In statistical matter throughout this issue,

dots (. . .) indicate that data are not available;

a dash (—) indicates that the figure is zero or less than half the final digit shown, or that the item does not exist;

a single dot (.) indicates decimals;

a comma (,) separates thousands and millions;

“billion” means a thousand million, and “trillion” means a thousand billion;

a short dash (–) is used between years or months (for example, 1990–92 or January–October) to indicate a total of the years or months inclusive of the beginning and ending years or months;

a stroke (/) is used between years (for example, 1991/92) to indicate a fiscal year or a crop year;

a colon (:) is used between a year and the number indicating a quarter within that year (for example, 1992:2);

components of tables may not add to totals shown because of rounding.
