31. *Corporate Sector Restructuring: The Role of Government in Times of Crisis*. Mark R. Stone. 2002.
32. *Should Financial Sector Regulators Be Independent?* Marc Quintyn and Michael W. Taylor. 2004.

Marc Quintyn is a deputy division chief in the IMF's Monetary and Financial Systems Department. He has published widely in academic and professional journals and contributed to a number of books on monetary policy, financial systems, and European monetary and financial integration. Before joining the IMF, he was with the National Bank of Belgium (Research Department) and taught at the University of Limburg (Belgium). He has a Ph.D. from the University of Ghent (Belgium).

Michael W. Taylor is the Financial Sector Issue Representative in Indonesia of the IMF's Monetary and Financial Systems Department. He has published numerous articles on financial regulation in academic and professional journals and written and contributed to a number of books, including, in 2002, *Building Strong Banks* (which was co-edited with Charles Enoch and David Marston and published by the IMF). He previously worked at the Bank of England and has taught at several universities in the United Kingdom. He also edited the journal *Financial Regulator* and served as assistant editor of the *FT Financial Regulation Report*. He has a B.A. and a D.Phil. from Oxford University.
