’s standing facility involves lending foreign exchange by means of foreign exchange swaps to provide liquidity to the banking sector for financial stability reasons.

Compared with the previous issue of the AREAER, two additional countries reported the absence of standing facilities. No new countries introduced standing facilities during the reporting period, confirming the pattern observed in recent years, when the number of countries operating standing facilities has declined by one or two each year.

- **Foreign exchange auctions**—The number of countries reporting official foreign exchange auctions increased by 1 to 41. The number and composition of countries that conducted auctions remain similar to the previous year. In a significant majority (33 of 41) of countries foreign exchange auctions are the only mechanism operated by the central bank. More than a third (14) have de facto exchange rate regimes that are floating, including two that are free floating. Foreign exchange auctions can be used to intervene in the foreign exchange market and influence the exchange rate, support price discovery, and manage foreign exchange reserves. Among various changes reported, Argentina introduced a multiple price auction in 2018 as a mechanism to intervene in the market to smooth disorderly conditions while allowing the market to determine the exchange rate. Sierra Leone resumed auctions in 2018 to smooth excess volatility after a brief suspension of auctions in 2017. Tunisia introduced auctions to support price discovery in August 2018 and later increased the frequency of auctions as they became the sole intervention mechanism since the beginning of 2019. Colombia undertook a temporary program of reserve accumulation through monthly put options. Auction participation was broadened in Colombia and Mauritius. On the other hand, limits on bid spreads were tightened in Angola and Honduras to eliminate multiple currency practices that violated their obligations under Article VIII.

- **Foreign exchange allocation systems**—The composition of countries with allocation systems remained the same as in the previous reporting period. Nineteen countries reported having a foreign exchange allocation system. More than half of the countries (11) with allocation systems also rely on other mechanisms, mainly standing facilities or auctions. Virtually all of them have a de facto soft peg arrangement. Foreign exchange allocation is often used to provide foreign exchange for strategic imports, such as oil or food, when foreign exchange reserves are scarce. For instance, this facility is used to bolster exports (Bangladesh) and finance priority sector projects (Ethiopia) and strategic imports (Sudan and Suriname).

- **Fixing sessions**—This arrangement is characteristic of the early stage of foreign exchange market development, when price discovery may be difficult. Fixing sessions allow the central bank to organize sessions in which market participants can submit buying and selling bids. The central bank uses these bids to find the market clearing exchange rate. The number of countries that reported operating fixing sessions remained at five: the Islamic Republic of Iran, Mauritania, Mozambique, Syria, and Uzbekistan. Except for Iran, all rely solely on fixing sessions to intervene in the foreign exchange market. For example, Mauritania and Uzbekistan used this mechanism to determine the exchange rate based on the supply of and demand for foreign currency. Uzbekistan also added the euro in its sessions. Serbia has not conducted any fixing sessions since 2009, so it eliminated the possibility of organizing fixing sessions in April 2018.

**Interbank and retail foreign exchange markets**

The number of countries that reported having a foreign exchange interbank market stood at 173. The 19 jurisdictions that do not have an interbank market are typically places where either security concerns made the operation of a foreign exchange market difficult in recent years, such as Somalia, South Sudan, Venezuela,
and Yemen; countries where the central bank maintains a conventional peg or currency board; or jurisdictions where there is no separate legal tender. The latter two groups of countries consist of Aruba, Belize, Bhutan, Dominica, Eritrea, Kiribati, Lesotho, Libya, the Marshall Islands, Micronesia, Montenegro, Nauru, Palau, Timor-Leste, and Tuvalu. In most cases, these countries are small, and the size of the territory naturally limits the number of potential participants in the foreign exchange market.

For countries that have an interbank market, the main types were over-the-counter markets, brokerage arrangements, and market-making arrangements. Thirty-three members allow all three types of systems.

- **Over-the-counter operations**—These account for most of the world's interbank markets. The number of countries in this group has grown nearly every year since 2013, when it comprised 127 countries, and now stands at 145. There was a net gain of three compared with the previous reporting period, in part because of improved reporting; despite no formal interbank foreign exchange market, banks in these countries (Liberia, St. Kitts and Nevis, St. Vincent and the Grenadines) can trade freely with one another. In contrast, Somalia reported that interbank trading in foreign exchange is not permitted, and banks may not trade with one another. Although this type of foreign exchange market appears to be gaining popularity among IMF members, 28 countries with interbank markets still report that they do not engage in over-the-counter operations.23 These countries do not share any particular characteristic in terms of size, income level, or financial market sophistication.

- **Brokerage arrangements**—49 countries reported having a brokerage system. Compared with the previous reporting period, Argentina reported that it has not had a brokerage system since the elimination of broker trading in the electronic foreign exchange market and cancellation of all related licenses. Kosovo revised its reporting and indicated that there is no brokerage system.

- **Market-making agreements**—71 countries reported having market-making agreements. This is one less than during the previous reporting period, since Slovenia reported that its interbank market functioned without a market-making agreement. Banking institutions in Slovenia participate in the over-the-counter foreign exchange market. Mauritius suspended its foreign exchange market-making system in May 2018, and banks, foreign exchange dealers, and money changers now operate over the counter.

Most member countries report a framework for the operation of foreign exchange bureaus; the majority impose some type of licensing requirement. Curaçao and Sint Maarten have allowed bureaus to operate on their territory since July 2018 if they obtain a license. Iran also allowed bureaus to operate again in August 2018 after a suspension lasting about four months. Several changes affected bureaus' operations in various countries during the reporting period, in general reducing constraints on their activities. For instance, Cabo Verde, as part of a wide-ranging liberalization of the foreign exchange regime, since 2018 allows foreign exchange bureaus to maintain accounts abroad without authorization from the central bank. In Morocco, as a result of the move to more exchange rate flexibility, exchange bureaus, along with other intermediaries, may set their bid-ask spread within 5 percent, compared with 0.6 percent previously. Uzbekistan allowed bureaus to sell foreign exchange in cash to resident individuals. Previously, sales of foreign exchange to resident individuals was cashless and took place through credit to their international bank cards.

Most members refrain from restricting exchange rate spreads and commissions in the interbank market. Among countries that maintain such restrictions, several relaxed them during the reporting period. Malawi increased the maximum spread to 3 percent for telegraphic transfers and 6 percent for cash transactions, effective March 2018 (previously, neither spread could exceed 5 Malawian kwachas). In Morocco, consistently with increased exchange rate flexibility, the Bank Al-Maghrib allows trading of foreign currency banknotes against the dirham at ±2.5 percent in relation to the central exchange rate; the limit previously was ±0.3 percent. In Pakistan, the margin between authorized dealers' buying and selling rates was increased to 50 paisa from 20 paisa in November 2018. In Uzbekistan, as part of the liberalization of the foreign exchange regime, the previous limit on banks' spreads and commissions were eliminated. In Kazakhstan, the limits on exchange bureaus' margin between the buying and selling rates of cash in US dollars and euros were eliminated in January 2019. In Myanmar, the central bank eliminated the trading band around a central reference rate for licensed money changers and authorized dealers conducting exchange transactions in August 2018.

---

23 Including seven members that do not specify a form of interbank market.
In contrast, Serbia limited the allowable spread set by the postal operator and authorized dealers: the buying (selling) rate per euro cannot be more than 1.25 percent lower (higher) than the official midrate of the dinar against the euro. In addition, the commission for purchases of foreign cash may not exceed 1 percent (previously 3 percent) of the value of the banknotes involved.

Iran took steps to unify the parallel and official market exchange rates. For this purpose, the Central Bank of Iran decided to sell oil and gas revenues in the interbank as well as in the parallel market.

Across countries, a variety of easing measures were implemented that expanded the scope of transactions by authorized dealers. Belarus in August 2018 eliminated the requirement that resident legal entities sell unused foreign exchange and removed the requirement that residents provide documentation and obtain approval to buy foreign exchange for current and capital transactions. Bhutan and Jamaica increased the limit above which authorized dealers must sell their foreign exchange to the central bank. Honduras took steps between February 2018 and July 2019 to increase the amount of foreign exchange authorized dealers may hold without surrender to the central bank from 10 percent to 40 percent. India broadened the market by permitting systemically important non-deposit-taking investment and credit companies to apply for licenses to deal in foreign exchange. Mauritania increased the number of transactions permitted by authorized dealers outside the organized foreign exchange market. Serbia expanded the number of currencies tradable in the foreign exchange market, and Ukraine permitted banks to use any available means acceptable to the parties involved in the transaction (for example, SWIFT) to confirm the purchase or sale of foreign currency in the interbank currency market.

**Other Measures**

Most of the changes in other measures during the reporting period refer to forward operations, exchange rate structure, other legal tender, and taxes on foreign exchange transactions.

- **Forwards**—Two tightening and 12 easing measures were reported on forward transactions across countries in this year’s AREAER. Among tightening measures, China imposed an unremunerated reserve requirement on financial institutions that sell foreign exchange forwards, which is currently set at 20 percent. Paraguay set limits on the total value of forward contracts and later removed those limits for transactions that do not involve the local currency. Among easing measures, Colombia permitted authorized agents to undertake forward transactions to hedge commodity risks—and on any type of underlying assets—and permitted transactions in credit default swaps without approval. To deepen the foreign exchange market, India eliminated the underlying exposure requirement for foreign portfolio investors’ positions (long or short) for all currency pairs involving the Indian rupee, up to US$100 million. Previously, foreign portfolio investors could take positions only in US dollar–rupee pairs of currency derivatives up to US$15 million without establishing an underlying exposure. Lebanon allowed commercial banks and financial institutions to undertake transactions on behalf of their clients; previously, transactions were allowed only through specialized banks or brokerage firms. Morocco allowed banks to offer an expanded combination of instruments for hedging purposes. Turkey established trading of foreign exchange swaps on the regulated securities exchange (Borsa Istanbul) and permitted banks to participate. Previously, banks traded foreign exchange swap transactions over the counter. Ukraine lifted the limits on banks’ daily net foreign exchange purchases in the interbank and retail market for their own positions, including in the forward market. The measure further allowed banks to undertake forward transactions with other banks or residents involved in foreign economic activity and eventually permitted hedging of debt operations (previously only risks related to imports and exports could be hedged).

- **Exchange rate structure**—There were several changes in the number of countries maintaining a dual or multiple exchange rate structure. Currently, 22 countries are classified as having more than one exchange rate, of which 12 are dual and 10 are multiple. This is mainly a result of specific exchange rates applied to certain transactions or because of actual or potential deviations of more than 2 percent between official and other exchange rates. During this reporting period, the exchange rate system of São Tomé and Príncipe was reclassified from unitary to dual because of a spread between the official and the parallel market rates. Papua New Guinea switched from unitary to multiple rates because of a spread of more than 2 percent (1) between the rates set by the Bank of Papua New Guinea (BPNG) for its foreign exchange allocations to authorized dealers and the rates used by authorized dealers in transactions with their clients and (2) between the rates set...
by the BPNG for its foreign exchange transactions with the government and embassies and the rates used by authorized dealers in transactions with their clients. Venezuela moved from dual to multiple because of the existence of two legal foreign exchange rates and a parallel market rate. On the other hand, Iraq was reclassified from multiple to dual and Uzbekistan from dual to unitary. In Uzbekistan, the domestic currency was devalued by 50 percent, and the exchange rate is determined according to market principles. This, along with other liberalization measures, eliminated the spread between the official and the parallel markets, effectively ending the multiple exchange rate system. Although The Bahamas continued to have a dual structure, it reduced the premium on purchases and sales of foreign currency connected to overseas investments. Similarly, Sudan continued to have a multiple structure but eliminated the 100 percent cash margin requirement for imports in October 2018.

- **Other legal tender**—16 countries officially allow the use of another legal tender in their territory. Compared with the previous reporting period, Zimbabwe ended its multicurrency system, in place since 2009, and designated the Zimbabwe dollar as the sole legal tender. In addition, during the reporting period, Bhutan allowed the use of the new series of 500–Indian rupee banknotes. Previously, these banknotes had been forbidden following their demonetization by the Indian government.

- **Taxes and subsidies on foreign exchange transactions**—Overall, 34 countries report taxing or subsidizing foreign exchange transactions during the reporting period, which is similar to the previous reporting period. Libya introduced a new surtax on sales of foreign currency for commercial and personal purposes. The remaining countries in this group report no change since the previous reporting period; the number has been stable in recent years, with one tightening and one easing measure. Bolivia tightened its exchange rate taxes. The financial transaction tax (Impuesto a las Transacciones Financieras) was increased from 0.25 percent to 0.30 percent on January 1, 2018, and the program was extended until December 2023. Mauritius eliminated its temporary subsidy program for exporters in March 2018.

### Member Countries’ Obligations and Status under Articles VIII and XIV

This section provides an overview of the status of IMF members’ acceptance of the obligations of Article VIII, Sections 2(a), 3, and 4, of the IMF’s Articles of Agreement and of the use of the transitional arrangements of Article XIV. It also describes recent developments in restrictive exchange measures—namely, exchange restrictions and MCPs subject to IMF jurisdiction under Articles VIII and XIV and measures imposed by members solely for national and/or international security reasons.

In accepting the obligations of Article VIII, Sections 2(a), 3, and 4, members agree not to impose restrictions on payments and transfers for current international transactions or engage in discriminatory currency arrangements or MCPs, except with IMF approval. If Article XIV members introduce exchange restrictions or MCPs after joining the IMF, these restrictive measures are considered to have been imposed under Article VIII.

### Status under Articles VIII and XIV

In 2018 the number of countries that had accepted Article VIII status increased by one (Figure 3). After almost nine years since joining the IMF, Kosovo accepted Article VIII obligations on January 11, 2018, increasing the number of Article VIII members to 172. The share of Article VIII members increased in the first half of the decade 2000–10 and has remained flat at about 90 percent of total members in recent years. Since 2000, there has been some progress in Article VIII acceptance among countries that have availed themselves of the transitional provisions of Article XIV. Their number had dropped from 34 in 2000 to 17 by the end of 2018. However, this progress was most notable during 2000–05, when 15 Article XIV countries accepted Article VIII obligations. Since 2000, three countries have joined the IMF accepting Article VIII obligations (Montenegro, Nauru, Timor-Leste).

---

24 Countries that have accepted the obligations under Article VIII are referred to as “Article VIII members” or “Article VIII countries”; similarly, those that have not and continue to avail themselves of the transitional provisions of Article XIV are referred to as “Article XIV members” or “Article XIV countries” in this report.
As of December 31, 2018, many members in Article XIV status continue to maintain restrictions subject to IMF jurisdiction under Article VIII. Among the 17 members\(^{25}\) in Article XIV status, 3 do not maintain restrictions but have not yet decided to accept the obligations under Article VIII. One country maintains Article XIV exchange measures only. Three countries maintain both original or adapted Article XIV exchange measures and Article VIII restrictions. The remaining 10 Article XIV countries maintain exchange measures under Article VIII only.

### Restrictive Exchange Measures

The first section below describes recent developments in exchange restrictions—measures that limit the availability and use of foreign currency for payments and transfers for current international transactions—and MCPs subject to IMF jurisdiction under Articles VIII and XIV. In particular, changes in 2018 to exchange restrictions and MCPs are indicated as reported in the latest IMF staff reports as of December 31, 2018. The next section describes developments in measures imposed by members solely for national and/or international security reasons during the reporting period.

### Exchange restrictions and multiple currency practices\(^{26}\)

The number of countries maintaining restrictive exchange measures remained unchanged overall in 2018, and their composition has changed only marginally (Table 7).\(^{27}\) Article VIII members maintained more restrictive exchange measures in 2018 (69 measures) than Article XIV members (62 measures).

---

\(^{25}\) As of December 31, 2018, the member countries that make use of the transitional arrangements under Article XIV are Afghanistan, Angola, Bhutan, Bosnia and Herzegovina, Burundi, Eritrea, Ethiopia, Iraq, Liberia, Maldives, Myanmar, Nigeria, São Tomé and Príncipe, Somalia, South Sudan, Syria, and Turkmenistan.

\(^{26}\) Countries maintaining exchange restrictions or multiple currency practices whose IMF staff reports are unpublished are not mentioned in this section unless the authorities have consented to publication. However, their restrictive measures are included in the numbers.

\(^{27}\) The AREAER does not indicate whether the Executive Board of the IMF has approved such measures.
One Article VIII member removed previously identified restrictive measures and maintains an exchange system free of exchange restrictions and MCPs. In particular, with the liberalization of the foreign exchange regime in Uzbekistan that started at the end of 2017, all previous measures related to payments and transfers for current international transactions were eliminated—namely (1) two exchange restrictions arising from undue delays in the availability of foreign exchange and the authorities’ practice of direct rationing of foreign exchange for such payments and transfers; and (2) an MCP arising from non-interest-bearing “blocked accounts” for conversion of domestic currency to foreign exchange. On the other hand, one other Article VIII member (Argentina) that previously maintained an exchange system free of restrictions introduced a multiple price foreign exchange auction in 2018 giving rise to a multiple currency practice. As a result, the overall number of Article VIII countries and Article XIV members that maintain restrictive exchange measures remained unchanged in 2018.

The overall number of restrictive exchange measures increased by 6 in 2018, including 5 measures by Article XIV members and 1 measure by Article VIII countries. In 2018, 5 restrictive measures (4 exchange restrictions and 1 MCP) were reported to have been eliminated, while 11 new measures (7 exchange restrictions and 4 MCPs) were introduced or newly identified. Article VIII members account for 4 of the 11 new measures (2 exchange restrictions and 2 MCPs) and 3 of the 5 removals (2 exchange restrictions and 1 MCP).

In addition to Argentina, restrictive measures were introduced by Bhutan (one exchange restriction), Nigeria (one exchange restriction and one MCP), São Tomé and Príncipe (one exchange restriction and one MCP), Trinidad and Tobago (one exchange restriction), and Tunisia (one exchange restriction) in 2018. In contrast, Uzbekistan fully removed its restrictive measures, while a few other countries eliminated some restrictive measures, but not all—for example, Bhutan eliminated one exchange restriction (see below).

Although the overall number of restrictive measures maintained by Article XIV countries was less than in Article VIII members in 2018, given the relatively small number of Article XIV members, they continued to maintain significantly more restrictions and MCPs per country than Article VIII countries. The average number of measures per country increased to 4.4 from 4.1 for Article XIV countries, while for Article VIII countries it remained unchanged (about 1.9). The overall average number of such measures grew from 2.5 to 2.6 per country in 2018.

The types of newly identified exchange restrictions vary, but most of them apply to payments and transfers for current international transaction related to imports. In Bhutan, an exchange restriction was identified because importers’ access to foreign exchange is restricted if they do not provide evidence of importation of goods for which payments have been made. In Nigeria, an exchange restriction arising from the central bank’s rationing and prioritization of foreign exchange was reintroduced. An exchange restriction was identified in São Tomé and Príncipe as a result of rationing of foreign exchange by the central bank in response to the increasing foreign exchange shortage and to prevent further depletion of international reserves and safeguard the exchange rate peg. Amid continued foreign exchange market imbalance, the authorities of Trinidad and Tobago started prioritizing provision of foreign exchange to certain manufacturers through a special facility using the Export-Import Bank of Trinidad and Tobago. An exchange restriction was identified in Tunisia arising from the measures that restrict access to short-term financing for certain imports.

The elimination of exchange restrictions also mostly affected trade transactions. In Bhutan, a previously identified restriction limiting the availability of foreign exchange for importers who cannot identify the seller was eliminated. Uzbekistan eliminated exchange restrictions related to payments and transfers for current international transactions arising from undue delays in the availability of foreign exchange and the authorities’ rationing of foreign exchange.

28 This section does not reflect changes in members’ restrictive measures eliminated in 2018 but whose removal is reflected in the IMF staff reports issued after December 31, 2018.
Most newly identified MCPs in 2018 arise from multiple price auctions. Argentina, in an effort to support exchange rate flexibility, introduced a multiple price foreign currency auction. The auction gave rise to an MCP based on the potential deviation by more than 2 percent between winning bids as well as the potential spread of more than 2 percent between auction rates and the market exchange rate. The potential deviation of more than 2 percent between the winning bids within the auction also gave rise to an MCP in Nigeria. In São Tomé and Príncipe, rationing of foreign exchange by the central bank resulted in a spread of more than 2 percent between the exchange rates in the formal and parallel markets, resulting in an MCP.

Only one MCP was reported to have been eliminated in 2018. It was previously maintained by Uzbekistan and was related to non-interest-bearing “blocked accounts” for conversion of domestic currency to foreign exchange.

Table 8 provides the description of restrictive exchange measures as indicated in the latest IMF staff reports as of December 31, 2018. Excluded from Table 8 are member countries that have not consented to the publication of such measures described in unpublished IMF staff reports.

**Exchange measures maintained for security reasons**

Some member countries maintain measures solely for national and/or international security reasons, which could give rise to exchange restrictions under IMF jurisdiction if applied to payments and transfers for current international transactions. These restrictions, like others, require prior IMF approval under Article VIII, Section 2(a). However, because the IMF does not provide a suitable forum to discuss the political and military considerations that lead to measures of this kind, it established a special procedure for such measures to be notified to and approved by the IMF. In total, 119 member countries reported in 2018 to the IMF that they maintained measures solely for security reasons, including 17 members who reported introducing or changing such measures during 2018. The majority of the restrictions are financial sanctions to combat the financing of terrorism or financial sanctions against certain governments, entities, and individuals in accordance with United Nations Security Council resolutions, EU regulations, or decisions adopted by members on their own initiative.

</thead>
<tbody>
<tr>
<td>Albania</td>
<td>The IMF staff report for the 2017 Article IV Consultation with Albania states that, as of November 14, 2017, Albania continues to maintain an exchange restriction in the form of outstanding debit balances on inoperative bilateral payment agreements. These were in place before Albania became an IMF member in 1991, and relate primarily to debt in nonconvertible and formerly nonconvertible currencies. (Country Report No. 17/375)</td>
</tr>
<tr>
<td>Angola</td>
<td>The IMF staff report for the 2018 Article IV Consultation with Angola states that, as of April 25, 2018, Angola maintained restrictions on the making of payments and transfers for current international transactions under the transitional arrangements of Article XIV, Section 2. The measures maintained pursuant to Article XIV are: (1) limits on the availability of foreign exchange for invisible transactions, i.e. travel expenses; and (2) limits on unrequited transfers to foreign-based individuals and institutions. In addition, Angola maintains three exchange restrictions subject to IMF jurisdiction under Article VIII, Section 2(a) resulting from (1) the discriminatory application of the 0.1 percent stamp tax on foreign exchange operations by natural persons; (2) the operation of the priority list for access to US dollars at the official exchange rate; and (3) a special tax of 10 percent on transfers to nonresidents under contracts for foreign technical assistance or management services. Angola also maintains three MCPs that are subject to approval under Article VIII, Section 3 arising from the lack of a mechanism to prevent potential spreads in excess of 2 percent emerging (1) between successful bids within the National Bank of Angola's foreign exchange auction, (2) for transactions that take place at the reference rate in place and the rate at which transactions take place in the foreign exchange auction on that day, and (3) the discriminatory application of the 0.1 percent stamp tax on foreign exchange operations by natural persons. (Country Report No. 18/156)</td>
</tr>
<tr>
<td>Argentina</td>
<td>The IMF staff report for the Request for Stand-By Arrangement with Argentina states that, as of June 19, 2018, Argentina maintained a multiple price auction that gives rise to an MCP subject to IMF approval under Article VIII, Section 3 of the Articles of Agreement. In the absence of a mechanism that would prevent (1) a spread deviation of more than 2 percent in the exchange rates at which the Central Bank of Argentina sells foreign exchange to successful bidders; and (2) a spread deviation of more than 2 percent between the auction rates and the market exchange rate, the auction results in an MCP. (Country Report No. 18/219)</td>
</tr>
<tr>
<td>Armenia</td>
<td>The IMF staff Report for the 2017 Article IV Consultation and Fifth and Final Review under the Extended Arrangement with Armenia states that as of June 8, 2017, Armenia maintained one MCP, which arises from a 2007 agreement between the MOF and Central Bank of Armenia to settle some budgetary transactions at an agreed accounting exchange rate throughout the fiscal year. Armenia maintains no other MCPs or exchange restrictions on the making and transfers for current international transactions except for exchange restrictions maintained for security reasons and notified to the IMF pursuant to Executive Board Decision No. 144-(52/51). (Country Report No. 17/226)</td>
</tr>
<tr>
<td>Aruba</td>
<td>The IMF staff report for the 2017 Article IV Consultation discussions with the Kingdom of the Netherlands—Aruba states that, as of May 5, 2017, Aruba maintained an unapproved foreign exchange restriction arising from the foreign exchange tax on payments by residents to nonresidents (1.3 percent of the transaction value). (Country Report No. 17/155)</td>
</tr>
<tr>
<td>Bangladesh</td>
<td>The IMF staff report for the 2018 Article IV Consultation with Bangladesh states that, as of May 10, 2018, Bangladesh maintained one restriction subject to IMF approval under Article VIII, Section 2(a) on the convertibility and transferability of proceeds of current international transactions in nonresident taka accounts. (Country Report No. 18/158)</td>
</tr>
<tr>
<td>Bhutan</td>
<td>The IMF staff report for the 2018 Article IV Consultation with Bhutan states that, as of August 7, 2018, Bhutan continues to avail itself of transitional arrangements under Article XIV, Section 2, pursuant to which it maintains exchange restrictions in connection with: (1) the availability of foreign exchange for travel, except for medical travel abroad by Bhutanese citizens, invisibles, and private transfers; (2) foreign exchange balancing requirement on remittances of income in convertible currencies or other foreign currencies from FDI; and (3) on the availability of foreign exchange for importers who have not provided evidence that goods for which payments have been made were actually imported. Bhutan also maintains exchange restrictions subject to IMF approval under Article VIII, Section 2(a) in connection with: (1) the foreign exchange balancing requirements for imports of capital goods (for projects involving FDI) and primary raw materials (for certain industrial projects); (2) banning residents who do not comply with the requirement to repatriate export proceeds from accessing foreign exchange for unrelated imports; (3) requiring foreign direct investment companies to pay for their establishment and operational expenses from their own convertible currency resources; (4) requiring Bhutanese companies to pay the interest on and amortization of external loans from their own convertible currency resources; (5) restricting the availability of Indian rupees for making payments and transfers to India for certain current international transactions and banning the access to Indian rupees for unrelated current international transactions for those who contravene Royal Monetary Authority’s 2012 guidelines on Indian rupee transactions. (Country Report No. 18/300)</td>
</tr>
<tr>
<td>Bosnia and Herzegovina</td>
<td>The IMF staff report for the 2017 Article IV Consultation, First Review under the Extended Arrangement under the Extended Fund Facility, Requests for Extension of the Arrangement, Rephasing of Purchases and Waiver of Nonobservance of Performance Criterion with Bosnia and Herzegovina states that, as of January 29, 2018, Bosnia and Herzegovina maintained restrictions on the transferability of balances and interest accrued on frozen foreign currency deposits, subject to IMF jurisdiction under Article VIII. (Country Report No. 18/39)</td>
</tr>
<tr>
<td>Brazil</td>
<td>The IMF staff report for the 2018 Article IV Consultation with Brazil states that, as of June 20, 2018, the tax on financial transactions (Imposto sobre Operações Financeiras, IOF) of 6.38 percent on exchange transactions carried out by credit card, debit card, and traveler’s checks and currency companies to fulfill their payment obligations for purchases of goods and services abroad by their customers gives rise to an MCP subject to IMF jurisdiction under Article VIII, Sections 2(a) and 3. In January 2008, the IOF for these exchange transactions was raised to 2.38 percent and then further increased to 6.38 percent in March 2011. The scope of operations was expanded to other foreign exchange transactions than with credit cards in December 2013. (Country Report No. 18/253)</td>
</tr>

</tr>
<tr>
<td>-----------------------------</td>
<td>-------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Burundi</td>
<td>The IMF staff report for the 2014 Article IV Consultation, Fifth Review under the Three-Year Arrangement under the Extended Credit Facility states that, as of July 29, 2014, Burundi maintained one MCP that is inconsistent with Article VIII, Section 2(a); the exchange rate used for government transactions differs by more than 2 percent from market exchange rates. (Country Report No. 14/293)</td>
</tr>
<tr>
<td>Colombia</td>
<td>The IMF staff report for the 2018 Article IV Consultation with Colombia states that, as of April 16, 2018, Colombia maintained an exchange restriction subject to IMF approval arising from the international transactions. Last year, the tax was waived for the outflows relating to bank loans of over one year for specific sectors identified in the Productive code (e.g. housing and microfinance). More recently, waivers were added for transactions up to US$5,000 annually related to trips abroad that are paid using a debit or credit card, while at the same time extending the tax so that any cash taken abroad for tourism in excess of US$1,098 for each adult and US$366 for each minor will also be taxed at 5 percent. (Country Report No. 19/81)</td>
</tr>
<tr>
<td>Congo, Democratic Republic of the</td>
<td>The IMF staff report for the 2015 Article IV Consultation with the Democratic Republic of the Congo (DRC) states that, as of August 17, 2015, the DRC maintained measures that give rise to one exchange rate restriction and one MCP subject to IMF approval. The exchange restriction involves an outstanding net debt position against other contracting members under the inoperative region payments agreement of the Economic Community of the Great Lakes Countries. The MCP relates to a fixed exchange rate provided for in a bilateral payments agreement with Zimbabwe. (Country Report No. 15/280)</td>
</tr>
<tr>
<td>Egypt</td>
<td>The IMF staff report for the 2017 Article IV Consultation with Egypt states that, as of December 11, 2017, Egypt is an Article VIII member and maintains one exchange restriction subject to IMF jurisdiction under Article VIII, Sections 2(a) and 3 arising from a net debtor position under an inoperative bilateral payments arrangement with Bulgaria. (Country Report No. 18/14)</td>
</tr>
<tr>
<td>Ethiopia</td>
<td>The IMF staff report for the 2018 Article IV Consultation with Ethiopia states that, as of November 13, 2018, Ethiopia maintained four restrictions on payments and transfers for current international transactions, which relate to: (1) the tax certification requirement for repatriation of dividend and other investment income; (2) restrictions on repayment of legal external loans and suppliers of foreign partners credits; (3) the prioritization and rationing of foreign exchange to certain imports of goods and services, debt payments and invisibles; and (4) the requirement to provide a clear certificate from the National Bank of Ethiopia (NBE) to obtain import permits. These restrictions are inconsistent with Article VIII, Section 2(a), of the IMF's Articles of Agreement and remain unapproved. In addition, staff is in the process of assessing whether a significant spread between the parallel market cash rate and the official market exchange rate, or any other feature of Ethiopia's exchange system, may give rise to an MCP. (Country Report No. 18/154)</td>
</tr>
<tr>
<td>Fiji</td>
<td>The IMF staff report for the 2017 Article IV Consultation with Fiji states that, as of January 10, 2018, Fiji maintained exchange restrictions subject to Article VIII arising from the Fiji Revenue and Customs Authority tax certification requirements on the transfer abroad of profits and dividends, on the proceeds of airline ticket sales, and on the making of external debt and maintenance payments and from limits on large payments (for example, oil imports and dividends repatriation of foreign banks). (Country Report No. 18/34)</td>
</tr>
<tr>
<td>Gabon</td>
<td>The IMF staff report for the Request for an Extended Arrangement under the Extended Fund Facility states that, as of June 6, 2017, Gabon maintained a tax on wire transfers, including for the making of payments and transfers for current international transactions, which gives rise to an exchange restriction subject to IMF approval under Article VIII, Section 2(a) of the Articles. The authorities have exempted certain transactions from the tax; however, the tax continues to apply to other transfers subject to IMF jurisdiction. (Country Report No. 17/205)</td>
</tr>
<tr>
<td>Ghana</td>
<td>The IMF staff report for the 2017 Article IV Consultation, Fourth Review under the Extended Credit Facility Arrangement, Request for Waiver for Nonobservance of Performance Criteria, and Request for Extension and Rephasing of the Arrangement with Ghana states that as of August 3, 2017, Ghana maintained one exchange restriction and one MCP subject to IMF approval. The exchange restriction arises from the limitation/prohibition on purchasing and transferring foreign exchange for import transactions by importers who have not submitted to the commercial bank customs entry forms for any past foreign exchange transactions related to imports, and which are unrelated to the underlying transaction. An MCP also arises, because the Bank of Ghana (BOG) requires the use of its internal rate (that is, the previous day's weighted average interbank exchange rate) for government transactions and the surrender of foreign exchange proceeds from cocoa exports funded through the cocoa syndicated loan without having a mechanism in place to ensure that, at the time of the transaction, this exchange rate does not differ from the prevailing market rate (that is, the interbank exchange rate) and the rates used by banks in their transactions with their customers by more than 2 percent. (Country Report No. 17/262)</td>
</tr>
<tr>
<td>Greece</td>
<td>The IMF staff report for the 2018 Article IV Consultation with Greece states that, as of July 13, 2018, Greece maintained three exchange restrictions subject to IMF approval under Article VIII, Section 2(a) arising from the following measures: (1) absolute limits and discretionary Bank Transactions Approval Committee (BTAC) approval of the availability of foreign exchange for certain payments and transfers for (a) current international transactions related to normal business activities and (b) invisible transactions and remittances (such as travel, except for tuition fee and medical expenses); (2) discretionary BTAC approval of transfers abroad of moderate amounts for the amortization of loans and of income from investments including dividends and interest payments of non-financial entities to nonresidents; and (3) absolute limits on withdrawal of cash from bank accounts in Greece in the absence of an unrestricted channel for payments due to discretionary BTAC approval and absolute limits. (Country Report No. 18/248)</td>
</tr>
<tr>
<td>Country</td>
<td>Exchange Restrictions and/or Multiple Currency Practices</td>
</tr>
<tr>
<td>--------------</td>
<td>--------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Guinea</td>
<td>The IMF staff report for the First Review of the Arrangement under the Three-Year Extended Credit Facility, and Requests for Waivers of Nonobservance of Performance Criteria states that, as of June 8, 2018, the foreign exchange system gives rise to an MCP because the reference rate can potentially deviate by more than 2 percent from the commercial banks’ purchase and sales rates on a given day. (Country Report No. 18/254)</td>
</tr>
<tr>
<td>Honduras</td>
<td>The IMF staff report for the 2018 Article IV Consultation with Honduras states that, as of May 15, 2018, Honduras maintained two MCPs subject to IMF approval under Article VIII, Section 3. The two MCPs arise from the absence of a mechanism to prevent the potential deviation of more than 2 percent at any given time among effective exchange rates for spot exchange transactions: (1) between successful bids within the foreign exchange auction; and (2) between the official exchange rate (TCR) of the day and the exchange rates at which foreign exchange is sold at the auction on that day. (Country Report No. 18/206)</td>
</tr>
<tr>
<td>India</td>
<td>The IMF staff report for the 2018 Article IV Consultation with India states that, as of July 2, 2018, India maintained the following restrictions on the making of payments and transfers for current international transactions, which are subject to IMF approval under Article VIII, Section 2(a): (1) restrictions related to the nontransferability of balances under the India-Russia debt agreement; (2) restrictions arising from unsettled balances under inoperative bilateral payments arrangements with two Eastern European countries; and (3) a restriction on the transfer of amortization payments on loans by nonresident relatives. (Country Report No. 18/254)</td>
</tr>
<tr>
<td>Iran</td>
<td>The IMF staff report for the 2018 Article IV Consultation with Islamic Republic of Iran states that, as of March 7, 2018, Iran maintained MCPs and an exchange restriction subject to IMF jurisdiction under Article VIII, Sections 2(a) and 3: (1) An MCP and an exchange restriction arise from the establishment of an official exchange rate for use in some exchange transactions, which in practice differs by more than 2 percent from the rate used by foreign exchange bureaus. (2) An MCP arises from the differences of more than 2 percent between the current official and exchange bureaus rates and the preferential rates for certain imports, which foreign exchange commitments were made through LCs opened prior to March 21, 2002, under the previous multiple exchange rate system. (3) An MCP arises from the differences of more than 2 percent between the current official and exchange bureaus rates and the preferential rates for certain imports for which foreign exchange payment commitments were made through LCs or bank drafts prior to July 24, 2012. (Country Report No. 18/95)</td>
</tr>
<tr>
<td>Iraq</td>
<td>The IMF staff report for the 2017 Article IV Consultation, Second Review under the Three-Year Stand-By Arrangement, and Requests for Waivers of Nonobservance and Applicability of Performance Criteria, and Modification of Performance Criteria with Iraq states that, as of July 25, 2017, Iraq continues to avail itself of the transitional arrangements under Article XIV, Section 2 but no longer maintains any exchange restrictions or MCPs subject to Article XIV, Section 2, and currently maintains one exchange restriction and one MCP subject to IMF approval under Article VIII, Sections 2(a) and 3. The exchange restriction arises from an Iraqi balance owed to Jordan under an inoperative bilateral payments agreement. The MCP arises from the official action to limit the purchase of foreign exchange, with no mechanism to ensure that exchange rates in the official and parallel markets do not deviate from each other by more than 2 percent. (Country Report No. 17/251)</td>
</tr>
<tr>
<td>Jamaica</td>
<td>The IMF staff report for the 2018 Article IV Consultation, Third Review under the Stand-By Arrangement and Request for Modification of Performance Criteria states that, as of March 27, 2018, Jamaica maintained an MCP subject to IMF approval under Article VIII, Section 3, because of the absence of a mechanism in the multiple price foreign currency auction to prevent exchange rates of accepted bids from deviating by more than 2 percent. (Country Report No. 18/103)</td>
</tr>
<tr>
<td>Kyrgyz Republic</td>
<td>The IMF staff report for the Fourth and Fifth Reviews under the Three-Year Arrangement under the Extended Credit Facility and Request for Modification of Performance Criteria with the Kyrgyz Republic states that as of December 6, 2017, the Kyrgyz Republic maintained an MCP, which predates the arrangement, arising from the use of the official exchange rate for government transactions. The official rate may differ by more than 2 percent from the market rate because it is based on the average transaction-weighted rate of the preceding day. (Country Report No. 18/53)</td>
</tr>
<tr>
<td>Lesotho</td>
<td>The IMF staff report for the 2017 Article IV Consultation with Lesotho states that, as of January 31, 2018, Lesotho maintained one exchange restriction arising from single discretionary allowances of M 1 million an individual a calendar year, for residents over 18, and of M 200,000 on the same basis for residents under 18. The availability of foreign exchange beyond these limits is subject to a discretionary approval on a case-by-case basis. (Country Report No. 18/54)</td>
</tr>
<tr>
<td>Maldives</td>
<td>The IMF staff report for the 2017 Article IV consultation with Maldives states that as of October 6, 2017, Maldives maintained an exchange restriction subject to the IMF approval under Article VIII, Section 2(a) of the IMF Articles of Agreement arising from a shortage of foreign exchange at the official rate which leads to the Maldives Monetary Authority (MMA) rationing its supply of foreign exchange to commercial banks. This results in a channelling of foreign exchange transactions for current international transactions to the parallel market where transactions take place at an exchange rate that deviates by more than 2 percent from the prevailing market exchange rate. The greater than 2 percent spread gives rise to MCP subject to the IMF approval under Article VIII, Section 3, and also to an exchange restriction, given the additional cost involved for obtaining foreign exchange. The extent of rationing has been eased over the past two years by increasing the amounts provided to commercial banks and adjusting amounts in line with seasonal patterns. The official exchange rate used by the MMA for government transactions is calculated based on the midpoint of the weighted average of the buying and selling rates of foreign exchange transactions conducted by commercial banks one day earlier. The lack of a mechanism to prevent the spread between this official exchange rate used by the MMA for government transactions and the prevailing market exchange rate from deviating by more than 2 percent gives rise to an MCP subject to the IMF approval under Article VIII, Section 3. (Country Report No. 17/357)</td>
</tr>
</tbody>
</table>
The IMF staff report for the 2017 Article IV Consultation with Mauritania states that, as of July 13, 2017, Mauritania maintained one exchange restriction subject to IMF approval under Article VIII of the IMF’s Articles of Agreement. The exchange restriction arises from the insufficient foreign exchange availability at the fixing sessions (auctions) organized by the Central Bank of Mauritania (BCM) for those transactions which are required to be submitted to the auctions. (Country Report No. 17/524)

The IMF staff report for the 2017 Article IV Consultation with Myanmar states that, as of February 9, 2018, Myanmar continues to avail itself of transitional arrangements under Article XIV, although it has eliminated all Article XIV restrictions. However, Myanmar still maintained an exchange restriction and an MCP subject to IMF approval under Article VIII. The exchange restriction subject to IMF jurisdiction arises from the requirement of tax certification for authorizing transfers of net investment income abroad. The MCP arises from the two-way, multi-price foreign currency auction in the absence of a mechanism for maintaining winning bids within 2 percent of each other. (Country Report No. 17/140)

The IMF staff report for the 2018 Article IV Consultation with Nepal states that as of March 13, 2017, the Industrial Enterprises Act places a 75 percent limit on the conversion and transfer to foreign currency of salaries of nonresidents from countries where convertible currency is in circulation. Since the limit applies to amounts that may be less than net salaries, it gives rise to an exchange restriction under Article VIII. (Country Report No. 17/74)

The IMF staff report for the 2018 Article IV Consultation with Nigeria states that, as of February 15, 2018, Nigeria maintains the following exchange restrictions subject to IMF approval under Article VIII, Section 2(a), of the IMF’s Articles of Agreement: (1) an exchange restriction arising from the prohibition to access foreign exchange at the Nigerian foreign exchange markets for the payment of imports of 40 categories of items; (2) an exchange restriction arising from the rationing of foreign exchange in the Central Bank of Nigeria’s (CBN) IFEM and Secondary Market Intervention Sale (SMIS) windows, and its allocation based on the CBN’s determination of priority categories of transactions; and (3) an exchange restriction arising from existing limits on the amounts of foreign exchange available when traveling abroad (business travel allowance (BTA)/personal travel allowances (PTAs)), which cannot be exceeded even on verification of the bona fide nature of the transaction. In addition, Nigeria maintains the following MCPs subject to IMF approval under Article VIII, Sections 2(a) and 3, of the IMF’s Articles of Agreement: (1) an MCP arising from the intervention practice of the CBN in the trade market that results in the establishment of an official exchange rate for use in all official transactions, which in practice differs by more than 2 percent from the rate used by commercial banks in the CBN foreign exchange windows (SMIS, SME, IFEX, and Invisibles) and by money transfer operators; (2) an MCP arising from the large spread between the official exchange rate and the rates in the parallel market, caused by the CBN’s limitation on the availability of foreign exchange which channels current international transactions to such market; and (3) an MCP arising from the potential spread of more than 2 percent in the exchange rates at which the CBN sells foreign exchange to successful auction bidders in the SMIS window. (Country Report No. 18/63)

The IMF staff report for the First Post-Program Monitoring Discussions with Pakistan states that, as of February 16, 2018, the cash margin requirements on import payments constitute an exchange restriction and multiple currency practice subject to IMF jurisdiction under Article VIII, 2(a) and 3. (Country Report No. 18/78)

<tr>
<td>Papua New Guinea</td>
<td>The IMF staff report for the 2018 Article IV Consultation with Papua New Guinea states that, as of November 9, 2018, Papua New Guinea maintained the following exchange restrictions subject to IMF approval under Article VIII, Section 2(a) of the IMF’s Articles of Agreement arising from: (1) the requirement to obtain a tax clearance certificate evidencing the payment of all taxes prior to making payments or transfers for certain current international transactions; and (2) the rationing of foreign exchange and its allocation by the Bank of Papua New Guinea (BPNG) to certain priority items, which results in undue delays and arrears in current international payments. Papua New Guinea also maintains the following MCPs subject to IMF approval under Article VIII, Section 3: (1) an MCP arising from the spread of more than 2 percent between the rates set by the BPNG for its foreign exchange allocations to authorized foreign exchange dealers (AFEDs) and the rates used by AFEDs in transactions with their clients; and (2) an MCP arising from the potential spread deviation of more than 2 percent between the rates set by the BPNG for its foreign exchange transactions with the government and embassies and the rates used by AFEDs in transactions with their clients. (Country Report No. 18/352)</td>

<tr>
<td>São Tomé and Príncipe</td>
<td>The IMF staff report for the 2018 Article IV Consultation, Fifth Review under the Extended Credit Facility, Request for Waivers for Nonobservance of Performance Criteria, and Financing Assurances Review with São Tomé and Príncipe states that, as of July 9, 2018, São Tomé and Príncipe did not maintain restrictions under Article XIV. However, it maintained one previously identified and one newly identified restriction subject to IMF approval under Article VIII. The previously identified exchange restriction regarding limitations on the transferability of net income from investment arises from Article 3(g) and Article 18 of the Investment Code (Law No. 19/2016). The restriction results from the requirement that taxes and other obligations to the government have to be paid/fulfilled as a condition for transfer, to the extent the requirement includes the payment of taxes and the fulfillment of obligations unrelated to the net income to be transferred. In the context of the 2018 Article IV Consultation, staff found that São Tomé and Príncipe maintained an additional exchange restriction that is subject to IMF approval under Article VIII. This exchange restriction arises from limitations on the availability of foreign exchange through rationing of foreign exchange by the Bank of São Tomé and Príncipe (BCSTP). This exchange restriction also gives rise to an MCP as the rationing has channeled bona fide current transactions to the parallel market where the exchange rate is at a spread of more than 2 percent from the exchange rate in the formal market. (Country Report No. 18/251)</td>
</tr>
<tr>
<td>Serbia</td>
<td>The IMF staff report on the 2017 Article IV Consultation and Seventh Review under the Stand-by Arrangement with Serbia states that, as of August 11, 2017, Serbia maintained a system free of restrictions on payments and transfers for current international transactions, except with respect to blocked pre-1991 foreign currency savings deposits. (Country Report No. 17/263)</td>
</tr>
<tr>
<td>South Sudan</td>
<td>The IMF staff report on the 2016 Article IV Consultation with South Sudan states that, as of March 1, 2017, South Sudan maintained exchange restrictions and an MCP under the transitional arrangements of Article XIV. The exchange restrictions arise from: imposing absolute ceilings on the availability of foreign exchange for certain invisible transactions (travel, remittances for living expenses of students and families residing abroad, transfers of salaries by foreign workers). The MCP, which also gives rise to an exchange restriction because of extra burden, arises from the spread of more than 2 percent between the parallel market exchange rate and the formal commercial exchange market rate. (Country Report No. 17/773)</td>

Regulatory Framework for Foreign Exchange Transactions

This section surveys the measures reported by members with respect to the regulatory framework for foreign exchange transactions from January 2018 through August 2019. The measures are divided into five major categories: trade-related measures, current invisible transactions and transfers, account transactions, capital controls, and provisions specific to commercial banks and institutional investors.

Trade-Related Measures

From January 2018 through August 2019, members reported significantly more easing measures related to trade than restrictive ones. The total number of changes in exchange and trade controls related to imports and exports amounted to 198, of which 95 were easing, 84 tightening, and 19 neutral measures. Trade-related measures were implemented by 55 countries, of which 27 liberalized measures regarding imports and 15 regarding exports. Further, 27 countries tightened trade-related measures.

Imports and import payments

Forty-one member countries reported 136 measures related to imports and import payments, of which the number of easing measures (66) was marginally higher than that of tightening measures (62), along with 8 neutral measures.

Twenty-seven countries across different regions of the world relaxed measures on imports and import payments. On the other hand, 10 countries implemented tightening measures on imports and import payments.

A large number of liberalization measures in this category (but slightly fewer than in the previous reporting period) were implemented by Greece (8) as it gradually eased remaining controls on purchases of foreign currency for imports and on import payments implemented earlier to fend off a crisis. Australia and Sri Lanka each also undertook the same number of measures.

Liberalization measures in Greece affected both cash withdrawals and import payments. These measures, among others, increased and eventually eliminated the monthly cash withdrawal limit per depositor (which could be used for payments of imports) as of October 2018. At the same time, the daily limits and conditions on transfers abroad by individuals and businesses were relaxed throughout 2018. The easing measures undertaken by Australia related to elimination of tariffs as various bilateral and regional trade agreements became effective. Sri Lanka took steps to relax certain cash margin requirements, reduced tariffs on selected products, and eliminated the advance payment requirement for imports of nonessential consumer goods.

In other countries, several rules were relaxed for import payments, often reflecting macroeconomic stabilization or exchange rate reform. These measures relaxed rules on advance payments for imports (Fiji, Lesotho, Morocco) and minimum cash margin requirements (Egypt, Libya, Sudan), extended the timeline for completion of import transactions in the case of advance payments for imports (Azerbaijan, Ukraine), eased documentation requirements for releasing foreign exchange for imports (Bangladesh, Moldova, Russia), eliminated domiciliation requirements (Cabo Verde, Morocco), eliminated mandatory preshipment inspection (Uzbekistan), and increased the limit for non-oil import payments without central bank approval (The Bahamas). A few countries also reduced import tariffs (Bolivia, Kazakhstan, New Zealand).

Members’ tightening measures comprised tightening of advance payment requirements (Nigeria, Pakistan; the latter subsequently partly relaxed the requirement) and a licensing requirement for certain imports from designated countries (Bulgaria, Sweden; both in line with EU regulations). Some countries imposed or raised import taxes and duty on certain goods or on a certain group of countries (Ecuador, Kosovo, Malaysia, Mexico, South Africa, Zambia) or prohibited imports of certain goods or from certain countries (Australia, China, Grenada, Uzbekistan), including as a temporary measure (Kuwait).

30 Of the 62 tightening measures, 27 were reported by Kuwait, temporarily prohibiting imports of meat, live birds, and several other food products from certain countries.
Exports and export proceeds

Thirty-two countries reported 62 measures: easing measures (29) were moderately more than the number of tightening measures (22); the remainder were neutral.

Easing measures on exports and export proceeds were implemented in 15 countries. Among the liberalization efforts, 9 countries implemented measures aimed at relaxing repatriation and surrender requirements. For instance, Cabo Verde eliminated the repatriation requirement for export proceeds, Ukraine extended the timeline for repatriation and Russia eased repatriation requirements under certain conditions. In addition, Honduras, Jamaica, and Malaysia relaxed surrender requirements by reducing the proportion of export proceeds that must be surrendered. Barbados and Cabo Verde, and—following a gradual relaxation—Belarus and Ukraine terminated surrender requirements.

Other easing measures relaxed documentation requirements (Bangladesh), removed export taxes for certain products (Brazil), expanded quotas for certain exports (Bolivia, China), and eliminated licenses (Maldives).

On the other hand, 12 countries tightened restrictions on exports and export proceeds. Some of them (Democratic Republic of the Congo, Iran, Morocco, Tonga, Turkey) raised the repatriation and surrender requirements (Sudan, Tonga, Zimbabwe) or tightened the conditions for receiving export payments in foreign currency cash (Serbia). Others imposed a levy on some items (Argentina, Kyrgyz Republic, Zambia), while Mexico enhanced licensing requirements for certain goods. As a security measure, Australia requires a permit for exports of non-sanctioned products to the Democratic People’s Republic of Korea.

Current Invisible Transactions and Current Transfers

This section discusses exchange controls on invisible transactions and transfers that are included in the current account of the balance of payments. This category includes income from investment (for example, profits, dividends, and interest); payments for travel, education, medical expenses, and subscription and membership fees; unrequited transfers (for example, remittance of nonresidents’ salaries and wages); and payments related to services. The section also covers the repatriation and surrender requirements for proceeds from current invisibles and current transfers.

From January 2018 through August 2019, changes (123) reported by members in this category were predominantly easing measures (106); restrictive (15) and neutral (2) measures were only a very small fraction. These changes were introduced by 30 countries.

Payments for current invisibles and current transfers

Members continued to implement predominantly easing measures on payments for invisible transactions and current transfers. Of the 107 measures related to payments for current invisibles and current transfers reported by 24 countries, 92 were easing, 14 tightening, and 1 neutral. Among the 17 countries that implemented easing measures, Greece led the liberalization trend by contributing 21 measures, followed by Cabo Verde and Moldova (10 each).

Greece, following a gradual relaxation of limits imposed in 2015 to fend off a crisis, further increased quantitative limits on virtually all types of transfers both by individuals and business (trade, travel, personal, credit card use) and eventually eliminated limits related to cash withdrawals as of October 2018. It also increased the limits, including for profits and dividends on investment undertaken after October 1, 2018, for transfers allowable without prior approval. Other countries also increased quantitative limits, including for travel expenses (The Bahamas, Cabo Verde, Morocco), investment-related expenses (Fiji), personal payments (Samoa, South Africa), use of credit cards (Libya), and transfers of foreign workers’ wages (The Bahamas). In addition, for transfers abroad, Moldova eased the documentation requirement and exemptions for approval below a certain threshold, and Papua New Guinea raised the threshold amount for remittances abroad, above which require a tax clearance certificate.

The tightening measures initiated by members involve, for example, enhancing documentation requirements and lowering quantitative limits on payments and transfers. Measures taken to tighten transfers abroad include stricter documentation requirements (Kazakhstan) and limits on transfers through individuals’ and
legal entities’ bank accounts (Tajikistan). Quantitative limits were tightened for investment-related payments (Honduras), travel expenses (Bhutan), and the use of credit cards abroad (Nigeria). China also tightened the overall annual limit on overseas cash withdrawal for foreign and domestic currency credit cards but at the same time eased the daily limit on overseas cash withdrawal for foreign currency credit cards. Azerbaijan now subjects the transfer of wages abroad by nonresidents to documentary requirements, such as work contracts and bank statements.

**Proceeds from current invisibles and current transfers**

Ten countries—Barbados, Belarus, Cabo Verde, Jamaica, Morocco, Russia, Serbia, Ukraine, Venezuela, and Zimbabwe—reported 16 changes under this category. The overwhelming majority of these were easing measures; only one was a tightening measure, and one was neutral. Similarly to measures on repatriation of export proceeds, repatriation requirements on invisibles and transfers were eased by extending the number of days (Morocco), allowing for extensions (Serbia, Ukraine), removing them for certain transactions (Russia), and fully eliminating them (Cabo Verde). Surrender requirements to the central bank were eased (Jamaica, Venezuela), and surrender to authorized dealers was eliminated (Barbados, Belarus, Cabo Verde, Ukraine). On the tightening side, Zimbabwe introduced a surrender requirement for a portion of export proceeds related to certain industries.

**Account Transactions**

From January 2018 through August 2019, changes in resident and nonresident account regulations were introduced by 28 countries; the majority were easing regulations. Eighteen countries liberalized measures for resident accounts and 12 for nonresident accounts; 6 countries imposed restrictions on resident accounts, and 2 on nonresident accounts. Among the 104 changes reported under this category, about 77 percent were liberalization efforts (80); the remaining measures were either tightening (9) or neutral (15).

**Resident accounts**

Twenty-six members reported 60 measures, of which liberalization actions (49) largely dominated tightening (7) and neutral (4) actions. As part of ongoing gradual relaxation of restrictions introduced earlier, Greece took the lead in relaxing restrictions by implementing 10 easing measures during 2018, including, among others, permission to open new accounts and the addition of coholders to an existing account with a credit institution; gradually raised the monthly cash withdrawal limit and eventually eliminated all restrictions on domestic cash withdrawals; and raised daily limits for individuals for transfers without approval and for businesses other than goods importers, with approval of the bank’s subcommittee.

Other countries that took several easing measures include Belarus, Cabo Verde, and Morocco. Belarus permitted resident individuals and banks to open accounts abroad in foreign exchange and domestic currency without approval from the central bank. Previously, they were required to obtain approval in certain cases. In addition, Belarus removed controls related to accounts that can be converted to foreign currency. As a result, foreign exchange purchased and credited to a resident foreign exchange current account at a local bank may be maintained indefinitely. Residents may use the purchased foreign exchange for purposes other than those initially indicated in the request submitted to the bank. Cabo Verde, as part of the liberalization of its foreign exchange regime, eliminated all restrictions on residents’ accounts in foreign currency, both at home and abroad, and allowed residents to hold accounts in domestic currency abroad. Morocco permitted certain residents to open foreign currency accounts and domestic currency accounts convertible to foreign currency at domestic banks to facilitate obtaining and transferring funds for business travel. Legal entities were also allowed to open, without the need for approval, foreign currency accounts to hedge against the risk of commodity price fluctuations. Morocco further permitted companies with contracts abroad to open accounts abroad without approval and allowed capital investment organizations to place funds collected domestically in foreign exchange accounts abroad, up to a limit.

Among other reported easing measures, rules were liberalized regarding foreign exchange accounts held domestically: requirements to open accounts were relaxed, including by eliminating approval requirements in some cases (The Bahamas, Barbados), permitting these accounts for certain industries (Fiji, India), increasing
the maximum thresholds (The Bahamas, Fiji, Namibia), and easing restrictions on withdrawals from such accounts (Mozambique). Restrictions were eased on foreign exchange accounts abroad by allowing accounts abroad without any limits or for certain transactions (North Macedonia), increasing limits on balances (Namibia), expanding the types of accounts permitted (Austria, Russia, Thailand), and eliminating the approval requirement for the transfer of balances abroad within established limits (Ukraine). Constraints on accounts in domestic currency convertible to foreign currency were eased as follows: the requirement to sell unused foreign exchange was eliminated in Ukraine, and Uzbekistan permitted the sale of foreign exchange cash to individuals from their convertible accounts (previously it had to be credited to their bank cards).

Five countries took steps on the tightening side. Among them, Brazil increased the tax applied on foreign exchange transactions for the transfer of funds by residents to their foreign bank accounts. Kazakhstan changed the ex post notification requirement: residents must register their accounts abroad with the National Bank of Kazakhstan before making transactions from such accounts. Libya introduced a limit on the amount residents could keep and transfer abroad each year. Pakistan no longer allows residents who are not tax filers to credit their foreign exchange accounts with cash in foreign currencies. Tonga introduced an approval requirement for transfers abroad from a foreign currency account above a certain limit.

Nonresident accounts

Sixteen members reported 44 changes, which are predominantly easing measures, with the exception of 2 tightening and 11 neutral measures. Greece alone contributed 9 liberalization measures, followed by Uzbekistan and Ukraine.

Greece’s easing measures on resident accounts were also reflected in nonresident accounts: limits on monthly cash withdrawals by depositors were gradually relaxed in 2018, as were daily transfers abroad by individuals and businesses. Uzbekistan allowed nonresident legal entities involved in trading securities to open foreign exchange, domestic currency, and convertible accounts in the country. Ukraine, as part of its liberalization program, gradually increased and then eliminated limits on transfers of dividends and the monthly limit on the repatriation of funds received from liquidation of equity.

Among the other countries that followed the liberalization trend, Cabo Verde removed all restrictions on nonresidents’ foreign exchange accounts; other countries eased restrictions by removing the ceiling on balances that can be deposited (Ethiopia), increasing the threshold on transfers without the need for approval (Samoa), and increasing the limits for transactions without mandatory registration (Russia). Measures to ease conditions on the use of domestic currency accounts by nonresidents include the removal of restrictions on the types of accounts and approval requirement (Belarus, Cabo Verde), broadening the scope of nonresidents permitted to use such accounts and the purposes, respectively (Morocco, Fiji), and allowing nonresidents to open two types of accounts (repatriable and nonrepatriable) without approval from the central bank (Pakistan). Namibia increased the amount emigrants may transfer abroad from blocked accounts.

Tonga was the only country that tightened. It introduced a limit above which central bank approval is required for outward transfers, and transfers from one foreign currency account to another must be converted to local currency before reconverting to foreign currency.

Capital Controls

Global growth started softening in 2018 amid policy uncertainty in major economies, a decline in business confidence, and tighter financial conditions, as well as country-specific factors that reduced growth momentum. These factors continued to weigh on global economic activity in 2019—especially manufacturing and trade—with tentative signs of stabilization toward the end of the year.\(^{31}\) Net capital inflows to emerging market and developing economies slowed during 2018–19, with a significant sell-off in the second half of 2018, against the backdrop of tighter monetary policy by the US Federal Reserve and escalating trade tensions (Figure 4, panel 1). This decline in net capital inflows reflected a sharp decline in net portfolio inflows and

\(^{31}\) IMF World Economic Outlook, January 2020 update, October 2019, and October 2018.
an increase in net other investment outflows, while foreign direct investment inflows remained stable (Figure 4, panel 2). Against this backdrop liberalization of controls on capital transactions continued, but at a slower pace than before and with important differences among economies.

The measures included in this section are also considered to be capital flow management measures (CFMs) as defined by the IMF’s institutional view on the liberalization and management of capital flows.32 In addition to the capital controls included in this section, prudential-type measures discussed in the next section may also be CFMs if they were designed to limit capital flows. However, the AREAER does not use this terminology, because classifying a measure as a CFM requires substantial background information and considerable judgment, which is beyond the scope of the analysis conducted in compiling the AREAER database.

There were fewer actions in 2018 than during each of the previous two years, but by a larger set of economies than in 2017, and the trend looks set to continue in 2019 (Figure 5, panel 1). There were 257 changes in regulation of capital transactions in 2018, compared with 384 in 2017 and 268 in 2016.33 There was large-scale liberalization in a few economies in 2017, with Argentina and Iceland each implementing more than 70 liberalizing changes. In contrast, policy action in 2018 was more widespread—more economies introduced changes, but none introduced a large number of changes.34 More advanced economies and emerging market and developing economies reported at least one action, but each economy took fewer actions on average.

---

32 CFMs encompass a broad spectrum of measures. For the purposes of the IMF’s institutional view, the term “capital flow management measures” refers to measures designed to limit capital flows. CFMs comprise residency-based CFMs, which encompass a variety of measures (including taxes and regulations) affecting cross-border financial activity that discriminate on the basis of residency—also generally referred to as capital controls—and other CFMs, which do not discriminate on the basis of residency but are nonetheless designed to limit capital flows. These other CFMs typically include measures, such as some prudential measures, that differentiate transactions on the basis of currency, as well as other measures that typically apply to the nonfinancial sector. The concept of capital controls in the AREAER is residency-based: it includes various measures that regulate the conclusion or execution of transactions and transfers and the holding of assets at home by nonresidents and abroad by residents. See IMF, “The Liberalization and Management of Capital Flows: An Institutional View,” Washington, DC, 2012.

33 There were an additional 83 changes during 2018–19 that cannot be classified as easing or tightening of restrictions. The latter changes either did not discriminate by residence or currency, were extensions of existing regulations previously set to expire, or involved changes in regulations that were not clearly either easing or tightening.

34 This holds true even if we exclude Argentina, Greece, and Ukraine from all years.
(Figure 5, panels 2 and 3). Of the 38 economies that took action in 2018, advanced economies accounted for 8 (up from 6 in 2017), 28 were emerging market and developing economies (up from 20 in 2017), and 2 were low-income countries (down from 9 in 2017). The largest number of actions by any country was India’s 31, followed by Cabo Verde (23), Greece (23), and China (20) (Figure 5, panel 4). Among the key changes, India further liberalized restrictions on commercial and financial credit to residents from nonresidents and removed the minimum maturity requirements for foreign portfolio investment in the domestic bond market.

Figure 5. Controls on Capital Transactions
(Number of changes)

1. In 2018, fewer changes to controls on capital transactions were reported than in the previous two years.

2. In 2018, more AEs and EMDEs changed controls on capital transactions...

3. ...but the average economy had fewer changes than in 2017.

4. Most economies had fewer than five changes in 2018. Sixteen economies had five or more changes, of which four were advanced economies.

Source: AREAER database.

Note: AEs = advanced economies; EMDEs = emerging market and developing economies.

*The position date for 2019 varies by country and is less than the full year.

35 The World Economic Outlook classifications of advanced, emerging market and developing economies, and low-income developing economies are used in this summary. Of the 192 economies in the AREAER, 36 are advanced economies, 97 are emerging market and development economies, and 59 are low-income developing economies.
China eliminated the lockup period for invested principal for foreign institutional investors and raised the quotas for outward investment by qualified domestic investors; Cabo Verde introduced a new foreign exchange law that fully liberalized capital transactions; and Greece liberalized capital outflow controls, raising the limits on transfers of funds abroad without documentation that affected all categories of transactions. The only low-income economies reporting changes in 2018 were Uzbekistan and Nigeria. Uzbekistan liberalized restrictions on foreign direct investment inflows; Nigeria reduced the amount for cash gifts by residents to nonresidents without approval. The year 2019 looks set to continue the 2018 pace of change: of the 88 economies whose reporting dates were in 2019, 23 reported 150 changes to restrictions on capital transactions, or an average of about 6.5 actions a country, about the same as 6.8 actions a country in 2018 and lower than 7.7 actions a country in 2016 (Figure 5, panel 3). The only low-income country to report a change in 2019 was the Kyrgyz Republic, which liberalized controls on foreign investment by investment funds.

Reflecting the slowdown in growth and capital flows, a larger share of changes to restrictions on capital transactions during 2018–19 liberalized inflows (Figure 6, panel 1). Of the 257 changes to controls on capital transactions reported in 2018, 105, or 41 percent, eased inflows, compared with 33 percent in 2017 and 19 percent in 2016. Of the changes reported in the partial 2019 reporting period, 50 percent eased inflows. On the other hand, the share of measures relaxing outflow controls declined during 2018–19: 43 percent of changes in 2018 and 41 percent in 2019 eased outflows, compared with 48 percent in 2017 and 62 percent in 2016. When all types of liberalization are taken together, the share of liberalizations in all actions rose slightly during 2018–19, increasing to about 90 percent in each of these years, compared with about 88 percent during 2016–17. Nevertheless, because the total number of changes was smaller, fewer liberalizations took place in 2018 than in the previous two years (Figure 6, panel 2).

Figure 6. Controls on Capital Transactions, by Direction of Change
(Number of changes)
1. In 2018, a larger share of changes liberalized inflow controls (percent of total changes).

Source: AREAER database.
*The position date for 2019 varies by country and is less than the full year.

The 2019 numbers should, however, be interpreted with caution. Only 88 economies’ reporting periods ended in 2019, of which 29 economies’ reporting period ended during the first quarter, 31 during the second quarter, 23 during the third quarter, and 5 during the fourth quarter.

In this section, restrictions on nonresidents’ acquisition of domestic assets (including restrictions on repatriation of these assets) are referred to as “inflow controls”; restrictions on residents’ acquisition of assets abroad (including repatriation restrictions on these assets) are referred to as “outflow controls.”
Among economies that changed controls, the average advanced economy took more tightening actions than the average emerging market and developing economy in 2018 (Figure 7). Eight advanced economies reported a total of 12 tightening actions, all of which were on inflow controls. The same number of tightening actions was reported by 28 emerging market and developing economies, 7 of which were on inflows and the remaining on outflows. Nevertheless, both groups of economies took more liberalizing than tightening actions: of the 6.8 actions in the average advanced economy, only 1.5 were tightening measures, and of the 7.2 actions taken by the average emerging market and developing economy that changed any controls, 0.5 were tightening measures.

Among economies that changed controls, the average advanced economy did more tightening than the average emerging market and developing economy in 2018.

![Figure 7. Controls on Capital Transactions, by Direction of Change and Country Group](https://example.com/figure7.png)

The largest share of changes in 2018 in both advanced and emerging market and developing economies involved controls on capital and money market instruments (Figure 8). These amounted to 36 percent of all changes in 2018, compared with about 50 percent in the previous two years. Among advanced economies, Australia, Greece, Iceland, and Slovenia liberalized controls on capital and money market instruments. Australia increased the threshold for approval of foreign investment in Australian banks, Slovenia removed additional authorization requirements for sales or issuance of securities by residents in foreign markets (over domestic issuances), and Greece increased the limits for transfers without documentation of funds abroad by residents. These changes by Greece to transfers abroad also applied to personal capital transactions and were the only changes among advanced economies in that section. Among emerging market and developing economies, controls on capital and money market operations, derivatives, and other instruments, as well as on credit operations were the three major categories of changes.

The only categories in which advanced economies tightened controls were direct investment and real estate investment (Figure 9). A handful of advanced economies tightened controls on inflows to direct investment and real estate investment in 2018. Germany and New Zealand strengthened controls on direct investment inflows, while Australia, New Zealand, and Singapore tightened controls on nonresidents’ investment in real estate, reflecting continued concerns about vulnerabilities in housing markets in these economies.

The liberalization of controls on capital and money market instruments, derivatives, and other instruments and credit operations was broad-based among emerging market and developing economies. Twenty-three economies liberalized controls on one of these categories in 2018. Other than Cabo Verde, China, and India, economies with 10 or more liberalization measures in these categories in 2018 included The Bahamas, Colombia, Namibia, and...

Note: Categories in which there were no reported changes in controls are not shown.
Saudi Arabia, Serbia, and Ukraine. In Saudi Arabia there was a series of relaxations to rules for qualified foreign investors in the domestic securities market; Colombia implemented a liberalization in May 2018 that allowed exchange market intermediaries and residents to carry out financial derivatives transactions on any type of underlying asset with foreign agents. Colombia also allowed residents and nonresidents to grant credit to one another in domestic currency. Namibia increased limits on residents’ investment abroad and eased the interest cap (over the London interbank offered rate [LIBOR]) on foreign-currency-denominated loans. The Bahamas reduced the premium for residents to obtain foreign currency for investment in foreign currency securities and residential real estate abroad and increased the limit for their funding at the official exchange rate. There were few tightening changes in 2018 in emerging market and developing economies; notable among them were China’s tightening of controls on overseas direct investment by residents through foreign companies or Hong Kong SAR, Macao SAR, and Taiwan Province of China companies under their control and Turkey’s attempts to curb balance sheet mismatches by prohibiting foreign currency borrowing by residents that do not have foreign currency income. Although the final numbers for 2019 will be reported only in the next issue of the AREAER, countries already reported 13 tightening actions in 2019 for this issue. These were introduced by Australia, Bolivia, Lebanon, the Philippines, and Sri Lanka. Among these, Bolivia introduced the most tightening actions—which reduced the limits for foreign investment by insurance companies, banks, and new investment funds—followed by Sri Lanka, which reduced the share of rupee-denominated government securities nonresidents may hold. In Australia, the state of Western Australia increased the additional stamp duty imposed on foreign buyers of domestic property.

Provisions Specific to Commercial Banks and Institutional Investors

This section reviews developments in provisions specific to commercial banks and institutional investors, with a focus on prudential measures that are in the nature of capital controls. This category covers some monetary and prudential measures in addition to capital controls. It includes, among other categories of financial institution transactions, borrowing abroad, lending to nonresidents, purchasing locally issued securities denominated in foreign exchange, and establishing regulations pertaining to banks’ and institutional investors’ investments. These provisions may be similar or identical to the measures described in the respective categories of controls on accounts, capital and money market instruments, credit operations, and direct investment if the same regulations apply to commercial banks and institutional investors as to other residents. In such cases, the measure also appears in the relevant category in the sections on capital controls and nonresident accounts.

Reported measures in the financial sector indicate member countries’ efforts to continue to strengthen the regulatory framework of commercial banks, other credit institutions, and institutional investors. The number of reported measures (305) introduced from January 2018 through August 2019 increased by 10 percent over the previous reporting period. This reflects a marked increase in measures related to institutional investors (more than 20 percent) and a moderate increase regarding commercial banks (close to 6 percent). The tendency toward more easing than tightening measures gained additional momentum compared with the previous reporting period, which marked the first period this happened since the global financial crisis. This reflects that a significant share of the financial sector reforms following the global financial crisis has already been implemented and that there has been some scaling back of regulatory requirements.

As in the previous reporting period, the majority of the reported measures were prudential measures (165). Their share declined by 5 percentage points, to 54 percent, compared with the previous reporting period. The number of reported capital control measures was 140, compared with 113 in the previous reporting period. A majority of the capital controls affect institutional investors (63 percent), a somewhat higher share than in the previous reporting period.

Changes in capital controls overwhelmingly eased regulatory constraints (of the 140 reported, 113 were easing measures), as in the previous reporting period. A majority of reported changes in capital controls are aimed at easing outflows (90), 8 measures are aimed at both inflows and outflows, and 15 measures eased inflows.

---

38 Capital controls and prudential measures are highly intertwined because of their overlapping application. For example, some prudential measures (for example, different reserve requirements for deposit accounts held by residents and nonresidents) could also be regarded as capital controls because they distinguish between transactions with residents and nonresidents and hence influence capital flows.

39 Inclusion of an entry in this category does not necessarily indicate that the aim of the measure is to control the flow of capital.
majority of the 22 tightening measures (more than double the 9 tightening measures in the previous reporting period) were aimed at outflows (16), while 6 were aimed at both inflows and outflows. For the second reporting period in a row, there are no measures aimed at tightening inflows.

Easing prudential measures outweigh tightening measures, as with capital controls, which marks a shift compared with the past few reporting periods, when there was more balance between easing and tightening measures: 76 had an easing effect, 61 a tightening effect, and 28 a neutral effect. A summary of the changes in this category is presented in Figure 10.

**Figure 10. Provisions Specific to the Financial Sector, January 1, 2018–August 31, 2019**

![Diagram showing provisions for the financial sector from January 1, 2018 to August 31, 2019.](image)

Source: AREAER database.
Commercial banks and other credit institutions

Close to 43 percent of measures easing capital controls eased capital outflows (17), while 15 measures eased inflows, and 8 measures eased both types of flows.

- **Controls on capital inflows**—Most of the measures easing inflows relaxed restrictions on borrowing from abroad. In many instances these were the same countries that had eased such restrictions in the previous reporting period (Cabo Verde, India, Kazakhstan, Pakistan, Ukraine). China eliminated restrictions on foreign investors’ (and their related parties) ownership in Chinese-funded commercial banks and aligned rules on equity investment ratios with regard to owners’ residence. Russia eased reserve requirements on liabilities to nonresident legal entities, and Australia and Saudi Arabia eased ownership caps in local banks for foreign investors.

- **Controls on capital outflows**—Iceland eased restrictions on so-called offshore króna assets, which were the last remaining controls introduced in relation to the country’s financial crisis in 2008. Cabo Verde removed the approval requirement for opening and operating accounts abroad and for lending to nonresidents as part of a large-scale liberalization of the financial account. Colombia, India, Pakistan, and Tonga also eased restrictions on lending to nonresidents, while Jamaica reduced specific surrender requirements. Oman continued relaxing restrictions on banks’ external assets, and Belarus removed the requirement that banks obtain approval to have accounts abroad for the maintenance of representative offices and branches.

- **Controls on both inflows and outflows**—Fiji and Morocco eased restrictions on local lending in foreign currency, Ukraine—as part of its ongoing liberalization of controls—relaxed open foreign currency position limits, and Paraguay eased residency-based open position limits.

There were 11 measures that tightened capital controls, compared with only 2 in the previous reporting period. Five measures on outflows were intensified: Moldova and Mongolia tightened restrictions on banks’ establishment of subsidiary companies and minority interests in companies abroad, while Bolivia tightened banks’ foreign investment limits. Sri Lanka introduced an asymmetric open position limit, and Bolivia tightened the long position of such a limit; to fend off exchange market pressure Argentina tightened its net open position limit considerably. The remaining measure was aimed at both inflows and outflows, with Paraguay tightening restrictions on banks’ forward transactions in US dollars.

The 151 reported prudential measures indicate an easing of the prudential framework of banks’ operations. This is reflected in the shift in the balance between tightening and easing measures, with the number of easing measures increasing (to 68 from 63) while the number of tightening measures remained similar (60 compared with 61). As in the previous reporting period, there were a number of neutral measures (23).

Some of the measures that eased banks’ prudential frameworks are as follows:

- Several measures affected reserve requirements, which remain important tools used to attain monetary policy and financial stability objectives, and in some cases to respond to capital flow volatility. Reserve requirements were eased in Albania, Angola, Brazil, Costa Rica, Georgia, Indonesia, Jamaica, Mongolia, Russia, and Sri Lanka (domestic currency liabilities only); Armenia, Bolivia, and Peru (foreign currency liabilities only); and Bangladesh, El Salvador, Indonesia, the Kyrgyz Republic, the Philippines, Tanzania, Trinidad and Tobago, and Turkey.

- Belarus and Cyprus eased liquid asset requirements (the former on total deposits and the latter on foreign currency deposits) but replaced them with the introduction of the Basel III liquidity coverage ratio (LCR) (see below). The Philippines removed the liquidity requirement on certain foreign currency liabilities. Sri Lanka eased previously introduced asymmetric daily net open position limits on banks, and Ukraine removed daily limits on banks’ net foreign exchange purchases. Fiji, Georgia, Morocco, and Lao P.D.R. eased restrictions on local banks’ foreign currency lending. Kazakhstan increased the limit on banks’ foreign exchange derivatives positions, and Colombia on gross leverage positions; Belarus removed the requirement that banks receive approval to open accounts abroad. Pakistan eased restrictions on nonbank financial institutions’ aggregate and contingent liabilities.

Asymmetric open foreign exchange position limits are often considered capital controls since they have the effect of influencing capital flows. Net open position limits may also be considered capital controls if their calibration is changed swiftly and made very tight against the backdrop of capital outflow pressures and rapid exchange rate depreciation.
Sixty measures tightened prudential frameworks. The measures were aimed mainly at enhancing banks’ resilience against liquidity and exchange rate shocks and at adapting domestic regulations to international standards.

- Several countries introduced or continued to phase in the LCR, including Belarus, Cyprus, Korea, Latvia, Lebanon, Peru, Rwanda, Singapore, Turkey, and Uzbekistan. The LCR is part of the Basel III regulatory framework for banks and aims to address banks’ liquidity vulnerabilities.

- Several countries introduced or tightened measures to address foreign-exchange-related risks. Russia increased risk weights on foreign currency exposures, Turkey introduced restrictions on unhedged foreign exchange lending both locally and from abroad, and Vietnam introduced specific restrictions on short-term and medium-to long-term foreign currency lending, respectively. Romania introduced more tightly calibrated caps on debt service to income compared with those for domestic currency lending. Myanmar and Uzbekistan tightened open foreign exchange position limits.

- Hungary introduced a limit on interbank funding, and Pakistan tightened limits on nonbank finance companies’ liabilities and made them contingent on their creditors’ credit ratings. Angola tightened interest rate controls.

Neutral measures were related mostly to the implementation of new regulatory frameworks on banks’ operations and to changes in the institutional framework of bank supervision. Egypt issued rules on interest rate risk in the banking book. Italy introduced regulations on consumers’ access to a payment account with basic features, while Latvia made changes to its customer due diligence framework. The new Financial Sector Conduct Authority replaced the Financial Services Board in South Africa, and Moldova set quantitative and qualitative requirements for audit firms.

Institutional investors

The number of measures regarding institutional investors (102) increased (18 more than the previous period), signaling a return to the trend of increasing measures in recent reporting periods, which had reversed in the previous reporting period. This reflects a marked increase in regulatory changes affecting capital controls but a drop in changes in prudential measures (88 and 14 compared with 61 and 23, respectively, in the previous period). Changes easing constraints on the operations of institutional investors (81) significantly exceeded those tightening constraints (12). This was also true in the previous reporting period and, as was the case then, reflects mainly the relatively large number of measures easing capital flows, particularly outflows.

Regarding capital controls, 73 of the 88 reported changes relaxed constraints. All easing measures relaxed constraints on capital outflows.

Among countries easing capital controls on purchases of foreign securities were Austria, Croatia, and Peru (for pension funds); Belarus, Eswatini, Guyana, Lesotho, Morocco, the Philippines, South Africa, and Vanuatu eased restrictions on investments abroad by investment firms and collective investment funds. Ukraine no longer requires a license for purchases of foreign currency for outward investment for transactions below established limits.

Eleven measures strengthened capital controls on institutional investors. Costa Rica and Botswana (as well as Bolivia, Lebanon, and Namibia) tightened limits on purchases of foreign securities for insurance companies and investment funds.

Eight measures eased the prudential framework for operations by institutional investors. Costa Rica allowed funds to invest in securities denominated in any currency (previously, only a few currencies were permitted). Kazakhstan and the Kyrgyz Republic increased limits on insurance companies’ and investment funds’ investments in financial instruments of a single issuer.

Only one measure tightened the prudential rules for institutional investors’ operations to safeguard financial stability: Lebanon tightened requirements on local portfolios for investment companies and collective investment funds.

Among reported prudential measures specific to institutional investors, 5 of the 14 recorded were neutral. These measures reflect mainly institutional or procedural changes and cannot be linked directly to easing or tightening constraints on institutional investors’ operations. As an example, Belarus set up a framework for two types of investment funds: joint-stock investment funds and mutual funds. Bulgaria enhanced the legal framework governing the requirements applicable to investment firms, regulated markets, and data reporting services providers.
2019 AREAER: Compilation Guide

Status Under IMF Articles of Agreement

Article VIII
The member country has accepted the obligations of Article VIII, Sections 2, 3, and 4, of the IMF’s Articles of Agreement.

Article XIV
The member country continues to avail itself of the transitional arrangements of Article XIV, Section 2.

Exchange Measures

Restrictions and/or multiple currency practices
Exchange restrictions and multiple currency practices (MCPs) maintained by a member country under Article VIII, Sections 2, 3, and 4, or under Article XIV, Section 2, of the IMF’s Articles of Agreement, as specified in the latest IMF staff reports issued as of December 31, 2018. Information on exchange restrictions and MCPs or on the nonexistence of exchange restrictions and MCPs for countries with unpublished IMF staff reports are published only with the consent of the authorities. If no consent has been received, the AREAER indicates that “Information is not publicly available.” Hence, “Information is not publicly available” does not necessarily imply that the country maintains exchange restrictions or MCPs. It indicates only that the country’s relevant IMF staff report has not been published and that the authorities have not consented to the publication of the information on the existence of exchange restrictions and MCPs. Because the relevant IMF staff report may refer to years before the reporting period for this volume of the AREAER, therefore, more recent changes in the exchange system may not be included here. Changes in the category “Restrictions and/or multiple currency practices” are reflected in the edition of the AREAER that covers the calendar year during which the IMF staff report including information on such changes is issued. Changes in these measures which give rise to exchange restrictions or MCPs and that affect other categories of the country tables are reported under the relevant categories in the AREAER, in accordance with the normal reporting periods.

Exchange measures imposed for security reasons
Exchange measures on payments and transfers in connection with international transactions imposed by member countries for reasons of national or international security.

In accordance with IMF Executive Board Decision No. 144-(52/51), which establishes the obligation of members to notify the IMF before imposing such restrictions, or, if circumstances preclude advance notification, as promptly as possible.

Other security restrictions
Other restrictions imposed for security reasons (e.g., in accordance with UN or EU regulations) but not notified to the IMF under Board Decision 144-(52/51).

Exchange Arrangement

Currency
The official legal tender of the country.

Other legal tender
The existence of another currency that is officially allowed to be used in the country.

Exchange rate structure
If there is one exchange rate, the system is called unitary. If there is more than one exchange rate that may be used simultaneously for different purposes and/or by different entities, and if these exchange rates give rise to MCPs or differing rates for current and capital transactions, the system is called dual or multiple. Different effective exchange rates resulting from exchange taxes or subsidies, excessive exchange rate spreads between buying and selling rates, bilateral payments agreements, and broken cross rates are not included in this category. Changes in

1 Specific references to the underlying legal materials and hyperlinks to the legal texts are included in a separate column (References to legal instruments and hyperlinks) at each category level in each section of the country chapters.
measures within this category are reported in accordance with the normal reporting periods. Reclassification in cases related to changes in MCPs occurs in the edition of the AREAER, that covers the calendar year during which the IMF staff report that includes information on such changes is issued.

**Classification**

Describes and classifies the de jure and the de facto exchange rate arrangements.

**De jure**

The description and effective dates of the de jure exchange rate arrangements are provided by the authorities. By Article IV, Section 2(a) of the Fund’s Articles of Agreement and Paragraph 16 of the 2007 Surveillance Decision No. 13919-(07/51), each member is required to notify the Fund of the exchange arrangements it intends to apply and to notify the Fund promptly of any changes in its exchange arrangements. Country authorities are also requested to identify, whenever possible, which of the existing categories of exchange rate arrangements below most closely corresponds to the de jure arrangement in effect. Country authorities may also wish to briefly describe their official exchange rate policy. The description includes officially announced or estimated parameters of the exchange arrangement (e.g., parity, bands, weights, rate of crawl, and other indicators used to manage the exchange rate). It also provides information on the computation of the exchange rate.

**De facto**

IMF staff classifies the de facto exchange rate arrangements according to the categories below. The name and the definition of the categories describing the de facto exchange rate arrangements have been modified in accordance with the revised classification methodology, as of February 1, 2009. Where the description of the de jure arrangement can be empirically confirmed by the IMF staff over at least the previous six months, the exchange rate arrangement will be classified in the same way on a de facto basis.

Because the de facto methodology for classification of exchange rate regimes is based on a backward-looking approach that relies on past exchange rate movement and historical data, some countries are reclassified retroactively to a date when the behavior of the exchange rates changed and matched the criteria for reclassification to the appropriate category. For these countries, if the retroactive date of reclassification is prior to the period covered in this report, then the effective date of change to be entered in the country chapter and the changes section is deemed to be the first day of the year in which the decision of reclassification took place.

**No separate legal tender**

Classification as an exchange rate arrangement with no separate legal tender involves the confirmation of the country authorities’ de jure exchange rate arrangement. The currency of another country circulates as the sole legal tender (formal dollarization). Adopting such an arrangement implies the complete surrender by the monetary authorities of control over domestic monetary policy.

Exchange arrangements of countries that belong to a monetary or currency union in which the same legal tender is shared by the members of the union are classified under the arrangement governing the joint currency. This classification is based on the behavior of the common currency, whereas the previous classification was based on the lack of a separate legal tender. The classification thus reflects only a definitional change and is not based on a judgment that there has been a substantive change in the exchange arrangement or in other policies of the currency union or its members.

**Currency board**

Classification as a currency board involves the confirmation of the country authorities’ de jure exchange rate arrangement. A currency board arrangement is a monetary arrangement based on an explicit legislative commitment to exchange domestic currency for a specified foreign currency at a fixed exchange rate, combined with restrictions on the issuing authority to ensure the fulfillment of its legal obligation. This implies that domestic currency is usually fully backed
by foreign assets, eliminating traditional central bank functions such as monetary
control and lender-of-last-resort and leaving little scope for discretionary monetary
policy. Some flexibility may still be afforded, depending on the strictness of the
banking rules of the currency board arrangement.

Conventional peg Classification as a conventional peg involves the confirmation of the country authorities’ de jure exchange rate arrangement. For this category the country formally (de jure) pegs its currency at a fixed rate to another currency or basket of currencies, where the basket is formed, for example, from the currencies of major trading or financial partners and weights reflect the geographic distribution of trade, services, or capital flows. The anchor currency or basket weights are public or notified to the IMF. The country authorities stand ready to maintain the fixed parity through direct intervention (i.e., via sale or purchase of foreign exchange in the market) or indirect intervention (e.g., via exchange rate related use of interest rate policy, imposition of foreign exchange regulations, exercise of moral suasion that constrains foreign exchange activity, or intervention by other public institutions). There is no commitment to irrevocably keep the parity, but the formal arrangement must be confirmed empirically: the exchange rate may fluctuate within narrow margins of less than ±1% around a central rate or the maximum and minimum value of the spot market exchange rate must remain within a narrow margin of 2% for at least six months.

Stabilized arrangement Classification as a stabilized arrangement entails a spot market exchange rate that remains within a margin of 2% for six months or more (with the exception of a specified number of outliers or step adjustments) and is not floating. The required margin of stability can be met either with respect to a single currency or a basket of currencies, where the anchor currency or the basket is ascertained or confirmed using statistical techniques. Classification as a stabilized arrangement requires that the statistical criteria are met and that the exchange rate remains stable as a result of official action (including structural market rigidities). The classification does not imply a policy commitment on the part of the country authorities.

Crawling peg Classification as a crawling peg involves the confirmation of the country authorities’ de jure exchange rate arrangement. The currency is adjusted in small amounts at a fixed rate or in response to changes in selected quantitative indicators, such as past inflation differentials vis-à-vis major trading partners or differentials between the inflation target and expected inflation in major trading partners. The rate of crawl can be set to generate inflation-adjusted changes in the exchange rate (backward looking) or set at a predetermined fixed rate and/or below the projected inflation differentials (forward looking). The rules and parameters of the arrangement are public or notified to the IMF.

Crawl-like arrangement For classification as a crawl-like arrangement, the exchange rate must remain within a narrow margin of 2% relative to a statistically identified trend for six months or more (with the exception of a specified number of outliers) and the exchange rate arrangement cannot be considered as floating. Normally, a minimum rate of change greater than allowed under a stabilized (peg-like) arrangement is required. However, an arrangement will be considered crawl-like with an annualized rate of change of at least 1%, provided that the exchange rate appreciates or depreciates in a sufficiently monotonic and continuous manner.

Pegged exchange rate within horizontal bands Classification as a pegged exchange rate within horizontal bands involves the confirmation of the country authorities’ de jure exchange rate arrangement. The value of the currency is maintained within certain margins of fluctuation of at least ±1% around a fixed central rate, or the margin between the maximum and minimum value of the exchange rate exceeds 2%. It includes arrangements of countries in the ERM of the European Monetary System (EMS), which was replaced with the ERM II on January 1, 1999, for those countries with margins of fluctuation wider than ±1%. The central rate and width of the band are public or notified to the IMF.
Other managed arrangement

This category is a residual and is used when the exchange rate arrangement does not meet the criteria for any of the other categories. Arrangements characterized by frequent shifts in policies may fall into this category.

Floating

A floating exchange rate is largely market determined, without an ascertainable or predictable path for the rate. In particular, an exchange rate that satisfies the statistical criteria for a stabilized or a crawl-like arrangement will be classified as such unless it is clear that the stability of the exchange rate is not the result of official actions. Foreign exchange market intervention may be either direct or indirect, and such intervention serves to moderate the rate of change and prevent undue fluctuations in the exchange rate, but policies targeting a specific level of the exchange rate are incompatible with floating. Indicators for managing the rate are broadly judgmental (e.g., balance of payments position, international reserves, parallel market developments). Floating arrangements may exhibit more or less exchange rate volatility, depending on the size of the shocks affecting the economy.

Free floating

A floating exchange rate can be classified as free floating if intervention occurs only exceptionally and aims to address disorderly market conditions and if the authorities have provided information or data confirming that intervention has been limited to at most three instances in the previous six months, each lasting no more than three business days. If the information or data required are not available to the IMF staff, the arrangement will be classified as floating. Detailed data on intervention or official foreign exchange transactions will not be requested routinely from member countries, but only when other information available to IMF staff is insufficient to resolve uncertainties about the appropriate classification.

Official exchange rate

Provides information on the computation of the exchange rate and the use of the official exchange rate (accounting, customs valuation purposes, foreign exchange transactions with the government).

Monetary policy framework

The category includes a brief description of the monetary policy framework in effect according to the following subcategories:

Exchange rate anchor

The monetary authority buys or sells foreign exchange to maintain the exchange rate at its predetermined level or within a range. The exchange rate thus serves as the nominal anchor or intermediate target of monetary policy. These frameworks are associated with exchange rate arrangements with no separate legal tender, currency board arrangements, pegs (or stabilized arrangements) with or without bands, crawling pegs (or crawl-like arrangements), and other managed arrangements.

US dollar

The US dollar is the nominal anchor or the only legal tender.

Euro

The euro is the nominal anchor or the only legal tender.

Composite

A currency composite consisting of two or more currencies is the nominal anchor.

Other

A currency other than the US dollar and the euro is the nominal anchor or the only legal tender.

Monetary aggregate target

The intermediate target of monetary policy is a monetary aggregate such as M0, M1, or M2, although the country may also set targets for inflation. The central bank may use a quantity (central bank reserves or base money) or price variable (policy rate) as operational target.

Inflation-targeting framework

This involves the public announcement of numerical targets for inflation, with an institutional commitment by the monetary authority to achieve these targets, typically over a medium-term horizon. Additional key features normally include increased communication with the public and the markets about the plans and objectives of monetary policymakers and increased accountability of the central bank for achieving its inflation objectives. Monetary policy decisions are often guided by the deviation of forecasts of future inflation from the announced inflation target, with the inflation forecast acting (implicitly or explicitly) as the intermediate target of monetary policy.
**Target setting body**
The official body or organizational unit responsible for setting and/or adjusting the inflation targets.

**Inflation target**
The numerical targets for inflation which have been publicly announced by the Central Bank. Inflation targets are generally expressed as i) a point target, ii) targets with plus minus a certain numerical limit, and iii) as a band or range. The target measure is defined in terms of end-year inflation or as average annual inflation. CPI and core CPI are based on national definitions, which may vary from country to country. Target horizon is the term in years of inflation targets as publicly announced by the Central Bank.

**Operating target**
(Policy rate)
Policy rate is used as the operating target of the monetary policy to achieve the inflation target. Short-term policy interest rate target (for example, overnight, one week, two weeks, etc.) is generally expressed as i) a point target, ii) target with a certain numerical limit above and below the target, and iii) as a band or range (upper and lower limits).

**Accountability**
Accountability framework that requires the central bank to explain its conduct of monetary policy in the pursuit of achieving its inflation target. For example, the governor or representatives of the central bank are required to appear before Parliament or one of its committees to explain actions and views on monetary policy and economic developments. It may also require reporting inflation targets through Open letters on monetary policy. Usually written by the Governor on behalf of the Monetary Policy Committee to the government in the event that inflation misses the inflation target by a pre-specified amount.

**Transparency**
The manner and level of detail how monetary policy decisions are communicated to the public. Institutional transparency is gauged by the communication vehicles employed by the central bank, including the release of inflation reports and the frequency and detail of these reports, the announcement of changes in the stance of monetary policy via press release, reviews of inflation performance and changes in monetary policy, the publication of inflation forecasting models, and the use of media and other public presentations.

**Other monetary framework**
The country has no explicitly stated nominal anchor, but rather monitors various indicators in conducting monetary policy. This category is also used when no relevant information on the country is available.

**Exchange tax**
Foreign exchange transactions are subject to a special tax. Bank commissions charged on foreign exchange transactions are not included in this category; rather, they are listed under the exchange arrangement classification.

**Exchange subsidy**
Foreign exchange transactions are subsidized by using separate, nonmarket exchange rates.

**Foreign exchange market**
The existence of a foreign exchange market.

**Spot exchange market**
Institutional setting of the foreign exchange market for spot transactions and market participants. Existence and significance of the parallel market.

**Operated by the central bank**
The role of the central bank in providing access to foreign exchange to market participants through a foreign exchange standing facility, allocation of foreign exchange to authorized dealers, or other legal and private persons, and the management of buy or sell auctions or fixing sessions. Price determination and frequency of central bank operations.

A foreign exchange standing facility allows market participants to buy foreign exchange from or sell it to the central bank at predetermined exchange rates at their own initiative and is usually instrumental in maintaining a hard or soft peg arrangement. The credibility of the facility depends to a large extent on the availability of foreign exchange reserves to back the facility.
Allocation involves redistribution of foreign exchange inflows by the central bank to market participants for specific international transactions or in specific amounts (rationing). Foreign exchange allocation is often used to provide foreign exchange for strategic imports such as oil or food when foreign exchange reserves are scarce. In an allocation system, companies and individuals often transact directly with the central bank, and commercial banks may buy foreign exchange only for their clients’ underlying international transactions. Purchases of foreign exchange for the banks’ own books typically are not permitted.

Auctions are organized by the central bank, usually for market participants to buy and/or sell foreign exchange. They can take the form of multiple-price auctions (all successful bidders pay the price they offer) or single-price auctions (all successful bidders pay the same price, which is the market-clearing/cut-off price). The authorities may exercise discretion in accepting or rejecting offers, and sometimes a floor price is determined in advance, below which offers are not accepted. The frequency of auctions depends mainly on the amount or availability of foreign exchange to be auctioned and on the role the auction plays in the foreign exchange market.

Fixing sessions are often organized by the central bank at the early stage of market development to establish a market-clearing exchange rate. The central bank monitors the market closely and often actively participates in price formation by selling or buying during the session to achieve a certain exchange rate target. The price determined at the fixing session is often used for foreign exchange transactions outside the session and/or for accounting and valuation purposes.

**Interbank market**
The organization and operation of the interbank market or interventions. Existence of brokerage, over the counter, and market-making arrangements.

**Forward exchange market**
The existence of a forward exchange market and the institutional arrangement and market participants.

**Official cover of forward operations**
An official entity (the central bank or the government) assumes the exchange risk of certain foreign exchange transactions.

### Arrangements for Payments and Receipts

**Prescription of currency requirements**
The official requirements affecting the selection of currency and the method of settlement for transactions with other countries. When a country has payments agreements with other countries, the terms of these agreements often lead to a prescription of currency for specified categories of payments to, and receipts from, the countries concerned. This category includes information on the use of domestic currency in transactions between residents and nonresidents, both domestically and abroad; it also indicates any restrictions on the use of foreign currency among residents.

**Payments arrangements**

- **Bilateral payments arrangements**
  Two countries have an agreement to prescribe specific rules for payments to each other, including cases in which private parties are also obligated to use specific currencies. These agreements can be either operative or inoperative.

- **Regional arrangements**
  More than two parties participate in a payments agreement.

- **Clearing agreements**
  The official bodies of two or more countries agree to offset with some regularity the balances that arise from payments to each other as a result of the exchange of goods, services, or—less often—capital.
<table>
<thead>
<tr>
<th>Term</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Barter agreements and open accounts</td>
<td>The official bodies of two or more countries agree to offset exports of goods and services to one country with imports of goods and services from the same country, without payment.</td>
</tr>
<tr>
<td>Administration of control</td>
<td>The authorities’ division of responsibility for monitoring policy, administering exchange controls, and determining the extent of delegation of powers to outside agencies (banks are often authorized to effect foreign exchange transactions).</td>
</tr>
<tr>
<td>Payments arrears</td>
<td>Official or private residents of a member country default on their payments or transfers in foreign exchange to nonresidents. This category includes only the situation in which domestic currency is available for residents to settle their debts but they are unable to obtain foreign exchange—for example, because of the presence of an officially announced or unofficial queuing system; it does not cover nonpayment by private parties owing to bankruptcy.</td>
</tr>
<tr>
<td>Controls on trade in gold (coins and/or bullion)</td>
<td>Separate rules for trading in gold domestically and with foreign countries.</td>
</tr>
<tr>
<td>Controls on exports and imports of banknotes</td>
<td>Regulations governing the physical movement of means of payment between countries. Where information is available, the category distinguishes between separate limits for the (1) export and import of banknotes by travelers and (2) export and import of banknotes by banks and other authorized financial institutions.</td>
</tr>
</tbody>
</table>

**Resident Accounts**

Indicates whether resident accounts that are maintained in the national currency or in foreign currency, locally or abroad, are allowed and describes how they are treated and the facilities and limitations attached to such accounts. When there is more than one type of resident account, the nature and operation of the various types of accounts are also described; for example, whether residents are allowed to open foreign exchange accounts with or without approval from the exchange control authority, whether these accounts may be held domestically or abroad, and whether the balances on accounts held by residents in domestic currency may be converted into foreign currency.

**Nonresident Accounts**

Indicates whether local nonresident accounts maintained in the national currency or in foreign currency are allowed and describes how they are treated and the facilities and limitations attached to such accounts. When there is more than one type of nonresident account, the nature and operation of the various types of accounts are described.

**Blocked accounts**

Accounts of nonresidents, usually in domestic currency. Regulations prohibit or limit the conversion and/or transfer of the balances of such accounts.

**Imports and Import Payments**

Describes the nature and extent of exchange and trade restrictions on imports.

**Foreign exchange budget**

Information on the existence of a foreign exchange plan, i.e., prior allocation of a certain amount of foreign exchange, usually on an annual basis, for the importation of specific types of goods and/or services. In some cases, also covers differentiations among individual importers.

**Financing requirements for imports**

Information on specific import-financing regulations limiting the rights of residents to enter into private contracts in which the financing options differ from those in the official regulations.
### Documentation requirements for release of foreign exchange for imports

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Domiciliation</td>
<td>The obligation to domicile the transactions with a specified (usually domestic) financial institution.</td>
</tr>
<tr>
<td>Preshipment inspection</td>
<td>Most often a compulsory government measure aimed at establishing the veracity of the import contract in terms of volume, quality, and price.</td>
</tr>
<tr>
<td>Letters of credit</td>
<td>Parties are obligated to use letters of credit (LCs) as a form of payment for their imports.</td>
</tr>
<tr>
<td>Import licenses used as exchange licenses</td>
<td>Import licenses are used not for trade purposes but instead to restrict the availability of foreign exchange for legitimate trade.</td>
</tr>
</tbody>
</table>

### Import licenses and other nontariff measures

<table>
<thead>
<tr>
<th>Measure</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Positive list</td>
<td>A list of goods that may be imported.</td>
</tr>
<tr>
<td>Negative list</td>
<td>A list of goods that may not be imported.</td>
</tr>
<tr>
<td>Open general licenses</td>
<td>Indicates arrangements whereby certain imports or other international transactions are exempt from the restrictive application of licensing requirements.</td>
</tr>
<tr>
<td>Licenses with quotas</td>
<td>Refers to situations in which a license for the importation of a certain good is granted, but a specific limit is imposed on the amount to be imported.</td>
</tr>
<tr>
<td>Other nontariff measures</td>
<td>May include prohibitions on imports of certain goods from all countries or of all goods from a certain country. Several other nontariff measures are used by countries (e.g., phytosanitary examinations, setting of standards), but these are not covered fully in the report.</td>
</tr>
</tbody>
</table>

### Import taxes and/or tariffs

<table>
<thead>
<tr>
<th>Tax</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Taxes collected through the exchange system</td>
<td>A brief description of the import tax and tariff system, including taxes levied on the foreign exchange made available for imports.</td>
</tr>
<tr>
<td>State import monopoly</td>
<td>Indicates if any taxes apply to the exchange side of an import transaction.</td>
</tr>
</tbody>
</table>

### Exports and Export Proceeds

Describes restrictions on the use of export proceeds, as well as regulations on exports.

### Repatriation requirements

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Surrender requirements</td>
<td>The obligation of exporters to repatriate export proceeds.</td>
</tr>
<tr>
<td>Surrender to the central bank</td>
<td>Regulations requiring the recipient of repatriated export proceeds to sell, sometimes at a specified exchange rate, any foreign exchange proceeds in return for local currency to the central bank.</td>
</tr>
<tr>
<td>Surrender to authorized dealers</td>
<td>Regulations requiring the recipient of repatriated export proceeds to sell, sometimes at a specified exchange rate, any foreign exchange proceeds in return for local currency to commercial banks or exchange dealers authorized for this purpose or on a foreign exchange market.</td>
</tr>
</tbody>
</table>
### Financing requirements
Information on specific export-financing regulations limiting the rights of residents to enter into private contracts in which the financing options differ from those in the official regulations.

### Documentation requirements
The same categories as in the case of imports are used.

### Export licenses
Restrictions on the right of residents to export goods. These restrictions may take the form of quotas (where a certain quantity of shipment abroad is allowed) or the absence of quotas (where the licenses are issued at the discretion of the foreign trade control authority).

### Export taxes
A brief description of the export tax system, including any taxes that are levied on foreign exchange earned by exporters.

#### Payments for Invisible Transactions and Current Transfers
Describes the procedures for effecting payments abroad in connection with current transactions in invisibles, with reference to prior approval requirements, the existence of quantitative and indicative limits, and/or bona fide tests. Detailed information on the most common categories of transactions is provided only when regulations differ for the various categories. Indicative limits establish maximum amounts up to which the purchase of foreign exchange is allowed upon declaration of the nature of the transaction, mainly for statistical purposes. Amounts above those limits are granted if the bona fide nature of the transaction is established by the presentation of appropriate documentation. Bona fide tests also may be applied to transactions for which quantitative limits have not been established.

#### Trade-related payments
Includes freight and insurance (including possible regulations on non-trade-related insurance payments and transfers), unloading and storage costs, administrative expenses, commissions, and customs duties and fees.

#### Investment-related payments
Includes profits and dividends, interest payments (including interest on debentures, mortgages, etc.), amortization of loans or depreciation of foreign direct investments, and payments and transfers of rent.

#### Payments for travel
Includes international travel for business, tourism, etc.

#### Personal payments
Includes medical expenditures abroad, study expenses abroad, pensions (including regulations on payments and transfers of pensions by both state and private pension providers on behalf of nonresidents, as well as the transfer of pensions due to residents living abroad), and family maintenance and alimony (including regulations on payments and transfers abroad of family maintenance and alimony by residents).

#### Foreign workers’ wages
Transfer abroad of earnings by nonresidents working in the country.

#### Credit card use abroad
Use of credit and debit cards to pay for invisible transactions.

#### Other payments
Includes subscription and membership fees, authors’ royalties, consulting and legal fees, etc.

#### Proceeds from Invisible Transactions and Current Transfers
Describes regulations governing exchange receipts derived from transactions in invisibles—including descriptions of any limitations on their conversion into domestic currency—and the use of those receipts.

### Repatriation requirements
The definitions of repatriation and surrender requirements are similar to those applied to export proceeds.
| **Surrender to the central bank** | Refers mainly to the limitations imposed on the use of receipts previously deposited in certain types of bank accounts. |
| **Surrender to authorized dealers** | |
| **Restrictions on use of funds** | |

**Capital Transactions**

Describes regulations influencing both inward and outward capital flows. The concept of controls on capital transactions is interpreted broadly. Thus, controls on capital transactions include prohibitions; need for prior approval, authorization, and notification; dual and multiple exchange rates; discriminatory taxes; and reserve requirements or interest penalties imposed by the authorities that regulate the conclusion or execution of transactions or transfers; or the holding of assets at home by nonresidents and abroad by residents. The coverage of the regulations applies to receipts as well as to payments and to actions initiated by nonresidents and residents. In addition, because of the close association with capital transactions, information is also provided on local financial operations conducted in foreign currency, describing specific regulations in force that limit residents’ and nonresidents’ issuing of securities denominated in foreign currency or, generally, limitations on contract agreements expressed in foreign exchange.

**Repatriation requirements**

The definitions of repatriation and surrender requirements are similar to those applied to export proceeds.

**Controls on capital and money market instruments**

- **On capital market securities** Refers to shares and other securities of a participating nature and to bonds and other securities with an original maturity of more than one year.
- **Shares or other securities of a participating nature** Includes transactions involving shares and other securities of a participating nature if they are not effected for the purpose of acquiring a lasting economic interest in the management of the enterprise concerned. Investments for the purpose of acquiring a lasting economic interest are addressed under foreign direct investments.
- **Bonds or other debt securities** Refers to bonds and other securities with an original maturity of more than one year. The term “other securities” includes notes and debentures.
- **On money market instruments** Refers to securities with an original maturity of one year or less and includes short-term instruments such as certificates of deposit and bills of exchange. The category also includes treasury bills and other short-term government paper, bankers’ acceptances, commercial papers, interbank deposits, and repurchase agreements.
- **On collective investment securities** Includes share certificates and registry entries or other evidence of investor interest in an institution for collective investment such as mutual funds, and unit and investment trusts.
### Controls on derivatives and other instruments
Refers to operations in other negotiable instruments and nonsecured claims not covered under the above subsections. These may include operations in rights; warrants; financial options and futures; secondary market operations in other financial claims (including sovereign loans, mortgage loans, commercial credits, negotiable instruments originating as loans, receivables, and discounted bills of trade); forward operations (including those in foreign exchange); swaps of bonds and other debt securities; credits and loans; and other swaps (e.g., interest rate, debt/equity, equity/debt, foreign currency, as well as swaps of any of the instruments listed above). Also included are controls on operations in foreign exchange without any other underlying transaction (e.g., spot or forward trading on the foreign exchange markets, forward cover operations, etc.).

### Controls on credit operations
- **Commercial credits**: Covers operations directly linked with international trade transactions or with the rendering of international services.
- **Financial credits**: Includes credits other than commercial credits granted by all residents, including banks, to nonresidents or vice versa.
- **Guarantees, sureties, and financial backup facilities**: Includes guarantees, sureties, and financial backup facilities provided by residents to nonresidents and vice versa. Also includes securities pledged for payment or performance of a contract—such as warrants, performance bonds, and standby letters of credit—and financial backup facilities that are credit facilities used as a guarantee for independent financial operations.

### Controls on direct investment
Refers to investments for the purpose of establishing lasting economic relations both abroad by residents and domestically by nonresidents. These investments are essentially for the purpose of producing goods and services, in particular, investments that allow investor participation in the management of the enterprise. The category includes the creation or extension of a wholly owned enterprise, subsidiary, or branch and the acquisition of full or partial ownership of a new or existing enterprise that results in effective influence over the operations of the enterprise.

### Controls on liquidation of direct investment
Refers to the transfer of principal, including the initial capital and capital gains, of a foreign direct investment as defined above.

### Controls on real estate transactions
Refers to the acquisition of real estate not associated with direct investment, including, for example, investments of a purely financial nature in real estate or the acquisition of real estate for personal use.

### Controls on personal capital transactions
Covers transfers initiated on behalf of private persons and intended to benefit other private persons. Includes transactions involving property to which the promise of a return to the owner with payments of interest is attached (e.g., loans or settlements of debt in their country of origin by immigrants), and transfers effected free of charge to the beneficiary (e.g., gifts and endowments, loans, inheritances and legacies, or emigrants’ assets).

### Provisions Specific to the Financial Sector
Describes regulations specific to these institutions, such as monetary, prudential, and foreign exchange controls. Inclusion of an entry in this category does not necessarily signify that the aim of the measure is to control the flow of capital. Some of these items (e.g., borrowing abroad, lending to nonresidents, purchase of locally issued securities denominated in foreign exchange, investment regulations) may be repetitions of the entries under respective categories of controls on capital and money market instruments, credit operations, or direct investments when the same regulations apply to commercial banks as well as to other residents.
### Open foreign exchange position limits
Describes regulations on certain commercial bank balance sheet items (including capital) and on limits covering commercial banks’ positions in foreign currencies (including gold).

### Provisions specific to institutional investors
Describes controls specific to institutions, such as insurance companies, pension funds, investment firms (including brokers, dealers, or advisory firms), and other securities firms (including collective investment funds). Incorporates measures that impose limitations on the composition of the institutional investors’ foreign or foreign currency assets (reserves, accounts) and liabilities (e.g., investments in equity capital of institutional investors or borrowing from nonresidents) and/or that differentiate between residents and nonresidents. Examples of such controls are restrictions on investments because of rules regarding the technical, mathematical, security, or mandatory reserves; solvency margins; premium reserve stocks; or guarantee funds of nonbank financial institutions. Inclusion of an entry in this category does not necessarily signify that the aim of the measure is to control the flow of capital.

- Insurance companies
- Pension funds
- Investment firms and collective investment funds.

#### Listing conventions used in the report are as follows:
- When it is unclear whether a particular category or measure exists—because pertinent information is not available at the time of publication—the category is displayed with the notation “n.a.”
- If a measure is known to exist but specific information on it is not available, the category is displayed with the notation “yes.”
- If no measure exists on any item within a category, the category is displayed with the notation “no.”
- If members have provided the IMF staff with information indicating that a category or an item is not regulated, these are marked by “n.r.”
- When relevant documents have not been published and the authorities have not consented to the publication of the information as included in the IMF staff report, the text reads “Information is not publicly available.”

### Key

- Indicates that the specified practice is a feature of the exchange system.
- Indicates that data were not available at the time of publication.
- Indicates that the specified practice is not regulated.
○ Indicates that the country participates in the euro area.
▲ Indicates that the country participates in the European Exchange Rate Mechanism (ERM II).
 Indicates that flexibility is limited vis-à-vis another single currency.
* Indicates that flexibility is limited vis-à-vis another basket of currencies.
Country Table Matrix

(Position as of “DATE”)

I. Status under IMF Articles of Agreement

A. Date of membership
   1. Article VIII
   2. Article XIV

II. Exchange Measures

A. Restrictions and/or multiple currency practices
B. Exchange measures imposed for security reasons
   1. In accordance with IMF Executive Board Decision No. 144-(52/51)
   2. Other security restrictions

III. Exchange Arrangement

A. Currency
   1. Other legal tender
B. Exchange rate structure
   1. Unitary
   2. Dual
   3. Multiple
C. Classification
   1. No separate legal tender
   2. Currency board
   3. Conventional peg
   4. Stabilized arrangement
   5. Crawling peg
   6. Crawl-like arrangement
   7. Pegged exchange rate within horizontal bands
   8. Other managed arrangement
   9. Floating
   10. Free floating
D. Official exchange rate
E. Monetary policy framework
   1. Exchange rate anchor
      a. US dollar
      b. Euro
      c. Composite
      d. Other
   2. Monetary aggregate target
3. Inflation-targeting framework
   a. Target setting body
      1. Government
      2. Central Bank
         i. Monetary Policy Committee
         ii. Central Bank Board
         iii. Other
      3. Government and Central Bank
   b. Inflation target
      1. Target number
         i. Point target
         ii. Target with tolerance band
         iii. Band/Range
      2. Target measure
         i. CPI
         ii. Core inflation
      3. Target horizon
   c. Operating target (policy rate)
      1. Policy rate
      2. Target corridor band
      3. Other
   d. Accountability
      1. Open letter
      2. Parliamentary hearings
      3. Other
   e. Transparency
      1. Publication of votes
      2. Publication of minutes
      3. Publication of inflation forecasts
   4. Other monetary framework

F. Exchange tax

G. Exchange subsidy

H. Foreign exchange market
   1. Spot exchange market
      a. Operated by the central bank
         1. Foreign exchange standing facility
         2. Allocation
         3. Auction
         4. Fixing
      b. Interbank market
         1. Over the counter
         2. Brokerage
         3. Market making
2. Forward exchange market
   a. Official cover of forward operations

IV. Arrangements for Payments and Receipts

A. Prescription of currency requirements
1. Controls on the use of domestic currency
   a. For current transactions and payments
   b. For capital transactions
      1. Transactions in capital and money market instruments
      2. Transactions in derivatives and other instruments
      3. Credit operations
2. Use of foreign exchange among residents

B. Payments arrangements
1. Bilateral payments arrangements
   a. Operative
   b. Inoperative
2. Regional arrangements
3. Clearing agreements
4. Barter agreements and open accounts

C. Administration of control

D. Payments arrears
1. Official
2. Private

E. Controls on trade in gold (coins and/or bullion)
1. On domestic ownership and/or trade
2. On external trade

F. Controls on exports and imports of banknotes
1. On exports
   a. Domestic currency
   b. Foreign currency
2. On imports
   a. Domestic currency
   b. Foreign currency

V. Resident Accounts

A. Foreign exchange accounts permitted
1. Held domestically
   a. Approval required
2. Held abroad
   a. Approval required

B. Accounts in domestic currency held abroad

C. Accounts in domestic currency convertible into foreign currency
VI. Nonresident Accounts

A. Foreign exchange accounts permitted
1. Approval required

B. Domestic currency accounts
1. Convertible into foreign currency
2. Approval required

C. Blocked accounts

VII. Imports and Import Payments

A. Foreign exchange budget

B. Financing requirements for imports
1. Minimum financing requirements
2. Advance payment requirements
3. Advance import deposits

C. Documentation requirements for release of foreign exchange for imports
1. Domiciliation requirements
2. Preshipment inspection
3. Letters of credit
4. Import licenses used as exchange licenses
5. Other

D. Import licenses and other nontariff measures
1. Positive list
2. Negative list
3. Open general licenses
4. Licenses with quotas
5. Other nontariff measures

E. Import taxes and/or tariffs
1. Taxes collected through the exchange system

F. State import monopoly

VIII. Exports and Export Proceeds

A. Repatriation requirements
1. Surrender requirements
   a. Surrender to the central bank
   b. Surrender to authorized dealers

B. Financing requirements

C. Documentation requirements
1. Letters of credit
2. Guarantees
3. Domiciliation
4. Preshipment inspection
5. Other

D. Export licenses
1. Without quotas
2. With quotas

E. Export taxes
1. Collected through the exchange system
2. Other export taxes

IX. Payments for Invisible Transactions and Current Transfers

A. Controls on these transfers
1. Trade-related payments
   a. Prior approval
   b. Quantitative limits
   c. Indicative limits/bona fide test
2. Investment-related payments
   a. Prior approval
   b. Quantitative limits
   c. Indicative limits/bona fide test
3. Payments for travel
   a. Prior approval
   b. Quantitative limits
   c. Indicative limits/bona fide test
4. Personal payments
   a. Prior approval
   b. Quantitative limits
   c. Indicative limits/bona fide test
5. Foreign workers’ wages
   a. Prior approval
   b. Quantitative limits
   c. Indicative limits/bona fide test
6. Credit card use abroad
   a. Prior approval
   b. Quantitative limits
   c. Indicative limits/bona fide test
7. Other payments
   a. Prior approval
   b. Quantitative limits
   c. Indicative limits/bona fide test
X. Proceeds from Invisible Transactions and Current Transfers

A. Repatriation requirements
   1. Surrender requirements
      a. Surrender to the central bank
      b. Surrender to authorized dealers

B. Restrictions on use of funds

XI. Capital Transactions

A. Controls on capital transactions
   1. Repatriation requirements
      a. Surrender requirements
         1. Surrender to the central bank
         2. Surrender to authorized dealers
      2. Controls on capital and money market instruments
         a. On capital market securities
            1. Shares or other securities of a participating nature
               i. Purchase locally by nonresidents
               ii. Sale or issue locally by nonresidents
               iii. Purchase abroad by residents
               iv. Sale or issue abroad by residents
            2. Bonds or other debt securities
               i. Purchase locally by nonresidents
               ii. Sale or issue locally by nonresidents
               iii. Purchase abroad by residents
               iv. Sale or issue abroad by residents
         b. On money market instruments
            1. Purchase locally by nonresidents
            2. Sale or issue locally by nonresidents
            3. Purchase abroad by residents
            4. Sale or issue abroad by residents
         c. On collective investment securities
            1. Purchase locally by nonresidents
            2. Sale or issue locally by nonresidents
            3. Purchase abroad by residents
            4. Sale or issue abroad by residents
   3. Controls on derivatives and other instruments
      a. Purchase locally by nonresidents
      b. Sale or issue locally by nonresidents
      c. Purchase abroad by residents
      d. Sale or issue abroad by residents
4. Controls on credit operations
   a. Commercial credits
      1. By residents to nonresidents
      2. To residents from nonresidents
   b. Financial credits
      1. By residents to nonresidents
      2. To residents from nonresidents
   c. Guarantees, sureties, and financial backup facilities
      1. By residents to nonresidents
      2. To residents from nonresidents
5. Controls on direct investment
   a. Outward direct investment
   b. Inward direct investment
6. Controls on liquidation of direct investment
7. Controls on real estate transactions
   a. Purchase abroad by residents
   b. Purchase locally by nonresidents
   c. Sale locally by nonresidents
8. Controls on personal capital transactions
   a. Loans
      1. By residents to nonresidents
      2. To residents from nonresidents
   b. Gifts, endowments, inheritances, and legacies
      1. By residents to nonresidents
      2. To residents from nonresidents
   c. Settlement of debts abroad by immigrants
   d. Transfer of assets
      1. Transfer abroad by emigrants
      2. Transfer into the country by immigrants
   e. Transfer of gambling and prize earnings

XII. Provisions Specific to the Financial Sector

A. Provisions specific to commercial banks and other credit institutions
   1. Borrowing abroad
   2. Maintenance of accounts abroad
   3. Lending to nonresidents (financial or commercial credits)
   4. Lending locally in foreign exchange
   5. Purchase of locally issued securities denominated in foreign exchange
   6. Differential treatment of deposit accounts in foreign exchange
      a. Reserve requirements
      b. Liquid asset requirements
      c. Interest rate controls
      d. Credit controls
7. Differential treatment of deposit accounts held by nonresidents
   a. Reserve requirements
   b. Liquid asset requirements
   c. Interest rate controls
   d. Credit controls
8. Investment regulations
   a. Abroad by banks
   b. In banks by nonresidents
9. Open foreign exchange position limits
   a. On resident assets and liabilities
   b. On nonresident assets and liabilities

B. Provisions specific to institutional investors

1. Insurance companies
   a. Limits (max.) on securities issued by nonresidents
   b. Limits (max.) on investment portfolio held abroad
   c. Limits (min.) on investment portfolio held locally
   d. Currency-matching regulations on assets/liabilities composition
2. Pension funds
   a. Limits (max.) on securities issued by nonresidents
   b. Limits (max.) on investment portfolio held abroad
   c. Limits (min.) on investment portfolio held locally
   d. Currency-matching regulations on assets/liabilities composition
3. Investment firms and collective investment funds
   a. Limits (max.) on securities issued by nonresidents
   b. Limits (max.) on investment portfolio held abroad
   c. Limits (min.) on investment portfolio held locally
   d. Currency-matching regulations on assets/liabilities composition
AFGHANISTAN
(Position as of December 31, 2018)

Status under IMF Articles of Agreement

Date of membership
July 14, 1955.

Article VIII
Yes.

Article XIV
Yes.

Exchange Measures

Restrictions and/or multiple currency practices
No.

Exchange measures imposed for security reasons
No.

In accordance with IMF Executive Board Decision No. 144-(52/51)
No.

Other security restrictions
No.

Pegged exchange rate within horizontal bands

Other managed arrangement
Yes. The de jure exchange rate arrangement is managed floating. The Da Afghanistan Bank (DAB) intervenes regularly in the foreign exchange market through three-times-weekly selling auctions. The results are published on the DAB website. The DAB deals with ADs.
only through the auction. The primary goal of these auctions is to regulate the growth of reserve money and/or currency in circulation. Subject to meeting this goal, the DAB also seeks to minimize intra-auction exchange rate volatility. Since May 2018, the exchange rate increased its volatility against the US dollar, while still being managed. Accordingly, the de facto exchange rate arrangement was reclassified to “other managed” from “crawl-like,” effective May 4, 2018. The DAB publishes intervention data on its website.

Floating

Free floating

**Official exchange rate** | Yes. | The DAB reports official exchange rates of the Afghani vis-à-vis nine major currencies. The DAB staff conducts an online foreign exchange rate survey of between 40 and 50 licensed exchange dealers in Kabul at the start of each business day and acquires data on buying and selling rates for the nine currencies. The DAB’s official reference rates are then determined as the average of the market rates for each currency. The official exchange rate is provided as a daily benchmark or reference point for commercial banks, private sector entities, and government agencies to use in their transactions.

**Monetary policy framework**

Exchange tax

No.

Exchange subsidy

No.

Foreign exchange market

Yes. The foreign exchange market consists of commercial banks and foreign exchange dealers. Commercial banks and bureaus are free to set their exchange rates and commissions in transactions with their clients and with each other.

Spot exchange market

Yes. According to the Foreign Exchange Dealers and Money Service Providers Regulation, 2017, both foreign exchange dealers and money service providers licensed by the DAB may operate in the foreign exchange market. In addition, commercial banks and licensed foreign exchange dealers must register and pay a fee to participate in DAB auctions. There were 1,699 foreign exchange dealers and 1,285 licensed money service providers overall, as of December 2018. Money service providers, including Hawaladars, provide remittances and related services.

Operated by the central bank

Yes.

Foreign exchange standing facility

No.

Allocation

No.

Auction

Yes. The DAB conducts online foreign currency auction three times a week on a first-price basis with same-day settlement. The amount of foreign exchange offered at the auction is announced in the local press and magazines one working day in advance, and the results are published on the DAB website immediately after each auction. All
bidders are required to submit their bids before 9:20 a.m. of the auction day. The Foreign Currency Auction Regulations allow bidders to set their maximum bid amounts at 3% of the total announced amount of the auction day, respectively. Bids are awarded based on the bidding prices. The auction includes commercial banks and foreign exchange dealers. There is no requirement for auction participants to finance specific international transactions with the foreign currency obtained at the auctions. Successful bidders who fail to settle their account within the same day of the auction are fined the total cash collateral of Af 1,500,000. The DAB may elect to revoke the auction privileges or license of a bidder if it fails to settle.

Fixing
No.

*Interbank market* Yes.
The DAB does not impose restrictions on the interbank foreign exchange market, but it is not active. Most foreign exchange transactions are made between commercial banks/exchange dealers and their clients. There are 14 licensed commercial banks. Commercial banks and bureaus are free to set their exchange rates and commissions in transactions with their clients and with each other.

Over the counter Yes.

Brokerage No.

Market making No.

Forward exchange market No.

*Official cover of forward operations* No.

**Arrangements for Payments and Receipts**

*Prescription of currency requirements* Yes.

Controls on the use of domestic currency No.

*For current transactions and payments* No.

*For capital transactions* No.

Transactions in capital and money market instruments No.

Transactions in derivatives and other instruments No.

Credit operations No.

Use of foreign exchange among residents Yes.

*Payments arrangements* Yes.

Bilateral payments arrangements Yes.

Operative No.

*Article 46 of the DAB Law provides for freedom of currency—that is, residents may use any mutually agreed currency in their transactions. In the absence of an agreed currency, Article 45 of the DAB Law stipulates that contracts should be deemed to be denominated in Afghani. There are some incentives to promote use of national currency, but no formal restrictions apply.*
An agreement with Russia has been superseded, following the Paris Club rescheduling agreement of July 31, 2006, and the authorities are in the process of concluding agreements with the Paris Club members.

Regional arrangements No.
Clearing agreements No.
Barter agreements and open accounts No.
Administration of control No.
Payments arrears No.
Official No.
Private No.

**Controls on trade in gold (coins and/or bullion)**

On domestic ownership and/or trade No.

On external trade Yes.

Imports and reexports of gold are permitted; however, procedures under the Minerals Law and Customs Law may be applicable. Gold may be exported for a limited period by certain traders registered with Afghanistan Central Business Registry and Intellectual Property (previously called AISA), Afghanistan International Chamber of Commerce (AICC), and Ministry of Commerce (MOC). According to the customs policy, the sender must bring the gold back to Afghanistan.

**Controls on exports and imports of banknotes**

Yes.

There is no restriction on the inflow of banknotes. Based on a Cabinet decision (Council of Ministers Resolution No. 47), the amount of cash a person may take out of the country is limited to US $20,000 or its equivalent a trip. Cash transfers above US $20,000 must take place through the banking system. In addition, under Article 6 of the Anti-Money-Laundering and Proceeds of Crime Law (the AML Law), anyone who (1) leaves or enters Afghanistan with or (2) imports or exports by mail, courier, or otherwise more than Af 1 million in cash or negotiable bearer instruments, without first reporting it to the relevant authority, will be fined an amount equal to the cash involved, or the difference between the actual amount and the amount declared, as the case may be.

**On exports**

Yes.

Based on a Cabinet decision (Council of Ministers Resolution No. 47), the amount of cash a person may take out of the country is limited to US $20,000 or its equivalent a trip. Cash transfers above US $20,000 must take place through the banking system. In addition, under Article 6 of the AML Law, anyone who (1) leaves or enters Afghanistan with or (2) imports or exports by mail, courier, or otherwise more than Af 1 million in cash or negotiable bearer instruments, without first reporting it to the relevant authority, will be fined an amount equal to the cash involved, or the difference between the actual amount and the amount declared, as the case may be.

Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions Yes. The Related Person Regulation includes requirements when entering into related person transactions, that prohibits doing business with
related person on certain terms, limitations on maximum size of related party exposures, and roles of Board of Supervisors. The Assets Classification and Provisioning Regulation was revised and came into force effective January 1, 2018. The major changes include addition of Repossessed Assets, changes in the maturity dates of Standard, Watch, Doubtful, and Loss categories, 1% reserve for losses (Optional) on Standards category of loans, addition of limitations to Micro, Small, and Medium credits, and changes in the definition of “past due.”

Borrowing abroad No. There are no restrictions on commercial banks’ borrowing from abroad.

Maintenance of accounts abroad No. There are no restrictions on commercial banks’ maintenance of accounts abroad.

Lending to nonresidents (financial or commercial credits) No. Banks may lend to nonresidents domestically.

Lending locally in foreign exchange No. Under Article 46 (Freedom of Currency) of the DAB Law, “parties to a contract or any other voluntary transaction, including a party to a bill, note, instrument or security for money, may denominate a payment obligation in any currency agreed upon.”

Purchase of locally issued securities denominated in foreign exchange No. These instruments do not exist.

Differential treatment of deposit accounts in foreign exchange Yes. Commercial banks must hold the required reserves in the currency of deposits. The reserve requirement is 8% of deposits denominated in national currency and 10% of deposits denominated in foreign currencies.

Reserve requirements Yes. There is no differential treatment of deposit accounts for reserve requirement purposes.

Liquid asset requirements No. There is no differential treatment of deposit accounts for liquidity purposes.

Interest rate controls No. There are no interest rate controls.

Credit controls No. There are no credit controls.

Differential treatment of deposit accounts held by nonresidents No. There is no differential treatment of deposit accounts held by nonresidents for reserve requirement purposes.

Reserve requirements No. There is no differential treatment of deposit accounts held by nonresidents for reserve requirement purposes.

Liquid asset requirements No. There is no differential treatment of deposit accounts held by nonresidents for liquidity purposes.

Interest rate controls No. There are no interest rate controls for accounts held by nonresidents.

Credit controls No. There are no credit rate controls for accounts held by nonresidents.

Investment regulations Yes. Commercial banks may not issue loans, commercial or otherwise, if the collateral is outside Afghanistan’s legal jurisdiction, except in cases where the loans are invested in government-issued securities.

Abroad by banks Yes. There is no restriction on investment by nonresidents in local banks.

In banks by nonresidents No. There is no restriction on investment by nonresidents in local banks.

Open foreign exchange position limits Yes. Article 2.2 of the Open Position in Foreign Currency Regulation prescribes individual currency limits of ±20% of regulatory capital for convertible currencies and ±5% of regulatory capital for nonconvertible currencies. The overall limit is ±40% for all currencies and ±10% for nonconvertible currencies. There is no differential treatment on resident and nonresident assets and liabilities.
On resident assets and liabilities

Yes.

Article 2.2 of the Open Position in Foreign Currency Regulation prescribes individual currency limits of ±20% of regulatory capital for convertible currencies and ±5% of regulatory capital for nonconvertible currencies. The overall limit is ±40% for all currencies and ±10% for nonconvertible currencies.

On nonresident assets and liabilities

Yes.

Article 2.2 of the Open Position in Foreign Currency Regulation prescribes individual currency limits of ±20% of regulatory capital for convertible currencies and ±5% of regulatory capital for nonconvertible currencies. The overall limit is ±40% for all currencies and ±10% for nonconvertible currencies.

Provisions specific to institutional investors

No.

Insurance companies

No.

Limits (max.) on securities issued by nonresidents

No. There are no limits on investments by insurance companies in securities issued by nonresidents.

Limits (max.) on investment portfolio held abroad

No.

Limits (min.) on investment portfolio held locally

No.

Currency-matching regulations on assets/liabilities composition

No. The insurance law does not contain any currency-matching regulations.

Pension funds

No. There are no private pension funds. The government’s Retirement Treasury is overseen by the MOF.

Limits (max.) on securities issued by nonresidents

No.

Limits (max.) on investment portfolio held abroad

No.

Limits (min.) on investment portfolio held locally

No.

Currency-matching regulations on assets/liabilities composition

No.

Investment firms and collective investment funds

No. There are no controls specifically on investment firms and collective investment funds.

Limits (max.) on securities issued by nonresidents

No.

Limits (max.) on investment portfolio held abroad

No.

Limits (min.) on investment portfolio held locally

No.

Currency-matching regulations on assets/liabilities composition

No.

Changes during 2018 and 2019

Exchange Arrangement

Classification

Other managed arrangement 05/04/2018 Since May 2018, the exchange rate increased its volatility against the US dollar, while still being managed. Accordingly, the de facto exchange rate arrangement was reclassified to “other managed” from “crawl-like.”

Provisions Specific to the Financial Sector
Provisions specific to commercial banks and other credit institutions 01/01/2018

The Assets Classification and Provisioning Regulation was revised and came into force. The major changes include addition of Repossessed Assets, changes in the maturity dates of Standard, Watch, Doubtful, and Loss categories, 1% reserve for losses (Optional) on Standards category of loans, addition of limitations to Micro, Small, and Medium credits, and changes in the definition of “past due.”
ALBANIA

(Position as of December 31, 2018)

Status under IMF Articles of Agreement

Date of membership

Article VIII

Yes. Albania accepted the obligations of Article VIII, Sections 2(a), 3, and 4 of the IMF Articles of Agreement on February 21, 2015.

Article XIV

Restrictions and/or multiple currency practices

Yes.

The IMF staff report for the 2017 Article IV Consultation with Albania states that, as of November 14, 2017, Albania continues to maintain an exchange restriction in the form of outstanding debit balances on inoperative bilateral payment agreements. These were in place before Albania became an IMF member in 1991, and relate primarily to debt in nonconvertible and formerly nonconvertible currencies. (Country Report No. 17/373)

Exchange measures imposed for security reasons

No.

In accordance with IMF Executive Board Decision No. 144-(52/51)

No.

Other security restrictions

No.

Exchange Arrangement

Currency

Yes. The currency of Albania is the Albanian lek.

Other legal tender

No.

Exchange rate structure

Unitary

Yes.

Dual

Multiple

Classification

No separate legal tender

Currency board

Conventional peg

Stabilized arrangement

Crawling peg

Crawl-like arrangement

Pegged exchange rate within horizontal bands
Other managed arrangement

Floating  Yes.

The de jure exchange rate arrangement is free floating. The exchange rate of the lek is based on supply and demand in the foreign exchange market. The BOA is not usually active in this market. In accordance with its regulations, intervention is limited to the following situations: (1) calming a disorderly market, which arises because of seasonality and lack of market depth. Interbank market bid-ask spreads, total market turnover, and speed of one-way moves are taken into consideration when intervening to calm a disorderly market. Excess volatility in the domestic foreign exchange market is considered on a case-by-case basis by the Committee for Implementing and Advising the Monetary Policy. The BOA uses auctions only for the purpose of accumulating foreign exchange reserves. This practice has been communicated to the banks. During 2019, the BOA plans to modify the framework of the auctions and increase the transparency of the process from the decision making to the individual auction announcements. When the BOA intervenes in the domestic foreign exchange market, its counterparties are the commercial banks; if necessary, it may carry out its intervention with foreign exchange bureaus. The BOA intervenes through (1) verbal intervention, in the form of press releases in the print or electronic media and/or press conferences; and (2) transactional intervention. The latter can take two forms, direct intervention and intervention via preannounced auctions. In the case of direct intervention, the exchange rate is determined by commercial banks’ quotes and the BOA Monetary Operations Department’s quotes. When the intervention exchange rate is uniform for all counterparties, the BOA publishes that rate on its Reuters page and simultaneously communicates the rate to commercial banks that do not participate in the Reuters system and to foreign exchange bureaus with which it has contact. When different exchange rates are used, the BOA announces only the fact that it has intervened. It publishes with a three-month lag the amount of the intervention in a quarterly bulletin that summarizes its foreign exchange operations with banks and the public sector. The regulation regarding foreign exchange interventions includes the option to carry out transactional interventions via auctions announced in advance. The BOA announces the date, amount, and currency it wants to buy at least one month before the auction, and the banks submit one bid each (in an amount equal to the limit it has provided the BOA). The BOA decides how much to buy based on the rates offered and its target amount. Following the auction, the BOA publishes the amount offered by commercial banks, the amount accepted by the BOA, the range of offered bids, the range of accepted bids, and the prorate at the maximum accepted bid. Swaps with the central government constitute an indirect intervention channel. The BOA aims to avoid disruptions from large and irregular demand of foreign exchange by MOF, to better manage liquidity.

The domestic currency experienced a sharp appreciation in the second quarter of 2018. The lek has experienced trend appreciating pressures over the past three years, on account of recovering macroeconomic fundamentals: improved external trade balances, high FDI inflows, and reduced risk premia in domestic financial markets. However, the episode of abrupt appreciation of Q2 2018 was driven by idiosyncratic foreign exchange market factors: a temporary oversupply of foreign exchange in the market engendered one-sided expectations toward further appreciation, resulting in severe market disruption and a rapid appreciation of the lek exchange rate. The BOA estimated that the rapid appreciation of the exchange
rate would impede on its ability to achieve its inflation target over the medium term and might potentially induce financial instability. Against this backdrop, the BOA lowered its policy rate by 0.25 percentage points in June 2018. Given limited room for further cuts and ongoing foreign exchange market disruption, the BOA used domestic foreign exchange market intervention as a temporary and ad hoc monetary policy tool, in conjunction with its price stability mandate, to restrain the abrupt pace of lek appreciation. On deciding the intervention, the SC of the BOA relied on the “deviation from fundamentals” clause prescribed in the Regulation on Interventions. From an internal point of view, the intervention was guided from strict operational guidelines, that sought to: (1) make sure the intervention would be subjugated to the monetary policy goal of price stability, through striving to avoid the risk of deflation; (2) discipline and minimize the frequency and amount of intervention; (3) transparently communicate to the market the reason of intervention (that is, avoid confusion with our regular schedule of auctions, which is the traditional instrument employed to raise reserves); and (4) provide a clear line of communication and oversight by the Supervisory Council, who is ultimately in charge of deciding monetary policy in Albania. The amount purchased through these operations is counted in assessing the adequacy of our foreign exchange reserves and, thus, from a medium term perspective, it will not have any impact on the BOA holdings of foreign exchange reserves. From an external point of view, the BOA did transparently communicate the reasons for interventions underlying these operations. In particular, it communicated: (1) These operations would be considered exceptional, in as much as they were undertaken given limited space for monetary policy to react through its conventional toolkit; (2) they would be limited in scope and duration; and (3) they did not imply changes in neither the monetary policy nor the exchange rate regime. The interventions had an immediate impact in controlling the pace of exchange rate appreciation and in promoting orderly trading activity in the foreign exchange market. The pace of the appreciation has moderated in 2019 diminishing risks for inflation undershooting the objective in the medium term. In 2018, the exchange rate has appreciated by almost 8% against the euro because of large tourism inflows, FDI, remittances, an increase of borrowing in euros by a large public company, and the Merger and Acquisition (M&A) activity in the banking system, leading to capital conversation from euros to lek in a number of banks. The speed of the appreciation and the level by itself have been considered by BOA staff and further on by SB in big misalignment from the fundamentals and with the possibility of creating strong and permanent deflationary situation. After the decision of the Board, the BOA has intervened in the foreign exchange market up to mid-October 2018 for monetary policy purposes. These interventions have been conducted following specific procedures approved by the Board. During 2018 and so far in 2019, the BOA has continued to accumulate reserves following a preannounced calendar of auctions. During 2018, the BOA has bought 424.10 mio euros, including 116.20 mio euros purchased directly from the European Bank for Reconstruction and Development (EBRD). So far as of July 18, 2019, the BOA has bought 71.40 mio euros through the auctions. The de facto exchange rate arrangement is classified as floating.

**Official exchange rate**

Yes. The BOA sets the official rate of the lek against the US dollar and the
euro every day, based on rates quoted by the most active and prominent domestic foreign exchange market operators. Rates for other currencies are based on US dollar cross-rates observed in international foreign exchange markets. The official rate of the lek vis-à-vis the principal foreign currencies is the rate used to settle customs obligations and reevaluate the foreign exchange positions of the BOA. Participants in the domestic foreign exchange market are not required to use the official rate in their transactions; however, the BOA requires commercial banks to use the official rate to convert foreign currency positions reported in their monthly balance sheet data.

Other

Monetary aggregate target

Inflation-targeting framework Yes.

Target setting body Yes. BOA Supervisory Council is the highest decision-making and supervisory body of the BOA. By law, the BOA is independent in formulating and implementing the monetary policy, including setting a numerical target for inflation. The Supervisory Council has decided that the inflation target is 3.0% over the medium term. Only the Supervisory Council can change the target. The decisions are taken by a majority vote. This degree of independence is outweighed through increased transparency and accountability of its actions. The Supervisory Council meets on a regular schedule published in the beginning of every year. It conducts eight regular meetings for monetary policy decision making. The monetary policy decisions of the BOA are guided by the deviation of the medium-term inflation forecast from the target. The inflation analysis is broadly based on the assessment of current and expected economic, monetary, and financial conditions.

Central Bank Yes.

Monetary Policy Committee

Central Bank Board Yes. BOA Supervisory Council is the highest decision-making and supervisory body of the BOA. The council meets on a regular schedule. The BOA is independent in formulating and implementing the monetary policy, including setting a numerical target for inflation. This degree of independence is outweighed through increased transparency and accountability of its actions. The monetary policy decisions of the BOA are guided by the deviation of the medium-term inflation forecast from the target. The inflation analysis is broadly based on the assessment of current and expected economic, monetary, and financial conditions.

Other

Government and Central Bank
Inflation target: Yes.

Target number: Yes.

Point target: Yes.

In quantitative terms, the BOA defines price stability as keeping the annual change in consumer prices at 3%, on average terms, and for long time periods. To achieve its objective, the BOA employs the following market-based monetary policy instruments: open-market operations, standing facilities, and reserve requirements. The main policy instrument is a repo (reverse repo) transaction with a seven-day maturity. (The credit for liquidity support is not classified as a monetary policy instrument; it is intended to address financial stability.) Since June 2010, the objective of monetary operations has been to steer and keep short-term interest rates in the interbank market near the base rate set by the BOA governing council and minimize their volatility. The BOA removed the target bands in early 2015.

Target with tolerance band:

Band/Range

Target measure: Yes.
The primary objective of the BOA is to achieve and maintain price stability. The annual inflation rate is calculated as the annual change in the consumer price index, measured and published by the Institute of Statistics, the public institution in charge of compiling statistics. Average year-over-year is used.

CPI: Yes.
The primary objective of the BOA is “to achieve and maintain price stability.” The annual inflation rate is calculated as the annual change in the consumer price index, measured and published by the Institute of Statistics, the public institution in charge of compiling statistics. Average year-over-year is used. The consumer price index is computed by the Institute of Statistics.

Core inflation

Target horizon: Yes.
The monetary policy relevant horizon is estimated at around 1–3 years. The BOA aims at achieving its target over this horizon.

Operating target (policy rate): Yes.
Repurchase Agreement rate is the policy rate.
The rate is implicitly bounded by the overnight deposit window rate and the overnight credit window rate. Both rates are set by the BOA Supervisory Council.

Policy rate: Yes.
Repurchase Agreement rate is the policy rate.

Target corridor band: Yes.
The rate is implicitly bounded by the overnight deposit window rate and the overnight credit window rate. Both rates are set by the BOA Supervisory Council.

Other

Accountability: Yes.
The BOA is accountable to the parliament for its decisions, via submitting regular quarterly monetary policy reports and yearly hearings.

Open letter: n.a.

Parliamentary hearings: Yes.
The BOA is accountable to the parliament for its decisions, via submitting regular quarterly monetary policy reports and yearly hearings.

Other: n.a.

Transparency: Yes.
Publication of votes: No.
Publication of minutes: No.
Publication of inflation forecasts: Yes. The medium-term inflation forecasts are performed quarterly. Only the projected inflation for the current year and the time horizon of achieving inflation objective are published in the quarterly monetary policy report.

Other monetary framework

Exchange tax: No.
Exchange subsidy: No.

Foreign exchange market: Yes. ADs are allowed to freely determine their bid-ask spreads and foreign exchange commissions with their clients.

Spot exchange market: Yes. In addition to banks, exchange bureaus are allowed to deal in foreign exchange with the public. As of January 31, 2019, 459 foreign exchange bureaus were licensed as foreign exchange operators. The BOA is the only institution that grants such licenses. The exchange bureaus may engage in the following activities: currency trading, trading of traveler’s checks, and acting as an agent for nonbank financial institutions licensed by the BOA to conduct payment services and money transfers. Exchange bureaus are allowed to engage in operations within Albania and are subject to banking supervision regulations. Their accounts are held within the country only, and there are no restrictions on the volume of their transactions. The BOA deals with exchange bureaus under its intervention policies only in exceptional circumstances, which last occurred in 1998.

Operated by the central bank: No.

Foreign exchange standing facility: No.
Allocation: No.
Auction: No.
Fixing: No.

Interbank market: Yes. Banks operate mainly through bilateral arrangements and use their own Reuters pages to announce some indicative rates, which usually apply to amounts of at least €50,000.

Over the counter: Yes. The domestic foreign exchange market operates over the counter.

Brokerage: No.
Market making: No.
Forward exchange market: No.

Official cover of forward operations: No.

be used as a license for performing the foreign exchange transactions in the country.

Appendix No. 1 of Regulation No. 70 on Foreign Exchange Activities, as amended, stipulates the following: Advance payment in lek or the equivalent in foreign currency calculated at the daily exchange rate must be accompanied by the following documentation: (1) an application describing the nature and purpose of the transaction, signed by the applicant and including a declaration that the submitted documentation was not previously used for other transfers for the same goods and value; and (2) a pro forma invoice and/or a contract with the terms of payment. For transfers related to commercial services, as stipulated in Article 7, Paragraph 1, of the regulation, license holders must obtain from each customer the following documentation: (1) the application stipulated in Paragraph 1a (Part I) of the appendix and (2) the invoice or a document certifying the purpose of the transfer and/or the respective contract or agreement. For transfers related to noncommercial transactions, the following documents are required: (1) the application stipulated in Paragraph 1a (Part I of the appendix) and (2) a declaration of the source of income for the transfer.

Import licenses and other nontariff measures
- Positive list: Yes.
- Negative list: No.
- Open general licenses: Yes.
- Licenses with quotas: Yes.

In compliance with Law No. 10081 on Licenses, Authorizations, and Permits in the Republic of Albania, anyone meeting the criteria specified in this law and other pertinent legislation is licensed to exercise a specific activity. Once the license to exercise the activity is granted, the importer may import any product without an additional import license, except for specific products that require a nonautomatic license, including narcotic and psychotropic drugs, certain flora and fauna, medicinal products, military goods, and certain fish and fish products (G/LIC/N/3/ALB/4 of October 23, 2009).

The only import prohibitions relate to products considered to be hazardous or to threaten public health. The importation of dangerous waste is prohibited, unless it can be used, processed, or recycled, in which case an import license is required (as mentioned above). Import prohibitions also apply to imports of strong poisons, chemical weapons, narcotics, and animal products from certain countries. Import prohibitions apply to bioproducts and veterinary drugs recognized as dangerous to human or animal health by relevant international organizations; imports from countries or areas within a country infected by a contagious disease; live microorganisms pathogenic to animals and plants; and infected plant products and other objects.

Import taxes and/or tariffs
- Yes.

Excise taxes on domestic and imported goods are unified. Customs tariffs are applied to the c.i.f. value at rates of 0%, 2%, 5%, 6%, 10%, and 15%.

Taxes collected through the exchange system
- No.

State import monopoly
- No.

</tbody>
</table>
transfer of capital from abroad by residents and/or nonresidents may be carried out freely and without restrictions. Capital transfers outside Albania for account holders licensed by the BOA may be performed on the authority of their respective institutions and in accordance with the regulatory and supervisory requirements of the BOA. License holders may make transfers outside Albania for their customers with the requisite documentation in the BOA’s regulation on foreign exchange activities.

Repatriation requirements  No.
Surrender requirements  No.
Surrender to the central bank  No.
Surrender to authorized dealers  No.
Controls on capital and money market instruments  Yes.

Transactions with securities and other similar instruments, and the exercise of rights arising from the latter, may be carried out only through banks and/or other institutions authorized by law, on the basis of a contract. For prudential reasons and money-laundering prevention, the financial intelligence unit and the BOA monitor and review these transactions.

On capital market securities  Yes.
The law “On securities” does not restrict transactions between residents and nonresidents related to the acquisition of securities traded on the stock exchange or on other markets licensed and supervised by the FSA. Transactions in securities may be performed only by brokerage companies or banks licensed by the FSA.

Shares or other securities of a participating nature  Yes.

Purchase locally by nonresidents  Yes.
Local purchases by nonresidents must be performed only by brokerage companies or banks licensed by the FSA.

Sale or issue locally by nonresidents  Yes.
A foreign issuer may issue securities in Albania through a public offering solely through a licensed issuing agent. The FSA may approve publication of the foreign issuer’s prospectus and publication of a prospectus of a foreign issuer making a public offering simultaneously in Albania and in an EU member country or the United States, if publication in that EU country was approved by the relevant authority, or the FSA may condition approval on supplementation of the prospectus with additional information as prescribed by law.

Purchase abroad by residents  Yes.
The law on securities does not restrict purchases abroad by residents. Pursuant to the Law on Banks, No. 9662 of December 18, 2006, as amended, banks may invest in the purchasing of shares of commercial companies which are not banks or financial institutions or may be a partner of a commercial company, for an amount not exceeding 10% of the capital of that company, but the investment at any time may not exceed 15% of the regulatory capital of the bank. The maximum allowed investment of a bank in several commercial companies which are not banks or financial institutions or the maximum holdings as a partner in such commercial companies may not exceed 60% of the regulatory capital of a bank.

Pursuant to Regulation No. 1 of January 28, 2010, as amended, the assets of a pension fund may not be invested more than (1) 30% in shares or units in investment funds licensed in an EU Member States, and (a) the assets of which are invested in the following indices: CAC 40, DAX, FTSE 100, S&P 500, Dow Jones Industrial Average, Nikkei 225 (Japan), Sensex (India), AllOrdinaries (Australia), and Hang Seng Index (Hong Kong); or (b) the assets of which are invested in bonds, treasury bills, and other securities issued or guaranteed by EU Member States; (2) 100% in bonds, treasury bills,
or other securities issued or guaranteed by the Central European
Bank, the European Investment Bank, and the World Bank; (3) 100%
in bonds, treasury bills, and other securities issued or guaranteed by
EU Member States or OECD countries or by the relevant CBs, but
(a) no more than 30% in a single issuer. The ceiling may be increased
to 100% in a single issuer, after receiving approval by the FSA,
based on the arguments provided for such an investment policy.

Banks are required to maintain reserves at their accounts with the BOA. Effective July 24, 2018, the reserve requirement ratio varies by currency as a measure to increase the use of domestic currency in the financial system. The following are applied to the liabilities included in the reserve base to which a zero reserve ratio is not applied: The reserve ratio in lek is 7.5% for liabilities with a maturity up to 12 months, and 5% for those with an initial maturity between 12 months and 2 years. The reserve ratio in foreign currency is 12.5% when the bank’s ratio of liabilities in the relevant currency included in the reserve base to which a zero reserve ratio is not applied is up to 50%, and 20% if the ratio is higher than 50%. Previously, the reserve requirement was equal to 10% of all liabilities to customers with maturity of less than two years, regardless of the currency.

Effective July 24, 2018, reserves in lek are remunerated at the repo rate. The euro required reserves are remunerated at the ECB overnight deposit rate and the USD required reserves are remunerated at 0%. Previously, reserves in lek were remunerated at 70% of the repo rate and reserves in foreign currencies were not remunerated.

The maintenance period of the required reserve is one month. It starts on the 24th day of the month succeeding the base period and ends on the 23rd of the following month. The BOA applies the averaging system of maintaining reserves over the maintenance period. Effective February 24, 2018, banks were allowed to use every day up to 70% of the reserve requirements amount in lek.

Pursuant to the Law on Banks, No. 9662 of December 18, 2006, as amended, bank exposures may not be higher than 20% of their regulatory capital with a single counterparty or a group of connected clients. If the counterparty is the parent bank or one or more subsidiaries of a parent bank, banks may not invest more than 25% of their regulatory capital.

Pursuant to the Law on Banks, No. 9662 of December 18, 2006, as amended, banks may invest in the purchasing of shares of commercial companies which are not banks or financial institutions or may be a partner of a commercial company, for an amount not exceeding 10% of the capital of that company, but the investment at any time may not exceed 15% of the regulatory capital of the bank. The maximum allowed investment of a bank in several commercial companies which are not banks or financial institutions or the maximum holdings as a partner in such commercial companies may not exceed 60% of the regulatory capital of a bank.

The limit is 20% of the bank’s capital for a single currency and 30% for all currencies.

The Insurance Law, No. 52 (Articles 97 and 103), specifies permissible investments and limits for investment of assets covering technical or mathematical provisions. Assets covering technical provisions, or mathematical provisions, may, with FSA approval, be invested in (1) long-term bonds and long-term securities issued by an EU member country or an OECD member country; (2) long-term bonds and long-term securities issued by a nongovernmental entity in an EU member country or an OECD member country; (3) shares issued by a foreign joint-stock company that are traded on a regulated capital market in an EU member country or an OECD member country; and (4) units/shares of collective investment undertakings that are traded in an EU member country or an OECD member country. Before acquiring a qualified holding in another foreign (member or nonmember country) insurance company or financial institution, an insurance company must inform the FSA in writing. Insurance companies must also inform the FSA in writing of subsequent holdings equal to or exceeding 20%, 33%, 50%, or 75% of the voting rights or participation in the capital of a foreign financial institution (Article 50, Law No. 52). Regulation No. 19 (Article 4, Point 2) of April 28, 2015, “On the assets covering technical provisions and the types of the permitted investments of these assets” stipulates additional requirements, other than limits, regarding the permissible investments of assets covering technical provisions mentioned above. On Albania’s accession to the EU, insurance companies will be allowed to invest their assets covering technical provisions and mathematical provisions in an EU or an OECD member country, as specified in the insurance law (Article 263, Law No. 52).
provisions, or mathematical provisions, may, with FSA approval, be invested in (1) long-term bonds and long-term securities issued by an EU member country or an OECD member country; (2) long-term bonds and long-term securities issued by a nongovernmental entity in an EU member country or an OECD member country; (3) shares issued by a foreign joint-stock company that are traded on a regulated capital market in an EU member country or an OECD member country; and (4) units/shares of collective investment undertakings that are traded in an EU member country or an OECD member country. Before acquiring a qualified holding in another foreign (member or nonmember country) insurance company or financial institution, an insurance company must inform the FSA in writing. Insurance companies must also inform the FSA in writing of subsequent holdings equal to or exceeding 20%, 33%, 50%, or 75% of the voting rights or participation in the capital of a foreign financial institution (Article 50, Law No. 52). Regulation No. 19 (Article 4, Point 2) stipulates additional requirements, other than limits, regarding the permissible investments of assets covering technical provisions mentioned above. On Albania’s accession to the EU, insurance companies will be allowed to invest their assets covering technical provisions and mathematical provisions in an EU or an OECD member country, as specified in the insurance law (Article 263, Law No. 52).

Limits (min.) on investment portfolio held locally
No. There is no limit on investments held locally. Insurance companies may invest 100% of their technical and mathematical provisions in Albania as long as the restrictions regarding investment type and diversification are met. Insurance companies may invest their technical and mathematical provisions in treasury bills and notes, as well as in other market instruments issued by the central government of Albania.

Currency-matching regulations on assets/liabilities composition
Yes. The Insurance Law, No. 52 (Article 98), requires insurance companies to appropriately match the amount of investment of assets covering technical and mathematical provisions which are exposed to risk of potential losses because of changes in interest rates, exchange rates, and other market risks with its liabilities from insurance contracts dependent on the same changes. When investing assets covering technical and mathematical provisions, insurance companies must take into consideration the maturity of the liabilities under individual insurance contracts. Insurance companies must match no less than 80% of the assets covering mathematical provisions with the liabilities under insurance contracts dependent on changes in foreign exchange rates.

Pension funds
Yes.

Limits (max.) on securities issued by nonresidents
Yes. Regulation No. 1 of January 28, 2010, as amended, specifies the restrictions on investment of assets of pension funds in securities issued abroad. This regulation specifies limits based on debt securities ratings, issuing financial institutions, issuing countries, such as EU or OECD countries, concentration on single issuers, etc.

Limits (max.) on investment portfolio held abroad
Yes. Regulation No. 1 of January 28, 2010, as amended, specifies the restrictions on investment of the assets of pension funds in securities issued abroad, including limits based on debt securities ratings, issuing financial institutions, issuing countries, such as EU or OECD countries, concentration on single issuers, etc.

The assets of a pension fund may not be invested more than (1) 30% in shares or units in investment funds licensed in an EU Member States, and (a) the assets of which are invested in the following indices: CAC 40, DAX, FTSE 100, S&P 500, Dow Jones Industrial Average, Nikkei 225 (Japan), Sensex (India), All Ordinaries
(Australia), and Hang Seng Index (Hong Kong); or (b) the assets of which are invested in bonds, treasury bills, and other securities issued or guaranteed by EU Member States; (2) 100% in bonds, treasury bills, or other securities issued or guaranteed by the Central European Bank, the European Investment Bank, and the World Bank; (3) 100% in bonds, treasury bills, and other securities issued or guaranteed by EU Member States or OECD countries or by the relevant CBs, but (a) no more than 30% in a single issuer. The ceiling may be increased to 100% in a single issuer, after receiving approval by the FSA, based on the arguments provided for such an investment policy.

Regulation No. 1 of January 28, 2010, as amended, stipulates that 100% of assets of pension funds may be invested in notes, treasury bills, and other government paper issued and backed by the Republic of Albania. However, there are limits regarding bank deposits and concentration of investment in a single issuer.

There is no currency-matching regulation.

Articles 87 and 88 of the Law on Collective Investments, No. 10198 of December 10, 2009, stipulate restrictions on investment funds’ holdings. These include the maturities, transferability, investments in EU countries only (except with FSA permission), issuer concentration, etc. The restrictions are expressed as a percentage of the fund’s total assets.

The Law on Collective Investments, No. 10198 of December 10, 2009, states that there are no limits on the percentage of investments held abroad. However, Articles 87 and 88 stipulate restrictions on investment of funds’ assets. There are restrictions on maturities, transferability, investments in EU countries only (except with FSA permission), issuer concentration, etc. The restrictions are expressed as a percentage of the fund’s total assets.

There is no minimum on the investment portfolio held locally. Articles 87 and 88 of the Law on Collective Investments, No. 10198, of December 10, 2009, restrict the types of assets, maturities, transferability, etc.

There is no currency-matching regulation.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Changes during 2018 and 2019

Provisions Specific to the Financial Sector

Banks were allowed to use every day up to 70% of the reserve requirements amount in lek.
Required reserves in lek are remunerated at the repo rate. The euro required reserves are remunerated at the ECB overnight deposit rate and the USD required reserves are remunerated at 0%. Previously, reserves in lek were remunerated at 70% of the repo rate and reserves in foreign currencies were not remunerated.

The reserve requirement ratio varies by currency as a measure to
increase the use of domestic currency in the financial system. The following are applied to the liabilities included in the reserve base to which a zero reserve ratio is not applied: The reserve ratio in lek is 7.5% for liabilities with a maturity up to 12 months, and 5% for those with an initial maturity between 12 months and 2 years. The reserve ratio in foreign currency is 12.5% when the bank’s ratio of liabilities in the relevant currency included in the reserve base to which a zero reserve ratio is not applied to the total of liabilities included in the reserve base to which a zero reserve ratio is not applied is up to 50%, and 20% if the ratio is higher than 50%. Previously, the reserve requirement was equal to 10% of all liabilities to customers with maturity of less than two years, regardless of the currency.

#### Exchange Measures

| Restrictions and/or multiple currency practices | No. |
| Exchange measures imposed for security reasons  | No. |
| In accordance with IMF Executive Board Decision No. 144-(52/51) | No. |
| Other security restrictions                      | No. |

#### Exchange Arrangement

| Currency          | Yes. |
| Other legal tender| No.  |

**Exchange rate structure**

- Unitary: Yes.
- Dual
- Multiple

**Classification**

- No separate legal tender
- Currency board
- Conventional peg
- Stabilized arrangement
- Crawling peg
- Crawl-like arrangement: Yes.

The currency of Algeria is the Algerian dinar.

The de jure exchange rate arrangement is managed floating. The Bank of Algeria (BA) does not announce the path of the exchange rate. The external value of the dinar is determined in the interbank foreign exchange market, in which the BA is the main seller. This is because of significant inflows related to commodity exports, including hydrocarbons, which, under current law, must be surrendered to the BA. The BA manages the dinar with reference to a basket of currencies, and the rate of the dinar relative to the currencies in the basket is based on balance of payments data.

This information can be found at the AREAER ONLINE database: [http://www.elibrary-areaer.imf.org/Pages/Reports.aspx](http://www.elibrary-areaer.imf.org/Pages/Reports.aspx).
BA has not set a target range for fluctuation of the dinar outside or within any particular band, and the observed exchange rate movements do not confirm any constant weights of the currency composite. Since June 2018, the exchange rate followed a depreciating trend within a 2% band against the US dollar. Accordingly, the de facto exchange rate arrangement was reclassified to crawl-like from other managed, effective June 15, 2018. The BA does not disclose information about its interventions.

| Pegged exchange rate within horizontal bands | No. |
| Other managed arrangement | |
| Floating | |
| Free floating | |
| **Official exchange rate** | No. |

There is no official exchange rate determined outside the market. The exchange rate used by the customs administration is the market-determined rate of the dinar against the respective currency on the customs clearance date.

**Monetary policy framework**

**Exchange rate anchor**

- **U.S. dollar**
- **Euro**
- **Composite**
- **Other**

**Monetary aggregate target** Yes. The monetary policy framework adjusts to reflect the developments of the economic environment caused by oil price fluctuations. Since 2003, base money has been the main intermediate instrument of monetary policy, and liquidity management tools dominated the monetary policy toolkit. In March 2017, the BA introduced open market operations for the first time. Until November 2017, open market lending operations served as the main policy tool. With the introduction of monetary financing in October 2017, excess liquidity reappeared and the BA reintroduced liquidity absorption facilities in January 2018. The exchange rate regime is managed, and exchange rate policy targets a real effective exchange rate in line with its fundamental value, but has occasionally been used to contain price pressures.

**Inflation-targeting framework**

Exchange tax
No.
Exchange subsidy
No.

Foreign exchange market
Yes. Authorized exchange bureaus may not freely determine their bid-ask spread. Their rates may vary by no more than 1% from the rate used by the BA (Article 10 of Instruction No. 08-96 of December 18, 1996). Exchange bureaus may charge a commission in dinars, which must be posted, on foreign exchange purchases and sales (Article 1 of Instruction No. 08-96 of December 18, 1996).

Spot exchange market
Yes. The governor of the BA issues licenses to banks and financial institutions to engage in banking operations, including foreign exchange transactions. These licenses are conditional on authorization from the Council on Money and Credit (CMC, a monetary authority). As of December 31, 2017, 19 banks and 4 financial institutions, all authorized intermediaries, participated in the interbank foreign exchange market. Exchange bureaus must obtain a license from the BA (Instruction No. 08-96). As of
December 31, 2017, the BA had granted licenses to 45 exchange bureaus, but only 7 bureaus were active. Exchange bureaus may only buy and sell banknotes and traveler’s checks denominated in freely convertible foreign currencies against dinars. Exchange bureaus may sell foreign currency to authorized banks and financial institutions or to the BA, but they may not buy foreign currency from the BA, and they may not hold accounts abroad. They may not make payments or transfers in foreign currency for the accounts of their customers.

**Operated by the central bank** Yes.

**Foreign exchange standing facility** Yes. The BA intervenes in the foreign exchange market directly by proposing its own rates and by making foreign exchange available to banks at their request. The BA sets the buying and selling rates of the dinar against the US dollar in this market within a margin of 0.015 dinar. The BA sells foreign exchange only to authorized banks and financial institutions. The government and other public institutions do not deal directly with the CB. They deal with financial institutions operating in the interbank foreign exchange market.

**Allocation** No.

**Auction** No. The BA allocates foreign exchange at the request of authorized banks and financial institutions.

**Fixing** No.

**Interbank market** Yes. No margin limits are imposed on the buying and selling exchange rates in the interbank foreign exchange market. As of December 31, 2017, 19 banks had been licensed to engage in banking operations, including foreign exchange transactions; they therefore participate in the interbank foreign exchange market. The governor of the BA issues the licenses, which are conditional on authorization from the CMC.

**Over the counter** Yes. The exchange rates applicable to OTC trades are set on the basis of the interbank market exchange rate.

**Brokerage** No.

**Market making** Yes. Transactions take place between traders (market makers), all of which are authorized banks and financial institutions that are directly and exclusively authorized to operate in the system, and negotiations take place by mutual agreement. The BA continuously quotes buying and selling prices to the other market participants. These transactions are conducted under a BA instruction organizing the foreign exchange market (Instruction No. 79/95 of December 27, 1995, on the foreign exchange market).

**Forward exchange market** Yes. Authorized banks and financial institutions may provide forward cover to clients. Banks are authorized to carry out interbank borrowing and lending operations in freely convertible foreign currency and make deposits in freely convertible foreign currency at the BA. These borrowing and lending operations in foreign currency must be performed exclusively on the forward exchange market (Instruction No. 04-2011 of October 19, 2011). However, foreign exchange forward hedging transactions are rarely performed. Regulation No. 17-01 of July 10, 2017, concerning interbank forward exchange market and instruments for hedging foreign exchange risks, and Instruction No. 06-2017 of November 26, 2017, concerning the functioning of the market, apply.

**Official cover of forward operations** No.

**References to legal instruments and hyperlinks** This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exports and Export Proceeds

Repatriation requirements

Yes. For proceeds from exports of hydrocarbons and mineral products, the repatriation period is 30 days, which may be exceptionally extended to 90 days. For proceeds from other exports, the repatriation period is 180 days, with the possibility of an extension to 360 days where the exporter takes out export insurance.

Surrender requirements

Yes.

Surrender to the central bank

Yes. All export proceeds from hydrocarbons and mineral products must be surrendered to the BA.

Surrender to authorized dealers

Yes. Fifty percent of proceeds from exports of products other than hydrocarbons and mineral products must be surrendered to authorized intermediary banks.

Financing requirements

No.

Documentation requirements

Yes.

Letters of credit

No.

Guarantees

No.

Domiciliation

Yes. Domiciliation of an export operation must be done with an authorized intermediary bank prior to shipment of the goods and repatriation of the export proceeds. For perishable and hazardous products, domiciliation may occur within five days after the goods are shipped.

Preshipment inspection

Yes. It is carried out by customs staff.

Other

No.

Export licenses

No.

Without quotas

No.

With quotas

Limits (max.) on securities issued by nonresidents

FDI by insurance companies is governed by the same rules that apply to other companies: outward transfers of capital are authorized for financing activities abroad that are complementary to the company’s production of goods and services in Algeria. The CMC determines the applicable conditions and grants authorization under these conditions (Article 126 of the Law on Money and Credit). Under Article 8 of Regulation No. 07-01, residents are not allowed to hold monetary, financial, and real estate assets abroad.

Limits (max.) on investment portfolio held abroad

There are no specific exchange control provisions applicable to institutional investors. Reinsurance operations, which are equated with purchases of services, are authorized, provided a minimum number of these services are purchased from local reinsurance agencies. Investments by nonresidents in insurance activities are subject to authorization by the Insurance Supervision Commission, the regulatory authority for the insurance sector. Foreign ownership of resident firms is limited to 49% of capital.

Limits (min.) on investment portfolio held locally

Currency-matching regulations on assets/liabilities composition

Pension funds

There are no private pension funds in Algeria. Public pension funds may only invest in domestic securities. Outward transfers of capital...
to finance the investment of pension funds abroad are only authorized if these investments are supplementary to the pension fund’s activities in Algeria and approved by the currency board.

There are no private pension funds in Algeria. Public pension funds may only invest in domestic securities. Exchange Measures

The IMF staff report for the 2018 Article IV Consultation with Angola states that, as of April 25, 2018, Angola maintained restrictions on the making of payments and transfers for current international transactions under the transitional arrangements of Article XIV, Section 2. The measures maintained pursuant to Article XIV are: (1) limits on the availability of foreign exchange for invisible transactions, i.e. travel expenses; and (2) limits on unrequited transfers to foreign-based individuals and institutions. In addition, Angola maintains three exchange restrictions subject to IMF jurisdiction under Article VIII, Section 2(a) resulting from (1) the discriminatory application of the 0.1% stamp tax on foreign exchange operations by natural persons; (2) the operation of the priority list for access to U.S. dollars at the official exchange rate; and (3) a special tax of 10% on transfers to nonresidents under contracts for foreign technical assistance or management services.

Angola also maintains three MCPs that are subject to approval under Article VIII, Section 3 arising from the lack of a mechanism to prevent potential spreads in excess of 2% emerging (1) between successful bids within the BNA’s foreign exchange auction, (2) for transactions that take place at the reference rate in place and the rate at which transactions take place in the foreign exchange auction on that day, and (3) the discriminatory application of the 0.1% stamp tax on foreign exchange operations by natural persons. (Country Report No. 18/156)

Exchange Arrangement

- The currency of Angola is the Angolan kwanza.

References to legal instruments and hyperlinks

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.
Multiple | Yes.  
---|---

The exchange rate structure is considered multiple because of the differential between the spot exchange rates and those used in the foreign exchange auctions of the National Bank of Angola (Banco Nacional de Angola—BNA). The foreign exchange auction system introduced in January 2018 narrowed the differential between the exchange rates in the auction, the interbank market, and the retail foreign exchange market.

**Classification**

- No separate legal tender
- Currency board
- Conventional peg
- Stabilized arrangement
- Crawling peg
- Crawl-like arrangement
- Pegged exchange rate within horizontal bands
- Other managed arrangement | Yes.
---|---

The de jure exchange rate arrangement is floating; however, the BNA closely monitors exchange rate fluctuations, possibly to try to maintain price stability in the economy, and frequently intervenes in the foreign exchange market by holding foreign exchange auctions. The BNA receives foreign exchange from the taxes paid by oil companies to the government, and buys foreign exchange from oil companies that make payments to residents for services provided to them in kwanza. Effective January 1, 2018, the BNA adopted a regime of (unannounced) bands for the fluctuation of the kwanza against the euro, and conducted two auctions under the system that led to significant depreciation of the kwanza. To stem exchange rate overshooting, the BNA then set a new foreign exchange auction system in which bids could fluctuate within a plus/minus 2 percentage point band around the average exchange rate of winning bids of the previous auction, de facto capping the maximum depreciation of the exchange rate at 2% per auction. This cap has been abandoned in December 2018, but the BNA can still limit the daily changes in the exchange rate through arbitrarily classifying certain bids in auctions as “speculative” and removing that bid from the auction. Since January 2018, the exchange rate has increased its volatility, while still being managed. Therefore, the de facto exchange rate arrangement was reclassified to “other managed” from “stabilized,” effective January 9, 2018. The BNA publishes the auction results and respective reference rates.

Floating

Free floating

**Official exchange rate** | Yes.
---|---

The BNA publishes a reference exchange rate daily, which is calculated as the weighted average exchange rate of winning bids of the previous auction. After exiting the peg, the kwanza has depreciated by about 49.3% (between January 2018 and end May 2019).

**Monetary policy framework**

- Exchange rate anchor
Yes. Effective November 30, 2017, the BNA uses base money as the anchor for monetary policy.
Publication of minutes

Publication of inflation forecasts

Other monetary framework

**Exchange tax**

Yes. Foreign exchange operations are subject to a stamp duty of 0.1%. Traveler’s checks are exempt from this duty. Presidential Legislative Decree No. 02/15 of June 29, 2015, establishes the Special Contribution for Current Invisible Foreign Exchange Operations regime, imposing a special contribution of 10% on transfers carried out under contracts for foreign technical assistance or management services governed by Presidential Decree No. 273/11 of October 27, 2011.

**Exchange subsidy**

No.

**Foreign exchange market**

Yes. Banks may deal in foreign exchange at freely established rates (not exceeding 2% of the reference rate set by the BNA) among themselves, with the public, and in secondary market operations. [Foreign exchange bureaus must be licensed by the BNA, and may deal only in banknotes and traveler’s checks, at freely established rates with individuals and banks. As of end 2018, there were about 89 authorized foreign exchange bureaus in operation, 47 are licensed to perform cash transaction as well as remittance operations, while another 42 are only authorized to perform cash transactions. Exchange bureaus may participate in BNA's auctions to purchase foreign exchange through commercial banks and may also participate in the secondary market. Besides the exchange bureaus, there are also money transfer bureaus, which may send money abroad. Some exchange bureaus also offer this service. The money transfer bureaus depend on the primary market. There are currently about 25 authorized money transfer bureaus in operation.]

**Operated by the central bank**

Yes.

**Foreign exchange standing facility**

No.

**Allocation**

No. Between April 21 and October 2, 2009, the BNA sold US dollars to banks at a fixed rate for the payment of current account transactions after verification of supporting documentation. No fixed-rate allocation of US dollars has taken place since October 2, 2009. Currently, the BNA has two channels of selling foreign exchange: (1) “price” auctions to banks and (2) direct sales of LCs (through commercial banks) to satisfy the demand for foreign currency for certain types of operations.

**Auction**

Yes. The BNA conducts a selling foreign exchange auction that follows the principles of a multiple price auction. Effective January 1, 2018, the BNA adopted a regime of (unannounced) bands for the fluctuation of the kwanza against the euro and conducted two auctions under the system that led to significant depreciation of the kwanza. To stem exchange rate overshooting, the BNA then set a new foreign exchange auction system in which bids could fluctuate with a plus/minus 2 percentage point band around the average exchange rate of winning bids of the previous auction, de facto capping the maximum depreciation of the exchange rate at 2% per auction. On December 3, 2018, the BNA implemented new auction rules, removing the 2 percentage band effectively from January 2, 2019. The frequency of the auctions is determined by the BNA. Currently, twice a week for “price” auctions and once a month for
LCs auctions. All transactions are processed electronically. Participants, under the coordination of the BNA, may freely buy and sell foreign exchange on their own behalf or on behalf of their customers. The BNA, as a participant, may also purchase and sell foreign exchange. Purchasing bids, ranked from the highest to the lowest price, must be honored until the foreign exchange amount announced for sale has been exhausted. Sales are conducted at actual bid prices. The BNA has the discretionary power to deem certain bids speculative and remove them from the auction, effectively limiting the variation of the exchange rate. Only commercial banks are eligible to participate in the auctions and must comply with the following requirements: (1) comply with the domestic currency reserve requirement, the foreign exchange position limit, and the regulatory capital ratio; (2) submit all required information to the BNA within the established deadline; (3) have internal controls in place to ensure the observance of the legislation and regulations to trading foreign currency; (4) submit to the BNA information on foreign currency needs by the last business day of the previous week; and (5) submit to the BNA information on the sale of the foreign currency previously purchased and the amount to be returned to the BNA in case of no sale by the 10th business day following each auction or direct sale. The BNA announces electronically through the Foreign Exchange Market Management System (the SGMC—Sistema de Gestão de Mercado Cambial) or by other means the amount of foreign exchange for sale in each auction. Banks may submit up to four different bids through the SGMC with volumes and respective prices up to thirty minutes after the auction is opened. According to new auction instructions which became effective January 2, 2019, each bid’s value cannot be for less than US$250,000 or the equivalent in the currency used in the auction (previously, the limit was EUR 500,000). Banks may bid no more than 15% of their individual capital. In case of auctions to sell foreign exchange to specific sectors, banks must demonstrate their foreign exchange need for those sectors. The BNA may also carry foreign exchange auctions specifically for LCs (quantitative auctions). According to the auction instructions which became effective January 2, 2019, the BNA must commit to selling foreign exchange up to a pre-determined ceiling, as per the following modalities: (1) selling on the auction date, an amount to be determined (previously, the limit was 10%) on the basis of the prevailing spot exchange rate, which can be used to settle advance payments or to build collateral and (2) the remaining at the prevailing spot exchange rate, up to five days before the payment of each shipment. The BNA can also commit to sell foreign exchange to cover LCs at a forward exchange rate. Funds allocated in the LC auctions need to be used to open LCs within 45 days, and any unused funds must be canceled. Banks can only bid at the next LC auction if they have opened LCs for a minimum of 50% of the funds allocated to them at the previous LC auction (previously, only LCs for differed payments with maturity dates of at least 60 days from the date of presentation of the documents relating to each shipment were allowed). At the end of the process, information on the auction results is available to all participants in the SGMC; the results are also posted on the BNA website. The BNA may conduct auctions to buy foreign exchange from commercial banks. However, no such auctions have taken place as of May 2018. The BNA may buy from each bank up to 25% of the total announced. The amounts sold or bought are settled in D+2 through the real-time gross settlement system and by debt or credit to the bank reserve account of each bank with the BNA.
### Interbank market

**Yes.** Banks and exchange bureaus may deal in foreign exchange among themselves and with their customers at freely negotiated rates (commercial bank rates cannot exceed 2% of the reference rate set by the BNA). All active commercial banks may participate in the interbank market, but the volume is small because banks generally deal with their customers and/or with the BNA through auctions. [There are no limits on the bid-ask spread and the commission of market participants, but the spread was about 0.5 percentage point (pp) for most months between January 2009 and May 2014, 0.25 percentage point during June–August 2014, and 0.125 percentage point thereafter.]

### Over the counter

**Yes.** The interbank market is still in the early stages of development and operates on an OTC basis, but some banks include their quotes on Reuters platform.

### Brokerage

**No.** This does not currently take place.

### Market making

**No.** This does not currently take place.

### Forward exchange market

**No.**

### Official cover of forward operations

**No.**

as collateral.

There was a reciprocal acceptance agreement with Namibia that allowed for commercial transactions at the border to be carried out in domestic currency. Implementation of the agreement is suspended.

Regional arrangements No.

Clearing agreements No.

Barter agreements and open accounts No.

Administration of control Yes. The BNA is the exchange authority of the Republic of Angola.

Payments arrears Yes. Guidelines were defined to regularize arrears up to December 31, 2017.

Official Yes. Some public debt from the 1980s and 1990s remains to be settled—namely, that owed to Portugal and Eastern European countries, where the identification of credible creditors has hampered negotiations.

Private Yes. Guidelines were defined to regularize arrears up to December 31, 2017.

Controls on trade in gold (coins and/or bullion) Yes. Under the Foreign Exchange Law, control of trade in gold is exclusively incumbent on the BNA.

On domestic ownership and/or trade Yes. Residents are permitted to hold and trade gold only in the form of jewelry. In 2014 the Gold Agency was created to execute, monitor, control, and manage gold sales and pricing policies. The Agency is also responsible for guaranteeing the purchase of gold on the artisanal market and reselling it on the domestic and international markets.

On external trade Yes. Imports and exports of gold in the form of coins and bullion are subject to a BNA monopoly.

Controls on exports and imports of banknotes Yes. Banks are permitted to import/export banknotes without authorization from the BNA.

On exports Yes. Banks are authorized to export banknotes without authorization from the BNA.

Domestic currency Yes. Exports of domestic currency are under the exclusive authority of the BNA.

Foreign currency Yes. Banks are authorized to import/export banknotes without authorization from the BNA.

On imports Yes. Banks are permitted to import/export banknotes without authorization from the BNA.

Domestic currency Yes. Imports of domestic currency may be made by the BNA or by a banking institution with BNA authorization resulting from the exportation of Kz 50,000 by individuals traveling abroad.

Foreign currency Yes. Commercial banks may import foreign currency in accordance with the Notice No. 1/15 of January 29, 2015.

Resident Accounts

Foreign exchange accounts permitted Yes. Foreign exchange residents are permitted to open accounts in foreign exchange subject to the conditions applicable to their transactions (Notice No. 03/09 of June 5, 2009).

Held domestically Yes. Individuals' accounts may be credited with foreign currency deposits in cash or other instruments generally accepted in the international financial market and with accrued interest. These accounts may be debited by the withdrawal or sale of foreign currency and the issuance of any generally accepted instrument for settlement of
transactions involving merchandise imports, current invisibles, and capital, carried out by the depositor in accordance with existing foreign exchange regulations. Legal entities’ accounts may be credited with foreign currency deposits in cash or other generally accepted instruments derived from their business activity and with accrued interest. These accounts may be debited in accordance with the licensing regulations for goods, invisibles, and capital transactions and the withdrawal or sale of foreign currency.

<table>
<thead>
<tr>
<th>Approval required</th>
<th>Yes.</th>
</tr>
</thead>
</table>
| Withdrawals of foreign currency by residents are de facto restricted in some commercial banks. Customers of some commercial banks may only withdraw foreign currency from their account if traveling, and this also depends on the bank’s foreign currency availability. Commercial banks have set monthly or weekly limits on the withdrawal of foreign currency.

<table>
<thead>
<tr>
<th>Held abroad</th>
<th>Yes.</th>
</tr>
</thead>
</table>
| Individuals may have these accounts without BNA approval. Legal entities may open foreign exchange accounts abroad, with BNA approval, which may be credited with export receipts and debited with payments for imports of goods and services and debt-service payments. Diamond and other mineral companies may, with BNA approval, open escrow accounts in banks abroad as security for foreign borrowing.

<table>
<thead>
<tr>
<th>Approval required</th>

Nonresident Accounts

<table>
<thead>
<tr>
<th>Foreign exchange accounts permitted</th>
<th>Yes.</th>
</tr>
</thead>
</table>
| These accounts may be credited with foreign currency imported from abroad and with the accrued interest. They may be debited for sales of foreign currency, payments to residents in domestic currency, foreign currency expenditures abroad, interbank transfers to resident entities belonging to the same group, the use of international credit and debit cards, and/or the repatriation of amounts authorized by the BNA.

<table>
<thead>
<tr>
<th>Approval required</th>
<th>No.</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Domestic currency accounts</th>
<th>Yes.</th>
</tr>
</thead>
</table>
| Before 2009, nonresidents may open two types of domestic currency accounts: type A and type B. Type A accounts may be credited with the proceeds from the sale of resources from foreign exchange accounts and, with BNA authorization, with receipts from nonresidents’ activities in Angola. These accounts may be debited for payments of local expenses and against the purchase of foreign currency to be deposited in a foreign exchange account held by the same entity. Type B accounts may be credited only with receipts from nonresidents’ activities in Angola (when authorized by the BNA) and may be debited for payments of local expenses. These types of accounts were canceled in accordance with Notice No. 03/09 of June 5, 2009. The balance of type A account was converted and transferred to the foreign exchange accounts of nonresidents. Type B accounts were reclassified as domestic currency accounts for nonresidents.

| Convertible into foreign currency | No. |
Approval required Yes. For nonresidents, approval from the BNA is not required to open an account in domestic currency.

Blocked accounts No. The terms and conditions are defined in Notice No. 02/17 of February 3, 2017.

References to legal instruments and hyperlinks This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Imports and Import Payments

Foreign exchange budget No. There are no regulations in this area.

Financing requirements for imports No. There are no regulations in this area.

Minimum financing requirements No.

Advance payment requirements No.

Advance import deposits No.

Documentation requirements for release of foreign exchange for imports Yes. Before any foreign exchange operation involving an import, export, or reexport, banks must verify the nature, economic rationale, and legitimacy of the resident importer or exporter for foreign exchange purposes, in accordance with the obligations of identification and due diligence set out in the tax legislation and in the anti-money-laundering/combating the financing of terrorism (AML/CFT) legislation. Banks must also verify that the foreign exchange operation complies with the applicable legislation and should request all the necessary documentation to confirm it. The required documentation will also depend on the type of payment. Under the terms of the Notice, there are four payment mechanisms: documentary credit, advance payment, remittance, and documentary collection. To improve the competitiveness of the economy and expedite the import process, a “Simplified Regime” was approved, in which companies do not have to submit the documentation supporting import operations to the banks, but instead are required to submit to the BNA, through commercial banks, certain documents such as audited financial statements for the last three fiscal years and letters of engagement from the management administration/body.

Domiciliation requirements No.

Preshipment inspection No. Preshipment inspection is optional, pursuant to Presidential Decree No. 63/13 of June 11, 2013, which repeals Articles 10, 11, and 12 of Council of Ministers Decree No. 41/06 of June 17, 2006.

Letters of credit Yes. This is one of the payment methods allowed by the law and can take the form of advance payment or post payment.

Import licenses used as exchange licenses No.

Other No.

Import licenses and other nontariff measures Yes. Only three types of transactions do not require import licenses: Imported goods valued at US$5,000 or less. Goods imported as luggage. Other goods as defined by Presidential Decree No. 75/17 of April 7, 2017.

Positive list No.

Negative list Yes. The legal framework lists goods that may not be imported, which include plants and animals from infected areas, toxic products, and certain drugs. There is a list of goods that require specific licenses from the Ministries of Health, Industry, or Agriculture and Rural Development. Imports of arms and ammunition are subject to
authorization by the Ministry of the Interior. Imports for specific purposes may be exempt from customs tariffs.

Open general licenses No. Foreign trade is not subject to foreign exchange licensing; however, it is recorded in a computer system, SICOEX (Sistema Integrado de Comércio Exterior)—Integrated System of Foreign Trade, Ministry of Commerce—for the licensing, registration, and control of operations.

Licenses with quotas Yes. Under the quota system, three provinces (Cabinda, Cunene, and Cuando Cubango) are each allowed to import 150,000 tons of cement a year.

Other nontariff measures Yes.

Import taxes and/or tariffs Yes. Presidential Legislative Decree No. 10/13 of November 22, 2013, approves the new tariff schedule, the full text of which was republished January 30, 2014. The tax system consists of eight rates: 1%, 2%, 5%, 10%, 20%, 25%, 30%, and 35%.

Taxes collected through the exchange system Yes. A tax stamp of 0.1% (the percentage under the previous law was 0.001% for foreign exchange operations) is collected through the foreign exchange system.

State import monopoly Yes. Petroleum products may be imported only by the public oil company. Arms and ammunition for warfare may be imported only by the government.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exports and Export Proceeds

Repatriation requirements Yes. All revenue in foreign exchange deriving from each export operation must be deposited in a bank account in foreign exchange held by the exporter. Under Notice No. 5/18, the exporter must sell, five days from the date the resources enter the country, to the bank that brokered the operation, 50% of the foreign exchange revenue deriving from the export at the exchange rate negotiated with the bank on the execution date of the transaction. They should be used primarily to pay for imports. On the other hand, they must be converted to domestic currency for payments to resident entities. Diamond companies may retain export proceeds in Angolan banks to pay for imports of goods and services. They may also retain part of their receipts abroad in escrow accounts, with BNA authorization, as security for foreign borrowing.

Surrender requirements Yes. Under Notice No. 5/18, the exporter must sell, five days from the date the resources enter the country, to the bank that brokered the operation, 50% of the foreign exchange revenue deriving from the export at the exchange rate negotiated with the bank on the execution date of the transaction. They should be used primarily to pay for imports. On the other hand, they must be converted to domestic currency for payments to resident entities. Diamond companies may retain export proceeds in Angolan banks to pay for imports of goods and services. They may also retain part of their receipts abroad in escrow accounts, with BNA authorization, as security for foreign borrowing.

With BNA approval, foreign companies may retain their export receipts abroad for payment of imports of goods and services, transfer of interest and profits, and the amortization of capital. These companies must use funds from abroad for the payment of royalties, taxes, and local expenses. According to Law No. 2/12 of January 13, 2012, the foreign exchange law for the oil sector, foreign companies in the oil sector may retain export proceeds in foreign accounts for
deposit of balances after payment of current expenses, profits and dividends, incentives and other capital remuneration, and the amount of investment amortization. The BNA issued a normative instruction (No. 7/2014) reversing the previous decision that allowed foreign companies in the oil sector to retain export proceeds in foreign accounts for deposit of balances after payment of current expenses, profits and dividends, incentives and other capital remuneration, and the amount of investment amortization.

Surrender to the central bank  Yes.  Tax payments by oil companies must be surrendered to the BNA from deposits on account with financial institutions in Angola. The BNA issued a normative instruction (No. 7/2014) reversing the previous decision that allowed foreign companies in the oil sector to retain export proceeds in foreign accounts for deposit of balances after payment of current expenses, profits and dividends, incentives and other capital remuneration, and the amount of investment amortization.

Surrender to authorized dealers  Yes.  All revenue in foreign exchange deriving from each export operation must be deposited in a bank account in foreign exchange held by the exporter. Under Notice No. 5/18, the exporter must sell, five days from the date the resources enter the country, to the bank that brokered the operation, 50% of the foreign exchange revenue deriving from the export at the exchange rate negotiated with the bank on the execution date of the transaction. The available resources in their accounts in foreign exchange must be used first to settle any imports. By contrast, the funds must be converted to kwanzas to make payments to resident entities. Diamond enterprises may retain export revenue in local bank accounts to make payments for imports of goods and services. With authorization from the BNA, they may also retain some of the revenue abroad in escrow accounts to guarantee loans arranged abroad.

Financing requirements  No.

Documentation requirements  Yes.

Letters of credit  Yes.  This is one of the payment mechanisms provided in the regulatory texts.

Guarantees  No.

Domiciliation  Yes.

Preshipment inspection  No.

Other  No.

Export licenses  Yes.  Exports require licensing by the Ministry of Commerce through SICOEX. Exports of arms, ammunition, and cultural artifacts are prohibited. Special export regimes apply to aircraft, animals and animal products, works of art, and petroleum.

Without quotas  No.

With quotas  No.

Export taxes  Yes.  The tax system comprises six rates: 1%, 2%, 3%, 4%, 5%, and 10%.

Collected through the exchange system  No.

Other export taxes  No.

**Capital Transactions**

**Controls on capital transactions**  
Yes. All capital transactions are subject to prior licensing by the BNA,
except those related to transfers of profits and dividends, incentives and other types of return on capital, and the amount of investment amortization of foreign corporate investors in the oil sector. Capital transactions must be conducted through banks, which must submit them to the BNA for approval and issuance of a capital import (LIC) or export (LEC) license. The remittance of profits and dividends is subject to BNA approval if the annual amount is higher than Kz 500,000. In this case, companies must present the CRIP (Private Investment Registration Certificate) and audited financial statements.

These instruments are not currently available, and specific legislation concerning financial derivatives has not been enacted. The use of financial derivatives in Angola is now permitted under the Capital Market Commission rules of 2014.

Operations are subject to prior BNA licensing for registration purposes, but there is no binding commitment by of the BNA.

Supplier credits must be reported to the BNA for statistical purposes.

Supplier credits must be reported to the BNA for statistical purposes.

Financial credit operations are subject to prior BNA licensing.

BNA approval and authorization are required.

BNA approval and authorization are required.

Foreign investors are guaranteed the right to transfer abroad the proceeds of the sale of investments, including capital gains and amounts owed to them after the payment of taxes due. Pursuant to Article 22 of the Private Investment Law, the limit on remittances of dividends and profits from foreign investments was eliminated.
Sale locally by nonresidents: n.r.

Controls on personal capital transactions: Yes.

Loans:
- By residents to nonresidents: Yes, BNA authorization is required.
- To residents from nonresidents: Yes, BNA authorization is required.

Gifts, endowments, inheritances, and legacies:
- By residents to nonresidents: Yes, BNA authorization is required.
- To residents from nonresidents: Yes. These operations may be carried out freely by banks authorized to conduct foreign exchange business, with the knowledge of the BNA.

Settlement of debts abroad by immigrants: Yes.

Transfer of assets: Yes.

Transfer abroad by emigrants: Yes.

Transfer into the country by immigrants: No.

Transfer of gambling and prize earnings: Yes.

References to legal instruments and hyperlinks: This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Provisions Specific to the Financial Sector:

Borrowing abroad: Yes. All transactions are subject to licensing.

Maintenance of accounts abroad: Yes.

Lending to nonresidents (financial or commercial credits): No.

Lending locally in foreign exchange: Yes. Since January 1, 2015, institutions have been prohibited from engaging in credit operations in the country for disbursement in foreign exchange with any terms and for any purposes, except for credit operations transferred to the Angolan government, to exporters, and to exporters holding revenue in foreign exchange.

Loans cannot be issued with capital indexed to a foreign currency.

Purchase of locally issued securities denominated in foreign exchange: Yes.

Differential treatment of deposit accounts in foreign exchange: Yes.

Reserve requirements: Yes. The reserve ratio on deposits by private individuals in kwanzas was reduced from 19% to 17% effective July 23, 2018. For local governments and municipal administrations, the reserve ratio was reduced from 75% and 50%, respectively, to 17% to equalize the ratio on private individuals’ deposits. The reserve ratio on deposits by private individuals in foreign exchange remained unchanged at 15%, and the reserve requirement on deposits of central, local, and
municipal governments in foreign exchange was maintained at 100%.
The instruments eligible to comply with national currency required reserve are only balances relating to the daily closing of the deposit account open in the BNA on behalf of each bank financial institution. Instruments eligible to comply with required reserves in foreign currency are the following assets:
• 20% with the balance of the foreign currency deposits account opened in the BNA on behalf of each financial institution and
• 80% with obligations of the treasury in foreign currency belonging to the own portfolio registered in the SIGMA issued from 2015.

<td></td>
</tr>
</tbody>
</table>

(1) The total cost of credit granted by international payment cards at the annual nominal rate of interest and fees cannot exceed 7.5%.

(2) Banks may apply fixed or variable interest rates, and the latter must be indexed to the Luibor less a margin, although it should be ensured at all times that the total cost of credit granted does not exceed 7.5% per annum. The Luibor rate to be applied should correspond to the periodicity of the interest payments.

Instruction No. 4/2019 on the Granting of Credit, effective April 26, 2019, defines the following for credits unrelated to international payment cards:

(1) Banks must apply differentiated interest rates to their customers, defined to reflect the specific risk rating of each operation, determined based, inter alia, on the level of risk attributed to each customer, the features of the instrument, and the collateral provided;

(2) In the cases of loans with variable interest rates, banks should preferably use the indexing factor that is generally used for credit agreements in the currency in question, and a margin may be added to or subtracted from this factor to reflect the level of risk associated with each operation determined based on the factors referred to in item 1.1 (a) of Instruction No. 4/2019;

(3) For credits denominated in domestic currency with variable interest rates, banks should preferably apply the Luibor as an indexing factor.

(4) The term of the indexing factor should correspond to the interest payment period.

</table>

Article 4 (Classification of credits)

(1) Financial institutions are required to classify risk positions mentioned in Article 1 of this Notice in accordance with the specific regulatory texts, on methodologies for the establishment of provisions, in increasing order of risk level.

(2) The individual classification of the risk position should take into account the operating risks and characteristics of the borrower, in observance of at least (a) the application of the resources by
operating type or mechanism; (b) the debtor’s predominant activity; (c) whether or not borrowing operations are involved; (d) guarantees received from the debtor; (e) currency, index factor, and term of the operation; (f) full, accurate identification of the borrower and the economic group to which it belongs.

(3) The individual classification of the risk position with the corresponding level of risk is incumbent on the institution holding the credit and must be carried out based on an estimate of possible loss calculated using consistent, verifiable criteria, with supporting information from internal and external sources, supplemented at least with the following:
(a) With relation to the debtor and its guarantees: (i) Economic and financial situation; (ii) Management capacities and quality of internal controls; (iii) History of timely or late payments; (iv) Contingencies; (v) Economic sector; (vi) Geographic area of activity; (vii) Credit limit.
(b) With relation to the operation: (i) Nature and type of transaction; (ii) Features of the guarantees, particularly concerning the sufficiency of liquidity; (iii) Value.

The institutions should ensure that the methodologies and processes applied in determining the individual classification of risk positions by risk level are adequately established.

Effective September 7, 2016.
Article 6 (Solvency assessment)

(1) Before entering into credit agreements, institutions are required to assess the customer’s solvency through the verification of the information the customer has provided and by consulting the Credit Risk Information Center (CIRC) as provided in Notice No. 02/2010 of November 18, 2010.

(2) In addition to the assessment provided in the foregoing paragraph, the institution may also consult other databases considered useful in the assessment of the solvency of their customers.

Article 14 (Credit restructuring)

(1) When default has been verified in connection with credit agreements, institutions must make arrangements to contact the customer to determine the reasons for the default.
(2) It is incumbent on the customer to provide evidence of the financial difficulties it is experiencing underlying its failure to meet its financial commitments.
(3) The institutions must inform the customers and the BNA of the credit agreements subject to restructuring and must give preference to the extrajudicial regularization of such arrangements. The customer must be given one or more adequate proposals to regularize the financial situation.
(4) In the analysis of the customer’s financial situation, institutions must consider its overall liabilities, and not only commitments undertaken with the institution.
(5) When changes to the agreements are justified as a result of the customer’s financial difficulties, the institutions may not increase the credit charges, specifically by raising the interest or fees charged, or any expenses related to the restructuring of the loan.
Effective April 26, 2019.

(1) LTV
The ratio between the total amount of the credit agreements guaranteed with a given real property asset and the lowest purchase price or assessed value of the property provided as a guarantee for home loans at the date the loan is granted must not exceed:
(a) 90% for permanent owner-occupied housing;
(b) 80% for purposes other than owner-occupied housing;
(c) 100% for the purchase of real properties held by the banks themselves;
(d) 100% for real property leases.

(1) Institutions cannot undertake large risks with one counterpart or group of related counterparts when the value exceeds 25% of their regulatory capital.
(2) The limit referred to in numeral 1 above is reduced to 10% of regulatory capital when the large risks involve institutions with qualified holdings or if the shareholders include a group of related counterparts, except when the qualified holdings are in one institution.
(3) The total of the top 20 large risk exposures cannot exceed 300% of regulatory capital.

Update of prudential limits effective June 2017.

Institutions may not directly or indirectly hold stakes or shares in a nonfinancial enterprise or group of related nonfinancial enterprises if the amount exceeds 15% of the regulatory capital of the participating institution.

The total amount of the stakes or shares directly or indirectly held in nonfinancial enterprises cannot exceed 40% of the investing institution’s regulatory capital.

Institutions may not hold, for periods exceeding three years, continuously or intermittently, directly or indirectly, shares or stakes exceeding 25% of the capital in a nonfinancial enterprise.

Amounts exceeding the limits provided in Notice No. 9/2016 can be deducted from regulatory capital.

Differential treatment of deposit accounts held by nonresidents n.r.
Reserve requirements n.r.
Liquid asset requirements n.r.
Interest rate controls n.r.
Credit controls n.r.
Investment regulations Yes. Does not require approval from the BNA.
Abroad by banks Yes.
In banks by nonresidents Yes.
Open foreign exchange position limits Yes. In December 2018, the BNA replaced the limit on the net open position in foreign exchange with a limit on the liquidity position in
foreign exchange. The liquidity position is calculated taken into consideration only liquid foreign exchange assets and liabilities, excluding among others foreign exchange-indexed government bonds. The calculation must be carried in euros or euro equivalents. The commercial banks must submit daily reports on their foreign exchange liquidity position to the BNA and the net open position cannot exceed 10% of their capital (in effect from January 1, 2019). Banks have been required to sell their surplus foreign exchange positions pursuant to Notice No. 12/2018 of December 3, 2018.

On resident assets and liabilities  Yes.  Effective May 18, 2009.

Article 1 (Foreign exchange residence)
(1) In accordance with Article 4 of Law No. 05/97 of June 27, 1997, the Foreign Exchange Law, and for purposes of this Notice, the following are considered residents of the national territory: (a) Individuals having normal residence in the country; (b) Legal entities having headquarters in the country; (c) Branches, subsidiaries, offices, or any types of representation in the country of legal entities having headquarters abroad; (d) Administratively and financially autonomous funds, institutes, and public organizations with headquarters on the national territory; (e) National diplomatic citizens, consular representatives, or similar persons posted abroad as well as members of their families; (f) Individual nationals who spend periods exceeding 90 days and less than one year abroad to undertake studies or to serve in public office.

Effective January 16, 2017.

Article 2 (General provisions)
(2) Individuals or legal entities resident for foreign exchange purposes intending to transfer into the country funds deposited with banks domiciled abroad may open and operate accounts in foreign exchange with banks domiciled in Angola as provided under Article 4 of this Notice.

(3) Individuals or legal entities resident for foreign exchange purposes may simultaneously maintain separate accounts denominated in foreign exchange under the terms defined in Article 4 of this Notice and in accordance with Notice No. 3/09 of June 5, 2009.

On nonresident assets and liabilities  Yes.  Effective May 18, 2009.

Article 1 (Foreign exchange residence)
The following are considered nonresidents: (1) Individuals having normal residence abroad; (2) Legal entities having headquarters abroad; (3) Individuals who have emigrated; (4) Individuals who have been out of the country for more than one year; (5) Branches, subsidiaries, offices, or any type of representation abroad of legal entities having headquarters in Angola; (6) Diplomats, consular representatives, or similar persons operating on Angolan territory and members of their families.

Effective January 16, 2017.

Article 2 (General provisions)
(1) Individuals and legal entities nonresident for foreign exchange purposes may hold and operate accounts in domestic and foreign currencies with banks domiciled in Angola, as provided under Articles 3 and 4 of this Notice.

Institutional investors are defined by Law No. 22/15 – Securities Code – of August 31, 2015, and by the CMC Rules, No. 1/15 of May

Changes during 2018 and 2019

Exchange Arrangement

Classification

Other managed arrangement

01/01/2018 The National Bank of Angola (BNA) adopted a regime of (unannounced) bands for the fluctuation of the kwanza against the euro, and conducted two auctions under the system that led to significant depreciation of the kwanza. To stem exchange rate overshooting, the BNA then set a new foreign exchange auction system in which bids could fluctuate within a plus/minus 2 percentage point band around the average exchange rate of winning bids of the previous auction, de facto capping the maximum depreciation of the exchange rate at 2% per auction. This cap has been abandoned in December 2018, but the BNA can still limit the daily changes in the exchange rate through arbitrarily classifying certain bids in auctions as “speculative” and removing that bid from the auction.

01/09/2018 Since January 2018, the exchange rate has increased its volatility, while still being managed. Therefore, the de facto exchange rate arrangement was reclassified to “other managed” from “stabilized.”

- Publication of inflation forecasts

Other monetary framework

Exchange tax No.

Exchange subsidy No.

Foreign exchange market Yes. The ECCB sets an indicative rate for commercial banks to follow. This rate has been EC$2.6882–EC$2.7169 per US dollar for a long time. Commercial banks may freely set their commissions in transactions with their clients.

Spot exchange market Yes. The ECCB participates in the foreign exchange market mainly trading US currency with Bank of America.

Operated by the central bank Yes.

Foreign exchange standing facility Yes. The ECCB is committed to selling and buying US dollars at a fixed exchange rate of EC$2.7 per US dollar. Actual rates may differ slightly so that the ECCB can cover its administrative expenses. There is no bid-ask spread. The ECCB deals directly with the government and other public entities.

Allocation No.

Auction No.

Fixing No.

Interbank market Yes. Banks may trade with each other, but there is no formal interbank foreign exchange market. Foreign exchange bureaus are subject to licensing by the ECCB. These bureaus may deal in foreign exchange transactions directly with the ECCB; conduct spot, forward, and swap transactions; maintain accounts abroad; and make foreign payments and transfers on behalf of clients.

Over the counter Yes.

Brokerage No.

Market making No.

Forward exchange market No.

Official cover of forward operations No.

**Changes during 2018 and 2019**

No significant changes occurred in the exchange and trade system.
ARGENTINA

(Position as of April 30, 2019)

Status under IMF Articles of Agreement

Date of membership September 20, 1956.

Article VIII Yes. Date of acceptance: May 14, 1968.

Article XIV

Exchange Measures

Restrictions and/or multiple currency practices Yes. The IMF staff report for the Request for Stand-By Arrangement with Argentina states that, as of June 19, 2018, Argentina maintained a multiple price auction that gives rise to a MCP subject to IMF approval under Article VIII, Section 3 of the Articles of Agreement. In the absence of a mechanism that would prevent (1) a spread deviation of more than 2% in the exchange rates at which the Central Bank of Argentina (BCRA—Banco Central de la República Argentina) sells foreign exchange to successful bidders; and (2) a spread deviation of more than 2% between the auction rates and the market exchange rate, the auction results in an MCP. (Country Report No. 18/219).

Exchange measures imposed for security reasons Yes. Argentina notified the IMF that it maintains restrictions in accordance with UNSC resolutions on preventing the financing of terrorism.

Other security restrictions Yes. The BCRA has established that financial and exchange institutions are subject to the provisions of Law Nos. 25.246 and 26.734 as amended and supplemented, Decree No. 918/12, and FIU Resolution No. 12/11 as amended, 30-E/2017; and FIU Resolution No. 29/2013. Under these laws, decrees, and resolutions, regulated institutions must follow the regulatory guidelines of the FIU for the prevention of money laundering, financing of terrorism, and other unlawful activities “without delay,” including Argentine Executive Branch decrees regarding UNSC resolutions on combating terrorism and resolutions (and their annexes) of the Ministry of Foreign Affairs and Worship.

Article 1 of Executive Decree No. 918/12 regulates the measures and procedures for the administrative freezing of goods linked to the criminal activities specified in Article 306 of the Criminal Code (financing of terrorism), as well as the procedure for inclusion and exclusion from the lists established in accordance with UNSC resolutions.

Since July 1, 2017, Communication A 6244 superseded all foreign exchange regulations, although it retained the minimum information that ADs must verify when funds are transferred to and from abroad, including the messages that pertain to these transfers (as well as various control mechanisms) to include:
– the payer’s and recipient’s information,
– having procedures to detect information missing in transfers and, in such cases, keeping them pending settlement until omissions are remedied.

<table>
<thead>
<tr>
<th>Floating</th>
<th>Yes.</th>
</tr>
</thead>
</table>

The de jure and de facto exchange rate arrangements are floating. The exchange rate of the peso, which is determined in the MULC (Mercado Único y Libre de Cambios—Local Foreign Exchange Market) by supply and demand, applies to all transactions in foreign exchange and foreign currency banknotes.

All individuals and legal entities, equity concerns, and other estates may operate freely on the foreign exchange market through authorized institutions, without making the distinction by the type of operation and/or residence of the customer.

Notwithstanding the above, the BCRA reserves the power to operate in the exchange market to manage its balance sheet and prevent unjustified fluctuations in the exchange rate.

In 2018, there was a reversal in capital flows that generated greater financial volatility. Between March and June, the first episode of exchange rate turbulence spread. In that period, the monetary authority sold a total of US$11.439 million. The second event occurred between August and September, with peak volatility occurring on August 30, when the exchange rate registered an increase of 24%. In these months, the sales of dollars made by the CB totaled US$4.495 million.

As a result of these episodes of repeated nominal instability, effective October 1, 2018, the BCRA adopted a new monetary-exchange scheme and defined Zones of intervention and non-intervention, within which the peso could float freely. Initially, the non-intervention zone limits were defined at $34 and $44 per dollar, adjusted daily at a rate of 3% per month until the end of 2018. If the exchange rate were above the upper limit, the BCRA could intervene through bids for the sale of dollars for a fixed daily amount, while if the exchange rate breached the lower limit, bids for the purchase of...
dollars for a fixed daily amount could be made. From October to the end of 2018, the exchange rate stabilized within the non-intervention zone, although close to the lower limit. Although the exchange rate depreciated 50.3% during the year, there has been an appreciation of 8.2% since the implementation of the new monetary-exchange scheme in October.

During the first quarter of 2019, the non-intervention zone limits were updated daily at a monthly rate of 2%, using the existing limits as of December 31, 2018, as a benchmark. During January and much of February, the exchange rate operated close to the lower limit of the non-intervention zone, falling below it on several occasions. This led the CB to make foreign exchange purchases from the market for US$978 million between January 10 and February 13, in accordance with the mechanism established in the monetary regime.

The adjustment of the non-intervention zone limits was 1.75% per month in the first half of April. Effective April 16, 2019, it was decided that the adjustment would be 0% for the rest of the year (keeping the lower and upper limits constant at 39.755 and 51.448 pesos per dollar, respectively) and, effective April 29, 2019, it was established that, because of the increase in exchange volatility, discretionary interventions could be made within what would become known as the Reference Zone (between 39.755 and 51.448 pesos per dollar) and that, if the exchange rate were above the upper limit, a total of US$250 million could be sold, maintaining the possibility of increasing this amount if deemed necessary.

Additionally, the BCRA decided that it would not buy foreign exchange if the exchange rate breached the lower limit of the Reference Zone until July.

As of July 1, 2019, the reference exchange rate (Communication “A” 3500 Wholesaler) was A$42.135 per US dollar, within the Reference Zone and the BCRA has not intervened in the market since February 13.

Exchange rate intervention data can be consulted in the Daily Monetary Report. In turn, the CB issues special communiqués when it purchases dollars from the Treasury. Both the latter and the Daily Monetary Report can be consulted on the CB’s website.

The Daily Monetary Report publishes intervention data on net purchases from the private sector and the National Treasury on a daily basis. Exchange intervention data are published with a 3-day delay (taking into account working days) because of the time required for the correct processing of the information prior to its dissemination.

Free floating

Official exchange rate No. Foreign exchange operations are carried out at the exchange rate as freely agreed between the parties.

The reference exchange rate (Tasa de Câmbio de Referência—TCR) is not an official exchange rate. It is calculated as specified in Communication A 3500, used for information purposes only, and is intended to reflect the wholesale market price—based on average buying and selling rates.

Monetary policy framework

Exchange rate anchor

U.S. dollar

Euro

Composite
Effective October 1, 2018, the BCRA has implemented a new monetary policy scheme that seeks to lower inflation and restore a nominal anchor for the economy. Specifically, the BCRA committed not to increase the level of the monetary base (monetary aggregate with greater control by the BCRA) in relation to the monthly average prior to the implementation of the new scheme.

Previously, the CB had implemented an inflation-targeting regime, since September 2016. Effective June 7, 2018, under the Stand-by Arrangement with the IMF, the inflation targets were modified once again: 17% in 2019; 13% in 2020; 9% in 2021; and 5% in 2022 (y-o-y, December). Previously, the inflation target was 10% for 2019 and 5% beginning 2020. Also, effective July 10, 2018, the monetary policy rate was determined by the Monetary Policy Committee (previously it was determined by the BCRA Monetary Policy Council) and the composition of which was amended to include the President, Vice President, a director appointed by the Board of Directors, and the Assistant General Manager for Economic Research. It was also established from that date that the decision on the monetary policy rate would be reported one Tuesday every month at 5:00 p.m. in the Monetary Policy Bulletin. Previously, two meetings were held every month.

Effective August 7, 2018, the Liquidity Bill Rate (LELIQ), equivalent to the 7-day reverse repurchase rate, was adopted as the policy rate. The monetary goal is implemented through daily LELIQ operations with the banks. By establishing the amount of money exogenously, the LELIQ interest rate is determined by the supply and demand of liquidity required to meet the commitment to zero base growth. Previously, the 7-day repurchase rate (the center of the interest rate corridor) served as the policy rate. Effective May 3, 2018, it was raised to 575 bps (−75 bps for the reverse repurchase rate and +500 bps for the repurchase rate). Effective May 4, 2018, it was raised to 1,400 bps (returning to symmetry: +/−700 bps in relation to the policy rate). Effective June 13, 2018, it contracted to 600 bps (+/−300 bps in relation to the policy rate). Effective August 8, 2018, with the change in the policy interest rate, which becomes the Liquidity Bill Rate (LELIQ), the interest rate corridor was removed.

On March 14, 2019, the BCRA decided to extend the 0% growth in the monetary base target until December 2019 (net of the foreign exchange purchase expansion), when the corresponding seasonal increase will be incorporated (without making the seasonal adjustment in June). To do so, it was decided to take the BM’s cumulative average in February 2019 ($1.343 billion) as a point of comparison, a month in which the goal had been surpassed. Likewise, given that July produces high seasonal demand for working capital, because of the collection of bonuses and expenses associated with the winter recess, the BCRA decided to reduce the minimum cash requirement on fixed-term deposits by 3 percentage points. This measure allows for better management of liquidity conditions during this period and contributes to strengthening the transmission of the Liquidity Bill (LELIQ) interest rate to the rate received by savers. However, to avoid loosening the monetary policy, after this seasonal phenomenon, monetary base goal will be reduced between August and October until it fully compensates for the
monetary effect. In other words, in July 2019 the monetary base goal must remain at $1,343.2 billion and will fall from August reaching $1,298.2 billion in October.

To guarantee that these changes do not imply a loosening of current monetary conditions, the Monetary Policy Council of the BCRA (COPOM) decided, in July, to set a minimum LELIQ rate of 58%*. In other words, it will absorb the liquidity necessary to prevent the reference interest rate from being lower than that level. This reduction in the minimum rate is in line with the reduction in the inflation rate that has been seen in recent months and that, according to the Survey of Market Expectations, is expected to continue for July.

(*The previous minimum rate was 62.5%, having been in force from April to the end of June 2019. Before that, another minimum rate applied between October 1 and December 5, 2018.)

All foreign exchange operations must be carried out in the Local Foreign Exchange Market (MULC), currently the Free Foreign Exchange Market (MLC) according to the provisions of Article 132 of Law No. 27444 (which repealed Article 188 of Decree No. 27/18) which replaced Article 1 of Decree No. 260/2002 and Communication “A” 6244 and Complementary Point 1.2. The MULC (currently the Free Foreign Exchange Market) has been in operation since February 11, 2002. The exchange rate is determined by the free interplay of supply and demand. ADs freely set their bid-ask spreads and the commissions on foreign exchange transactions with their customers.

Communication A 6244 governs foreign exchange operations by the provisions included in its Annex, replacing all foreign exchange texts that had until that time regulated such operations, and establishing the basis of the Consolidated Text on External Affairs and Foreign Exchange. The framework establishes that all individuals and legal entities, equity concerns, and other estates may operate freely on the foreign exchange market through authorized institutions, without making the distinction by the type of operation and/or residence of the customer.

Spot exchange market Yes. The MULC (currently the Free Foreign Exchange Market) operates on a spot basis, and transactions are settled within 48 hours (Communication A 6244, Item 4.3). It is the only formal mechanism for foreign exchange transactions. (Communication A 6244, Item 1.2.).

As of December 31, 2018, 79 financial institutions were licensed to operate and 188 exchange institutions were registered. By law, the BCRA is responsible for authorizing the operation of these institutions and for establishing their operating powers and reporting requirements.

Foreign exchange institutions (foreign exchange bureaus and agencies) may operate on the foreign exchange market. As of December 31, 2018, 25 exchange bureaus and 163 agencies were registered.

Foreign exchange bureaus can carry out all the operations provided for in the rules on “External and foreign exchange.” They may also simultaneously carry out activities related to tourism and travel-related activities, and they can participate in public offerings of securities, subject to the relevant legal provisions. Exchange agencies may buy and sell foreign currency banknotes and coins; buy foreign currency traveler’s checks, which may be sold only to financial institutions authorized to conduct foreign exchange transactions; and buy and sell gold coins and good delivery gold bars. They may use only local funds received through transactions with their customers,
ADs, and exchange bureaus or agencies for their operations. In addition, they may simultaneously carry out any commercial, industrial, or other type of activity, in accordance with the corresponding legal provisions. The retail exchange rates offered in Buenos Aires by institutions in the system may be consulted at the BCRA’s website. The information includes “reference retail exchange rates” calculated on the basis of the rates announced by institutions. These rates are intended to provide information regarding quotations in the MULC – currently the Free Foreign Exchange Market (Communication “B” 9791).

Communication A 3500 established the mechanisms for calculating the TCR on each bank business day for wholesale operations that can be settled in pesos and US dollars on the quotation date. Exchange offices may buy foreign currency coins, banknotes, and traveler’s checks, which may be sold only to ADs and exchange bureaus.

Operated by the central bank
Yes.

Foreign exchange standing facility
No.

Allocation
No.

Auction
Yes. Effective June 18, 2018, the BCRA introduced multiple price foreign exchange auctions. Some key features of the auction include: (1) the amount to be auctioned will be established by BCRA and communicated in advance of the auction; (2) each auction will remain open for 15 minutes; (3) participants may express their interest with up to three positions each, with a minimum amount of US$1 million each and in increments of US$1 million and the positions cannot be altered in amount or price once included in the system; (4) price indications must be expressed as the amount of pesos to be paid for each dollar received with up to three decimals; (5) the amount of dollars that the BCRA determines to place in each tender will be awarded by price, from highest to lowest until the determined amount is achieved; (6) orders will be awarded at the price offered for each one; and (7) orders that have been submitted at the lowest accepted price may be subject to apportionment.

Fixing
No.

Interbank market
Yes. At end-2018, a total of 57 banks operated on the interbank market. Foreign exchange market transactions comprise the transactions of ADs with their customers, with each other, and with the BCRA. Customer foreign exchange transactions must involve an authorized institution. Foreign exchange transactions between authorized institutions must be conducted through the SIOPEL when agreed to directly between the parties. Purchases and sales of foreign exchange outside this system are allowed between authorized institutions when one or both parties are not authorized to operate in the SIOPEL and provided the transactions do not involve exchange brokers and do not exceed the equivalent of US$8,00,000 a day, calculated as the sum of each institution’s purchases and sales. (Communication A 6244, Item 3.6.) The BCRA conducts its foreign exchange transactions with authorized institutions through the SIOPEL. The CB does not use market makers and intervenes directly with market participants at their quoted rates, or through auctions on the market (Communication A 6527).

Over the counter
Yes. Foreign exchange transactions between authorized institutions must be conducted through the SIOPEL when agreed to directly between the parties.
Buying and selling of foreign exchange is also permitted between institutions authorized outside of the SIOPEL, when one or both parties is/are not authorized to operate within this system, in a daily amount not to exceed the equivalent of US$8,00,000, considering the total of both items in each institution. (Communication A 6244, Item 3.6.)

Brokerage No.
Market making No.
Forward exchange market Yes. There are two important forward foreign exchange markets. The BCRA operates in both for monetary policy purposes. At the end of 2018, the two most relevant forward markets were Rofex (Rosario Term Market) and OCT-MAE (Electronic Open Market) where the participation was 93% and 7%, respectively. Transactions are settled by daily netting in domestic currency. The forward foreign exchange markets use the TCR published by the BCRA.

Official cover of forward operations No.
References to legal instruments and hyperlinks This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Arrangements for Payments and Receipts

Prescription of currency requirements No.
Controls on the use of domestic currency No. Operations that may be carried out freely on the foreign exchange market include the buying and selling of foreign exchange with settlement in local currency, swaps, and arbitrage (Communication A 6244, Item 4.2). There are no restrictions to the currency used. International payments are not normally settled in local currency.

For current transactions and payments No.
For capital transactions No.
Transactions in capital and money market instruments No.
Transactions in derivatives and other instruments No.
Credit operations No.
Use of foreign exchange among residents No. Communication A 6244 established that all individuals, legal entities, equity concerns, and other estates may operate freely on the foreign exchange market through authorized institutions, without making the distinction by type of operation and/or residence of the customer.

Payments arrangements Yes.
Bilateral payments arrangements Yes.
Operative Yes. The domestic currency payments system (Sistema de Monedas Locales—SML) is voluntary and intended for trade-related transactions between Argentina and Brazil and between Argentina and Uruguay (Communication A 6244, Item 2.3). It allows importers and exporters from both countries to make and collect payments in their respective currencies. These transactions are channeled into the financial system, and the CBs clear the balances on a daily basis through correspondents.

Inoperative Yes. The Central Bank of the Republic of Argentina has a reciprocal payments and credit arrangement with the National Bank of Cuba.
In accordance with BCRA Communication A 2284, collections for any purpose must be made in freely available foreign exchange, while payments for any purpose must on a mandatory basis be made through the arrangement. Although the arrangement is in force, it is inactive as it has not been used to carry out any transactions for at least two decades.

Regional arrangements: Yes.

Within the framework of the multilateral clearing system of the LAIA or in Spanish: ALADI, payments between Argentina and other LAIA countries are settled voluntarily under payments agreements and a reciprocal credit mechanism.

Clearing agreements: No.

Barter agreements and open accounts: No.

Administration of control: Yes.

Exchange regulations are established by the BCRA in accordance with the applicable laws. Exchange transactions must be carried out through specifically authorized institutions, including banks, exchange agencies, and exchange bureaus subject to separate regulations. In all cases, participating institutions are subject to all applicable rules for the identification and recording of transactions and are subject to the rules on the prevention of money laundering, terrorism financing, and other unlawful activities. In general, they must also exercise due diligence in the identification of customers.

Payments arrears: No.

There are no restrictions in the exchange regulations on the execution of operations such as the payment of financial debts abroad, whether public or private.

Official: No.

Private: No.

Controls on trade in gold (coins and/or bullion): Yes.

On domestic ownership and/or trade: Yes.

Sales of gold coins and good delivery gold bars are subject to the MULC (currently the Free Foreign Exchange Market) exchange regulations as they are instruments transacted on the foreign exchange market pursuant to Communication A 6244, Items 4.1.3. and 4.1.4.

On external trade: Yes.

There are no restrictions on imports of gold bars. Imports of gold by industrial users are subject to a statistical duty of 0.5% and sales tax. Exports of coins and minted precious metals exceeding US$10,000 must be made through entities subject to supervision by the Superintendency of Financial and Exchange Institutions. Article 133 of Law No. 27.444 (which revoked Article 189 of Decree No. 27/18), which replaced Article 7 of Decree No. 1570/01, eliminated the previous requirement to obtain prior approval from BCRA for exports of foreign banknotes and coins and minted precious metals, pursuant to regulations issued by the BCRA. Consequently, Communication “A” 6436 effective January 19, 2018, eliminated the final paragraph of Point 3.7. of Communication “A” 6244, which had required prior BCRA approval for transactions of this type.

Controls on exports and imports of banknotes: Yes.

On exports: Yes.

Domestic currency: No.

In accordance with Communication A 6244, Item 3.8, entities may finalize operations that involve exporting local currency provided the...
counterparties are listed in Item 3.7.

Exports of foreign currency exceeding the equivalent of US$10,000 must be made through entities subject to the supervision of the Superintendency of Financial and Exchange Institutions. Article 133 of Law No. 27.444 (which revoked Article 189 of Decree No. 27/18), which replaced Article 7 of Decree No. 1570/01, eliminated the previous requirement to obtain prior approval from BCRA for exports of foreign banknotes and coins and minted precious metals, pursuant to regulations issued by the BCRA. Consequently, Communication “A” 6436 effective January 19, 2018, eliminated the final paragraph of Point 3.7 of Communication “A” 6244, which had required prior BCRA approval for transactions of this type. Exports of foreign currency exceeding the equivalent of US$10,000 must also be reported to the federal tax agency.

Exports of foreign currency exceeding the equivalent of US$10,000 must also be reported to the federal tax agency.

On imports

Domestic currency

Yes. In accordance with Communication A 6244, Item 3.8, entities may finalize operations that involve importing local currency without any limit, provided the counterparties are listed in Item 3.7.

Foreign currency

No. Imports of foreign currency exceeding the equivalent of US$10,000 must also be reported to the AFIP.

References to legal instruments and hyperlinks

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Resident Accounts

Foreign exchange accounts permitted

Yes. Banks are authorized to accept funds in: (1) US dollars and euro term deposits; (2) deposits in US dollar savings accounts; and (3) deposits in US dollars and euro public and private securities and term investments.

Appropriate identification is required in all cases to prevent money laundering, the financing of terrorism, and other unlawful activities, among other reasons.

Approval required

Yes. Authorized banks may collect funds on a fixed-term basis and deposits in savings funds in other foreign currencies (other than US dollar and euro) subject to authorization from the BCRA.

Held abroad

Yes. There are no restrictions in the exchange regulations on residents opening and maintaining foreign exchange accounts abroad. The funds held abroad are freely available to the customer.

In the event that the resident decides to repatriate these funds, for amounts exceeding US$2 million a month, the transactions are covered by Decree No. 616/05, Article 3, including repatriations from residents, with the proceeds from foreign exchange settlements having to be credited to a local account (Communication A 6244, Item 2.9).

Approval required

No.

Accounts in domestic currency held abroad

Yes. There are no Argentine peso accounts held with entities abroad. However, they are not prohibited under the foreign exchange regulations.

Accounts in domestic currency convertible into foreign currency

Yes. Domestic currency funds deposited in Argentina may be converted to foreign currency without any limit. In accordance with the foreign exchange regulations, all individuals, legal entities, equity concerns, and other estates may operate freely on the foreign exchange market through authorized institutions, without any distinction by type of operation and/or residence of the customer.
Nonresident Accounts

Foreign exchange accounts permitted Yes. Banks can accept funds in: (1) US dollars and euro term deposits; (2) deposits in US dollar savings accounts; and (3) deposits in US dollars and euro public and private securities and term investments. Appropriate identification is required in all cases to prevent money laundering, the financing of terrorism, and other unlawful activities, among other reasons.

Approval required Yes. Authorized banks may accept funds at fixed terms and deposits in savings accounts in other foreign currencies (other than US dollars and euro) with the prior authorization of the BCRA.

Domestic currency accounts Yes. Authorized banks may accept funds from foreigners not yet established in Argentina in demand accounts (savings and current accounts) and peso term deposits as well as deposits in peso public and private securities and term investments. In addition, they may open special investment accounts and special current accounts for legal entities, exclusively for the acquisition of public and private securities and BCRA monetary regulation instruments. Appropriate identification is required to prevent money laundering, the financing of terrorism, and other unlawful activities. Accounts opened with temporary documentation require final documentation by the established deadline for further operations. Bank current accounts require a special domicile in Argentina, which is taken into consideration for legal and regulatory purposes associated with the operation of the account, including check-related disputes.

Convertible into foreign currency Yes. In accordance with the foreign exchange regulations, all individuals, legal entities, equity concerns, and other estates may operate freely on the foreign exchange market through authorized institutions, without any distinction by type of operation and/or residence of the customer.

Approval required No.

Blocked accounts No.

Imports and Import Payments

Foreign exchange budget No.

Financing requirements for imports No. Communication A 6244 governs foreign exchange operations by the provisions included in its Annex, replacing all foreign exchange texts that had until that time regulated such operations, and establishing the basis of the Consolidated Text on External Affairs and Foreign Exchange. Under the new regulations, all individuals, legal entities, equity concerns, and other estates may operate freely on the foreign exchange market through authorized institutions, without making any distinction by the type of operation and/or the customer’s residence. In other words, there are no restrictions on the various mechanisms used for import payments, nor is authorization required from the BCRA to make payments.

Minimum financing requirements No.

Advance payment requirements No. Payment for imports of goods is permitted among the various mechanisms provided. Individuals, legal entities, equity concerns, and other estates may...
operate freely on the foreign exchange market through authorized institutions, without any distinction by type of operation and/or residence of the customer.

Advance import deposits  No.

Documentation requirements for release of foreign exchange for imports  No. In foreign exchange matters, no documentation is required to process import payments in the various mechanisms provided. Individuals, legal entities, equity concerns, and other estates may operate freely on the foreign exchange market through authorized institutions, without any distinction by type of operation and/or residence of the customer.

Domiciliation requirements  No.

Preshipment inspection  No.

Letters of credit  No.

Import licenses used as exchange licenses  No.

Other  No.

Import licenses and other nontariff measures  Yes. The Comprehensive Import Monitoring System (Sistema Integral de Monitoreo de Importaciones—SIMI), by Resolution of the Federal Public Revenues Administration (Administración Federal de Ingresos Públicos—AFIP) No. 3823/2015, is intended to facilitate information-sharing and monitoring of the import process from its start through to customs clearance. Resolution No. 523/2017 of the Ministry of Commerce established a system of automatic and non-automatic import licenses. After December 31, 2017, Resolution AFIP No. 3823/2015 was superseded by Joint AFIP and Commerce Department Resolution No. 4185/2018, which redesigned the SIMI system in terms of specific operational factors for importers.

Positive list  No.

Negative list  Yes. Restrictions are in effect for security, hygiene, environmental protection, and public health reasons. The list of prohibited imports is included in the regulations issued by the competent bodies in each case (Health Ministry, AFIP (Administración Federal de Ingresos Públicos—Federal Public Revenue Administration), ANMAT (Administracion Nacional—The National Administration of Drugs, Foods and Medical Devices), Ministry of Agroindustry, SENASA (Servicio Nacional de Sanidad y Calidad Agroalimentaria—National Food Safety and Quality Service), Ministry of the Environment.)

Open general licenses  No. OGLs are not used.

Licenses with quotas  Yes. Trade with Brazil in the automobile sector is subject to an administered trade regime. As well, under bilateral agreements, there are quotas with preferential tariffs for automobile sector products.

Other nontariff measures  Yes. Argentina applies a special regime to sugar imports pending agreement on a common regime for this sector. Imports of used and retreaded tires, some used capital goods, and secondhand clothing are prohibited, except by nonprofit organizations.

Import taxes and/or tariffs  Yes. As a member of MERCOSUR, Argentina applies CET to imports from the rest of the world for almost all products (except automobiles and sugar). The CET rates range from 0% to 35%. The national list of CET exceptions under Decision No. 26/2015 of the Common
Market Council allows Argentina to increase or decrease import duties from outside the zone on up to 100 tariff items, effective until December 31, 2021. By contrast, MERCOSUR Common Market Council (CMC) Decision No. 27/2015 authorizes temporary increases in import duty outside the zone above the CET on 100 tariff items until December 31, 2021. Both texts were incorporated into the Consolidated National Legislation and the current lists are provided in the annexes to Decree No. 847/2018. In addition, Decision No. 26/2015 authorizes member countries to maintain current national regimes for capital goods imports, and to apply a rate other than the common external tariff to information technology and telecommunication goods until December 31, 2021. The lists of capital goods are included in Decree No. 837/2018 and those of computer and telecommunications goods in Decree No. 973/2018.

| Taxes collected through the exchange system | No. |
| State import monopoly | No. |

Payments for Invisible Transactions and Current Transfers

Controls on these transfers
No.

Communication A 6244 governs foreign exchange operations by the provisions included in its Annex, replacing all foreign exchange texts that had until that time regulated such operations, and establishing the basis of the Consolidated Text on External Affairs and Foreign Exchange.

Under the new regulations, all individuals, legal entities, equity concerns, and other estates may operate freely on the foreign exchange market through authorized institutions, without making any distinction by the type of operation and/or the customer’s residence. In other words, payments for goods or services provided by nonresidents, or purchases of nonfinancial nonproduced assets, are not subject to any restrictions, nor is any authorization from the BCRA required to make the payments.

Persons under this requirement are subject to the Disclosure of External Assets and Liabilities, even when no inflows have occurred into the foreign exchange market and/or no access to this market is planned in the future in connection with the operations to be declared. Communication A 6436 is in accordance with Communication A 6401.

  Sale or issue locally by nonresidents  No.

There are no limitations on nonresidents’ purchase of stocks and other securities of a participating nature in the local market.

Under the National Securities Commission (CNV) regulations, foreign and Argentine issuers must meet the same requirements for public offerings of securities in Argentina. Foreign issuers must establish a permanent representative office and a domicile in Argentina to receive notices. Foreign issuers must state whether the securities are also being offered to the public in their country of origin and indicate all initial and periodic reporting requirements applicable to them. If the CNV determines that the regulations in the country of origin properly protect local investors and ensure an adequate flow of information, it may relax the requirements for those issuers. The CNV may authorize foreign issuers on a case-by-case basis to submit only such information as they would periodically submit to the corresponding authority in their jurisdiction of origin. Issuers of securities offered publicly in Argentina and abroad must submit all information required by the entities authorizing the foreign public offering and listing to the CNV in Spanish.

The financial statements at the close of the fiscal year, in all cases, must be presented to include supplementary information to reconcile the effects on net equity and net earnings of accounting mechanisms other than those current in the Republic of Argentina, stating the exchange rate used to convert the items mentioned to Argentine pesos. Where the annual financial information is concerned, and for intermediate periods, publications may be issued without the indicated reconciliation. In such case, it should be clearly stated that the information was prepared in accordance with the current accounting standards in the country of origin, and that they are presented without being reconciled with Argentina’s accounting standards.

Nonresidents are subject to the same conditions as residents with regard to the sale or issue of shares or other equity securities.

Purchase abroad by residents  No.
Sale or issue abroad by residents  No.
Bonds or other debt securities  No.
  Purchase locally by nonresidents  No.
  Sale or issue locally by nonresidents  No.

CNV approval is required for public offerings, including both the issuance and sale of securities (CNV 2013 Consolidated Regulations, Title II, Chapter V, Section I). Issues of commercial paper must have a minimum maturity of seven business days.

In addition to what is described in the previous items in connection with stocks and bonds or other debt securities (as applicable in this case), branches of stock companies established abroad pursuant to Article 118 of Law No. 19.550 may apply to the Commission to be listed in a special register to establish global programs for the issue of debt securities having amortization terms of up to one year, to be offered publicly, exclusively for qualified investors.

The same requirements are applicable to nonresidents as for issuers that are resident in Argentina with respect to the sale or issuance of money market instruments.

Nonresidents are effectively authorized to issue debt instruments denominated both in foreign currency and in pesos, with the same scope and under the same rules to which residents are subject to.

CNV approval is required for public offerings of the following securities, including current issues and previous issues to be offered for sale: (1) negotiable securities (CNV Consolidated Regulations, Title II, Chapter VIII); (2) financial trusts (Title V, Chapter IV); and (3) mutual funds (Title V, Chapters I, II, and III).

Collective investment securities that wish to be issued from outside Argentina must follow the following provisions set out in Chapter
VIII of Title II, Sections I and II of the CNV Regulations. If they wish to be incorporated in the country, they are not subject to conditions different from those required of residents (Title V of the CNV Regulations for Mutual Funds and Financial Trusts).

Derivatives may be traded for hedging, speculation, or arbitrage purposes. In the case of speculation and arbitrage, underlying exposure is not necessary. CNV approval is required for public offerings of derivatives. Reference is made to the provisions of Article 22, Section IX, Chapter V, Title VI of the consolidated text on the CNV Regulations (N.T. 2013), which outlines the characteristics and requirements that a Futures Contract or Futures Options Contract (Standardized Derivatives) must have to be approved by the CNV.

On May 11, 2018, Law No. 27.440 amends the rules governing transactions in derivatives, with a view to providing stronger guarantees to the parties involved. Accordingly, Article 189 requires contracts entered into by national and/or foreign counterparties, other than in the context of trade in markets authorized by the CNV, to be formally registered. The contracts in question shall be enforceable against third parties and shall have a specific date as from the date of their registration. Article 10 bis is also added to the CNV Regulations, to regulate the provisions in question.
investment

Controls on real estate transactions Yes. The rules governing direct investment apply. Direct investment encompasses real estate investments.

Purchase abroad by residents No.

Purchase locally by nonresidents Yes.

Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions Yes.

Borrowing abroad Yes.

Maintenance of accounts abroad No.

Lending to nonresidents (financial or commercial credits) Yes. Only financial intermediaries are permitted to grant credit assistance to residents in the country to finance investment, production, marketing, or consumption of goods and services for domestic consumption or export, or outward foreign direct investment by enterprises resident in the country. Financial assistance will only be granted to residents abroad if this general criterion is met and in certain specific cases (credit facilities to foreign banks, whether or not they are correspondents, for the purpose of facilitating local exports, credits to residents abroad corresponding to lags in the payment of operations involving quoted foreign currencies or securities, inter alia).

Lending locally in foreign exchange Yes. Lending capacity based on foreign exchange deposits and other liabilities through financial intermediation in foreign exchange (with the exception of inward commercial credit facilities) may be applied to the following: (1) prefinancing and financing of exports directly or through principals, trustees, or other brokers; (2) other financing for
exporters expecting future foreign currency income streams and demonstrating, in the year prior to when the financing is granted, invoices reasonably comparable to the amount of financing; (3) financing of investment projects, working capital, or goods that increase the value of or are related to the production of goods to be exported; (4) financing for the producers of goods to be exported, whether as is or as part of other goods, by third-party purchasers, provided they have total assurances or guarantees in foreign currency from those third parties and/or firm sales contracts in foreign currency and/or in exportable goods; (5) financing for providers of goods and/or services that are part of the production process for fungible goods regularly and customarily quoted in foreign currency in domestic or foreign markets and widely disseminated and easily known to the public, provided they have firm sales contracts for those goods and/or services in foreign currency and/or in those goods; (6) commercial financing for commercial portfolio customers that is treated as consumer or housing loans—in accordance with the provisions established in the regulations on “Borrower Classification”—for the purpose of importing capital goods (“BK” in accordance with the MERCOSUR Common Nomenclatures as indicated in Annex I to Decree No. 690/02 and other supplementary provisions) that increase the production of goods intended for the domestic market; (7) loans made from one financial institution to another; (8) foreign currency debt securities or financial trust investment certificates publicly quoted with CNV authorization whose underlying assets are securities acquired by the trust and guaranteed by reciprocal guarantee companies, to finance export transactions; (9) financing of producers, processors, or storage operators, provided they have contracts for the outright sale of the goods to an exporter at a price set or to be set in foreign currency that is customary in local or foreign markets and is widely published and easily accessible to the public; (10) other financing included in the credit program referred to in Inter-American Development Bank (IADB) Loan No. 1192/OC-AR, not to exceed 10% of borrowing capacity; (11) letters and notes of the Central Bank of the Argentine Republic denominated in US dollars; (12) direct investments abroad by companies resident in Argentina, the purpose of which is to develop productive activities in goods and/or nonfinancial services, whether through contributions or through purchases of shares in companies, provided they are established in countries or territories considered cooperative for purposes of fiscal transparency based on the provisions of Article 1 of Decree No. 589/13 and supplementary provisions; (13) financing of investment projects, including working capital, that allow increased production in the energy sector and have firm sales contracts and/or total assurances or guarantees in foreign currency; (14) primary subscription of foreign currency debt instruments of the National Treasury, up to an amount equal to one-third of the applications made; (15) financing of investment projects focusing on cattle ranching, including working capital, not to exceed 5% of the institution’s deposits in foreign exchange; (16) financing of foreign importers for the acquisition of goods and/or services produced in the country, directly or through credit facilities to external banks; (17) financing to residents in the country guaranteed with standby LCs issued by foreign banks or multilateral development banks having investment grade international risk ratings, provided these credit portfolios are unrestricted and that the funds are credited immediately on the simple request of the beneficiary.

For purposes of such financing, whatever the source of the funds, financial institutions must verify that customers have sufficient
payment capacity. To that end, they shall consider at least two scenarios involving significant fluctuations in the exchange rate of different magnitudes within up to one year.

There are currently no limits on bank holdings of securities from a particular issuer.

Own account purchases of all types of securities, when payment is made against delivery of foreign currency or another type of foreign asset that is considered part of the allowable exchange position (Posición General de Cambios—PGC; General Change Position), do not require BCRA approval.

Local financial institutions may use their PGC funds to cover their foreign exchange requirements for the purchase and sale of own holdings and securities, when the following transactions are involved:

For external financing in the form of repurchase arrangements.

For the primary subscription of securities issued by the national government and the CB denominated and paid up in foreign exchange, in accordance with the public sector financing regulations.

For the primary subscription of bonds and other debt securities denominated and paid up in foreign exchange, provided the transaction is also eligible for the application of the lending capacity in connection with local deposits in foreign exchange as provided under the regulations on credit policy.

For operations involving securities that can be registered on the stock exchanges and securities markets in the country.

Banks are permitted to freely determine the level at which they use their PGCs.

Differential treatment of deposit accounts in foreign exchange

Yes.

 Reserve requirements

Yes.

Saving deposits including social security and special services deposits and pension deposits in pesos are subject to a minimum reserve requirement of effective February 1, 2019, 45% (previously 20%) or effective January 1, 2019, 20% (previously 18%) (based on the category of financial institution), or 25% for such deposits denominated in foreign currency, respectively.

Fixed-term deposits are subject to a reserve requirement that differs for pesos and foreign currencies (and depends on the type of institution) and decreases with increase in the term of deposit.

For fixed deposits with maturity up to 29 days: The minimum reserve requirement is 35% or 14% for peso deposits depending on the type of institutions and 23% for foreign currency deposits.

For fixed deposits with maturity from 30 to 59 days: The minimum reserve requirement is 25% or 10% for peso deposits depending on the type of institutions and 17% for foreign currency deposits.

For fixed deposits with maturity from 60 to 89 days: The minimum reserve requirement is 7% or 5% for peso deposits depending on the type of institutions and 11% for foreign currency deposits.

For fixed deposits with maturity 90 days or more: The minimum reserve requirement is 0% for peso deposits.

For fixed deposits with maturity from 90 to 179 days: The minimum reserve requirement is 5% for foreign currency deposits.

For fixed deposits with maturity from 180 to 365 days: The minimum reserve requirement is 5% for foreign currency deposits.

For fixed deposits with maturity more than 365 days: The minimum reserve requirement is 0% for foreign currency deposits.

 Liquid asset requirements

No.

 Interest rate controls

No.
Credit controls: No.

Differential treatment of deposit accounts held by nonresidents: No.

Reserve requirements: No.

Liquid asset requirements: No.

Interest rate controls: No.

Credit controls: No.

Investment regulations: Yes.

Abroad by banks: Yes. Transactions are prohibited by general policies on lending.

In banks by nonresidents: No.

Open foreign exchange position limits: Yes.

The overall net foreign exchange position comprises total assets and liabilities from financial intermediation in foreign currencies and foreign currency securities (spot and forward transactions), including gold coins and good delivery gold bars; foreign currency banknotes; demand deposits in banks abroad; derivatives contracts related to these items; deposits in the currency held in accounts at the BCRA; and BCRA notes in US dollars. Also included are forward operations entered into under framework agreements within authorized markets in Argentina in which settlement is by netting, without physical delivery of the underlying asset. The position in currencies other than US dollars is expressed in the currency in question by applying the exchange rate published by the BCRA. Assets deductible for purposes of determining regulatory net worth (Responsabilidad Patrimonial Computable—RPC—Computable Asset Liability) and items recorded by financial institutions in their branches are not included.

Effective June 18, 2018, the positive net overall foreign exchange position may not exceed 5% of the RPC or liquid own resources, whichever is smaller but may reach up to 30% of the RPC depending if the bank includes (under certain conditions) National Treasury Notes (letras del Tesoro Nacional) denominated in US dollars (Points 6 and 7 of Communication “A” 6526). Previously, effective May 7, 2018, the positive net overall foreign exchange position could not exceed 10% (lowered from 30%) of the RPC or liquid own resources (Communication “A” 6501). Effective May 7, 2018, the positive overall net foreign exchange position must be measured on a daily basis instead of as the monthly average of daily balances. The negative net overall position in foreign exchange, expressed as a monthly average of the daily balances, should not exceed 30% of the financial institution’s RPC for the previous month. Overruns are subject to a charge equivalent to 1.5 times the accrued annual nominal interest rate resulting from auctions of BCRA instruments in Argentine pesos.

ADs may freely determine the level and use of their PGC (Posición General de Cambios). PGCs include all of the institution’s liquid external assets, net of debit balances of correspondents deriving from foreign exchange market transactions. It also includes buying and selling arranged on the foreign exchange market and pending settlement. The following, inter alia, are considered institutions’ liquid external assets: banknotes and coins in foreign exchange, good delivery holdings in monetary gold or gold bars, correspondents’ credit balances (including transfers to third parties without arranged settlement).
other demand deposits with foreign financial institutions, investments in external public securities, and time certificates of deposit. PGCs do not include foreign direct investment, third-party external assets under custodianship, forward buying and selling of foreign exchange or foreign assets, deposits with the BCRA in foreign exchange in accounts in the name of the institution, and other local assets in foreign exchange.

### Limits (max.) on securities issued by nonresidents

All investments and funds of insurance companies must be located in Argentina. For this purpose, local investments are defined as those issued and transacted domestically as detailed in Item 35.5 of the General Insurance Regulations implementing Law No. 20.091, for each particular instrument. The Superintendency of Insurance may grant its authorization for the maintenance of an operating account abroad for the sole purpose of expediting business operations. This account may not hold more than the minimum amount required for operational purposes, nor may it be operated to make any form of profit. Specialist reinsurers and branches of foreign reinsurance companies established in Argentina may hold investments and funds abroad not exceeding 50% of the capital to be credited. For purposes of meeting the institutions’ operational commitments, the special report of the acting auditor must verify the existence of available funds in the foreign bank accounts that can be used to make the payment requested.

### Limits (max.) on investment portfolio held abroad

All investments and funds of insurance companies must be located in Argentina. For this purpose, local investments are defined as those issued and transacted domestically as detailed in Item 35.5 of the General Insurance Regulations implementing Law No. 20.091, for each particular instrument. The Superintendency of Insurance may grant its authorization for the maintenance of an operating account abroad for the sole purpose of expediting business operations. This account may not hold more than the minimum amount required for operational purposes, nor may it be operated to make any form of profit. Specialist reinsurers and branches of foreign reinsurance companies established in Argentina may hold investments and funds abroad not exceeding 50% of the capital to be credited.

### Limits (min.) on investment portfolio held locally

The minimum for reinsurance companies is determined by the parameters in the previous Item.

### Currency-matching regulations on assets/liabilities composition

The nature of the liabilities and the currency in which they were assumed: insurers and reinsurers must maintain the investments portfolio based on the currency of the commitments assumed.

### Pension funds

There is a single public pension regime, the Argentine Integrated Pension System (“SIPA”), established by Law No. 26.425 of December 4, 2008. Law No. 27.260, Article 30 supersedes Article 74 of Law No. 24.241. Authorized investments of the Sustainability Guarantee Fund (Fondo de Garantía de Sustentabilidad—referred to either as the “FGS” or as the “Fund”):
Article 74 of Law No. 24.241 as amended shall be superseded with the following text:

Article 74: The assets of the Sustainability Guarantee Fund (FGS) of the Argentine Integrated Pension System (SIPA) shall be invested according to the criteria of adequate returns and security in compliance with the limits established under this law and the regulatory texts. The FGS may invest in:

(a) Public credit operations as a result of which Argentina becomes a debtor via the Treasury Secretariat of the Ministry of the Treasury and Public Finance are permitted, whether they involve public securities, treasury bills, or loans, up to 50% of the Fund’s total assets. This may be raised to 100% net of the ceilings, provided in this Article, as long as the surplus funds involve either resources intended specifically to enable their fulfillment of collateral or guarantees granted by international organizations or entities of which Argentina is a member. Holdings of securities representing Argentina’s public debt that were received in swaps by retirement and pension fund administrators in the context of the restructuring of public debt under the terms of Article 65 of Law No. 24.156 as amended and Article 62 of Law No. 25.827 as amended are excluded from the ceiling established in this paragraph, independently of their not having the guarantees indicated therein.

(b) Securities issued by provinces, the Autonomous City of Buenos Aires, municipalities, the BCRA, other autonomous national and municipal government bodies, and national, provincial, and municipal government-owned companies are permitted up to 30% of the Fund’s total assets.

(c) Corporate bonds, debentures, and other debt securities issued by domestic stock companies, financial institutions, cooperatives and civil associations, and branches of foreign companies, if authorized for public offering by the CNV, are authorized up to 40% of the Fund’s total assets.

(d) Fixed-term deposits with financial institutions governed by Law 21.526 as amended, up to 30% of the Fund’s total assets;

(e) Shares and/or negotiable bonds that can be converted to shares in domestic quasi-governmental or private stock companies, if authorized for public listing by the CNV and that are listed in markets authorized by the CNV, the purpose of which is to organize operations with negotiable securities that are offered publicly, for a minimum of 7% and up to a maximum of 50% of the Fund’s total assets. Operations in shares include futures and options on these securities, subject to the limits stipulated in the regulations. Transfers and/or any other act or action that limits, alters, eliminates, or changes the purpose, interest, ownership, or nature of the assets indicated in this paragraph are prohibited, provided the result is Fund holdings lower than established in the first paragraph of the present section, without the express prior authorization of the National Congress, with the following exceptions:

1. START Tender offers directed to all those holding such assets at a fair price authorized by the CNV, under the terms of Chapters II, III, and IV of Title III of Law No. 26.831.
2. Swaps of shares for other shares in the same or another corporation within the context of corporate mergers, splits, or reorganizations.

(f) Shares of government-held corporations and stock companies with majority government participation up to 20% of the Fund’s total shares;

(g) Shares of open or closed capital mutual funds authorized by the CNV for up to 20% of the Fund’s total assets;
(h) Contracts traded on futures and options markets as determined by the Executive Committee of the Argentine Integrated Pension System Sustainability Guarantee Fund (FGS), up to 10% of the Fund’s total assets;

(i) Mortgage-backed securities, mortgage-covered bonds, and other securities secured by a mortgage or those whose service is guaranteed through holdings in mortgage loans and authorized for public offering by the CNV, up to 25% of the Fund’s total assets;

(j) Securities representing participation shares in direct investment funds of a fiduciary and singular nature, whose public offering is authorized by the CNV, up to 10% of the Fund’s total assets;

(k) Securities issued by financial trusts not included in Paragraphs (9) or (j), up to 30% of the Fund’s total assets;

(l) Debt securities, certificates of participation, shares, assets, or other securities and loans intended to finance medium- and long-term production, real estate, or infrastructure projects in Argentina are authorized. A minimum of 5% and a maximum of 50% of the Fund’s total assets should be allocated to these investments;

(m) Financing to recipients of the SIPA up to 20% of the Fund’s total assets, subject to the terms and conditions established by the National Social Security Administration (Administración Nacional de la Seguridad Social—ANSES).

Prohibitions:
Law 27.260, Article 31: — Article 75 of Law No. 24.241 as amended shall be superseded with the following text:

Article 75: Assets of the Sustainability Guarantee Fund of the Argentine Integrated Pension System (FGS) may not be invested in shares of investment fund management companies, whether mutual or direct funds, trusts, or special funds, nor may they invest in shares in risk rating companies.

Limits:
Law 27.260, Article 32: — Article 76 of Law No. 24.241 as amended shall be superseded with the following text:

Article 76:
Law 27.260, Article 32: — Article 75 of Law No. 24.241 as amended shall be superseded with the following text:

The investments of the Argentine Integrated Pension System Sustainability Guarantee Fund (FGS) will be subject to the following limits:

(a) Risk rating. The following assets or institutions must have a rating granted by a duly authorized risk rating agency:
1. The assets in Paragraph (b) of Article 74, except for securities issued by the Central Bank of the Republic of Argentina.
2. The assets in Paragraphs (c), (i), and (k) of Article 74.
3. Financial institutions in which the investments indicated in Paragraph (d) of Article 74 are made or that maintain assets indicated in Article 77.
4. Negotiable bonds that can be converted to shares as provided in Paragraph (e) of Article 74.
5. The assets in Paragraph (g) of Article 74, when the purpose of the mutual investment fund involved is primarily to invest in.

(b) Other investments. The Executive Committee of the Argentine Integrated Pension System Sustainability Guarantee Fund (FGS) may establish additional minimum requirements that must be met by each of the investments indicated in Article 74 to be subject to investment by the Argentine Integrated Pension System Sustainability Guarantee Fund (FGS).

(c) Guarantees. When the Argentine Integrated Pension System Sustainability Guarantee Fund (FGS) engages in securitized operations with its assets or financial operations that require that its
| Limits (max.) on securities issued by nonresidents | Yes. | The Fund’s resources must be invested in Argentine financial assets, including, among others, Argentine interest-bearing accounts and the purchase of government securities or local securities recognized as solvent. |

The Fund’s resources must be invested in Argentine financial assets, including, among others, Argentine interest-bearing accounts and the purchase of government securities or local securities recognized as solvent. |
| Investment firms and collective investment funds | Yes. | There is a 25% limit on mutual fund portfolio investments in securities issued by nonresidents. Exceptions to this limit include negotiable securities issued pursuant to authorization in a MERCOSUR member country or Chile. |
| Limits (max.) on securities issued by nonresidents | Yes. | There is a 25% limit on mutual fund portfolio investments in securities issued abroad. Exceptions to this limit include negotiable securities issued pursuant to authorization in a MERCOSUR member country or Chile. |
| Limits (min.) on investment portfolio held locally | Yes. | Mutual funds must invest a minimum of 75% in assets issued and negotiated in Argentina. Assets issued in Argentina are defined as negotiable securities authorized to be issued in a MERCOSUR member country and in the Republic of Chile. |
| Currency-matching regulations on assets/liabilities composition | No. | This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx. |

Changes during 2018 and 2019

Exchange Arrangement

Classification

Floating

10/01/2018 The Central Bank of Argentina adopted a new monetary-exchange scheme and defined Zones of intervention and non-intervention, within which the peso could float freely. The non-intervention zone limits were defined at $34 and $44 per dollar, adjusted daily at a rate of 3% per month until the end of 2018. The de facto exchange rate arrangement was reclassified to other managed from floating.

04/16/2019 It was decided that the adjustment to the intervention and non-intervention zone would be 0% for the rest of the year (keeping the lower and upper limits constant at 39.755 and 51.448 pesos per dollar, respectively).

04/29/2019 It was established that, because of the increase in exchange volatility, discretionary interventions could be made within what would become known as the Reference Zone (between 39.755 and 51.448 pesos per dollar) and that, if the exchange rate were above the upper limit, a total of US$250 million could be sold, maintaining the possibility of increasing this amount if deemed necessary. Additionally, the Central Bank of Argentina decided that it would not buy foreign exchange if the exchange rate breached the lower limit of the Reference Zone.
Monetary policy framework

Monetary aggregate target 10/01/2018 The inflation-targeting framework was replaced with a monetary aggregate target framework.

Inflation-targeting framework

Inflation target

Target number

Point target 06/07/2018 Under the Stand-by Agreement with the IMF, the inflation targets were changed to 17% in 2019; 13% in 2020; 9% in 2021; and 5% in 2022.

Operating target (policy rate)

Policy rate 07/10/2018 The composition of the Monetary Policy Committee was amended to include the Central Bank of Argentina President, Vice President, a director appointed by the Board of Directors, and the Assistant General Manager for Economic Research. It was also established that the decision on the monetary policy rate would be reported one Tuesday every month at 5:00 p.m. in the Monetary Policy Bulletin. Previously, two meetings were held every month.

Target corridor band

08/07/2018 The Liquidity Bill Rate (LELIQ), equivalent to the 7-day reverse repurchase rate, was adopted as the policy rate.

Arrangements for Payments and Receipts

Controls on trade in gold (coins and/or bullion)

On external trade

01/19/2018 Communication “A” 6436 eliminated the final paragraph of Point 3.7. of Communication “A” 6244, which had required prior Central Bank of Argentina approval for transactions of this type.

Controls on exports and imports of banknotes

On exports

Foreign currency

01/19/2018 Communication “A” 6436 eliminated the final paragraph of Point 3.7. of Communication “A” 6244, which had required prior Central Bank of Argentina approval for exports of foreign banknotes and coins.

Exports and Export Proceeds

Export taxes

Other export taxes 09/03/2018 Decree No. 793/2018 established the application of an export duty to all Common Nomenclature of Mercosur goods until December 12, 2020. The duty to apply is 12% up to a maximum of 4 pesos on each dollar of the taxable value including the amount resulting from the application of the tax rate stipulated therein, or the official f.o.b. price, as applicable. Likewise, if the goods are included in Annex 1 of the aforementioned Decree, the maximum limit to be applied is 3 pesos on each dollar of the taxable value. Previously, export duty was applied to 0.82% of the customs universe.
Decree No. 1201/2018 applies an export duty to the provision of services covered by Article 10(2)(c) of Law No. 22.415 (Customs Code) until December 31, 2020. The duty to apply is 12% up to a maximum of 4 pesos on each dollar of the taxable value.

Provisions Specific to the Financial Sector

**Provisions specific to commercial banks and other credit institutions**

- **Differential treatment of deposit accounts in foreign exchange**

  - **Reserve requirements**
    - **01/01/2019** Saving deposits including social security and special services deposits and pension deposits in pesos at certain financial institutions are subject to a minimum reserve requirement of 20% (previously 18%).
    - **02/01/2019** Saving deposits including social security and special services deposits and pension deposits in pesos at certain financial institutions are subject to a minimum reserve requirement of 45% (previously 20%).

- **Open foreign exchange position limits**

  - **05/07/2018** The positive net overall foreign exchange position could not exceed 10% (lowered from 30%) of the Responsabilidad Patrimonial Computable or liquid own resources (Communication “A” 6501).
  - **05/07/2018** The positive overall net foreign exchange position must be measured on a daily basis instead of as the monthly average of daily balances.
  - **06/18/2018** The positive net overall foreign exchange position may not exceed 5% of the Responsabilidad Patrimonial Computable or liquid own resources, whichever is smaller but may reach up to 30% of the RPC depending if the bank includes (under certain conditions) National Treasury Notes ((letras del Tesoro Nacional) denominated in US dollars (Points 6 and 7 of Communication “A” 6526).
ARMENIA

(Position as of June 30, 2019)

Status under IMF Articles of Agreement

Date of membership

Article VIII
Yes. Date of acceptance: May 29, 1997.

Article XIV

Exchange Measures

Restrictions and/or multiple currency practices
Yes. The IMF staff Report for the 2017 Article IV Consultation and Fifth and Final Review under the Extended Arrangement with Armenia states that as of June 8, 2017, Armenia maintained one MCP, which arises from a 2007 agreement between the MOF and CBA to settle some budgetary transactions at an agreed accounting ER throughout the fiscal year. Armenia maintains no other MCPs or exchange restrictions on the making of payments and transfers for current international transactions except for exchange restrictions maintained for security reasons and notified to the IMF pursuant to Executive Board Decision No. 144-(52/51). (Country Report No. 17/226)

Exchange measures imposed for security reasons
Yes. Under Article 28 of the AML/CFT Law, reporting entities and customs authorities are required to freeze the assets of persons designated under respective UNSC Resolutions or under lists established by the CBA. It is prohibited to make any property, economic resources or financial or other related services available, directly or indirectly, wholly or jointly, to or for the benefit of terrorism-related or proliferation-related persons. Further specificities on applicable restrictions are provided under Guidance on Freezing of Property of Persons and Entities Related to Terrorism or Proliferation of Weapons of Mass Destruction, Providing Access to Frozen Property and Related Actions approved by the Decision of the Chairman of the CBA No. 1/435 – A of June 26, 2018. Decision of the Chairman of the CBA No. 1/434 – A of June 26, 2018, approved the Rules for Proposing Persons or Entities for Designation under the Lists published by or in accordance with the UNSC Resolutions and for Designating Persons or Entities under the Lists published by the CBA.

In accordance with IMF Executive Board Decision No. 144-(52/51)
Yes. Financial transactions are restricted and accounts are frozen if they involve persons or entities designated under the lists of persons and entities related to terrorism pursuant to (1) the relevant UNSC Resolutions and (2) the list of persons and entities designated by the CBA, as stipulated under the Decision of the Chairman of the CBA No. 1/434 – A of June 26, 2018.

Other security restrictions
No. There are no other security restrictions.

References to legal instruments and hyperlinks
This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exchange Arrangement

Currency
Yes. The currency of Armenia is the Armenian dram.

Other legal tender
No.

Exchange rate structure
The exchange rate is classified as dual because of the agreement between the MOF and CBA to settle some budgetary transactions at an agreed accounting exchange rate throughout the fiscal year.

The de jure exchange rate arrangement is free floating. The CBA intervenes in the foreign exchange market only to smooth excessive exchange rate volatility, defined as short-term, high-frequency exchange rate movements caused by speculative or trend-following elements rather than underlying macroeconomic fundamentals. The CBA intervenes anonymously mainly via auctions of foreign exchange, or openly in the interbank market, or through the stock exchange. The CBA publishes weekly intervention data through the stock exchange only on its website every Monday and publishes daily foreign exchange auction results on the local interbank platform.

Because the exchange rate has stabilized within a 2% band against the US dollar since January 2017, de facto exchange arrangement was reclassified retroactively to stabilized from floating, effective January 2, 2017. The de facto methodology for classification of exchange rate regimes is based on a backward-looking statistical approach that relies on past exchange rate movement and historical data. Therefore, this reclassification does not imply statements or views on future or intended policies nor does it imply a policy commitment on the part of the country authorities.

Every day the CB publishes official exchange rates. The official exchange rate against the US dollar is set as the weighted average of the buying and selling rates in the foreign exchange market. For other currencies, except for the SDRs of IMF, the official average exchange rates of Armenian dram are set as cross-rates using US dollar’s official exchange rate against corresponding currencies and official exchange rate of Armenian dram against US dollar published by the CBA. The official exchange rate is used for accounting purposes and for Treasury operations connected with external debt service or to create new external obligations. All economic agents use the official exchange rate for bookkeeping and revaluation purposes.
Exchange rate anchor

- U.S. dollar

- Composite
- Other

Monetary aggregate target

Inflation-targeting framework | Yes. | Since 2006, the CBA has been implementing inflation-targeting framework.

Target setting body | Yes.

Government | Yes. | The Republic of Armenia Law on Budgetary system states that inflation target is jointly set by the Government and the CBA. The inflation target is published in the Inflation Report every quarter, in the Medium-term Expenditure Program and in the State Budget Law.

Central Bank

- Monetary Policy Committee
- Central Bank Board
- Other

Government and Central Bank

Inflation target | Yes.

Target number | Yes.

Point target

Target with tolerance band | Yes. | The consumer price index inflation target is 4% with a ±1.5% tolerance band.

Band/Range

Target measure | Yes.

CPI | Yes. | The headline consumer price index is used as a target measure, which is calculated and published by the Statistical Committee of the Republic of Armenia. Effective April 9, 2018, the inflation target is expressed in terms of 12-monthly inflation three years (12 quarters) ahead (previously, end-year (12-month) inflation).

Core inflation

Target horizon | Yes. | Effective April 9, 2018, the targeted inflation-forecast horizon changed to 12 quarters from one year pursuant to amendments of December 13, 2017, to the Republic of Armenia Law on Budgetary System. The CBA makes decisions regarding its monetary policy to meet the inflation target in the upcoming 12 quarters.

Operating target (policy rate) | Yes. | The policy rate of the CBA is the refinancing rate, which is the lower bound for 7-day repo agreement auctions by the CBA. As of May 1, 2019, the policy rate was 5.75%. The operational target of the CBA under the inflation-targeting regime is the short-term (1–7 days)
The target corridor band was 4.25%–7.25%, as of May 1, 2019. The 4.25% is the current rate for Deposit facility and 7.25% is the current rate for Lombard Repo agreement. The short-term target of CBA in IT framework is that short-term interest rates to be close to policy rate and not the target corridor band. The band is set only to limit excessive volatilities of interest rate in tail events.

Effective January 1, 2018, pursuant to amendments of December 13, 2017, on the Law on the Central Bank (through Law of Armenia 313-N), every year but no later than May 1, the CBA must present to the Parliamentary hearings the yearly statement of the CBA’s activity, which includes the report about the monetary policy program of first quarter of the current year and the report about implementation of monetary policy during the previous year. Previously, the following documents had to be presented once a year: Monetary Policy Program for current year, Report on Inflation for previous year, and the CBA Annual Report.

The CBA publishes the press release on the CBA Interest Rates that contains a brief summary of discussions at the CBA Board meeting covering interest rates and the refinancing rate (repo interest rate) eight times a year. The Summary Minutes of the CBA Board Meeting on CBA Interest Rates, which are published within the next nine working days, contain the following information: The main trends of economic development, inflation, and financial markets; a summary of discussions held at the CBA Board meeting relative to the setting of CBA interest rates; a decision on the interest rates of the monetary policy instruments.

CBA publishes quarterly inflation reports, where it monitors the actual quarterly inflation in comparison with the projected one, explains the main underlying factors of any possible deviations, and discusses policy implications of bringing the inflation back to its projected path.

Foreign exchange transactions take place in the interbank, intrabank, and stock exchange markets. The CBA participates mostly in the interbank market via quick tender; it may also participate in the stock exchange market. Commercial banks, foreign exchange dealers, and credit institutions may freely set the exchange rate (as well as any commissions) in transactions with their clients.
and foreign exchange bureaus or, in the case of the government, through the CBA, which acts as the government’s financial agent. As of December 31, 2018, 17 commercial banks, 11 investment companies, 3 investment fund managers, 39 credit institutions, 7 insurance companies, 3 insurance brokers, 8 pension funds, and 213 foreign exchange bureaus were licensed by the CBA and were in operation. Foreign exchange entities carry out foreign exchange transactions by freely setting their own buying and selling rates for major currencies against the dram. The CBA intervenes in the stock exchange only as a common market participant. The operations of foreign exchange bureaus are limited: they are authorized to purchase and sell foreign currency banknotes at freely determined rates only with individuals. They may not make foreign currency payments and transfers on behalf of their clients. Foreign exchange bureaus may have accounts abroad.

The CBA conducts foreign exchange transactions in the interbank market via quick tender, announcing either the bid-ask rate or volume. The underlying regulation is The CBA Monetary Policy Indirect Instruments and Application Mechanisms—approved by CBA Board Decree No. 7A of January 24, 2014. A master agreement between the CBA and commercial banks governs sales and purchases of foreign exchange, currency swaps, and currency cash and noncash conversions. The auction has the following characteristics: (1) preannouncement of either the exchange rate or volume; (2) no predetermined frequency; (3) penalty of 0.5% of the transaction in drams for banks that default on a foreign exchange transaction; (4) no requirement to finance-specific international transactions with the foreign exchange proceeds (retail auction); (5) purchases and sales conducted with commercial banks that participate in the master agreement; and (6) foreign exchange auction results published on the local interbank platform.

Interbank foreign exchange transactions take place both on the stock exchange and over the counter. All 17 banks licensed by the CBA (as of May 1, 2019) may freely participate in the interbank market both over the counter and on the stock exchange. There are no limits on bid-ask spreads and commissions for market participants, and there are no market makers in the foreign exchange market. As of May 1, 2019, nine banks were participating in the interbank market. The CBA does not intervene directly with market participants at their quoted rates. The CBA participates mostly in the interbank market via quick tender: announcing either fixed or variable tender. It may also participate in the stock exchange market.

The foreign exchange market operates both on the stock exchange and over the counter.
## Forward exchange market

Residents and nonresidents may freely negotiate forward exchange contracts for both commercial and financial transactions in all leading convertible currencies in the domestic exchange market and in major international foreign exchange markets. However, the forward exchange market in Armenia remains undeveloped, although some banks sign forward contracts for small amounts. For monetary policy purposes, the CBA may enter into foreign exchange swaps.

## Arrangements for Payments and Receipts

### Prescription of currency requirements

Under the Law on Payment and Settlement Systems and Payment and Settlement Organizations, payment organizations may transfer money in drams and foreign currencies. For transfers in a currency other than the currency of payment, the payable amount may be converted at the rate of the international payment system or at the payment organization’s internal rate.

### Controls on the use of domestic currency

- **For current transactions and payments**: No.
- **For capital transactions**: No.
- Transactions in capital and money market instruments: No.
- Transactions in derivatives and other instruments: No.
- Credit operations: No.

### Use of foreign exchange among residents

Under the Law on Currency Regulation and Currency Control, prices of and payments (between residents of Armenia) for goods, services, wages, consumer credits, and interest to be paid on financial operations and investments in statutory and share capital of legal entities are quoted and made in drams only; winnings are also advertised and paid in drams. However, the following may be denominated and transacted in foreign currency: (1) charity, donation, and inheritance operations between residents; (2) noncash payments for balance of payments non-trade-related transactions; (3) noncash payments for balance of payments current and capital account transactions—between legal entities, private entrepreneurs, and legal entities and private entrepreneurs; and (4) noncommercial current account operations and payments between residents and nonresidents, except for salary payments. Nonresident individuals and residents may not use foreign exchange as a means of payment in Armenia.

### Payments arrangements

- **Bilateral payments arrangements**: Yes.
- **Operative**: No.
- **Inoperative**: Yes. Armenia has bilateral payments agreements with Russia and Turkmenistan, which are inoperative.
- **Regional arrangements**: Yes. Armenia is a signatory of the 1993 Treaty of Economic Union (with Azerbaijan, Belarus, Kazakhstan, Kyrgyz Republic, Moldova, Russia, Tajikistan, Uzbekistan), which includes eventual...
Establishment of a customs and payments union and cooperation on investment, industrial development, and customs procedures. Armenia also signed the Agreement on the Establishment of a Payments Union of CIS Member Countries and belongs to the Black Sea Economic Cooperation pact, together with Albania, Azerbaijan, Bulgaria, Georgia, Greece, Moldova, Romania, Russia, Turkey, and Ukraine. Bilateral free trade agreements were signed with Georgia, the Kyrgyz Republic, Kazakhstan, Moldova, Russia, Tajikistan, Turkmenistan, and Ukraine, but only the agreement with Russia is operational. Armenia is a member of the Eurasian Economic Union (EEU) with Belarus, Kazakhstan, and Russia. The CBA participates in the payment system of the Interstate Bank, which handles settlements among CBs of member countries.

**Administration of control**

Yes.

The CBA is the main entity that formulates and administers exchange rate policy and issues foreign exchange regulations within Armenia. The CBA also has the overall responsibility for currency control, in close collaboration with the MOF. The CBA is responsible for supervision and control over the entities it licenses, including banks, foreign exchange dealers, credit institutions, foreign exchange bureaus, and other financial entities. The MOF is responsible for supervision and control over the activities of other agents.

There are no private arrears owing to regulations or other government actions.

**Controls on trade in gold (coins and/or bullion)**

Yes.

There are no restrictions on domestic ownership of gold. Export and import activities with gold to and from countries other than members of the EEU are allowed under a license granted by the Ministry of Economy. Residents may purchase, hold, and sell gold coins for numismatic purposes. Only the monetary authorities may acquire or hold gold domestically or abroad in any form other than numismatic coins and jewelry.

**On external trade**

Yes.

Pursuant to Republic of Armenia Government Resolution No. 83-N, exports to and imports from countries other than members of the EEU are allowed under a license granted by the Ministry of Economy.

**Controls on exports and imports of banknotes**

No.

Within the Customs Union, individuals may move unlimited cash and/or monetary instruments without declaration. A declaration is required in the case of imports from third countries (countries that are not Customs Union members) or exports to third countries of cash and/or traveler’s checks exceeding the equivalent of US$10,000 and of monetary instruments denominated in domestic and foreign currency (for example, bills of exchange, bank checks, certified bearer securities) (CBA Resolution No. 106-N of April 29, 2014).

**On exports**

No.

There are no restrictions on the amount of cash in domestic or foreign currency that may be exported by individuals. Exports by individuals of cash and/or traveler’s checks in excess of the equivalent of US$10,000 must be declared to customs authorities.

**Domestic currency**

No.

There are no restrictions on the amount of cash in domestic currency that may be exported by individuals. Exports by individuals of cash and/or traveler’s checks in excess of the equivalent of US$10,000...
Foreign currency must be declared to customs authorities. There are no restrictions on the amount of cash in foreign currency that may be exported by individuals. Exports by individuals of cash and/or traveler’s checks in excess of the equivalent of US$10,000 must be declared to customs authorities.

On imports No. Imports of securities and cash in both drams and foreign exchange, up to the equivalent of US$10,000, are allowed without restriction. Imports of currency and securities exceeding that amount must be reported to customs authorities.

Domestic currency No. Imports of securities and cash in domestic currency up to the equivalent of US$10,000 are allowed without restriction. Imports of currency and securities exceeding that amount must be reported to customs authorities.

Foreign currency No. Imports of securities and cash in foreign currency up to the equivalent of US$10,000 are allowed without restriction. Imports of currency and securities exceeding that amount must be reported to customs authorities.

Imports and Import Payments:

- Foreign exchange budget: No.
- Financing requirements for imports: No.
- Minimum financing requirements: No.
- Advance payment requirements: No.
- Advance import deposits: No.
- Documentation requirements for release of foreign exchange for imports: No.
- Domiciliation requirements: No.
- Preshipment inspection: No.
- Letters of credit: No.
- Import licenses used as exchange licenses: No.
- Other: No.
- Import licenses and other nontariff measures: Yes.
  - Positive list: No.
  - Negative list: Yes. Import license from the Ministry of Economy (Licensing Agency) is required for imports of white sugar (EEU Foreign Economic Activity Commodity Nomenclature 1701 99 100 1 and 1701 99 100 9) from third (non-EEU) countries. Import licenses from the Ministry of Agriculture and Ministry of Health are required and are granted on a case-by-case basis for imports of drugs and other pharmaceuticals and pesticides. Imports of weapons, military equipment and parts, and explosives require government authorization. An MOF license is required for importation of firework materials and natural and artificial diamonds unless they are mounted and set. A license from an authorized government agency is required for importation, exportation, and transport of strategic goods.
- Open general licenses: No.
- Licenses with quotas: No.
- Other nontariff measures: No.
- Import taxes and/or tariffs: Yes. Armenia is a member of the EEU with Belarus, Kazakhstan, Kyrgyz Republic, and Russia. There are no customs procedures within EEU member countries. Products imported from CIS countries are exempt from import tariffs. Imports from third countries are subject to import tariffs in accordance with the EEU Decree No. 54 of July 16, 2012. However, Armenia applies the tariffs that were used prior to joining the EEU on imports for more than 800 products based on the agreed schedule. Meanwhile, according to the Membership Agreement,
Armenia secured customs duty preferences for imports to Armenia for a list of products.

Differential treatment of deposit accounts in foreign exchange

Yes.

Reserve requirements

Yes.

The minimum reserve requirement is 2% for funds attracted in drams under the CBA Resolution No. 299-N of December 24, 2013. Effective June 8, 2019, under the CBA Resolution No. 75-N of June 7, 2019, the minimum reserve requirement for foreign currency funds is 18%, 16% of which is held in Armenian drams and the other 2% for funds attracted in EUR is held in euros, for funds attracted in USD and other foreign currencies is held in USD. (Previously, under the CBA Resolution No. 146-N of September 20, 2016, the minimum reserve requirement was 18% for foreign currency funds, which is fully held in drams.) The reserve requirement for residents’ and nonresidents’ deposits is not remunerated. If the funds come from bonds issued by the bank, meet certain requirements, and have a contractual maturity of at least two years, the minimum reserve requirement is 0% for funds in drams and 0% or 4.5% of funds in foreign currency (CBA Resolution No. 44-N, February 24, 2015). If the funds come from bonds issued by the bank, meet certain requirements, and have a contractual maturity of at least four years, the minimum reserve requirement is 0% for funds in drams and 0%, 2.25%, or 4.5% of funds in foreign currency (CBA Resolution No. 236-N of November 10, 2015). If the funds are attracted from certain international financial institutions and the period prior to repayment of attracted resource is not less than two years, the minimum reserve requirement is 0% for funds in drams and 4.5% for funds in foreign currency (CBA Resolution No. 44-N, February 24, 2015). If the funds are attracted from certain international financial institutions and the period prior to repayment of attracted resource is not less than four years, the reserve requirement is 0% for funds in drams and 2.25% for funds in foreign currency (CBA Resolution No. 236-N of November 10, 2015).

Liquid asset requirements

Yes.

CBA Resolution No. 168-N of June 26, 2012, specifies the foreign exchange liquidity ratio requirements. For the total liquidity ratio of highly liquid assets to total assets, the floor is 4% for assets in one of the following: SDRs, US dollars, euros, pounds sterling, Japanese yen, Swiss francs, Canadian dollars, Swedish kronor, Danish kroner, Australian dollars, and monetary gold. If liabilities in another currency exceed 5% of total liabilities on a monthly basis, a special general liquidity ratio applies, which includes assets in that particular currency and US dollars and euros. The floor of the special ratio is 4%. For the current liquidity ratio of highly liquid assets to demand liabilities, the floor is 10% for assets and liabilities in one of the following: SDRs, US dollars, euros, pounds sterling, Japanese yen, Swiss francs, Canadian dollars, Swedish kronor, Danish kroner, Australian dollars, and monetary gold. If liabilities in another currency exceed 5% of total liabilities on a monthly basis, a special current liquidity ratio applies, which includes assets and liabilities in that particular currency and US dollars and euros. The floor of the special ratio is 10%. The total liquidity ratio and current liquidity ratio are 15% and 60%, respectively, for all currencies; no special liquidity ratio is required for domestic currency.

<tr>
<td><strong>Under Article 18 of the Law on Banks and Banking, significant ownership in banks by residents or nonresidents must be approved by the CBA. Under Article 9 of this law and other laws regulating banking activity, significant participation in a legal entity means (1) ownership of 10% or more of voting stocks (shares) of the legal entity; or (2) ownership of less than 10% of voting stocks (shares) or ownership with no voting power but in the opinion of the CB able to determine the decisions of management, exercise significant influence over decision making and application of decisions, or determine the targets and spheres of a legal entity’s activity through participation, directly or indirectly, business reputation, and standing. According to this law and other laws regulating banking activities, significant interest means that a legal entity is able to determine the decisions of management, influence decision making or application, or determine the targets and spheres of a legal entity’s activity. Persons registered, living, or doing business abroad may acquire participation in a bank’s capital (regardless of the amount) only with approval of the CBA.</strong></td>
<td></td>
</tr>
<tr>
<td>Open foreign exchange position limits</td>
<td>Yes.</td>
</tr>
<tr>
<td>The limits on open foreign exchange positions are calculated with and without including derivatives. A limit of 7% of capital applies on open foreign exchange positions of individual currencies, and a limit of 10% of capital applies on aggregate gross foreign exchange positions of all currencies. For the purpose of calculation, currencies are grouped into two categories: (1) SDR, US dollar, euro, Japanese yen, pound sterling, Swiss franc, Swedish krona, Danish koruna, Australian dollar, Canadian dollar, and bank gold; and (2) all other currencies. Derivatives contracts with international organizations (for example, ECB, IMF, World Bank), multilateral development banks, sovereigns, CBs, and foreign commercial banks rated at least A+ (A1) are included in the calculation of limits on open foreign exchange positions, which exclude derivatives.</td>
<td></td>
</tr>
<tr>
<td>On resident assets and liabilities</td>
<td>Yes.</td>
</tr>
<tr>
<td>There is no differentiated approach between resident and nonresident assets and liabilities when calculating open foreign exchange position. gold; and (2) all other currencies. Derivatives contracts with international organizations (for example, ECB, IMF, World Bank), multilateral development banks, sovereigns, CBs, and foreign commercial banks rated at least A+ (A1) are included in the calculation of limits on open foreign exchange positions, which exclude derivatives.

**On nonresident assets and liabilities** Yes. There is no differentiated approach between resident and nonresident assets and liabilities when calculating open foreign exchange position. The limits on open foreign exchange positions are calculated with and without including derivatives. A limit of 7% of capital applies on open foreign exchange positions of individual currencies, and a limit of 10% of capital applies on aggregate gross foreign exchange positions of all currencies. For the purpose of calculation, currencies are grouped into two categories: (1) SDR, US dollar, euro, Japanese yen, pound sterling, Swiss franc, Swedish krona, Danish koruna, Australian dollar, Canadian dollar, and bank gold; and (2) all other currencies. Derivatives contracts with international organizations (for example, ECB, IMF, World Bank), multilateral development banks, sovereigns, CBs, and foreign commercial banks rated at least A+ (A1) are included in the calculation of limits on open foreign exchange positions, which exclude derivatives.

**Provisions specific to institutional investors** Yes. The only institutional investors in Armenia are insurance companies, investment companies, and pension funds. As of December 31, 2018, there were seven insurance companies, eleven investment companies, twenty-three investment funds, and eight pension funds in operation.

**Insurance companies** Yes. The insurance companies are regulated according to the Law on Insurance and Insurance Activity and other legal acts.

**Limits (max.) on securities issued by nonresidents** No. There are no limits specifically targeted toward securities issued by nonresidents.

**Limits (max.) on investment portfolio held abroad** No. There are no limits specifically targeted toward investment portfolios held abroad. However, under CBA Resolution No. 311-N of October 2, 2007, on approval of CBA Regulation No. 3/02 concerning prudential standards of insurance companies, there are limits regarding the asset composition of technical reserves. The maximums are (1) 3% on cash holdings; (2) 100% on Armenian government securities, CBA securities, and deposits in the CBA; (3) 5% for a single issuer and 40% for all issuers of state and corporate securities and bank accounts and deposits by issuers rated A+, A1, or A or higher by Standard & Poor’s, Fitch, Moody’s, A.M. Best; and nongovernmental bonds issued by the EBRD, ECB, EIB, and other international organizations (where Armenia has a membership) (CBA Resolution No. 176-N of June 23, 2013); (4) 10% for a single issuer and 40% for all issuers of securities, issued by financial organizations, operating in Armenia, securities from issuers rated A, B, or C by the CBA (CBA Resolution No. 225-N of August 12, 2014); (5) 20% for a single issuer and 100% for all issuers for accounts and deposits in banks operating in and lending to banks operating in Armenia; (6) 5% for a single issuer and 20% for all issuers for loans to insurance companies, investment companies, and credit institutions (collecting funds through public offer) operating in Armenia; (7) 10% for a single issuer and 50% for all issuers of securities by current (market) value, which were purchased through repo agreements, and (8) 5%, but not more than 100 million Armenian drams, on units of investment funds in fair value, which are registered by CBA, implement their investment policy in Armenia, and there are not any bidding conditions to sell these units in the future.
**Limits (min.) on investment portfolio held locally**
No.

There are no limits specifically targeted toward investment portfolios held locally. However, under CBA Resolution No. 311-N of October 2, 2007, on approval of CBA Regulation No. 3/02 concerning prudential standards of insurance companies, there are limits regarding the asset composition of technical reserves. The maximums are (1) 3% on cash holdings; (2) 100% on Armenian government securities, CBA securities, and deposits in the CBA; (3) 5% for a single issuer and 40% for all issuers of state and corporate securities, bank accounts and deposits by issuers rated A+, A1, or A or higher by Standard & Poor’s, Fitch, Moody’s, and A.M. Best and nongovernmental bonds issued by the EBRD, ECB, EIB, and other international organizations (where Armenia has a membership) (CBA Resolution No. 176-N of June 23, 2013); (4) 10% for a single issuer and 40% for all issuers of securities, issued by financial organizations, operating in Armenia, securities from issuers rated A, B, or C by the CBA (CBA Resolution No. 225-N of August 12, 2014); (5) 20% for a single issuer and 100% for all issuers for accounts and deposits in banks operating in and lending to banks operating in Armenia; (6) 5% for a single issuer and 20% for all issuers for loans to insurance companies, investment companies, and credit institutions (collecting funds through public offer) operating in Armenia; (7) 10% for a single issuer and 50% for all issuers of stocks by current (market) value, which were purchased through repo agreements, and (8) 5%, but not more than 100 million Armenian drams, on units of investment funds in fair value, which are registered by CBA, implement their investment policy in Armenia, and there are not any bidding conditions to sell these units in the future.

**Currency-matching regulations on assets/liabilities composition**
Yes.

Limits on foreign exchange positions conform to CBA Resolution No. 368-N, December 20, 2011, and amendments, and the addition to CBA Regulation No. 3/02 concerning the prudential standards of insurance companies. The limits on open foreign exchange positions include inclusive and exclusive derivatives. A limit of 7% of capital applies on open foreign exchange positions of individual currencies, and a limit of 10% of capital applies on gross foreign exchange positions of all currencies. Derivatives contracts with international organizations (for example, ECB, IMF, World Bank), multilateral development banks, sovereigns, CBs, and foreign financial companies rated at least A+ (A1/A); and currency; and foreign exchange swaps are included in the calculation of open foreign exchange positions, which exclude derivatives. Foreign exchange risk is captured in the calculations of the capital adequacy ratio. Under CBA Resolution No. 151-N, June 29, 2010, on approval of amendments and the addition to CBA Regulation No. 3/02, the insurance companies’ capital adequacy ratio is calculated as the ratio of total capital to the sum of risk-weighted assets and required solvency, with the risk-weighted assets calculated as follows: 0.12 × (credit risk + foreign exchange risk) + operational risk. Under Regulation No. 3/02, an insurance company’s foreign exchange risk is the highest of each day’s end-of-day maximum foreign exchange positions during the reporting month.

**Pension funds**
Yes.

Pension funds are regulated according to the Republic of Armenia Law “On Funded Pensions.”

**Limits (max.) on securities issued by nonresidents**
Yes.

According to the Republic of Armenia Law “On Funded Pensions,” the total investments in securities issued or fully guaranteed by a foreign state or its CB may not exceed 40% of the total assets of a mandatory pension fund. The total investment in one issue (tranche) may not exceed 20% of the total assets of the fund.
According to CBA Board Resolution No. 161-N of July 15, 2014, on Approving Regulation No. 10/30 “On Quantitative and Foreign Currency Restrictions for Voluntary Pension Funds’ Investments,” the total investments in securities issued or fully guaranteed by a foreign state or its CB may not exceed 40% of the total assets of a voluntary pension fund. The total investment in one issue (tranche) may not exceed 20% of the total assets of the fund.

Though there are no direct limits on investment portfolios held abroad, however, an indirect limit is set by the Republic of Armenia Law “On Funded Pensions” for mandatory pension funds and by CBA Board Resolution No. 161-N of July 15, 2014, on Approving Regulation No. 10/30 “Quantitative and Foreign Currency Restrictions for Voluntary Pension Funds’ Investments” for voluntary pension funds.

The total foreign exchange investments of mandatory pension funds are limited at 40% of the total assets of the fund. For voluntary pension funds, the limit is set at 50%.

The total amount of non-convertible foreign exchange investments of mandatory and voluntary pension funds may not exceed 3% of total assets.

The credit ratings of foreign banks, in which the assets of mandatory pension funds may be invested, may not be lower than Standard & Poor’s “BBB,” Moody’s “Baa3,” or Fitch’s “BBB.”

The credit ratings of foreign banks, in which the assets of voluntary pension fund may be invested, may not be lower than Standard & Poor’s “BBB,” Moody’s “Baa3,” or Fitch’s “BBB-.”

The credit ratings of foreign issuers (if guaranteed by any third person, then of that guarantor), in debt securities of which the assets of voluntary pension funds may be invested, may not be lower than Standard & Poor’s “BBB,” Moody’s “Baa3,” or Fitch’s “BBB-.” except for debt securities issued or fully guaranteed by the foreign state or its CB.

There are no limits (min.) on investment portfolios held locally.

There are no limits (max.) on securities issued by nonresidents.

According to the Republic of Armenia Law “On Funded pensions,” the total amount of foreign exchange-denominated investments may not exceed 40% of the total assets of a mandatory pension fund. According to CBA Board Resolution No. 161-N of July 15, 2014, the total amount of foreign exchange-denominated investments may not exceed 50% of the total assets of a voluntary pension fund.

Investment firms are regulated by the Republic of Armenia Law “On Securities Market.”

Collective investment funds are regulated according to the Republic of Armenia Law “On Investment Funds.”

Foreign exchange risk of investment firms is captured in calculations of the capital adequacy ratio, as component of market risk.

**Exchange Measures**

The IMF staff report for the 2017 Article IV Consultation discussions with the Kingdom of the Netherlands—Aruba states that, as of May 5, 2017, Aruba maintained an unapproved foreign exchange restriction arising from the foreign exchange tax on payments by residents to nonresidents (1.3% of the transaction value). (Country Report No. 17/155)

**Restrictions and/or multiple currency practices**: Yes.

**Exchange measures imposed for security reasons**: Yes.

**In accordance with IMF Executive Board Decision No. 144-(52/51)**: No.

**Other security restrictions**: Yes.

Aruba maintains a sanctions decree for the purpose of combating terrorism and its financing, in compliance with UN Resolutions Nos. 1267 (1999) and 1373 (2001). Sanctions State Decree Libya (2011) provides for the freezing of all funds or other assets in Aruba that belong directly or indirectly to, are owned by, are in possession of, or are under the control of a natural person, legal entity, or other entity mentioned in Annex II of UNSC Resolution No. 1970 (2011) and UNSC Resolution No. 1973 (2011). Sanctions State Decree Ukraine implemented Regulation No. 208/2014 (April 4, 2014) adopted by the Council of the European Union regarding the freezing of funds and economic resources of persons identified as responsible for the misappropriation of Ukrainian state funds, persons responsible for human rights violations in Ukraine, and natural or legal persons, entities, or bodies associated with them. Sanctions State Decree Sudan (September 25, 2014) provided for the freezing of funds or other assets in Aruba that belong directly or indirectly to, are owned by, are in possession of, or are under the control of a natural person, legal entity, or other entity or body mentioned in Annex I of Regulation No. 747/2014 of the Council of the European Union. Sanctions State Decree South Sudan (September 25, 2014) provided for the freezing of funds or other assets in Aruba that belong directly or indirectly to, are owned by, are in possession of, or are under the control of a natural person, legal entity, or other entity or body mentioned in Annex I of Regulation No. 748/2014 of the Council of the European Union. Sanctions State Decree Syria (January 21, 2016) implemented Regulation No. 36/2012 (January 18, 2012), as well as two subsequent Decisions, adopted by the Council of the European Union regarding restrictive measures against Syria and certain persons, entities, and bodies from Syria. Sanctions State Decree Central African Republic (October 25, 2016) implemented Regulation 224/2014, adopted by the Council of the European Union on March 10, 2014, regarding restrictive measures against certain persons, entities, and bodies from the Central African Republic: Decision 2013/798/CFSP, adopted by the Council of the European Union.
Union on December 23, 2013, also concerns restrictive measures against the Central African Republic. Sanctions State Decree Yemen (March 7, 2017) provided for the freezing of funds or other assets in Aruba that belong directly or indirectly to, are owned by, are in possession of, or are under the control of a natural person, legal entity, or other entity or body mentioned in Annex I of Regulation No. 1352/2014 of the Council of the European Union and in the Annex of Decision No. 2014/932 adopted by the Council of the European Union. Sanctions State Decree Democratic People’s Republic of Korea (July 17, 2017) implemented UN Resolutions Nos. 1718 (2006), 1874 (2009), 2087 (2013), 2094 (2013), 2270 (2016), 2321 (2016), 2345 (2017), 2356 (2017); annexes to Regulation No. 329/2007 of the Council of the European Union; and annexes of Decision No. 2016/849, adopted by the Council of the European Union.

The florin is pegged to the US dollar at Afl. 1.79 per US dollar. Assets and liabilities denominated in foreign currencies are converted to florins at the rate of exchange (midrate) prevailing on the balance sheet date. The authority to change the exchange rate arrangement lies with the government.

Other monetary framework

**Exchange tax** Yes.  A foreign exchange commission of 1.3% applies to all payments by residents to nonresidents, including those made through local banks and foreign accounts. Certain payments, such as those of certain government-related companies, are exempt.

**Exchange subsidy** No.

**Foreign exchange market** Yes.  The Central Bank of Aruba (CBA) determines the daily foreign exchange rate for the officially quoted foreign currencies, which commercial banks must use when calculating foreign currency cross-rates among themselves and for transactions with residents and nonresidents. If there is a large exchange rate fluctuation of a foreign currency against the US dollar for transactions with a counter value of Afl. 100,000 or more, a commercial bank may request a new exchange rate. The spread between the foreign exchange buying and selling rates may not exceed 2%. The foreign exchange commission is not included in the bid-ask spreads but is added afterward. From April 1, 2015, the State Ordinance on Exchange Rate Margin Compensation CBA requires commercial banks to pay a fee to the CBA on all sales of foreign currency to the public, both cash and noncash, amounting to 3/8% of the florin equivalent of these sales. The CBA will pay a fee to the commercial banks on all purchases of foreign currency from the public, both cash and noncash, amounting to 1/8% of the florin equivalent of these purchases.

**Spot exchange market** Yes.  The State Ordinance on the Supervision of Money Transfer Companies (SOSMTC) extends its supervisory scope to money exchange offices. Only banks and money exchange offices established in Aruba and granted license from the CBA may conduct foreign exchange transactions with the public. In 2018, the CBA granted licenses to two companies to operate as a money exchange office. Money exchange offices may exchange coins or banknotes against other coins or banknotes, or pay out coins or banknotes on presentation of a credit card or payment card or on handing over checks, traveler’s checks, bills of exchange, or postal money orders. They may maintain accounts abroad; however, all resident companies that have a foreign bank account or foreign intercompany account must notify the CBA pursuant to Article 11 of the State Ordinance Foreign Exchange Transactions. Money exchange offices may not make foreign exchange transactions directly with the CB. From April 1, 2015, the State Ordinance on Exchange Rate Margin Compensation CBA requires commercial banks to pay a fee to the CBA on all sales of foreign currency to the public, both cash and noncash, amounting to 3/8% of the florin equivalent of these sales. The CBA will pay a fee to the commercial banks on all purchases of foreign currency from the public, both cash and noncash, amounting to 1/8% of the florin equivalent of these purchases.

**Operated by the central bank** Yes.

**Foreign exchange standing facility** Yes.  The CBA deals with local commercial banks within margins of 0.002795% on either side of parity. Depending on banks’ B-9 arrangement, which sets a maximum amount of foreign exchange commercial banks may hold (in net foreign assets), they may buy or sell foreign exchange from or to the CBA. The CBA deals directly
with the government.

 Allocation No.
 Auction No.
 Fixing No.

 Interbank market No. Banks may trade among themselves; however, in general, they deal directly with the CBA. There are no limits on the bid-ask spread and commission of the market participants.

 Over the counter No.
 Brokerage No.
 Market making No.
 Forward exchange market No. There is no forward exchange market in Aruba. The CBA does not participate in the forward exchange market.

### Resident Accounts

**Foreign exchange accounts permitted**

**Yes.**

#### Held domestically

**Yes.** Residents may open accounts denominated in foreign currency with local banks, provided these accounts are funded with foreign currency. Transactions of less than Afl. 300,000 a year or its equivalent in foreign currency for natural persons and Afl. 750,000 a year or its equivalent in foreign currency for legal entities (excluding commercial banks and institutional investors) may be carried out without CBA authorization. These ceilings are applicable to all capital transactions with nonresidents; a special foreign exchange license from the CBA is required for capital transactions exceeding these ceilings.

#### Approval required

**No.** The local banks should adhere to CBA instructions related to maintaining such accounts at all times.

#### Held abroad

**Yes.** Accounts of resident companies abroad (including foreign intercompany accounts) must be reported to the CBA. Approval is not required, but holders of such accounts must report them to the CBA if they wish to be exempt from the requirement that they collect foreign claims as soon as they fall due and transfer and sell them to a local foreign exchange bank. Absent an exemption, payments in foreign exchange to nonresidents must be made from an authorized bank’s account or an account of a foreign bank in the country of the transaction or to a nonresident’s nostro account with the authorized bank. Resident companies that have notified the CBA of their foreign accounts and comply with the conditions of the exemption as stipulated in the Decree Concerning Foreign Exchange Transactions 2013-O.1 General Exemption may make transfers freely to and from these accounts, based on the Decree Concerning Foreign Exchange Transactions 2013/K.2 (General Foreign Exchange License). A general exemption from the provisions of State Ordinance on Foreign
Exchange Transactions (SOFET) Articles 11 and 12 applies to residents whose previous exemptions (pursuant to SOFET Articles 16 and 17) were revoked and who reported such bank accounts to the CBA again.

Proceeds from Invisible Transactions and Current Transfers

Repatriation requirements Yes. Unless exempt, residents are required to surrender proceeds from invisible transactions either by selling them to a foreign exchange bank, against florins, within eight working days of receipt or by depositing them into a foreign exchange account with the CBA or a foreign exchange bank in the name of a resident.

Surrender requirements Yes.

Surrender to the central bank Yes. Unless exempt, residents are required to surrender proceeds from invisible transactions either by selling them to a foreign exchange bank, against florins, within eight working days of receipt or by depositing them into a foreign exchange account with the CBA or a foreign exchange bank in the name of a resident.

Surrender to authorized dealers Yes. Unless exempt, residents are required to surrender proceeds from invisible transactions either by selling them to a foreign exchange bank, against florins, within eight working days of receipt or by depositing them into a foreign exchange account with the CBA or a foreign exchange bank in the name of a resident.

Restrictions on use of funds No.

Capital Transactions

Controls on capital transactions Yes. Transactions of less than Afl. 300,000 a year or its equivalent in foreign currency for natural persons and Afl. 750,000 a year or its equivalent in foreign currency for legal entities (excluding commercial banks and institutional investors) may be carried out without CBA authorization. These ceilings are applicable to all capital transactions with nonresidents; a special foreign exchange license from the CBA is required for capital transactions exceeding these ceilings.

Repatriation requirements Yes. The CBA may require the divestment, repatriation, and surrender to the CBA of proceeds from direct investment by residents abroad. Unless exempt, residents are required to surrender proceeds from capital transactions either by selling them to a foreign exchange bank, against florins, within eight working days of receipt or by depositing them into a foreign exchange account with the CBA or a foreign exchange bank in the name of a resident.

Surrender requirements Yes. Surrender to the central bank Yes. Unless exempt, residents are required to surrender proceeds from capital transactions either by selling them to a foreign exchange bank, against florins, within eight working days of receipt or by depositing them into a foreign exchange account with the CBA or a foreign exchange bank in the name of a resident.
Surrender to authorized dealers

Yes. Unless exempt, residents are required to surrender proceeds from capital transactions either by selling them to a foreign exchange bank, against florins, within eight working days of receipt or by depositing them into a foreign exchange account with the CBA or a foreign exchange bank in the name of a resident.

Controls on capital and money market instruments

Yes. There are controls on all these transactions. Residents must apply for a special foreign exchange license in order to effect capital transactions if the amount involved exceeds Afl. 300,000 a year or its equivalent in foreign currency for natural persons and Afl. 750,000 a year or its equivalent in foreign currency for legal entities.

On capital market securities

Yes. Capital transactions with nonresidents by natural persons require a special foreign exchange license if the amount of the transaction exceeds Afl. 300,000 a year or its equivalent in foreign currency. For legal entities, a license is required if the amount involved exceeds Afl. 750,000 a year.

Shares or other securities of a participating nature

Yes. Capital transactions with nonresidents by natural persons require a special foreign exchange license if the amount of the transaction exceeds Afl. 300,000 a year or its equivalent in foreign currency. For legal entities, a license is required if the amount involved exceeds Afl. 750,000 a year.

### Provisions Specific to the Financial Sector

#### Provisions specific to commercial banks and other credit institutions

| **Borrowing abroad** | Yes. |
| **Maintenance of accounts abroad** | No. |
| **Lending to nonresidents (financial or commercial credits)** | Yes. |
| **Lending locally in foreign exchange** | No. |
| **Purchase of locally issued securities denominated in foreign exchange** | No. |
| **Differential treatment of deposit accounts in foreign exchange** | No. |
| **Reserve requirements** | No. |
| **Liquid asset requirements** | No. |

Certain personal capital transactions, such as loans to or settlement of debt with nonresidents by natural persons, require a special foreign exchange license if the amount of the transaction exceeds Afl. 300,000 a year or its equivalent in foreign currency.

Transactions involving gifts, endowments, inheritances, and legacies are considered current transactions and as such do not require any special foreign exchange license.

No controls apply to transfers of assets.

Commercial banks are subject to the B-9 arrangement, which sets a maximum amount of foreign exchange the commercial banks are allowed to hold (in net foreign assets). Commercial banks are not allowed to have a net foreign liability position.

A special foreign exchange license is required for loans granted by commercial banks to nonresidents if they exceed Afl. 1 million a year or its equivalent in foreign currency, as well as for certain transfers or sales of local financial instruments, such as loans, bonds, and notes, to nonresidents.

Resident interbank deposits (in both florins and foreign exchange) and long-term deposits (of residents and nonresidents) are excluded from the calculation of the reserve requirement, which is a monetary instrument.

Effective January 1, 2018, the requirement for commercial banks to...
maintain a minimum prudential liquidity ratio (PLR) (defined as liquid assets to total net assets) was increased from 15% to 16%. Effective January 1, 2019, the minimum required PLR increased to 18% from 16%. It is planned to be increased to 20% from January 1, 2021. The minimum risk-weighted solvency rate is 16%. Both requirements are applied regardless of the residency status of account holders.

Interest rate controls No.
Credit controls No.
Differential treatment of deposit accounts held by nonresidents No.
Reserve requirements No.
Liquid asset requirements No.

Long-term deposits (of residents and nonresidents) are excluded from the calculation of the reserve requirement.

Effective January 1, 2018, the requirement for commercial banks to maintain a minimum prudential liquidity ratio (PLR) (defined as liquid assets to total net assets) was increased from 15% to 16%.

Effective January 1, 2019, the minimum required PLR increased to 18% from 16%. It is planned to be increased to 20% from January 1, 2021. The minimum risk-weighted solvency rate is 16%. Both requirements are applied regardless of the residency status of account holders.

Interest rate controls No.
Credit controls No.
Investment regulations Yes.
Abroad by banks Yes. Unless it has written permission from the CBA, a credit institution may not hold, acquire, or increase a qualifying holding in another firm or institution or take over all or a substantial part of the assets and liabilities of another firm or institution. A qualifying holding is defined as a direct or indirect stake of more than 10% of the issued share capital of a firm or institution, more than 10% of the direct or indirect voting rights, or a comparable degree of control.

In banks by nonresidents Yes. CBA approval is required for any investor to hold or acquire a qualifying holding in a bank.

Open foreign exchange position limits Yes.
On resident assets and liabilities Yes. Banks are not allowed to have a negative foreign exchange position.
On nonresident assets and liabilities Yes. Banks are not allowed to have a negative foreign exchange position.

Provisions specific to institutional investors
Insurance companies Yes. The CBA, pursuant to the State Ordinance on the Supervision of the Insurance Business, is entrusted with the regulation and supervision of the insurance sector.

Limits (max.) on securities issued by nonresidents Yes. According to the 40%–60% investment rule, a progressive scale is used to determine the limit on investment abroad. Institutional investors may not invest abroad more than 60% of their first Afl. 10 million in liabilities, 50% of their second Afl. 10 million in liabilities, and 40% of their remaining liabilities.

Limits (max.) on investment portfolio held abroad Yes. According to the 40%–60% investment rule, a progressive scale is used to determine the limit on investment abroad. Institutional investors may not invest abroad more than 60% of their first Afl. 10 million in liabilities, 50% of their second Afl. 10 million in liabilities, 40% of their remaining liabilities.
liabilities, and 40% of their remaining liabilities.

Insurance companies invest primarily in US dollars. In view of the peg with the US dollar, the CBA has not issued currency-matching regulations on assets and liabilities composition. However, the CBA monitors currency mismatches.

The CBA, pursuant to the State Ordinance on Company Pension Funds, is entrusted with the regulation and supervision of company pension funds.

According to the 40%–60% investment rule, a progressive scale is used to determine the limit on investment abroad. Institutional investors may not invest abroad more than 60% of their first Afl. 10 million in liabilities, 50% of their second Afl. 10 million in liabilities, and 40% of their remaining liabilities.

According to the 40%–60% investment rule, a progressive scale is used to determine the limit on investment abroad. Institutional investors (including investment firms/collective investment funds) may not invest abroad more than 60% of their first Afl. 10 million in liabilities, 50% of their second Afl. 10 million in liabilities, and 40% of their remaining liabilities.

The supervised pension funds invest primarily in US dollars. In view of the peg with the US dollar, the CBA has not issued currency-matching regulations on assets and liabilities composition. However, the CBA monitors currency mismatches.

The State Ordinance on the Supervision of the Securities Business prohibits the conduct of business of a securities broker, asset manager, investment institution, or a manager of an investment fund or stock exchange in or from Aruba without a license from the CBA.

According to the 40%–60% investment rule, a progressive scale is used to determine the limit on investment abroad. Institutional investors (including investment firms/collective investment funds) may not invest abroad more than 60% of their first Afl. 10 million in liabilities, 50% of their second Afl. 10 million in liabilities, and 40% of their remaining liabilities.

According to the 40%–60% investment rule, a progressive scale is used to determine the limit on investment abroad. Institutional investors (including investment firms/collective investment funds) may not invest abroad more than 60% of their first Afl. 10 million in liabilities, 50% of their second Afl. 10 million in liabilities, and 40% of their remaining liabilities.

No currency-matching regulations have been issued by the CBA on assets/liabilities composition.

AUSTRALIA

(Position as of January 31, 2019)

Status under IMF Articles of Agreement

Date of membership
August 5, 1947.

Article VIII
Yes.
Date of acceptance: July 1, 1965.

Article XIV

Exchange Measures

Restrictions and/or multiple currency practices
No.

Exchange measures imposed for security reasons
Yes.

In accordance with IMF Executive Board Decision No. 144-(52/51)
Yes.

Australia maintains targeted financial sanctions on an autonomous basis in relation to the following situations of international security concern on the basis of criteria set out in the Autonomous Sanctions Regulations 2011. As of May 16, 2019, these include: the Democratic People’s Republic of Korea (DPRK) (48 individuals and 40 entities); the former Federal Republic of Yugoslavia (111 individuals); Zimbabwe (seven individuals and one entity); the Islamic Republic of Iran (23 individuals and 67 entities); Libya (21 individuals and 9 entities); Syria (135 individuals and 42 entities); and the Russian threat to the sovereignty and territorial integrity of Ukraine (163 individuals and 48 entities).

Other security restrictions
Yes.

Australia implements targeted financial sanctions against individuals or entities designated under the following UNSC resolutions on the basis of a range of criteria set out in the resolutions and respective regulations: (1) Resolution Nos. 1267 (1999), 1988 (2011), 1989 (2011), 2253 (2015), and 2368 (2017) concerning ISIL (Da’esh) and Al-Qaïda; (2) Resolution No. 1718 (2006) concerning the DPRK, as extended by further resolutions; (3) Resolution No. 1533 (2004) concerning the Democratic Republic of the Congo, as extended by further resolutions; (4) Resolution No. 2231 (2015) concerning Iran; (5) Resolution Nos. 1483 (2003) and 1518 (2003) concerning Iraq; (6) Resolution No. 1591 (2005) concerning Sudan, as extended by further resolutions; (7) Resolution No. 733 (1992) concerning Somalia, as extended by further resolutions; (8) Resolution No. 1636 (2005) concerning Lebanon, as extended by further resolutions; (9) Resolution No. 1970 (2011) concerning Libya; (10) Resolution No. 2127 (2013) concerning Central African Republic, as extended by further resolutions; (11) Resolution No. 2140 (2014) concerning Yemen, as extended by further resolutions; (12) Resolution No. 2206 (2015) concerning South Sudan, as extended by further resolutions; (13) Resolution No. 1988 (2011) concerning the Taliban, as amended by Resolutions Nos. 2082 (2012) and 2160 (2014); and (14) Resolution No. 2374 (2017) concerning Mali, effective November 28, 2018. Pursuant to UNSC Resolution No. 1373 (2001) concerning international terrorism, Australia maintains targeted financial sanctions to freeze the assets of, and prohibit assets being made available to, individuals or entities designated by the Minister for Foreign Affairs as associated with the commission of terrorist acts. Part 9 of the Anti-Money Laundering and Counter-Terrorism Financing Act 2006 (AML/CTF Act) authorizes countermeasures to
regulate or prohibit transactions with residents (including companies) of prescribed foreign countries. Pursuant to the FATF’s recommendation for member jurisdictions to apply effective countermeasures to protect their financial sectors from the ongoing and substantial money-laundering and terrorism financing risks emanating from Iran and the DPRK. The Anti-Money Laundering and Counter-Terrorism Financing (Prescribed Foreign Countries) Regulations 2018 lists the DPRK and Iran as prescribed foreign countries. Reporting entities under the AML/CTF Act must apply enhanced customer due diligence to all transactions involving an individual physically present in a prescribed foreign country or a company incorporated there.

Sanctions against Eritrea were lifted effective November 14, 2018, in accordance in UNSC resolution.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

### Exchange Arrangement

#### Currency

Yes. The currency of Australia is the Australian dollar, which also circulates in several other countries, including Kiribati, Nauru, and Tuvalu.

#### Other legal tender

No.

Unitary

Yes.

Dual

Multiple

#### Classification

No separate legal tender

Currency board

Conventional peg

Stabilized arrangement

Crawling peg

Crawl-like arrangement

Pegged exchange rate within horizontal bands

Other managed arrangement

Floating

Free floating

Yes. Both the de jure and de facto exchange rate arrangements are classified as free floating. However, the Reserve Bank of Australia (RBA) retains discretionery authority to intervene in the foreign exchange market and has done so during periods of significant market disorder and/or gross misalignment of the exchange rate. Given the high level of development of the Australian foreign exchange market, interventions have been rare. The most recent period of intervention was in 2007–08 and was in response to episodes of significant market disorder—that is, instances when
market functioning was impaired to such a degree that it was clear that the observed volatility was excessive. The RBA may also vary the way intervention is conducted; it may enter the interbank foreign exchange market directly through voice or electronic brokerage platforms or use an agent bank. As a matter of government policy, most wholesale purchases of foreign currency by government agencies are made through the RBA. The RBA manages the flows from purchases on behalf of the government so as to minimize their market impact—for example, by executing these trades when the market is liquid and, if necessary, breaking up the required purchases into a series of smaller transactions. Monthly purchases and sales of foreign exchange are published on the RBA website. Daily data on foreign exchange market interventions are published on the RBA website annually, following the release of the RBA Annual Report.

Official exchange rate

Yes.

There is no official RBA fixing rate for the Australian dollar. World Market/Reuters provide hourly fixing rates for the Australian dollar against the US dollar. The legal and commercial reference rate against the US dollar, which is often used in private contracts, is the World Market/Reuters Australian dollar fixing rate at 10:00 a.m. Australian Eastern Standard Time. For public information, the RBA publishes an Australian dollar-US dollar reference rate based on the 4:00 p.m. Australian Eastern Standard Time World Market/Reuters Australian dollar fixing rate and the trade-weighted index of the Australian dollar based on market rates at 4:00 p.m. The RBA also publishes the Australian dollar cross-rates for all currencies in the trade-weighted index.

Government and Central Bank

Yes.

The Reserve Bank Act provides for decisions to be reached by a majority of the votes of the members present and voting, with the Chair having a casting vote, if necessary, in addition to a deliberative vote. Votes are not published. The Statement on the Conduct of Monetary Policy (the Statement) has recorded the common understanding of the governor, as Chair of the Reserve Bank Board, and the government on key aspects of Australia’s monetary and
central banking policy framework since 1996. The Statement seeks to foster a sound understanding of the nature of the relationship between the Reserve Bank and the government, the objectives of monetary policy, the mechanisms for ensuring transparency and accountability in the way policy is conducted, and the independence of the Reserve Bank. The inflation target is set as part of the agreement on the monetary policy framework and the key features of the target could not be changed by the Bank unilaterally.

**Inflation target**

Yes.

**Target number**

Yes.

**Point target**

Yes.

**Target with tolerance band**

Yes.

Both the RBA governor and the government agree that a flexible medium-term inflation target is the appropriate framework for achieving medium-term price stability. They agree that an appropriate goal is to keep the consumer price inflation between 2% and 3%, on average, over time. This formulation allows for the natural short-run variation in inflation over the economic cycle and the medium-term focus provides the flexibility for the Reserve Bank to set its policy so as best to achieve its broad objectives, including financial stability. The 2%–3% medium-term goal provides a clearly identifiable performance benchmark over time.

**Target measure**

Yes.

**CPI**

Yes. Target measure is end-year growth in the consumer price index. The consumer price index measures the changes in the price of a “basket” of goods and services, which account for a high proportion of expenditure by the consumer price index population group (that is, metropolitan households).

**Core inflation**

Yes. The inflation target is defined as a medium-term average rather than as a rate (or band of rates) that must be held at all times.

**Operating target (policy rate)**

Yes.

**Policy rate**

Yes. The RBA’s monetary policy involves setting the interest rate on overnight loans in the money market (“the cash rate”). The RBA’s target for the cash rate was 1.25% as of June 5, 2019.

**Target corridor band**

Yes. The RBA’s cash rate target is expressed as a point target. The RBA pays an interest rate on Exchange Settlement balances held in accounts with the RBA that is 0.25 percentage points (pps) below the cash rate target. Banks have an incentive to deposit as little as possible at this rate, and instead prefer to earn the higher cash rate by lending out their balances overnight in the money market. The RBA is also willing to lend Exchange Settlement balances to banks if this is required. The interest rate on these loans is 0.25 pps above the cash rate target under its standing facilities. Banks have an incentive to borrow as little as possible at this rate, and instead prefer to borrow at the lower cash rate. The deposit and lending rates form the lower and upper bounds of the policy interest rate corridor.

**Accountability**

Yes.

**Open letter**

No.
Parliamentary hearings  Yes.  The governor, deputy governor, and a small number of other senior officers of the Reserve Bank usually appear twice-yearly before the House of Representatives Standing Committee on Economics. Between January 1, 2018, and June 30, 2019, the RBA appeared at three public hearings of this committee. Senior staff are also periodically invited to appear at public hearings held as part of inquiries by other committees of both Houses of parliament.

Other

Transparency  Yes.

Publication of votes  No.

Publication of minutes  Yes.  Minutes of the monetary policy meetings of the Reserve Bank Board are published two weeks after each meeting. (The Reserve Bank Board normally meets 11 times each year, on the first Tuesday of each month, except January.) Minutes were first published in December 2007, when minutes for meetings from October 2006 were also released.

Publication of inflation forecasts  Yes.  Inflation forecasts are published every quarter in the RBA’s Statement of Monetary Policy.

Other monetary framework

Exchange tax  No.

Exchange subsidy  No.

Foreign exchange market  Yes.  Licensed dealers of foreign exchange are allowed to freely determine their bid-ask spreads and foreign exchange commissions in transactions with their clients.

Spot exchange market  Yes.  The Australian Securities and Investments Commission (ASIC) is responsible for licensing of all financial services providers, including foreign exchange dealers that deal in foreign currency contracts, whether exchange traded or over the counter, by its administration of the Australian financial services license (AFSL) regime. As of May 31, 2019, there were 1,094 licensees licensed to deal in foreign exchange products in Australia; 581 of these are licensed to deal with retail investors. Licensed foreign exchange dealers that deal in foreign currency contracts are permitted to maintain accounts abroad and to make foreign currency payments and transfers on behalf of their clients. The ASIC does not license entities dealing in spot foreign exchange contracts.

Operated by the central bank  No.

Foreign exchange standing facility  No.

Allocation  No.

Auction  No.

Fixing  No.

Interbank market  Yes.  The RBA survey of foreign exchange turnover indicates that at least 24 financial institutions participate in the Australian interbank foreign exchange market. The Australian dollar is also widely traded by financial institutions in offshore interbank markets. There are no limits on the bid-ask spread and commission of market participants. Interventions in the Australian foreign exchange market are rare given the high level of market development. However, if the RBA were to intervene, the intervention could be conducted either directly...
with market participants at their quoted rates, via market makers, or by placing an interest in an electronic system whereby a market maker would have to accept the quoted price.

Over the counter
Yes. Turnover occurs almost entirely over the counter with licensed dealers. ASIC grants licenses to Australian Derivative Trade Repositories who report on OTC derivative transactions.

Brokerage
Yes. Licensed dealers may deal among themselves and with their overseas counterparties at mutually negotiated rates for spot transactions in any currency for trade- and non-trade-related transactions. Trading is conducted through several mediums, including electronic broking platforms.

Market making
Yes. An ASIC license is required for foreign exchange dealing (other than spot). An AFSL and authorization to make a market for foreign exchange products and derivatives are required. As of May 31, 2019, there were 213 licensees authorized to make a market in derivatives, 181 authorized to make a market in foreign exchange and 151 authorized to make a market in both derivatives and foreign exchange. Pursuant to Section 766D of the Corporations Act, persons make a market for a financial product if (1) they regularly state the prices at which they propose to acquire or dispose of financial products on their own behalf, (2) others have a reasonable expectation that they will be able to regularly effect transactions at the stated prices, and (3) the persons’ actions do not constitute a financial market under Section 767A.

Forward exchange market
Yes. Active trading takes place in forward and futures contracts. The RBA uses foreign exchange swaps in its domestic liquidity operations and foreign exchange reserves management. Foreign exchange swaps by the RBA for liquidity management are executed with market participants in the market and at market prices. Foreign exchange swaps have been used for many years to augment liquidity operations in domestic securities.

Official cover of forward operations
No.

With respect to the DPRK, it is prohibited to transfer to another person gold (including through gold couriers) that could contribute to the DPRK’s nuclear, ballistic, or weapons-of-mass destruction (WMD) programs or to activities prohibited, or the evasion of measures imposed by UNSC resolutions relating to the DPRK. Australian law also prohibits the procurement of “import sanctions goods” (which includes gold), without a permit from the DPRK, or from a person or entity in the DPRK. A sanctions permit may be granted in very limited circumstances.

With respect to Syria, the following are prohibited: (1) the supply, sale, or transfer of gold (to the Government of Syria or their public bodies, corporations, or agencies, including persons, entities, or bodies acting on their behalf or at their direction and entities or bodies owned or controlled by them); (2) the importation, purchase, or transport of gold from the Government of Syria or their public bodies, corporations, or agencies, including persons, entities, or bodies acting on their behalf or at their direction and entities or bodies owned or controlled by them; and (3) the provision of related financial services or financial assistance or technical advice, assistance or training or another service to the Government of Syria, or their public bodies, corporations, or agencies, including persons, entities, or bodies acting on their behalf or at their direction and entities or bodies owned or controlled by them, if it assists with, or is provided in relation to an activity involving the supply, sale, transfer import, purchase, or transport of certain items including gold.

Exports and imports of $A 10,000 in cash or more, or the foreign currency equivalent must be reported to the Australian Transaction Reports and Analysis Centre Chief Executive Officer (CEO), a police officer, or an Australian Border Force officer for transmission to the Australian Transaction Reports and Analysis Centre for anti-money-laundering and counter-terrorism financing purposes.

With respect to Syria, Australian law prohibits the direct or indirect supply, sale, or transfer to Syria, for use in Syria or for the benefit of Syria of “export sanctioned goods,” which include: newly printed or
unissued Syrian-denominated banknotes and coinage, without a permit. Australian law also prohibits the provision to any person of technical advice, assistance, or training; financial assistance; a financial service; or another services if it assists with or is provided in relation to either: the direct or indirect supply, sale, or transfer to Syria, for use in Syria or for the benefit of Syria of “export sanctioned goods”; or the manufacture, maintenance, or use of an “export sanctioned good” for Syria, without a sanctions permit. With respect to the DPRK, Australian law also prohibits the transfer to another person of any financial or other assets or resources (including bulk cash) which could contribute to the nuclear or ballistic missile programs, or other WMD programs, of the DPRK, or activities prohibited, or the evasion of measures imposed, by any relevant UNSC regarding the DPRK.

Imports of some products require written authorization from the relevant authorities and/or compliance with the requirements of the relevant regulation controlling the importation of the item. Among the goods subject to control are narcotic, psychotropic, and therapeutic substances; certain tobacco products; firearms and certain weapons; certain chemicals and primary commodities; asbestos and goods containing asbestos; specimens of CITES-listed endangered species; some glazed ceramic ware; rough diamonds; incandescent lightbulbs; signal jammers; cultural heritage items; and various dangerous goods. Importation of certain organochlorine chemicals is prohibited unless written permission, either from the Minister responsible for the Commonwealth Department of Agriculture or from an authorized officer, is provided to the Australian Border Force at the time of importation. There is no licensing fee or administrative charge. The Environment Protection and Biodiversity Conservation Act 1999 regulates international trade in Australian native species, live wildlife, and species listed under the CITES.

The Biosecurity Act 2015 and its subordinate legislation apply controls to the importation of all plants, parts of plants and plant products, all animals (including birds, fish and insects), animal products, soil, and other items of general quarantine concern. The importation of woolpacks is prohibited under the provisions of the Customs Act 1901 and Customs (Prohibited Imports) Regulations 1956 unless the permission of the Commonwealth Minister for Agriculture and Water Resources or an authorized person is granted, or a test certificate issued by a prescribed testing authority certifying that the woolpacks conform to Australian standards is produced. There is no licensing fee or administrative charge.

These controls and prohibitions reflect mainly health and safety requirements; requirements for labeling, packaging, and technical specifications; implementation of the government’s energy-efficiency policy; autonomous sanctions; and obligations of international agreements or UNSC sanctions. The importation of arms or related material is prohibited under the sanctions regimes for the DPRK, Iran, Libya, and Russia. Arms or related material is defined broadly and includes, but is not limited to, weapons, ammunition, military
vehicles and equipment, and spare parts for any of those things, as well as paramilitary equipment.

In addition to these restrictions, there are other restrictions on imports which relate to each specific sanctions regime.

With respect to Crimea and Sevastopol, Australian law prohibits the import, purchase, or transport of any goods, without a sanctions permit, if the goods originate in, or are exported from, Crimea or Sevastopol (except certain goods, which have been made available to the Ukrainian authorities for examination and for which compliance with conditions conferring entitlement to preferential origin has been verified by Ukrainian officials).

With respect to the DPRK, under the UNSC sanctions, it is also prohibited to procure from the DPRK, or from a person or entity in the DPRK, any of the following “import sanctioned goods”; and a permit cannot be obtained to authorize their import: certain items relevant to nuclear, ballistic missiles, and other WMD-related programs; certain arms-related items listed in Resolution No. 1718 (2016) of the Security Council, subparagraph 8(a)(i) and (ii) (such as battle tanks, combat vehicles, and aircraft); gold, titanium ore, vanadium ore, or rare earth minerals; goods mentioned in paragraph 5(1)(c) of the Charter of the UN (Sanctions – Democratic People’s Republic of Korea) Regulations 2008; copper, nickel, silver, or zinc; statues; coal, iron, or iron ore; lead or lead ore; seafood; textiles; or goods covered by chapters 07, 08, 12, 25, 44, 84, 85, or 89 of the Harmonized Commodity Description and Coding Systems. The following “import sanctioned goods” cannot be procured, received, or transported from the DPRK, or from a person or entity in the DPRK, without a permit, which may be granted, effective February 6, 2018, in certain circumstances: statues, textiles, coals; and any goods that are not “specified import sanctioned goods” and not food or medicine. Australian law also prohibits the receipt of “import sanctioned goods” from the DPRK, or a person or entity in the DPRK, if the goods are received for the purposes of repair, servicing, refurbishing, testing, reverse engineering, or marketing by the person or another person if it is not authorized by a sanctions permit.

With respect to Iraq, it is prohibited to hold, use, or deal with a “controlled asset” or allow or facilitate the use of it. A “controlled asset” is an asset: (1) of the government led by Saddam Hussein (including a state body, corporation or other body or agency) that was located in Australia May 22, 2003; and (2) that has been removed from Iraq, or acquired, by a person or entity designated for the purposes of the Iraq sanctions regime. It is also prohibited to dealing with an item of Iraqi cultural property or of archaeological, historical, cultural, rare scientific, or religious importance that has been illegally removed from Iraq on or after August 6, 1990.

With respect to Somalia, under UNSC sanctions, it is prohibited to import charcoal from Somalia or from a person or entity in Somalia. With respect to Syria, it is prohibited to import, purchase, or transport certain crude oil, petroleum, and petrochemical products if they originate in or have been exported from Syria, without a sanctions permit. It is also prohibited to import or purchase gold, precious metals, or diamonds from the Government of Syria or an entity or body owned or controlled by it or acting on its behalf or direction, without a sanctions permit. It is also prohibited to give “illegally removed cultural property” to another person, to trade in it, or to transfer the ownership of it to another person. “Illegally removed cultural property” means an item of Syrian cultural property; or of archaeological, historical, cultural, rare scientific, or religious importance that has been illegally removed from Syria on or after March 15, 2011.
The targeted financial sanctions outlined in category II “Exchange Measures” above prohibit providing assets to a proscribed or designated person or entity. This would effectively prohibit imports from any person or entity listed on the Consolidated List maintained by the DFAT.

Open general licenses No.
Licenses with quotas No.
Other nontariff measures No.
Import taxes and/or tariffs Yes.

Most agricultural products enter Australia duty free. A maximum tariff of 5% applies to some manufactured goods, including household textile products. Tariffs on many goods have been eliminated. Tariff concessions are available under the Tariff Concession System for most goods subject to a tariff, if no domestic manufacturers produce substitutable goods. Other concessions are available for specific purposes, such as to accommodate split import consignments and to encourage investment in major projects. Australia currently has eleven multilateral or bilateral trade agreements in force. The following trade agreements have provided the following reduction in tariff duties, excluding excise-equivalent customs duty on alcohol, fuel, and tobacco, for originating goods under each of the agreements:

(1) Comprehensive and Progressive Agreement for Trans-Pacific Partnership (CPTPP), effective January 1, 2019, among Australia, Canada, Japan, Mexico, New Zealand, and Singapore, and effective January 14, 2019, Vietnam: Australia has eliminated duties on 93.3% of tariff lines, with the remaining tariffs to be eliminated by January 1, 2021.

(2) Japan-Australia Economic Partnership Agreement has eliminated duties on 99.0% of tariff lines by April 1, 2019 (same as of April 1, 2018), with the remaining tariffs to be eliminated by April 1, 2021.

(3) Korea-Australia Free Trade Agreement (FTA) has eliminated duties on 99.5% of tariff lines by January 1, 2019 (same as of January 1, 2018), with the remaining tariffs to be eliminated by January 1, 2021.

(4) The ASEAN-Australia-New Zealand FTA, has eliminated tariffs on over 96.7% of tariff lines as of January 1, 2018, and 96.9% as of January 1, 2019, with the remaining tariffs to be eliminated by January 1, 2020.

(5) Under the China-Australia FTA, Australia had eliminated duties on 98.5% of tariff lines by January 1, 2018, and 100% effective January 1, 2019.

All tariff lines are eliminated under the Malaysia-Australia FTA, the Australia-Chile FTA, the Singapore-Australia FTA, the China-Australia FTA (effective January 1, 2019), the Thailand-Australia FTA, the Australia-New Zealand Closer Economic Relations Trade Agreement, and the Australia-United States FTA.

Tariffs and quantitative import and export restrictions on trade in goods from the free trade area are prohibited under the Closer Economic Relations Trade Agreement (ANZCERTA) with New Zealand.

Tariff quotas apply to certain types of cheese and curd that may be imported at a concessional rate of duty of $0.096/kg and is restricted to 11,500 tons a year. Imports may be made outside the 11,500 ton quota allocated each year, but a higher rate of duty of $1.220/kg applies.

Export Control (Plants and Plant Products) Order 2011 was amended, effective September 1, 2018, through the Export Control (Plants and Plant Products) Amendment (Accredited Properties) Order 2018, to include for the accreditation of properties. The amendment legislatively formalizes what were previously administrative arrangements designed to meet importing country requirements set out in bilaterally agreed horticulture export protocols (protocol agreements). The amendment clarifies and strengthens the requirements for Australian properties, including orchards, farms, vineyards, packhouses, and treatment facilities, that produce or prepare fresh fruit and fresh vegetables for export to these specific protocol markets. The amendment to the Australia’s plant export legislation does not affect the existing export inspection and certificate processes. An exporter is required to demonstrate, for the purpose of exporting specific fresh fruit and fresh vegetables to protocol markets, that the product was produced and/or prepared at an accredited property for the purpose of supporting an application for export permits and other certification necessary to accompany prescribed agriculture export consignments.

Export licenses are required. Export prohibitions and restrictions enforce quality control measures, administer UNSC and Australian autonomous sanctions, and meet obligations under international treaties and commitments under international arrangements. Australia’s export control policies reflect the government’s commitment to ensure that exports of defense and dual-use goods are consistent with Australia’s interests, international obligations, and commitments. Prohibitions also maintain adequate measures of control over designated cultural property, resources, flora, and fauna; secure conservation objectives; and respond to specific market distortions abroad. Remaining controls on primary products apply mainly to food and agricultural products and are administered by the Department of Agriculture. Export controls apply to rough diamonds which may be exported only to countries.
participating in the Kimberley Process Certification Scheme, and each shipment must include a Kimberley Process Certificate issued by the Minister administering the Offshore Minerals Act 1994 (or authorized delegate). Export controls apply to uranium, thorium, and other specified nuclear material. Export permissions for uranium and related materials are issued by the Minister administering the National Radioactive Waste Management Act 2012 (or authorized delegate). The Australian Safeguards and Non-Proliferation Office requires exporters to hold a permit to possess uranium and issue safeguards clearance for each individual shipment as required. Export permits from the Australian Radiation Protection and Nuclear Safety Agency (ARPANSA) are required for exports of high-activity radioactive sources. Controls administered by the Department of Agriculture require an export license for exports of woodchips and unprocessed wood (for example, whole logs). These controls apply to wood sourced from areas outside Regional Forest Agreement regions and plantation forests within states and territories where Codes of Practice for plantation forestry are not approved by the Australian Government. Export registration and/or licensing procedures apply to agricultural products (meat, dairy products, eggs, live animals and their reproductive material, fish, vegetables, fruit) to ensure that exporters meet other countries’ import conditions. These include sanitary and phytosanitary conditions. In the case of live animals, controls apply to exporters to ensure they meet Australia’s animal welfare standards. Export controls are regulated by the Department of Agriculture and the appropriate industry agencies. Exports of wine and brandy products in both bulk and bottled form require licenses from the Wine Australia Corporation. Only one entity has an export monopoly for selected agricultural products—the Rice Marketing Board for the State of New South Wales. This board appointed Ricegrowers Limited (trading as SunRice) as the sole and exclusive export license holder for exports of rice grown in New South Wales. (Ricegrowers Limited is also an authorized buyer.) There are no statutory restrictions on the exportation of rice in other Australian states.

DFAT coordinates the implementation, administration, and enforcement of UNSC sanctions and autonomous sanctions, working closely with a wide range of agencies, including the Department of Defense, the Department of Home Affairs, the Australian Transaction Reports and Analysis Centre, and the Australian Federal Police. The export of arms or related material is prohibited, without a permit, under sanctions regimes for the Central African Republic, the DPRK, the Democratic Republic of the Congo, Iran, Iraq, Lebanon, Libya, Myanmar, Russia, Somalia, South Sudan, Sudan, Syria, the Taliban, Yemen, and Zimbabwe. Australian law prohibits the export of arms or related material to a designated person or entity for the UNSC sanctions regime in relation to ISIL (Da’esh) and Al-Qaida, and it is not possible to obtain a permit for the export of such items. Arms or related material is defined broadly and includes, but is not limited to, weapons, ammunition, military vehicles and equipment, and spare parts for any of those things, as well as paramilitary equipment. In addition to these restrictions, there are other restrictions on exports which relate to each specific sanctions regime. With respect to the DPRK, food and medicine are the only goods which may be exported, supplied, sold, or transferred to the DPRK without restriction. Australian law prohibits the direct or indirect supply, sale, or transfer to the DPRK of a range of “specified export sanctioned goods,” including aviation fuel; condensates and natural gas liquids; refined petroleum products; crude oil, certain luxury goods specified by Australia’s Minister for Foreign Affairs, such as alcohol and
cosmetics; goods determined by the Security Council or the Committee for the purposes of subparagraphs (8)(a)(i) or (ii) of UNSC Resolution No. 1718, or goods to which the measures mentioned in paragraphs 8(a), (b), and (c) of UNSC Resolution No. 1718 apply under a decision of the Security Council or the Committee; goods that the Minister has determined could contribute to the nuclear or ballistic missile programs, or other WMD programs of the DPRK, or activities prohibited, or the evasion of measures imposed, by relevant Resolutions of the Security Council on the DPRK; new helicopters; vessels (new or used), or goods covered by any of chapters 72 to 89 of the Harmonized Commodity Description and Coding Systems. Permits may be granted for the export of some of these goods in extremely limited circumstances. Australian law also prohibits the direct or indirect supply, sale, or transfer to the DPRK of goods that are not “specified export sanctioned goods”; and permits may be granted, effective February 3, 2018, for the export of some of these goods in extremely limited circumstances.

With respect to Iran, there are also restrictions on the export of several goods to Iran under Australia’s UN and autonomous sanctions regimes. In accordance with the UN sanctions regime, Australian law also prohibits the direct or indirect supply, sale, or transfer to Iran of the following “export sanctioned goods”: all goods set out in either INFCIRC/254/Parts 1 or 2 or S/2015/546 or listed in the Charter of the UN (Sanctions – Iran) (Export Sanctioned Goods) List Determination 2016, without a sanctions permit. Australia’s autonomous sanctions law also prohibits the direct or indirect supply, sale, or transfer to Iran, for use in Iran, or for the benefit of Iran, of the following “export sanctioned goods” for Iran of a kind specified in the Autonomous Sanctions (Export and Import Sanctioned Goods – Iran) Amendment Specification 2016, without a sanctions permit: graphite or raw metals; or semifinished metals or software for integrating industrial processes.

With respect to Iraq, it is prohibited to hold, use, or deal with a “controlled asset” or allow or facilitate the use of it. A “controlled asset” is an asset: (1) of the government led by Saddam Hussein (including a state body, corporation or other body or agency) that was located in Australia May 22, 2003; and (2) that has been removed from Iraq, or acquired, by a person or entity designated for the purposes of the Iraq sanctions regime. Under the UNSC Iraq sanctions regime, it is also prohibited to give “illegally removed cultural property” to another person; trade in it; or transfer the title of it. “Illegally removed cultural property” means an item of Iraqi cultural property or of archaeological, historical, cultural, rare scientific, or religious importance that has been illegally removed from Iraq since August 6, 1990. The effect of these prohibitions is that these assets are “frozen” and cannot be used or dealt with (which would prohibit any exportation of such items).

With respect to Russia, it is also prohibited to export certain items for specified types of oil exploration or oil production projects in Russia, as set out in the Autonomous Sanctions (Russia, Crimea and Sevastopol) Specification 2015, without a sanctions permit. With respect to Crimea and Sevastopol, it is prohibited to directly or indirectly supply, sell, or transfer for use in Crimea or Sevastopol, or for the benefit of Crimea or Sevastopol, certain specified items relating to the creation, acquisition, or development of infrastructure for: (1) the transport, telecommunications, and/or energy sectors; and/or the exploitation of oil, gas, or mineral reserves in Crimea/Sevastopol, without a sanctions permit.

With respect to Syria, it is also prohibited to export the following specified goods, without a sanctions permit: (1) certain equipment
and technology for use in construction or installation of new electricity power plants or for the oil and gas or petrochemical industries; (2) equipment, technology, or software to monitor or intercept Internet or telephone communications; (3) newly printed or unissued Syrian banknotes or coinage; (4) certain luxury goods; (5) certain materials, chemicals, microorganisms, and toxins, and equipment for processing those items; and (6) gold, precious metals, and diamonds if the recipient is the Government of Syria or an entity or body controlled by it or acting on its behalf. Under UNSC Resolution No. 2199, it is prohibited to deal with an item if it was illegally removed from Syria on or after March 15, 2011, and it is either Syrian cultural property or it is otherwise of archaeological, historical, cultural, rare scientific, or religious importance. It is also prohibited to give illegally removed cultural property to another person, to trade it, or to transfer the ownership of it to another person. The effect of these prohibitions is that these assets are “frozen” and cannot be used or dealt with (which would prohibit any export of such items).

The targeted financial sanctions outlined in category II “Exchange Measures” above prohibit dealing with the assets of a proscribed or designated person or entity. This would effectively prohibit exports from any person or entity listed on the Consolidated List maintained by the DFAT.

| With quotas | No. |
| Export taxes | No. |
| Collected through the exchange system | No. |
| Other export taxes | No. |

extending an interest in, or establishing or participating in a business with, or granting a financial loan or credit to (1) a person or entity (wherever located) that is engaged in an extractive or its related industry or associated infrastructure, in the DPRK (or persons or entities acting on their behalf, direction or control; and (2) a DPRK person or entity, or those acting on their behalf, direction or control, that is engaged in an extractive or related industry outside the DPRK.

With respect to Crimea and Sevastopol, Australian law prohibits, without a sanctions permit: (1) the granting of any financial loan or credit, or the establishment of a joint venture, in relation to the following sectors; and/or (2) the acquisition or extension of an interest in an enterprise that was established in Crimea or Sevastopol and is engaged in the following sectors:

- the creation, acquisition, or development of infrastructure in the transport, telecommunications, or energy sectors; or
- the exploitation of oil or gas, or of mineral resources specified in the Autonomous Sanctions (Russia, Crimea and Sevastopol) Specification 2015.

With respect to Russia, Australian law generally prohibits, without a sanctions permit (with some exceptions): (1) the purchase or sale of, or any other dealing with, bonds, equity, transferable securities, money market instruments, or other similar financial instruments, if the financial instrument is issued by an entity specified by the Minister for Foreign Affairs; and (2) making, or being part of any arrangement to make loans or credit if the loan or credit is made to an entity specified by the Minister for Foreign Affairs.

With respect to Syria, Australian law prohibits, without a sanctions permit, the acquisition or extension of an interest in: (1) the establishment of, or participation in, a joint venture with; and/or (2) the granting of a financial loan or credit to an entity that is engaged in the petrochemical industry or the oil and gas industry, and connected to Syria.

---

**On capital market securities**

Yes.

**Shares or other securities of a participating nature**

Yes.

**Purchase locally by nonresidents**

Yes.

The acquisition of shares and other securities of a participating nature that may be affected by laws and policies on inward direct investment may require notification to the Australian authorities. Notification may be required under the foreign investment review framework subject to the percentage interest and monetary thresholds prescribed under the Foreign Acquisitions and Takeovers Act 1975, associated regulations, and foreign investment policy. Further, the acquisition of shares and other securities in listed companies or unlisted companies with over 50 shareholders is regulated by the takeover rules in Chapter 6 of the Corporations Act. If an Australian bidder is offering scrip consideration under a takeover bid, the terms of that bid may permit securities that would be offered as consideration to nonresidents who accept the bid to instead be transferred to an approved nominee approved by ASIC (holding an AFSL) to sell those securities for the benefit of foreign holders and to distribute the proceeds of sale to the holders: Section 619. A rights issue for the pro-rata offer of securities made to all holders may exclude nonresidents (members with a registered address outside of Australia or New Zealand). If any person, such as a member or underwriter, needs to rely on the takeovers’ exemption for rights issues in item 10 of Section 611, the securities that would otherwise be issued to nonresidents who accept the offer (or the right to acquire those securities) must be transferred to a nominee approved by ASIC (holding an AFSL) to sell and distribute the proceeds of sale to the holders.
foreign holders: Section 615. Both of these provisions are intended to facilitate control or capital transactions in circumstances where extending an offer of securities to nonresidents may be constrained by foreign law, or where the cost of compliance with foreign law may be disproportionate to the number of nonresident holders in a particular jurisdiction.

Australian companies which conduct a share buyback must follow the procedure set out in Part 2J.1 of the Act. For an equal-access scheme, all shareholders must be treated equally, including nonresident shareholders. However, ASIC can give individual relief from this legislative requirement to an Australian company to exclude nonresident shareholders from a buyback (which is, in essence, an equal-access scheme) where the company cannot make an offer to some shareholders because of the laws of the country in which they reside.

The Treasurer’s approval is required to hold more than, effective November 1, 2018, 20% (previously 15%) of the voting shares of an Australian bank. The Treasurer may grant approval only if the shareholding is in the national interest or for recently established companies that are below a specified asset size threshold.

While the Corporations Act usually requires a prospectus or other disclosure document for an offer of securities that is received in Australia, whether from a local or foreign issuer, ASIC has given conditional relief from the prospectus disclosure requirements where a foreign entity makes certain offers to Australian resident shareholders of the foreign entity. The conditional relief for rights issues by foreign companies, foreign scrip takeovers, and schemes of arrangement and for offers that result in securities being issued to 20 or fewer investors in 12 months to Australian residents is subject to certain conditions, including listing of the foreign securities on an approved foreign market.
foreign investment review framework subject to the percentage interest and monetary thresholds prescribed under Foreign Acquisitions and Takeovers Act 1975, associated regulations, and foreign investment policy. Further, the acquisition of securities in listed collective investment schemes is regulated by the takeover rules in Chapter 6 of the Corporations Act. If Australian issuers have determined that it would not be reasonable to make an offer of securities to nonresidents required or permitted by Chapter 6, nonresidents may receive cash instead of securities. Section 615 of the Act allows for the appointment of a nominee approved by ASIC (holding an AFSL) to sell securities for the benefit of foreign holders and to distribute the proceeds of sale to the holders.

The provision of financial services, including the offers of financial products (including shares) in Australia, by residents and nonresidents, is subject to Chapter 7 of the Corporations Act. Chapter 7 imposes a requirement on the provider of the financial services to hold an Australian financial services licence (AFSL) and to meet certain structural requirements. There are limited exceptions to the AFSL requirement. Further, where the financial service is the operation of a registered collective investment scheme (CIS), subject to some limited exceptions, the operator must be an Australian public company, must register the CIS with ASIC and issue a compliant disclosure document.

For providers of financial services, ASIC can exempt a foreign financial services provider (FFSP) from the requirement to hold an AFSL. ASIC’s current policy in relation to the FFSP is set out in Regulatory Guide 176—Foreign Financial Services Providers, which allows, on condition, certain FFSPs to provide financial services, including the offer of interests in a CIS, to wholesale (but not retail) clients in the Australian market. Broadly, the relief may be available when (1) regulation by the FFSP’s overseas regulatory authority is sufficiently equivalent to ASIC regulation (from a market integrity and systemic risk perspective), (2) there are effective cooperation arrangements between the overseas regulatory authority and ASIC, and (3) the financial services provided are restricted to wholesale clients. Generally, relief is currently available for complying entities regulated by the U.K. Financial Conduct Authority; U.S. Securities and Exchange Commission, Federal Reserve, and OTC regulated financial service providers; the Monetary Authority of Singapore; Hong Kong’s Securities & Futures Commission; the U.S. Commodity Futures Trading Commission; Germany’s Bundesanstalt für Finanzdienstleistungs aufsicht (Federal Financial Supervisory Authority); and Luxembourg’s Commission de Surveillance du Secteur Financier. This policy is under review to ensure that regulatory requirements may be adequately enforced against persons relying on exemptions. ASIC Corporations (Repeal and Transitional) Instrument 2016/396 repealed the relief on the requirement of holding AFSL for the purpose of offering financial products in Australia; however, to provide certainty for FFSPs, the effect of the relief was extended for 18 months from March 2017 and was extended, effective October 1, 2018, for additional 12 months, so that the relief will continue to apply until September 30, 2019. The 2017/182 instrument, which is another major form of relief for FFSPs, was extended March 30, 2017, for 18 months until September 30, 2018, which was then extended again, effective October 1, 2018, for additional 12 months until September 30, 2019.

If the financial service that the foreign provider is providing deals with the operation of, and issue of interests in, a foreign collective investment scheme (FCIS), ASIC may exempt the FCIS operator from the requirement to hold an AFSL in relation to that operation, to
register the FCIS in Australia with ASIC, and to issue a compliant disclosure document. ASIC’s policy in relation to the FCIS is set out in Regulatory Guide 178—Foreign Collective Investment Schemes. ASIC can grant relief from the legal provisions, if the applicant who applies complies with ASIC requirements in relation to that relief. Broadly, the relief is based on (1) the regulation by the regulatory regime to which the FCIS is subject to is sufficiently equivalent to ASIC regulation (from a market integrity and systemic risk perspective); (2) there are effective cooperation arrangements between the overseas regulatory authority and the ASIC; and (3) adequate rights and remedies are practically available to Australian investors. This policy is also under review. Other exemptions from regulatory requirements may apply in respect of foreign collective investment schemes under frameworks in the Corporations Act. This currently applies to New Zealand schemes under Chapter 8 of the Act and is proposed to apply to scheme operating under the Asia Region Funds Passport.

Certain Autonomous Sanctions apply. With respect to the DPRK, Australian law prohibits without a sanctions permit, acquiring or extending an interest in, or establishing or participating in a business with, or granting a financial loan or credit to: (1) a person or entity (wherever located) that is engaged in an extractive or related industry, or its associated infrastructure, in the DPRK (or persons or entities acting on their behalf, direction or control); and (2) a DPRK person or entity, or those acting on their behalf, direction or control, that is engaged in an extractive or related industry outside the DPRK.

With respect to Crimea and Sevastopol, Australian law prohibits, without a sanctions permit: (1) the granting of any financial loan or credit, or the establishment of a joint venture, in relation to the following sectors; and/or (2) the acquisition or extension of an interest in an enterprise that was established in Crimea or Sevastopol and is engaged in the following sectors:

- the creation, acquisition, or development of infrastructure in the transport, telecommunications, or energy sectors;
- or the exploitation of oil or gas, or of mineral resources specified in the Autonomous Sanctions (Russia, Crimea and Sevastopol) Specification 2015.

With respect to Russia, Australian law generally prohibits, without a sanctions permit (with some exceptions): (1) the purchase or sale of, or any other dealing with, bonds, equity, transferable securities, money market instruments, or other similar financial instruments, if the financial instrument is issued by an entity specified by the Minister for Foreign Affairs; and (2) making, or being part of any arrangement to make loans or credit if the loan or credit is made to an entity specified by the Minister for Foreign Affairs.

With respect to Syria, Australian law prohibits, without a sanctions...
permit, the acquisition or extension of an interest in: (1) the establishment of, or participation in, a joint venture with; and/or (2) the granting of a financial loan or credit to an entity that is engaged in the petrochemical industry or the oil and gas industry, and connected to Syria.

Persons engaging in regulated credit activities generally need an Australian Credit License or an authorization from a credit licensee (before commencing business). Some credit activities may be exempt from licensing requirements under Regulations or through a specific exemption from ASIC. Foreign entities may apply for a credit license but must meet additional requirements regarding the appointment of a local agent for legal processes (such as a local agent resident in the jurisdiction that is authorized to accept service of process and notices).

With respect to Crimea and Sevastopol, Australian law prohibits, without a sanctions permit: (1) the granting of any financial loan or credit, or the establishment of a joint venture, in relation to the following sectors; and/or (2) the acquisition or extension of an interest in an enterprise that was established in Crimea or Sevastopol and is engaged in the following sectors:

- the creation, acquisition, or development of infrastructure in the transport, telecommunications, or energy sectors;
- or the exploitation of oil or gas, or of mineral resources specified in the Autonomous Sanctions (Russia, Crimea and Sevastopol) Specification 2015.

With respect to the DPRK, under the UNSC sanctions regime, Australian law prohibits a financial institution to (1) open a representative office, branch, or subsidiary in the DPRK; (2) establish a joint venture or correspondent banking relationship with, open a bank account with, or acquire, extend, sell, or make available an interest in a financial institution domiciled in the DPRK, a branch or subsidiary, wherever located, of a financial institution domiciled in the DPRK, a financial institution wherever domiciled that is controlled by an entity or person in the DPRK. It is also prohibited, without a sanctions permit, to establish, maintain, or operate a joint venture or cooperative entity with a DPRK person or entity, an entity controlled by a DPRK person or entity, or a person or entity acting on behalf of or at the direction of a DPRK person or entity. Under Australia’s autonomous sanctions regime, it is prohibited, without a sanctions permit, to acquire or extend an interest in, establish or participate in a business relationship with, or grant a financial loan or credit to (1) a person or entity engaged in an extractive or related industry or associated infrastructure in the DPRK, or those acting on their behalf, or (2) a DPRK person or entity, or those acting on their
behalf, engaged in an extractive or related industry outside the DPRK. It is also prohibited, without a sanctions permit, to obtain, use, deal with, or make available any asset that is a tenement or permission in relation to an extractive or related industry or associated infrastructure in the DPRK. It is also prohibited, without a sanctions permit, to obtain any tenement or permission in relation to an extractive or related industry or associated infrastructure in the DPRK from a DPRK person or entity, or those acting on their behalf. With respect to Iran, in accordance with the UNSC sanctions regime, Australian law prohibits, without a sanctions permit, the sale, or otherwise making an interest available to Iran; an Iranian national; an Iranian entity; or a person or entity acting on their behalf or under their control, in commercial activities involving uranium mining, production, or the use of certain nuclear-related and ballistic missile-related goods.

With respect to Russia, Australian law generally prohibits, without a sanctions permit (with some exceptions): (1) the purchase or sale of, or any other dealing with, bonds, equity, transferable securities, money market instruments, or other similar financial instruments, if the financial instrument is issued by an entity specified in the Autonomous Sanctions (Russia, Crimea and Sevastopol) Specification 2015; and (2) making, or being part of any arrangement to make loans or credit if the loan or credit is made to an entity specified in the Autonomous Sanctions (Russia, Crimea and Sevastopol) Specification 2015.

With respect to Syria: It is prohibited, without a sanctions permit, to acquire or extend an interest in, establish or participate in a joint venture with, and grant a financial loan or credit to an entity that is engaged in the petrochemical industry or the oil and gas industry, and connected to Syria. It is also prohibited, without a sanctions permit, for a financial institution to obtain a representative office, or a branch or subsidiary, in Syria.

**Outward direct investment**

No.

**Inward direct investment**

Yes. Controls apply to interests including: (1) investment in media, telecommunications (including Telstra), the financial sector, transport (including Australian international airlines and shipping), defense and military-related industries, the development, manufacture, or supply of or services relating to encryption and security technologies and communication systems, and the extraction of uranium or plutonium or the operation of nuclear facilities, and banking; (2) proposals within the scope of the foreign investment screening regime, which broadly cover the following where the specified thresholds were indexed on an annual basis effective January 1, 2019: (a) actions for which approval is required to acquire interests in securities, assets, entities (being corporations and unit trusts), and businesses that have a connection to Australia valued at more than $A 266 million; (b) if the foreign investor is from Canada (effective January 1, 2019), Chile, China, Japan, Mexico (effective January 1, 2019), Korea, New Zealand, Singapore, Vietnam (effective January 14, 2019), or the United States, and is acquiring an interest in nonsensitive businesses exceeding $A 1,154 million and for sensitive business valued at more than $A 266 million; (c) actions to acquire an interest in Agribusiness valued above $A 58 million unless the foreign investor is from Chile, New Zealand, and the United States in which case the acquired interest is valued above $A 1,154 million; (d) direct investment by foreign government investors and proposals for new businesses in Australia and acquisition of land regardless of value; (e) direct interest in developed commercial real estate exceeding $A 266 million unless the interest is in sensitive land.
above $A 58 million or the direct interest is from a foreign investor from Chile, China, Japan, Korea, New Zealand, Singapore, and the United States and interest acquired exceeds $A 1,154 million; (f) actions to acquire an interest in vacant commercial land; (g) approval is required for direct investment in agricultural land exceeding the value of $A 15 million (cumulative) unless acquired by a foreign investor from Thailand and the agricultural land is used wholly and exclusively for a primary production business and the acquisition exceeds $A 50 million, or if the foreign investor is from Chile, New Zealand, and United States and their cumulative interest exceeds $A 1,154 million. All monetary thresholds referred to in (a)–(g) are indexed annually January 1 each year except the threshold for agricultural land exceeding $A 15 million (cumulative) and $50 million threshold for investors from Thailand where the agricultural land is used wholly and exclusively for a primary production business; (3) foreign life insurers, who under the Life Insurance Act 1995 may not establish branches in Australia (except for those specified in the Life Insurance Regulations 1995: Chinese, Japanese, Korean, New Zealand, and US insurers); and (4) investment to the extent that constituent states or territories of Australia exercise legislative control over such investment. Controls do not apply to the acquisition of an interest in securities, assets, a trust, Australian land, or a tenement by foreign custodian companies acting at the direction of clients.

With respect to the DPRK, under Australia’s autonomous sanctions regime, it is prohibited, without a sanctions permit, to sell or make available (otherwise than by sale) an interest in a commercial activity in an extractive or related industry in Australia to a DPRK person or entity, or those acting on their behalf. Under the UNSC sanctions regime, it is prohibited, without a sanctions permit, to (1) open a representative office in Australia of, or (2) establish a branch or subsidiary in Australia of, or (3) conclude an agreement related to (1) or (2) for or on behalf of: a financial institution domiciled in the DPRK; a branch or subsidiary, wherever located, of a financial institution domiciled in the DPRK; or a financial institution wherever domiciled that is controlled by an entity or person in the DPRK.

With respect to Syria, under Australia’s autonomous sanctions regime, there are prohibitions, without a sanctions permit, on the sale or making available of an interest in a commercial activity in Australia in the oil and gas industry (in the following sectors: refining of fuels, exploration or production of crude oil and natural gas or liquefaction of natural gas) to the Syrian Government, or any Syrian person or entity, or an entity or person acting on their behalf, at their direction or under their control. It is also prohibited, without a sanctions permit, for a Syrian financial institution (or a financial institution controlled by a Syrian person or entity) to open a representative office, branch, or subsidiary in Australia, and acquire an interest in an Australian financial institution. It is also prohibited, without a sanctions permit, to establish a joint venture or a correspondent banking relationship with a Syrian financial institution.

| Controls on liquidation of direct investment | No. |
| Controls on real estate transactions | Yes. |
| Purchase abroad by residents | No. |
| Purchase locally by nonresidents | Yes. |

Controls apply to the acquisition of real estate in Australia except for acquisitions including (1) direct interest in developed nonresidential commercial real estate valued at less than, effective January 1, 2019,
because of annual indexation, $A 266 million or less than $A 58 million for sensitive land or the direct interest is from a foreign investor from Canada (effective January 1, 2019), Chile, China, Japan, Korea, Mexico (effective January 1, 2019), New Zealand, Singapore, Vietnam (effective January 14, 2019), or the United States, or and interest acquired is below $A 1,154 million (thresholds are indexed annually); (2) interest in time-share plans whose foreign interest and that of any associates is less than four weeks a year; (3) residential real estate by approved migrants, special category visa holders, and other foreigners entitled to permanent residence in Australia, including Australian permanent residents and those ordinarily resident in Australia and special category visa holders buying through Australian companies; (4) nonresident Australians, directly or indirectly through Australian companies and trusts; (5) residential real estate by spouses or de facto partners of Australian citizens or Australian permanent residents; (6) offices and residences by foreign government missions for use as official missions or residences for staff, subject to sale to Australians or other eligible purchasers when no longer used for those purposes; (7) minority interests in public companies and trusts whose principal assets are real estate, as permitted by regulations under the Foreign Acquisitions and Takeovers Act 1975; (8) by general insurance companies operating in Australia, if the acquisition is made from the reserves of the companies and conforms to the company’s obligations under the Insurance Act 1973; (9) Australian land by foreign-controlled responsible entities acting on behalf of a managed investment scheme (MIS) registered under Section 601EB of the Corporations Act 2001, when investing primarily for the benefit of members ordinarily resident in Australia; (10) interests in Australian land by foreign custodians acting at the direction of clients; (11) interests acquired by will or devolution of law. Hospitality facilities, such as hotels, motels, hostels, and guesthouses, are considered developed commercial land and are subject to the thresholds specified above at (1). Residential real estate purchased by temporary residents directly or through Australian companies or trusts which is an established dwelling intended to be the buyer’s place of residence, constitutes single blocks of vacant land, or is a new dwelling that requires notification and approval under the Foreign Acquisitions and Takeovers Act 1975. The Commonwealth Government (1) applies an annual vacancy fee on foreign owners of under-utilized residential property where the property is not occupied or genuinely available on the rental market for at least six months in a 12-month period; (2) capped sales from property developers directly to foreign persons at 50% of dwellings in new residential housing developments under New Dwelling Exemption Certificates; and (3) eliminated the main residence capital gains tax exemption for foreign tax residents. Most states and territories of Australia impose either higher stamp duties on the purchase of real estate by nonresidents or land tax surcharges on the ownership of land by nonresidents or both. These taxes are levied by the state or territory governments, not the Commonwealth Government.

Foreign buyers of properties are subject to additional duty (stamp duty) of 7% in the states of Victoria, Queensland (effective July 1, 2018, previously 3%), Western Australia (effective January 1, 2019, previously 4%), and South Australia (effective January 1, 2018, previously 4%). In the state of New South Wales, the surcharge purchaser duty (stamp duty) imposed on foreign buyers is 8%. Tasmania has a 3% stamp duty on foreign buyers of residential real estate with an additional 0.5% charge applicable to agricultural land. Effective July 1, 2018, New South Wales increased its land tax...
surcharge imposed on foreign owners to 2% from 0.75%. In Victoria, the land tax surcharge (on vacant properties only) imposed on foreign owners is 1.5%. Queensland has an “absentee” owner surcharge of 1.5% that can apply to foreign owners as well as Australian citizens who do not reside in Australia. The Australian Capital Territory (ACT) introduced a 0.75% surcharge on the unimproved land value of foreign investors in the ACT effective July 1, 2018.

Provisions Specific to the Financial Sector

Under the Banking Act 1959, authorized by the Australian Prudential Regulation Authority’s (APRA), an authorized deposit-taking institution is required to conduct banking business in Australia. Foreign banks may operate as domestically incorporated subsidiaries or as foreign branches. Foreign branches are subject to less intensive prudential regulation, although they are restricted to wholesale and corporate business. Authorization for licensees providing financial services in emissions units is a requirement. Some new applicants also request authorization to deal in foreign exchange because emissions units’ authorizations also include eligible international emissions units. The financial requirements for licensees that issue OTC derivatives to retail clients, including contracts for difference and margin foreign exchange, were increased beginning January 31, 2013, through Class Order 12/752. These requirements are outlined in Regulatory Guide 166. The increases affected some licensees that have foreign exchange authorizations. The Autonomous Sanctions Regulations of 2011 prohibit: a financial
institution from establishing a joint venture, correspondent banking relationship, or a bank account with a Syrian financial institution, or setting up a representative office, branch, or subsidiary in Syria. Syrian financial institutions are prohibited, without a sanctions permit, from opening a representative office, branch, or subsidiary in Australia. They are also prohibited from acquiring interests in Australian financial institutions, and establishing a joint venture or correspondent banking relationship with Australian financial institutions. They are also prohibited from the sale of an interest in an Australian financial institution to a Syrian financial institution. They are also prohibited from opening a representative office, branch, or subsidiary in Syria.

With respect to Iran, the Australian Government maintains certain autonomous sanction measures, as the Charter of the UN (Sanctions – Iran) Regulation of 2016 entered into force, giving effect to Resolution 2231, amending and repealing the Charter of the UN (Sanctions – Iran) Regulations of 2008.

<tbody>
<tr>
<td>Insurance companies</td>
<td>Yes.</td>
</tr>
<tr>
<td>APRA authorizes general, life, and health insurers under the Insurance Act 1973, the Life Insurance Act 1995, and the Private Health Insurance (Prudential Supervision) Act 2015, respectively. The amendments made to the Insurance Act 1973 in 2008 provide for limited exemptions to be made under the Insurance Regulations 2002; these enable general insurance business that cannot be appropriately placed in Australia to be provided by an unauthorized foreign insurer (UFI). The types of insurance business that can be provided by an unauthorized foreign insurer are insurance contracts for atypical risks, high-value insureds, and other risks that cannot reasonably be placed in Australia. There are also exceptions for large businesses and global companies headquartered in Australia. Foreign life insurers must generally operate through Australian-incorporated subsidiaries. The Life Insurance Regulations 1995 provide that only Japanese, Korean, Chinese, New Zealand, and US life insurers may operate through branches in Australia. Insurers are also subject to the licensing, conduct, and disclosure requirements in the Corporations Act 2001 in their dealings with retail clients.</td>
<td></td>
</tr>
<tr>
<td>Pension funds</td>
<td>Yes.</td>
</tr>
<tr>
<td>Most pension (superannuation) funds, other than self-managed funds that are regulated by the ATO, require APRA licensing under the Registrable Superannuation Entity licensing regime. The trustees of these funds may also hold an AFSL that is issued by ASIC and must satisfy conduct and disclosure obligations in the Corporations Act 2001. The Superannuation Industry (Supervision) Act 1993 restricts related party transactions (for example, lending to members, in-house assets), but there are no restrictions on investment. To be eligible for concessional taxation, control and management of a complying pension fund must usually be in Australia (or outside Australia for a period of not more than two years). For self-managed superannuation funds, at least 50% of active members’ total market assets must belong to active members who are Australian residents.</td>
<td></td>
</tr>
<tr>
<td>Investment firms and collective investment funds</td>
<td>Yes.</td>
</tr>
<tr>
<td>The operation of retail managed investment scheme (MIS) (collective investment vehicles that issue interests to retail clients) is subject to registration, licensing, conduct, and disclosure provisions under the Corporations Act 2001. These requirements do not apply to wholesale schemes. Scheme operators may also be required to obtain licences under other legislation, depending on the nature of their investments. For taxation purposes, nonresidents investing through a MIS are</td>
<td></td>
</tr>
</tbody>
</table>
treated differently to resident investors. Generally, nonresidents are subject to Australia’s withholding tax rules, with income arising from passive income investments (such as shares, rent, or interest) subject to a form of withholding tax, while capital gains are taxed only in respect of non-portfolio interests in taxable Australian property. Australia only imposes taxing rights on Australian sourced income. Domestic (that is, resident) investors are taxed on all income at their marginal tax rate.

Limits (max.) on securities issued by nonresidents No.
Limits (max.) on investment portfolio held abroad No. From a tax perspective, there are restrictions on the extent to which a trust can be “closely held” for the purposes of accessing concessional withholding tax rates. One such example is that a trust must not have one nonresident individual holding 10% or more of the participation interests. This restriction applies to both a registered MIS that is a retail trust and a MIS that is a wholesale trust.

Limits (min.) on investment portfolio held locally No.
Currency-matching regulations on assets/liabilities composition No.

Changes during 2018 and 2019

Exchange Measures

Exchange measures imposed for security reasons
11/14/2018 Sanctions against Eritrea were lifted in accordance in UNSC resolution.
11/28/2018 Sanctions concerning Mali in accordance with UNSC Resolution No. 2374 were implemented.

Imports and Import Payments

Import licenses and other nontariff measures
02/06/2018 With respect to the Democratic People’s Republic of Korea, for all goods (except food and medicine) that are not under a different sanction regime, a permit must be obtained from the Minister for Foreign Affairs before import.

Import taxes and/or tariffs
01/01/2018 Under the ASEAN-Australia-New Zealand Free Trade Agreement for ASEAN-originating goods, Australia had eliminated tariffs on over 96.7% of tariff lines by this date, with the remaining tariffs to be eliminated by January 1, 2020.
01/01/2018 Under the China-Australia Free Trade Agreement, Australia had eliminated duties on 98.5% of tariff lines by this date, with the remaining tariffs to be eliminated by January 1, 2019.
01/01/2018 Under the Korea-Australia Free Trade Agreement, Australia had eliminated duties on 99.5% of tariff lines by this date, with the remaining tariffs to be eliminated by January 1, 2021.
04/01/2018 Under the Japan-Australia Economic Partnership Agreement, Australia had eliminated duties on 99.0% of tariff lines by this date, with the remaining tariffs to be eliminated by April 1, 2021.
01/01/2019 The Comprehensive and Progressive Agreement for Trans-Pacific Partnership became effective among Australia, Canada, Japan, Mexico, New Zealand, and Singapore. Australia eliminated duties on 93.3% of tariff lines, with the remaining tariffs to be eliminated by January 1, 2021.
Under the China-Australia Free Trade Agreement, Australia had eliminated duties on 100% of tariff lines.

Under the ASEAN-Australia-New Zealand Free Trade Agreement for ASEAN-originating goods, Australia had eliminated tariffs on over 96.9% of tariff lines by this date, with the remaining tariffs to be eliminated by January 1, 2020.

The Comprehensive and Progressive Agreement for Trans-Pacific Partnership became effective in Vietnam.

Exports and Export Proceeds

Documentation requirements

Other

Export Control (Plants and Plant Products) Order 2011 was amended, effective September 1, 2018, through the Export Control (Plants and Plant Products) Amendment (Accredited Properties) Order 2018, to include for the accreditation of properties. The amendment legisively formalizes what were previously administrative arrangements designed to meet importing country requirements set out in bilaterally agreed horticulture export protocols (protocol agreements). The amendment clarifies and strengthens the requirements for Australian properties, including orchards, farms, vineyards, packhouses, and treatment facilities, that produce or prepare fresh fruit and fresh vegetables for export to these specific protocol markets. The amendment to the Australia’s plant export legislation does not affect the existing export inspection and certificate processes. An exporter is required to demonstrate, for the purpose of exporting specific fresh fruit and fresh vegetables to protocol markets, that the product was produced and/or prepared at an accredited property for the purpose of supporting an application for export permits and other certification necessary to accompany prescribed agriculture export consignments.

Export licenses

Without quotas

With respect to the Democratic People’s Republic of Korea (DPRK), for all goods (except food and medicine, which are the only goods that may be exported, supplied, sold, or transferred to the DPRK without restriction) that are not under a different sanction regime, a permit must be obtained from the Minister for Foreign Affairs before export.

Capital Transactions

Controls on capital transactions

Controls on capital and money market instruments

On capital market securities

Shares or other securities of a participating nature

Purchase locally by nonresidents

On collective investment securities

Sale or issue locally by nonresidents

The Treasurer’s approval is required to hold more than 20% (previously 15%) of the voting shares of an Australian bank.

The relief on the requirement of holding Australian financial services license for the purpose of offering financial products in Australia, repealed by Australian Securities and Investments Commission Corporations (Repeal and Transitional) Instrument 2016/396, was extended for additional 12 months, so that the relief will continue to apply until September 30, 2019.

The 2017/182 instrument, which is another major form of relief for foreign financial services providers, was extended for additional 12
Controls on direct investment

Inward direct investment

01/01/2018
All monetary thresholds with respect to proposals within the scope of the foreign investment screening were indexed on an annual basis.

01/01/2019
All monetary thresholds with respect to proposals within the scope of the foreign investment screening were indexed on an annual basis.

01/01/2019
Regarding the foreign investment screening regime, pursuant to the Comprehensive and Progressive Agreement for Trans-Pacific Partnership, Canada and Mexico were included in the list of countries with higher thresholds for acquiring an interest in sensitive and nonsensitive businesses.

01/14/2019
Regarding the foreign investment screening regime, pursuant to the Comprehensive and Progressive Agreement for Trans-Pacific Partnership, Vietnam was included in the list of countries with higher thresholds for acquiring an interest in sensitive and nonsensitive businesses.

Controls on real estate transactions

Purchase locally by nonresidents

01/01/2018
In the state of South Australia, the additional duty (stamp duty) imposed on foreign buyers of property was increased to 7% from 4%.

01/01/2018
The thresholds for direct interest in developed nonresidential commercial real estate and sensitive land were indexed on an annual basis.

07/01/2018
The Australian Capital Territory (ACT) introduced a 0.75% surcharge on the unimproved land value of foreign investors in the ACT.

07/01/2018
In the state of Queensland, the additional duty (stamp duty) imposed on foreign buyers of property was increased to 7% from 3%.

07/01/2018
In the state of New South Wales, the land tax surcharge imposed on foreign owners was increased to 2% from 0.75%.

01/01/2019
Regarding the foreign investment screening regime, pursuant to the Comprehensive and Progressive Agreement for Trans-Pacific Partnership, Canada and Mexico were included in the list of countries with higher thresholds for acquiring direct interest in developed commercial real estate and sensitive land.

01/01/2019
The thresholds for direct interest in developed nonresidential commercial real estate and sensitive land were indexed on an annual basis.

01/01/2019
In the state of Western Australia, the additional duty (stamp duty) imposed on foreign buyers of property was increased to 7% from 4%.

01/14/2019
Regarding the foreign investment screening regime, pursuant to the Comprehensive and Progressive Agreement for Trans-Pacific Partnership, Vietnam was included in the list of countries with higher thresholds for acquiring direct interest in developed commercial real estate and sensitive land.

Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions

Investment regulations

In banks by nonresidents

11/01/2018
The Treasurer’s approval is required to hold more than 20% (previously 15%) of the voting shares of an Australian bank.

- No restrictions as reported in the latest IMF staff report as of December 31, 2018.
- In accordance with EU regulations and, if applicable, relevant UNSC resolutions, certain restrictions are maintained with respect to certain individuals/entities (consolidated list of EU sanctions is available at eea.europa.eu/headquarters/headquarters-homepage/8442/consolidated-list-sanctions). EU sanctions are currently associated with, for example, Belarus, Bosnia and Herzegovina, Burundi, Central African Republic, China, Democratic Republic of the Congo, Egypt, Guinea (Conakry), Guinea-Bissau, Haiti, the Islamic Republic of Iran, the former government of Iraq, the Democratic People’s Republic of Korea, Lebanon, Libya, Maldives (effective July 17, 2018), Mali, Moldova, Myanmar, Russia, Somalia, South Sudan, Sudan, Syria, Tunisia, Ukraine, Venezuela, the former Federal Republic of Yugoslavia (Serbia and Montenegro), Yemen, and Zimbabwe. Restrictions also apply to transfers with respect to the Taliban (Afghanistan), Al-Qaida, ISIL (Da’esh), and individuals and organizations associated with terrorism. Effective December 12, 2018, measures against Eritrea were lifted. New restrictive measures against the proliferation and use of chemical weapons (effective March 21, 2019) and against cyber-attacks threatening the Union or its member states (effective May 16, 2019) were introduced.

- Other security restrictions | Yes. |

- With regard to EU internal terrorism, these restrictions are established by OeNB (Oesterreichische Nationalbank, Austrian Central Bank) regulations based either on the Austrian Exchange Control Act (Devisengesetz 2004), as amended, or on the Sanctions Act of 2010 (Sanktionengesetz 2010), as amended.

Multiple

**Classification**

No separate legal tender

Currency board

Conventional peg

Stabilized arrangement

Crawling peg

Crawl-like arrangement

Pegged exchange rate within horizontal bands

Other managed arrangement

Floating

Free floating

Yes. The exchange rate arrangement of the euro area is free floating. Austria participates in a currency union (EMU) with 18 other members of the EU and has no separate legal tender. The euro, the common currency, floats freely and independently against other currencies. The ECB publishes information regarding its interventions; it last intervened in March 2011. When it intervenes, the ECB intervenes at the quotes of the market makers.

**Official exchange rate**

Yes. The ECB publishes a reference rate based on the daily concertation procedure between CBs within and outside the European System of Central Banks, which normally takes place at 2:15 p.m. Central European Time. On July 1, 2016, the ECB changed the publication time of the euro foreign exchange reference rates (ECB reference rates) from around 2.30 p.m. Central European Time to around 4.00 p.m. Central European Time. The reference rate against the euro is the average of the buying and selling rates. The publication regime aims to reinforce the distinction between exchange rate fixings used as benchmarks for transaction purposes and the ECB reference rates that are published for information purposes only.

**Monetary policy framework**

Exchange rate anchor

*U.S. dollar*

Government

Central Bank
To maintain price stability is the primary objective of the Eurosystem and of the single monetary policy for which it is responsible. This is stated in the Treaty on the Functioning of the European Union, Article 127(1). “Without prejudice to the objective of price stability,” the Eurosystem will also “support the general economic policies in the Community with a view to contributing to the achievement of the objectives of the Community.” These include a “high level of employment” and “sustainable and non-inflationary growth.” Price stability is defined as an inflation rate below but close to 2% over the medium term.
**Foreign exchange market** Yes. ADs may freely determine their exchange rates and foreign exchange commissions in transactions with their clients.

**Spot exchange market** Yes. The institutional setting for the market is the Model Code—The International Code of Conduct and Practice for the Financial Markets. Banks are the principal participants. The Austrian Financial Market Authority (FMA) grants foreign exchange licenses. Foreign exchange bureaus are licensed by the FMA.

**Operated by the central bank** No.

**Foreign exchange standing facility** No.

**Allocation** No.

**Auction** No.

**Fixing** No.

**Interbank market** Yes. Interventions are initiated by the ECB—for Austria, the Austrian Central Bank (OeNB) handles these operations.

**Over the counter** Yes. Interbank foreign exchange transactions may take place over the counter.

**Brokerage** Yes. The brokerage system may be used for interbank foreign exchange transactions.

**Market making** Yes. The interbank foreign exchange market operates on the basis of a market-making agreement.

**Forward exchange market** Yes. Forward exchange transactions are permitted. The CB participates in the forward foreign exchange market.

**Official cover of forward operations** No.

**References to legal instruments and hyperlinks** This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

### Arrangements for Payments and Receipts

**Prescription of currency requirements** No. Settlements with all countries may be made either in foreign currency or through free euro accounts.

**Controls on the use of domestic currency** No.

**For current transactions and payments** No.

**For capital transactions** No.

**Transactions in capital and money market instruments** No.

**Transactions in derivatives and other instruments** No.

**Credit operations** No.

**Use of foreign exchange among residents** No.

**Payments arrangements** No.

**Bilateral payments arrangements** No.

**Operative** No. There are no bilateral payments agreements; however, several bilateral agreements exist for the promotion and protection of investments, which include provisions on transfers among the signatories.

**Inoperative** No.
Exchange transactions in the private economy take place through banks (credit institutions) licensed by the FMA. The OeNB and the Federal Ministry of the Interior are in charge of the administration of the control of financial sanctions (see Section II B).

In accordance with EC Regulation No. 1889/2005, cash controls have been implemented based on a mandatory declaration system for amounts of cash entering or leaving the EU with a value of €10,000 or more. Travelers entering or leaving the EU and carrying more than €10,000 are required to make a declaration to the relevant authorities of the member country through which they enter or leave the EU. The authorities must keep a record of such information and report it to their national financial intelligence unit (FIU). The obligation to declare is not fulfilled if the traveler makes no declaration or if the information provided is incorrect or incomplete. To check compliance with the regulation, the national authorities have the right to search natural persons, their baggage, and their means of transportation. In the event of failure to comply with the declaration obligation, cash may be confiscated. The EU regulation requires member countries to impose penalties for failure to comply with the declaration obligation. If there are indications that cash is related to illegal activity, authorities of one member country may exchange information with authorities in other member countries. Under the framework of existing agreements on mutual administrative assistance, information obtained under the EU regulation may also be communicated to a third country in compliance with relevant national and EU provisions on the transfer of personal data to third countries. The EU regulation does not apply to physical cross-border transportation from one EU member country to another (that is, intra-EU transportation). Such transportation is not considered “cross-border” for the purposes of the EU regulation; the EU regulation only harmonizes the system for the EU’s external borders.

Travelers entering or leaving the EU and carrying more than €10,000 are required to make a declaration to the relevant authorities of the member country through which they enter or leave the EU.

Travelers entering or leaving the EU and carrying more than €10,000 are required to make a declaration to the relevant authorities of the member country through which they enter or leave the EU.
Travelers entering or leaving the EU and carrying more than €10,000 are required to make a declaration to the relevant authorities of the member country through which they enter or leave the EU.

Capital Transactions

Controls on capital transactions Yes.
Repatriation requirements No.
Surrender requirements No.
Surrender to the central bank No.
Surrender to authorized dealers No.

Controls on capital and money market instruments Yes. With the transposition of Solvency II into national law entering into force, the prudent person principle for investments has been introduced (Art. 124 VAG 2016) and requirements as regards eligible assets for funds covering technical provisions and territorial restrictions referring to these assets have been abandoned (cf. Art. 134 of the Directive 2009/138/EC). However, for small mutual associations and small insurance companies outside the scope of Solvency II restrictions on eligible investments, their currency denomination and localization (Art. 72 and 90 VAG 2016, Art. 3 Small Mutual Associations Investment Regulation – kV-KAV, Art. 3 Small Insurance Undertakings Investment Regulation) continue to be in place.

On capital market securities Yes. With the transposition of Solvency II into national law entering into force, the prudent person principle for investments has been introduced (Art. 124 VAG 2016) and requirements as regards eligible
assets for funds covering technical provisions and territorial restrictions referring to these assets have been abandoned (cf. Art. 134 of the Directive 2009/138/EC). However, for small mutual associations and small insurance companies outside the scope of Solvency II restrictions on eligible investments, their currency denomination and localization (Art. 72 and 90 VAG 2016, Art. 3 Small Mutual Associations Investment Regulation – kV-KAV, Art. 3 Small Insurance Undertakings Investment Regulation) continue to be in place.

**Shares or other securities of a participating nature**

- **Purchase locally by nonresidents**: No.
- **Sale or issue locally by nonresidents**: No.
- **Purchase abroad by residents**: Yes.

With the transposition of Solvency II into national law entering into force, the prudent person principle for investments has been introduced (Art. 124 VAG 2016) and requirements as regards eligible assets for funds covering technical provisions and territorial restrictions referring to these assets have been abandoned (cf. Art. 134 of the Directive 2009/138/EC). Small mutual (insurance) associations are restricted to invest in euro-denominated assets subject to thresholds and the following localization requirements: Eligible share investments issued by corporations with head offices in a member state. Similar regulations apply to Small Insurance Undertakings not subject to Solvency II (Art. 3 Small Mutual Associations Investment Regulation – kV-KAV, Art. 3 Small Insurance Undertakings Investment Regulation – kVU-KAV).

For private pension funds, effective January 1, 2019, former quantitative investment limits were removed and requirements for internal investment guidelines were introduced. Previously, investments in assets denominated in a currency other than that of the liabilities were limited to 30% of the assets allocated to the investment and risk-sharing group. If the exchange risk was eliminated by hedging transactions, these investments could be attributed to the euro-denominated investments.

**Sale or issue abroad by residents**: No.

**Bonds or other debt securities**: Yes.

According to the Treaty on the Functioning of the European Union, Article 123, overdraft facilities and other credit facilities with the ECB or the CBs of member countries in favor of EU institutions or bodies; central governments; regional, local, and other public authorities; other bodies governed by public law; and public enterprises of member countries and direct purchases from these public sector entities by the ECB or CBs of debt instruments are prohibited. Purchases of sovereign debt of Eurosystem countries on the primary market are forbidden.

**Purchase locally by nonresidents**: No.

**Sale or issue locally by nonresidents**: No.

**Purchase abroad by residents**: Yes.

With the transposition of Solvency II into national law entering into force, the prudent person principle for investments has been introduced (Art. 124 VAG 2016) and requirements as regards eligible assets for funds covering technical provisions and territorial restrictions referring to these assets have been abandoned (cf. For private pension funds, effective January 1, 2019, former quantitative investment limits were removed and requirements for internal investment guidelines were introduced. Previously, investments in assets denominated in a currency other than that of the liabilities were limited to 30% of the assets allocated to the investment and risk-sharing group. If the exchange risk was eliminated by hedging transactions, these investments could be attributed to the euro-denominated investments.

With the transposition of Solvency II into national law entering into force, the prudent person principle for investments has been introduced (Art. 124 VAG2016) and requirements as regards eligible assets for funds covering technical provisions and territorial restrictions referring to these assets have been abandoned (cf. Art. 134 of the Directive 2009/138/EC). Small mutual (insurance) associations are restricted to invest in euro-denominated assets subject to thresholds and the following localization requirements:
Units in real estate funds managed by an investment fund management company with head offices in another OECD member state and subject to public supervision. Similar regulations apply to Small Insurance Undertakings not subject to Solvency II (Art. 3 Small Mutual Associations Investment Regulation – kV-KAV, Art3
Small Insurance Undertakings Investment Regulation – kVU-KAV). For private pension funds, effective January 1, 2019, former quantitative investment limits were removed and requirements for internal investment guidelines were introduced. Previously, investments in assets denominated in a currency other than that of the liabilities were limited to 30% of the assets allocated to the investment and risk-sharing group. With the transposition of Solvency II into national law entering into force, the prudent person principle for investments has been introduced (Art. 124 VAG 2016) and requirements as regards eligible assets for funds covering technical provisions and territorial restrictions referring to these assets have been abandoned (cf. Art. 134 of the Directive 2009/138/EC). Small mutual (insurance) associations are restricted to invest in euro-denominated assets subject to thresholds and the following localization requirements:

- Non-subordinated, non-recurring loans granted to or guaranteed by a regional or local authority of an OECD member state as well as loans and other receivables where liability for repayment and interest payments lies with a regional or local authority of an OECD member state; mortgage loans on real estate entered in a public register or immovable property rights entered in a public register which are located in an OECD member state, up to an encumbrance of 60% of the current market value of the real estate or the immovable property right provided the current market value has been documented by means of an appraisal carried out by a certified court expert at the time of the acquisition and that the real estate has been sufficiently insured against the risk of fire for the term of the loan; non-recurring loans and other receivables from municipal governments or loans guaranteed by a municipal authority, with the exception of the federal capital of Vienna, provided the income from statutory duties is pledged. Similar regulations apply to Small Insurance Undertakings not subject to Solvency II (Art. 3 Small Mutual Associations Investment Regulation – kV-KAV, Art. 3 Small Insurance Undertakings Investment Regulation – kVU-KAV).
introduced (Art. 124 VAG 2016) and requirements as regards eligible assets for funds covering technical provisions and territorial restrictions referring to these assets have been abandoned (cf. Art. 134 of the Directive 2009/138/EC). Small mutual (insurance) associations are restricted to invest in euro-denominated assets subject to thresholds and the following localization requirements: Non-subordinated, non-recurring loans granted to or guaranteed by a regional or local authority of an OECD member state as well as loans and other receivables where liability for repayment and interest payments lies with a regional or local authority of an OECD member state; mortgage loans on real estate entered in a public register or immovable property rights entered in a public register which are located in an OECD member state, up to an encumbrance of 60% of the current market value of the real estate or the immovable property right; non-recurring loans and other receivables from municipal governments or loans guaranteed by a municipal authority, with the exception of the federal capital of Vienna, provided the income from statutory duties is pledged, mortgage loans on real estate entered in a public register or immovable property rights entered in a public register which are located in an OECD member state, up to an encumbrance of 60% of the current market value of the real estate or the immovable property right, provided the current market value has been documented by means of an appraisal carried out by a certified court expert at the time of the acquisition and that the real estate has been sufficiently insured against the risk of fire for the term of the loan. Similar regulations apply to Small Insurance Undertakings not subject to Solvency II (Art. 3 Small Mutual Associations Investment Regulation – kV-KAV, Art. 3 Small Insurance Undertakings Investment Regulation – kVU-KAV).

By residents to nonresidents Yes.

Controls apply to the loans granted (1) to nonresidents, or for which the designated collateral is located abroad, if the asset in question is to form part of the guarantee funds of a local branch of a third country insurance company established in Austria with the solvency regime in the third country not considered equivalent by the European Commission (Art. 13 para 4 and Art. 14 para 1 no. 6 VAG 2016) and (2) to residents not in a member state or for which the designated collateral is not located in a member state, if the asset in question is to form part of the cover of the prescribed solvency margin for the local branch of a third country insurance company established in Austria with the solvency regime in the third country not considered equivalent by the European Commission (Art. 13 para 4 and Art. 14 para 1 no. 6 VAG2016).

For private pension funds, effective January 1, 2019, former quantitative investment limits were removed and requirements for internal investment guidelines were introduced. Previously, investments in assets denominated in a currency other than that of the liabilities were limited to 30% of the assets allocated to the investment and risk-sharing group. If the exchange risk was eliminated by hedging transactions, these investments could be attributed to the euro-denominated investments.

Guarantees, sureties, and financial backup facilities No.

By residents to nonresidents No.

To residents from nonresidents No.

Controls on direct investment Yes.
Outward direct investment

No.

Inward direct investment

Yes.

Certain controls apply to the following investments by nonresidents and residents who are not EU nationals: (1) auditing services; (2) accountancy, legal, engineering, and architectural services exceeding 49%; (3) energy; (4) majority ownership in the maritime sector; (5) airlines that must by law be controlled by EU countries or EU citizens, unless otherwise provided for under an international agreement to which the EU is a signatory; (6) 49% interest in ships registered in Austria; and (7) to the extent that under Directive No. 2009/65/EC, a depository of a UCITS must have its registered office either in the same EU country as that of the company or be established in the EU country if its registered office is in another EU country.

Controls on liquidation of direct investment

No.

Controls on real estate transactions

Yes.

With the transposition of Solvency II into national law entering into force, the prudent person principle for investments has been introduced (Art. 124 VAG 2016) and requirements as regards eligible assets for funds covering technical provisions and territorial restrictions referring to these assets have been abandoned (cf. Provisions Specific to the Financial Sector

<table>
<thead>
<tr>
<th>Provisions specific to commercial banks and other credit institutions</th>
<th>Yes.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Regulation (EU) No. 575/2013 (CRR) and Directive No. EU/2013/36 (CRD IV), which incorporate the new global standards on bank capital into the EU legal framework, are in effect. The regulatory framework for credit institutions in Austria, the Federal Banking Act (Bankwesengesetz, BWG) and regulations based on this act were revised accordingly. The BWG also fully implements the guidelines and recommendations passed by the European Banking Authority (Article 69(5) BWG). The Federal Act on the Recovery and Resolution of Banks (Bank Recovery and Resolution Act – BaSAG) is also in effect. Financial institutions must submit restructuring and liquidation plans to the FMA. This allows the FMA to intervene early when a triggering event takes place (need for early intervention) to avert a crisis at a financial institution. There are also laws concerning specific requirements for special credit institutions (for example, Federal Act on Savings and Loan Associations). According to Articles 1(1) and 4(1) of the BWG, only licensed credit institutions may conduct banking operations. In compliance with BWG Article 9(1), credit institutions as defined in Article 4(1) of No. 1 Capital Requirements Regulation (CRR) that are authorized and established in an EU member country may conduct activities listed in Annex I of Capital Requirements Directive (CRD) IV by the establishment of a branch or under the freedom to provide services. The Single Resolution Mechanism (SSM), in combination with the Single Resolution Mechanism and the Common Deposit Guarantee Scheme, forms the European Banking Union. The ECB supervises banks within the euro area (currently 19 EU member states). The Single Resolution Mechanism operates from January 1, 2016, onward through the respective national resolution authorities for resolution actions, but the most important decisions are made by the European resolution authority (in part jointly in conjunction with the EU Council and the European Commission). The Common Deposit Guarantee Scheme is currently not in place. For the division of tasks between the ECB and the national supervisors under the auspices of the SSM, banks throughout Europe were classified into significant institutions (SIs) and less significant institutions (LSIs). SIs are directly supervised by the ECB, but Austrian LSIs remain principally under the supervision of the FMA and are subject only to indirect supervision by the ECB. The legal basis for the SSM is Council Regulation (EU) No. 1024/2013 (the SSM Regulation—SSMR). Regulation (EU) No. 260/2012 of the European Parliament and of the Council, establishing technical and business requirements for credit transfers and direct debits in euros, has been implemented. This regulation refers to the single euro payments area project, which is in effect, and replaced current national payment services with a common EU-wide payment service. The Deposit Guarantee Schemes and Investor Compensation Act (Einlagensicherungs- und Anlegerentschädigungsgesetz, ESAEG) implementing the Deposit Guarantee Schemes Directive (Directive 2014/49/EU) is in force.</td>

<tr>
<td><strong>Lending locally in foreign exchange</strong></td>
<td>Yes.</td>
</tr>
<tr>
<td>Lending locally in foreign exchange is governed by the FMA’s Minimum Standards for the Risk Management and Granting of Foreign Currency Loans and Loans with Repayment Vehicles (FMA-FXTT-MS). The minimum standards aim to impose strict criteria on new foreign currency loans (FCLs) to unhedged private consumers and to require banks to develop strategies to reduce the current high volume of outstanding FCLs. FMA minimum standards are not regulations in the legal sense, but are the supervisory authority’s recommendations on limiting risk. They are based on the FMA’s mandate to protect the national economic interest and the stability of the financial market (BWG Article 69, Paragraph 1) and are linked to the due diligence requirements of managers as specified in BWG Article 39. The exposure of domestic private households to FCLs had been deemed unsustainable by the Austrian authorities. Accordingly, strict regulatory measures were taken (tough interpretation of the minimum standards that restrict FCLs to hedged households or the most creditworthy households).</td>

</table>
Open foreign exchange position limits: Yes.
According to Article 351 CRR, credit institutions must fulfill at all times the minimum capital requirement to cover foreign exchange risk.

On resident assets and liabilities: Yes.

On nonresident assets and liabilities: Yes.

Provisions specific to institutional investors:

Insurance companies: Yes.
With the transposition of Solvency II into national law entering into force, the prudent person principle for investments has been introduced (Art. 124 VAG 2016) and requirements as regards eligible assets for funds covering technical provisions and territorial restrictions referring to these assets have been abandoned (cf. Art. 134 of the directive 2009/138/EC). Investments of Austrian insurance companies are regulated in the Versicherungsunternehmen Kapitalanlageverordnung (VU-KAV), subordinated to the Insurance Supervision Act 2016. While under Solvency II the prudent person principle applies to investments, the VU-KAV regulation specifies qualitative requirements for investments (for example, concentration risks, credit risk analysis, derivatives, securities lending, risk management, and specifically prudent requirements for funds covering technical provisions). For small mutual associations and small insurance companies outside the scope of Solvency II restrictions on eligible investments and quantitative limits (Art. 72 and 90 VAG 2016, Art. 3 Small Mutual Associations Investment Regulation – kV-KAV, Art. 3 Small Insurance Undertakings Investment Regulation) continue to be in place.

Limits (max.) on securities issued by nonresidents: Yes.
For small mutual associations the following thresholds apply: Individual investments may only be made up to the percentages stated below, based on the carrying amount of the total investment ("individual threshold"): up to 2% each: shares and other variable-yield participations of companies admitted to trading on a regulated market, up to 10% each: (1) debt securities of the same issuer, (2) shares and other variable-yield participations of the same company (eligible participations), (3) units in investment funds of the same fund, (4) loans of the same issuer; up to 30% each: bank balances; up to 35% each: real estate and immovable property rights. The following total investments may only be made up to the percentages stated below, based on the carrying amount of the total investment ("total threshold"): (1) up to 3% in total: cash balances; (2) up to 10% in total: debt securities (corporate bonds not admitted to trading on a regulated market); (3) up to 25% in total: shares and other variable-yield participations (excl. real estate companies) including any shares held indirectly via investment funds; (4) up to 30% in total: (a) real estate and immovable property rights, (b) shares and other variable-yield participations in real estate companies, (c) units in real estate funds, (d) mortgage loans and immovable property rights; (5) up to 50% each in total: (a) debt securities (corporate bonds) and loans to regional or local authorities of an OECD member state. Similar regulations apply to Small Insurance Undertakings not subject to Solvency II (Art. 4 Small Mutual Associations Investment Regulation – kV-KAV, Art. 4 Small Insurance Undertakings Investment Regulation – kVU-KAV).

Limits (max.) on investment portfolio held abroad: Yes.
Controls apply to (1) the acquisition of real estate outside the EU, if the asset in question is to form part of the cover of the prescribed solvency margin for a local branch of a third country insurance company established in Austria with the solvency regime in the third
country not considered equivalent by the European Commission (Art. 13 para 4 and Art. 14 para 1 no. 6 VAG 2016); (2) the acquisition of real estate abroad, if the asset in question is to form part of the guarantee funds of a local branch of a third country insurance company established in Austria with the solvency regime in the third country not considered equivalent by the European Commission (Art. 13 para 4 and Art. 14 para 1 no. 6 VAG 2016); (3) loans granted to nonresidents, or for which the designated collateral is located abroad, if the asset in question is to form part of the guarantee funds of a local branch of a third country insurance company established in Austria with the solvency regime in the third country not considered equivalent by the European Commission (Art. 13 para 4 and Art. 14 para 1 no. 6 VAG 2016); and (4) loans to residents outside the EU, or for which the designated collateral is located outside the EU, if the asset in question is to form part of the cover of the prescribed solvency margin for a local branch of a third country insurance company established in Austria with the solvency regime in the third country not considered equivalent by the European Commission (Art. 13 para 4 and Art. 14 para 1 no. 6 VAG 2016).

Pension funds

No.

The management board of the Pensionskasse (pension company) ensures that the investment of the assets allocated to an investment and risk-sharing group is performed by persons who are professionally qualified to do so and who have the relevant professional experience, in particular in the areas of portfolio management and risk management, as well as asset liability management and that appropriate technical resources are available for risk management. The investment of the assets allocated to an investment and risk-sharing group must be effected within prudent person rule and must take account of the other provisions of the current Federal Pensionskassen Act.

Effective January 1, 2019, the Federal Pensionskassen Act was amended within the course of the implementation of the Institutions for Occupational Retirement Provision (IORP II) Directive (EU) 2016/2341. Former quantitative investment limits were removed and requirements for internal investment guidelines were introduced. The Pensionskasse must draw up and implement guidance in writing about the investment of assets allocated to an investment and risk-sharing group, which where applicable must at least cover the following areas: (1) investment objectives taking into account the commitments arising from the Pensionskasse contracts; (2) criteria for the security, quality, liquidity, profitability, and availability of the entire assets allocated to the investment and risk-sharing group; (3) strategic asset allocation, suitable parameters for deviation from such an allocation, and the respective rules for determining such parameters; (4) definition of the investment universe according to the following investment categories: (a) cash at banks, (b) loans and credits, (c) securities representing money claims (from regional or local authorities, from credit institutions, from other undertakings), (d) shares and other equity securities, (e) real estate, (f) other assets. Investments in unit certificates in investment funds, real estate funds, and alternative investment funds (AIFs) must be split up according to the investment categories; (5) investment procedures with regard to the selection, mixture, and diversification of assets; (6) determination of an appropriate limit system with quantitative investment thresholds with regard to para. 1 no. 7, at least with regard to the
investment categories pursuant to no. 4 for both issuers and counterparties; (7) criteria for the computations of investments in unit certificates of investment funds, real estate funds, and AIFs for thresholds for issuers and counterparties pursuant to no. 6 including the general defining of materiality thresholds; (8) conditions for the investment in (a) assets pursuant to para. 1 no. 5, (b) derivative products pursuant to para. 1 no. 6, as well as (c) securities lending and securities repurchasing transactions; (9) description of the escalation processes in the event that the determined thresholds are exceeded; (10) criteria for the cancelling of the dedication of securities as hold-to-maturity investments (Article 23 para. 1 no. 3a).

Previously, the assets acquired for the benefit of an investment and risk-sharing group had to be allocated to the following investment categories: (1) cash at bank; (2) loans and credits; (3) securities representing money claims; (4) shares, negotiable securities equivalent to shares, corporate bonds, and other equity securities; (5) real estate; and (6) other assets. Investments in shares, negotiable securities equivalent to shares, corporate bonds, other equity securities, and other assets were jointly limited to 70% of the assets allocated to the investment and risk-sharing group. Notwithstanding the above, investments with the exception of investment grade corporate bonds in an investment and risk-sharing group within defined contribution plans that managed commitments with minimum yield guarantees were limited to 50% of the assets allocated to the investment and risk-sharing group. With the exception of investments in debt securities of the federal government, a federal province, another EEA member country, or a constituent state of another EEA member country, investments in assets of the same issuer were limited to 5% of the assets allocated to the investment and risk-sharing group; investments in assets that belonged to one group were limited to 10% of the assets allocated to the investment and risk-sharing group. Cash at bank at a single banking group was limited to 25% of the assets allocated to the investment and risk-sharing group. Investments in assets denominated in a currency other than that of the liabilities were limited to 30% of the assets allocated to the investment and risk-sharing group. If the exchange risk was eliminated by hedging transactions, these investments could be attributed to the euro-denominated investments. Investments in securities representing money claims, shares, and negotiable securities equivalent to shares that were not admitted to trading on a regulated market were jointly limited to 30% of the assets allocated to the investment and risk-sharing group. Derivative products that were not purchased to hedge against risk could be purchased only if they helped lower investment risk or improved the administration of the assets allocated to an investment and risk-sharing group.

The FMA determines by regulation minimum risk management standards.

### Limits (max.) on securities issued by nonresidents

| No. | Effective January 1, 2019, former quantitative investment limits were removed and requirements for internal investment guidelines were introduced. The Pensionskasse must draw up and implement guidance in writing that determines an appropriate limit system with quantitative investment thresholds. ### Provisions specific to institutional investors

- **Pension funds**
  - **01/01/2019**
    - The Federal Pensionskassen Act was amended within the course of the implementation of the IORP II Directive (EU) 2016/2341. Former quantitative investment limits were removed and requirements for...
internal investment guidelines were introduced. The Pensionskasse must draw up and implement guidance in writing about the investment of assets allocated to an investment and risk-sharing group, which where applicable must at least cover the following areas: (1) investment objectives taking into account the commitments arising from the Pensionskasse contracts; (2) criteria for the security, quality, liquidity, profitability, and availability of the entire assets allocated to the investment and risk-sharing group; (3) strategic asset allocation, suitable parameters for deviation from such an allocation, and the respective rules for determining such parameters; (4) definition of the investment universe according to the following investment categories: (a) cash at banks, (b) loans and credits, (c) securities representing money claims (from regional or local authorities, from credit institutions, from other undertakings), (d) shares and other equity securities, (e) real estate, (f) other assets. Investments in unit certificates in investment funds, real estate funds, and AIFs must be split up according to the investment categories; (5) investment procedures with regard to the selection, mixture, and diversification of assets; (6) determination of an appropriate limit system with quantitative investment thresholds with regard to para. 1 no. 7, at least with regard to the investment categories pursuant to no. 4 for both issuers and counterparties; (7) criteria for the computations of investments in unit certificates of investment funds, real estate funds, and AIFs for thresholds for issuers and counterparties pursuant to no. 6 including the general defining of materiality thresholds; (8) conditions for the investment in (a) assets pursuant to para. 1 no. 5, (b) derivative products pursuant to para. 1 no. 6, as well as (c) securities lending and securities repurchasing transactions; (9) description of the escalation processes in the event that the determined thresholds are exceeded; (10) criteria for the cancelling of the dedication of securities as hold-to-maturity investments (Article 23 para. 1 no. 3a).

Previously, the assets acquired for the benefit of an investment and risk-sharing group had to be allocated to the following investment categories: (1) cash at bank; (2) loans and credits; (3) securities representing money claims; (4) shares, negotiable securities equivalent to shares, corporate bonds, and other equity securities; (5) real estate; and (6) other assets. Investments in shares, negotiable securities equivalent to shares, corporate bonds, other equity securities, and other assets were jointly limited to 70% of the assets allocated to the investment and risk-sharing group. Notwithstanding the above, investments with the exception of investment grade corporate bonds in an investment and risk-sharing group within defined contribution plans that managed commitments with minimum yield guarantees were limited to 50% of the assets allocated to the investment and risk-sharing group. With the exception of investments in debt securities of the federal government, a federal province, another EEA member country, or a constituent state of another EEA member country, investments in assets of the same issuer were limited to 5% of the assets allocated to the investment and risk-sharing group. Another EEA member country, investments in assets of the same issuer were limited to 5% of the assets allocated to the investment and risk-sharing group; investments in assets of issuers that belonged to one group were limited to 10% of the assets allocated to the investment and risk-sharing group. Cash at bank at a single banking group was limited to 25% of the assets allocated to the investment and risk-sharing group. Investments in assets denominated in a currency other than that of the liabilities were limited to 30% of the assets allocated to the investment and risk-sharing group. If the exchange risk was eliminated by hedging transactions, these investments could be attributed to the euro-denominated investments. Investments in securities representing money claims, shares, and negotiable
securities equivalent to shares that were not admitted to trading on a regulated market were jointly limited to 30% of the assets allocated to the investment and risk-sharing group. Derivative products that were not purchased to hedge against risk could be purchased only if they helped lower investment risk or improved the administration of the assets allocated to an investment and risk-sharing group. Derivative products that were not purchased to hedge against risk could be purchased only if they helped lower investment risk or improved the administration of the assets allocated to an investment and risk-sharing group.

**Limits (max.) on securities issued by nonresidents**

01/01/2019

Former quantitative investment limits were removed and requirements for internal investment guidelines were introduced. The Pensionskasse must draw up and implement guidance in writing that determines an appropriate limit system with quantitative investment thresholds. Previously, investments in assets denominated in a currency other than that of the liabilities were limited to 30% of the assets allocated to the investment and risk-sharing group. If the exchange risk was eliminated by hedging transactions, these investments could be attributed to the euro-denominated investments.

**Limits (max.) on investment portfolio held abroad**

01/01/2019

Former quantitative investment limits were removed and requirements for internal investment guidelines were introduced. The Pensionskasse must draw up and implement guidance in writing that determines an appropriate limit system with quantitative investment thresholds. Previously, investments in assets denominated in a currency other than that of the liabilities were limited to 30% of the assets allocated to the investment and risk-sharing group. If the exchange risk was eliminated by hedging transactions, these investments could be attributed to the euro-denominated investments.

**Currency-matching regulations on assets/liabilities composition**

01/01/2019

Former quantitative investment limits were removed and requirements for internal investment guidelines were introduced. The Pensionskasse must draw up and implement guidance in writing that determines an appropriate limit system with quantitative investment thresholds. Previously, investments in assets denominated in a currency other than that of the liabilities were limited to 30% of the assets allocated to the investment and risk-sharing group. If the exchange risk was eliminated by hedging transactions, these investments could be attributed to the euro-denominated investments.
AZERBAIJAN

(Position as of December 31, 2018)

Status under IMF Articles of Agreement

Date of membership September 18, 1992.

Article VIII Yes. Date of acceptance: November 30, 2004.

Article XIV

Exchange Measures

Restrictions and/or multiple currency practices No. No restrictions as reported in the latest IMF staff report as of December 31, 2018.

Exchange measures imposed for security reasons Yes.

In accordance with IMF Executive Board Decision No. 144-(52/51) No.

Other security restrictions Yes. Restrictions have been imposed on financial transactions and accounts held by individuals and organizations associated or suspected of association with terrorism and terrorism financing or money or other property laundering, pursuant to UNSC resolutions and to the list of current organizations associated with terrorism maintained by the U.S. secretary of state and the Financial Market Supervisory Authority (FMSA) of the Republic of Azerbaijan established in accordance with Decree No. 760 of the President of the Republic of Azerbaijan, who is, among other things, in charge of the supervision system over prevention of legalization of criminally obtained funds and other property and financing of terrorism.

Exchange Arrangement

Currency Yes. The currency of Azerbaijan is the Azerbaijan manat.

Other legal tender No.

Exchange rate structure

Unitary Yes.

Dual

Multiple

Classification

No separate legal tender

Currency board

Conventional peg

Stabilized arrangement Yes. On January 12, 2017, the Central Bank of Azerbaijan (CBA) announced a change of the de jure exchange rate arrangement to a free floating from a managed floating arrangement and eliminated...
the requirement for banks to buy or sell foreign currency at a range of no more than 4% from the official exchange rate. The exchange rate of manat rests on fundamental factors determining the supply and demand ratio in the foreign exchange market. Under this decision, the CBA initiated a new currency auction mechanism, while limits on fluctuation of the market currency exchange rate compared to the official rate were eliminated. The new auction mechanism is organized on the unilateral basis, in which the CBA provides the auction’s operational platform, and the State Oil Fund of Azerbaijan. Currency has realized on the basis of offered prices by the market players. This mechanism implies selling currency to the customer offering the higher price at the first place. The amount of the currency to be offered at an auction will be announced in advance. The de facto exchange rate arrangement is classified as a stabilized arrangement. The CBA publishes its foreign exchange intervention data quarterly.

Crawling peg
Crawl-like arrangement
Pegged exchange rate within horizontal bands
Other managed arrangement
Floating
Free floating

**Official exchange rate** Yes. The weighted average USD/AZN rate of both the auction transactions and interbank trades executed on Bloomberg is the official exchange rate for the next day. It is calculated on Bloomberg, and the CBA announces it at 5 p.m. each working day. Entities and banks use the official exchange rate as a reference point.

Other monetary framework

Yes. Under the Law of the Republic of Azerbaijan on the Central Bank of the Republic of Azerbaijan, the CBA uses the monetary base and a bilateral exchange rate target to maintain inflation at an acceptable level. The bilateral exchange rate target vis-à-vis the US dollar was implemented in January 2011.

Exchange tax

No.

Exchange subsidy

No.

Foreign exchange market

Yes. Commercial banks freely determine their bid-ask spreads and commissions.

Spot exchange market

Yes. The foreign exchange market consists of the interbank (between commercial banks) and the intrabank (between commercial banks and their clients) markets. All commercial banks (30) may participate in both the interbank and intrabank markets.

Operated by the central bank

Yes.

Foreign exchange standing facility

No. The standing facility was eliminated when the CBA started holding foreign currency auctions through the Bloomberg Auction Platform.
On January 12, 2017, the CBA introduced one-sided, multiple price, and competitive auction format, where banks can send up to three different bids with no price and amount restriction. Only banks are allowed to participate in the auctions. Banks are notified about the auction at least thirty minutes before the auction, specifying the time, the direction of operation, as well as the amount of offered currency. The auctions are held two times a week. At the end of the auction, the balance on the correspondent account of each bank is checked. A bank with insufficient funds compared to its order is excluded from the auction. The results of the auctions are published on the CBA website, and the amount sold is published on the website of the State Oil Fund of Azerbaijan. Banks are free to decide to make any transaction with the foreign exchange obtained at the auction. The weighted average rate of both the auction transactions and interbank trades executed on Bloomberg is the official exchange rate for the next day.

All commercial banks (30) are allowed to freely execute foreign exchange transactions among themselves in the interbank foreign exchange market. All trades are fulfilled on Bloomberg.

The interbank foreign exchange market operates over the counter.

All commercial banks may execute foreign exchange forward transactions. However, this market is in the initial stages of development.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Arrangements for Payments and Receipts

Resident and nonresident individuals and legal entities may transfer national currency abroad without limitations through assigned banks or the national operator of postal communication for current and capital transactions.

There are no restrictions on the use of foreign currency (exchange, possession, lending, bank accounts, and deposits, obtained from a bank or exchanged in a bank or currency exchange bureau) among residents. Legal entities and individuals must identify the source of foreign currency to place it in a bank account in accordance with the Law of the Republic of Azerbaijan on Combating the Legalization of...
Illicitly Gained Money or Other Property and Terrorism Financing of February 10, 2009. Under Article 19.2 of the constitution, the manat is the only means of payment (settlement) for goods and services.

Residents may hold foreign exchange accounts without any limits. However, transferring foreign exchange balances abroad is regulated by the Law of the Republic of Azerbaijan on Currency Regulation of October 21, 1994, and Regulations on Currency Operations of Residents and Nonresidents in the Republic of Azerbaijan of November 28, 2016. The currency regime determined by the Regulations on currency operations of residents and nonresidents in the Republic of Azerbaijan does not regulate the currency operations of banks, local branches of foreign banks, and the national operator of postal communication.

### Nonresident Accounts

| Foreign exchange accounts permitted | Yes. |

Foreign exchange in these accounts may be transferred abroad or sold to banks for manat. Nonresidents engaged in commercial activities must present duplicate certificate from tax authorities to open foreign currency accounts. Duplicate certificate is not required for nonresidents not engaged in business activities. The FMSA, is responsible for issuing licenses to deal in foreign exchange; conducting monitoring to ensure compliance with the law in Azerbaijan Republic. The CBA establishes governing rules for foreign exchange operations and conducting operations with foreign currency accounts while the FMSA issues rules for opening foreign currency accounts. Subjects, whose operations in financial markets are supervised (persons licensed in the securities market, credit
institutions, professional actors of the insurance market, investment funds, and investment fund managers), may open foreign currency accounts outside the Republic of Azerbaijan in the cases and under the terms and conditions set by the FMSA, while other residents – under the terms and conditions set by the CBA.

## Imports and Import Payments

- **Foreign exchange budget**
  - No.
- **Financing requirements for imports**
- **Minimum financing requirements**
  - No.
- **Advance payment requirements**
  - Yes. In case of advance payment, a document reflecting the purpose, terms and conditions, and amount of payment must be delivered to the bank. Within, effective March 8, 2018, 270 days (previously 180 days) of payment, a customs declaration confirming import of goods to the country or supply of imported services must be delivered to the bank. If goods are not imported, services are not supplied, or advance payment is not refunded within that period, a bank must deliver all documents related to the advance payment to the FMSA of the Republic of Azerbaijan within two days to impose enforcement measures stipulated in Article 430.4 of the Code of Administrative Offences of the Republic of Azerbaijan.
- **Advance import deposits**
  - No.
- **Documentation requirements for release of foreign exchange for imports**
  - Yes. Presentation of supporting documents is required.
- **Domiciliation requirements**
  - No.
- **Preshipment inspection**
  - No.
- **Letters of credit**
  - Yes. Presentation of supporting documents is required.
- **Import licenses used as exchange licenses**
  - No.
- **Other**
  - No.
- **Import licenses and other nontariff measures**
  - Yes. Imports of certain listed goods (such as narcotics, explosives, weapons, and nuclear substances and waste) require special approval.
- **Positive list**
  - No.
- **Negative list**
  - Yes. Presentation of supporting documents is required.
### Licenses with quotas
No.

### Other nontariff measures
No.

### Import taxes and/or tariffs
Yes. Tariff rates of 0%, 0.5%, 3%, 10%, and 15% apply. Some capital and input goods are subject to a 5% tariff. Imports of under invoiced goods are subject to specific tariffs.

### Taxes collected through the exchange system
No.

### State import monopoly
No.

### Export taxes
Yes. Export taxes apply to domestic producers’ exports of crude oil and petroleum products. For crude oil, the basis for the export tax is the difference between the export price (excluding export costs) and the fixed domestic price. For petroleum products, it is the difference between the export price (excluding export costs) and the ex-refinery price (also referred to as the intercompany price). The tax rate is 25%. A progressive export tax also applies.

### Repatriation requirements
Yes. Residents are required to repatriate all proceeds from exports within 180 days and transfer them to a licensed bank in Azerbaijan within 10 days of receipt. Expenses, commissions, and taxes paid abroad relating to economic activities may be deducted from the proceeds prior to their transfer to a licensed bank.

### Surrender requirements
No.

#### Surrender to the central bank
No.

#### Surrender to authorized dealers
No.

### Financing requirements
Yes.

### Documentation requirements
Yes. Export operations must be secured by 100% prepayment, an irrevocable LC, or a bank guarantee.

### Letters of credit
Yes. Export operations must be secured by 100% prepayment, an irrevocable LC, or a bank guarantee.

### Guarantees
Yes. Export operations must be secured by 100% prepayment, an irrevocable LC, or a bank guarantee.

### Domiciliation
No.

### Preshipment inspection
No.

### Other
No.

### Export licenses
Yes. Exports of scrap metal are prohibited.

### Without quotas
Yes.

### With quotas
No.

### Export taxes
Yes.

### Collected through the exchange system
No.

### Other export taxes
Yes. Export taxes apply to domestic producers’ exports of crude oil and petroleum products. For crude oil, the basis for the export tax is the difference between the export price (excluding export costs) and the fixed domestic price. For petroleum products, it is the difference between the export price (excluding export costs) and the ex-refinery price (also referred to as the intercompany price). The tax rate is 25%. A progressive export tax also applies.

Acquisition of Azerbaijan securities issued by foreign investors is not restricted, unless otherwise stipulated by law.

The rules for circulation of securities of foreign issuers in Azerbaijan are determined by the FMSA of the Republic of Azerbaijan.

In this area, the foreign exchange position of banks for a single currency is limited to 10% of regulatory capital. Total exposure from such positions may not exceed 20% of regulatory capital. (For nonconvertible foreign currencies, these limits are, respectively, 7% and 15%.)

Banks are subject to net foreign currency exposure limits.
To residents from nonresidents No.

Controls on direct investment Yes.

Outward direct investment No. These capital transactions do not require CBA approval.

Inward direct investment Yes. The minimum authorized capital is manat 1 million for reinsurance companies and manat 0.8 million for insurance companies. The share of foreign insurance companies in the authorized capital of local insurance companies may not exceed 30% of aggregate authorized capital. The minimum authorized capital for commercial banks is manat 50 million.

Controls on liquidation of direct investment No.

Controls on real estate transactions No.

Purchase abroad by residents No. Real estate transactions are subject to documentation requirements.

Purchase locally by nonresidents No.

Sale locally by nonresidents No.

Controls on personal capital transactions Yes.

Loans No.

By residents to nonresidents No.

To residents from nonresidents No.

Gifts, endowments, inheritances, and legacies Yes. These transactions are permitted, subject to documentary requirements. Residents are free to transfer abroad (1) for personal reasons, up to the equivalent of US$1,000 a day, and up to the equivalent of US$10,000 a month from accounts with banks on declaration of purpose; (2) to close relatives (that is, spouses, parents, adopters, grandchildren, children, adoptees, sisters, and brothers) up to the equivalent of US$10,000 a month from accounts with banks on the basis of documents confirming the relationship. Only nonresidents are permitted to transfer inheritances (funds received on heritage, or sale of inherited property) abroad.

To residents from nonresidents Yes. These operations are permitted under the procedure stipulated by the regulations of the CBA and subject to Anti-Money Laundering and Counter-Terrorism Financing requirements.

Transfer of assets No.

Transfer abroad by emigrants No. These capital transactions are subject to Regulations on Currency Operations of Residents and Nonresidents in the Republic of Azerbaijan. These transfers are subject to documentation requirements.

Transfer into the country by immigrants No.

Transfer of gambling and prize earnings Yes. Gambling is prohibited in Azerbaijan. Transfer of lottery and prize earnings is subject to Regulations on Currency Operations of Residents and Nonresidents in the Republic of Azerbaijan.

**Changes during 2018 and 2019**

**Arrangements for Payments and Receipts**

**Controls on exports and imports of banknotes**

**On exports**

| Domestic currency | 10/10/2018 | Residents and nonresidents may take out of the Republic of Azerbaijan any amount of national currency banknotes only by declaring the amount to the customs authorities in writing. Amount |
On imports

*Domestic currency*  
10/10/2018  
Residents and nonresidents may bring into the Republic of Azerbaijan any amount of national currency banknotes only by declaring the amount to the customs authorities in writing. Amount up to 20,000 manat requires only verbal declaration to the customs authorities.

**Imports and Import Payments**

**Financing requirements for imports**

**Advance payment requirements**  
03/08/2018  
The time interval concerning the import operations was increased to 270 days from 180 days.

**Payments for Invisible Transactions and Current Transfers**

**Controls on these transfers**

**Foreign workers' wages**  
03/08/2018  
Transfer abroad of wages received by nonresidents on their local bank accounts is subject to documentary requirements, such as work contract, bank document that identifies the received wages are paid by an employer, or official statement on work place and wage amount extracted from the Electronic Government Portal.
THE BAHAMAS

(Position as of December 31, 2018)

Status under IMF Articles of Agreement

Date of membership: August 21, 1973.

Article VIII: Yes. Date of acceptance: December 5, 1973.

Article XIV: Exchange Measures

Restrictions and/or multiple currency practices: No.

Exchange measures imposed for security reasons: Yes. No restrictions as reported in the latest IMF staff report as of December 31, 2018.

In accordance with IMF Executive Board Decision No. 144-(52/51): No.

Other security restrictions: Yes.

The governor general may issue orders and regulations implementing the decisions, resolutions, and recommendations of international organizations and associations of countries of which The Bahamas is a member that request their members to take economic measures against a foreign government. The economic measures may include but are not limited to (1) seizure, freezing, or sequestration of property owned by the foreign government in question; and (2) prohibition or restriction of persons in The Bahamas or Bahamians outside The Bahamas from (a) dealing with property held by or on behalf of the foreign government; (b) selling or supplying arms to foreign governments, entities, or individuals; and (c) providing technical advice, financial assistance, or training to foreign governments, entities, or individuals. There are restrictions on Bahamas-licensed banks and financial institutions regarding transactions with (1) the Democratic Republic of the Congo; (2) the Islamic Republic of Iran; (3) the Democratic People’s Republic of Korea; and (4) Osama bin Laden, the Al-Qaida organization, and any associated individuals or entities as designated from time to time by the attorney general after consultation with the government of the CB and the director of the financial intelligence unit (FIU).

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exchange Arrangement

Currency: Yes. The currency of The Bahamas is the Bahamian dollar. Commemorative gold coins in denominations of B$10, B$20, B$50, B$100, B$150, B$200, B$250, B$1,000, and B$2,500 and silver coins in denominations of B$10 and B$25 are legal tender but do not circulate.

Other legal tender: No. The US dollar circulates concurrently with the Bahamian dollar.

Exchange rate structure

Unitary

Dual: Yes. In addition to the official foreign exchange market, there is a market in which investment currency may be negotiated among residents.
through the ADs. The use of investment currency is prescribed for the purchase of foreign currency securities from nonresidents and direct investments abroad. Effective February 1, 2018, the current premium bid and offer rates were reduced to 5% (previously 12.5%) and 2.5% (previously 10%), respectively. Similarly, a premium of 5% (previously 12.5%) may be charged on approved purchases of securities and foreign real estate. In certain circumstances, the Central Bank of The Bahamas (CBB) may permit residents to retain and use foreign currency from other sources to make outward investments. Certain external investments (including investment in foreign stocks by company-based retirement funds) may take place at the official exchange rate without an investment currency premium.

Multiple

Classification

No separate legal tender

Currency board

Conventional peg

Yes. The exchange rate arrangement is a conventional peg arrangement. The Bahamian dollar is pegged to the US dollar at par. Central Bank Act 2010 Article 9 establishes “that the Minister may, after consultation with the Bank, by order alter the said parity whether in terms of gold or any other standard.” The CB has fixed the Bahamian dollar parity to 1 US dollar since 1972.

Stabilized arrangement

Crawling peg

Crawl-like arrangement

Pegged exchange rate within horizontal bands

Other managed arrangement

Floating

Free floating

Official exchange rate

Yes. The Bahamian dollar is pegged to the US dollar, the intervention currency, at par. This rate is used for actual CBB foreign exchange transactions and for accounting and valuation.

Monetary policy framework

Exchange rate anchor

Yes. The monetary policy framework is an exchange rate anchor vis-à-vis the US dollar.

U.S. dollar

Yes.

Euro

Composite

Other

Monetary aggregate target

Inflation-targeting framework

Target setting body
A stamp tax of 1.5% is applied to the conversion of Bahamian dollars on all outward remittances. Section 4(b) 51 A of the Stamp (Amendment) Act, 2013, imposes a 5% tax on Bahamian dollar conversion amounts in excess of B$0.5 million a year for funds to be remitted or transferred outside The Bahamas to a related party in respect of dividends or profits and payment for services by third

| **Forward exchange market** | Yes. | Commercial banks may provide forward cover for residents who are due to receive or must pay in foreign currency under a contractual commitment. Commercial banks may not, however, sell foreign
currency spot to be held on account to cover future requirements without the CBB’s permission. ADs may deal forward in foreign currency with nonresidents without prior approval from the CBB. Commercial banks may execute forward deals among themselves at market rates, but they must ensure when carrying out all forward cover arrangements that their open spot or forward position does not exceed 5% of the respective bank’s Tier 1 capital.

While the CBB does not itself participate in the forward exchange market, it facilitates swap transactions on behalf of The Bahamas.

**Official cover of forward operations**  No.

**References to legal instruments and hyperlinks**  This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

### Arrangements for Payments and Receipts

**Prescription of currency requirements**  Yes.

The Exchange Control system of The Bahamas makes no distinction among foreign territories. Settlements with residents of foreign countries may be made in any foreign currency or in Bahamian dollars through an external account. Foreign currency is defined as all currencies other than the Bahamian dollar.

**Controls on the use of domestic currency**  Yes.

Nonresidents may not access domestic currency for capital purposes; however, they may access domestic currency up to a certain limit for working capital in local businesses they operate.

**For current transactions and payments**  Yes.

Exchange Control regulations apply. Generally, domestic currency may not be used for outward transactions between residents and nonresidents.

**For capital transactions**  Yes.

Exchange Control approval is required. Generally, domestic currency may not be used for outward transactions between residents and nonresidents.

**Transactions in capital and money market instruments**  Yes.

Exchange Control approval is required. Generally, domestic currency may not be used for outward transactions between residents and nonresidents.

**Transactions in derivatives and other instruments**  Yes.

Exchange Control approval is required. Generally, domestic currency may not be used for outward transactions between residents and nonresidents.

**Credit operations**  Yes.

Generally, nonresidents may not obtain credit facilities in domestic currency, except for domestic currency overdraft facilities for local businesses owned by nonresidents. Otherwise, local businesses owned by nonresidents are required to obtain credit facilities in proportion to their ownership structure. Temporary residents may receive domestic currency loan facilities on a restricted basis. Resident individuals and wholly Bahamian-owned businesses require Exchange Control approval to obtain foreign currency credit and must demonstrate that efforts have been made, without success, to obtain local financing.

**Use of foreign exchange among residents**  Yes.

Officially, all settlements between residents must be made in domestic currency. Foreign currency received domestically from nonresidents (for example, tourism related) must be surrendered to ADs, unless approved by the CBB.

**Payments arrangements**  Yes.

**Bilateral payments arrangements**  No.

**Operative**  No.

**Inoperative**  No.

**Regional arrangements**  Yes.

The Bahamas is a member of CARICOM, but it does not participate in the common market.

## Resident Accounts
| Held domestically | Yes. | Permission from the CBB is required to open and hold foreign exchange accounts. Permission is generally granted to residents earning substantial amounts of foreign exchange who make regular payments abroad. Balances in excess of current requirements must generally be converted to Bahamian dollars. Balances on these accounts may not be transferred abroad without the prior permission of the CBB. Effective February 1, 2018, without prior approval from the CBB resident businesses may open and maintain foreign currency for operating transactions, from revenues earned in foreign currency, with balances of up to $100,000. The limit applies to accounts maintained in the aggregate, if at multiple commercial banks. Prior CBB approval is required for resident businesses to maintain accounts with balances exceeding $100,000. Previously, opening and maintaining the mentioned accounts required the CBB approval, regardless of the balance amount. |
| Approval required | Yes. |
| Held abroad | Yes. | Residents may not establish accounts abroad without Exchange Control approval. Such accounts must be maintained in foreign currency, and balances in excess of current requirements must generally be converted to Bahamian dollars. Effective February 1, 2018, on application to the CBB, approval will be granted to retain existing foreign currency assets, without penalty, with the right to repatriate the assets or to maintain the holdings outside The Bahamas. Deposits and other assets repatriated to the Bahamas may be retained in foreign currency. Restrictions remain in place against funding of such foreign-currency-denominated accounts with proceeds converted from Bahamian dollars. Approval required Yes. |
| Accounts in domestic currency held abroad | No. |
| Accounts in domestic currency convertible into foreign currency | Yes. | With the permission of the CBB (Exchange Control), balances on accounts held by residents in domestic currency may be converted to foreign currency. |
| References to legal instruments and hyperlinks | This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx. |

### Nonresident Accounts

| Foreign exchange accounts permitted | Yes. | These accounts may be credited with (1) payments in foreign currency from residents of The Bahamas with CBB permission, (2) payments in foreign currency from nonresidents, and (3) foreign currency receipts arising from dealings between nonresidents and ADs. These accounts may bear interest. Accounts may be debited for (1) payments to residents or nonresidents, (2) payments to other foreign exchange accounts, and (3) payment of foreign currency costs involved in dealings between nonresidents and ADs. Approval required No. |
| Domestic currency accounts | Yes. | With CBB approval, authorized banks may open external accounts in Bahamian dollars for nonresident companies that have expenses in The Bahamas and for nonresident investors. Authorized banks may freely open external Bahamian dollar accounts for nonresident entities and individual investors that have local expenses. Authorized banks may freely open external accounts in Bahamian dollars for winter residents and other such categories of non-Bahamians—for example, certain temporary residents employed in the Bahamian... |
offshore sector. External accounts in Bahamian dollars must be funded entirely from foreign currency originating abroad, but income from registered investments may be credited to these accounts with CBB approval. These accounts may not bear interest. Balances on these accounts may be transferred abroad freely.

Convertible into foreign currency | Yes. | These accounts are freely convertible to foreign currency.
Approval required | Yes. | With CBB approval, authorized banks may open external accounts in Bahamian dollars for nonresident companies that have expenses in The Bahamas and for nonresident investors. Authorized banks may freely open external Bahamian dollar accounts for nonresident entities and individual investors that have local expenses. Authorized banks may freely open external accounts in Bahamian dollars for winter residents and other such categories of non-Bahamians—for example, certain temporary residents employed in the Bahamian offshore sector. External accounts in Bahamian dollars must be funded entirely from foreign currency originating abroad, but income from registered investments may be credited to these accounts with CBB approval. These accounts may not bear interest.

Blocked accounts | No.
References to legal instruments and hyperlinks | This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Imports and Import Payments

Foreign exchange budget | No.
Financing requirements for imports | No.
Minimum financing requirements | No.
Advance payment requirements | No.
Advance import deposits | No.
Documentation requirements for release of foreign exchange for imports | Yes. | Effective February 1, 2018, CBB approval is required to make payments for non-oil imports exceeding the equivalent of B$1.0 million (previously, B$0.5 million), regardless of origin. This approval is generally given automatically on submission of pro forma invoices, Customs Entry Form, or other relevant documents proving the existence of a purchase contract.

Domiciliation requirements | Yes. | Transactions must be domiciled with a local AD.
Preshipment inspection | No.
Letters of credit | No.
Import licenses used as exchange licenses | No.
Other | Yes. | Customs Department Entry Form is required together with pro forma invoice or other documentation proving the existence of a purchase contract.
Import licenses and other nontariff measures | Yes.
Positive list | No.
Negative list | Yes. | The importation of certain commodities is prohibited or controlled for social, humanitarian, or health reasons. For all imports of agricultural products, a permit must be obtained from the Ministry of Agriculture. All other goods may be imported without a license.
Customs entries are subject to a stamp tax of 7%. OGLs must comply with the Agricultural Manufactories Act.

Sanitary or phytosanitary restrictions apply.

Import duties vary from 0% to 210%. The tariff rate on most goods is 35%, and the average tariff rate is 31%. Stamp duties on imports range from 2% to 20%. There is no import duty on certain tourism-related goods, but these goods are subject to stamp duties ranging from 8% to 20%.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exports and Export Proceeds

Export licenses are not required, except for crawfish, conch, and arms and ammunition.

Export licenses

Export taxes

Collected through the exchange system

Other export taxes

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.
Payments for Invisible Transactions and Current Transfers

Controls on these transfers: Yes. There are no restrictions on current payments. However, there are limits on the approval authority delegated to commercial banks by the CBB. ADs may make payments to nonresidents on behalf of residents and individuals deemed “temporary residents” for Exchange Control purposes—that is, non-Bahamians authorized to work in The Bahamas for a specified period, for certain services and other invisible transactions, such as commissions, royalties (excluding franchise fees), and education, within specified limits. CBB approval is required for payments in excess of those limits and for categories of payments not delegated to commercial banks.

Trade-related payments: Yes. Prior approval: Yes. CBB approval is required for transactions of more than B$25,000 for unloading and storage costs and commissions.

Quantitative limits: Yes. Limits are based on pro forma invoices or other relevant documents proving the existence of a service contract.

Indicative limits/bona fide test: Yes. Approval is based on a bona fide test.

Investment-related payments: Yes. Prior approval: Yes. For all investments with approved status, permission is given on application for the transfer.

Quantitative limits: No.

Indicative limits/bona fide test: No.

Payments for travel: Yes. Prior approval: Yes. Effective February 1, 2018, CBB approval is required for travel of more than B$15,000 a person a trip and business travel to facilitate imports (previously, this limit was B$10,000).

Quantitative limits: Yes. ADs may provide, effective February 1, 2018, up to B$15,000 (previously, B$10,000) or its equivalent a person a trip for tourism and other personal travel. The limit on travel for education is, effective February 1, 2018, B$15,000 (previously, B$10,000) a person a trip. For business or professional travel, the limit is, effective February 1, 2018, B$15,000 (previously, B$10,000) a trip. The allowance for tourism travel excludes the cost of fares and travel services, which is generally paid in Bahamian dollars to a travel agent in The Bahamas. Foreign exchange obtained for travel and any unused balance must be surrendered within one week of issue or, if the traveler is still abroad, within one week of returning to The Bahamas.

Indicative limits/bona fide test: Yes. Approval is based on a bona fide test.

Personal payments: Yes. There is no limit for medical expenses.

Prior approval: Yes. Except for the medical expenses, CBB approval is required for amounts exceeding this established limit.

Quantitative limits: Yes. ADs may provide up to B$25,000 a transaction or its equivalent for payments to education institutions (B$2,500 a transaction if paid to the student), family maintenance, and alimony payments. CBB approval is required for amounts exceeding this limit. Limits are applied per transaction. Effective February 1, 2018, an AD can facilitate payments to educational institution based on the full amount noted on the bill, as well as payments due under a court order for the total amount. Previously, ADs could provide up to B$25,000 a
transaction or its equivalent for payments to education institutions (B$2,500 a transaction if paid to the student), family maintenance, and alimony payments. CBB approval was required for amounts exceeding this limit.

**Indicative limits/bona fide test** | Yes. | Approval is based on a bona fide test, including supporting evidence.

**Foreign workers’ wages** | Yes.

**Prior approval** | No. | Prior approval is not required.

**Quantitative limits** | Yes. | Effective February 1, 2018, the limit is 100% of wages and salaries (previously, the limit was 50%).

**Indicative limits/bona fide test** | Yes. | If commitments outside The Bahamas are, effective February 1, 2018, more than 100% (previously, 50%) of wages and salaries, additional amounts may be remitted. Temporary residents may also repatriate all their accumulated savings resulting from their employment in The Bahamas.

Credit card use abroad | Yes.

**Prior approval** | Yes. | Approval is required for residents to hold an international credit card. Cards may not be used to pay for life insurance premiums and capital items.

**Quantitative limits** | Yes. | Use of credit cards is limited to the amount indicated on the current bill.

**Indicative limits/bona fide test** | Yes. | Credit card transactions are subject to bona fide tests.

Other payments | Yes.

**Prior approval** | No. | Effective February 1, 2018, the CBB approval is not required and AD may facilitate payment for services (that is, professional, subscription, membership fees, royalties, registration of patents, serial rights, and advertising) up to the amount indicated on the bill. Previously, approval from the CBB was required for such payments exceeding the equivalent of B$25,000. Limits were applied per transaction. Approval was based on a bona fide test and presentation of a valid invoice or a bill from the service provider.

**Quantitative limits** | Yes. | Use of credit cards is limited to the amount indicated on the current bill.

**Indicative limits/bona fide test** | Yes. | Effective February 1, 2018, AD may facilitate payment for services (that is, professional, subscription, membership fees, royalties, registration of patents, serial rights, and advertising) up to the amount indicated on the bill. Previously, approval from the CBB was required for such payments exceeding the equivalent of B$25,000. Limits were applied per transaction.

**References to legal instruments and hyperlinks** |  | This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Proceeds from Invisible Transactions and Current Transfers**

**Repatriation requirements** | Yes. | Residents must collect all proceeds without delay.

Surrender requirements | Yes.

**Surrender to the central bank** | No.

**Surrender to authorized dealers** | Yes. | All foreign currency proceeds must be offered for sale to an AD on receipt. Foreign exchange obtained for travel and any unused balance must be surrendered within one week of issue or, if the traveler is still abroad, within one week of returning to The Bahamas.

**Restrictions on use of funds** | No.
This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Capital Transactions**

**Controls on capital transactions**
Yes.

Effective February 1, 2018, the premium on approved purchases of securities and foreign real estate was reduced to 5% from 12.5%, while the premium on rates for investment currency sales by residents was reduced to 2.5% from 10%. However, certain categories of securities may be negotiated in the official market, with no premium. Cross-listing of Bahamian and foreign companies on CARICOM exchanges is allowed, and limited foreign investment by the National Insurance Board (the public pension fund) is authorized.

**Repatriation requirements**
Yes.

**Surrender requirements**
Yes.

**Surrender to the central bank**
Yes.

In the event of liquidation of the investment of funds that were initially purchased through the Investment Currency Market (ICM), the proceeds may be sold to the ICM and an element of the premium recovered, on the original capital invested, in line with the offer rate prevailing at the time of liquidation. Effective February 1, 2018, the current premium on rate for sales was reduced to 2.5% from 10%.

**Surrender to authorized dealers**
Yes.

Earnings on securities and money market instruments purchased abroad by residents must be surrendered to ADs, unless exemption is granted by the CBB. Foreign exchange loans by nonresidents to residents must be converted by an AD to Bahamian dollars, unless exemption is granted by the CBB.

**Controls on capital and money market instruments**
Yes.

All outward capital transfers require Exchange Control approval, and outflows of resident-owned capital are restricted. Inward transfers by nonresidents, which are encouraged, must be processed through the Exchange Control approval procedure, and the subsequent use of the funds in The Bahamas may also require authorization. Nonresidents may invest in obligations of companies listed on the Bahamas International Securities Exchange up to an aggregate of 10% of the respective issue or offering. They may also invest in public sector securities for which the CBB acts as registrar, subject to an overall limit of B$0.1 million a person or entity.

Operational guidelines apply to issuance of non-sponsored Bahamian depository receipts. Proposed product offerings must be established under the supervision of the Securities Commission (SC) before the CBB is approached for foreign exchange to fund external portfolios. Additional rules are as follows: (1) Mutual funds may retain foreign currency cash in their portfolios up to the maximum percentage of overall assets, as specified or disclosed in the investment policy statements or strategies of the funds. (2) Purchases and sales of foreign exchange against Bahamian dollar facilities must be executed through the CBB. (3) Individual brokers or dealers may pool the foreign exchange allotted to them each quarter, but the resources may not be traded in any commercial sense, because this would be seen as constituting a parallel market in foreign exchange. (4) The CBB prohibits the accumulation of unused quarterly allocations of brokers or dealers.

**On capital market securities**
Yes.

The Mutual Funds Act and a regulation that provides for licensing of mutual fund administrators and the registration of mutual funds are enforced. The Securities Industry Act authorizes the SC to regulate the stock exchange and its operations.

**Shares or other securities of a participating nature**
Yes.

Resident companies may invest in equities of Bahamas International Securities Exchange-listed companies, up to 10% of the issue or

<tr>
<td>Purchase locally by nonresidents</td>
<td>Yes</td>
<td>In principle, inward investment by nonresidents is unrestricted. However, CBB approval is required for the issue or transfer of shares in a Bahamian company to a nonresident and for the transfer of control of a Bahamian company to a nonresident. The extent of such approvals generally reflects the government’s economic and investment policy guidelines.</td>
</tr>
<tr>
<td>Sale or issue locally by nonresidents</td>
<td>Yes</td>
<td>CBB approval is required for the issue and transfer of shares in a Bahamian entity to a nonresident. The extent of such activity is often a function of government economic and investment policy on nonresident ownership in sectors of the economy.</td>
</tr>
<tr>
<td>Purchase abroad by residents</td>
<td>Yes</td>
<td>Residents employed by offshore and foreign-based institutions in The Bahamas may invest in employee stock options or share purchase plans through the official exchange market up to the equivalent of B$10,000 a person a year, on a noncumulative basis for contributory plans. Otherwise, residents may not purchase foreign currency securities with official exchange, export proceeds, or other current earnings; payment must be made with investment currency. All purchases, sales, and swaps of foreign currency securities by residents require CBB permission and are normally effected through authorized agents, who are free to act on behalf of nonresidents in relation to such transactions without additional approval from the CBB, effective February 1, 2018, at a 5% (previously 12.5%) premium. Certificates relating to ownership of all foreign securities purchased by residents must be held by, or to the order of, an AD. Investment by pension funds of Bahamian dollar assets in securities issued by nonresidents or in an investment portfolio held abroad must receive CBB approval, and approved transactions must be conducted through the ICM. Limits are imposed by the CBB, in concert with primary regulators (for example, the SC), with respect to portfolios held abroad by investment firms and collective investment funds.</td>
</tr>
<tr>
<td>Sale or issue abroad by residents</td>
<td>Yes</td>
<td>Sale proceeds from resident-held foreign currency securities that were registered at the CBB before December 31, 1972, or that were acquired through the ICM are eligible for sale in the ICM. Unregistered securities may be offered for sale at the official rate of exchange.</td>
</tr>
<tr>
<td>Bonds or other debt securities</td>
<td>Yes</td>
<td>Nonresident buyers of Bahamian-dollar-denominated securities must fund the acquisition of such securities from foreign currency sources. Interest, dividends, and capital payments on these securities may not be remitted outside The Bahamas, unless the holdings have been properly acquired by nonresidents. There is no minimum holding period for such bonds.</td>

| Sale or issue locally by nonresidents                    | Yes    | All purchases, sales, and swaps of foreign currency securities by residents require permission from the CBB and are generally effected through authorized agents, who are free to act on behalf of nonresidents in relation to such transactions without any additional approval from the CBB, effective February 1, 2018, at a 5% (previously 12.5%) premium. All foreign securities purchased by residents of The Bahamas must be held by, or drawn to the order of, an AD. Investment by pension funds of Bahamian dollar assets in securities issued by nonresidents or in an investment portfolio held abroad must receive CBB approval, and approved transactions must be conducted through the ICM. Limits are imposed by the CBB, in
concert with primary regulators (for example, the SC), with respect to portfolios held abroad by investment firms and collective investment funds.

Sale or issue abroad by residents

Yes. Proceeds from the sale of residents’ foreign securities initially approved by the CBB and acquired via the ICM are eligible for sale in the market. Investors may recover a portion of the original premium paid equivalent to the premium offer rate prevailing at the time of the sale. Investment proceeds that are not premium worthy are recovered at the official market rate through commercial banks.

On money market instruments

Yes.

Purchase locally by nonresidents

Yes. Nonresident buyers of Bahamian-dollar-denominated securities must fund the acquisition of such securities from foreign currency sources. Interest, dividends, and capital payments on these securities may not be remitted outside The Bahamas unless the holdings have been properly acquired by nonresidents.

Sale or issue locally by nonresidents

Yes. Prior approval of the CBB is required, but generally restricted.

Purchase abroad by residents

Yes. All purchases, sales, and swaps of foreign currency securities by residents require permission from the CBB and are generally obtained through authorized agents, who are free to act on behalf of nonresidents in relation to such transactions without any additional approval from the CBB, effective February 1, 2018, at a 5% (previously 12.5%) premium. All foreign securities purchased by residents of The Bahamas must be held by, or drawn to the order of, an AD. Limits are imposed by the CBB, in concert with primary regulators (for example, the SC), with respect to portfolios held abroad by investment firms and collective investment funds.

Sale or issue abroad by residents

Yes. CBB approval is required and is granted based on merit. Generally, funding should be raised through the domestic money and capital market.

On collective investment securities

Yes.

Purchase locally by nonresidents

Yes. Nonresident buyers of Bahamian-dollar-denominated securities must fund the acquisition of such securities from foreign currency sources. Interest, dividends, and capital payments on these securities may not be remitted outside The Bahamas, unless the holdings were properly acquired by nonresidents.

Sale or issue locally by nonresidents

Yes. CBB approval is required. Sometimes, shares of foreign-owned companies that operate in The Bahamas may be sold to residents, typically within the framework of government economic and investment policy for the sector.

Purchase abroad by residents

Yes. All purchases, sales, and swaps of foreign currency securities by residents require permission from the CBB and are generally effected through authorized agents, who are free to act on behalf of nonresidents in relation to such transactions without any additional approval from the CBB, effective February 1, 2018, at a 5% (previously 12.5%) premium. All foreign securities purchased by residents of The Bahamas must be held by, or drawn to the order of, an AD. Controls on direct investment

Outward direct investment

For direct (that is, not portfolio) investments both in The Bahamas’ offshore sector and abroad, residents are permitted to purchase up to $2 million a person or entity via the official market (that is, from ADs), with the prior approval of CBB, subject to an overall limit of $10 million a investor group, a transaction. This facility may be accessed once every three years. These limits apply to investments from which the additional benefits that are expected to accrue to the balance of payments from export receipts, profits, or other earnings within 18 months of the investment will be at least equal to the total amount of the investment and will continue thereafter. Investments abroad that do not meet the above criteria may be financed by foreign currency borrowed on suitable terms, subject to individual approval from the CBB; by foreign currency purchased in the ICM; or by the retained profits of foreign subsidiary companies. Permission is not given for investments that are likely to have adverse effects on the balance of payments.

Inward direct investment

Controls on liquidation of direct investment

No. In the event of a sale or liquidation, nonresident investors may repatriate the proceeds, including any capital appreciation, through the official foreign exchange market.

Controls on real estate transactions

Yes.

Purchase abroad by residents

Yes. Residents require the specific approval of the CBB to buy property outside The Bahamas; such purchases, if for personal use, may be made only with investment currency, and approval is limited to one property a family. Incidental expenses connected with the purchase of property for personal use may generally be met with investment currency. Expenditures necessary for the maintenance of the property or arising directly from its ownership may, with permission, be met...
with foreign currency bought at the current market rate in the official foreign exchange market. Effective February 1, 2018, the premium on approved purchases of foreign real estate through ICM was reduced to 5% from 12.5%.

The ICM property premium excludes the purchase of time share units abroad, which may be funded at the official rate up to B$25,000 a family unit, once every 10 years. Effective February 1, 2018, on CBB approval, residential or time share purchases may be made at the official rate, up to a limit of $0.5 million. Payments in excess of this amount will require use of the ICM. Previously, the purchase of time share units abroad could be funded at the official rate up to B$25,000 a family unit, once every 10 years.

**Purchase locally by nonresidents**

Yes. Foreigners intending to purchase land for commercial purposes or property larger than two acres in size must obtain a permit from the Investments Board. If such an application is approved, payment for the purchase may be made either in Bahamian dollars from an external source or in foreign currency. Nonresidents wishing to purchase property for residential purposes may do so without prior approval but are required to obtain a certificate of registration from the Investments Board on completion of the transaction.

**Sale locally by nonresidents**

Yes. CBB approval is required.

**Controls on personal capital transactions**

Yes.

**Loans**

Yes.

**By residents to nonresidents**

Yes. CBB approval is required.

**To residents from nonresidents**

Yes. CBB approval is required.

**Gifts, endowments, inheritances, and legacies**

Yes.

**By residents to nonresidents**

Yes. Authorized banks may approve foreign exchange transactions for cash gift payments, effective February 1, 2018, up to B$15,000 (previously B$1,000) a transaction. Larger amounts require CBB approval. Endowments, inheritance, and legacies require CBB approval.

**To residents from nonresidents**

No.

**Settlement of debts abroad by immigrants**

Yes. Immigrants (that is, work visa and contract workers) are permitted to remit up to half of their wages and salaries annually for the length of their contract. They may also with CBB approval transfer accumulated savings abroad, if needed to meet commitments abroad. Effective February 1, 2018, immigrants are permitted to remit up to 100% of wages and salaries annually for the length of contract. Previously the limit was 50%.

**Transfer of assets**

Yes.

**Transfer abroad by emigrants**

Yes. An emigrant may transfer abroad a maximum of the equivalent of B $250,000 a family unit a year. Excess amounts may be approved by the CBB on an individual basis.

**Transfer into the country by immigrants**

No.

**Transfer of gambling and prize earnings**

Yes. Residents are not allowed to remit funds earned from gambling.

</table>

**Changes during 2018 and 2019**

**Exchange Arrangement**

| Exchange rate structure | 02/01/2018 | The premium on rates for investment currency purchases by residents was reduced to 5% from 12.5%, while the premium on rates for investment currency sales by residents was reduced to 2.5% from 10%. |

**Arrangements for Payments and Receipts**

| Administration of control | 02/01/2018 | ADs were authorized to approve allocation of foreign exchange for certain current payments, including for imports up to the equivalent of B$1.0 million (previously B$0.5 million) and cash gift transfers up to the equivalent of B$15,000 (previously B$1,000) a transaction. |

**Resident Accounts**

| Foreign exchange accounts permitted | Held domestically | 02/01/2018 | Without prior approval from the Central Bank of The Bahamas (CBB) resident businesses may open and maintain foreign currency for operating transactions, from revenues earned in foreign currency, with balances of up to $100,000. The limit applies to accounts maintained in the aggregate, if at multiple commercial banks. Prior |
CBB approval is required for resident businesses to maintain accounts with balances exceeding $100,000. Previously, opening and maintaining the mentioned accounts required the CBB approval, regardless of the balance amount. On application to the Central Bank of The Bahamas, approval will be granted to retain existing foreign currency assets, without penalty, with the right to repatriate the assets or to maintain the holdings outside The Bahamas. Deposits and other assets repatriated to the Bahamas may be retained in foreign currency. Restrictions remain in place against funding of such foreign-currency-denominated accounts with proceeds converted from Bahamian dollars.

**Imports and Import Payments**

**Held abroad**  
02/01/2018

The amount of payments for non-oil imports for which the Central Bank of The Bahamas approval is not required was increased from B$0.5 million to B$1.0 million.

**Payments for Invisible Transactions and Current Transfers**

**Controls on these transfers**

**Payments for travel**

**Prior approval**  
02/01/2018

The Central Bank of The Bahamas approval is required for travel of more than B$15,000 a person a trip and business travel to facilitate imports (previously, this limit was B$10,000).

**Quantitative limits**  
02/01/2018

ADs may provide up to B$15,000 or its equivalent a person a trip for tourism and other personal travel. Previously, the limit was B$10,000.

02/01/2018

For business or professional travel, the limit is B$15,000 a trip. Previously, the limit was B$10,000.

02/01/2018

The limit on travel for education is B$15,000 a person a trip. Previously, the limit was B$10,000.

**Personal payments**

**Quantitative limits**  
02/01/2018

An AD can facilitate payments to educational institution based on the full amount noted on the bill, as well as payments due under a court order for the total amount.

Previously, ADs could provide up to B$25,000 a transaction or its equivalent for payments to education institutions (B$2,500 a transaction if paid to the student), family maintenance, and alimony payments. The Central Bank of The Bahamas approval was required for amounts exceeding this limit.

**Foreign workers’ wages**

**Quantitative limits**  
02/01/2018

The limit for the transfer abroad of foreign workers’ wages/salaries is increased from 50% to 100% of wages and salaries.

**Indicative limits/bona fide test**  
02/01/2018

If commitments outside The Bahamas are more than 100% (previously, 50%) of wages and salaries, additional amounts may be remitted.

**Other payments**

**Prior approval**  
02/01/2018

The Central Bank of The Bahamas (CBB) approval is not required and AD may facilitate payment for services (that is, professional, subscription, membership fees, royalties, registration of patents, serial rights, and advertising) up to the amount indicated on the bill. Previously, approval from the CBB was required for such payments exceeding the equivalent of B$25,000. Limits were applied per transaction. Approval was based on a bona fide test and presentation of a valid invoice or a bill from the service provider.

**Indicative limits/bona fide test**  
02/01/2018

AD may facilitate payment for services (that is, professional, subscription, membership fees, royalties, registration of patents,
serial rights, and advertising) up to the amount indicated on the bill. Previously, approval from the Central Bank of The Bahamas was required for such payments exceeding the equivalent of B$25,000. Limits were applied per transaction.

**Capital Transactions**

The premium on rates for approved purchases of securities and foreign real estate through Investment Currency Market was reduced to 5% from 12.5%, while the premium on rates for investment currency sales by residents was reduced to 2.5% from 10%.

ADs, which operate under the Law on the Bank of Bahrain and the Financial Institutions Law (2006), set their exchange rates and commissions freely. In addition to banks, foreign exchange dealers operate in the foreign exchange market.

The CBB has licensed 141 institutions (including 32 retail banks and 78 wholesale banks) to deal in foreign exchange. The CBB has also licensed 19 money changers to sell, purchase, and exchange foreign currency directly and transfer currency from Bahrain on behalf of their clients.

The CBB buys US dollars at BD 0.375 per US dollar and sells US dollars at BD 0.377 per US dollar to ADs and the government. The CBB does not deal with the public. No documentation is required from banks to complete transactions with the CBB. Deals are executed and recorded in the automated dealing system, which is sufficient to verify the trade and prove the commitment of both parties.

The CBB had authorized 410 financial institutions as of December 31, 2018, 140 of which were conventional and Islamic banks.

Bahrain operates a brokerage system.

The CBB monitors the forward exchange transactions of commercial banks through the open position of banks’ monthly returns. The CBB does not participate in the foreign exchange derivatives market (forwards and swaps).

With respect to payments arrangements, a free trade agreement is in effect with the United States.

Bahrain is a member of the GCC Customs Union.

There is no exchange control legislation. The CBB is the successor to the Bahrain Monetary Authority. The CBB and Financial Institutions Law replaced the Bahrain Monetary Authority Law of 1973 and the Insurance Law (Legislative Decree No. 17 of 1987).

Imports of gold jewelry are subject to a 5% customs duty (applicable to most imported goods), but gold ingots are exempt.

Customs affairs maintains records of imports and exports of currency and negotiable instruments exceeding the permitted limits and forwards the information to the CBB for further investigation.

Proceeds from Invisible Transactions and Current Transfers

Repatriation requirements  No.
Surrender requirements  No.
Surrender to the central bank  No.
Surrender to authorized dealers  No.

Restrictions on use of funds  Yes.  Proceeds from invisible transactions from Israel are prohibited.

References to legal instruments and hyperlinks
This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Capital Transactions

Controls on capital transactions  Yes.  There are no exchange controls on capital receipts or payments by residents or nonresidents, but transactions in money market instruments are regulated to prevent money laundering. Payments may not be made to or received from Israel.

Repatriation requirements  No.
Surrender requirements  No.
Surrender to the central bank  No.
Surrender to authorized dealers  No.

Controls on capital and money market instruments  Yes.

On capital market securities  Yes.  The capital market is subject to anti-money-laundering legislation.

Shares or other securities of a participating nature  Yes.
Purchase locally by nonresidents  Yes.  The CBB Law and its accompanying regulations provide for certain controls based on international best practices.
In line with Resolution No. 49 of 2016 issued by the Ministry of Industry, Commerce and Tourism, foreign investors are allowed to have 100% ownership in most sectors. Investment in very few sectors is restricted at 49%. Purchases, sales, and ownership of shares are subject to the provision of anti-money-laundering legislation. The CBB Law and regulations do not specify any minimum holding...
period requirement.
With regard to shareholding pattern of financial institutions licensed
and regulated by the CBB, Article 345(a) of the Commercial
Companies Law (as amended) allows for partial or full ownership of
such financial institutions by non-Bahraini citizens.

Sale or issue locally by nonresidents  Yes.  The CBB Law regulates the sale and issuance of securities by
residents and nonresidents. These sales (transactions) are subject to
the CBB approval under Article 81 of the CBB Law and the CBB
Rulebook, in particular the Offering of Securities (OFS) Module in
Volume 6 thereof.

Purchase abroad by residents  No.  There are no restrictions on these transactions, provided the
regulations of the foreign jurisdiction concerned are satisfied.

Sale or issue abroad by residents  Yes.  As per the CBB Rulebook requirement, in particular the OFS Module in
Volume 6, sale or issue abroad by residents must be subject to the
CBB approval, provided the foreign regulator in respective
jurisdiction has approved the sale of issue.

Bonds or other debt securities  Yes.  The issuance of bonds and other debt securities is subject to the CBB
Law and regulations, the CBB Rulebook, and the Commercial
Companies Law. Sales of listed bonds and other debt securities are
subject to the CBB Rulebook and the CBB Resolution No. 17 of
2012 in respect of Listing and Trading of Financial Instruments on
the Bahrain Bourse and Bahrain Bourse’s rules.

Purchase locally by nonresidents  Yes.  In line with the CBB Directive (Ref. EDBO/44/2011) issued to all
retail banks within the Bahrain on August 10, 2011, the participation
of retail customers/investors in government securities’ issuance, in
specific, was discussed.

Sale or issue locally by nonresidents  No.  The CBB Law and the OFS Module in Volume 6 of the CBB
Rulebook apply.

Purchase abroad by residents  No.  There are no restrictions on these transactions, provided the
regulations of the foreign jurisdiction concerned are satisfied.

Sale or issue abroad by residents  Yes.  No restriction applies, provided there is no objection by the CBB. As
per the CBB Rulebook requirement, in particular the OFS Module in
Volume 6, sale or issue abroad by residents must be subject to the
CBB approval, provided the foreign regulator in respective
jurisdiction has approved the sale of issue.

On money market instruments  No.  There are no restrictions on these transactions; however, they are
regulated to prevent money laundering.

Purchase locally by nonresidents  No.
Sale or issue locally by nonresidents  No.
Purchase abroad by residents  No.
Sale or issue abroad by residents  No.
On collective investment securities  No.

Derivatives trading must be conducted on a licensed exchange in Bahrain and is subject to the rules of the exchange and the CBB, which conform to International Organization of Securities Commissions’ recommendations and international practice.

The GCC citizens may own up to 100% of the shares of domestic enterprises. Non-GCC individuals may own up to 100% of the shares of domestic (locally incorporated) companies and branches of foreign incorporated companies, with the exception of a small number of activities on the negative list and in accordance with restrictions that apply to the ownership of publicly listed companies.

There are no restrictions on ownership of real estate by the GCC nationals (either natural or juridical persons). Nonresidents (both natural and juridical persons) may own buildings and property only in locations specified in Council of Ministers Regulation No. 5/2001, including most of the high-end and tourist areas. Commercial, tourism, and industrial companies, as well as banking and financial...
institutions licensed to operate in Bahrain, may own real estate without restriction.

Provisions Specific to the Financial Sector

Banks are subject to special rules regarding the payment of dividends and the remittance of profits. Licensed offshore banking units may engage freely in transactions with nonresidents; transactions with residents are not normally permitted. The reserve requirement on dinar deposits of residents and nonresidents is 5%, which applies to nonbank sector and retail banks only, but there is no reserve requirement on foreign currency deposits.

### Exchange Measures

- **Restrictions and/or multiple currency practices**: Yes.
  - The IMF staff report for the 2018 Article IV Consultation with Bangladesh states that, as of May 10, 2018, Bangladesh maintained one restriction subject to IMF approval under Article VIII, Section 2 (a) on the convertibility and transferability of proceeds of current international transactions in nonresident taka accounts. (Country Report No. 18/158)

- **Exchange measures imposed for security reasons**: Yes.
  - Banks and other financial institutions have been instructed to block all capital transfers and to freeze financial assets of individuals, groups, and organizations associated with terrorism, pursuant to the relevant UNSC resolutions.

- **Other security restrictions**: Yes.
  - Banks and other financial institutions have been instructed to block all capital transfers and to freeze financial assets of individuals, groups, and organizations associated with terrorism, pursuant to the relevant UNSC resolutions. Banks have been instructed to follow the following provisions in case of international fund transfers: (1) No correspondent banking relationship may be established or maintained with any shell bank. (2) No account may be opened or operated for a listed individual or entity suspected to be involved in terrorism or terrorist financing activities within the purview of different resolutions of the UNSC. “Person or entities listed under various resolutions of the UNSC” refers to the listed persons or entities under the resolutions defined under Article 2 (g) of Anti-Terrorism Rules, 2013. (3) As soon as any news on Financing of Terrorism and Financing of Proliferation of Weapons of Mass Destruction is published in the media and if any account of any person or entity related to that activity is maintained with the bank, detailed information must be reported to the BFIU without any delay. (4) If any account or transaction of any individual/entity directly or indirectly under their control/association is identified, the bank must stop the transaction in that account or stop that transaction and inform the BFIU with detailed information within the next working day. (5) Conduct and review transaction when necessary to identify if there is any account or any other relationship, under the Resolution No. 1373 (2001) of UNSC, on request of foreign government or foreign Financial Intelligence Unit or any listed or proscribed individual or entity as per list sent from the BFIU or as per listed or proscribed individual/entity by Bangladesh Government. As soon as any account is identified of any listed or proscribed individual or entity, the bank must stop the transaction in that account and inform the BFIU with detailed information within the next working day. As of February 11, 2016, financial institutions and other reporting agencies identified under Section 2(20) of Anti-Terrorism Act, 2009,

Official exchange rate

Yes. The BB calculates the exchange rates of the taka against major foreign currencies for the purpose of valuation adjustment of foreign exchange reserves, for carrying out transactions related to government’s external loans, grants, and aids (receipt/service) in terms of local currency and for market intervention (sale/purchase, when required). To determine the exchange rate of Bangladesh taka (BDT) for a particular date, the latest New York closing exchange rate of major currencies against the US dollar and the US$/BDT exchange rate of the preceding day which prevailed in the local...
interbank foreign exchange market are taken into account. The weighted average US$/BDT exchange rate of the local interbank foreign exchange market is used for the valuation of US$ while cross-rates of other currencies against BDT are used for the valuation of those currencies. The cross-rate is calculated using the US$/BDT exchange rate (low as bid and high as ask) of the local interbank foreign exchange market. The BB publishes exchange rates of the taka against major currencies through its website.

*Other*

Monetary aggregate target Yes. The monetary policy of the BB aims to control monetary aggregates in line with an indicative growth ceiling of broad money stock (M2) while anchoring inflation expectations. The monetary authority uses its instruments to be within the ceiling of M2 growth target by maintaining the growth rate of reserve money as an operating target. The BB announces monetary policy semiannually.

ADs are allowed to freely determine their bid-ask spread with bank and nonbank clients.

Commercial banks participating in the local foreign exchange market may freely determine the exchange rate for interbank and customer-level transactions based on supply and demand.

The BB grants licenses to deal in foreign exchange. There are 1,021 branches of commercial banks (known as AD banks) licensed to deal in foreign exchange with bank and nonbank customers. There are 234 money changers (MCs) and 103 limited MCs granted with licenses to buy foreign currency from tourists and to sell up to US$1,000 a person as a travel allowance to Bangladesh nationals. MCs are not allowed to transact directly with the CB and are not allowed to maintain account abroad. However, MCs can maintain foreign currency account with ADs in Bangladesh.

### Operated by the central bank

<table>
<thead>
<tr>
<th>Foreign exchange standing facility</th>
<th>Yes.</th>
<th>Yes.</th>
</tr>
</thead>
</table>

Currently, there is no foreign exchange standing facility for commercial banks. To ensure smooth functioning of the interbank market, the BB occasionally buys and sells foreign exchange from/to commercial banks considering the exchange position of the banks concerned, underlying transactions, market demand, and liquidity of the overall market.

### Allocation

The BB provides foreign currency support to exporters to bolster export through Export Development Fund. The current limit of Export Development Fund is US$3.5 billion. The BB has introduced another two foreign exchange funds. Under the financing agreement with the International Development Association (IDA) regarding implementation of the Financial Sector Support Project (FSSP), the BB provides long-term financing in foreign currency (Long-Term Financing Facility – LTFF) to the eligible banks for on lending/refinancing to mainly small- and medium-scale manufacturing enterprises in the country. This facility is available for purchasing capital machinery and equipment for upgradation,
expansion, or for newly setup manufacturing industries, relocating factories to designated industrial zones, etc., with a maturity from 3 to 10 years. Since 2016, the BB has established a revolving fund of US$200 million named the Green Transformation Fund (GTF) to accelerate sustainable growth in export-oriented textile and leather sectors conducive to transformation of green economy in the country. This fund allows the AD banks to lend to their customers for importing capital machineries and accessories in foreign exchange and the BB refinances the fund to the AD banks. The BB occasionally engaged itself in the foreign exchange market to ensure stability of exchange rate of taka by absorbing excess liquidity and vice versa when needed. In 2018, the BB sold US$2371 million to commercial banks. The CB usually does not enter into any deals directly with the government and other public entities.

**Auction**  No.

**Fixing**  No.

**Interbank market**  Yes. There is an effective interbank foreign exchange market where all 59 commercial banks participate to buy or sell foreign exchange on spot, swap, and forward basis. Since the adoption of floating exchange rate system on May 31, 2003, the exchange rate is determined based on demand and supply of the respective currencies in the market. Swap transactions are also very common and the size of swap transactions is larger than spot transactions. There is no brokerage system currently in the foreign exchange market. To maintain orderly market conditions, the BB remains vigilant over the movements in the foreign exchange market. The BB intervenes occasionally in the market to ensure market liquidity and to smooth the market in the case of unusual volatility.

**Over the counter**  Yes. These deals are made on a bilateral basis, and there is no broker or other market-making arrangement.

**Brokerage**  No. There is no broker arrangement.

**Market making**  No. There is no other market-making arrangement.

**Forward exchange market**  Yes. ADs may buy and sell foreign currency forward in accordance with international practices. Currency swaps and forward exchange transactions of ADs with nonbank customers must be backed by approved underlying commercial transactions. Although the limits on outstanding swap transactions have been relaxed, counterparty limits on swap transactions between ADs are determined according to the core risk management guidelines prescribed by the BB. Condition to cover forward sale by forward purchase was waived through FE Circular No. 18 of October 1, 2009. The BB buys and sells on a spot basis only in the foreign exchange market and does not participate in the foreign exchange derivatives market.

**Official cover of forward operations**  No. There is no official cover of forward operations.

**References to legal instruments and hyperlinks**  This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Arrangements for Payments and Receipts**

**Prescription of currency requirements**  Yes. Settlements generally take place in convertible currencies and, in some cases, through nonresident taka accounts. The board of directors of the ACU allows the use of euros in addition to US dollars for the settlement of transactions among ACU member countries. Settlements with ACU member countries must be effected through the ACU and in units denominated in AMUs (ACU dollars and ACU
euros are equivalent in value to US$1 and €1, respectively.) The minimum threshold amount for transactions through ACU member CBs under ACU arrangement was set at 500 ACU dollars or ACU euros. As the payment channel for processing “ACU Euro” transactions had been suspended by some correspondents, ADs were advised to suspend operations in “ACU Euro” temporarily. Accordingly, all eligible current account transactions in “ACU Euro” were permitted to be settled outside the ACU mechanism until further notice. Effective January 18, 2018, to facilitate transactions under ACU mechanism, along with “ACU Dollar,” ADs are advised to resume transactions in “ACU Euro” to settle current account transactions among ACU member countries. In addition, Japanese yen has also been included as a settlement currency in ACU mechanism.

Accordingly, all eligible current account transactions in “ACU Euro” were permitted to be settled outside the ACU mechanism until further notice. Effective January 18, 2018, to facilitate transactions under ACU mechanism, along with “ACU Dollar,” ADs are advised to resume transactions in “ACU Euro” to settle current account transactions among ACU member countries. In addition, Japanese yen has also been included as a settlement currency in ACU mechanism.

Controls on the use of domestic currency  Yes.  Domestic currency held in the NRTAs of overseas bank branches and correspondents against inward remittance in convertible currencies may be used to settle eligible international transactions.

For current transactions and payments  Yes.  Payments for imports may be made to any country (with the exception of countries from which imports are prohibited). They may be made in (1) taka for credit in Bangladesh to a nonresident bank account of the country concerned, (2) the currency of the country concerned, or (3) any freely convertible currency. Export proceeds must be received in freely convertible foreign exchange or in taka from a NRTA.

For capital transactions  Yes.  ADs may hedge the price risk of commodities (traded on exchanges or OTC) of their customers through standard exchange-traded futures and options and OTC commodity derivatives, subject to the BB approval. The use of commodity derivatives is permitted when customers have genuine underlying commodity-price risk exposure. Speculation through the use of commodity derivative instruments is not permitted by the BB.

Credit operations  Yes.  The use of foreign exchange among residents is generally not allowed.

Payments arrangements  Yes.  There is a bilateral payments arrangement with Myanmar. Under a Memorandum of Understanding signed between Bangladesh and India, there are zones (markets) for border trade between the two countries. Both countries’ exchange regulations are suspended in these zones for trading of goods up to the equivalent of US$100 a day an individual.

Operative  Yes.  There is a bilateral payments arrangement with Myanmar. Under a Memorandum of Understanding signed between Bangladesh and India, there are zones (markets) for border trade between the two countries. Both countries’ exchange regulations are suspended in these zones for trading of goods up to the equivalent of US$100 a day an individual.

Inoperative  No.

Regional arrangements  Yes.  The ACU was established at the initiative of the UN Economic and Social Commission for Asia and the Pacific (ESCAP). The Draft Agreement Establishing the ACU was finalized in December 1974, after five CBs (India, Iran, Nepal, Pakistan, and Sri Lanka) signed the Agreement. In subsequent years, Bangladesh, Bhutan, Maldives, and Myanmar signed the Agreement, which leads to a total of nine members in the ACU.

Clearing agreements  Yes.  The CBs of Bangladesh, Bhutan, India, Iran, Maldives, Myanmar,
Nepal, Pakistan, and Sri Lanka have an Agreement to settle current transactions between these countries through the ACU mechanism. ACU is a payment arrangement whereby the participants settle payments for intra-regional transactions among the participating CBs on a net multilateral basis. The main objectives of the clearing union are to facilitate payments among member countries for eligible transactions, thereby economizing on the use of foreign exchange reserves and transfer costs, as well as promoting trade and banking relations among the participating countries.

Barter agreements and open accounts  No.

Administration of control  Yes. Foreign exchange policy is administered by the BB in accordance with the Foreign Exchange Regulation Act (FERA) (1947). Banks may deal in foreign exchange. The chief controller of imports and exports of the Ministry of Commerce is responsible for registering exporters and importers and for issuing import policy orders (IPOs). Registered importers may operate according to the terms of an IPO. LC authorization forms (LCAFs) are issued by ADs and do not require separate import licenses.

Payments arrears  No.

Official  No.

Private  No.

Controls on trade in gold (coins and/or bullion)  Yes. There are no restrictions on the internal sale, purchase, or possession of gold or silver ornaments (including coins) and jewelry.

On domestic ownership and/or trade  Yes. The importation and exportation of gold and silver require special permission under the FERA, 1947, which was later amended September 9, 2015. However, women may bring in or take out any amount of personal jewelry they are wearing or carrying in their personal luggage, without approval. Exports of gold jewelry and imports of gold and silver for exports of jewelry manufacture are allowed under the Jewelry Export Scheme. Incoming passengers irrespective of their resident status may bring into Bangladesh gold or silver in bullion/ingot up to the prescribed limit in terms of relevant baggage rules in force issued under the Customs Act, 1969. Effective October 29, 2018, the BB started issuing authorized gold dealer licenses for importation of gold bar and jewelry to AD banks and interested organizations.

Controls on exports and imports of banknotes  Yes.

On exports  Yes.

Domestic currency  Yes. Residents and nonresidents may take out up to Tk 10,000 in domestic currency.

Foreign currency  Yes. Residents may take out foreign currency and traveler’s checks (TCs) up to the amount of their travel allocation and up to the equivalent of US$5,000 brought in without declaration when returning from a visit abroad. Nonresidents may take out the foreign currency and TCs they declared on entry or up to the equivalent of US$5,000 brought in without declaration. The limit on foreign exchange (cash, TCs, notes, cards, etc.) that may be taken out from private foreign currency accounts, nonresident foreign currency deposit (NFCD) accounts, and resident foreign currency deposit (RFCD) accounts for travel abroad by presenting a ticket and other travel documents is US $5,000. General permission has been granted to reconvert unspent
taka (up to US$100 or its equivalent) at the bank booth in the
departure lounge of international airports in Bangladesh, even if the
foreign currency was converted at a different AD or MC. Licensed
MCs, including bank booth at the airports, are allowed to reconvert
the unspent taka to foreign currencies up to US$500 or equivalent for
tourists, whether it encashed earlier or not.

On imports

| Yes. |

*Domestic currency*  

| Yes. |

*Foreign currency*  

| No. |

Foreign currency traveler's checks and notes may be brought in
freely up to the equivalent of US$5,000; larger amounts must be
declared to customs on arrival.

References to legal instruments and hyperlinks  

This information can be found at the AREAER ONLINE database:
http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Resident Accounts

Residents and nonresidents may bring in up to Tk 10,000 in domestic
currency.

Foreign currency traveler's checks and notes may be brought in
freely up to the equivalent of US$5,000; larger amounts must be
declared to customs on arrival.

Resident Accounts

Residents returning from abroad may bring in any amount of foreign
currency and deposit it in an RFCD account. However, proceeds of
exports of goods and services and commissions arising from business
deals in Bangladesh may not be credited to such accounts. Balances
in these accounts are freely transferable abroad and may be used for
travel in the usual manner. These accounts may be opened in US
dollars, euros, pounds sterling, and Japanese yen. Foreign exchange
accounts may also be opened (1) by local and joint-venture
contracting firms executing projects financed by a foreign donor or
international agency; (2) by returning nonresident Bangladeshis
(NRBs) with foreign exchange brought in from abroad; (3) in the
name of diplomatic missions in Bangladesh and their expatriate
personnel, the UN and its agencies, and diplomatic bonded
warehouses (duty-free shops); and (4) in the name of resident
Bangladeshis working with foreign or international organizations in
Bangladesh, if their salaries are paid in foreign currency. Effective
October 17, 2018, ADs may apply interest on the balances of the
RFCD accounts at Eurocurrency deposit rates. Exporters of goods
and services may deposit a certain percentage of the repatriated
export proceeds in exporters’ retention quota (ERQ) accounts.
Shipbuilders may open and maintain foreign exchange accounts to
receive and hold advance export payments from buyers abroad.
Balances in these accounts may be used for importing raw materials
and components for ship building. These accounts must be closed
within one month of delivery of the ship to the foreign importer. To
facilitate foreign exchange transactions for transportation services for
imports and exports, general authorization is given to shipping
lines/airlines/licensed freight forwarders to open and maintain
foreign currency accounts to deposit/make payment of foreign
currency on account of freights for f.o.b. imports/exports. Importers
may pay freight charges as declared on an LCAF issued for f.o.b.
imports to shipping lines/airlines/licensed freight forwarders in
foreign currency. Shipping lines/airlines may also accept payments in
foreign currency from freight forwarders against handling of f.o.b.
exports. Foreign currency deposited in foreign currency accounts of
shipping lines/airlines against freight charges on f.o.b. exports from
licensed freight forwarders may be used for outward remittances on
account of surplus earnings. Balances held in the foreign currency
accounts must first be used for outward remittances before use of
local currency funds. AD banks must ensure the encashment of
adequate foreign currency by the shipping lines/airlines to meet local
expenses in case of shortfall in local currency funds.
To keep minimum involvement of AD’s own fund for settlement of
import, ADs maintaining ERQ accounts may transfer fund from ERQ
accounts to other ADs of same exporters or their subsidiaries/sister
concerns for settlement of import payment. The transferable fund can
be used only for the settlement of import payments.
ADs may use balances held in ERQ accounts or by fund of
unencumbered foreign currency transferred from ERQ accounts
maintained with other ADs of the same borrowers on account of
repayment of foreign loan. Such remittances may also be effected by
nominated ADs out of fund transferred from ERQ accounts of
borrowers’ subsidiaries/sister concerns.
Equity from foreign shareholders of “Type A” and “Type B”
enterprises and authorized loan received in foreign currency from
external sources by EPZ enterprises are permitted to be credited in
their FC accounts. “Type C” enterprises of EPZs are allowed to
obtain foreign exchange from ADs to settle obligations for importing
capital machinery by the conversion of equivalent equity and/or
authorized loan received in local currency and to access short-term
foreign currency loans from their subsidiaries/associates operating in
the same EPZ/EZ. “Type B” enterprises are allowed to convert their
local equity/authorized loan received in local currency to foreign
exchange to settle obligations for importing capital machinery if
equity/authorized foreign loan received from abroad falls short to
meet such obligations.

Approval required  No.
Held abroad  Yes.
Residents who opened an account abroad when residing abroad may
retain it after returning to Bangladesh. To facilitate study abroad by
Bangladeshi students in permissible courses, general permission was
given to deposit foreign currency to be blocked in designated bank
accounts or student accounts abroad for visa/admission processing.

Approval required  No.
Accounts in domestic currency held abroad  No.
Accounts in domestic currency convertible into foreign currency  Yes.
ADs may open convertible taka accounts in the name of foreign
organizations or nationals (that is, diplomatic missions, UN
organizations, nonprofit international organizations, foreign
contractors, consultants) engaged in projects of the government or
government agencies and their expatriate personnel who are resident
in Bangladesh. These accounts may be credited with foreign currency
brought in or remitted from abroad or transferred from a foreign
exchange account or another convertible taka account. Taka accounts
of Type B and Type C industry units of EPZs are allowed to be
credited with authorized payment received in taka. These accounts
may be debited for (1) local payments in taka, (2) remittances abroad
in convertible currency, (3) transfers to foreign exchange accounts or
other convertible taka accounts, and (4) credits to nonconvertible
taka accounts.

References to legal instruments and hyperlinks
This information can be found at the AREAER ONLINE database:
http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Nonresident Accounts

Foreign exchange accounts permitted  Yes.
Bangladesh nationals residing abroad; foreign nationals, companies,
and firms registered or incorporated abroad; banks and other
financial institutions, including institutional investors; officers and
staff of Bangladesh missions, government institutions, autonomous
bodies, and commercial banks posted abroad or transferred to
international or regional agencies may open and maintain during
their assignment abroad NFCD accounts that earn interest and are
denominated in US dollars, euros, pounds sterling, or Japanese yen.
These accounts may be credited in initial minimum amounts
equivalent to US$1,000 (US$25,000 for foreigners) with remittances
in convertible currencies and transfers from existing foreign currency
deposit accounts of Bangladeshis. The accounts earn interest if their
terms range from one month to one year. The balance, including
interest earned, may be transferred in foreign exchange by the
account holder to any country or to any foreign currency deposit
account maintained by a Bangladeshi abroad. The balances in the
accounts, which are freely convertible to taka, must be reported
monthly by banks to the BB. These accounts may be maintained as
long as the account holder desires. All nonresident accounts are
regarded for exchange control purposes as accounts related to the
country in which the account holder is a permanent resident. (The
accounts of the UN and its agencies are treated as resident accounts.)
NRBs may open NFCD accounts with AD banks at home to credit
their retirement benefits, periodical pensions, superannuation
benefits etc., as per employment agreement with employers while on
service abroad. The balances held in the accounts can be used for
settlement of legitimate payment abroad.

Bank booths operating in airports under license with limited scope
from the BB are allowed to take deposits from NRBs in foreign
currency brought in by them and credit their foreign currency
accounts or NRTAs (by converting foreign currency at prevailing
exchange rate) maintained with concerned AD bank branches. In
case the foreign currency brought in by NRBs differs from account
type (that is, US dollar a/c, GBP a/c, etc.) of the account holders,
bank booths will convert the currency to relevant foreign currency at
appropriate cross currency exchange rate to effect the deposits.

Approval required

No.

Domestic currency accounts

Yes.

Foreign missions and embassies and their expatriate personnel,
foreign airlines and shipping companies, and international nonprofit
organizations in Bangladesh may open interest-bearing convertible
taka accounts, but the interest earned may be disbursed in local
currency only. Taka accounts of individuals, firms, or companies
residing outside Bangladesh are designated as nonresident accounts.
For portfolio investments in Bangladesh through the stock exchange,
a nonresident may open a nonresident investor’s taka account (NITA)
with any AD with foreign exchange remitted from abroad through
normal banking channels or through transfer of funds from a foreign
exchange account. The balance in the NITA may be used freely to
buy Bangladesh shares and other securities. These balances are also
freely transferable to foreign exchange accounts opened in the name
of (1) Bangladesh nationals residing abroad and Bangladesh
nationals working and earning abroad, including self-employed
Bangladesh migrants residing abroad; (2) foreign nationals residing
abroad or in Bangladesh; (3) foreign firms registered abroad and
operating in Bangladesh or abroad; and (4) foreign missions and their
expatriate employees. Balances in these accounts are remittable
abroad in equivalent foreign exchange. The list of permissible debits
from NRTAs is expanded to include, subject to approval or reporting
requirements, outward remittances in foreign currency for (1)
subsistence expenses for individual account holders and their family
members in their country of residence and (2) permissible
procurement of goods and services from abroad for institutional
account holders.
| Convertible into foreign currency | Yes. | Funds from NITAs and convertible taka accounts may be converted freely. |
| Approval required | No. |
| Blocked accounts | Yes. | Funds in NRTAs from unapproved payments may be blocked by the BB. |
| References to legal instruments and hyperlinks | This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx. |

### Imports and Import Payments

| Financing requirements for imports | Yes. | For private sector imports on usance terms, the interest rate may be LIBOR plus a markup, according to prevailing market conditions and subject to an overall interest maximum of 6% a year. Importers may also obtain buyer credit for import payments from abroad through ADs for a period not exceeding one year; the overall interest cost may not exceed 6% a year. To facilitate short-term import finance, ADs, on behalf of industrial importers, may issue repayment bank guarantees without the BB approval favoring International Islamic Trade Finance Corporation extending short-term buyer’s credit up to 180 days for import of industrial raw materials for own use by importers, on sight basis. ADs may open LCs on behalf of industrial units to import necessary spare parts of capital machineries for own industrial use up to 360 days usance basis. For such deferred payment imports, the prices must be internationally competitive and all in cost including usance interest must not exceed 6% p.a. Effective April 15, 2018, exporters are allowed to use the unencumbered balances held in the single pool within 30 days to meet the import payments of exporters’ subsidiaries/sister concerns. |
| Minimum financing requirements | No. | Banks may determine the margin requirement on LCs for imports by themselves on the basis of the bank-customer relationship. |
| Advance payment requirements | Yes. | Advance payments up to the equivalent of US$5,000 for imports of any permissible items do not require a repayment guarantee. The limit of advance payment from ERQ accounts is US$25,000 or its equivalent. |
| Advance import deposits | No. | Banks may determine such requirements on the basis of the bank-customer relationship. |
| Documentation requirements for release of foreign exchange for imports | Yes. | ADs must observe the following procedures during importation through land ports: (1) Only one port of entry (land port) may be named in the LC. (2) A copy of the LC and subsequent amendments, if any, including other relevant information, must be sent to the land port authority. (3) Sample signatures of the officials working at the import-export desks of the ADs concerned, along with their contact phone and fax numbers, must be supplied to all land ports. (4) ADs’ agents or representatives must obtain directly from the land port involved a list of goods entering Bangladesh, a certified invoice, and a bill of entry showing entry of the goods for inclusion in a database accessible to all ADs. (5) LCs must not contain any reimbursement or debit authority; rather, they must stipulate the following payment terms: “on receipt of documents complying with credit terms, we must effect payment as per instructions of the negotiating bank or collecting bank.” (6) LCs covering more than US$5,000 or its equivalent must be sent through the Society for Worldwide Interbank Financial Telecommunication (SWIFT) system to the advising bank. Effective June 5, 2018, National Board of Revenue via its Order No. 288/2017/Customs/529 of December 21, 2017, effects relevant amendment in the Customs (Economic Zones (EZs)) Procedures |
2017 to waive export/import formalities for transactions between enterprises operating in Domestic Processing Area of EZs and in Tariff Area of Bangladesh. In accordance with the revised order, such transactions to be settled in taka without observance of regulatory procedures such as EXP Form for export and IMP Form for import are allowed. To support the transactions by EZ enterprises irrespective of their ownership status, their liabilities for imports and other permissible expenses may be settled out of the fund held in their taka accounts.

Domiciliation requirements

No.

Preshipment inspection

No. Preshipment inspection is optional but not mandatory since July 1, 2013, as instructed by the National Board of Revenue.

Letters of credit

Yes. Payment against imports is generally permissible only under irrevocable LCs. However, consignments of perishable food items valued at not more than US$7,500 or its equivalent do not require an LC. Capital machinery and industrial raw materials may also be imported without LCs and without limit on value. Recognized export-oriented units operating under the bonded warehouse system may import up to four months’ supply of their raw and packing materials by establishing import LCs without reference to an export LC. They may also effect such imports by opening back-to-back LCs (either on a sight basis under the Export Development Fund or for up to 180 days on a usage basis) against export LCs received by them. ADs may establish LCs on a c.f.r., c.p.t., or f.o.b. basis without the BB approval. Imports may also be on a delivered at terminal (d.a.t.) or delivered at place (d.a.p.) basis. Importation on a c.i.f. or c.i.p. basis requires the permission of the Ministry of Commerce. Foreign exchange for authorized imports is provided automatically by ADs when payments are due. The maximum import value (through an LC or contract) for a mandatory credit report of foreign suppliers by ADs is US$10,000 if a pro forma invoice is issued directly by the foreign supplier and US$20,000 if orders are issued by the foreign supplier’s local agent.

To facilitate the remittances for import payment against expired LCAF which are restricted without obtaining its revalidation, ADs may effect remittances within 30 months of LCAF issuance against import of capital machinery without obtaining its revalidation. Revalidation of LCAF will not be required for remittances against import out of fund held in foreign currency accounts of importers maintained under general or special authorization from the BB. Effective June 28, 2018, LCAFs issued for the import of HR coil, Scrap, Pig iron and Sponge iron for manufacturing of flat and long steel for being used in own factories of steel industries under 360 days deferred payment basis would remain valid for remittances for 18 months following the month of issuance. Effective February 5, 2019, LCAFs may also be signed by lawful representative(s) of the importer.

Import licenses used as exchange licenses

No. LCAFs are issued by ADs and do not require a separate import license.

Other

Yes. ADs are not permitted to open new LCs for importers who have failed to submit the bills of entry of imports or customs-certified invoices as evidence of actual importation of such goods within the stipulated time period.

Import licenses and other nontariff measures

Yes. All importers (including all government departments, with the exception of the Ministry of Defence) are required to obtain LCAFs for imports. Under the authority of the IPO issued by the chief controller, importers may effect imports against LCAFs issued for imports under bilateral trade or payments agreements and for imports
under tied-aid programs. LCAFs are otherwise valid worldwide, except for imports from Israel and imports transported on Israeli flag vessels, which are prohibited. Goods must be shipped within 30 months of the date of issuance of LCAFs in the case of machinery and spare parts, and 12 months in the case of all other items. ADs may effect import payment within 30 months of issuance of LCAF against import of capital machinery and spare parts. Revaluation of LCAF will not be required for such remittances against import out of fund held in importer’s foreign currency accounts maintained under general or special authorization from the BB. LCAFs issued for import of capital machinery and spares are valid for remittances for 18 months from the month of issuance.

Incoming passengers irrespective of their resident status may bring into Bangladesh gold or silver in bullion/ingot up to the prescribed limit in terms of relevant baggage rules in force issued under the Customs Act, 1969.

**Positive list**

No. All the items are importable freely pursuant to the provisions of the IPO 2015–2018 (replacing IPO 2012–2015), except the banned items therein the footnote of the prohibited lists and the list of controlled items subject to fulfillment of certain conditions specified attached concerned page of the IPO 2015–2018 (Annexure-1).

**Negative list**

Yes. The goods are not importable if they are specified in the footnotes of the prohibited lists (Annexure-1).

**Open general licenses**

No. Unless otherwise specified, no import license is required for imports. Importers with a valid Import Registration Certificate (IRC) may import any kind of goods against the ceiling value, except the goods specified in the prohibited lists.

**Licenses with quotas**

Yes. Unless otherwise specified in the IPO 2015–2018, industrial units approved on a regular basis are allowed to import up to 300% of their regular import entitlement of items whose import is banned for commercial purpose and that are importable by industrial consumers only. Industrial units approved on an ad hoc basis are allowed to import up to the maximum value limit, not exceeding 100% of their half-yearly import entitlement.

**Other nontariff measures**

No. As a member of the WTO and regional trade organizations, Bangladesh is liberalizing its trade policies gradually and is maintaining non-discriminating measures. The country is also not applying nontariff measures to restrict imports and exports, except the prohibited and restricted items of goods therein the Annexure-1 in line with the WTO Agreements.

**Import taxes and/or tariffs**

Yes. The tariff bands are 0%, 1%, 5%, 10%, 15%, and 25%. A number of goods are subject to supplementary duties.

**Taxes collected through the exchange system**

No.

**State import monopoly**

No.

**References to legal instruments and hyperlinks**

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Exports and Export Proceeds**

**Repatriation requirements**

Yes. Proceeds from exports must be repatriated within four months of shipment, unless otherwise permitted by the BB.

**Surrender requirements**

Yes.

*Surrender to the central bank*

No.

*Surrender to authorized dealers*

Yes. Exporters must sell to ADs at least 85% of the proceeds from exports of ready-made garments (RMGs) and other goods with high import
content and 40% of the proceeds from exports of merchandise, computer data entry/data processing, offshore information technology (IT) services, software services, business process outsourcing (BPO) services such as business services, professional/research, advisory services, etc. They may use retained earnings for bona fide business purposes, such as business travel abroad; establishment and maintenance of offices abroad; participation in trade fairs and seminars; and imports of raw materials, spare parts, and capital goods. Fully foreign-owned industries and joint ventures and Bangladesh industries, other than in the garment industry, located in EPZs may retain 100% and 80%, respectively, of their export earnings in a foreign currency deposit account. Joint ventures and Bangladesh industries in EPZs that are part of the RMG sector may retain 75% of their export earnings in a foreign currency deposit account. The BB allows receipt of proceeds from small-value service exports, such as data entry/data processing, offshore IT services, BPO, etc., through online payment service providers up to US$5,000 or equivalent an instance. Service providers receive payments through banks set up to receive online payments from abroad. ADs may handle inward remittances for BPO by residents. The ERQ without prior approval from the BB is 60% for exports of high domestic value-added merchandise and for export of services (for example, computer data entry/data processing, offshore IT services, software services, BPO services such as business services, professional/research, advisory services), and 15% for merchandise exports of high import contents like RMG. To provide immediate access to foreign exchange by exporters, usance export bills related to direct and deemed exportation of Bangladesh products may be discounted in foreign exchange by an exporter’s AD with funds received from foreign banking units and correspondent banks and financial institutions and from international financial organizations. The overall cost may not exceed 6% a year.

Besides industrial units, EPZ developers and different service providing units (water supply/treatment, dust management, cleaning, effluent treatment plant, etc.) are allowed to operate in EPZs to serve the industrial units therein. To facilitate such developers/service providers of EPZs, EPZ developers and different service providing companies of EPZs, exclusively formed and registered to serve a particular EPZ, will be treated as industrial units of EPZs for foreign exchange regulation purposes. Existing foreign exchange regulations applicable for EPZ units (as mentioned in GFET, FE Circulars, FE Circular Letters, etc.) are applicable for such entities as well. There is no restriction on particular type of ownership; the EPZ developer and service providing units may be local, foreign, or jointly owned.

Effective June 11, 2018, to promote Business-to-Consumer export by hosting goods on e-Commerce website accessible through Internet to foreign buyers, ADs are allowed to provide acquiring services to eligible exporters for repatriation of export proceeds against sales orders of exportable goods received on e-Commerce website subject to some operational procedures.

Besides bills of lading and airway bills issued by the carriers concerned, negotiation of export bills may also take place against forwarders’ cargo receipts and house airway bills issued by freight forwarders, provided (1) the export LC and the export sale contract specify negotiation of export bills of exchange against the forwarders’ cargo receipt or house airway bill, and, until September 9, 2015, (2) the freight forwarder issuing the forwarders’ cargo receipt or house airway bill has the BB authorization under Section
18A of the FERA, 1947. Section 18A of the FERA, 1947, was deleted September 9, 2015, removing the requirement to obtain permission under this section. The responsibility to repatriate full export proceeds within the period specified by the BB in terms of the FERA lies with the exporters. ADs must give the BB a full explanation only in the event of non-realization/short realization. Effective March 21, 2018, if the shipment is made against full payment received in advance through normal banking channel, ADs can allow carrier companies to draw railway receipts, bills of lading, airway bills and other documents of title to cargo to the order of importer or other designated parties as per stipulations of export letter of credit/valid sales contract. In this context, the designated AD issues a certificate to the exporter to be produced to the carrier company, enabling them to draw the shipping documents accordingly. Effective June 5, 2018, National Board of Revenue via its Order No. 288/2017/Customs/529 of December 21, 2017, effects relevant amendment in the Customs (EZs) Procedures 2017 to waive export/import formalities for transactions between enterprises operating in Domestic Processing Area of EZs and in Tariff Area of Bangladesh. In accordance with the revised order, such transactions to be settled in taka without observance of regulatory procedures such as EXP Form for export and IMP Form for import are allowed. Effective April 23, 2019, the BB introduced an electronic option for EXP Form submission for exports of goods from Bangladesh.

Letters of credit  Yes.  In addition to LCs, exports under contract are allowed.

Guarantees  No.

Domiciliation  No.

Preshipment inspection  No.

Other  Yes.  In addition to f.o.b. and c.f.r., exporters are allowed to export on an e.x.w., f.c.a., f.a.s., c.i.f., and c.i.p. basis.

Export licenses  Yes.  According to the Export Policy 2018–2021, the exports of 16 items are banned. Fifteen products are exportable under certain conditions effective December 1, 2018. Some of these items are restricted for ensuring adequate supply in the domestic market.

Without quotas  Yes.

With quotas  No.

Export taxes  Yes.

Collected through the exchange system  No.

Other export taxes  Yes.  Exports of rice bran, unmanufactured tobacco; tobacco refuse, cigars, cheroots, cigarillos and cigarettes of tobacco or of tobacco substitutes, other manufactured tobacco and manufactured tobacco substitutes; homogenized or reconstituted tobacco extracts and essences, cotton waste and building bricks are taxed.

Payments for Invisible Transactions and Current Transfers

Controls on these transfers  Yes.  Payments for invisible transactions related to authorized trade transactions are generally not restricted.

Trade-related payments  Yes.  ADs may pay freight charges to foreign ship owners for ships.
chartered by importers in Bangladesh without the BB approval. Importers may make payments of freight charges for f.o.b. imports as declared in an LCAF to the shipping lines/airlines/licensed freight forwarders in foreign currency. Shipping lines/airlines may also accept payment in foreign currency from freight forwarders for handling of f.o.b. exports. Foreign currency deposited in foreign currency accounts of shipping lines/airlines against freight charges on f.o.b. exports from licensed freight forwarders may be used for outward remittances on account of surplus earnings. Balances in foreign currency accounts must first be used for outward remittances before use of local currency funds. AD banks must ensure the encashment of adequate foreign currency by the shipping lines/airlines to meet local expenses in case of shortfall in local currency funds. In view of wider scope of fund sources in Bangladesh, the legitimate charges (Charges of Demurrage, Detention, Handling or equivalent charges) in addition to freight charges are also allowed to be considered for calculation of remittable surplus of foreign shipping lines/their agents working in Bangladesh subject to deduction of taxes and commission.

The list of permissible debits from NRTAs includes, subject to approval or reporting requirements, outward remittances in foreign currency for the purposes of permissible procurement of goods and services from abroad for institutional account holders.

Effective June 10, 2018, to facilitate smooth operations of branches of foreign banking companies in Bangladesh, ADs are allowed to remit head office expenses without prior approval from the BB subject to observance of some instructions which is allocated by the head office to their branches in accordance with standard practices.

Effective July 17, 2019, funds from Personal Foreign Currency accounts may be used for payment of admissible imports in terms of the IPO in force.

**Prior approval**

Yes. Up to 5% of export receipts (up to 33.3% in the case of books) may be remitted abroad for commissions without the BB approval.

**Quantitative limits**

No.

**Indicative limits/bona fide test**

Yes. Payment abroad of commissions or discounts and remittances for operating expenses is subject to indicative limits and verification. Purchases by individuals in border markets, from the respective local currency, are limited to the equivalent of US$100. Besides the ERQ, the remittable amount for IT and/or software firms is US$30,000. Within this limit, the amount that can be made through international cards is US$6,000.

Effective February 15, 2018, to facilitate export trade in meeting urgent needs, ADs are allowed to provide remittance facilities to the exporters for bona fide service payments to beneficiary’s bank account abroad up to US$5,000 or equivalent.

**Investment-related payments**

Yes.

**Prior approval**

No.

**Quantitative limits**

Yes.

**Indicative limits/bona fide test**

Yes. ADs may remit dividends to nonresident shareholders without the BB approval on receipt of an application from the company concerned. Applications must be supported by an audited balance sheet; a profit and loss statement; and a board resolution declaring to the head office dividends from profits earned from foreign firms, banks, insurance companies, and other financial institutions operating in Bangladesh. These remittances are, however, subject to ex post checks by the BB. No approval is required for remittances on...
loans if a loan agreement has been cleared by the Bangladesh Investment Development Authority (BIDA). Local stock brokerage firms acting in Bangladesh on behalf of foreign stock brokerage firms may repatriate, without the BB approval, a share of commission earnings to the respective foreign firms against services rendered to foreign portfolio investors for investment in Bangladesh. Private sector industrial enterprises approved by BIDA may release foreign exchange on account of royalty, fees for technical knowledge or technical assistance and franchise fees to foreign persons or institutes in accordance with the prescribed manner as defined by BIDA through AD banks.

The indicative limit for personal travel by resident Bangladeshis to countries other than those in the South Asian Association for Regional Cooperation region (Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, Sri Lanka) and Myanmar is US$7,000 a person a year or its equivalent. The indicative limit for personal travel by resident Bangladeshis to the countries of the South Asian Association for Regional Cooperation region and Myanmar is US$5,000 a person a year or its equivalent. The entire unused balance may be released to individuals traveling abroad with a one-way ticket, if it is for valid job or migration purposes. ADs may release foreign exchange without visa to the resident Bangladesh nationals proceeding to the countries/zones with provision of visa on port of entry/arrival basis up to the unused annual travel quota entitlement applicable for the country concerned subject to complying with other relevant instructions. The facility will also be applicable for official visits abroad by the officials of government/semi-government and autonomous bodies. ADs and Licensed Money Changers may release foreign exchange on account of overseas allowances of the cockpit and cabin crews of Biman Bangladesh Airlines Ltd.

Releasable foreign currency in cash US dollar notes for outgoing Bangladeshi residents is US$5,000 a person a trip from their annual entitlement applicable for personal travel quota/business travel quota/treatment abroad/immigration/higher education or other specially or generally approved purposes. The remainder or full amount of quota may be released in other freely convertible foreign currencies in cash or in international cards. The business travel quota entitlement was revised in 2014. New exporters, importers, and producers for the local market are entitled to foreign exchange for travel abroad of US$400 a day, subject to a limit of US$4,000 a trip and US$10,000 a calendar year. Established exporters may also use balances in their ERQ (15% of exports of goods with high import content, such as RMGs, and 60% of repatriated export proceeds of merchandise and services) for business travel abroad. Senior-level (top two tiers) expatriates in Bangladesh under valid visas and work permits are entitled to the same business travel allowance as Bangladesh nationals, which may be used through international credit/debit cards. Higher amounts require documentation.

Personal payments Yes.  
Prior approval Yes.  
Foreigners retiring from Bangladesh do not need approval to transfer genuine savings from salaries/benefits, retirement benefits such as provident funds and pensions, and gratuities due under an
employment contract approved by the BIDA. Permissible debits from NRTAs include, subject to approval or reporting requirements, outward remittances in foreign currency for subsistence expenses for individual account holders and their family members in their country of residence.

**Quantitative limits**  Yes.  Up to US$10,000 or its equivalent may be obtained for medical expenses without approval. Larger amounts require the BB approval, subject to submission of supporting documents. ADs may remit the registration fee to the bank accounts of the beneficiaries for medical check-up of migrant workers, the fee in case of invoices specifying details of the check-up and deduction of applicable taxes.

**Indicative limits/bona fide test**  Yes.  Foreign exchange for education is available up to the cost of tuition and living expenses, as estimated by the educational institution concerned. Students are allowed to have travel entitlement (entire unused travel quota) against a one-way ticket when proceeding abroad for study. Permission is not required for the remittance of fees for approved undergraduate, postgraduate, diploma, and professional courses.

ADs may release foreign exchange for study of Bangladeshi students in permissible courses abroad in favor of the designated intermediary payment processing entity.

Because of the concern that students intending to study abroad are in some cases required to pay a Health Insurance fee as a pre-requisite of Visa/Admission. ADs are allowed to release foreign exchange on account of Health Coverage/Health Insurance/Medical Insurance fee provided such fees are mandatory for Visa/Admission in permissible courses supported by documentary evidence from the concerned educational institution.

Foreign exchange is available for the support of dependents abroad, on presentation of a certificate from the Bangladesh Embassy in the country concerned, up to a reasonable level, which is based on prevailing prices. Applications for foreign exchange for studies abroad and for family maintenance are approved on verification of their validity. Foreign exchange may be remitted for right of landing/permanent residence fees required by foreign immigration authorities for Bangladesh nationals permanently emigrating abroad.

ADs may release foreign exchange toward remittance of publication-related fees for publication of articles in reputed international journals written by resident Bangladeshi nationals. While effecting remittance, ADs verify the genuineness of the invoices from the publishing companies/publishers abroad and the deduction of applicable taxes.

Foreign workers' wages  Yes.

**Prior approval**  No.

**Quantitative limits**  Yes.

**Indicative limits/bona fide test**  Yes.  Foreign nationals may remit freely up to 75% of their net salary in monthly basis in connection with service contracts approved by the government. The entire amount of their earned leave pay and savings may also be freely remitted after the end of their service period in Bangladesh. Besides their country of domicile, such monthly remittances are also allowed to send to other countries where family members of them live in as declared by them in the prescribed application form. Service sector industries within the purview of industrial policy may remit up to 1% of annual sales as declared on their previous year’s income tax return toward costs of training and consulting services.

Credit card use abroad  Yes.  Resident and nonresident Bangladesh nationals and foreign nationals...
may use abroad international credit cards, debit cards, and prepaid cards issued by ADs in Bangladesh under different entitlements or different account balances. ICCs may be used for online payment to settle remittances for membership fees of foreign professional and scientific institutions and fees for application, registration, admission, and examination in connection with admission to a foreign educational institution. Individuals who do not have their own ICC may make such online payments with a “virtual card.” ICCs issued under different entitlements may also be used for online hotel booking by the cardholders when traveling abroad. Visa processing fees may be remitted through online using international cards or virtual cards. The limit of international credit cards for online payment was US$300 or its equivalent for transaction against legitimate purchases of goods and services (downloadable application software, e-books, magazine/newspaper subscription fees, etc.) from reputed and reliable sources abroad. ICC holders may also make online payments for such purchases up to their available unused annual travel allowance plus an additional amount not exceeding US$1,000 annually. ICC holders must fulfill tax/duty payment obligations for such payments. Eligible individual developers/freelancers of mobile applications (apps) and games may remit foreign exchange for allowable IT expenses through the use of a virtual card, up to US$300 or its equivalent a calendar year. To enhance the scope of business travel abroad by officials of enterprises located in EPZs and EZs, card issuing banks are allowed to issue International Debit/Prepaid card up to three top tier officials of concerned enterprises against balances held in foreign currency accounts. EPZs and EZs enterprises can avail such card facility from one card issuing bank only. Effective April 7, 2019, ADs may issue International Debit/Prepaid/Credit card in favor of Bangladeshi medical centers accredited by Gulf Health Council (GHC) to pay only the registration fee for medical check-up services of Bangladeshi nationals proceeding abroad for employment in member countries of GCC.

seminars, and workshops abroad by officials of government, autonomous/semiautonomous entities, and banks and banking training institutions. Banks may also remit registration fees for officials of the private corporate sector and nongovernmental organizations (NGOs) who are attending training, seminars, and workshops abroad without the BB permission. Only one-time approval is required from the BB for foreign exchange remittance for maintenance/support fees for proprietary/specialized software service providers, with subsequent remittances validated by AD banks. Permissible debits from NRTAs include, subject to approval and reporting requirements, outward remittances in foreign currency for permissible procurement of goods and services from abroad for institutional account holders. ADs may remit funds for membership/affiliation fees of local business/professional entities to professional/scientific institutions abroad. AD banks may effect remittance toward the cost of advertisement of Bangladeshi products in foreign electronic and online media in dynamic, image, video, interactive, and/or other formats, after verifying the genuineness and bona fide of the requests through agreement and invoices and after deducting all applicable taxes.

Prior approval
Yes.

Quantitative limits
Yes. The BB permission is not required for the remittance of royalties and technical fees by firms registered with the BIDA as follows: (1) up to 6% of the cost of imported machinery or (2) up to 6% of the previous year’s sales, as declared on tax returns, for ongoing concerns, provided the contract is registered with the BIDA. Resident foreign nationals may remit abroad 75% of their monthly net income from Bangladesh.

Indicative limits/bona fide test
Yes. Industrial enterprises producing for local markets may remit up to 1% of sales receipts declared on the previous year’s tax return for the purpose of training and consultation. Service sector businesses are also allowed such remittances. ADs may release foreign exchange up to the actual amount of the registration or participation fee for government officials and employees of banks, financial institutions, bank training institutions, and corporations and/or NGOs to attend training, seminars, and workshops abroad. Remittances are also allowed for subscription fees for foreign academic and research journals by universities, medical colleges, and research and training institutions, up to the equivalent of US$3,000 an institution a calendar year.

Proceeds from Invisible Transactions and Current Transfers

Repatriation requirements
Yes.

Surrender requirements
Yes.

Surrender to the central bank
No.

Surrender to authorized dealers
Yes. Exporters of services must sell to ADs not less than 40% of receipts in foreign exchange and may use retained earnings for valid business purposes. Bangladeshis working abroad may retain their earnings in foreign exchange accounts or in NFCD accounts. Unless they have an exemption from the BB, resident Bangladeshis must sell to an AD any foreign exchange they receive, whether held in Bangladesh or abroad, within one month of receipt. However, returning residents may keep, in foreign exchange accounts in their names, foreign
Residents must declare inward remittances from abroad, except remittances by Bangladeshis working abroad, using Form C for amounts exceeding US$10,000 or its equivalent. Foreigners residing in Bangladesh for more than six consecutive months must sell within one month of the date of receipt foreign exchange earned from business conducted in Bangladesh or services rendered while in Bangladesh. The BB allows receipt of proceeds from small-value service exports, such as data entry/data processing, offshore IT services, BPO, etc., through online payment service providers up to US$5,000 or equivalent an instance. Service providers receive payments through banks set up to receive online payments from abroad. ADs may handle inward remittances for BPO by residents, for which the retention quota is up to 60% of repatriated foreign exchange. ADs may provide facilities to credit inward remittances received in international card number/account against the services provided by individual developers/freelancers. In this context, ADs are allowed to issue to individual developers/freelancers international cards (termed as “Freelancer Card”) having duel currency units with features of being prepaid from abroad.

Retained foreign exchange may be used for travel abroad or bona fide business purposes.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Capital Transactions**

Resident must repatriate and sell to ADs the foreign exchange proceeds from all approved capital transactions abroad within one month.

Residents must repatriate and sell to ADs the foreign exchange proceeds from all approved capital transactions abroad within one month.

Nonresidents may buy Bangladesh securities through stock exchanges against payment in freely convertible currency remitted from abroad through banking channels. Purchase of new public issues not yet listed in a stock exchange may be made directly from the company issuing the stock/security. ADs maintain NRTAs in the names of their overseas branches and correspondents against inward remittance in convertible foreign currencies are allowed to issue shares in favor of the nonresidents by debiting the NRTAs. Purchases of shares by a nonresident from another nonresident do not require approval from the BB. However, the fair value of shares determined by Merchant Banker licensed by Bangladesh Securities and Exchange Commission or a Chartered Accountant is required for the sale/transfer of shares exceeding BDT 1 million.
There is no approval requirement or quantitative limitations in force. Proceeds from sales, including capital gains and dividends on securities of listed company purchased in Bangladesh, may be remitted abroad in freely convertible currency. Nonresidents may not issue securities in Bangladesh. For the purpose of repatriation of sales proceeds on nonresident-owned equity in unlisted companies, the BB accepts the fair value of the share on the date of sale based on a combination of three valuation methods: net asset value approach, market value approach, and discounted cash flow approach, depending on the nature of the company. Individuals and institutions resident in Bangladesh are allowed to purchase taka bonds issued with permission from the Bangladesh Securities and Exchange Commission by foreign-owned/foreign-controlled companies in Bangladesh. In case of sale/transfer of shares from a nonresident to a resident in public limited companies not listed on the stock exchanges and private limited companies, a Memorandum of Understanding for share sale/purchase agreement between the buyer and the seller must be concluded on receipt of approval from the BB regarding the determination of the fair value of the shares. The BB accepts the fair value of the shares determined from the weighted average of the three valuation approaches (that is, net asset value approach, market value approach, and discounted cash flow approach), or based on any of these approaches suitable on justified ground depending on the nature of the company. Sale of shares by a nonresident to another nonresident does not require approval from the BB. However, the fair value of shares determined by Merchant Banker licensed by Bangladesh Securities and Exchange Commission or a Chartered Accountant is required for the sale/transfer of shares exceeding BDT 1 million. There is no restriction on the sale of capital market securities by nonresidents.

### Purchase abroad by residents
Yes.
These transactions are not allowed.

### Sale or issue abroad by residents
Yes. These transactions are subject to Securities and Exchange Commission approval. The BB approval is required for securities denominated in foreign currency.

### Bonds or other debt securities
Yes.

### Purchase locally by nonresidents
No. Nonresidents may buy government-issued treasury bonds and foreign-currency-denominated bonds. Nonresidents may also buy debt securities listed on the stock exchange. Purchase of bonds or other debt securities locally by nonresidents is allowed, and there is no minimum holding period for such bonds.

### Sale or issue locally by nonresidents
Yes. Nonresidents may not issue such instruments. However, they may sell their holdings issued and purchased locally.

### Purchase abroad by residents
Yes. These transactions are not allowed.

### Sale or issue abroad by residents
Yes. These transactions are not allowed.

### On money market instruments
Yes.

### Purchase locally by nonresidents

ADs may on behalf of residents issue bid bonds/performance bonds/guarantees in foreign currency in favor of local project authorities against goods/services</td>
</tr>
</tbody>
</table>
procurement tenders financed by the government, subject to regulations. Approval from the BB is also not required for issuing guarantees by the borrowers such as corporate guarantee, personal guarantee, third party guarantee, etc., as per loan agreement, favoring foreign lenders in case of external borrowing approved by the BIDA. Effective June 28, 2018, ADs may issue guarantee in taka or equivalent convertible foreign currency on behalf of foreign-owned/foreign-controlled companies operating in Bangladesh, favoring concerned authorities in Bangladesh against foreign back-to-back guarantee acceptable to them subject to observance of some instructions.

By residents to nonresidents Yes. On behalf of residents, banks may issue guarantees or sureties in favor of nonresidents for permissible current transactions.

To residents from nonresidents Yes. Receipt of guarantees or sureties by residents from abroad requires full disclosure of the underlying transaction. ADs may issue guarantee, bid bond or performance bond in local currency against taka equivalent on behalf of a nonresident firm/company favoring residents in Bangladesh provided a back-to-back foreign currency guarantee with suitable coverage for exchange rate fluctuation from counter guarantee issuing banks abroad.

Controls on direct investment Yes.

Outward direct investment Yes. All outward transfers of capital require approval. For resident-owned capital, approval is granted only in exceptional cases.

Inward direct investment Yes. Investment, except in the industrial sector, requires approval. The Foreign Private Investment (Promotion and Protection) Act of 1980 provides for the protection and equitable treatment of foreign private investment, indemnification, protection against expropriation and nationalization, and guaranteed repatriation of investments. There is no ceiling on private investment. Tax exemptions are granted for periods of up to nine years, depending on location.

Controls on liquidation of direct investment Yes. Liquidation of direct investment through a NITA and transfers of Bangladesh stocks and securities from one nonresident holder to another do not require the BB approval. However, proceeds from disinvestment of nonresidents’ equity investments in unlisted public and private limited companies must be repatriated with the BB approval, because there may not be an established market value for such investments at the time of disinvestment. When a nonresident liquidates an investment through sale to a resident investor, the net asset value, market value, and discounted cash flow of the shares of the company serve as the basis for calculating the repatriation of proceeds.

Controls on real estate transactions Yes.

Purchase abroad by residents Yes. Remittance of funds for these purchases is not permitted.

Purchase locally by nonresidents No. Purchases of real estate by a nonresident with funds from abroad are allowed. ADs were allowed to extend mortgage loans in taka to NRBs working abroad for the purpose of housing in Bangladesh subject to observance of the existing guidelines of Prudential Regulations for Consumer Financing. The housing finance facility provided to NRBs may not exceed the debt-equity ratio of 75:25.

Sale locally by nonresidents Yes. Repatriation of sales proceeds is subject to the BB approval, which is not typically granted.

Controls on personal capital transactions Yes.

Loans Yes.

By residents to nonresidents Yes. These transactions are not allowed.
To residents from nonresidents

Yes. These transactions are not allowed.

**Gifts, endowments, inheritances, and legacies**

By residents to nonresidents

Yes. Title transfers to nonresidents by way of inheritance are not restricted, but income and sales proceeds from such assets are transferable abroad with the BB authorization.

To residents from nonresidents

Yes. Resident Bangladesh nationals must obtain government approval to receive gifts or endowments from a foreign donor. Inheritances must be reported to the BB. Net current income from estates inherited abroad must be repatriated.

**Settlement of debts abroad by immigrants**

Yes. These transactions are usually not allowed, except for repayment of borrowing for industrial investment, in accordance with BOI guidelines.

**Transfer of assets**

Yes. These transactions are not allowed, except for movable personal assets.

**Transfer abroad by emigrants**

Yes. These transactions are not allowed, except for standard travel allowances for residents.

**Transfer into the country by immigrants**

Yes. These transactions are permitted; transfers exceeding $5,000 or its equivalent must be declared. They must also comply with customs regulations (for duties) and Ministry of Commerce regulations (for eligibility of entrance into Bangladesh).

**Transfer of gambling and prize earnings**

Yes. Gambling is prohibited in Bangladesh.

### Provisions Specific to the Financial Sector

**Provisions specific to commercial banks and other credit institutions**

Yes. The BB approval is not required for taka advances through the purchase of checks from foreign embassies, international organizations, or foreign nationals employed by them and drawn on their accounts abroad. Foreign-owned/foreign-controlled companies in Bangladesh that engaged in manufacturing or services output activities for three years or longer in Bangladesh may access taka term loans from the domestic market regardless of the local content in their equity, subject to applicable credit norms and prudential parameters, including the single borrower exposure limit, debt-equity ratio, and so forth. Foreign-owned/foreign-controlled industrial enterprises in Bangladesh may access interest-free loans for working capital other than input procurement from parent companies/shareholders abroad for up to one year without prior approval. These loans are available to companies that have not yet obtained working capital financing from the local market. ADs were allowed to extend mortgage loans in taka to NRBs working abroad for the purpose of housing in Bangladesh subject to observance of the existing guidelines of Prudential Regulations for Consumer Financing. The housing finance facility provided to NRBs may not exceed the debt-equity ratio of 75:25. ADs may extend working capital facilities to Type B (joint-venture) units of EPZs for the procurement of components needed for up to four months’ worth of production on the basis of the bank-customer relationship and the customer’s ability to repay from export proceeds.

**Borrowing abroad**

Yes. ADs may obtain short-term and overdraft loans from overseas branches and correspondents for a period not exceeding seven days at a time.

**Maintenance of accounts abroad**

No. The maintenance of these accounts is subject to notification to the BB.

Lending to nonresidents (financial or...
commercial credits) Yes. Lending to nonresidents is not allowed, except with the BB approval and in specific cases. Foreign-owned/foreign-controlled companies in Bangladesh that engaged in manufacturing or services output activities for three years or longer in Bangladesh may access taka term loans from the domestic market regardless of the local content in their equity, subject to applicable credit norms and prudential parameters, including the single borrower exposure limit, debt-equity ratio, and so forth. Foreign-owned/foreign-controlled industrial enterprises in Bangladesh may access interest-free loans for working capital other than input procurement from parent companies/shareholders abroad for up to one year without prior approval. These loans are available to companies that have not yet obtained working capital financing from the local market. To widen the scope of taka working capital loans for foreign-owned/foreign-controlled companies operating in Bangladesh, resident persons/companies may purchase commercial papers (CPs) issued by such companies.

ADs were allowed to extend mortgage loans in taka to NRBs working abroad for the purpose of housing in Bangladesh subject to observance of the existing guidelines of Prudential Regulations for Consumer Financing. The housing finance facility provided to NRBs may not exceed the debt-equity ratio of 75:25.

Lending locally in foreign exchange Yes. Lending is subject to the BB approval. ADs may use up to 50% of NFCD balances (1) for loans to exporters for settlement of back-to-back sight LCs for imports of inputs and (2) to discount usage bills of wholly foreign-owned (Type A) and joint-venture (Type B) EPZ units against inputs to exporters. Industrial enterprises may borrow funds or make deferred payments for imports for a period beyond 360 days, with BOI approval. Usance export bills related to direct and deemed exportation of Bangladesh products may be discounted in foreign exchange by an exporter’s AD with funds received from foreign banking units and correspondent banks and financial institutions and from international financial organizations: the overall cost may not exceed 6% a year.

Purchase of locally issued securities denominated in foreign exchange Yes. Purchases are subject to the BB approval.

Differential treatment of deposit accounts in foreign exchange Yes.

Reserve requirements No. Effective April 3, 2018, the cash reserve ratio (CRR) is at least 5.5% (previously 6.5%) on biweekly basis with a provision of minimum 5% of average total demand and time deposit accounts. Since February 1, 2014, banks are required to maintain liquid assets defined as statutory liquidity ratio, currently not less than 13% of average total demand and time deposit accounts on a daily basis. The existing CRR and statutory liquidity ratio are not currency differentiated.

Liquid asset requirements No. The LCR is calculated as high-quality liquidity assets (HQLA) against the total net cash outflow over the next 30 calendar days. Since January 1, 2015, the LCR ratio must be greater than 100%. The NSFR in line with the Basel III framework is defined as the available amount of stable funding against the required amount of stable funding. Since January 1, 2015, the ratio must be greater than 100% on a quarterly basis. The LCR and NSFR are not currency differentiated, and foreign currency liabilities are included in the calculation of the LCR and NSFR.

Interest rate controls Yes. Banks must maintain interest rates on foreign currency deposits in line with international market rates, while they may freely determine at what interest rate they offer on local currency deposits with no
### Credit controls

No.

### Differential treatment of deposit accounts held by nonresidents

No.

### Reserve requirements

No. Banks are required to maintain reserve requirements equally for both resident and nonresident deposit accounts.

### Liquid asset requirements

No. Banks are required to maintain liquid asset requirements equally for both resident and nonresident deposit accounts.

### Interest rate controls

No. ADs may allow interest payments on ACU dollar and ACU euro accounts maintained with ADs by their correspondent banks in other ACU member countries.

### Credit controls

No.

### Investment regulations

No.

### Abroad by banks

No. Commercial banks may open subsidiaries abroad with approval from BB.

### In banks by nonresidents

No. Nonresidents can purchase shares issued by banks.

### Open foreign exchange position limits

Yes. The limit on ADs’ net open foreign exchange positions is 20% of their capital and applies to the total exposures in foreign exchange (assets and liabilities in foreign exchange of a bank) either held in Bangladesh or abroad. The capital base is defined as total eligible capital composed of Tier 1 and Tier 2. As of the end of June 2019, the limit on net open foreign exchange positions for all banks was US$2.23 billion.

#### On resident assets and liabilities

Yes. The limit on ADs’ net open foreign exchange positions is 20% of their capital and applies to the total exposures in foreign exchange (assets and liabilities in foreign exchange of a bank) either held in Bangladesh or abroad. The capital base is defined as total eligible capital composed of Tier 1 and Tier 2.

#### On nonresident assets and liabilities

Yes. The limit on ADs’ net open foreign exchange positions is 20% of their capital and applies to the total exposures in foreign exchange (assets and liabilities in foreign exchange of a bank) either held in Bangladesh or abroad. The capital base is defined as total eligible capital composed of Tier 1 and Tier 2.

### Provisions specific to institutional investors

Yes. Institutional investors are not allowed to deal in foreign exchange including investing abroad.

#### Insurance companies

No.

#### Limits (max.) on securities issued by nonresidents

No.

#### Limits (max.) on investment portfolio held abroad

No.

#### Limits (min.) on investment portfolio held locally

No.

#### Currency-matching regulations on assets/liabilities composition

No.

#### Pension funds

Yes.

#### Limits (max.) on securities issued by nonresidents

Yes. Pension funds of resident Bangladesh companies may not be invested abroad without the BB approval. However, there is no limit on local investment.

#### Limits (max.) on investment portfolio held abroad

Yes. Pension funds of resident Bangladesh companies may not be invested abroad without the BB approval. However, there is no limit on local investment.

#### Limits (min.) on investment portfolio

No. There is no limit on local investment.
held locally

Currency-matching regulations on assets/liabilities composition  No.  There is no regulation on currency-matching regulations on assets/liabilities composition.

Investment firms and collective investment funds  Yes.  These transactions are not allowed.

Limits (max.) on securities issued by nonresidents  Yes.  Residents generally may not invest abroad, and there are no domestic securities issued by nonresidents because nonresidents may not issue any type of security in Bangladesh.

Limits (max.) on investment portfolio held abroad  Yes.  Residents generally may not invest abroad.

Limits (min.) on investment portfolio held locally  No.  There is no limit on local investment.

Currency-matching regulations on assets/liabilities composition  No.  There is no regulation on currency-matching regulations on assets/liabilities composition.

Changes during 2018 and 2019

Arrangements for Payments and Receipts

Prescription of currency requirements  01/18/2018  To facilitate transactions under ACU mechanism, along with “ACU Dollar,” ADs are advised to resume transactions in “ACU Euro” to settle current account transactions among ACU member countries. In addition, Japanese yen has also been included as a settlement currency in ACU mechanism.

Controls on trade in gold (coins and/or bullion)  10/29/2018  The BB started issuing authorized gold dealer licenses for importation of gold bar and jewelry to AD banks and interested organizations.

Foreign exchange accounts permitted
Held domestically  10/17/2018  ADs may apply interest on the balances of the resident foreign currency deposit accounts at Eurocurrency deposit rates.

Imports and Import Payments

Financing requirements for imports  04/15/2018  Exporters are allowed to use the unencumbered balances held in the single pool within 30 days to meet the import payments of exporters’ subsidiaries/sister concerns.

Documentation requirements for release of foreign exchange for imports  06/05/2018  National Board of Revenue via its Order No. 288/2017/Customs/529 of December 21, 2017, effects relevant amendment in the Customs (Economic Zones (EZs)) Procedures 2017 to waive export/import formalities for transactions between enterprises operating in Domestic Processing Area of EZs and in Tariff Area of Bangladesh. In accordance with the revised order, such transactions to be settled in taka without observance of regulatory procedures such as EXP Form for export and IMP Form for import are allowed. To support the transactions by EZ enterprises irrespective of their ownership status, their liabilities for imports and other permissible expenses may be settled out of the fund held in their taka accounts.

Letters of credit  06/28/2018  LC authorization forms issued for the import of HR coil, Scrap, Pig iron and Sponge iron for manufacturing of flat and long steel for being used in own factories of steel industries under 360 days deferred payment basis would remain valid for remittances for 18 months following the month of issuance.
LC authorization forms may be signed by lawful representative(s) of the importer.

**Exports and Export Proceeds**

**Repatriation requirements**

**Surrender requirements**

*Surrender to authorized dealers* 06/11/2018

To promote Business-to-Consumer export by hosting goods on e-Commerce website accessible through Internet to foreign buyers, ADs are allowed to provide acquiring services to eligible exporters for repatriation of export proceeds against sales orders of exportable goods received on e-Commerce website subject to some operational procedures.

**Documentation requirements** 03/21/2018

If the shipment is made against full payment received in advance through normal banking channel, ADs can allow carrier companies to draw railway receipts, bills of lading, airway bills and other documents of title to cargo to the order of importer or other designated parties as per stipulations of export letter of credit/valid sales contract. In this context, the designated AD issues a certificate to the exporter to be produced to the carrier company, enabling them to draw the shipping documents accordingly.

06/05/2018

National Board of Revenue via its Order No. 288/2017/Customs/529 of December 21, 2017, effects relevant amendment in the Customs (EZs) Procedures 2017 to waive export/import formalities for transactions between enterprises operating in Domestic Processing Area of EZs and in Tariff Area of Bangladesh. In accordance with the revised order, such transactions to be settled in taka without observance of regulatory procedures such as EXP Form for export and IMP Form for import are allowed.

04/23/2019

The BB introduced an electronic option for EXP Form submission for exports of goods from Bangladesh.

**Export licenses** 12/01/2018

According to the Export Policy 2018–2021, the exports of 16 items are banned (previously 17). Fifteen products (previously 8) are exportable under certain conditions. Some of these items are restricted for ensuring adequate supply in the domestic market.

**Payments for Invisible Transactions and Current Transfers**

**Controls on these transfers**

**Trade-related payments** 06/10/2018

To facilitate smooth operations of branches of foreign banking companies in Bangladesh, ADs are allowed to remit head office expenses without prior approval from the BB subject to observance of some instructions which is allocated by the head office to their branches in accordance with standard practices.

07/17/2019

Funds from Personal Foreign Currency accounts may be used for payment of admissible imports in terms of the Import Policy Order in force.

**Indicative limits/bona fide test** 02/15/2018

To facilitate export trade in meeting urgent needs, ADs are allowed to provide remittance facilities to the exporters for bona fide service payments to beneficiary’s bank account abroad up to US$5,000 or equivalent.

**Credit card use abroad** 04/07/2019

ADs may issue International Debit/Prepaid/Credit card in favor of Bangladeshi medical centers accredited by GHC to pay only the registration fee for medical check-up services of Bangladeshi nationals proceeding abroad for employment in member countries of GCC.

**Capital Transactions**
Controls on credit operations

Guarantees, sureties, and financial backup facilities

06/28/2018 ADs may issue guarantee in taka or equivalent convertible foreign currency on behalf of foreign-owned/foreign-controlled companies operating in Bangladesh, favoring concerned authorities in Bangladesh against foreign back-to-back guarantee acceptable to them subject to observance of some instructions.

Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions

Differential treatment of deposit accounts in foreign exchange

Reserve requirements

04/03/2018 The CRR changed to 5.5% from 6.5%.

Foreign exchange market

Yes. Certain businesses are allowed to exchange foreign currency. The exchange rate applied by commercial banks is determined by the CBB; banks, however, may charge processing fees.

Spot exchange market

Yes. As of December 31, 2018, eight institutions have been licensed to deal in foreign exchange with the public. There are no foreign exchange bureaus.

Operated by the central bank

Yes. The CBB buys and sells US dollars for Barbados dollars on demand from ADs and the government at the official rate. Buying and selling rates for the Canadian dollar, euro, and pound sterling are also officially quoted on the basis of their cross-rate relationships to the US dollar. The quoted rates include commission charges of 0.125% buying and 1.75% selling against the US dollar and 0.1875% buying and 1.8125% selling against the Canadian dollar, euro, and pound sterling.

Allocation

No.

Auction

No.

Fixing

No.

Interbank market

Yes. As of December 31, 2018, five banks and three nonbank financial institutions participate in the interbank market.

Over the counter

Yes.

Brokerage

No.

Market making

No.

Forward exchange market

Yes. The CBB periodically obtains forward cover in the international foreign exchange market to cover or hedge its own or the central government’s exchange risk associated with foreign exchange loans not denominated in US dollars. Commercial banks may obtain forward cover in international markets. The CBB and commercial banks enter into swap transactions in US dollars, whereas commercial banks switch freely among nonregional currencies.

Official cover of forward operations

No.

Resident Accounts

Foreign exchange accounts permitted Yes.

Held domestically Yes. Effective August 1, 2019, all residents are allowed to hold foreign exchange accounts. ADs may credit 100% of the foreign exchange earned related to current account transactions by residents to their foreign exchange accounts without CBB approval. Previously, only residents earning foreign exchange related to current account transactions were permitted to hold foreign exchange accounts. ADs could credit 30% of the foreign exchange surrendered by residents who earn foreign exchange to residents’ foreign exchange accounts without CBB approval. Other credits and debits required individual approval.

Approval required No. Effective August 1, 2019, approval was no longer required to open foreign exchange accounts. Previously, approval was given on the basis of the anticipated frequency of receipts and payments in foreign currency. Payments must be related to the account holder.

Held abroad Yes.

Account in domestic currency held abroad Yes. CBB permission is required.

Account in domestic currency convertible into foreign currency Yes. CBB permission is required.

warrants) to ADs; payments for imports of crude oil and its derivatives are subject to CBB approval.

Import licenses and other nontariff measures

Yes. Certain imports require individual licenses. Some items on the import-licensing list may be freely imported throughout the year, whereas other items are subject to temporary restrictions (particularly agricultural products, which tend to be subject to seasonal restrictions). Individual licenses are also required for imports of commodities that are subject to the provisions of the Oils and Fats Agreement, to which Barbados, Dominica, Grenada, Guyana, St. Lucia, St. Vincent and the Grenadines, and Trinidad and Tobago are signatories, whether the goods are being imported from CARICOM countries or from elsewhere. Special licensing arrangements have been made for the regulation of trade between Barbados and other CARICOM countries in 22 agricultural commodities.

No. No. n.a. Yes. Not all goods that are subject to licensing are subject to quantitative restrictions or import surcharges.

Yes. No.

Yes. Customs duties corresponding to the fourth phase of the CARICOM CET are in the range of 5%–20%. A VAT of 17.5% is levied. Tariffs ranging from 20% to more than 200% apply to imports of prepared meats, detergents, and T-shirts.

No. Chicken heads, backs, and necks; onions; and sugar may be imported only by the Barbados Agricultural Development and Marketing Corporation, and milk may be imported only by the Pine Hill Dairy.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exports and Export proceeds

Yes. Proceeds must be repatriated within six months.

Yes. The CBB requires authorized foreign exchange dealers to surrender 5% of their gross foreign exchange purchases to the CBB.

No. Effective August 1, 2019, exporters no longer have to surrender their proceeds to ADs. Previously, exporters had to surrender 70% of their proceeds to ADs. Proceeds had to be sold to an AD within six months, but exporters could apply for exemptions.

No.

Yes.

No.

No.

No.
Completion of an export form is required in duplicate detailing the goods, proceeds expected, and total shipment details. Specific licenses are required for the exportation of certain goods to any country, including rice, sugarcane, rum, molasses, certain other food products, sewing machines, Portland cement, and petroleum products. All other goods may be exported without a license.

Exports of sugar to the United Kingdom and the United States are subject to bilateral export quotas, as are exports of rum to the EU.

Effective July 1, 2019, residents are allowed BDS$20,000 a person a calendar year for private travel and BDS$1,000 a day up to BDS $60,000 a person a calendar year for business travel. Previously, ADs had full authority to release foreign exchange to residents, without limit, for travel within CARICOM countries. For travel outside CARICOM countries, the limits were BDS$7,500 a person a calendar year for private travel and BDS$750 a day up to BDS $50,000 a person a calendar year for business travel. Commercial banks have the authority to approve all payments for cash currency swaps by in-port ships and cruise liners.

There are no limits on payments for medical treatment or study abroad; however, these payments require approval from a
commercial bank, based on appropriate documentation. The limit on cash gifts is BDS$10,000 a person a year. Remittances for alimony and other support are allowed in accordance with court orders. Nonresidents residing outside Barbados may have their pensions remitted to them. Beneficiaries residing outside CARICOM countries may transfer abroad bequests or inheritances at the rate of BDS$0.25 million in the first year and thereafter BDS$100,000 a year. Commercial banks must, however, continue to report such transfers to the CBB. Approval is required for amounts above the limit.

Commercial banks may approve all payments with respect to bequests or inheritances that are due to beneficiaries resident in CARICOM countries, under the terms of the wills of persons who were resident or subject to the rules governing resident intestates for exchange control purposes.

Commercial banks may, without CBB approval, allow transfers of funds for payment of management services provided by residents of CARICOM countries.

Nonresidents are allowed to remit amounts to cover commitments while employed in Barbados with CBB approval supported by documentation.

The limits are the same as for travel.

Commercial banks are permitted to approve all payments abroad for charges and fees with respect to granting and registration of patents, designs, and trademarks. Commercial banks are permitted to approve all payments abroad for entrance and subscription fees due to nonresident credit and travel card companies.

Payments are permitted up to the amount stated in the invoice.

No limits apply for subscriptions to magazines, books for personal use, returns and refunds of deposits, reimbursements of overpaid accounts, and insufficient postage payments.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Proceeds from Invisible Transactions and Current Transfers

The CBB requires authorized foreign exchange dealers to surrender 5% of their gross foreign exchange purchases to the CBB. Effective August 1, 2019, foreign currency proceeds from invisible transactions no longer have to be surrendered to ADs. Previously, 70% of foreign currency proceeds from invisible transactions had to be surrendered to ADs.
### Capital Transactions

</tbody>
</table>

**Capital Transactions**

- Capital account transactions with the ECCB area denominated in Eastern Caribbean dollars are free from controls, except for transactions in debt issues of OECS governments.

- Earnings on securities and money market instruments purchased abroad by residents must be repatriated. However, there is no defined timeline for repatriation of capital.

- The CBB requires authorized foreign exchange dealers to surrender 5% of their gross foreign exchange purchases to the CBB.

- Earnings on securities and money market instruments purchased abroad by residents must be surrendered to ADs.

**On capital market securities**

- Shares or other securities of a participating nature
  - Purchase locally by nonresidents: Yes.
    - The issuance and transfer to nonresidents of securities registered in Barbados require exchange control approval, which is freely given, provided an adequate amount of foreign currency is brought in for their purchase. Purchases and sales of shares and securities of companies cross-listed and cross-traded on any CARICOM stock exchange are permitted without limit. The Barbados Stock Exchange (BSE) is authorized to approve all investments in corporate securities in the form of equities cross-listed and cross-traded on CARICOM stock exchanges.

  - Sale or issue locally by nonresidents: Yes. Authority is delegated to commercial banks to approve, without CBB approval, applications related to remittance of the proceeds from the sale of unlisted equity investments.

  - Purchase abroad by residents: Yes.
    - These purchases require exchange control approval, and certificates of title must be lodged with an authorized depository in Barbados, except for regional securities purchased through the Securities Exchange of Barbados. Purchases and sales of shares and securities of companies cross-listed and cross-traded on any CARICOM stock exchange are permitted without limit. The BSE is authorized to approve all investments in corporate securities in the form of equities cross-listed and cross-traded on CARICOM stock exchanges.

  - Sale or issue abroad by residents: Yes. Exchange control approval is required.

- Bonds or other debt securities
  - Purchase locally by nonresidents: Yes.
    - The issuance and transfer to nonresidents of securities registered in Barbados require exchange control approval, which is freely given, provided an adequate amount of foreign currency is brought in for their purchase. Transactions in interest-based securities (that is, corporate bonds, commercial paper, and government securities) denominated in regional currencies do not require CBB approval. Securities listed on the BSE may be approved by the BSE, and transactions in unlisted securities may be approved by commercial banks, provided these are denominated in regional currencies.

  - Sale or issue locally by nonresidents: Yes. Authority is delegated to commercial banks to approve, without CBB...
approval, applications related to remittance of the proceeds from the sale of unlisted investments in debt securities up to the amount registered with the CBB.

### Changes during 2018 and 2019

#### Arrangements for Payments and Receipts

**Controls on exports and imports of banknotes**

**On exports**

| Foreign currency | 07/01/2019 |Travelers may take up to the equivalent of BDS$2,500 (previously BDS$1,000) outside Barbados.|

**Foreign exchange accounts permitted**

**Held domestically**

| 08/01/2019 | All residents are allowed to hold foreign exchange accounts. ADs may credit 100% of the foreign exchange earned related to current account transactions by residents to their foreign exchange accounts without the Central Bank of Barbados (CBB) approval. Previously, only residents earning foreign exchange related to current account transactions were permitted to hold foreign exchange accounts. ADs could credit 30% of the foreign exchange surrendered by residents who earn foreign exchange to residents’ foreign exchange accounts without CBB approval. Other credits and debits required individual approval. |

**Approval required**

| 08/01/2019 | Approval was no longer required to open foreign exchange accounts. Previously, approval was given on the basis of the anticipated frequency of receipts and payments in foreign currency. |

#### Resident Accounts

#### Exports and Export Proceeds

**Repatriation requirements**

| Surrender requirements | 08/01/2019 | Exporters no longer have to surrender their proceeds to ADs. Previously, exporters had to surrender 70% of their proceeds to ADs. |
Payments for Invisible Transactions and Current Transfers

Controls on these transfers

Payments for travel

Quantitative limits 07/01/2019
Residents are allowed BDS$20,000 a person a calendar year for private travel and BDS$1,000 a day up to BDS$60,000 a person a calendar year for business travel. Previously, ADs had full authority to release foreign exchange to residents, without limit, for travel within CARICOM countries. For travel outside CARICOM countries, the limits were BDS$7,500 a person a calendar year for private travel and BDS$750 a day up to BDS$50,000 a person a calendar year for business travel.

Banks’ internal control measures include suspension of or refusal to perform a financial transaction for a client (with the exception of the receipt of funds) if the financial transaction meets the criteria for the identification of suspicious financial transactions and shows signs of such transactions, which may be grounds for refusal to perform a transaction in accordance with the bank’s internal control regulations; unilateral refusal to connect a client to a remote banking service system or suspension of services through such a system if the financial transactions being performed by the client meet the criteria for refusing to provide a connection (or for termination or suspension of a connection), which may serve as grounds for such actions in accordance with the bank’s internal control regulations; unilateral refusal in writing to execute an agreement to perform financial transactions for a client if, within a six-month period, there have been two or more decisions involving the refusal to perform financial transactions for the client accompanied by mandatory written notification of the client in the manner prescribed by banking law; refusal to perform a financial transaction for a client if there is information on hand to the effect that a bank, including a nonresident bank, in which an account has been opened for a cash recipient is involved in illegal financial transactions or that the cash recipient is involved in such transactions or that sanctions have been applied against the bank or the recipient; financial transactions are blocked if at least one of the parties is a person involved in terrorist activities or if it is established that the client is on a list of individuals or organizations involved in terrorist activities and its funds are frozen. Banks also perform verification, notification of clients that are organizations and individual entrepreneurs of the criminal liability for money laundering, tax evasion, and other economic crimes, as well as of the possibility of assignment to the director of an organization of subsidiary liability with his or her personal property for the organization’s obligations; restriction on the provision of high-risk banking services (products) to a client designated as high risk (for example, the blocking of bank cards for clients performing suspicious transactions) (NBRB Executive Board Resolution No. 783 of December 17, 2014 (as amended February 28, 2019)).

<td></td>
</tr>
<tr>
<td>Other managed arrangement</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Floating</td>
<td>Yes</td>
<td>The de jure exchange rate arrangement is classified as floating. The National Bank carries out a flexible exchange rate policy that provides for minimizing currency interventions in the medium term to smooth out sharp fluctuations in the exchange rate. Currency interventions are used to reduce the daily volatility of the exchange rate, and not for regulating its level. In accordance with the Republic of Belarus Monetary Policy Guidelines for 2019, with a sustained excess supply of foreign currency in the domestic exchange market, the National Bank purchases foreign currency to replenish international reserves. Because the NBRB has not followed a currency basket since August 2018, the de facto exchange rate arrangement has been reclassified to floating from other managed, effective August 1, 2018. The NBRB does not publish data on its interventions.</td>
</tr>
<tr>
<td>Free floating</td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Official exchange rate</strong></td>
<td>Yes</td>
<td>The NBRB sets official exchange rates daily against 26 currencies and the currency basket. The currency basket value is calculated as the weighted geometric average of the two-way exchange rates of the Belarusian rubel against the US dollar, euro, and Russian ruble per currency unit, with the weights being 0.3, 0.2, and 0.5, respectively. Previously, the value of the basket was calculated as the weighted geometric mean of the bilateral exchange rates of the Belarusian rubel to the US dollar, the euro, and the Russian ruble, with weights of 0.3, 0.3, and 0.4, respectively. The official exchange rates on a given date correspond to the rates from the BCSE observed on the preceding business day. Official exchange rates of US dollars, euros, and Russian rubles are set on the basis of BCSE trading sessions. Official exchange rates with the other currencies are based on US</td>
</tr>
</tbody>
</table>
dollar cross-rates against these currencies. The official exchange rate is used to determine the rubel value of assets and liabilities denominated in foreign exchange. The official exchange rates of an additional 52 currencies are set monthly. These rates are calculated on the basis of the US dollar–rubel exchange rate in the last foreign exchange trading session of the month in the BCSE and the cross-rates of the currencies against the US dollar in the international foreign exchange markets on the last day of the month. The official rates are valid until the new rates are published for the following month. The official rate is used for transactions with the official sector (customs charges and duties, other foreign-exchange-linked payments payable in local currency) and transactions in which sellers do not specify an alternative exchange rate.

### Monetary policy framework

**Exchange rate anchor**

- **U.S. dollar**
- **Euro**
- **Composite**
- **Other**

**Monetary aggregate target** Yes. The NBRB has a monetary-targeting framework that uses growth in broad money as an intermediate target in monetary policy. Effective January 1, 2018, the operating target in monetary policy was changed from rubel reserve money to the one-day interbank interest rate in the domestic currency. The goals and parameters of monetary policy are defined annually in the Monetary Policy Guidelines for the Republic of Belarus, approved by the president of the Republic of Belarus. According to this document, the inflation target for 2015 was set at 12% (it was subsequently adjusted to 18% with a 2% corridor), and for 2016, it was set at 12%. In 2017, this document called for a reduction in inflation, measured by the consumer price index, down to 9% (December 2017 to December 2016). Growth in the average broad money supply was forecast at the level of 14% plus/minus 2 percentage points (December 2017 to December 2016). For 2018, the inflation target is set as inflation measured by the consumer price index of no more than 6% (December 2018 to December 2017). Growth in the average broad money supply is forecast at 9%–12% (December 2018 to December 2017).

**Inflation-targeting framework**

**Target setting body**

- **Government**
- **Central Bank**
- **Monetary Policy Committee**
- **Central Bank Board**
- **Other**
Government and Central Bank

**Inflation target**

- **Target number**

**Point target**

- **Target with tolerance band**

**Band/Range**

- **Target measure**
  - **CPI**
  - **Core inflation**

**Target horizon**

**Operating target (policy rate)**

- **Policy rate**
- **Target corridor band**
- **Other**

**Accountability**

- **Open letter**
- **Parliamentary hearings**
- **Other**

**Transparency**

- **Publication of votes**
- **Publication of minutes**
- **Publication of inflation forecasts**

**Other monetary framework**

- **Exchange tax** | No.
- **Exchange subsidy** | No.
- **Foreign exchange market** | Yes. The foreign exchange market consists of: (1) the BCSE; (2) the interbank foreign exchange market; and (3) operations involving the purchase and sale of foreign currency between a bank and its customers, including cash foreign exchange operations. Purchases and sales of foreign currency for rubels and conversion of foreign currency take place in the foreign exchange market through NBRB-licensed banks. The NBRB does not impose limits on exchange rates. No commission is charged for the purchase and sale of foreign exchange in the OTC market. A bank may charge a commission only for the purchase and sale of currency in the BCSE, and the amount is based on the rates set by banks.
Effective April 11, 2018, the requirement for resident legal entities to resell unused foreign exchange previously purchased on the foreign exchange market was eliminated.

Effective August 3, 2018, the Decree of the President of the Republic of Belarus No. 301 of July 31, 2018, “On the abolition of the mandatory sale of foreign currency” abolished the requirement on the mandatory sale on the domestic foreign exchange market by legal entities and individual entrepreneurs who are residents of the Republic of Belarus of a part of the proceeds in foreign currency.

As of May 31, 2019, there were 24 banks and the Republic of Belarus Development Bank Open Joint-Stock Company, and 4 banks were undergoing bankruptcy or liquidation procedures.

Most transactions in the foreign exchange market are spot transactions. Purchases and sales of cash foreign currency for rubels and conversion of foreign currency take place only through banks and nonbank lending and financial institutions licensed by the NBRB for foreign exchange operations with individuals.

Individuals are free to buy and sell foreign currency. Purchases and sales of foreign currency between Belarusian banks, between a Belarusian bank and a nonresident bank, and between banks and their corporate clients are performed in the OTC exchange market without restriction.

Businesses have the right to perform the purchase/sale of foreign currency in the OTC exchange market, and also through banks in BCSE, including continuous two-way auctions. There are no restrictions on the amounts for the foreign exchange purchase and sale transactions by business entities.

No restrictions have been established on the purchase and sale of foreign currency in the currency exchange (BCSE).

Effective April 11, 2018, pursuant to the Instruction on the Procedure for the Performance of Foreign Exchange Transactions Involving Legal Entities and Individual Entrepreneurs (as amended by the NBRB Executive Board Resolution No. 538 of December 28, 2017), the majority of controls that applied on the purchase of foreign exchange by legal entities and individual entrepreneurs were eliminated (for example, the limited time period for the use of purchased foreign exchange, residents’ special accounts, the documentation requirement, mandatory use of purchased foreign exchange for the stated purpose). Resident legal entities and individual entrepreneurs may buy foreign exchange for any current or capital transaction based on a request (or a payment order for transfer with purchase, if appropriate) submitted to any local bank. No supporting documentation (for example, contracts, NBRB approvals, etc.) is required for the purchase of foreign exchange. The purchased foreign exchange is credited to the resident’s foreign exchange current account with the local bank and may be kept there for an unlimited period of time until the foreign exchange is used. Also, a resident is free to use the purchased foreign exchange for a purpose other than that indicated in the request submitted to the bank, and no additional notification of the bank is required.

The BCSE organizes a trading session through which the NBRB may intervene as necessary.

</thead>
<tbody>
<tr>
<td>Foreign exchange standing facility</td>
<td>No.</td>
</tr>
<tr>
<td>Allocation</td>
<td>No.</td>
</tr>
<tr>
<td>Auction</td>
<td>Yes. An electronic trading system operates in the BCSE based on the continuous two-way auction principle and negotiated deals. Trading on the BCSE is performed each business day. A two-way auction operates for three currencies (US dollar, euro, and Russian ruble), while negotiated deals are used for transactions in other currencies. In a continuous two-way auction system, potential buyers submit their bids for the purchase of foreign exchange, and potential sellers simultaneously submit their offers for the sale of foreign exchange to the system. Trades are performed on a real-time basis when the parameters of a buyer’s bid satisfy the parameters of a seller’s offer. Under continuous two-way auction exchange trading, the purchase and sale of foreign exchange can be performed by the National Bank, the Republic of Belarus Development Bank Open Joint-Stock Company, banks, and nonbank lending and financial institutions, as well as by business entities through banks. There are no limits on the bid-ask spreads or commissions of market participants, as well as there are no limits on bids in terms of amounts. A participant pays a fine to the BCSE for failure to fulfill or improper fulfillment of net obligations equal to a percentage of the unfulfilled net obligations as specified in an agreement with the BCSE for each day of delay. Information about the results of foreign currency trading is published on the BCSE website and it is also disseminated by the BCSE on the basis of agreements on information services concluded with legal entities and individuals.</td>
</tr>
<tr>
<td>Fixing</td>
<td>No.</td>
</tr>
<tr>
<td>Interbank market</td>
<td>Yes. As of May 31, 2019, there were 24 banks, and 4 banks were undergoing bankruptcy or liquidation procedures. Banks licensed by the NBRB and the Republic of Belarus Development Bank Open Joint-Stock Company may trade foreign exchange among themselves within the open foreign exchange position limit set by the NBRB. There are no limits on the bid-ask spreads or commissions of market participants. The NBRB does not intervene in the interbank market. The mentioned financial institutions may perform foreign exchange transactions both on the BCSE and in the OTC market.</td>

Use of foreign exchange among residents: Yes.

Settlements between residents in foreign exchange are prohibited, except in cases established by the law. The following are permitted in foreign exchange: (1) settlements between individuals in foreign exchange for foreign exchange transactions entailing gifting (donation), revocation of a gift, granting of loans, repayment of loans and interest for their use, and transfer for safekeeping and return; (2) settlements between resident legal entities in foreign exchange in settlements for oil and gas; with transport entities for the transportation of cargo; in settlements with the budget; in the servicing (repayment) of external public loans; and in banking transactions involving settlements under reinsurance agreements when insurance (co-insurance) agreements require onward conveyance for reinsurance in accordance with the legislation of Belarus on insurance, etc.; and (3) settlements between resident legal entities and resident individuals in foreign exchange in duty-free stores; for “green card” civil liability insurance agreements for motor vehicle owners traveling abroad; and for payment of business travel expenses abroad, etc.

Payments arrangements: Yes.

Bilateral payments arrangements: Yes.

Operative: Yes.

In accordance with interstate agreements between the NBRB and the CBs of the Baltic countries, most countries in the CIS (except Azerbaijan, Kyrgyz Republic, Moldova, and Uzbekistan), the People’s Bank of China, and the Central Bank of the Islamic Republic of Iran, settlements take place in the currencies of the parties involved and in freely convertible currencies. Some agreements also allow settlements in currencies of other CIS countries. In accordance with a correspondent account agreement, the NBRB opened a correspondent account for the Interstate Bank and provides access to the NBRB’s automated interbank settlement system. This correspondent account is used for cross-border payments for liabilities of the Interstate Bank and its clients.

Inoperative: No.

Regional arrangements: Yes.

Belarus has arrangements with Moscow and various other regions in Russia and it also participates in the Agreement on the Establishment of a Payment Union of CIS Member Countries.

Belarus is a signatory to the Treaty on the Eurasian Economic Union (EAEU Treaty) of May 29, 2014, which went to effect on January 1, 2015. The specific considerations, grounds, and procedure for the application of a particular nontariff regulatory measure within the EAEU are established under the Protocol on Nontariff Regulatory Measures with respect to Third Countries (Annex 7 to the EAEU Treaty).

Clearing agreements: No.

Barter agreements and open accounts: No.

Administration of control: Yes.

The exchange regulation authorities are the Council of Ministers and the NBRB. The exchange control authorities are the Council of Ministers, the NBRB, the State Control Committee, and the State Customs Committee. The exchange control agents are agencies of the state administration and other agencies under the government of Belarus, the regional (City of Minsk) executive committees, customs offices, banks, and nonbank financial institutions.

Resident Accounts

Foreign exchange accounts permitted
Yes.
Held domestically
Yes.
Residents may open foreign exchange accounts in banks without declaring the sources of their foreign exchange. The operation of the accounts is carried out in accordance with the procedure established for the use of an account, taking into consideration the requirements of the legislation governing the performance of current and capital transactions.
The following operations are performed on resident individual foreign exchange accounts: (1) placement and withdrawal of foreign currency (placement of a deposit, for example); (2) transfers among the holder’s own accounts in foreign currency in cases established by law; (3) performance of settlements under foreign exchange transactions with residents and nonresidents in cases permitted by law (settlements at duty-free shops, settlements with banks on banking operations, settlements on National Bank and MOF bonds, etc.). Resident legal entities are entitled to withdraw from their accounts and use foreign exchange cash in cases established by law (use for business travel expenses, to pay for services provided by...
diplomatic and consular institutions of foreign states, etc.).

<td>Effective April 11, 2018, pursuant to the Instruction on the Procedure for the Performance of Foreign Exchange Transactions Involving Legal Entities and Individual Entrepreneurs (as amended by the NBRB Executive Board Resolution No. 538 of December 28, 2017), the majority of controls that applied on the purchase of foreign exchange by legal entities and individual entrepreneurs were eliminated (for example, the limited time period for the use of purchased foreign exchange, residents’ special accounts, the documentation requirement, mandatory use of purchased foreign exchange for the stated purpose). Resident legal entities and individual entrepreneurs may buy foreign exchange for any current or capital transaction based on a request (or a payment order for transfer</td>
<td></td>
</tr>
</tbody>
</table>
with purchase, if appropriate) submitted to any local bank. No supporting documentation (for example, contracts, NBRB approvals, etc.) is required for the purchase of foreign exchange. The purchased foreign exchange is credited to the resident foreign exchange current account opened with the local bank and may be kept there for unlimited period of time until the foreign exchange is used. Also, the resident is free to use the purchased foreign exchange for a purpose other than that indicated in the request submitted to the bank, and no additional notification of the bank is required.

Previously, resident legal entities were allowed to purchase foreign exchange for the following purposes: settlements with nonresidents with respect to current foreign exchange transactions, primarily settlements for imports; rental (leasing) of property to nonresidents; noncommercial transactions; and transfers of dividends and other investment income. Foreign exchange could be purchased for capital transactions, provided they do not require special permission from the NBRB (required for transactions associated with capital outflows). Foreign currency could be purchased for the repayment of credits (loans) from nonresidents, regardless of the procedure under which they were obtained (that is, freely or with the permission of the NBRB). Foreign currency could be acquired for settlements with banks on foreign exchange transactions for which settlements entail the repayment of credits, banking guarantees, factoring, or LCs; for expenditures associated with travel outside Belarus; and for other purposes specified by the NBRB.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Nonresident Accounts

Nonresidents may open accounts with banks and nonbank lending and financial institutions of the Republic of Belarus in any currency for which the NBRB establishes an official exchange rate against the Belarusian rubel, following the procedure determined by the NBRB.

Funds on accounts of nonresident individuals and legal entities received by such nonresidents from current international transactions may be transferred freely abroad.

Transactions on current (settlement) accounts in foreign exchange of nonresident legal entities may be freely performed regardless of the type of transaction (including foreign exchange transactions associated with the purchase and sale of foreign exchange). The source of the funds may be receipts from abroad; proceeds from the sale of goods and services in Belarus, including sales to residents; debt service payments; interest on the accounts; funds from other foreign exchange accounts of nonresidents in Belarus; and earnings from investments and other operations with residents and nonresidents. These accounts may be debited for purchases of goods and services, investments, and payments to residents and nonresidents. Funds from these accounts may, through authorized banks, be freely repatriated or exchanged for Belarusian rubels at the exchange rate set by the bank applicable to the operation, provided the Belarusian rubels are deposited with a Belarusian bank.

Nonresident individuals may maintain foreign exchange accounts at authorized Belarusian banks and perform transactions on them following the procedure established for resident individuals: (1) placement and withdrawal of foreign exchange cash (in a deposit account, for example); (2) transfers among the holder’s own accounts, including to those outside the Republic of Belarus; (3)
performance of settlements under foreign exchange transactions with residents and nonresidents in cases permitted by law (settlements at duty-free shops, settlements with banks on banking operations, settlements on National Bank and MOF bonds, etc.).

Approval required No.

Domestic currency accounts Yes.

Nonresident legal entities may open in Belarusian rubels (1) effective March 1, 2019, current (settlement) accounts of any type, (2) accounts to record deposits, and (iii) other accounts at authorized banks of Belarus.

(Previously, nonresident legal entities could open type T (settlement) and type S (investment in government securities) accounts. T account transactions were free of restriction, regardless of the type of transaction (including transactions involving the purchase and sale of foreign exchange). Funds in S accounts were used for investment in securities, payment of expenditures associated with securities investments, payment of taxes and fees, and currency exchange transactions. In all other instances, use of type S account funds required the NBRB permission.)

Pursuant to NBRB Executive Board Resolution No. 515 of August 26, 2015, nonresident business entities may open accounts in Belarusian rubels without opening a representative office in the Republic of Belarus.

Nonresident individuals may open accounts in Belarusian rubels at banks and perform transactions on them according to the procedure established for resident individuals. There are no restrictions on the performance of foreign exchange transactions in Belarusian rubels by nonresident individuals, including those involving the deposit and withdrawal of cash Belarusian rubels.

Funds on accounts of nonresident individuals and legal entities received by such nonresidents from current international transactions may be transferred freely abroad.

Convertible into foreign currency Yes.

Funds on accounts of nonresident individuals and legal entities may be converted to foreign currency.

Approval required No.

Effective March 1, 2019, the use of funds on accounts of nonresident legal entities does not require NBRB approval. Previously, the use of nonresident legal entities’ type S account funds required the NBRB permission in all instances other than for investment in securities, payment of expenditures associated with securities investments, payment of taxes and fees, and currency exchange transactions.

Blocked accounts No.

</table>

Payments for imports of goods and services delivered outside Belarus require an NBRB permit, which is issued at the request of the importer supported by a recommendation by the administrative body that oversees the importer (that is, local Council of Ministers of the Republic of Belarus, regional or local executive committees).

The specific considerations, grounds, and procedure for the application of a particular nontariff regulatory measure within the Eurasian Economic Union (the Union) are established under the Protocol on Nontariff Regulatory Measures with respect to Third Countries (Annex 7 to the EAEU Treaty).

A permitting procedure for imports and exports of certain goods is carried out through licensing or the application of other administrative measures for the regulation of foreign trade activity, including the issuing of a finding (a permitting document) and other administrative measures.

Goods against which it was decided to apply measures are included on the Uniform List of Prohibited or Restricted Goods for Import or Export by Member States of the Customs Union within the EAEU in Trade with Third Countries, which was approved by Eurasian Economic Commission Executive Council Decision No. 134 of August 16, 2012 (hereinafter – Uniform List) and on the List of Goods with respect to Which Permitting Procedures Have Been Established for Import onto the Eurasian Economic Union Customs Territory and/or Export From the Eurasian Economic Union Customs Territory, approved in Decision No. 30 of April 21, 2015, of the Collegium of the Eurasian Economic Commission (hereinafter – List).

These goods include ozone-depleting substances; means of plant protection; hazardous waste; narcotics; psychotropic substances and their precursors, poisons; radio-electronic equipment; special technical equipment; encryption (cryptographic) equipment; human organs and tissue; blood and its components; certain printed matter, audiovisual materials, and other media; certain types of service and civilian weapons, basic parts thereof, and ammunition; cultural assets; documents from national archival collections; information about mineral resources; live wild animals; wild plants; certain species of wild flora and fauna; equipment for harvesting aquatic biological resources; mineralogical collections and collectible mineralogical items; and rare species of live wild animals and plants.

In accordance with Resolution No. 486 of the Republic of Belarus Council of Ministers of June 23, 2016, the Republic of Belarus Ministry of Antimonopoly Regulation and Trade issues licenses for the importation of goods included on the Uniform List and the List into the customs territory of the Union.

Resolution No. 486 also established lists of republic-level government authorities and other organizations that approve the issuing of licenses, and, in cases referred to in the Regulations on the Application of Restrictions, that issue findings (permitting documents) for the importation of goods included on the Uniform List.
List and the List into the customs territory of the Union. A list of documents and/or information to be presented by interested parties to an authorized agency within the context of administrative procedures, including for the purpose of obtaining licenses and permitting documents for the importation of certain categories of goods, as well as other required information, are reflected in Republic of Belarus Council of Ministers Resolution No. 156 of February 17, 2012. Licensing of imports was employed as a temporary measure for a six-month period for certain types of plaster articles from August 16, 2016, to February 15, 2017 (Republic of Belarus Council of Ministers Resolution No. 634 of August 13, 2016). The licenses were issued by the Republic of Belarus Ministry of Trade, which was renamed the Republic of Belarus Ministry of Antimonopoly Regulation and Trade on September 8, 2016.

Positive list

No.

Negative list

Yes.

Prohibitions have been established against importation of goods on the Uniform List of Prohibited or Restricted Goods for Import or Export by Member States of the Customs Union within the EAEU in Trade with Third Countries (approved by Eurasian Economic Commission Executive Council Decision No. 134 of August 16, 2012), and on the List of Goods with respect to which Permitting Procedures Have Been Established for Import onto the Eurasian Economic Union Customs Territory and/or Export From the Eurasian Economic Union Customs Territory (approved by Collegium of the Eurasian Economic Commission Decision No. 30 of April 21, 2015, on Measures for Nontariff Regulation): ozone-depleting substances; hazardous waste; certain printed matter, audiovisual materials, and other media; means of plant protection; equipment for harvesting aquatic biological resources; certain types of service and civilian weapons, basic parts thereof, and ammunition; and products made from harp seals and harp seal pups.

Open general licenses

No.

Licenses with quotas

Yes.

In accordance with Section 2.27 of the Uniform List of Goods for Which Nontariff Regulatory Measures Are Applied in Trade with Third Countries as specified in Clause 4 of the Protocol on Nontariff Regulatory Measures With Respect to Third Countries (Annex 7 to Treaty on the EAEU), the following products are subject to import tariff quotas: fresh, chilled, or frozen pork; pork trimmings; frozen boneless chicken meat; and frozen boneless turkey meat. Licenses for imports of pork and poultry within the limits of the tariff quotas are issued by the Republic of Belarus Ministry of Antimonopoly Regulation and Trade.

Under the May 29, 2015, free trade agreement between the EAEU and its member states, on the one hand, and Vietnam, on the other, tariff quotas are set for certain types of long-grain rice that originates in Vietnam and is imported into the territories of the member states of the EAEU. Licenses for importing certain types of rice are issued by the Republic of Belarus Ministry of Antimonopoly Regulation and Trade.

Other nontariff measures

Yes.

In accordance with Republic of Belarus Law No. 429-Z of August 27, 2008, the government has the exclusive right to import certain types of alcoholic beverages. Implementation has been awarded to legal entities that won government-organized tenders. In accordance with Decree No. 4 of the President of the Republic of Belarus of October 18, 2007, the government has the exclusive right to import tobacco and tobacco products. Exercise of this right has been granted to Grodno Tobacco Factory Neman and Tabak-Invest,
and for tobacco products to Belarustorg and Energo-Oil. Republic of Belarus Council of Ministers Resolution No. 1397 of September 23, 2008, established the permitting procedure for the importation of goods whose movement is restricted on noneconomic grounds.

**Import taxes and/or tariffs**

Yes.

There is a single procedure for customs regulation within the Eurasian Economic Union (EAEU) in accordance with the provisions of the EAEU Treaty, the Customs Code of the EAEU, international agreements governing legal relations in the customs sphere, and acts constituting the law of the EAEU. The Common Customs Tariff of the Eurasian Economic Union (EAEU CCT) is a set of import customs duties for goods imported into the common customs territory of the Union from third countries, classified under the common nomenclature for foreign economic activities of the Union (EAEU TNVED). The EAEU CCT applies the following types of duties: ad valorem, calculated as a percentage of the customs value of taxable goods; specific, calculated per unit of taxable goods; and combined, mixing both these types. For better regulation of imports into the common customs territory of the EAEU, seasonal customs duties may be applied instead of regular import customs duties, for a period of no more than six months a year. EAEU CCT import duty rates apply, depending on the country of origin of imported goods and the conditions of their importation, in accordance with the laws of members of the EAEU, unless otherwise indicated in the EAEU Treaty. Goods originating in and imported from CIS countries that have an ST-1 certificate are exempt from import customs duties.

With the aim of promoting the economic development of developing and least developed countries, in accordance with the EAEU Treaty, the Union may grant tariff preferences for goods from developing and/or least developed economies using the Union’s common system of tariff preferences. For preferential goods imported into the Union’s customs territory from developing economies using the Union’s common system of tariff preferences, the import customs duty rates are equal to 75% of the rates under the Union’s common customs tariff. For preferential goods imported into the Union’s customs territory from least developed economies using the Union’s common system of tariff preferences, the import customs duty rates are equal to 0% of the rates provided for under the Union’s common customs tariff.

Decision No. 130 of the Customs Union Commission of November 27, 2009, on the Common Customs Tariff Regulation of the Eurasian Economic Union provides for a number of tariff concessions with respect to imported goods, as well as exemptions from import customs duties with respect to technological equipment and spare parts for such equipment; raw materials and supplies imported as part of an investment project in a priority area of activity; motor vehicles manufactured by business entities of member states applying the “industrial assembly” concept; equipment, including machinery, mechanisms, and materials that are part of the standard items provided with said equipment, and components (with the exception of those subject to excise taxes) imported at the expense of credits provided by foreign states and international financial institutions in accordance with international agreements by member states, and a number of other concessions.

The collection of indirect taxes and the mechanism for monitoring their payment when goods are imported in mutual trade between member countries of the Union are carried out in accordance with the procedure defined in the Protocol on the Procedure for the Collection of Indirect Taxes (Annex 18 to the EAEU Treaty). In trade relations with all countries, Belarus collects indirect taxes on a country-of-
Taxes collected through the exchange system: No.

State import monopoly: No.

Exports and Export Proceeds

Repatriation requirements: Yes. Residents must complete their foreign trade operations under export contracts no later than 180 calendar days from date of shipment (transfer of protected information or exclusive rights to intellectual property), completion of work, or provision of services. Extensions beyond 180 days require NBRB permission.

Surrender requirements: No.

Surrender to the central bank: No.

Surrender to authorized dealers: No. Effective August 3, 2018, pursuant to Decree of the President of the Republic of Belarus No. 301 of July 31, 2018, on Abolition of the Foreign Exchange Surrender Requirement, legal entities and individual entrepreneurs who are residents of the Republic of Belarus are no longer required to surrender foreign exchange in the domestic foreign exchange market. Previously, proceeds from exports of goods and services and from the sale of goods and services to individuals had to be surrendered within seven days of receipt in a bank account in a Belarusian bank. The surrender requirement was 10%. Surrender was performed mainly through the BCSE at the weighted average exchange rate calculated for transactions completed in performing the surrender of foreign exchange (for transactions involving the surrender of foreign exchange, all clients within a single bank were offered the same weighted average exchange rate). The OTC exchange rate set by the bank was used when parties performing foreign exchange operations surrendered foreign exchange to a bank in an amount less than the lot established in exchange trading.

Financing requirements: No.

Documentation requirements: No.

Letters of credit: No.

Guarantees: No.

Domiciliation: No.

Preshipment inspection: No.

Other: No.

Export licenses: Yes. Exports from the customs territory of the Union of goods included on the Uniform List and the List are performed in accordance with regulations that establish the permitting procedure for exports of goods subject to restricted movement, as approved by the Eurasian Economic Commission Collegium Decision No. 134 of August 16, 2012, and the Eurasian Economic Commission Collegium Decision No. 30 of April 21, 2015, on Measures for Nontariff Regulation. These goods include ozone-depleting substances and products containing them; hazardous waste; collectible objects in the area of mineralogy and paleontology and fossils; live wild animals, some...
wild plants, and wild medicinal raw materials; precious metals; unprocessed precious metals, waste and scrap of precious metals, ores and concentrates of precious metals, and raw materials containing precious metals; certain minerals; narcotic substances and drugs and psychotropic substances and their precursors; toxic substances; and special technical devices; encryption (cryptographic) devices; human organs, tissue, and blood and its components; service and civilian weapons; information on mineral resources indicating areas and deposits of fuel and energy and mineral resources.

In the Republic of Belarus, permitting procedures are in place for the export of oil and petroleum products and ferrous and nonferrous metal waste and scrap, as well as mineral or chemical fertilizers and potassium fertilizers.

In accordance with Resolution No. 486 of June 23, 2016, licenses for exports of goods are issued by the Republic of Belarus Ministry of Antimonopoly Regulation and Trade. The same decree approved the list of government agencies and other organizations authorized to approve the issuing of licenses.

There are also prohibitions on exports from the Union’s customs territory of printed matter, audiovisual materials, and other media containing information that could harm the political or economic interests of Belarus or its state security, or the health and morals of its citizens; service and civilian weapons; and timber, recycled paper, cardboard, and waste paper (with respect to goods originating in the Republic of Kazakhstan) on the Uniform List and the List.

Exports of the following goods on the Uniform List and the List require licenses from the relevant government authority: ozone-depleting substances and products containing them; hazardous waste; collectible objects in the area of mineralogy and paleontology and fossils; live wild animals, some wild plants, and wild medicinal raw materials; precious metals; unprocessed precious metals, waste and scrap of precious metals, ores and concentrates of precious metals, and raw materials containing precious metals; some minerals; narcotic substances and drugs and psychotropic substances and their precursors; toxic substances; special technical devices; encryption (cryptographic) devices; human organs, tissue, and blood and its components; information on mineral resources indicating areas and deposits of fuel and energy and mineral resources; petroleum and petroleum products; and mineral and chemical fertilizers.

Exports of goods, including to Kazakhstan and Russia, are not subject to VAT and are exempt from excise taxes.
for some goods are established by the following regulatory legal acts: Decree No. 40 of the President of the Republic of Belarus of February 1, 2011, on the Establishment of Export Customs Duty Rates for Raw Hides; Decree No. 716 of the President of the Republic of Belarus of December 31, 2010, on Export Customs Duty Rates; Decree No. 400 of the President of the Republic of Belarus of September 5, 2013, on the Establishment of the Export Customs Duty Rate for Potassium Fertilizers and Additions and Amendments to Decree No. 442 of the President of the Republic of Belarus of October 3, 2011, and to Decree No. 37 of the President of the Republic of Belarus of January 17, 2012; Decree No. 522 of the President of the Republic of Belarus of October 9, 2010, on the Establishment of Export Customs Duty Rates for Timber; Decree No. 272 of the President of the Republic of Belarus of May 21, 2010, on the Establishment of the Export Customs Duty Rate for Canola Seeds.

Proceeds from Invisible Transactions and Current Transfers

Repatriation requirements | Yes.
---|---
Residents are required to complete foreign trade transactions under export contracts within 180 calendar days of the date of shipment of goods (transfer of protected information and exclusive rights to intellectual property), completion of work, and rendering of services. NBRB permission is required if the time exceeds 180 calendar days. Settlements for exports of services are classified as current transactions.

Surrender requirements | No.
---|---
Effective August 3, 2018, pursuant to Decree of the President of the Republic of Belarus No. 301 of July 31, 2018, on Abolition of the Foreign Exchange Surrender Requirement, legal entities and individual entrepreneurs who are residents of the Republic of Belarus are no longer required to surrender foreign exchange in the domestic foreign exchange market.

Previously, proceeds from exports of goods and services and from the sale of goods and services to individuals were subject to surrender requirements.

Surrender to the central bank | No.
Surrender to authorized dealers | No.

Effective August 3, 2018, pursuant to Decree of the President of the Republic of Belarus No. 301 of July 31, 2018, on Abolition of the Foreign Exchange Surrender Requirement, legal entities and individual entrepreneurs who are residents of the Republic of Belarus are no longer required to surrender foreign exchange in the domestic foreign exchange market.

Previously, proceeds from exports of goods and services and from the sale of goods and services to individuals are subject to surrender within seven days of receipt in the bank account in a Belarusian bank. The surrender requirement is 10%. The surrender was conducted mainly through the BCSE at the weighted average exchange rate calculated for transactions completed in performing the surrender of foreign exchange (for transactions involving the
surrender of foreign exchange, all clients within a single bank are offered the same weighted average exchange rate). The OTC exchange rate set by the bank was used when persons performing foreign exchange operations surrendered foreign exchange to a bank in an amount less than the lot established in exchange trading.

**Restrictions on use of funds**

No.

Effective August 3, 2018, pursuant to Decree of the President of the Republic of Belarus No. 301 of July 31, 2018, on Abolition of the Foreign Exchange Surrender Requirement, legal entities and individual entrepreneurs who are residents of the Republic of Belarus are no longer required to surrender foreign exchange in the domestic foreign exchange market.

**References to legal instruments and hyperlinks**

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Capital Transactions**

**Controls on capital transactions**

Yes. Resident individuals are obliged to have the NBRB approval for certain transactions associated with capital movements (hereinafter – capital transactions).

Resident banks (banks) may conduct capital transactions as follows: (1) based on the special NBRB permits (licenses) for carrying out of banking activity; (2) through notification; and (3) freely (no NBRB permission is required).

Effective March 1, 2019, capital transactions of resident legal entities other than banks (herein after – resident legal entities) are carried out as follows: (1) through registration; (2) through notification; (3) freely (no NBRB permission is required).

The registration requirement was set for resident legal entity’s capital transactions that previously were subject to the NBRB approval. (Previously, resident legal entities had to carry out capital transactions as follows: (1) through authorization; (2) through notification; (3) freely (no NBRB permission was required.).

For the most part, resident legal entities perform transactions involving the capital outflow through the registration procedure. For the most part, resident legal entities perform transactions involving capital inflows through the notification procedure or freely.

Registration and notification procedures are similar and used for monitoring purposes. The registration procedure implies that the foreign economic agreement is assigned the registration number of the transaction, while the notification procedure does not imply this.

Effective March 1, 2019, resident legal entities are required to register a transaction with a bank if it involves the acquisition of securities issued by nonresidents and that are recognized as such in accordance with the legislation of foreign states. (Previously, such transactions were subject to the NBRB approval.)

Carrying out of capital transactions by nonresidents does not require application to the NBRB.

**Repatriation requirements**

No. There is no requirement to repatriate and/or surrender proceeds from capital transactions.

**Surrender requirements**

No.

**Surrender to the central bank**

No.

**Surrender to authorized dealers**

No.
The placement of stocks and bonds of foreign issuers within Belarus in accordance with procedures established by law, and of stocks and bonds of Belarusian issuers abroad, is permitted.

Open joint-stock companies of the Republic of Belarus (with the exception of banks, nonbank lending and financial institutions, as well as legal entities that are part of a bank holding company, and legal entities that hold 5% or more of a bank’s shares) have the right to issue and sell shares using foreign depository receipts for the purposes of attracting foreign investments.

The procedure for the issuing securities pursuant to the Republic of Belarus Law on the Securities Market, and for their circulation and redemption is determined by (1) the NBRB, with the approval of the MOF, for NBRB securities, bearer bank savings books, checks, certificates of deposit, and savings certificates; and (2) by the Council of Ministers for other securities.

Registration of issues of issue-grade securities is handled by the MOF main offices serving the provinces (administrative-territorial units) depending on the issuer’s location (with the exception of issuers located in the city of Minsk and Minsk Province), and by the MOF Securities Department, with the exception of government securities, NBRB securities, and legal entities’ exchange-traded bonds.

Government securities and NBRB securities are not subject to state registration.

In accordance with the Republic of Belarus Law on the Securities Market, exchange-traded bonds are bonds denominated in Belarusian rubels and issued in nondocumentary form, of which the placement and circulation are performed only in the trading system of the stock exchange. Exchange-traded bonds are issued by legal entities in accordance with the conditions established by Decree of the President of the Republic of Belarus No. 277 of April 28, 2006, on Certain Issues in the Regulation of the Securities Market (paragraph 1.10 of the Decree). Exchange-traded bonds are registered by the BCSE OJSC following the procedure determined by the Republic of Belarus Council of Ministers (paragraph 15.20 of the Uniform List of Administrative Procedures Performed by Government Authorities and Other Organizations with Respect to Legal Entities and Individual Entrepreneurs, approved by Resolution of the Republic of Belarus Council of Ministers No. 156 of February 17, 2012).

The purchase of shares of Belarusian issuers by nonresidents does not require a license from the NBRB or a license or other permission from the MOF (Securities Department), except that the maximum participation of foreign capital in the banking system of Belarus is 50%. The NBRB terminates state registration of banks whose founders (shareholders) are foreign investors once the maximum has been reached. Foreign exchange legislation does not restrict these transactions; however, NBRB approval is required for transfer of bank shares by residents to nonresidents.

Permission from the MOF is required to transfer shares of Belarusian issuers to a depot loro correspondent account of a nonresident depository that has established a correspondent relationship with the
Republic Central Securities Depository.

Article 18 of the Republic of Belarus Law on the Securities Market of January 5, 2015, states that in the placement of securities, it is prohibited to establish in the issuer’s charter documents and/or in a decision regarding an issue (additional issue) of issue-grade securities a preferential right to acquire securities for certain investors over other investors or another investor, including the establishment of restrictions on the acquisition of issue-grade securities by nonresidents.

Sale or issue locally by nonresidents No.

Nonresidents are not required to have NBRB permission or a certificate of registration for the placement of securities from the Securities Department of the MOF. Effective March 1, 2019, only resident individuals are required to have NBRB approval to purchase such securities from nonresidents. (Previously, such approval was required for all residents.)

According to Article 27 of the Republic of Belarus Law on the Securities Market of January 5, 2015, a procedure was put in place for the placement and circulation of securities issued by nonresidents within the Belarus, which, in accordance with Republic of Belarus MOF Resolution No. 42 of June 13, 2016, includes (1) in the case of the placement of the securities of nonresident issuers: (a) registration by the republic government authority exercising the state regulation of the securities market of the issue prospectus for such securities prepared in one of the state languages of the Republic of Belarus and meeting the requirements established by that authority; (b) the transfer of the issue (or parts of the issue) of issue-grade securities of nonresident issuers for centralized storage in the depository system; (c) assignment to the issue-grade securities of nonresident issuers of an international securities (securities issue) identification code (ISIN code), and international classification of financial instruments code (CFI code); and (d) existence of an agreement defining the procedures for interaction between the republic government authority exercising government regulation of the securities market and the authority (entity) regulating the securities market in the state in which the nonresident issuer was established; and (2) in the case of the circulation of the securities of nonresident issuers: (a) assignment to the issue-grade securities of nonresident issuers of an ISIN code and CFI code; and (b) qualification of the issue-grade securities of nonresident issuers as securities in the Republic of Belarus in accordance with procedures established by the Republic of Belarus Council of Ministers.

The procedures for admission of the securities of nonresident issuers are determined by the MOF. Pursuant to Article 8 of the Law on the Securities Market, the Council of Ministers of the Republic of Belarus specifies the procedures for the qualification of the issue-grade securities of nonresident issuers as securities in Belarus. Pursuant to Article 6 of the Law, placement and circulation of securities of nonresident issuers may only be made on the organized market.

Purchase abroad by residents Yes.

Effective March 1, 2019, only resident individuals are required to have NBRB approval. (Previously, such approval was required for all residents.) Resident legal entities are required to register transactions related to the acquisition of nonresident securities, while banks are required to notify such transactions.

Effective July 23, 2018, in accordance with the Republic of Belarus Law No. 52-Z on Investment Funds of July 17, 2017, the amount of funds used for the acquisition of financial instruments issued by nonresidents of the Republic of Belarus must not exceed 30% of the
value of the assets of a joint-stock investment fund intended for investment, or the assets of a mutual fund.

Purchase abroad by residents
Yes.
Effective March 1, 2019, only resident individuals are required to have NBRB approval. (Previously, such approval was required for all residents.) Resident legal entities are required to register transactions related to the acquisition of nonresident securities, while banks are required to notify such transactions.

Effective July 23, 2018, in accordance with Republic of Belarus Law No. 52-Z on Investment Funds of July 17, 2017, the amount of funds used for the acquisition of financial instruments issued by nonresidents of the Republic of Belarus must not exceed 30% of the value of the assets of a joint-stock investment fund intended for investment, or the assets of a mutual fund.

Sale or issue abroad by residents
No.
NBRB notification is required.

On collective investment securities
Yes.
Effective July 23, 2018, under Law No. 52-Z on Investment Funds of July 17, 2017, it is possible to create two types of investment funds: joint-stock investment funds and mutual funds. Joint-stock investment funds may issue only common (ordinary) shares. The issuing, circulation, and redemption of securities are performed in accordance with the given law, taking into account the specific considerations established by other legislative acts of the Republic of Belarus concerning investment funds.

The procedure for the issuing, circulation, and redemption of investment shares is also established by Republic of Belarus Law No. 52-Z of July 17, 2017, on Investment Funds. Investment shares are subject to state registration, and they are freely traded in the organized or other markets, unless otherwise established by legislative acts. Investment shares are recorded in the depository system.

Purchase locally by nonresidents
No.
Pursuant to Article 10 of Republic of Belarus Law No. 226-Z of July 22, 2003, on Foreign Exchange Regulation and Foreign Exchange Control, NBRB approval is not required for a resident to sell a stake in the authorized capital or a share in the assets of a resident, and also when performing a transaction with a nonresident involving securities issued by residents.

Sale or issue locally by nonresidents
No.
There is no restriction on such transactions by nonresidents. NBRB approval is not required for the sale or issue of collective investment securities by nonresidents in the local market.

Effective March 1, 2019, only resident individuals are required to have NBRB approval to purchase such securities from nonresidents. (Previously, such approval was required for all residents.)

Purchase abroad by residents
Yes.
Resident individuals are required to have NBRB approval. Effective March 1, 2019, resident legal entities may acquire securities issued by nonresidents without NBRB approval. Conduct of such transactions by resident banks requires notification and by resident legal entities requires registration.

Effective July 23, 2018, in accordance with the Republic of Belarus Law on Investment Funds of July 17, 2017, the amount of funds used...
for the acquisition of financial instruments issued by nonresidents of the Republic of Belarus must not exceed 30% of the value of the assets of a joint-stock investment fund intended for investment, or the assets of a mutual fund.

Sale or issue abroad by residents

No. Pursuant to Article 10 of Republic of Belarus Law No. 226-Z of July 22, 2003, on Foreign Exchange Regulation and Foreign Exchange Control, NBRB approval is not required for a resident to sell a stake in the authorized capital or a share in the assets of a resident, and also when performing a transaction with a nonresident involving securities issued by residents.

Controls on derivatives and other instruments

Yes.

Purchase locally by nonresidents

No. NBRB approval is not required. Professional participants in the securities market may engage in derivatives transactions in accordance with rules established by the organizer of securities trade and approved by the republic government authority that exercises government regulation of the securities market.

Sale or issue locally by nonresidents

No. NBRB approval is not required for the sale or issue of derivative securities by nonresidents in the local market. Professional participants in the securities market may engage in derivatives transactions in accordance with rules established by the organizer of securities trade and approved by the republic government authority that exercises government regulation of the securities market.

For the purchase of securities, including derivatives, issued by nonresidents, resident individuals are required to have the NBRB approval.

Effective March 1, 2019, the purchase of nonresident securities by resident legal entities does not require the NBRB approval and is performed in a registration regime, while resident banks perform such transactions in notification regime.

Purchase abroad by residents

Yes. Effective March 1, 2019, only resident individuals are required to have NBRB approval. (Previously, such approval was required for all residents.) Resident legal entities are required to register transactions related to the acquisition of nonresident securities, while banks are required to notify such transactions.

Sale or issue abroad by residents

No. NBRB notification is required.

Controls on credit operations

Yes. Credits and loans are classified as foreign exchange transactions associated with capital movements.

Commercial credits

Yes. NBRB permission is required for the deferral of receipt of proceeds from exports of goods (as well as work and services) more than 180 days; NBRB permission is required for deferral of more than 90 days of receipt of imports of goods (as well as work and services) that have been paid for.

By residents to nonresidents

Yes. Resident individuals are required to have NBRB approval for granting financial loans to nonresidents for a period exceeding 180 days. Banks, nonbank lending institutions, and, effective March 1, 2019, resident legal entities are not required to have NBRB approval. Resident banks and legal entities neither need notification nor
registration of such transactions.

Banks, nonbank lending institutions, and, effective March 1, 2019, resident legal entities and individuals are not required to have NBRB approval.

Previously, resident legal entities and individuals were required to have the NBRB approval for loans (credit) if one of the following conditions was present: (1) The interest rate was higher than 14% for loans in US dollars or euros or exceeded by more than 5% the CB refinancing rate for other currencies. (2) The loan was to be used to pay the monetary obligations of a resident borrower, bypassing the resident’s account. (3) Repayment was made from a source other than the resident borrower’s account. (4) The loan was from a resident of an offshore zone. (5) The interest rate on the loan and the total amount of penalties and/or fines exceeded 3.65% a year. (6) The credit agreement with a nonresident nonbank lender established an obligation to make additional payments (other than those under Point (5) above). For other loans and credits, NBRB notification was required.

Guarantees, sureties, and financial backup facilities

To residents from nonresidents No.

By residents to nonresidents No. Resident banks, nonbank lending institutions, and, effective March 1, 2019, resident legal entities and individuals are not required to have NBRB approval for the provision of guarantees and sureties to nonresidents. Such transactions by resident legal entities need registration only.

To residents from nonresidents No. NBRB notification is required.

Controls on direct investment Yes.

Outward direct investment Yes. Effective March 1, 2019, only resident individuals are required to have NBRB approval. (Previously, such approval was required for all residents.) Resident legal entities are required to register transactions related to investing abroad; banks are required to notify such transactions.

Inward direct investment Yes. NBRB permission is not required. Foreign investments must be registered with the relevant local governments. Financial institutions must also register them with the NBRB. Insurance institutions, including those with foreign investments, must also be registered with the MOF. Certain activities require special approval (a license). When establishing an enterprise with foreign investment, the proportion of a foreign investor’s share is not restricted. Foreign investors’ share in the authorized capital of all insurance organizations may not exceed 30%. If that figure is exceeded, the MOF terminates the registration of insurance organizations with the participation of foreign investors and/or issues special permits (licenses) to such organizations to perform insurance activities. The maximum participation of foreign capital in the banking system of Belarus is 50%. The NBRB terminates the state registration of banks whose founders (shareholders) are foreign investors once the maximum has been reached. Foreign exchange legislation does not restrict these transactions; however, NBRB approval is required for transfers of bank shares by residents to nonresidents.

Controls on liquidation of direct investment No.

Controls on real estate transactions Yes.

Purchase abroad by residents Yes. Effective March 1, 2019, only resident individuals are required to have NBRB approval. (Previously, such approval was required for all residents.) Resident legal entities are required to register transactions
related to the acquisition of real estate abroad; banks are required to notify such transactions

Purchase locally by nonresidents  No.  NBRB notification is required.

Sale locally by nonresidents  No.

Controls on personal capital transactions  Yes.

Loans

By residents to nonresidents  Yes.  NBRB permission is required for terms of over 180 days.

To residents from nonresidents  No.

Gifts, endowments, inheritances, and legacies

By residents to nonresidents  No.

To residents from nonresidents  Yes.  Registration with the Department of Humanitarian Affairs under the Office of the President of the Republic of Belarus is required. This requirement was rescinded with respect to foreign gratuitous aid obtained by individuals. Registration is required both for statistical purposes and as a control measure for the receipt and designated use of aid.

Settlement of debts abroad by immigrants  No.

Transfer of assets  No.

Transfer abroad by emigrants  No.

Transfer into the country by immigrants  No.

Transfer of gambling and prize earnings  No.

References to legal instruments and hyperlinks

Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions  Yes.  Banks and nonbank financial and lending institutions with an appropriate banking license may purchase and sell foreign exchange. Banks may perform these transactions without restriction within the limits of their open foreign exchange position. A banking license is required to engage in banking operations.

Borrowing abroad  No.

Maintenance of accounts abroad  No.  Effective March 1, 2019, the NBRB approval is not required. Previously, the NBRB approval was required to open accounts for the maintenance of representative offices and branches of banks.

Lending to nonresidents (financial or commercial credits)  No.

Lending locally in foreign exchange  Yes.  Banks are not allowed to lend in foreign currency to individuals. The requirement with regard to lending to individuals in Belarusian rubels only is established in the Instruction on the Procedure for Providing Funds in the Form of Credit and their Return (Repayment), approved by NBRB Executive Board Resolution No. 149 of March 29, 2018, and also in Article 150 of the Banking Code of the Republic of Belarus. There are no restrictions on making loans in foreign currency to legal entities and individual entrepreneurs.

outside the Republic of Belarus and the participation by resident banks in the authorized capital of foreign banks; and (4) transfers to nonresidents based on commitments involving a resident’s purchase of real estate abroad. These are prudential regulation requirements (except for item (4)).

In keeping with memoranda of understanding (agreements) on banking supervision between the NBRB and the banking supervisors of individual countries, the parties may provide information regarding a potential investor, report on the issuing of licenses to open subsidiary banks and permits to participate in authorized capital of banks, and share other information.

**In banks by nonresidents** Yes. The maximum participation of foreign capital in the banking system of Belarus is 50%. The NBRB terminates the state registration of banks whose founders (shareholders) are foreign investors once the maximum has been reached.

Foreign exchange legislation does not restrict these transactions; however, NBRB permission is required in the following cases: (1) acquisition of ownership, administrative control, operational management, or receipt in trust of 5% or more of shares in the authorized capital of a bank as a result of one or more transactions by one legal entity or individual, including a shareholder of the bank, by a group of individuals and/or legal entities connected by an agreement, or by a group of subsidiary or dependent legal entities, as well as all subsequent acquisitions of bank shares by said persons; and (2) an increase in the authorized capital of a bank as a result of funds provided by nonresidents and/or the transfer of bank shares by a resident shareholder to a nonresident.

**Open foreign exchange position limits** Yes. The following limits are set for open foreign exchange positions: (1) the overall open position for all foreign currencies and precious metals in the form of bank bullion, revalued mint bullion, and revalued coins may not exceed 10% of the bank’s regulatory capital; (2) the net open position for each foreign currency and precious metal in the form of bank bullion, revalued mint bullion, and revalued coins may not exceed 10% of a bank’s regulatory capital; (3) the net open position for forward transactions for each foreign currency and precious metal in the form of bank bullion, revalued mint bullion, and revalued coins individually may not exceed 10% of a bank’s regulatory capital. The forward part of swap transactions is not considered in the calculation of this restriction. Limits are calculated generally by type of foreign currency or precious metal in the form of bank bullion, revalued mint bullion, and revalued coins, regardless of whether assets or liabilities apply to a resident or nonresident.

**On resident assets and liabilities** Yes. Limits are calculated generally by the type of foreign currency and precious metal in the form of bank bullion, revalued mint bullion, and revalued coins, regardless of whether assets or liabilities apply to a resident or nonresident.

**On nonresident assets and liabilities** Yes. Limits are calculated generally by the type of foreign currency and precious metal in the form of bank bullion, revalued mint bullion, and revalued coins, regardless of whether assets or liabilities apply to a resident or nonresident.

**Provisions specific to institutional investors** Yes. Limits may be established by the Council of Ministers and the NBRB.

**Insurance companies** Yes. Insurance companies must obtain permission from the MOF to increase their authorized capital using funds from foreign investors and/or insurance organizations that are subsidiaries of those foreign investors, and to transfer shares (interest in the authorized capital) to foreign investors and/or insurance organizations that are subsidiaries of those foreign investors. The share of foreign investors in the
authorized capital of all insurance organizations must not exceed 30%.
If that maximum is exceeded, the MOF terminates the registration of insurance organizations with the participation of foreign investors and/or issues these organizations special permits (licenses) to perform insurance activities.

*Insurance laws do not establish any quantitative limits on the purchase by Belarusian insurance companies of securities issued by nonresidents. But insurance laws establish the following restrictions and requirements:
(1) Belarusian state-owned insurance organizations and insurance organizations in which the state holds a stake in the authorized capital equal to more than 50% may not purchase securities issued by nonresidents at all (either at the expense of insurance reserves or at the expense of their own funds), except for participation in the establishment of insurance organizations and (or) insurance brokers outside Belarus and/or the acquisition of interests (shares) in the authorized capital of such organizations (these should be carried out with the permission of the MOF); (2) Belarusian private insurance organizations may purchase securities issued by nonresidents at the expense of their own funds that are unencumbered and not subject to legislative requirements (for example, minimum authorized capital funds are placed in accounts at Republic of Belarus banks), in compliance with the principle of diversification.*

*There are no quantitative restrictions on the portfolio of investments abroad.
However, the establishment by insurance companies or insurance brokers of separate subdivisions outside Belarus, participation in the establishment of insurance companies and/or insurance brokers outside Belarus, or the acquisition of an interest (shares) in the authorized capital of such organizations requires MOF permission.*

*There are no pension funds acting as institutional investors in Belarus. This circumstance is because of the distributive pension system in the Republic of Belarus, which does not provide for an accumulative tier in the form of pension funds. In the event of a reform of the pension system and the creation of pension funds becomes possible, their creation and functioning will be carried out in accordance with the Law on Investment Funds of July 17, 2017, taking into consideration potential specific features established for such funds by legislative acts.*

*The activities of brokers, dealers, depositories, trustees, clearinghouses, and organizers of securities trading are overseen by the MOF (Securities Department).*

*Under a banking license, banks may provide services related to the trust management of money (individual investments) and trust...*
management of bank management funds (collective investments).

Effective July 23, 2018, Republic of Belarus Law No. 52-Z on Investment Funds of July 17, 2017, provides for the possibility of creating two types of investment funds: joint-stock investment funds and mutual funds. (Previously, there were no legal regulatory acts governing the operation of investment funds.) The organization managing the assets of an investment fund may be a commercial company that has been created in accordance with the legislation of the Republic of Belarus and has gone through the state accreditation process. A specialized depository is a commercial company or unitary enterprise that has been created in accordance with the legislation of the Republic of Belarus and has gone through the state accreditation process.

The Republic of Belarus Council of Ministers establishes the procedure for the registration of rules governing mutual funds; it establishes the procedure for the state accreditation process, as well as the procedure and grounds for the suspension, renewal, and termination of state accreditation for operating as a management company and state accreditation for operating as a specialized depository; it establishes the procedure for the state registration of investment shares; and it exercises other authority related to the state regulation of relations involving investment funds.

State accreditation for operating as an investment fund management company is performed by the Republic of Belarus MOF following the procedure defined under item 15.27 of the Uniform List of Administrative Procedures Performed by Government Authorities and Other Organizations with respect to Legal Entities and Individual Entrepreneurs, approved by Republic of Belarus Council of Ministers Resolution No. 156 of February 17, 2012.

Effective July 1, 2018, the Regulation on the Financing of Commercial Organizations against a Concession of Rights (Claims) at the Expense of Funds Attracted through a Bond Issue, or with a Subsequent Bond Issue, approved by Decree of the President of the Republic of Belarus No. 154 of May 11, 2017, introduced the concept of a special financial institution (SFI). An SFI is a joint-stock company created for the performance of securitization operations. An SFI is prohibited from performing any entrepreneurial activity other than securitization operations and transactions involving the acquisition of financial assets during the period that bonds are in circulation (at the expense of temporarily available funds that are part of the assets that have been allocated), as well as transactions involving the conveyance of said financial assets.

A SFI has the right to attract borrowed funds, including credits, for the acquisition of rights (claims) and for the payment of expenses related to a subsequent bond issue, for a term up to the day on which the bond placement ends, in an amount that does not exceed the cost of the rights (claims) acquired and the expenses related to the subsequent bond issue.

Limits (max.) on securities issued by nonresidents

| Limits (max.) on securities issued by nonresidents | Yes. |

There are no restrictions on nonbank professional participants or investment funds’ management companies. Effective July 23, 2018, the amount of funds used for the acquisition of financial instruments issued by nonresidents of the Republic of Belarus must not exceed 30% of the value of the assets of a joint-stock investment fund intended for investment, or the assets of a mutual fund.

Limits (max.) on investment portfolio

Changes during 2018 and 2019

Exchange Arrangement

Classification

Floating 08/01/2018 Because the NBRB has not followed a currency basket since August 2018, the de facto exchange rate arrangement has been reclassified to floating from other managed.

Monetary policy framework

Monetary aggregate target 01/01/2018 The operational target of the monetary policy has been changed from rubel base money to one-day interbank interest rate in the domestic currency.

Foreign exchange market

04/11/2018 The requirement for resident legal entities to resell unused foreign exchange previously purchased on the foreign exchange market was eliminated.

08/03/2018 The Decree of the President of the Republic of Belarus No. 301 of July 31, 2018, “On the abolition of the mandatory sale of foreign currency” abolished the requirement on the mandatory sale on the domestic foreign exchange market by legal entities and individual entrepreneurs who are residents of the Republic of Belarus and a part of the proceeds in foreign currency.

Spot exchange market

04/11/2018 Pursuant to the Instruction on the Procedure for the Performance of Foreign Exchange Transactions Involving Legal Entities and Individual Entrepreneurs (as amended by the NBRB Executive Board Resolution No. 538 of December 28, 2017), the majority of controls that applied to the purchase of foreign exchange by legal entities and individual entrepreneurs were eliminated (for example, the limited time period for the use of purchased foreign exchange, residents’ special accounts, the documentation requirement, mandatory use of purchased foreign exchange for the stated purpose). Resident legal entities and individual entrepreneurs may buy foreign exchange for any current or capital transaction based on a request (or a payment order for transfer with purchase, if appropriate) submitted to any local bank. No supporting documentation (for example, contracts, NBRB approvals, etc.) is required for the purchase of foreign exchange. The purchased foreign exchange is credited to the resident’s foreign exchange current account with the local bank and may be kept there for an unlimited period of time until the foreign exchange is used. Also, a resident is free to use the purchased foreign exchange for a purpose other than that indicated in the request submitted to the bank, and no additional notification of the bank is required.

Arrangements for Payments and Receipts
Prescription of currency requirements
Controls on the use of domestic currency

For capital transactions 03/01/2019 Approval requirement for resident legal entities to perform transactions involving the export of capital was eliminated.

Transactions in capital and money market instruments 03/01/2019 Approval requirement for resident legal entities to perform transactions involving the export of capital was eliminated.

Transactions in derivatives and other instruments 03/01/2019 Approval requirement for resident legal entities to perform transactions involving the export of capital was eliminated.

Credit operations 03/01/2019 Approval requirement for resident legal entities to perform transactions involving the export of capital was eliminated.

Resident Accounts

Foreign exchange accounts permitted
Held abroad 03/01/2019 Resident individuals may open accounts at nonresident banks without approval from the NBRB.

Approval required 03/01/2019 Resident individuals and banks may open accounts at nonresident banks without the NBRB approval. Previously, the NBRB approval was required for (1) opening by banks of accounts with nonresident banks for the maintenance of representative offices or other structural subdivisions and for (2) resident individuals other than those residing abroad.

Accounts in domestic currency held abroad 03/01/2019 NBRB approval is no longer required for resident legal entities (other than banks) to open accounts of their representative offices with nonresident banks. Previously, NBRB approval was not required for such accounts opened with banks of Eurasian Economic Union (EAEU) member countries in the domestic currency of the EAEU member on whose territory the account of the representative office was opened.

Accounts in domestic currency convertible into foreign currency 04/11/2018 Resident individuals and banks are not required to have the NBRB approval to open accounts in the domestic currency at nonresident banks. Previously, they could open such accounts with the NBRB approval, which determined the procedures/conditions for use of an account.

Pursuant to the Instruction on the Procedure for the Performance of Foreign Exchange Transactions Involving Legal Entities and Individual Entrepreneurs (as amended by the NBRB Executive Board Resolution No. 538 of December 28, 2017), the majority of controls that applied on the purchase of foreign exchange by legal entities and individual entrepreneurs were eliminated (for example, the limited time period for the use of purchased foreign exchange, residents’ special accounts, the documentation requirement, mandatory use of purchased foreign exchange for the stated purpose). Resident legal entities and individual entrepreneurs may buy foreign exchange for any current or capital transaction based on a request (or a payment order for transfer with purchase, if appropriate) submitted to any local bank. No supporting documentation (for example, contracts, NBRB approvals etc.) is required for the purchase of foreign exchange. The purchased foreign exchange is credited to the resident foreign exchange current account opened with the local bank and may be kept there for unlimited period of time until the foreign exchange is used. Also, resident is free to use the purchased foreign exchange for a purpose other than that indicated in the request submitted to the bank and no additional notification of the bank is required.

Nonresident Accounts
Nonresident legal entities may open in Belarusian rubels current (settlement) accounts of any type. Previously, nonresident legal entities could open type T (settlement) and type S (investment in government securities) accounts. T account transactions were free of restriction, regardless of the type of transaction (including transactions involving the purchase and sale of foreign exchange). Funds in S accounts were used for investment in securities, payment of expenditures associated with securities investments, payment of taxes and fees, and currency exchange transactions. In all other instances, use of type S account funds required the NBRB permission.

The use of funds on accounts of nonresident legal entities does not require NBRB approval. Previously, the use of nonresident legal entities’ type S account funds required the NBRB permission in all instances other than for investment in securities, payment of expenditures associated with securities investments, payment of taxes and fees, and currency exchange transactions.

Exports and Export Proceeds

Surrender requirements

Pursuant to Decree of the President of the Republic of Belarus No. 301 of July 31, 2018, on Abolition of the Foreign Exchange Surrender Requirement, legal entities and individual entrepreneurs who are residents of the Republic of Belarus are no longer required to surrender foreign exchange in the domestic foreign exchange market.

Proceeds from Invisible Transactions and Current Transfers

Repatriation requirements

Pursuant to the Decree of the President of the Republic of Belarus No. 301 of July 31, 2018, on Abolition of the Foreign Exchange Surrender Requirement, legal entities and individual entrepreneurs who are residents of the Republic of Belarus are no longer required to surrender foreign exchange in the domestic foreign exchange market.

Surrender to authorized dealers

Pursuant to the Decree of the President of the Republic of Belarus No. 301 of July 31, 2018, on Abolition of the Foreign Exchange Surrender Requirement, legal entities and individual entrepreneurs who are residents of the Republic of Belarus are no longer required to surrender foreign exchange in the domestic foreign exchange market.

Restrictions on use of funds

Pursuant to the Decree of the President of the Republic of Belarus No. 301 of July 31, 2018, on Abolition of the Foreign Exchange Surrender Requirement, legal entities and individual entrepreneurs who are residents of the Republic of Belarus are no longer required to surrender foreign exchange in the domestic foreign exchange market.

Capital Transactions

Controls on capital transactions

Resident legal entities are required to register a transaction with a bank if it involves the acquisition of securities issued by nonresidents and that are recognized as such in accordance with the legislation of foreign states. Previously, such transactions were subject to the NBRB approval.

Capital transactions of resident legal entities other than banks are carried out as follows: (1) through registration; (2) through notification; (3) freely (no NBRB permission is required). The registration requirement was set for resident legal entity’s capital transactions that previously were subject to the NBRB approval. Previously, resident legal entities had to carry out capital transactions
as follows: (1) through authorization; (2) through notification; (3) freely (no NBRB permission was required).

For the most part, resident legal entities perform transactions involving the capital outflow through the registration procedure. For the most part, resident legal entities perform transactions involving capital inflows through the notification procedure or freely.

Controls on capital and money market instruments

On capital market securities

Shares or other securities of a participating nature

Sale or issue locally by nonresidents 03/01/2019

Only resident individuals are required to have NBRB approval to purchase securities from nonresidents. Previously, such approval was required for all residents.

Purchase abroad by residents 07/23/2018

In accordance with the Republic of Belarus Law on Investment Funds of July 17, 2017, the amount of funds used for the acquisition of financial instruments issued by nonresidents of the Republic of Belarus must not exceed 30% of the value of the assets of a joint-stock investment fund intended for investment, or the assets of a mutual fund.

03/01/2019

Only resident individuals are required to have NBRB approval for the acquisition of nonresident securities. Previously, such approval was required for all residents. Resident legal entities are required to register transactions related to the acquisition of nonresident securities, while banks are required to notify such transactions.

Bonds or other debt securities

Sale or issue locally by nonresidents 03/01/2019

Only resident individuals are required to have NBRB approval to purchase securities from nonresidents. Previously, such approval was required for all residents.

Purchase abroad by residents 07/23/2018

In accordance with the Republic of Belarus Law on Investment Funds of July 17, 2017, the amount of funds used for the acquisition of financial instruments issued by nonresidents of the Republic of Belarus must not exceed 30% of the value of the assets of a joint-stock investment fund intended for investment, or the assets of a mutual fund.

03/01/2019

Only resident individuals are required to have NBRB approval for the acquisition of nonresident securities. Previously, such approval was required for all residents. Resident legal entities are required to register transactions related to the acquisition of nonresident securities, while banks are required to notify such transactions.

On money market instruments

Sale or issue locally by nonresidents 03/01/2019

Only resident individuals are required to have NBRB approval to purchase securities from nonresidents. Previously, such approval was required for all residents.

Purchase abroad by residents 07/23/2018

In accordance with the Republic of Belarus Law on Investment Funds of July 17, 2017, the amount of funds used for the acquisition of financial instruments issued by nonresidents of the Republic of Belarus must not exceed 30% of the value of the assets of a joint-stock investment fund intended for investment, or the assets of a mutual fund.

03/01/2019

Only resident individuals are required to have NBRB approval for the acquisition of nonresident securities. Previously, such approval was required for all residents. Resident legal entities are required to register transactions related to the acquisition of nonresident securities, while banks are required to notify such transactions.

On collective investment securities 07/23/2018

Under the Law on Investment Funds of July 17, 2017, it is possible to create two types of investment funds: joint-stock investment funds...
and mutual funds. Joint-stock investment funds may issue only common (ordinary) shares.

The issuing, circulation, and redemption of securities are performed in accordance with the given law, taking into account the specific considerations established by other legislative acts of the Republic of Belarus concerning investment funds.

The procedure for the issuing, circulation, and redemption of investment shares is also established by the Republic of Belarus Law on Investment Funds of July 17, 2017. Investment shares are subject to state registration, and they are freely traded in the organized or other markets, unless otherwise established by legislative acts. Investment shares are recorded in the depository system.

### Sale or issue locally by nonresidents
- **03/01/2019**
- Only resident individuals are required to have NBRB approval to purchase such securities from nonresidents. Previously, such approval was required for all residents.

### Purchase abroad by residents
- **07/23/2018**
- In accordance with the Republic of Belarus Law on Investment Funds of July 17, 2017, the amount of funds used for the acquisition of financial instruments issued by nonresidents of the Republic of Belarus must not exceed 30% of the value of the assets of a joint-stock investment fund intended for investment, or the assets of a mutual fund.
- **03/01/2019**
- Only resident individuals are required to have NBRB approval to acquire securities issued by nonresidents. Resident legal entities may acquire securities issued by nonresidents without NBRB approval. Conduct of such transactions by resident banks requires notification and by resident legal entities requires registration.

### Controls on derivatives and other instruments
#### Sale or issue locally by nonresidents
- **03/01/2019**
- For the purchase of securities, including derivatives, issued by nonresidents, only resident individuals are required to have the NBRB approval. The purchase of nonresident securities by resident legal entities does not require the NBRB approval and is performed in a registration regime, while resident banks perform such transactions in notification regime.

#### Purchase abroad by residents
- **03/01/2019**
- Only resident individuals are required to have NBRB approval the acquisition of nonresident securities. Previously, such approval was required for all residents. Resident legal entities are required to register transactions related to the acquisition of nonresident securities, while banks are required to notify such transactions.

### Controls on credit operations
#### Financial credits
- **03/01/2019**
- Resident legal entities are no longer required to have NBRB approval for granting financial loans to nonresidents. They neither need notification nor registration of such transactions.

- **03/01/2019**
- Resident legal entities and individuals are no longer required to have NBRB approval for borrowing from nonresidents. Previously, the NBRB approval was required for loans (credit) if one of the following conditions was present: (1) The interest rate was higher than 14% for loans in US dollars or euros or exceeded by more than 5% the CB refinancing rate for other currencies. (2) The loan was to be used to pay the monetary obligations of a resident borrower, bypassing the resident’s account. (3) Repayment was made from a source other than the resident borrower’s account. (4) The loan was from a resident of an offshore zone. (5) The interest rate on the loan and the total amount of penalties and/or fines exceeded 3.65% a year. (6) The credit agreement with a nonresident nonbank lender established an obligation to make additional payments (other than those under Point (5) above). For other loans and credits, NBRB
Guarantees, sureties, and financial backup facilities
By residents to nonresidents

03/01/2019

Resident legal entities and individuals are no longer required to have NBRB approval for the provision of guarantees and sureties to nonresidents. Such transactions by resident legal entities need registration only.

Controls on direct investment

Outward direct investment

03/01/2019

Only resident individuals are required to have NBRB approval for outward direct investment. Previously, such approval was required for all residents. Resident legal entities are required to register transactions related to investing abroad; banks are required to notify such transactions.

Controls on real estate transactions

Purchase abroad by residents

03/01/2019

Only resident individuals are required to have NBRB approval for the acquisition of real estate abroad. Previously, such approval was required for all residents. Resident legal entities are required to register transactions related to the acquisition of real estate abroad; banks are required to notify such transactions.

Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions

Maintenance of accounts abroad

03/01/2019

The NBRB approval is not required for account abroad by banks. Previously, the NBRB approval was required to open accounts for the maintenance of representative offices and branches of banks.

Differential treatment of deposit accounts in foreign exchange

Reserve requirements

01/01/2018

Reserve requirements for funds attracted in foreign exchange were raised to 17% from 15%, while for funds attracted in domestic currency the ratio remained unchanged at 4%.

Liquid asset requirements

01/01/2018

The LCR and the NSFR, as provided for by the Basel III system standards, were introduced as safe and sound functioning requirements. The value of each ratio is at least 100%.

Provisions specific to institutional investors

Investment firms and collective investment funds

07/01/2018

The Regulation on the Financing of Commercial Organizations against a Concession of Rights (Claims) at the Expense of Funds Attracted through a Bond Issue, or with a Subsequent Bond Issue, approved by Decree of the President of the Republic of Belarus No. 154 of May 11, 2017, introduced the concept of a special financial institution (SFI). An SFI is a joint-stock company created for the performance of securitization operations. An SFI is prohibited from performing any entrepreneurial activity other than securitization operations and transactions involving the acquisition of financial assets during the period that bonds are in circulation (at the expense of temporarily available funds that are part of the assets that have been allocated), as well as transactions involving the conveyance of said financial assets.

An SFI has the right to attract borrowed funds, including credits, for the acquisition of rights (claims) and for the payment of expenses related to a subsequent bond issue, for a term up to the day on which the bond placement ends, in an amount that does not exceed the cost of the rights (claims) acquired and the expenses related to the subsequent bond issue.
The Republic of Belarus Law on Investment Funds of July 17, 2017, provides for the possibility of creating two types of investment funds: joint-stock investment funds and mutual funds (previously, there were no legal regulatory acts governing the operation of investment funds). The organization managing the assets of an investment fund may be a commercial company that has been created in accordance with the legislation of the Republic of Belarus and has gone through the state accreditation process. A specialized depository is a commercial company or unitary enterprise that has been created in accordance with the legislation of the Republic of Belarus and has gone through the state accreditation process.

The Republic of Belarus Council of Ministers establishes the procedure for the registration of rules governing mutual funds; it establishes the procedure for the state accreditation process, as well as the procedure and grounds for the suspension, renewal, and termination of state accreditation for operating as a management company and state accreditation for operating as a specialized depository; it establishes the procedure for the state registration of investment shares; and it exercises other authority related to the state regulation of relations involving investment funds.

State accreditation for operating as an investment fund management company is performed by the Republic of Belarus MOF following the procedure defined under item 15.27 of the Uniform List of Administrative Procedures Performed by Government Authorities and Other Organizations with respect to Legal Entities and Individual Entrepreneurs, approved by Republic of Belarus Council of Ministers Resolution No. 156 of February 17, 2012.

The amount of funds used for the acquisition of financial instruments issued by nonresidents of the Republic of Belarus must not exceed 30% of the value of the assets of a joint-stock investment fund intended for investment, or the assets of a mutual fund.

With regard to investment funds, the amount of funds used for the acquisition of financial instruments issued by nonresidents of the Republic of Belarus must not exceed 30% of the value of the assets of a joint-stock investment fund intended for investment, or the assets of a mutual fund.

Exchange Measures

Restrictions and/or multiple currency practices
No.

Exchange measures imposed for security reasons
Yes.

In accordance with IMF Executive Board Decision No. 144-(52/51)
Yes. In accordance with EU Council regulations, certain restrictions are maintained on payments and transfers for current international transactions. These include the freezing of funds and economic resources of natural and legal persons, entities, and groups. Restrictions have been imposed on Afghanistan; Belarus; Burma (Myanmar); Burundi; the Central African Republic; the Democratic Republic of the Congo; persons identified as responsible for the misappropriation of Egyptian government funds, and natural or legal persons, entities, and bodies associated with them; certain persons, entities, and bodies in Eritrea; Guinea (Conakry); Guinea-Bissau; certain persons, entities, and bodies in the Islamic Republic of Iran and persons responsible for serious human rights violations there and persons, entities, and bodies associated with them; certain persons and entities in Iraq; the Democratic People’s Republic of Korea (as amended); Lebanon; certain persons, entities, and bodies in Libya (as amended); Mali; Russia; Somalia; South Sudan; Sudan; persons responsible for the violent repression against the civilian population in Syria and persons, entities, and bodies associated with them; persons responsible for misappropriation of Tunisian government funds and natural or legal persons or entities associated with them; Ukraine; Venezuela; Yemen; Zimbabwe; and persons and entities associated with the Al-Qaida network and certain other persons, groups, and entities, with a view to combating terrorism (as amended).

In accordance with EU Council regulations, sanctions with respect to Côte d’Ivoire were repealed.
In accordance with EU Council regulations, sanctions with respect to Liberia were repealed.
In accordance with EU Council regulations, sanctions with respect to Republic of Maldives were repealed.

Other security restrictions
No.

No separate legal tender
Currency board
Conventional peg
Stabilized arrangement
Crawling peg
Crawl-like arrangement
Pegged exchange rate within horizontal bands
Other managed arrangement

Floating

Free floating  Yes.  The exchange rate arrangement of the euro area is free floating. Belgium participates in a currency union (EMU) with 18 other members of the EU and has no separate legal tender. The euro, the common currency, floats freely and independently against other currencies. The ECB publishes information regarding its interventions; it last intervened in March 2011. When it intervenes, the ECB intervenes at the quotes of the market makers.

Official exchange rate  Yes.  The ECB publishes reference rates based on the daily concertation procedure between CBs within and outside the European System of Central Banks, which normally takes place at 2:15 p.m. Central European Time. On July 1, 2016, the ECB changed the publication time of the euro foreign exchange reference rates (ECB reference rates) from around 2:30 p.m. Central European Time to around 4:00 p.m. Central European Time. The reference rates against the euro are the average of the buying and selling rates. The publication regime aims to reinforce the distinction between exchange rate fixings used as benchmarks for transaction purposes and the ECB reference rates that are published for information purposes only.

Monetary policy framework

Exchange rate anchor

U.S. dollar
Euro
Composite
Other

Monetary aggregate target

Inflation-targeting framework
To maintain price stability is the primary objective of the Eurosystem and of the single monetary policy for which it is responsible. This is stated in the Treaty on the Functioning of the European Union, Article 127(1). “Without prejudice to the objective of price stability,” the Eurosystem will also “support the general economic policies in the Community with a view to contributing to the achievement of the objectives of the Community.” These include a “high level of
employment” and “sustainable and non-inflationary growth.” Price stability is defined as an inflation rate below but close to 2% over the medium term.

Exchange tax No.
Exchange subsidy No.
Foreign exchange market Yes. ADs may freely determine their exchange rates and foreign exchange commissions in transactions with their clients.
Spot exchange market Yes. Foreign exchange bureaus are subject to licensing by the Financial Services and Market Authority (FSMA). As of end-2018, there were 7 foreign exchange bureaus authorized by the FSMA. The foreign exchange bureaus can make foreign exchange transactions directly with the CB. The type of transactions foreign exchange bureaus can effect is limited to spot exchange transactions.

Operated by the central bank No.
Foreign exchange standing facility No.
Allocation No.
Auction No.
Fixing No.
Interbank market Yes. There are no limits on the bid-ask spreads and commissions of market participants.
Over the counter Yes. The foreign exchange market operates over the counter.
Brokerage n.a.
Market making Yes. The interbank foreign exchange market operates on the basis of a market-making agreement, under which participants commit to a maximum spread and a minimum amount to trade.
Forward exchange market Yes. Banks may engage in spot and forward exchange transactions in any currency, and they may deal among themselves and with residents and nonresidents in foreign notes and coins. The National Bank of Belgium conducts operations in the foreign exchange spot and forward exchange market within the framework of the management of its foreign reserves, client relationships, and obligations vis-à-vis international organizations.

Official cover of forward operations No.

Arrangements for Payments and Receipts

Prescription of currency requirements No.
Controls on the use of domestic currency No. For anti-money-laundering reasons, real estate may be paid for only with a bank transfer or check. Regardless of the total amount, no payment or donation may be made or received in cash for an amount above EUR 3,000 of its equivalent in another currency, as part of one or several transactions that seem to be related. Except in case of public auction under the supervision of a bailiff, a person who is not a consumer may not pay any amount in cash when buying old metal, copper cables, or goods containing precious materials from another person, unless these precious materials are only present in small quantities and only because of their necessary
physical properties. By way of derogation from subparagraph 2, a person who is not a consumer may only pay an amount of up to EUR 500 in cash when buying old metals or goods containing precious materials from a person who is a consumer, unless these precious materials are only present in small quantities and only because of their necessary physical properties. In this case, these persons must identify and register the person who presents himself or herself with metals or goods containing precious materials.

The provision laid down in the first subparagraph does not apply to:
(1) the sale of real property, referred to in Article 66;
(2) transactions between consumers;
(3) the obliged entities referred to in Article 5, § 1, 1, 3, 4, 6, 7, 10, and 16, as well as other natural persons when they carry out transactions with these entities.

When the submitted accounting documents, including bank statements, do not enable to determine how payments or donations have been made or received, these are presumed to have been carried out or received in cash.

Subject to evidence to the contrary, any payment or donation in cash is presumed to be made on Belgian territory, and therefore subject to the provisions of this article when at least one of the parties resides or conducts an activity in Belgium.

For current transactions and payments No.

For capital transactions No.

Transactions in capital and money market instruments No.

Transactions in derivatives and other instruments No.

Credit operations No.

Use of foreign exchange among residents No.

Payments arrangements No.

Bilateral payments arrangements No.

Operative No.

Inoperative No.

Regional arrangements No.

Clearing agreements No.

Barter agreements and open accounts No.

Administration of control No.

Payments arrears No.

Official No.

Private No.

Controls on trade in gold (coins and/or bullion) No.

On domestic ownership and/or trade No.
On external trade

<table>

<tbody>
<tr>
<td>In accordance with Regulation (EU) No. 2018/1672, cash controls have been implemented based on a mandatory declaration system for amounts of cash entering or leaving the EU with a value of €10,000 or more. Travelers entering or leaving the EU and carrying more than €10,000 are required to make a declaration to the relevant authorities of the member country through which they enter or leave the EU. The authorities must keep a record of such information and report it to their national financial intelligence unit. The obligation to declare is not fulfilled if the traveler makes no declaration or if the information provided is incorrect or incomplete. To check compliance with the regulation, the national authorities have the right to search natural persons, their baggage, and their means of transportation. In the event of failure to comply with the declaration obligation or suspicions of money laundering/terrorism financing, cash may be confiscated or retained administratively for a period of time between 30 and 90 days. The EC regulation requires member countries to impose effective, dissuasive, and proportionate penalties for failure to comply with the declaration obligation. If there are indications that cash is related to illegal activity, authorities of one member country may exchange information with authorities in other member countries. Under the framework of existing agreements on mutual administrative assistance, information obtained under the EC regulation may also be communicated to a third country in compliance with relevant national and EU provisions on the transfer of personal data to third countries. A similar mandatory declaration system exists when cash with a value of €10,000 or more is entering or leaving the EU non-accompanied. The EC regulation does not apply to physical cross-border transportation from one EU member country to another (that is, intra-EU transportation). Such transportation is not considered “cross-border” for the purposes of the EC regulation; the EC regulation only harmonizes the system for the EU’s external borders. However, the Royal Decree of January 26, 2014, implemented an obligation to declare physical cross-border transportation of cash from one EU member country to another at the request of an appropriate authority (mainly the Customs and Excise Administration).</td>

**Resident Accounts**

| Foreign exchange accounts permitted | Yes. |
| Held domestically | Yes. |
| Approval required | No. |

Balances may be freely transferred abroad.
Held abroad: Yes. Controls apply to deposits held with financial institutions not supervised by the authorities of an EU country if these deposits are to form part of the cover of the technical reserves of an insurance company or of the assets representative of the liabilities of a private pension fund. Movable assets outside the EEA are also acceptable, provided the National Bank of Belgium or a credit institution or investment firm governed by the law of a member country and authorized as a depository, attests that it holds these covering assets for the account of the insurance company or private pension fund, through an establishment within the EEA, at a credit institution or investment firm outside the EEA whose authorization the FSMA deems equivalent to its own.

Approval required: No.

Accounts in domestic currency held abroad: Yes.

Accounts in domestic currency convertible into foreign currency: Yes.

References to legal instruments and hyperlinks: This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Nonresident Accounts

Foreign exchange accounts permitted: Yes.

Approval required: No.

Domestic currency accounts: Yes.

Convertible into foreign currency: Yes.

Approval required: No.

Blocked accounts: Yes. Some accounts are blocked, by way of implementation of restrictive measures imposed for security reasons. The accounts held by certain entities and persons of the Central African Republic, Democratic Republic of the Congo, Libya, Syria, certain persons and entities associated with the Al-Qaida network, and certain other persons, groups, and entities, with a view to combating terrorism are blocked.

Imports and Import Payments

Foreign exchange budget: No.

Financing requirements for imports: No.

Minimum financing requirements: No.

Advance payment requirements: No.

Advance import deposits: No.

Documentation requirements for release of foreign exchange for imports: No.

Domiciliation requirements: No.

Preshipment inspection: No.

Letters of credit: No.
### BELGIUM

**Import licenses used as exchange licenses**
- **No.**

**Other**
- **No.**

**Import licenses and other nontariff measures**
- **Yes.**

**Positive list**
- **No.**

**Negative list**
- **Yes.** Individual licenses are required for certain imports from some non-EU countries, including many textile and steel products, diamonds, and weapons. All other products are free of license requirements.

**Open general licenses**
- **No.**

**Licenses with quotas**
- **Yes.** Along with other EU countries, the Belgium-Luxembourg Economic Union applies quotas to a number of textile products from Belarus and the Democratic People’s Republic of Korea.

**Other nontariff measures**
- **No.**

**Import taxes and/or tariffs**
- **Yes.** Belgium applies the Common Import Regime of the EU to imports of most agricultural and livestock products from non-EU countries.

**Taxes collected through the exchange system**
- **No.**

**State import monopoly**
- **No.**

There are no explicit binding limits on open foreign exchange positions. However, there are provisions for foreign exchange positions in the form of prudential capital requirements (Article 351 of the Capital Requirements Regulation (Regulation (EU) No. 575/2013)).
Insurance companies

Yes.

Insurance or reinsurance companies must invest all their assets in accordance with the “prudent person” principle as described in the law (Article 190).

Limits (max.) on securities issued by nonresidents

Yes.

Insurance or reinsurance companies governed by Belgian law:
There is no limit anymore because of the application of the Prudent Person Principle. Insurance or reinsurance companies must invest all their assets in accordance with the “prudent person” principle as described in the law (Article 190).

According to Article 191 of the Law of March 13, 2016, on the legal status and supervision of insurance or reinsurance companies:
“With respect to the whole portfolio of assets, insurance or reinsurance companies must only invest in assets and instruments the risks of which the company concerned can properly identify, measure, monitor, manage, control and report, and appropriately take into account in the assessment of its overall solvency needs in accordance with Article 91, § 1, second paragraph, 1. All assets, in particular those covering the minimum capital requirement and the solvency capital requirement, must be invested in such a manner as to ensure the security, quality, liquidity, and profitability of the portfolio as a whole. In addition, the localization of those assets must be such as to ensure their availability.

Assets held to cover the technical provisions must also be invested in a manner appropriate to the nature and duration of the insurance and reinsurance obligations. Those assets must be invested in the best interest of all policyholders and beneficiaries taking into account any disclosed policy objective.

In the case of a conflict of interest, insurance companies, or the entity which manages their asset portfolio, must ensure that the investment is made in the best interest of policyholders and beneficiaries.”

This law will not be applicable to insurance or reinsurance companies governed by the law of another member state, which will be supervised by the home country.

Insurance or reinsurance companies governed by the law of a third country: The same rules as for companies governed by Belgian Law are applicable (prudent person principle).

Royal Decree of February 22, 1991, on General Regulation of the Supervision of Insurance Companies, details rules governing investments by insurance companies for the assets that cover their technical provisions. It includes the principles on investment activity, details on the location of the assets, categories of permissible assets, quantitative limits, and valuation rules.

Limits (max.) on investment portfolio held abroad

Yes.

For insurance or reinsurance companies governed by Belgian law the assets of the insurance and reinsurance companies can be localized in any country (in or outside the EEA).

Nevertheless, investment in assets of countries outside the EEA and covering insurance (not reinsurance) risks situated inside this Area are subject to some conditions (Article 197 of Law of March 13, 2016) to ensure the effectiveness of the recovery and resolution measures against companies in difficulties (the limit of the power to dispose of assets).

This law will not apply to insurance or reinsurance companies governed by the law of another member state, which will be supervised by the home country.

For insurance or reinsurance companies governed by the law of a third country (provisions of the Law of March 13, 2016, are applicable at the Belgian branch). Assets covering the technical provisions of insurance liabilities must be, in principle, localized inside the EEA. These assets can be localized outside the EEA if the law applicable to the winding-up procedures gives a similar protection to the policyholders as the Belgian law.
### Belgium

| Limit (min.) on investment portfolio held locally | No. |
| Currency-matching regulations on assets/liabilities composition | No. |
| Pension funds | Yes. |
| Limits (max.) on securities issued by nonresidents | Yes. |

**Limits (min.) on investment portfolio held locally:** There are no minimum or maximum investment limits anymore. Insurance or reinsurance companies must invest all their assets in accordance with the “prudent person” principle.

**Currency-matching regulations on assets/liabilities composition:** There is no limit anymore because of the application of the Prudent Person Principle. Insurance or reinsurance companies must invest all their assets in accordance with the “prudent person” principle as described in the law (Article 190).

**Pension funds:** Yes.

**Limits (max.) on securities issued by nonresidents:** The technical provisions of pension funds must be covered at all times by sufficient and appropriate assets belonging to the IORP (hereafter “representative values”) and allocated in a way that guarantees fulfillment of the obligations of the pension schemes they manage and application of the relevant legal and regulatory provisions for each fund.

The actual legislation for Belgian IORPs contains no quantitative restrictions in this respect. Representative values must be invested according to the principle of prudence and the following rules (control a posteriori):

1. The assets must be invested in the best interest of members and beneficiaries. If there is potential conflict of interest, the institution, or its portfolio manager, must ensure that the investment is made in the sole interest of members and beneficiaries.

IORPs can take into account the potential long-term impact of investment decisions on environmental, social, and governance factors.

2. The assets must be invested in such a manner as to ensure the security, quality, liquidity, and profitability of the portfolio as a whole.

3. The assets must be invested predominantly in regulated markets. Assets not traded in a regulated financial market must be kept to a prudent level.

4. Investments in derivative instruments are permitted insofar as they reduce investment risk or facilitate efficient portfolio management. They must be valued prudently, taking into account the underlying asset, and included in the valuation of the institution’s assets. The institution must avoid excessive risk exposure to a single counterparty and to other derivative operations.

5. The assets must be diversified in such a way as to avoid excessive reliance on any particular asset, issuer, or group of companies and accumulation of risk in the portfolio as a whole. Investments issued by the same issuer or by issuers of the same group must not expose the institution to excessive risk concentration.

6. Investments in, as well as loans granted to, and claims on the sponsoring company may not exceed 5% of the entire portfolio and, if the sponsoring company belongs to a group, investment in, as well as loans granted to, and claims on companies of the same group as the sponsoring company may not exceed 10% of the portfolio. If the institution is sponsored by more than one company, investment in, as well as loans granted to, and claims on these companies must be made prudently, taking into account proper diversification.

Derivative instruments that imply delivery are authorized only if at least one of the following conditions is met:

1. The institution for occupational retirement provision holds the underlying assets as covering assets.

2. The risks inherent in the highly liquid underlying assets are adequately covered by other liquid assets, provided the latter can be allocated to acquisition of underlying assets to be delivered, and provided the additional risk of this type of operation is adequately measured and managed.
(3) A clearing institution is involved that offers an adequate guarantee of the success of the operation, the derivative positions are evaluated daily at market value, and margin calls are issued at least once a day.

To apply first paragraph, second point (of Article 28 of the Royal Decree of January 12, 2007), a hedging instrument is considered liquid if, during a period of at least seven bank working days, it can be converted to cash at a price very close to the actual valuation of the instrument. The amount in cash must be at the disposal of the IORP at maturity or at the exercise date of the derivative.

Financial instruments that are not traded in a regulated market may not serve as cover unless they are realizable within a reasonable time. This condition (of Article 29 of the Royal Decree of January 12, 2007) may be waived for credit institutions, insurance companies, and investment firms whose registered office is in an EU Member State—with FSMA approval.

Pension fund representative values must be located within the EEA. By way of derogation from the first paragraph, movable cover assets outside the EEA are also accepted, provided the National Bank of Belgium or a credit institution or investment firm governed by the laws of an EU member and authorized to carry out the activity of depository, attests that it holds these assets for the IORP’s account, through an EEA establishment at a credit institution or investment firm outside the EEA whose authorization the FSMA deems equivalent to its own.

Representative values of a pension fund may be denominated in (1) euros or currencies convertible to euros without restriction; or (2) the currency of the liabilities, up to the amount of those liabilities.

For pension savings funds in the form of public open-end collective investment funds, up to 20% of the assets of such funds may be denominated in a currency other than euros. However, effective May 31, 2019, the assets denominated in a currency other than euros may be fully or partially hedged with financial derivatives for the currency risk, so that the hedged part is not taken into account for the determination of the maximum percentage of 20%.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Changes during 2018 and 2019

Provisions Specific to the Financial Sector

Pension fund assets denominated in a currency other than euros may be fully or partially hedged with financial derivatives for the currency risk, so that the hedged part is not taken into account for the

Other monetary framework

Exchange tax Yes. A stamp duty of 1.75% is levied on all conversions from Belize dollars to foreign currency greater than BZ$100 in value unless otherwise exempt via instructions from the MOF.

Exchange subsidy No.

Foreign exchange market Yes. All transactions in foreign exchange must be conducted through ADs (that is, domestic banks, the accountant general, and the postmaster general). Domestic banks may buy and sell foreign exchange at the official rate in transactions with their clients and interbank transactions. The CBB sets the buying and selling rates as well as the maximum commissions for major currencies.

Spot exchange market Yes. Five domestic banks, the accountant general, and the postmaster general are licensed to deal in foreign exchange with the public. The CBB grants official licenses. There are no lawfully operating foreign exchange bureaus in Belize. Domestic banks may buy and sell foreign exchange at the official rate in transactions with their clients and interbank transactions. The CBB sets the buying and selling rates as well as the maximum commissions for major currencies.

Operated by the central bank Yes. The CBB quotes daily rates for the Canadian dollar, pound sterling, euro, US dollar, and a number of currencies of the CARICOM member countries.

Foreign exchange standing facility Yes. The CBB provides US dollars to ADs and the government at the official rate with a specified commission.

Allocation No.

Auction No.

Fixing No.

Interbank market No. Banks may trade in Belize dollars among themselves. In 2016, there were five banks operated in the market because of the system’s excess liquidity.

Over the counter No.

Brokerage No.

Market making No.

Forward exchange market No.

Official cover of forward operations No.

### Arrangements for Payments and Receipts

| **Prescription of currency requirements** | Yes. |
| **Controls on the use of domestic currency** | Yes. |
| **For current transactions and payments** | Yes. |
| **For capital transactions** | Yes. |
| **Transactions in capital and money market instruments** | Yes. |
| **Transactions in derivatives and other instruments** | Yes. |
| **Credit operations** | Yes. |

**Use of foreign exchange among residents** No.  
Act No. 6 of the 2010 Amendment to the CBB Act repealed the provision authorizing residents who earn foreign exchange to pay their taxes, utility bills, and other expenses in US dollars, thereby restoring a single currency system in Belize. Act No. 16 of the 2010 Amendment to the Export Processing Zone Act removed the requirement for EPZs to conduct business in US dollars. Section 21 of the CBB Act 2011 states that to be valid in Belize, all monetary contracts, obligations, or transactions in Belize, whether imposed or authorized by a law or otherwise, are deemed to be expressed and recorded and must be settled or discharged in Belize dollars unless specifically provided otherwise.

| **Payments arrangements** | Yes. |
| **Bilateral payments arrangements** | Yes. |
| **Operative** | Yes. |

A bilateral arrangement aims to eliminate the need to use US dollars or other non-regional currencies for regional transactions. Settlement under the arrangement is done monthly between CBs based on the net amount outstanding.

| **Inoperative** | No. |

There is a bilateral clearing arrangement in effect. Caribbean countries with bilateral clearing arrangements with Belize are Antigua and Barbuda, Barbados, Dominica, Grenada, Guyana, Jamaica, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, and Trinidad and Tobago. Settlement under the bilateral clearing arrangement is done on a monthly basis between CBs based on the net amount outstanding.

| **Regional arrangements** | Yes. |
| **Clearing agreements** | No. |
| **Barter agreements and open accounts** | No. |

Belize is a member of CARICOM.

| **Administration of control** | Yes. |
| **Payments arrears** | No. |
| **Official** | No. |

The CBB administers exchange control, which applies to transactions with all countries. Authority over a wide range of operations is delegated to commercial banks in their capacity as ADs. Applications for foreign exchange processed by ADs are regularly forwarded to the CBB for auditing and record keeping. Capital transactions require CBB approval. The government of Belize, including government ministries and departments, is no longer subject to the Exchange Control Regulations.

**Domestic banks and credit unions are regulated and supervised by the CB.**

All residents, except for domestic banks and international banks, require the specific permission of the CB to borrow from a nonresident. Only commercial banks are free of any requirements or regulations to borrow from abroad, subject to such directions by the CB that would restrict them from doing so. Because other credit institutions are not ADs, they require specific permission to do so.

**Written CBB permission is required.** Domestic commercial banks in Belize may not, without the prior approval of the CB, lend in foreign currency to residents of Belize for any purpose, regardless of the amount. International banks are permitted to lend in foreign exchange to a Designated Processing Developer or Business, Commercial Free Zone Developer or Business, and entities wholly owned or majority controlled by the Government of Belize and Social Security Board.

**Domestic banks may invest foreign assets in sovereign and/or commercial securities subject to CB approval.**

Nonresidents are required to use offshore banks.

The liquid asset requirement is 23% on both residents’ and nonresidents’ deposits. The requirement for domestic banks is 23% and for international banks 24%.

**Changes during 2018 and 2019**

No significant changes occurred in the exchange and trade system.
BENIN  
(Position as of December 31, 2018)

Status under IMF Articles of Agreement

Date of membership: July 10, 1963.

Article VIII: Yes. Date of acceptance: June 1, 1996.

Article XIV

Restrictions and/or multiple currency practices: No.

Exchange measures imposed for security reasons: Yes.

In accordance with IMF Executive Board Decision No. 144-(52/51): No.

Other security restrictions: Yes.

A regional framework to fight money laundering (AML) and the financing of terrorism (AFT) was created through two WAEMU Directives in 2002 (AML) and 2007 (AFT) which were incorporated into Benin’s legal corpus in 2006 and 2012, respectively. This comprehensive framework facilitates the implementation of UNSC resolutions based on a list of persons and entities prepared by the Committee. It was updated at the regional level through a new WAEMU Directive in 2015 which was incorporated into Benin’s legal corpus in July 2018.

Exchange Measures

References to legal instruments and hyperlinks

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exchange Arrangement

Currency: Yes. The currency of Benin is the CFA franc (XOF).

Other legal tender: No.

Exchange rate structure

Unitary: Yes.

Dual

Multiple

Classification

No separate legal tender

Currency board

Conventional peg: Yes.

The exchange rate arrangement of the WAEMU is a conventional peg. Benin participates in a currency union with seven other members of the WAEMU and has no separate legal tender. The Monetary Cooperation Agreement between the WAEMU member countries and France was concluded December 4, 1973. It was maintained after the French franc was replaced by the euro by the Council of the European Union decision of November 23, 1998. The
Monetary Cooperation Agreement is based on three pillars: (1) a common issuing institution, (2) fixed parity with the euro, and (3) a guarantee of unlimited convertibility. In exchange for the unlimited convertibility of the CFA franc to euros, the WAEMU members are required to deposit 50% of their reserve holdings to the Operations Account with the French Treasury in accordance with the Amendment to the Operations Account Convention signed by France and the BCEAO September 20, 2005.

Stabilized arrangement

Crawling peg

Crawl-like arrangement

Pegged exchange rate within horizontal bands

Other managed arrangement

Floating

Free floating

**Official exchange rate**

Yes. The CFA franc is officially pegged to the euro, the intervention currency, at the fixed rate of CFAF 655.957 per euro. Exchange rates for other currencies are derived from the rates for the currency concerned in the Paris foreign exchange market vis-à-vis the euro. The official rate is used for accounting and valuation purposes. The Conference of Heads of State and Government may decide to amend the Monetary Cooperation Agreement between the WAMU member countries and France.

**Monetary policy framework**

Exchange rate anchor

Yes.

*U.S. dollar*

Yes. The monetary policy framework is an exchange rate anchor vis-à-vis the euro. The operational target of price stability is defined as an annual inflation rate in the WAEMU that falls within a band of ±1% around a central rate of 2%. The Harmonized Consumer Price Index is the benchmark rate to measure inflation.

Exchange tax  Yes.  The commission rate charged by registered intermediaries on transfers outside the WAEMU that are authorized by their clientele is 0.6%. This commission is reversed in full to the National Treasury and is a portion of its tax revenue.

Exchange subsidy  No.

Foreign exchange market  Yes.  Authorized intermediaries (licensed intermediary banks and licensed exchange dealers) freely set the buying and selling rates for foreign currencies, with the exception of the euro, which must be traded at the official fixed parity of CFAF 655.957 per euro. The commission on foreign exchange transactions may not exceed 2% for the euro. Instruction No. 013-11-2015 of November 10, 2015, on the terms and conditions for conducting rapid money transfers as a subagent within the WAEMU went into force.

Spot exchange market  Yes.  The entities authorized to conduct nonelectronic foreign currency transactions are authorized intermediary banks and individuals and
companies authorized to conduct nonelectronic transactions with the public by decision of the minister of finance. Authorized intermediaries must comply with the provisions in effect on the financial conditions for executing OTC foreign exchange transactions that involve foreign currencies and issue a transaction slip for all transactions with a client. Moreover, to provide satisfactory information to clients, they are required to permanently post at their windows the rates actually charged for the different currencies and post notification that a transaction slip must be issued for all foreign exchange transactions on presentation of the requestor’s identity document. Exchange bureaus may conduct transactions in foreign currencies (except the euro) with the BCEAO. Entities authorized to perform OTC operations may not make transfers or payments in foreign currency with other countries or maintain accounts abroad.

As of December 31, 2018, 74 authorized OTC dealers, thereof 15 banks, conducted business in Benin. According to the OTC dealers’ reports, the total annual sales of the official OTC market equaled CFAF 33.5 billion in 2018.

**Operated by the central bank**
Yes.

**Foreign exchange standing facility**
Yes. The BCEAO exchanges foreign currency for CFA francs at rates published on the international markets, with the exception of the euro, which is traded at the official fixed rate of 655.957 per euro. The nonelectronic currency exchange windows are open to owners of accounts on the BCEAO books and to the general public. A commission of 0.5% is charged on all transactions with the public (purchases and sales) and on all withdrawals by banks and financial institutions (including euro withdrawals). However, no commission is charged for the following operations: (1) OTC foreign banknote exchanges conducted by state entities, government employees of WAEMU member states on mission abroad, and officials of the CB and their beneficiaries, and (2) payments made by banks and financial institutions.

**Allocation**
No.

**Auction**
No.

**Fixing**
No.

**Interbank market**
Yes. Transactions in CFA francs between authorized intermediaries are allowed. As of December 31, 2018, 15 banks participated in the domestic currency interbank market. There is no regulated foreign currency interbank market in the WAEMU.

**Over the counter**
Yes.

**Brokerage**
No.

**Market making**
No.

**Forward exchange market**
Yes. Residents of the WAEMU zone are permitted to conduct the following transactions in the foreign exchange derivatives market with authorized intermediary banks established in the WAMU or with foreign banks: outright forward foreign exchange contracts (over the counter), foreign exchange options, foreign exchange swaps, and cross-currency swaps. Transactions in foreign exchange options are limited to the following two types of transactions: options to purchase foreign currency, purchased by residents of the WAEMU zone from an authorized intermediary bank established in the WAMU or from a foreign bank,
and options to sell foreign currency, purchased by residents of the WAEMU zone from an authorized intermediary bank established in the WAMU or from a foreign credit institution. Authorized intermediary banks must simultaneously cover the exchange risk they incur with respect to derivative instruments traded with their customers. The underlying commercial and financial operations must relate to imports and exports of goods and services by a resident, foreign borrowing operations by a resident (drawings and repayments), or direct foreign investment in a resident company. All legitimate foreign currency needs are ultimately met by the BCEAO.

**Official cover of forward operations**  No.

**References to legal instruments and hyperlinks**  This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

## Arrangements for Payments and Receipts

### Prescription of currency requirements  Yes.

Benin is linked to the French Treasury via the BCEAO through an operations account, through which settlements with France, Monaco, the Comoros, and the CEMAC member countries are made, mainly in euros. Payments with countries outside the WAEMU are made in foreign currencies. Trade with other WAEMU countries is settled in CFA francs.

### Controls on the use of domestic currency  Yes.

CFA francs may not be used for settlement of international transactions outside the WAEMU.

### For current transactions and payments  Yes.

CFA francs may not be used for settlement of international transactions outside the WAEMU. However, the CFA franc is guaranteed unlimited convertibility through an open operating account with the French Treasury.

### For capital transactions  Yes.

The CFA franc may not be used for capital transactions with countries outside the WAEMU. Investments by residents of the WAEMU zone outside the WAEMU are subject to prior authorization by the minister of finance, and at least 75% of the investment must be financed through foreign borrowing. Purchases of foreign negotiable securities authorized by the regional capital markets authority to be issued or sold in WAEMU members do not require Minister of Economy and Finance (MEF) authorization.

### Transactions in capital and money market instruments  Yes.

The CFA franc may not be used for capital transactions with countries outside the WAEMU. Foreign investment by residents of the WAEMU zone is subject to authorization by the MOF. At least 75% of the investment must be financed through foreign borrowing. The interested party must request authorization through a letter designating the authorized intermediary to settle the payment. Purchases of foreign negotiable securities authorized by the regional capital markets authority to be issued or sold in WAEMU members do not require Minister of Economy and Finance (MEF) authorization.

### Transactions in derivatives and other instruments  Yes.

Residents of WAEMU member countries may engage in the following operations on derivatives and other instruments with accredited banks established in the WAEMU or foreign banks: (1) forward contract, foreign exchange swaps, and options. Operations on derivatives with foreign banks outside the WAEMU can only relate to the purchase or sale, by a resident, of foreign exchange other than the euro or another currency from the Franc Zone.

### Credit operations  Yes.

Loans of any kind, CFA franc overdrafts, and, in general, any advances granted by authorized intermediaries to nonresidents of the WAEMU zone are subject to prior authorization by the Directorate of External Financial Relations of the MOF, after BCEAO approval.

### Use of foreign exchange among residents  Yes.

The CFA franc is the only legal tender, and residents of the WAEMU zone may not use foreign exchange for domestic transactions.

correspondents outside the WAEMU are prohibited from sending and receiving CFA franc banknotes issued by the BCEAO.

**Foreign currency**

Yes. The reexportation of foreign banknotes by nonresident travelers is permitted up to the equivalent of CFAF 500,000; the reexportation of foreign banknotes above this ceiling requires documentation demonstrating either the importation of the foreign banknotes or their purchase against other means of payment registered in the name of the traveler or through the use of nonresident deposits in local banks. Residents of the WAEMU zone traveling to countries that are not WAEMU members are required to declare foreign currency on their person in excess the equivalent of CFAF 5 million. They are allowed to carry up to the equivalent of CFAF 2 million a person in banknotes not issued by the BCEAO. Larger amounts may be exported in the form of traveler’s checks, prepaid debit and payment cards, conventional debit and payment cards, and other means of payment. Foreign exchange allowances issued by authorized intermediaries in the form of traveler’s checks or prepaid debit and payment cards must be based on the need to cover customary, personal travel expenses, if they exceed the equivalent of CFAF 2 million a person. The issuance of foreign currency to resident travelers is subject to the presentation of travel documents and a valid passport or national identification card.

**On imports**

Yes.

**Domestic currency**

Yes. Resident and nonresident travelers may freely import domestic currency (CFA Franc XOF). However, resident individuals and legal entities other than the BCEAO and its banking and commercial correspondents outside the WAEMU are prohibited from sending and receiving banknotes in domestic currency (CFA Franc XOF).

**Foreign currency**

No. Residents of the WAEMU zone and nonresidents of the WAEMU zone may freely import CFA area banknotes denominated in foreign currencies. Such means of payment in excess of or equal to the equivalent of CFAF 5 million must be declared to customs. Nonresident travelers must declare to customs foreign currency exceeding the equivalent of CFAF 1 million on entry and exit.

**References to legal instruments and hyperlinks**

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Resident Accounts**

**Foreign exchange accounts permitted**

Yes.

Held domestically

Yes.

Approval required

Yes. Foreign exchange accounts in currencies other than the Euro may be opened domestically with MOF authorization after non-objection from the BCEAO. The authorization specifies the operations that may be credited or debited on each such an account. These accounts are valid for a renewable term of up to one year. They cannot be credited with deposits of CFA banknotes or by debiting a CFA franc account. On expiration of the term set in the authorization, accounts are closed unless a new authorization is obtained.

Held abroad

Yes.

Approval required

Yes. Individual who are residents of the WAEMU and temporarily staying or traveling outside of the WAEMU may open bank accounts outside the WAEMU to deposit foreign currency legally exported and any income acquired outside of the WAEMU during their travel or temporary stay outside of the WAEMU. These individuals are required to repatriate balances on such accounts within 30 days of...
return to the WAEMU. In any circumstance other than the foregoing, opening of foreign accounts by WAEMU residents is subject to MOF authorization by after non-objection from the BCEAO. The MOF authorization specifies the operations that may be credited or debited on such accounts valid for up to one year. In the event of a failure to obtain a new MOF authorization, the accredited intermediary must request that the account be closed by the end of the term authorized and that any balance be repatriated to a WAEMU member country within eight days.

Accounts in domestic currency held abroad
Accounts in domestic currency convertible into foreign currency

Nonresident Accounts

Foreign exchange accounts permitted
Approval required
Nonresident accounts denominated in Euros may be freely opened by intermediaries accredited in the WAEMU on justification by the beneficiaries of their status and residence outside of the WAEMU. Nonresident accounts denominated in foreign currency other than euros are subject to BCEAO authorization. Nonresident foreign currency accounts are valid for a renewable period of two years. In the event of a failure to obtain renewal (through a new BCEAO authorization for foreign exchange other than the euro), these accounts must be closed. The balances of these accounts may be freely transferred abroad after verification.

Imports and Import Payments

Foreign exchange budget
Financing requirements for imports
Minimum financing requirements
Advance payment requirements
Advance import deposits
Documentation requirements for release of foreign exchange for imports

Nonresident foreign currency accounts are valid for a renewable period of two years. In the event of a failure to obtain renewal (through a new BCEAO authorization for foreign exchange other than the euro), these accounts must be closed. The balances of these accounts may be freely transferred abroad after verification.

Authorized intermediaries may open nonresident accounts in CFA francs and in euros, under their own responsibility, depending on the status and effective residence of the applicant. These accounts may be debited for spot purchases of foreign exchange.

Advance payments for imports require authorization, and importers may not acquire foreign exchange until the date of the payment specified in the contract.

Importers may purchase foreign exchange for import payments after establishing bank payment order accounts and submitting supporting documents, but no earlier than eight days before shipment if a documentary credit is opened or on the payment due date if the products have already been imported.

This information can be found at the AREAER ONLINE database:
http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.
### Domiciliation requirements
Yes. Import transactions from outside the CFA franc area exceeding CFAF 10 million must be made through an authorized bank.

### Preshipment inspection
No. The preshipment inspection of merchandise has been discontinued to date.

### Letters of credit
No.

### Import licenses used as exchange licenses
No.

### Other
Yes. Exchange authorization, invoices, and export-import cards are required, and may be electronic and used to complete the pre-clearance formalities at the Foreign Trade Operations One-Stop Shop (GUOCE-BENIN) (GUOCE—Le Guichet Unique des Opérations de Commerce Extérieur).

### Import licenses and other nontariff measures
Yes.

- **Positive list**
  No.

- **Negative list**
  Yes. Certain imports (for example, narcotics) are prohibited from all sources.

- **Open general licenses**
  No.

- **Licenses with quotas**
  No.

- **Other nontariff measures**
  No.

### Import taxes and/or tariffs
Yes.

The ECOWAS CET entered into force in Benin on January 1, 2015. The CET, amended in accordance with Supplementary Law No. A/SA.1/06/09 of June 22, 2009, to include the additional tariff bracket of 35% called “Category 4: specific goods for economic development,” has five tariff brackets (0%, 5%, 10%, 20%, and 35%). Two additional taxes are planned to protect the budding ECOWAS industrial sector and the other strategic sectors: (1) a temporary adjustment tax on imports for five years intended to offset the reduced tariff protection for community products as a result of CET implementation; and (2) a temporary supplementary protection tax for up to two years applicable to products imported from third countries in direct competition with similar products manufactured by an ECOWAS member country. In accordance with the spirit of Resolution No. A/DEC.17/01/06 of January 12, 2006, the adoption of the CET, as amended by Supplementary Law No. A/SA.1/06/09 of June 22, 2009, the previous WAEMU and ECOWAS community levies continue to be imposed for a temporary period of five years. Consequently, for five years, imports from ECOWAS nonmember countries will be subject to a 0.8% community levy, in addition to an ad valorem ECOWAS community levy of 0.5%.

- **Taxes collected through the exchange system**
  No.

- **State import monopoly**
  No.

### References to legal instruments and hyperlinks
This information can be found at the AREAER ONLINE database: [http://www.elibrary-areaer.imf.org/Pages/Reports.aspx](http://www.elibrary-areaer.imf.org/Pages/Reports.aspx).

### Exports and Export Proceeds

- **Repatriation requirements**
  Yes. Resident economic operators must collect and repatriate within 30 days of the payment due date the entire proceeds of sales of goods abroad in the country of origin with the bank with which the transaction is domiciled. The payment due date is specified in the trade agreement and normally falls within a period of 120 days after the goods are dispatched.
Surrender requirements

**Surrender to the central bank**

Yes. Export proceeds must be surrendered by ADs to the BCEAO within 30 days of the payment due date, which may not exceed 120 days after shipment of the goods. To cover its current foreign exchange needs, the domiciling bank may hold up to 20% of its export proceeds as own foreign exchange resources. However, it must ensure that its total foreign exchange resources to cover its requirements do not exceed 5% of total customer demand deposits; otherwise, the surplus must be surrendered to the BCEAO.

**Surrender to authorized dealers**

Yes. Proceeds must be surrendered to authorized banks within 30 days of the payment due date. Export revenue may be surrendered to intermediaries other than banks with which the transaction is domiciled if authorized by the BCEAO, provided they furnish the domiciling bank with the documents required for the domiciliation file to be closed.

Financing requirements

No.

Documentation requirements

Yes. Export transactions require a customs declaration.

Letters of credit

No.

Guarantees

No.

Domiciliation

Yes. Export transactions of more than CFAF 10 million, except those between WAEMU countries, must be domiciled with an authorized intermediary bank.

Preshipment inspection

Yes.

Other

Yes. Export title, exchange declaration, and export contract are required, and may be electronic and used to complete the pre-clearance formalities at the Foreign Trade Operations One-Stop Shop (GUOCE-BENIN).

Export licenses

Yes.

Without quotas

Yes. Exports are permitted on the basis of a simple authorization from the Directorate of Foreign Trade, which issues a certificate of origin as needed. Exports of diamonds, gold, and all other precious metals, however, require MEF authorization, with the exception of articles with minimal gold content, traveler’s personal effects weighing less than 500 grams, and coins (fewer than 10 pieces, regardless of their face value and denomination).

With quotas

No. Exports of teakwood and other varieties of unprocessed wood and charcoal are prohibited.

Export taxes

No.

Collected through the exchange system

No.

Other export taxes

No.

Proceeds from Invisible Transactions and Current Transfers

Repatriation requirements

Yes. Proceeds from invisible transactions with non-WAEMU countries must be repatriated. Residents of the WAEMU zone are required to surrender to an authorized intermediary all revenues and income in foreign currency collected abroad or received from a nonresident within no more than one month after the payment due date.

Surrender requirements

Yes.

Surrender to the central bank

Yes. Holdings exceeding the current needs of the credit institution must be surrendered to the BCEAO immediately. Credit institutions may hold net claims in foreign exchange with their banking correspondents outside the WAEMU to cover their current foreign exchange requirements in connection with customer transactions. In addition, ADs must surrender to the BCEAO, at its request, all BCEAO-issued currency and all or part of their assets in euros and in other foreign currencies.

Surrender to authorized dealers

Yes. All proceeds from invisible transactions with non-WAEMU countries must be surrendered to an AD within one month. Resident travelers must surrender to an authorized intermediary, within eight days of their arrival in Benin, foreign banknotes and other means of payment denominated in foreign currency worth more than the equivalent of CFAF 500,000.

Restrictions on use of funds

No.

Publique – CREPMF in French). The Code of the Inter-African Conference on Insurance Markets (CIMA Code) requires insurance companies of each CIMA member country to invest domestically a minimum of 50% of resources collected locally, with the remainder to be invested only in other CIMA member countries.

Purchases of foreign securities by residents of the WAEMU zone must be at least 75% financed with foreign borrowing.

Sale or issue abroad by residents
No. Residents of the WAEMU may sell local corporate securities abroad. If these operations result in foreign control of resident entities, foreign investors are required to make a prior declaration to the MEF. The sale of securities for liquidation of an investment abroad must be declared to the MOF and the BCEAO for statistical purposes. Issuance of securities abroad by residents of the WAEMU zone must be made through an authorized bank.

Bonds or other debt securities
Yes. The regulations governing shares or other securities of a participating nature apply.

Purchase locally by nonresidents
No. These purchases are subject to declaration to the MOF for statistical purposes. There are no controls on the sale of securities resulting from the divestiture of investment in the form of a transfer between a nonresident and a resident, but such sales are subject to the regulations governing the financial settlement of the operation. There is no minimum holding period.

Sale or issue locally by nonresidents
Yes. The issuance of securities and the sale of corporate or foreign securities by nonresidents of the WAEMU zone are subject to authorization from RCPSFM (Conseil Regional de l’Épargne Publique - CREPMF in French), with the prior authorization of the BCEAO. There are no controls on the sale of securities resulting from divestiture of an investment in the form of a transfer between a nonresident and a resident, but such sales are subject to the regulations governing the financial settlement of the operation. Settlement of securities transactions by transfer abroad or by credit to a nonresident account requires submission of an exchange authorization to the MEF for approval, accompanied by supporting documentation.

Purchase abroad by residents
Yes. The purchase of foreign securities by residents of the WAEMU zone and the transfer abroad of funds for this purpose are subject to MEF authorization and must be at least 75% financed with foreign borrowing. Authorization is not required for purchases of foreign securities whose issuance or offering for sale in WAEMU countries is authorized by the RCPSFM. The Code of the Inter-African Conference on Insurance Markets (CIMA Code) requires insurance companies of each CIMA member country to invest domestically a minimum of 50% of resources collected locally, with the remainder to be invested only in other CIMA member countries.

Sale or issue abroad by residents
No. Residents of the WAEMU zone may sell local corporate securities abroad. The sale of securities for liquidation of an investment abroad must be declared to the MEF and the BCEAO for statistical purposes. Issuance of securities abroad by residents of the WAEMU zone must be made through an authorized bank.

On money market instruments
Yes. The regulations governing shares or other securities of a participating nature apply.

Purchase locally by nonresidents
No. Purchases by nonresidents of the WAEMU zone are unrestricted. However, a declaration for statistical purposes must be filed for such purchases.

Sale or issue locally by nonresidents
Yes. The issuance and sale of money market instruments by nonresidents of the WAEMU zone are subject to authorization from RCPSFM (Conseil Regional de l’Épargne Publique - CREPMF in French), with the prior authorization of the BCEAO acting in its capacity as the...
authority in charge of regulating external financial relations. There are no controls on the sale of money market instruments resulting from divestiture of an investment in the form of a transfer between a nonresident and a resident, but such sales are subject to the regulations governing the financial settlement of the operation. Settlement of money market instrument transactions by transfer abroad or by credit to a nonresident account requires submission of an exchange authorization to the MEF for approval, accompanied by supporting documentation.

Purchase abroad by residents Yes. The purchase of foreign money market instruments by residents of the WAEMU zone and the transfer abroad of funds for this purpose are subject to MEF authorization and must be at least 75% financed with foreign borrowing. Authorization is not required for purchases of foreign money market instruments whose issuance or offering for sale in WAEMU countries has been authorized by the RCPSFM (Conseil Regional de l’Epargne Publique - CREPMF in French). The Code of the Inter-African Conference on Insurance Markets (CIMA Code) requires insurance companies of each CIMA member country to invest domestically a minimum of 50% of resources collected locally, with the remainder to be invested only in other CIMA member countries.

Sale or issue abroad by residents No. Residents of the WAEMU zone may sell money market instruments abroad. The sale of securities for the liquidation of an investment abroad must be declared to the MEF and the CB for statistical purposes.

On collective investment securities Yes. The regulations governing shares or other securities of a participating nature apply.

Purchase locally by nonresidents No. These purchases are subject to declaration to the MEF for statistical purposes.

Sale or issue locally by nonresidents Yes. The issuance of securities and the sale of corporate or foreign securities by nonresidents of the WAEMU zone are subject to authorization from RCPSFM (Conseil Regional de l’Epargne Publique – CREPMF in French), with the prior authorization of the BCEAO acting in its capacity as the authority in charge of regulating external financial relations. There are no controls on the sale of securities resulting from divestiture of an investment in the form of a transfer between a nonresident and a resident, but such sales are subject to the regulations governing the financial settlement of the operation. Settlement of securities transactions by transfer abroad or by credit to a nonresident account requires submission of an exchange authorization to the MEF for approval, accompanied by supporting documentation.

Purchase abroad by residents Yes. The purchase of foreign securities by residents of the WAEMU zone and the transfer abroad of funds for this purpose are subject to MEF authorization and must be at least 75% financed with foreign borrowing. Authorization is not required for purchases of foreign securities whose issuance or offering for sale in WAEMU countries has been authorized by the RCPSFM (Conseil Regional de l’Epargne Publique – CREPMF in French). The Code of the Inter-African Conference on Insurance Markets (CIMA Code) requires insurance companies of each CIMA member country to invest domestically a minimum of 50% of resources collected locally, with the remainder to be invested only in other CIMA member countries.

Sale or issue abroad by residents No. Residents of the WAEMU zone may sell local corporate securities abroad. Issuance of securities constituting a loan by residents of the WAEMU zone to nonresidents of the WAEMU zone must be made through an authorized bank and must be reported to the MEF and the BCEAO for statistical purposes.

Controls on derivatives and other Yes. Residents of the WAEMU zone may hedge risk using foreign
instruments

exchange derivatives for the following commercial and financial operations: (1) imports and exports of goods and services; (2) foreign borrowing operations by a resident (drawings and repayments); and (3) negotiation of FDI in a resident enterprise. Foreign exchange derivatives can only relate to the purchase or sale, by a resident, of foreign exchange other than the euro or another currency from the Franc Zone.

*Purchase locally by nonresidents* Yes. Residents of the WAEMU zone may hedge risk using foreign exchange derivatives for the following commercial and financial operations: (1) imports and exports of goods and services; (2) foreign borrowing operations by a resident (drawings and repayments); and (3) negotiation of FDI in a resident enterprise. Foreign exchange derivatives can only relate to the purchase or sale, by a resident, of foreign exchange other than the euro or another currency from the Franc Zone.

*Sale or issue locally by nonresidents* Yes. Residents of the WAEMU zone may hedge risk using foreign exchange derivatives for the following commercial and financial operations: (1) imports and exports of goods and services; (2) foreign borrowing operations by a resident (drawings and repayments); and (3) negotiation of FDI in a resident enterprise. Foreign exchange derivatives can only relate to the purchase or sale, by a resident, of foreign exchange other than the euro or another currency from the Franc Zone.

*Purchase abroad by residents* Yes. These instruments are subject to general regulations that apply to securities and investments. Residents of the WAEMU zone may freely purchase abroad or from nonresidents of the WAEMU zone call or put options on primary commodities or securities transactions. Residents of the WAEMU zone may not purchase commodities or securities in foreign markets to be delivered in complying with a put option contract. Put options must be placed on assets that can be acquired locally by the resident seller for delivery abroad in execution of the contract. Residents of the WAEMU zone are permitted to purchase foreign currency purchase options on the foreign exchange derivatives market from an authorized intermediary bank established in the WAMU or from a foreign credit institution.

*Sale or issue abroad by residents* Yes. Residents of the WAEMU zone are permitted to purchase foreign currency sell options on the foreign exchange derivatives market from an authorized intermediary bank established in the WAMU or from a foreign (that is, nonresident of WAEMU) credit institution.

*Controls on credit operations* Yes. Borrowing by residents of the WAEMU zone from nonresidents of the WAEMU zone must be conducted through authorized intermediaries (whenever borrowed funds are made available for use in the country), unless otherwise indicated by the minister of finance.

*Commercial credits* Yes. There are no controls on credits related to exports of goods. The date on which payment falls due is agreed to in the contract (in principle no later than 120 days after the date of shipment).

*By residents to nonresidents* Yes. There are no controls, and repayments of commercial credits are generally conducted without prior authorization, subject to the presentation of documents attesting to the validity of the commercial operation or of the services rendered, as well as the payment due date, to the licensed intermediary bank responsible for handling the repayment.

*To residents from nonresidents* No. These credits require MEF approval. Outward transfers to service such facilities require an exchange authorization, subject to the approval of the minister of finance and substantiated by
To residents from nonresidents No. There are no controls on these credits, but they must be reported for statistical purposes to the MOF and the BCEAO when granted and when repaid, except for the following credits: (1) mail overdrafts: CFA franc overdrafts for durations not to exceed the normal mail delivery times; (2) LCs available by acceptance, issued to exporters at the request of the authorized intermediaries’ foreign correspondent banks; and (3) credit provided pursuant to a financial agreement between a WAEMU member country and a foreign government or pursuant to an interbank arrangement approved by the Directorate of External Finance. The necessary funds must be transferred from abroad through an authorized agent. There are no controls on repayment of loans, provided the authorized agent handling the settlement is furnished with documentation attesting to the validity of the transaction. Borrowing abroad is unrestricted.

Guarantees, sureties, and financial backup facilities
By residents to nonresidents Yes. The granting of guarantees and sureties is subject to minister of finance approval. Transfers abroad of funds to service these facilities require an exchange authorization, subject to minister of finance approval and submission of supporting documents.

To residents from nonresidents No. These facilities may be granted freely, although the funds required for servicing them must be transferred abroad by an authorized bank. If, however, these transactions take place between a resident direct investment company and its parent company located abroad, they are considered to be direct investments and therefore require declaration to the MEF and the BCEAO for statistical purposes.

Controls on direct investment Yes. Direct investment implies control of a company or enterprise. Mere participation is not considered direct investment, unless it exceeds 10% of the capital of a company. All investment outside of WAEMU by residents of the WAEMU, including investment through foreign companies under the direct or indirect control of WAEMU residents and investment by foreign branches or subsidiaries of companies established in a WAEMU member country, requires MEF authorization.

Outward direct investment Yes. All investment abroad by residents of the WAEMU zone is subject to MEF authorization. At least 75% of such investment must be financed by foreign loans. Authorization is not required for purchases of foreign securities whose issuance or offering for sale in WAEMU countries has been authorized by the RCPFSM (Conseil Regional de l’Epargne Publique et des Marches Financiers – CREPMF in French).

Inward direct investment Yes. FDI, including by resident companies that are directly or indirectly under foreign control and by branches or subsidiaries of foreign companies, must be reported to the MEF for statistical purposes. A share is not considered a direct investment, unless it exceeds 10% of the capital of a company.

Controls on liquidation of direct investment No. The liquidation of investments abroad must be reported to the MEF and the CB for statistical purposes. Reinvestment of the proceeds of liquidation is subject to MEF authorization. If reinvestment is not authorized, the liquidation proceeds must be repatriated within one month through an authorized intermediary. The sale of foreign investments by nonresidents of the WAEMU zone is unrestricted, but must be reported to the MEF and the CB for statistical purposes.

Controls on real estate transactions Yes.

Purchase abroad by residents Yes. These purchases require MEF authorization.

Purchase locally by nonresidents No. Purchases for purposes other than direct investment in a business,
branch, or company are allowed. They require a declaration to the minister of finance and the CB for statistical purposes.

Sale locally by nonresidents

No. Sales by nonresidents of the WAEMU zone to residents of the WAEMU zone require submission of supporting documentation to the authorized intermediary that handles the settlement and must be declared to the minister of finance and the BCEAO for statistical purposes.

Controls on personal capital transactions

Yes. Personal capital transactions between residents of the WAEMU zone and nonresidents of the WAEMU zone must be made through the BCEAO, the postal service, or an authorized intermediary bank, unless authorization is obtained from the minister of finance.

Loans

Yes. The regulations governing securities and investments apply.

By residents to nonresidents

Yes. These transactions require MEF authorization. The individuals concerned may not engage in such operations as a professional occupation without first being licensed and included on the list of financial institutions.

To residents from nonresidents

No. These transactions may be made freely, but are subject to declaration for statistical purposes to the MEF and the CB when disbursed and when repaid. They must be conducted through an authorized intermediary.

Gifts, endowments, inheritances, and legacies

Yes.

By residents to nonresidents

Yes. Inheritances and dowries are generally allowed. Gifts and endowments, however, are subject to authorization by the MOF and the BCEAO. These transactions must be conducted through an authorized intermediary and comply with the relevant anti-money-laundering and terrorism financing provisions.

To residents from nonresidents

No. These transactions do not require authorization but are subject to declaration to the minister of finance and the BCEAO for statistical purposes.

Settlement of debts abroad by immigrants

Yes. Immigrants with resident status must obtain MEF authorization to settle debts contracted abroad while they were nonresidents of the WAEMU zone.

Transfer of assets

Yes.

Transfer abroad by emigrants

Yes. These transactions require MEF authorization if the value exceeds CFAF 5,00,000 a person. There are no restrictions on transfers of amounts below this threshold.

Transfer into the country by immigrants

Yes. Foreign accounts of nonresidents of the WAEMU zone (in foreign currencies or CFA francs) who become residents of the WAEMU zone must be closed. However, these residents may maintain abroad bank accounts opened and financial assets acquired while they were nonresidents of the WAEMU zone. New transfers to these accounts require MEF approval.

Transfer of gambling and prize earnings

No. These transfers are conducted freely by authorized intermediaries, subject to the presentation of supporting documents and compliance with the relevant provisions on combating money laundering and financing of terrorism.

financed by foreign loans. Authorization is not required for the purchase of foreign securities whose issuance or offering for sale in the WAEMU countries has been authorized by the RCPSFM (Conseil Régional de l’Epargne Publique et des Marchés Financiers – CREPMF in French).

In banks by nonresidents

Yes. These transactions may, depending on their volume, be subject to authorization by the minister of finance. The banking law stipulates that investment by any person in a bank that would have the effect of changing the minority and/or majority voting rights requires authorization by the minister of finance.

Open foreign exchange position limits

Yes. No prudential ratios apply. Because of the surrender requirement, banks are not allowed to maintain open foreign exchange positions. However, the BCEAO grants individual dispensations that allow banks to keep working balances in their correspondent accounts for the smooth completion of international payments, up to the equivalent of 5% of total customer demand deposits. To cover their foreign currency requirements, banks are authorized to hold in banking institutions located in non-WAEMU countries (1) demand deposits not exceeding the total amount of import payments domiciled by clients in their books, payable within a period of eight days, and (2) demand deposits not exceeding the balance on their open foreign accounts denominated in foreign currencies other than euros and their open resident accounts denominated in foreign currency.

On resident assets and liabilities

Yes. No prudential ratios apply. Because of the surrender requirement, banks are not allowed to maintain open foreign exchange positions. However, the BCEAO grants individual dispensations that allow banks to keep working balances in their correspondent accounts for the smooth completion of international payments. To cover their foreign currency requirements, banks are authorized to hold in banking institutions located in non-WAEMU countries (1) demand deposits not exceeding the total amount of import payments domiciled by clients in their books, payable within a period of eight days, and (2) demand deposits not exceeding the balance on their open foreign accounts denominated in foreign currencies other than euros and their open resident accounts denominated in foreign currency.

On nonresident assets and liabilities

Yes. No prudential ratios apply. Because of the surrender requirement, banks are not allowed to maintain open foreign exchange positions. However, the BCEAO grants individual dispensations that allow banks to keep working balances in their correspondent accounts for the smooth completion of international payments. To cover their foreign currency requirements, banks are authorized to hold in banking institutions located in non-WAEMU countries (1) demand deposits not exceeding the total amount of import payments domiciled by clients in their books, payable within a period of eight days, and (2) demand deposits not exceeding the balance on their open foreign accounts denominated in foreign currencies other than euros and their open resident accounts denominated in foreign currency.

### Changes during 2018 and 2019

No significant changes occurred in the exchange and trade system.
BHUTAN

(Position as of January 31, 2019)

Status under IMF Articles of Agreement

Date of membership

September 28, 1981.

Article VIII

Yes.

Article XIV

Yes.

Exchange Measures

Restrictions and/or multiple currency practices

Yes. The IMF staff report for the 2018 Article IV Consultation with Bhutan states that, as of August 7, 2018, Bhutan continues to avail itself of transitional arrangements under Article XIV, Section 2, pursuant to which it maintains exchange restrictions in connection with: (1) the availability of foreign exchange for travel, except for medical travel abroad by Bhutanese citizens, invisibles, and private transfers; (2) foreign exchange balancing requirement on remittances of income in convertible currencies or other foreign currencies from FDI; and (3) on the availability of foreign exchange for importers who have not provided evidence that goods for which payments have been made were actually imported.

Bhutan also maintains exchange restrictions subject to IMF approval under Article VIII, Section 2(a) in connection with: (1) the foreign exchange balancing requirements for imports of capital goods (for projects involving FDI) and primary raw materials (for certain industrial projects); (2) banning residents who do not comply with the requirement to repatriate export proceeds from accessing foreign exchange for unrelated imports; (3) requiring FDI companies to pay for their establishment and operational expenses from their own convertible currency resources; (4) requiring Bhutanese companies to pay the interest on and amortization of external loans from their own convertible currency resources; (5) restricting the availability of Indian rupees for making payments and transfers to India for certain current international transactions; and banning the access to Indian rupees for unrelated current international transactions for those who contravene Royal Monetary Authority’s (RMA) 2012 guidelines on Indian rupee transactions. (Country Report No. 18/300)

Exchange measures imposed for security reasons

Yes. Banking institutions have been instructed to freeze all capital transfers and financial assets of individuals, groups, and organizations associated with terrorism, pursuant to the relevant UNSC resolutions. In addition, financial institutions are required to report to the RMA any financial transactions linked to terrorist groups. The RMA has the power to share information and cooperate in any way necessary with domestic and foreign supervisors to combat money laundering and the financing of terrorism.

In accordance with IMF Executive Board Decision No. 144-(52/51)

Yes. This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Other security restrictions

Yes.

Exchange Arrangement

2019 ANNUAL REPORT ON EXCHANGE ARRANGEMENTS AND EXCHANGE RESTRICTIONS

INTERNATIONAL MONETARY FUND

460

©International Monetary Fund. Not for Redistribution
The currency of Bhutan is the Bhutanese ngultrum.

Indian rupee banknotes circulate freely in Bhutan, but there is no legal/official provision establishing them as legal tender in Bhutan. Since January 2015, Indian rupee (INR) denominations above Rs 500 (specifically currency notes in denominations of Rs 500 and Rs 1,000) started to circulate, and individuals from India are allowed to carry to Bhutan INR in denominations of Rs 500 and/or Rs 1,000 subject to a limit of Rs 25,000. The RMA opened an exchange counter at the RMA (Thimphu and Phuntsholing branch office) for facilitating the exchange of ngultrum notes for INR notes, beginning with the facility for Bhutanese proceeding on pilgrimage to India. Any Bhutanese may avail INR from the RMA exchange counters in Thimphu and the RMA branch Office in Phuntsholing up to a limit of Rs 50,000 a person on production of personal context identity (CID, Citizenship Identity Card) to the exchange counter tellers. All current international transactions denominated in rupees have been streamlined to reflect the legal status of the rupee as a foreign currency.

Since the demonetization of high denomination Indian Rupee note in India from November 2016, INR denominations of 500 and 1000 were not allowed to be used in Bhutan and only INR denominations of 100 and below are allowed to be used in Bhutan. Effective June 11, 2018, the new series of INR denominations up to 500 were re-permitted in Bhutan. Further, the RMA opened up exchange counters at the Airport and Phuntsholing to facilitate exchange of Indian rupees to ngultrum and vice versa.

The exchange rate arrangement is a conventional peg vis-à-vis the Indian rupee. No current legal documents establish a fixed exchange rate arrangement; the ngultrum has been pegged at par to the Indian rupee since the introduction of the ngultrum in 1974. Under the RMA Act of Bhutan 2010 (Provisions 88 and 89), the Bhutanese government, on recommendation of the RMA, may declare the external value of the ngultrum, and the RMA will determine the appropriate external value. The RMA does not publish the intervention data.
Free floating

**Official exchange rate** Yes. The ngultrum is officially pegged to the Indian rupee at par. Under the RMA Act of Bhutan 2010 (Provisions 88 and 89), the government may at any time, on recommendation of the RMA, declare the external value of the ngultrum vis-à-vis currencies for which the RMA determines a fixed exchange rate or the width of the exchange rate band against that of foreign currencies whose rate or width it considers compatible with the primary monetary policy objective. The rates for currencies other than the Indian rupee are determined on the basis of the prevailing rupee exchange rates (average rate) against the currencies concerned. The official exchange rate is used for all foreign exchange transactions in Bhutan. The method as mentioned above is prevailing rupee exchange rates (average rate) against the currencies concerned plus fixed margin as decided by the RMA.

**Monetary policy framework**

**Exchange rate anchor** Yes.

- **U.S. dollar**
- **Euro**
- **Composite**
- **Other** Yes. The monetary policy framework is an exchange rate anchor vis-à-vis the Indian rupee.

**Monetary aggregate target**

**Exchange tax**

No.

**Exchange subsidy**

No.

**Foreign exchange market**

Yes.  
Banks may charge customers a spread of 0.2% above or below the dealing rate used by the RMA. Hotels licensed under restricted authorized money changers (AMCs) may charge a commission of 0.5% on cash only. ADs (banks and AMCs) use exchange rates that are determined by the RMA on a daily basis.

**Spot exchange market**

Yes.  
In addition to the five depository institutions operating in Bhutan, there are 36 restricted AMCs licensed by the RMA. These AMCs may purchase but not sell foreign currency. Commercial banks may only make foreign exchange transactions with the CB. These banks may maintain accounts abroad, conduct operations for the purchase and sale of banknotes, and make foreign currency payments and transfers on behalf of their clients. As of July 2018, there were 36 AMCs licensed by the RMA. As stipulated in Chapter IIIC of the Foreign Exchange Regulations 2013, any individual or a business entity other than a bank may apply for a license to operate as an AMC to the RMA. Accordingly, these licensed AMC operations are limited to (1) buying from individual’s banknotes and traveler’s checks denominated in convertible currencies against the ngultrum; or (2) selling to an authorized bank, holdings of banknotes and traveler’s checks denominated in convertible currencies against the ngultrum. They are not allowed to operate like authorized banks viz. maintain accounts abroad or transfer on behalf of their clients. Effective July 1, 2018, the RMA allows commercial banks to hold convertible currency up to the maximum limit of US$15 million (previously US$10 million), beyond which the commercial banks are required to sell it to the RMA.

**Operated by the central bank**

Yes.

**Foreign exchange standing facility**

Yes.  
The RMA stands ready to buy and sell ngultrum at the official
exchange rate without any commission and buys and sells on demand. The RMA rates for the US dollar, euro, Swiss franc, Singapore dollar, Hong Kong dollar, Swedish krona, and other major traded currencies are based on the previous day’s closing rates in international markets, as determined by the RMA. Only banks are eligible to deal with the RMA.

Since 2016, the RMA opened an exchange counter at the RMA (Thimphu and Phuntsholing branch office) for facilitating the exchange of ngultrum notes for INR notes, beginning with the facility for Bhutanese proceeding on pilgrimage to India and Indian merchants in the border town. Any Bhutanese citizen going on pilgrimage may, in person, avail INR from the RMA exchange counters in Thimphu and RMA branch Office in Phuntsholing up to a limit of Rs 50,000 a person on production of personal Citizenship Identity Card to the exchange counter tellers. Indian merchants were permitted to deposit their sale proceeds in ngultrum with any of the commercial banks and were allowed to repatriate the equivalent in INR the next day through banking channel (demand draft, telegraphic transfer, and real-time gross settlement).

Allocation  Yes.
Auction  No.
Fixing  No.
Interbank market  No.  Banks are allowed to trade foreign exchange with each other, but in practice they deal only with the RMA.
Over the counter  No.
Brokerage  No.
Market making  No.
Forward exchange market  No.
Official cover of forward operations  No.
References to legal instruments and hyperlinks  This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Arrangements for Payments and Receipts**

**Prescription of currency requirements**  Yes.  Trade transactions between Bhutan and India may be conducted only in ngultrum or Indian rupees.

**Controls on the use of domestic currency**  Yes.

**For current transactions and payments**  Yes.

**For capital transactions**  Yes.

Transactions in capital and money market instruments  Yes.
Transactions in derivatives and other instruments  Yes.
Credit operations  Yes.

**Use of foreign exchange among residents**  Yes.  All payments in Bhutan must be made in local currency. Handicraft shops must obtain an AMC license from the RMA to operate as a restricted money changer.

**Payments arrangements**  Yes.

| Barter agreements and open accounts | No. |

**Administration of control**  
Yes.  
The RMA may regulate foreign exchange dealers by adopting regulations to establish licensing and regulation systems consistent with relevant sections of the Financial Services Act. The RMA delegates to authorized commercial banks the authority to process and release foreign exchange for payments for current transactions and implement the surrender requirements for proceeds from merchandise exports. Commercial banks are subject to periodic inspection and RMA monthly reporting requirements. Payments and transfers by residents to nonresidents other than in cash and traveler’s checks must be channeled through authorized banks in Bhutan.

| Payments arrears            | No.   
| Official                    | No.   
| Private                     | No.   

**Controls on trade in gold (coins and/or bullion)**  
Yes.  
On domestic ownership and/or trade  
No.  
On external trade  
Yes.  
The RMA has authorized commercial banks to import and sell gold and silver bullion within Bhutan. Imports of gold and silver by Bhutanese citizens require authorization from the RMA.

**Controls on exports and imports of banknotes**  
Yes.  
The importation and exportation of cash and securities above a certain limit are subject to a declaration of value at the customs point of entry into and departure from Bhutan.

| On exports                  | Yes.  
| **Domestic currency**       | No.   
|                             | Exports exceeding Nu 5,000 must be declared to customs.  
| **Foreign currency**        | Yes.  
|                             | Convertible foreign exchange that has been obtained from authorized banks and such additional amounts as may reasonably be in the possession of a person may be taken out of Bhutan. However, if the total value of foreign currency taken out of Bhutan exceeds US $10,000 or its equivalent, the individual must declare the total value and sources of such foreign currency to customs at the time of departure.  

| On imports                  | No.   
| **Domestic currency**       | No.   
|                             | Imports exceeding Nu 5,000 must be declared to customs.  
| **Foreign currency**        | No.   
|                             | There is no limit on the amount of convertible foreign exchange that may be brought into Bhutan. However, under Section 6 of the Foreign Exchange Regulations 2013 anyone who brings in more than US$10,000 or its equivalent must declare it at the customs point of entry.

Resident Accounts

Foreign exchange accounts permitted
Yes.
Held domestically
Yes. The following may open and maintain US-dollar-denominated foreign currency accounts with authorized banks in Bhutan: (1) diplomatic missions and their expatriate employees, (2) representative offices of donor agencies and their expatriate employees, (3) third-country contracting firms and their expatriate employees engaged in projects financed by donor agencies, (4) any citizen of a third country who resides in Bhutan, (5) FDI companies incorporated in Bhutan under the 2002 FDI Policy, (6) local industries approved by the Ministry of Economic Affairs, (7) nongovernmental organizations (NGOs) in Bhutan, (8) Bhutanese exporters and individuals who earn foreign exchange in Bhutan, and (9) Bhutanese citizens residing abroad. Local industries that earn Indian rupees through exports of goods and services may open rupee accounts with authorized banks in Bhutan in which they may retain up to 10% of their export earnings. Funds may be used for payments as prescribed by the RMA under the Operational Guidelines for Indian Rupee Transactions, 2012.

Approval required
Yes.
Held abroad
Yes. Bhutanese citizens temporarily domiciled abroad for studies, training, diplomatic posting, or employment with regional/international organizations may hold foreign currency deposits abroad for the duration of their stay. Otherwise, RMA permission is required.

Approval required
Yes. Bhutanese citizens temporarily domiciled abroad for studies, training, diplomatic posting, or employment with regional/international organizations may hold foreign currency deposits abroad for the duration of their stay. Otherwise, RMA permission is required.

Accounts in domestic currency held abroad
No.
Accounts in domestic currency convertible into foreign currency
No.

References to legal instruments and hyperlinks
This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Nonresident Accounts

Foreign exchange accounts permitted
No. Nonresidents are not allowed to open any accounts (domestic and foreign currency accounts) with any of the authorized banks in Bhutan. However, Indian merchants doing business bordering Bhutan may repatriate their ngultrum sale proceeds equivalent in INR the next day through banking channel (demand draft, telegraphic transfer, and real-time gross settlement).

Approval required
No.

Domestic currency accounts
No. These accounts are permitted, but only for foreign nonresidents residing or working in Bhutan. Domestic currency accounts of nonresident foreigners residing or working outside Bhutan (in neighboring border towns) are not permitted.

Convertible into foreign currency
No. Nonresident account holders may withdraw up to Rs 10,000 in cash on closing their accounts at the end of their contract period and withdraw the remainder of their balances through other payment instruments.
Approval required  No.
Blocked accounts  No.
References to legal instruments and hyperlinks  This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Imports and Import Payments

Foreign exchange budget  No.
Financing requirements for imports  Yes.
Minimum financing requirements  No.
Advance payment requirements  Yes. Importers in Bhutan may make advance payments through authorized banks to a supplier or a counterparty in India based on a pro forma invoice. However, the bank must ensure that importers making advance payments prove that the relevant goods entered Bhutan within 91 days of the advance payment. Monitoring takes place through documents pertaining to declaration of the goods at relevant customs checkpoints and the value of the goods imported. Even if the goods fail to reach the port of entry within the stipulated time because of a natural calamity or unforeseen circumstances, the importer must, irrespective of the delay or the time lag, submit the customs documents to the bank to reconcile the advance payments against the value of goods imported.

Advance import deposits  No.
Documentation requirements for release of foreign exchange for imports  Yes.
Domiciliation requirements  Yes. Persons granted import licenses may purchase foreign exchange from authorized banks to settle payments for the goods specified in the license.
Preshipment inspection  No. Bhutanese persons importing goods from third countries may apply to the authorized banks to remit convertible currency by filling in the forms provided by the banks accompanied by the “Exchange Control Copy” of the Import License and the supplier’s invoice or other documentary evidence showing the c.i.f. value of the goods to be imported.
Letters of credit  Yes.
Import licenses used as exchange licenses  Yes.
Other  No.
Import licenses and other nontariff measures  Yes. An import license is required for the importation of capital and intermediate goods from countries other than India. Such licenses are governed by the Rules and Procedures for Imports of Goods from Third Countries issued by the Department of Trade of the Ministry of Economic Affairs. Foreign exchange for all payments related to licensed merchandise imports is automatically made available by authorized banks against import licenses. Capital imports from third countries by foreign direct investors must be financed by their own convertible foreign exchange resources. Start-up support is provided by the RMA for the purchase of capital goods.

Positive list  No.
Negative list  Yes.
Open general licenses No.
Licenses with quotas No.
Other nontariff measures No.
Import taxes and/or tariffs Yes. Imports from countries other than India are subject to tariffs. Imports from India are subject only to Bhutanese sales tax.
Taxes collected through the exchange system No.
State import monopoly No.
References to legal instruments and hyperlinks This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exports and Export Proceeds

Repatriation requirements Yes.
Surrender requirements Yes. Receipts on current transactions with India must be received in Indian rupees through normal banking channels within 91 days from the date of export of the goods or services. As per the terms and conditions of foreign currency account in Bhutan issued by the RMA, exporters can retain only 10% of convertible currency earnings in their foreign currency account. The balance 90% of the convertible currency earnings must be credited to the ngultrum account.

Surrender to the central bank Yes.
Surrender to authorized dealers Yes. Exporters and other foreign exchange earners may retain 10% of their foreign exchange receipts in US-dollar-denominated foreign currency accounts with authorized banks in Bhutan for use as prescribed by the RMA. All remaining export proceeds must be surrendered to authorized banks in Bhutan. Export proceeds from India must be repatriated through the banking system within 91 days. Local industries that earn rupees through exports of goods and services may retain 10% of their earnings in rupee accounts with authorized banks in Bhutan and use these funds for payments as prescribed by the RMA under the Operational Guidelines for Indian Rupee Transactions, 2012.

Financing requirements No.
Documentation requirements Yes.
Letters of credit Yes.
Guarantees Yes.
Domiciliation Yes.
Preshipment inspection Yes.
Other Yes.
Export licenses Yes.
Without quotas Yes.
With quotas Yes.
Export taxes Yes. Exports to countries other than India receive an export tax rebate at
rates ranging from 5% to 20% of the c.i.f. value; the lowest rate applies to unprocessed primary products and the highest to processed products.

Payments for Invisible Transactions and Current Transfers

Controls on these transfers  Yes. The RMA delegates to commercial banks the authority to process and release foreign exchange for payments for invisible transactions and current transfers. Any amount above the limits prescribed in these regulations must be made with prior approval of the RMA based on the bona fide test on the transactions. Commercial banks are subject to periodic inspection and monthly RMA reporting requirements. The RMA is authorized to set limits on foreign exchange for payments for invisible transactions.

Trade-related payments  Yes.

Prior approval  Yes.

Quantitative limits  Yes. Each import house (for imports from countries other than India) is entitled to import one 20-foot-long container or its equivalent every three months.

Indicative limits/bona fide test  Yes.

Investment-related payments  Yes. Foreign direct investors may remit profits and dividends from net earnings only in the currency of the earnings with the exception for service activities in the priority list where the investment in the project was made in convertible currency and the earnings are in nonconvertible currencies, the FDI company must be allowed to purchase from the RMA convertible currency up to US$5 million an annum for repatriation of dividends by the foreign investors and for those FDI businesses where the investment in the project was made in convertible currency and earnings are in Indian rupees, the foreign investor must be permitted to repatriate dividends in convertible currency with prior approval from the RMA.

Prior approval  Yes.

Quantitative limits  No.

Indicative limits/bona fide test  Yes.

Payments for travel  Yes.

Prior approval  Yes.

Quantitative limits  Yes. Travel allowances to countries other than India are limited to the equivalent of US$3,000 a ticketed passenger a calendar year. For private travel to India, individuals are permitted Rs 10,000 to 30,000 a month in cash beginning from November 8, 2016, and may withdraw Rs 15,000 and Rs 150,000 a month through their debit and credit cards, respectively. Effective January 1, 2019, Foreign exchange Rules and Regulations 2018 and Foreign Exchange Operational Guidelines 2018 came into effect, which incorporated the new limit on private travel allowances of Rs 10,000 to 30,000 a month in cash. Previously, the limit was Rs 50,000 in cash for each instance. For business travel, there is a country-specific per diem.
covering accommodations. There are no time restrictions for business travel.

Inward direct investment

Direct investment in convertible foreign exchange may be made in (1) manufacturing, with a minimum investment of US$1 million, of which 20%–74% may be foreign investor equity; and (2) services, with a minimum investment of US$500,000, of which 20%–74% may be foreign investor equity. FDI in the manufacturing and service sectors is subject to sector-specific policies, standards, and
Priority service sectors are permitted up to 100% additional foreign equity ownership. Other forms of collaboration, such as for technical and marketing purposes and for franchising of trade names, patents, and trademarks, are allowed with the Ministry of Economic Affairs’ permission. The Royal Government must allow FDI in both manufacturing and service sectors. These must be governed by project-specific agreements (if any) and sector-specific policies, standards, and procedures. The priority sector activities are listed in Schedules I and II. These must be fast-tracked for approval and clearances. In addition, the Royal Government must allow FDI in other activities with maximum foreign investors’ equity of 74% and minimum project cost of Nu 50 million and Nu 25 million for manufacturing and services, respectively. FDI in activities as listed under Schedule III may not be permitted.

Exchange Arrangement

Currency

Yes. The currency of Bolivia is the boliviano.

Other legal tender

No. The US dollar and the euro may be used in financial transactions.

Exchange rate structure

Unitary

Yes.

Dual

Multiple

Classification

No separate legal tender

Currency board

Conventional peg

Stabilized arrangement

Yes. The de jure exchange rate arrangement of the Plurinational State of Bolivia is a crawling peg to the US dollar (also called a “sliding” rate) and is characterized by small exchange rate movements that are not announced in advance. The Central Bank of Bolivia (CBB) determines the floor price for the daily competitive foreign exchange auction (“bolsín”) in which the financial private sector and the nonfinancial private sector as well participate. The CBB ensures that the exchange rate is consistent with moderate inflation, thus mitigating external and internal inflationary pressures, because the exchange rate is still used as a benchmark for the prices of nontradable goods, albeit to a decreasing extent because of bolivianization (dedollarization) in real and financial transactions. The exchange rates used in most exchange transactions fluctuate
daily within a band of 12 centavos (1.7%), defined by the official buying and selling exchange rates (Bs. 6.86 and Bs. 6.96, respectively) plus a margin of one centavo at each end. Because the boliviano stabilized against the US dollar since November 2011, the de facto exchange rate arrangement is classified as a stabilized arrangement. The authorities consider that the de facto stabilized arrangement does not fully reflect the exchange arrangement managed by the CBB because the official policy of a crawling peg has not changed. The CBB’s crawling peg mechanism allows the sliding rate to be set at zero without changing the arrangement if the underlying economic fundamentals warrant it. The CBB publishes information on its exchange market interventions and on its foreign exchange purchases and sales in the “Weekly Statistics” section and in other publications such as the Monthly Statistical Bulletin, all of which are available on its website.

**Official exchange rate** Yes. The official selling exchange rate is the minimum auction price resulting from the bolsín. The official exchange rate is used for official transactions, and the buying rate (Bs 0.10 less than the official rate) is used for valuation and accounting purposes. The CBB uses the official selling exchange rate of the day for same-day sales of US dollars to the general public and to financial institutions, by debiting the accounts in domestic currency and crediting the accounts in US dollars held with financial institutions (Board Resolution No. 63/2013). The CBB can sell US dollars to financial institutions and to the general public on the same day at the official selling exchange rate in effect (Board Resolution No. 63/2013). The majority of foreign exchange operations transacted by financial institutions and exchange bureaus are carried out at an exchange rate within the band defined by the buying and selling exchange rates, plus a margin of Bs 0.01 at each end. Effective November 1, 2018, the CBB stopped selling US dollars directly to the general public (ventas en ventanillas) and/or through financial intermediation entities with majority participation of the government. However, it continues to sell through the other two arrangements (bolsín and direct same-day sales). Similarly, foreign currency can be acquired from any Financial Intermediation Entity.

Exchange tax

Yes. To further the process of bolivianization of the economy, Law No.
713 of July 1, 2015, extended the Financial Transactions Tax (Impuesto a las Transacciones Financieras—ITF) to December 2018. This tax is levied on transactions performed in foreign currency and in domestic currency indexed to any foreign currency. The rate was 0.15% in 2015, increased to 0.20% in 2016, increased to 0.25% in 2017, and increased to 0.30% effective January 1, 2018, of the gross amount of the transaction and applies to taxpayers who are individuals or legal entities and who hold current or savings accounts. To that same end, Law No. 1135, effective December 20, 2018, amends Law No. 713, extending the effective date of the ITF until December 31, 2023, maintaining a rate of 0.30% while in force. The following are exempt from this tax:

1. credits to and debits from the savings accounts of individuals in foreign currency and in indexed domestic currency, up to US$2,000 or its equivalent in other foreign currencies;
2. on the condition of reciprocity and enforceability of agreements and treaties, credits to and debits from bank accounts corresponding to diplomatic and consular missions and diplomatic personnel;
3. credits to or debits from accounts belonging to the judicial branch, the legislative branch, the central government, the CBB, and departmental and municipal autonomous governments, except publicly owned enterprises;
4. credits to and debits from accounts held by entities governed by the Securities Market Law in the financial system or with the CBB, corresponding to investment accounts belonging to third parties;
5. credits to current or savings accounts through remittances from abroad; and
6. redemption and earnings of shares in investment funds with balances (in domestic or foreign currency) less than or equal to US$2,000.

Exchange subsidy No.

Foreign exchange market Yes. The bid-ask spread of the official exchange rate of the boliviano against the US dollar is set by the CBB Board at Bs 0.10. This differential is a benchmark for the parallel market, which determines its own differentials and the fees charged to its customers within the limits established for consumer protection. The Financial System Supervisory Authority (Autoridad de Supervisión del Sistema Financiero—ASFI) is responsible for verifying that financial institutions sell US dollars to their customers and users at an exchange rate no higher than Bs 0.01 above the CBB’s official exchange rate and buy US dollars from their customers and users at a rate no lower than Bs 0.01 below the CBB’s official rate. The majority of foreign exchange operations are conducted within this band. The CBB uses the official selling exchange rate of the day for same-day sales of US dollars to the general public and to financial institutions, by debiting the accounts in domestic currency and crediting the accounts in US dollars held with financial institutions (Article 19, Board Resolution No. 63/2013).

Spot exchange market Yes. The fee (or service charge) for outward fund transfers by the financial system through the CBB is 1% and the fee for funds transfers received by the financial system through the CBB is 0.6% (Board Resolution No. 175/2015). The exceptions are as follows: (1) transfers from exporters through the CBB and remittances equivalent to US$1,000 or less; and (2) transactions carried out through the financial system by the diplomatic corps, cooperation agencies, and international bodies. The temporary financial transactions tax, mentioned in III.F above, is separate from the service charge mentioned in this paragraph.

The commissions on transfers from the financial system through the
CBB are 1.6% for transfers abroad and from 0.0% for transfers from abroad (Board Resolution No. 18/2016). Included are transactions through the CBB for exports and remittances, and transactions through the financial system for the diplomatic corps, cooperation agencies, and international bodies, and remittances less than or equal to US$1,000.

The fee for transfers of funds sent by the financial system through the CBB is 2% (Board Resolution No. 39/2017).

Charges on transfers for 2019 remain at 2% for transfers going abroad and 0% for transfers from abroad RD 177/2018.

Exchange transactions may be freely executed and require no special authorization. Commercial banks, exchange bureaus, individuals, legal entities, and nonfinancial private sectors are authorized to deal in foreign exchange. The foreign exchange bought in official public sales by the CBB is freely available for use by the buyer. Foreign exchange sold at auction may be bought only by institutions holding accounts with the CBB, whether for themselves or on behalf of their clients.

Effective November 1, 2018, the CBB stopped selling US dollars directly to the general public (ventas en ventanillas) and/or through financial intermediation entities with majority participation of the government.

Exchange bureaus also trade in foreign currency and are subject to supervision and regulation by the ASFI, pursuant to ASFI Resolution No. 486/2011 of June 16, 2011.

The Regulation governing Exchange Bureaus, issued September 14, 2011, establishes guidelines for the creation of exchange bureaus and for the process of conforming to those in operation. The services that exchange bureaus with legal status can engage in were also defined, such as buying and selling currency, exchanging traveler’s checks, sending and receiving domestic transfers, exchanging and paying remittances from abroad in the capacity of payment agent and, for single-person exchange bureaus only, the buying and selling of currency.

As of July 18, 2019, 161 exchange bureaus and 7 money transfer and remittance companies were registered under the ASFI operating license.

**Operated by the central bank** Yes.

The CBB buys foreign currency from the financial system at the buying exchange rate of the day, without any restriction as to the amount. In turn, the CBB sells foreign currency to the financial and nonfinancial private sector through the various mechanisms specified in the previous section.

**Foreign exchange standing facility** Yes.

Exchange market participants may buy foreign currency at the CBB, and the CBB in turn sells foreign currency to the financial and nonfinancial private sector and to the public sector.

**Allocation** No.

**Auction** Yes.

The CBB sells foreign currency at a bolsín-denominated daily auction. The Monetary and Exchange Policy Committee (Comité de Política Monetaria y Cambiaria—CPMC) determines the amounts to be auctioned. The information on the supply of foreign currency is published each day on the CBB website. The floor price is set by the CBB president, who directs the allocation of foreign currencies in descending price order, provided it is higher than the floor price, until the bid is exhausted. Financial institutions may participate in these auctions on their own account or on behalf of their clients with a minimum bid of US$100,000; the nonfinancial private sector may also participate. Auction results are published on the CBB website daily. Bidders pay their offered price. Bids without the necessary
resources are rejected and the bidder is barred from bolsín participation for five business days.

If the US dollar amount offered is not sufficient to meet all the bids submitted at a particular exchange rate, the dollars are awarded on a prorated basis.

The total offer of US$150 million is distributed as follows: the CBB’s daily offer of dollars through the bolsín is US$100 million, and direct sales amount to US$50 million. Monetary and Exchange Policy Committee (CPMC) Act 024/2014 of December 23, 2014.

The CBB purchases foreign currency from the financial system at the buying rate of the day, without any restriction as to the amount.

Fixing No.

*Interbank market* Yes.

Financial intermediaries are free to carry out transactions at the exchange rate they set among themselves, within the limits of Bs 0.01 below and above the CBB buying and selling rates, respectively. As of December 31, 2018, there are 58 financial intermediaries, of which 13 are full-service banks, 2 are banks serving small and medium enterprises (SMEs), 2 are public banks (BDP S.A.M. and Banco Unión), 3 are Housing Finance Institutions (Entidades Financieras de Vivienda—EFV), 30 are savings and loan cooperatives, and 8 are Development Finance Institutions (DFI), which became subject to regulation in November 2016.

Within the framework of the legislation in force (Law No. 393, the Financial Services Law, Articles 19 and 150), an operating license was granted by the Financial System Supervisory Authority to the financial intermediaries.

Over the counter No.

Brokerage No.

Market making Yes.

Forward exchange market No.

*Official cover of forward operations* No.

Controls on the use of domestic currency No.

*For current transactions and payments* No.

*For capital transactions* No.

Transactions in capital and money market instruments No.

Transactions in derivatives and other instruments No.

Credit operations No.

Use of foreign exchange among residents No.

**Payments arrangements** Yes.

Bilateral payments arrangements No.
Payments between Bolivia and other LAIA (ALADI) countries may take place through netting accounts maintained by the CBB and the CBs of the countries concerned, within the framework of the ALADI multilateral clearing system.

Within the framework of the Bolivian Alliance for the Peoples of Our America (ALBA), in fiscal year 2010 the foreign trade transactions began that are carried out in the Central Clearinghouse of the Unified Regional Payments System (Sistema Unitario de Compensación Regional—SUCRE); clearance occurs every six months.

Payments between Bolivia and other ALADI countries may take place through netting accounts maintained by the CBB and the CBs of the countries concerned, within the framework of the ALADI multilateral clearing system. Within the framework of the Bolivian Alliance for the Peoples of Our America (ALBA), the foreign trade transactions are carried out in the Central Clearinghouse of the Unified Regional Payments System (Sistema Unitario de Compensación Regional—SUCRE); clearance occurs every six months.

Purchases and sales of gold are regulated by the National Service for the Registration and Control of Minerals and Metals Trading (Servicio Nacional de Registro y Control de la Comercialización de Minerales y Metales—SENARECOM), in exercise of the powers conferred on it by S.D. No. 29165 of June 13, 2007, to ensure the correct payment of the mining royalty (Regalía Minera—RM). Thus, trading in unprocessed, amalgamated, preconcentrated, concentrated, and precipitated gold, and gold in the form of cast bars and refined ingots is taxed at 7% for official quotes greater than US$700, between 4% and 7% for official quotes between US$400 and US$700, and 4% for official quotes of less than US$400. A rate of 60% applies to trading on the domestic market.

On the other hand, to boost International Gold Reserves, the CBB is authorized to buy gold in bars from state mining companies and from the Integrated Center for the Trading of Minerals from Mining Cooperatives through Law No. 175 of October 11, 2011, which was regulated by S.D. Nos. 1167 and 1327 of March 14 and August 15, 2012, respectively, which define the conditions and requirements for purchasing gold.

**Foreign currency**

| Yes. |

As a measure to control imports (inflows) and exports (outflows) of foreign currency (banknotes in foreign currency), all individuals and legal entities, whether public or mixed, national or foreign, are required to declare to the National Customs of Bolivia the entry and exit of foreign currency from the national territory, using Form No. 250 “Sworn Declaration of Accompanied Baggage and Entry of Foreign Currency” and Form No. 251 “Sworn Declaration of Exit of Foreign Currency” allowing the physical transfer of foreign currency in amounts less than US$50,000 or its equivalent in other currencies. Amounts between US$50,000 and US$500,000 or their equivalent in other currencies require CBB authorization. Larger amounts are subject to authorization by the Ministry of Economy and Public Finance by way of specific Ministerial Resolution after, among other considerations, a favorable technical opinion from the CBB. Financial intermediaries may physically import and export foreign currency exclusively through the CBB, in accordance with established procedures and conditions.

**Import licenses and other nontariff measures**  
Yes. Items 4 and 5 of Paragraph I of Article 298 of the Political Constitution of the State specify that the customs and foreign trade regime falls under the exclusive jurisdiction of the central level of government.

Law No. 1990 “General Customs Law,” which governs the exercise of customs authority and the legal relationships established between National Customs and individuals or legal entities involved in importing and exporting goods into or from the national customs territory, and establishes the general rules applicable to the Special Free-Trade Zones System.

**Positive list**  
Yes. Some goods are subject to the presentation of prior authorizations (AP) or certificates (C) as additional documents for importation or customs clearance, in accordance with the procedure set forth in S.D. No. 25870 of August 11, 2000.

**Negative list**  
Yes. Imports of certain goods are prohibited because they are considered harmful to the environment, human or animal health or life, or plant life.
Open general licenses | No.
Licenses with quotas | No.
Other nontariff measures | Yes. Health and Plant Health Permits (animals, food, plants, seeds, medications, leather, wood, wool, cotton, and fine animal fur) prior to the shipment of goods in the country of origin, which are required for the customs clearance certificate.
Import taxes and/or tariffs | Yes. Tariff Schedule

To contribute to transformation of the means of production with a view to prioritizing strategic sectors that add value and diversification, while leveraging and focusing on domestic market potential and supply, without ignoring external demand, a schedule of tariffs for merchandise imports was established comprising seven tariff rates, with rates of 0% and 5% to encourage imports of capital goods and inputs as well as change in the productive matrix, medium rates of 10%, 15%, and 20% so as not to affect imports of goods included in the household basket; and high rates (30% and 40%) to discourage merchandise imports that compete with national production, primarily manufactured goods.

Tax and Customs Treatment Applicable to Specific Products
Tariff rates (TRs) for the following have been amended: alcoholic beverages, rabbit fur, hats, cigarettes, footwear, industrial cleaning equipment, tables for sewing machines, spare parts and manual blowtorches, centrifuges, dishwashers, computers, etc.
In addition, the temporary deferral of import tariffs on certain foodstuffs was established as part of the national food security policy. To avoid shortages of products essential for national production, S.D. No. 2860 of August 2, 2016, extended the 0% tariff on imports of wheat, morcajo, corn, and wheat flour (until December 31, 2016) and for a period of five years for agriculture and livestock inputs, as well as farm machinery and equipment.
In addition, Supreme Decrees were issued extending the 0% tariff on various products with a view to guaranteeing food security, energy security (diesel oil), education, health, and hydrocarbon industrialization, primarily.

The 0% tariff on diesel imports (subheading NANDINA 2710.19.21.00) was temporarily extended through S.D. No. 3438 of December 20, 2017, for another year, effective January 1, 2018, through December 31, 2018.
Law No. 3058 of May 17, 2005, exempts the equipment, materials, and goods necessary for the installation of residential natural gas, as well as the construction of plants and factories, from the payment of import tariffs. This benefit applies to the operations of the Bolivian state-owned oil and gas company (Yacimientos Petrolíferos Fiscales Bolivianos—YPFB) and of the Bolivian Hydrocarbon Industrialization Company (Empresa Boliviana de Industrialización de Hidrocarburos).
As of February 5, 2014, new excise tax (impuesto al consumo específico—ICE) rates were established for vehicle imports through S.D. No. 1889, with lower rates for imports of new vehicles and those originally manufactured to run on natural gas (Gas Natural Vehicular—GNV).

Commercial Agreements
The Plurinational State of Bolivia grants preferential treatment to imports from countries with which it has preferential agreements within the framework of ALADI.
The tariff preferences granted in the framework of all the agreements

©International Monetary Fund. Not for Redistribution
amount to 100% of the tariff universe except for the agreement with Mexico which amounts to 97%, and with Chile which is 4% of the tariff universe. Similarly, with the Bolivarian Republic of Venezuela (Venezuela), there is a tariff preference equal to 100% of the tariff universe. Outside the ALADI framework, there is a tariff preference with the Bolivarian Republic of Venezuela.

Donation of Goods
In fiscal years 2009, 2010, 2011, 2012, 2013, and 2014, imports of goods donated to public entities were exempted from the payment of customs taxes by the Laws approving the General State Budget. Subsequently, Law No. 617 of December 17, 2014, determined that imports of goods donated to public entities directly from abroad or acquired by them with resources derived from nonreimbursable financial cooperation or from donations will be exempt from the full payment of customs duties. In addition, S.D. No. 2308 of March 25, 2015, regulating Law No. 617, establishes the procedure and the requirements for processing exemption from import duties on in-kind donations of goods or on goods acquired with resources derived from donations or nonreimbursable cooperation.

Law No. 1990 of July 1999, the “General Customs Law,” which governs the exercise of customs authority and the legal relationships established between National Customs and individuals or legal entities involved in importing and exporting goods into or from the
national customs territory, and establishes the general rules applicable to the Special Free-Trade Zones System. Law No. 2493 of August 4, 2003, Amending Tax Measures and Establishing the Tax Regime Applicable to Free-Trade Zones.

The Government of the Plurinational State of Bolivia established a socioeconomic policy that puts the country’s food security and food sovereignty first. Thus, export permits are granted without quota restrictions when this activity does not jeopardize the supply of basic products.

Without quotas
Yes.

The Government of the Plurinational State of Bolivia established a socioeconomic policy that puts the country’s food security and food sovereignty first. The policy aims to prevent usury, speculation, and/or price increases of certain basic foodstuffs. Steps have been taken to authorize exports of certain products only after verification of adequate fairly priced domestic supplies.

Effective January 18, 2018, S.D. No. No. 3456 of January 10, 2018: (1) amended and incorporated provisions into S.D. No. 1554 regulating Law No. 307 on the sugarcane production complex to promote exports and (2) established oversight and monitoring mechanisms for ensuring conditions for adequate fairly priced domestic supplies, taking market conditions into account.

Effective June 5, 2019, S.D. No. 3920 of May 29, 2019, authorized soybean exports equal to 60% of the national production of the previous fiscal year according to official INE data after verification of sufficiency and supply in the domestic market at a fair price.

With quotas

### Controls on capital and money market instruments

| Yes. |

In accordance with Law No. 1834 of March 18, 1998, securities traded on the Bolivian securities market must be authorized and registered in the ASFI Securities Market Registry. Securities authorized for trading on the Bolivian securities market are: fixed-term deposits, promissory notes, bonds, National General Treasury Bonds, CBB bonds, share certificates of closed-end investment funds, CBB and National General Treasury bills, securitized assets, and shares.

The only instruments that may be publicly offered on the Bolivian securities market are those listed on certain foreign securities exchanges identified as such by the Directorate of Securities Supervision and Holding Companies (DSVSC) of the ASFI, provided they comply with the registration and disclosure requirements set out in the law. Only securities authorized by the ASFI may be traded on the OTC market. Article 471 of the Financial Services Law (LSF) stipulates that the ASFI will regulate the maximum limits on investment abroad by financial intermediaries.

### On capital market securities

| Yes. |

Securities traded on the Bolivian Securities Market must be authorized and registered in the ASFI Securities Market Registry. Securities authorized for trading on the Bolivian Securities Market are: fixed-term deposits, promissory notes, bonds, National General Treasury Bonds, CBB bonds, share certificates of closed-end investment funds, CBB and National General Treasury bills, securitized assets, and shares.

### Shares or other securities of a participating nature

| Yes. |

### Purchase locally by nonresidents

| No. |

### Sale or issue locally by nonresidents

| No. |

### Purchase abroad by residents

| Yes. |

Article 471 of Law No. 393 on Financial Services stipulates that the ASFI will regulate the maximum limits on investment abroad by financial intermediaries, that is, entities that accept deposits and grant loans.

In accordance with ASFI Resolution No. 429/2016 of June 17, 2016, the limits on investing in shares of multilateral financing organizations may not exceed 40% of the bank’s regulatory capital. Investments in shares of auxiliary financial service companies, in enterprises in the securities, insurance, and pension sectors, and in development banks may not exceed the amount of their regulatory capital, insofar as it is a requirement for obtaining credit lines.

Effective March 27, 2019, ASFI through Resolution No. 247/2019 modified the Regulation of Investments in Fixed Assets and
Operations with Foreign Entities and lowered the foreign investment limit of banks from 25% to 15% of regulatory capital. To compute this limit, investments in time deposits and securities abroad are considered, in addition to the account of banks and corresponding entities abroad.

Additionally, through Resolution No. 246/2019, ASFI approved reducing limits on investment abroad for new open and closed investment funds, from 25% to 5%, effective March 27, 2019. This new limit will not apply to investment funds that are currently in operation. However, it is established that the limit that these will have will be the level of investments registered as of March 27, 2019.

In accordance with Law No. 65 of December 10, 2010, investments abroad by pension fund managers may not exceed 50% of each managed fund.

Administrative Resolution APS/DJ/UI/N°464/2017 states that the National General Treasury of Bolivia may also directly or indirectly invest the resources of SIP Funds (Fondos del Sistema Integral de Pensiones; Integrated Pension System’s Funds) in foreign debt securities up to the limit of 10% of the total amount of each issue through the intermediaries contracted by the Ministry of the Economy and Public Finance of the Plurinational State of Bolivia.

In accordance with S.D. No. 25201, each year the CBB sets the maximum limit for investments abroad by insurance companies. Since January 1, 2015, the maximum limit for investments abroad by insurance companies is 10% of their investment resources; this limit remained unchanged in CBB Board Resolution No. 6/2018 of January 9, 2018.

Effective January 8, 2019, through CBB Board Resolution No. 6/2019 of January 8, 2019, the CBB lowered the maximum limit for foreign investments with insurance company resources from 10% to 7%. The APS (Autoridad de Fiscalización y Control De Pensiones y Seguros; Pensions and Insurance Supervision and Oversight Authority) stipulated that insurance companies adapt their investments in securities of issuers incorporated abroad to the percentage set until June 30, 2019.

Effective March 27, 2019, ASFI through Resolution No. 247/2019 modified the Regulation of Investments in Fixed Assets and Operations with Foreign Entities and lowered the foreign investment limit of banks from 25% to 15% of regulatory capital. To compute this limit, investments in time deposits and securities abroad are considered, in addition to the account of banks and corresponding entities abroad.

Also, the new formula to calculate the limit takes the monthly average of the daily balance of the sub-accounts with the cutoff date on the last day of the month. The deadline to adequate to this limit is June 28, 2019.

Additionally, through Resolution No. 246/2019, ASFI approved reducing limits on investment abroad for new open and closed...
investment funds, from 25% to 5%, effective March 27, 2019. This new limit will not apply to investment funds that are currently in operation. However, it is established that the limit that these will have will be the level of investments registered as of March 27, 2019.

In accordance with S.D. No. 25201, each year the CBB sets the maximum limit for investments abroad by insurance companies. Since January 1, 2015, the maximum limit for investments abroad by insurance companies is 10% of their investment resources; this limit remained unchanged in CBB Board Resolution No. 6/2018 of January 9, 2018.

Effective January 8, 2019, through CBB Board Resolution No. 6/2019 of January 8, 2019, the CBB lowered the maximum limit for foreign investments with insurance company resources from 10% to 7%. The APS stipulated that insurance companies adapt their investments in securities of issuers incorporated abroad to the percentage set until June 30, 2019.

In accordance with Law No. 65 of December 10, 2010, investments abroad by pension fund managers may not exceed 50% of each managed fund.

Administrative Resolution APS/DJ/UI/N°464/2017, issued by the Pension and Insurance Supervision and Control Authority, the body supervising and regulating pensions, approves the SIP (Sistema Integral de Pensions; Integrated Pension System) Investment Regulation for compliance (on a transitional basis) by the AFPs (Administradoras de Fondos de Pensiones; Pension Fund Management Firms), establishing that the resources of SIP Funds may be invested directly or indirectly in sovereign debt securities issued by other countries in accordance with the following limit and conditions: (1) up to 10% of the total amount of each issue and up to 10% of the value of each Fund; (2) They must have an international risk rating of AAA or another equivalent that represents the highest credit rating; (3) Returns equal to or exceeding the investment options presented by the local market; (4) Authorization on the part of the APS, which does not imply liability of any sort with respect to management of the investment portfolio of the SIP Funds; and (5) the amounts must be denominated in US dollars. The administrative resolution also stipulates that the National General Treasury of Bolivia may directly or indirectly invest the resources of SIP Funds in foreign debt securities up to the limit of 10% of the total amount of each issue through the intermediaries contracted by the Ministry of the Economy and Public Finance of the Plurinational State of Bolivia.

Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions Yes.

The purpose of the Financial Services Law (Law No. 393) is to regulate financial intermediation activities, the provision of complementary financial services, as well as the organization and operation of financial intermediaries and complementary financial services companies, financial consumer protection, and the government’s involvement as the governing body of the financial system, ensuring universal financial services and guiding operational activities in support of the country’s economic and social development policies. It includes new aspects focused on financial consumer protection and the development of the housing and productive sectors by establishing a system to control interest rates and minimum portfolio levels (S.D. No. 1842 and S.D. No. 2055). It also strengthens the prudential and solvency measures applicable to financial institutions, in addition to establishing deposit insurance for low-income savers, who account for more than 90% of the total number of deposit accounts.

S.D. No. 1842 of December 18, 2013, establishes the schedule of lending interest rates for the financing of low-cost housing and the minimum portfolio levels for loans to the productive and low-cost housing sectors. Similarly, S.D. No. 2055 of July 9, 2014, stipulates the minimum interest rates for deposits by the public in cash savings accounts and fixed-term deposits, as well as the maximum interest...
rates on loans to the productive sector. Through Ministerial Resolution No. 31/2015 of January 23, 2015, yearly intermediate targets are established relating to productive sector loan portfolios and low-cost housing that must be met by banks (full-service and SME banks), and Housing Financial Institutions.

Since February 11, 2015, under S.D. No. 2264 of February 11, 2015, the Banco de Desarrollo Productivo (Productive Development Bank—BDP) is authorized to implement and manage a registry system that provides registration and valuation services for unconventional guarantees in the financial system, in accordance with regulations issued by the ASFI. In fulfillment of the social function incumbent on financial intermediaries in accordance with Law No. 393 on Financial Services, S.D. No. 2136 and S.D. No. 2137 of 2014 set out that 6% of the net earnings of the banks serving SMEs and full-service banks must be set aside for the establishment of loan guarantee funds for the productive sector (FOGACP) and the low-cost housing sector (FOGAVIS).

Subsequently, and also in connection with the above-mentioned social function, S.D. No. 3036 and Ministerial Resolution No. 55 of February 10, 2017, stipulated that 3% of the earnings of full-service banks (fiscal 2016) are intended to strengthen the assets of the FOGAVISPs, which are managed by them, and another 3% for the establishment of a Seed Capital Fund (FOCASE), the latter for the purpose of granting loans to productive and service enterprises. In the case of SME banking, 6% of net earnings are to be earmarked specifically for FOCASE.

To the purpose of strengthening the equity of FOCASE, it was determined to direct 6% of the earnings of the full-service banks and banks serving SMEs from fiscal 2017 to that end, by means of S.D. No. 3459.

Through S.D. No. 3764, the FOGAVIS resources were increased again, with 3% of the profits of the 2018 fiscal year of multiple banks, as well as those of FOGACP, with 3% of the profits of the 2018 fiscal year of multiple banks, and 6% of the profits of the 2018 fiscal year of SME banks.

The purpose of S.D. No. 3033 of December 28, 2016, is to define the degree of growth and expansion of the geographic coverage of the financial system, through the installation of Financial Service Points in the country, to achieve the targets set in the Patriotic Agenda.

In accordance with Chapter VIII of Title II of Book 2 of the Compilation of Standards for Financial Services, revised April 27, 2018, short-term foreign liabilities are subject to reserve requirements, with the exception of liabilities incurred solely in connection with foreign trade operations in which the assets and liabilities of each transaction are exactly matched.

| Borrowing abroad | Yes. |
| Maintenance of accounts abroad | No. |
| Lending to nonresidents (financial or commercial credits) | No. |
| Lending locally in foreign exchange | Yes. |

In accordance with the ASFI Circular of December 16, 2010, as amended by ASFI Resolution No. 13/2014, the specific provisions for loans denominated in foreign currency or in indexed domestic currency (MNV) as a function of the category and type of credit are as follows:

**Category A:**

(1) For Business, Microcredit, SMEs 2.25% and 1% for direct and
contingent, respectively;  
(2) for housing (direct and contingent) Residential mortgage credit, social residential mortgage credit, and social residential credit with no mortgage guarantee, 2.5%;  
(3) for housing (direct and contingent) Residential credit without mortgage guarantee and duly secured home loans without mortgage guarantee, 7%;  
(4) for consumption (direct and contingent), 7%.  
Category B:  
(1) For Business, Microcredit, SMEs 5% for both direct and contingent;  
(2) for housing (direct and contingent) Residential mortgage credit, social residential mortgage credit, and social residential credit with no mortgage guarantee, 5%;  
(3) for housing (direct and contingent) Residential credit without mortgage guarantee and duly secured home loans without mortgage guarantee, 12%;  
(4) for consumption (direct and contingent), 12%.  
Category C: 20% for all types of loans;  
Category D: 50% for all types of loans;  
Category E: 80% for all types of loans;  
Category F: 100% for all types of loans.

The reserve requirement regime varies by currency. Effective April 9, 2019, via CBB Board Resolution No. 35/2019, the reserve requirement for deposits in foreign currency and MVDOL (unit of account indexed to the exchange rate vis-à-vis the US dollar) for demand deposits, savings account deposits, and fixed-term deposits (DPFs) up to 360 days is 31.5% (previously effective April 24, 2018, decreased to 46.5% from 56.5%), 18% for DPFs between 360 and 720 days (previously effective April 24, 2018, decreased to 33% from 43%), and 10% for DPFs greater than 720 days (previously effective April 24, 2018, decreased to 25% from 35%). In addition, it allows the CBB or one or more foreign institutions to act as delegated administrators in the administration of the RAL-ME Fund.  

For domestic currency and domestic currency indexed to the Housing Development Unit MNUFV, it is 11% for demand deposits, savings account deposits, and fixed-term deposits (Depósitos a Plazo Fijo—DPF) of 30–360 days, 5% in securities and 6% in cash. Deposits in MN and UFV greater than 360 days are exempt from reserve requirements. For funds in escrow, which is the percentage of cash reserves that financial intermediaries hold in foreign currency and MVDOL in their vaults, the reserve requirement is 40%, and for domestic currency, it is up to 50% for MNUFV.

Article 471 of Law No. 393 on Financial Services stipulates that the ASFI will regulate the maximum limits on investment abroad by financial intermediaries, that is, entities that accept deposits and grant loans. In accordance with ASFI Resolution No. 429/2016 of June 17, 2016, the maximum limits for investments abroad by banks are the following:

Financial intermediaries, entities that take deposits and place portfolio investments may invest up to 40% of their regulatory capital in the establishment of fixed branches or offices abroad and/or in shares of multilateral financing organizations abroad. Investments in shares of auxiliary financial service companies, in enterprises in the securities, insurance, and pension sectors, and in development banks may not exceed the amount of their regulatory capital insofar as it is a requirement for obtaining credit lines. Effective March 27, 2019, ASFI through Resolution No. 247/2019 modified the Regulation of Investments in Fixed Assets and Operations with Foreign Entities and lowered the foreign investment limit of banks from 25% to 15% of regulatory capital. To compute this limit, investments in time deposits and securities abroad are considered, in addition to the account of banks and corresponding entities abroad. The new formula to calculate the limit takes the monthly average of the daily balance of the sub-accounts with the cutoff date on the last day of the month. The deadline to adequate to this limit is June 28, 2019.

The net open foreign exchange position limits are the same for resident and nonresident assets and liabilities.

For financial intermediaries, the long position limit in foreign currency, MVDOL, and other foreign currencies is 60% and the short position limit in foreign currency, MVDOL, and other foreign currencies (excess of liabilities over assets in those denominations), effective January 17, 2018, is increased to 40% from 30% of equity. In the case of MNUFV, the long position limit (excess of assets over liabilities in that denomination) is 10%.

Effective January 24, 2019, CBB Resolution No. 11/2019 changed for financial institutions the long position limit in foreign currency, MVDOL, and other foreign currencies from 60% to 50% and the short position limit in foreign currency, MVDOL, and other foreign currencies (excess of liabilities over assets in those denominations), was increased to 50% from 40% of equity.

For financial intermediaries, the long position limit in foreign currency, MVDOL, and other foreign currencies is 60% and the short position limit in foreign currency, MVDOL, and other foreign currencies (excess of liabilities over assets in those denominations), effective January 17, 2018, is increased to 40% from 30% of equity. In the case of MNUFV, the long position limit (excess of assets over liabilities in that denomination) is 10%.

Effective January 24, 2019, CBB Resolution 011/2019 changed for financial institutions the long position limit in foreign currency, MVDOL, and other foreign currencies from 60% to 50% and the
short position limit in foreign currency, MVDOL, and other foreign currencies (excess of liabilities over assets in those denominations), was increased to 50% from 40% of equity.

Article 18 of S.D. No. 25201 states that the CBB must set an annual maximum limit for investments abroad by insurance companies. Effective January 8, 2019, CBB Board Resolution No. 6/2019 stipulates that for the fiscal year 2019, the maximum limit for investments abroad by insurance companies is 7% of their investment resources (previously 10%).

Effective January 8, 2019, CBB Board Resolution No. 6/2019 stipulates that for the fiscal year 2019, the maximum limit for investments abroad by insurance companies is 7% of their investment resources (previously 10%).

Total investment abroad may not exceed 50% of each Fund (Solidarity Fund, Collective Risk Fund, and Retirement Savings Fund of the Integral Pension System) administered by the public manager of social security.

Administrative Resolution APS/DJ/UI/N°464/2017, issued by the Pension and Insurance Supervision and Control Authority, the body supervising and regulating pensions, approves the SIP Investment Regulation for compliance (on a transitional basis) by the AFPs, establishing that the resources of SIP Funds may be invested directly or indirectly in sovereign debt securities issued by other countries in accordance with the following limit and conditions: (1) up to 10% of the total amount of each issue and up to 10% of the value of each Fund; (2) They must have an international risk rating of AAA or another equivalent that represents the highest credit rating; (3) Returns equal to or exceeding the investment options presented by the local market; (4) Authorization on the part of the APS, which does not imply liability of any sort with respect to management of the investment portfolio of the SIP Funds; and (5) the amounts must be denominated in US dollars.

Administrative Resolution APS/DJ/UI/N°464/2017 establishes that the National General Treasury of Bolivia may also directly or indirectly invest the resources of SIP Funds in foreign debt securities up to the limit of 10% of the total amount of each issue through the intermediaries contracted by the Ministry of the Economy and Public Finance of the Plurinational State of Bolivia.

Total investment abroad may not exceed 50% of each Fund (Solidarity Fund, Collective Risk Fund, and Retirement Savings Fund of the Integral Pension System) administered by the public manager of social security.

| Limits (max.) on investment portfolio held abroad | Yes. |

In accordance with Title 1 of Book 5 of the ASFI Compilation of Standards for the Securities Market, amended September 26, 2017, by Resolution ASFI/1131, Open-Ended and Closed-Ended Investment Funds may invest up to 25% of their total portfolio in international financial markets.

Through Resolution No. 246/2019, ASFI approved reducing limits on investment abroad for new open and closed investment funds, from 25% to 5%, effective March 27, 2019. This new limit will not apply to investment funds that are currently in operation. However, it is established that the limit that these will have will be the level of investments registered as of March 27, 2019.

</tbody>
</table>
The Financial Transaction Tax (Impuesto a las Transacciones Financieras) was extended until December 31, 2023.

Foreign exchange market
Spot exchange market
The Central Bank of Bolivia stopped selling US dollars directly to the general public (ventas en ventanillas) and/or through financial intermediation entities with majority participation of the government.

Imports and Import Payments
Import taxes and/or tariffs
The 0% tariff on diesel imports (subheading NANDINA 2710.19.21.00) was temporarily extended through Supreme Decree No. 3438 of December 20, 2017, for another year until December 31, 2018.

Exports and Export Proceeds
Export licenses
Supreme Decree (S.D.) No. 3456 of January 10, 2018: (1) amended and incorporated provisions into S.D. No. 1554 regulating Law No. 307 on the sugarcane production complex to promote exports and (2) established oversight and monitoring mechanisms for ensuring conditions for adequate fairly priced domestic supplies, taking market conditions into account.

Exports and Export Proceeds
Export licenses
Supreme Decree No. 3920 of May 29, 2019, authorized soybean exports equal to 60% of the national production of the previous fiscal year according to official INE data after verification of sufficiency and supply in the domestic market at a fair price.

Capital Transactions
Controls on capital transactions
Through Central Bank of Bolivia (CBB) Board Resolution No. 6/2019 of January 8, 2019, the CBB lowered the maximum limit for foreign investments with insurance company resources from 10% to 7%. The APS (Pensions and Insurance Supervision and Oversight Authority) stipulated that insurance companies adapt their investments in securities of issuers incorporated abroad to the percentage set until June 30, 2019.

Capital Transactions
Controls on capital transactions
Autoridad de Supervisión del Sistema Financiero (ASFI) through Resolution No. 247/2019 modified the Regulation of Investments in Fixed Assets and Operations with Foreign Entities and lowered the foreign investment limit of banks from 25% to 15% of regulatory capital. To compute this limit, investments in time deposits and securities abroad are considered, in addition to the account of banks and corresponding entities abroad. Additionally, through Resolution No. 246/2019, ASFI approved reducing limits on investment abroad for new open and closed investment funds, from 25% to 5%. This new limit will not apply to investment funds that are currently in operation. However, it is established that the limit that these will have will be the level of investments registered as of March 27, 2019.

Bonds or other debt securities
Through Central Bank of Bolivia (CBB) Board Resolution No. 6/2019 of January 8, 2019, the CBB lowered the maximum limit for...
foreign investments with insurance company resources from 10% to 7%. The APS (Pensions and Insurance Supervision and Oversight Authority) stipulated that insurance companies adapt their investments in securities of issuers incorporated abroad to the percentage set until June 30, 2019.

**03/27/2019**

Autoridad de Supervisión del Sistema Financiero (ASFI) through Resolution No. 247/2019 modified the Regulation of Investments in Fixed Assets and Operations with Foreign Entities and lowered the foreign investment limit of banks from 25% to 15% of regulatory capital. To compute this limit, investments in time deposits and securities abroad are considered, in addition to the account of banks and corresponding entities abroad.

Also, the new formula to calculate the limit takes the monthly average of the daily balance of the sub-accounts with the cutoff date on the last day of the month. The deadline to adequate to this limit is June 28, 2019.

Additionally, through Resolution No. 246/2019, ASFI approved reducing limits on investment abroad for new open and closed investment funds, from 25% to 5%. This new limit will not apply to investment funds that are currently in operation. However, it is established that the limit that these will have will be the level of investments registered as of March 27, 2019.

</tr>
</tbody>
</table>

The exchange rate arrangement is a currency board. The CB covers base money with its foreign reserves, including currency in circulation and commercial bank deposits. The Law on the Central Bank, adopted by the parliamentary assembly of Bosnia and Herzegovina, guarantees convertibility of the currency of Bosnia and Herzegovina. There are no restrictions on the purchase and sale of foreign exchange. The Central Bank of Bosnia and Herzegovina publishes data on its sales and purchases.
Conventional peg
Stabilized arrangement
Crawling peg
Crawl-like arrangement
Pegged exchange rate within horizontal bands
Other managed arrangement
Floating
Free floating

**Official exchange rate**

| Yes. | The convertible mark is pegged to the euro at the rate of KM 1 per €0.51129. This rate applies to CB transactions as well as accounting and valuation. The exchange rate is fixed by the Law on the CBBH, and it can be changed only through parliamentary approval. The official exchange rate is used for foreign exchange transactions between the CB, commercial banks, and government; and for valuation of import and export transactions. |

**Monetary policy framework**

Exchange tax No.

Exchange subsidy No.

Foreign exchange market Yes. Commercial banks and other financial institutions may buy and sell convertible mark for euros and other foreign currency without restriction at the official exchange rate indicated in Article 32 of the CBBH law. Banks and exchange bureaus may charge a commission up to 1% in their foreign exchange transactions.

Spot exchange market Yes. Supervisory authorities issue licenses to commercial banks, which are authorized to conduct foreign exchange operations. As of December 31, 2018, 26 banks had licenses (17 banks licensed by the Banking Agency of the Federation of Bosnia and Herzegovina and 9 licensed by the Banking Agency of Republika Srpska). Foreign exchange bureaus may also deal in foreign exchange on behalf of banks (if they have a contract with a bank) and are subject to licensing by the relevant ministry. Exchange bureaus may engage in cash retail transactions only. They may buy traveler’s checks and buy and sell foreign currency banknotes. Although they may sell foreign currency to residents, their main function is currency banknote exchange services for nonresidents. They cannot make foreign currency payments and transfers on behalf of their clients. Exchange bureaus operate under contracts with banks. The exchange rates and their commissions are specified in their contract with the bank, except the exchange rate of the euro. Exchange bureaus’ operations are supervised by the Banking Agency of the Federation of Bosnia and Herzegovina, the Banking Agency of Republika Srpska, and the Foreign Exchange Inspectorate of Republika Srpska.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exports and Export Proceeds

Repatriation requirements
Yes. Proceeds from exported goods and services must be collected and repatriated in full within 180 (90 in the Brčko District) days of the date of exportation (that is, customs clearance) or delivery of services. Exportation of goods and services with a contracted payment period longer than six months is considered a loan. Residents can collect export proceeds in cash up to €10,000 a month and 1,000 KM per transaction. Cash proceeds exceeding this amount are subject to the approval of the respective MOF of the Republika Srpska or Federation of Bosnia and Herzegovina. Residents may receive cash payments without approval for: catering and tourism; airport and port services and supply of fuel, food products, technical materials, and other nondurables for aircrafts and ships; transport services for goods and persons; urgent medical assistance and road tolls.

Surrender requirements
No.

Surrender to the central bank
No.

Surrender to authorized dealers
No.

Financing requirements
No. Cash proceeds for exports are allowed up to €10,000 a month and 1,000 KM per transaction. Larger cash payments require approval of the respective MOF of the Republika Srpska or Federation of Bosnia and Herzegovina.

Documentation requirements
Yes.

Letters of credit
Yes.

Guarantees
Yes.

Domiciliation
No.

Preshipment inspection
Yes.

Other
Yes. Exporters must be authorized to engage in foreign trade. Customs authorities require that exporters provide documents accompanying the goods; in some cases, documents verifying the origin of the goods are also required. Approval from the Ministry of Foreign Trade is required for exports of military equipment, blood, narcotics and medicines containing narcotics, and other pharmaceutical products.

Residents other than banks may conduct loan operations abroad only in their name and on their own behalf. Residents must receive from nonresidents adequate instruments securing the loan repayment.

Residents receiving a financial loan from abroad must transfer it through a bank or foreign exchange account abroad opened in accordance with the laws on foreign exchange operations in both entities.

Foreign equity ownership is not limited, but must be registered with the relevant ministry for administrative purposes and benefits (no...
restrictions). Only investments in the production of arms, ammunition, explosives for military use, and military equipment and in the dissemination of public information are limited at 49% foreign ownership.

| Controls on liquidation of direct investment | No. | Outstanding tax balances must be paid on liquidation. |
| Controls on real estate transactions | Yes. |
| Purchase abroad by residents | No. |
| Purchase locally by nonresidents | Yes. | A reciprocity agreement applies to countries that were part of the former Federal Republic of Yugoslavia. There are no limitations for other nonresidents. |
| Sale locally by nonresidents | No. |
| Controls on personal capital transactions | Yes. |
| Loans | Yes. |
| By residents to nonresidents | Yes. | Loans to nonresidents with maturity of less than a year are prohibited, excluding loans from banks and loans granted by residents for establishing permanent economic relationships. Loans in domestic currency between residents and nonresidents are prohibited. |
| To residents from nonresidents | Yes. | Residents (except banks) may contract loans with nonresidents only in their name and on their own behalf. Residents must transfer loans from abroad through a bank or foreign exchange account abroad opened in accordance with the laws on foreign exchange operations in both countries. Financial loans from abroad may be used through a bank if the loan agreement stipulates payment for goods and services directly to the supplier or if the loan is used to repay a previous foreign loan (refinancing). |
| Gifts, endowments, inheritances, and legacies | No. | Documents confirming the legitimate origin of the funds must be provided before the bank may complete a transaction. |

Investment firms and collective investment funds

Yes. There are no prescribed limits for foreign securities, and the rules on investing do not distinguish between domestic and foreign securities. The closed investment funds from Federation BiH may invest in any foreign markets, while closed investment funds from Republika Srpska may invest in EU, OECD, and CEFTA countries only. Exposure to a single issuer may not exceed 15% of the total assets of an investment fund. This rule does not apply to securities of EU governments and international financial institutions.

</thead>
<tbody>
<tr>
<td>Other legal tender</td>
<td>No.</td>
</tr>
</tbody>
</table>

**Exchange rate structure**

- Unitary | Yes. |
- Dual
- Multiple

**Classification**

- No separate legal tender
- Currency board
- Conventional peg
- Stabilized arrangement
- Crawling peg | Yes. |

The de jure and de facto exchange rate arrangements are classified as a crawling peg. The official exchange rate of the pula is determined according to a weighted basket of currencies comprising the SDR and the South African rand. The crawl rate is set as the difference between the Bank of Botswana’s (BOB’s) inflation objective and the inflation forecast in major trading partner countries. The crawl rate is thus determined using a forward-looking approach and is revised regularly. In this approach, the authorities periodically determine the crawl rate for the subsequent period, such as the next 6 or 12 months. The weights of the basket are 45% for the South African rand and 55% for the SDR. Effective January 1, 2018, a downward rate of...
A crawl of 0.3% (previously an upward rate of crawl of 0.26%) an annum was adopted, while the weights of the pula basket remained unchanged. Effective January 1, 2019, an upward rate of crawl of 0.3% (previously a downward rate of crawl of 0.3%) an annum was adopted, while the weights of the pula basket remained unchanged. Decisions relating to this framework are made by the President of Botswana on the recommendation of the Minister of Finance and Economic Development after consultation with the BOB.

**Official exchange rate**

Yes. The official exchange rate of the pula is determined according to a weighted basket of currencies comprising the SDR and the South African rand. The crawl rate is set as the difference between the BOB’s inflation objective and the inflation forecast of major trading partner countries. The crawl rate is thus determined using a forward-looking approach and is revised regularly. In this approach, the authorities periodically determine the crawl rate for the subsequent period, such as the next 6 or 12 months. The weights of the basket are 45% for the South African rand and 55% for the SDR. Effective January 1, 2018, a downward rate of crawl of 0.3% (previously an upward rate of crawl of 0.26%) an annum was adopted, while the weights of the pula basket remained unchanged. Effective January 1, 2019, an upward rate of crawl of 0.3% (previously a downward rate of crawl of 0.3%) an annum was adopted, while the weights of the pula basket remained unchanged.

**Monetary policy framework**

Exchange rate anchor

**Yes.**

*U.S. dollar*

*Euro*

*Composite* Yes. The monetary policy framework is primarily an exchange rate anchor vis-à-vis a basket of currencies comprising the SDR and rand. Within this framework, the crawl rate is determined using a forward-looking approach, which is based on the difference between the inflation forecast in major trading partner countries and the BOB’s medium-term inflation objective within a 3%–6% range, to achieve price stability, the overarching goal of the BOB.

**Payments arrangements**
Yes.

Bilateral payments arrangements
Yes.

Botswana has bilateral trade agreements with Korea, Malawi, Zambia, and Zimbabwe.

Operative
Yes. Correspondent banks have bilateral relationships in various countries to facilitate payments. These are regular correspondent bank agreements.

Inoperative
Yes. Correspondent banks have bilateral relationships in various countries to facilitate payments.

Regional arrangements
Yes. Botswana is a member of the SACU, which allows for free importation, and hence has no restrictions on trade-related payments to or from SACU countries. Botswana is also a member of the SADC Free Trade Agreement. Through its SACU membership, Botswana is part of the preferential trade agreement between the SACU and MERCOSUR and the free trade agreement between the SACU and the EFTA.

Clearing agreements
No.

Barter agreements and open accounts
No.

Administration of control
No. For practical and operational purposes, several administrative powers of the BOB have been delegated to commercial banks.

Payments arrears
No.

Official
No.

Private
No.

Controls on trade in gold (coins and/or bullion)
Yes. There are no restrictions on trading or owning precious metals in commercial form, such as coins, but there are restrictions on possession of unworked precious metals, such as bullion.

On domestic ownership and/or trade
Yes. There are no controls on ownership of processed metals, but unworked precious metals are subject to restrictions.

On external trade
Yes. Trade in processed metals is not restricted, but export permits are required; unworked precious metals are subject to restrictions.

Controls on exports and imports of banknotes
Yes.

On exports
Yes.

Domestic currency
No. A declaration at the time of travel is required for cash amounts of P 10,000 or more.

Foreign currency
Yes. Visitors may take out foreign currency they legitimately own, subject to declaration of cash amounts equal to or greater than the equivalent of P 10,000.

On imports
No.

Domestic currency
No.

Foreign currency
No.

**Resident Accounts**

Foreign exchange accounts permitted
Yes.

Held domestically
Yes. Commercial banks may open foreign exchange accounts for residents. These accounts facilitate foreign receipts and payments for...
customer transactions, eliminate the need to convert foreign currency receipts to pula and vice versa, and offer protection against exchange rate fluctuations. Commercial banks may open foreign exchange accounts for their customers for any amount in any currency at the banks’ discretion. Residents may buy foreign exchange from local banks to deposit in their foreign exchange accounts.

Commercial banks’ loans to nonresidents are restricted to 25% of the bank’s unimpaired capital for each nonresident customer, and total large-exposure loans (that is, loans in excess of 10% of unimpaired capital) to resident and nonresident companies may not exceed 800% of the bank’s unimpaired capital.

| **Lending locally in foreign exchange** | No. |
| **Purchase of locally issued securities denominated in foreign exchange** | No. |
| **Differential treatment of deposit accounts in foreign exchange** | Yes. |

These transactions are subject to the listing requirements of the Botswana Stock Exchange.

| **Reserve requirements** | Yes. |

The domestic currency deposit reserve requirement is 5%. It aims to
reduce the amount of liquidity absorbed through BOB certificates. Foreign currency deposits are not subject to reserve requirements. Commercial banks are required to maintain, at all times, 10% of prior month deposit liabilities as liquid assets.

**Liquid asset requirements**

No.

**Interest rate controls**

No.

The Regulatory Guideline on the Disclosure Framework for Deposit and Lending Interest Rates prescribes that the interest payable on the 91-day deposit or equivalent products must be 350 basis points below the prevailing Bank Rate.

**Credit controls**

No.

The Banking Act, along with Guidelines on large exposures, restricts a bank from granting facilities that are in excess of 10% of a bank’s unimpaired capital to a single customer or group of related customers without the specific approval of a bank’s entire board of directors. Further, a bank is required to seek prior approval of the BOB before granting loans and other credit facilities to a single entity or group of related companies which, in aggregate, are in excess of 30% of a bank’s unimpaired capital.

Differential treatment of deposit accounts held by nonresidents

No.

**Reserve requirements**

No.

**Liquid asset requirements**

No.

**Interest rate controls**

No.

**Credit controls**

No.

**Investment regulations**

No.

**Abroad by banks**

No.

**In banks by nonresidents**

No.

**Open foreign exchange position limits**

Yes.

There are prudential limits on individual and overall foreign currency exposure. For major currencies, the limit is 15% of a bank’s unimpaired capital; for other currencies, it is 5%. The overall foreign currency exposure limit is 30% of a bank’s unimpaired capital, using the shorthand method.

**On resident assets and liabilities**

Yes.

**On nonresident assets and liabilities**

Yes.

**Provisions specific to institutional investors**

Yes.

**Insurance companies**

Yes.

**Limits (max.) on securities issued by nonresidents**

Yes.

Effective May 17, 2019, there is a 20% aggregate limit on foreign securities, provided the investment in an individual institution is limited to 5%.

*Note that these thresholds are the proportions of admissibility (for solvency purposes) to Net Liabilities and the risk-based Prescribed Capital Target (“PCT”).

**Limits (max.) on investment portfolio held abroad**

Yes.

Effective May 17, 2019, insurers are required to hold assets in Botswana, the fair value of which is not less than 70%, or a higher percentage as may be prescribed, of the Net Liabilities and PCT. This is in regard to policies other than linked long-term policies.

**Limits (min.) on investment portfolio held locally**

Yes.

Effective May 17, 2019, insurers are required to hold assets in Botswana, the fair value of which is not less than 70%, or a higher percentage as may be prescribed, of the Net Liabilities and PCT. This is in regard to policies other than linked long-term policies.
Currency-matching regulations on assets/liabilities composition

No.

There are no specific currency-matching regulations/rules; however, insurers are only allowed to invest in derivative instruments provided:

1. The derivatives are in respect of a linked long-term policy,
2. The derivatives are acquired in respect of assets in excess of liabilities and PCT,
3. The derivatives are acquired for the purpose of reducing investment risk.

This provides for insurers to hedge against (currency) investment risk.

Pension funds

Yes.

Limits (max.) on securities issued by nonresidents

n.a.

Limits (max.) on investment portfolio held abroad

Yes. Pension funds may invest up to 70% of their assets outside Botswana, as provided under the Retirement Funds Act and PFR2 (prudential Rule).

Limits (min.) on investment portfolio held locally

Yes. Pension funds may invest a minimum of 30% of their assets in Botswana, as provided under the Retirement Funds Act and PFR2 (prudential Rule).

Currency-matching regulations on assets/liabilities composition

Yes. It requires that an independent Actuary be engaged to certify the appropriateness of the structure asset/liabilities composition of a retirement fund.

Investment firms and collective investment funds

Yes. A firm may invest not more than 10% of its net asset in securities issued by the same institution.

Limits (max.) on securities issued by nonresidents

(Position as of July 31, 2019)

Status under IMF Articles of Agreement

<table>
<thead>
<tr>
<th>Article VIII</th>
<th>Yes.</th>
<th>Date of acceptance: November 30, 1999.</th>
</tr>
</thead>
</table>

Exchange Measures

- The IMF staff report for the 2018 Article IV Consultation with Brazil states that, as of June 20, 2018, the tax on financial transactions (Imposto sobre Operações Financeiras, IOF) of 6.38% on exchange transactions carried out by credit card, debit card, and traveler’s checks (including cash withdrawals) companies to fulfill their payment obligations for purchases of goods and services abroad by their customers gives rise to a MCP subject to IMF jurisdiction under Article VIII, Sections 2(a) and 3. In January 2008, the IOF for these exchange transactions was raised to 2.38% and then further increased to 6.38% in March 2011. The scope of operations was expanded to other foreign exchange transactions than with credit cards in December 2013. (Country Report No. 18/253)

Exchange Arrangement

- Yes. Restrictions apply according to UNSC resolutions and Brazilian legislation on Countering the Financing of Terrorism.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

The currency of Brazil is the Brazilian real.

- Currency board
- Conventional peg
- Stabilized arrangement
Crawling peg
Crawl-like arrangement
Pegged exchange rate within horizontal bands
Other managed arrangement

Floating  Yes.  The de jure and de facto exchange rate arrangements are classified as floating. There is no official exchange rate for Brazil as the exchange rate of the real is defined by supply and demand in the foreign exchange market. The Central Bank of Brazil (CBB, in Portuguese: Banco Central do Brasil or BCB) intervenes to smooth out excessive volatility and/or provide liquidity and hedge in response to a thin market, with the ultimate objective of assuring a functioning foreign exchange market. Intervention data in the interbank market are available in the CBB’s weekly publication on currency flows on the CBB website with a lag ranging from 7 to 12 days, considering execution dates. However, the Deputy Governor for Monetary Policy may choose to publish intervention volumes on the same day of each auction. Data on interventions in the derivatives market are published on the same day of each auction.

Free floating

Official exchange rate  Yes.  There is no official exchange rate for the real determined by the CBB. The CBB publishes a reference rate, known as the PTAX rate, which is the average of four polls conducted by the CBB with the group formed by its primary dealers (up to 14 institutions in the domestic US dollar interbank market). The polls start at a random time in the 10 minutes following 10:00, 11:00, 12:00, and 13:00, and the dealers have two minutes to report their bid and ask quotes for the US dollar–Brazilian real (USD–BRL) at the beginning of the poll. The CBB cannot buy or sell at the quotes provided by the dealers, but dealers who consistently provide out-of-market quotes may lose their dealer status. At each poll, the two highest and two lowest bid and ask quotes are trimmed, and the consistency of the final results is tested against market parameters obtained from the CBB’s information systems and data feeders. The PTAX rate is published right after the last poll results. The CBB does not require that government agencies use the PTAX rate as a benchmark for conversion. However, government agencies and financial institutions generally use the PTAX as it is a reliable reference. According to the foreign exchange regulation, the exchange rate is freely agreed between the parties, including if the government is the client.

CPI

- Yes.

National Consumer Price Index Extended (IPCA), measured by the Brazilian Institute of Geography and Statistics (IBGE).

Core inflation

Target horizon

- Yes.

A one-year inflation target and its tolerance interval are fixed 30 months in advance by the NMC, and the CBB must pursue this target. The inflation-targeting framework in Brazil is flexible. The horizon that the BCB sees as appropriate for the return of inflation to the target depends on both the nature of the shocks that affect the economy and their persistence.

Operating target (policy rate)

- Yes.

Policy rate

- Yes.

The Central Bank of Brazil’s (BCB) Monetary Policy Committee (COPOM) was created on June 20, 1996, and was assigned the responsibility of setting the stance of monetary policy and the short-term interest rate. The aim of creating the COPOM was to enhance the monetary policy transparency and confer adequate regularity to the monetary policy decision-making process.
The Selic rate is the primary instrument of the monetary policy. It is the average interest rate charged on the daily interbank loans—with a maturity of one day (overnight) backed by federal government securities—registered in the Special System of Clearance and Custody (Selic). In sum, the Selic rate balances the market for the bank reserves.

Target corridor band

Other

Accountability

- Yes.

<td>Foreign exchange transactions are subject to the IOF general tax rate of 0.38%, which is levied and collected on the settlement date of the foreign exchange operation. An IOF of 6.38% is applied to foreign exchange transactions related to the purchase of prepaid cards and traveler’s checks. It is also applied to foreign exchange transactions carried out by credit card companies for the payment of obligations because of operations abroad carried out by their clients in connection with expenditures and automated teller machine (ATM) withdrawals abroad using credit and debit cards. External loans with maturity less than 180 days are subject to the 6% IOF. External loans with an initial term of more than 180 days will still be subject to the 6% IOF rate if the loan is repaid within the 180-day period. There are some exceptions, as described by Decree No. 6.306 (2007): the IOF is zero on trades involving overseas depositary receipts (DRs) issued by Brazilian companies. The IOF rate is also zero on (1) inflows of export proceeds; (2) interbank transactions between institutions that make up the national financial system and that are authorized to operate in the foreign exchange market, and between these institutions and institutions abroad; (3) investments by investment funds in the international market, according to the limits and conditions established by the Brazilian Securities and Exchange Commission (Comissão de Valores Mobiliários of Brazil, CVM); (4) outflows related to local revenues of international air transportation companies domiciled abroad; (5) inflows of foreign currency to cover expenses from the use of credit cards issued abroad; (6) inflows of cash donations received by financial institutions controlled by the Brazilian government and destined for the prevention, monitoring, and combating of deforestation and the promotion of the conservation and sustainable use of Brazilian forests, as provided by specific legislation; (7) inflows and outflows of funds obtained as external loans and financing, except external loans with maturity of less than 180 days; (8) remittances of interest on owner’s equity and dividends; (9) transactions of foreign investors, including through simultaneous operations, for investment in the financial and capital markets; (10) purchases of foreign exchange by institutions authorized to operate in the foreign exchange market, executed simultaneously with a sale transaction, when required by law; (11) nonresidents’ investments in fixed-income securities and derivative margin deposits; (12) settlements of</td>

</tbody>
</table>
foreign exchange inflow transactions, including through simultaneously contracted foreign exchange transactions after December 1, 2011, related to inflows stemming from cancellation of DRs invested in stocks in the stock market; (13) use of credit and debit cards by the public sector for acquisition of goods and services abroad; and (14) settlements of foreign exchange operations derived from a foreign investor regime switch from direct investment to investment in stocks traded on a securities exchange according to regulation issued by the NMC. Some cross-border operations have been exempt from the IOF (set in the Law, not amendable by Presidential Decree), most notably operations carried out for payment of imported goods, foreign exchange operations by diplomatic missions, and credit to housing programs or for project purposes, including infrastructure facilities and Itaipu Binacional.

**Exchange subsidy**

No.

**Foreign exchange market**

Yes. Banks and other institutions authorized to operate in the foreign exchange market may freely set their exchange rates and foreign exchange commissions in transactions with their clients.

**Spot exchange market**

Yes. There are 189 institutions authorized by the CBB to operate in the foreign exchange market buying and selling foreign currency (99 banks and 90 nonbank financial institutions). Only banks may maintain accounts abroad for the purpose of performing international payments and transfers on behalf of their clients. Any institution authorized by the CBB to operate in the foreign exchange market can qualify to be a primary foreign exchange dealer, which is eligible to operate directly with the CBB (in practice, however, because of the weight given to transacted amounts in the qualifying process, only banks have been selected as dealers so far). Currently, there are 13 foreign exchange dealers, which are the only institutions authorized to buy/sell currencies in the CBB’s foreign currency auctions. Any of the 189 foreign exchange-authorized institutions, however, can perform operations with the CBB in which they cash their deposits in foreign currencies or vice versa. Nonbanks have a limit of US $100,000 an operation with clients (not applicable to operations in the interbank market). Banks and nonbanks may contract with companies, which act as foreign exchange bureaus to perform foreign exchange operations up to US$3,000 related to unilateral transfers and cash transactions, typically related to international travel. There are 3,497 such contractor companies.

**Operated by the central bank**

Yes.

**Foreign exchange standing facility**

No.

**Allocation**

No.

**Auction**

Yes. Depending on market circumstances, the CBB may execute foreign exchange auctions and direct operations for intervention purposes. The types of auctions performed by the CBB in the interbank market are spot, forward, and credit lines (equivalent to foreign exchange swaps). The most commonly used instrument in the interbank market is credit line auctions. Only foreign exchange dealers authorized by the CBB are eligible to participate in these auctions. Currently, there are 13 institutions authorized as primary dealers. The dealers are selected every twelve months based on the volume traded in the foreign exchange market and their past performance as dealers. The CBB may also intervene in the derivatives market using specific listed contracts at B3, former BM&FBOVESPA, the foreign exchange swaps (formally called US Dollar Swap with Reset Referencing One-Day Repurchase Agreements) which function as...
synthetic futures contracts. In this kind of auction, any preregistered market participant may take part. In credit lines and foreign exchange swaps auctions, the amounts to be auctioned are preannounced. There is a minimum amount for bids for auctions in the interbank market. In the auctions with preannounced amounts, that is also the maximum bid. The frequency of the auctions is only known if they are part of an intervention program. All CBB auction operations are delivery versus payment (DVP); if an institution’s payment fails, that institution will lose its dealer status. Results are disclosed in Communiqués. During acute crisis, such as in 2008/2009, the CBB may use foreign currency loans and earmarked credit line auctions in which the amounts must be used to finance export trades and in which all institutions authorized to operate in the foreign exchange market can participate.

**Fixing**

No.

**Interbank market**

Yes. One hundred eighty-nine institutions are authorized by the CBB to operate in the interbank foreign exchange market (99 banks and 90 nonbank financial institutions – securities intermediaries, foreign exchange brokerage firms). Nonbanks can only operate on a spot basis, while banks can also perform future or forward operations. There are no limits on the bid-ask spreads and commissions of market participants. The Brazilian currency leg of all foreign exchange interbank transactions must be settled through the CBB-operated real-time gross settlement (RTGS) system. In 2018, the vast majority (86.9%) of those operations were settled through a clearinghouse, which acts as a central counterparty (B3 Foreign Exchange Clearinghouse). The CBB intervenes in the foreign exchange interbank market mainly with auctions via its primary foreign exchange dealers.

**Over the counter**

Yes.

**Brokerage**

Yes.

**Market making**

Yes.

**Forward exchange market**

Yes. Only banks are allowed to trade foreign exchange on a forward basis. Most of such transactions must be settled within 360 days. The term limit is higher for interbank transactions (1,500 days), export transactions (750 days, but extendable to 1,500 in case of need), and transactions with the National Treasury (1,500 days). Forward foreign exchange auctions are one of the instruments available for the CBB for intervention in the foreign exchange market.

**Official cover of forward operations**

No.

**References to legal instruments and hyperlinks**

### Administration of control

| No. |
| Payment arrears |
| Official |
| Private |
| Controls on trade in gold (coins and/or bullion) | No. |
| There are three separate markets for gold transactions: financial, foreign exchange, and commercial. Transactions with gold in any grade of purity (crude or refined) by institutions of the national financial system in the financial market, following the extraction of gold or to implement exchange rate policy, are regulated by the NMC. These transactions are subject to the IOF. Rules regarding gold transactions for industrial purposes are defined separately by the federal states, which also establish different rates for the commercial tax levied thereon. The Electronic Declaration of International Physical Movement of Valuables (e-DMOV) must be submitted to the customs office of the Secretariat of the RFB for imports and exports of gold as a financial or foreign exchange instrument in amounts exceeding R$10,000 or its equivalent. |

| On domestic ownership and/or trade | No. |
| On external trade | No. |
| Controls on exports and imports of banknotes | Yes. |
| Brazilian and foreign banknotes, checks, and traveler’s checks may be taken out or brought into the country without restriction. Companies that transport cash and valuables must declare to Brazilian customs the amount being transported. The sender of the valuables, in the case of a transfer to another country, must be a bank authorized to operate in the foreign exchange market in Brazil. All cases of transport in cash in an amount that exceeds R$10,000 must be declared to the customs office of the RFB. |
On exports

**Domestic currency** Yes. Brazilian and foreign banknotes, checks, and traveler’s checks may be taken out or brought into the country without restriction. Companies that transport cash and valuables must declare to Brazilian customs the amount being transported. The sender of the valuables, in the case of a transfer to another country, must be a bank authorized to operate in the foreign exchange market in Brazil. All cases of transport in cash in an amount that exceeds R$10,000 must be declared to the customs office of the RFB.

**Foreign currency** Yes. Brazilian and foreign banknotes, checks, and traveler’s checks may be taken out or brought into the country without restriction. Companies that transport cash and valuables must declare to Brazilian customs the amount being transported. The sender of the valuables, in the case of a transfer to another country, must be a bank authorized to operate in the foreign exchange market in Brazil. All cases of transport in cash in an amount that exceeds R$10,000 must be declared to the customs office of the RFB.

On imports

**Domestic currency** Yes. Brazilian and foreign banknotes, checks, and traveler’s checks may be taken out or brought into the country without restriction. Companies that transport cash and valuables must declare to Brazilian customs the amount being transported. The sender of the valuables, in the case of a transfer to another country, must be a bank authorized to operate in the foreign exchange market in Brazil. All cases of transport in cash in an amount that exceeds R$10,000 must be declared to the customs office of the RFB.

**Foreign currency** Yes. Brazilian and foreign banknotes, checks, and traveler’s checks may be taken out or brought into the country without restriction. Companies that transport cash and valuables must declare to Brazilian customs the amount being transported. The sender of the valuables, in the case of a transfer to another country, must be a bank authorized to operate in the foreign exchange market in Brazil. All cases of transport in cash in an amount that exceeds R$10,000 must be declared to the customs office of the RFB.

Resident Accounts

**Foreign exchange accounts permitted** Yes.

Held domestically Yes. These accounts may be held by institutions authorized to operate in the foreign exchange market, tourism agencies, providers of tourism services, the Brazilian Post Office and Telegraph Company, credit card companies, companies responsible for the development and execution of projects in the energy sector, insurance and reinsurance companies, reinsurance brokers, and any other persons authorized by the NMC. Foreign exchange accounts of resident clients must be held in banks authorized by the CBB to conduct foreign exchange operations. The balances may be transferred abroad freely.

Approval required No.

Held abroad Yes. The balances in these accounts may be freely transferred to and from Brazil. Information about the foreign exchange operations related to these transfers must be transmitted to the CBB by the financial institutions authorized by the CBB to conduct foreign exchange operations. Effective March 3, 2018, an IOF tax of 1.1% (previously 0.38%) is applied on foreign exchange transactions for transfers of
funds by Brazilian residents to their foreign bank accounts held abroad.

Approval required
No.

Accounts in domestic currency held abroad
Yes. The balances in these accounts may be freely transferred to and from Brazil. Information about these transfers must be transmitted to the CBB by the financial institutions authorized by the CBB to conduct foreign exchange operations.

Accounts in domestic currency convertible into foreign currency
Yes. The balances on accounts held by residents in domestic currency may be freely transferred to and from Brazil as long as the counterparty in the operation is a financial institution authorized by the CBB to conduct foreign exchange operations.

References to legal instruments and hyperlinks
This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Nonresident Accounts

Foreign exchange accounts permitted
Yes. Foreign exchange accounts may be held by embassies, foreign delegations, international organizations, foreign transportation companies, foreign citizens in transit in the country, Brazilians living abroad, reinsurers (if authorized to operate in Brazil), and other persons authorized by the NMC. The balances in these accounts may be transferred abroad freely. Foreign exchange accounts of nonresident clients must be held in banks authorized by the CBB to conduct foreign exchange operations. These accounts’ deposits and withdrawals are not subject to tax (IOF), unless a foreign exchange operation is involved, in which case a rate of 0.38% is applied. Some foreign exchange transactions are exempt from the IOF, such as those of diplomatic missions and consular offices and of their foreign officials.

Approval required
No.

Domestic currency accounts
Yes.

Convertible into foreign currency
Yes. Account holders may not use these accounts to remit resources deposited on behalf of a third party. For instance, a nonresident financial institution may freely convert to foreign currency and remit abroad its own resources deposited in its account in a Brazilian bank, but the nonresident financial institution may not use this account to fulfill payment orders of third parties.

Approval required
No.

Blocked accounts
No.

References to legal instruments and hyperlinks
This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Imports and Import Payments

Foreign exchange budget
No.

Financing requirements for imports
No. External financing of imports for periods of more than 360 days must be registered with the CBB.

Minimum financing requirements
No.

Advance payment requirements
No.

Advance import deposits
No.

Documentation requirements for release of foreign exchange for imports
Yes.
Domiciliation requirements  No.
Preshipment inspection  No.
Letters of credit  No.
Import licenses used as exchange licenses  No.
Other  Yes.

Imports must be included in the SECEX Importer and Exporter Register; registration automatically occurs with the first transaction. Imports must be registered in the subsystem of the Integrated Foreign Trade System (SISCHEMEX/IMPORT), which allows importers, carriers, banks, and brokers to register the various stages of an import process directly through the interconnected computers of the SECEX and RFB.

Imports must be registered in Brazil’s Integrated Foreign Trade System (SISCHEMEX, Sistema Integrado de Comercio Exterior), while importers must register in the Registry of Exporters and Importers (REI) maintained by the SECEX at the MDIC. Inscription in the REI is free of charge and is done automatically at the time of the first transaction in the SISCHEMEX. Although it may not be revoked, the inscription may be suspended for up to two years as a sanction for import-related fraud.

Individuals may only import goods in quantities that noncommercial practices would justify. In general, imports are granted an exemption or a reduction of customs duty if no similar domestic product is available. Eligibility is assessed through a “similarity test” conducted by the SECEX. The granting of nonautomatic licenses for imports of used machinery and equipment is conditional on proof that such items are not produced in Brazil and that no substitute item is currently produced in Brazil. Nonautomatic licensing is also used for the administration of duty and tax concessions; to benefit, imports must undergo a “similarity examination” to ascertain that there is no equivalent domestic product.

Imports are grouped into the following three categories: (1) those that do not require licenses (most common), (2) those subject to automatic import licenses, and (3) those subject to nonautomatic licenses. In general, imports are exempt from approval requirements. However, some require approval (that is, an import license) from the SECEX or another government agency, and it is promptly given to importers that fulfill licensing requirements. As a rule, licenses are valid for 90 days and may be extended if the delay is justified by the importer. Import licenses for certain imports may be obtained after the goods have arrived but before customs clearance.

Products subject to automatic licensing are listed in the Administrative Treatment of SISCHEMEX and on the MDIC Web page. Products under the special customs regime of drawback are also subject to automatic licensing. Products subject to nonautomatic licensing are listed in the Administrative Treatment of SISCHEMEX and on the MDIC Web page. They are mostly products that may damage human, plant, or animal health or cause environmental damage; products classified as weapons or made for warlike purposes; products subject to nontariff quotas as established in the agreements of the Uruguay Round; products subject to tariff quotas; and products subject to trade remedy measures established in accordance with the WTO agreements.

The Brazilian normative framework related to similarity examination and import licensing procedures is based on the following legislation: (1) Decree-Law No. 37 of November 18, 1966; (2) Decree No. 6,759 of February 5, 2009; and (3) SECEX Ordinance No. 23 of July 14,
2011. Any person, enterprise, or institution may request import licensing. The only requirement is SISCOMEX registration. Import licenses are obtained through the SISCOMEX. Such an administrative procedure—that integrates the registration activities and monitors imports and exports—is based on the sole flow of computerized information so as to make the process efficient and fast. Importers may request import licensing directly from their institution if it is registered with the SISCOMEX. Imports of used consumer goods are prohibited for environmental, safety, and consumer rights reasons. Used consumer goods may be imported only by the government or education and scientific institutions. Imports of used nonconsumer goods (except aeronautic goods and packaging materials in temporary admission or reimportation) are subject to nonautomatic licensing.

Positive list
No.

Negative list
Yes. Imports of agrochemical products not authorized under Brazilian regulations are prohibited, as are imports of weapons and military equipment (from Eritrea, the Democratic People’s Republic of Korea, and Libya) and of certain drugs, for reasons of security, health, morals, or UNSC resolutions. It is forbidden to import, export, or store dichlorodiphenyltrichloroethane (DDT) and to import and export rough diamonds from countries not participating in the Kimberley Process Certification Scheme.

Open general licenses
No.

Licenses with quotas
Yes. In addition to imports covered by the LAIA agreement, goods imported through the Manaus and Tabatinga free trade zones are subject to an annual quota. Foreign goods worth up to the equivalent of US$2,000 imported into the Manaus Free Trade Zone may be transferred to other parts of Brazil (as a passenger’s baggage) free of import duties.

Other nontariff measures
Yes. Sanitary and phytosanitary measures and technical regulations, conformity assessment, and standards must be observed.

Import taxes and/or tariffs
Yes. The MERCOSUR agreement established a customs union with a CET. Ad valorem tariffs range from 0% to 20%. Exceptional cases are subject to higher rates. MERCOSUR members are allowed temporary national tariff exceptions. Accordingly, Brazil may maintain an exception list for information technology and capital goods under the “ex tarifários” program established by CAMEX Resolution No. 66/2014 which are effective through December 31, 2021. For general items, up to 100 tariff codes may be included on the list of CET exceptions through December 31, 2021. MERCOSUR countries adopted a program aimed at consolidation of the customs union, which includes revision of the CET, free trade zones, special common import regimes, a common automotive policy, a national exception to CET lists, harmonization of drawback customs programs, elimination of the double-levy CET, and distribution of customs income. MERCOSUR countries could also increase the import tax for extra-zone imports up to WTO consolidated tariffs for 200 MERCOSUR Common Nomenclature positions until December 31, 2021. This was a temporary and strategic mechanism that allowed MERCOSUR countries to cope with the international crisis. However, Brazil has never used this capacity.

Taxes collected through the exchange system
No.

State import monopoly
Yes. Imports of petroleum and its derivatives are subject to disclosure to the National Petroleum Agency.
Exports and Export Proceeds

Repatriation requirements
No. Exporters may keep all their proceeds abroad.

Surrender requirements
Yes. Once the proceeds in foreign currency are repatriated (by own decision of the recipient of the foreign currency), regulation requires to sell these proceeds to ADs in return for local currency.

Surrender to the central bank
No.

Surrender to authorized dealers
Yes. Once the proceeds in foreign currency are repatriated (by own decision of the recipient of the foreign currency), regulation requires to sell these proceeds to ADs in return for local currency.

Financing requirements
No.

Documentation requirements
Yes.

Letters of credit
No.

 Guarantees
No.

 Domiciliation
No.

 Preshipment inspection
Yes. Preshipment inspection is required for commodities subject to standardization.

Other
Yes. Documentation includes invoices, international shipment notification, and export registration.

Export licenses
Yes. Exporters are automatically registered with the SECEX’s REI on their first export operation. New export operations should use the Single Export Declaration (Declaração Única de Exportação – DUE). The DUE is based on the electronic receipt and comprises information of a commercial, administrative, customs, tax and logistics nature that characterizes the export operation of the merchandise contained therein. It is basic document for the customs clearance and should therefore cover all the goods contained in an export consignment subject to this procedure. By now with the implementation of the Licensing, Permits, Certificates and Other Export Documents (LPCO-Exportation) module of the Single Window, it is also possible to request to the government bodies the legal document necessary to the export through a single point on the Internet. The responsible agency will analyze the request within 30 days (Law No. 9.784, of 1999, Article 49).

As for financed exports, similarly as to the previous system, it is necessary to present The Operations Summary Form (Ficha de Resumo de Operações – FRO) directly to the BNDES so that the financing operation can be started. The LPCO will be created by the BNDES itself to ensure consistency between the FRO and the LPCO so as to mitigate a large reason for requesting rectification of the credit records.

A number of products are subject to special export procedures, including exports subject export taxes, export licenses, or country-specific tariff quotas in certain markets under Brazil’s international agreements.

The Annex of Portaria SECEX No. 52 lists the export procedures of goods under quotas, which are described on the Annex XVII of Portaria SECEX No. 23. These include (1) certain types of beef to the EU under the “Hilton quota”; (2) poultry and poultry preparations to the EU subject to country-specific tariff quotas (3) sugar and...
confectionery products to the EU subject to export licenses; (4) milk to Colombia under the MERCOSUR quota; (5) cigarettes; (6) precious stones, which may be sold for foreign currency to nonresidents; (7) arms and ammunition subject to export tax and other restrictions; and (8) cars to Colombia, under the MERCOSUR/Colombia Economic Complementation Agreement – ACE No. 72. In accordance with UNSC resolutions, Brazil prohibits exports of weapons and military equipment to the Democratic Republic of the Congo, Eritrea, Iraq, the Democratic People’s Republic of Korea, Libya, Sierra Leone, Somalia, and Sudan and of materials and technology that could lead to the development of nuclear weapons. Exports of some products are prohibited for reasons of environmental protection and compliance with international agreements (for example, Montreal Protocol) and UNSC resolutions. Some export operations are subject to control by government agencies, including the SECEX. Most operations that the SECEX examines have automatic approval through the SISCOMEX, under parameters of analysis in the system. Exports of certain goods require authorization from government agencies mainly for reasons of safety and environmental protection and compliance with international agreements. Effective September 13, 2018, skins and hides are no longer subject to the export tax and therefore no longer subject to special export procedures.

<table>
<thead>
<tr>
<th>Without quotas</th>
<th>Yes.</th>
</tr>
</thead>
<tbody>
<tr>
<td>With quotas</td>
<td>Yes.</td>
</tr>
</tbody>
</table>

Some products listed in Annex XVII of SECEX Ordinance No. 23 of July 14, 2011, are subject to tariff quotas/licenses when exported to certain markets. There are export quotas for Europe (poultry, beef—Hilton quota—and sugar), and Colombia (milk and cars). There are also some export quotas for goods in MERCOSUR/Colombia and MERCOSUR/Israel Agreements (SACME—MERCOSUR Quota Management System). In the case of beef and poultry, the producers must be accredited by the Ministry of Agriculture, Livestock and Food Supply (Ministério da Agricultura, Pecuária e Abastecimento, MAPA) and accepted by the EU as safe exporters to obtain a quota. Exports of milk (HS 0402) to Colombia must obtain a MERCOSUR quota authorization from the Subsecretariat of Foreign Trade Operations (SUEXT) to benefit from the access conditions under the Economic Complementation Agreement.

Export taxes Yes. In general, exports are not subject to export tax. However, exports may be subject to taxation by executive action.

Collected through the exchange system No.

Other export taxes Yes. Export duties apply to the following: (1) cigarettes to the Caribbean, Central America, and South America, 150%; and (2) weapons and ammunition to the Caribbean, Central America, and South America (except Argentina, Chile, and Ecuador), 150%. Some allowable weapons and ammunition are exempt. Effective September 13, 2018, export tax is no longer applied on tanned leather and hides.

Payments for Invisible Transactions and Current Transfers

Controls on these transfers Yes. Foreign exchange transactions are subject to the IOF general tax rate of 0.38%, which is levied and collected on the settlement date of the foreign exchange operation. An IOF of 6.38% is applied to foreign exchange transactions related to purchase of prepaid cards and traveler’s checks.

*Nonresident investors must register with the CVM. Limitations apply to participation in certain economic activities. There are limits on participation in certain economic activities (media and air transportation service). Foreign participation in nuclear energy, hydraulic power generation, postal and telegraph services, education, and transportation of valuables is not allowed. Authorization is required for investment in (1) real estate in border areas and rural land, (2) fishing, (3) prospecting and extraction of mineral resources, (4) the hydrocarbon sector, (5) telecommunications, (6) courier services, (7) international road transportation, and (8) the financial sector. Law No. 13.097 allows foreign participation through FDI in the Brazilian hospital market, including control of health care companies. Other foreign securities may be sold through Brazilian Depositary Receipts (BDRs), which allow the placement of certificates.*
representing these shares in the Brazilian market. The offering of the securities must be registered with the CVM. Commercial presence in Brazil is a requirement, except for sales through BDRs. Unsponsored BDRs do not need to be registered with the CVM.

**Purchase abroad by residents**

Yes. Private investments are allowed. Investments abroad by institutional investors are subject to prudential rules (for instance, (1) in the case of mutual funds, set by the CVM; (2) for pension funds, stated by the National Superintendency of Complementary Pensions (Superintendência Nacional de Previdência Complementar, PREVIC); and regarding insurance companies and open-end private pension funds, according to the National Council of Private Insurance (Conselho Nacional de Seguros Privados – CNSP) and NMC rules).

**Sale or issue abroad by residents**

Yes. The issuance of DRs must be authorized by the CVM. The IOF is zero on trades linked to overseas DRs issued by Brazilian companies. Foreign capital in the form of DRs must be registered with the CBB.

**Bonds or other debt securities**

Yes.

**Purchase locally by nonresidents**

Yes. Nonresident investors must register with the CVM. The IOF is zero on nonresidents’ fixed-income instruments. Nonetheless, other taxes apply.

**Sale or issue locally by nonresidents**

Yes. Nonresidents may offer these instruments only through private placements.

**Purchase abroad by residents**

Yes. Investments abroad by financial institutions, pension funds, mutual funds, and insurance companies are subject to prudential rules set by their regulators.

**Sale or issue abroad by residents**

Yes. DRs of debt instruments are allowed. Public companies are required to notify the CVM. Foreign capital in the form of DRs must be registered with the CBB.

**On money market instruments**

Yes.

**Purchase locally by nonresidents**

Yes. Nonresident investors must register with the CVM. The IOF is zero on nonresidents’ fixed-income instruments.

**Sale or issue locally by nonresidents**

Yes. Commercial presence in Brazil is a requirement.

**Purchase abroad by residents**

Yes. Investments abroad by financial institutions, pension funds, mutual funds, and insurance companies are subject to prudential rules set by their regulators.

**Sale or issue abroad by residents**

No.

**On collective investment securities**

Yes.

**Purchase locally by nonresidents**

Yes. Nonresident investors must register with the CVM.

**Sale or issue locally by nonresidents**

Yes. Commercial presence in Brazil is required.

**Purchase abroad by residents**

Yes. Investments abroad by financial institutions, pension funds, mutual funds, and insurance companies are subject to prudential rules set by their regulators.

**Sale or issue abroad by residents**

No.

**Controls on derivatives and other instruments**

Yes. Foreign investments in the derivatives market must be registered with the CBB. The registration is declaratory and electronic and mainly for statistical purposes. Foreign portfolio investors must also be registered with CVM (Instruction CVM No. 560). The derivative margin deposit is zero for OTC derivatives transactions. For exchange traded derivatives (including OTC derivatives centrally cleared) there are initial and variation margins.

**Purchase locally by nonresidents**

Yes. Nonresidents may not use borrowed securities for margin purposes in
the derivatives market. The same rules apply for residents and nonresidents investors.

**Sale or issue locally by nonresidents** Yes. Nonresidents may offer these instruments only through private placements. In the case of issuing, the entity must be previously registered with CVM.

**Purchase abroad by residents** Yes. Private sector entities may engage in hedging operations with financial institutions or stock exchanges abroad to protect themselves against the risk of fluctuations in interest rates, exchange rates, and commodity prices. Derivative transactions without an underlying operation are not allowed.

**Sale or issue abroad by residents** Yes. Private sector entities may engage in hedging operations with financial institutions or stock exchanges abroad to protect themselves against the risk of fluctuations in interest rates, exchange rates, and commodity prices. Derivative transactions without an underlying operation are not allowed.

**Controls on credit operations** Yes. Foreign credit must be registered with the CBB. The registration is declaratory and electronic and mainly for statistical purposes. This includes direct loans, bonds emitted abroad, leasing, prepayment of exports, and financed imports.

**Commercial credits** Yes.

**By residents to nonresidents** Yes. Financial institutions are forbidden to remit abroad (apply or promote the placement, including lending – except for some official programs) funds pooled in Brazil. However, it is possible for banks to invest in: Brazilian government bonds issued abroad, foreign government bonds, securities issued by financial institutions, and time deposits in financial institutions. Banks may also use funds raised abroad to provide credit to Brazilian companies abroad, their branches or foreign companies with majority of Brazilian capital. Residents may not use export proceeds kept abroad for lending to nonresidents.

**To residents from nonresidents** No.

**Financial credits** Yes.

**By residents to nonresidents** Yes. Financial institutions are forbidden to remit abroad (apply or promote the placement, including lending – except for some official programs) funds pooled in Brazil. However, it is possible for banks to invest in: Brazilian government bonds issued abroad, foreign government bonds, securities issued by financial institutions, and time deposits in financial institutions. Banks may also use funds raised abroad to provide credit to Brazilian companies abroad, their branches or foreign companies with majority of Brazilian capital. Residents may not use export proceeds kept abroad for lending to nonresidents.

**To residents from nonresidents** Yes. The maximum maturity of external loans subject to the 6% IOF rate is 180 days. External loans with an initial term of more than 180 days will still be subject to the 6% IOF rate if the loan is repaid within the 180-day period. The IOF was reduced to zero for external loans with maturity greater than 180 days and less than 360 days.

**Guarantees, sureties, and financial backup facilities** No.

**By residents to nonresidents** No.

**Controls on direct investment** Yes.

**Outward direct investment** Yes. Investment abroad by financial institutions, pension funds, mutual
funds, and insurance companies is subject to prudential rules set by their regulators. National Council of Private Insurance (Conselho Nacional de Seguros Privados, CNSP) Resolution No. 321/2015 allows supervised entities to invest in foreign companies such as insurance, “capitalization,” and open pension and reinsurance companies only as permanent investment and if approved by the Superintendence of Private Insurance (Superintendência de Seguros Privados, SUSEP).

exchange transactions related to the purchase of prepaid cards and traveler’s checks. It is also applied to foreign exchange transactions carried out by credit card companies for the payment of obligations because of operations abroad carried out by their clients in connection with expenditures and ATM withdrawals abroad using credit and debit cards. External loans with maturity less than 180 days are subject to the 6% IOF. External loans with an initial term of more than 180 days would still be subject to the 6% IOF rate if the loan is repaid within the 180-day period.

Borrowing abroad Yes. Residents borrowing abroad must register the operation with the CBB (electronic declaration system). The maximum maturity of external loans subject to 6% IOF is 180 days.

Maintenance of accounts abroad No.

Lending to nonresidents (financial or commercial credits) Yes. Financial institutions are forbidden to remit abroad (apply or promote the placement, including lending—except for some official programs) funds pooled in Brazil. However, it is possible for banks to invest in: Brazilian government bonds issued abroad, foreign government bonds, securities issued by financial institutions, and time deposits in financial institutions. Banks may also use funds raised abroad to provide credit to Brazilian companies abroad, its branches or foreign companies with majority of Brazilian capital. Residents may not use export proceeds kept abroad for lending to nonresidents.

Lending locally in foreign exchange Yes. All payments stipulated in or pegged to gold or a foreign currency are null and void.

Purchase of locally issued securities denominated in foreign exchange Yes. All payments stipulated in or pegged to gold or a foreign currency are null and void; locally issued securities may not be denominated in foreign currencies.

Differential treatment of deposit accounts in foreign exchange Yes.

Reserve requirements Yes. There is no reserve requirement on foreign currency deposits. Demand, time, and savings deposits in reais are subject to reserve requirements of 21%, 31%, and 20%, respectively.

(1) Effective April 9, 2018, reserve requirement ratio on demand deposits in domestic currency was reduced from 40% to 25%.

(2) Effective April 9, 2018, reserve requirement on demand deposits could not be met by means of cash vault anymore (previously, 40% of the reserve requirement on demand deposits could be met by means of cash vault).

(3) Effective December 24, 2018, reserve requirement ratio on demand deposits was reduced from 25% to 21%.

(4) Effective December 31, 2018, reserve requirement ratio on time deposits was reduced from 34% to 33%.

(5) Effective July 15, 2019, reserve requirement ratio on time deposits was reduced from 33% to 31%.

(6) Effective April 23, 2018, reserve requirement ratio on savings deposits was reduced from 24.5% to 20%.

The link in the next column provides all the characteristics of reserve requirements, including legal references.

Liquid asset requirements No.

Interest rate controls No.

Credit controls No.

Differential treatment of deposit accounts held by nonresidents Yes.

Reserve requirements No.
Liquid asset requirements  No.

Interest rate controls  No.

Credit controls  Yes.

Investment regulations  Yes.

Abroad by banks  Yes. Banks may invest in Brazilian government bonds issued abroad, foreign government bonds, securities issued by financial institutions, and time deposits in financial institutions. Banks may also use funds raised abroad to provide credit to Brazilian companies abroad, their branches or foreign companies with majority of Brazilian capital.

In banks by nonresidents  Yes. A presidential decree or bilateral treaty is required for foreign participation in financial institutions.

Open foreign exchange position limits  Yes. A limit of 30% of a financial institution’s capital base applies to its exposure in gold and assets and liabilities denominated in foreign currency. Calculation of exposure takes into account (1) the net value of short and long positions; (2) 70% of the minimum value between total short and long positions in each currency; and (3) the minimum value between net short and long positions traded in Brazil and net short and long positions traded abroad, if these have opposite positions. If they do not have opposite positions, the value of this component is zero. Banks are no longer required to hold reserves in reais at the CBB equivalent to 60% of the short position of deliverable foreign exchange operations exceeding US$1 billion. Since 2013, the reserve requirement on foreign exchange short positions is zero, although the regulation is still in effect. This requirement aims for a macroprudential liquidity buffer against potential financial shocks related to foreign exchange short positions within the banking system. Licensed dealers (brokerage firms; securities distributors; credit, financing, and investment enterprises) may not maintain short foreign exchange positions. Moreover, exposures in gold and assets and liabilities denominated in foreign currency are also subject to specific capital requirements.

On resident assets and liabilities  Yes. A limit of 30% of a financial institution’s capital base applies to its exposure in gold and assets and liabilities denominated in foreign currency. Calculation of exposure takes into account (1) the net value of short and long positions; (2) 70% of the minimum value between total short and long positions in each currency; and (3) the minimum value between net short and long positions traded in Brazil and net short and long positions traded abroad, if these have opposite positions. If they do not have opposite positions, the value of this component is zero. Banks are no longer required to hold reserves in reais at the CBB equivalent to 60% of the short position of deliverable foreign exchange operations exceeding US$1 billion. Since 2013, the reserve requirement on foreign exchange short positions is zero, although the regulation is still in effect. This requirement aims for a macroprudential liquidity buffer against potential financial shocks related to foreign exchange short positions within the banking system. Licensed dealers (brokerage firms; securities distributors; credit, financing, and investment enterprises) may not maintain short foreign exchange positions. Moreover, exposures in gold and assets and liabilities denominated in foreign currency are also subject to specific capital requirements.

On nonresident assets and liabilities  Yes. A limit of 30% of a financial institution’s capital base applies to its exposure in gold and assets and liabilities denominated in foreign currency. Calculation of exposure takes into account (1) the net value of short and long positions; (2) 70% of the minimum value between
total short and long positions in each currency; and (3) the minimum value between net short and long positions traded in Brazil and net short and long positions traded abroad, if these have opposite positions. If they do not have opposite positions, the value of this component is zero. Banks are no longer required to hold reserves in reais at the CBB equivalent to 60% of the short position of deliverable foreign exchange operations exceeding US$1 billion. Since 2013, the reserve requirement on foreign exchange short positions is zero, although the regulation is still in effect. This requirement aims for a macroprudential liquidity buffer against potential financial shocks related to foreign exchange short positions within the banking system. Licensed dealers (brokerage firms; securities distributors; credit, financing, and investment enterprises) may not maintain short foreign exchange positions. Moreover, exposures in gold and assets and liabilities denominated in foreign currency are also subject to specific capital requirements.

| Provisions specific to institutional investors | Yes. |
| Insurance companies | Yes. |
| **Resolution NMC No. 4,444 (2015)** provides rules governing the investment of technical reserves, provisions and funds of insurance companies, capitalization companies, open private pension entities and local reinsurers, on the application of the resources required in the country to guarantee the obligations of admitted reinsurers and the portfolio of Individual Programmed Retirement Funds. |

| Limits (max.) on securities issued by nonresidents | Yes. |
| The only type financial assets issued by nonresidents for insurers whose investment is permitted are fixed-term deposits and certificates of deposit issued or unconditionally guaranteed by financial institutions, and BDRs. Application limits depend on the type of provisions being guaranteed by such assets. Investments in Brazil are subject to some limits under the law, which establishes the maximum technical provisions that may be invested in federal bonds, stocks (per type), and so forth. Assets that exceed the technical provisions are subject to a liquidity requirement (at least 20% of the risk capital in highly liquid assets); derivatives may be used only for hedging purposes. |

| Limits (max.) on investment portfolio held abroad | Yes. |
| Insurance companies may invest their technical provisions in accordance with the legislation, as follows: (1) in Brazilian sovereign bonds issued abroad (Eurobonds, Global Bonds, A-bonds); (2) corporate bonds of Brazilian companies issued abroad; (3) in certificates of deposit issued or unconditionally guaranteed by financial institutions; and (4) in BDRs. Application limits depend on the type of provisions being guaranteed. |

| Limits (min.) on investment portfolio held locally | No. |
| **Currency-matching regulations on assets/liabilities composition** | Yes. |
| These apply only to technical provision liabilities. Investment limits for assets subject to foreign exchange exposure are looser for technical provisions on foreign currencies. |

| Pension funds | Yes. |
| Investments abroad may not exceed 10%, including BDRs. The only type of financial assets issued by nonresidents for open-end private pension funds whose investment is permitted are fixed-term deposits and certificates of deposit issued or unconditionally guaranteed by financial institutions, and BDRs. Application limits depend on the type of provisions being guaranteed by such assets. Investments in Brazil are subject to some limits under the law, which establishes the maximum technical provisions that may be invested in federal bonds, |
stocks (per type), and so forth. Assets that exceed the technical provisions are subject to a liquidity requirement (at least 20% of the risk capital in highly liquid assets); derivatives may be used only for hedging purposes.

**Limits (max.) on investment portfolio held abroad**

Yes. Investments abroad may not exceed 10%, including BDRs. Open-end private pension funds may invest their technical provisions in accordance with the legislation, as follows: (1) in Brazilian sovereign bonds issued abroad (Eurobonds, Global Bonds, A-bonds); (2) corporate bonds of Brazilian companies issued abroad; (3) in certificates of deposit issued or unconditionally guaranteed by financial institutions; and (4) in BDRs. Application limits depend on the type of provisions being guaranteed.

**Limits (min.) on investment portfolio held locally**

No. The minimum portfolio investment held locally is 90%.

**Currency-matching regulations on assets/liabilities composition**

No.

**Investment firms and collective investment funds**

Yes.

**Limits (max.) on securities issued by nonresidents**

Yes. Pursuant to CVM Instruction No. 555/14 of December 18, 2014, investment funds may invest up to 20% of their net worth in offshore financial assets. There is no such limit for funds (1) classified as “fixed income—foreign debt”; (2) targeted at “professional investors,” provided they are designated as an “offshore investment”; and (3) targeted at “qualified investors,” provided, among other requirements, the bylaws of the funds established that at least 67% of the net worth is to be composed of offshore financial assets and have detailed information about the assets the fund intends to acquire. For the other funds targeted at “qualified investors” not referred to above, the limit on offshore investments is 40%. “Professional investors” are those owning financial investments greater than R$10 million. “Qualified investors” are those owning financial investments greater than R$1 million. Level II and III BDRs are considered investment in Brazil, and Level I BDR is considered investment abroad. Brazilian Private Equity Funds, as per CVM Instruction No. 578/16, are allowed to invest abroad up to 20% of their net worth. If the fund is targeted at professional investors (more than R$10.000.000 in financial assets), no limits apply.

**Limits (max.) on investment portfolio held abroad**

Yes. Pursuant to CVM Instruction No. 555/14 of December 18, 2014, investment funds may invest up to 20% of their net worth in offshore financial assets. There is no such limit for funds (1) classified as “fixed income—foreign debt”; (2) targeted at “professional investors,” provided they are designated as an “offshore investment”; and (3) targeted at “qualified investors,” provided, among other requirements, the bylaws of the funds established that at least 67% of the net worth is to be composed of offshore financial assets and have detailed information about the assets the fund intends to acquire. The exchange rate arrangement is a currency board. The Autoriti Monetari Brunei Darussalam (AMBD) issues Brunei dollars and manages the Currency Fund, which is used to back up the currency in circulation. Under the Currency Interchangeability Agreement (CIA), signed in 1967, which remains in effect between the AMBD and the Monetary Authority of Singapore, the monetary authorities agree to the mutual exchange of their currency at par without charge. The monetary authorities and banks must accept each other’s currency at par, and the currencies are customary tender in both countries.
Excess currency is repatriated regularly, with the cost borne by the currency-issuing authority. The AMBD must ensure that reserves in the Currency Fund cover at least 100% of the currency in circulation as required under the Currency Order, 2004, as amended by the Currency and Monetary (Amendment) Order, 2010. The AMBD publishes data on the reserves used to cover the currency in circulation in its annual report.

Conventional peg

Stabilized arrangement

Crawling peg

Crawl-like arrangement

Pegged exchange rate within horizontal bands

Other managed arrangement

Floating

Free floating

**Official exchange rate**  Yes.  The Brunei dollar exchange rate is pegged at S$1 per Brunei dollar. This rate applies to CB transactions and is used for accounting and valuation purposes. Given the peg to the Singapore dollar, the Brunei dollar exchange rate in relation to other currency follows closely that of the Singapore dollar. The AMBD administers the CIA between Brunei Darussalam and Singapore on behalf of the Brunei government.

**Monetary policy framework**

Exchange rate anchor  Yes.

- **U.S. dollar**
- **Euro**
- **Composite**
- **Other**  Yes.  The monetary policy framework is a currency board agreement with an exchange rate anchor vis-à-vis the Singapore dollar, which is at par with the Brunei dollar under the CIA.

Monetary aggregate target

Inflation-targeting framework

**Target setting body**

- Central Bank Board
- Other
- Government and Central Bank

**Inflation target**
The Brunei Association of Banks provides indicative daily buying and selling rates to its members for transfers/remittances in 15 other currencies on the basis of the interbank quotes for these foreign currencies against Singapore dollars. Customers are encouraged to liaise with their respective banks for competitive rates should they want to deal in this foreign exchange as rates fluctuate from time to time.

As of December 31, 2018, there were 7 banks (6 conventional and 1 Islamic), 18 remittance companies, and 20 money changers that were authorized to conduct foreign exchange transactions (including three hotels with conditional license). Money-changing businesses:
do not conduct foreign exchange transactions directly with the CB;
do not maintain accounts abroad;
are limited to the purchase and sale of banknotes; and
are not allowed to make foreign currency payments and transfers on behalf of their clients. As for remittance businesses, foreign exchange transactions are not conducted directly with the CB. Remittance business can maintain accounts abroad. Remittance business operations are mainly focused on transmitting funds abroad. The purchase and sale of banknotes are not part of their operations.

The AMBD does not control or direct any foreign exchange activity with banks, except for the Singapore dollar activity. The AMBD stands ready to buy and sell Singapore dollars for Brunei dollars at the official rate without a bid-ask spread or commission. The AMBD deals only in Singapore dollars and does not quote rates for other currency.

The foreign exchange market is an interbank market between the licensed banks operating in Brunei Darussalam. All licensed banks are foreign exchange ADs by virtue of their banking license. There is no central data depository for daily turnover of spot foreign exchange market transactions. The AMBD does not intervene directly in interbank foreign exchange operations; however, it monitors banks’ foreign exchange positions. Banks have their own internal policies on foreign currencies’ exposure.

There is no forward market for foreign exchange in Brunei Darussalam. However, as a result of the CIA, foreign exchange risk may be hedged in Singapore dollars through the use of facilities available in Singapore, including (1) foreign currency futures and options traded on the Singapore International Monetary Exchange, (2) OTC forward transactions arranged by banks in Singapore, and (3) transactions on the short-term foreign exchange swap market of banks in the Singapore money market.

There are no limitations on the use of domestic currency in international payments for current or capital transactions or the use of foreign currency in transactions between residents.
instruments  No.
Credit operations  No.
Use of foreign exchange among residents  No.

**Payments arrangements**  No.
Bilateral payments arrangements  No.

*Operative*  No.

*Inoperative*  No.

Regional arrangements  No.
Clearing agreements  No.
Barter agreements and open accounts  No.

**Administration of control**  No.  There have been no formal exchange controls since the repeal of the Exchange Control Act in 2000.

**Payments arrears**  No.
Official  No.
Private  No.

**Controls on trade in gold (coins and/or bullion)**  Yes.
On domestic ownership and/or trade  No.  Following the repeal of the Exchange Control Act, dealings in gold are not controlled or restricted.
On external trade  Yes.  Importation of gold bars and gold jewelry is subject to duties of 15%.

**Controls on exports and imports of banknotes**  No.
On exports  No.

*Domestic currency*  No.

*Foreign currency*  No.
On imports  No.

*Domestic currency*  No.

*Foreign currency*  No.

**References to legal instruments and hyperlinks**  This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Resident Accounts**

**Foreign exchange accounts permitted**  Yes.
Held domestically  Yes.  Balances may be transferred abroad freely, but banks in Brunei charge remittance fees for such transfers.

*Approval required*  No.

Held abroad  Yes.  Balances may be transferred abroad freely, but banks in Brunei may charge remittance fees for such transfers.

*Approval required*  No.
Accounts in domestic currency held abroad Yes. Residents may hold accounts abroad in domestic currency.

Accounts in domestic currency convertible into foreign currency Yes.

References to legal instruments and hyperlinks This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Nonresident Accounts

Foreign exchange accounts permitted Yes. There is no distinction between accounts of residents and those of nonresidents.

Approval required No.

Domestic currency accounts Yes.

Convertible into foreign currency Yes.

Approval required No.

Blocked accounts No.

References to legal instruments and hyperlinks This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Imports and Import Payments

Foreign exchange budget No.

Financing requirements for imports Yes. Financing requirements are set by the banks involved in the import transactions. Imports are subject to the payment of customs and excise duties.

Minimum financing requirements No.

Advance payment requirements No.

Advance import deposits Yes. Temporary imports of dutiable goods for trade samples, demonstration, and exhibition (not for sale) are subject to the payment of a deposit at least equivalent to the amount of duty. Temporary imports of dutiable goods for projects are subject to customs duty on a lease basis.

Documentation requirements for release of foreign exchange for imports Yes. Documentation requirements for import transactions are set by the banks involved.

Domiciliation requirements No.

Preshipment inspection No.

Letters of credit Yes. LCs are used as evidence that the value of the goods conforms to WTO valuation rules.

Import licenses used as exchange licenses No.

Other No.

Import licenses and other nontariff measures Yes.

Positive list Yes.

Negative list Yes. Importation of certain goods is restricted for environmental, health, safety, security, customs, biosecurity, disease transfer, invasive alien species (IAS), or religious reasons. Restricted goods include food items (such as fresh or processed fish, meat, vegetables and fruits,
and mineral water); live animals, fishes and plants; and chemicals, drugs, and ammunition. Importation of restricted goods is subject to import licenses and permits.

Open general licenses Yes. The importation of certain goods is subject to licensing by the relevant authorities in accordance with established guidelines and procedures.

Licenses with quotas Yes. Importation of some restricted goods, such as fresh meat, precursor chemicals, and used vehicles, is subject to quotas.

Other nontariff measures Yes. The following are subjected to nontariff measures:
(1) Mineral water, live animals, fishes and plants, fresh or processed fish, meat, vegetables and fruits and their products must comply with relevant laws and regulations—for example Chapter 43 of the Agricultural Pests and Noxious Plants Act; Veterinary Surgeons Order 2005; Wholesome Meat Order 2011, Chapter 47 of the Quarantine and Prevention of Disease Act; Sections 91 and 92 of the Quarantine and Prevention of Disease (Animals) Regulations; Fisheries Order, 2009; Chapter 183 of the Halal Meat Act; Halal Certificate and Halal Label Order 2005; the Public Health (Food) Act of 1998; and the Public Health (Food) Regulations of 2000, as well as with measures under international conventions—for example, the International Plant Protection Convention, Codex Alimentarius Commission, World Organisation for Animal Health (OIE) and CITES.
(2) Cement must comply with quality standards. Cement-importing companies must register with the Ministry of Development before applying for an import permit from the Brunei Industrial Development Authority (BINA). Class 62.5N cement may be imported only by registered companies.

Import taxes and/or tariffs Yes. A 95.71% of the total tariff lines are nondutiable. This includes items such as basic foodstuffs, clothing (except of leather), educational material, and some construction material. Some other goods are levied with import duty rates of 5% and 10%. Some are levied with specific rates, such as B$0.11/kg depending on the types of goods. The basic tax structure consists of 99.46% ad valorem rate and 0.54% specific rate. In addition, 37.95% of nondutiable items are subject to excise duties. Such items include vehicles, sugary beverages, alcoholic beverages, tobacco products, and machineries.

Taxes collected through the exchange system No.

State import monopoly No.

References to legal instruments and hyperlinks This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exports and Export Proceeds

Repatriation requirements No.

Surrender requirements No.

Surrender to the central bank No.

Surrender to authorized dealers No.

Financing requirements No. Financing requirements may be set by commercial banks.

Documentation requirements No. Documentation requirements may be set by commercial banks.

Letters of credit No.
Guarantees: No.
Domiciliation: No.
Preshipment inspection: No.
Other: No.

**Export licenses**
- Without quotas: Yes. Restricted goods, such as scrap metal, explosives and ammunition, require an export license or permit.
- With quotas: No.

**Export taxes**
- Collected through the exchange system: No.
- Other export taxes: No.

Inward direct investment Yes. Full foreign ownership, majority foreign ownership, and minority foreign ownership are permitted, based on the type of industry and the individual case. Only activities related to national food security and those involving local resources require domestic participation. Industries that serve the local market that do not involve national food security and industries that export their products may be fully foreign owned. Joint ventures with local companies are encouraged. If a company has two directors, at least one must ordinarily be a resident. If there are more than two directors, at least two must be residents.

Controls on liquidation of direct investment No. Controls on real estate transactions Yes. Purchase abroad by residents No. Purchase locally by nonresidents Yes. A Brunei citizen may own land. However, foreign nationals/residents/investors may purchase stratified property subject to the Land Code Chapter 40 and Strata Title Act 1999, Cap. 189; lease land; or rent on a long-term basis, including sites destined for Industry, agriculture, agroforestry, and aquaculture. “Gazetted” Industrial and agricultural land with facilities may be rented long term for 10–30 years for industry, agriculture, agroforestry, and aquaculture.

Sale locally by nonresidents No. Controls on personal capital transactions Yes. Loans No. By residents to nonresidents No. To residents from nonresidents No. Gifts, endowments, inheritances, and legacies No. By residents to nonresidents No. To residents from nonresidents No. Settlement of debts abroad by immigrants No. Transfer of assets No. Transfer abroad by emigrants No. Transfer into the country by immigrants No. Transfer of gambling and prize earnings Yes. Under the provisions of the Common Gambling Houses Act (Chap. 28), these transfers are under the jurisdiction of the Royal Brunei Police Force.

The total value of approved foreign-currency-denominated assets of each insurance fund recognized by a reputable investment-credit-rating agency is limited to 20%. Foreign life insurance companies are exempt.

The following limits apply: (1) 40% for the combined total of investment in fully paid-up common shares of a company with a rating by a reputable international credit-rating agency of AAA, AA, A, or not less than B; (2) 15% for quoted shares in any one company as indicated in (1); (3) 10% for units in any single unit trust; (4) 25% for debentures (fully secured); and (5) 25% for total investment in immovable property. Foreign life insurance companies are exempt from (1).

These are subject to internal regulations and guidelines.

Investment firms and collective investment funds are regulated by AMBD under the Securities Markets Order, 2013, and the Securities Markets Regulations, 2015 (“SMR”). Chapter XIII (Public Collective Investment Scheme), Division III (Investment and Borrowing Powers) states certain limitations. For example, Regulation No. 165(1)(c), SMR states that other collective investment schemes may not have more than 20% of their value in the units of collective investment schemes. Regulation No. 166, SMR states that the total exposure of a public collective investment scheme to derivatives may not exceed the net asset value of the public collective investment scheme property. Regarding stock lending and borrowing, Regulation No. 167(2), SMR requires that the operator of a public investment scheme ensure that the value of any collateral for the stock lending arrangement is at all times at least equal to the value of the securities transferred. Regarding borrowing restrictions, Regulation No. 168(2), SMR states that the operator of a public collective investment scheme must ensure, except in the case of a property collective investment scheme, that the public collective investment scheme’s borrowing does not, on any day, exceed 20% of the net asset value of the public collective investment scheme property and must take reasonable care to ensure that arrangements are in place that enable borrowings to be repaid to ensure such compliance.

Exchange Measures

Restrictions and/or multiple currency practices
No.

Exchange measures imposed for security reasons
Yes.

In accordance with IMF Executive Board Decision No. 144-(52/51)
No.

Other security restrictions
Yes.

Bulgaria maintains exchange restrictions and restrictive measures in accordance with UNSC resolutions and EU regulations, solely with the purpose of preserving national and international security. The restrictions are extended to the following groups and countries:

1. Restrictive measures with respect to Islamic State of Iraq and the Levant (Da’esh) and Al-Qaida (October 15, 1999);
2. Afghanistan restrictive measures imposed with respect to the Taliban (October 15, 1999);
3. Belarus (September 24, 2004);
4. Central African Republic (December 5, 2013);
5. Democratic Republic of the Congo (April 7, 1993);
6. Egypt (February 21, 2011);
7. Republic of Guinea (October 27, 2009);
8. Republic of Guinea-Bissau (May 31, 2012);
9. Iran for human rights violations (April 12, 2011); arms embargo, restrictive measures related to missile technology, restrictions on certain nuclear-related transfers and activities;
10. Iraq, arms embargo (August 2, 1999);
11. Lebanon (December 12, 2005);
12. Libya (March 31, 2012);
13. Mali (September 5, 2017);
14. Montenegro (June 13, 2004);
15. Myanmar (Burma) (October 28, 1996);
16. Democratic People’s Republic of Korea (DPRK) (October 9, 2006);
17. Russia (March 6, 2014);
18. Serbia (June 13, 1994);
19. Somalia (January 23, 1992);
20. South Sudan (July 10, 2014);
21. Sudan (March 15, 1994);
22. Syria (October 31, 2005);
23. Tunisia (January 31, 2011);
24. Ukraine (February 20, 2014);
25. Venezuela (November 13, 2017);
26. Yemen (February 26, 2014);
27. Zimbabwe (February 18, 2002).

Effective December 10, 2018, the sanctions against Eritrea were lifted.
A detailed information on sanctions imposed by the UNSC and the EU can be found on the Internet page of the Ministry of Foreign Affairs, with reference to the EU Sanctions Map. Bulgaria implements the following European Regulations and Directives for the prevention of the use of the financial system for the purposes of money laundering or terrorism financing and regarding the information accompanying transfers of funds:

Exchange tax  No.

Exchange subsidy  No.

Foreign exchange market  Yes.

Financial intermediaries are free to determine their bid-ask spreads and foreign exchange commissions in transactions with their clients. Banks, financial institutions, and exchange bureaus participate in the foreign exchange market. Banks are licensed by the BNB. Financial institutions are registered by the BNB based on Ordinance No. 26 of the BNB on Financial Institutions; exchange bureaus are registered by the National Revenue Agency (NRA). As of December 31, 2018, there were 25 banks and 2445 exchange bureaus. By the end of 2018, nine financial institutions were providing supplementary services in the spot foreign exchange market. Reporting requirements for financial institutions were transferred from the BNB to the NRA and the Financial Supervision Commission (FSC). MOF Ordinance No. 4 regulates exchange bureaus, which may buy and sell foreign currency in cash only. Exchange bureaus may maintain accounts abroad and report the details of those accounts regularly to the BNB. The rate exchange bureaus use for a given currency must be market based and may deviate up to ±5% from the official exchange rate set by the BNB for that currency on the day of the transaction. Clients of exchange bureaus can be both individual and legal entities.

Spot exchange market  Yes.

Operated by the central bank  Yes.

The BNB is required to buy and sell euros against leva on demand on the basis of spot exchange rates, which may not differ from the official exchange rate by more than 0.5%, inclusive of any fees, commissions, and other charges to the customer. Banks, government agencies, financial institutions, exchange bureaus, and natural persons may exchange euros and leva with the BNB.
Albania

Allocation No.
Auction No.
Fixing No.

Interbank market Yes. All banks are entitled to trade foreign currencies. There are no regulatory limits on bid-ask spreads or commissions. Twenty banks licensed in Bulgaria and five foreign bank branches operating in Bulgaria as of December 31, 2018, are allowed to participate in the interbank market.

Over the counter Yes. All transactions are carried out on the basis of bilateral agreements.
Brokerage Yes. Under the Law on Credit Institutions, banks (Article 2) and investment intermediaries work as investment brokers and/or market makers.
Market making Yes. Under the Law on Credit Institutions, banks (Article 2) and investment intermediaries work as investment brokers and/or market makers.
Forward exchange market Yes. The forward exchange market is governed by the Law on Markets in Financial Instruments. Compliance with legal requirements is monitored by the FSC. The BNB does not participate in the foreign exchange derivatives market.

Official cover of forward operations No.

## Resident Accounts

### Foreign exchange accounts permitted

**Yes.**

### Held domestically

**Yes.** Foreign currency resident accounts held domestically are allowed. The type of operations through these accounts depends on the account type – deposit account or current account, but generally the balances of the foreign currency accounts can be transferred freely if there is no special restriction in regard to particular account.

### Approval required

**No.**

### Held abroad

**Yes.** Foreign currency resident accounts held abroad are allowed. Balances may be transferred to Bulgaria freely. A declaration for statistical purposes must be submitted to the BNB within 15 business days if the account is opened. For statistical purposes, resident natural persons must report annually to the BNB their receivables from or liabilities to nonresidents on financial credits, receivables on accounts opened in other countries, as well as investments in securities made without intermediation of a resident person – investment intermediary, if the total receivables or liabilities equal to or exceed the equivalent of lev 50,000 at the end of the reporting year. For statistical purposes, local legal persons and sole proprietors must submit quarterly reports on the transactions and outstanding balances on bank accounts abroad.

### Approval required

**No.** Approval is not required.

### Accounts in domestic currency held abroad

**Yes.** Approval is not required, but a declaration for statistical purposes must be submitted to the BNB within 15 business days after the account is opened abroad. For statistical purposes, resident natural persons must report annually to the BNB their receivables from or liabilities to nonresidents on financial credits, receivables on accounts opened in other countries, as well as investments in securities made without intermediation of a resident person – investment intermediary, if the total receivables or liabilities equal to or exceed the equivalent of lev 50,000 at the end of the reporting year. For statistical purposes, local legal persons and sole proprietors must submit quarterly reports on the outstanding balances on bank accounts abroad.

### Accounts in domestic currency convertible into foreign currency

**Yes.**

Bulgaria applies all EU trade policies. The EU acquis includes a number of legal provisions that engage customs to carry out checks in the context of the enforcement of many different policies aiming at the safety and security of the EU. In accordance with Articles 134 and 267 of Regulation (EU) No. 952/2013 (Union Customs Code), prohibitions or restrictions may be imposed on imports, exports, or goods in transit when they are justified on grounds of:
- public morality, public policy, or public security,
- the protection of health and life of humans, animals, or plants,
- the protection of the environment,
- the protection of national treasures possessing artistic, historic, or archaeological value and
- the protection of industrial and commercial property.

Additional information is available at ec.europa.eu/taxation_customs/sites/taxation/files/prohibition_restriction_list_customs_en.pdf.

Negative list is available at ec.europa.eu/taxation_customs/sites/taxation/files/docs/body/negative_list_en.pdf. Products covered by Community legislation with specific provisions relating to border controls are not subject to

Open general licenses No.

Other nontariff measures Yes. Import surveillance applies to the following agricultural products: rice, flax and hemp, and agricultural ethyl alcohol. These products are subject to automatic licensing for statistical purposes and to maintain better control over their origin. The EU licenses a range of firearms and ammunition. Imported food must comply with the requirements of EU food and animal health laws, conditions recognized by the EU as equivalent to these requirements, or requirements contained in specific agreements. The EU has sanitary and phytosanitary agreements with Andorra, Canada, Chile, EFTA, the Faeroe Islands, Liechtenstein, Mexico, New Zealand, San Marino, Switzerland, and the United States. Imports of live animals and animal products are prohibited except from previously approved areas, which are on the Commission’s relevant “third country list.” Products and live animals generally may be imported only from countries on the approved third country import list for that product or animal species. Products of animal origin usually must be from establishments approved for exportation to the EU. In October 2010, the EU adopted legislation that prohibits the sale of illegally harvested timber and timber products in the EU—Regulation No. 995/2010. Under Regulation No. 995/2010, operators who sell
domestically produced or imported timber and timber products in the EU for the first time must exercise due diligence to ensure that such products do not contain illegally timber harvested. Due diligence systems involve a risk management exercise based on information and criteria in the regulation. Anyone trading in timber and timber products within the EU, except first-time participants in the EU market, must keep records of their suppliers and customers. Timber and timber products with valid Forest Law Enforcement, Governance and Trade or CITES licenses are considered to be in compliance.

On January 1, 2021, a new law will come into full force across the EU—the Conflict Minerals Regulation—Regulation (EU) No. 2017/821 of the European Parliament and of the Council of 17 May 2017 laying down supply chain due diligence obligations for Union importers of tin, tantalum and tungsten, their ores, and gold originating from conflict-affected and high-risk areas. It aims to help stem the trade in four minerals—tin, tantalum, tungsten, and gold—which sometimes finance armed conflict or are mined using forced labor.

Imports of the following items are prohibited in accordance with UN or EU regulations: antipersonnel mines, torture equipment, and certain products from the Islamic Republic of Iran, the DPRK, and Syria. Council Regulation (EC) No. 1236/2005 governs trade in certain goods which could be used for capital punishment, torture or other cruel, inhuman, or degrading treatment or punishment (as amended by Council Regulations (EU) No. 1352/2011, No. 775/2014, and No. 2134/2016). Council Regulation (EU) No. 692/2014 (as amended) restricts imports into the EU of goods from Crimea or Sevastopol, in response to the illegal annexation of Crimea and Sevastopol.

Council Regulation (EU) No. 2017/1509 of 30 August 2017 concerning restrictive measures against the DPRK and repealing Regulation (EC) No. 329/2007 introduced restrictions on the import and export of certain goods, services, and technology which could contribute to the DPRK’s nuclear-related, ballistic missile-related, or other weapons of mass destruction-related programs, luxury goods embargo as well as an asset freeze on persons, entities, and bodies that have been linked to the weapons of mass destruction programs. Further measures target the transport sector, including inspections of cargo and prohibitions pertaining to DPRK vessels and aircraft, the financial sector, such as a provision of certain financial services, and the diplomatic sphere, to prevent abuse of privileges and immunities.

Bulgaria applies import tariffs according to the Community Customs Code for trade with countries outside the EU and does not levy tariffs on trade within the EU. Under the Treaty on the Functioning of the EU, common customs tariff duties are set by the European Parliament and the Council or by the Council based on a proposal from the Commission. The basic customs legislation is the EU Customs Code and its implementing regulation: Council Regulation (EEC) No. 2913/92, October 12, 1992, establishing the Community Customs Code (OJ L 302, October 19, 1992), applied as of January 1, 1994, and Commission Regulation (EEC) No. 2454/93, July 2, 1993, establishing Provisions for the Implementation of the Common Customs, as amended. The EU has exclusive authority in customs matters. Customs procedures, as defined in EU legislation, are harmonized and monitored at the EU level. The tariff nomenclature, known as the Combined Nomenclature, is based on the Harmonized Commodity Description and Coding System (HS). The 2013 tariff reflects the fourth amendment to the HS (HS 2007). The EU has harmonized the structure and established a number of minimum rates for excise duties—indirect taxes on the consumption or use of certain products—on alcohol, tobacco, and energy. The EU maintains a...
public online database that integrates tariff rates and other measures, including quantitative restrictions and contingency measures applied on imports (and exports)—known as TARIC (Integrated Tariff of the European Communities).

Documentation requirements
Letters of credit
Guarantees
Domiciliation
Preshipment inspection

Other

Under the Customs Law and its regulations, exports of goods require the following documents: customs declaration, invoice, pro forma invoice, packing list, Form A, EUR 1, ADR documents (European Agreement concerning the International Carriage of Dangerous Goods by Road)—CMR Convention (Convention on the Contract for the International Carriage of Goods by Road), TIR Convention (The Convention on International Transport of Goods Under Cover of TIR Carnets), ATA Convention (Customs Convention on the ATA Carnet for the Temporary Admission of Goods), CPD Convention (Customs Convention on the Temporary Importation of Private Road Vehicles that provides for CPD (Carnet de Passages en Douane)—international customs document which covers the temporary admission of motor vehicles to the territory of one or several states), etc.

Export licenses

Export licensing for agricultural products serves statistical purposes. Export licenses are subject to lodging a security and are valid in all the member countries of the EU.

Without quotas

Bulgaria has adopted EU policies for export licenses. An export authorization or license is required for cultural goods and certain agricultural products and for the control of exports of dual-use items and technology. Under Article 176 (1) of Regulation (EU) No. 1308/2013, the Commission may require an export license for one or more products from the following categories: cereals, rice, sugar, beef and veal, milk and milk products, pigmeat, eggs, poultrymeat. Article 2(2) of Regulation No. 1237/2016 requires a license for exports of products listed in Part II of the Annex (rice) and the following Union products referred to in Part II of the Annex to be exported:
(1) products that are under the customs procedure of inward processing;
(2) products that are basic products as listed in Annex III to Regulation (EU) No. 510/2014 of the European Parliament and of the Council and that are under the customs procedure of outward processing;
(3) products that are subject to the recovery or remission of the amount of import or export duty as set out in Chapter 3 of Title III of Regulation (EU) No. 952/2013 of the European Parliament and of the Council in respect of which a final decision has not yet been taken.

Export licenses are issued by the relevant authorities at the request of economic operators.

There are quantitative restrictions and controls on exports for foreign policy or national security reasons. These follow EU common rules governing exports of military technology and equipment, as defined in Council Common Position (CFSP) No. 2008/944, which aims to standardize members’ arms export policies to meet agreed minimum standards. Exports of dual-use items are controlled at the EU level. The EU’s dual-use export control system in Council Regulation No. 428/2009 setting up a Community regime for the control of exports, transfer, brokering, and transit of dual-use items (as amended) defines dual-use items as “items, including software and technology, which can be used for both civil and military purposes, and must include all goods which can be used for both nonexplosive uses and assisting in any way in the manufacture of nuclear weapons or other nuclear explosive devices.”

Restrictive measures were imposed in view of Russia’s actions destabilizing the situation in Ukraine. Also, restrictive measures related to exports were imposed on Iran and Syria.

With quotas Yes. Article 2(2)(b) of Regulation No. 1237/2016 requires a license for exports of EU products for which an export license needs to be presented for admission under a quota that is administered by the Union or by a third country and has been opened in that country for those products.

Tariff quotas must be administered in one of the following ways: (1) based on the chronological order of submission of the applications (first-come, first-served principle); (2) distributed in proportion to the quantities requested at the time of application (simultaneous examination method); or (3) taking into account traditional trade patterns (traditional/new comers method). Export licenses are issued by the relevant authorities at the request of economic operators.

Export taxes No.
Collected through the exchange system No.
Other export taxes No.

Controls on derivatives and other instruments

Purchase locally by nonresidents
No.

Sale or issue locally by nonresidents
No.
**Purchase abroad by residents**  No. When equity and debt securities are used to cover the technical provisions of an insurer, they must be listed on internationally recognized and liquid regulated securities markets (Article 200, Paragraph 1, of the Insurance Code). According to Article 200, Paragraph 4, of the Insurance Code, security derivatives, including options, futures, and swaps related to activities covering the technical reserves, shall be recognized as cover for technical reserves only in case these contribute to the decrease of investment risk or facilitate effective portfolio management. These must be valued observing the prudence concept and may be taken into consideration in the valuation of the underlying assets.

For all the insurers which apply the EU Solvency II Regime, Article 124 of the Insurance Code applies in terms of investments with regard to the prudent person principle. The provisions of Article 124 are also applicable with respect of investments in derivatives (Article 124, Paragraph 7).

A supplementary pension fund may invest its assets in foreign securities. According to Article 179b, Paragraph 1 of the Social Insurance Code (SIC), for the purpose of reducing the investment risk associated with the assets of the pension funds, a retirement insurance company may conclude transactions which provide for deferral of the fulfillment of the obligations thereunder until a specified future date or within a stated time period. According to Article 179b, Paragraph 2, of the SIC, transactions in futures, transactions in options, forward exchange rate contracts, and the interest rate swaps must qualify as transactions under Article 179b, Paragraph 1, of the SIC.

**Sale or issue abroad by residents**  No.

**Controls on credit operations**  No.

**Commercial credits**  No.

**By residents to nonresidents**  No. For statistical purposes, trade credits between residents and nonresidents exceeding the threshold of lev 200,000 or the equivalent amount in foreign currency must be reported quarterly to the BNB.

**To residents from nonresidents**  No. For statistical purposes, trade credits between residents and nonresidents exceeding the threshold of lev 200,000 or the equivalent amount in foreign currency must be reported quarterly to the BNB.

**Financial credits**  No.

**By residents to nonresidents**  No. For statistical purposes, the granting of financial credit equal to or exceeding the equivalent of lev 50,000, between local legal persons or sole proprietors and nonresidents, requires declaration to the BNB within 15 business days after the transaction is closed. For statistical purposes, the local legal persons and sole proprietors must submit on a quarterly basis reports on the transactions and the outstanding balances on financial credits. For statistical purposes, resident natural persons must report annually to the BNB their receivables from or liabilities to nonresidents on financial credits, receivables on accounts opened in other countries, as well as investments in securities made without intermediation of a resident person – investment intermediary, if the total receivables or liabilities equal or exceed the equivalent of lev 50,000 at the end of the reporting year.

**To residents from nonresidents**  No. For financial credits granted by nonresidents to local legal persons or sole proprietors equal to or exceeding the equivalent of lev 50,000, a declaration to the BNB must be submitted within 15 business days of closing the transaction. For statistical purposes, the local legal persons and sole proprietors must submit quarterly reports on the...
transactions and the outstanding balances on financial credits. Resident natural persons must report annually to the BNB their receivables from or liabilities to nonresidents on financial credits, receivables on accounts opened in other countries, as well as investments in securities made without intermediation of a resident person – investment intermediary, if the total receivables or liabilities thereof are equal to or exceed the equivalent of lev 50,000 at the end of the year for which the report is submitted.

Guarantees, sureties, and financial backup facilities

By residents to nonresidents No.
To residents from nonresidents No.

Controls on direct investment No.

Outward direct investment No.

The Bulgarian Currency Law defines direct investment abroad as follows: (1) acquisition of general partner’s rights or an equity stake of 10% and more than 10% of general shareholders’ voting rights of a foreign company; (2) establishment of a company in an economic territory other than that of the investor; (3) lending money for the purpose of direct investment under (1) or (2) or in connection with an agreement for participation in the distribution of profit; (4) additional investment in an investment under (1) or (2); and (5) acquisition of real estate in an economic territory other than that of the investor. For statistical purposes, any transaction in connection with direct investment abroad made by local legal persons or sole proprietors is subject to declaration with the BNB within 15 business days after the transaction is closed. Resident legal entities and sole proprietors must submit a quarterly statistical form with detailed information on their direct investments abroad to the BNB except for investments in real estates abroad information on which is reported annually.

Inward direct investment No.

Controls on liquidation of direct investment No.
Controls on real estate transactions Yes.

Purchase abroad by residents No.

Purchase locally by nonresidents Yes.

For statistical purposes in the case of direct investment abroad representing the acquisition of real estate made by local legal persons or sole proprietors, a submission of a declaration to the BNB is required within 15 days after the transaction is closed. Resident legal entities and sole proprietors must submit an annual statistical form to the BNB detailing direct investment in real estate in other countries.

### Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions Yes.

The Law on Limitation of Cash Payments aims to limit cash payments. According to the law payments in Bulgaria may be made only through transfers or payments on account if (1) the amount is equal to or exceeds lev 10,000; (2) the amount is less than lev 10,000 but is an installment payment due on a contractual obligation exceeding lev 10,000; or (3) the provisions of the law are applicable also to foreign currency payments equal to or exceeding lev 10,000. The provisions do not apply to (1) withdrawals or cash payments from the holder’s own accounts; (2) withdrawals or cash payments from accounts of family members, direct relatives, and fully or partially legally disabled individuals; (3) cash transactions by foreign exchange bureaus; (4) banknote and coin operations with the CB; (5) exchanges by banks of damaged Bulgarian banknotes and coins; (6) payment of wages; and (7) payments of deposits guaranteed as defined by the Law on Bank Deposits Guarantee.

The amendments to the Law on Limitation of Cash Payments, effective April 10, 2018, creates a new possibility of collecting revenues by means of card payments to the budget organizations and their subordinate budget authorizers by delegation serviced by the BNB. In this way these budget organizations can optimize the management of their revenues as the amounts directly come to the account with the BNB, designated for the purpose. In this way cashless payments in the public sector are optimized, and the costs for servicing cash payments are reduced.

With regard to natural and legal persons, this amendment to the Law creates one more free and convenient way for them to pay their obligations to the budgets of these budget organizations. Article 4, Paragraph 8, of the Law expressly says that natural and legal persons pay no bank charges or fees for making card payments to budget organizations.

</tbody>
</table>
funds, and so forth under Chapter XIII, Article 169 and following of
the Insurance Code, contain the solvency requirements for an insurer
and a reinsurer; Chapter XVII, Article 198 and following define the
technical reserves requirements and the provisional fund of an
insurer excluded from the scope of the Solvency II Directive, the
general rules for diversification, the currency conformity rules, and
special rules for the cover of reserves for the investment funds of life
insurance companies; Chapter XVIII, Article 208 and the following
define own funds; the solvency margins, and guarantee capital,
which applies only to the small enterprises, which do not fall in the
SII scope are provided for in Article 209 and Article 210; and
Chapter XXIII, Article 231 and the following provide additional
solvency requirements for insurers and reinsurers belonging to an
insurance or reinsurance group.

Different types of assets may cover technical reserves of insurance
companies (Article 200 of the Insurance Code). There are no
restrictions on investing technical reserves in financial instruments
issued by nonresidents. The only difference for investments in a
country other than Bulgaria or the insurance company’s home
country is the requirement that shares, bonds (to be qualified), and
other debt securities (to be qualified) must be listed on
internationally recognized and liquid regulated securities markets.
All assets must be valued by the principle of prudent operation,
taking into account liquidity risk. Insurers must invest the gross
amount of technical reserves set up in assets under Article 200 of the
Insurance Code in compliance with general rules for “Prudent
investor” principle acc to Article 124. The rules on diversification
acc. to Article 201 of the Insurance Code apply only for a small part
of the insurers without a right of access to the common market
(which are outside of the scope of Solvency II). Article 201
(Paragraph 1) stipulates that insurer without a right of access to the
common market must invest the gross amount of technical reserves
set up in assets under Article 200 in compliance with the following
restrictions: (1) up to 20% in real estate, but not more than 10% in a
single property or in a group of properties that may be regarded as
one investment because of their location; (2) up to 80% in securities
under Article 200, Paragraph 1, Items 1 and 3, but not more than 30%
in assets other than qualified bonds and other qualified debt
securities; (3) without any restriction whatsoever in assets under
Article 200, Paragraph 1, Item 2; (4) up to 5% in securities of a
single issuer, where this restriction may not apply to assets specified
in Article 200, Paragraph 1, item 2; (5) up to 50% in bank deposits,
but not more than 25% of the gross amount with one bank; (6) up to
3% in cash in hand and under current accounts.

The maximum amount of investments in real estate under Article
201, Paragraph 1, Item 1 may not exceed 30% of the difference
between the gross amount of technical reserves and the receivables
from reinsurers transformed in accordance with the procedure
established in Article 202, Paragraphs 1 and 2.

The maximum amount under Article 201, Paragraph 1, Item 4 may
be 10% in case an insurer invests not more than 40% of the technical
reserves’ gross amount in securities of issuers, the exposure of the
above insurer to which exceeds 5% of its assets. The maximum
amount under Paragraph 1, Item 4 may be 20% in case an insurer
invests technical reserves in debt securities issued by a credit
institutions having its seat of business in a member state, subject to
special supervision, for the purpose of protecting the holders of such
securities. More specifically, contributions received in return for the
issuance of securities under sentence two must be invested, pursuant
to the provisions of the law, in assets that throughout the duration of
the securities may cover the receivables from such securities and that in the case of issuer insolvency must be utilized for the preferential satisfaction of the receivables for the principal and the interest accrued. The investment in units and shares in national investment funds cannot exceed 15% of the gross amount of technical reserves, also applying Paragraph 1, Item 4 and provided the requirements referred to in Article 124 have been observed.

Territorial distribution rules are regulated in Article 205. Par. 1 stipulates that the technical reserves must be covered by assets located on the territory of the Republic of Bulgaria or on the territory of a member state. By permission of the Commission, issued in each specific case, technical reserves may also be covered by assets located within the territory of a third country. The requirement for territorial distribution of assets under Article 205, Paragraph 1 may not apply to cases where the technical reserves are covered by investments in receivables from reinsurers in the proportion set under Article 202.

The assets’ location according to Article 205, Paragraph 1 must be:
(1) For ownership of real estate – the real estate’s location;
(2) For securities:
(a) the issuing enterprise’s seat of business;
(b) the bank’s seat of business – in case the securities are guaranteed by a bank;
(c) the Depository’s seat of business – in the case of dematerialized securities;
(3) For deposits – the place where the deposit contract has been concluded;
(4) For any other receivables – the debtor’s seat of business;
(5) For shares in investment funds – the location of assets included in the fund with a predominant share, fixed pursuant to the terms and conditions under Items 1–4.

Requirements for professional qualification and reliability – Article 80(7) stipulates that each member of a management or control body of an insurer or of a reinsurer, respectively, as well as each person authorized to manage and/or represent it must hold a permit for long-term residence in the Republic of Bulgaria if he is a person from a third country.

In terms of granting consent in the case of a transfer of an insurance portfolio within the EU, the FSC must refuse to grant consent, when insurance contracts, under which risks located in the Republic of Bulgaria are covered, are transferred to:
(1) a branch of an insurer from a third country with a seat of business in another member state;
(2) an insurer from a member state which does not have the right to cover risks on the territory of the Republic of Bulgaria.

In terms of certification of the capital solvency requirement of an insurer with a seat of business in the Republic of Bulgaria, the FSC must issue a document, certifying that, following the transfer, the undertaking insurer will have at its disposal the necessary eligible own funds for cover of the capital solvency requirement. The FSC must refuse to issue such certificate, if: (1) following the transfer, the undertaking insurer or the branch of an insurer from a third country registered in the Republic of Bulgaria, respectively, will not have at its disposal the necessary eligible own funds for cover of the capital solvency requirement and therefore the interest of the insured person is jeopardized or if, (2) as a result of the transfer, a branch of an insurer from a third country with a seat of business in the Republic of Bulgaria will undertake a portfolio of contracts.
covering risks located in other member states.

According to Article 3 of Economic and Financial Relations with Companies Registered in Preferential Tax Treatment Jurisdictions, the Persons Controlled Thereby and Their Beneficial Owners Act, companies registered in preferential tax treatment jurisdictions and the persons controlled thereby may not participate in procedures for obtaining a license to perform insurance or reinsurance activity under the Insurance Code or participation in a company carrying out such activity, where the percentage of participation constitutes a qualifying holding within the meaning of the Insurance Code.

Limits (max.) on securities issued by nonresidents

<table>

There are no limits on securities and on investment portfolio held abroad. The only limit is on the eligibility of those assets to cover the technical provisions of an insurer. Thus, the only difference for investments in a country other than Bulgaria or the insurance company’s home country is the requirement that shares, bonds (to be qualified), and other debt securities (to be qualified) must be listed on internationally recognized and liquid regulated securities markets. For an insurer without a right of access to the common market, the maximum amount under Article 201, Paragraph 1, Item 4 may be 20% in case an insurer invests technical reserves in debt securities issued by a credit institution having its seat of business in a member state, subject to special supervision, for the purpose of protecting the holders of such securities.

Freedom of investment is regulated in Article 196 of the Insurance Code:

1. The insurer or the reinsurer, respectively, may not be placed under an obligation to invest in specific asset categories.
2. The investment decision of the insurer or reinsurer or of the persons managing the investment operations may not be subject to a preliminary approval or to a notification procedure.
3. The Commission may, by an ordinance, limit the assets or the benchmark values, with which the insurance policies related to investment funds are to be associated.

Location of the assets and prohibition to pledge assets are regulated in Article 197 of the Insurance Code: the assets for covering the technical reserves as regards risk located within the boundaries of the EU may be located in any member state, as well as in a third state.

Pension funds | Yes.  
---|---
Up to 20% of the total amount of technical reserves may be covered by assets in a currency other than the one in which they were set up, provided the total amount of assets for cover of technical reserves in all currencies is at least equal to the total amount of liabilities in all currencies. If the technical reserves were set up in leva, euros, or another currency of an EU member, the assets for their cover may be in euros (Article 78 of the Insurance Code).

Controls specific to pension funds in Bulgaria are provided in the SIC. Chapter 14 on Assets and Investments and Chapter 25 on Investments contain the requirements for the investment of mandatory and voluntary pension funds, respectively. The reserve requirements are in Chapter 16 on Pension Reserves. There are no restrictions on investing the assets of a supplementary pension fund in foreign securities. However, some limits apply to the diversification of supplementary pension funds’ investment portfolios (Articles 178 and 251 of the SIC). These limitations are the same for investments in both local and foreign securities.

According to Article 3 of Economic and Financial Relations with Companies Registered in Preferential Tax Treatment Jurisdictions, the Persons Controlled Thereby and Their Beneficial Owners Act, companies registered in preferential tax treatment jurisdictions and the persons controlled thereby may not, directly and/or indirectly, participate in procedures for obtaining a license for carrying out the activity as a company for additional social security under the SIC or participation in such a company, where the percentage of contribution represents 10 or more than 10% of the capital of the company.

The activity of supplementary pension insurance can be carried out only by pension insurance companies licensed by the FSC (Article 121 and Article 353 of the SIC). Foreign companies are not allowed to provide services except for institutions for occupational retirement provision based in the EU and the EEA (Article 120a, Article 229d, and Article 353 of the SIC).

**Limits (max.) on securities issued by nonresidents** | No.  
---|---
No more than 20% of the assets of a supplementary mandatory pension insurance fund may be denominated in any currency other than Bulgarian leva and euro (according to Article 178, Paragraph 16, of the SIC).

No more than 30% of the assets of a supplementary voluntary retirement insurance fund or of a fund for supplementary voluntary pension insurance under occupational schemes, as appropriate, may be denominated in any currency other than Bulgarian leva and euro (according to Article 251, Paragraph 13, of the SIC).

**Limits (max.) on investment portfolio held abroad** | No.

**Investment firms and collective investment funds** | Yes.  
---|---
The law on CISs and other collective investments applies as of 2011. CIS investment policy requirements in Chapter 6 outline the legal obligations regarding the investment policy of CISs. Detailed rules are given in Ordinance No. 44, which incorporates Directive (EC) Nos. 2010/43 and 2010/44. In 2013, the Alternative Investment Fund Managers Directive was transposed in Part III, Title 2, of the law on CISs and other collective investments, and in Part III, Title 1, a new type of investment fund was introduced—the national investment fund. National investment fund investment policy requirements are mentioned in Article 187. Investments in local and foreign securities are treated the same.
In terms of the investment firms, Bulgaria fully transposed the EU framework on markets in financial instruments, which consists of Directive (EU) No. 2014/65 (effective February 16, 2018) and Regulation No. 2014/600. In terms of capital requirements, Bulgaria complies with the EU rules under Capital Requirements Directive (EU) No. 2013/36 and Regulation (EU) No. 575/2013. The own funds requirements are specified in Article 92 (1) of Regulation (EU) No. 575/2013. The calculation of the total risk exposure amount (credit risk and dilution risk, position risk, concentration risk, foreign exchange risk, settlement risk, commodities risk, credit valuation adjustment risk, operational risk, counterparty risk) is specified in Article 92(3) of Regulation (EU) No. 575/2013. The liquidity requirements are specified in Part Six of Regulation (EU) No. 575/2013. The leverage requirements are specified in Part Seven of Regulation (EU) No. 575/2013. Additional capital requirements for determining capital buffers are set out in Chapter Nine of Ordinance No. 50. In such terms we do not apply any national measures outside the scope of the EU rules.

According to Article 3 of Economic and Financial Relations with Companies Registered in Preferential Tax Treatment Jurisdictions, the Persons Controlled Thereby and Their Beneficial Owners Act, there are prohibitions for companies registered in preferential tax treatment jurisdictions and the persons controlled thereby directly and/or indirectly to participate in procedures for obtaining a license for providing services or carrying out activities under the Markets in Financial Instruments Act or participation in a company that has been licensed under the said Act, where the percentage of participation constitutes a qualifying holding within the meaning of the said Act, or participate in procedures for obtaining a license, permit, or in a registration procedure under the CISs and Other Undertakings for Collective Investment Act or participation in a company that owns a license, permit, or is registered under the said Act, where the percentage of participation constitutes a qualifying holding within the meaning of that Act.

There are exceptions, described in Article 4.

| Limits (max.) on securities issued by nonresidents | No. |
| Limits (max.) on investment portfolio held abroad | No. |
| Limits (min.) on investment portfolio held locally | No. |
| Currency-matching regulations on assets/liabilities composition | Yes. |

In the terms of the investment firms, pursuant to Regulation (EU) No. 575/2013 of the European Parliament and of the Council, if the sum of an institution’s overall net foreign exchange position and net gold position, calculated according to Article 352, including for any foreign exchange and gold positions for which own funds requirements are calculated using an internal model, exceeds 2% of its total own funds, the institution must calculate an own funds requirement for foreign exchange risk.

<td>04/10/2018</td>
<td>The amendments to the Law on Limitation of Cash Payments, adopted in 2018, creates a new possibility of collecting revenues by means of card payments to the budget organizations and their subordinate budget authorizers by delegation serviced by the Bulgarian National Bank (BNB). In this way these budget organizations can optimize the management of their revenues as the amounts directly come to the account with the BNB, designated for the purpose. In this way cashless payments in the public sector are optimized, and the costs for servicing cash payments are reduced. With regard to natural and legal persons, this amendment to the Law creates one more free and convenient way for them to pay their obligations to the budgets of these budget organizations. Article 4, Paragraph 8, of the Law expressly says that natural and legal persons pay no bank charges or fees for making card payments to budget organizations.</td>

- No restrictions as reported in the latest IMF staff report as of December 31, 2018.
- A regional framework to combat money laundering (AML) and the financing of terrorism (AFT) was created at the regional level through two WAEMU Directives, in 2002 (AML) and 2007 (AFT). This comprehensive framework facilitates the implementation of UNSC resolutions based on a list of persons and entities prepared by the Committee and was updated in July 2015 through a regional Directive which went into force in Burkina Faso in May 2016.

#### Exchange rate structure

- Unitary | Yes. |
- Dual |
- Multiple |

#### Classification

- No separate legal tender |
- Currency board |
- Conventional peg | Yes. The exchange rate arrangement of the WAEMU is a conventional peg. Burkina Faso participates in a currency union with seven other members of the WAEMU and has no separate legal tender. The Monetary Cooperation Agreement between the WAEMU member countries and France was concluded December 4, 1973. It was maintained after the French franc was replaced by the euro by the Council of the European Union decision of November 23, 1998. The Monetary Cooperation Agreement is based on three pillars: (1) a common issuing institution, (2) fixed parity with the euro, and (3) a
guarantee of unlimited convertibility. In exchange for the unlimited convertibility of the CFA franc to euros, the WAEMU members are required to deposit 50% of their reserve holdings to the Operations Account with the French Treasury in accordance with the Amendment to the Operations Account Convention signed by France and the BCEAO on September 20, 2005.

Free floating

**Official exchange rate**  Yes. The CFA franc is officially pegged to the euro, the intervention currency, at the fixed rate of CFAF 655.957 per euro. The exchange rates for other currencies are derived from the rate for the currency concerned in foreign exchange market vis-à-vis the euro. The official rate is used for accounting and valuation. The Conference of Heads of State and Government may decide to amend the Monetary Cooperation Agreement between the WAMU member countries and France.

The commission rate charged on transfers to all countries that are not members of the WAEMU area is 0.6%. This commission must be surrendered to the National Treasury and is a portion of its tax revenue.

Authorized intermediaries (authorized intermediary banks and authorized nonelectronic exchange dealers) freely determine the buying and selling rates of foreign currencies, with the exception of the euro, which must be traded at the official fixed rate of CFAF 655.957 per euro. The commission on foreign exchange transactions may not exceed 2%.

Instruction No. 013-11-2015 on the terms and conditions for conducting rapid money transfers as a subagent within the WAEMU went into force November 10, 2015.

Authorized intermediaries must comply with the provisions in effect on the financial conditions for engaging in nonelectronic foreign exchange transactions that involve foreign currencies and issue a
transaction slip for all transactions with a client. Moreover, to provide satisfactory information to clients, they are required to (1) continuously post at their windows the rates actually charged for the different currencies and (2) post a notification that a transaction slip must be issued for all foreign exchange transactions based on the requestor’s identity document.

Banks and licensed exchange dealers are intermediaries authorized by the minister responsible for finance to conduct foreign exchange transactions with the public. As of December 31, 2018, there were 13 active banks and 104 authorized exchange bureaus operating in Burkina Faso. They may conduct transactions in foreign currencies, except euros with the BCEAO. Licensed exchange houses may not make transfers or payment in foreign currency with other countries or maintain accounts abroad.

The entities authorized to conduct nonelectronic foreign currency transactions are authorized intermediary banks and individuals or companies authorized to conduct nonelectronic transactions by decision of the minister responsible for finance, with the consent of the BCEAO.

In their operations with customers, authorized intermediaries (authorized intermediary banks and authorized OTC dealers) freely determine the buying and selling rates of foreign currencies, with the exception of the euro, which is traded at the official fixed rate of CFAF 655.957, and may be subject to a maximum commission of 2.0%.

Operated by the central bank

Yes.

Foreign exchange standing facility

Yes.

The BCEAO exchanges foreign currency for CFA francs at the rates published on the international markets, with the exception of the euro, which is traded at the official fixed rate of 655.957 per euro. The nonelectronic currency exchange windows are open to owners of accounts on the BCEAO books and to the general public. A commission of 0.5% is charged on all transactions with the public (purchases and sales) and all withdrawals by banks and financial institutions (including euro withdrawals). However, commissions are not charged on cash foreign exchange transactions conducted by governments, officials of Member States of the WAMU on missions abroad, officials of the CB and their beneficiaries, and on payments made by banks and financial institutions.

Allocation

No.

Auction

No.

Fixing

No.

Interbank market

Yes.

Transactions in CFA francs between authorized intermediaries are allowed. As of December 31, 2017, 11 banks participated in the domestic currency interbank market. There is no regulated foreign currency interbank market in the WAEMU.

Over the counter

Yes.

Brokerage

No.

Market making

No.

Forward exchange market

Yes.

Residents of the WAEMU zone are permitted to conduct the following transactions on the foreign exchange derivatives market with authorized intermediary banks established in the WAMU or with foreign banks: outright forward foreign exchange contracts (over the counter), foreign exchange options, foreign exchange

©International Monetary Fund. Not for Redistribution
swaps, and cross-currency swaps. Transactions in foreign exchange options are limited to the following two types of transactions: options to purchase foreign currency, purchased by residents of the WAEMU zone from an authorized intermediary bank established in the WAMU or from a foreign bank, or options to sell foreign currency, purchased by residents of the WAEMU zone from an authorized intermediary bank established in the WAMU or from a foreign credit institution. Authorized intermediary banks are required to simultaneously cover the exchange risk they incur in respect of derivatives instruments traded with their customers. The underlying commercial and financial operations must relate to imports and exports of goods and services by a resident, foreign borrowing operations by a resident (drawings and repayments), or direct foreign investment in a resident company. All legitimate foreign currency needs are ultimately met by the BCEAO.

**Official cover of forward operations**  No.

**References to legal instruments and hyperlinks**  This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

### Arrangements for Payments and Receipts

**Prescription of currency requirements**  Yes. Burkina Faso is linked to the French Treasury via the BCEAO through an operations account, through which settlement of transactions with France, Monaco, and other operations account countries (WAEMU and CEMAC members and the Comoros) is made mainly in euros. Payments with countries outside the WAEMU are made in foreign currencies. Trade with other WAEMU countries is settled in CFA francs.

**Controls on the use of domestic currency**  Yes. The CFA franc may not be used for settlement of current or capital international transactions with countries outside the WAEMU.

**For current transactions and payments**  Yes. The CFA franc may not be used for settlement of international transactions outside the WAEMU. However, there is an unlimited guarantee for the CFA franc in the form of an operations account with the French Treasury.

**For capital transactions**  Yes. The CFA franc may not be used for capital transactions with countries outside the WAEMU. Investments by residents of the WAEMU zone outside the WAEMU are subject to prior authorization by the minister of finance, and at least 75% of the investment must be financed through foreign borrowing.

**Transactions in capital and money market instruments**  Yes. The CFA franc may not be used for capital transactions with countries outside the WAEMU. Foreign investment by residents of the WAEMU zone is subject to authorization by the MOF. At least 75% of the investment must be financed through foreign borrowing. The interested party must request authorization through a letter designating the authorized intermediary to settle the payment. Purchases of foreign negotiable securities authorized by the regional capital markets authority to be issued or sold in WAEMU members do not require Minister of Economy and Finance (MEF) authorization.

**Transactions in derivatives and other instruments**  Yes. Residents of WAEMU member countries may engage in the following operations on derivatives and other instruments with accredited banks established in the WAEMU or foreign banks: (1) forward contract, foreign exchange swaps, and options. Operations on derivatives with foreign banks outside the WAEMU can only relate to the purchase or sale, by a resident, of foreign exchange other than the euro or another currency from the Franc Zone.

objects); and (3) imports and exports, by travelers, of objects made of gold limited to a total weight of 500 grams.

**Controls on exports and imports of banknotes**

- **On exports**
  - **Domestic currency** Yes.
  - **Foreign currency** Yes.

Travellers may freely export CFA franc (XOF) banknotes from one WAEMU member country to another. Resident individuals and legal entities other than the BCEAO and its banking and commercial correspondents outside the WAEMU are prohibited from sending and receiving CFA franc banknotes issued by the BCEAO.

- **Foreign currency** Yes.

The reexportation of foreign banknotes by nonresident travellers is permitted up to the equivalent of CFAF 5,000,000; reexportation of foreign banknotes above this ceiling requires documentation demonstrating either the importation of the foreign banknotes or their purchase against other means of payment registered in the name of the traveler or through the use of nonresident deposit accounts in local banks. Residents of the WAEMU zone traveling to countries that are not WAEMU members are required to declare foreign currency on their person in excess of the equivalent of CFAF 1 million. They may carry up to the equivalent of CFAF 2 million a person in banknotes not issued by the BCEAO. Larger amounts may be exported in the form of traveler’s checks, prepaid debit and payment cards, conventional debit and payment cards, or other means of payment. Foreign exchange allowances issued by authorized intermediaries in the form of traveler’s checks or prepaid debit and payment cards must be based on the need to cover customary, personal travel expenses, if they exceed the equivalent of CFAF 2 million a person. The issuance of foreign currency to resident travelers is subject to the presentation of travel documents and a valid passport or national identification card.

- **On imports**
  - **Domestic currency** Yes.
  - **Foreign currency** No.

Resident and nonresident travelers may freely import domestic currency from other WAEMU areas. However, resident individuals and legal entities other than the BCEAO and its banking and commercial correspondents outside the WAEMU are prohibited from receiving banknotes in domestic currency.

**Foreign exchange accounts permitted** Yes.

- **Held domestically** Yes.
- **Approval required** Yes.

Foreign exchange accounts in currencies other than the euro may be opened domestically with MOF authorization after non-objection from the BCEAO. The authorization specifies the operations that may be credited or debited on each such an account. These accounts are valid for a renewable term of up to one year. They cannot be

**References to legal instruments and hyperlinks**

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Resident Accounts**

Foreign exchange accounts in currencies other than the euro may be opened domestically with MOF authorization after non-objection from the BCEAO. The authorization specifies the operations that may be credited or debited on each such an account. These accounts are valid for a renewable term of up to one year. They cannot be
credited with deposits of CFA banknotes or by debiting a CFA franc account. On expiration of the term set in the authorization, accounts are closed unless a new authorization is obtained.

| Held abroad | Yes. |
| Approval required | Yes. |

Individual who are residents of the WAEMU and temporarily staying or traveling outside of the WAEMU may open bank accounts outside the WAEMU to deposit foreign currency legally exported and any income acquired outside of the WAEMU during their travel or temporary stay outside of the WAEMU. These individuals are required to repatriate balances on such accounts within 30 days of return to the WAEMU. In any circumstance other than the foregoing, opening of foreign accounts by WAEMU residents is subject to MOF authorization by after non-objection from the BCEAO. The MOF authorization specifies the operations that may be credited or debited on such accounts valid for up to one year. In the event of a failure to obtain a new MOF authorization, the accredited intermediary must request that the account be closed by the end of the term authorized and that any balance be repatriated to a WAEMU member country within eight days.

| Accounts in domestic currency held abroad | No. |
| Accounts in domestic currency convertible into foreign currency | No. |

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

### Nonresident Accounts

| Foreign exchange accounts permitted | Yes. |
| Approval required | Yes. |

Nonresident accounts denominated in euros may be freely opened by intermediaries accredited in the WAEMU on justification by the beneficiaries of their status and residence outside of the WAEMU. Nonresident accounts denominated in foreign currency other than euros are subject to BCEAO authorization. Nonresident foreign currency accounts are valid for a renewable period of two years. In the event of a failure to obtain renewal (through a new BCEAO authorization for foreign exchange other than the euro), these accounts must be closed. The balances of these accounts may be freely transferred abroad after verification.

| Domestic currency accounts | Yes. |
| Convertible into foreign currency | Yes. |

Authorized intermediaries may open nonresident accounts in CFA francs and in euros, under their own responsibility, depending on the status and effective residence of the applicant. These accounts may be debited for spot purchases of foreign exchange.

| Approval required | No. |
| Blocked accounts | No. |

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exports and Export Proceeds

Repatriation requirements  Yes. Resident economic operators are required to collect and repatriate the entire amount of sales of goods abroad in the country of origin with the bank with which the transaction is domiciled within 30 days of the payment due date. The payment due date is specified in the trade agreement and normally falls within a period of 120 days after the goods are dispatched.

Surrender requirements  Yes.

Surrender to the central bank  Yes. Export proceeds must be surrendered by ADs to the BCEAO within 30 days of the payment due date, which may not exceed 120 days after shipment of the goods. To cover its current foreign exchange needs, the domiciling bank may hold up to 20% of its export proceeds as owned foreign exchange resources. However, it must ensure that the total foreign exchange resources that cover its requirements do not exceed 5% of total customer demand deposits; otherwise, the surplus must be surrendered to the BCEAO.

Surrender to authorized dealers  Yes. Proceeds must be surrendered to authorized banks within 30 days of the payment due date, which must not be more than 120 days after the shipment of the goods. Authorized intermediaries must then surrender the foreign exchange to the BCEAO by transfer through the bank of issue. Sales of foreign exchange by exporters to ADs other than the domiciling bank are permitted, provided the domiciling bank has documentation to verify domiciliation.

Financing requirements  No.

Documentation requirements  Yes.

Letters of credit  No.

Guarantees  No.

Domiciliation  Yes. Export transactions of more than CFAF 10 million, except those between WAEMU countries, must be domiciled with an authorized intermediary bank.

Preshipment inspection  Yes.

Other  No.

Export licenses  Yes. Exports of diamonds, gold, and all other precious metals are subject to authorization by the minister responsible for finance. Exports of ivory require special authorization by the Ministry of Foreign Trade. Exports of sesame are subject to the delivery of a certificate of origin and to the presentation of a phytosanitary certificate, verification notice, and certificate from an authorized laboratory. A visa system, called the Burkina Faso AGOA Visa, has been set up for exports of clothing and textiles to the United States under the AGOA preferential arrangement.

Without quotas  Yes.
With quotas

No.

Export taxes

## Payments for Invisible Transactions and Current Transfers

### Controls on these transfers

Yes. Payments and transfers for current transactions with WAEMU and non-WAEMU countries may be made freely through authorized intermediaries. Transfers exceeding CFAF 5,000,000 are subject to documentary requirements. Payments and receipts of foreign ships on stopovers in WAEMU countries or by WAEMU ships abroad are considered current transactions.

### Trade-related payments

Yes.

*Prior approval*

No.

*Quantitative limits*

No.

*Indicative limits/bona fide test*

Yes. Payments abroad relating to freight and insurance (including transfers of insurance not related to commercial transactions), unloading and warehousing costs, administrative costs, commissions, and customs duties and fees are permitted in general, subject to the presentation of supporting documentation to the authorized intermediary.

### Investment-related payments

Yes.

*Prior approval*

Yes. Payments for the depreciation of direct investments require approval by the minister of finance, because depreciation is not specifically mentioned in the regulations.

*Quantitative limits*

No.

*Indicative limits/bona fide test*

Yes. Outward transfers of proceeds from the liquidation of investments may be made by authorized banks, subject to presentation of supporting documents.

### Payments for travel

Yes.

*Prior approval*

No.

*Quantitative limits*

Yes. Residents of the WAEMU zone traveling for tourism or business purposes to non-WAEMU countries may take out banknotes other than CFA franc notes up to the equivalent of CFAF 2 million a person a trip; amounts in excess of this limit may be taken out in the form of traveler’s checks, certified checks, or other means of payment. Larger amounts are permitted with documentation.

*Indicative limits/bona fide test*

Yes. Resident travelers must present a travel document and a valid passport or a national identity card to an authorized intermediary bank or exchange bureau before foreign exchange will be issued.

### Personal payments

Yes.

*Prior approval*

No.

*Quantitative limits*

No.

*Indicative limits/bona fide test*

Yes. Personal payments may be made through an authorized bank, subject
to presentation of supporting documents. Payments abroad relating to pensions and benefits resulting from an employment contract, education costs, family maintenance, and alimony may be executed freely on presentation of documentation.

Foreign workers' wages Yes.

Prior approval No.

Quantitative limits No.

Indicative limits/bona fide test Yes. Payments abroad related to wages, salaries, and honoraria; contributions and benefits; pensions and work-related activities; and service contracts are generally authorized on presentation of the appropriate documentation.

Credit card use abroad Yes. The use of credit cards is allowed when issued by specialized institutions which, where applicable, must report such transactions on a quarterly basis to the BCEAO.

Prior approval No.

Quantitative limits No.

Indicative limits/bona fide test Yes. For travelers, allocations of foreign currency in the form of debit and payment card must be justified by requirements related to travel and personal expenses if they exceed the equivalent of CFAF 2 million.

Other payments Yes.

Prior approval Yes. Approval is required for payment of family maintenance expenses abroad.

Quantitative limits No.

Indicative limits/bona fide test Yes. As a general rule, payments abroad in amounts greater than CFAF 5,00,000 are subject to the presentation of supporting documentation.

Proceeds from Invisible Transactions and Current Transfers

Repatriation requirements Yes. Proceeds from invisible transactions with non-WAEMU countries must be repatriated.

Residents of the WAEMU zone are required to surrender to an authorized intermediary all revenues and income in foreign currency collected abroad or received from a nonresident within one month after the payment due date.

Surrender requirements Yes.

Surrender to the central bank Yes. ADs must immediately surrender residents of the WAEMU zone’s proceeds from invisible transactions to the BCEAO. At the request of the BCEAO, ADs must sell to it, in exchange for currency that it issues, all their holdings in euros or other foreign currencies.

Surrender to authorized dealers Yes. Proceeds from invisible transactions with non-WAEMU countries must be surrendered to an AD within one month of the payment due date. Resident travelers must surrender to an authorized intermediary, within eight days of their arrival in Burkina Faso, foreign banknotes and other means of payment denominated in foreign currency worth more than the equivalent of CFAF 5,00,000.

Restrictions on use of funds No.

## Capital Transactions

<table>
<thead>
<tr>
<th>Category</th>
<th>Requirement</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Controls on capital transactions</strong></td>
<td>Yes</td>
<td>Capital transactions between WAEMU countries are unrestricted. Outward capital transfers require MOF authorization, except (1) amortization of debts and repayment of short-term loans to finance industrial and commercial operations, (2) payments required on foreign exchange derivatives transactions or raw material or commodity derivatives transactions, and (3) transfers of the proceeds of liquidated investments or the sale of foreign securities by nonresidents of the WAEMU zone. Capital receipts from non-WAEMU countries are generally permitted.</td>
</tr>
<tr>
<td><strong>Repatriation requirements</strong></td>
<td>Yes</td>
<td>Proceeds from the sale or liquidation of residents of the WAEMU zone’s investments abroad must be repatriated within one month through a registered intermediary, if the resident does not have a reinvestment authorization.</td>
</tr>
<tr>
<td><strong>Surrender requirements</strong></td>
<td>Yes</td>
<td>Holdings exceeding the current needs of the credit institution must be surrendered to the BCEAO immediately. Credit institutions may hold net claims in foreign exchange with their banking correspondents outside the WAEMU to cover their current foreign exchange requirements in connection with customer transactions. In addition, ADs must surrender to the BCEAO, at its request, all BCEAO-issued currency and all or part of their assets in euros and in other foreign currencies.</td>
</tr>
<tr>
<td><strong>Surrender to the central bank</strong></td>
<td>Yes</td>
<td>Proceeds from the sale or liquidation of WAEMU residents’ investments abroad must be repatriated and surrendered within one month to an AD, if the resident does not have a reinvestment authorization. The surrender requirement applies to proceeds from all capital transactions.</td>
</tr>
<tr>
<td><strong>Surrender to authorized dealers</strong></td>
<td>Yes</td>
<td></td>
</tr>
<tr>
<td><strong>Controls on capital and money market instruments</strong></td>
<td>Yes</td>
<td>RCPSFM authorization is required for the following operations: (1) issuance or marketing of securities and real assets of foreign entities, (2) canvassing, and (3) publicity or advertising for investment abroad. Securities and mutual funds issued outside the WAEMU by a private or public entity that is not a resident of a member country may not be listed on a regional securities exchange. Soliciting the public of the WAEMU by nonresident entities is subject to authorization by the BCEAO in its capacity as the authority responsible for regulating the external financial relations of WAEMU countries. The Code of the Inter-African Conference on Insurance Markets (CIMA Code) requires insurance companies of each CIMA member country to invest domestically a minimum of 50% of resources collected locally, with the remainder to be invested only in other CIMA member countries.</td>
</tr>
<tr>
<td><strong>On capital market securities</strong></td>
<td>Yes</td>
<td>The Code of the Inter-African Conference on Insurance Markets (CIMA Code) requires insurance companies of each CIMA member country to invest domestically a minimum of 50% of resources collected locally, with the remainder to be invested only in other CIMA member countries.</td>
</tr>
<tr>
<td><strong>Shares or other securities of a participating nature</strong></td>
<td>Yes</td>
<td></td>
</tr>
<tr>
<td><strong>Purchase locally by nonresidents</strong></td>
<td>No</td>
<td>Purchases in the country by nonresidents of the WAEMU zone are unrestricted. However, these purchases are subject to prior declaration to the minister of finance and the BCEAO for statistical purposes.</td>
</tr>
</tbody>
</table>
| **Sale or issue locally by nonresidents**     | Yes         | The issuance of securities and the sale of corporate or foreign securities by nonresidents of the WAEMU zone are subject to authorization from the RCPSFM (Conseil Regional de l’Epargne
Publique – CREPMF in French), with authorization of the BCEAO acting in its capacity as the authority responsible for external financial relations. There are no controls on the sale of securities resulting from divestiture of an investment in the form of a transfer between a nonresident and a resident, but such sales are subject to the regulations governing the financial settlement of the operation. Settlement of securities transactions by transfer abroad or by credit to a nonresident account requires submission of an exchange authorization to the MOF for approval, accompanied by supporting documentation.

**Purchase abroad by residents**

Yes. The purchase of foreign securities by residents of the WAEMU zone and the transfer abroad of funds for this purpose are subject to authorization by the minister responsible for finance. Authorization is not required for purchases of foreign securities whose issuance or offering for sale in WAEMU countries has been authorized by the RCPSFM.

**Sale or issue abroad by residents**

No. Residents of the WAEMU zone may sell local corporate securities abroad. If these operations result in foreign control of resident entities, foreign investors are required to make a prior declaration to the MEF. The sale of securities to liquidate an investment abroad is subject to declaration to the MEF and the BCEAO for statistical purposes. Residents of the WAEMU zone may also issue securities abroad, unless the securities constitute a loan.

**Bonds or other debt securities**

Yes. The regulations governing shares or other securities of a participating nature apply.

**Purchase locally by nonresidents**

No. These purchases are subject to declaration to the MOF for statistical purposes. There are no controls on the sale of securities resulting from the divestiture of investment in the form of a transfer between a nonresident and a resident, but such sales are subject to the regulations governing the financial settlement of the operation. There is no minimum holding period.

**Sale or issue locally by nonresidents**

Yes. The issuance of securities and sale of corporate or foreign securities by nonresidents of the WAEMU zone are subject to RCPSFM authorization. There are no controls on the sale of securities resulting from the divestiture of investment in the form of a transfer between a nonresident and a resident, but such sales are subject to the regulations governing the financial settlement of the operation. Settlement of securities transactions by transfer abroad or by credit to a nonresident account requires an exchange authorization to be submitted to the minister responsible for finance for approval, accompanied by supporting documentation.

**Purchase abroad by residents**

Yes. The purchase of foreign securities by residents of the WAEMU zone and the transfer abroad of funds for this purpose are subject to MOF authorization and must be at least 75% financed with foreign borrowing. Authorization is not required for purchases of foreign securities whose issuance or offering for sale in WAEMU countries is authorized by the RCPSFM.

**Sale or issue abroad by residents**

No. Residents of the WAEMU zone may sell local corporate securities abroad. If these operations result in foreign control of domestic establishments, foreign investors are required to make a prior declaration to the minister responsible for finance. The sale of securities to liquidate an investment abroad is subject to declaration to the MEF and the BCEAO for statistical purposes. Issuance by residents of the WAEMU zone to nonresidents of the WAEMU zone of securities constituting a loan must be made through an authorized bank and must be reported to the MEF for statistical purposes.

**On money market instruments**

Yes. The regulations governing shares or other securities of a participating nature apply.

</tbody>
</table>

The regulations governing financial credits apply.

The granting of guarantees and sureties is subject to approval by the minister of finance. Transfers abroad of funds to service these facilities require the issuance of an exchange authorization, subject to approval by the minister of finance and the submission of supporting documents.

These facilities may be granted freely, although the funds required for servicing them must be transferred abroad by an authorized bank. If, however, these transactions take place between a resident direct investment company and its parent company located abroad, they are considered direct investments and therefore require prior declaration to the MEF and the BCEAO for statistical purposes.

Controls on direct investment

Yes. Investment that implies control of a company or enterprise is considered direct investment. Mere participation is not considered direct investment unless it exceeds 10% of the capital of a company. All investment outside of WAEMU by residents of the WAEMU, including investment through foreign companies under the direct or indirect control of WAEMU residents and investment by foreign branches or subsidiaries of companies established in a WAEMU member country, requires MEF authorization.

Outward direct investment

Yes. All investment abroad by residents of the WAEMU zone is subject to authorization by the minister responsible for finance, including investment through foreign companies under the direct or indirect control of residents of Burkina Faso and investment by foreign branches or subsidiaries of companies established in Burkina Faso. At least 75% of such investment must be financed by foreign loans. Authorization is not required for purchases of foreign securities whose issuance or offering for sale in WAEMU countries has been authorized by the RCPSFM (Conseil Regional de l’Épargne Publique et des Marchés Financiers – CREPMF in French).

Inward direct investment

Yes. FDI, including by resident companies that are directly or indirectly under foreign control and by branches or subsidiaries of foreign companies, must be reported to the minister responsible for finance for statistical purposes. A share is not considered a direct investment unless it exceeds 10% of the capital of a company.

Controls on liquidation of direct investment

No. The liquidation of investments abroad must be reported to the MOF and the BCEAO for statistical purposes. Reinvestment of the liquidation proceeds is subject to authorization by the minister responsible for finance. If reinvestment is not authorized, the liquidation proceeds must be repatriated within one month through an authorized intermediary. The sale of foreign investments by nonresidents of the WAEMU zone is unrestricted but must be reported to the MOF and the BCEAO for statistical purposes.

Controls on real estate transactions

Yes. These purchases require authorization by the minister of finance.

Purchase abroad by residents

Yes. These purchases require authorization by the minister of finance.

Purchase locally by nonresidents

No. Purchases for purposes other than direct investment in a business, branch, or company are permitted. These require declaration to the minister responsible for finance for statistical purposes.

Sale locally by nonresidents

No. Sales by nonresidents of the WAEMU zone to residents of the
WAEMU zone require the submission of supporting documentation to the authorized intermediary that handles the settlement and must be declared to the minister of finance and the BCEAO for statistical purposes.

Controls on personal capital transactions  Yes.  Personal capital transactions between residents of the WAEMU zone and nonresidents of the WAEMU zone must be made through the BCEAO, the postal service, or an authorized intermediary bank, unless authorization is obtained from the minister of finance.

Loans  Yes.  The regulations governing securities and investments apply.

By residents to nonresidents  Yes.  These transactions require authorization by the minister of finance. The individuals concerned may not engage in such operations as a professional occupation without first being licensed and included on the list of approved financial institutions.

To residents from nonresidents  Yes.  These transactions may be made freely but are subject to declaration to the MOF and the BCEAO for statistical purposes when disbursed and when repaid.

Gifts, endowments, inheritances, and legacies  Yes.  Inheritances and dowries are generally allowed. Gifts and endowments, however, are subject to authorization by the MOF and the BCEAO. These transactions must be conducted through an authorized intermediary and comply with the relevant anti-money-laundering and terrorism financing provisions.

By residents to nonresidents  No.  These transactions do not require authorization but are subject to declaration to the minister of finance and the BCEAO for statistical purposes.

To residents from nonresidents  Yes.  Immigrants with resident status must obtain approval from the minister responsible for finance to settle debts incurred abroad when they were nonresidents of the WAEMU zone.

Transfer of assets  Yes.  These operations require authorization by the minister of finance if the value exceeds CFAF 5,00,000 a person. There are no restrictions on transfers of amounts below this threshold.

Transfer abroad by emigrants  Yes.  Foreign accounts of nonresidents of the WAEMU zone (in foreign currencies or CFA francs) who become residents of the WAEMU zone must be closed. However, they may maintain abroad bank accounts opened and financial assets acquired while they were nonresidents of the WAEMU zone. New transfers to these accounts require approval by the minister responsible for finance.

Transfer of gambling and prize earnings  No.  These transfers are conducted freely through authorized intermediaries, subject to the presentation of supporting documents and compliance with the relevant provisions on combating money laundering and financing of terrorism.

Provisions Specific to the Financial Sector

Provisions specific to commercial banks and other credit institutions  Yes.  The Law on Money Laundering defines the legal framework relative to money laundering in Burkina Faso, to prevent the use of the WAEMU’s economic, financial, and banking channels for laundering money or other illicitly obtained assets (Article 4). The Uniform Law on the Treatment of Dormant Accounts on the Books of Financial Agencies of the Member States of the WAMU by the Council of Ministers of the Union took effect September 28, 2012. Decision No. CM/UMOA/023/2012 set the deadline (December 31, 2013) for including this law in the domestic legislation of WAMU members. It...
has been incorporated into Burkina Faso national law.

©International Monetary Fund. Not for Redistribution
**Abroad by banks**
Yes. All investment abroad by residents of the WAEMU zone is subject to MOF authorization. At least 75% of such investment must be financed by foreign loans. Authorization is not required for the purchase of foreign securities whose issuance or offering for sale in the WAEMU countries has been authorized by the RCPSFM (Conseil Régional de l’Epargne Publique et des Marchés Financiers – CREPMF in French).

**In banks by nonresidents**
Yes. These transactions may, depending on their volume, be subject to authorization by the minister responsible for finance. Article 29 of the Banking Law stipulates that the investment of any person in a bank that would have the effect of changing the minority and/or the majority of voting rights requires authorization by the minister responsible for finance.

**Open foreign exchange position limits**
Yes. No prudential ratios apply. Because of the surrender requirement, banks are not allowed to maintain an open foreign exchange position. However, the BCEAO grants individual dispensations that allow banks to keep working balances in their correspondent accounts for the smooth completion of international payments, up to the equivalent of 5% of total customer demand deposits. To cover their foreign currency requirements, banks are authorized to hold the following in banking institutions in non-WAEMU countries: (1) demand deposits that do not exceed the total amount of import payments domiciled by clients in their books, payable within a period of eight days, and (2) demand deposits that do not exceed the balance of their open foreign accounts in foreign currencies other than euros and their open resident accounts in foreign currency.

**On resident assets and liabilities**
Yes. No prudential ratios apply. Because of the surrender requirement, banks are not allowed to maintain an open foreign exchange position. However, the BCEAO grants individual dispensations that allow banks to keep working balances in their correspondent accounts for the smooth completion of international payments. To cover their foreign currency requirements, banks are authorized to hold the following in banking institutions in non-WAEMU countries: (1) demand deposits that do not exceed the total amount of import payments domiciled by clients in their books, payable within a period of eight days, and (2) demand deposits that do not exceed the balance of their open foreign accounts in foreign currencies other than euros and their open resident accounts in foreign currency.

**On nonresident assets and liabilities**
Yes. No prudential ratios apply. Because of the surrender requirement, banks are not allowed to maintain an open foreign exchange position. However, the BCEAO grants individual dispensations that allow banks to keep working balances in their correspondent accounts for the smooth completion of international payments. To cover their foreign currency requirements, banks are authorized to hold the following in banking institutions in non-WAEMU countries: (1) demand deposits that do not exceed the total amount of import payments domiciled by clients in their books, payable within a period of eight days, and (2) demand deposits that do not exceed the balance of their open foreign accounts in foreign currencies other than euros and their open resident accounts in foreign currency.

**Provisions specific to institutional investors**

**Insurance companies**
Yes. Controls are imposed by the CIMA Code.

**Limits (max.) on securities issued by nonresidents**
Yes. The Code of the Inter-African Conference on Insurance Markets (CIMA Code) allows insurance companies of each CIMA member country to invest up to 50% of resources collected locally in other CIMA member countries.

**Limits (max.) on investment portfolio**
Yes. The Code of the Inter-African Conference on Insurance Markets...
hold abroad

(CIMA Code) allows insurance companies of each CIMA member country to invest up to 50% of resources collected locally in other CIMA member countries.

**Limits (min.) on investment portfolio held locally**

Yes. According to the CIMA Code, a minimum of 50% of resources collected in a CIMA member country by insurance companies must be invested locally.

**Currency-matching regulations on assets/liabilities composition**

Yes. The CIMA Code specifies that liabilities in a given currency must be covered by assets denominated in the same currency.

Pension funds

Yes.

**Limits (max.) on securities issued by nonresidents**

Yes. The issuance, presentation, and floating of securities of any kind from foreign governments, local authorities, foreign companies, or international institutions are subject to authorization by the regional capital markets authority (CREPMF).

**Limits (max.) on investment portfolio held abroad**

Yes. With the exception of foreign securities issued or sold in WAEMU member countries with CREPMF authorization, all investment abroad by residents of the WAEMU zone is subject to minister responsible for finance authorization and must be at least 75% financed with foreign borrowing.

**Limits (min.) on investment portfolio held locally**

No.

**Currency-matching regulations on assets/liabilities composition**

No.

**Investment firms and collective investment funds**

Yes.

**Limits (max.) on securities issued by nonresidents**

Yes. The issuance, presentation, and floating of securities of any kind from foreign governments, local authorities, foreign companies, or international institutions are subject to CREPMF authorization.

**Limits (max.) on investment portfolio held abroad**

Yes. With the exception of foreign securities issued or sold in WAEMU member countries with CREPMF authorization, all investment abroad by residents of the WAEMU zone is subject to minister responsible for finance authorization and must be at least 75% financed with foreign borrowing.

*On March 1, 2013, the Bank of the Republic of Burundi (BRB) set a fluctuation margin on foreign currency purchases and sales by commercial banks and exchange bureaus of ±1% of the reference rate it publishes each morning. With the replacement of the Marché des Enchères Symétriques en Devises (MESD—Symmetric Currency Auction Market) with the Marché Interbancaire des Devises (MID—Interbank Currency Exchange), calculation of the reference rate was modified to include all BRB transactions with customers on the previous day, beginning April 12, 2013. To prevent further sharp fluctuations, bank operations whose exchange rate deviates from the defined band are systematically excluded from the calculations. The exchange rate structure is dual because, according to the IMF staff report, Burundi has an MCP. The exchange rate for official transactions may deviate from the market exchange rates by more than 2%.*
**Classification**

No separate legal tender

Currency board

Conventional peg

Stabilized arrangement

Crawling peg

Crawl-like arrangement

Yes. The de jure exchange rate arrangement is floating. The regulations governing the interbank foreign exchange market allow the BRB to intervene on its own initiative. Since June 2016, the exchange rate followed a depreciating trend within a 2% band against the US dollar. The de facto exchange rate arrangement is classified as a crawl-like arrangement.

Pegged exchange rate within horizontal bands

Other managed arrangement

Floating

Free floating

**Official exchange rate**

Yes. The method for calculating the reference rate includes all bank transactions with customers on the previous day. For the BRB, the official exchange rate is used for government transactions, foreign exchange sales, and to adjust banks’ net open positions.

**Monetary policy framework**

Exchange rate anchor

*U.S. dollar*

*Euro*

*Composite*

*Other*

Monetary aggregate target

Yes. The monetary policy objective is price stability through the control of base money expansion. The quantitative objectives in terms of internal and external net assets are defined on a quarterly basis.

Exchange tax  No.

Exchange subsidy No.

Foreign exchange market Yes. ADs are allowed to determine freely their foreign exchange commissions with their clients.

Spot exchange market Yes. Banks and exchange bureaus are free to set traded market exchange rates, which they post for the clients. Banks can freely purchase and sell foreign exchange for trade and capital transactions. The BRB has set a fluctuation margin on foreign currency purchases and sales by commercial banks and exchange bureaus of ±1% of the reference rate, which it publishes each morning. The BRB licenses banks. Ten commercial banks operate on the spot exchange market. Licensing of exchange bureaus has been suspended since August 2016. The BRB licenses exchange bureaus, for a period of five years, renewable. However, their current business activity is severely controlled. Sixty-four licensed exchange bureaus are in operation. They may engage in foreign currency note purchases and sales with the public, but may not hold accounts abroad or make foreign exchange payments or transfers on behalf of their clients.
Interbank market

Operated by the central bank
Foreign exchange standing facility
Allocation
Auction
Fixing

Yes.

Only commercial banks (10) are authorized by the CB to participate in the interbank foreign exchange market. There are no limits on commissions of market participants. Since the decline in foreign exchange reserves, no transactions have been recorded in the interbank market, apart from CB interventions. The BRB intervenes in the interbank foreign exchange market on its own initiative in accordance with market conditions. The market is open on all business days. The CB intervenes in the foreign exchange market mainly to finance the import of priority products such as petroleum products, drugs, and fertilizers.

Over the counter

Yes.

Foreign exchange transactions take place over the counter.

Brokerage

No.

Market making

No.

Forward exchange market

No.

There is no derivatives market in Burundi.

Official cover of forward operations

No.

There is no official cover of forward operations in Burundi.

Arrangements for Payments and Receipts

Prescription of currency requirements

Yes.

The currency of settlement is prescribed by Law No. 1/34 of December 2, 2008, Article 25, which stipulates that the currency unit of Burundi is the Burundi franc (FBu), and that all monetary transactions taking place in the territory of Burundi must be expressed in FBu, unless a waiver is granted by the BRB.

Controls on the use of domestic currency

Yes.

All payments for goods and services in Burundi must be made in domestic currency. However, nonresidents staying in a hotel or guesthouse in Burundi may pay their hotel bills in foreign currency. Residents are required to repatriate receipts from exports of goods and services. Foreign exchange acquired for specific operations is to be rendered, if the relevant operations have not taken place.

For current transactions and payments

Yes.

All payments for goods and services in Burundi must be made in domestic currency. However, nonresidents staying in a hotel or guesthouse in Burundi may pay their hotel bills in foreign currency. Residents are required to repatriate receipts from exports of goods and services. Foreign exchange acquired for specific operations is to be rendered, if the relevant operations have not taken place.

For capital transactions

Yes.

Domestic currency may not be used for international settlements for capital transactions.

Transactions in capital and money market instruments

Yes.

Domestic currency may not be used for international settlements for capital transactions.

Transactions in derivatives and other instruments

Yes.

Domestic currency may not be used for international settlements for capital transactions.

Credit operations

Yes.

Domestic currency may not be used for international settlements for capital transactions.
Use of foreign exchange among residents

Yes.

Transactions in foreign currency among residents are not permitted. All monetary transactions taking place in the territory of Burundi must be expressed in FBu, unless a waiver is granted by the BRB.

Payments arrangements

Yes.

Bilateral payments arrangements

Yes.

Operative

No.

Inoperative

Yes.

There are trade agreements with the Democratic Republic of the Congo and Rwanda. These agreements are not currently operational.

Regional arrangements

Yes.

There are regional agreements with EAC and COMESA countries.

Clearing agreements

Yes.

There are clearing agreements with the member countries of COMESA.

Barter agreements and open accounts

No.

Administration of control

Yes.

Currently, the CB is responsible for the supervision of commercial banks, deposit-taking microfinance institutions, and foreign exchange bureaus. Control over foreign exchange transactions is vested in the BRB; the authority to carry out transactions is delegated to authorized banks. Only capital transactions abroad require BRB authorization. Export declarations for coffee, tea, and all minerals are subject to validation by the BRB.

Payments arrears

No.

Official

No.

Private

No.

Controls on trade in gold (coins and/or bullion)

Yes.

On domestic ownership and/or trade

Yes.

Individuals and legal entities with gold-mining permits issued by the ministry responsible for mining may establish purchasing houses for gold in transit or mined by artisans in Burundi. Gold produced by artisans may be sold only to approved firms.

On external trade

Yes.

Exports of gold must be declared in foreign currency at the time of validation of the export declaration by the BRB. Gold exports are authorized jointly by the mining and customs departments.

Controls on exports and imports of banknotes

No.

On exports

No.

Domestic currency

No.

The exportation of Burundi franc banknotes exceeding FBu 100,000 is subject to customs declaration.

Foreign currency

No.

There are no restrictions on exports of foreign currency purchased in cash from an authorized intermediary. Foreign currency that was subject on entry to an optional customs declaration may be reexported on presentation of the declaration.

On imports

No.

Domestic currency

No.

The importation of Burundi franc banknotes exceeding FBu 100,000 is subject to customs declaration.

Foreign currency

No.

The importation of foreign currency in cash is unlimited. Optional customs declaration on importation will allow reexportation of equivalent amounts.

References to legal instruments and hyperlinks

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.
Resident Accounts

Foreign exchange accounts permitted  Yes.

Held domestically  Yes. Resident individuals and legal entities may open foreign exchange accounts with local banks, which may be credited freely. Withdrawals in Burundi francs are generally unrestricted. Withdrawals and payments from resident foreign currency accounts are unrestricted for individuals only (in banknotes). For legal entities, supporting documents of foreign currency expenditures are required for foreign currency withdrawals. Foreign exchange accounts of State institutions and for State projects, as well as of nongovernmental organizations (NGOs), receiving external support have to be channeled through the CB, which makes national currency available, and all relevant existing foreign exchange accounts in commercial banks must be closed.

Approval required  No.

Held abroad  Yes. The BRB may authorize foreign accounts for individuals and legal entities. Account holders, except residents temporarily abroad, must send monthly statements to the BRB. Balances can be freely repatriated.

Approval required  No. The opening of foreign exchange accounts by residents is not subject to the prior authorization of the CB. All individuals and legal entities, resident or nonresident, are authorized to open foreign exchange accounts and to carry out transactions with an authorized bank in keeping with the terms and conditions of the foreign exchange regulations in force.

Accounts in domestic currency held abroad  No.

Accounts in domestic currency convertible into foreign currency  No. Only the Treasury’s account is convertible.

References to legal instruments and hyperlinks

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Nonresident Accounts

Foreign exchange accounts permitted  Yes. Any nonresident individual or legal entity may open a foreign exchange account in an authorized bank. Nonresident foreign exchange accounts may be debited and credited freely. There is a limit of US$50,000 a year on withdrawals in banknotes without supporting documents. Legal entities may only make withdrawals in banknotes with supporting documents for expenses in foreign currency.

Approval required  No.

Domestic currency accounts  Yes.

Convertible into foreign currency  No.

Approval required  No.

Blocked accounts  No.

References to legal instruments and hyperlinks

Imports and Import Payments

Foreign exchange budget  No.
**Financing requirements for imports**  No.  
**Minimum financing requirements**  No.  
**Advance payment requirements**  No.  
**Advance import deposits**  No.  
**Documentation requirements for release of foreign exchange for imports**  Yes.  Declarations of Intent to Import (DIIs) must be validated by commercial banks.  
**Domiciliation requirements**  No.  
**Preshipment inspection**  Yes.  A Declaration of Intent to Import (DII) must be filed. The bank that records the DII must authenticate the documents and ensure that the DII is properly completed (Article 40 of the Foreign Exchange Regulations). It must assign the DII an order number in an uninterrupted series that identifies the bank making the payment and the DII with or without provision of foreign exchange (2010 version of Foreign Exchange Regulations). Shipments of imported food, pharmaceuticals, and chemicals exceeding the equivalent of US $3,000 in c.i.f. value and of all other goods exceeding US$5,000 in c.i.f. value are subject to preshipment inspection by international supervisory and oversight agents with regard to quality, quantity, and price (Exchange Regulations of December 6, 2006, Article 39, para (a)). Inspections are carried out by the Société Générale de Surveillance S.A. (SGS). All other goods with a c.i.f. value of less than said amounts are subject to a documentary check. A supplementary physical check may be carried out when the goods arrive. Goods not inspected before shipment for a valid reason may be inspected in transit or on arrival.  
**Letters of credit**  No.  There is no obligation to settle import transactions with LCs.  
**Import licenses used as exchange licenses**  Yes.  The validation of a DII serves as an exchange authorization and gives access to foreign exchange.  
**Other**  Yes.  Goods imported into Burundi must be insured by approved Burundi insurers; premiums must be paid in Burundi francs, unless the BRB has granted an exemption.  
**Import licenses and other nontariff measures**  Yes.  The only requirement is a DII. Imports of commercial samples, personal luggage, and the personal effects of travelers, as well as all imports by diplomatic and UN missions, are exempt from the DII requirement.  
**Positive list**  No.  
**Negative list**  No.  
**Open general licenses**  Yes.  Imports of commercial samples, personal luggage, and the personal effects of travelers, as well as all imports by diplomatic and UN missions, are exempt from the DII requirement.  
**Licenses with quotas**  No.  
**Other nontariff measures**  No.  
**Import taxes and/or tariffs**  Yes.  Imports from COMESA member countries enter Burundi duty free. Burundi applies the EAC CET, which consists of three rates: 0%, 10%, and 25%. Imports of petroleum products are subject to a 20% duty.  
**Taxes collected through the exchange system**  No.  
**State import monopoly**  No.

<td></td>
</tr>
</tbody>
</table>
Investment-related payments  
Yes.

**Prior approval**  
Yes.  
BRB approval is required for investments abroad.

**Quantitative limits**  
No.

**Indicative limits/bona fide test**  
Yes.  
Private joint-stock companies may transfer 100% of the return on foreign capital and of the profits distributed to foreign directors after payment of taxes. Airlines may transfer abroad 100% of their earnings after deduction of local expenses. Transfer of rental income is permitted after payment of taxes and a deduction of 20% for maintenance expenses.

Payments for travel  
Yes.  
Commercial banks provide foreign exchange for personal and official travel. The BRB provides foreign exchange for official missions to its government and semipublic company account holders.

**Prior approval**  
No.

**Quantitative limits**  
Yes.  
Official missions are governed by Decree No. 120-121/VP1-VP2/002 of February 3, 2006, setting the scale and terms and conditions for official mission orders and costs as follows: (1) per diems: US$350 a night for government officials and public figures with the rank of minister; US$300 a night for directors-general and other senior management officials; and US$250 a night for other officials; (2) per diem supplements: US$100 a night for transit expenses longer than six hours a day; US$50 a night to supplement living expenses for a mission without per diems or with per diems less than US$50; and (3) communications costs as indicated on the mission order for the government and government-owned companies and as determined by the board of directors for semipublic companies. For private missions, the amounts are as follows: (1) business travel expenses: amount granted by the employer, not to exceed US$10,000 a trip; and (2) visit and tourism travel expenses: US$350 a night, not to exceed US$10,000 a trip.

**Indicative limits/bona fide test**  
Yes.

Personal payments  
Yes.  
Commercial banks sell foreign exchange for personal payments within the limits of their available foreign exchange. Transactions are limited to US$500 a person a day and US$3,000 a person a month. Pension transfers are effected through the National Social Security Institute.

**Prior approval**  
No.

**Quantitative limits**  
No.  
There are no quantitative limits on personal payments (commercial banks).

**Indicative limits/bona fide test**  
Yes.  
For health-related travel, an initial allowance up to US$10,000 is granted on departure; additional transfers are authorized on presentation of invoices. For an accompanying traveler, the allowance is US$300 a day, not to exceed US$5,000 in total. Amounts for education, moving, and subsistence expenses for students are as follows: (1) Scholarship students may receive the sum of the amount awarded by the government or organization financing the studies plus the difference between US$5,000 a quarter and the amount of the scholarship award. (2) Students who are not on scholarship may receive up to US$5,000 a year for moving and equipment expenses plus living expenses of US$5,000 a quarter and tuition fees. (3) Interns may receive the amount allowed by the employer, but no more than the amount for official mission expenses. It should be noted that additional amounts may be acquired if certain conditions are met.

Pegged exchange rate within horizontal bands

Other managed arrangement

Floating
Free floating

**Official exchange rate**

Yes. The escudo is pegged to the euro at the rate of CVEsc 110.265 per euro. There is no official bid-ask spread for euros. The official rate is used for accounting and valuation.

**Monetary policy framework**

Exchange rate anchor

Yes.

**U.S. dollar**

Yes. The monetary policy framework is an exchange rate anchor vis-à-vis the euro.

The Bank of Cabo Verde (BCV) collaborates with the government in defining the country’s monetary and exchange rate policy, which aims to achieve and maintain price stability. However, the implementation of monetary and exchange rate policy is done autonomously by the BCV.

The operational framework for monetary policy uses the interest rate as its operational target, exchange rate stability as an intermediate objective, and the maintenance of price stability as a final objective. The (semiannual) Monetary Policy Report and the monetary policy guidelines are analyzed/discussed (bimonthly) in the Monetary Policy Committee and approved by the Board of Directors of the BCV.

Exchange tax  No.

Exchange subsidy  No.

Foreign exchange market  Yes.  Commercial banks may buy and sell foreign currency. They may freely negotiate exchange rates and fees for purchases and sales of all foreign currency, except the euro, which must be traded at the official rate plus a fixed transaction fee of CVEsc 500.

Under the terms of Article 12 of Legislative Decree No. 3/2018 of June 22, 2018, foreign exchange trading in Cabo Verde is generally done only by financial institutions expressly authorized thereto by the legal and regulatory rules governing their activity, except in specific cases of international money orders (Article 13) and manual exchange (Article 14).

On an exceptional basis, the Central Bank of Cabo Verde may authorize entities not referred to above to trade in foreign exchange and travelers’ checks, provided they meet the requirements defined in an Official Notice (Aviso).

The operations of the foreign exchange market are regulated through CB Technical Instruction No. 121/2005.

There is a parallel foreign exchange market in Cabo Verde. The exchange rates practiced in this market have been close to the rates applied in the formal market.

As of end-2018, there were two foreign exchange bureaus operating in the country. Foreign exchange bureaus can buy and sell foreign banknotes and coins and traveler’s checks and may also provide money transfer services to and from abroad (under the conditions specified in Aviso No. 3/2003). Effective July 23, 2018, foreign exchange bureaus may maintain accounts abroad, within the framework of the liberalization promoted by Legislative Decree No. 3/2018 of June 22, 2018. Previously, they needed authorization from
the BCV to maintain accounts abroad. Licensed foreign exchange bureaus are authorized to conduct foreign exchange operations directly with the CB.

Commercial banks may trade foreign currency with each other. All seven commercial banks participate in the interbank foreign exchange market, but there are virtually no interbank foreign exchange transactions. Entities authorized to trade in foreign exchange may freely negotiate the exchange rates and fees to be applied when trading in the quoted currencies, except the euro, which must be traded at the official rate because the Cabo Verde escudo is pegged to it.

Banks are free to negotiate exchange rates and fees for purchases and sales of all foreign currencies, except the euro, which must be traded at the official rate.

The regulation governing the forward foreign exchange market (BCV Technical Instruction No. 121/2005) dates from 2005. Only credit institutions are authorized to contract and engage in foreign exchange forward transactions, in Cabo Verde and abroad, for the purpose of hedging the foreign exchange risks inherent to commercial or financial transactions in foreign currency. The said institutions may enter into contracts with residents, with each other, and with nonresident credit institutions.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Arrangements for Payments and Receipts

Most dealings in foreign exchange with the general public are conducted by seven commercial banks: (1) Banco Comercial do Atlântico, (2) Caixa Econômica de Cabo Verde, (3) Banco Caboverdiano de Negócios, (4) Banco Interatlântico, (5) Banco Africano de Investimentos, (6) Ecobank, and (7) Internacional Investment Bank de Cabo Verde.

Effective July 23, 2018, under Legislative Decree No. 3/2018 of June 22, 2018, there are no restrictions against the use of foreign exchange among residents. Also, there are no restrictions against the use of foreign exchange between residents and nonresidents. Article 18 of Legislative Decree No. 3/2018 of June 22, 2018, provides that residents may reciprocally assume debts or grant credits denominated in foreign currency or in units of account used in international payments and clearing arrangements.

Effective July 23, 2018, foreign exchange transactions were fully liberalized, according to Legislative Decree No. 3/2018 of June 22, 2018. Previously, foreign exchange transactions were under the control of the BCV, according to Legislative Decree Nos. 25/98 and 26/98 of June 29, 1998.

The BCV serves as the country’s foreign exchange authority, pursuant to the terms of Article 25 of Legislative Decree No. 3/2018 of June 22, 2018.

The new foreign exchange law fully liberalized foreign exchange transactions and economic and financial operations with entities abroad. This rendered irrelevant the prior authorization, prior verification process, and the special and prior authorization to which certain operations were previously subject.

However, in exceptional circumstances and in consultation with the BCV, the government may impose temporary restrictions on economic, financial, and foreign exchange transactions undertaken by residents with nonresidents (Article 23 of Legislative Decree No. 3/2018 of June 22, 2018).

Article 15 of Legislative Decree No. 3/2018 of June 22, 2018, provides that foreign exchange transactions must be conducted through an institution authorized to trade in foreign exchange, except in the cases identified in the decree.

| Effective July 23, 2018, Article 16 of Legislative Decree No. 3/2018 of June 22, 2018, provides that payments between residents and nonresidents to settle economic and financial transactions with entities abroad may be made directly through any means of payment denominated in escudos or in foreign currency. Article 20 of Legislative Decree No. 3/2018 of June 22, 2018, provides that accounts with nonresident institutions may be freely opened and operated. Previously, there was a mandatory intermediation of transactions by the institutions authorized to trade in foreign exchange. Article 17º of June 1998 Legislative Decree stipulated that inward and outward
transfers to settle transactions involving merchandise, current invisibles, or capital, must, on a mandatory basis, be carried out through a duly licensed entity authorized to engage in foreign exchange trading, or through the postal administration, within the established limits.

Preshipment inspection No.
Letters of credit No.
Import licenses used as exchange licenses No.
Other Yes. The importation of goods exceeding the equivalent of CVEsc 100,000 and not involving payments from the country’s foreign exchange resources requires preregistration.

Import licenses and other nontariff measures Yes. Since 2005, import licensing is operated on behalf of the government by the two Chambers of Commerce that exist in Cabo Verde.

Positive list No. Cabo Verde has not implemented the positive list of imported goods, so there are no import restrictions, except for goods whose importation is prohibited or subject to conditions.

Negative list Yes. The Report of the Working Group on the Accession of Cabo Verde to the WTO, published in the Supplement to B.O. No. 26 of June 29, 2009, contains a list of goods subject to international trade restrictions and a list of goods which may not be imported into Cabo Verde.

Chapter III of the Customs Code defines prohibited goods as those whose importation or exportation is prohibited in Cabo Verde in any way or is subject to restrictions relating to quality, packaging, or special formalities. Similarly, goods whose importation or exportation is not accompanied by the appropriate specific document, legally required for this purpose, are also considered prohibited.

Open general licenses Yes. With the exception of imports channeled through the small packages regime, which are of a noncommercial nature with a value of up to CVEsc 100,000 and a weight not exceeding 150 kg, as well as donations and aid to the government/municipalities and nonprofit entities that are not required to submit import licenses, all other imports are subject to licensing and/or administrative authorizations (sanitary and phytosanitary certificates, authorization to import arms, munitions, etc.).

Article 4 of Legislative Decree No. 68/2005 of October 2005, established specific products exempt of licensing:

“The following must be exempt from licensing:
(1) Imports of merchandise without commercial value as defined by order of the member of government responsible for foreign trade;
(2) Active and passive processing operations, temporary imports, reimporting on an as-is basis, reexporting, and transit operations;
(3) Merchandise imports subject to special duty-free, bonded warehouse, free warehouse, and special customs warehouse systems;
(4) Industrialized merchandise earmarked for consumption in international congresses, fairs, exhibitions, and similar events;
(5) Imports of merchandise earmarked to supply ships and aircraft, as provided in the relevant legislation;
(6) Merchandise that is seized, abandoned, found at sea, discarded, or salvaged from wrecks, and sold at auction; and
(7) Imports of merchandise without foreign exchange expenditure, owned by airlines or maritime navigation companies and intended for their exclusive use.”

Licenses with quotas No.
Other nontariff measures Yes. As per Article 5 of Legislative Decree No. 68/2005 of October 2005:
“The following merchandise must be subject to non-automatic licensing:
(1) Merchandise subject to health, phytosanitary, and safety inspections;
(2) Merchandise subject to mandatory restrictions defined by law. Applications for the importing of merchandise referred above must be accompanied with a certificate of compliance issued by the competent authorities.”

| Import taxes and/or tariffs | Yes. | There are seven tariff bands, with rates ranging up to 50% and with an unweighted average of 11%.
| Taxes collected through the exchange system | No. |
| State import monopoly | No. |
| References to legal instruments and hyperlinks | This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx. |

**Exports and Export Proceeds**

| Repatriation requirements | No. | Effective July 23, 2018, as per Legislative Decree No. 3/2018 of June 22, 2018, export proceeds no longer need to be repatriated. Previously, export proceeds had to be repatriated within 180 days, but this period could be extended. |
| Surrender requirements | No. |
| **Surrender to the central bank** | No. |
| **Surrender to authorized dealers** | No. | Effective July 23, 2018, as per Legislative Decree No. 3/2018 of June 22, 2018, the surrender requirement for export proceeds was abolished. Previously, according to Article 23 of Legislative Decree No. 25/98 (foreign exchange repatriation and surrender requirement), residents that, under any circumstances, received foreign currency from abroad, directly from nonresidents or from other residents, in the country or in a foreign country, were required to deposit the funds received to a special domestic account in a currency that is valid as legal tender in a foreign country opened in their name on the books of an institution authorized to engage in foreign exchange trading or the sale of the funds with that institution subject to the terms and conditions established by the BCV. |

| Financing requirements | No. |
| Documentation requirements | No. |
| Letters of credit | No. |
| Guarantees | No. |
| Domiciliation | No. |
| Preshipment inspection | No. |
| Other | No. |
| Export licenses | No. |
| Without quotas | No. |
| With quotas | No. |
| Export taxes | No. |
Collected through the exchange system  No.

Other export taxes  No.

Payments for Invisible Transactions and Current Transfers

Controls on these transfers  No.  Legislative Decree No. 3/2018 of June 22, 2018, decreed the full liberalization of all economic and financial relations with the outside world.

Trade-related payments  No.

Prior approval  No.

Quantitative limits  No.

Indicative limits/bona fide test  No.  Effective July 23, 2018, as per Legislative Decree No. 3/2018 of June 22, 2018, there are no controls on these transfers. Previously, these transfers had to be verified by the BCV, but did not need authorization.

Investment-related payments  No.

Prior approval  No.

Quantitative limits  No.

Indicative limits/bona fide test  No.  Effective July 23, 2018, as per Legislative Decree No. 3/2018 of June 22, 2018, there are no controls on these transfers. Previously, these transfers had to be verified by the BCV, but did not need authorization.

Payments for travel  No.

Prior approval  No.  Effective July 23, 2018, as per Legislative Decree No. 3/2018 of June 22, 2018, payments for travel are no longer subject to approval. Previously, purchases in excess of the equivalent of CVEsc 1 million in foreign currency a person a trip were subject to approval and appropriate supporting documents.

Quantitative limits  No.  Effective July 23, 2018, as per Legislative Decree No. 3/2018 of June 22, 2018, payments for travel are no longer subject to quantitative limits. Previously, purchases in excess of the equivalent of CVEsc 1 million in foreign currency a person a trip were subject to approval and appropriate supporting documents.

Indicative limits/bona fide test  No.  Effective July 23, 2018, as per Legislative Decree No. 3/2018 of June 22, 2018, there are no controls on payments for travel. Previously, these transfers had to be verified by the BCV but did not need authorization.

Personal payments  No.

Prior approval  No.

Quantitative limits  No.

Indicative limits/bona fide test  No.  Effective July 23, 2018, as per Legislative Decree No. 3/2018 of June 22, 2018, there are no controls on these transfers. Previously, these transfers had to be verified by the BCV but did not need authorization.

Foreign workers' wages  No.
Effective July 23, 2018, as per Legislative Decree No. 3/2018 of June 22, 2018, these transfers are no longer subject to approval. Previously, transfers by foreign technical assistance personnel working in Cabo Verde were authorized within the limits specified in the individual contracts. These contracts, as well as other contracts involving foreign exchange expenditures, were subject to screening by the BCV. Requests by other foreigners were examined on a case-by-case basis.

Effective July 23, 2018, as per Legislative Decree No. 3/2018 of June 22, 2018, there are no controls on these transfers. Previously, these transfers had to be verified by the BCV but did not need authorization.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Effective July 23, 2018, as per Legislative Decree No. 3/2018 of June 22, 2018, proceeds from invisible transactions and current transfers no longer need to be repatriated. Previously, proceeds from invisible transactions had to be repatriated in convertible currencies within 180 days from date of receipt.

Effective July 23, 2018, as per Legislative Decree No. 3/2018 of June 22, 2018, the surrender requirement for proceeds from invisible transactions and current transfers was abolished. Previously, according to Article 23 of Legislative Decree No. 25/98 (foreign exchange repatriation and surrender requirement), residents that, under any circumstances, received foreign currency from abroad, directly from nonresidents or from other residents, in the country or in a foreign country, were required to deposit the funds received to a special domestic account in a currency that is valid as legal tender in a foreign country opened in their name on the books of an institution authorized to engage in foreign exchange trading or the sale of the funds with that institution subject to the terms and conditions specified in Article 2.

Limits apply according to type of asset, but no distinction is made between residents and nonresidents. Ministerial Order No. 40/2005 of June 4, 2005, establishes a set of rules governing the type of assets that may represent technical provisions and on the limits of prudential diversification and dispersion, and also a set of principles to be followed by insurers in the definition, implementation, and control of investment policies.

Liquid asset requirements do not differentiate between currencies.

Foreign currency deposits are aggregated with local currency deposits valued at the official exchange rate for the purpose of calculating required reserves. A uniform reserve requirement applies to all deposits.

Liquid asset requirements do not differentiate between currencies.

There is still no regulation in this area.
nonresidents

**Changes during 2018 and 2019**

**Exchange Arrangement**

**Foreign exchange market**

Spot exchange market: 07/23/2018

Foreign exchange bureaus may maintain accounts abroad, within the framework of the liberalization promoted by Legislative Decree No. 3/2018 of June 22, 2018. Previously, they needed authorization from the Bank of Cabo Verde to maintain accounts abroad.

**Arrangements for Payments and Receipts**

**Prescription of currency requirements**

Use of foreign exchange among residents: 07/23/2018

Under Legislative Decree No. 3/2018 of June 22, 2018, there are no restrictions against the use of foreign exchange among residents. Foreign exchange transactions were fully liberalized, according to Legislative Decree No. 3/2018 of June 22, 2018. Previously, foreign exchange transactions were under the control of the Bank of Cabo Verde, according to Legislative Decree Nos. 25/98 and 26/98 of June 29, 1998.

**Administration of control**

07/23/2018

**Controls on exports and imports of banknotes**

On exports:

**Domestic currency**

07/23/2018

As per Legislative Decree No. 3/2018, there are no limits on exports of domestic currency. Previously, the exportation of domestic currency by travelers was permitted up to a limit of CVEsc 20,000 a person a trip.

**Foreign currency**

07/23/2018

As per Legislative Decree No. 3/2018, there are no limits on exports of foreign currency. Previously, residents traveling abroad may take out the equivalent of CVEsc 1 million (approximately US$10,000).

On imports:

**Domestic currency**

07/23/2018

As per Legislative Decree No. 3/2018, there are no limits on imports of domestic currency. Previously, the importation of domestic currency was permitted up to specified limits.

**Foreign currency**

07/23/2018

As per Legislative Decree No. 3/2018, there are no limits on imports of foreign currency. Previously, foreign travelers may import foreign currency up to specified limits.
Resident Accounts

Foreign exchange accounts permitted

Held domestically 07/23/2018

Article 19 of Legislative Decree No. 3/2018 of June 22, 2018, provides that accounts may be freely opened and operated in national territory, thereby revoking the restrictions imposed by Article 22 of Legislative Decree No. 25/98 of June 29, 1998. The only requirement is to provide statistical data and conserve their respective elements, pursuant to Aviso No. 6/2018 of August 27, 2018.

Held abroad 07/23/2018

Article 20 of Legislative Decree No. 3/2018 of June 22, 2018, provides that accounts with nonresident institutions may be freely opened and operated, thereby revoking the restrictions imposed by Article 24 of Legislative Decree No. 25/98 of June 29, 1998. The only requirement is to provide statistical data and conserve their respective elements, pursuant to Aviso No. 6/2018 of August 27, 2018.

Approval required 07/23/2018

Approval is not required.

Accounts in domestic currency held abroad 07/23/2018

Article 20 of Legislative Decree No. 3/2018 of June 22, 2018, provides that accounts with nonresident institutions may be freely opened and operated, thereby revoking the restrictions imposed by Article 24 of Legislative Decree No. 25/98 of June 29, 1998.

Accounts in domestic currency convertible into foreign currency 07/23/2018

Article 19 of Legislative Decree No. 3/2018 of June 22, 2018, provides that accounts may be freely opened and operated in national territory.

Nonresident Accounts

Foreign exchange accounts permitted 07/23/2018

Article 19 of Legislative Decree No. 3/2018 of June 22, 2018, provides that accounts may be freely opened and operated in national territory, thereby revoking the restrictions imposed by Article 22 of Legislative Decree No. 25/98 of June 29, 1998. The only requirement is to provide statistical data and conserve their respective elements, pursuant to Aviso No. 6/2018 of August 27, 2018. Previously, these accounts were permitted as demand or term deposit accounts with a term of one year or less.

Domestic currency accounts 07/23/2018

Article 19 of Legislative Decree No. 3/2018 of June 22, 2018, provides that accounts may be freely opened and operated in national territory, thereby revoking the restrictions imposed by Article 22 of Legislative Decree No. 25/98 of June 29, 1998. Previously, nonresident foreigners could open non-interest-bearing demand deposit accounts in local currency, and nonresident nationals and authorized family members could open interest-bearing accounts, which were subject to restrictions imposed by Article 22 of Legislative Decree No. 25/98 of June 29, 1998.

Imports and Import Payments

Documentation requirements for release of foreign exchange for imports 07/23/2018

Article 16 of Legislative Decree No. 3/2018 of June 22, 2018, provides that payments between residents and nonresidents to settle economic and financial transactions with entities abroad may be made directly through any means of payment denominated in escudos or in foreign currency.

Domiciliation requirements 07/23/2018

Article 20 of Legislative Decree No. 3/2018 of June 22, 2018, provides that accounts with nonresident institutions may be freely opened and operated. Previously, there was a mandatory intermediation of transactions by...
the institutions authorized to trade in foreign exchange. Article 17th of June 1998 Legislative Decree stipulated that inward and outward transfers to settle transactions involving merchandise, current invisibles, or capital, must, on a mandatory basis, be carried out through a duly licensed entity authorized to engage in foreign exchange trading, or through the postal administration, within the established limits.

**Exports and Export Proceeds**

**Repatriation requirements** 07/23/2018
As per Legislative Decree No. 3/2018 of June 22, 2018, export proceeds no longer need to be repatriated. Previously, export proceeds had to be repatriated within 180 days, but this period could be extended.

**Surrender requirements**

*Surrender to authorized dealers* 07/23/2018
As per Legislative Decree No. 3/2018 of June 22, 2018, the surrender requirement for export proceeds was abolished. Previously, according to Article 23 of Legislative Decree No. 25/98 (foreign exchange repatriation and surrender requirement), residents that, under any circumstances, received foreign currency from abroad, directly from nonresidents or from other residents, in the country or in a foreign country, were required to deposit the funds received to a special domestic account in a currency that is valid as legal tender in a foreign country opened in their name on the books of an institution authorized to engage in foreign exchange trading or the sale of the funds with that institution subject to the terms and conditions established by the Bank of Cabo Verde.

**Payments for Invisible Transactions and Current Transfers**

**Controls on these transfers**

**Trade-related payments**

*Indicative limits/bona fide test* 07/23/2018
As per Legislative Decree No. 3/2018 of June 22, 2018, there are no controls on these transfers. Previously, these transfers had to be verified by the Bank of Cabo Verde, but did not need authorization.

**Investment-related payments**

*Indicative limits/bona fide test* 07/23/2018
As per Legislative Decree No. 3/2018 of June 22, 2018, there are no controls on these transfers. Previously, these transfers had to be verified by the Bank of Cabo Verde, but did not need authorization.

**Payments for travel**

*Prior approval* 07/23/2018
As per Legislative Decree No. 3/2018 of June 22, 2018, payments for travel are no longer subject to approval. Previously, purchases in excess of the equivalent of CVEsc 1 million in foreign currency a person a trip were subject to approval and appropriate supporting documents.

*Quantitative limits* 07/23/2018
As per Legislative Decree No. 3/2018 of June 22, 2018, payments for travel are no longer subject to quantitative limits. Previously, purchases in excess of the equivalent of CVEsc 1 million in foreign currency a person a trip were subject to approval and appropriate supporting documents.

*Indicative limits/bona fide test* 07/23/2018
As per Legislative Decree No. 3/2018 of June 22, 2018, there are no controls on payments for travel. Previously, these transfers had to be verified by the Bank of Cabo Verde but did not need authorization.

**Personal payments**

*Indicative limits/bona fide test* 07/23/2018
As per Legislative Decree No. 3/2018 of June 22, 2018, there are no controls on these transfers. Previously, these transfers had to be verified by the Bank of Cabo Verde but did not need authorization.
Foreign workers’ wages

Prior approval 07/23/2018

As per Legislative Decree No. 3/2018 of June 22, 2018, these transfers are no longer subject to approval. Previously, transfers by foreign technical assistance personnel working in Cabo Verde were authorized within the limits specified in the individual contracts. These contracts, as well as other contracts involving foreign exchange expenditures, were subject to screening by the Bank of Cabo Verde. Requests by other foreigners were examined on a case-by-case basis.

Indicative limits/bona fide test 07/23/2018

As per Legislative Decree No. 3/2018 of June 22, 2018, there are no controls on these transfers. Previously, these transfers had to be verified by the Bank of Cabo Verde but did not need authorization.

Credit card use abroad

Indicative limits/bona fide test 07/23/2018

As per Legislative Decree No. 3/2018 of June 22, 2018, there are no controls on these transfers. Previously, these transfers had to be verified by the Bank of Cabo Verde but did not need authorization.

Other payments

Indicative limits/bona fide test 07/23/2018

As per Legislative Decree No. 3/2018 of June 22, 2018, there are no controls on these transfers. Previously, these transfers had to be verified by the Bank of Cabo Verde but did not need authorization.

Proceeds from Invisible Transactions and Current Transfers

Repatriation requirements 07/23/2018

As per Legislative Decree No. 3/2018 of June 22, 2018, proceeds from invisible transactions and current transfers no longer need to be repatriated. Previously, proceeds from invisible transactions had to be repatriated in convertible currencies within 180 days from date of receipt.

Surrender requirements

Surrender to authorized dealers 07/23/2018

As per Legislative Decree No. 3/2018 of June 22, 2018, the surrender requirement for proceeds from invisible transactions and current transfers was abolished. Previously, according to Article 23 of Legislative Decree No. 25/98 (foreign exchange repatriation and surrender requirement), residents that, under any circumstances, received foreign currency from abroad, directly from nonresidents or from other residents, in the country or in a foreign country, were required to deposit the funds received to a special domestic account in a currency that is valid as legal tender in a foreign country opened in their name on the books of an institution authorized to engage in foreign exchange trading or the sale of the funds with that institution subject to the terms and conditions established by the Bank of Cabo Verde.

Capital Transactions

Repatriation requirements 07/23/2018

As per Legislative Decree No. 3/2018 of June 22, 2018, proceeds from capital transactions no longer need to be repatriated. Previously, proceeds from capital transactions had to be repatriated in convertible currencies within 180 days from date of receipt.

Surrender requirements

Surrender to authorized dealers 07/23/2018

As per Legislative Decree No. 3/2018 of June 22, 2018, the surrender requirement for proceeds from capital transactions was abolished. Previously, according to Article 23 of Legislative Decree No. 25/98 (foreign exchange repatriation and surrender requirement), residents that, under any circumstances, received foreign currency from abroad, directly from nonresidents or from other residents, in the
country or in a foreign country, were required to deposit the funds received to a special domestic account in a currency that is valid as legal tender in a foreign country opened in their name on the books of an institution authorized to engage in foreign exchange trading or the sale of the funds with that institution subject to the terms and conditions established by the Bank of Cabo Verde.

<th>Unitary</th>
<th>Yes.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dual</td>
<td>Yes.</td>
</tr>
<tr>
<td>Multiple</td>
<td>Yes.</td>
</tr>
</tbody>
</table>

**Classification**

- No separate legal tender
- Currency board
- Conventional peg
- Stabilized arrangement
- Crawling peg
- Crawl-like arrangement
- Pegged exchange rate within horizontal bands
- Other managed arrangement Yes. The de jure exchange rate arrangement is a managed float. Given the...
high degree of financial dollarization, the National Bank of Cambodia (NBC) intervenes in the foreign exchange market to accommodate demand for riel and maintain exchange rate stability. The NBC publishes intervention data twice a year, in semiannual reports and annual reports of the NBC in Khmer language, which will be published on the NBC website with 1–2 months lag. There are also English versions of annual reports but published with a time lag of around 3–5 months. The de facto exchange rate arrangement is classified as other managed.

Floating
Free floating

Official exchange rate  Yes. The official exchange rate is based on the average daily market rate of the previous day, which is adjusted by taking into account liquidity conditions in the market. The official rate is used for banks’ and financial institutions’ accounting, customs valuation purposes, and foreign exchange transactions with the government. The NBC’s Official Exchange Rate Determination Committee meets every morning to set the official daily exchange rate, with approval from the Director General of Central Banking.

Monetary policy framework
Exchange rate anchor  Yes.

U.S. dollar  Yes. The monetary policy framework is an exchange rate anchor vis-à-vis the US dollar.

Other monetary framework

Exchange tax  No.

Exchange subsidy  No.

Foreign exchange market  Yes.  Commercial banks and money changers are free to set the exchange rate in transactions with their clients. The ADs are allowed to determine freely foreign exchange commissions with their clients.

Spot exchange market  Yes.  There is no formal spot exchange market. Commercial banks may buy and sell foreign exchange at their own rates. Money changers may also buy and sell banknotes and traveler’s checks at their own rates. The NBC licenses commercial banks and other foreign exchange agents (money changers). Foreign exchange dealers may conduct foreign exchange business, maintain accounts abroad, and buy and sell banknotes and traveler’s checks. There were 73 licensed money changers and 2,650 authorized money changers as of end-2018. Licensed money changers can directly transact with the NBC, and they are able to make foreign currency payment and transfer on behalf of the clients.

Operated by the central bank  Yes.  The NBC intervenes in the foreign exchange market through purchases and sales of US dollars to maintain a stable exchange rate to achieve price stability. The NBC holds foreign exchange reserves in US dollars, euros, pounds sterling, Australian dollars, and other currencies in accordance with the guidelines of the Investment Committee. The NBC interacts with the market using three channels: (1) auction; (2) bilateral transaction with money changers and banks; (3) direct transaction with the government. The current format of NBCs’ interaction with market participants appears to be managing riel liquidity (demand for Cambodian riel (KHR) tax payment, etc.) rather than managing exchange rate volatility. On bilateral basis, the
NBC uses the official quote. The NBC buys and/or sell US dollars and Cambodian riel (KHR) to manage the supply of foreign and the local currency to the market. The NBC also buys and sells US dollars and Cambodian riel directly to the government and public entity, except the Electricité Du Cambodge (EDU). The NBC sells Cambodian riels to market according to market conditions. Since 2012, the NBC has ceased to sell US dollars to market.

**Allocation**
No.

**Auction**
Yes. Auction takes place occasionally, and the NBC provides guidance on rates and announces amounts in advance. There are no restrictions on the use of currency obtained at auction, but the NBC requests information beforehand on the intended use of local currency purchased. Banks and licensed money changers may participate and are not required to submit information on the intended use of the foreign currency exchange on a transactional or an aggregate basis. Auction results are regularly disclosed to the public.

**Fixing**
No.

**Interbank market**
Yes. The interbank foreign exchange market is still at an early stage of development, with the operation taking place on a retail customer basis. Banks conduct transactions among each other through NBC platform. There is no limit on the bid-ask spread and commission fee. The number of banks participating in the interbank foreign exchange market in 2018 is 21. The NBC grants licenses to banks, and foreign exchange is one of the businesses that they can operate under bank license. There are a few number of money changers who are the market makers.

**Over the counter**
Yes. The informal interbank market may operate over the counter, and there are no brokers.

**Brokerage**
No. Foreign exchange market does not operate based on a brokerage system.

**Market making**
Yes. There is no exact year when the market making activities emerged. There are a few money changers who are the market makers, yet the operations are not under control of the CB. The CB also proposes its own quotes to market participants through NBC platform.

**Forward exchange market**
Yes. Forward exchange market exists among commercial banks. The CB does not participate in the forward foreign exchange market. There is no exact year when the forward exchange market was formed.

**Official cover of forward operations**
No.

### Arrangements for Payments and Receipts

**Prescription of currency requirements**
No. The use of domestic currency is not restricted for payments and receipts between Cambodia and the rest of the world; however, such operations must be undertaken solely through authorized intermediaries.

**Controls on the use of domestic currency**
No. Domestic currency can be used for settlement of international current or capital transactions.

**For current transactions and payments**
No.

**For capital transactions**
No.

**Transactions in capital and money market instruments**
No.

Provisions Specific to the Financial Sector

**Provisions specific to commercial banks and other credit institutions**
Yes. Authorized banks must provide the NBC with periodic statements of transfers or settlements and of outflows and inflows of capital between Cambodia and other countries. Loans and borrowing, including trade credits, may be freely contracted between residents and nonresidents, provided the loan disbursements and repayments take place through authorized intermediaries. However, during a foreign exchange crisis, the NBC may issue regulations to be implemented for up to three months that temporarily restrict authorized intermediaries’ activity, particularly for certain transactions specified in the law, foreign exchange positions, and loans in domestic currency to nonresidents.

**Borrowing abroad**
No. The reserve requirement of 12.5% is placed for external borrowing.

**Maintenance of accounts abroad**
No. There is no restriction on the maintenance of accounts abroad by commercial banks and other financial institutions.

**Lending to nonresidents (financial or commercial credits)**
Yes. Banks and financial institutions cannot grant loans (including lease loans and all types of signatory guarantees) to use overseas.

**Lending locally in foreign exchange**
No. Authorized banks may lend locally in foreign exchange and must submit reports to the NBC from time to time.

**Purchase of locally issued securities denominated in foreign exchange**
No. There are currently no foreign-exchange-denominated securities issued in Cambodia.

**Differential treatment of deposit accounts in foreign exchange**
Yes. The reserve requirement is 12.5% for foreign currency deposits and external borrowing and 8% for riel deposits and is the same for resident and nonresident accounts. Effective August 29, 2018, the NBC has issued a new Prakas, which states that the reserve requirement for foreign currency deposit and foreign borrowing and for local currency is maintained at 12.5 and 8%, respectively. However, the additional 4.5% reserve requirement on the foreign deposits was no longer remunerated. Previously, the remuneration rate on the additional 4.5 reserve requirement on foreign deposits was ½ of LIBOR calculated on a monthly basis.

**Reserve requirements**
Yes. Banks must at all times have a liquidity ratio of at least 50%, regardless of the denomination of the currency of the account.

**Liquid asset requirements**
No. Banks must at all times have a liquidity ratio of at least 50%, regardless of the denomination of the currency of the account.

**Interest rate controls**
Yes. For microfinance institutions (including Microfinance Deposit Taking Institutions (MDIs), Microfinance Institutions (MFIs), and Rural Credit Operators), the interest rate cap is 18% per annum.

**Credit controls**
No.

**Differential treatment of deposit accounts held by nonresidents**
No. Reserve requirements do not differentiate between resident and nonresident accounts. Reserve requirement rate is 8% for domestic currency deposits and 12.5% for foreign currency deposits.

**Reserve requirements**
No. Banks must at all times have a liquidity ratio of at least 50% for residents’ and nonresidents’ accounts.

**Liquid asset requirements**
No. Banks must at all times have a liquidity ratio of at least 50% for residents’ and nonresidents’ accounts.

**Interest rate controls**
No.

**Credit controls**
No.

**Investment regulations**
Yes.

**Abroad by banks**
Yes. Banks may not use deposits collected in Cambodia abroad.

CAMEROON

(Position as of December 31, 2018)

Status under IMF Articles of Agreement

Date of membership

Article VIII
Yes. Date of acceptance: June 1, 1996.

Article XIV

Exchange Measures

Restrictions and/or multiple currency practices
No.

Exchange measures imposed for security reasons
Yes.

In accordance with IMF Executive Board Decision No. 144-(52/51)
Yes.

For security reasons, Cameroon supports UNSC Resolution No. 1373 to combat money laundering and terrorism financing (Regulation No. 01/03/CEMAC/UMAC/CM of April 4, 2003), UNSC Resolution No. 1267 (1999), and restricts financial transactions and freezes accounts if they relate to terrorists or terrorist organizations pursuant to the updated list of terrorist organizations drawn up by the U.S. State Department.

Other security restrictions
Yes.

This information can be found at the AREAER ONLINE database:
http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Exchange Arrangement

Currency
Yes. The currency issued within the CEMAC, which is legal tender in Cameroon and all other member countries, is the CFA franc.

Other legal tender
No.

Exchange rate structure

Unitary
Yes.

Dual

Multiple

Classification

No separate legal tender

Currency board

Conventional peg
Yes.

The exchange rate arrangement of the Central African Monetary Union is a conventional peg. Cameroon participates in the Central African Monetary Union and has no separate legal tender. The Monetary Cooperation Agreement (MCA) between CEMAC member countries and France is based on three principles: (1) a common CB; (2) fixed parity with the euro; and (3) an unlimited convertibility guarantee. Article 16 empowers the finance ministers of signatory countries (Joint Monetary Committee) to amend the MCA. Article 17 permits signatories to amend the agreement. Article 18 specifies that
The expulsion of a member country from the BEAC automatically results in that country’s renunciation of the MCA.

<tr>
<td><strong>Official exchange rate</strong></td>
<td>Yes</td>
</tr>
</tbody>
</table>

The CFA franc is officially pegged to the euro, the intervention currency, at a fixed rate of CFAF 655.957 per euro. The exchange rate is fixed by Article 12 of the MCA of November 23, 1972, between the BEAC and France, which states that the par value may be modified following consultation among the signatory countries (BEAC members and France), taking into account the demands of the economic and financial situation of the member countries. Exchange transactions in euros between the BEAC and commercial banks are made at this rate. Buying and selling rates for certain other foreign currencies are also listed officially based on the fixed rate for the euro and the rates for these foreign currencies prevailing in the Paris foreign exchange market. The official rate is used for accounting and valuation.

**Exchange tax**  Yes. Transfers of funds with the rest of the world are subject to transfer fees determined freely by the market but not exceeding 0.5%, excluding the turnover tax (TCA) and any other special tax. Licensed intermediaries may effect transfers with the rest of the world through the BEAC. Within the CEMAC, transfers of funds are subject to transfer fees determined freely by the market and not exceeding 0.25%, excluding the TCA and any other special tax.

**Exchange subsidy**  No.

**Foreign exchange market**  Yes. Licensing of exchange bureaus is the responsibility of the MOFs of the CEMAC member countries. Their operations are limited to OTC transactions. Licensed intermediaries, who set their own exchange rates with their customers for currencies other than the euro, may freely conduct exchange transactions with their customers. Licensed intermediaries consisted of 25 exchange bureaus and 14 banks, as of December 31, 2017. The BEAC’s OTC exchange transactions are conducted exclusively with national public accountants and treasuries.

**Operated by the central bank**  Yes. The BEAC’s OTC exchange transactions are conducted exclusively...
with national public accountants and treasuries. Within the limits of available stocks, the BEAC’s OTC exchange transactions are conducted exclusively with national public accountants and treasuries.

Allocation  No.
Auction  No.
Fixing  No.

**Interbank market**  Yes. There are no restrictions on interbank foreign exchange transactions within the CEMAC. Exchange transactions are OTC transactions. The BEAC does not intervene in exchange transactions within the CEMAC. These transactions are freely conducted by operators licensed by the MOF with the approval of the Central African Banking Commission (COBAC). A fee of no more than 4% for CFA franc area notes and 10% for other currencies, not including the TCA and any other specific tax, is collected by licensed intermediaries on transactions in foreign banknotes and traveler’s checks. This fee covers all charges on OTC transactions and the intermediation margin. All the 14 banks are allowed to participate to the interbank market.

Over the counter  Yes. Foreign exchange transactions are conducted on an OTC basis.
Brokerage  No.
Market making  No.

**Forward exchange market**  Yes. There is no forward foreign exchange market in the CEMAC. There is no regulation for such transactions but these transactions are not forbidden. Licensed intermediaries may enter into forward exchange contracts up to a limit of CFAF 100 million on presentation of supporting documentation (invoices, debt repayment schedules, or other foreign-currency-denominated debt instruments) and must report such activities to the BEAC. For amounts over CFAF 100 million, requests for forward exchange contracts must be made to the BEAC so that their purpose may be verified.

**Official cover of forward operations**  No.

**References to legal instruments and hyperlinks**  This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

**Arrangements for Payments and Receipts**

**Prescription of currency requirements**  Yes.
Controls on the use of domestic currency  No. Within the CEMAC, the CFA franc is used freely for payments and receipts relating to current and capital transactions and payments. Settlements with all countries other than CEMAC members must be made through correspondent banks in one of the currencies of the two parties or in any other currency agreed on by the two parties to the transaction.

**For current transactions and payments**  No.
**For capital transactions**  No.
Transactions in capital and money market instruments  No.
Transactions in derivatives and other instruments  No.
Credit operations  No.
Use of foreign exchange among residents Yes.
The monetary unit is the CFA franc, which is the sole official currency and legal tender in all CEMAC member countries. Consequently, transactions among residents must be settled in domestic currency.

<table>
<thead>
<tr>
<th>Payments arrangements</th>
<th>Yes.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bilateral payments arrangements</td>
<td>No.</td>
</tr>
</tbody>
</table>

Operative No.

Inoperative No.

Regional arrangements Yes.
An operations account links all the countries with the French Treasury. All purchases and sales of foreign currencies and euros in exchange for CFA francs are ultimately settled by a debit or credit to the operations account. Governments may maintain foreign currency deposits related to oil reserves at commercial banks and use them to meet their external debt service obligations. Exchange regulations in the CEMAC member countries are harmonized.

Clearing agreements No.

Barter agreements and open accounts Yes.

Administration of control Yes.
Administration of the foreign exchange regulations is the responsibility of the MOFs of the CEMAC countries, which may delegate all or a portion of their authority to the BEAC, the COBAC, and licensed intermediaries. For example, authority is delegated to licensed intermediaries to carry out transactions with the rest of the world. They must verify the validity of transactions, collect statistics, and report these activities to the monetary authorities. However, certain types of transactions may not be delegated. The BEAC supervises the exchange regulations; evaluates foreign exchange hedging operations; reviews requests for approval of opening of foreign exchange accounts by some resident legal entities; and monitors the repatriation of export proceeds. The COBAC ensures that licensed intermediaries comply with certain provisions of these regulations, especially to prevent weakening of the CEMAC banking system.

Payments arrears No.
Licensed intermediaries may freely execute their customers’ payment orders. The related transfers may, at their request, be made through the BEAC. In this context, the MCA with France serves to guarantee the convertibility of the CFA franc. No payment arrears are allowed on the grounds that insufficient foreign exchange is available.

Official No.

Private No.

Controls on trade in gold (coins and/or bullion) Yes.

On domestic ownership and/or trade No.
CEMAC residents are free to hold, purchase, and sell gold in any form within the CEMAC.

On external trade Yes.
Except in the case of manufactured articles containing small quantities of gold, CEMAC gold imports and exports are subject to approval by the appropriate authorities. The national treasuries and the BEAC are exempt from this requirement.

Controls on exports and imports of banknotes Yes.
Residents and nonresidents traveling from one country to another within the CEMAC may take with them an unlimited amount of CEMAC banknotes and coins.

On exports Yes.
Domestic currency

Yes. CFA francs issued by the BEAC may not be exported to countries outside the CEMAC. However, departing resident travelers may have in their possession up to CFAF 100,000. During their trips outside the CEMAC, travelers must use payment instruments other than BEAC banknotes (foreign currency, traveler’s checks, bank drafts, transfers, etc.).

Foreign currency

Yes. Resident and nonresident travelers crossing CEMAC borders must, on exit, declare any foreign currency, securities, or instruments valued at more than CFAF 1 million to the customs authorities. Nonresident travelers leaving the CEMAC may take with them foreign currency valued at up to the amount they declared on entering the CEMAC. If they made no declaration on entry or if they are carrying sums exceeding those they brought into the CEMAC, they must explain the source of the amount in excess of CFAF 1 million. Supporting documents include pay slips and work permits (wage income), student cards (parental assistance for students and trainees), and notarized instruments (donations), among others.

On imports

Yes.

Domestic currency

Yes. CFA francs issued by the BEAC may not be imported from countries outside the CEMAC. However, arriving resident travelers may have in their possession up to CFAF 100,000.

Foreign currency

No. Resident and nonresident travelers crossing CEMAC borders must, on entry, declare foreign currency, securities, or instruments valued at more than CFAF 1 million to the customs authorities.

References to legal instruments and hyperlinks

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Resident Accounts

Foreign exchange accounts permitted

Yes.

Held domestically

Yes. Residents may not open foreign exchange accounts in local banks.

Approval required

Yes. The MOF may allow certain resident legal entities to open foreign exchange accounts with BEAC consent. These accounts may not be credited with CFA francs or with debits from CFA franc accounts.

Held abroad

Yes. The principle underlying the Central African Monetary Union is the centralization of reserves at the BEAC. Consequently, foreign currency acquired by residents in transactions with the rest of the world must be systematically repatriated and surrendered to the BEAC. Thus, only licensed intermediaries may maintain foreign exchange accounts with their correspondent banks abroad to meet their cash flow needs. Resident individuals may not maintain foreign exchange accounts abroad, subject to exceptions.

Approval required

Yes. There are no specific regulations on foreign exchange accounts held by CEMAC residents with banks abroad, resident other than licensed intermediaries should not hold account abroad. However, transactions with the rest of the world involving amounts exceeding CFAF 5 million must be settled by licensed intermediaries that can hold account abroad.

Accounts in domestic currency held abroad

No. Accounts in domestic currency held abroad are not permitted, except within the CEMAC.

Accounts in domestic currency convertible into foreign currency

No.

References to legal instruments and hyperlinks

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.
Nonresident Accounts

Foreign exchange accounts permitted

Yes.

There are no restrictions on the opening of nonresident foreign exchange accounts within the CEMAC. Licensed intermediaries may open such accounts for any nonresident, on request, provided they inform the monetary authorities. Such accounts may not be overdrawn.

Approval required

No.

Domestic currency accounts

Yes.

There are no restrictions on the opening of nonresident CFA franc accounts within the CEMAC. Licensed intermediaries may open such accounts for nonresidents, on request, provided they inform the monetary authorities. Such accounts may not be overdrawn.

Convertible into foreign currency

No.

Approval required

No.

Blocked accounts

No.

References to legal instruments and hyperlinks

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Imports and Import Payments

Foreign exchange budget

No.

The exchange regulations do not limit access to foreign exchange. Payments for imports must be made regularly through licensed intermediaries.

Financing requirements for imports

No.

Economic agents may freely enter into commercial contracts with their partners abroad. These contracts are executed through the banking system, subject to compliance with the exchange regulations.

Minimum financing requirements

No.

There are no financing requirements.

Advance payment requirements

No.

Advance import deposits

No.

Documentation requirements for release of foreign exchange for imports

Yes.

For import payments of less than CFA 100 million, the licensed intermediary must obtain a pro forma or original invoice, a bill of lading, or the commercial contract, along with the most recent tax receipt or a professional license. Payments of more than CFA 100 million must be settled through a licensed intermediary, which must check the supporting documents. Legally registered legal entities and declared or certified professionals may be exempt from the requirement to produce supporting documents, provided they submit an annual estimate of imports corroborated by a business forecast.

Domiciliation requirements

Yes.

Imports valued at more than CFA 5 million must be domiciled with a resident licensed intermediary.

Preshipment inspection

Yes.

There are no specific provisions for inspections at the CEMAC level. The member countries may freely apply their own regulations in this regard. In Cameroon, imports with an f.o.b. value exceeding the equivalent of CFAF 2 million are subject to inspection by the Société Générale de Surveillance.

Letters of credit

No.

The use of LCs by economic agents for the settlement of transactions is allowed but optional.

Import licenses used as exchange licenses

No.

Import licenses are not used in the CEMAC countries to restrict the availability of foreign exchange for legitimate trade, as defined in the Compilation Guide. When such licenses exist they are used for trade policy purposes.
For import payments of less than CFAF 100 million, the licensed intermediary must obtain a pro forma or original invoice, a bill of lading, or the commercial contract, along with the most recent tax receipt or a professional license (registration number, professional ID card, extract from the commercial registry, or tax clearance). Payments of more than CFAF 100 million must be settled through a licensed intermediary, which must check the supporting documents. Legally registered legal entities and declared or certified professionals may be exempt from the requirement to produce supporting documents, provided they submit an annual estimate of imports corroborated by a business forecast.

In general, CEMAC countries no longer use quantitative restrictions as a means of protecting local production. Merchandise originating from all countries may be freely imported, with the exception of gold, to which special regulations apply. In Cameroon, importers are required to file an import declaration with the Société Générale de Surveillance when the value of the imported goods exceeds the equivalent of CFAF 5 million. The import of certain goods on the list issued by the Ministry of Industrial and Commercial Development (MINDIC) each year requires licenses.

Imports of some products may be prohibited, restricted, or require national authorization for humanitarian, security, or health reasons.

In Cameroon, importers are required to file an import declaration with the Société Générale de Surveillance when the value of the imported goods exceeds the equivalent of CFAF 5 million. The import of certain goods on the list issued by the Ministry of Industrial and Commercial Development (MINDIC) each year requires licenses.

In Cameroon, quotas apply to container imports.

The CEMAC CET applies to imports from non-CEMAC countries, at four rates: 5% for staple goods, 10% for raw materials and capital goods, 20% for intermediate goods, and 30% for consumer goods. The taxes are imposed by the national customs administration in CFA francs at the merchandise point of entry. Licensed intermediaries are responsible for withholding all taxes and related fees established by law and surrendering them to the monetary authority.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

Export-related transactions must be reported to the appropriate administrative authorities, and all those exceeding CFAF 5 million must be domiciled at a licensed CEMAC bank. Export proceeds originating in non-CEMAC countries must be collected and repatriated within 30 days of the date stipulated in the contract, through the domiciling bank, with the BEAC acting as intermediary.

Export proceeds collected in foreign currencies must be surrendered to the BEAC within 30 days of collection.

Economic agents and their partners abroad may enter freely into commercial contracts, which are executed through the banking sector.
system, subject to compliance with the exchange regulations. There are no financing requirements.

Transactions related to exports to non-CEMAC countries valued at more than CFAF 5 million must be domiciled with a local licensed bank. Each domiciliation file must contain an export contract, a foreign exchange declaration under which the exporter agrees to repatriate all export earnings within a month of the payment due date, and a customs export certificate duly signed by a customs officer.

The use of LCs by economic agents for the settlement of transactions is allowed but optional.

No guarantees are required. However, export companies applying for VAT refund should submit proof of repatriation of export earnings signed by the MOF.

Transactions related to exports to non-CEMAC countries valued at more than CFAF 5 million must be domiciled with a local licensed bank.

There are no specific provisions for inspections at the CEMAC level. The member countries may freely apply their own regulations in this regard. In Cameroon, exports, whatever their destination, are subject to Société Générale de Surveillance inspection.

In Cameroon, a health certificate is required prior to shipment for exports of fresh foods (such as fruits and vegetables).

Export taxes established by the budget laws are levied by the Customs Directorate or via licensed intermediaries.

Licensed intermediaries are responsible for withholding all taxes and fees established in the law and surrendering them to the monetary authority.

In Cameroon, a tax of 17.5% is levied on exports of lumber; the rate applicable to exports of semi-worked wood is 12.5%.

This information can be found at the AREAER ONLINE database: http://www.elibrary-areaer.imf.org/Pages/Reports.aspx.

There are no exchange restrictions on service-related transactions. Payments for such transactions are subject to the same requirements as the underlying commercial transactions.

All service-related expenditures must be declared, and amounts exceeding CFAF 5 million must also be domiciled with a resident licensed intermediary. Supporting documents must be provided, and amounts exceeding CFAF 100 million must be settled through licensed intermediaries. Licensed intermediaries must obtain a pro forma invoice or other supporting documents for payments for service-related expenditures under CFAF 10 million.

There are no restrictions on transfers of capital income outside the CEMAC in the form of profits, dividends, interest, royalties, etc. payable to nonresidents, provided the underlying transaction was authorized or is not subject to authorization. Supporting documents on the decision to distribute income (profits and dividends), the repayment schedule, and the debt security involved (loans contracted and granted) must be provided.

Indicative limits are established for OTC foreign exchange allocations to residents traveling outside the CEMAC. Indicative thresholds are set according to the type of travel (CFAF 10 million for business and CFAF 4–5 million for leisure, study, medical treatment, official travel). However, all substantiated requests must be granted, regardless of the amount. Licensed intermediaries must serve their customers’ foreign currency needs, to the extent that funds are available to them, and check supporting documentation, including, as applicable, a valid travel document and ticket, a mission order, a health evacuation authorization, or a certificate of registration at a school or university, and report to the appropriate authorities.

Indicative limits are established for OTC foreign exchange allocations to residents traveling outside the CEMAC. Indicative thresholds are set according to the type of travel (CFAF 10 million for business and CFAF 4–5 million for leisure, study, medical treatment, official mission). There are no restrictions on transfers by residents and nonresidents of income from wages, subject to a declaration for statistical purposes. On presentation of a pay slip, resident foreign wage earners may transfer a portion of their net remuneration, provided all transfer requests justified to cover family expenses will be satisfied. However, the amount should not exceed 75% of net wage.
### Prior Approval
- No.

### Quantitative Limits
- No.

### Indicative Limits/Bona Fide Test
- Yes. The use of credit cards is considered equivalent to a transfer and is not subject to specific regulations in the context of invisible transactions and current transfers. Residents may use credit cards within the CEMAC and abroad.

### Other Payments
- Yes. These are treated the same as trade-related payments.

### Prior Approval
- No.

### Quantitative Limits
- No.

### Indicative Limits/Bona Fide Test
- Yes. All service-related expenditures must be declared, and amounts exceeding CFAF 5 million must also be domiciled with a resident licensed intermediary. Supporting documents must be provided, and amounts exceeding CFAF 100 million must be settled through licensed intermediaries with stronger verifications. Licensed intermediaries must obtain a pro forma invoice or other supporting documents for payments for service-related expenditures under CFAF 100 million.

### References to Legal Instruments and Hyperlinks

### Proceeds from Invisible Transactions and Current Transfers

#### Repatriation Requirements
- Yes. Amounts owed by nonresidents for services and all income from foreign assets earned outside the CEMAC must be collected through a licensed bank within 30 days of the due date.

#### Surrender Requirements
- Yes.

#### Surrender to the Central Bank
- Yes. Amounts collected in foreign currency must be surrendered to the BEAC within 30 days of receipt.

#### Surrender to Authorized Dealers
- No.

#### Restrictions on Use of Funds
- No.

### References to Legal Instruments and Hyperlinks
This information can be found at the AREAER ONLINE database: [http://www.elibrary-areaer.imf.org/Pages/Reports.aspx](http://www.elibrary-areaer.imf.org/Pages/Reports.aspx).

### Capital Transactions

#### Controls on Capital Transactions
- Yes. The exchange regulations, including the section on capital flows within the CEMAC, do not apply to transactions between CEMAC member countries. There are no restrictions on most capital flows between CEMAC and non-CEMAC countries, provided they comply with the laws and regulations prohibiting drug financing and trafficking. Certain loans, direct investments, and the issuance, advertisement, and sale of foreign securities within the CEMAC are subject to administrative controls and require approval from the appropriate authorities. Controls on these transactions are applied indiscriminately to countries in the CFA franc area, other than CEMAC member countries, and all non-CFA franc area countries. Moreover, Article 61 of the General Regulations of the Central African Financial Market Supervisory Commission (COSUMAF), which went into effect January 15, 2009, specifies that “when a nonresident legal entity plans a public offering on the Central African regional financial market, it must prepare a disclosure document and submit it to COSUMAF for approval prior to dissemination. The prior approval of the exchange control authority in the various...
countries concerned must also be obtained.” The article also states that “the issuer must appoint a correspondent (securities dealer) established in a CEMAC member state, where it elects domicile. This correspondent must be responsible for: (1) receiving correspondence from COSUMAF and (2) forwarding to COSUMAF all documents and information required under the laws and regulations or requested by COSUMAF.”
