1/ CPI is 1994-based from 1997, while 1988-based for previous years.

2/ Fund definition. Excludes privatization receipts of the National Government, and includes net deficit from restructuring the central bank.

3/ For the years prior to 1997, the data refer only to external debt. For 1997 and later, they refer to a broader measure, which includes additional banking sector foreign liabilities.

4/ As a percentage of goods and services.

5/ Gross reserves less gold and securities pledged as collateral against short-term liabilities.

6/ End year.
