

### **France: Selected Issues**

This Selected Issues paper for France was prepared by a staff team of the International Monetary Fund as background documentation for the periodic consultation with the member country. It is based on the information available at the time it was completed on **October 10, 2002**. The views expressed in this document are those of the staff team and do not necessarily reflect the views of the government of France or the Executive Board of the IMF.

The policy of publication of staff reports and other documents by the IMF allows for the deletion of market-sensitive information.

To assist the IMF in evaluating the publication policy, reader comments are invited and may be sent by e-mail to [Publicationpolicy@imf.org](mailto:Publicationpolicy@imf.org).

Copies of this report are available to the public from
